Work On Bleachers Waiting Arrival Of Seat Lumber

Work on the new bleachers for Hereford High School's new football field has reached a temporary stopping point while the contractor waits for lumber for the seats to arrive, according to assistant principal Pat Sullivan.

"All of the steel frame work is up on the west side, which will be the home side of the field. The bleachers and press box have already been moved from the old field and put up on the east side of the field," Sullivan said.

Posts Set
Posts have been set for the new fence, which will be the same type of fencing as that which was around the former football field and bleachers south of the present location.

Two of the brick columns which guarded the old entrance were moved last week under the direction of Bill Stanford, vocational agriculture teacher, "without losing a brick." The rest of the work of moving the entrance gates will

have to wait until Stanford returns from summer camp in about two weeks.

Poles To Be Moved
Moving of the poles and lines for the electric lights is expected to take place some time in the next two weeks Sullivan said, which will about clear the ground for the site of the new Senior High School building.

Bids on the new school building are scheduled to be opened in the high school auditorium at 3 o'clock Wednesday afternoon.

Under present plans for construction of the building, the school shop building will go up first, and will be used as temporary class rooms for the sixth grade.

When the entire building is completed, the present Senior High will become the Junior High building, and Junior High will be put to other uses, though probably not for class rooms, unless there is a pressing need for them.

Jail Sentence And Fine Given To Bootlegger

Jose Salinas, who was charged with selling intoxicating liquors in a dry territory has been given a 60 day jail sentence and fined \$100 and costs by County Judge Horace Schloss.

In a Friday morning trial, Salinas waived a jury and informed the court, through his counsel, Wayne Bagley of Canyon, that he wished to be tried before the court.

An inspector from the Texas Liquor Control Board was called as a witness by County Attorney Ed Line, who represented the state in the case.

Jury Commissions Choose Panels For County And District

Two jury commissions met last week to select jury panels for county and district court, and to name a grand jury panel.

The county court jury commission reported in Judge Horace Schloss' court Monday to select petit jurors for county court for the last six months of this year.

Twelve jury panels of 20 men each were selected by the commission, which was composed of E. J. Kirksey, J. R. Allison and C. L. Bogle.

Thursday the district court jury commission reported in Judge Harry Schultz court, and selected three petit jury lists of 20 names each, and one grand jury list containing six names.

Members of the commission were H. A. Close, D. C. Kinsey and Ernest May. Their jury lists were made up for the August term of district court.

Mr. and Mrs. J. S. Tucker of Albuquerque, N. M., have returned to their home after a brief visit here with their daughter, Mrs. S. S. Dodson, and Mr. Dodson. The couple stopped here enroute home from Shawnee, Okla., where they had been visiting relatives.

Minor Damage Is Done In Train-Car Accident Thursday

Minor damage was done to an automobile involved in a train-car collision at the Whittier Street crossing about 8:35 o'clock Thursday night.

A Santa Fe freight train was going east on the passing track when it collided with a 1953 Chevrolet driven by Patricia Griffin, 14, a Louisiana resident, who was watching another train on the main track and failed to see the freight.

The freight engine hit the grill of the Chevrolet. Damage was estimated at about \$40 to the Chevrolet. Miss Griffin was charged with driving without an operator's license.

AN OIL-BURNING STOVE SET FIRE TO A TENT next to these barns late Friday afternoon when the tent was blown over by high winds out of the southeast. Losses included about 10,000 sacks, a small quantity of grain, about 5,000 or 6,000 bales of straw, four granaries, and a barn. Renfro, his workers and neighbors saved a cow shed, primarily

by carrying water in buckets and tubs and dousing the burning parts of the building. Renfro praised the speed with which the Hereford Fire Department arrived at the scene after they were called. The burning straw stack is obscured by the smoke in this picture. (Staff Photo.)

Granaries And Straw Lost On Renfro Farm

Fire which started when a tent collapsed on an oil-burning stove destroyed two barns, about 10,000 sacks, and between 5,000 and 6,000 bales of wheat straw on the Jack Renfro farm at Westway late Friday afternoon.

Renfro, his workers and neighbors saved a cattle shed which was adjacent to the burned buildings, though.

"A strong southeast wind blew the tent over about 5 o'clock," Renfro said. "The people got out of the tent all right, but sparks

carried into the granary, where sacks were stored. The loss included about 5,000 potato bags, and the same number of onion bags."

People In Barns
"There were people living in the barn and the other buildings, so our first job was to get them out, as most of the adults were in the field, and the children didn't know what to do."

Four granaries which were built into one building, and a small amount of grain, went up in the blaze.

Workers and neighbors carried water in tubs and buckets from a big stock tank to help put out the fire around the cow shed or it would have been lost like the other buildings, Renfro said.

Fire Department Praised
"Renfro praised the speed with which the Hereford Fire Department trucks and volunteers arrived at the scene after they were called, and the work they did in quelling the blaze. The firemen said a hose from the stock tank to the fire for their water supply.

Renfro said that 10 or 15 volunteer firemen arrived at the scene and helped fight the blaze.

The wheat straw was being used as cattle feed, and the loss was quite a blow to Renfro. He said that the wheat straw is eight per cent protein, and he considers it as excellent feed.

After the first work of fighting the fire away from the cow shed was done with buckets, Renfro was able to bring a cattle sprayer into use to help confine the blaze.

Around Town

A frozen foods demonstration will be held next Thursday afternoon at 2:30 o'clock in the REA kitchen. Everyone is invited to come out and see the advantages which accrue from the use of a home freezer.

The city commission has given water superintendent Onias Carroll the go-ahead signal to trade one of the 30 horsepower electric motors the city has for a 50 horsepower unit, and the changing of impeller units in a booster pump to increase the pump pressure. The unit will then be used in the McKinley Street station, where there is more water than the present booster power can make use of. Saving on the project will be about \$1,000, considering the cost of a new pump and motor.

