SIGHTS, FACES SEEN

Around Town

According to the Highway Department personnel stationed in Deaf Smith county, there are only two officially-approved auto inspection stations in the county to date — Kinsey Motors and Beaver Brothers. These two places do not have their approval stickers as yet, they say. However, there are three and possibly four more garages in the city who have applications pending for approval as inspection stations. Patrolman James R. Kirkwood said there is a lot of misunderstanding on the amount of money it takes to set up an inspection station. It can be done at a reasonable cost and not at fancy prices that have been told in rumors circulating about.

Minor Injuries In Accident On Hwy. 51 Sunday

Minor injuries were suffered by Mrs. Harvey Lee Newsom of Hereford following a highway accident Sunday evening at about 5:30 p.m. on Highway 51, a half mile north of Dimmitt on Highway 51.

Mrs. Newman was given emergency treatment at the Castro county hospital following the accident and released immediately. Not injured in the accident were her husband the couple's two sons, Billy Pat and Allen Lee.

According to highway patrolmen who investigated the accident, the Newman car, a 1948 Chevrolet coach, was heading south on Highway 51.

The Newman car was following another car on the highway towards Dimmitt. The car ahead of the Newmans had a blowout and Newman slowed down to miss the car ahead.

A 1949 Mercury driven by Doyle Edward Williamson, 15, of Route 2, Dimmitt, who was alone in the car, hit the Newmans from behind when Newman tried to slow down.

All the cars involved in the mishap were headed south. There were no charges filed as a result of the accident, Highway patrolmen said.

Damage to the Newman car was estimated at about \$200 and at about \$350 to the Williamson auto.

year associated on the staff of Parkland hospital, brought the information before members of the Lions club Wednesday when he gave a general report on results accomplished through the Deaf Smith County Medical Research Foundation.

"I will not attempt to go into the chemistry of the subject," Dr. Barnett said. "However, I think you will be interested in some of the things which are being accomplished, and then you can make up your own mind as to the possibilities."

He first traced research steps necessary on new medical discoveries starting in laboratories, to animals, limited clinical tests on special cases, and on to broad clinical tests. He pointed out that any discovery has to pass these tests before it can be released to the public, and that statistics would have to accompany any findings.

"Due to the nature of our tests, however, we have been able to use some short cuts," he said. "This is due to the fact that foods of this area have not killed or damaged the residents. This fact makes it possible to run clinical tests parallel with animal tests in many cases thus saving much time."

Approximately 100 persons of this territory have been divided into six age groups and typed for blood chemistry. Dr. Barnett said. A similar number in similar groups have undergone the same typing in Dallas — and comparative studies will be made from the two groups. As an addition to the study, bone analysis has been made from both areas.

"We have also analyzed topsoil, caliche, water soil and water from this area," he continued. "Samples have been taken East, West, North and South within a 10-mile radius of Hereford, and we have found 18 different minerals, including several not common in many other areas."

These are the minerals which are being manufactured into capsule form for supplement to the diet of all persons with bone breaks in the four hospitals, according to Dr. Barnett, who said they contained minerals in a ratio with this area.

He said most of the unusual minerals were found in the water and in the caliche, and said that mineral content varied considerably with the directions from which the samples came, ranging from six per cent north

to two per cent east. In connection with the studies, he said that "length of healing" records on bone breaks in Parkland were established to be used in comparison with "length of healing" records on patients who were taken the special "Deaf Smith" capsules.

"For instance, records on 22 broken hips in this area and among older people," showed a "healing time" of 10 weeks," Dr. Barnett said. "We have X-rays and records to prove this regarding Hereford. An average of 18 weeks was required on similar cases in the Dallas area."

In addition to the above studies, Dr. Barnett also urged vegetable men and lettuce growers to secure comparative analysis between Hereford vegetables and the same varieties grown in other points.

He also appealed to cattlemen, especially old timers in the business, to submit observations regarding livestock in this area. "We would like to have opinions regarding growth; bone structures, calf crops, and abortion rates for this community as compared with others."

He indicated that study of livestock findings will be important, due to the fact that much of the human diet is now shipped into Hereford from other sections. He asked any person interested to write him in Dallas.

Supplementing the above studies will be laboratory results from the feeding of 1,000 white rats with fractured limbs. The rats, according to Dr. Barnett will be given capsules containing minerals parallel with those of this area - but from various tests individual minerals will be eliminated. Results from each of the experiments will be charted and records will be accurately kept.

