### Migrant Labor Day Nursery Planned By Church Women

Plans were this week outlined for a day nursery for children of migrant workers in the Hereford area. The nursery is scheduled to open June 1 at the Labor Camp and is sponsored as a community-wide project by church women of various denominations.

The nursery is to be located in a barracks furnished by the camp board and will be operated five days each week. The only cost to laborers will be a slight charge to defray lunch expense for each of the children.

"Many mothers are now forced to take their little tykes to the field in all kinds of weather," said Mrs. Floyd Ross, public relations chairman for the group. "We want to provide a place where they can have supervised play, a good lunch, a nap, soap and water and kindness."

The committees spearheading the movement under general chairmanship of Mrs. Earl Plank, follow:

Finance—Mrs. O. Hertenberger and Mrs. John Gallagher.

Equipment and Direction—Mrs. Don Roots, Mrs. George Tiefel, Mrs. B. Fortner, and Mrs. Joe Paetzold.

Personnel—Mrs. Wayne Edwards and Mrs. Don Larsen.

Publicity—Mrs. Floyd Ross and Mrs. Bruce Wooddell.

"The help and support of the entire town is being solicited," Mrs. Ross continued. "The women of Hereford are asked to volunteer

their services to assist a paid supervisor in caring for the children. A filing system with the names of all women who will donate one-half day during the season is being compiled by Mrs. Wayne Edwards, phone 1740. Volunteers can help prepare the noon meal for the children, supervise their play, teach them simple hand crafts, read stories and teach songs. Women's clubs and organizations are urged to cooperate in this civic project by giving their name to be called for service at the nursery."

She also said that a training course will be offered for those who wish to devote more time. The course will include fixing formulas and similar types of work.

The camp board has agreed to fence in a plot adjoining the barracks used for the nursery, Mrs. Ross said. The four-cub nursery and formula room in the camp hospital will also be made available by Fr. Gillis.

Funds for the movement will come from public donations which to date, include Mrs. Earl Plank, Mrs. Joe Paetzold and Mrs. O. Hertenberger.

### Veteran Problems Are Cleared Up In Questions-Answers

Q — My daughter and I are receiving VA compensation payments because of the death of my husband, a World War I veteran. My daughter is past 18 years of age, but she is attending a school approved by VA. Will the compensation payments go on during her summer vacation? She intends to continue school in the fall.

A — Yes, the payments may continue throughout the summer, so long as your daughter resumes her studies after the vacation period has ended.

Q — My wife and I are both World War I veterans. Is it possible for us to combine our GI loan benefits to buy a house?

A — Yes. However, the total amount that VA will guarantee is 60 percent of the loan. Also, the maximum guaranty may not exceed \$15,000 — which represents the combined maximum guaranties you and your wife would be entitled to, individually.

Q — I am a disabled World War II veteran, training under Public Law 16. I suffered an injury in training that has aggravated the disability for which I draw VA compensation. Is it possible to have my compensation rate increased, because of it?

A — Yes, but VA, of course, would have to adjudicate your new claim for increased compensation.

### Van Horn Joins Baker Company

It is with great pleasure that we announce the addition to Baker's staff of Dr. D. L. Van Horn. Dr. Van Horn comes with an excellent background of experience and reputation. Following his final academic work in plant breeding at Cornell, he was on the staff of the University of Hawaii from 1943 to 1947. In 1947 he returned to the mainland to take charge of the U. S. Department of Agriculture's Agronomic Research on castor beans, with emphasis on breeding. Under Dr. Van Horn's direction, that program expanded to include active breeding work in three states and effective cooperative variety testing over a larger area. Dr. Van Horn will direct Baker's

program of castor bean breeding and seed production. He will be headquartered in the Texas High Plains at Plainview, but the program is designed to serve all areas of castor bean production. This expansion of Baker's staff and activities will help assure Baker's growers the very best in superior castor bean varieties and hybrids at reasonable prices.