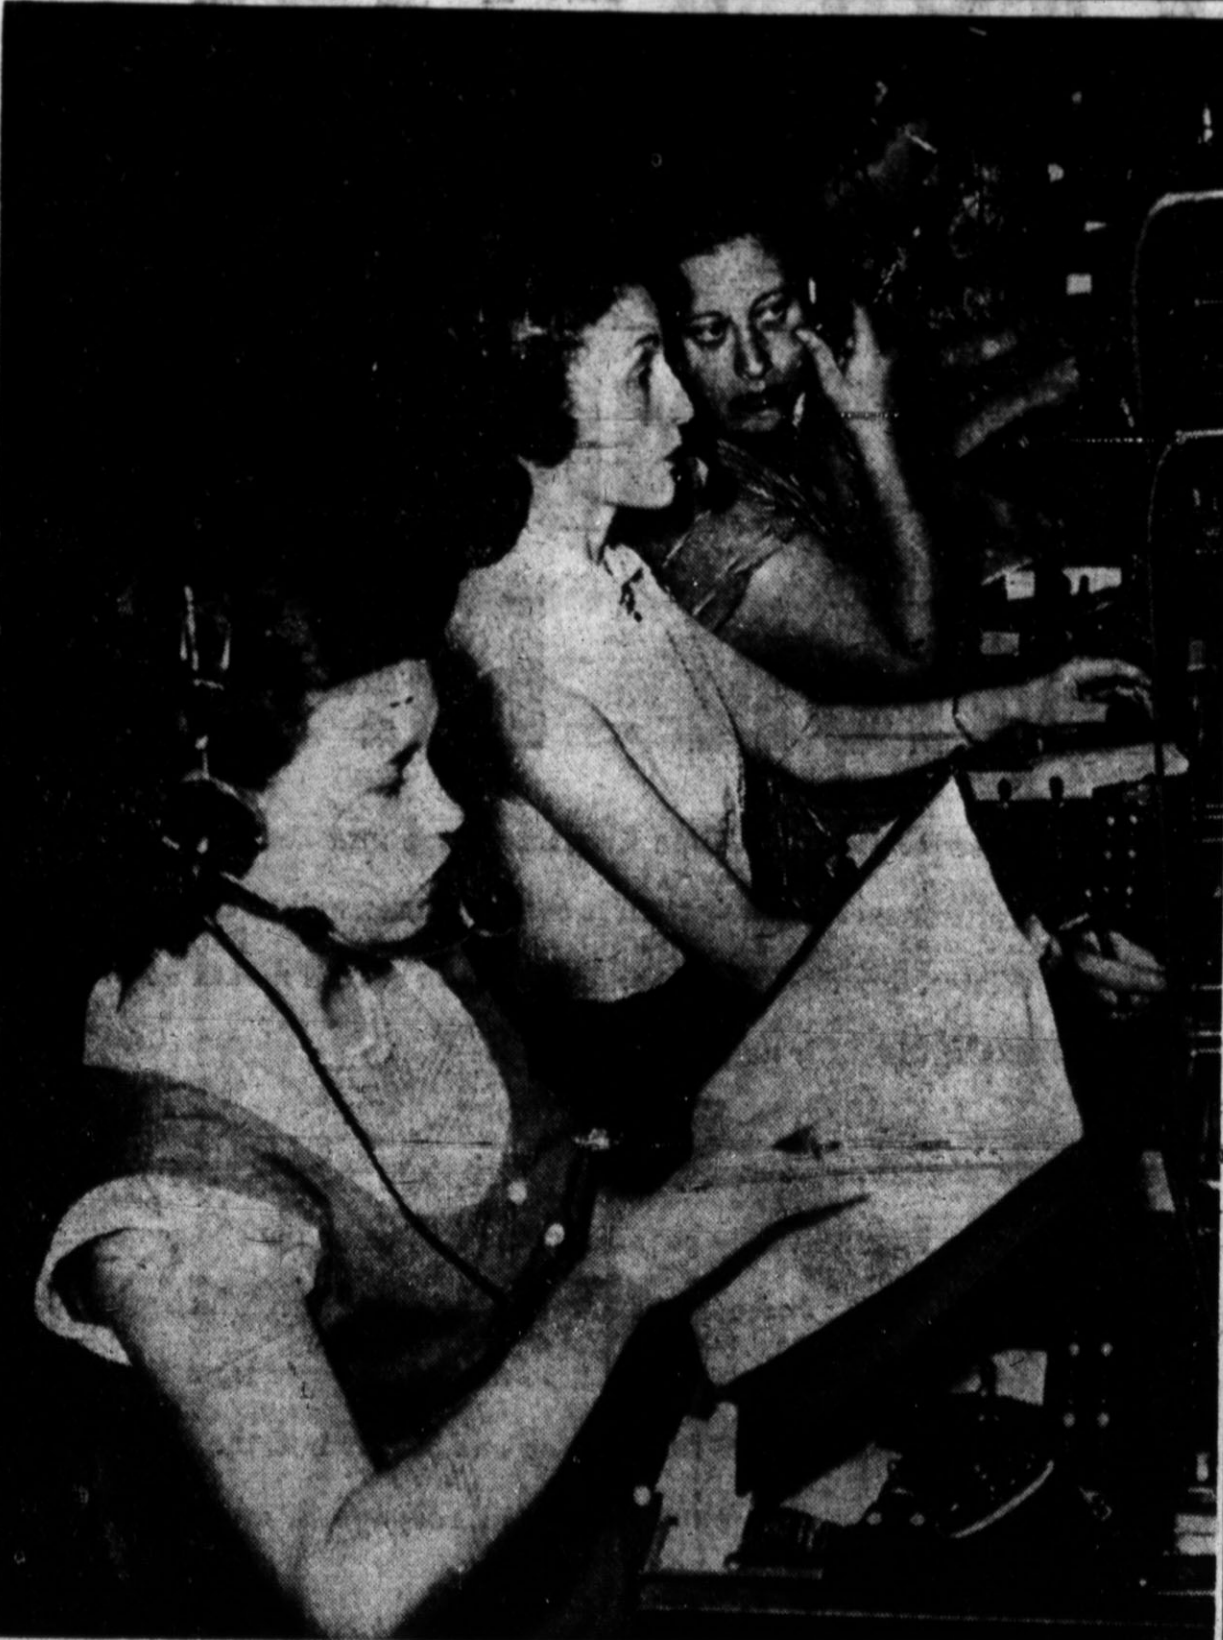

Bids for laying water lines for the Westhaven Addition are to be advertised for in the immediate future, the commissioners agreed Friday night. Several homes are well underway out there, and prospective occupants are getting a little worried.

That movie man is thinking up all kinds of things these days. Monday any number of combinations which make 13 will get the driver of a car into the Tower Drive-In Theatre, and he is planning to have "flying saucers" later in the week.

Bill Stanford, vocational Agriculture teacher in Hereford High school, will leave today for Fort Sam Houston, where he will attend an ordinance school for two weeks. Stanford is a captain in the Army Reserve.

Leon Jones opened a typewriter and adding sales and service shop Monday at 513 Park Avenue. Jones has been in the typewriter business for 10 years. He received his training from Remington Rand in Dallas. A gift shop is included in the shop.

TELEPHONE OPERATORS were just about swamped Thursday morning when the Co-op exchanges at Dawn Frio and Westway cut in on a toll basis only. It was necessary to put three extra operators on duty to keep up with the small flood of calls. The same situation was still going on, to a large extent, through Friday, the chief operator reported. Morning seemed to be the busiest time, with calls slacking off some during the afternoon. On

Thursday, there were 50 calls completed from Westway to Hereford, and 24 completed from Hereford to Westway. On the other exchanges, there were 30 completed from Frio, and five to Frio; 45 from Dawn, and 14 to Dawn. Operators shown are, from left, Donna Sue Gooch, Mrs. Alma Wallace, Betty Youngblood, and June Shulk. Mrs. Marie Sears is chief operator. (Staff Photo.)

Ava Sue Hopson Dies Of Burns In South Dakota

Ava Sue Hopson, 3, daughter of Mr. and Mrs. A. L. (Bud) Hopson, former Deaf Smith county residents now living in Faith, S. D., was fatally burned Wednesday morning, and died four hours later in the hospital at Sturgis.

Hopson, accompanied by Ava Sue, had gone to the Don Webb farm near Faith to see about the wheat crop. While there, Ava Sue and the Webb's two small sons began playing with matches.

Dress Caught Fire
The back of Ava Sue's dress caught fire, but was extinguished before she was seriously injured, they thought. She was taken to the hospital in Sturgis, where she died that evening.

Funeral services were held in Sturgis, S. D. Saturday morning at 10 o'clock with Bob Weare, pastor of the Hereford Church of Christ, officiating. Weare, accompanied by Elvin Wilson of the Westway community, flew to South Dakota Thursday afternoon.

Mr. and Mrs. Wilson recently returned from Faith, where Mrs. Wilson helped take care of Ava Sue while Hopson was in a hospital at Rapid City after having undergone surgery for stomach trouble.

Survivors
Besides her parents, Ava Sue is

survived by one brother, Jerry Ray, who is in the service; a sister, Vickie; her grandparents, Mr. and Mrs. Grady Wilson, former Hereford residents now living in Faith, S. D.; and Mr. and Mrs. N. C. Hopson of Hobart, Okla.; and several relatives who live in Hereford.

TEC Farm Placement Man Is Assigned To Hereford

Placement of farm labor in Deaf Smith County should take an immediate turn for the better. A representative of the Farm Placement section, Texas Employment Commission, has set up "headquarters" in Hereford to get farm workers, and those who are needing workers, together.

"For the present, I am going to be operating near the intersection of Highway 60 and 51," Clifford P. Mills, who has been assigned here, said. "Later on I will be able to announce an exact location."

Farm Boy Emblem
"My car is a black, 1949 Ford sedan," he continued. "Just look for the farm boy emblem on the glass and in the back of the car." Local people and migratory workers who do farm work should contact him, Mills said, and farmers should also see him to tell what their labor needs are.

His first job will be to line up local citizen labor for jobs, after which his responsibility will be to help citizen labor from drought stricken areas to the south find employment in this area, if there is any work available.

