

SIGHTS, FACES SEEN

Around Town

"Friendly Texans Like Friendly Homes" will be the theme emphasized by Hereford furniture dealers, Sept. 23 through Oct. 1, in cooperation with statewide furniture dealers. In addition to special displays, door prizes, and other individual firm participation, new styles will be displayed in all three furniture stores in Hereford during the period.

Homer Henslee, county tax office employee, figures he has a good one on Fred Baird, School District tax office. Homer, working late started out the west door of the courthouse and, in the dark, smeared fresh paint all over his hand. He came outside, noticed the fresh paint sign—and that Baird's light was still burning. Next morning Homer asked Fred: "Are you the guy who smeared all of the finger prints on the courthouse door?" Fred admitted as much, and still doesn't know that Homer started the "big smear".

"Giristown, U. S. A.", will be the topic for an area council meeting of Beta Sigma Phi sorority in Amarillo Sunday, Sept. 23. Walter W. Rose of Kansas City, founder of the society, will attend the session.

Understand the "dog" story they have been telling on Jack Gilliland is good enough that Jack finally bit on it himself. It's something about Jack giving a dog a shot of gasoline. The dog circles the block and falls down, flat on his face. When the victim asks, "Did he die?", the teller says, "No, he ran out of gas."

O. F. Armstrong, representative of the Texas Friends of Conservation, was guest speaker at the noon meeting of the Hereford Lions club Wednesday. Wayne Evans was presented with a past president's plaque at this meeting.

If you don't believe the Korean War is getting serious, just check the Brand classifieds this issue. For the first time since World War II days, no furnished apartments are listed for rent.

New employees at Earl Hendricks Buick are: Dick Meek, sales manager; Polly Wilson, office manager; and Carl Smarage and Dean Saul, technicians. Leroy Well, service manager of Earl Hendricks Buick is attending an advanced mechanical training school in Dallas this week.

The Hereford Garden club will meet in the home of Mrs. O. G. Hill Friday afternoon at three o'clock. An executive board meeting will be held at 2:30, according to Mrs. Ralph McCullough, president.

Cecil Malone of Granby, Colorado, has been in Hereford transacting business. Mr. Malone operates a Dude Ranch and hunting lodge in Colorado and is owner of the Hereford Creamery. He and his family moved to Granby last May.

Toastmasters Elect Joe Smith President

Officers for the next six months were elected by the Hereford Toastmaster's club Monday night.

Officers include: Joe Smith, president; W. H. Patton, vice-president; Dr. M. C. Adams, education director; W. C. Meharg, secretary; Francis Hardwick, sergeant-at-arms.

These officers will be installed on October 1 at the monthly ladies night program.

Urlin Streu was topic master for the evening and R. E. Linderfeller was toastmaster.

Ben Childers gave a talk on "Rotary and the United Nations" and Robert Thompson spoke on "Democracy vs. Communism".

Guests present were: Don Martin, Clint Formby, A. T. Ford, and Bruce Bybee.

HEADS PANHANDLE FIREMEN — Earl Phillips, Hereford Fire Department Chief, was elected president of the Firemen and Firemarshalls Association at the Semi-Annual meeting in Memphis, Texas, last week. Phillips succeeds J. E. Winborne of Pampa to the office. John P. Wilkerson of Canadian was named vice president and R. D. Mayfield of Dimmitt was named second vice president. Hereford placed fourth in pumper races with the first three places going to Pampa, Canadian and Dalhart in that order. Levelland placed fifth. Dalhart was selected for the 1952 convention site.

Kiwanis Kids Day Program To Feature Free Show Sat.

The annual Kiwanis club "Kids' Day" will be held in Hereford Saturday, Sept. 22, according to Bob Wear, chairman, who announces the following program:

General Assembly 10:00 A. M. at the Star Theater.

Opening song, "America," 10:05 A. M. (On the air—Radio Station KPAN) Led by Gerald Wilson.

Pledge of Allegiance To The Flag, Led by Worth Covington

Address—Geo. Graham.

Closing song, "God Bless America," directed by Gerald Wilson.

Free Show, Butch Jenkins in "My Brother Talks to Horses", presented in cooperation with the Star Theater.

Refreshments for each one present.

"While there is no charge for the show we are urging all who come to bring an offering", Wear said. "The money given will be used to help underprivileged boys and girls this winter. It is to be administered by the principals of our elementary schools, and used to assist the students in

these schools.

"Eleven hundred boys and girls attended the Kids' Day program last year and we are expecting a large crowd again this year," he concluded.

Dawn Post Office Robbery Cleared

The mystery of the Dawn post office robbery on Oct. 23, 1949, was solved over the past weekend when John Paul Harris of Big Spring, admitted to the burglary.

Harris, who is now serving a prison sentence in Arizona State Penitentiary, told officers that he burglarized the Dawn post office near Abilene the same night.

Statements were taken by George T. Heaberg, inspector, Ft. Worth. Harris likewise admitted to having burglarized post offices in Silvertown and Paducah.

Heaberg said very small losses were reported in any of the burglaries.

HAVE YOU SEEN "MUGGS"?

College Football Mascot Somewhere In This Area

Someone, somewhere around Hereford is lousing things up for the Oklahoma University football team. At least, such is the opinion of C. Q. Smith, president of the university and farm operator in the northwest portion of Deaf Smith County.

It all centers around "Muggs", three-legged red Irish setter, official mascot of the squad — and it seems that sentiment, maybe even superstition, leads some of the boys to a dim view on victory without the unusual dog.

Things have become so bad, in fact, that Mr. Smith says there will be a reward for return of the dog, which recently strayed from the Smith farm, 10 miles northwest of town. Muggs has a North Carolina tag, and can be easily identified by the missing right rear leg which was lost three years ago when the dog ran under a wheat truck.

In addition to his status with the football team, Muggs is also a family pet of

good standing and a close companion of the Smith's younger son.

"So please let us know of Muggs whereabouts," says Mr. Smith. "You can collect the reward from Hugh Baird or at The Brand Office, and maybe we'll get the team in high gear again."

Farmer Wildcat Test Near Deaf Smith Line

A wildcat location in Parmer County, Sec. 5, T-1 north, R-3, south, has created considerable interest in the Hereford area. Announcement of the location was made by U. S. Smelting, Refining and Mining Co., Boston, Mass., and the contract calls for a 9,500 foot test.

The wildcat is located seven miles northwest of Friona and is only one and one-half miles south of the Deaf Smith County line. In addition to the location, depth of the test has also created much comment.

Five Million Bushels Estimated As Grain Sorghum Harvest Begins

Absentee Ballots Ready On Ground Water Election

Absentee ballots may now be cast in the Sept. 29 election to decide whether High Plains Underground Water District No. 1 shall be created, according to Tom McFarland, Hereford temporary director of the district for Precinct No. 4 and president of the board. Absentee ballots are now available in the County Clerk's office in the courthouse.

"Those eligible to vote are persons who have paid the poll tax, who live in a portion of Deaf Smith county that is within the boundaries of the proposed district and who have rendered for taxation property within those parts of the county," McFarland said.

To determine exactly whether one's place of residence and property are in the district voters may refer to a map or to a detailed description of the district boundaries that are on file in the county clerk's office.

