Reserved seat tickets for the homegames at Whiteface Football Stadium will go on sale Friday and Saturday afternoon down town, but anyone who had a seat last year which they wish to keep again this season can take advantage of their priority by picking up those reserved seat tickets this afternoon (Thursday) at the superintendent's office at the High School

Those priorities will last only through today. The office will be open from 2 to 5:30. Tomorrow the seats go on sale to the public at a stand in front of J. C. Penny and Company, from 2

Don Martin, high school principal, says the tickets will be \$2.50 between the 40 yard lines and \$2 between the 30 and 40 yard lines.

"After Saturday, anyone who wishes tickets may pick them the high school," said

There's even more to the freckles story: Dr. Millard Nobles was contacted and asked why people lost their freckles as they grew older. He thought it over and decided that he had never really heard a scientific explanation. But curiosity got the best of him, too, and he began to wonder what the reason was. He offered to look it up. Several hours and several medical books later he called the Brand and reported. The books didn't say: we still don't know. Dr. Nobles doesn't know either.

Well, Deaf Smith, famous for no-toothaches, coffee drinking, wheat crops, rainfall and health has now almost attained the pinnacle of success. Deaf Smith is also a hair restoring area. " This is an authentic story, vouched for by such conservatives as Francis Hardwick and Jim Gillentine. It seems that when J. R. Gravitt moved to Deaf Smith from Oklahoma last March he was almost completely bald. Now, after six months of vitamin-packed foods. water and milk, Gravitt is actually cultivating a head of hair. We don't ask you to believe it; we ask you to go and look. This is no Chamber of Commerce brag. In fact, as anyone can plainly tell from looking at Pete Cowart, he doesn't even believe it can happen. Oh well, bald heads, are after all, the only true high brows.

The Home Department Editor of the Progressive Farmer, Miss Sallie Hill, who received some Hereford onions not long ago, sent us a letter of appreciation in which she says, "Those onions were beautiful. MAYOR TAKES UNEXPECTED DIP-Orange's 250-pound mayor, Ray mond Sanders, manages a grin as he emerges fully clad and dripping wet from the city's new municipal swimming pool after falling off a diving board during formal opening ceremonies. The mayor decided that it would be appropriate for Fred Hanscom, who initiated the campaign for the pool system seven years ago, to have the first swim and pushed Hanscom into the pool. But in so doing he lost his balance and plunged in himself, much to the amusement of the crowd. (AP Photo)

DEAR DAIRY:

So far as I am concerned this year is all over. I have had my vacation! Am undergoing rather strenuous quizzing as to how many fish got away-and how big. None of the big ones got away on account I didn't hook any big ones. The big ones are always in another stream-or lake-or state-or else. I'm too early or too late and they're just not biting. But we caught some trout, had a lot of fun, and almost feel like working a little bit.

Most all of these itemscan be purchased at one place oranother, but only at Streu's will you find such a complete stock of plain old hardware.

The battle for the consumer dollar is growing more intense-as various firms fight for more business-or to retain their old customers, there is a tendency to make exaggerated claims-to stretch the truth, perhaps-or to maybe even lie a little bit. To the consumer we would suggest that close attention be paid to all advertising-to all items purchased - and especially to big claims made by some out of town salesmen.

KLEAN - WELL PRESS WHEELS

Klean - Well Press Wheels are hitched in balanced pairs, keeping the Klean-Well wheels upright and evenly spaced. They FOLLOW THE DISC FURROWS in contrast to the singly hitched flat iron wheels. The specially designed, semi-pneumatic cushion type tire

fits the furrow contour better, assuring uniform soil pressure over the seed. This produces earlier germination and sturdier plants.

Urges Cleanliness As Result Of Two

"There is no substitute for cleanliness in combating such ney buggles other scourges," health authorities reminded the public this week as two fatal cases of dysentery were reported from the \$35 to \$6.88. Hereford Labor Camp.

Public health nurse Mrs. Mildred. Mingus said two children had died from the disease, one fast Sunday and one on Thursday, and two other babies whose death was reported recently had symptoms of the disease.

"We have several cases in the camp, also. It is not limited to children; it is prevalent among abies, young children and adults as well," she remarked.

Mrs. Mingus said there were valvous types of dysentery, some were contagious and some were

"Tracing the exact causes of dysentery is difficult, of course, but it can probably be attributed to malnutrition, flies, and lack of proper health safeguards," she said. "It is quite a problem here, and cleanliness is the most effective combatant."

Mrs. Jim Whelan and young on, Mike, left Hereford Friday by train. for Aberdeen, Miss., where they will attend the wedding, of Mrs. Whelan's niece. Mrs. Whelan is a former resident of Aberdeen and while she is there on her three week trip she will be the houseguest of her sister, Mrs. Elmer Stockton and her brother, J. A. Couch.

