CROP Committee Asks For Wheat

Despite the wheat crop being brought into county elevators, the plea by the Christian Rural Overseas program for one bushel out of each truck load is meeting with but slight response, according to Marshal Miller Jr., wheat project chairman for CROP in Deaf Smith County. The Jaycees are handling this part of the program.

"This is a program which can help every wheat farmer in the nation even as the wheat farmers help feed the hungry people of nations overseas, and at the same time combat Communism, which uses hunger as a propaganda weapon," Miller said.

In spite of the fact that much wheat has already been harvested, Miller said he felt that there was still enough to be harvested that this county could raise a carload as the grain is brought into the elevators.

Wheat to be shipped overseas is supposed to be in Galveston by July 26 for loading on the ship which will take it overseas. (Continued on Page 2)

Three Bonds Set In County Court

Three bonds, two on the same person, were set by County Judge Horace L. Schloss Tuesday.

In one case, Simon Gonzales, charged with driving while intoxicated and possession of liquor for sale in a dry territory, had bonds of \$500 each set on the two charges. In the other case, G. O. Thompson, who was indicted some time ago by the grand jury on a forgery charge, had his bond set at \$1,000.

Thompson was found at Sunray and returned here to face the forgery charge.

Gonzales was arrested shortly after 5 o'clock Sunday morning by Hereford policemen Marvin Boever and Joe Stephens, when they noticed his car weaving badly as he drove down the Highway west of the Tasty Drive Inn.

When he was stopped, the officers found several pints of whiskey and a case of quarts of beer in the car.

One Will Get 20

"For every carload of wheat which is raised by CROP, there will actually be 20 carloads shipped out of Galveston on July 30," Miller continued. "This is being made possible by the fact that the government has promised to give wheat out of storage to CROP, and the wheat which farmers give will be sold to pay shipping charges, thereby cutting down on the surplus of wheat now in storage."

Summerfield vs. Rutherford, and Dawn vs. Piggy Wigly, will be the double-header softball game Thursday night at 8 o'clock in Veterans Park.

Onion harvest in the Hereford area is "just getting underway" this week, and will not be in full swing until next week, despite the sight of truck loads of onions moving out of town, producers report.

Mrs. A. S. Brooks has returned from Nebbett Hospital in Canyon with the Brooks' baby, Iris Mona, who was born at 8:30 o'clock the night of June 23. The child weighed 7 pounds, 5 ounces at birth. Mother, father and daughter are all reported to be "doing just fine."

Leo Forrest spent his "vacation" by going to his Missouri farm and working for a week as a harvest hand. Considering the number of hours he said he put in, he came back in excellent condition.

Rev. J. A. Thomas of Lubbock, district superintendent, will officiate at both morning and evening services at the Assembly of God Church Sunday. Rev. Thomas is a former pastor of the church. Everyone is invited to attend.

Southwestern Public Service Company will be another of Hereford's firms that will close Monday in observance of Independence Day, according to Clee Meharg.

Those who plan to attend the Future Homemakers of America camp at Homers Springs July 20-22 are asked to turn in their names and \$5 to Mozelle Telchik, 222 Avenue E, by July 16.

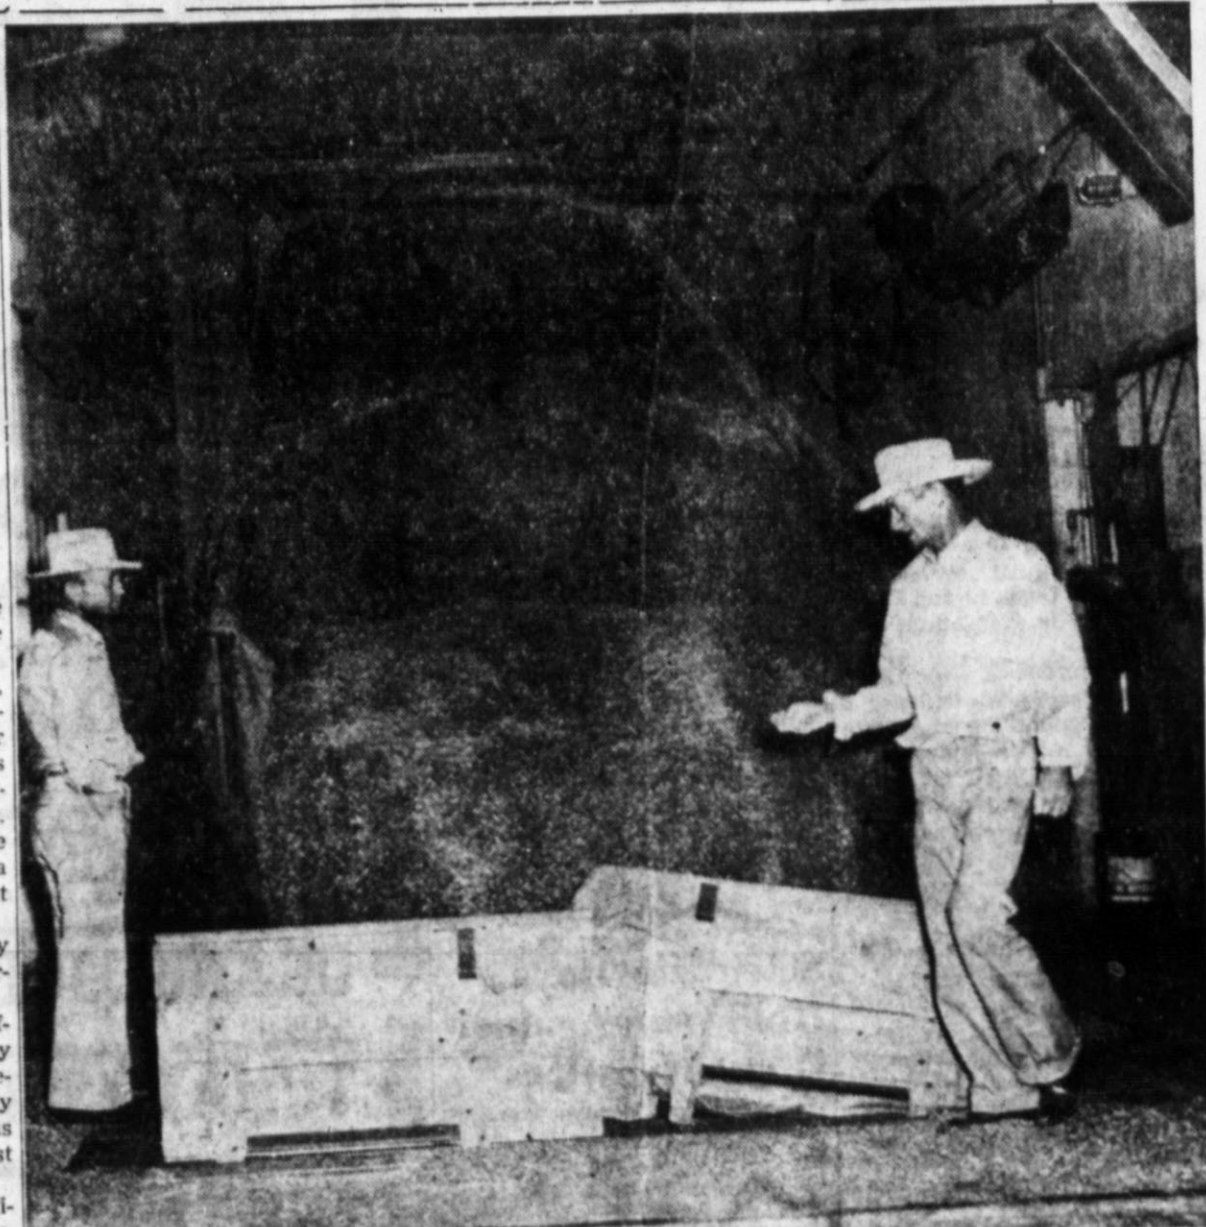

Two Local Boys Attending ROTC Camp In Virginia

Keith D. Savage and James E. Alston, two Texas A&M College students from Hereford, are attending the 1954 Transportation Corps ROTC Summer Camp at Fort Eustis, Va., for a field training course, which will terminate July 30.

This summer camp is a prerequisite for a commission as a second lieutenant in the Regular Army or in the United States Army Reserve. With the conclusion of the final ROTC review the cadets will have completed all but their senior year of the reserve officers' training.

Both students graduated from Hereford High School in 1951 and entered A&M that fall.

Savage is the son of Mrs. Alwyn Savage, 603 Blevins and Alston is the son of Mr. and Mrs. T. D. Alston.

THE GOLDEN HARVEST of wheat and other grains began pouring into area elevators last week, and probably reached its peak the first part of this week as some of the best wheat was harvested. This semi-trailer was carrying 25,000 pounds of grain. Mack Jackson, left, was handling the truck, which was hauling grain from the E. E. Bishop farm 25 miles

northeast of Hereford. The crop was averaging about 12 bushels to the acre, Jackson estimated. A. R. Foster, Pitman Grain Co., employee was "hand sampling" the grain. J. L. Rogers, at right, was handling the controls which had lifted the big trailer so the grain would slide out. (Staff Photo)

Half Of Wheat Crop Now Cut

Wheat, along with some rye, barley and oats, was being brought into the area grain elevators this week, though the stream of trucks is still slow, showing the effects of hail damage and late rains.