Three propositions will appear on the ballot. They are:

1. For or against confirmation of the district.

2. For or against authorizing the Board of Directors to levy a tax not to exceed five cents per \$100.

3. To elect a director for Precinct No. 4 (Deaf Smith, Oldham, Potter, Randall and Armstrong counties).

McFarland also said that an "all out" meeting for city and county residents will be held on Tuesday evening, Sept. 25, at which time interested persons may learn more complete details of the program and voting methods of the election.

Hastings Funeral Rites In Dimmitt

Funeral services for James Gano Hastings of Dimmitt were held Wednesday afternoon at 4 o'clock in the Methodist church at Dimmitt, with Rev. E. Lee Stanford officiating.

Hastings was born on December 5, 1898, in Wise County and moved to Castro county in 1900. He served with the Navy during world war I.

Hastings, who lived in Hereford for several years, died Monday morning.

Survivors include: three brothers, Joe Hastings of Dimmitt, J. J. Hastings of Wheeler, and Charles Hastings of Dumas; four sisters, Mrs. Earnest Harmon of Lubbock, Mrs. Jack Wright of Hereford, Mrs. Purice Daniels of Dimmitt and Mrs. Chas. Davis of Dimmitt.

Pall-bearers were: Odus Hastings, Joe Hastings, Charles Hastings, J. E. Harmon, Leon Booth, and J. B. Ferris.

Interment was in the Dimmitt cemetery under the direction of Gilliland Funeral home.

Walcott School Organizes PTA

Patrons of the Walcott School District met Friday night at the school to organize a Parent Teachers Association.

Officers elected were Mrs. Herbert Hoover, president; Mrs. Herschel Burrus, vice-president; Mrs. Charlie Burk, secretary and reporter; and Charley Hoover, treasurer.

The Association will meet on the first and third Friday nights of each month. The organization will serve a two-fold need in the community as sessions will also serve as a community get-together. Programs will be featured and a social hour planned with a refreshment committee named for each meeting.

Special entertainment will be planned for the children under the direction of the mothers.

Mrs. Herschel Burrus heads the program committee. Serving on the committee with her will be Mesdames: Jack Weaver, Julian Ferrin, Cliff Johnson and Don Guseman.

As milo deliveries showed a substantial increase in pace to elevators this week, the big question came up as to how much grain the area would produce this season—and opinions varied by millions, almost in proportion to government spending figures.

Elevator men were, in general, inclined to set the probable figure higher than courthouse representatives and field men. Estimates ran all of the way from three and one-half million bushels to seven million bushels. Summarized, however, the estimates averaged from four to five million bushels. No person in the

survey estimated higher production than last year, but three elevator men figured that the 1951 crop would be just as large in yield as last year. This automatically set production at between six and seven million bushels.

Dry Land Grain

Most of the grain now being delivered to elevators is from dry land farms and is running 14 and under on moisture content, according to elevator men. They said, however, that quite a few irrigation farmers are beginning to appear and that an occasional "wet" load of grain showed up.

Harvest, according to the elevator men, will get underway in earnest after the first of October—and will hit the real 1951 peak following the first killing frost.

Unofficial estimates place total acreage of grain sorghum unusually high this year, as compared in the following unofficial acreage chart:

1951	158,000 acres
1950	139,000 acres
1949	88,000 acres
1948	97,000 acres
1947	47,000 acres
1946	46,000 acres
1945	45,000 acres

Heavy seeding of grain sorghum during the two past seasons was, of course, attributed to wheat failures in the area.

One good thing about the 1951 grain crop, although cut by lack of rainfall, it will represent a year "when almost everyone will cut some grain." Total loss of crop was set at below five percent by practically every person included in the survey—and a five-bushel yield will still pay some profit to harvest, they believed.

Yields were probably the No. 2 question among grain handlers. The irrigation belt was expected to average 50 bushels to the acre, generally speaking. One man anticipated a dry land yield of 20 bushels, and several elevators reported around this figure on present harvesting. One man expected only a 20-bushel average including both dry land and irrigated land, however.

Grain sorghum price Wednesday was \$1.95 in Hereford. Loan price is \$2.09 this year, subject to deductions for shortage.

North Plains grain sorghum in the Perryton, Spearman territory was already reported to be rolling on a much larger scale. This was attributed to earlier plantings and more timely rainfall. The area, however, will probably not reach a peak until after the first frost, dealers said.

Five Arrested As Officers Break Farm Gas Theft Ring

A widespread theft ring which has cost irrigation farmers of this area hundreds of dollars in tires, gasoline and batteries was broken this week as county and city officials arrested four young men and one juvenile. All five will face misdemeanor charges. Still a sixth man was questioned, but no charges were filed since gasoline he took was from his father.

The group includes: Bob Anderson, 20, Ray Cargo, 19, Bill Lee, 19, and Cliff Elliston, 19, all charged with "theft of gasoline," as was a 16-year-old juvenile, not named.

Two favorite gasoline theft points of "filling stations", of the group were the Jack Bradley farm and the Hank Williams

farm. At these and other farms, the boys used overhead tanks to fill their cars. Sheriff J. C. Reece and City Officer Ed Curtsinger said that gasoline losses by irrigation farmers have been going on more than 12 months and in some cases almost two years. Battery losses have been reported on irrigation well engines in various locations, they also said, and signed statements of the men indicated that many of these losses will be covered by the thefts.

Tire thefts led officers to crack the ring. The extreme loss of tires on anhydrous ammonia trailers by J. J. Paesold finally led him to establish a "J-P" brand which was placed on each

trailer fire. Discovery of one of these "branded" tires on the Bob Anderson car by City Policeman Lee Alderson and Ed Curtsinger started officers on the trail which finally cracked the ring.

In addition to farm thefts, Anderson also admitted having twice burglarized the Phillips Station at the intersection of Highways 51-60. A former employee of the station, Anderson retained a key and said that after closing hours he once took \$25, using the juvenile boy as a lookout. A second time he entered the station and took \$40, using Bill Lee as a lookout. He said he paid Lee \$10 for his assistance. Anderson at no time took all of the money, a fact which led owners to believe the shortage came as a mistake in making change.

Complete breaking of the theft ring was attributed to cooperation of city and county officers who, working with County Attorney Gib Howard, were able to secure signed confessions from the group, according to Sheriff Reece.

Officers said the men worked in pairs or groups of three, according to the statements.

Jaycees Set Town Hall Meet Oct. 25

Ray Cowsett was guest speaker at the Tuesday meeting of the Hereford Jaycees. He talked about the Jaycee organization and how the local group could get members and keep them.

The date of the town hall meeting was announced as October 25 at 8 o'clock at Hotel Jim Hill.

On Monday and Tuesday evenings, Sept. 24 and 25, the club will have a loud speaker truck out announcing the town hall meeting which will be primarily a question and answer period on the water conservation bill which will be voted on September 29.

October 1 was announced as the beginning of the annual membership drive.

Two DWI Charges; One Wife Desertion

Two charges of DWI and one charge of transporting liquor in a dry area were filed in Deaf Smith county court on Monday.

Selesino S. Valdez was charged with driving while intoxicated and was fined \$100 and costs of \$29.30 by county judge L. H. Foster.