Mills handles this type of work on a seasonal basis, starting out of Dallas in May, and getting back there about the middle of November. The rest of the year he works in the Dallas office.

Two Trips Planned By Hereford Riders

The Hereford Riders club had their monthly business meeting at the Riding Arena Thursday night. Members of the club will go to Tulla July 17 to march in a parade there at 10 o'clock Friday morning. On August 7 they will attend the Cochran County Sheriff's Posse parade and rodeo at Morton.

The members voted to have a host couple for each Tuesday night when they meet at the Riding Arena at 8 o'clock. The hosts will plan the activities for the evening. The hosts for Tuesday's meeting will be Mr. and Mrs. Ralph Sears.

Presbyterian Youngsters Going to Ceta Glen Camp
Five Hereford boys and girls will leave this afternoon for the Presbyterian Junior High Conference at Ceta Glen. The conference will last through Saturday. Junior High consists of the young people in the 7th, 8th, and 9th grades, of the First Presbyterian church.

Those planning to attend are: Donna Woodell, Dorothy Daniel, Linda Smith, Carla Sue and Dean Crosthwait.

Board Members Are Selected By County Red Cross

Three board directors were elected at the annual Deaf Smith County Chapter of the American Red Cross Friday evening when the group met in the District Courtroom.

Directors that were elected were Mrs. C. Ora Cockrell, Mrs. Dyalthis Brady and Bill Deardoff.

Mrs. Williams Presided
Mrs. Reed Williams, chapter chairman, presided at the meeting.

Financial reports were given, after which Fred Baird presented service button awards to:

Mr. and Mrs. Harold Close for over ten years of service in Red Cross. Mrs. Close is home service chairman and Close is first aid chairman.

Mr. and Mrs. Marlin Gilliland, Mrs. Gilliland is chairman of home nursing, and Gilliland is a First Aid instructor.

A. J. Schroeter received his pin for more than ten years of special service in Red Cross work.

Bruce Beene received a pin for having directed first aid classes in Hereford High school for the last two years.

Other Awards
Mrs. Tommy Hulsey taught first aid classes for two years and taught home nursing last year in Hereford High school.

J. C. Reese taught classes of first aid for a number of years. Those completing classes in Staff Aid in Red Cross work are Mrs. James Wood, Mrs. F. L. Wilhelm, and Mrs. Corrine Jennings.

There were 12 persons present for the meeting.

Bovina Woman's Funeral Will Be Held In Sanger

Funeral services for Mary Emma Hammonds, 84, of Bovina, will be held this afternoon (Sunday) at 3:30 o'clock at the First Baptist church in Sanger. She died Friday morning in her home in Bovina.

Burial will be in Sanger. Mary Hammonds was born March 14, 1869, in Arkansas. She moved to Parmer county in August 1918, from Grayson county.

Survivors include a number of nieces and nephews. Arrangements were made by Gilliland Funeral home.

Water Compact Proposed For Texas, New Mexico

AUSTIN — The Attorneys General of Texas and New Mexico have proposed that the two states pioneer interstate water conservation with an underground water compact regulating future wells along the border.

After a two day conference in Austin, Attorneys General Richard H. Robinson of New Mexico and John Ben Shepperd of Texas released a joint statement in which they advocated cooperative settlement of legal problems facing both states.

Background Discussed
The conference was primarily devoted to water problems. The pending suit by Texas against New Mexico over division between the States of water from the Rio Grande a potential suit by New Mexico against Texas over drilling of Texas water wells along the border, and the background of the Pecos River compact were discussed.

Shepperd and Robinson proposed that the underground water problem be settled by an Interstate Underground Water Compact in which the two states would agree on the spacing and capacity of border water wells drilled in the future.

Compact Being Drafted
Suggested by Shepperd, the proposed compact would be the first in history dealing with underground water of two states. Work will begin at once on the drafting of the compact.

The statement pointed out that the proposed compact would conserve critical underground water supplies and lead to fair and just settlement of the problem without a lawsuit.

The two state's attorneys also pledged that they would exhaust every possible means of mediation before filing any future lawsuit against each other, saying that they "recognize that litigation between the states is both lengthy and costly." They also stated that they will urge all state agencies which they represent to use the

Uniform Pursuit Act
They recommended that Texas adopt the Uniform Fresh Pursuit Act which would allow officers of other states to pursue criminals into Texas and arrest them here. New Mexico already has adopted the act.

Also recommended was a proposal that county and district attorneys and peace officers of the counties along the border hold an annual meeting to discuss mutual problems relating to law enforcement.

Don Bruhls Honored During Visit Here

Mrs. D. C. McWhorter was hostess at an informal coffee honoring Mrs. Don Bruhl of Llano who has been visiting friends here the past two weeks. Daisies were used in decorations for the entertaining rooms.

Those in attendance were Mesdames Clyde Cave, J. E. Kirby, L. B. Barnett, Wayne Evans, J. T. Gilbreath Jr., Jim Whelan, Elizabeth Wömie, Floyd Ross, W. L. Davis Jr., Emil Dettman, Les Combs, S. S. Mullins Is Made Secretary To Highway Group

G. E. Mullins, manager of the Deaf Smith County Chamber of Commerce, was named secretary for the Texas branch of U. S. National Highway 60 Association at a meeting of the board of directors Friday in Amarillo.

He succeeds Cecil Massey, who was relieved of the responsibilities because of his change of jobs.

Others From Hereford
Other men from Hereford at the meeting were Earl Phillips, presi-

dent, and Hugh Bookout, director.

The directors present at the meeting voted to recommend to the board of directors of the National Highway 60 Association consider naming U. S. Highway 60 as a memorial to William Randolph Hearst Sr., because of the Hearst Publications "Better Roads for America" program.

Memorial Wanted
If this suggestion is not acceptable to the national board, the Texas board of directors is requesting that some other great American be chosen and the highway named as a memorial to him.

A request from John McCarty that he be given permission to have "See Colorful Palo Duro Canyon" painted on the bottom of the signs was also approved by the board.

GRASS ROOTS

I am going to take a short vacation from the writing of this epistle. There are times during the year when my Swan Song from Journalism is quite welcome to me as well as to you, but to take time out for potato harvest can hardly be termed a vacation. Never the less we are going to start the processing Monday the 13th, and it is about time. As all of you are well aware the harvest was some two weeks late this year due to the May frost, but there is going to be a crop after all.