### CONG. WALTER ROGERS REPORTS:

## Maryland Tobacco Support Price, DAR Keep Law Makers Jumping

Washington, D. C.  
April 24, 1953.

Strange Happenings On The  
Floor: I have just returned from a  
session of the House of Representa-  
tives in which a rather odd situa-  
tion arose. The measure before the  
House was a bill of six lines that  
read as follows: "Be it enacted by  
the Senate and House of Repre-  
sentatives of the United States of  
America in Congress assembled,  
That notwithstanding any other pro-  
visions of law, the 1952 crop of  
Maryland tobacco shall be support-  
ed at 90 per centum of the parity  
price effective on the date of en-  
actment of this Act." To those not  
familiar with the farm program  
this piece of legislation might ap-  
pear very innocent. The back-

ground of it is that the tobacco  
farmers in southern Maryland  
were given an opportunity to vote  
in accordance with the farm price  
support law for the purpose of de-  
ciding whether or not they wanted  
to accept planting quotas and be-  
come eligible for the price sup-  
ports provided by law. It developed  
in the debate that 71 per cent of  
the farmers voted against quotas  
and therefore against becoming eli-  
gible for price supports. This  
meant that only 29 per cent were  
in favor of the support program  
prior to the time the crop was  
planted. In other words, 71 per  
cent of the farmers in that section  
preferred to plant all of the tobacco  
that they could possibly raise  
and take their chances on the open  
market, thereby waiving any rights  
to price supports. The testimony  
before the Agriculture Committee  
reflected that the tobacco so plant-  
ed is now in the barns of Mary-  
land farmers to be sold next sum-  
mer, but it appears that the price  
they will receive for this tobacco  
is not equal to the price they could  
have received from the Commodity  
Credit Corporation had they elect-  
ed to come under the price support  
program. Therefore, this bill was  
introduced for the purpose of re-  
quiring the Commodity Credit Cor-  
poration to take this crop into the  
loan program, even though the  
farmers in southern Maryland had  
by an almost 3 to 1 majority elect-  
ed to take their chances on the  
open market and had a free hand  
to plant as much tobacco as they  
desired. It reminded me of the  
case of the negro boy who was  
hailed before the court to answer  
a charge. The judge asked him if  
he wanted to plead guilty or not  
guilty. The negro boy told the  
judge that he would like to hear  
the evidence first. That is exactly  
the situation that the Maryland to-  
bacco farmers were in. They want  
to wait until the crop is in and  
find out what the market is be-  
fore they decide on the support  
program. If this policy should be  
followed on basic commodities as  
a general farm price support pro-  
gram, it would bankrupt this coun-  
try in no time at all. And if the  
Maryland tobacco farmers are en-  
titled to such a program, it would  
be hard to argue that the farmers  
raising other basic commodities  
would not be entitled to the same  
treatment. This type of legislation  
would add more fuel to the fires  
of those who would destroy the  
basic farm price support program  
than any other thing I can think  
of. The strange of the Congress re-  
alized it, but it appeared that cer-  
tain factions had through the House  
simply because Secretary of agri-  
culture Ezra T. Benson had put  
his stamp of approval on it. The  
bill was debated for two hours, or  
argued for it for 98 minutes and the  
opponents got to argue about  
22 minutes. Then the bill was read  
for amendment and a motion was  
adopted by voice vote which limited  
further discussion of the bill for  
amendment to approximately  
25 minutes. The few proposed  
amendments to the bill which were  
intended to do away with its bad  
features were shouted down on  
a teller vote, neither of which  
votes are recorded. Then on final

tation of any person, firm or corporation, which may appear in  
the columns of this paper, will be gladly corrected upon due  
notice of same being given to the editor personally at the office.

passage of the bill a record vote  
was called for, and enough mem-  
bers were in favor of the record  
vote to insure it. On the vote on  
final passage of the bill it was  
defeated by the resounding margin  
of 213 to 110.