If you drive don't drink or if you drink don't drive. If you insist however on doing it, don't run into any police cars. Lee Roy Robertson was picked up for driving while intoxicated night after he ran into a police car driven by City Patrolman Jordan. Charges were filed Monday morning. He was released on a \$250 bond.

Charges of transporting liquor in a dry area were filed against Wilbur T. Johnson. He pleaded guilty and paid a \$500 fine Wednesday morning.

Charges of wife desertion were filed against Paul Abundio in Deaf Smith county court on Monday, Sept. 17.

Garcia Gets Four Year Sentence

Augustine Garcia, 23, was sentenced to four years in the State Penitentiary at Huntsville and Arnulfo Limas, 20, was given five years on probation in district court here last week. In case of probation violation, however, the Limas sentence will revert to two year penitentiary term. Judge Harry Schultz decreed.

The two men were arrested late in July, clearing up a long string of thefts and officers recovered loot estimated to be worth more than \$1,000, much of which was found in a ravine along an old fence row about 800 yards east of the Labor Camp.

not prescribed by a physician. Miss Klinke came to Hereford from Amarillo the first of the year. Mrs. R. N. Cooke gave a demonstration on putting in hems, stating that the garment should hang several days before attempting to put in the hem.

Mrs. Earl DeHart instructed the group in playing a game called packing the college girls trunk. During the business session, the resignation of Mrs. Wayne Johnson who served as Clothing Demonstrator was read and accepted, and Mrs. R. N. Cooke was elected to finish the year as Clothing Demonstrator.

Members attending were Mrs. Pat Robinson, Mrs. C. S. Barclay, Mrs. A. C. Hershey, Mrs. R. N. Cooke, Mrs. J. T. Richardson, Mrs. R. C. Childers, Mrs. P. S. Corbett, Mrs. Leona Packard, Mrs. Edgar Telchik, Mrs. Tom Barclay, Mrs. Grady Parsons, Mrs. Louie Olson, Miss Ester Klinke, and the hostess.

The next meeting will be in the home of Mrs. R. N. Cooke. The agent will be present for the first meeting since last spring to start the program for constructing woolen garments, which is an extra program, and is to be taught to the club women by the Clothing Demonstrators of each club.

A guest in the home of Mr. and Mrs. Tom Barclay was Mrs. F. E. Plaster, grandmother of Mrs. Barclay. She spent several days in the Barclay home.

Mr. and Mrs. Jimmy Allred, was a guest in the R. N. Cooke home Sunday. She was visiting their daughter, Sue.

Mr. Art Lewis left Thursday for a few days visit with his sister, and other relatives who live at Ringwood, Oklahoma.

Mr. and Mrs. Jack Renfro made a business trip to Lubbock last week.

Mrs. R. N. Cooke met with the recreation committee of Council Monday afternoon, at the county agents office. Other members attending the meeting were; Mrs. T. J. Parsons, Mrs. Argen Draper, and Mrs. Franke Wilde. The purpose of the meeting was to plan the Christmas party, for the Home Demonstration Clubs of the county.

Patsy Childers met with the F. H. A. committee, Saturday afternoon in the home of Mrs. Norman Gray to send out invitations to the Freshmen girls, inviting them to be members of the F. H. A. group. Others on the committee were: Dorothy Viegel and Norma Grace Gray.

Sunday guests in the C. S. Barclay home were Mr. and Mrs. Irvin Robertson and daughter.

Mr. Raymond Palmer and son Jack from House, N. M. were in this vicinity last week. Mr. Palmer is planning to do some combining of maize, in the Vega vicinity when it is ready.

According to late word received from the Armed Forces, Joe Watson will get his call within 10 days.

Mrs. Ivan Block, and son, David, and Mrs. B. F. Block and Marcia Lynn, were callers in the R. C. Childers home Friday morning.

Mr. and Mrs. Bill Martin of Canyon, were guests in the home of Mr. and Mrs. R. N. Cooke Sunday.

No damage has been reported from the frost which was very generously spread over this vicinity. However in the low places it is reported, that the weeds were killed but no damages to crops have been reported. Farmers are sure hoping that we won't have a killing frost very soon, as a lot of the feed is not matured, and others say that there are suckers that will need a longer ripening period before the grain can be combined.

Mrs. R. C. Childers is now teaching the first and second grade students in the regular Bible classes at the Church of Christ each Sunday morning.

Mrs. Childers formerly taught the pre-school group, and has served in that capacity for six years, but with the added class rooms and more teaching facilities, she has been given an older group.

Mrs. R. C. Childers was a guest at the regular meeting of the Fairview Home Demonstration club Monday. Mrs. Childers accompanied Mrs. Argen Draper who had charge of the program.

Mr. J. I. Finley arrived by bus from his home in Ft. Worth Monday to spend some time in the home of his brother, M. F. Finley of this vicinity. The Finleys were formerly of this community before their moving to Ft. Worth the first of the year.

Jolly Teens Plan Programs For Year

The Jolly Teens Horizon club met Thursday afternoon to discuss programs for the coming year.

Included in the programs will be self improvement, home management and service programs.

Year books will be distributed at the next meeting.

Those present were: Janice Craig, Betty Culpepper, Nancy Patterson, Margaret Phillips, Cecelia Wilkins, Marian Wilson, Gracie Fotheringham, Nellie Jo Simpson, Barbara Turner and one guest.

Mrs. J. G. Street of Amarillo is visiting this week in the home of a son-in-law and daughter, Mr. and Mrs. Jay Boston.

Dairy Producers Again Ranked High In Association Contests

The August Report of the Dairy Herd Association this week listed H. Kriehauser's Holstein herd in third place in the area. This is a repetition for the month of July when the Kriehauser herd also took third place for the area.

The Kriehauser herd produced 840 pounds of milk average with 3.4 percent butterfat or 28 pounds.

Of the 10 high cows in butterfat production this community also placed two animals. Jack Renfro's Holstein No. 27 produced 1,400 pounds of milk, 4.5 percent (63 pounds) butterfat. Kriehauser's Holstein "Stub" produced 1,630 pounds of milk, 3.7 percent (60 pounds) butterfat.

For the 10 high cows in milk production Renfro's Holstein No. 1 produced 2,070 pounds of milk, averaging 2.9 percent butterfat (60 pounds.)

In the 60-pound and 70-pound class, Kriehauser's Holstein "Stub" topped the list of 13 winners with 1,630 pounds, 3.7 percent butterfat (60 pounds), and Renfro's No. 1 came in second with 2,070 pounds of milk, 2.9 percent butterfat (60 pounds).

In the 50 to 60 pound class C. J. Albracht ranked in twelfth place with his Holstein "Christmas", 1,240 pounds of milk, 4.0 percent butterfat (50 pounds). Kriehauser's "Beauty" was sixteenth with 1,570 pounds, 3.4 percent butterfat (53 pounds) and Renfro's No. 43 was twenty-second with 1,570 pounds, 3.6 percent butterfat, (57 pounds.)

In the 40 to 50 pound class C. J. Albracht won first place over a long list with his Shorthorn "Roan Cherry", 1,000 pounds, 4.0 percent butterfat (40 pounds). Kriehauser was fourth with "Hadacol", 1,090 pounds, 4.1 percent butterfat (46 pounds). Renfro was tenth with No. 35, running 1,250 pounds of milk, 3.8 percent butterfat, (48 pounds). Denzil Pulliam was eighteenth with "Beulah", 1,190 pounds, 3.4 percent butterfat (40 pounds).