At present the program includes one full-time man at Lisbon, one at McKinney, and one at the medical school, which is sponsoring the research. Four laboratory helpers are also being used in the program and the attention of numerous doctors, including Dr. Barnett, is watching the outcome with interest.

Culmination of the program will occur next May when the group plans to present a paper on the subject at an Orthopedic Clinic in Chicago.

"If you have something, that's the place to take it," Dr. Barnett said. "If you don't have, that's the last place to go."

Game Commission Gets Record Number Of Quail Wings

AUSTIN - The Texas Game and Fish Commission reported the receipt of a record number of bob white quail wings during the 1951-52 season.

The total has not been tabulated and will not be known until next month when wildlife biologists assemble at San Marcos to study the wings.

The director said the wings for the season are fairly representative of the entire state but that the greatest number was received from the Panhandle and from Southeast Texas.

He attributed the splendid return to the "better" cooperative attitude of sportsmen and to the fine help from newspapers and radio stations in informing hunters how they could help scientific studies by forwarding the quail wings.

The subject of sportsmen-biologist teamwork in gathering and studying the wings is covered in an article in the January issue of TEXAS GAME AND FISH magazine.

This article breaks down the results of the 1950-51 season studies and indicates the benefits of this team-work toward

"advancing studies of breeding, feeding and migration habits." The director points out in the magazine that quail wing feathers tell the approximate age of the birds. He adds that acquiring sex and age data on a good sample of birds from a locality indicate rather definitely the extent of hatch and survival for the year.

Community Holds Farewell Party For R. N. Cooke Family Friday

By Mrs. R. C. Childers A community party honoring the R. N. Cooke family was held in a vacant house on Jack Renfro's west place Friday night.

The Cooke family is moving to Nacogdoches, Texas, where they have purchased a 14-room brick home, which is 10 blocks from the nearest school.

Mr. Cooke has leased 2100 acres of grass land and is planning to stock farm.

Mrs. Renfro was assisted by Mrs. R. C. Childers in preparing for the occasion.

A group of 54 friends and club members attended the gala occasion, bidding the honorees farewell and wishing them well.

Mrs. Cooke served as president of the Cultural H. D. club for almost two years. She was the first president of the Cultural club, being elected at the organization of the club in August 1949.

Since that time she has served as council delegate, landscape co-operator, and on several other committees. Mrs. Cooke was also elected from council as a Delegate to the state meeting at College Station last summer.

She has been very active in 4-H work, not only in this community but over the county as well. Mrs. Cooke served as 4-H sponsor of the Workers 4-H council. At the regular meeting of the Cultural Home Demonstration, Mrs. Cooke resigned her duties to the club, expressing her gratitude to the club for its pleasant association.

She was the first president of the Workers 4-H club, and served as secretary last year. Last year Colleen was president and both girls served on committees for the club and for the 4-H council.

She attended the 4-H Roundup at College Station last year and Colleen attended the 4-H camp last year.

The family as a group has been good neighbors and will surely be missed by all. We wish them the very best of everything, in their new home. They plan to leave Friday as soon as the children are out of school.

Included in the guest list were: Mrs. Leona Packard, Mrs. Gladys Dixon and family of Canyon; Leroy Packard, Mrs. S. F. Clements and family; Mr. and Mrs. Paul Cobrett and family; Mr. and Mrs. E. M. Cooke of Canyon; Mr. and Mrs. A. C. Hershey and family; Mrs. E. T. Cummings of Canyon; Mr. and Mrs. Raymond Higginbotham, Mr. and Mrs. Martin Mason and son, Mrs. Louise Olson, Mrs. Earl Dehart and Kenneth, Mrs. Edgar Telchik and Mozell, Mr. and Mrs. M. G. Caywood and family; Mr. and Mrs. Fred Wolfington, the hostesses Mr. and Mrs. Jack Renfro, Mr. and Mrs. R. C. Childers, Raymon and Patsy.

New residents in the community are Mr. and Mrs. Raymond Higginbotham and their two children. They are living in the Earnest Hardman place. Their children have been quite ill but are about to get straightened out. We welcome them into our community.

Dinner guests in the R. C. Childers home Sunday were Mr. and Mrs. R. N. Cooke and family. Members of the Gleaner class honored Mrs. R. N. Cooke with a hankie shower Monday morning at 9:30 in the home of Mrs. Marion Rutter. Those included in the guest list were Mrs. J. R. Johnson, Mrs. W. S. Rice, Mrs. E. W. Smith, Mrs. Ben Childers, and the hostess.