During the debate it was brought  
out by one of the Mississippi Con-  
gressmen who was on the Agricul-  
ture Committee that during the  
hearings on the bill, not one of  
the 71 per cent of the farmers  
who voted against coming under  
the support program appeared on  
behalf of the bill. He explained  
this by saying that this 71 per  
cent was probably a bunch of Wash-  
ingtonians who are farming on the  
side. In other words, city farmers  
who operate some of those farms  
merely for the purpose of saving  
some money on income taxes.  
They thought that they would make  
a killing in the tobacco market,  
and when they found out that they  
were not going to do this, they  
wanted the taxpayer to bail them  
out. Passage of this legislation  
could have easily endangered the  
entire basic farm program for  
which so many of us have fought.  
I was somewhat amused at some-  
one who supported this bill and who  
has been screaming about creep-  
ing socialism. I thought they were  
against creeping socialism, but  
from the looks of this bill it ap-  
pears that what they wanted to do  
was to speed it up.

THE DAR: The DAR convention  
has been in full swing in Washing-  
ton for the past week. Mrs. Clyde  
Warwick, of Canyon, Mrs. J. A.  
Brannen and Miss Willda Neely,  
of Amarillo attended. I had the  
pleasure of having lunch with them  
in the House Restaurant today,  
together with S. B. and Frances  
Whittenburg, of Amarillo, former  
Lt. Governor Walter Woodul, of  
Houston, my good wife, Jean, and  
four year-old daughter, Mary Cath-  
erine. It was a most pleasant ex-  
perience, and I obtained much in-  
formation about the great work

**Stocker Market Indicates Calf Feeding Program**

Fort Worth — The likelihood that Southwestern cattlemen may well consider supplemental feeding of this year's calf crop to enhance the chances of selling many as beef calves loomed on the basis of the way the stocker market behaved in the opening session of the week at Fort Worth. Indifferent demand for stockers except cows and high grade calves and yearlings was notable. Reports from Corn Belt points indicated feeders there aloof. A recent survey of the Corn Belt feeders intentions by the Wall Street Journal summed up the intent of many feeders to put their corn in the loan instead of into cattle feeding.

Some 200 head of high grade thin stocker steer yearlings from the Fort Davis Country sold at Fort Worth Monday averaged 497 pounds at \$19 per hundred. Most observers agreed these yearlings probably would have sold around \$40 last year at this time. Stocker cows sold from \$14 to \$17, some had small calves at side and the calves sold around \$17 and \$20.

Slaughter cattle and calves were steady. Good and choice fed steers and yearlings topped at \$18 to \$23, some club yearlings from Knox County at \$22 to \$23, and plain and medium butcher cattle sold from \$13 to \$17.50. Fat cows drew \$12.50 to \$14.50, and canners and cutters sold for \$9 to \$12.50. Bulls brought \$10 to \$15. Good and choice fat calves sold at \$18 to \$22 and cull, common and medium grades sold for \$10 to \$17. Stocker calves and yearlings ranged from \$15 to \$20.

Hogs sold at the highest price since last August, topping at Fort Worth at \$23 and \$23.25. Last August, the highest point reached was \$23.50. Sows were steady at \$17.50 to \$19 on Monday. Pigs sold from \$35 to \$17, and stags sold for \$12 to \$15.

Fat lambs and feeders were steady Monday at Fort Worth, and old sheep ruled weak. Good and choice milk fat lambs sold at \$22 to \$25, and old crop shorn fat lambs sold from \$17 to \$20, some No. 2 pelts at \$20. Old ewes drew \$6.50 to \$8 and some old wethers drew \$10.50 down. Yearlings and two's sold for \$13 to \$16. Feeder lambs cashed at \$18 down. Old bucks sold around \$6.

