Statement of Congressman Ben Gull on the President's message quote: "I shall support the President because it is evident that we are faced with a more extensive war than we have been led to believe. I hope we can avoid price controls but if we must have them I am in favor of placing them simultaneously all the way down the line..."

HIGHWAY CELEBRATION PLANNERS—The top picture shows the Hereford delegation that went to Broadview Sunday to meet with New Mexico planners for the big Harrison Highway opening. From left to right they are: Verne Hilton, Roy Oswald, Pete Cowart, Don Zimmerman, Reed Williams, Paul Harvey and Clarence Morrison. The lower pictures were taken at the G. W. Messenger store where the meeting was held. Broadview, Bellview, Rosedale, Hollene and Grady, N.M., were represented. Some of those included in the pictures include G. W. Deluge Damages Homes, Streets And Hail Hurts Some Row Crops

Rain, 5.3 inches of it, poured on Hereford Monday night, leaving reminders in the forms of washed out pavement, water soaked homes and knocked out utilities. A narrow section of about three short blocks of pavement on Grand Avenue and some sections in alleys in that vicinity crumpled or sank, leaving a ditch two or more feet deep. City employees had started work filling in the ditches Wednesday.

Repairs will continue as fast as conditions will allow, according to the mayor. He said they will also work on the sewer lines in such a manner that the water could never undermine sections as it did Monday night, again. He said he does not feel the paving contractor is at fault. In fact, the same contractor may be recalled to blacktop the damaged portions.

Floors of several homes in the Lake Park area were under water Tuesday morning. No estimates of damage were available. Contrary to rumors, the drainage facilities at the park did not stop up, according to the Mayor. There was just so much water that the storm sewer was not big enough to carry it off fast enough. The park drained in just a little over 24 hours.

reported less than a dozen homes were without lights from the storm. C. D. Hardesty, manager, said they were very fortunate and didn't get nearly the damage they expected. He said not a single thing burned, and the few houses that were darkened were from knocked out transformer fuses. They did have more trouble in the rural areas, however.

RELA Line, Foreman Emerson Roland said they had a good bit of trouble but all lines were in operation when they quit Tuesday night after starting at 3 a.m. that morning. He didn't know the full extent of damage Wednesday, but did know 12 cross-arms and four transformers would be included in the final tally. Mud and bad roads hindered their work considerably.

Francisco Layton was sleeping on boards in the rafters of Jones and Peters potato shed when lightning struck the roof about four feet over his head, knocking a hole out big enough for a man to climb through. The comical part of this was that Francisco moved the boards he was sleeping on so he wouldn't get wet, and dozed right off again.

wet, muddy fields. If rain holds off, digging will probably be resumed by the end of the week or the first of next week.

Actually Southwestern Public Service's most aggravating accident of the night was when one of their trucks dropped into a hole in the pavement at the intersection of Union and Avenue K and the back wheels sank to the axle.

Although the rain apparently centered on and near Hereford, most of the county received some

moisture. Leo Gallagher reported two inches or more rain and Ezra Norton's place had four inches. Gallagher also had two calves and a big cow killed when lightning struck a fence. They both live in the Simms Community north-west of Hereford.

Two reports of near tragedy were made. Bill Stewart was standing on a precooling service truck at Hereford Potato Growers when lightning struck. He was knocked off the truck and stunned. However, he was not injured. Francisco Layton was sleeping on boards in the rafters of Jones and Peters potato shed when lightning struck the roof about four feet over his head, knocking a hole out big enough for a man to climb through.

Question OF THE Week

What type of movie do you most enjoy seeing?
Jonnie Estes: I like technicolor movies: ones of pictures of nature and beautiful scenery.
Paul Harvey: Good cowboy shows.
Mrs. Charles Dye: I like a good comedy—one that isn't silly, or a good dramatic story.
Donita Davidson: I like something comical and something that keeps your interest all through the show. Sometimes I like something quite and simple, but most of the time I like a comedy.
Bert Castle: Cowboy shows and comedies.
Francis Hardwick: I like a family type picture, like the picture, "Father of the Bride." I like a picture you can relax in.
Mrs. Malcolm Cassels: I like a good, clean show—a good family picture.
Kenneth Coker: I believe that I prefer a well acted, well directed, murder mystery; and second, I like a good sports story I don't care for musicals or westerns.

Democrats Go To Polls; Close Election On Tap

Dear Smith County voters will go to the polls for the fourth time in 1950, Saturday. This time to vote in the Democratic Primary election.

All four county commissioner races are contested. Incumbents battle challengers in two of the four precincts and present commissioners in precinct one and four are not running for re-election.

The only other contested county office is that of County Judge and Ex-Officio County superintendent. L. H. Foster is running for re-election against Ezra Norton.

When Gene Worley was elected to Congress in 1940, Mrs. Clark remained as his Executive Secretary. During the year Mr. Worley was in service, as well as during his several extended trips abroad on official business, Alta-vene Clark was in reality this district's Congresswoman.

She became well acquainted with the complex legislative and administrative procedures. A CLOSE MISS—Francisco Layton looks up at the holes in the roof of the Jones and Peters potato shed where lightning struck Monday night. Francisco was sleeping right where he is seated in the picture when the bolt hit. It woke him up, but didn't bother him much. He just moved out of the way because of the rain coming through the hole and went back to sleep.

PETE LAMASTER
 Pete LaMaster, Ochiltree county's candidate for U. S. Congressman, was the subject of a feature in a recent Sunday Dallas News. Clint Pace, News staff writer, had several nice things

DUCKS LIKE THIS WEATHER—Maybe there isn't another creature in Deaf Smith County that liked the aftermath of Monday night's downpour, but you can be sure here's six who took to it just like that's right—"a duck takes to water."

to say about the candidate, who is one of a field of four seeking the Democratic nomination in the July 22 Democratic Primary.

"A few days ago," says Pace, "when Communist troops marched into Southern Korea, Pete LaMaster put in a telephone call to David Rascoe, state editor of the Amarillo Globe-News."

"I want to tell you," said LaMaster, "how I feel about the Korean situation and what I think we should do about it. I think all four of the candidates who are asking Democratic nomination to Congress should make their feelings on this subject known."

"LaMaster said the United States should intervene. By volunteering his own opinion, he flushed the other three candidates, causing one of them to mumble incoherently about not having had a chance to study the situation. He had called before the President announced he had ordered the fleet and Air Force to load up, and therefore, before it became popular to say it was time to draw the line against Joe Stalin."

"It showed many people that LeRoy LaMaster, who is called 'Pete,' had done some thinking of his own."

The Dallas News article devoted quite a bit of space to Pete's background and gave his campaign platform, which includes government economy, fair labor laws with teeth through which they can be enforced, opposition to socialism, FEPC, civil rights "or any other legis-

tion which would take away more of our individual rights."

