TWO SETS OF TWINS in three days is something of a rarity, but that is just what happened at the Deaf Smith county hospital last week. The first set of twins was born on Tuesday afternoon at about 2:45 and the second set was born at 10 a.m. on Friday. Co-Op, Mountain States Agree on Farwell Area

An agreement between the Mountain States Telephone company and the West Texas Rural Telephone cooperative for extended scope service in the Farwell area was reached in Denver on Wednesday, according to Leo Forrest, manager of the co-op.

The agreement is substantially the same as the co-op made with the Southwestern Bell, for extended service in other areas to be served by the telephone cooperative, Forrest said.

Attending the meeting with Forrest was a representative of the co-op's engineering firm, Leo Coleman, Mr. Park, and Glen Ezzell, phone co-op manager at Portales.

There are still a lot of the details to be worked out on the extended scope service, Forrest said, but it was agreed that the newly-formed cooperative would serve all patrons in the Farwell area not now being served by Mountain States.

On the overall progress of the cooperative's petition in Washington, Forrest told The Brand that "with good luck, everything should be cleared up for the calling of bids by the first of the year."

The cooperative has already asked the Office of Price Stabilization for a priority rating which is needed for securing all materials to be used in the construction. That approval has not

been received yet, but is felt to be only a matter of time.

"We don't anticipate failing but

we may have trouble," Forrest said about securing materials for the construction.

Polio Victim Spends Thanksgiving Here

The ingredients for the happiest Thanksgiving reunion in Hereford last Thursday were found in the home of Deputy Sheriff and Mrs. S. B. Berry.

For their daughter, 11-year-old Charla, was permitted to spend the holiday with them and the other two Berry children, Sammy, 7, and Mary Susan, 17 months. This is the first time that Charla, a patient at the Plainview Memorial Polio Center has been able to come home since

her admission there September 1.

Charla came home with her parents Wednesday and is being returned to Plainview Sunday. She had the privilege of spending Thanksgiving with her family, although still bedfast.

Paralyzed from the waist down due to her attack of polio, Charla is still undergoing treatment. She will be put in bed next week so that she can stand, her father said.

Barrett Fatally Injured in Wreck

Funeral services were conducted Friday afternoon at 2:30 for Bob Barrett, who died Wednesday afternoon of injuries re-

ceived in an automobile accident Tuesday night.

The services were conducted at the Gilliland Funeral home by Rev. Russell Wingert, pastor of the First Presbyterian church.

Barrett who was traveling alone driving east toward Hereford, apparently lost control of his 1950 Mercury. The car skidded off the left side of the road, plowed for a short distance along a ditch and then climbed a six-foot embankment.

A passing motorist notified Highway Patrolman J. A. Dumas of the accident about 10:30 p.m. Dumas and ambulance attendants found Barrett pinned between the steering wheel and the floor board of the car.

Barrett was born July 18, 1913 in Wendell, Idaho and came to Texas in 1940. He and his father Fred S. Barrett Sr. were associated in the potato growing and processing business in Hereford.

Survivors include: his parents, four brothers, Fred Barrett Jr., Stanford Barrett, Richard Barrett and Frank Barrett all of Hereford; three sisters, Mrs. Charles Owens, Mrs. Paul Lyons and Bea Barrett of Hereford.

Funeral services were his brothers and brothers-in-law.

Estimate 235,000 Acres of Wheat

Sowing of an estimated 235,000 acres of wheat in Deaf Smith county will be completed with the next few days, according to the local PMA office.

The 1952 acreage estimate, which was made last week by County Agent Hugh Clearman and PMA Secretary Faust Collier, is a sharp drop in wheat acreage from the 1951 season, which yielded an estimated 400,000 bushels from 350,000 acres.

Deaf Smith county's goal as issued by the state PMA committee for the coming year is 360,000 acres, but that is a mark that won't be reached.

The county mobilization committee didn't feel that the acreage for the county would go more than 250,000 acres.

There was more late planting of wheat this year than in recent years because of the summer

drouth. Many farmers started out with intentions of not planting wheat, but after the county got moisture, went ahead and planted.

One indication of how the planting season had been dragged out is the varying stages of wheat growth in the county. Some is up to a good blanket, some is coming up, and still

others are winding up their planting operations this week.

The weather has been good for wheat this fall, but the old annual return to wheat planting didn't materialize sufficiently this year to reach last year's mark.

Several varieties are being planted in Deaf Smith, according to County Agent Hugh Clearman. Among them are: Wichita, Comanche, Chiefkan, Westar, Turkey Red, Tenmarq, and a new variety, Quannah. Wichita, Comanche, and Westar have been the most popular among the county wheat farmers, Clearman believes.

Wheat in the county has been fortunate this year in that no infestation from bugs has been reported as yet, Clearman told The Brand.

Charge Two With Passing Forged Instruments

Two men were charged with passing forged instruments in twin complaints filed in examiner's court on November 20 by C. L. McBroom.

Charged were Herman Taylor and Jack Riddle, who, according to the complaint signed by McBroom, passed forged instruments for \$42 each supposedly signed by McBroom.

Taylor was charged with passing \$42 check made out to Taylor and signed by McBroom on or about October 12, 1951.

Riddle was also charged with passing a forged instrument made out to Riddle for the sum of \$42 and supposedly signed by McBroom.

Both complaints were sworn out on November 20 and filed with County Judge L. H. Foster, sitting as examiner's court, on the same day.

Neither Taylor or Riddle were apprehended as of Saturday morning.

Assault Charge Filed Against Wallace Miles

A charge of assault of a girl under the age of 18 was filed in examiner's court on November 16 against Wallace Miles.

