## Nazis Indicate Reds Advancing In Kuban Area

LONDON, Sunday, May 30 (AP)—The German radio announced early today that a Soviet battering ram had forced the German Kuban troops to "adopt a particularly elastic warfare"—the term used during the winter's Axis retreat in Russia.

This was the first intimation that Russian power in the northwestern Caucasus had produced definite results in the Red army's effort to crush the narrow German bridgehead extending from Novorossisk on the Black sea across the Taman peninsula to Temryuk—but Moscow still remained silent on the progress of the fighting.

A midnight Soviet communique recorded by the Soviet monitor merely said "fighting continued" northeast of Novorossisk in the Kuban river district—the same phrase used for three consecutive days.

A Berlin broadcast recorded by the Associated Press quoted a German war reporter as saying: "In view of continuous Soviet attacks it proved necessary to adopt a particularly elastic warfare" in the Kuban river area.

In their lengthy and detailed reports of the Caucasian front the Germans have claimed since last Thursday that a large scale Red army offensive was underway, and that the Russians were employing 150,000 men and hundreds of tanks, planes and artillery guns in an attempt to crash through to the Kerch Strait opposite the Crimea.

Beyond announcing intensive aerial fighting in the area, Moscow has kept silent, a frequent practice during the initiation of important campaigns.

The aerial warfare extended all along the Russian front, Moscow declaring early today in one broadcast that long-range Soviet bombers had made a mass raid Friday night on Vitebsk, important railway junction 75 miles northwest of Smolensk, German anchor on the central front.

Reinforced by American-built planes, the Russian aerial offensive has increased in parallel power with the RAF and American offensive in the western European and Mediterranean areas.

## Mississippi's Crest Lowers

The crest of the mighty Mississippi rolled ponderously into the nation's southlands Saturday and apparently the worst of the flood was over.

Below Cairo, Ill., a much broader channel and more massive levees are expected to take the unruly waters.

At Beardstown, Ill., the flooded Illinois stood several feet above the town's level at 29 feet. Levees still were holding the falling waters.

At Cape Girardeau, Mo., the Mississippi dropped to 41.6 feet, a nine-inch fall in 24 hours.

Still far out of its banks upstream, the Arkansas sent its 33.78 foot Pine Bluff, Ark., crest surging downstream between massive Mississippi river type levees which were expected to hold firmly. Previous record level was 33 feet, set in 1935.

## Enemy Forces Pocketed In Small Sector

WASHINGTON, May 29 (AP)—Relentless advances by American troops on Attu Island have driven the bulk of remaining Japanese troops into a single mountainous area, covering only three to four square miles.

The navy announced today this area, southwest of Chicago harbor at the island's northeastern tip, was under steady assault following an heroic American victory won above the clouds on Fish-Hook ridge by tough mountain troops.

To reach Japanese entrenchments on the ridge, which flanks the enemy-held area on the south, our soldiers inched their way forward over rugged and snowy terrain.

Finally they had to scale 60-degree slopes, under a deadly hail of bullets, to reach the enemy nests above the clouds.

The battle of the clouds began about mid-week and apparently was completed in two days of heavy fighting. It was regarded here as marking the beginning of the end of the last Japanese foothold of any importance on Attu Island.

It appeared that the conquest of the island might be over within three weeks of its beginning.

The conquest of Attu is expected to be followed immediately by measures to neutralize Japan's main Aleutians base on Kiska Island, and reduce the enemy forces there by bombing to the point at which they will be able to put up only minimum resistance to amphibious attack.

Japanese Talk Of Better Battleship

The Berlin radio, broadcasting a report from Tokyo, said Saturday that Japanese newspapers were giving front page display to pictures of a new battleship.

"Foreign naval experts, after having seen the pictures, declared the new Japanese battleship was doubtless superior to United States battleships of the Iowa type," according to the broadcast-report recorded by the Associated Press.

## Will We Fail?

Howard countians are faced with a task and a tradition. Never before has this county fallen down on its bond sales effort but with Monday the only day left to purchase bonds on the May quota, the county is still \$11,503 short.

Sales of bonds up to Saturday amounted to \$103,797 but the quota for this month was \$115,000, a little larger than normal but not as large as some of the quotas which residents have met other months.

## US BOMBERS BLAST FRENCH POINTS

### Planes Range Long Distance To Smash Japs

"Margin Of Safety" Extended In New Allied Bombings

ALLIED HEADQUARTERS IN AUSTRALIA, Sunday, May 30 (AP)—Gen. Douglas MacArthur, who has said the range of his bombers constituted the Allies' margin of safety in the Southwest Pacific, extended that margin yesterday by sending Liberators more than 1,000 miles from Australia during attacks on enemy shipping and air bases.

Liberators made the long flight to bomb three islands of the small Sunda group which are distinct from the large Sunda group of Sumatra, Borneo and Java. Two Liberators powered their way west to Soembawa in the steppingstone group of islands westward of Darwin to start fires in the village of Bima. One then went on to Lombok, next to Bali, to bomb the Rambang airbase. Waingapoe, on Soembawa island, also in the little Sunda group but nearer to Australia, also was raided.

Another Liberator flew northwest over the Banda sea to Boeroe island, some 700 miles from Darwin, to score damaging near misses on a 1,000-ton cargo ship pulling six barges, strafe the boats and attack the island.

Nearer Australian bases, a Japanese convoy of two small warships and four medium-sized merchant vessels was spotted at Hansa Bay which is on northeast New Guinea, midway between Wewak and Madang.

The Hansa Bay convoy first was sighted by a Liberator on reconnaissance east of Wewak yesterday morning. This Liberator was pounced upon by four Japanese fighters, shot two of them down, reported what it had seen, and proceeded to strafe coastal villages from Saldor to Finaschhafen on the trip home.

That evening another Liberator bombed the convoy, leaving a 5,000-ton transport smoking.

### Jap Drive Renewed In Central Hupeh

CHUNGKING, May 29 (AP)—Japanese troops with aerial support have renewed their attack in central Hupeh province, and "severe fighting is proceeding along the entire line," a Chinese high command communique announced today.

The Japanese attack was launched Friday morning "following adjustment of our central positions" in this region where the Japanese are striking in the direction of Chungking.

An assault by reinforced Japanese units southwest of Ichang on the Yangtze river was checked, the communique continued, and the Chinese heavily engaged other troops driving west from Ichang.

KANSAS CITY, May 29 (AP)—Vernon Resch hauls war workers to their jobs in a hearse. Resch wanted to join in the share-the-ride movement. He couldn't find a suitable car so he bought a hearse and installed church pews in it.

Now he is bringing 15 employees of the North American Aviation, Inc., to work here daily from Independence, Mo.

### Two Die In Plane Crash In Lubbock

LUBBOCK, May 29 (AP)—Lieut. Howard D. Rogers, Altus, Okla., and Staff Sgt. William C. Frederick, Detroit, Mich., stationed at the South Plains Army Air Field here, were killed yesterday at Littlefield, Tex., on a routine training flight, the public relations office announced today.

TULSA, May 29 (AP)—T. Karl Simmons, wealthy Tulsa oil man, has been subpoenaed as one of 15 state witnesses in the trial of Mrs. Ella B. Howard, 44-year-old Fort Worth divorcee, charged with first degree manslaughter in connection with the fatal shooting here March 25 of Mrs. Simmons.

### Fortresses Spread Ruin Over Italy

Sub And Shipbuilding Center Victim Of Longest Flight

ALLIED HEADQUARTERS IN NORTH AFRICA, May 29 (AP)—Fleets of Flying Fortresses and Liberators spread the pattern of ruin to new areas of the Italian mainland yesterday and strong forces of lesser aircraft pursued their relentless campaign to knock out the island-based air defenses of the exposed peninsula.

Almost 100 fortresses, spanning the greatest distance yet in their offensive against Italy from North Africa, bombed the submarine base, shipbuilding center and industrial port of Leghorn, 160 miles north of Rome and left a great cloud of smoke wreathing the docks, shipyards, and oil refinery.

This was the first raid of the war against the home town of Count Galeazzo Ciano, former Italian foreign minister.

In a companion assault, a score or more of Liberators from the Middle East air force, flying in two waves, dropped 80 tons of bombs on the air base at Foggia, 80 miles east of Naples.

(London sources said large units of the shore-bound Italian fleet may have been stationed at Leghorn, and observers said the attack was a timely demonstration of the vulnerability of the Italian fleet which apparently does not have a single refuge not exposed to Allied bombs.)

The communique from Gen. Dwight D. Eisenhower's headquarters said "great damage" was done to the Leghorn shipyard. Three supply ships were hit.

The Liberators which attacked Foggia, near the Adriatic side of the peninsula, claimed direct hits on several hangars at that important air base, and the destruction or damaging of at least 13 bombers on the ground.

One of the most effective raids on Sicily also was carried out by the RAF's big bombers from the desert which shelled new destruction of August oil installations and railway station.

### Italian Fleet Is Held Back

WASHINGTON, May 29 (AP)—Failure of the Italian fleet even to delay the reopening of Allied communications lines through the Mediterranean aroused speculation today over the possibility that the battered but still formidable sea force is being held in reserve for some momentous development in the European war.