WALTER ROGERS
 Walter Rogers believes a balanced economy must depend upon private competitive enterprise, free of Government control except for adjustments of wrongs brought about by bad faith.

Married and the father of six children, Rogers was born in Arkansas and raised near McKinney in Collin County, Texas. He attended the McKinney schools, graduating in 1926 from high school. He attended Austin College in Sherman and received his law degree from the University of Texas.

In 1937 he opened his own law office in Pampa which he has maintained ever since with the exception of four years he spent as district attorney of the 13th Judicial District.

He served as City Attorney at Pampa, also.

Rogers is licensed to practice before the United States Supreme Court, the Circuit Court of Appeals at New Orleans, Federal District Court at Amarillo and the Criminal Court of Appeals of Texas in addition to all the county courts in the state of Texas.

At present he is a member of

the grievance committee of the State Bar of Texas for the 18th Congressional District.

Rogers believes rights of Veterans to purchase land under Veterans' bill should be immediately stream-lined, completely freed of red tape and all political favoritism should be abolished.

He believes that drastic reductions in government costs, abolition of overlapping bureaus, cleaning out of over-stuffed departments, streamlining red tape, demands full and fair day's work on the part of every government employee, and equates to the taxpayers as they go along.

He advocates proper preparedness and defense of this country first; do the cutting where it will not weaken the strength of the nation. He believes income taxes are too high, that the proper economy can bring about reductions.

Summed up, Rogers believes in our American way of life, is for efficiency and economy in government, and pledges the people of this district to work for these ideals.

J. BLAKE TIMMONS
 J. Blake Timmons advocates

repeal of the Taft-Hartley Act, and takes a staunch stand against socialized medicine and endorsed full parity farm price supports.

He says he would advocate substitution of a labor control act "similar to the Timmons Bill" which he submitted to the Texas Legislature, emphasizing the interest of the general public in labor peace.

**Return From Trip West
Along Pacific Coast**

Returning Tuesday night, July 11 from a 19-day trip of western and northwestern United States were Mr. and Mrs. W. C. Hromas.

They went from here to Los Angeles by way of Boulder Dam and the Grand Canyon. After staying two days in San Francisco, they went on to Portland, Oregon; Seattle, Washington and Vancouver, Canada.

Coming back down they were on the Columbia River highway. They came through Idaho and Utah. In Salt Lake City they saw the Mormon Temple.

While coming through the states of Oregon and Washington they left Hereford literature during the entire trip they went through four state capitals. They were Salem, Oregon; Olympia, Washington; Boise, Idaho; and Salt Lake City, Utah.

FATALIST—Francisco Layton, laborer at Jones and Peters Potato Shed apparently subscribes to the theory "lightning never strikes twice in the same place." After a bolt struck within five feet of where he was sleeping, Francisco moved out of the rain and continued the process of getting his night's rest.

**Uncertain Crop Prospects
Start Experts Guessing**

The production of cash and feed crops in Texas cannot be accurately predicted at this time, however, prospects are not highly favorable, according to information from the County Agent's office this week. Dry weather in the very early spring handicapped farming operations and through late April, May and early June heavy rains retarded crop plantings in many sections.

Crop damage from hailstorms and insects has been heavy in many sections of the state and unusually heavy rains in some areas have caused delays and costly replanting of cotton and grain sorghums, as well as other crops.

It pointed out that the acreages of the major crops are materially reduced by allotments on individual farms. The crops affected are wheat, rice, peanuts and cotton. For comparison, the 1949 harvested acreage and

the 1950 allotted acreages for the four crops. Wheat — 7,093,000 acres and 6,096,000 acres (only 2,743,000 acres are expected to be harvested in 1950); rice — 526,000 acres and 452,000 acres; peanuts — 572,000 acres and 499,800 acres and cotton — 10,296,000 acres and 8,057,000 acres.

The reduced acreages coupled with poor yield prospects at this time and with the prices of most crops somewhat lower than a year ago indicate, that Texas farmers can hardly expect the returns they enjoyed in 1949, according to College Station experts.

On the other hand, production costs are remaining high. This means that farmers must trim expenditures wherever possible if present living standards are to be maintained. Plans should be made now to utilize crops efficiently and this includes wise marketing. When possible, grain

and feed crops should be marketed through livestock because the price outlook for livestock and livestock products is relatively favorable.

Generally pastures and supplementary grazing crops look promising. Along with these some what larger acreages of grain sorghum and corn have been planted and this extra grain and forage might be used for feeding out more livestock. This extra income will take up some of the "slack" but adjustments will need to be made to keep feed crops and livestock in balance over the long pull.

The report concludes that good planning and close figuring may keep Texas farmers on the black side of the ledger this year but the need for sound farming and business-like management is increasing by the hour. Now is the time to really study the farm business and work out definite plans for increasing the income and reducing production costs in the overall operations of the farm.

would like to point out a few of the sacrifices which Mr. Norton has made from time to time in behalf of Deaf Smith County.

1. He has been a tireless worker for GOOD ROADS, and has contributed his time without pay or complaint—because he knew what good roads can mean to the people.
2. During World War II, Ezra Norton gave practically all of his time to conducting the Ration Board in this county. A thankless job which no one wanted, but one which he accepted and filled efficiently and without favor to anyone.
3. A veteran of County School Board, Mr. Norton has served as a member and as Chairman for many years. In addition to being well acquainted with School problems, he has always been fair and impartial—working at all times for best interests of the entire territory.

These are only three of the numerous jobs he has done for the community—there are many more.

We believe any job entrusted to EZRA NORTON will be fulfilled to the best of his ability. In an honest manner, and in accordance with the law. For this reason we ask you to carefully consider

Vega Stays In Tie For Lead With 8-3 Win Over Nazareth

Vega held on to their half of the Central Plains league leadership Sunday afternoon, while Hereford was beating Canyon, by defeating Nazareth 8 to 3.

Nazareth took a three run lead in the first, but Vega tied it up with three in the fourth and went ahead with three more in the sixth. The final two runs came in the seventh.

Vigo Park upset Tulla by the overwhelming score of 18 - 7. Tulla started out strong and had a five run lead at the end of the second. But Vigo Park unloaded seven runs in the third and continued with more runs in every inning except the fifth to pile up their 11 run margin.

Umbarger won the closest game of the day when they beat Hart, 5-4. The game went 11 innings before they broke the 4-4 tie to win. Dennis Bryant got credit for the win. He had seven strikeouts and only gave nine hits during the entire game.

SUNDAY'S SCORES

TRAPPED FARMER—Buried neck-deep in dirt by a well cave-in, farmer Henry Randall of Elkhart, Ind., was saved from smothering to death by quick-witted rescuers who slipped a bottomless ashcan over his head to prevent sifting soil from completely covering him up. A tractor and slip-scraper freed Randall before he was forced to use a garden hose as a breathing tube.