According to the complaint filed by the girl, the offense occurred on or about May 15, 1951. The complaint was sworn out on November 16 and filed with County Judge Leonard H. Foster.

File Charges In Accident On Highway 51

Charges of pulling an unlighted trailer were filed against Austin Mobley of Dimmitt in connection with an automobile accident Wednesday night in which one man was injured.

A 1951 Chevrolet driven by Reuben Mayfield of Dimmitt ran into the rear of the cotton trailer, causing about \$400 damage to the front of the Chevrolet.

Lights blinded Mayfield causing him not to see the cotton trailer until he was too close to stop.

Rev. D. W. Brashers, retired Methodist minister from Dimmitt, who was a passenger in the Mayfield car, was hospitalized with minor injuries as a result of the accident.

Colline and Emma Jane Brown spent the week-end in Dallas attending a session of the Texas Methodist Student conference. The girls are the daughters of Mrs. C. O. Brown.

Santa Coming To Hereford Dec. 8

Santa Claus is coming to Hereford on December 8!

Plans have been made for Hereford's newest firetruck to meet Santa at the airport and bring him to town for the Jaycees annual Christmas parade.

Santa Claus will lead the parade on the firetruck and will be followed by school children. The parade will start at the First Baptist church and will proceed to 3rd and Main where sacks of candy, nuts and fruits will be

given away.

Christmas decorations will be put up in the business district starting on Sunday afternoon. Edgar Skypala, chairman of the 1951 Christmas program, says that the lights should be turned on by Wednesday night at the latest.

Entry blanks for the home decoration contest will be in The Brand starting on December 4. Prizes for this contest will be \$25, \$15, and \$10.

Man Injured in Crossing Wreck At Summerfield

George William Kelley was seriously injured Wednesday morning at 11:25 when his empty beet truck was hit by a westbound Santa Fe passenger train at a grade crossing near Summerfield.

Kelley, who had just deposited a load of sugar beets at a dump on the south side of the track, was going back to the highway when the train hit him.

The cab of the truck was knocked off, the truck box knocked off, and the rest of the chassis crumpled. The motor was hurled almost 165 feet toward the highway by the force of the impact. Parts of the truck were strewn for 100 feet from the cab and chassis.

Highway Patrolman J. A. Dumas said that Kelly apparently neither saw nor heard the approaching train.

Kelley, who is employed by J. E. Stenge of Summerfield, was still in a serious condition at the Deaf Smith county hospital on Saturday.

Ted Staats and Joe went to Bentonville last week to visit in the home of Mr. and Mrs. Lyndal McGee. Mrs. McGee, who is the daughter of Mr. and Mrs. Staats, returned to Hereford with them for a brief visit.

THE AUTO IN WHICH Bob Barrett suffered fatal injuries, above, was adjudged a "total wreck". The above picture shows how badly the front end of the 1950 Mercury was caved in by the impact hitting a six-foot driveway embankment on Harrison highway Tuesday. —Brand Staff Photo

NOTHING BUT PIECES were left of the truck driven by George Kelley after it was struck by a westbound passenger train at Summerfield on Wednesday. Parts of the truck were strewn for a hundred feet from the chassis. The motor came to rest 165 feet from the cab at the edge of the highway. It can be seen at the top of the picture just to the left of the gasoline transport on the road. —Brand Staff Photo

Local Resolutions OK'd By State FB

Two of Deaf Smith county's resolutions submitted at the state Farm Bureau convention November 18-21 at Houston were approved and adopted by the state Farm Bureau, according to Virgil E. Dodson, president of the local federation.

Approved in Houston was a revision of the grain sorghum support structure and a resolution calling for a wider use by individual counties of funds for handicapped children allowed them under the Gilmer-Aiken law.

The first resolution which was given state-wide approval was backed by all Panhandle counties. It calls for a 90% of parity

support of grain sorghums when corn has no allotment. When corn has an allotment, grain sorghum support would drop to 80% of parity rather than accept acreage allotments. When grain sorghums come under acreage allotments, the support price should be 90% of parity.

The second resolution called on each county federation—in counties where there are handicapped children—to promote and spearhead a move to get a wider use of special educational aids provided for under the Gilmer-Aiken law.

Local representatives at the convention were Mr. and Mrs. V. E. Dodson, Mr. and Mrs. Wayne

Bond Sales Here Total \$13,743 In First Drive

Deaf Smith county's sales totaled \$77,913.75 during the first U. S. Defense Bond drive, Nathan Adams of Dallas, state chairman, informed Robert L. Thompson, local county chairman. The drive was held from Sept. 3 through Nov. 13.

Final sales figures showed that Series E bonds accounted for \$13,743.75 and Series F and G for \$64,170 of this county's total.

Sales of \$27,778,453.25 in Texas during the drive were almost 50 per cent more than normal, Mr. Adams said.

Higgins, and Mr and Mrs. Jack Dean. The Dodsons drove to Houston and the Higgins and Deans flew from Amarillo.

County Agent Reports

By Hugh Clearman
County Agent

Mr. W. T. Gunstenson is proud of the corn yield he got this year and he proved again that good yields are possible. The test showed that he made 115.7 bushels per acre and that is considered good corn most any place.

This corn was well-matured and the land had an application of barnyard manure last year.

Virgil Walker reports that one of his patches of cotton made slightly more than 500 pounds of lint per acre. He says he likes the way it yielded but he would sure like to be able to get it ginned as fast as he can harvest it. Mechanical harvesters, which make it possible for two or three men to harvest from 5 to 15 bales per day sure increase the gin man's problems. Three of four field strippers in good cotton operating efficiently can pull cotton as fast as one gin can handle it.