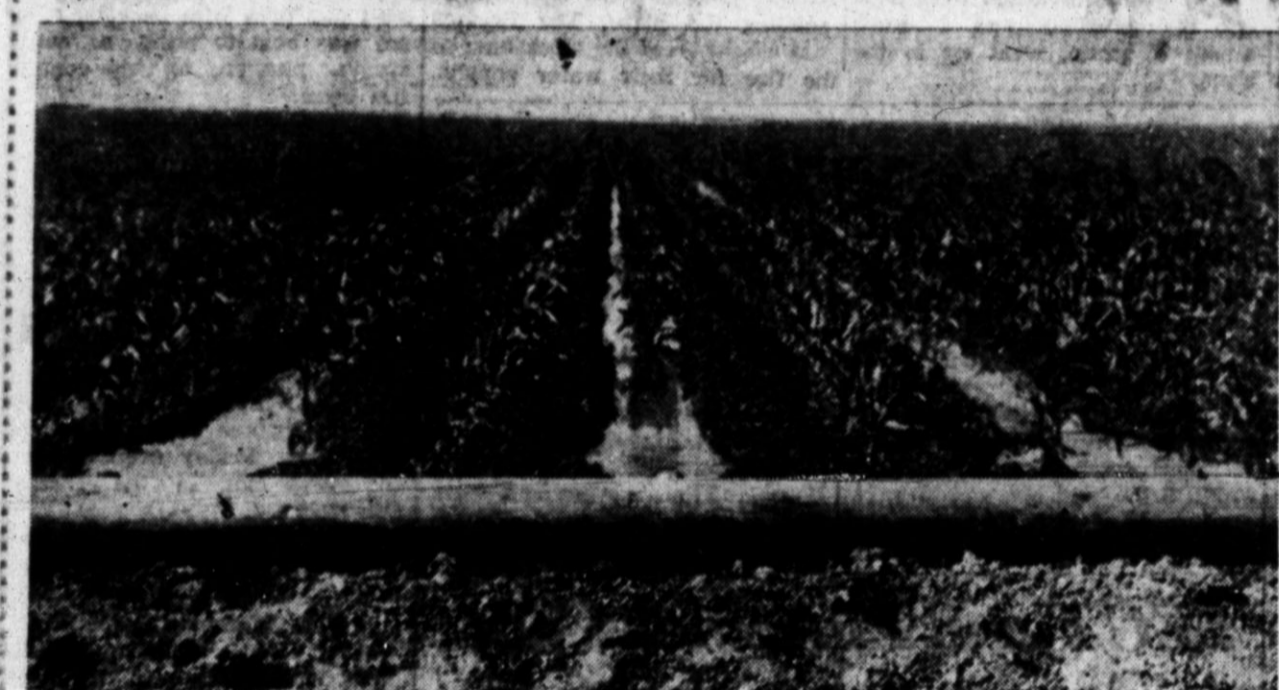

There is a possibility that I will get something or other said about Hairy Vetch before the season is over, but in case I don't I had better plug it a little now. For years there was quite a lot of talk about winter legume crops but it was very hard to get the program started due to the fact that all thought this land must be taken out of cash crop production. That is not true as has been proved here in the Hereford area. Hairy Vetch can be seeded into the grain sorghum prior to the last cultivation and be there ready to go to work when the crop comes off. This fine legume will give you cover crop for the winter, soil building and good grazing. There are many who have taken advantage of the use of Hairy Vetch and

their continued use of it is the best recommendation we have. Organic matter in the soil is the prime factor which regulates the ability of the soil to produce. Of course the elements Nitrogen and Phosphorous are essential to plant growth, but without an adequate supply of organic matter all of the Nitrogen and Phosphorous piled on the soil will do little good. By turning under an abundant growth in the spring of green matter such as Vetch the maximum results can be expected from water application, air intake, fertilizer efficiency and increase in yields.

Wonder who is going to come up with a fourteen point program next concerning the disaster area problem? I can well imagine that there is only one point needed and that is Help? Of course the wheels of government turn slowly, but just as surely as the areas that have the big floods get immediate assistance the areas designated as disaster areas due to the drought should have it just as fast. I would be foolish to assume that someone won't take advantage of this situation to bounce around on the political football field, but whatever the score is we can hope that all will share equally.

Scenes above and below were taken on the Roy Euler farm south of Summerfield. Two wells have been tied together, serving a total of around 4,500 feet of Under Ground Concrete Pipe network. First of the installation was made in 1951.

Top Photo was made looking south across the Row-King aluminum Pipe as water flowed uniformly over row crop.

Right Photo shows the pump stand which connects the well with pipe line.

BUD EULER, lower left photo, says: "One of the nicest things about the Concrete Pipe Irrigation system—other than labor and water saving—is the fact that you can plow across, drive over the installation days before it would be possible with ditches. Since we do not have

to wait for the ditches to dry out, we can get into the field shortly after watering and cultivate the crops when cultivation is needed most. In addition, we estimate a saving of from one-fourth to one-third on actual water used in making the crop."

UNDERGROUND CONCRETE IRRIGATION PIPE LINES

More than 2,000 Underground concrete Irrigation Pipe lines have been installed in West Texas since 1949. Underground concrete pipe is the PROVEN method of transporting irrigation water from the well to the crop. Concrete Pipe is installed under-the-ground, below the frost line. Winter, Summer, Spring or Fall . . . the season makes no difference. You can plow over it . . . farm across it and bring water to the row with no trouble at all.

EVAPORATION of water in open ditches is Tremendous on hot, windy days. Underground Concrete Pipe naturally pays for itself in savings over conventional methods. These pipes will deliver you water to any part of the farm: Uphill or Downhill, allowing you to more efficiently handle output from one pump—or to combine the flow from two or more pumps for improved efficiency.

We invite you to come by our office here in Hereford . . . we will be glad to take you out to see our systems in operation . . . and watch the ease with which our New "Row-King" Aluminum Pipe takes the water from the Underground CONCRETE PIPE Line and puts it into the rows. There is no water loss by evaporation, seepage, or otherwise.

Reports are that potato harvest will begin Wednesday. Mr. Neff of the Neff Company, harvesters and processors, said that the potatoes on the W. H. Long farm would be the first to be dug.

Fancy and Plain

Now, the NCAA says there is no violation of their TV restrictive ban after the Notre Dames have signed a contract to cover all their home football games, plus a number of their other athletic forays and for the next five years, inclusive. . . Last Wednesday, Milton N. Mound, president of the newly organized Box Office Television, Inc., announced that he had signed a five year contract with Notre Dame for the televising of a minimum number of home football games and other athletic contests.

Notre Dame Offerings

The Notre Dame offerings for 1953 are Pittsburg, Oct 17; Georgia Tech, Oct. 24; Navy, Oct. 31; Iowa, Nov. 21 and Southern Methodist Dec. 5. . . The SMU game is scheduled as one of the selected weekly telecasts on the NCAA home television program over NBC. Irish basketball games to be included in this term's contract include: (All are home games) Northwestern, Dec. 7; St. Louis, Jan. 11; Purdue, Jan. 19; De Paul, Feb. 15.

For Theatre TV

This new outfit caters to theatre television screen audiences and aver to have 110 theaters in 62 cities equipped to handle, the big

screen portrayal. Mound stated that the theater admission prices would be kept as low as economically possible, probably in the range of \$1.25 to \$1.50 for a full football game.

The basketball games likely will be shown as a part of the regular theater program. He also states that he hoped to be able to bring the stadium atmosphere into the theater. From this angle, he's asking for trouble on that atmosphere deal.

Particularly the stepped on feet, dented fenders, dented dispositions, traffic tickets and emanating hangunders, if he figures to inculcate them into the theater trick.

I think this one wee aperture is the initial chink in the NCAA's armor donned, in it's attempt, to control all activities of it's membership.

More Coming

There will be a succession of rips and rents appear as the schools put up a defense for the protection of their investments. For my pittance, the abolition of the platoon system was the first economy move and it was most deftly engineered.

However it will not save a lot of the smaller schools who will, I predict, have to abandon the sport this fall. This lone move will contract the payroll, or whatever you want to term it, more than

Two Tie For Third As Dawn Moves Into Lead

By Billy Paul Knox
The standings in the Hereford Softball League changed again Thursday night as Dawn took over undisputed possession of first and Summerfield tied for third. Summerfield defeated REA, 14-7, in the first with Dawn winning over Piggly Wiggly, 20-10, in the second game. REA came up with a new pitcher, Harral Dunnam who pitched a good game but had poor support. REA made eleven errors. Summerfield made two errors.

REA Led Off
REA led off with two runs in the first on a homer by Dunnam and two doubles by Carl Hennington and Bill Hampton. Summerfield scored three runs in the same inning on three singles and a double. REA committed three errors to help things a bit for Summerfield.