Adrian News

By Mrs. E. H. Mosteller
Brand Correspondent

In spite of the rainy weather Tuesday and Wednesday several of the ladies of the Adrian community attended buffet dinners in the home of Mrs. Will Chilton with Mrs. Ted Bones, and Mrs. Annie Vickrey as co-hostesses. These women are all of Amarillo.

These three ladies are members of the faculty of Adrian school and have been for four years.

Those who accepted invitations Tuesday evening were Mesdames: P. H. Grubkey, Ralph Perry, Lorin Creitz, N. L. Jacobson, E. N. Jacobson, B. E. Witt, J. E. Young, Nannie Fortenberry and E. H. Mosteller. This group drove home in the rain.

The ladies who came Wednesday evening were Mesdames: Weldon G. Reno, E. B. Pounds, F. M. Brown, R. E. Caldwell and R. M. Grubkey. These ladies made the trip to Amarillo in the rain but had a beautiful night for the return trip. There were several ladies both nights who were unable to attend for various reasons.

Those who did go enjoyed the affairs immensely and are looking forward to having Mrs. Chilton, Mrs. Bones and Mrs. Vickrey back at the beginning of school.

Recent guests in the T. H. Slocum home were Mr. Slocum's mother, Mr. and Mrs. Tom Melcote of Syracuse, New York, an aunt and uncle, Mr. and Mrs. John Adams of Palmyra, New York and a grandson of the Adams, Micheal Adams of Owego, New York.

Their visit was cut short by being called back to their work because of the war scare.

Mr. and Mrs. V. E. Lemke have returned from a vacation at

Troutdale Resort Hotel near Evergreen, Colo. Mr. Lemke reached his quota of sales for the Republic National Life Insurance Company which entitled him and Mrs. Lemke to attend a company convention with all expenses paid.

Besides enjoying the different forms of entertainment furnished by the company, they visited Denver, went up on Look Out Mountain, saw Buffalo Bill's grave and took several scenic drives.

Rev. J. E. Young returned Thursday from Dallas where he had been attending a five weeks' special course for supply pastors. This course was taught at S.M.U. Rev. J. C. Arnold, a former pastor of Adrian Methodist Church, also attended the five weeks' training.

Mrs. Young and Mr. and Mrs. Lorin Creitz met Rev. Young in Amarillo on his return trip. While there they visited for a while with Rev. and Mrs. J. C. Arnold.

Friends of Mrs. Will Chilton are happy to learn that she has bought a home in Adrian and will be a permanent resident instead of being here only five days a week for nine months of the year. Mr. Chilton will continue to hold a position in Amarillo. They have purchased the house owned by F. M. Brown.

Mr. and Mrs. Lorin Creitz and children visited relatives in Wellington Sunday, July 9. They visited an aunt and uncle, Mr. and Mrs. W. E. Brewster, and cousins, Mr. and Mrs. Billy Brewster and Mr. and Mrs. Wayne Reynolds. These are all Mrs. Creitz' relatives.

Also guests in the Lorin Creitz home Saturday, July 8 were more relatives of Mrs. Creitz, Mr. and Mrs. L. E. Eubanks of Ennis and Mr. and Mrs. H. H. Payne and son, Billy of Lubbock.

Mrs. J. E. Young had as guests Thursday her parents, Mr. and

WASHING AWAY—Water made sandbars out of this pasture looking west about a quarter mile south of the Ford Schoolhouse. Considerable hail damage to row crops was also reported in this area where the rainfall was almost equal to or more than the 5.30 inches Hereford received. —Photo by Hardy Benson

WALKING IS A FEAT WITH 4 OF THEM—Charlie, the chicken, has to think twice about going for a walk because he has twice as many feet as his fine-feathered friends. Were it not for the fact that his rear feet point backwards, Charlie could easily move "on the double." As it is, the chick, who is owned by Mrs. Oliver Carpenter of Schenectady, N. Y., never knows whether he's coming or going.

Mrs. G. T. Coker and a brother and wife, Mr. and Mrs. L. T. Coker, all of Brownfield.

Masons of Adrian who accepted an invitation to visit the Masonic Lodge in Springer, N. M. Saturday night were: R. E. Caldwell, John Skaggs, Weldon G. Reno and E. B. Pounds. While there they visited the famous Philmont Ranch and enjoyed a buffalo barbecue. This ranch was presented to the Boy Scouts by Wirt Phillips, a brother of Frank Phillips who is head of the Phillips Petroleum Company.

Guests in the E. N. Jacobson home Sunday were Mr. and Mrs. Wilson Arden and three children. Mrs. Arden is Mr. Jacobson's niece. The Ardens also visited Mr. and Mrs. Jack Balding, Mrs. Arden and Mrs. Balding are cousins.

Mr. and Mrs. L. E. Ellison and daughter, Gertie Mae, who have been employed on the Tom Fields farm have moved to a farm near Amarillo. Mr. and Mrs. Louie Jones have taken their place on the Fields farm.

Lawrence Husome, who is employed by John Skaggs as a farm worker was released from North

West Texas Hospital in Amarillo a few days ago. He was suffering from rheumatism and still is not able to work as he is on crutches.

Mr. and Mrs. J. E. Speed and Miss Norrien Jacobson have gone to Arlington to bring home the students, Bert Speed and Grady Skaggs. They have been attending summer classes at Arlington State College to make up some extra work needed to enter other colleges for the fall term. Bert plans to go to Texas Tech in Lubbock this fall. Grady went Thursday to Texas A&M to register for the following year.

Guests in the Jimmy Zaring home Saturday evening were Mr. and Mrs. Bobby Speed and Rita of Adrian, Mr. and Mrs. Gene Rutledge and Calvin of Glen Rio, N. M. and Mrs. M. H. Zaring, Jr. and children.

Guests Sunday afternoon in the M. H. Zaring, Sr. home was their daughter, Mrs. Dave Hillburn and her children, Billy Hillburn stayed for a few days' visit with her grandparents and other relatives.

The political rally at Simms community house Saturday night was well attended and enjoyed. However, some of the speakers they had hoped to have appear were not able to be there.

Those of Adrian who attended the double header baseball game between Amarillo and Borger in Amarillo Sunday afternoon were Mr. and Mrs. F. M. Brown, Jimmy Brown, Maxine Stoneman, I. M. Smith and E. H. Mosteller.

SOUTHERN CHICKEN CASSEROLE

FARM FACTS

Culling Service For Poultrymen

A nation-wide study of poultry reveals that 30% of the hens in most poultry flocks go out of egg production during the early summer months, but continue to consume feed during the three months required to get them back into production.

HEAD of a poor layer is snake-like and narrow. The comb is shriveled, hard and pale. The wattles are small and also pale. The eyes will be sunken and have a dull appearance. Sometimes the pupils will be irregular in shape indicating a diseased bird. The beak is often very long.