Darrell Hersley has added two lambs to his list of 4-H projects

and he expects to give some of the other boys some competition at our spring show. 4-H members out at Sims have as one of their projects building standard mail boxes for families in that neighborhood. They are making a little money for their club through this project.

Dimmitt Bobcats Win Bi-District Tilt, 28-7

DIMMITT'S RAMBLING Glenn Brown totes the pigskin again for the Bobcat cause as he shows his heels to Tom Schaeff (on the ground). Jones is right behind Brown in the picture. Billy Gregory (27) pulls up into the scene as a belated blocker.—Brand Staff Photo.

SCRAPPY GLENN BROWN, Bobcat sparkplug, is brought down after sizzling through the middle of the Wildcat line for a good gain. Canadian's Ramirez (51) is on the scene to help the tackle. Dimmitt players are Gregory (27) and Jones (58).—Brand Staff Photo.

BIG TOM SCHAEFF, Canadian fullback, trucks through the Dimmitt line for a gain of about five yards in this play at Canyon in the Thanksgiving Day Dimmitt-Canadian bi-district battle. Schaeff is at extreme left, being brought to his knees.—Brand Staff Photo.

Dimmitt's snarling Bobcats — sparkplugged by diminutive Glenn Brown, 150 pounds of gridiron dynamite operating out of the left halfback post — tromped the Canadian Wildcats 28-7 in a bi-district Thanksgiving Day classic in Buffalo stadium at Canyon.

The Bobcats, undefeated champions of District 2-A, humbled the Wildcats, District 1-A champs by handing them their first setback of the year in what turned out to be a rout.

A crowd of about 5000 frenzied fans threw themselves into the spirit of the first round state elimination tilt as the two prep machines fought it out for a thrilling 48 minutes.

By virtue of their defeat of their northern rival, the Bobcats will enter the second round in the golden gridiron trail on Friday, Nov. 30 when they meet the Abernathy Antelopes, District 3-A champs, in the Plainview high school stadium at 2 p.m.

Coach John Blaine's Bobcats had two very definite advantages which proved to be too great an obstacle for the fighting Canadian Wildcats. One was the crafty Glenn Brown and his spectacular running and the other was Quarterback Douglas Dennis with excellent generalship and fine passing.

The Dimmitt line, which had trouble with Canadian's man-mountain, 230-pound full back John Schaeff, in the early minutes of the game, settled down and played a marvelous ball game, holding the Wildcats and taking the steam out of Mr. Schaeff's steamroller.

Dimmitt's victory was an eye-pleasing and fan-pleasing spectacle of superb team play. The Bobcats erred, but their stellar offensive play nullified the ragged edges that may have shown up.

The Bobcats overpowered the highly-touted Canadian eleven, as was evidenced by the 18-9 edge in first downs and the 339-166-yard edge in total yardage.

Dimmitt's champs picked up 229 yards of real estate and added 110 more off the rifle arm of Douglas Dennis. The Wildcats drove for 144 on the ground and for 29 more in the air.

Outside of an opening spurge which carried the ball from the Canadian 14 to the end zone in 15 plays, the Wildcats presented no serious threat to the Dimmitt gridders. On this first offensive march, John Schaeff, Dean Hoover, and Jimmie Waterfield combined running efforts to bring some an early side of bacon for the Canadian faithful.

The joy was shortlived, however. Dimmitt, after lookin jittery in the first march as the huge Schaeff came hurtling through the holes at them, buckled down and put the skids under the Wildcat fullback. They found that Schaeff could fall for three or four yards or drag two or three would-be tacklers for a few yards. They began knocking he feet out from under him and dropping him.

Dimmitt made the score 7-6 shortly after the second quarter began. They took the ball over on the Canadian 48 on downs with Brown hauling the pigskin to the 35 of the Wildcats. A Dennis-Warren pass netted 25 yards set the stage for the first Bobcat tally of the afternoon.

Glenn Brown expressed the ball for eight yards on the first try and picked up the other two on his second attempt. The point was no good after the TD.

Dimmitt kicked the ball to Canadian and the Wildcats failed to pick up more than one first down as two passes and one running attempt netted them minus one yard. They kicked to Dimmitt out of bounds on the Bobcat 39.

Dimmitt was stymied on this exchange and booted the pigskin to the Canadian 15 where it rolled dead.

Adcock and Schaeff united efforts for eight yards in three downs and the Wildcats gambled by sending Schaeff through the line to move the ball two more yards for a first down.

The Wildcat's hefty fullback picked up only 1½ yards as the Bobcats came into possession on Canadian's 25 through downs.

Dennis sent his charges to the air as he skied three unsuccessful times. On the fourth, he connected with halfback Weldon Warren for 25 yards and the second Dimmitt touchdown of the day.

DEAN HOOVER, Canadian halfback, sneaks around his right end to pick up a few yards in the bi-district game at Canyon Thanksgiving Day. Making the tackle is Dimmitt's Jim Brown. Moving to help at the right is Roy Murphy. Tom Schaeff, Canadian 230-pounder, eyes Murphy. Trailing the play at extreme left are Wright (39) and Hunter (35).—Brand Staff Photo.

The conversion was no good on this second TD.

Dimmitt kicked off to Canadian who moved the ball 12 yards for one first down and then their drive stalled. The half ended with Dimmitt in possession after the Wildcats had kicked to their 25.

In the third quarter, Canadian brought the ball from their own 28 to their 47 where they had to boot. Dimmitt had to take the ball where it went out of bounds on their 27. Brown picked up five, and the Bobcats then were assessed the first penalty of the contest for either side, a 15-yarder for holding. Brown picked up 12 on a running effort, and quick-kicked on the third down with the ball going out of bounds on the Canadian 32.