Famous Race Driver Chooses Nash Ambassador!

HERE'S WHY Johnny Mantz PICKS JETFIRE POWER!

Johnny Mantz, world-famous race driver, who's driven just about every kind of car ever made and won many of racing's top honors, has this to say about his Nash Ambassador:

"I chose a Nash Ambassador for personal and stock-car racing use because I firmly believe Airlyte Construction and handling ease make it the safest car on the highway. Speed and performance? I proved that when I drove an Ambassador 102.46 m.p.h. over El Mirage Dry Lake. Its Jetfire Engine is one of the finest ever put into any car! But, above and beyond its record performance and economy are such features as Coil Spring riding ease, Airliner Reclining Seat, Twin Beds and Weather Eye Conditioned Air. Nash wins on every count—and I can recommend it to anyone who wants a truly fine car."

Boy Scouts Join Crusade To Get Out More Votes

The Boy Scouts of America will launch a three-year program known as "Forward on Liberty's Team" to help make America a nation of character, spiritually strong and worthy of the emulation of the world, it was announced by W. J. Hiatt, Scout Executive of the Llano Estacado Council of the organization.

Mr. Hiatt returned from the 9th National Training Conference of 2,900 Boy Scout Executives, full-time professional leaders of the organization, who met for one week at the Michigan State College at East Lansing, Mich. Coming from every State and United States possession, they studied successful organization methods and the effective means of recruiting and using manpower, resources, staff, programs, outdoor and indoor activities.

With Mr. Hiatt representing the Llano Estacado Council were H. A. DeLashmuth, Jr. and W. M. Teague.

Dr. Arthur A. Schuck, Chief Scout Executive, chairman of the conference, said:

"The fundamental requirements for a democracy of the kind of which I speak is character in the individual citizen. There is nothing wrong with America that character could not change. That change can be effected in one generation with the proper training of youth."

As part of the new three-year program the organization will help "to get out the vote" in the presidential election in 1952.

"Non-partisan, without reference to any candidate or party," said Dr. Schuck "the Boy Scouts of America will urge the people of America to exercise their franchise and go to the polls. It is planned to place on every door-nob in America—thirty million homes—a cardboard hanger in the form of a Liberty Bell, with the slogan of our campaign, "Forward on Liberty's Team", and the injunction, for every citizen to vote."

Also appearing on the program were leaders from all walks of life; college leaders, religious leaders, business executives, lawyers, government officials. These men reviewed activities and achievements of the Boy Scout movement and extolled virtues of the work.

Ed Jesko, Frank Bezner, Ed Dzuik, and Father Domenick attended Field Mass at Pampa Sunday.

Carolyn were in Clovis Sunday. Mr. and Mrs. Leroy Aven and

Mrs. Elizabeth Bonesio, Mr. and Mrs. Herbert Boardman attended the Trinity-WT game and banquet in Amarillo Saturday.

Grandstand Gropings

By Kent Snare

Let's hope that Seminole's clobbering of Levelland last week did not curdle our next opponents disposition to a point that will take dead aim at exacting immediate solace from us—I evidently neglected some trivial detail such as remuneration to the scouting force since I have no accurate reports on just what Levelland has this go-around but they could be some degree less proficient than last season and still be properly equipped to render the opposing footballers a miserable evening—To the second Friday in the future may be too far to look particularly, when the prospect doesn't promise a happy meeting when tangling with Phillips. Chesty Walker, on a one game season performance to date, apparently has another "more than fingers needed to count the tally" team after racking up McLean 54-0—and there is no reason to presume that he has forgotten the plastering we handed them last year—my premise is that he will needle his minions no little with that memory—speaking of scouting, have you heard the bewhiskered one about the excitable scout who reported to his coach about a passing prospect?—The gist of his garble was—"and Chief, he's ambidextrous—he can use either hand. Expectancy is quite an item. It is easily built up and on occasion deflates even more readily. I think that all of Hereford High's supporters should bear with this team of youngsters and remember how long it took us to learn some of our lessons—A team decimated by the loss of eight starters, will, unless you are blessed with a wealth of material, require considerable time to coagulate—you just don't coordinate eleven individuals to operate as a unit overnight—the

youngsters who erred last week, especially those who found no handle on the pigskin, felt the abrasion, a lot more than we on-lookers—but, semi-occasionally a ball player comes along who is a natural, playing by ear and doing instinctively what the average player acquires by dint of knots on the noggin and being otherwise accosted by the enemy—It is extremely easy to forget one's tutoring and perspiration in the roar of the crowd, accentuated by opponents who refuse to cooperate and who even resort to confusing one—so hitch up your pants, Kids, and "bounce 'em before they can do likewise to you. There isn't a thing wrong with your ballclub that judicious blocking and tackling won't correct—Sharp blocking is a fetish with me and in the singleness of that purpose I am reminded of Mose Grove, the old left hander, who, when asked if he feared the 307 team batting average of a Series foe, quaintly replied—"I ain't impressed, they have to come up single file."—and if blockers take down the defense one at a time as they come to them, all the ball carriers will look good—I want to remark on a salient feature in last week's tussle and that was Hereford's superior conditioning as a unit—naturally the two third period scores unstarved the Mules but in the Fourth canto they really wilted, and no other single factor will be more decisive over the long haul than good physical condition of the personnel—incidentally, copy reader, what happened to my "fiang" in Sunday's squib? . . . Mr. and Mrs. Francis Hardwick took Joan to Denton where she is enrolled at TSCW. They will spend the week in Dallas.

LADY BULLFIGHTER THROWN—Patricia McCormick, 22, of Big Spring, Tex., fought and killed her first bull in Juarez, Mexico. She was thrown by the bull, lost her muleta and sword, and was trampled, but came back for the kill. Patricia is a co-ed at Texas Western College in El Paso, Tex.—(AP Photo)

Fancy Hold Displayed In Wrestling Card "Tag Match"

Bob Cummings and Ace Abbott threw everything from kneecap action leg binders to side headlocks Saturday night to cop the Tag Team, main event match on the Lions Club wrestling card at the Hereford Bull Barn. George Lopez won the first fall in 16 minutes when he gently wrapped Abbott up. Cumming took the second fall over Alex Perez, however, to even things up between the two teams. His fall was taken with the spectacular knee-action leg binder, which looked a lot like is sounds on paper, and which put the crowd in a bloodthirsty mood. The time was six minutes. Abbott also managed to down Perez, taking eight minutes, 10 sec-

onds, and using a headlock. The two falls gave the main event victory to Cummings and Abbott. The first event on the card also featured an Abbott victory over Perez. Abbott took this fall with his self-styled "Texas Special", Abbott insists that the special is a combination "chin-lock", "arm-lock" and "abdominal stretcher", all of which worked Saturday night and let Perez to yell "calf rope" in 14 minutes. The second match, between George Lopez and Bob Cummings, was a draw. Announcement was also made that time for the wrestling card, which will feature Alex Kasabaska and Bob Cummings, has been changed from 9:00 to 8:30.