Larry Curtis Barclay, son of Mr. and Mrs. C. S. Barclay, submitted to a tonsillectomy Monday morning in the local hospital. He is reported to be doing fine. Mr. and Mrs. R. C. Childers spent the Monday night in the Barclay home as a precautionary measure.

The 4-H girls are making big plans for the Junior Livestock and Poultry show. They are already getting the entries shaped up.

There are a number of the girls who have developed into very good poultry judges. These in the Jolly Girls 4-H club are Mary Cayton — you remember she was on the judging team that was taken to the Round-Up last summer. Mary's poultry entries will be hard to beat in the show. Mary also won a county award on poultry at the Achievement Day program.

Ann Dyer, newly elected vice-president of Jolly Girls club will have several entries. Ann has always been one of the girls who has entered the most birds and received the most ribbons. Ann also won a county award for outstanding poultry work in 1951.

Doris and Thelma Joyce Epting will make a good showing with their poultry projects. The Eptings are moving but we are glad they will be here to take part in the Junior Livestock and Poultry show. The 4-H work has meant much to the Eptings. They are a good 4-H family. The whole family takes interest in the demonstration and meetings.

You'll hear much about the 4-H girls the next few weeks. They're doing good work but need the help and encouragement of their adult neighbors.

PAINTER OFFERS PAINTING TERMS

A recent survey of Hereford revealed many homes badly in need of painting. This costly negligence on the part of home owners will eventually cost them ten times as much in deterioration if something isn't done soon to correct this situation.

This survey also revealed home owners realize the condition of their homes but are unable to redecorate because of a shortage in ready finances. I would like to offer a remedy to the difficulty: To all home owners wishing to have their homes re-painted and re-decorated, inside or outside, I will do the work, furnish the material, and make no extra charge for financing. All is required of the home owner is the signing of a contract making them obligated to pay a third of the total cost upon completion of the job and to pay the balance due in monthly installments.

This term-plan to get your home painted is your opportunity and the date is limited. For those wishing to take advantage of this offer must contact me on or before March 1, 1952. I may extend this offer, but don't count on it. Remember, there is no extra charge for this unusual offer. A FREE ESTIMATE given on request without obligation on your part.

Contact me at 123 Kibbe, Hereford, or Phone 867-W, ask for H. K. 'RED' HILL.

CONG. ROGERS SAYS UMT Will Die In Congress Unless Training Under Civilian Control

UNIVERSAL MILITARY TRAINING: Many letters are being received in opposition to Universal Military Training. You will recall that the last session of Congress authorized exploitation into the field of Universal

Military Training. The matter will be presented to the Congress for final determination during this session. Very few, if any, congressmen would support a universal military training pro-

gram that would regiment young men of this country into a military establishment under the sole and exclusive jurisdiction of military segment of our life. They realize that the Americans are not warlike people and that our civilization has not been built on the methods of Prussianism. On the other hand, we all realize that some sort of sound program is necessary if this country is to meet the continual attacks against it by other nations whose

sole objective is the destruction of our government and our economy.

There are a number of proposals concerning universal military training that will be debated when this matter comes before the House. One of those is in keeping with the basic ideas that I have always held. That is, a program in connection with the studies of the students in the schools, similar in many respects to the ROTC program, a program that would afford the student the fundamental and basic military knowledge that would be of great benefit in the event military service became necessary. This fundamental training would be supplemented by summer training camps. It is the thought of many that such a program would adequately answer the need and at the same time would not interfere with the education or civilian pursuits of these young men. I do not believe that any program will pass the Congress unless the control of the same is left with the duly elected civilian representatives of the people. It is certainly a matter of utmost importance to every citizen of this country, and I earnestly solicit your advice or comments on the subject.

CHURCHILL'S VISIT: It is the consensus here that much progress has been made toward a definite understanding between the United States and England as to how far this country is will-

ing to go and what it expects of England. It is felt here that this understanding is not what Churchill wanted by a considerable degree. We will get a better insight on what subject, I hope, when Churchill addresses the Congress. All foreign countries should realize that the American people will go all-out for world peace, but will expect the full and complete cooperation of the other nations. Unless we can have that cooperation, we are not going to bankrupt ourselves by futile gestures.