Two possible uses of the fleet, which may include as many as seven or eight battleships, were considered in informed quarters:

1. If the German high command has effective control of the force with its own officers in key spots, it might be employed at Hitler's direction to battle any Allied invasion thrust across the Mediterranean into Europe. Properly fought, the fleet could offer considerable resistance to a British-French-American invasion armada.

2. If Italians still have effective control of their navy, they may be holding it not so much for its fighting powers as for its value as a force with which to bargain in case the Italians decide to try to make terms with the Allies.

TULSA, May 29 (AP)—T. Karl Simmons, wealthy Tulsa oil man, has been subpoenaed as one of 15 state witnesses in the trial of Mrs. Ella B. Howard, 44-year-old Fort Worth divorcee, charged with first degree manslaughter in connection with the fatal shooting here March 25 of Mrs. Simmons.

## Butter Prices To Be Cut Under OPA Subsidy Program

WASHINGTON, May 29 (AP)—Breasting a tide of criticism over the handling of food problems, the Office of Price Administration announced tonight its subsidy on butter will go into effect next Tuesday at the rate of 5 cents a pound.

Retail prices beginning June 10 will reflect the cut, which amounts to about 10 percent, OPA said, explaining the lag between the subsidy payments and the cut in retail prices is due to the fact that the subsidy will apply only to newly-produced butter. The effective retail date has to be set later because of pre-subsidy butter that will be in trade channels during the 10-day period.

At the same time, OPA said the promised 10 per cent subsidy roll-back in meat and coffee will follow shortly. It was understood from other sources that the meat program probably will be announced in a week or 10 days.

OPA's announcement came as criticism, in congress and out, of the handling of food problems and prices raised the prospect that James F. Byrnes, the new war mobilization director, will have to cope with it quickly.

Among the things Byrnes likely will settle are:

1. The extent to which subsidies may be used.

2. Whether food matters should be concentrated under the agriculture department or whether all price-fixing that affects farm products should remain a joint question for OPA and Food Administrator Chester C. Davis.

OPA officials said the "rollback" program has been approved by Byrnes, and that it is assured of going ahead in spite of opposition from some congressional sources and Davis.

The subsidy on butter will be paid by the Defense Supplies Corp., a subsidiary of the Reconstruction Finance Corp. At the rate of five cents a pound at the creamery level, beginning Tuesday. Next Friday the prices creameries charge others will be cut by the same amount. Saturday wholesale prices will be cut by the five-cent margin. The retail price cut will take place the following Thursday, June 10.

Vociferous objection to the subsidy plan has come from some farm groups. A senate agriculture subcommittee has drafted legislation to forbid such payments without specific authorization from congress. The meat-butter-coffee subsidy has been estimated unofficially to cost \$400,000,000 a year.

## Jeffers Has His 'Cradle' Rocking

BATON ROUGE, La., May 29 (AP)—The nation's rubber czar, William Jeffers, has his "cradle of synthetic rubber" rocking energetically for a display to top army, navy and production chiefs arriving with him here tomorrow.

Already more than half the vast Baton Rouge 70,000-ton rubber facilities are in production, a feat attributed by Jeffers, during his recent feud with Undersecretary of War Robert Patterson, to vigorous action rather than "sitting around desks and issuing orders and grousing."

Now Jeffers and Patterson, having buried the hatchet publicly in their dispute over priorities, are making their promised tour together. Their avowed purpose is to "review the situation on the ground to the end that any bottlenecks that may be found may be broken for the benefits of the related programs."

## LONDON PAPERS SPECULATE ON PROSPECTS OF INVASION

LONDON, May 29 (AP)—London newspapers speculated in lively fashion today on the prospects of European invasion, with one saying that "the greatest naval operation in history is imminent," while the Rome radio lugubriously declared that "now the enemy has chosen Pantelleria, Sicily and Sardinia as his objectives."

The Italian broadcast, recorded by the Associated Press, expressed conviction that Italy was marked for an invasion attempt soon.

A military commentator of the Rome radio asserted that the invasion of Italy would be attempted with "thousands of barges full of marines under an enormous air umbrella," but declared that even if the Allies succeeded in gaining an initial toe-hold, "they would soon come up against such a formidable defense that they would soon be thrown back once more."

## U-BOAT BASES ARE TARGETS, THIRTEEN YANK PLANES LOST

LONDON, May 29 (AP)—The greatest fleet of American heavy bombers ever sent out from Britain hammered Nazi-occupied France with a triple daylight assault late this afternoon in a thundering windup to the most devastating week-long bombardment of Europe.

Returning airmen reported the bombardiers scored bulls-eye hits on the targets with 2,000-pound block-busters.

Flying Fortresses smashed through swarms of enemy planes to blast the U-boat base at St. Nazaire and military targets at Rennes while unescorted Liberators pounded the submarine base at La Pallice.

A communique issued jointly by 8th U.S. Air Force headquarters and the British air ministry said 13 bombers were lost in the three-way assault.

Clearing the way for this widespread attack, American, RAF, Dominion and other Allied fighters swept the coast of northern France in swift strikes at advanced bases of the German air force.

It was the first outing for the four-engine heavyweights of the 8th U. S. air force since the raid on Emden and Wilhelmshaven May 21, when they lost 13 bombers and downed 74 enemy planes.

Today's loss of 13 bombers was the second largest ever suffered by the American heavies.

First axis broadcasts ignored the battering of the U-boat bases but reported a rain of ruin was heaped upon the residential areas of Rennes, causing many casualties.

In a broadcast recorded by the Associated Press, the Vichy radio declared that Allied planes blasted Rennes, France, about 4 p. m. with a violent attack that lasted only a few minutes but caused heavy damage. Many bombs were dropped from a great height, the broadcast said, adding that at least 115 persons were killed and others were believed buried in the debris.

Flying fortress crews returning to one base from the St. Nazaire raid said they concentrated on the lock gates of the basin into which new submarines are launched.

They said they saw many direct hits on the gates, which if actually knocked out would keep the U-boats from either entering or leaving the basin. Photographs also indicated that the gates were damaged severely.

Some of the bombs which missed the gates were said to have exploded among the submarines in the basin.

The operation was the ninth of the month for the American heavyweights, equalling their previous record established during March.

The newest sledge-hammer blows at Hitler's European fortress came at the end of an unprecedented week in which the RAF alone dumped nearly 5,000 tons of explosives on Germany's industrial Ruhr valley, winding up the first year since its original 1,000-plane raid on Cologne, May 30, 1942.

Even this mounting record of devastation heaped upon Germany and Italy alike from England and North Africa was described as only "chickadee" by Air Marshal Sir Arthur T. Harris, chief of the RAF bomber command, who declared that the "day is coming very quickly" when the American air force will be hitting with staggering power.

In a speech at Dumfries, Scotland, he predicted that as many as 36,000 crewmen eventually will participate in a single week's raids on Germany.

## London Has "Alert"

LONDON, Sunday, May 30 (AP)—An air raid alert sounded in London early today, but was followed shortly by an all-clear signal.

It was the capital's first alert in eight days, and was caused by an unidentified plane which later proved to be friendly.

## REVIEWING THE BIG SPRING WEEK

BY JOE PICKLE

Selling poppies for the benefit of disabled veterans one of the Veterans of Foreign Wars auxiliary member Saturday ran in to a man who answered her appeal to aid the crippled soldiers with this: "What have the soldiers ever done for me?" Contrast this (call him whatever you will) creature with the soldier who laid a dollar on the line and refused change.

Fishing will be in order again at Moss Creek lake Tuesday, and a few days of intense poling like it got last season ought to about polish off the pond as a casting spot. Price has been raised to 50 cents this year. Isn't that a violation of the piscatorial price ceiling?

Big Spring and Howard county have a mighty fine record at stake Monday. Showing of E series bond purchases on that day will determine if we keep our custom of meeting every quota. If you can spare any money at all, go to the postoffice Monday and buy as many bonds as possible.

# DeMille's Latest Spectacle Film, 'Reap The Wild Wind', At The Ritz

One of the greatest motion pictures ever filmed by the master movie-maker of our time, Cecil B. DeMille's "Reap The Wild Wind," is at last headed this way for what should prove a popular run at the Ritz theatre today and Monday.

It was shown some months ago in some of the nation's key movie houses at advanced prices, but is now being released generally at popular admission prices. Photographed in striking Technicolor, DeMille's latest Paramount

super-epic boasts a cast more than equal to the demanding performances called for by the Thelma Strabel Saturday Evening Post story on which the film is based. In the top starring roles are Ray Milland, John Wayne and Paulette

Goddard, forming an exciting and red-blooded triangle as the screen has ever seen. Supporting them are Raymond Massey, Lynne Overman, Robert Preston, Susan Hayward, Charles Clifton and Walter Hampden, a cast which all moviegoers will agree typifies the great producer-director's flair for bigness.

That flair, according to those who have already seen the picture, is evident throughout "Reap The Wild Wind." Mixing adventure and romance, the charm of the old South and the terror of hurricane-whipped seas it tells a story that moves from picturesque Charleston saloons to tall-masted sailing ships piled up on treacherous reefs, and practical salvagers threatening America's freedom of the seas.