Hereford Faces Tough Tangle With Levelland

With two consecutive wins to their credit the Whiteface eleven will tangle Friday evening with the Levelland Lobos, possibly the most formidable Hereford opponent yet this season. A check Wednesday indicated that the Hereford boys are still running along injury-free and in as good physical condition as could be expected this early in the season, according to Coach Dalton Criswell, who hopes to have them in still the same condition for the starting whistle Friday night.

Whiteface fans are well aware, and pleasantly surprised, with the two Hereford wins over McLean and Muleshoe. The Muleshoe victory especially came as a surprise to dopsters, and placed the Hereford boys on a pedestal which will require balance and luck to retain Levelland, on the other hand, has faced a reverse situation and will come to Hereford thirsting for blood.

The Lobos started the 1951 season with a surprise victory over Pecos, 24 to 19. This game sent them up against the supposedly mediocre Seminole squad as favorites. Seminole, however, failed to recognize the situation and emerged from the melee on the long end of a 12-0 tally. Levelland, in fact, appeared to have started off dazed and surprised by the Seminole boys—and not to come fully recovered even when the final whistle sounded.

The Lobos faced a few bad breaks but, according to statistics, were roundly outplayed. Despite the heavy Lobo line and backfield, Seminole chalked up 238 yards in ground play to only 132 for Levelland. Neither team did much with passes. Levelland attempted seven, completed two and netted a total of 29 yards. Seminole attempted three, completed one and gained a total of 10 yards.

Hereford's pass attack against Muleshoe, coupled with the Lobo game last Friday, indicates that

most of the ground gained in the game this week will likewise be through the line and around the ends. In contrast with the Hereford squad, however, Levelland played the Seminole game with only one fumble, whereas Hereford stacked up four fumbles against Muleshoe. Hereford drew 55 yards in penalties last Friday, whereas the Lobos drew 60 yards, indicating almost a parallel in this department.

The Whitefaces will be roundly outwighed in their tangle with Levelland. The Hereford starting eleven averages 164 pounds as compared with 105 pounds of the Lobo squad. This gives Levelland an average of 10 pounds per man.

Both squads are using the "T" formation and spectators will probably note a similarity in plays. This will be the first team which Hereford has encountered this season with the same formation.

Coach Criswell, although generally on the pessimistic side, says he believes the game will be a tough one, then adds, "probably the toughest of the season."

FOR A BETTER CROP

DON'T let disease reduce your wheat yields.

Here is a study in contrasts for every wheat grower. The sickly head of wheat at the left of this picture has been the victim of covered smut. The two larger heads, from practically the same stand, show what the "runt" could have been, if it had not fallen victim to smut.

The smut-infested and healthy wheat grew in adjoining fields, under the same conditions of soil, water and sunshine. The two healthy heads, however, were grown from seed that was treated against smut before it was sown. The grower had his seed wheat treated with a fungus-killing dust that killed the

smut spores and prevented them from infecting the growing wheat plants. The "runt" head did not have the benefit of treatment.

Fortunately, not all wheat is blighted by smut. Losses from this fungus disease are high enough, however, to more than justify fungicidal dusting of all seed wheat. Its small cost of one to five cents per acre is very cheap insurance against crop disappointments that can take many dollops out of the wheat grower's pocket.

Talk with your County Agent. He can direct you to a nearby seed cleaning and treating machine.

USDA Readies '51 Cottonseed Price Support Program

Sometime ago the U. S. Department of Agriculture announced

that it would support the price of cottonseed this year at \$65.00 per ton to farmers, basis grade 100.

At the same time, USDA said that it would buy cottonseed in areas where a purchase program might become necessary to keep prices at the support level. Purchases would be made at \$61.50 per ton, basis 100.

In addition to loans and purchases, USDA announced, recently that it would buy cottonseed oil, cake, or meal and linters, from crushers as another means of helping to keep cottonseed prices at the support level.

Under this part of the program USDA will make contracts with crushers, who in turn must pay ginners and farmers not less than \$65.50 per ton for cottonseed, f.o.b. gin point. This will be on the basis of grade 100, with specified premiums and discounts for other grades.

To help work out details for the operation of this part of the cottonseed price support program, the Dallas commodity office of the Production and Marketing Administration is inviting members of the trade to serve on advisory committees.

There will be four committees—one each for crushers, crude and refined oil, proteins and linters.

Electric Cooking Is

EFFICIENT

... as MODERN women KNOW!

Efficient because it is clean, accurate, automatic, labor-saving.

The accuracy of heat application which assures you that the correct amount of measured heat will be delivered to each range unit takes the guesswork out of cooking — adds efficiency.

The automatic time control on your electric range eliminates pot-watching and cooking failures, makes it possible for your meals to be prepared while you are miles away — adds efficiency.

The cleanliness of electric cooking means less frequent general housekeeping, eliminates entirely pot and pan scrubbing — adds efficiency.

The coolness of electric cooking means added pep, more pleasant cooking conditions — adds efficiency.