GENERAL EISENHOWER: Since Eisenhower's entry in the New Hampshire primaries, many questions have been floating around official Washington. Here are some of them:

What is his stand on F.E.P.C.?
How does he stand on labor and the Taft-Hartley Law?
What would be his position on the Tidelands?
Is he for Universal Military training?
What about "Civil Rights" legislation?
Is he for or against additional foreign aid?
How does he feel about the situation in the Near East?
What kind of foreign policy would he have in the Far East?

There are many others, domestic and foreign. Many he has already answered in speeches that he has made in the past several years, either directly or by inference.

CASHIER'S CHECKS

A cashier's check is the bank's own order to make payment out of the bank funds. Usually, where you are known, it may be cashed when properly endorsed, or it may be deposited in any bank.

ITEMS ACCEPTED FOR COLLECTION

In a business transaction someone may have given you a draft for certain goods or perhaps you have loaned money to an individual or firm and hold a note for the amount. Your bank can greatly simplify "collecting" these and many other financial items. But you should leave them with the bank well in advance of the date when payment is due. It requires time for the bank to notify the persons concerned. When payments are received by the bank, you will be given prompt notice. The small bank charge to cover the cost of making collections is called "exchange."

County HD Agent Reports

By Argen Draper
Should vegetables be scalded before freezing? This question is the one most often asked at the local home demonstration agent's office. Farm housewives especially are interested in simplifying the work involved in home preservation of food. When there is a heavy yield of green beans in the garden, is it all right to package and freeze without taking time to preheat, cool and drain?

Jimmie Nell Harris, foods and nutrition specialist, answers by saying that scientists have concluded from many experiments that scalding is a necessary step in preparing most vegetables for freezing, regardless of how long they are to be stored. Scalding stops certain undesirable changes such as loss of quality and vitamin content. Heating gives a brighter color, shrinks the food, further cleans the product and stops the action of enzymes.

Scientists of the Minnesota Experiment Station made tests of three vegetables, asparagus, green beans and corn, which often mature at the same time. One lot of each vegetable was prepared by the recommended scalding while another lot was frozen without preheating. Ears of corn were shucked, packaged and frozen, while others were frozen in the shuck.

All the vegetables frozen without preheating developed off flavors within a month, but those scalded before freezing showed little or no change. Unscalded and frozen green beans and asparagus lost their attractive color as well as flavor.

During the freezing the unscalded green beans showed little change but deteriorated in storage and were unpalatable in three weeks. In four weeks these beans were inedible. Corn in the shuck had an off flavor by the time it was frozen. Corn shucked and packaged but not preheated

Herd Runner-Up In Friona Cage Event

Hereford's thumping Whiteface basketball team drew a second place berth behind a hot Bovina quintet in the Friona invitational cage tournament held last Thursday, Friday and Saturday. The Whitefaces ended up the

Herd Competing In Tournament At Tulia Now

Hereford competes in its third tournament of the month when they journey to Tulia for a three day invitational single elimination consolation affair January 17, 18, and 19.

The Whitefaces will be traveling with faster company than in the tournament of last week-end at Friona. The first game of the tournament pitted Hereford with Kress Wednesday night at 6 p.m.

Probable Herd foe for the Thursday tilt is Canyon. Phillips is also one of the 13 teams in the running for the Tulia go.

Coach Wayne Stark says the Whitefaces "don't stand too much of a chance" in the tournament, but the giant-killers from Hereford may surprise a lot of people.

With Bob Mathis hitting stride as he has in the past three games with 20, 25, and 28 points from his forward post, anything can happen.

A new center will have to be groomed to take the place of injured Bill Kelly, so the Herd will be doing well by winning in such astute company.

seven-team affair with a 2-1 record, downing Vega and the Levelland "B"s while losing a close 35-48 thriller to the winning Bovina Mustangs. Hereford's loss to the Parmar county five was costly in more ways than one. Herd Center Bill Kelly was sidelined for the season when he clipped his left ankle bone in the last game of the tourney.

Coach Wayne Stark will be seeking a replacement for Kelly, who was developing into a solid center for the Whitefaces, in the person of Newman, a sophomore with one year of eligibility left, of Allen, also a sophomore, and Billy Gene White, a junior.

White and Allen have been playing as forwards most of the season. Newman has been alternating with Kelly at the pivot spot.

The loss of Kelly will work a hardship on the Herd because the blond senior was just gaining momentum as a sturdy offensive stalwart.

Bob Mathers, Hereford's right forward, was the bright spot of the tourney for the Herd with his continuance of high scoring activity. Mathers, an extremely fast break-away man, hit 20, 25, and 28 points in the three games. Mathers and Kelly were named "All-Tournament" for their play in the three tilts.