It tells of the pulse-quickenng Loxi Claiborne, played by Paulette Goddard, loved by two strong men, a girl equally adept at wielding a fan in drawing room flirtation or a marlin spike aboard one of her ships.

It tells of the rivalry of the two men, Milland and Wayne, climaxed by a thrilling life-and-death battle on the floor of the ocean with a giant squid—a nightmarish creature with a 50-foot spread of tentacles, an eight-foot body and huge unblinking eyes. Reports have it that this scene is like nothing ever filmed before for sheer suspense and thrill-power.

All of it is true to DeMille form—all of it is big, spectacular and unforgettable, which should make it number one on your movie entertainment list.

## Musicomedy In Color At The Queen

A rollicking musical extravaganza, filmed in gorgeous Technicolor against the stunning background of eye-filling Lake Louise, is 20th Century-Fox's "Springtime in the Rockies," which winds its merry way into the Queen theatre today and Monday, headed by a star-studded cast including Betty Grable, John Payne, Carmen Miranda, Harry James and His Music Makers, and Cesar Romero.

Producer William LeBaron obviously was in a magnanimous mood when he was gathering talent for this picture. To the unusually generous star roster, Mr. LeBaron added a dozen or more entertainment aces, including Charlotte Greenwood, the eccentric dancing comedienne, Edward Everett Horton, Frank Orth, comedy delight of "My Gal Sal," and Jackie Gleason.

Much of the action takes place at Canada's enchanting Lake Louise, known the world over for its wondrous beauty. However, it is conceivable that more than one moviegoer, with an eye to scenic values, might anticipate with even greater relish the prospect of viewing Miss Grable in the full glow of Technicolor magic. At any rate, the Lake and the Grable would seem to account adequately for the eye appeal of "Springtime in the Rockies."

As for listening thrills, let's just mention Harry James and His Music Makers, and say no more. James' talking trumpet is to young America a cause celebre. His torrid interpretations of four new sock tunes by Mack Gordon and Harry Warren, any of his many fans would vow, could make the Rockies themselves rock with rhythm. And, of course, Helen Forrest, a James regular, chips in with Miss Grable, Payne and La Miranda on the vocals.

Carmen Miranda's Latinizing of "Chattanooga Choo Choo" should prove to be still another musical highlight. Irving Cummings directed the film from a screen play by Walter Bullock from an adaptation by Jacques Thery. Dances were staged by Hermes Pan.

In the 14th century Dortmund, Germany, withstood a siege for 21 months.

## Thrill-Drama Of War Shows At The Lyric

England's Air Ministry, War Office and the Admiralty were given actual secret information by the Royal Netherland Government Information Bureau in London to aid in the spectacular production of Michael Powell's "One Of Our Aircraft Is Missing," which is featured today and Monday at the Lyric theatre.

The information provided by the Royal Netherland Government was incorporated in the story of "One Of Our Aircraft Is Missing" and provides the film with some of its most thrilling and unforgettable sequences. These show the secret and daring workings of the Dutch underground which is daily defying the Nazi conquerors, even though hundreds of Hollanders are daily shot as hostages.

The story of "One Of Our Aircraft Is Missing" concerns six RAF fliers who are forced to bail out over Holland and are determined to get back to England. But when they fortunately contact the Dutch underground, they are unable to prove their story—for their aircraft, a Wellington bomber, had not crashed but had gone on across the North Sea with not one of the crew on board. This strange situation, with its dramatic implications, heightens the adventurous plot-line of the story until they finally find a startling way of solving their dilemma.

"One Of Our Aircraft Is Missing" was written, produced and directed by Michael Powell and Eric Prasburger, and the cast features Eric Portman, Godfrey Tearle, Hugh Williams, Pamela Brown, Joyce Redman and Googie Withers.

## Draft Of Labor?

ORANGE, N. J., May 28 (AP)—A nationwide draft of labor was predicted yesterday by Col. Edgar N. Bloomer, state director of selective service. He said the American people were displaying "no willingness to go into war work."

COWLES IN LONDON LONDON, May 28 (AP)—John Cowles, president of the Minneapolis Star-Journal and special assistant to H. R. Stettinius, lease-lend administrator, has arrived in London to confer on lease-lend operations. He came here from North Africa.

**Brutality**—A atrocities committed by the Japanese in their overrun of China are presented in stark realism by the camera in a documentary film, "Ravaged Earth," which the Lyric theatre is presenting in special three-day showings Tuesday, Wednesday and Thursday. It is made up of authentic filmings, and is so frank of revelation of war's brutalities that children will not be admitted.

**DeMille Drama**—Ray Milland, Paulette Goddard, Susan Hayward and John Wayne are shown here in a scene from Cecil B. DeMille's 30th anniversary picture, "Reap The Wild Wind." Said to reach a new high in DeMillean spectacle, the film is based on the Saturday Evening Post serial and is done in Technicolor. It is the Ritz theatre's feature for today and Monday.

**Star Team**—Tops as youthful entertainers are the irrepressible Mickey Rooney and charming Judy Garland, who are teamed for talent in "Babes On Broadway," a gay musical that has melody, dancing and humor. The picture is at the State theatre today and Monday.

## Japanese Outrages In China Are Revealed In 'Ravaged Earth'

The picture "Ravaged Earth," to be shown for three days—Tuesday, Wednesday and Thursday—at the Lyric theatre, brings to the screen the shocking facts of Japanese atrocities which have been in top headlines for many months. These films were made by Mark L. Moody who frequently risked his life to secure the indisputable evidence which indicts the Japanese as the most cruel, most inhuman nation in the world.

## Jap Diet Summoned For 3-Day Session

By The Associated Press  
The Japanese diet has been summoned to an extraordinary three-day session beginning June 15, a Tokyo broadcast recorded by the Associated Press announced today. The broadcast recalled that it would be the fourth extraordinary session since General Hideki Tojo assumed the premiership on Nov. 18, 1941. The 51st regular session was adjourned on March 20. The Office of War Information said a Tokyo broadcast reported the special session had been called to consider a supplementary budget and "other wartime measures."

# AAA Office Furnishing Farmers With Sketches Of Their Land

Clerks in the AAA office are busy mailing each farm operator in the county a sketch of his farm, taken from aerial maps, showing the permanent field boundaries and acreage tilled. As soon as the farmer's crop is planted, he will return these forms to the office in order that his compliance with the AAA program can be determined.

The sketch is intended to give farmers only the acreage in permanent fields. In case an entire permanent field is planted to only one crop, farmers will not have to make any measurements for that field. Where only a part of a permanent field is planted to a crop, the acreage must be measured.

Farmers may report their measurements in feet, yards, or chains (66 feet). Measurements will be subject to a spot check and the AAA office is aiming at getting all the measurements finished before July 1.

## Farm Machinery Ration Lifted

Quota restrictions on farm machinery have been lifted, according to word received here by the local AAA office from its state office, M. Weaver, administrative officer of the AAA said Saturday.

Formerly each county was assigned a certain quota of each type of farm machinery which was rationed by the Farm Machinery Rationing committee of each county.

The only restriction now, Weaver explained, is that farmers must locate the machine in dealer's stock before they may apply for a certificate from the AAA office. The certificate is still necessary for the purchase of the machinery. Farmers may locate the needed machinery in other counties besides their own, it was advised.

## More Refinery Output Urged

AUSTIN, May 29 (AP)—Authorization of increased refinery output was recommended today to forestall further gasoline shortages, characterized by Railroad Commissioner Ernest O. Thompson as "serious even in mid-continent area of Oklahoma and north to Chicago."

Thompson said that he had been informed there is "no gasoline for sale in quantities anywhere in the mid-continent area."

The commissioner again predicted a critical shortage of crude oil by the summer of 1945 unless the price of oil is raised to encourage additional wildcatting and bringing in of new fields.

"The army's requirements more than offset the saving of rationing," Thompson said.

"The refiners are selling as much gasoline as ever and they are making less gasoline because of the limits set on refinery throughput."

"This is bound to lead to further shortages unless the petroleum administrator for war permits refineries to run more nearly at capacity than is now allowed, which is 78 per cent."

## Five Killed In Midland Crash

MIDLAND, May 29 (AP)—A crew of five was killed when a B-24 army bomber from the Midland Bombardier school crashed and burned yesterday, 40 miles north of its base, the school's public relations office announced.

The dead were Capt. Samuel S. Revis of Midland, who is survived by his widow, Mrs. Orinne Revis; Flight Officer Samuel W. Thomas, son of Mrs. Maude B. Thomas of Post, Tex., whose widow, Mrs. Beth Ann Thomas, resides at Odessa; Flight Officer Robert L. Williams of Paragon, Ark.; Pvt. Donald T. Beaulieu of St. Cloud, Minn., and Pvt. Wayne Maki, 21, of Ironwood, Mich.

## Private Rises To Be Cadet Commander

SAN ANGELO, May 29 (AP)—You've heard the story about the messenger boy who entered Washington's fabulous Pentagon building and came out three weeks later a lieutenant colonel. Goodfellow Field, army air force basic flying school near here, has a better one because it is true.

