Texas, as a predicted near-re rord crop of 1,336,000,000 bushels gets under way. So great is the golden flood of grain stores, homes; schools and even front yards have been pressed into service as emergency graneries

SIGHTS, FACES

Have you heard about Jim and his wild oats? This is Jimmy Allred and he says he didn't. sow them, but he has the harvest to show for it just the same. According to him, the 25 and a half inch stalk of oats which he was waving around town grew on the railroad right of way. Well. it just goes to prove what Dr. Heard has long been saying about Deaf Smith soils.

Note to Mrs. John Hall: If your neighbors are already married then you don't need to worry; they won't be participating in the wedding this week at he Star. Note to other readers: Mrs. Hall read in the Sunday Brand that the couple who would be married might be your next door neighbor and since then she's been considerably worried. She says both her neighbors are married.

Mr. and Mrs. F. C. Eubanks sent back a novel note from their vacation in Canada to remind us that even when it's 97 here it's cooler in some lucky parts of the world. The letter was written on birch bark and traced the itinerary of their trip up the St. Lawrence River. Of course, when we got to the most interesting part in the let-ter, there was a knot hole in the paper so we'll never know what happened on the crossing between New Brunswick and Nova

THE HEREFORD COMMUNITY HOTEL CORPORATION

Hereford, Texas

Our board of directors feel that you should be acquainted with To Whom It May Concern: the progress made in the past few months in securing a larger and nicer hotel than was originally planned. At the present time we have assurance of adequate money on hand and RFC financing to construct a modern sixty-room hotel complete in every way except furnishings and fixtures.

We would like to invite your attention to the hotel location during this week. The structural steel is now in the process of being erected and by the end of this week it will be towering well above Hereford's skyline. All materials are now on hand to completely construct a hotel for accupancy around the first of the year. To you five hundred and thirty-eight stockholders who had enough faith in the town and vision for the future to make the sacrifice of putting your money into this project should make all of the citizens of this area be forever grateful to you. To those that did not share your views in the future of our community let us all hope that they will see fit to help in the furnishing of this fine community

Your board of directors have been successful in leasing the hotel to a major hotel operating company. They have been investigated thoroughly and we believe they will be very successful in Hereford. They are much more optimistic about the financial success of this project than we ever dared to be. They own The Westward Ho in Phoenix, two in Houston, two in Dallas and operate a chain throughout the Southwest. We feel they will be a major factor in

All of you know our leading man in securing this hotel has been the success of our hotel. selected to have this monument named in his honor. Mr. Jim Hill represents to your board what we feel every substantial citizen should represent to his community. With this type of thinking your board has done all within its power to make your investment in your town and this project as sound financially as it was possible to do. Within the next six months you will see a completed structure, which in our mind represents a great community effort that will do a lot to build Hereford into the type of community that you would like it to be.

Your board of directors would like to take this means to thank all of you for your generous efforts, financing and your tolerance with us while this was being worked to completeion.

Here's RESERVE POWER.. MASSEY-HARRIS HUSKY . . . HEAVY DUTY 4-5 PLOW POWER.

Mighty monarch of the Massy-Harris line, the new "55" is waiting for a chance at your heaviest farm jobs. Four-cylinder, vertical type engine has a 4½ inch bore, 6-inch stroke, displaces 382 cubic inches. It's a bear for work . . . takes 4-5 plow jobs in stride with reserve power ready when you need it. Yet, big brute that it is, the "55" handles easily, has all the convenience features ordinarily found only on smaller tractors; and maintenance costs are surprisingly low.

Equipped with "VELVET-RIDE" SEAT

The new Massey-Harris "55" is regularly equipped with the shock-absorbing "Velvet-Ride" seat. It takes the jars and jolts out of tractor riding . . . eliminates "tractor back"—those sharp pains and aches you've suffered after long hours on a conventional tractor seat. For tractor riding "smooth as velvet" make it a Massey-Harris!

Everybody's talking about the famous Hum-boldt Stalk Cutter, which does such a wonder-ful job of chopping up and shredding corn, cotton, maize and other stalks. At the same time spreading them evenly in the field, all ready for REALLY PLOWING THEM UNDER, the kind of plowing which—

BUILDS UP SOIL through nitrogen and other soil nourishment in stalk remnants.

HELPS CONTROL CORN BORER. BOLL WEEVIL. etc.—by enabling a thorough, clean job of plowing, thereby stopping reinfestation. Investigate The HUMBOLDT CUTTER

Tractor-driven and power-takeoff-driven. Double blades (4 knives each) whirl 1,000 R P.M., cut and mangle stalks into small bits. Blades supplied either with straight edge cutting knives or swinging hammers. Adjustable cutting height. GUARANTEED, AGAINST FAULTY WORKMANSHIP AND MATERIAL.