# Highlights and Sidelights FROM your State CAPITOL

By Vern Sanford

**Texas Press Association**  
AUSTIN, Tex. — The Legislature seemed ready to boost teachers' salaries last week. Already the Senate has voted a \$600 increase for the teachers. The House moved in the same direction.

Where is the money coming from?

That's a good question — the one that kept the House from taking final action on the teacher pay increase.

On Second Reading, the House passed a \$600 per year pay raise for the teachers. Then heard Representative Lamar Zivley of Temple, sponsor of the measure, say, "Whoa, slow down. We've got to pass a Tax Bill."

The Legislators have passed a General Appropriations Bill, providing for the expenditures of the state for the next two years.

That Bill takes up all the money in sight. If the State is going to spend any more money, there will have to be new taxes to raise it.

The State now guarantees teachers' minimum pay of \$2,400 per year. The bill being considered by the Legislature would give them \$3,000.

To do that, there would have to be additional state revenue of something like \$60 million to \$70 million for the next two years.

One prospect for getting the money was a tax on gathering natural gas. That tax was passed by the last session of the Legislature, but it was challenged by the gas companies, and is now being tested in the courts.

If the tax is found to be constitutional, the Treasury will get about \$45 million. That would be enough to start the program for increased teachers' pay.

**TEXAS PRINCESS** — Pretty Betty Ann Kilday of San Antonio, daughter of Congressman and Mrs. Paul J. Kilday, has received the title "Texas Princess" for participation in this Spring's Cherry Blossom Festival in Washington April 8-12. (AP Photo).

But if the Legislature passed a pay boost for the teachers without providing the money in some manner it would, as Governor Allan Shivers has said, be an "empty gesture."

Opposed to the Zivley Bill was Representative Joe Burkett of Kerrville, who said "This proposition has started off all wrong. I'm opposed to this Legislature telling the school boards you can't hire anybody unless you pay them what we tell you."

Burkett argues that "The people up there in my county in the Forks of the Creek know better what's good for them than anybody in this Legislature."

Burkett is author of a bill that would repeal the Gilmer-Aikin Law.

"The Gilmer-Aikin Program, the foundation fund, is socialism from the beginning," Burkett said at a committee meeting.

Under the Gilmer-Aikin Program the state guarantees a basic standard of education to every child, regardless of whether he lives in a poor or a rich district.

Burkett's Bill would distribute state money to the schools without regard to the financial status of the various districts. The committee voted favorably on the Bill.

The House passed and sent to the Senate a Bill giving greater power to the Texas Liquor Control Board.

Representative Ohie Bristow of Big Spring is author of the bill, which gives the Board specific authority to close down indecent taverns for a number of stated reasons such as lack of running water, contributions to political campaigns by the tavern owner, conditions contrary to the health, peace, morals and safety to the people, and so on.

The Liquor Board is empowered to police beer and liquor establishments, and its officers work along that line, with the co-operation of local law enforcement people.

The Board issues permits and licenses to establishments which sell liquor, wine, and beer, and cancels those licenses for violations of the State Liquor Laws.

The Board is the collecting agency for state taxes on alcoholic beverages. Resulting funds go to pay teachers, old age pensions, and other state expenses.

Also passed by the House was a Bill authorizing judges to send narcotics addicts to hospitals, to stay there until pronounced cured by their doctors.

Support for Texas and the other states interested in the Tideland came from various state governors attending a meeting of the Interstate Oil Compact Commission at New Orleans.

The Commission, said Governor

Edward Arn of Kansas, chairman, has "Steadfastly taken the position of states rights."

Governor C. Norman Brundage of North Dakota voiced apprehension that the Federal Government's doctrine of "Paramount Rights" to the oil-rich tidelands could apply to navigable rivers and lakes.

Stalled by a filibuster in the Senate was a proposed constitutional amendment to authorize the taxation of public water use, the revenue to go for conservation projects.