Most of the wheat appears to be running under the 60 pound mark necessary for No. 1 wheat, though the difference in price between No. 1 and No. 2 wheat is only one cent, which will not make much difference in the checks which wheat farmers will receive for their crops.

Informed sources put the harvest at about 50 percent complete as far as the amount of grain to be harvested goes. At noon Wednesday approximately half a million bushels of wheat had been brought into Hereford elevators, out of an estimated crop of 1,250,000 bushels.

Dry Land Hold-Up

Even though about half of the wheat crop may be in, huge dry land acreages are going to hold up completion of the harvest, with some people estimating that the harvest may stretch out until at least July 10.

Dryland wheat, much of which received late rains and hail, is also causing some slight bit of trouble at the elevators, for farmers who haven't harvested a crop in three years are continuing to watch clouds which threaten continued rain and possible hail, and want to get it into barns or elevators.

Irrigated wheat which received hail but was still harvestable is

RAYMOND CLAYTON ALLEN

Youth Takes French Leave

Have you seen Raymond Clayton Allen since last Sunday night? The boy, 13, disappeared from his home one mile north of Shirley School some time between 11:30 o'clock Sunday night and 6 o'clock Monday morning, and frantic efforts by his parents had, up to Wednesday, failed to locate the boy.

Mrs. Allen, who said the boy was partially crippled by polio when he was six, left home wearing a navy blue nylon shirt and either a pair of blue jeans or a pair of tan trousers. Both pairs of pants were missing from among his clothes.

Raymond has a sister in Lubbock, but he did not go there, and he has an uncle in Ohio. His cousins from there were in Hereford during the past school year attending school, but the Allens did not feel that the boy would try to make such a long trip.

Raymond is a big boy for his age, being 5 feet 8 inches tall, and weighing about 130 pounds. He has brown hair and gray eyes, has a crippled left leg, and his left arm cannot be used properly.

The Allens could not think of any good reason for the boy's leaving home, other than that his father had reprimanded him about some work he had failed to do. Any information on the boy should be given either to local officers or to his parents as soon as possible.

Mrs. Allen heard Wednesday morning that the boy had been seen on the highway west of Clovis Monday morning, and was planning to send his picture to TV stations west of there.

DOLLAR DAY TUESDAY

Big Fireworks Display Set For Sunday Night

A two-day Fourth of July celebration will take place in Hereford, with fireworks Sunday night in Veterans Park, and most business firms in Hereford closing Monday.

Dollar Day, which would have come on Monday, will be held Tuesday instead.

Jaycees will set off the fireworks display in Veterans Park after church Sunday night, as soon as it is dark enough, according to G. E. Mullins, Chamber of Commerce manager. Pat Kerr has charge of the firing, with Harold Loerwald as vice chairman.

Warning Salutes

Later-comers for the fireworks display will be warned with the shooting of 10 9-inch aerial salutes, which will be fired a few minutes before the main part of the program begins. This will be followed by a long series of ground and aerial pyrotechnics, which will be fired in varying order for the best effects.

Aerial fireworks will include fancy bombshells, fish and whistle shells, comet shells, heavy break shells, fustilading shells, star and serpent shells, parachute flares and a number of colored shells.

Funeral For David Irvin Curry Scheduled For Friday Afternoon

Funeral services for David Irvin Curry, 25, will be held Friday afternoon in the Assembly of God Church with Rev. R. E. Muller, pastor of the Church of God at

Jal, N. M., officiating. Curry died early Wednesday morning in Deaf Smith County hospital following an illness of about two and one-half months.

He was born March 16, 1929 in Hereford, where he attended Hereford schools for about nine years before moving to Jal, N. M. At Jal, he completed school and went to work as a pumper for the Pure Oil Company.

May 30, 1953, he married Florene Sims at the Assembly of God Church in Hereford. The couple returned to live at Hereford after he became ill so that they would be near his parents, Mr. and Mrs. David E. Curry.

Curry was a member of the Jal Church of God.

Survivors include: his parents, Mr. and Mrs. David E. Curry; one brother, Lewis of Spinnard, Alaska; three sisters, Rose, Jessie Evelyn and Annie Mae Anderson of Goodells, Mich.; his maternal grandparents, Mr. and Mrs. S. R. Cooper.

Burial will be in West Park cemetery under the direction of Gilliland Funeral Home.

Absentee Voting To Start Next Tuesday In County

With absentee voting scheduled to start next Tuesday, County Democratic Chairman Henry Sears said today that approximately 4,000 ballots have been ordered and that election judges have been named for the 10 voting precincts in Deaf Smith County.

A slight alteration will also be noted on voting precincts this year, he said, since precinct 5 and 10 have been combined and will both vote in the No. 3 box at Daniel. Ballots, according to law, must exceed the total vote of last election (1952) by 10 percent, although the committee felt that the total vote would likely fall short of the 4,000 mark.

In addition to state and district candidates, a total of 22 candidates were listed for county offices: county judge-2, district clerk-1, sheriff-1, county clerk-1, county

treasurer-1, justice of peace-3, commissioners - 3, county attorney-1, hide and animal inspector-2, county surveyor - 1, Democratic chairman-1.

Filing fees to offset election expenses were also sharply increased by the committee, running almost double those assessed in the election in 1952, on the following scale: judge \$165, district clerk \$115, sheriff \$165, county clerk \$165, county treasurer \$95, justice of peace \$95, commissioners \$75, county attorney \$150, hide and animal inspector \$20 and surveyor \$10.

These fees are allocated according to salaries drawn and proceeds used by the committee to hold the primaries for the Democratic party, including payment of election judges, printing of ballots,

purchase of election supplies and other election expenses.

The following judges were listed: Precinct 1, Hereford, Troy Moore and Ivan Block.

Precinct 2, Hereford, Frank Cogdell and Walter Seed.

Precinct 3, Roe, Phillip Miller and G. S. Solomon.

Precinct 4, Sims, Cord Hammock and C. L. Bogle.

Precinct 5, Daniel, R. L. Campbell and C. L. McBroom.

Precinct 6, Ford, Ted Rohrbach and Hardy Benson.

Precinct 7, Dawn, H. H. Miller and A. T. Frye.

Precinct 8, Garcia, S. N. Thweatt and Charles Hoover Jr.

J. W. Witherspoon Heads Regional Drive For USO

James W. Witherspoon and Raylan Evans have been named district and county chairmen, respectively, for the United Defense Fund, which is sponsoring the USO's campaign for \$775,000 in Texas this year.

Witherspoon was appointed by Lawrence R. Hagy of Amarillo, regional chairman for the fund appeal, and in turn appointed Evans as county chairman.

A major portion of this year's USO campaign drive in Texas will be included in the Community Chest and United Fund campaigns which will take place this fall, he added.

HOOVER ELECTED

Charles Hoover Jr., was elected Tuesday as supervisor for subdivision 1 of the Tierra Blanca Soil Conservation District, to replace C. F. Rickels, who recently resigned.

Concert Group Plans Campaign

Despite shifting leaders throughout the organization, the Hereford Mutual Concert Association will plan a fall campaign and operate along lines seen in past years. Dr. H. A. Cavness, president, said this week.

Dr. Cavness was elevated from vice president to president of the organization following resignation of Robert Bell, who will leave around July 1, for Dallas. Mrs. Dick Miller was moved from the office of second vice president to first vice president. Miss Francis Young was also appointed as secretary of the organization, succeeding Mrs. Gaylord Mullins, who also resigned following announcement that the Mullins family will move to California.

The organization enjoyed a successful year in 1953-54, according to Bell, who expressed appreciation for co-operation from the membership and from the public during his tenure of office in the association.

Part Of Texas "Sold" In Deal

Either some one is a sharp salesman or at least one man who turned up in Hereford has slipped a few cogs, but probably the latter happened.

Hereford police found a man cooking some bones in an open box car, and took him up to the city jail.

"What are you doing here?" he was asked.

"I came down from Ka-na-da," he answered.

"What did you come down here for?"

"Aw, my dad bought Oklahoma, and they just threw in part of Texas to go along with it," the cooker of bones replied.

"Do you think you'll keep it?"

"Can't tell yet. From what I've seen so far, there ain't much to it. Not much green stuff," was the answer.

Evidently he hadn't seen the potato and onion fields around this territory before being taken into protective custody.

BALLROOM GOLF probably is somewhat akin to hangar flying, but this time one of the girls had a club along to demonstrate just what she was talking about on that swing. Rowena Posey, wife of Hereford Golf Club pro Bud Posey, was giving the demonstration. The

other women are, from left: Mrs. Dudley Malone of Muleshoe, Mrs. Houston Hart of Muleshoe, and Hoofie Gilbreath of Dimmitt. The interested waitress, who looks like she might like to try some of that form of exercise some time, is Jo Hall. (Staff Photo)

Lady Golfers Are Entertained

Hereford's lady golfers entertained lady golfers from Muleshoe Tuesday with a luncheon at Hotel Jim Hill, and followed through with a round of golf for all at the Hereford Golf Club.

Some 20 women, eight from Hereford, eight from Muleshoe, and four from Dimmitt who belong to the Hereford Ladies' Golf Club, met for the luncheon, then adjourned to the Hereford Golf Club where three other Hereford

women joined them for a round of golf.

When prizes were awarded, Lucille Posey of Hereford won the low score prize for having shot a 50, and Jeanette Waggon of Muleshoe had high score with 65.