50 Car Caravan

From the elevator the group piled into a waiting caravan of almost 50 automobiles and led by the state highway patrol whizzed down Main Street and out Highway 51 to Colby Conkwright's ranch where cowboys had-rounded up a herd of Herefords and set about roping, branding, and dehorning the

Lord Francis Scott, tall, dignified member of the Scottish nobility and a delegate from Kenya, was interested but not impressed. On his own ranch he had many of the same problems with his herd of Ayrshires, except they also have to dip their cattle weekly to prevent spread of the dread English tick.

Instead of cowboys, Lord Scott used "blacks," as he termed them, and instead of horses, the blacks did their work all on foot Lord Scott, whose left knee was gnarled from a World War I'injury, admitted that absentmindnesses, too, was a human failing not limited to Americans.

aristocratic rancher crawled in Sam Nunnally's car for the trip from Conkwright's to Hill's farm. He lumbered out of the back seat, pulling at his jacket and searching through his pockets.

Lost Specs

"It's my spectacles," he said "I've the case, but no glasses. Dashedly wicked thing to have happen." All the car's passengers immediately joined in the search. "And it's the second pair, I've lost in two days," he fumed. His companions, Mr. and Mrs.

Colville, who operate a 250,000 acre Brahman ranch in Kenya agreed, "Francis, this is a maddening thing to have happen, simply maddening," said Mrs.

"Well, let it go, can't be helped," and the Lord resigning him self to the inevitable, muttered, "Damn" under his breath and said no more about the affair. At Jim Hill's, the caravan stopped to watch the process of a mechanized harvest. Dr. H. N. Frietema, director of the National Co-operatives of the Netherlands stopped snapping pictures long enough to declare, "It tion impractical. so. It amazes us." Dr. Swenson will be even more amazed later this week. When he started out on the 75 mile trip through the Panhandle he wore his small, green felt beret, but in the Texas heat he surrendered his hat. When the tour was over and he was collecting his belongings, the beret was not around, apparently it had been blown out of the car by the notorious Panhandle winds.

However, his hostess, Mrs. J. Pitman and her daughter, Helen, have sent him a real Texas Stetson, to replace the beret and to remind him of his visit.

One of the most delighted delegates was G. R. Nugent, an official of the National Farmers Union in England who had his picture made in the wheat field with a combine because he "wants to use the picture in his campaign as a candidate for the English Parliament."

After leaving Hill's farm the caravan drove to the Rafter O ranch, then wound through the dusty trail down to Mitchell Canyon where a welcoming committee of Amarillo delegates and a John Snider barbecue waited on the crowd.

Appetites are international and as the group lined up chuck wagon style for menus served western style they exchanged farming experiences, talked hay baling, wheat planting, dairy prices and labor troubles.

Short and fat little Mr. Hogsbror-Holm the Secretary General of the Danish Co-operatives, was commenting on the heat. "When it gets to 80 in my country, we all close the schools and the stores and take a holiday. And what did you say it was here? 97!" He mopped his fore-

After dinner, the men moved benches away from sagebrush and mesquite to sit under the cottonwoods and hear Johnny Linn, Lawson Steven, foreman of the 42 section Rafter-O, and others tell jokes about Texas and to talk about their countries.

They said their good byes at the station, the Panhandle people and their new-found friends from across the border, across the water, from half way around the world.

Lord Francis Scott, to his relief, discovered he'd taken his glasses case, but left his glasses on the train; Dr. Frietma pocketed a bracelet someone had given him to take to his 15 year old daughter as a souvenier from

Texas; John Jacobsen; a native of Denmark had played special host to the Danish members, Mr. Hannam, and Mr. and Mrs. Raymond Ogg (he is director of the International department of the American Farm Bureau) paid their courteous farewells, promised to return to Texas, and invited their hosts to participate in the next international tour scheduled for Sweden in 1950.

Mr. Owada, the Japenese delegate had left the hotel for a walk, and by the time he reach-'ed the train station, the special train had left. PLAN ATLAS OF THE SKY-Dr. Edwin P. Hubble, wellknown U. S. astronomer, puts the unique 48-inch Schmidt photographic telescope through its final series of rehearsals at Mt. Palomar, Calif., preparatory to a four-year astronomical mapping, project. The survey will provide the first definitive photo atlas of the heavens. The Schmidt telescope, which covers a wide area, will operate in conjunction with the famed 200-inch Hale instrument. It would take the 200-inch telescope 5000 years to cover the same ground. Scientists expect to be kept busy for 50 years or more examining the results of the Schmidt survey.