Picking up only a net three on their four downs, the Wildcats were obliged to boot with Dimmitt taking over on Canadian's 46.

Six running plays later, Dimmitt had their third TD, coming in from the seven with Brown hauling. Upsetting the Canadians a pass for the extra point paid off and Dimmitt took the lead, 19-7.

In the fourth period, Dimmitt made up for the two bad extra point kicks by tagging Canadian for a safety. With the ball on

their own 32, the Wildcats were hit for yardage losses and Dimmitt took over on the Canadian 44. After three running plays failed to pick up the 10 yards, a Dennis kick stalled the ball on the Canadian one.

The Wilk-cats tried a pitchout from the precarious spot and were thrown for a loss with Dimmitt annexing two points to lead 21-7.

The crowning blow came after the safety when Canadian kicked from their 20. Dimmitt took the ball from their own 16 and

marched all the way into the end zone for their fourth tally of the day. The conversion was good.

The game ended with Canadian taking to the air in possession on the Wildcat 32.

Win Watch Awards for 4-H Records

OUTSTANDING records of achievement in the 1951 National 4-H Dairy Foods Demonstrations and Meat Animal programs have won four Texas club members top state honors. Each received a 17-jewel watch. The winners and brief outlines of their records follow:

Enterprising and successful can best describe Mitchell Robinson, 20, of Ackerly, state winner in the 4-H Meat Animal program. Ability to select, feed and show livestock, are among the many skills he has learned during eight years in the project. Starting in 1944 with one steer and one gilt, he has raised a total of 35 beef cattle and eight swine. He estimates the net income from the marketing and sale of these animals around \$24,000. Mitchell has shown steers at every major show in the nation receiving many awards. In 1950 he showed the grand champion steer at International Livestock Exhibition in Chicago. This young stockman lives on the 610-acre ranch of his parents, Mr. and Mrs. T. M. Robinson and plans to make stock farming his career. An all-around 4-H'er, Mitchell completed 60 projects, among which were cotton, grain sorghum and dairy. He has served as president of his local club, and is a member of the Texas Council. Thos. E. Wilson, Chicago meat packer, has donated the awards in this program for 22 years.

Showing others how to use dairy products to make new and appetizing dishes, won top honors in the 4-H Dairy Foods Demonstration program for Doris Fisher, 15, of Victoria, and the team of Agnes Warren, 17, of Waco, and Cynthia McKethan, 17, of McGregor. Giving demon-

strations not only perfected their knowledge, but the girls also developed poise and self-confidence through speaking before community groups. Doris' prize-winning demonstration was "Plain Egg Custard." Knowing the value of eye appeal she added a few strawberries and a mound of whipped cream as a garnish after folding strawberries into the custard. The team demonstrated "Making and Serving Cottage Cheese." The wrist watch award was presented to each of these 4-H'ers by the Carnation Company for their excellent work.

Members attending the meeting were: Mesdames Joe Davenport, Howard Gore, Spicer Gripp, C. B. Hudson, Robert Lemons, H. L. Meacham, Eugene Noel, Monroe Parker, W. N. Rieger, Elvin Wilson, and the hostess.

Mr. and Mrs. A. L. Fango of Amarillo are the parents of a baby daughter, Susan Elizabeth, born on November 11. Mrs. Fango is the former Vera Elizabeth Rea of Hereford.

Grandstand Gropings

By Kent Snare

Since this squib, of necessity, will hit the press before the count is in on the Tennessee-Kentucky fracas it will afford its sparse crop of readers a chance to chuckle at the writer — maybe. As previously commented here, the picture is reversed over 1950—in that year the Cotton Bowl committee had used their crystal ball successfully and had picked Tennessee for their bowl choice before the Kentucky-Tennessee game (Kentucky favored) and consequently had looked very astute when the Vols downed the Wildcats—Now here in 1951, the Sugar Bowl has already selected Tennessee, the present favorite, and Kentucky, already tabbed for the Dallas just on January one '52, can make the Sugar Dads sad on the second sequence by flailing the Tennessees — and considering

the murderous rate that Parilli, Moseley et al have been going since dropping three in a row, by a total of 11 points shy, they could do that big chire. However the fundamentalist from Knoxville will be tough chewing. Scattered through the Tennessees habitat are a number of signs typical of the Neyland School of Thought — among them thusly: "Tennessee is known as a blocking team" — "When the going's tough the conditioned team wins" — "The team that controls the scrimmage line with a quick charge usually wins" — "Follow the ball and make touchdowns instead of firstdowns" — and finally "A great interferer is worth three ball carrying stars" It is common knowledge that Tennessee teams operate with comparatively few offensive plays, it was only in 1950 that

Ballot Canvass Gives Vet Fund Okay Here

The General re-introduced his buck-lateral series, and this too, is exemplified by Neyland's thinking when he stated, "No play is worth much unless it's been rehearsed 500 times". Another quaint quote of his is "Most football players know how to block. Few know when to block. What might be an excellent block is useless if it comes too soon or too late. It's all in the timing. Our boys block, block, block every afternoon. They either get good at it or they don't play for Tennessee. The best ball carrier in the country can't play for us unless he can block." To me the foregoing which, of course, is only a portion of Neyland's tutelage, shows why he has been so magnificently successful. In short, his success is due to drudgery. Block, block, block every day and run a play 500 times until it is rhythmed in to every fiber of every player — that runs into work. He'll lose a few but he will never be swamped and he will block and tackle at the opposition and let them razzle dazzle themselves into defeat many times over for Tennessee — As a post script — It seems to me that Dimmitt's main weakness is their try for point after touchdown — may cost 'em.