An estimated loss during this period averages 25¢ per hen per month, the study pointed out.

In 1949, poultry owners culled their flocks during July, August and September saving thousands of dollars in feed costs.

Poultry dealers and their employees, culled more than 18 million poultry flocks last year, estimate 10 million birds will be handled this year as the free culling service is again extended to farmers and poultrymen in their communities.

niversary, July 17, were: Jeanie and Bobby Crenshaw, Jimmy Zaring, Perry Dale Grubkey, Roberta Larsen, Lewis Jordan and Tommy Loveliss. Roberta Larsen won a prize for pinning a tail on the rabbit correctly. Refreshments of cake and punch were served to climax the afternoon's entertainment.

Mrs. Roy Neaves and Mrs. A. G. Jordan and children attended the Plateau Singing Convention Sunday in the Municipal Auditorium in Amarillo.

Mrs. Zella Crim and her son, Jackie Gainer, visited last week in Miami, Okla. with her father, J. J. Gainer and other relatives. While there they fished. They brought home a 19-pound cat to prove their fish story.

Mrs. L. C. Wade has been ill again with a heart attack. At the last report she was improved. She is visiting relatives in Estelina, Texas.

AWAITS DECISION—Jose Villalobos, 24, (above), is shown awaiting an extradition hearing decision in the Mexico City penitentiary. The judge who heard Villalobos appeal to avoid extradition to the U. S. has 40 days to make up his mind. Villalobos is accused of slaying Sheriff O. W. (Blackie) Morrow of Presidio County on a lonely country road last March. He told the judge he was innocent. Quail Information

AUSTIN — The Texas Game, Fish and Oyster Commission recommended a straight 45-day waterfowl shooting season beginning November 10. An earlier request for a zoning season to benefit Panhandle counties has been placed before the Federal Fish and Wildlife Service as has also a proposed bag limit of eight ducks per day and eight in possession instead of the four ducks per day and four in possession allowed last fall.

The Commission authorized a nine-day antelope season west of the Pecos to be patterned after the 1948 special season in which 702 permits were issued to bag male antelope. The number of 1950 permits to be issued has not been determined.

Game and fish seasons for the newly created regulatory authority in the new 28 county Panhandle area were also approved. They call for a deer and turkey season from November 17 to November 26 for all Panhandle counties excepting Armstrong, Randall and Briscoe. The limit will be one buck deer and two turkey gobblers for each hunter. The three counties were exempted because of recent restocking activities by the Game Department.

The Commission approved a whitewing dove season for September 15, 17 and 19 beginning at 4 p. m. and lasting until sunset with a limit of ten birds a day and ten in possession. The Commission voted for a statewide dove season of 45 days, beginning October 20 and lasting until December 3 in the south zone and beginning September 1 and running through October 15 in the north zone, with a daily bag limit of ten and a possession limit of ten.

The Panhandle area was granted a quail season from December 1 to January 16, which are the same dates as the general state law, but the bag limits for the new regulatory area were cut from 12 per day to 10 per day and the possession limit was cut from 36 per week to 20 in possession at any one time. The Commission abandoned plans for open seasons on antelope, prairie chicken and pheasants in the Panhandle because of insufficient data and a policy of "playing it safe" until more information on these species could be obtained.

For the regulatory area west of the Pecos, the Commission authorized a deer season and quail season similar to 1949. In

this area, El Paso and Terrell Counties were eliminated from the antelope shooting regulations.

The statewide deer and turkey season as well as the quail season are set by law and are not affected by the latest commission action. Deer and turkey seasons for the state at large run from November 16 through December 31, inclusive, with a limit per hunter of 2 buck deer and three gobblers. The quail season is from December 1 to January 16, inclusive, with a bag limit of 12 per day and a possession limit of 36 per week.

The Commission, after a lengthy hearing, authorized an increase in the quota of commercial fishing boat licenses from 1550 to 2325. It also approved experimental studies in connection with authorizing issuances of licenses for 14 additional menhaden seines, to be used until September 1.

Other action concerning the new Panhandle regulatory area include: squirrel season, May 1 to July 1 and from October 1 to December 31, with a bag limit of 5 per day and a possession limit of 5; trapping season on furbearing animals, December 1 through January 31, except muskrat, which will be December 1 to December 28; limiting crapple bag to 15 per day and 30 in possession and similar provisions for channel cat, with black bass limited to 6 per day and 12 in possession, and no bag limits for sunfish, perch, bream, blue cats and mud cats; restricting each fisherman to one trolling line of not more than 20 hooks and an aggregate of not more than 20 hooks of all kinds for each fisherman; limiting a fisherman to possession of 200 minnows and putting a 20-foot limit on minnow seines.

The Panhandle regulatory district comprises these counties: Randall, Potter, Oldham, Gray, Roberts, Hemphill, Motley, Cottle, Dallam, Hartley, Childress, Hollingsworth, Sherman, Hansford, Moore, Wheeler, Donley, Hall, Hutchinson, Carson, Deaf Smith, Armstrong, Parmer, Castro, Swisher, Briscoe, Lipscomb and Ochiltree.

VOTE FOR G. T. HIGGINS

CANDIDATE FOR County Commissioner PRECINCT 2

In behalf of my campaign for re-election to a second term as your County Commissioner of Precinct No. 2, I wish to state that I have no ill will toward my opponent. Under our present form of Government you and I have the Democratic right to seek public office if we so desire. In view of the present world situation, I sometimes wonder how much longer we may enjoy this privilege. We, who have served in the armed forces to preserve our Democratic rights can well appreciate this and other privileges we still have.

With the above in mind, I feel that it is the duty of every eligible voter to go to the polls and cast his ballot for his choice of candidates on the County, State and National level. I am a strong believer in local government. I believe we should keep the administration of our government, as much as possible, in our county and state.

I believe with the experience I have gained from my first term as your county commissioner, I am better qualified and more able to serve you and help you with your problems in the next two years than I have in the past.

I have attempted to see every voter in my precinct personally. However, I find it is impossible to do so. Therefore, I would like for those of you who I have been unable to contact, to consider this my personal solicitation of your vote and influence.

In conclusion I want you to know of my appreciation for the past favors shown me. I know of no one that will appreciate your vote and influence any more than I.

Thanking you in advance for your kind consideration, I remain,

Sincerely,

G. T. Higgins

Candidate for County Commissioner Precinct 2

HARD LUCK STORY

The WORTHAM JOURNAL bemoaned the fact that many candidates are doomed to disappointment with the election returns but that none will have the hard luck of a South Carolina candidate for sheriff who filed the following expense account:

"Lost 134 hours of sleep thinking about the election. Lost two front teeth and a lot of hair in personal encounter with an opponent.

"Donated one beef, four goats and five sheep to county barbecue. Gave away two pairs of suspenders, four calico dresses, \$5 in cash and \$15 in baby rattles.