Senators Rogers Kelly of Edinburg and George Moffett of Chillicothe teamed up to hold the floor for 14 hours and prevent Senate consideration of the proposal.

The Senators' subject was a resolution calling for recognition of San Jacinto Day, but they referred to the water measure as an "In-sidious Tax."

At 1 a. m. the Senate lacked a quorum, so Texas' Rangers and Austin police had to round up enough members to supply the necessary number — at 3 a. m. Adjournment came at 4:15.

Another proposed constitutional amendment had smoother going. The joint resolution calling for it, by Senator Jop Fuller of Fort Arthur, was passed by both Houses and signed by the Governor.

The Amendment, if voted by the people, would lengthen the terms of district, county, and precinct elective officers to four years instead of the present two years.

That was the first proposed constitutional change to be passed during the present Legislative Session.

Still in the news was District Judge C. Woodrow Laughlin of Alice, who was investigated by a

State Bar Committee and by a Senate Committee.

Elected last year with the help of political boss George Parr, Judge Laughlin has been in trouble ever since. Recently a Jim Wells County Grand Jury complained to Governor Shivers that the Judge placed stumbling blocks in the way of its investigations.

Specifically, the Grand Jury referred to its inquiry into the killing of Jacob S. Floyd, Jr. shot down in his garage. Floyd's father claimed that the slaying was a mistake and that he was the intended victim, not his son.

The same Grand Jury indicted Judge Laughlin for selling his law library to the county for a price that was said to be too high. The Judge re-purchased the books and the case was dropped.

Directors of the State Bar As-

sociation heard a report on Judge Laughlin's activities when they met in Dallas, end of the week. The report was made by a special investigating committee headed by

J. G. Davis of Huntsville. It stated, among other things, that certain acts of the Judge were "reprehensible in every respect." The Board asked the legislature to investigate and prescribe "suitable punishment."

Then a resolution was introduced in the legislature to remove Judge Laughlin from office. This can be done by a rarely-used process called an "address." Two thirds of the members of both the House and Senate have to approve it before the governor is required to remove the judge.

### Australian Tag Match Saturday

Many Hereford fans demanded to see come more of the same, so the boys who battled in a pair of rough contests come back Saturday night—this time in an Australian-tag team match.

Popular, pleasant John Henning will no doubt get another chance at rough-acting Judo Jaek Terry, and handsome Johnny James no doubt will have a few exercises against Benny Trudell.

Henning and James meet Terry and Trudell in the main event, but the man on the spot probably will be the referee.

Ben Buck Davidson of Klamath Falls, Oregon, and Alex "Toro" Perez, husky, former Golden Gloves champion from Amarillo, clash in the semi-final event.

To round out the card, Promoter Guy Lawrence plans a special event, possibly between Henning and Terry, which would be in the form of a return match following last week's terrific battle between the two.

Terry, Canadian-born Californian specializes in extreme rough work which includes a legal but punishing judo chop, or hand slash, and a "sleeper hold" of his own construction.

Henning, former "frog man" with the U. S. Navy's undersea forces, prefers to wrestle clean but can get quite rough when the pressure is on.

Cantankerous Canadian, Benny Trudell, likes it rough and keeps it that way, making him a fitting partner for Terry in the tag match. James is the opposite type but, like Henning, can accommodate the rough wrestlers.

#### Timely Tips

1. Tomato juice is on the plentiful food list. Foods that are plentiful are usually economical foods. The price of tomato juice is lower at this time than it was a year ago.
2. An active woman requires 70 milligrams of Vitamin C (ascorbic acid) daily. One-half cup canned tomato juice will give her approximately one-fourth of the daily requirement of ascorbic acid.
3. Serve tomato juice as an eye-opener for breakfast. Bolster the flavor with Tabasco Sauce or a dish of lemon or lime juice and serve as an appetizer for dinner or supper.