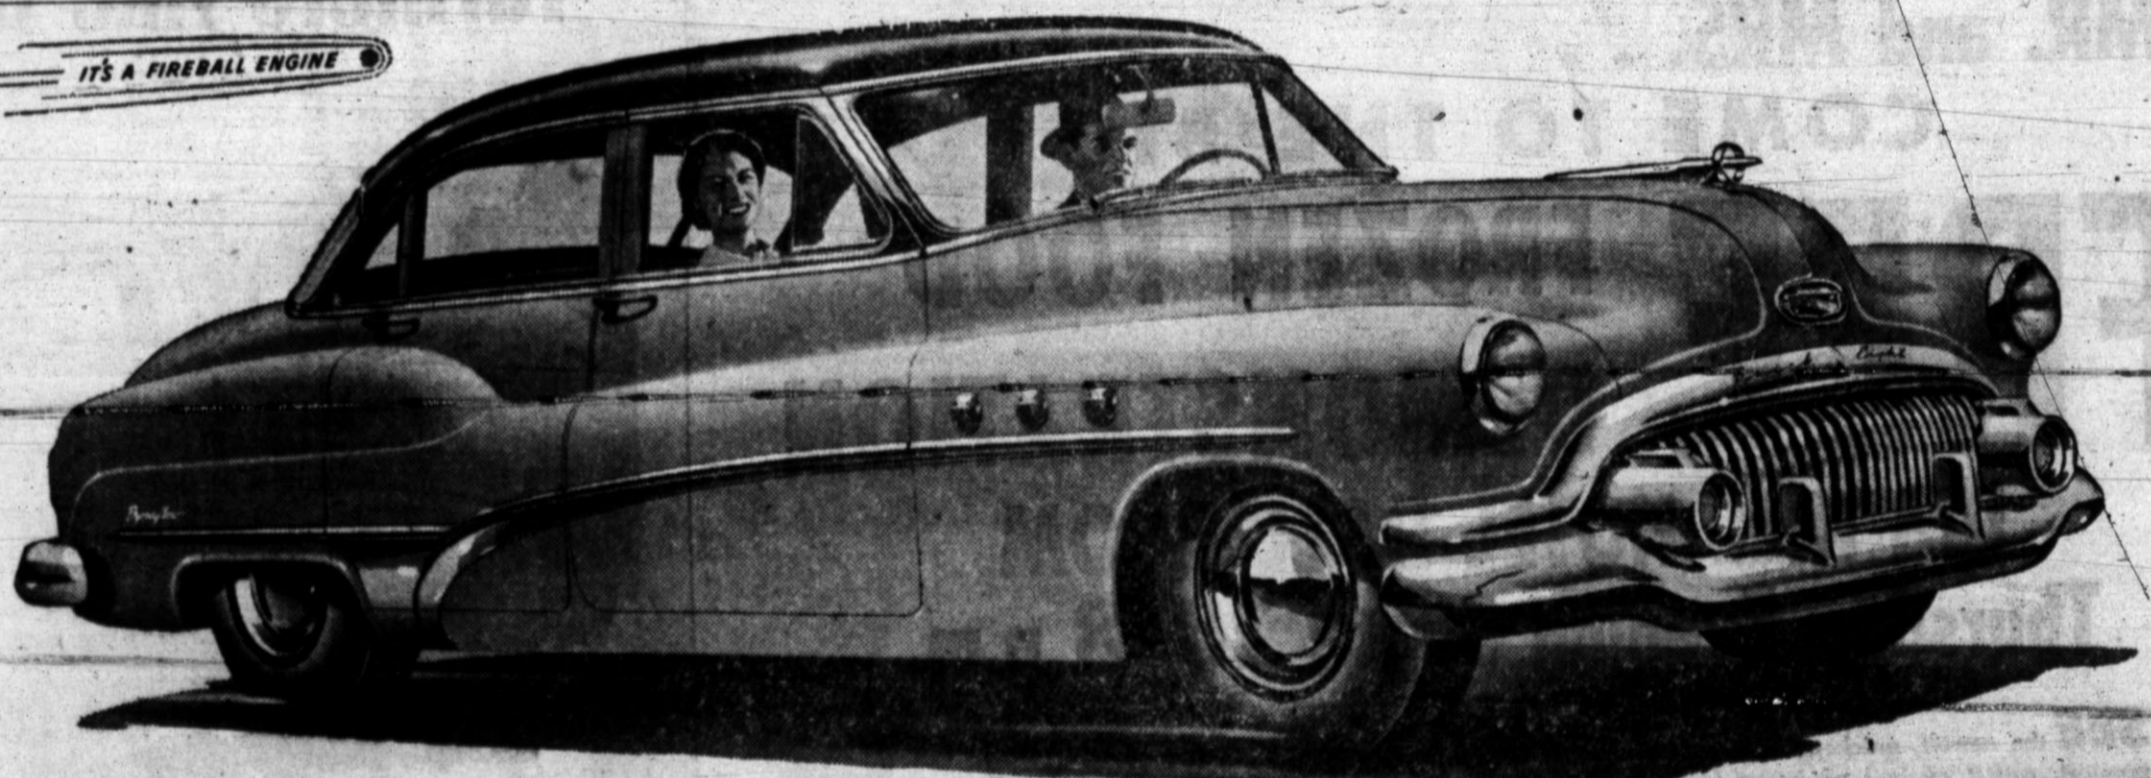

Yes, electric cooking is completely efficient — as modern women know.

Maybe you're missing something BIG

WE know how you feel when a car has given you faithful service. You like it. You're loyal to it. And that's only human.

But just suppose you found out that some other car could make familiar roads seem a lot smoother.

Suppose some other car held the curves in a way you'd never felt before.

Suppose some other car had more thrilling power — steered like a

dream—held its course like an airliner on the beam—and let you finish a long day's drive feeling daisy fresh.

Wouldn't you feel you're missing something big unless you tried it out?

There is such a car. Its name is Buick.

It has big soft coil springs on every wheel. It has a Fireball Engine. It has a "front-end geometry" that

does miracles with steering. And it has Dynaflo Drive.*

And incidentally, it wears a price tag that makes it a very smart buy compared to anything else you own.

We'd like to have you try this car. You'll never know what you're missing till you do.

How about giving us a call— or coming in to see us real soon?

Equipment, accessories, trim and models are subject to change without notice. *Standard on ROADMASTER, optional at extra cost on other Buicks.

NO OTHER CAR PROVIDES ALL THIS:

- DYNAFLO DRIVE—saves strain on driver and car
 - FIREBALL ENGINE—high-compression, valve-in-head—gets more miles from every tank of fuel
 - PUSH-BAR FOREFRONT—combines smart style and unsurpassed protection
 - WHITE-GLOW INSTRUMENTS—greater clarity at night
 - TORQUE-TUBE DRIVE—seals the chassis, steadies ride, improves driving control
 - 4-WHEEL COIL SPRINGING—cushions ride, saves servicing costs
 - DUAL VENTILATION—outside air fed separately to right or left of front compartment
 - SELF-ENERGIZING BRAKES—hydraulic—multiply pedal-pressure five times at brake drum
 - DREAMLINE STYLING—tapered, car-length fenders, gleaming sweepers on most models
 - Plus: Self-locking luggage lid, Step-On parking brake, two-way ignition lock, Safety-Ride rims, Hi-Poised engine mounting, Body by Fisher
- When better automobiles are built BUICK will build them.

Transparent Glass Cement
To make a transparent cement for glass, dissolve 1 part India rubber in chloroform and add 16 parts by measure of gum mastic in powder. Allow to remain for two days, shaking the bottom frequently; apply with a fine camel's hair brush.

Furniture Bruise
To remove a furniture bruise use a piece of blotting paper soaked in warm water, placing it over the bruise, and applying a warm iron until all moisture is

gone. Repeat if necessary.
Lint
Sometimes it is difficult to remove lint from clothing with a clothes brush. When this is the case, try using a dry sponge instead of the brush.

Fire Extinguisher
The best extinguisher to throw on a fire caused by spilling and ignition of kerosene or gasoline is wheat flour. This is well known; as flour is always handy. Household ammonia, or sand, is also excellent for this purpose.

Water only spreads the blaze.

Frying Fish
Fish will not spatter so much while frying if a colander is inverted over the pan. The small holes will allow the steam to escape.

Silver
Silver can be cleaned very quickly by placing in sour milk, allowing it to stand for an hour, then washing and rinsing in the usual manner.

Painting Hint
When painting a cupboard that has many handles and hinges of metal, coat the surface of the metal with Vaseline jelly before starting to paint. In this way, all spots of paint that may be splashed on them will come off with one rubbing of a dry cloth.

Scorched Clothing
To remove scorched spots from white cloth, rub with a cloth moistened with peroxide. Do not use on colored garments as it will fade the color.

Soft Collars
When ironing soft collars, iron the right side first, and then the wrong side. Always press toward the center to avoid wrinkling.

Nervous Headache
Often a nervous headache can be relieved with a cup of moderately strong tea in which two or three slices of lemon have been infused.

Long Time Ago

45 Years Ago

Monday night one of the heaviest rains of the season fell over the entire northern portion of the county. There is no portion of the county which is not in excellent condition for sowing wheat.

Truck farming in this part of the county is proving to be better and better all the time. W. H. Raynor sold 100 pounds of sweet pepper at 11 cents a pound to local dealers this week.