"Walked 976 miles, told 10,101 lies and talked enough to make ten volumes in print. Attended sixteen revivals and was baptized, four times by immersion and twice by other ways.

"Made love to nine widows — five grass and four sod. Hugged forty old maids. Got bit by dogs nine times and lost the election by 2,048 votes."

Clifford E. Barber, Presbyterian preacher describing modern-day church: "A new and well-engineered model just off the production line with a tank full of high octane gasoline—but no spark."

Section Two

AFTER THE RAIN WAS OVER—In the big picture the damage to a few blocks of street in the north part of town is shown. The top picture on the right taken at Seventh and Schley presents the happy side of the picture, cause the kids had fun. The picture below shows Tierra Blanca on the rise east of the bridge on Main Street. The Jim Kirby home is shown second from bottom on the right. The Kirby family is vacationing in Creed, Colo. Number nine green on the golf course would have been a bad hole to overshoot Monday morning. In the small pictures just above No. 1 was taken from the third green where the water only lacked a few feet of being up to it; No. 2 was taken on the west side of Lake Park looking down Main Street; No. 3 was taken toward the fifth green on the golf course; No. 4 was down by the Scout Hut; No. 5 was looking up Avenue D from Park Avenue; No. 6 was from the swimming pool west on Park Avenue. The picture just below the mast shows water rushing toward the creek. E. D. Zimmerman looks at the water in his wife's garden barrow that was standing under a tree and decides it must have rained more than he thought it did.

Law And You

By Bob Kirk

DO YOU KNOW the difference between Civil and Criminal law?

Civil law is that phase of the law that deals with the differences which arise primarily be-

tween individuals, and in which the individual seeks to have his personal rights enforced, or recover damages for injury to himself or his property. Damages recovered in a civil case belong to the individual. Each party hires his own attorney and pays his own attorney's fees.

Criminal law deals with that phase of the law that involves the violation of the laws which govern our conduct and affect society as a whole, and which sets out the punishment for the violation of those laws. Damages collected in criminal cases are called fines and go to the governing authority, city, county, state or federal. Other penalties

involve jail or penitentiary sentences, or the death penalty. Criminal cases are handled in behalf of the State by County and District Attorneys, who are paid by the State. The Defendant hires his own lawyer. If he desires one, in all except a very few types of cases.

Situations may and do arise in which either or both civil and criminal actions may be had as a result of a given situation. Thus in an accident involving two cars, one driver may be charged with a criminal offense, such as driving on the wrong side of the road, and he may then be sued civilly by the driver of the other vehicle for the

damages to the persons or cars resulting from the accident.

For further information on this subject, see your local attorney.

The time and the place and the people are all in order—but there seems to be very little interest in politics. Even the Congressional race seems to be drawing very little interest. Once in a while you can hear a comment on the race for county judge, but talk is scant regarding the races for commissioner—and it should be holding top interest.

What's the matter with everyone? Maybe there is too much war talk. A lot of folks are jittery about war possibilities. New cars and refrigerators are moving out fast, and they say that

POLITICAL PIE—Simms Community Political Rally goes on even more than an earful Saturday night; they had several good mouthfuls, also. The pie-cutters and others from the community are shown at the table.

ROGERS ROUND TABLE

KGNC, Friday Night, July 21 --- 7 to 7:30

Let's elect a capable and experienced man—a man with a platform. You know where he stands!

sheets are again becoming scarce all over the country. This indicates that the American people figure World War III is just around the corner. A showdown now will probably be the best thing for this country, but it is horrible to contemplate. Furthermore, why don't we start dropping those atom bombs? Some people say, "No, they are not humane." You could say the same thing about using guns and bombs and tanks. If you follow this "humane" idea far enough, there wouldn't be any wars at all. We apparently have the advantage along this line, why not use it? Maybe this is the time the human race gets wiped off the earth. Who knows?

Rumors keep trickling in from around Albuquerque and Santa Fe. People in these two areas seem to be more than jittery. Heard this week about an Albuquerque man who was looking for a business location in Hereford. Reports say that he was afraid an enemy bomb might hit the atom stock pile at Las Alamos and wipe out that part of the country. All flying in the area is apparently taboo. Hot jets stand by for emergency protection. Nevertheless, quite a few people in that neck of the woods are quaking in their boots.

I went out to Broadview, N. M.

Sunday afternoon when the Hereford Merchants' committee visited with delegates from Broadview, Bellview, Grady, Hollene, Westway and other points to work out a mutual celebration for completion of Harrison Highway. They set the date for August 17, and planned the gathering at Broadview. They sure are fine people. Furthermore, they are enthusiastic over the celebration. Some of them said they had been working for a surfaced Harrison Highway for more than 40 years. They plan to have a thousand people at the big celebration, and are expecting more than 500 from Hereford. It should really be an affair—but once again you get back to the war scare. Nobody knows how to plan any occasion far in advance.

Note to all women: We just signed up for an all-electric cooking school for October 9-10-11. This will be in cooperation with the appliance dealers and the utilities company, but will be sponsored by The Brand. It should be a dilly. Along in January we might follow up with a gas cooking school if there is enough interest. You will hear a lot more about this electric school before October, and we believe it will be well worth your while to attend, although you may not have an electric stove.

so, who in the world is it? We would like to follow this planting carefully. Here is a crop that could revolutionize the whole country. Sure hope it is right. However, even five acres would be a huge task.

Notice in the paper where the barber shops are planning on closing at 7:30 on Saturday nights. Saturdays have always been "killers" on barbers, but there sure will be lots of screaming about the new closing hours. Somehow, I can't help remembering back when people really wanted business. This Sunday paper is a killer around The Brand office, but the people seem to like it and we now have to work harder on Saturdays than nearly anyone, whereas we used to go fishing once in a while. Anyway, if the barbers pick up a bunch of "scab" competition, they can't blame anyone but themselves.

Dwight Cuppett the "People Are Funny" man, was in Hereford Tuesday and made quite a few proposals to local damsels.

Heard a rumor the other day that people entering the hospital had to take their own sheets. Ray Cowsert, secretary of the Hospital Board, says this is absolutely unfounded. It could happen, but it is very, very remote, he says. T. E. Seliger, president, says he believes efficient operation of the hospital will continue, despite the recent cut in cost of operating the plant. A hospital is something too many of us take for granted. It means a lot when you think about losing it.

This year, 1950, will go on record as to what diversification can do for a community. As we all know, the wheat crop was practically a total loss. However, present prospects indicate a "million dollar spud crop," which will be followed by lettuce, carrots, sugar beets, onions and other crops. In addition we already have seeded one of the largest row crops in history of the territory. It is as simple as not "putting all of your eggs in one basket"—and it seems that it will be the salvation of this country for the current year.