### REAL ESTATE BOARD REPORT

If you were here from out of town... and were in one of our Tourist Courts or The Jim Hill Hotel... and had to be here a week or two weeks... what would you do for entertainment? Most of us who live here have worked out our own schedule for the periods when we are not working. But a stranger in town doesn't know where to turn after his work is done. We have a suggestion to make to the owners of the above establishments that will help make the strangers stay more enjoyable... and if it's one of these places should have a map of some sort in every room every night pointing out the places of interest such as Buffalo Lake, the Golf Course, the location of the Churches, the meeting places and the time of meeting of all the civic clubs. We are also close enough to Palo Duro Canyon that some of these guests might want to drive over and go thru the Canyon. Also.

there is the Museum at Canyon which is open every Sunday afternoon and is so complete that one could spend three days in there and never see it all. Think about it... What entertainment does Hereford offer a stranger?

Never saw so much prettying up Clinton Jackson, at the north e of Main, has got his lawn dug up ready to put it in new grass. Will Kerr was out all last week on the heavy end of a shovel fixing his curb so grass can grow on it. W also had his house redecorated out side. Verne and Alma Hilton on C have a new color scheme for their house.

Otis Hall is building all over the hill out south on Main Street. Those kids ought to have open house when the job is over to show people how to get the most space out of a given number of square feet.

And while we are talking about the south side of the creek... Bud Posey or Dub Reeves or Earl Hendricks ought to either take down the sign to the golf course or fix it. Looks like the JayCees who own the sign are not going to get around to it before it ruins.

Jack Bradley is building a new store building in Friona right on Main Street. Rumor has it that our Piggly Wiggly Store will also have a Store No. 2.

Just a whole raft of new people have moved to Hereford in the past two weeks. Wayne Wallace, D. L. Young, and their new crew down at the BUICK place have moved to town and most of them have found a place to live. Went down to try to sell the boys a house and found so many Real Estate Agents we had to stand in line.

Then Bill Schulte has 4 or 5 new men over at the FORD. They are all hunting a place to live and if any of you have a nice house to rent call 39 and let them know.

Just learned something out of Robert Simpson's the other day. If your kid's pony hasn't been ridden all winter... be sure to let a teenager ride him first. Sure does get tiresome trying to work at a desk standing up.

One of our fellow Realtors turned to his wife the other day and said, "By the way dear, What DID we live on the last 3 months."

Earl Holt has taken possession of his new farm out 4 miles southeast of town. Earl had the family out from Oklahoma this last week end but will not move them out for good until after school is out.

### PROCLAMATION

On Sunday, the third day of May, 1953, the United States Junior Chamber of Commerce, through its "Operation Pray" will be offering individual and collective prayers asking for divine guidance and help for our national leaders in this time of crisis. In aid and assistance of such a worthy project, I, Henry Sears, as Mayor of Hereford, Texas do hereby proclaim Sunday, May 3, 1953, to all citizens of Hereford to, each in their own way, offer prayer for the successful leadership of President Eisenhower, the Cabinet, Congress and Judiciary in the affairs of our beloved country and of the entire world for the establishment of lasting peace and international understanding.

J. H. Sears, Mayor of Hereford.

# FOIBLES Fancy and Plain

By Kent Snare

Owing to the dearth of a good kick around subject leave us have this time a gallimaufry, not too complex but diverse as possible. I note where McNulty of Illinois took the Drake high hurdle race in 14.4 and on the same day a high schooler from Stillwater, Oklahoma, one Eddie Roberts, fanned the same distance in 14 flat, over 39 inch hurdles, I suspect. . . The national scholastic record is held by Bill Curtis, Waurika, Oklahoma, set at 13.7 last year. . . This same Curtis matriculated at Oklahoma U and then moved to the SWC, with no "Letter of Intent" entanglement. This Roberts lad finished second in the 180 low hurdles to Robert Derrick of Woodward in 18.2 which is a new national scholastic record if there were no complications such