REA scored three times in the second on three singles and an error on the leftfielder. Summer-

field scored once in the second on no hits. Errors accounted for the run.
Joe Streun put REA down in order in the third while Summerfield scored three times. L. J. Clark unloaded a home run in this inning.
REA tallied once in the fourth on one hit. Summerfield couldn't score as Dunnam tightened up and pitched well.
REA Hitless
Joe Streun pitched well, too, with REA going down in order in the fifth. Two more runs crossed the plate for Summerfield in the fifth. They connected for a single and a double, REA making one error.
A triple and a single meant one run for REA in the sixth as Summerfield scored four runs on only one hit in the sixth. Three errors turned the trick.
Woody led off with a single for REA in the seventh but the next

three batters went down in order to end the game.
Dunnam Led REA
Dunnam did all right at the plate, too, collecting three hits, a single, a triple and a home run to lead REA hitters along with Carl Hennington, who also had three hits. L. J. Clark led Summerfield batters with three hits.
Summerfield is now one full game behind Dawn and one-half game behind Phillips 66 who are in second place. REA fell behind the Knights of Columbus with their loss.
Wild Slugfest
The second game started out to be a surprisingly good game but turned into a wild slugfest with Dawn winning, 20-10.
Piggly Wiggly was unable to score in the first as Dawn scored twice on one hit and three Piggly Wiggly errors.
Piggly Wiggly took the lead in the second when they scored four

runs on a triple, a double, a single, and two more errors, both on the second baseman. Dawn couldn't score.
It was Piggly Wiggly that could not score in the third while Dawn picked up two runs on one hit to tie the game.
Valiant Try
Trying valiantly to stay in the game, Piggly Wiggly scored once in the fourth on a single by Bybee and a triple by Tucker. Dawn scored four runs on no hits in the same inning. Piggly Wiggly committed three errors and Quattlebaum, the pitcher, walked two.
It was Piggly Wiggly again trying to stay in the game scoring three runs on two hits in the fifth. Quattlebaum homered with two on in this inning. Dawn scored one run on one hit and three wild pitches in the fifth.
Piggly Wiggly scored once in the sixth on one hit and an error. Score Knotted
The score knotted nine and nine going into the last of the sixth. Dawn iced it down for sure with eleven runs on only three hits.
Piggly Wiggly scored once in the seventh on a triple and a single.
Edd Lemons and Sluggo Stewart led Dawn hitters with two hits apiece. Charley Quattlebaum led Piggly Wiggly hitters with three hits.
Tuesday night Piggly Wiggly plays the Knights of Columbus in the first game and Phillips 66 plays REA in the second game.
Sunday afternoon Hereford's baseball team plays Tullia at Tullia in an Irrigation League game.

Mourning Doves Dislike Nesting Over Tall Grass

AUSTIN — Warden Tom Waddell of Eagle Lake has observed that mourning doves dislike to nest in trees under which tall grasses or weeds form dense ground cover.
He theorized in a report to the Director of Wildlife Restoration for the Game and Fish Commission, that the doves fear that their young will become entangled in the growth on leaving their nests and either perish or be caught by predators before they can learn to fly.
Colorado County where Waddell lives is noted for its heavy dove population.
Nests Close Together
He reported that a huiasche mott near Garwood alternates from bare ground to short Bermuda grass and that they find as many as fifty nests grouped close together.
Another mott with grass five to six inches tall has a few nests but still another mott in the same general area with grass and weeds up to two feet high has no nests.

Part of this area was shorn of its undergrowth by mowing and the doves began nesting there the very next day.
For best quality hay, mow red clover when it is in the one-third to one half bloom stage, say University of Nebraska agronomists. Later mowing will result in more hay but it won't be so good.

The danger from flying sparks originating either from chimneys or outdoor fires, can be minimized by protecting roofs with fire-resistant asphalt shingles.
Bathtubs with non-slip rugated bottoms are recently introduced safety equipment for the home.

List Of Metal Types For Airplanes Is Made

A recently-complied listing of the almost 2,000 different types and sizes of metals required for modern airframe production is expected to pave the way to "substantial savings" in aircraft costs.

The listing—part of the cost-reduction effort of the National Aircraft Standards Committee of the Aircraft Industries Association—is intended for use by aircraft metals warehouses.

Some 24,000 irrigation wells are now in use in the Plains area of Texas with an estimated 3,063,548 acres under irrigation.

Game Commission Will Protect Whooping Crane

AUSTIN — The cooperation of the entire field force of the Game and Fish Commission has been pledged to help save the Whooping Crane from extinction.

The Executive Secretary of the National Audubon Society that all facilities at the command of the Commission staff will be utilized to help hunters identify the majestic bird.

vance copy of an article for fall Audubon Magazine publication emphasizing the peril to the meager Whooper population now slumped to a thin 21 birds.

Texas In Lead
Texas assumes a leading role in the fight to save the giant birds

since they winter along the Texas Coast in the Arkansas National Wildlife Refuge.

The current issue of Texas Game and Fish magazine points up the whooper crisis in referring to hunters' mistaking them for game birds. Future issues will carry illustrated material to further assist in the grim conservation move.

LaPlata Club President Looks To Coming Year

Ed. Note—This is one of a series of articles being written about recently elected club presidents in Hereford.

When Mrs. S. S. Dodson took up her duties as president of LaPlata Study Club at the close of the 1952-53 club season, it was not her first experience at taking over responsibilities.

She has been interested in club work since her high school days when she belonged to the Thespian Literary Society and Speech Club. As the oldest of seven children she grew up on one responsibility after another, but they only added to an inner sense of happiness which permeates her personality.

Native of Oklahoma Mrs. Dodson is a native of Oklahoma, but grew up in Texas and New Mexico and came back to Texas to settle down when she married in the spring of 1934. When she was only four, her parents moved to the town of Old Ochiltree and lived there until 1919 when the Santa Fe Railroad built to the point where Perryton now stands. At that time the towns of Old Ochiltree and Gary picked up bodily and moved to the site of Perryton. Her father had helped build the railroad, and he moved with the town to Perryton.

When her parents moved to New Mexico, Mrs. Dodson was much disappointed in the state. The Indians weren't on the warpath and the cowboys didn't wear bright silk shirts. She attended high school in Gallup and graduated there.

On completion of a bookkeeping course at Albuquerque Business College, she went to work for the Bankers Reserve Life Insurance Company, continuing in this work

MRS. DAVID E. DAVENPORT

Miss Betty Jane Smith Weds David E. Davenport

In a garden setting of yellow and white flowers Sunday afternoon July 5 in the First Christian Church of Amarillo, Miss Betty Jane Smith, daughter of Mrs. Doll Smith, became the bride of David E. Davenport, son of Mrs. Iona S. Davenport of El Dorado, Kans.

The double ring ceremony was performed by the Rev. E. C. Ammerman, pastor of the First Christian Church of Amarillo. A reception was held in the church parlors after the ceremony.

White satin bows fastened with clusters of flowers to the ends of the pews along the main aisle of the church formed a lane down which the bridal party passed to the altar. Palms, baskets of gladioli and Mafconi daisies formed the altar background with wedding tapers in seven-branched candelabra illuminating the scene.

Traditional Music. Mrs. Leta Crudgington, organist, and Miss Virginia Owen provided wedding music. Mrs. Crudgington played a short prelude of nuptial music and Miss Owen sang "Because" (D'Hardelot). The traditional wedding marches were used recessionally and "Clair de Lune" was played softly as background for the ceremony.

Miss Sue Smith of Hereford was her sister's only attendant. She was dressed in white cotton taffeta made ballerina fashion with round neckline, and carried a bouquet of yellow pom-pom chrysanthemums on a yellow lace fan.

John S. Davenport of Eldorado, Kans., served his brother as best man. Ushers were Don Buchanan and Hal A. Wyrick of Amarillo.

Given By Uncle. Given in marriage by her uncle, Rayford Ricketts of Dumas, the bride wore a gown of white cotton taffeta made with fitted basque featuring a deep low neckline finished in scallops, and a bouffant, ballerina-length skirt. Her shoulder-length veil of net was attached to a starched lace half-hat embellished with rhinestones and daisies. She carried a white Bible on which rested a white lace fan holding a single white orchid showered with white satin streamers and stephanotis.

Both the bride and the bridegroom's mother wore navy sheer with matching accessories and both wore white gardenia corsages.

Reception Is Held

Following the wedding a reception was held in the church parlors. Betty Carnahan of Phoenix, Ariz., Johnnie De Armand, and Mary Louise Natho of Amarillo assisted at the bride's table, which was laid in yellow satin with a net overskirt caught in garland effect with nosegays of yellow rosebud and stephanotis. Appointments were in crystal with triple candelabra flanking the bride's bouquet for the centerpiece. The five tiered wedding confection was adorned with sugar-spun yellow rosebuds. Mrs. Joe Schuman of Dumas secured names for the bride's book.