Heard a rumor that someone is planning on 20 acres of strawberries next year. Is this true? If

Once a team leading a baseball league on July 4 was the team most likely to win the pennant. But that was back when the 3-2 score was commonplace, not an oddity as now.

Of Texas' seven professional baseball leagues, there's only a couple that you could be safe in figuring that the July 4 leader would end up with the pennant—regular season that is, not the championship as determined by the Shaughnessy playoff.

Fort Worth should finish first in the Texas league, senior circuit in Texas. The Cats held a seven and one-half game lead over Tulsa after games of July 4. And they have to stuff to keep—and increase—this margin.

Gladewater is another team that might be a safe bet to retain its pace-setting position. The Bears after July 4 held a four and one-half game edge in the East Texas league. A club loaded with talent sent down from Dallas of the Texas-league, it should hold its position.

But it is a different tale in Texas' other leagues.

Odessa had the top spot in the Longhorn league on July 4. The Oilers have Roswell and Big Spring as chief contenders. Either could beat them out.

Crowley topped the Gulf Coast league, but Jacksonville might

be a better guess as to this class C loop's pennant winner.

Lubbock was ahead after games of July 4 in the West Texas-New Mexico league. But the standings in this circuit change almost nightly.

Harlingen and Corpus Christi dominate the Rio Grande league. It just happened that Harlingen led by a game after July 4.

Texarkana had a comfortable margin in the class B Big State league when the holiday ended. But Gainesville, another Dallas farm club, and Wichita Falls make the Bears' ultimate position in the standings a large question mark.

No matter which team finishes on top at the end of the regular play, it can't claim the championship. Each of Texas leagues decides this in a playoff. And the fourth place team might just finish ahead in this.

Air Base Group, 36th Fighter-Bomber Wing.

Visiting, Miss Ara Lewis and Mrs. Ida May Vaughn Sunday and Monday were Mr. and Mrs. W. S. Davidson and their daughter, Mrs. Herman Duffy and little daughter, Linda, of Quanah. Joining them after church Sunday were Mr. and Mrs. L. B. Drake and Mr. and Mrs. Carlos Vaughn. This was the first time the people from Quanah had been in the Panhandle; so they enjoyed very much looking at our crops and sight-seeing. They took back a number of souvenirs of Hereford and the Panhandle to show their friends.

36TH FIGHTER - BOMBER WING, FURSTENFELDBRUCK AIR BASE, GERMANY — Cpl. John H. Anderson, Hereford, has been transferred from this Bavarian jet base to Landsberg, Germany, home of Headquarters, 2nd Air Division.

Prior to his entry into the service in January 1948, Cpl. Anderson attended Hereford High School and was employed by the Hereford Butane Gas Co., Hereford. He was active on the Airlift to Berlin at the Celle RAF station in the British occupied zone of Germany.

While stationed here, Cpl. Anderson was assigned to the 36th Air Installations Squadron, 36th

vor his Dodgers a bit also, which may be only natural.

Nevertheless, the new system, whereby the managers will have one twirler from each club in the League is a better system. While some good pitcher may be left out, occasionally, the danger of missing a top-finger appears to be less under this system than under the old system. Also, the weaker teams, who can't give their pitchers the kind of record stronger teams build up for theirs, will always be represented, under the new system.

The All-Star game is, after all, the fans' game and, in future contests, every team in both leagues will have at least one representative in the classic.

Stress Good Government At Simms Political Rally

Thursday, July 20, 1950

Section Three

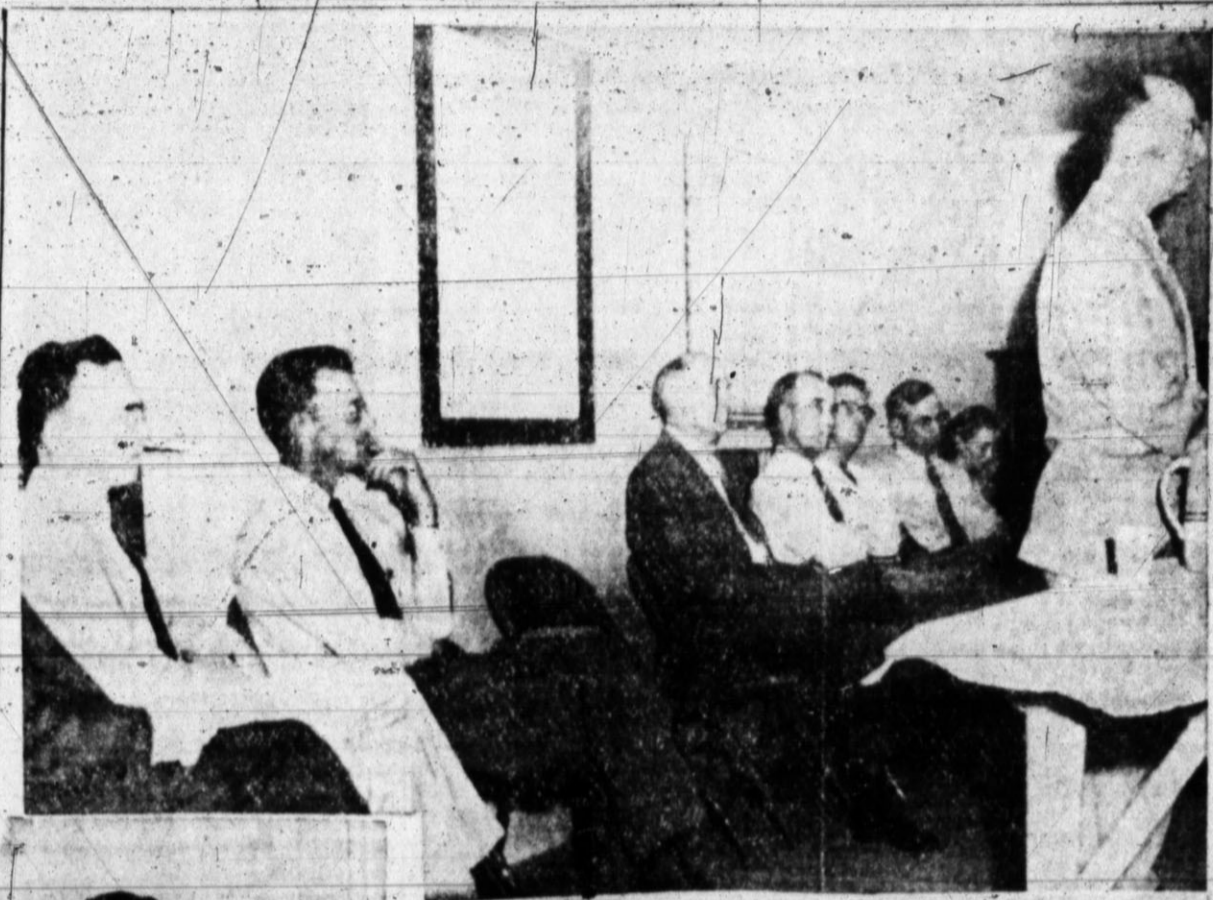

About 150 persons turned out for the Simms Community Political Rally Saturday night, plus several candidates and supporters of candidates.