Ola Mae Trimble of Dimmitt won the prize for low putts, and Ruth Malone of Dimmitt won hidden par.

Those attending the luncheon included Ruth Malone, Eunice Ev-

ans, Ruby Hart, Naomi Alcorn, Edith Evans, Melzine Elliott, Juanita Strims and Jeanette Waggon of Muleshoe; Hootie Gilbreath, Dugan Butler, Polly Manning and Ola Mae Trimble of Dimmitt; and Jean Streu, Marie Cogdell, Lucille Posey, Pat Loerwald, Rowena Posey, Earline Ross, and Gene Guseman of Hereford. Jo Brock, Sue Loving and Dell Sherman joined the others at the golf course after the luncheon.

St. Anthony's Vacation School Closed On June 26

St. Anthony's Vacation School closed on June 26 with a program reviewing the two weeks work done in the school. Held in the school hall, the closing exercises centered around the theme "The Marian Year" which theme marked the school activities.

Classes were held in art, crafts, music and religion with 135 students ranging from 4 to 14 years in age, attending.

Leaders in the vacation school were Mesdames Harold Banks, Billy Massie, Tony Hoffman, Geo. Turentine, Gene Loerwald, May-

nard Buck, Arhart Reinart, M. J. Koelzer, Edwin Skypala, Clarence Loerwald and Ed Loerwald.

Also assisting were Leona Urbanczyk, Annette Berend, Patsy Peters, Kay Kerschen, Katherine Dreerup, Sharon Brinkman, Gwendolyn Jesko, and Marcella Bezner.

For the grand finale, there will be an American flag and large color and noise shells.

Two Men From Hereford Taking Marine Corps "Boot" Training

Two Hereford men — Franklin Lee Boyd, son of Mr. and Mrs. Robert S. Boyd, Route 5, and Paul Ray London, son of Mr. and Mrs. Walter H. London, 615 Austin St., joined the Marine Corps June 21. Boyd and London, both graduates

of Hereford High School, are presently undergoing 10 weeks of intensive training at the Marine Corps Recruit Depot at San Diego, Calif. London is a squadron commander.

Upon completion of Boot Camp, as Marine Corps basic training is commonly known, the two Hereford Marines will probably receive a 10 or 20 day leave before reporting to their next assignment.

The two Marines volunteered in Amarillo.

Explosion Kills Two Nephews Of A. J. Ralston

Mt. and Mrs. A. J. Ralston, 114 Avenue E, received word Tuesday night of the death of two of Mr. Ralston's nephews, Earl and Gerald Noel, who were killed Monday night in an oil field explosion in the Granite Canyon field 25 miles west of Cheyenne, Wyo.

Earl and Gerald are the sons of Mrs. Ethel Noel, 1145 North Russell Street in Pampa. The Noel family has lived in Pampa for 43 years.

Funeral services will be held in Pampa.

Few details of the accident have been received but members of the family learned that the men's wives found the bodies when they went to the oil field late Monday afternoon to take a picnic lunch.

Gerald Noel is survived by his wife, Carrie; two daughters, Mrs. Bill Windsor of Wichita Falls and Mrs. Bill Kribbs of Harlingen and six grandchildren.

Earl Noel is survived by his wife, Eleanor; two daughters, Joyce and Elaine, and a son, Gene, all of Carpenter, Wyo.

Both men are survived by their mother of Pampa; four sisters, Mrs. Elmer Fite, Mrs. George Quible and Mrs. H. G. Smith, all of Pampa and Mrs. Dorothy Bullock of Elizabethtown, Tenn.; and a brother, Cecil, of Carpenter, Wyo.

Scientific Boys Hold Own Against Dirty Wrestlers

Dory Denton, popular Amarillo promoter and semi-retired wrestler of Amarillo, and his brother Glen Denton of Salt Lake City, Utah, proved that scientific wrestling can still hold its own against the most dirty wrestling techniques in the book when they tangled with "The Mask of Pretoria," South Africa and Elmer "Peavey" Larson of Canada in the main event Saturday night at the Bull Barn.

Preceding the main two out of three fall, one hour time limit main event, Dory Denton and Elmer Larson wrestled in a one fall 15 minute time limit match and Glen Denton and The Mask wrestled in the second one fall 15 minute time limit match. Both matches went to a draw.

In the main event The Mask won the first fall over Dory Denton in 10 minutes with a two-legged crab and then Glen Denton won over Larson in the second fall in 10 minutes with a body jack knife. The third fall was never completed due to time running out, leaving all three matches at a draw.

Perry J. Cates, gunner's mate second class, USN, was awarded the Navy's Good Conduct Medal while serving aboard the landing ship dock USS Ashland by the commanding officer while the ship was at the U. S. Naval Base at Norfolk, Va. The medal is awarded to Naval personnel who complete three consecutive years of exemplary conduct.

County Hires Mower Man

In one of their shortest meetings of the year, Deaf Smith County Commissioners Monday hired four men for mower work on county roads, approved a purchase for the County Clerk's office, and turned down the offer to join in the purchase of a lie detector (polygraph).

Those hired for the mower work are A. L. Logan in precinct 1, Jack Flowers in precinct 2, R. L. Layman in precinct 3, and J. T. Bell in precinct 4.

County Clerk Ralph Smith asked permission to buy a larger trimmer board for use in trimming photostats in his office, and the commissioners approved. The trimmer board will cost \$23.25.

A letter from Peter Schuber, Potter County sheriff, asked the commissioners court if this county would participate in setting up an organization to be known as the Tri-State Polygraph Association, which has plans for installing a polygraph in Amarillo.

Initial cost would be \$100, with each county then paying not less than \$10 or more than \$20 a month based on the size of the county and the use of the machine. After discussing the matter, the commissioners voted unanimously against taking any action on the project at this time.

When Smith appeared before the court, he also asked that salaries of the clerks in his office be raised, but the commissioners did not feel that any raises should be considered at this time of year.

Half Of.....

(Continued from Page 1) the fields where cotton was planted, but has now been plowed up and the land put into feed crops. Figures on the measured cotton acreage will probably be available in about a week.

The ASC office is winding up their totals on 1954 listed wheat, but so far no information is available on the cut.

Looking forward to the problems which are going to face Deaf Smith County farmers next year, Collier said he had information that farmers will have certain "no diverted acres" which will be over and above their total allotments for the coming year. However, the material he had received still leaves many questions unanswered and did not give any exact percentages.

East Team Clips West In All-Star Game, 21-5

By Billy Paul Knox

The East all-star team headed by Dick Ross outclassed the hapless West all-stars and handed them a 21-5 shellacking Tuesday night in the annual all-star game. Dawn defeated Piggly Wiggly 6-5 in a game played before the all-star game.

The East shelled three West pitchers for 16 hits. East pitchers held the West to 10 well-placed hits. Mound-workers for the West were Bob Clark, Ken Walterscheid and Illey Barton. Taking up the mound chores for the East was Don Morgan, Tom Albracht and John Winkler. Winning pitcher is Morgan. Clark is the loser.

Five of the West 10 hits went for extra bases—three doubles, a triple and a home run. The East mauled the West for six extra base rallies which included three doubles, a triple and two home runs.

Three Scoreless Innings

The West couldn't score in the first three innings as Don Morgan held them scoreless in his three inning stint.

The East couldn't score in the first but they pushed across five markers in the second. They turned the trick on three walks and three hits.

After the East team was held scoreless in the third the West cracked the goose egg by notching one run in the fourth. Roy Botkin walked and scored on Cliff Harper's booming triple.

The East really sewed things up in the last of the fourth. Six big runs crossed the plate making the score 11-1. They garnered them on four hits, two walks, and two errors.

The West couldn't score in the fifth but the Easterners added two more on one hit and one error.

The West made it 13-2 by picking up one in the sixth. Roy Botkin singled and scored when Cliff Harper got on via the error route.

The East was held scoreless in the last of the sixth.

The West scored two runs in the top of the seventh. Two hits and one error pushed them across.

The East made it 16-4 by scoring three in the last of the seventh. They collected three hits and

the West made one error.

Homer On Empty Bases

In the top of the eighth Bub Sparks homered with the bases empty to score the West's last run. The East scored five runs in the last of the eighth to complete the final score of 21-5. Both teams were scoreless in the ninth.

Reuben Knox and Illey Barton both collected two hits apiece to lead the West. Gerald Hale led the East with three hits.

Dawn defeated Piggly Wiggly 6-5 in a game played before the all-star game.

Winning pitcher is Illey Barton. He gave up five runs and four hits. Losing pitcher, Don Morgan, gave up six runs on five hits.

Mr. and Mrs. Marlin Pierce and Deborah were supper guests in the Mayo Phipps' home at Friona Thursday night.

A. J. Schroeter, Margaret and Edwin left Tuesday for Wheaton, Ill., to attend the wedding of Schroeter's son, Alex.

Willing Worker Missionary Society met last week with Mrs. James Ray Coleman. Mrs. Merlin Kaul read the Scripture. The lesson was on stewardship. Those taking part in the program were: Mrs. Clarence Morrison, Mrs. R. L. Wilson and Mrs. Merlin Kaul.

Those present for the meeting were: Mesdames Johnie Townsend, A. A. Head, Merlin Kaul, Charles Owen, T. D. Alston, J. C. Morrison, Robert Boyd, R. R. Wilson, Harold Head, Glen Williams, and Mrs. Jack Knapp and daughter Nancy. Mr. and Mrs. Luther Thomas of Dalhart were weekend visitors in the Ed Blakney home.