as a tail wind, a helping hand, a stuttering stop watch or what have you. . . Stillwater High also has a distance runner, Bobby Buchanan, who rambles rapidly. He has shaded 4.25 in the mile and 1.58 in the half. Rumor has it that all parties concerned, hope for at least one propitious occasion this season, when he can take dead aim at Lou Zamperini's national mark of 4.21.2 set back in May 1934 at L. A. . . I would imagine that a Santee or Eckhoff paced 4 laps would produce it. . . Chances are that the lad hasn't had enough pacing practice to accomplish it sans a pattern. To date Puddinhead Jones of the Phils has had 3 hits this season, all homers and two of them game winners. The NL batting averages listed go down to .143 and Mr. Jones hasn't chinned that yet. Chances are that if he continue to hit them when needed, as he has to now, he will continue at third base for the O'Neils. . . Wait Drop of the Tigers is hitting .159, as of last Friday's boxes, and leading the AL in runs batted in at 11. That's maximum mileage out of your licks, as he has had only 7 hits in toto. . . Campanella of the Bums, as of the same date, is heading the NL in RBI's with sixteen on 12 hits and a .343 average. Alvin Dark of the Giants had 8 hits, 6 doubles and a triple among 'em and one RBI. . . The slugging propensity has shifted from the AL to the older circuit, as of last Friday, when the official markers came into view, the AL had 40 roundtrippers and the NL 55. . . The color has gone out of the younger circuit, too. . . You lose two bright hued specimens of the ilk of Williams and DiMaggio in the same lap and drabness sets in. . . Imagine a character like that Williams who after none of his numerous lambasts beyond limits, would acknowledge the plaudits of the crowd by tipping his chapeau or making friendly grimaces or gestures. Natural he had the crowd wrath or part of it pointed at him constantly and did it perturb him?? Not a whit nor whittle, for he opined for the press that they charged the same admission to boo or blast and as long as the stands stayed reasonably full he could stand the noise, and did. . . The Phils are flying and unless the Bums can procure pitching of the better sort, the Brooklyn waltz may not materialize this term. . . Their so-far weak link Ryan has been hitting a ton, 6 for 6 and 5 for 5 in two separate gasps and fielding well, as usual, and if he can stay in there the Quaker city club may be hard to catch and harder to string. . . Cleveland has survived to date, the loss of Easter with a game gam, and is leading the pack, altho the Yankees have only dropped 3. However the Stengels are going to be fed left handers from now on and that diet may lean them down no little. . . Wear

and tear of a tough and long athletic career and avoirdupois has caught up with Jackie Robinson of the Bums. Junior Gilliam moved him off second base. Now, in self defense Brooklyn appears ready to move him out of the third base firing zone to the safer confines of left field. They hope he continues to hit for his days of agility are numbered. . .

is a TV picture of your ideals. Living is the finest of all the fine arts. Far better to know how to live, than to know how to paint, sing, write or sculpture. Is your soul nourished by God's word at church on Sunday, or is it starved on the Sunday newspaper, the golf course or a fishing trip?

You can't drift into the art of good living...you must think about it.

As one thinks in his heart so is he. Every man should think soberly.

Let him that thinks he stands, take heed lest he fall. Whatever things are honorable, just, pure, of good report... think on these things.

You have but one life to live... live it wisely.

You can't live without God, the Bible,

prayer, the church. These are

the palette and brush in the

art of right living. Go to your

church and you will find them.

## Hereford Garden Club Wins Award At State Convention

The Hereford Garden Club won the award for work with junior garden activities with the Blue Bird and Camp Fire Girls at the state convention held in Houston recently. Mrs. A. L. Manjeot was the delegate from the club and reported from the convention at the Hereford Garden Club meeting held Friday afternoon at the home of Mrs. J. P. Slaton. Mrs. O. H. Herring is chairman of junior work.