Leo Gallagher was master of ceremonies for the evening. Candidates present who spoke in their own behalf included J. C. Reese, Carl Perrin, Ezra Norton, Kenneth Wheatley, G. T. Guinn, W. N. Stokes and Clarence Morrison.

Jimmie Witherspoon addressed the crowd on good government and plugged Mrs. Altavene Clark for the democratic nomination for Congress. Henry Sears spoke briefly in behalf of three state candidates, Gov. Allan Shivers, leader Griffin and Harvey Perry.

The Westway Quartet and Ann Gallagher took care of the entertainment portion of the program with musical numbers.

Ladies of the community also served coffee and pie.

POLITICAL RALLY—James W. Witherspoon addresses the Simms Community Political Rally Saturday night in the picture. Gib Howard, G. G. Richardson, Ezra Norton, Henry Sears, Kenneth Wheatley, Carl Perrin and Ann Gallagher are also shown on the speaker's platform. Mr. and Mrs. G. F. Rickels enjoy pie after the talking is all over on the left and in the bottom right hand picture Mrs. Carl Perrin, Mrs. Alton Fraser, Mrs. Wheatley and others also partake of the after-talking refreshments.

Band Practices During Summer

Beginning about the first of June and lasting through the last week in July band rehearsals have been held every Thursday night for the high school band and every Friday night for the elementary and junior high bands.

Mr. Purris Williams, band director, said the purpose of these rehearsals was to keep the students in practice through the summer. This in turn will make the bands better and easier to work with this fall. Mr. Williams said he had great hopes for the fall bands.

The younger band members have been drilling on fundamentals at their rehearsals while the high school band members have been working on new overtures, marches, and popular music.

The band members are now making plans to attend the Hardin-Simmons University annual band camp which will be held at Leuders this year the third and fourth weeks of August. Mr. Williams will be supervisor of the boys of the camp. Supervisor of the girls is to be Mrs. Alene Culpepper, who is dormitory mother of Mary-Frances Hall at Hardin-Simmons University. Eighteen band members from Hereford attended the band school last year. A larger number is expected to go this year from the high school, junior high and beginner bands.

New band equipment bought this summer is four matched parade drums in maroon and white to match the present bass drum. Additions have also been made to the music library.

Spray Will Eradicate Bermuda And Johnson Grass In This Area

COLLEGE STATION—When trichloroacetate spray is used to eradicate Bermuda grass or Johnson grass, it should be mixed at the rate of one-third to three-fourths of a pound per gallon of water, says M. K. Thornton, extension agricultural chemist of Texas A&M College.

About one gallon of the spray will be needed per 100 square feet of area, depending upon the size and density of the plants. If applied during the months of June and July, this amount of trichloroacetate will kill practically all of the Bermuda and Johnson grass on the land.

Thornton says that trichloroacetate, commonly called TCA, has been recommended for the control of Johnson grass, Bermuda grass, and other grasses for some time, but farmers are still unable to buy the compound locally. Many of the large chemical companies manufacture the product, but do not sell it to the public in small packages.

TCA is particularly useful for the eradication of Bermuda and Johnson grass from fence rows, roadways, small spots in fields, and areas that are inaccessible for machinery. However, the cost of the compound prevents its being used for eradicating grass from large areas.

Normally some drying of plants can be seen in about 24 hours after the spray is applied, says Thornton, and most of the plants that are going to die will be dead within a week after being sprayed.

Hot, dry conditions with a moderate amount of moisture in the ground are favorable for spraying with TCA. The compound is water soluble, and it penetrates the ground in addition to acting on the tops of the plants. If a rain occurs immediately after the spray is applied, some of the TCA will be carried away in runoff water, some will leach out through the soil and the per cent kill will not be as high.

TCA may affect the growth of plant life for 90 to 120 days after the date of application. The chemical action varies with dif-

ferent species of plants, and rainfall shortens the effective period of influence.

TCA proved to be very efficient for the eradication of Johnson grass in a test run at the Blackland Experiment Station, Temple, Texas, and in tests run at experiment stations in other areas. At the Blackland station sodium TCA gave a 90 per cent kill in 21 days and a 100 per cent kill in four and one-half months, at a cost of 41 cents per 100 square feet.

This Question:

I just read in a back issue of the Saturday Evening Post that there are— in one year — 33,500 fatal home accidents compared with 28,600 fatal auto accidents and 16,000 fatal industrial accidents. There are also five times as many non fatal accidents in the home as in the car. Can I get insurance to protect me from statistics like these.

25 Years Ago

Mrs. F. T. Rolson, librarian of the Hereford Library, had just received a letter from G. A. F. Parker, accompanying a fine collection of books left to the library by the late Mayor of Hereford, William M. Knight. In the letter Mr. Parker said, "The late Judge William M. Knight specified in his will that such of his books as might be desired by his relatives, should be sent to them. All other books, except law books, should go to the Hereford Library." A large collection was given.

A column found in the 1925 Hereford Brand was entitled "In Our Town" and was written by Ob-Zerver. Ob said in one issue that he saw:

W. C. Fallwell in the north business section of the city;
Carl Gilliland with his shoes laced;
Dr. LeGrand loafing;

Happy Hawkins with a grouch;
Homer Fox looking serious;
J. B. Jones in a hurry;
Dow Mercer handling oil barrels;

Steckman playing a whole game of dominoes without explaining the unnecessary mistakes made by his partner;

Polly Steele turn a corner without a wheel off the ground;
Jonathan Pitman-taking short steps;

D. L. McDonald needing a bath;
A new girl in town who hadn't met Gano;

Seth Holman fishing;
Albert Herbst chewing gum;
George L. Muse smoking Camels;

Henry Wilkinson needing a hair cut; and Baskin pushing a baby cart.
Ob said that he heard:
Burl Elliston in conversation

without ever mentioning alfalfa;
Dr. Overton refuse to make a speech;
Dr. Gabbert say, "I don't know";
Col. Woodburn and T. M. Palmer in a friendly discussion;
Secretary Moss tell a truth;
Ernest Handley refuse to eat;
A whistle that never came from J. E. Beyer;
Hille Bennett report a good time;
Skef lose an argument;
E. B. Black singing tenor;
E. W. Harrison say, "We have too many roads now";
Uncle John Estes organizing a stock company.