When the field was opened, Jan. 15, 1941, the man who hoisted the colors was Private First Class Kenneth M. McNeese. Today Private McNeese is First Lieutenant McNeese and he's commandant of aviation cadets, one of the most responsible officer assignments on the post.

Lieutenant McNeese, 32, is son of Mr. and Mrs. S. J. McNeese, Brassfield, Miss.

## In The Swim!

ELBERTON, Ga.—Four Elberton boys yearned for a swim. They got it—and how!

Caught breaking into the city pool after closing hours, they were ordered by mayor Ben I. Sutton to spend three hours every day in the pool until further notice.

## 1047th Guard Sqdn.

Captain T. M. Archer, our commanding officer, is on leave at Monterey, Mexico. Lieut. O'Conner, the field's mess officer, also made the trip. We can expect to hear a lot of colorful stories about our neighbors to the South when the officer's return. Who knows—we may even have a new Mexican dish on the menu . . . The wives of Sgt. Maxia Hunter, Cpl. Harry Wroble and Cpt. W. G. Thompson left for their respective home towns. . . S/Sgt. Jay Simms returned from his furlough a day early, and no one could see the point behind it—including S/Sgt. Simms. He was put on the midnight shift the same night. . . Talking his calisthenics conscientiously now is Sgt. "Phatso" Harlon. We all know the reason for it. He's seen regularly in town courting gorgeous blonds with a gorgeous chassis. They'll make a handsome couple after another week of calisthenics. . . T/Sgt. McAdoo is one G. I. who's anxious to see the WAAC conjuring arrive at the field, since he found them so entertaining on his trip to and from Fort Leonard Wood, Missouri. "Nothing like a girl in uniform," says the sergeant. . . Sgt. Walter T. Dever is the most eager C. Q. in the squadron. He reports for duty an hour ahead of time and doesn't want to be relieved at the end of his shift. What goes, Sarge? . . . A frequent visitor to Big Spring is Sgt. John E. Prewitt. The Sgt. calls the trips a course in "extended order drill." He mentions nothing of the local "Angel of Mercy" who's there waiting for him. . . S/Sgt. Dealbert L. Rottrucks' wife was visited by Mister Stork who left a daughter for the Rottrucks. We've seen no signs of cigars to date. . . There's a reason why S/Sgt. Woodward is spending so much time in the post restaurant. . . Men on furlough from the 1047th are: Sgt. L. W. Gilbert, Cpl. G. L. Danke, Pfc. M. L. Gill and Pfc. O. E. Moore, H. W. Rhoad, C. L. Mann, H. L. Fullea, and M. L. Tucker.

## 2052nd Ordnance

Corporal Nagelman was seen still sitting in the theatre the day following the U. S. O. Camp show "Bubb'n Over." Probably the corporal was there all night. Upon inquiry we found out he was waiting for the show to come on the stage again. They were pretty girls, weren't they "Tax?" . . . "We all" heard that a Coca Cola truck which was standing still, banged right into Cpl. Taylor's moving auto not so long ago. Can you imagine that? . . . Supply Sgt. Wexler is now anticipating getting lace curtains for his supply room. It will then be Ye Olde Supplye Room. Won't that be just ducky? . . . Our spotless softball record was marred by the 812th forfeiting to us. . . Pfc. Howe is in the bucks (or was until the boys got to him). We think he still has a little of the dinero left, for next month he's planning to take that final step. After this S/Sgt. Bartek will be a little more careful about wearing his gas mask the full time, for he doesn't want to be reprimanded any more. . . Halder, yes that's Cpl. Halder, has not been satisfied with just small close hops in his P-38. No, he's going in for bigger hops in bigger planes now. He'll soon be known as "Bomber" Halder. . . Cpl. Robinson just returned from California and brought back with him a whole bag full of card tricks. So he said! But after he tried a few of his Houdini's on a few of the boys, they proved to be all "stink." Barracks No. 3 claims to have a new recruit. So they say. We heard his name is sump'n like Cpl. Wedemeyer or Weedhemeier or sump'n like that. . . Pfc. Jost has been having heart trouble lately, so we've been told. Blonde or Brunette, Jostie? . . . Men now enjoying furloughs are S/Sgt. Hart, Sgt. Swartzberger, Cpl. Graham, Cpl. Gross, Cpl. Rigge, Pfc. Johnson, Pfc. Munch, Pvt. Yancy, Pvt. Miller, and Pvt. Milligan. Cpl. Bird still has his periodical headaches. Some say it's sinus, others know better. . . Pfc. Kelley is going to be a Commando, so it has been rumored. We also heard that if he doesn't make the grade, they'll make an M. P. outa him. Good luck Irish. . . Cpl. Alger is learning to roller skate. After his wounds heal from his first attempt, he's going back for more punishment. . . See "you all."

## 78th Trng. Group

Headquarters and Headquarters Squadron, 78th Bombardier Training Group is the new official name of the old 818th Bombardier Training Squadron. Most people think you uttering when you read off that handle. . . Sergeant Ernest H. Park has gone on a furlough and word has been received from him that it has been raining ever since he reached Arkansas. And, the "Head Man" was expecting to do a lot of hunting. . . The softball team is still going strong, having only one set-back and that was at the hands of the league-leading 365th base headquarters squadron. Pfc. Bill Ramsey is leading the team in batting with a .437 average and runs scored with six. Cpl. Norman Waller is tops in homers with two. Sgt. Chuck Ogle leads in free passes with seven, and S/Sgt. Flynn Dunham has pitched six victories while losing only one. The team is third in batting in the league with a .269 average and leading in fielding with a .962 average, having made only five miscues in 137 fielding chances. First Lieut. Joel S. Jackson has taken over the management of the team while Ramsey was elected team captain last week at a called meeting.

A. A. F. B. S.'s most ardent softball fan is none other than Major James F. Hall, the 78th's squadron commander. Not only is he present for every game, but also works out with the boys during practice. And, incidentally, the major is quite a fireball artist. He's our batting practice pitcher. . . It's rumored that S/Sgt. Dean Henry Holden, who was scheduled to trek down the aisle to take the vows of matrimony June 15th, has changed the date to July 4th. . . Sgt. Elbert S. Free, one of our two softball pitchers was shipped to another field last week. Word comes from "Big Free" that he's pulling

# Waiting Game Exhaustion Of Allied Power Held As Germany's Only Hope

WASHINGTON, May 29 (AP)—A strategy of cautious defense, aimed at exhausting the Allies before they can achieve a decisive victory, was put forward today as Germany's only hope to avoid unconditional surrender—but with the belief expressed that the German high command is psychologically incapable of such a war.

Herbert Rosinski, native of Germany and a former civilian expert on the German naval staff, advanced both suggestions in an analysis of German strategy since the beginning of the war. Many informed persons in Washington share his prediction that Hitler and his generals instead of trying to salvage as much as possible from the wreckage of their ambitions by adopting a careful

war of attrition, will risk everything in one last and huge offensive. Asserting that it is still too early to assert with any assurance that the expected German drive against the Red army has been delayed, informed persons say there can be no doubt it was planned months ago in the belief that Von Arnim's forces could hold out in North Africa at least until late summer.

# Interpreting The War News—United Nations Carrying War Of Nerves And Air To Axis

By GLENN BABB  
The United Nations carried the fight to the enemy vigorously in two phases of the global conflict last week, the war in the air and the war of nerves. On most of the land and sea fronts the pre-invasion lull persisted as the Allies prepared the next blow in a secrecy that kept the axis and the Allied public alike guessing. The great experiment to determine how far bombing, continued day and night day after day, could advance the job of knocking Italy and Germany out of the war was thoroughly launched. The week saw new records set in the weight and scale of air attacks on Hitler's reich and Italy also was secured as never before.

Ruhr cities still struggling to recover from the floods loosed the previous week by the breaching of the Moeche and Eder dams. American flying fortresses topped the week off with a great daylight attack yesterday on continental targets. Against Italy especially the war of nerves was combined with the air attack. Winston Churchill, in Washington for the Allied strategy council, warned the Italian people that they would be wise to get rid of their present leaders and get out of the war before it was too late. American and British planes deluged large sections of the country with leaflets carrying the same message, that it was up to the Italians to say how long the soul-searing punishment from the skies would continue.

# Post War Building Boom Is Predicted

WASHINGTON, May 29 (AP)—A post-war building boom was predicted today by the commerce department. Because of the virtual elimination of private residential construction during the war, the department said there is "immediate" in sight a post-war demand for 4,000,000 to 4,500,000 family dwelling units in the nation.

# Texas Schools Selected For Army Training

WASHINGTON, May 29 (AP)—An additional 108 colleges and universities have been selected for participation in the army specialized training program and commanding generals of the service commands have been authorized to negotiate training contracts immediately, the war department announced tonight. The newly designated institutions bring to 145 the number taking part in the training of soldiers for technical phases of modern warfare.

# Redistribution Of Populations New Proposal

NOT SPRING, Va., May 29 (AP)—Redistribution of populations through organized emigration was proposed today by the French delegation to the United Nations food conference as one of three vital measures necessary to achieve a sound world economy after the war. The other two basic measures of postwar reconstruction were described by delegation chairman Herve Alphand as: 1. A policy of full employment in the great industrial nations. 2. A credit policy planned to foster reconstruction of ruined economies and the development of backward regions.