To show the phenomenal scoring power generated by the Herd forward, he racked up 174 points in the nine games played by the Herd since January 1.

He is the highest scorer Hereford basketball teams have had in many years, if not in history.

Tournament-wise once again, Vega won the consolation prize in the tourney, downing Farwell 39-26.

The Friona girls' team won consolation in that division of the event. Texico forfeited Farwell for the girls' honors.

Teams entered in the event were Friona, Hereford, Levelland B, Vega, Bovina, Lazbuddie, and Farwell.

In a run-down of the three tournament games played by the Whiteface varsity, the first contest against Vega gave the Herd an early lead in the contest which stayed that way all through the game.

Mathers hit for 20 points in this game with Kelly drawing second honors with 13. Dillehay, Vega forward, paced his team with 13 points.

Murdock Demands Walberg Rematch

Bewhiskered Frankie Hill Murdock, Waxahachie's gift to the atomic wrestling age, is yelling for a rematch of his Saturday night bout with the Reynoldsburg, Ohio, Swede, Whitey Walberg.

The reason? Murdock, who made Walberg give up (via a two-legged crab) in their second fall of the main event, said Referee Gust Johnson didn't hold the "Dropper's" hand up as winner after the fall and disqualified Murdock when he slipped back and gave Walberg the "Atomic Drop."

Walberg was awarded the match and then came the controversy. Murdock demanded the rematch and the Lions club wrestling matchmaker Guy Law-

rence is trying to book it for the "Sandman."

Murdock took leave of the Bull Barn ring with the pointed observation that "he couldn't whip two Swedes at once" and then added that if that was the way they wanted it, he could whip them both.

He may have the chance to do that come Saturday or maybe the following Saturday, with Walberg as his opponent and Johnson as the third man. If they do, watch out!

Before the big fuss started in this, the second main event of the evening, Walberg took the first fall with his old standby, a full nelson. It took 27 minutes to accomplish the fall over the wily (Continued on page 2)

Not too attractive golf weather now but I liked Cronley's guffaw about two Scotchmen who were bumping golf heads in a hot links battle when one of them suffered a stroke. . . his opponent made him count it. At this writing, the Bing Crosby open is in progress and as you may not know, all its net goes to charity. . . The five preceding meets have netted \$95,000 and all this has gone to charity, incidentally three youth centers have been built from the funds. . . That should be a breach wide enough for a Crosby-Hope

golf fable. . . These two were, in a typical knob knockin' fray. . . Laying alike. . . Crosby 2 feet away. . . Bing yardsticked the distance, went on all fours to study the lie, got out his wind sock, checked air moisture and then turned gravely to his caddy. "When was this green mowed last?" he queried. "This morning, sir," replied the grinning lad. With Hope mumbling to himself in the background, Bing continued to review the situation. Finally, he topped it in. "Very nice," (Continued on page 2)

In winning the event, the Calves stopped River Road, Canyon and finally Happy. They took the championship game from the tourney hosts 21-19.

Gaining entry into the finals, the Whiteface juniors stopped Canyon 34-14 and halted River Road in the first of the tournament, 21-18.

Murdock's winning of the second fall with the two-legged crab and the subsequent "Atomic Drop" heralded the beginning of

the rhubarb and the end of the match.

The first match of the evening was another hour limit, best two out of three fall event pitting George Overhuls, former Sandie griddler, and Salvador Flores of Mexico City.

Husky George Overhuls took the first fall in 21 minutes with a top body press following a full nelson.

The Mexico City nifty came back in six minutes to do the rugged Overhuls in with a one-legged crab.

Overhuls bested Flores in 12 minutes with a full nelson to wind up the battle.

Tulla played at the Hereford gym Tuesday. Three games (7, 8, 9 grades) will be played.

sneered Hope. "Of course you'll concede my putt!" "Shoot your best, Needle Nose," he said, "you've got an 18-inch drive." Hope outdid Bing in his preparations, even introducing a plumb bob and a level. Then he glanced at Bing's caddy. "You're positive this green was mowed this morning?" he asked loftily. "Yes sir!" answered the boy fervently. With this reassurance, Hope putted and watched the ball roll past the cup. The gallery roared, with Crosby's howl the cruelest. Hope did a flip and finally drawing his dignity straight, he glared down his ample beak at Bing's caddy. "What time this morning?" he asked in