Mr. and Mrs. Joe Wagoner and Joe Bob went to Groom Sunday to visit Joe's mother, who is in the hospital. They reported that she was resting fairly well. Larry Wagoner returned with them for a few days' visit.

Cliff Combs returned home Monday from a 10-day vacation visiting relatives in New Mexico and Monday.

Mrs. C. A. Sauley and Clara-belle Wyckoff were in Amarillo Saturday on business.

Vacation Bible School ended Saturday night with a program of the children showing what they had made. There were 50 children enrolled.

Nation Rides Out A Business Lull

By J. M. ROBERTS JR.
Associated Press News Analyst

A FRIEND of mine, looking down on New York traffic the other day, said, "If you don't own a swanky new car these days, it looks as if you're just a chinchy guy who won't spend his money."

That may be carrying it too far. Economic reports still show soft spots of unemployment and new car sales still meet resistance.

But the country got news this week that, as most people seemed to have sensed all the time, the business readjustment which began last August has not interfered drastically with a general prosperity of a high order. People didn't go running to squirrel away their money when the skies clouded up a bit. Spring buying was brisk. The general trend of the whole period has been upward. There's a construction boom.

Roberts

Industrial employment didn't turn up as much as had been hoped this spring, chief gains in this field being in seasonal agriculture. But the government reported inventories were down and manufacturers are once again getting new orders.

Production was on the up-grade for the first time in nearly a year, and employment was believed sure to follow. A large factor in the building boom was the construction of new industrial facilities, suggesting that business knew its own mind about profits to come without waiting for government reports.

No Pump Priming
Walter Reuther, president of the CIO, questioned the government employment figures, said unemployment for May was the highest for that month since the war—the Census Bureau had said it was 300,000 better—and demanded pump priming. The line that tax cuts and unemployment benefits had more than offset the effect of unemployment on purchasing power.

Wilson Forecasts Cut
Defense Secretary Wilson, whose department had the most money and contributed most to the reduced spending, says he still thinks defense expenditures can be leveled off to 30 or 35 billions—6 to 11 billion less than now. This estimate is, of course, tied directly to the course of international events. It is also influenced by the fears those who want to be sure no slightest chance is taken with the national security.

The new defense money contains a two-billion dollar authorization which is admittedly a sop to those who entertain these fears.

No Recession in Europe
Europe, which once feared it would catch economic pneumonia if the United States got so much as the sniffles, has continued increasingly healthy. The foundations laid during several years of United States economic aid have proved sound.

As a direct result, an eight-nation committee of European financial officials will meet in Paris next month with a certain degree of optimism over the prospects for achieving currency convertibility, one of their prime objectives since the war.

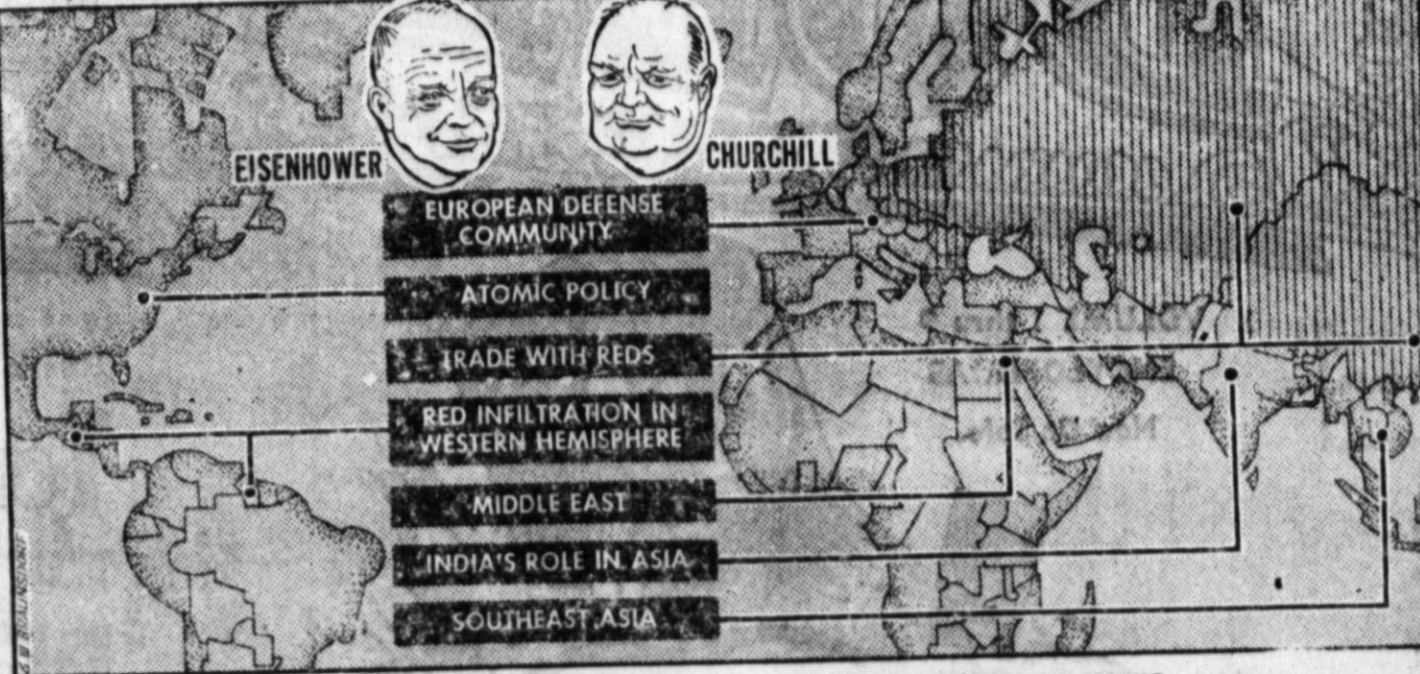

The sterling area, for which Britain is the banker, shows signs of increasing its gold and dollar reserves by about two billion dollars this year.

Russia's whole policy since the war has been to aid, abet and rely upon economic collapse in the free world to pave the way for her conquest by infiltration. Reports like these indicate that Russian policy has been built on shifting sand.

ANGLO-AMERICAN POLICIES UNDER DISCUSSION AT THE WHITE HOUSE

SCIENCE

Deaths Soar for Smokers Over 50

New Survey

For almost a year now, the cigarette salesmen's patter on TV and radio has been switched from the enjoyment of smoking to the safety of filter tips and longer, cooler lengths.

The big companies worriedly kept their eye on sales charts as surveys from scattered scientific sources tended to blame cigarettes for an alarming increase in lung cancer, especially among men smokers.

Only recently, the tobacco industry engaged a top specialist from Jackson Memorial Laboratory, Bar Harbor, Maine, to conduct a full scale research program.

This week another blow came—a big one. A survey by the American Cancer Society reported that death rates from all causes among male cigarette smokers was up to 75 per cent higher than among men who never smoked.

It showed that fatal heart attacks were twice as high among pack-a-day smokers aged 50 to 64 as among non-smokers. Among men 65 to 69, there was

not much difference.

Fewer men, percentage-wise, in the 65 to 69 age group, were inveterate cigarette smokers compared to those 50 to 64. Perhaps, the report theorized, more of the heavy smokers already had succumbed to heart attacks or other ailments before reaching the 65 to 69 year span.

It was the first disclosure of a long-awaited ACS study, started in 1952, of nearly 200,000 healthy men, aged 50 to 70, in nine states on the effect of smoking on cancer and other diseases. Originally, significant results were not expected for another year but, the survey directors said, analysis of the number of cigarettes smoked daily over a long period.

Smoking only a pipe or only cigars doesn't seem to affect death rates except possibly for cancer in general, but this possibility needs further study, the report said.

The tobacco industry's new research chief, Dr. Clarence Cook Little, replied that the cause of heavy smoking also might be a cause of cancer—possibly a glandular disturbance.

And the retiring president of the American Medical Assn., said that, speaking for himself, he did not feel the ACS report had proved a cancer-cigarette link. Dr. Edward J. McCormick of Toledo added that it wouldn't change his smoking habits—not more than a pack a day.

New Pain Killer

A drug which makes people immune to pain but leaves them conscious and able to move may provide surgeons with a new substitute for anesthesia.

Dr. John S. Lundy, head of anesthesiology at the Mayo Clinic, told the American Medical Assn. in San Francisco that the new preparation does for the entire system what a local anesthetic does to a specific part of the body.

The drug is called dolitone and it was developed in Cincinnati. Dr. Lundy is the only one who has used it thus far. He tried it on 127 patients, most of them dental cases.

The new drug may be of value in childbirth because the woman would be able to obey instructions from her doctor on what to do to speed delivery. Since the patient would retain the ability to use her muscles, her blood circulation rate would not slow down greatly and this would be beneficial to the child.

Church

Foreign Missions

Two companies of young American Christians are leaving for foreign fields this summer—one group to work for about a month, another to stay indefinitely.

Leaving this month for Europe and Asia are more than 100 students, young teachers and ministers, who'll spend three to five weeks of labor, without pay, at church-sponsored "work camps."

They'll help build schools, playgrounds, churches, refugee settlements and other projects among destitute peoples in 22 countries from France to Korea.