# Civilians Warned Against Wearing Military Insignia

Six months imprisonment or a three hundred dollar fine faces any civilian wearing army insignia, it was announced Saturday by Major Joe J. Robnett, provost marshal at Big Spring Bombardier school. "Civilians have been seen wearing air corps patches, insignia buttons, wings and even chevrons," Major Robnett said. "Civilians wearing these symbols of the army are liable to arrest and prosecution. The order has always been in effect but the war department has now ordered strict enforcement."

# Governor Approves Money Bill, Vetos 14 Other Measures

AUSTIN, May 29 (AP)—Gov. Coke Stevenson today chopped down 14 bills and resolutions passed by the 48th legislature and signed into law the general appropriation bill providing for expenditure of \$23,000,000 by state departments during 1944-45. As finally enacted, the measure provides \$5,126,504 less for departments than they have had during the current two-year period. Among measures of statewide application killed by veto were bills that would have loosened restrictions on qualifications of chairmen or members of party executive committees; authorizing district attorneys absent in war service to name assistants to perform their duties; lowering the rate of interest on all bonds held by the state board of education to three per cent; authorizing commissions of 45 per cent by employment agencies on teaching and certain other types of employment.

# Parachute Life Boat Is Tried

LONDON, Sunday, May 30 (AP)—The air ministry disclosed today the use of a motor lifeboat launched from a plane by parachute in the rescue of a warplane crew from the North Sea. It said the recent mission was the first accomplished since the tests of the craft, which are slung under Hudson air-sea rescue planes and can be dropped ready for operation with almost the accuracy of an aerial torpedo. The boat will not capsize. It is equipped with two special engines, portable wireless, sails, oars, full changes of clothing, medical supplies, food, signal flares, rockets and sufficient fuel to carry several persons a "considerable distance," the air ministry news service said. The first to be rescued in this manner were members of the crew of a Halifax bomber returning from a raid on Dortmund with three of its engines shut out of action. Forced down into the water, the fliers used the boat to make their way more than 50 miles through the North Sea. A Hudson plane of the coastal command air-sea rescue service spotted rockets which the Halifax crew fired from its dinghy. The Hudson signalled the position of the tiny boat to the rescue service base, then circled the survivors until a second plane carrying the lifeboat arrived.

# Post Band Makes Hit At Ceremony

Post band and orchestra from the Big Spring Bombardier school ran the first class of graduates from the women's ferry pilot school at Avenger Field at Sweetwater a close second in popularity Friday. The band, under direction of Warrant Officer Robert R. Bruner, played for the revue as the initial class received its wings. After lunch, the orchestra, under Sgt. Eugene Navratil, a Dallas boy, struck up an hour of music from a ring of women fliers and applause and kept Avenger Field ringing. In the evening, the 16-piece orchestra played for the dance which climaxed the event.

# Scout Camp Termed Best

Best of the district monthly camps to date was staged by Boy Scouts at the city park over the weekend, officials reported Saturday. Five troops set up camping sites for members of a leadership training camp to inspect. Most had novel layouts. Participating worst troop No. 1, headed by C. S. Edmonds, No. 2 by Charles Watson, No. 4 by Rev. R. L. Dunham, No. 5 by Arnold Seydler and No. 9 by Cecil Avery. Approximately 60 boys attended, and there were about 10 adult leaders, including the troop committee of No. 4 to stay overnight. Members of the training group inspecting were Rev. Dick O'Brien, T. E. Martin, Loy House, C. S. Edmonds, Elmer Dunham, Hollis Lloyd, Cecil Nabors, Elra Phillips, George Melear and Lee Payne. Martin Bean came as a representative from the colored training group. Troop No. 2 sponsors spent the evening with their troop engaging in contests. Adults got camping experience by cooking meats and vegetables with a minimum of utensils.

Sarah Carter is making an extended visit in the home of her sister, Mrs. Elvis Ballinger of Kermit.

# Many At Bombardier School Eligible For Good Conduct Award

Hundreds of Big Spring Bombardier school soldiers are now eligible for the Good Conduct Ribbon, it was announced Saturday at the school. New army regulations change the requirements for the ribbon from three years of service to one year of service since Pearl Harbor. The Good Conduct ribbon is a red ribbon with white vertical stripes. Men who have served one year since Pearl Harbor, have good records as soldiers and efficiency and character ratings of excellent are eligible for the new award.

# Eisenhower Calls For Axis 'Tunisia'

ALLIED HEADQUARTERS IN NORTH AFRICA, May 29 (AP)—Gen. Dwight D. Eisenhower said in a broadcast tonight that his team of American, British and French forces was ready for any further task and was determined to fight in concert with other Allied forces until "we shall have brought the last army of Germany, Italy and Japan to its inevitable 'Tunisia'." He ridiculed German propaganda efforts aimed at splitting the Allies as "snarls and whimpers of helpless rage." "This team is bound together by indestructible devotion to a common cause," the Allied commander in North Africa said in a British program called "All Africa Calling Europe." "We have witted the enemy's morale, for in this theater one of the best and proudest of his armies has been utterly destroyed," the American chief said. "The most important intangible he said, was the high degree of proficiency gained in Allied teamwork. "This demonstration of unity on the battlefield, of unity in adversity as well as in victory, is sorely puzzling the Axis today," Eisenhower said, "our solidarity terrified them."

# The Week

Continued From Page 1  
W. B. Hardy, district chairman, scouts have achieved more progress in the past three months than in any similar space of time here since the first troop was organized 30 years ago. And with increased support, the program has just started good. If there are men who are wondering what they can do to help here at home, perhaps membership in the Texas Defense Guard is the answer. There is an opportunity for service for many a patriotic man by simply contacting Capt. H. L. Bonannon for details. The chamber of commerce has taken up a campaign to promote installation of tennis courts at the stadium and possibly at other points in the city. This ought to be the beginning of a drive for a system of well equipped playgrounds within the city. It was necessary for the city commission last week to decline use of the community center in the city parks to a group because of inadequate facilities. That is to be regretted, for this unit was conceived and justified for just such purposes, and when the NYA moved out it was in its best shape to have served many a good area encampment. This column, for one, is proud of the showing made by the bomb team from the Big Spring Bombardier School in the bombing Olympics at Childress last Sunday. Harley being nosed out for top honors is something indeed. Hope these fellows have as much success with live targets someday.

# Suit Against Pappy Dismissed By Court

DALLAS, May 29 (AP)—A suit brought by Charles Lavergne Somerville questioning Senator W. Lee O'Daniel's legal right to hold the office of United States senator was dismissed today by Special Judge William M. Cramer of the ninety-fifth district court. The court sustained a plea in abatement and motion to dismiss filed by O'Daniel's attorneys, State Senator Jesse Martin and Arthur Lee Moore of Fort Worth. The plea contended that the senate has exclusive jurisdiction over O'Daniel's right to hold the office, and Judge Cramer sustained this contention. No appearance was made by Somerville.

# AP is ready wherever invasion comes!

**THE Associated Press plans its war reporting for this and hundreds of newspapers on a general plan a campaign for its advance.**  
Months before the invasion of Africa, AP's Chief of Foreign Service, John Evans, strengthened the staffs in London, Cairo, the Middle East, likewise, AP looked to its communications.  
The result was AP rushed the first story from the Second Front. It continued to provide readers of this newspaper with superior reporting to the finish of the campaign in Africa.  
Meanwhile, AP prepared for the invasion of Europe. It is ready with a chain of American-staffed bureaus that virtually ring "Fortress Europe"—London, with more than a score of seasoned war reporters under AP Chief of Bureau Robert Bumell; Algiers, with the crack staff under Chief of Bureau Edward Kennedy that covered the African campaign; Cairo, with a staff equally experienced and assigned to the Mediterranean and Near East; Bern, in the heart of Europe; Madrid, Stockholm, Ankara, Moscow, not to mention serving correspondents from Iceland to Iran.  
At home a corps of specially recruited experts under the direction of AP Foreign News Editor, Glenn Babb, is on hand to edit the news of invasion. Many were AP foreign correspondents in Tokyo, Berlin, Paris, London, Madrid, Rome.  
Thus AP and this newspaper are ready at home and abroad—wherever, whenever invasion comes!

## Fishing At Moss Creek Lake Starts On Tuesday

Fishing at Moss Creek lake, nine miles east of Big Spring, will begin Tuesday morning, city officials announced Saturday.

Delayed a month because the basin's supply of water had dropped so low, the season will still offer some concentrated fishing

since its level has been boosted by a foot.

Rules and charges have been altered since last season, and sportsmen were asked to take cognizance of this fact. New bag limits fix the maximum daily catch at five bass, five channel

cat or 10 crappie—or an aggregate of not more than 15 fish.

F. O. Lytton, state game warden, Saturday reminded fishermen that "anyone fishing with lure must have an artificial lure license." He added that "legal length on bass is 11 inches, on crappie seven inches, and on channel and blue cat 11 inches. Be sure and have your ruler."

Last season this season has been upped to 50 cents per person, and this must be paid at the concessions house. The city Saturday received its supply of fishing permits and there will be no hitch on this count.