Frio HD Club Meets In Owen Andrews Home

Mrs. Owen Andrews was hostess for the Frio Home Demonstration Club last Thursday. In charge of recreation was

Mrs. Dayton Chisholm who conducted a quiz program and led in singing the club song, "Song of the Open Country." After drawing for the penny

gift, which was won by Mrs Henry Dobbs, plans were made for the exhibit to be held at the Council meeting Saturday. Mrs. W. A. Springer gave the

demonstration on the proper way of cooking a roast, and Mrs. Dayton Chisholm demonstrated the proper way to set a table and the way to order a meal when eating out.

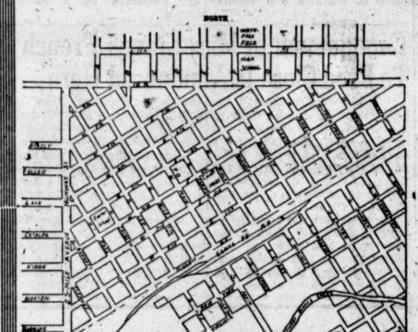

Those attending the meeting were Mesdames C. N. McClure, W. A. Springer, Jock Johnson, Frank Robbins, H. F. Benson, W. H. Andrews, E. B. Berryman, Dayton Chisholm, T. L. Sparkman, Sr., Henry Dobbs, Alma Andrews and the hostess. Visitors were Mrs. Elmer Jones and daughters Patsy and Marilyn of Hereford, Betty Robbins, Veradelle and Francis Andrews. Janet and Donnie Chisholm, Delores Ann and Jackie Andrews and Janelle Benson.

Next meeting will be held on July 28 at the home of Mrs. Dayton Chisholm.

Doyle Rose and his captive were big news in this issue of the Brand. Here's the story: Doyle Rose arrived home Wednesday from Abilene, where he captured a large frog, had him mounted and brought the monster home, putting him on display at the Service Garage. He measured sixteen inches long; the chest measurement is 12 inches, hind legs '11 inches, length of body 7 inches, depth of croak six whole notes below the base cleff. Mr. Womble said the only way he could account for so large a frog is that practically all the breweries had gone out of business and there is such a small demand for hops."

Kenneth Brock pitched seven innings of good baseball but received very little support as he allowed eight runs. Bill Engman relieved him in the seventh with one down and the bases loaded. Engman retired the side when he caught a pop fly and doubled the runner on third. Engman struck out three straight in the eighth.

Pitching was the only bright spot of the game, however, as Portales took a lead in the third with three runs and were never neaded.

Change to OIL-PLATING!

Better Coverage!

... An extra shield of lubri-cant is fastened to the working parts of your engine when you OIL-PLATE with Conoco New Motor Oil. That means unfailing protection from wear -smooth car performance.

Safety! ... OIL-PLATING clings to your engine somewhat like grease clings to a "seasoned" skillet. It can't all drain down, not even overhight. That means safe starting—no dry-friction" destruction when you ress the starter.

Security! . . . There's another additive in Conoco Nah, too! It fights combustion acids—combats carbon and sludge. Conoco Nah is thorough in protecting cars!

Bank the Difference! . . . An Ott-Plated engine means fewer repair bills. You need fewer quarts between drains. Your engine keeps its new-car power longer. Save and be safe—with Conoco Nan Motor Oil.

REASONS RAUSE Gives You

MORE PLOWING WITH LESS POWER

Superior Krause design and engineering give you all these features - and more. They bring you strength where it counts . . . a minimum of friction . . . overall lightness All in all, it adds up to more plowing with less power.

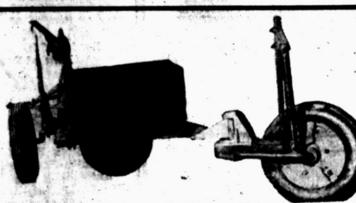

What does this mean to you? It may mean plowing in fourth gear instead of third. It may mean plowing with a smaller tractor. It definitely means covering more acres in a day's time.

All this, of course, means getting your ground prepared more quickly and easily . . . means a real saving in time and plowing costs. And when the final "totaling up" time comes around, it means a greater net profit.

G. P. Swivel Attachment

Krause One-Way Plows SOMETHING NEW! SENSATIONAL

- 1. Swivels so plows will turn corners without sliding wheels. When turn is completed the wheel will come back to normal plowing position.
- 2. Eliminates tractor sliding when turning corners. Tractor will normally speed up instead of pulling down.
- 3. Eliminates changing rear wheel casting for roading. The swivel automatically takes care of htis.
- 5. Can be locked in any position to take care of special plowing conditions.
- Heavily constructed. Should give years of trouble free service. Weight approximately 70 pounds.
- 7. Sets the rear wheel back approximately Ten inches.
 This, plus the 70 pounds additional weight gives the wheel added traction to take care of side draft. 8. Easy to install. Can be put on your plow in fifteen minutes. Bolts on with four bolts.
- 9. Fits any size Krause pull-type plow.
- 10. Guaranteed against defective material or workmanship for a period of 90 days.