The call issued by Ralph Smith for a meeting of all local musicians at the Armory, with the prospects of reorganizing the local band, drew an attendance of 15 interested musicians. The first rehearsal was to be the following Thursday night in the County Court room. New music had been secured and director Smith said they hoped to keep right up with the latest popular numbers as they came out.
A Court of Honor was appointed for the local Boy Scout organization composed of five members — A. M. Jones, J. E. Hill, C. C. Acker, C. W. Humble, and E. S. Ireland.
The selection of the faculty of the Hereford schools had been completed. The high school faculty for the following year was to be as follows: Travis M. Dameron, principal; C. W. Humble, agriculture; J. F. Riggs, mathematics, science and coach; Miss Velma Read, science; Miss Clara Mae Glenn, English; Miss Sallie Bell Brown, home economics; Miss Fae Braselton, Spanish and English; Miss Fern Axtell, history; Miss Beulah Williams, mathematics.
The Central School faculty is as follows: Mrs. Chris Garrison, principal; departmental teachers, Miss Jeanette Rogers, history; Miss Frances Fullingim, arithmetic; Miss Willie Dickert, English; Miss Mae Morrison, geography; Miss Audrey Rogers, fifth grade; Miss Ella Alkman, fifth grade; Miss Mary Bradley, fourth grade; Mrs. Edna Waller, fourth grade; Miss Madeline Bell, third grade; Mrs. Jim Black and Miss Tallie Bell, second grade; Miss Catherine Wilson, first grade.

A number of cattle were being driven into Deaf Smith County for pasture from some of the counties north of here and eastern New Mexico, according to Henry Hastings, livestock inspector. Mr. Hastings had just finished dipping 1,300 head from New Mexico. A big herd had just come in from Dalhart for pasture.

WHAT'LL YOU BET?—Nobody knows whether he kept his seat or not, but it is doubtful from the looks of this picture taken at the Hereford Riders Club rodeo last month. The rodeo, which is to be an annual event, received a lot of praise for being fast and with plenty of thrills such as this.

Associational W.M.U. Meeting Held Here

An all-day Associational W.M.U. meeting was held Thursday, July 6 at the First Baptist Church in Hereford. Mrs. William Wimberly of Dawn, who is Associational Young People's Secretary of the W.M.U., was in charge of the program whose theme was "I Dare You."

The young people from the organizations of the Sunbeams, G.A. R.A., and Y.W.A. were honor guests. Young people from the following towns took part on and presented the program: Tulla, Lazbuddy, Summerfield, Friona, Dawn, Dimmitt, Happy, Canyon and the Avenue and First Baptist Churches of Hereford.

The morning message, "We Dare Not Fall," was brought by Mrs. O. G. Hill, Associational W.M.U. president.

Lunch was served to approximately 200 women and young people by the women of the First Baptist Church of Hereford in the church basement.

The afternoon program was held in the educational building. After a brief program an educational film, "Along the Amazon," was shown. After the meeting, Cokes were served to everyone.

Texas Schools Like New Law

AUSTIN, Texas, (AP)—A year-old law apparently has put an end to Texas high school sororities and fraternities.

At least, the State Education Agency has not been informed of any complaints, one way or the other.

State Commissioner of Education J. E. Edgar says that seems to indicate that just about everybody has accepted the law and is obeying it.

"Many schools had already banned secret societies before the state law was passed," Dr. Edgar said. "The state law in those cases simply gave strength to what had already been done locally."

Dr. Edgar said he has not heard any opposition to the banning of the societies on the high school level since they were outlawed in Austin while he was superintendent of the Austin schools. That was about a year before the state law was passed.

At that time, he said, he had heard some talk about the ban being unconstitutional. The op-

position dissolved, however, with no constitutional test being made.

The commissioner said he had no information on how the state law is working in border cities such as Texarkana where law bans the societies on the Texas side but there is no comparable law in the adjoining state.

Local school officials in such cities have not brought the problem—if it is one—to the state office, he said.

The Texas law declared public school fraternities, sororities and secret societies to be "inimical to the public good."

It directed school officials, instructors and boards of education to suspend or expel any student participating in such societies. A \$25 to \$200 fine was provided for violations.

Exempt from the laws provisions were such organizations

Friona Lions Hear Bob Wear Thurs.

"Communism is un-Christian and un-American. The ideology of communism is not only un-Christian but it is anti-God, and completely ignores the value and worth of the individual. It is diametrically opposed to the American reality and a dangerous threat to our cherished American institutions. There are people throughout the world who believe in and live under the communist conception of life and government. We dare not permit ourselves to be unconcerned during this time when world communism is on the move," said Bob Wear in addressing the Friona Lions Club last Thursday night.

Mr. Wear continued by quoting Mr. Wm. H. Hessler, Foreign News Analyst, who wrote in the Cincinnati Enquirer, "Before the war, the loss, about nine per cent of the world's people were under Communist control. Shortly after the war, following the Soviet expansion, about 13 per cent were living under Communist regimes. Today, when China is counted in, about 35 per cent of the people of the world are under the discipline of Communist governments." Wear said "I give you this information to show that Communism is a serious world threat. I am told that there are 50,000 card-carrying Communists in the United States and are sure that in addition to these there are many other people who sympathize with them. Our task is clear. We must be diligent in our efforts to meet all of the responsibilities of citizenship. There is no other way to preserve our way of life. We must be informed, courageous, and determined in all of our efforts to preserve, guard, and perpetuate our way of living. Prayers for God and our fellowmen will help us to be successful."

The speaker concluded: "To show you the undesirability of communism I give you the following factual information: A Russian citizen may not own land, may not be tried by jury

Wednesday for Hobart, Okla. after another load of pigs.

Mrs. C. S. Barlow is slightly improved, according to the doctor's report but has to remain in bed. Patricia Childers is staying with her, waiting on her and taking care of the house. Mrs. Barlow is Mrs. R. C. Childers' daughter.

Nina Simpson, the former Nina Hartman, and formerly of this community, is in the Deaf Smith County Hospital. She underwent surgery Thursday morning. She has been in bed at the home of her sister, Mrs. Gordon Witherspoon, for the past two weeks.

The rain in this vicinity was very scattered and light to the north. South it was heavier and spotted, too, in places. Even though it was light it was really a boost to these late crops. The corn on the E. L. Adams place is simply beautiful. It is a little more than fence post high. Most of the feed is small yet but on the Art Lewis place it is about knee high. The sudan pasture is ready for pasture this week. Two fields are being grazed this week. They are Jack Renfro's and Raymon Childers'.

Mr. and Mrs. Wayne Johnson went to Pampa Wednesday to visit Mr. Johnson's parents, Mr. and Mrs. Earl Johnson. They reported that it rained on them all the way there and back.

The girls going on the tour by chartered bus from this vicinity were Jeanne Palmer, Patsy Childers, Davine Farmer, Colleen Cooke, Jan Cooke, Carolyn Cook, Mary Dufer, and Sue Cook. The girls enjoyed visiting Uncle Jay's and Burney Howell's program the most. Linda Reese played the piano assisted by Burney Howell. They spread lunch at the Elwood Park. On their return they visited the museum at Canyon.