Frank Covart, supervisor at the lakes, said that he did not have minnows available this year and that those who wish to fish with live bait must bring it with them.

Last season when Moss Creek lake opened to fishermen, many caught their bag limits quickly, and most of those going the first day caught some good fish. In the first two days, it was estimated that perhaps a ton of bass, crappie and channel cat were hauled out.

## Local Family Has Five Generations

Five generations are represented in the Myrick family here, and perhaps its members residing in this vicinity outnumber that of any other single family.

Mrs. J. H. Myrick heads up this family and has been a resident of Big Spring for the past 43 years.

Besides her children, there are 33 grandchildren, 36 great-grandchildren, and one great-great-grandchild.

Nearly 250 axis supply ships in the Mediterranean were sunk or damaged by the British between September, 1942 and January, 1943.

## Bitsy Grant Seeded No. 1 In Tourney

SAN ANTONIO, May 29 (AP)—Bryan "Bitsy" Grant of Atlanta, private first class at Kelly Field here, will be seeded No. 1 in the Texas Tennis association's state championship tournament which starts Tuesday morning at the San Antonio country club. Grant ranks No. 3 nationally.

George Ball of El Paso, ranked No. 17 nationally, probably will be seeded No. 2 in the tournament, according to Jimmy Langham, club tennis pro. John Hickman of San Antonio, who repeated as Southwest conference champion for the University of Texas this spring, will be seeded No. 3.

Some 65 names are registered, including Lieut. Karl Kamrath, who will play only in the doubles with Grant as a partner.

Other meet entries include Bernard Barzen, San Angelo, state high school singles champion; Check Harris and Winston Ellis, Corpus Christi, state high school doubles champs; Clarence Mabry, Alice, state high school singles finalist; and Shelby Prizell of Austin in women's singles and doubles.

## Pro Grid Meet Set For June

CHICAGO, May 29 (AP)—The National Football league's second meeting of the year has been called for June 16 and 20 primarily to prove the new schedule and draft an additional 200 collegians, but there's an outside chance one or more petitions for club franchises will be presented then, too.

Commissioned Elmer Layden today named Chicago as the site of the encore meeting to the April gathering, at which time member teams were unable to agree on a schedule.

The names of college players graduating between June 8 and October are being compiled by Layden's office for the draft session, the second held this year.

## Senators Hold First Place In American

NEW YORK, May 29 (AP)—The Yankees went on their biggest hitting and run-making spree in three weeks today to wallop the Cleveland Indians 9 to 5 and move close up among the leaders of the American league parade.

The Yanks went right to work on Lefty Chubby Dean, and drove him to the showers before he could get a man out in the second inning, thereby pinning the first defeat of the season on him, against three wins. Meantime, Ernie (Tiny) Bonham served up an easy ten-hitter for his fourth win of the year.

## Braves Drop Long Contest To Chicago

CINCINNATI, May 29 (AP)—Lonnie Frey, who used to labor for the Brooklyn Dodgers without getting too many laughs out of it, had a great big chuckle at the expense of the Bums today.

Now serving the Cincinnati Reds, the veteran second-sacker broke up a ball game today by belting a single with the bases loaded in the 11th inning to give the Reds a 5 to 4 victory.

What made it especially funny for Lonnie—aside from the fact it nullified a ninth-inning three-run Brooklyn rally that tied the score—was that the defeat left the Dodgers with only a shaky half-game hold on first place in the National league. The win boosted the Reds into fourth place.

## 365th Wins, Hitting Streak Of Millard Is Finally Broken

The 365th air base headquarters team kept its undefeated record intact in Friday play of the Big Spring Bomberdier School softball league, and set the stage for a down stretch drive for the first half title this week.

Miss Company softballers were the latest 365th victims, 5-3, while the Group II Reds plastered the Medical Detachment, 5-3.

Although it was eight straight for the 365th, it was a bad day for Cpl. John Millard, Dayton, Tenn. slugger, who failed for the first time this season to hit safely. He was up twice and once he was passed. Before coming to Big Spring, Cpl. Millard had a record of hitting safely in 39 games in the Midland Bomberdier School softball league—stood his record until Friday stood at 37 consecutive games of safe hitting.

Lasarus and Mortimer were hitting stars for the 365th, the former slapping a single and double, while Mortimer leaned heavily for a double and a homer. The three Miss Company hits were singles.

Lasarus at Short, Smeltzer at third, and Millard at first were

365th fielding stars, while Bergen at short and Wolfe at third were outstanding for the Mess Co.

Cpl. Melcher was more than a little wild for the Medicos, issuing 13 walks against three strikeouts and while yielding eight hits to the Group II Reds. Pvt. Bredemeyer, on the other hand, was steady for the Reds, whiffing eight and passing only four.

Ware had two singles to lead Medico hitting, while Thurston slashed out a pair of singles and a brace of doubles for a perfect day at bat to pace the Reds, who might have made it worse but for having 11 stranded on base.

Lis in leftfield and Grass at third were stalwarts aided for the Medicos while Thurston, at second and short, was hot for the Reds. However, the most sensational play of the day was by Pakush, who made a barehanded spear of a line drive and stepped on second in almost the same motion to effect an unassisted double.

Monday the 78th blues with the Group I Blues, while the 365th meets the Group I Reds.

Tuesday the 365th and the Group 3 Reds battle it out while the 365th and the Group I Blues meet in the game that ends the first half of the loop. Team managers and captains meet at 11 a. m. Tuesday in the recreation building to map plans for the second half of the league.

## Most Of Steer Gridders Pass

Big Spring high school football hopes took one sharp lick in the examination league last week, but a preliminary survey Saturday indicated most of the Steer graders would be eligible next fall.

Apparently, Noel (Goat) Hull, experienced tackle, was the only casualty of final examinations. Out for a couple of weeks and with his schedule trimmed to three subjects, Noel slipped upon one subject and that was enough to remove him from the list of squadmen come football time.

Coach John Dibrell had counted on the husky veteran to help solve the troublesome problem at tackle since Hull was capable of handling one of the assignments without much help.

This will leave Barkley Wood, center, as the only letterman in the line. The backfield, however, will carry a full crew of letterman.

## Funeral For Little Hig Be Held Tuesday

DALLAS, May 29 (AP)—Funeral services for Lieut. Roswell G. (Little Hig) Higginbotham, 44, former Southern Methodist university coach who died at the Quonset Point (R. I.) naval air station last Tuesday, will be held at Sherman Tuesday at 2 p. m.

Services will be conducted by Dr. Umphrey Lee, president of Southern Methodist university, and Dr. Marshall T. Steel, pastor of the Highland Park Methodist church.

Higginbotham, star athlete of Texas A. and M. college, back in the early 1920's, died from complications following an abdominal operation.

## Tigers Defeat Sox

BOSTON, May 29 (AP)—The Detroit Tigers beat the Boston Red Sox 6 to 4 today, the veteran Tommy Bridges receiving credit for the win, although he had to submit to a relief from Johnny Gorsica in the ninth.

## Browns Crush A's

PHILADELPHIA, May 29 (AP)—The St. Louis Browns combined opportune hitting with Steve Sundra's effective c'hit-hit pitching today to wallop the Athletics, 10 to 2. Chet Laabs hit a homer with one on in the fifth.

## White Sox Clipped

WASHINGTON, May 29 (AP)—The Washington Senators turned back the Chicago White Sox 7 to 4 tonight to regain undisputed possession of the American league leadership.

## Pirates Beat Phils

PITTSBURGH, May 29 (AP)—The Pittsburgh Pirates pounded Al Gerheuser and Walter Beck for 16 hits today to wallop Philadelphia 12-4, in the opener of a three-game series. Pittsburgh's starting hurler Zavier Rescigno, had a shutout until the ninth, when the Phils collected four runs on two hits.

## Slide Rule Wins

NEW YORK, May 29 (AP)—Slide Rule, one of the numerous colts that have been chasing Count Fleet around this spring, took advantage of the Count's absence today to win the mile and one-eighth of the Peter Pan Handicap before 26,041 bristly betting fans at Belmont Park.

## Cubs Grab One

CHICAGO, May 29 (AP)—The Chicago Cubs scored two runs in the 12th inning today to beat the Boston Braves, 4 to 3. The Braves went ahead 3 to 2 in their half of the 13th but two wild pitches by Nate Andrews permitted the Cubs to tie the score. Then a walk to Dominic Dallessandro and singles by Len Merullo and Claude Passeau produced the winning run.

## Cards Win In Ninth

ST. LOUIS, May 29 (AP)—Ray Sanders' single with the bases loaded in the last half of the ninth gave the Cardinals a 5 to 4 victory over the New York Giants today after Lou Klein's two errors in the first half of the frame had enabled the New Yorkers to tie the score. Klein hit a homer for the Cards and Ernie Lombardi for the Giants.

## Pirates Beat Phils

PITTSBURGH, May 29 (AP)—The Pittsburgh Pirates pounded Al Gerheuser and Walter Beck for 16 hits today to wallop Philadelphia 12-4, in the opener of a three-game series. Pittsburgh's starting hurler Zavier Rescigno, had a shutout until the ninth, when the Phils collected four runs on two hits.