An official canvass of the Deaf Smith county balloting on five Constitutional amendments November 13 reveals that one of the questions — the veterans land loan proposition — passed the voters. Total official vote was 224 for and 219 against. It was reported last week in The Brand that none of the questions received approval in this county. Figures used for that story were unofficial returns. The Commissioner's Court made an official canvass of the 443 ballots cast last week and submitted the official tally. — Fate of the other amendments were: NUMBER ONE — county pensions — 79 for and 364 against. NUMBER TWO — university fund — 197 for and 228 against. NUMBER THREE — rural fire district — 93 for and 335 against. NUMBER FOUR — veterans land loans — 224 for and 219 against. NUMBER FIVE — state welfare — 144 for and 305 against. The veterans land fund question was the only one that carried in state balloting.

Teresa Fangman Becomes Bride of Walter Paetzold in Church Rites

Miss Teresa Fangman, daughter of Mr. and Mrs. H. F. Fangman, became the bride of Walter Paetzold, son of Mr. and Mrs. John Paetzold, in an early morning ceremony held in the beautiful new St. Anthony's Catholic church on Monday. The double ring ceremony was the first marriage service in the new church. Father Nathaniel was the officiant.

The churchly dignity of the scene was enhanced by the simplicity of the decorations where white chrysanthemums were used at the altar with lighted white tapers.

Mrs. Robert Kerschen, organist played the wedding marches by Rossini and Miss Adeline Koelzer, vocalist, sang "On This Day", "O Perfect Love", and "Ave Maria".

The bride's attendants were Eleanor Baetzold, sister of the bridegroom, and Marcella Bezner. They wore dresses made identically of marquisette over taffeta with bouffant skirts and tight fitting bodices. Miss Paetzold wore mint green and Miss Bezner wore raspberry rose and their halo bands studded with rhinestones matched their dresses. They carried hand bouquets of bronze chrysanthemums tied with talisman ribbon.

Arnold Jentgen served the bridegroom as best man. Jimmy Fangman and Edward Paetzold were ushers. Billy Paetzold was groomsman.

The bride wore a traditional bridal gown of white satin and chantilly lace made with long fitted bodice that came to points in the front and back and a full skirt ending in a long train. The deep yoke of illusion was cuffed with a wide berth of lace from which extended a lace panel flaring wide at the bottom of the skirt. Wide panels of lace extended from the waist line at the back to the tip of the rounded train. Tiny self covered buttons adorned the back of the bodice and the petal point sleeves. The veil of imported English illusion was edged in lace and caught with loops of imitated pearls to a tiara-bouquet of lace. Her only ornament was a strand of imitated pearls, and the bridal bouquet was of white feathered carnations arranged with satin leaves and tufts of maline and showered

with white satin streamers. The bride's mother wore a navy blue suit and the bridegroom's mother chose a green suit. Both wore a pink feathered carnation corsages.

When the couple left on a wedding trip to New Mexico and Arizona she wore a dove gray woolen suit with black accessories, and a black velvet hat.

Following the wedding a breakfast was served in the home of the bridegroom's parents and the bride's parents were hosts at a dinner at high noon in the church hall. A reception honored the couple in the church hall at four o'clock in the afternoon.

Mrs. Paetzold is a graduate of Hereford high school. Mr. Paetzold attended Price college in

Amarillo. After the wedding trip the couple will reside in a new country home where he is engaged in farming.

Out-of-town guests at the wedding included: Mr. and Mrs. Lawrence Jentgen of Vega, Arnold Jentgen of Pilot Point, Mrs. Joe Looper of Skellytown and Mr. and Mrs. Andrew Acker of Nazareth.

Former Hereford Teacher Weds Californian Nov. 18

In the presence of members of the family and intimate friends, Miss Geraldine Pratt, former teacher in Hereford high school, became the bride of James G. Harbinson of Sacramento, Calif. Sunday, Nov. 18, in Clarendon.

The wedding was solemnized in St. John the Baptist Episcopal

church with the Rt. Rev. Geo. H. Quarterman directing the service. Altar decorations included bronze and yellow chrysanthemums against a background of greenery.

Mrs. Millard Word of Canyon presided at the organ, playing her own composition "Traum-

erai" preceding the ceremony, and the nuptial hymn "O Perfect Love" as vows were exchanged. She also played the traditional wedding march.

The bride's only attendant was her sister, Mrs. Willie Ozier, who wore a gray suit with matching accessories and a corsage of chrysanthemums. Lawrence C. Neece of Clarendon was best man.

The bride, who was given in marriage by her uncle, George Ryan, chose a gray suit with matching gray hat and black accessories. She carried a prayer book topped with gardenias and pink pinocchio roses. She wore an heirloom bracelet which has been in the family for years.

A reception followed the wedding at the home of the bride's uncle and aunt, Mr. and Mrs. George Ryan. The couple will be at home after December 1, at 6131 Mt. Laren Ave., Sacramento.

Mrs. Harbinson is the daughter of N. W. Pratt of Modesto, Calif. She was graduated from the University of Texas, and T.S.C.W. At the time of her marriage she was librarian at Edinburg Regional college, Edinburg, Texas, and a member of A.A.U.W.

A green and white background at the altar was arranged with palms at the back with a central candelabra garlanded with flowers and fern. Seven branch-

ed candelabra and baskets of white chrysanthemums and stock flanked the central illumination with gold trelises entwined with flowers at either side of the bridal space.