Mrs. Ralph McCullough, president, presided over the business session when plans were discussed for the Table Show scheduled to be held here May 9. Mrs. Roy Lee Wilson was welcomed as a new member.

Mrs. Glenn Boardman gave the program which consisted of a lesson in making the compost pile and what to do with it. She distributed typed instructions to mem-

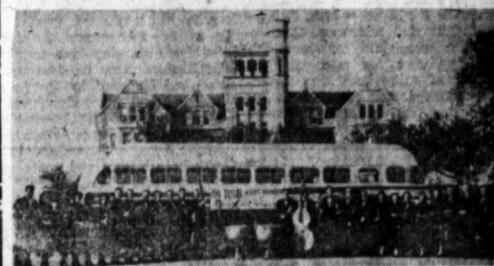

bers.

Mrs. Rex Tynes made the table arrangement for the day built around the May Day theme. Tulips and lilacs were used with rose satin streamers extending from a tall center candle. The table cloth was rose linen and the service was in gray pottery.

Members present were Mes-

Centering the tables were small fountains of tulips and tiny umbrellas marked each guest's place. The serving table featured a fountain of red and white tulips emphasizing the club colors of red and white.

Mrs. D. C. Walser, outgoing president, gave the delegates report of the Seventh District, TFWC convention held recently in Hereford.

New club officers were installed by Mrs. B. E. Roberson. Officers include: Mrs. K. W. Neff, president; Mrs. J. R. Euler, vice-president; Mrs. Mack Noland, recording secretary; Mrs. D. C. Walser, corresponding secretary; Mrs. Forbus Blakemore, treasurer; Mrs. Guy Walser, parliamentarian; Mrs. Brady Lookingbill, historian.

Life memberships were presented to Mrs. L. H. Lookingbill, Sr. and Mrs. Charles Walser.

Mrs. D. C. Walser reviewed the book "Forty Odd" by Mary Bard. "Here is an intelligent woman's guide to the tobogganon far the side of forty showing how to put on the brakes. How one woman, assisted and hindered by her doctor husband and three daughters, struggled to divert the inevitable problems that face every American woman at forty, and came out on top with both humor and common sense as a guide, is well worth the time it takes to read it," she said.

Mrs. Guy Walser, retiring president, was presented with a gift and she in turn presented each member with a token of appreciation of their cooperation.

Special guests included: Mrs. B. E. Roberson, and Mrs. Delbert Baipum.

### Women Wrestlers Draw Large Crowd Saturday Night

The women wrestlers in the semi-final event of the Lions' wrestling card Saturday night created the most interest of the three matches on the card. A total of 640 attended.

Mary Jane Mull of Toledo, Ohio fought it out in a two-out of three fall 'bout with Ida Mae Martinez of Mexico—champion woman wrestler of Mexico.

Mary Jane took the first fall in 10 minutes with a body press but Martinez came back for the second fall in 10 minutes with a body press.

Martinez won the match in another four minutes with another body press.

The first event of the card was a one fall 20-minute bout between Johnny James of Houston and Benny Trudell of Montreal and came out a draw.

Judo Jack Terry of Santa Monica, Calif. and John Henning of St. Petersburg, Fla. wrestled in the main event of the evening.

Henning took the first fall in 15 minutes when Terry was disqualified for continual judo slashes to the throat while in the ropes. Henning took the second and deciding fall in seven minutes with a backslide.

Terry, unhappy at being whipped in such a manner began calling for a rematch.

Plans are underway for the two to meet in a rematch Saturday night.

Beef producers can put extra pounds on their calves—faster and more efficiently—by creep feeding. Creep feeding also lessens the drain on the mother cows and gives them a chance to more fully utilize the good range growth for getting back into top condition.

An educational program on wheat improvement—carried on by county agents of the state—has practically wiped out smutty wheat. E. A. Miller, extension agronomist for 30 years and who retires today, was leader on a statewide basis for the program.