The other young Americans—more than 120 of them—are going overseas as missionaries for the first time. They include physicians and ministers from a dozen denominations.

Their assignments include church centers in 27 countries of Asia, Africa and Latin America. Before they leave, they'll attend Allegheny College, Meadville, Pa., from June 23 to Aug. 4, for final training under sponsorship of the foreign missions division of the National Council of Churches.

They'll join 1,000 volunteers from other nations at 33 work camps, where they'll live in near-primitive quarters during the summer.

Ike & Churchill Reappraise Plans

By TOM WHITNEY
Associated Press Foreign Staff Writer

THIS week's events are another good illustration of the hard fact that the cold war girdles the globe and enmeshes even the most out-of-the-way areas and peoples in its coils.

Civil war raged in Guatemala. Prime Minister Churchill was to confer in Washington with President Eisenhower on improving British-American cooperation.

Their problems, in addition to communism, include trade and atomic energy where Anglo-American policies seem to be drifting further and further apart.

In Indochina the Vietnam continued their buildup for an assault on the French in the Red River delta.

The big-shot diplomats left the Geneva conference to underlings and returned to their respective capitals, but the conference went on with the remote hope of ending the Indochina War.

Terrorist activity of nationalists directed against the French continued in North Africa.

Hopes for French ratification of the European Defense Community agreement declined daily, and the new French premier, Pierre Mendes France, staked the future of his government on a program of peace in Indochina by July 20 and revision of EDC.

Atomic Refugees
Even the remote South seas are not immune any longer from the contagion of world affairs. Peaceful Marshall Islanders are waiting for the United Nations to consider their plea for an end to hydrogen bomb tests in their beautiful but now sometimes radioactive paradise.

All these and scores of other developments, big and small, fit into the jigsaw puzzle of the cold war—that enormous conflict between two systems.

It used to be that a Central American revolution was not regarded as serious news. But when the flames of civil war flared up in Guatemala, the world reacted quickly. Repercussions ranged from the angry anti-American comment of Moscow's controlled propaganda apparatus to demonstrations in Chile and Mexico and an urgently-called session of the Security Council at the United Nations.

Crisis in Indochina
News from nearly every quarter of the globe these days is almost all bad for the United States. Indochina is in the most serious danger. The long-delayed common defenses against Communist expansion in Europe are being wrecked by the French. Colonial unrest is well-nigh universal. Disensions tear apart the fabric of Western collaboration against the Kremlin.

In Guatemala, Communists were able to attain great influence in the regime. The United States government felt logically obliged to act in a way which likely encouraged revolt. That is in its own way an object lesson in the cold war.

No matter how the revolt resulted, the United States stood to lose a lot. There is evidence that the very existence of the revolt aroused in Latin American countries the always-present fear of North American intervention in their affairs.

'Have' and 'Have-Not's'
Discontent among the working population of Guatemala and among a portion of the intelligentsia there is by no means new. There has long been an aspiration among Guatemalans in the mass, and a natural one, for better living and working conditions and for social progress.

There are a lot of reasons—some peculiar to Guatemala, and some common to other underdeveloped countries of the world—why the Guatemalans who wanted land reform and other changes in the old system did not look to the United States and other nations of the free Western world for assistance and guidance.

So it was the free world's loss that the Communists, with their elastic tactics of harnessing forces of discontent all over the world, were able to seize on this situation and gain great power there.

No Mass Appeal
The fact that the West, and this especially means the United States as the biggest nation of the West—has so far failed to offer any far reaching program for the betterment of peoples of colonial and underdeveloped nations and for modernization of their countries which has mass appeal.

The Point Four program of aid for these countries was a gesture in this direction and its accomplishments have been great, but it is not enough and, obviously, there is not enough of it.

Many people in these countries who are not Communist have come to look to communism for a solution of their urgent problems.

The problems of backward areas constitute only part of the stage scenery of the cold war. There are other problems too. But if revolts, terrorism and conflict are breaking out all over the world like measles nowadays, it's partly because the Western world has so far failed to win the trust of peoples in colonial and semi-colonial countries.

Oil

Bulging Inventories

Americans have been using less gasoline and heating oil this year than the industry analysts figured on.

The less-than-expected consumption of home heating fuel is traced to an abnormally mild winter, but lagging purchases of motor gasoline have, industry experts guessing, late in 1953, they were setting their sights on a four or five per cent rise in this nation's total petroleum requirements. Now they have scaled that estimate down to an increase of only about two per cent this year.

The sated condition of the gasoline market—the industry's top money-maker—is responsible for the recent rash of price cutting in many areas. Ohio has been a focal point of gasoline price wars in recent weeks and now the trend is spreading to other Midwest states. Total gasoline inventories in the United States are about 100 billion gallons higher than at this time last year.

Best news for producers and distributors of gasoline is the outlook for a banner vacation season. Wet, chilly weather may have discouraged holiday travel in May, but balmy temperatures and blue skies from now through Labor Day are counted on to bring brisk business to roadside filling stations.

Meanwhile oil companies are taking positive steps to whittle down their inventories. Two of their principal weapons are stepped-up advertising via newspapers, radio and service station signs—and new products.

All of the major companies are touting new, souped-up gasolines with higher power and anti-knock ratings.

Also in the making is an industry-wide program of cutting back, both at the refining and production levels. The state of Texas has decreed that production from Texas wells must be held in July to a maximum daily average of 2,801,704 barrels from the rats in June.

Politics

Lady Wins in Walk

Sen. Margaret Chase Smith, the lady legislator from Maine, won a crushing victory in her state's Republican primary over the challenger she said had apparently been "planted" against her by Sen. Joseph R. McCarthy (R-Wis).

Her margin was better than 5 votes to 1 over Robert L. Jones, McCarthy's 34-year-old apostle.

GOP nomination in Maine is normally tantamount to election.

In the state election on Sept. 13, it will be Sen. Smith against Democrat Paul Fullan, Colby College history professor, who was unopposed in his party primary.

While the primary bestowed a heavy vote of confidence on the silver-haired 56-year-old Mrs. Smith, a veteran of 14 years in the House and Senate, it is being construed more as a personal triumph than a defeat for Sen. McCarthy.

Speculation that the Maine Senate contest would prove a test of McCarthy's power to swing elections had come largely from outside the state. The Wisconsin senator never developed into a solid issue during the campaign.

In Short . . .

Declared: By President Eisenhower, that any cuts in the administration's proposed \$3,447,700,000 foreign aid program would be "unjustified and unsafe" in the light of "the continuing ruthless drive of Communist imperialists for world domination."

Set: By John Landy of Australia, a new world record for the mile of 3 minutes and 58 seconds, clipping 1.4 seconds off Roger Bannister's record of May 6.

Ordered: By the Army, Cpl. Claude Batchelor, 23, former POW who first chose to stay with the Communists in Korea but changed his mind, to stand general court martial.

Mrs. Brinkman Shares Congealed Pudding Recipe

Because Mrs. Frank Brinkman makes such good cakes it is usually taken for granted that she will bring one along for dessert when there is a covered dish luncheon in the organizations of which she is a member or when the treasury is to be replenished with a bake sale. However, she surprised members of the North Hereford Club with a delightful congealed pudding for refreshment at a club meeting last week and is generous enough to pass on the recipe for those who might like a cool summer dessert that can be fixed in advance.

Log Cabin Dessert

- 1 cup scalded milk
 - 1 package of plain gelatin (soak in one fourth cup cold water)
 - 1 cup Log Cabin Syrup
 - 1 1/2 cups whipped cream
 - 1 cup of chopped nuts
 - 1 15 cent package of vanilla wafers (rolled fine)
- Scald the milk and dissolve the gelatin in the hot milk. Add the syrup and let congeal in the refrigerator. When it thickens add nuts and whipped cream, whipping all with egg beater to mix well. Have a shallow pan greased slightly and lined with vanilla wafer crumbs and nuts.

Save enough nuts and crumbs to put on top of the dessert. Now pour mixture into pan and cover with remaining crumbs and nuts. Set in ice box to finish congealing for about two or three hours. Cut in squares and serve topped with whipped cream, cherries or just plain.

(Editor's Note) Looks as if we were trying to mix the Cherry Pie filling carried last week with the crust as the recipe included water instead of the one teaspoon of lemon juice and the tablespoon of butter which should have been used in the ingredients.

Some have wondered why the cherry juice was omitted. Since it was given to 4-H girls who were inexperienced in pie making they seemed to get better results when the cherries were drained. The juice may be used if the pie seems too dry but a little more flour might need to be added if the cherries are too juicy.

From the reports given by Ann Dyer, Donna Sue Guseman, and Mrs. J. E. Dyer on 4-H Round-Up at College Station, every delegate who attended the Workshops was given some instruction on Soil Conservation. Some of the 4-Hers thought it very strange that soil study was included in a Foods Course. Good fertile soil producing better food is a point Dr. G. W.

Dr. Heard brought to the office a reprint of a letter in which he has recently given an opinion about tooth health in this area.

Among other very interesting observations he says, "I am now fully convinced that good natural food is the preventative of dental (Continued on Page 2)

Dress Sleeves Are Latest Study At 4-H Meetings

Getting two sleeves in a garment to look alike is not so big a job as it would seem to be since the 4-H girls have learned to follow instruction guides and read pattern markings before they begin their projects in sewing.

The Daniel 4-H Club met June 17 in the home of Suzie Higgins.