Puddings Hot and Wholesale For Holiday Season Ahead

To make some wonderful holiday puddings try Mrs. O. M. Dickey's date pudding and chocolate ice-box pudding. The date pudding is a typically winter-day dish which can be served steaming hot, but equally appropriate to the season is the ice-box pudding, ideal at the end of a heavy meal. Both provide an extra dividend — thrift — as ingredients are among the plentiful.

First try Mrs. Dickey's favorite the date pudding, which has been used traditionally in the family for years.

Date Pudding
2 eggs beaten slightly

¼ cup sugar
1 teaspoon baking powder
2 tablespoons flour
1 cup dates chopped
1 cup nuts
1 teaspoon vanilla

Add sugar to beaten eggs and gradually add the rest of the ingredients. Blend well and bake 40 minutes in a 300-F oven. Cut in squares and serve hot with whipped cream topping.

Ice-Box Pudding
2 cups powdered sugar
2 tablespoons cocoa
½ cup butter
1 teaspoon vanilla

¼ teaspoon salt
2 eggs
1 cup walnut meats
1½ cups vanilla wafer crumbs

Sift powdered sugar and cocoa together. Cream butter and add sugar and cocoa mixture to butter, add unbeaten egg yolks one at a time, and add nuts and vanilla. Fold in the stiffly beaten egg whites. Line a loaf pyrex pan with waxed paper and spread ½ of vanilla crumbs on bottom. Pour in pudding mixture and then add the remaining vanilla crumbs. Let set in the refrigerator for a few hours and serve with whipped cream.

They have a daughter, Janice, who is a year old. George raised maize, a little wheat, and some safflower this year. The safflower is harvested at about the same time as maize. The safflower is raised for the oil which is extracted from it.—Mrs. Merlin Kaul Photo.

Pittman, Lester Wiggins, Glenn Nelson, Dub Curtsinger, Frank Watson, Joe Kendall, Bill Hutson, O. L. Bybee, Lee Renfro, Fred Welch, Wayne Lawrence, Ada Sinclair, H. B. Dillard, W. H. Jones, Art Grimes, Ira Cottrell, A. H. Swagert, Jack Birchfield, M. T. Hagar, Ky Lawrence, Harry Sinclair, Homer Warnock, C. R. Nash, Wm. F. Hardwick, Frank Markham, Joe Raymond, Floyd Jones, C. A. Q. How can I train the growth of my eyebrows?
A. By regular brushing. Use a small brush that will not only train the brows and remove any excess powder, but will also invigorate and encourage their luxuriant growth. The brushing motion should be upward away from the nose, then downward to the edge of the eye, along the natural course of hair growth. This imparts a sleek look.

Q. Is there something I can do about the flabby condition of my skin after losing a good deal of weight?
A. Before applying tissue cream, pat the skin with an astringent, and do this every day. Use ice, wrapped in damp absorbent cotton, over throat and face as often as possible, "ironing" the face with a firm pressure.

Q. What eye shadow application is best for eyes that are too close together?
A. Blend outward toward corners and into wrinkles at end of eyes.

Q. How can I add fluffiness to my very oily hair?
A. Try adding a teaspoon of soda to your liquid soap shampoo.

Q. What can I do about hands that are always becoming stained and roughened from housework?
A. Keep a half-lemon rind on your bathroom or kitchen shelf. After washing your hands, rub the moist rind over them, and then rinse with clear water.

Q. Please recommend a good face and complexion "rejuvenator."
A. One of the best is to make a practice of hanging the head over the side of the bed before going to sleep at night, and propping the feet high for 15 or 20 minutes. The rush of blood to the head is a fine tonic for face, throat, and scalp.

Q. How can I remove lipstick stains from a non-washable fabric?
A. Sponge the stain with carbon tetrachloride or similar dry cleaning fluid. If the stains do not disappear with this treatment, then the only thing to do is send it to a professional cleaner.

Q. What is a good astringent I can make for too-oily skin?
A. A bit of lemon juice, squeezed into a bowl of ice water and splashed onto the skin after it has been thoroughly washed and massaged, is good. This is done before the powder foundation or makeup is used.

Q. What exercise will help slim down thighs that are too heavy?
A. Lie on stomach, elbows on floor under chest with lower part of arms crossed. Bend knees. Raise left thigh as high as possible (bringing heel toward buttock) and then spank it down on floor, as body weight falls on elbows. Spank as many times as you can, then rest, and spank other thigh. This is really effective!

Q. How can I remove eye makeup?
A. Lie on stomach, elbows on floor under chest with lower part of arms crossed. Bend knees. Raise left thigh as high as possible (bringing heel toward buttock) and then spank it down on floor, as body weight falls on elbows. Spank as many times as you can, then rest, and spank other thigh. Why Forget Tomorrow Just Because We Live Today?

One thing can be said for the American people—we can whip ourselves into an emotional or patriotic frenzy in "nothing flat" and can cool off just as fast.

Now that the Thanksgiving turkey is gone, we can forget about giving lip service to the stirring principles our forefathers put into a day destined for religious and patriotic significance even after more than three and a quarter centuries.

From a warm home and with a full stomach, it's a little hard for us to visualize the driving force that prompted the Pilgrims to leave England for this country.

Their conscience compelled them to come here. Being "taken care of" wasn't enough. They had their personal dignity to maintain, so they searched for a land of freedom.

They made their freedom in America at no little privation to themselves.

After letting the old story of their first Thanksgiving run through our minds for a day, how well have we borne up under their rigid standards?

Is "having a full stomach" enough for us? Will we sell our birthright for a mess of pottage?

Some would have us do that.

As long as we're "being taken care of," are going to wink at everything else that goes on under our noses?

Those who came to America in 1621 wanted to leave something behind for the generations to come. Today, we just worry about ourselves and "let tomorrow take care of itself."