Personals

Mr. and Mrs. Lee Conklin have returned from a two weeks trip to Spokane, Wash. While there they visited with a son, Capt. Merlin Conklin, who is stationed at the Fairchild Air Base, and his family, and welcomed a new grandson, David Lee Conklin. They also visited Mrs. Conklin's sister, Mrs. O. T. Steele and a brother, R. H. Green, who are both former Hereford residents.

Mr. and Mrs. Paul Mathers returned Wednesday from La Vegas, N. M., where they visited a former Hereford resident, Mrs. Charles Donald.

Jacqueline Newell of Amarillo was in Hereford last weekend to see her grandfather, J. O. Newell, who has been confined to Deaf Smith County hospital because of illness. Mr. Newell's daughter, Mrs. John Willoughby and Mr. Willoughby of Oklahoma City have also returned to their home after a visit here.

Dorothy Denton of San Angelo and Lewis Thames of Alamo, N. M., have been visiting in the homes of Mr. and Mrs. Leon Denton, Mr. and Mrs. Clyde Denton and Mr. and Mrs. Charlie Sowell.

Mrs. Joe Hall and children Danny and Kathryn of Santa Anna, Calif., have been visiting Mr. and Mrs. John Hall. Mrs. Hall is in Texas to see her husband, who is stationed at Ft. Bliss.

MRS. MONROE PARKER

Mrs. Monroe Parker Will Lead Hereford Auxiliary

Mrs. Monroe Parker was elected president of the American Legion Auxiliary at a meeting held Tuesday evening at the American Legion Hall.

Others who will serve as officers include: Mrs. Ray Watson, first vice-president; Mrs. Mabel Vaughn, second vice-president; Mrs. Troyce Hanna, secretary; Mrs. Maggie Childre, treasurer; Mrs. Jean Crowell, historian; Mrs. Louise Bogle, sergeant at arms; and Mrs. Bessie Sawley chaplain.

Nan Longbottom Reports. After the election of officers, Miss Nan Longbottom, sponsored by the Auxiliary at Girls State meeting in Austin recently, told of attending the meeting and something about its program.

Mrs. Parker moved to Hereford with her husband and two children from New Mexico in 1942. She joined the American Legion Auxiliary

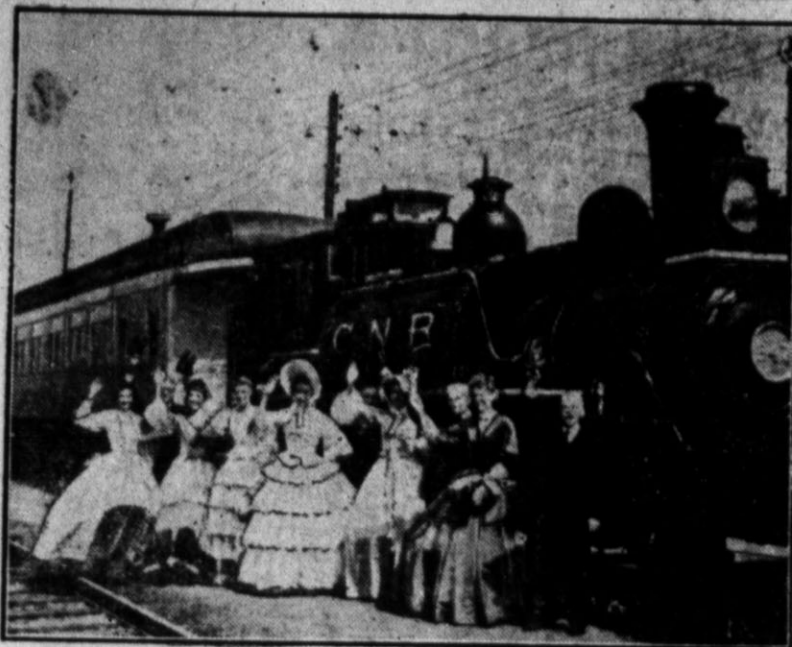

here and became interested in its activities. Last year she served the organization as secretary.

She believes the work of the auxiliary is very important, especially that with the families of veterans, and one of her major efforts will be toward encouraging "every member to be an active member." Sixty-seven members are now enrolled.

Auxiliary Meetings. The Auxiliary meets regularly the first Tuesday night in each month with a social meeting held each third Tuesday evening. Called sessions are held from time to time to carry out projects and other activities.

Besides Auxiliary work, Mrs. Parker takes active part in the program of the Church of Christ where she and her family hold church membership.

The World's Only Museum Train

Complete with three ancient engines, one a wood-burner; an early sleeping car, old diner and venerable coach along with three ancient baggage cars carrying more than 5,000 individual historical exhibits, the Canadian National Museum train is now touring Canada and will visit Portland, Mo., and other northern New England communities this summer.

Frozen Lemon Pie Makes Appetizing Summer Dish

People like to eat in the hot summertime just the same as any other time of the year. That old refrain "It's too hot to eat" never convinced any one, and when meal time comes around the only reaction to weather conditions is a desire for something appetizing and cool to eat.

salad or a refreshing frozen dessert are the touches that make summer meals appealing no matter how hot the weather. They are appreciated equally by the family and the guests who share your hospitality.

Mrs. Woodford's Way
Mrs. Louis Woodford makes a frozen lemon pie which can be good solution to the dessert problem during the summer months. She prepares it often for the family, and for guest occasions too. Here is the way she does it:

Frozen Lemon Pie
3 egg yolks, beaten well
¼ cup lemon juice
2 tablespoons grated lemon rind
1-8 teaspoon salt
½ cup plus 1 tablespoon sugar

Place all these ingredients in a double boiler and cook to thick custard. Set aside to cool.
Into the Freeze
Whip 3 egg whites stiff and add to cooled custard and then fold in one cup heavy cream, whipped. Roll enough vanilla wafers to make 3-4 cup and line bottom of pyrex dish with half of the rolled wafers. Pour in custard and cover with remaining vanilla wafer crumbs. Freeze in freezing unit of refrigerator at 7 on the freezing dial. When frozen turn refrigerator control back to 2 or normal.

(Note—When selecting the pyrex dish for the dessert, be sure to select one that will fit easily into your freezing unit.)

Aviation Begins Campaign To Cut Aircraft Noises

U.S. aviation has launched an all-inclusive community service campaign in an effort to reduce the sound of aircraft in airport communities.

The program—underway on the broadest scale of any such project in U. S. history—is sponsored by every segment of the industry, including manufacturers, airlines, airport operators, pilots, govern-

Honeymoon Trip
For the trip to Colorado, the bride donned a blue Pima cotton dress-trimmed in lace, a small white hat, and all white accessories. As a corsage she wore the orchid from the wedding bouquet.

Mrs. Davenport is a graduate of Hereford High School and attended the Dallas School of Floral Design. She was a member of Beta Sigma Phi and Kappa Sigma. She is employed in the bookkeeping department of Blackburn Brothers Clothiers, Amarillo.

Mr. Davenport is employed in the personnel department of Proctor and Gamble Defense Corporation in Amarillo. He graduated from the Eldorado, Kans., High School and received a B.S. degree from Kansas State College, Manhattan. He was a member of Kappa Sigma Fraternity while at the Kansas school. Davenport served with the U.S. Army in Japan, before moving to Amarillo. Will Live in Amarillo

The couple will make their home at 920 Bryan, Apt. 4, in Amarillo upon their return from the honeymoon trip.

Out-of-town guests attending the wedding included Mr. and Mrs. Joe Schuman, Dumas; Mrs. Louise LeGrand, Mrs. Ida Ricketts, Sharon Moore, Mrs. Doris Goldsborough, Ruby Barclay, Billye Smith, Linda West, Mr. and Mrs.

Important advances already have been made by adjusting traffic patterns, relocating training flights, revising operational procedures, changing ground run-up locations, and puffing ground tests of new engines. In addition, manufacturers and government researchers are investigating means of reducing engine sounds at their source.