The meeting was called to order by Janet Higgins, president, and Suzie Higgins led the group in several songs. Roll was called by Virginia Higgins, assistant secretary.

A demonstration on putting on a collar and sleeves was given by Miss Loyce Avant, assistant county Home Demonstration agent.

Virginia Higgins led some games after the meeting.

Refreshments were served to: Polly Cornet, Pat Bell, Virginia Higgins, Janet Higgins, and Suzie Higgins, Miss Avant, Mrs. Bell and Mrs. Jack Higgins.

County-Wide
The meeting of the County-Wide 4-H Club was called to order by Nancy Parsons when the club met with her on June 2. The girls sang the club song, "We're on the 4-H Trail."

Roll call was answered with a picture of the garment to be entered in the County Dress Review. Miss Avant gave a demonstration on how to sew a seam correctly, how to put in a sleeve and how to put on a collar.

Games were played and refreshments served to the following: Audrie Self, Mildred Wester, Polly Monroe, Bonita Honea, Sandra Wester, Nancy Parsons, Terry Lynn Anderson, a visitor, and Miss Avant.

Windmill Man Is Still Busy Despite Power Units

SINCE THE DEMAND FOR WINDMILL repair service increases steadily, Ivan Woolsey, who has been drilling wells or doing windmill work of some kind since 1936, has had a special rig set up which enables him to service wells without having to remove the tower as was formerly done when a well had to be deepened. His sons Wallace and Robert are shown helping to restore water to what was a dry hole. With this set up a well may be cleaned out and put in pumping operation in a half day though his time has been spoken for sometimes weeks in advance. (Staff Photo)

"As busy as a cranberry merchant" may be a likely comparison for the fellow who seems to have no idle time but if the cranberry merchant is half as busy as the man who repairs windmills then somebody is going to miss cranberry sauce for Thanksgiving even if it is only June now.

Cattle bawl at empty tanks and house wives dip water for cooking from 10 gallon cans while the man who works on windmills attempts to keep up with the never-ending demand for somebody to come fix the windmill.

Development of irrigation has seemed like a great thing for the country generally but sooner or later the person depending on a windmill for water will call on the windmill man to come to his rescue.

When wells were first dug in the locality the common practice was to tap the first strata of water as sand gave so much trouble that it was unwise to try to go deeper. Water in the shallow water belt could be reached at as little as 62 feet and since there was an abundance of water—there was no point in trying to go deeper.

Evidence that the water supply wasn't inexhaustible began to show up first in the windmills close to one that was used for irrigation when it would begin to suck air and sound a warning that something had gone wrong in the bottom of the well.

The windmill man came with his block and tackle and a set of heavy wrenches and pulled the sucker rod to replace the leathers, though there might have been some water in the cylinder.

If the mill still refused to pump his next prediction was apt to be that there was a hole in the pipe that was leaking back the water. Up would come the pipe and when it proved to still be water tight then came the realization that something must have happened to the water.

A Simple Solution
Sure enough when the cylinder was lowered a few feet the mill pumped as strong as a stream as usual and this seemed like a fairly simple solution to the water problem.

Maybe this procedure would be (Continued on Page 2)

New Rotary Officers For Year Installed

New officers and directors for the Hereford Rotary Club were installed by outgoing president George Heard at noon Monday, following a special program of

songs presented by Eugene Campbell, who was accompanied by Dixie Young at the piano.

Bill Davis Jr., assumed the position of president. Other officers for the coming year are Earl Phillips, vice president, who moved up from secretary, Sam Nelson, who became secretary, and Henry Benson, who succeeded Virgil Hennen as treasurer.

New directors are Frank Bezner, Lynn Kester and George Heard. Outgoing directors include Virgil Hennen and Hugh Bookout. It was also "anniversary day" at the Rotary Club, and several Rotarians, whose wedding dates have come within the past three months, had their wives as guests.

Among the special guests were Mrs. Al Yeager, Mrs. Millard Nokes, Mrs. Ben Childers and daughter, Mrs. J. C. McCracken, Mrs. Don Martin, Mrs. Earl Phillips and Mrs. V. O. Hennen.

Youth Rally Held Here Saturday

Seventh Day Adventist Churches of Amarillo, Borger, Clovis and Portales were represented at the district youth rally held Saturday at the Hereford Seventh Day Adventist Church.

Elder M. D. Howard of Amarillo, president of Texico Conference of Seventh Day Adventist, gave counsel to the young people at the 11 o'clock hour, talking on "The Hour of Love Preparation."

The entire group attended a picnic lunch at noon in Lake Park.

In the afternoon missionary activities were presided over by Elder Reuben F. Schneider of Amarillo, home missionary secretary of the conference. He stressed "working for Heaven and taking others with us."

Elder F. H. Hewitt of Amarillo, young people's director of the conference, led in the inspiration and young people's meeting assisted by J. L. Jesperson, pastor, and C. C. Balsler, former pastor, now of Clovis.

A sunset worship in Lake Park and a social held on the lawn of L. F. Stayton, 306 North Jewell Street, closed the day's activities.

Windmill.... Develop....

(Continued from Page 1)

repeated several times over a period of years before the measuring string would finally come up dry as a powder house. One of the children would then be sent to the house for the hand mirror which the windmill man would use to reflect the sunlight into the bottom of the well before he announced the awful truth — "no water."

Expense of drilling was of greater concern to the owner though a small rig could usually be found which could come in a dry or so at the most to put the mill back in operation.

In case of an emergency an irrigation well driller might be hired to set up his expensive equipment and lower the well in a few hours.

Sand continued to give trouble and had to be cased off when the well was deepened. If the owner felt that he could not afford to case the well all the way from the top a joint of casing screened to keep out the sand was dropped into the well. This would have been well enough if the well did not have to be again lowered.

However, people who depended on windmills have not usually been so fortunate and now the best solution seems to be to case the well from the top so the casing can be worked down to screen off the sand any time the well has to be drilled deeper.

Irrigation wells have increased so in numbers and the water level has been lowered to such a degree that windmill owners who have not deepened their wells in recent years find themselves without water as soon as the heavy pumping season starts each year and sometimes they must wait weeks for a windmill man to get to them. This often means the loss of the garden, grass and shrubs which have been started at a good deal of expense as well as the inconvenience of supplying water for livestock and house.

For this reason the question of water conservation on the high plains is not the sole responsibility of the farmer who lets the water run day after day into the bar ditch while his neighbor tries not to see what is happening. If well owners play ostrich and our water level continues to be lowered in time everyone depending on water can likely find plenty of dry sand at the bottom of his own well to bury his head in and will have a problem even the windmill man cannot remedy.

O. What are some good hints for nail polish application?
A. If you want to make the hands look longer and more slender, apply pale polish to the entire nail. To make them look shorter, apply dark polish, leaving the moons arched white. For the older hand, light polishes are more flattering and call less attention to wrinkles and spots.

Long Time Ago

45 Years Ago
In conversation with a traveling man from Fort Worth yesterday, he declared to the Junior Brand Editor that he had visited nearly every town in the Panhandle and a larger part of the towns in north Texas and that Hereford excelled all of them as to streets, sidewalks, residences and business houses. "I never saw a cleaner town anywhere," he added "Your homes are above the average in cost and I see no shacks scattered about to mar the general beauty of the city."

While Hereford people have known for sometime that their city was ahead of others in a good many ways, yet it does them good all the way down to have an outside man tell them about it. A young banker from Plainview who was in Hereford last Monday, acknowledges that Hereford has his town bested. "We have just begun to grade our streets he said, "while

these points since Thursday of last week, putting more than \$180,000 into circulation in Hereford and its trade territory.

For the purpose of determining the sum to be allotted by the state to Deaf Smith County for the maintenance during the coming fiscal year of State Highway No. 33 through the county, a traffic count of motor vehicles using the highway was ordered taken early this week by the State Highway Commission.

Commencing at 4 o'clock Sunday morning and continuing until midnight Tuesday, E. H. Finch, city manager, and C. R. Boyd city marshal, stationed at a point on the highway one mile east of Hereford, kept a check on the number of vehicles passing the point during that time.

Though not official, estimates of the number of motor vehicles using the highway averaged 1,000 for each 24 hours, which is practically five times the number registered at the last official count taken several years ago.

TO ALL PERSONS INTERESTED IN LOTS NOS. 1 AND 2, BLOCK 3, AND LOTS NOS. 1, 2, 3, 4, AND 5, IN BLOCK NO. 4, OF WOMBLE ADDITION TO THE TOWN OF HEREFORD, DEAF SMITH COUNTY, TEXAS, AND ALL ADJACENT OWNERS OF SAID WOMBLE ADDITION AND ALL ADJACENT OWNERS ABUTTING UPON FULLER STREET, LYING BETWEEN LOTS 1 AND 2, BLOCK 3, AND LOTS 1, 2, 3, 4 AND 5, IN BLOCK NO. 4 OF SAID WOMBLE ADDITION - - - GREETING

Notice is hereby given that Carl Mountz did on the 10th day of May, 1954 file in the Commissioners Court of Deaf Smith County, Texas, his petition for authority to close that portion of Fuller Street lying between Lots 1 and 2, Block 3, and Lots 1, 2, 3, 4 and 5, in Block 4, Womble Addition to the Town of Hereford, Texas, which said street although being platted, has never been opened or used by the public.