There's that full stomach patriotism again. What we have today might better die along with this generation.

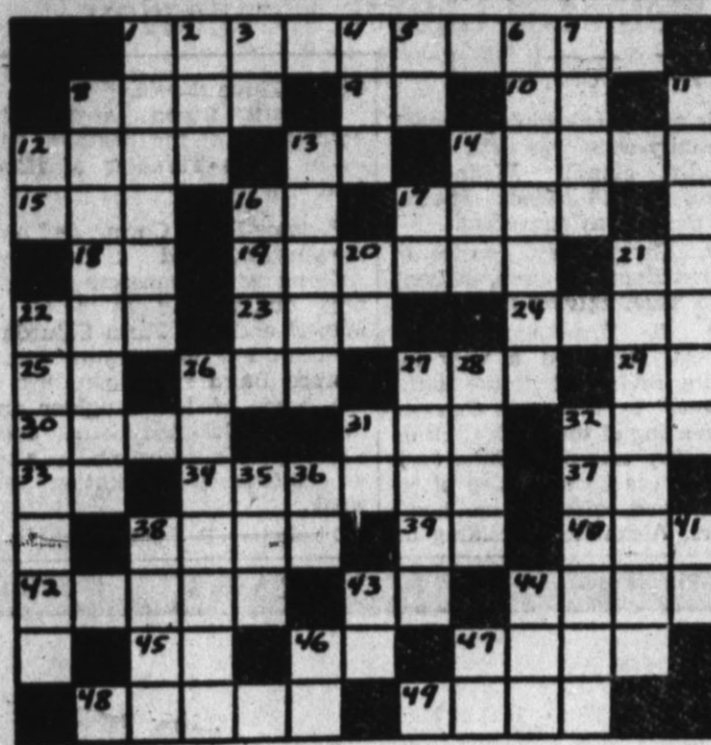

If we are going to let the government regulate our business, then businessmen are going to lose some of their freedom. If we are going to let the government regulate agriculture by the purse-strings, then agriculture is going to have to lose some of its freedoms. And so on down the line.

For everything we get, we lose a little. A lot of small freedoms add up to one big freedom.

Freedom and personal integrity are intangibles. A chicken in the pot is tangible. Some have adopted the philosophy that "as long as we have chicken in the pot, let the dreamers worry about what we'll have tomorrow. We're living for today."

Are you living for today alone or for a tomorrow, too?—W. W. K.

I'll Never Forget

By Wm. McGehee

We started to the High Plains of West Texas early in 1889 but stopped in old Rainer at the home of mother's brother, F. O. (Frank) Aiken. He had moved out there to put in a grocery store when the county was organized in the fall of 1888.

Father was going to the High Plains so far as I now remember, for no other reason than to get out of a cotton country. He figured that because of the high altitude that he would be never worried with cotton again. He had just harvested a big cotton crop the year before and sold it for an average of 4 and 1/4 cents per pound, and corn for 15 cents per bu. delivered at the shelter in Moody, Texas, about six miles from our home.

Two or three days before Thanksgiving 1889, my father and another man went over south of town on the Horseshoe ranch and came back with enough turkeys for every family in town to have a couple of turkeys per family for their Thanksgiving dinners. As I now recall there were ten or twelve families, some living in tents, dugouts and five or six small houses. They were all just as happy as our New England forefathers at their first Thanksgiving feast.

The following year, 1890, mother was considerable worried about Thanksgiving as we had no turkey, neither did any one else in the country have any turkeys. Father finally solved the problem by a suggestion that we have our Thanksgiving dinner and substitute a nice half grown antelope for the turkey. The turkey business being settled he got his long range rifle

SUNDAY'S CURRENT QUESTION

News of Atrocities Should Not Be Suppressed, Readers Feel

Do you think it was wise for the Eighth Army in Korea to release the news that many of the American soldiers being captured by the Communists are being executed? Or do you think the news should have been suppressed?

KENT SNARE—I don't think any news should ever be suppressed—if it's news.

FRED BAIRD—I don't think that it should be suppressed. There might be some doubt as to whether it was wise to release it in the manner they did. I don't think that any news should be kept from the American public that directly affects the American public. I'm not sold on the idea that the American public is incapable of understanding the news. If we are incapable of understanding the news then we are incapable of electing the officers that run our government. I do think that the news could have been given the American public in a little different manner. It came as such a shock the way they did it.

ALEX THOMPSON—I think that the public ought to know what is good for the public to know. If they are going to give out information though they ought to give it out in full if it is going to help the cause otherwise it should be suppressed.

JOHNNIE POOL—If our officers are trained officers and have the intelligence they should have they should announce the happening in Korea as long as it isn't secret information that would endanger the lives of our boys. I think that it should be released to the public through the newspapers rather than through the Pentagon.

FRANCIS HARDWICK—I think the people should know what is happening over there and over here too.

'Tater Peelin's

By Roberta Campbell

We see where the pilgrims were wise when they finished their harvest before they had their feast because we tried gatherin' corn after a turkey dinner Thursday and we didn't get much over half way to the far end of the field before we had thought up some very good reasons why we should stay at the house that afternoon.

Our interest in National Education Week observed a week or so ago when parents were asked to visit school was naturally centered in Mrs. Hodges fourth grade room at Shirley. Gary Minor was a polite youngster who saw that we had a chair while Jenny Lynn McCatherin brought us her spelling book and Katherine Gollehor asked to take our coat to an empty desk. Loyd Burks was our able informant.

The J. C. McCatherin's call their home Lakeside but we've decided "Seldom Rest" would be an appropriate name for our little farm.