Beyond restriction of out-of-season practice to 20 sessions in 30 days time... Bowl games were authorized for another year... No action in length of season or number of games scheduled for various team sports... One ruling I hopes for, was voted in, after a fashion... A constitutional amendment was adopted stipulating, that all aid to athletes must be administered by the institution... The regulation does not outlaw alumni fund-raising groups their resources to the institutions, but would require them to be donated there for disbursement... I've always considered Maryland's Jim Tatum a top-flight coach but the poorest of diplomats, in fact, none at all... his latest example—calling Tennessee the third best team they encountered, behind LSU and North Carolina... He had better stay off the general's schedule from now on... It has also been reconed officially that Maryland went to New Orleans after turning down the Cotton Bowl bid... a good go it was, for instead of the no glory task of stacking four-loss TCU, they grabbed the spotlight by pulverizing Tennessee, number one on the seasonal press poll... I noticed that the Globe-Times mentioned Meyer's skulker against Kentucky some days after we did, and at the same, they stated, that while they heard plenty of fans wandering about it, they had not read a line of criticism about it... Send them a Brand, Minion... Collect of course... (They get it, Sahib—Minion)... Another undefeated basketball crew hit the deck Saturday... Florida 52, Kentucky, 99... Keep a weather eye on the Oklahoma Aggies on the amble up thru the collegiate pack from their present way back national ranking... The Whitefaces continued on the crest of their victory wave on Saturday when they faced the Levelland "B"s, downing them 80-47.

In the Levelland game, Bob Mathers hit a torrid 28 points, sinking 10 field goals and dropping in eight charity tosses. Next high scorer for the Herd was Newman with nine followed by Graham with eight. Mathers also shared his playing time with Allen and White, who garnered two points each.

The Whitefaces jumped into a first quarter 16-10 lead and were never headed.

The Herd came up against its old nemesis, Bovina, in the finals on Saturday, each gunning for tournament honors. As in their last meeting, Bovina bested the Whitefaces, this time by a close 55-48 count.

In losing the game, the Whitefaces produced another high-scoring mark for Bob Mathers, who garnered 25 points.

The Herd made a terrific finish and with a little more time might have upset the Mustangs. The Whitefaces scored 21 points in the final quarter, 117 of these by Mathers. Bovina scored only five, having lost their drive after piling up an early lead.

Bovina had an all-tournament center in the person of Young, who racked up 24 points for his winning combo. Guard Hromas also did well for the victors, pounding out 15 points.

Wilson had second high scoring seven points. Graham was third with six.

"We did it Again!"

That's the jubilant news that comes from Flint to every Buick dealer—and here we pass the thrilling story on to you. It sure is true for '52 that better automobiles are being built—and Buick is building them. Read the good word and you'll agree.

LET's pare this down to plain statements of fact and let them speak for themselves:

The dynamic darling pictured here is the 1952 ROADMASTER.

It has the mightiest engine in Buick history.

It has the biggest brakes of any postwar Buick.

It is the quietest car that Buick ever built.

It has the richest fabrics and smartest tailoring that ever graced a Buick's interior.

It has the greatest trunk space, since spare tires moved off the front fenders.

It has the most superb ride in Buick history.

It has the finest carburetor that Buick research has ever devised.

And with all its new power, it delivers more miles per gallon.

But that is not all.

For those who wish it, there is a brand-new version of power steering that works like a helping hand—gives you the

same sure feel of control you have always known in straightaway driving—takes less than one-fifth the effort needed to turn the ordinary wheel standing at curbside.

Sure, we're putting our best foot forward when we talk about ROADMASTER.

But you'll find a host of notable features in SUPERS and SPECIALS too—plenty to make them, as always, the standout buys in their fields—for ride, for comfort, for style, for room, and for power.