Dickie Fellers is in New Mexico this summer visiting with Mr. and Mrs. W. R. Scheihagen, Jr. Mr. Scheinagen is Dickie's uncle.

Jim Lipscomb smiled to remember that he only went once legally, his mother holding to the tradition that nice little boys didn't go to the movies in those days. His father only let him go once. Jim says he doesn't remember the movie or the characters or anything else, but he's sure it must have been a Bible story. Other times he had to slip

People had to laugh twice as hard and cry twice as hard at everything that happened back in those days because there weren't any short subjects and people had to avail themselves of the complete entertainment benefits of every full length feature as it flickered and wheezed across the screen.

COMBINING IN ONE MACHINE... An automatic Land Leveler, Field Plane, Hydraulic Scraper and Seed Bed Finisher

A sensational new machine with the famous Eversman crank axle for automatic leveling action. It has a two way, finger tip, hydraulic control of blade for field plane-ing and dirt moving jobs. Gives greater length, lower draft, superior maneuverability, greater utility. Now available in two models...the 289 for wheel tractors and the 489 for track type tractors.

Important Features ...

1. Short turning radius resulting from exclusive hinged tail section. 2. Engineered for speed with low power and operating costs. 3. Absolute rigidity due to new everhead

Here is a new combination machine that does a superior job of leveling and plane-ing fields, dirt moving and seed bed preparation. Get full details today.

These Are Facts Expressed By Successful Hereford Area Irrigation Farmers. . . . About their

Among the outstandingly successful farmers who have moved to this great section from Oklahoma since 1940 are Mr. Earl Cole and his son, Floyd, of the Frio community. Mr. Cole feels kindly toward their Eversman leveler, and states:

"We have found our Eversman leveler to be valuable as a dirt moving machine for eliminating low spots, filling dead furrows and lowering the high places which result from plowing along the turn row. Before planting any crop we always prepare our ground for seeding and irrigation with our Eversman in Automatic Leveling Position. We awn two Eversman Model 12's and feel that every irrigation farm operator should own one.

J. E. Srengel, of the Summerfield community, states:

"We have found our Eversman Automatic Leveler to be an essential machine in the preparation of seed beds for planting of potato, sugar beet, maize, wheat, and legume crops. We would not be without one."

Mr. Stengel and his sons moved to Summerfield in 1946 and have an outstanding record of accomplishment, being pioneers in the raising of sugar beets, Austrian peas, and some varieties of

Fred S. Barrett and Sons, northwest of Hereford, say:

"The automatic feature of the Eversman land leveler surpasses anything we have seen in a leveler. Though it is not always possible to judge with the eye where all the high and low places are, the Eversman Automatic leveler takes the guess work out of cutting down the high places and filling in the low ones. This makes for easier irrigating, saving time, labor, and water. We own two Model 12 Eversman's and feel that they are worth their cost each year."

Mr. Barrett and his sons came from Idaho in 1941 and were among the first to grow potatoes extensively in this area.

Mr. Raymond Paetzold, in the Wyche area, who with his father, John J. Paetzold and brothers George and Edward have one of the most enviable family farming records in the Hereford territory,

"We might add that the Paetzold farming operation includes all because it has some improved features over our 12 year old Eversman automatic leveler which it replaces. There is no other machine on our farm which has given so much service with so little maintenance cost as our old Model 12 Eversman. We would not set a price on our old machine if it could not be replaced."

We might add that the Paetzold farming operation includes all types of crops and the best of farming practices.

LOCAL SCHOOL BOARD According to Thursday's Brand ereford public schools would \$200,000 if the school board rmitted parochial school chilen on the school bus

I am just wondering how uch money the public schools Hereford would lose if they st all the school tax money aid to them by the tax payers ho build, sponsor and mainakn the parochial school of Mereford?

The heads of our parochial hool were in the process of wilding a school for our Latinmerican school children of Hereford, but this bus riding deion has changed their frame which they have considerable money accumulated has been stopped. Perhaps the Hereford ublic schools now will provide chooling facilities for these Mexican children, because they must go to school. There are considerable of these Mexican people here as we bring them in to harvest some of the principal commedities which build our town and community." And tcb, these people are not very

heavy tax payers, but they must Thave schooling just the same. Transportation of parochial chool papils at public expense s allowed in nineteen states. nd in twenty-nine states where laws or constitutions prevent the use of state and local funds for parochial schools, the money is paid directly to these schools by the Federal government. For the year that ended in June, a total of well over \$2,000,000 was disbursed to parochial or private hools in this way. In addition, uch schools in the nineteen other states shared in the federal money distributed through the State departments, of educa-