Up until this summer we had never given a thought to where or when we would like to be buried but now we definitely want to be buried on Sunday because it is at least supposed to be a day of REST.

Another thing—somebody had better put a fly swatter in our hand instead of a flower because, though we never have many flies at a time there always seems to be just one more fly than we have swatted and we're sure there will still be one around somewhere.

We hope you didn't miss Wally Knief's editorial on High-Pressure Recruiting carried in last Sunday's Brand.

If enough people would holler loud enough long enough maybe something would be done about this waste in government spendin'.

out, got on his horse and rode away. Within an hour or so he returned with a perfect young antelope.

The weather was real cold with a light snow falling; just ideal for Thanksgiving. The antelope was good and cold Thanksgiving morning. Father cut the antelope up in convenient pieces and mother filled her old cast iron stove full early and by ten o'clock antelope-turkey was crisp and brown. She had sent to Amarillo for cranberries before and had baked cakes and pies.

We had as our guests several bachelor boys who had taken up land in the vicinity and all present complimented the good Thanksgiving dinner. The spirit of Thanksgiving was surely there—minus the turkey.

The Bootleg Philosopher

Editor's note: The Bootleg Philosopher on his farm near Bootleg is off on a subject this week that everybody apparently knows as much about as everybody else.

I'm always sort of neutral in politics, that is I like cigars from both sides, although naturally I make up my mind when I settle down with a ballot, consequently I can look at next year's Presidential race with considerable calmness and detachment. After lookin' at a field needin plowin the same way for years, it's no trouble to do the same with a political race, from Precinct to Presidency.

In the first place, in regard to the Presidential race, since it's exactly a year before the votin takes place, it seems to me the boys are startin out too soon, just don't see how they can put on a show good enough to hold my attention twelve long months. A candidate who figures he's got it won now may find by next November he's run out of oil, burnt out a bearin.

But the big problem of course is Eisenhower. As I understand it, nearly everybody outside of Taft is on record as contendin Eisenhower would make a fine President and this includes Democrats, Republicans, big shots in both parties; and people who vote like they please. For example, Truman says he would make a fine President, Dewey says he would make a fine President, and lots of lesser lights in both parties say the same thing.

But a few minor points are missin. In the first place, nobody knows whether Eisenhower is a Democrat or a Republican or neither. In the second place, nobody knows whether he would run, although if you ask me I think maybe way down at the bottom of his feet he's itchin a little.

In the third place, nobody knows whether if he ran which party it would be in.

Now this is something new and has thrown the politicians into more confusion than the little two loads of un-branded steers belongin to two separate owners got mixed up in my pasture. How can you line up votes for a man when it may turn out you've been lined up for the other side? And if you don't line up votes, how'll you ever get any patronage? The problem is too big for me, although sooner or later I guess Eisenhower will have to come around to recognize, if he's willin to try for the job, that no President aint never yet been elected by acclamation. Personally, I'm glad I don't have to make such a decision myself. Too hard on you. Reminds me of the hours I used to spend tryin to decide which field I was gonna let lay out durin the next year. Finally solved the worry by lettin em all lay out.

Yours faithfully,
J. A.

See Prosperous Year For Farmers

COLLEGE STATION

In general, Texas farmers and ranchmen should have a prosperous year in 1952. In making this prediction, John B. McHaney, an extension economist of Texas A&M college, points out that agricultural economists from over the nation have considered supply, demand and the cost of producing farm commodities in 1952 and have based the outlook on these findings.

McHaney adds that economic conditions within the state will have little effect on the 1952 outlook for Texas agriculture. The big influence will come from economic conditions within the nation and the world.

A powerful force behind the prediction, says McHaney, is our expanding defense program and an even bet for the continuation through 1952 of the cold war. There may or may not be full scale fighting or all out war, but free nations will continue to expand their defense programs against the threat of communism.

From the standpoint of supply, 1951 was near a record for a total agricultural production and prospects for 1952—weather permitting—should be another year of high production. With the outlook for large supplies of agricultural products, the prices received by farmers are expected to hold generally near the 1951 levels despite and expected strong demand. However, McHaney points out that an unfavorable growing season in 1952 would result in considerable upward pressure on prices, particularly in the second half of the year.

Demand for farm products is expected to continue strong during 1952 as employment and income rise. Larger defense expenditures are expected to push consumer income higher. McHaney says current plans call for defense spending by fall of 1952 at a rate of 65 billion dollars a year.

With few exceptions, prospects for exports of agricultural commodities in 1952 look very good. The rearmament program of the free world should make available additional foreign exchange, and

this should relieve dollar difficulties encountered since World War II by countries which normally are our customers.

The unfavorable side of the 1952 outlook for agriculture, says McHaney, are production costs, which continue to rise. Those in 1951 set a new record. Costs may average five per cent higher in 1952. Supplies of materials needed for production are expected to be sufficient to permit high farm production through some items will be relatively scarce, McHaney says. Prices of all important groups of items used in production are higher now than a year ago. Farmers and ranchmen, adds McHaney, must also expect a moderate increase in farm wage rates in 1952.

The prospects for higher production costs in 1952 offers a challenge to all agricultural producers to cut costs and use more efficient methods of production. McHaney says producers should place orders now for goods and supplies needed for producing the 1952 crops and livestock.

Gross farm income may be five per cent higher in 1952 but will come from the expected increase in volume of sales rather than from any increase in agricultural prices. However, McHaney adds, the increased cost of production which is virtually a certainty will offset the expected increase in gross income and the final result will be a net income for agriculture about equal to that for 1951.

Officers Elected at TFWC 54th Annual Convention in Denton