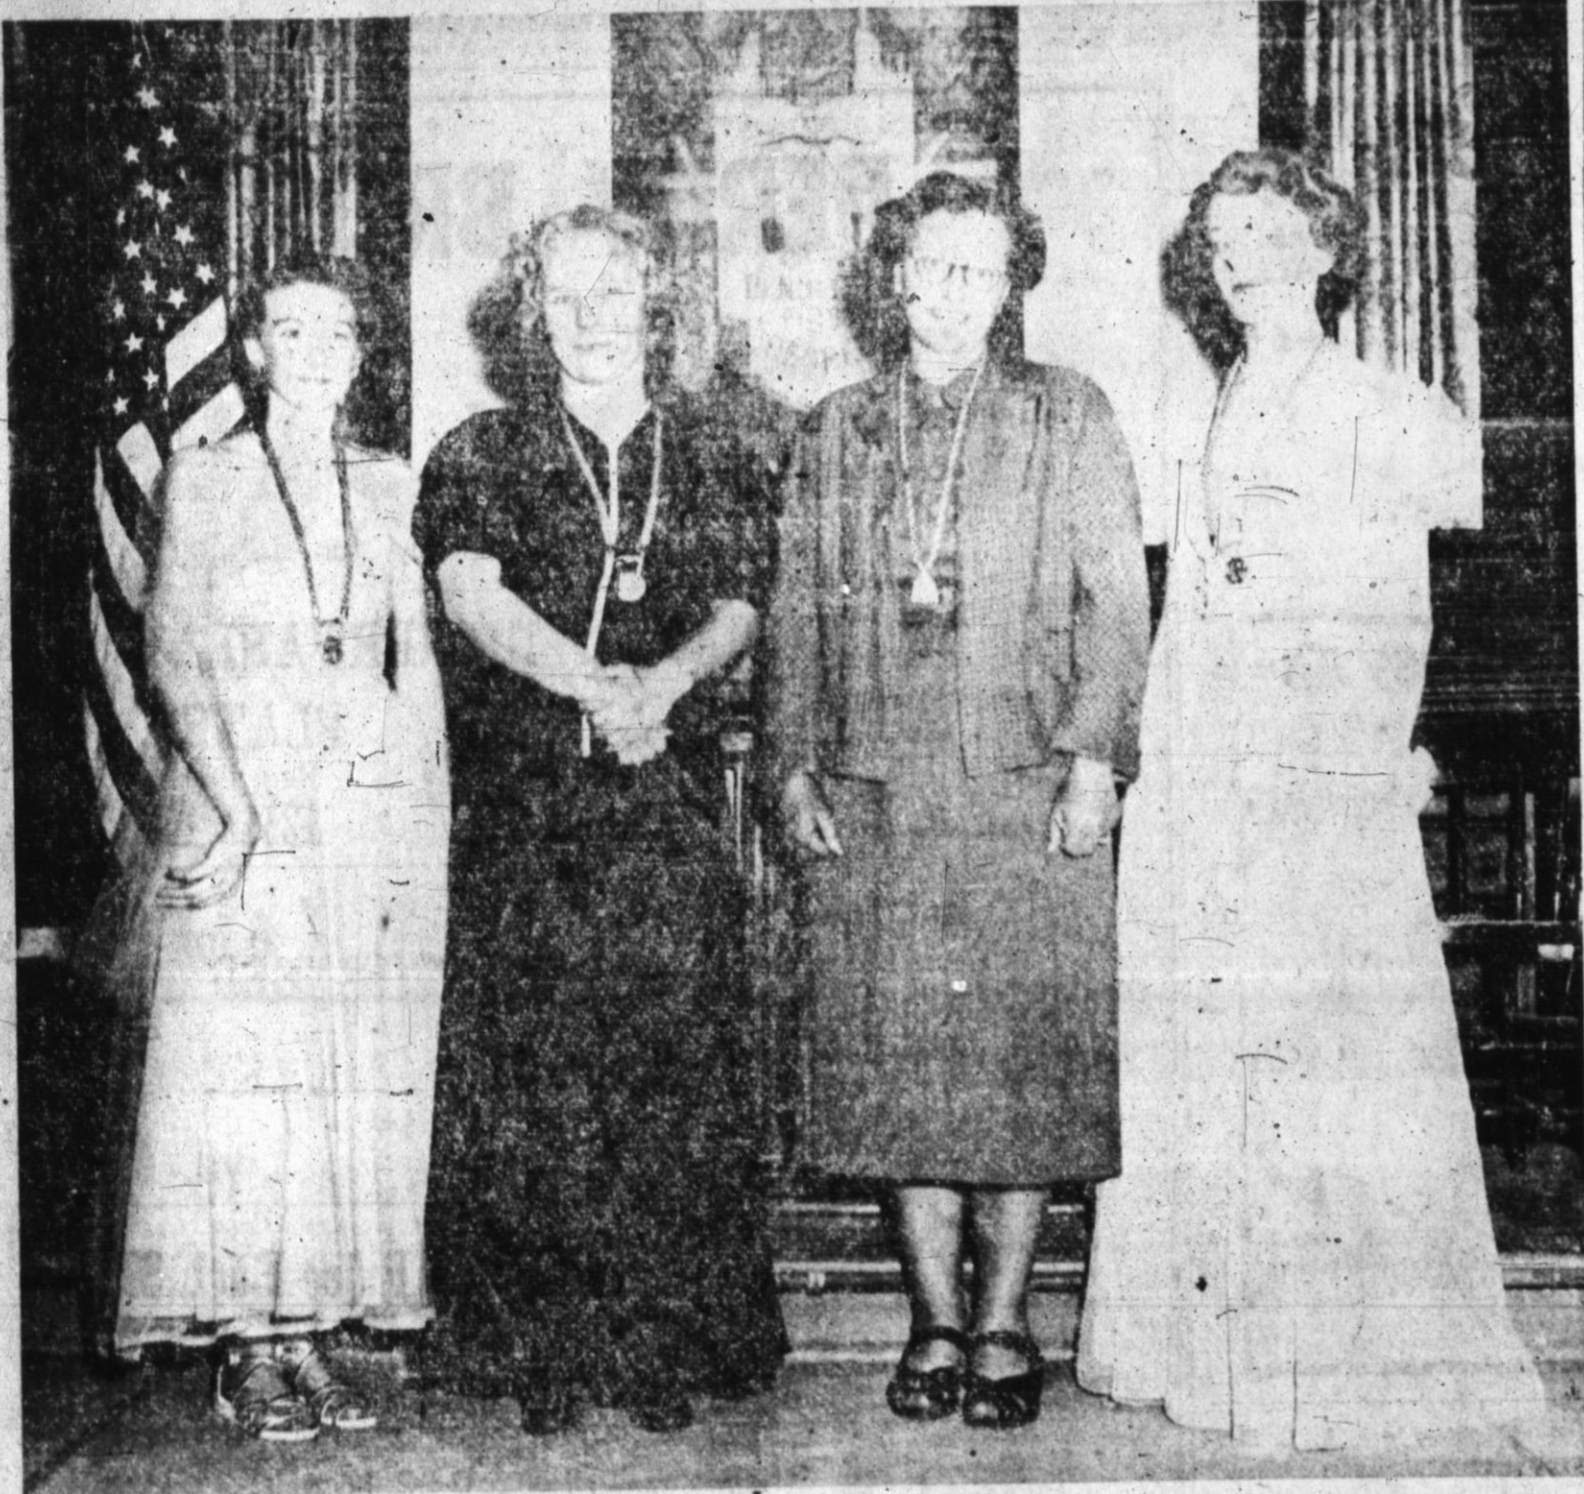

Come in—look this triumphant trio over—and you'll know why every Buick dealer from coast to coast is going around with a smile on his face.

We're neighbors

Wherever you live in Texas, the oil industry is your neighbor. For the Texas oil industry is the bread-and-butter, the opportunity, the daily work of some 190,000 Texas men and women.

The girl who sits next to you in the bus; the hearty-looking man who waves as you pass on the highway; the family behind you at the PTA: in Texas, they all could be, some certainly are oil workers. Bookkeepers, stenographers, executives, drillers, roughnecks, stillmen, geologists, salesmen, pipe liners, petroleum engineers—the oil industry supplies the livelihood of all, and many more.

Neighbors of yours these people are, folks who pay taxes like yours, spend their money in the stores you patronize, drive the same kind of automobile, send their children to the same schools.

The oil industry is more than a balance sheet, a set of statistics, an investment in derricks and pipe-stills. In Texas, it's the family next door.

Sin and a snake... a rattlesnake! How fearful we are of the rattlesnake! And rightfully we should be. A few hundred of our people are bitten each year... many of them die from this poisonous venom. But more poisonous than the snake is SIN. Beware! Be on the lookout for your soul's enemy number one. The snake only destroys the body. Sin blights the soul.

We must develop the same horror and tragic fear for another poisonous monster... alcohol. More than 750,000 of America's men are sick this very minute with the terrible disease of alcoholism. They have been poisoned in body and shackled in will and crippled in mind. Their work suffers and their families are stricken with fear and anxiety for their healing. Bellevue Hospital in New York, in one recent year, admitted 12,084 cases of alcoholics.

Lukewarm church people have allowed the worldly to criticize churches... advertise vice... ostracize preachers... minimize righteousness... and practically idolize the ungodly. This terrible situation cannot be allowed to gain sway. In these days we must liquidate complacency. We must think thoroughly and act swiftly, well and firm. A barrel of "rusty, deadly poisonous rattlesnakes" is a horrible sight but the most pathetic sight is an alcoholic.