## Southwest Riddle Who Is Going To Play For Whom

By HAROLD V. RATLIFF  
DALLAS, May 29 (AP)—Question: If a star football player from Rice should be sent to Texas University to train with the marines would he play for the Horned Frogs? If so, would he play against the school for which he had given his all for a couple of years?

Such points are being raised as reports indicate Rice and Texas will lose most of their experienced gridgers because they are not to be designated as marine war colleges. The upshot is that Baylor, which was not expected to participate in Southwest conference athletics this year, may be given a new lease,

and Texas Christian and Southern Methodist will become the top teams, replacing defending champion Texas and highly-ranked Rice.

Designation of Texas Christian and Southern Methodist would mean some of the top Rice and Texas footballers are likely to turn up at T. C. U. and S. M. U.

Baylor may be given a new lease through its designation by the war department as the site of an army specialized training program. This, however, is contingent upon the army giving permission to its trainees to participate in college athletics.

Texas would lose seven veterans and Rice would see ten of

## How to declare war on the Axis

being of sound mind, and madder than all get out... do hereby personally DECLARE WAR ON THE AXIS... and to make it stick, I am doing, or shall do one of the following four things mighty quick

1. Set aside as much of my pay as I can in War bonds through the Payroll Savings Plan. If I am signed up already I'll raise my sights.
2. If I am working in a plant where the plan is installed but I haven't signed up yet... I will do it today.
3. If the Plan hasn't been installed in my plant... I will talk to my superiors, and see if it can't be adopted right away.

## WANT TO DOUBLE YOUR TIRE MILEAGE?

We're not promising we can do it, BUT—

Leading tire manufacturers say that war experience proves that the "normal" 24,000-mile life of a first-line tire can be stretched to 50,000 miles or farther by proper tire care!

Slower speeds, careful checking of inflation, switching tires at proper mileages, all help a lot.

In addition, you make tires stretch through proper wheel alignment, correct brake adjustment, keeping bearings in good condition and other mechanical attentions that are right down our alley.

If you're lucky enough to have new tires, start off now to get full mileage—maybe double the mileage—through expert care. If tires are already worn, make them stretch not only through the things you can do yourself (such as watching tire pressure and criss-crossing tires regularly), but by using our expert service.

Remember—your present tires may well have to see you through the duration—and beyond. Can you afford to give them anything less than the most expert care—the kind we give them?

# Ruth Thomas, James Carr To Receive Degrees

DENTON, May 29—Among the 185 candidates for graduation at North Texas State Teachers college this year are Dorothy Ruth Thomas and James D. Carr of Big Spring, who will be awarded the bachelor's degree at formal convocation ceremonies to be held at the college Monday morning, May 31.

President W. J. McConnell of NTSTC will preside at the commencement exercises, which will be highlighted by the traditional hooding ceremonies.

Because of the calls to service during the past semester, it is expected that many men now in the armed services will receive their degrees by proxy or in absentia and that the convocation audience will be dotted with men in uniform.

On Sunday morning, May 30, the graduation candidates will hear the Rev. Clinton L. Bowen, pastor of the Trinity Methodist church, Dallas, give the baccalaureate address.

Miss Thomas is a member of Sigma Tau Delta, Gamma Omicron, and the Junior Current Literature club. She is the daughter of Mr. and Mrs. Clyde E. Thomas of Big Spring.

**Schools End Current Term**  
A sufficient amount of the 3-R's taught for the year, schools in Big Spring closed Friday noon when report cards were given out. Teacher's reports made, books turned in, and library fines paid. Activity in the school room is over until Monday, June 7, when summer session, directed by Reta Debenport, will begin.  
It was a good year, school officials agreed, with 108 seniors receiving diplomas and 168 promoted from the eighth grade. Although the classes were somewhat smaller than the preceding two years, there were not as many hold overs as during the past two years. Many senior boy graduates were contemplating entering the service as soon as possible while the majority of the girls planned on taking either a business course or attending college.  
Teachers mostly left for homes or relatives for summer visits and a few were to take short vacations while others planned summer work. Those who taught this year were assured of the same jobs next year as all teachers were re-elected before the close of school. School buildings were bereft of all but the office and administrative personnel.  
Gasoline curtailment has shrunk the 2,000,000 private-car licenses of pre-war Britain to 250,000.

We Don't Need Ballyhoo

Nothing that daily newspapers are under strict rationing of newsprint, State Rep. Herbert Browner, a farmer of Joshua in Johnston county, has sent a telegram to WPB Director Donald Nelson urging him to issue a directive discontinuing publicity stores from Washington as a paper-saving measure.

There is no doubt about the existence of this spate of press handouts out of Washington. Every mail brings from half a dozen to as many as two dozen separate and distinct pieces. Ninety-nine and 44-100 percent of it hits the wastebasket without pausing in flight. Some of it is elaborately dressed up, on the finest paper,

printed in color-expensive stuff, paid for by the taxpayer. But not all of it comes from Washington. Scores of army camps and airfields throughout the country flood the newspaper offices with press releases. The only type of this stuff that is useful to the newspaper is that which concerns the doings of local boys in service. Most of it, however, is pure tripe.

Chapter 15
Penny hummed a little as she put tea on to boil. Marie To-ma was down at the creek shore, seeing to the canoe. It was a bright, fragrant northern morning, glorious with bird-song. Soon, Penny thought, she'd be back with Cleve. Shooting downstream to the Peace would be much faster than paddling up against the current. They should reach the Indian encampment by early afternoon, at the latest.

Washington—
The 'Czar' Who Rules Supplies For Home Folks
By JACK STINNETT
WASHINGTON—From a tiny room in the War Production Board's mammoth building, an impressive white-haired man of 60 quietly supervises the flow of a multitude of products to the folks at home.

Arthur D. Whiteside, newly-appointed director of civilian supplies, winces at being called a "czar," but WPB Chairman Donald Nelson has given him sweeping powers to see that essential articles and services are made available, within war-waging limitations, to consumers. He recommends to WPB what raw materials, manufactured articles and repair facilities should be allotted for civilian needs. All consumer goods and services, except food, housing and transportation, are under his direction.

Incidentally, he points out that small town and rural storekeepers and their customers have been hardest hit by an uneven distribution of consumer products. "This job will be a headache for the first few months," he said. "But after that we hope to get merchandise flowing in various channels on a more equitable distribution basis. It is largely a matter of making adjustments in distribution, with a view particularly to helping isolated areas."

Hollywood Sights and Sounds— Many Good Stories Just Waiting To Be Filmed

By ROBBIN OODS
HOLLYWOOD — Hollywood is sitting on millions and million of dollars' worth of stories which cannot be filmed. Many are best selling novels and plays the public would like to see, but, to use a Hollywood phrase, they are "not scheduled for production."

The initial cost of a script is usually the smallest item in producing it. For, after purchase, writers are put on the story. These men get from \$500 to \$2,500 a week. They may work for months before discovering the story is impossible to screen.

The most famous case is "The Yearling." It was purchased by MGM for approximately \$100,000. Spencer Tracy was to play it, and the studio undertook a costly location trip to Florida for background shots. The shooting script was entirely written. Then it was discovered that there was no one in town who could play the young boy. The picture was shelved, with estimates running from \$250,000 to \$1,000,000 on how much had already been spent.

Warner's bought "Advance Agents to Africa," the story of General Mark Clark's perilous ex-

pedition. Since the French question is ticklish, the state department has requested that this not be made as yet. The same is true of "The Life of deGaulle," which Warners also own. Another outdated yarn is Sinclair Lewis' "It Can't Happen Here." If it had been made immediately, it would have been all right. But delay saw Fascism change from a hypothetical force into a real one. The story would be laughed at now.

"Merrily We Roll Along," a Kaufman and Hart Broadway success, hit a different snag. This show began at the end and worked towards the beginning. MGM bought it, knowing that if it were filmed in its original form it would cause endless confusion for people who came in late.

Britain had only 26 motor torpedo boats when she entered the war in 1939.

What Causes All This? The Errors Of The OWI

By JOHN GROVES
WASHINGTON—The Office of War Information has several times got its official tall caught in the Congressional wringer, and has been forced publicly to admit error and blam.

How an agency largely staffed by competent newspapermen can commit a series of glaring blunders that would shame the average journalism student has puzzled observers in Washington. It's a long story.

Efforts have been made to put all the blame on New Deal idealists in OWI. Such an assumption is unfair. But of doubt "system" that works so ponderously in the government is the villain.

desk like any newspaper. On a newspaper, a copy desk is charged with catching and killing bad grammar, errors of fact and personal opinions written into the story by the reporter. The copy desk has complete authority. A reporter can cry his eyes out over the way the desk butchers his story, but unless he can prove the desk editor is cold turkey wrong, the revisions stick. In short, no copy is sacred and no writer is a sacred cow who can write no wrong.

It's different for the copy desk men at OWI. They're vulnerable little fat boys in a pasture full of touchy sacred cows, which are other federal bureaus.