The Petitioner, Carl Mountz, alleges that he is the owner of all of the above described property; that said street has never been opened and has never been used as a street, road or right of way, and that closing of said street and the cancellation of the plat thereof designating said street, will not interfere with the established right of way of any party owning any portion of such Subdivision or any adjacent land owner.

WHEREAS, the Commissioners Court of Deaf Smith County, Texas, has directed that a hearing be had on said petition in the Commissioners Courtroom of Deaf Smith County, Texas, at Hereford, Texas, on the 12th day of July, 1954 at 10:00 A. Now you can protect your car against both friction and acid—the two major causes of engine wear

NEW CONOCO Super MOTOR OIL

America's First Double-Duty Oil!

Protection 1
OIL-PLATING*
conquers friction wear... because this exclusive discovery actually fastens a thin film of lubricant to moving engine parts for full-time protection.

Protection 2
ACID-PROOFING
conquers corrosive wear... because this exclusive new discovery gives Conoco Super up to twice the cleansing power of other premium oils!

Automotive engineers have long known that friction and corrosion are the two major causes of engine wear. Now, from the laboratories of Continental Oil, comes America's first Double-Duty motor oil. It combines two exclusive discoveries (Oil-Plating and Acid-Proofing)* to conquer both major causes of engine wear.

The unique Oil-Plating additive conquers friction wear by actually fastening a thin film of protective oil to engine parts. Unlike ordinary motor oil, this film won't drain down even when your engine has

been stopped overnight. Thus you get full-time protection against damaging wear due to friction.

Exclusive Acid-Proofing additive conquers corrosive wear three ways—it neutralizes acids, prevents rust, and gobbles up tiny particles of dust, dirt, and water and seals them safely in spheres of oil until the oil is drained. ACID-PROOFING actually gives new Conoco Super twice the cleansing power of other premium oils!

New Conoco Super Motor Oil is on sale at Conoco dealers everywhere. Drive in and ask for it today!

Your Conoco dealer will recommend the right grade of new Conoco Super Motor Oil for your car, your climate, your driving conditions.

CONGRESSMAN WALTER ROGERS SAYS

Lower Income For Farmers Will Affect Nearly Everyone

The Under Secretary of Agriculture and President of the Commodity Credit Corporation, Honorable True D. Morse, addressed the National Poultry Improvement Plan Conference in Washington, D. C., on June 22, 1954. The notes he used in addressing this group contained the following statements which disturbed me very much. I give them to you as I obtained them from the Department of Agriculture:

"The prosperity of the United States in 1955 will be put under further pressure as more of the farm business is closed down. In accordance with existing laws, Benson, on June 21, announced, 'The wheat acreage will be cut to 55 million—'

"Acres taken out of wheat cannot in general be planted in other grain or cotton without foregoing price supports.

"A farmer must comply with all acreage allotments to get price supports, and farmers with more than 10 diverted acres must hold their crops within a 'total acreage allotment.'

"For 1955, with few exceptions, diverted acres cannot be planted in other cash crops. In general they can only be put to such uses as pasture, hay, cover crops, green manure crops, summer fallow, or be left idle.

"If farmers choose to comply in order to get price supports, there may be 35 million acres diverted out of high income crops. These will include some of the nation's lands.

"It will tend to slow down the expansion of the total economy. That is why you as leaders, gathered from 47 states, share the concern about this growing problem.

"There will be less profits for farmers.

"All those who sell to, or serve farmers, will transact less business—sell less farm machinery, fertilizers, chemicals, gas and oil, and all other supplies and services that are required to keep farms in full production.

"There will be less for labor to do—less crop work, harvesting, processing, transportation, storage and sales.

"To the extent farm production is cut back and restricted — it tends to weaken the consumer demand and national prosperity on which profitable farm markets depend.

"Agriculture should be making its full contribution to the future national welfare. Farmers are

greatly dependent upon full employment, and a vigorous, productive and prosperous America. The degree to which we have such is to no small extent dependent upon the rate at which farms produce."

If these observations on the part of Mr. Morse are correct, it would seem that everyone is going to get along fine except the farmer and those who trade with him, which includes everybody in the United States. Frankly, I find it most difficult to understand how the best interests of this country will be served by doing the injury to each individual's economy. Of course, I am using the old-fashioned method of viewing the situation strictly from the standpoint of this country and the people who make it up.

Perhaps if I took into account the three and one-half billion dollars that has been proposed as foreign aid this year and the peoples who will be benefited thereby, my understanding might be cleared up. However, I do not intend to use any such crazy formula. If you want to know why a farmer's children do not have shoes on their feet, it is not necessary to burden your brain with a long, complex international - domestic formula. All you have to do is to ask the farmer. If the farm economy of this country is allowed to sag, you won't need to ask some statistician what happened to the little businessmen and the small towns and communities, and then the wholesalers and the larger towns and the cities. Just ask the farmer.

PRESIDENT'S SPEECH TO NEA

Deskins Wells and his lovely wife, of Wellington, took me and my lovely wife, Jean, to the NEA luncheon at which President Eisenhower spoke. We had a wonderful time. The President's speech covered a lot of territory. The one remark that received loud applause was his statement that "give-away" programs were going to stop. I hope he meant this, both in this country and abroad. The difference between a domestic and a foreign give-away program is about 10 percent. Many of the people here want you to sell them government property at 10 cents on the dollar. The foreign folks are willing to do the same thing, but you have to give them the 10 cents. These dimes add up, as is evidenced by the foreign aid bill, which we are now debating, involving the three and one-half billion dollars mentioned above. Try

Letter To The Editor

To the date of this letter there is no memorial to the War Dead. I have recently visited the Prisoner of War Cemetery and noted the possibilities of an excellent Memorial. Mr. Travis Caraway has taken some excellent pictures. A large tombstone placed in the center and a chain surrounding the area is all that would be needed.

It is a historic spot and I am certain the men that had been stationed at the camp would like to see it. I came 1,500 miles and made it one of my stopping places. I trust you will print this letter for the benefit of your civic minded citizens. A town this size should have a monument to the War Dead. It would be very inexpensive and you can see the historic value of the location.

Sincerely, Arthur Housley, Hayward, California

At The Movies

RED GARTERS

Showing Friday and Saturday at the Star Theatre, starring Rosemary Clooney, Guy Mitchell and Jack Carson.

With a whoop and a holler, right out of the old wild 'n' woolly West comes this musical which has something new, something different and something entirely bright and refreshing.

The story is told with new songs, thrilling dancing, amazing new use of Technicolor and those gorgeous "red garter girls."

All of the brand new tunes, 13 in all, were written by those fabulous tunesmiths, Ray Evans and Jay Livingston.

The film boils down the thousands of legends, historical reports, lusty novels and cowboy and Injun tales that have gone to make up the folk lore of the Old West to a single fanciful musical comedy.

Buckwheat Cakes

1 quart lukewarm water
1 cake compressed yeast
2 teaspoons salt
2 tablespoons sugar or molasses
2 cups buckwheat flour
2 cups sifted all purpose flour
6 tablespoons melted shortening
¼ teaspoon baking powder
Pour 1 cup of the water over yeast; let stand about 10 minutes. Dissolve salt, sweetening in remaining water; add dissolved yeast. Blend liquid mixture with flours. Add shortening; beat until smooth. Let rise until full of bubbles - about 1 hour. Dissolve soda in 2 tablespoons warm water; stir into batter. Grease griddle lightly

and heat. To test for proper heat sprinkle a few drops of water on the griddle lightly and heat. To test for proper heat sprinkle a few drops of water on the griddle. If bubbles "skitter around," heat is just right. Pour batter from tip of large spoon or from a pitcher. Turn pancakes as soon as they are puffed and full of bubbles but before they break. Beauty At Home

By Lynn Carter

Q. What is a good exercise for encouraging slimmer legs?

A. A stretching type of exercise. Sit flat on floor with legs apart and backs of knees close against floor. Then reach forward with the hands and grasp the toes firmly, pulling them gently toward you.

Q. What can I do about bad breath?

A. Halitosis usually originates in the mouth and can be prevented by regular tooth - brushing and frequent use of a mouthwash. See your dentist about tooth cavities if this doesn't help, and if he can't help you, see your doctor.

Q. How can I, through my shampoo, add fluffiness to my hair?

A. To one cup of liquid soap, add one-half teaspoon of soda. Apply the shampoo as usual, lather well, and rinse thoroughly.

Q. How can I make a chin strap to help correct my double chin?

A. Several thicknesses of gauze soaked in chilled witch hazel, and tied firmly around the face and under the chin. This helps—but the habit of carrying the head erect, chin up, is much better.

Q. What is a good astringent for use on an oily type of skin?

A. Buttermilk is very good. This also acts as a slight bleach.

Q. How can I give a good external treatment to pimples that pop up occasionally on my face?

A. One often - beneficial treatment is a handful of starch in the morning bath, and a thick paste of starch spread on at night before retiring.

Q. What is a good, safe skin bleach and softener I can mix myself?

A. One tablespoon peroxide mixed with one of milk. Sponge face with this lotion for several days, dipped into milk.

Q. How can I induce more glossiness and sheen in my hair?
A. The best way to do this is to give your hair a brisk towel-rubbing after each shampoo, and then spend at least 10 or 15 minutes giving it a good, vigorous brushing.

Q. How can I keep my eyes bright - looking and sparkling?
A. Give the eyes regular baths with an eye cup and a weak solution of boric acid. Or, put pads of cotton soaked in witch hazel over them, and lie down for several minutes.