Wide Cooperation
The national campaign undertaken slightly more than a year ago, has—according to Civil Aeronautics Administration—brought together "all elements of the industry that can make some contribution" toward sound abatement.

In the New York area—a hub of worldwide air activity, where sound abatement measures have a high priority because of the unequalled volume of air traffic and the high-density populations surrounding its airports—a special group, the National Air Transport Coordinating Committee, has been established to coordinate the wide scale sound reduction program.

A county commissioners' court may raise its own pay if other county officials are also raised. Such raise could not be retroactive to 1948.

August 15 was revealed on personalized napkins. The aqua lace cloth that covered the table completed the colors the bride-elect will use in her wedding.

Assisting in the house party were Miss Glenys Goldston, sister of the bride-to-be, Mrs. Fred Herold, Mrs. Kenneth Shotts and Mrs. John Fort.

Miss Goldston's Attendants
Miss Goldston has announced that her attendants will be Mrs. Robert Hess of Artesia, N. M., matron of honor; Mrs. Gerald Pinkston of Haskell, and Mrs. Gerald Wilson of Hereford. Dora Fern and Frances Goldston will light the candles.

Mr. Parker's attendants will be David Parker of Dallas, best man; James Burton and Arch Trull. Ushers will be John Fort of Dallas, and Phil Goldston of Hereford. David Goldston of Hereford, and W. B. Anders of Dallas will be soloists.

Hereford High School Graduate
Miss Goldston is a graduate of Hereford High School and of Mary Hardin-Baylor College, where she served as president of her graduating class. She was also president of Sigma Alpha Iota Music Fraternity, a member of Alpha Chi, national honorary scholastic fraternity, and of Historical Phila Literary Society.

Since her graduation she has been employed as youth director of the East Grand Baptist Church, Dallas, but at present is a receptionist in the offices of the United Texas Dry.

Mrs. Dodson served as bookkeeper for the Community Public Service Company in Perryton before moving to Hereford in 1948. She enjoys bookkeeping and keeps the books for the Hereford Glass Company, which the couple own and operate. She has been active in community and club work since making her home in Hereford and served as vice-president of LaPlata Study Club before being named to the presidency. For the past two years she has served as project chairman of International Relations Department of Seventh District, Texas Federation of Womens Clubs, and has accepted the Seventh district chairmanship of Pan-American Relations Department for the coming two years.

Enjoys Reading
Reading is Mrs. Dodson's favorite recreation, and she is looking forward to the club year with enthusiasm. She believes the course of study for the coming year, which will be built around "Women and their contribution to everyday living," will be of special interest to the members. Mrs. Leroy Aven is chairman of year books and Mesdames Wm. Krumben, Clint Formby and F. L. Alexander make up the committee.

For some time the LaPlata Club has held an annual "Hobby Show" and Mrs. Dodson is very much interested in that. Her hobby is collecting antiques, and she and her husband count among their chief treasurers some books that have been in the Dodson family well over 100 years. They also have first editions of which they are proud. They also have some fine old dishes, as well as some antique furniture.

Since coming to Hereford she has taken up ceramics, and her

chief delight is experimenting in glazes. Next to that comes the lace work and molding figurines. In 1950 she took a few lessons and after getting a kiln has worked out the rest by herself. China painting holds a great fascination for her and she hopes to take up some

china painting this fall. "Try as hard as I may, I remain completely allergic to a needle and thread" she said. "I've about decided that I'll never learn to sew."

Both Mr. and Mrs. Dodson are members of the Methodist Church.

Dawn Defeats H-H Team In Eight Inning Thriller

Dawn defeated Hereford Hardware, 12-11, in an eight inning thriller Tuesday night while Phillips 66 beat Summerfield 14-3.

Hereford Hardware, which was in first place, dropped to second with their defeat while Phillips 66 and Dawn, who were in a tie for second, remained tied, but this time for first.

Hutchinson On Mound
Summerfield went down in order in the first with Ned Hutchinson tolling for the first time on the mound, getting by them easily. In the same inning Phillips picked up

three runs on three hits, one walk, and one error. The inning was highlighted by a bases loaded triple by Larry Summers.

Summerfield scored one run in the second when Campbell tripled and scored when Bill Massie made a wild throw trying to get him at home. Phillips 66 scored twice in the second off single by Cummings and Burdine, a sacrifice bunt by Rex Lee, and another single by George Loerwald.

Summerfield scored once more in the third. Neil doubled and scored on single by Bill Lookingbill. Phillips was held scoreless in their half of the inning.

Scored Six Times
In the fourth Summerfield could not score while Phillips 66 had their biggest inning. They scored six times on but two hits, both of them singles. Three errors and one walk aided them.

Summerfield quickly matched this feat by scoring seven runs on only one hit in the top of the fifth. Phillips pitchers lost their control in a big way as they walked nine men. Summerfield sent 13 men to the platter in the big inning with the only hit being a single by Bill Lookingbill.

Phillips scored their last runs in the fifth when they scored three times, collecting three safeties and one walk.

Summerfield scored three times in the sixth on walks to L. J. Clark and Roy Botkins and singles by Jack Streun and Bill Lookingbill.

Down In Order
Summerfield went down in order in the top of the seventh and end the game. Ned Hutchinson is the winner. Joe Streun is the loser.

Rex Lee, Bub Sparks and Larry Summers each got two hits apiece to lead Phillips 66 batters. Lookingbill got three hits to lead Summerfield.

H.H. To Second
Hereford Hardware dropped to second with their loss while Dawn scored one run in the last of the seventh to tie it up then scored one more to win it in the eighth.

The first hitter, Shanks, lofted a high fly ball to deep right-field which Ray Stewart dropped with Shanks winding up on third. He later scored on a fly to center. He later scored on a fly to center. Dawn scored no runs in the last part of the inning.

Homer Brings Three
H-H scored thrice more in the second. Shanks accounted for the runs when he homered with two on. Dawn also scored three runs on two hits, three walks, and one error.

Both teams were scoreless in the third while H-H was scoreless in the fourth also.

Dawn went ahead when they scored three times in the fourth inning. They hit safely three times and drew one walk.

The lead changed hands again in the fifth when H-H tallied four

times on four hits. Dawn made three errors with centerfielder, Slugger Stewart, making all three of them. Dawn scored once in the fifth.

H-H picked up three more runs in the sixth on two singles, a walk and a double. Dawn came within one run of H-H in the sixth when Melvin May walked, Miller singled, and Iley Barton homered.

A Shut Out
Walt Lemons shut out H-H in the seventh and eighth innings. Dawn scored once in the seventh to cause the game to go into extra innings they tallied once in the eighth to win the game.

Stan Barret and Randy Thomas collected two hits apiece to lead H-H hitters while Jack Burrus and Iley Barton got four hits apiece for Dawn. Walt Lemons, who pitched the seventh and eighth innings is the winner. Dick Ross is the loser.

Tuesday night Summerfield will meet REA in the first game while Dawn and Piggly Wiggly play in the second game.

Antelope Prove High As Ration For Dogs

AUSTIN — Thriving antelope herds up in the Texas Panhandle are causing itchy trigger fingers with resultant penalties, according to the Director of Law Enforcement for the Game and Fish Commission.

He had particular reference to disclosure that two antelope, shot on the Matador Ranch in Motley County, brought a \$422 fine and costs against a Dickens County cotton gin operator.

Others Implicated
Warden W. V. Riddle of Lubbock who with Warden Cecil Fox of Spur handled the case, said others apparently were implicated but that the suspect said he wanted "to take the blame."

The gin manager was arrested after the wardens, armed with a search warrant, found two antelope heads and hides and four feet in the incinerator.

Riddle said the man was "pretty unhappy because of the heavy fine and because after all, the meat hadn't been any good and had been fed to his dogs."

In areas of the state where moisture conditions are favorable, home gardeners should be making plans now for the fall garden.

Area Still Expanding

"Hereford will, within the next five years, become the foremost vegetable shipping point in Texas."