OWI is a clearing house for federal information from other bureaus, save only the armed forces. The other agencies are the "reporters" in this information set-up. They write the stuff, and forward it to OWI for final clearance. But the OWI can't even correct mistakes in grammar or obvious factual errors without permission of the originating agency.

its press agent include pertinent data unless it reflect glory on his bureau. The desk men at OWI can't reject his copy, and insist it tell both sides. (That's how the "Bal-bale Stations for All" pamphlet emerged as a fine kettle of propaganda for tax policies favored by the Treasury.) For the blurb geniuses giving their all for their bureau bosses, this set-up is like living on Paradise Avenue in Press Agent's wonderland. Nothing could be sweeter from a press agent's standpoint than a copy desk that is handcuffed and can't hack his copy without his permission.

There are indications that OWI is more than a little tired of being the whipping boy for other agencies' daydreams. There's word out that OWI chiefs are demanding—and soon will get—ample authority to do a job.

Subs Being Whipped

LOS ANGELES, May 28 (AP) — Shipyards workers and executives had the assurance of Rear Adm. Emory S. Land today that the axis submarine menace was being whipped and that ships now being built would stay on top of the water. Escort vessels and air patrols are making the sub raiders's efforts perilous and costly, the retired admiral, now war shipping administrator and chairman of the maritime commission, told shipping men.

### Poppy Sale Returns \$224

Big Springers may have felt their patriotic duty to help out with the buddy poppy drive which was held here Saturday under the sponsorship of the Veterans of Foreign Wars, for reports reveal that sales were billed to \$224, with 2,000 flowers bought, an increase over sales of previous years.

Mrs. Joe Jacobs of the V. F. W. Auxiliary was chairman of the drive and was assisted by Mrs. J. T. Corcoran. Local distribution was carried on by members of the auxiliary, service men's wives, members of the Sub Deb club and other volunteer workers.

Local sales were identified with the nation-wide sale conducted under VFW auspices and held in conjunction with the observance of Memorial Day. Proceeds are devoted exclusively to the care and welfare of service and ex-service men and their dependents.

### Service Notes From Colorado

COLORADO CITY, May 29 — Carey Prude, Jr., son of Mr. and Mrs. Carey Prude of Colorado City, is now in training with the naval construction corps at Camp Perry, Williamsburg, Va.

Auxiliary Bess Moseley, who received her basic training as a WAAC at Camp Oglethorpe, Ga., has been assigned to the Fourth WAAC training center at Fort Devens, Mass.

Allen A. Porter, youngest son of Mr. and Mrs. W. W. Porter, left Saturday for Lubbock to report for training as an army aviation cadet. A football letter man, Porter finished high school here in 1942, and attended John Tarleton college until recently.

Curtis Erwin, Jr., son of Mr. and Mrs. Curtis Erwin of Stanton, and grandson of Mr. and Mrs. Lay Powell of Colorado City, is stationed with the army air corps at Fayetteville, Ark., having been transferred from Sheppard Field, Wichita Falls.

Storekeeper third class Vivian Cook, one of Colorado City's three WAVES, has returned to her station at Miami Beach, Fla., after a week's visit with her parents, Mr. and Mrs. H. A. Cook.

Cpl. Prue Collier left this week for Camp Stewart, Ga., where he is stationed with the army medical corps, after a short leave spent visiting his mother, Mrs. Mattie Collier.

Aviation Cadet Charles Earnest Porter, nephew of Joe Earnest, has completed training at Santa Ana, Calif., and is now at Thunderbird Field, Glendale, Ariz., for flight training.

Lt. William S. Rhode and Captain Oscar B. Rhode visited Colorado City recently on leave. The two former Colorado City physicians have been in the army medical corps since early last summer.

Lt. Rhode is stationed at Staten Island, Capt. Rhode at Camp Swift. Word of the promotion of B. N. Carter, Jr., to the rank of staff sergeant has been received by his parents, Mr. and Mrs. B. N. Carter. S/Sgt. Carter has been stationed somewhere in the Pacific area with the army for several months.

### War Not All Gravy, Colorado Youth Says In Letter To Mother

COLORADO CITY, May 28 — A letter from her son, Pfc. Merrill Johnson, who is with the army somewhere in North Africa was received by Mrs. J. C. Hill of Colorado City this week.

"I'm back from the front," he wrote, "for a breathing spell. I've been in five battles so far and we're really giving them a run. It's not all gravy, though. You get pretty tired. When you get worn out enough to sleep with shells popping all around your private fox hole you're pretty much pooped."

Pfc. Johnson's letter, unmarked by the censor, was written before the victory in Africa and told his mother he expected to be "in on the kill. I think one more shove and we'll have 'em. Then our outfit will probably be sent for a longer rest somewhere."

### Executing Rats

ROCHESTER, N. Y.—William J. Vincent and C. M. Stanton have invented a trap that electrocutes rats.

The rats run through a series of openings, which automatically shut behind them, until they reach an "execution chamber." An electrically controlled flap drops the victims into a container.

### +MARKETS+ Wall Street

NEW YORK, May 29 (AP)—The stock market today finished a good week and one of the best months in the past several years with favored issues pushing up fractions to more than a point to peak levels since early 1940 on expanding volume.

The Associated Press 60-stock average was up 4 of a point at 52, the first time the composite has touched this mark since Jan. 4, 1940. Transfers totaled 815,990 shares against 433,330 a week ago.

Prominent gainers today, many in the "new high" division, included U. S. Steel, Chrysler, U. S. Rubber, Goodrich, Montgomery Ward, Sears Roebuck, American Telephone, Allied Chemical, Johnson & Johnson, Pittston Co., R-K-O, Reynolds Tobacco Co., Commercial Investment Trust, Loew's, Liggett & Myers, "B," United Aircraft, Santa Fe, N. ### Cotton

NEW YORK, May 29 (AP)—Increased trade price-fixing and short covering inspired by the coming holiday put cotton futures prices up a little near the close today.

Final quotations were 10 to 25 cents a bale higher. New Orleans was a buyer of late positions and there was considerable switching from July to later months. The desire of shorts to even up contracts was based on possible over-holiday developments affecting the raw cotton price structure.

### Governor Sets Aside Month For Recruits For Marine Women

Governor Coke Stevenson has officially declared May 30 to June 30 as "Free a Marine to Fight" month. Important openings are awaiting the women of Texas in the United States Marine corps and it is planned to enlist a platoon of women to be sent to train as the Texas Rangerettes Platoon.

All women who enlist in the Marines during the week will be brought to Dallas and sworn in at a mass ceremony to be held on the street in Dallas and will be shipped from there as the Rangerettes platoon.

In the governor's proclamation he stated, "I urge all women of the State of Texas between the ages of 20 and 36, who are in position to do so, to apply through their local Legion Auxiliary Units for duty with this United States Marine Corps Women's Reserve unit in order that they may free a Marine to fight and to take their place in the winning of this war and the fight of all to live in peace."

Martha's Vineyard, four miles off Massachusetts, was discovered in 1602 by Bartholomew Gosnold.

### Here 'n There

Selection of Pvt. Jack M. Haynes of Big Spring to attend an air corps weather observer's school was announced at San Juan headquarters of the Antilles Air Task Force, Puerto Rico. Pvt. Haynes entered the army June 8, 1942 and joined an air corps unit in the West Indies on February of this year. Men of the Antilles Air Task force are stationed on small tropical islands which form the gateways to the three Americas.

Aviation Cadet James H. Walkner of Big Spring has arrived at Perrin Field basic flying school to enter the third phase of his schooling toward graduation as a pilot and officer. He is the son of Mr. and Mrs. R. Pittard.

Five men from Big Spring, who recently entered military service, have arrived at the Engineer Replacement Training Center at Fort Leonard Wood, Mo. New arrivals include Privates Emmitt L. Randall, Alfredo C. Perera, O. B. Morrison, Harmon C. Hamilton, Virgil P. Pierce.

Herman Henry Hopper reported this week at Farrago, Idaho, second largest U. S. Naval Training Station, for his recruit training. Mrs. Hopper resides in Hollywood, Calif.

Second Lieut. Gene H. Flewellen, son of Mr. and Mrs. Victor H. Flewellen of Big Spring, is a member of the sixth class of B-24 Liberator pilots which graduated from pilot school at the Fort Worth Army Air Field.

### Only Stamps Are Needed To Get Canning Sugar

In order to clarify the sugar canning program of the OPA, announcement was made today by Howard Ghelason, district director, Lubbock, that only stamps from war ration books No. 1 will be necessary for modest amounts. Small families who need only ten pounds of sugar for canning may take Stamps No. 15 and 16 from their ration book One directly to their grocery stores where they will be honored unless the ration book shows that sugar has already been obtained through the local board and both amounts will exceed 25 pounds. Otherwise, stamps 15 and 16 which become usable on May 24 will be good through October 1943.

Consumers who require more than ten pounds of sugar per person for canning should go directly to the ration board for the full amount, the OPA director said. Extra sugar for both canning fruits and making jams and jellies must not exceed 25 pounds per person during the specified period, he pointed out.

The regular current ration of five pounds of sugar for a period of two and a half months for table use per person will continue and is not to be confused with the canning ration. Stamp No. 12 will be of no value after May 31 and Stamp No. 13 will become valid and be good for five pounds through August 19th, he said.