Winners in the recent agricultural exhibit which was held in connection with the annual picnic were: flowers, Mrs. J. W. Hough; onions, W. B. Green; tomatoes, Mrs. E. C. Millett; grapes, J. O. Lonsey; corn, S. H. Harris; Kaffir maize; California wheat, rhubarb and turnips, W. M. Smith; millet and best ear of corn, R. C. Bridges; cabbage, G. C. Majors; sweet potatoes, C. E. Edwards. Judges for the contest were: G. W. McMillion, C. F. Kerr and J. M. Boone.

25 Years Ago

One of the best small county fairs ever held in Hereford seems to be the general sentiment concerning the annual Deaf Smith county fair.

A Santa Fe freight train hit four box cars from the local daily which were switching at the

time of the wreck. Fireman Hutchin died in the Santa Fe hospital at Chavis as a result of injuries received in the crash.

County Agent R. O. Dunkle, Secretary Moss of the Chamber of Commerce, A. O. Thompson and other volunteers took the Deaf Smith county exhibit to the Amarillo Tri-State Fair—Sunday and put up the booth.

At the Monday meeting of the Hereford Chamber of Commerce the program consisted of serious discussion of paved roads in this area.

A Castro county farmer again beat all comers, to the first sale of cotton in this community for 1926. G. S. Armstrong, who lives 13 miles south of Dummitt had the first bale in the yards of the Hereford Cotton gin on Tuesday morning.

Home Builders Class Elects

Home Builders Class of the First Methodist Church held a meeting, recently at the church to elect new officers. Mrs. Irving Willoughby presided. They include: Mrs. Claude Francis, president; Mrs. Glenn Watts, vice-president; Mrs. Cecil Billingslea, secretary-treasurer; Mrs. Don Davidson, teacher; Mrs. Otto Gilliland, assistant teacher; Mrs. Ruth Hudson, pianist; Mrs. Norman Gray, song leader; and Mrs. Ida Ricketts, evangelist.

Plans were made for the class picnic which will be held at Ceta Canyon on next Sunday. The group will leave from the church at 8:45 and cars will be furnished for those without conveyance. Each family will take a basket of food which will be spread together in the dining room at the encampment.

How Can I?

By Anne Ashley

- Q. How can I renew old jar lids?
A. Boil the old jar lids in a solution of borax and pure soap, using three tablespoonfuls of borax and one-third cake of soap to about two gallons of water. Put in just enough lids at a time to be well covered by the water. Boil for thirty minutes, then rinse well with hot water.
- Q. How can I mark linen efficiently?
A. If the handkerchiefs and other pieces of linen, that are to be marked with indelible ink, are first starched, it will prevent the ink from spreading and blurring.
- Q. How can I quickly relieve the pain of a wasp's or bee's sting?
A. Rubbing a piece of raw onion over the affected part of

ten, brings quick relief.
Q. How can I replace casters in a piece of furniture so they will not continually fall out?
A. Remove the casters, pour plastic wood into the opening, and as it begins to set force the casters into place. Allow this to harden thoroughly before placing the furniture on its feet.

- Q. How can I take care of new shoes?
A. Wax the new shoes, similar to the surface of an automobile, and this will keep them looking like new for a long time. Rubbing the shoes with a cloth dipped in glycerine preserves and softens them.
- Q. How can I freshen a soiled sponge?
A. Rub a fresh lemon thoroughly into the sponge and rinse several times with lukewarm water. The sponge will be like new.
- Q. How can I easily clean soiled wall paper?
A. Try using starch. Sprinkle liberally on a damp cloth, and apply to the paper, using a circular motion. If there are some particularly bad spots, go over them several times.
- Q. How can I treat perspiring feet?
A. A good treatment is to put equal, but very small portions of house hold ammonia and vinegar into a foot bath.
- Q. How can I rid the house of ants?
A. A mixture of half borax and half sugar will poison every ant that finds it. Sprinkle it on the shelves and around all haunts.
- Q. How can I remove candle grease and wax from table linens?
A. Place a piece of clean blotting paper over the spot and press with a hot iron. Keep shifting the blotter to use a fresh portion until the spot has disappeared.

says E. M. Meritt, Sr. Buick Dealer Kansas City, Kansas

"A mechanic dreams of working on a clean engine," says Lewis Stoddard, Garage Manager, Blackfoot, Idaho. "My dream came true when customers started using new Conoco Super. It cuts down trouble, but I'm a loyal booster of Conoco Super."

"I'm sure glad you converted me to the '50,000 Miles-No Wear' oil," writes Albert E. Lentz, Rancher, Delta, Colorado. "I really barreled my Mercury over the highway on a recent trip, and all I could hear was a motor purring like a kitten."

"50,000 Miles-No Wear!" Proved Here:

After a punishing 50,000-mile road test, with proper drains and regular care, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence: in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. AND gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000!

Christian Science

Christian Science services are held in the Star Theatre each Sunday morning at 11 o'clock. All who are interested are invited to attend.

Belief in the substantiality of matter must give way to the understanding that substance is Spirit, declares the Lesson-Sermon entitled "Matter" to be read in all Christian Science churches on Sunday, September 23. The Golden Text makes this point clear. It is from Psalms, and reads, "My flesh and my heart faileth; but God is the strength of my heart, and my portion for ever."

Mankind must look away from matter to Spirit, further declares the Lesson-Sermon. "Set your affection on things above, not on things on the earth" (Colossians 3:2). A more detailed explanation of the necessity of looking to God, Spirit, in the search for substance is seen in this citation from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy. "We cannot fathom the nature and quality of God's creation by diving into the shallows of mortal belief. We must reverse our feeble flutterings — our efforts to find life and truth in matter — and rise above the testimony of the material senses, above the mortal to the immortal idea of God" (page 262).

Church of Christ

The Church of Christ has the following regular meetings scheduled for this Sunday: Bible study, 10 o'clock; morning worship, 11 o'clock; young peoples, 1:15 and evening worship, 7 o'clock.

**YOU IN THE CHURCH
THE CHURCH IN YOU**

Character is a by-product of the church. It is here that young and old alike are showered with benedictions that fortify and influence for a better citizenship and a stronger democracy. In the church the ministerial are molding religious character. Statesmen today declare that the church alone can furnish leadership to handle the affairs of state in these perilous times. Then we with our children should go to the church of our choice on Sunday. "You in the Church and the Church in you" form a combination for good. Be a regular CHURCH GOER and a daily BIBLE READER.

Let the hammer threaten as it will. Let the sickle cut and slash. The impregnable rock of Scripture will stand. The hammer blows will falter; the sickle's edge will grow dull; the Word endures. It is our hope forever.

The Crescent shall not throw down the cross from the Heavens. Dean Inge of St. Paul's Cathedral in London, England, thrills the Christian world with the news that one hundred million Russians have refused to bow their knees before the Kremlin Baal. Communism will fail among the common people of the world. Freedom and a sense of human worth are the Bible's gift to mankind.

How much are you and I doing to combat Communism in these United States? How much do we prize and practice Democracy? How faithful are we to the Christian Church? The truer we are to Christ, the less will Communism spread among us. So, withstand the attacks of Hammer and Sickle with your trust in the living Word. Read and obey the Bible of your fathers.

FACTS ABOUT MONEY!