Seventh Day Adventist

Third and Lawton
J. L. Jesperson, pastor
Sabbath School is at 9:45 o'clock and morning worship services are at 11 o'clock. The new sermon for the quarter will be "Doctrines That Teach of Christ," lesson for July 3 is "How to Know What to Believe." Memory Verse: Titus 2:1. Study Help: "The Great Controversy," pages 518-550. Lesson Texts: 2 John 7:9; 2 Timothy 3:16, 17; 4:6.

This is the original copy of the "Declaration of Independence"... Would you frame it with gold, or silver, or with precious diamonds? Certainly a more appropriate frame would be one carved from Mothers' hearts who have gone to the brink of death to give us new lives to defend the doctored of this masterpiece. "We hold these truths to be self-evident that all men are created equal." May we ever be mindful of just what July 4th means.

TO GIVE US POWER FOR LIVING AND TO COMBAT ATHEISTICISMS WE NEED GREATER CHURCHES AND A GREATER FAITH

Most kids would yell their heads off if you skipped their birthday, or waited six months to have the party—but not Sally Whiteside, 10-year-old daughter of Mr. and Mrs. Carroll Whiteside, Tuesday, in fact, was the first real birthday party which the little lady ever enjoyed.

It happens that Sally's birthday falls on December 28, just three days after Christmas. As to be expected, old Santa Claus always got mixed up in the birthday business to the point where Sally failed to realize the greatest possible benefits. Even birthday cake doesn't taste too good immediately following the usual holiday eating spree. This fall Mrs. Whiteside was reading in "Life" magazine some features on other folks who had the same problem. Quite a few of these celebrities, the article said, waited a flat six months before they observed the occasion. Sally heard her mother comment on the article—and was all for the idea. She insisted on starting the practice immediately, so the family decided to give it a whirl.

Things worked out fine. Sally's December 28 birthday was "put on ice" until June 28. Her friends gathered for the occasion and instead of sneezes and sniffles in a stuffy room, the group romped and played in the park. Sally dearly loves her belated presents but, most important of all, she says this is the first time her own birthday cake ever really tasted good. "It was swell," says Sally, who plans to follow the procedure from year to year.

Thank you. Thank you. To all of the nice people who have complained about the absence of The Bull Column for an issue or two. This is one criticism I always appreciate. It's wonderful to be missed. However, I do have a good

excuse. Bob Phillips has been on vacation and I was busy doing the news. Somehow, or other, I just cannot do "Around Town" and the "Bull Column" in the same paper. I always run out of soap. Some people can do both, but not me. Jim Lipscomb says I just got mad because the column was second instead of first in the Texas Press awards. This is not true, I admit I would have liked to have been first. Besides, I hate to be beaten by a woman—but I am going to keep right on plugging away. All I have to say is that this gal must be, really good.

Tell you what, next time I am leaving town—or get lazier than usual—I will reprint one of her columns in this spot. You'll like it. She writes little poems sometimes, and is very good.

Had a nice note from Mrs. R. A. Frye of Dawn saying thanks for the A-P Cook Book supplement this week. Several other ladies have called in to express appreciation for the tabloid edition.

Also quite a commercial sounding card from the Drowsy Water Ranch folks at Granby, Colo. It seems that they read about my camping expedition into the wilds—our blow-outs and all—so they put in a plug for their own accommodations. They wrote: "If you had vacationed here, you wouldn't have had to sleep on rocks and could have fished all day with the rest of us." It was signed by the Cecil Malones and the Tom Howards.

I don't have an answer. Not one single word. I am going to treat them just like I treat those old-fashioned stories my wife is telling all around town. She has gone to some trouble to count up the cost of groceries, building the trailer,

buying four new tires, then adding in a few other odds and ends in the way of expenses. She always concludes her arithmetic by the statement, "I keep telling Jimmie next time why don't he go to the Broadmoor Hotel? It would sure be a lot cheaper."

Nearly everywhere you turn, people are talking about the fact that D. C. Kinsey and Bernard Robertson sold the Chevrolet - Oldsmobile agency. Kinsey came here 12 years ago last February, succeeding G. W. Brumley and Louis Woodford—and has been in the same agency for all of that time. Bernard went in about a year ago. The business has grown by leaps and bounds under Kinsey's management. I don't know how many cars they have sold, but it sure would be a lot. In addition, Kinsey is one of the few automobile dealers I know whose competitors have a good word for him. Most of them do.

"No, it wasn't my health," says Kins. "I don't know why I sold out—except it just seemed like the thing to do." However, there is one bright lining to the cloud. Both the Kinseys and the Robertson plan to keep right on making their home in Hereford. "You couldn't blast us out with dynamite," says Kinsey. "We like it here, I'll probably get into something else."

He also hosted Buddy Teague and Clyde Truly to the skies as "our kind of folks." Both are from Brownfield. Teague was connected there with Chevrolet and Truly with Ford until recently. It's a case of ex-competitors merging in a new field. They bought the building, along with the inventory and business, and will operate as "Truly - Teague Chevrolet." Both families are highly recommended. The deal is all closed, except factory approval, which will probably come through before this paper hits the street. The sale will be effective July 1, pending the final approval.

Pete Cowart was in this week to report that things are progressing right along at Palo Duro Canyon. "However, I wish more people would come over from Hereford," says Pete. "They wouldn't leave beer cans around for us to gather up." Despite the illegality of carrying beer onto the state grounds, it seems that someone oc-

Mask, Murdock Will Team Up Here Saturday

That "hard headed" brute known only as The Mask returns to Hereford's Bull Barn wrestling ring Saturday night with a new partner for another tag team main event. A new partner, that is, for The Mask, but he's nobody new in these parts. That's Frankie Hill Murdock of Waxahachie, one of the trickiest, slyest, most murderous of all the "evil" wrestlers. Always looking for a good thing, Murdock suggested he and The Mask could make plenty of trouble for any other twosome in the business.

But the Waxahachie farmer and the South African something or other may have their hands full Saturday night. Cowboy Carlson of Ekalaka, Mont., and veteran Billy Weidner, former Boston Strong Boy, have a lot of nip in their repertoires, too.

They go for two best falls of three or to a one-hour time limit. The hooded man and his partner of last Saturday night, bearded Elmer "Peavey" Larsen, could do no better than draw with two of the Detton brothers, Dory and Glen, in the main event. Each side had one tall and time ran out before a deciding pin could be slapped on by either team. All four men admit-

ted to having been quite thoroughly "shaken up" by the fast-moving melee.

The boys will earn their money at Hereford Saturday night, also build up for the main event, by competing in two one-fall preliminaries.

In the opener, Murdock goes against tough Billy Weidner, while Carlson resumes a bloody rivalry with The Mask in the second match. Each is for one fall or 15 minutes, and fans may be assured that they'll come back for the main go—if they're able—with plenty to settle.

casional slips in a can or so. Such is also the complaint of operators at Buffalo Lake.

Jim Roberts and Bill Hromas are as proud as peacocks of the new 20-foot addition on the back of the Hereford Furniture Store. Bill owns the building and Jim is the tenant. Jim put only "white appliances" in the annex, which is most attractive.

And speaking of peacocks, have you seen the pair which Carl McCaslin has on display at his lumber yard? These peacocks are Carl's pride and joy. Carl says he never saw one before. He imported them from Bovina, or somewhere in that neck of the woods. He also says that they are his "advertising program for the rest of 1954"—and will replace his Brand ads. Be sure to go by and take a look at them twice a week, in that case, because I know you would see them if they were ads in The Brand.

It looks as if I owe Loyd Lovel an apology and a cup of coffee. The apology is for getting him confused with his boss, Leo Forrest, and the coffee is for the nice things he said about The Brand. Loyd was riding from the Fort Worth airport with the Port Neches publisher, Red Wilkerson, and he must have "laid it on thick." Red was telling me that he visited with "my REA man," so it was excusable that I thought he was talking about Leo. Anyway, Loyd, I am ready to buy the coffee when you come around.

I am sure that it has no connection, but some of my favorite people are also the best cooks I know. Jane Dameron, back from Austin for the summer, contributed a cherry pie recently—and it was super. Mrs. Dameron occupies herself with yard work these days and likes it immensely. Chiefly, I think, because people see her out working and stop to chat. Like most Plains people, Jane likes nothing better than a bit of conversation. Me, too, unless it is cherry pie. Anyway, it is swell to have her back in town.

Voting time is just around the corner. The ballots are being printed and absentee voting is scheduled to begin July 4 which, in this case, means July 6—since the 1st comes on Sunday and the 5th will be observed as a holiday.

Going-Away Coffee Honors Mrs. Barker

Mrs. Dennis Barker of Hereford was honored with a going away coffee in the home of Mrs. Pat Robinson in the Northwest Hereford Community June 21.

The Barkers are moving to Amarillo the last of the week, where they plan to make their home. Gifts of linen were presented to the honoree by the following women: Mrs. Ira Scott, Mrs. R. A. Daniels Jr., Mrs. W. H. Patton, Mrs. R. N. Yarbrough, Mrs. E. R. Kendall, Mrs. Leroy Price, Mrs. Bobby Owens, Mrs. Loyd Sharp, Mrs. Willie Daniels, Mrs. Mont Baker, Mrs. J. T. Richardson and the hostess.