THE LARGEST COIN

The largest piece ever coined was a Swedish ten-daler piece. The cumbersome coin dated 1685, is of solid copper and weighs about 45 pounds. The Swedish Government, anxious in developing its copper mines, resorted to this means in fulfilling its purpose, forgetting the physical comfort of the people.

1951 Interim Corn Loan Rates Are Released

Texas corn growers will not have to take less than \$1.49 per bushel for their 1951 produced corn, and in most of the heavy corn producing areas of the State they are assured more than this.
 County corn loan rates recently released by the State PMA Office range from \$1.60 to \$1.65 per bushel with 10 cents per bushel storage charge deducted. A service charge of one-half cent per bushel with minimum of \$1.50 will be charged.
 The final 1951 support rates for

corn will be based on 90 per cent of the effective parity price on October 1, 1951, however, the loan raates already announced will not be decreased in case 90 per cent of the effective parity is lower, according to the local PMA office.

To get a loan producers can place their corn in an approved warehouse, take the warehouse receipt to the county PMA office where loan papers will be completed, take the loan papers to an approved lending agency and get the money.
 Farm storage loans are also available where the farmer has adequate storage facilities on his farm.
 R. M. Gunn spent the week-end visiting friends and relatives in Olton.

Schroeter Reunion

The first family reunion in 26 years with the four children and their families attending, was held by Mr. and Mrs. R. Schroeter at their home at Elm Courts Friday and Saturday.
 Incentive for the reunion was the return from Korea of Capt. Paul M. Schroeter who spent the past year in the Korean War, and his subsequent visit here.
 Those attending included: Mr. and Mrs. R. W. Sundstrom of Austin, Capt. and Mrs. Paul M. Schroeter and daughter, Lora, of North Hollywood, Calif., Mr. and Mrs. R. R. Schroeter and son

John of Denver, Colorado; and Mr. and Mrs. A. J. Schroeter and sons, Alec, J., Paul Bryan and Edwin of Hereford.

Chrysler

can give you!

✓ **COME FEEL 180 V-8 HORSE-POWER!** Chrysler's revolutionary new Fire-Power V-8 engine develops more power, gives smoother, more flexible responsiveness than any other engine ever put into an American car. Even on non-premium grade fuel, its built-in "Mechanical Octanes" enable it to outperform any other engine in any other car!

✓ **COME FEEL HYDRAGUIDE* POWER STEERING!** For the first time in any U.S.-built car, hydraulic power supplies four-fifths of the energy needed to park or steer... makes driving literally a brand new experience... gives steering ease and the safety of swift, sure steering control like nothing you've ever felt!

✓ **COME FEEL CHRYSLER POWER BRAKES!** Feel for yourself the new sense of security that comes when power from the engine helps your foot apply the brakes. Gently, smoothly, easily, swiftly, you "feather down" your Chrysler's speed... or bring it to a standstill, with as little as one-third the foot pressure you're used to!

✓ **COME FEEL WHAT ORIFLOW DOES TO ROUGH ROADS!** Chrysler this year uses a revolutionary new type shock absorber with over twice the ride-steadying power of those previously used on any cars at any price. Come feel for yourself what a difference this makes... come feel what happens when bumps disappear!

WALTER ROGERS REPORTS

Home Purchase Income Tax Exemption Cited

Well, we got back to Washington after a most enjoyable trip to the district. The shortness of the time would not permit me to visit all the places that I wanted to, but an early adjournment of Congress would make it possible for me to be back and visit the places that I failed to get to on this last trip. We came to Washington by the northern route, that is, Highway 66 to St. Louis and Highway 40 through Indianapolis and Columbus into Pennsylvania and then down to Washington. We got to ride on the Pennsylvania Toll Turnpike for about 90 miles. It cost us 85 cents, and was well worth it. There are no side roads coming into the Turnpike and you can set your speed on this four-lane divided highway and sail right along. You can't get on the Turnpike except at toll gates, which are spaced about 25 miles apart. This turnpike is supposed to be paying its own way and may be

the answer to the highway situation in many of the states. We finally made it into Washington about 3:00 a.m. Wednesday and were pretty well worn out from the trip.

The Senate has caught up with a lot of work during the recess of the House and we are again back at work on the important legislative matters that must be finished if Congress is to adjourn any time this fall. The raise in the military appropriations by the Senate is receiving much discussion here, as many of the members realize that Five Billion dollars is a whale of a lot of money. There is also much discussion about the Senate version of the tax bill. Many of the members feel that the Senate version will tend to put too much of the burden on the lower and middle income groups and will not operate like the House bill, which fairly distributes the burden across the board. The nature of the tax

raise in the House is temporary in principle, while the Senate version appears to have a certain degree of permanency. The need for additional taxes at the present time can only be justified by military requirements for defense purposes and should be on a temporary basis. The American taxpayer is entitled to a substantial reduction in taxes as soon as the nucleus of the defense program is well underway. If the additional taxes are placed on a permanent basis, it will be very difficult to effect the substantial reduction that I feel should be forthcoming within the next two or three years.

I have received inquiries concerning the new income tax regulations on the sale of one's home. Under the present law if you sell your residence, you are selling a capital asset and fifty percent of the profit is includable in gross income provided you have owned the home for more

than six months. If you have owned it for less than six months, the entire profit is includable in gross income. Under the new version, the Revenue Act of 1951, as passed by the House, a person may sell his home and repurchase another home within a period beginning one year prior to the date of such sale and ending one year after such date and use the proceeds to purchase another home. If he uses the entire proceeds from his old home to purchase the new home, he will not be required to pay any income tax on the sale price of his old home. However, if he purchases a new home at a less price than that for which he sold his old home, he of course will be required to account for the difference between the purchase price of his new home and the selling price of his old home.

Visitors in the home of Mr. and Mrs. James R. Robinson over the week-end were Mr. and Mrs. H. R. Miller, Jr. and sons; Mr. and Mrs. H. R. Miller Sr. and granddaughter of Olton; Mittie Hill, Muleshoe; Mr. and Mrs. Britain Robinson, Elk Grove, Calif.; Mr. and Mrs. Tom Robinson, Mrs. Leora Robinson, Mrs. O. E. Sherman, Mr. and Mrs. Wilbur Bell and sons; Mr. and Mrs. Roy Brittain all of Hereford.

State November Draft Call 575

AUSTIN—November draft call for Texas is 575 men, Brig. Gen. Paul L. Wakefield, state Selective Service director, announced today. No local quota has been assigned.

The official call was received

from national Selective Service headquarters in today's mail.

The Texas November quota is 232 less than the state quota for October, 44 less than the September quota, 197 less than the August quota, but 208 more than the July quota.

Part of the men to be inducted in November will go to the Marines, as has been the case during the past several months.

State draft headquarters and local boards have no control over the factor of the armed service which the man enters.

Currently men are assigned to either the Army or the Marine Corps.

General Wakefield said his office expected to have local board quotas for the November call figured and in the mail by Wednesday, September 12th.

The November quota brings the Texas total of men called for since the beginning of the United Nations fight in Korea to 29,980. Around 75,000 Texans have been examined to fill these calls.

Unless conditions change, local boards generally have enough examined and acceptable men on hand to last the remainder of the year, or perhaps longer, the state draft director said.