Such was the prediction Wednesday of Austin Anson, secretary of the Texas Citrus and Vegetable Growers and Shippers Association, when he visited Hereford on a general inspection tour. Lending prestige to his prediction is the fact that Mr. Anson, a resident of Harlingen, Texas, is closely allied with the vegetable industry of the Rio Grande Valley and possibly possesses a better overall picture of vegetable possibilities in the southwest than any other individual in the world.

Mr. Anson, if you recall, made another prediction in Hereford five years ago. This was shortly after the growers and shippers of this area allied themselves with the state organization. Mr. Anson in 1948 predicted that within five years the growing of lettuce would revolutionize the area. Furthermore, his prediction proved correct. There remains today few, if any, people of the area who have not in some manner been affected by the introduction of lettuce as a money irrigation crop.

In addition, Mr. Anson says he believes the community has hardly scratched the surface in the potential offered through versatile Hereford soil, climate and irrigation water.

Today conditions are hardly ideal. Those who can recall the "dirty thirties", however, are the ones who most appreciate the prosperity and general conditions made

possible through underground irrigation. In addition to these things, seasonal distribution of Hereford produce is also a factor in favor of the community, since harvest generally appears at times when other produce areas are off the market. Add to this lower freight rates to national points and you have an excellent summary of the things which Mr. Anson is predicting.

Buyers from concerns of nationwide repute, including the U. S. armed services, are already beating a path to Hereford each year. They are finding the quality excellent in most cases -- and that was the only point where the area could have fallen short.

We agree with Mr. Anson in his predictions. In fact, we will even go a step farther. In addition to our present commodities of potatoes, lettuce, cabbage and carrots, we believe that such other produce as green beans, English peas, spinach, asparagus, beets -- maybe even celery -- will join the march of Hereford produce into the national marketing picture.

Telephone Charges

Putting rural telephone service on a toll basis into Hereford came, no doubt, as a disappointment and shock this week to the REA telephone subscribers. True enough, the measure was listed as temporary and recommended for use on an emergency basis only and, when considered from this angle, is possibly feasible and practical.

On the other hand, if continuation of rural telephone service should remain on a toll basis, it will unquestionably be doomed to failure. It takes the telephone out of the utility class and puts it in the position of being an expensive luxury.

Rural telephone directors are still working toward what they consider to be a fair service charge between different exchanges. Washington administrators are also working toward this same goal. Everything, in our opinion, hinges upon the outcome of these negotiations.

On a long-time basis, Southwestern Bell's proposed 70-cents per month charge on each telephone would be far better than the present placing of inter-area calls on an expensive toll basis. Final acceptance of such a proposal, however, would establish immediate increased monthly charges to rural telephone subscribers over an extensive period. If lower rates should be established in the next few months through the negotiations, the rural telephone users will likely be ahead by temporary use of the present toll program.

Which side is at fault, we cannot say. However, in case permanent operation should happen to remain on a toll basis it is easy to see that rural telephone service will never be an outstanding success. Meanwhile, operation as recommended by the directors seems to be the only manner of operation for the consumer in the rural areas -- and for the Hereford consumer who wishes to call on the REA lines. Certainly, it will not be the first time that progress has been delayed through greed, selfishness or lack of cooperation.

A Canyon citizen gives this advice: "If you don't like our country, move on. It has always rained in the Panhandle; there have always been dust storms; there have been occasional depressions--the same as other parts of the nation have had; there is plenty of room for forward looking citizens--but no room for the achers!"

THE CANYON NEWS.

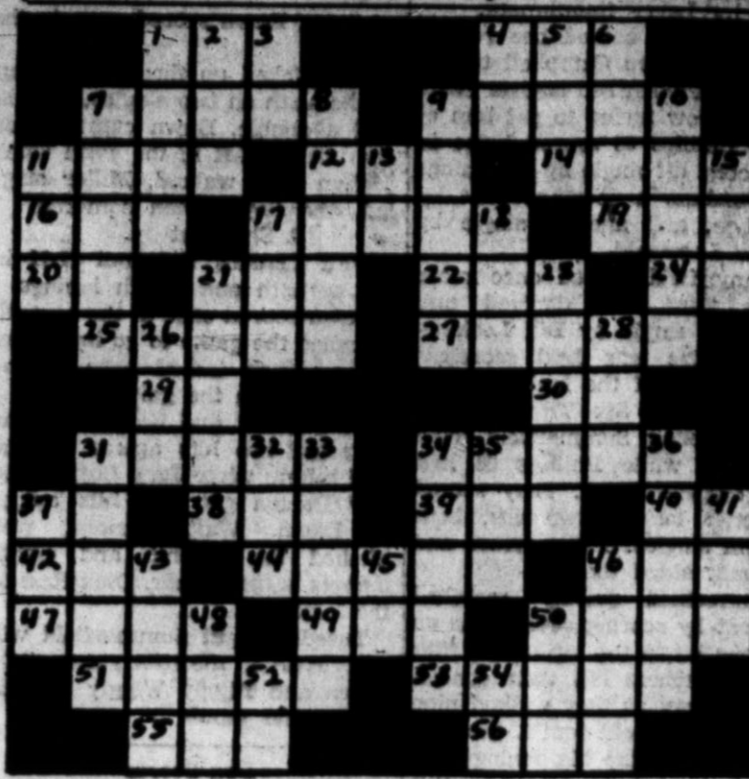

People out here used to go visiting and stay all day long. They rode in buggies in those days, and time for talking, singing or just sitting still for a while was plentiful.

Each summer we note with regret that the community get-togethers are fewer and farther between. Rural communities such as Oklahoma Lane have been strong hold-outs for this type of diversion, and we think it's the finest thing in the world.

Back to Nature

By Vera Sanford

AUSTIN.—Texas needed another good, soaking rain.

Thousands of the devout, and perhaps some of the not-so-devout, prayed for it Sunday in response to a plea from Governor Allan Shivers.

The governor urged ministers of all faiths and their congregations to "turn to the One who is the source of all help."

At the same time, Shivers telegraphed President Eisenhower to thank him and other officials of the administration for their speedy aid to drought-stricken Texas.

From the White House had come word that the President would allocate \$8 million for emergency drought relief in 152 Texas and 40 Oklahoma counties.

The plan was to furnish feed at low prices, permit the railroads to grant lower rates on feed and cattle, and extend credit to ranchmen and farmers.

Simultaneously the Department of Agriculture announced that it would buy 200 million pounds of beef from cattlemen in the dry Southwest.

Secretary of Agriculture Benson hoped that this purchasing would remedy the "ruinously low prices" for cattle.

West Texas Still Dry
Good rains had fallen over a good deal of the state, but the precipitation was not enough, generally, to put the drought out of the picture.

From Washington came a long-range weather forecast that held out hope for the eastern part of the state, with "substantial" moisture from Central Texas eastward. The outlook for West Texas was dry.

Early Maneuvering
There was more and more activity in the political field. Not any time recently has there been so much political maneuvering so early.

The elections are a year away, but three factions are already preparing for the struggle, and individual candidates are going through the usual routine of speechmaking and handshaking.

Paying a visit to the state was Stephen A. Mitchell, Democratic National Chairman, who said he would invite Adlai Stevenson to come here later.

Mitchell asked party members who supported Eisenhower to return to the Democratic fold, and predicted Democratic victories next year.

He forecast that "Sam Rayburn will return to the speakership of the House, and Lyndon Johnson will be majority leader, not minority leader."

Rift Still
But there was evidence that the rift between Eisenhower and Stevenson Democrats was still there.

When the Texas Federation of Labor convened at El Paso, delegates booed when a speaker charged that Governor Shivers of Texas, Thornton of Colorado, and Mechem of New Mexico were state's righters last year when it was a matter of dough in the pocket, but this year, when it's a matter of drought relief, they're quite willing to be Americans and accept relief from the central government.

Shivers led the Democratic revolt that gave the state to Eisenhower last year. Labor leadership generally was for Stevenson.

Could Mitchell and the other party leaders pull Texas back into line? It was obvious that they were going to work hard to reach that goal.

And it was equally clear that the Republicans were going to fight them every inch of the way. They hoped to make outright party members of the Democrats who voted for Eisenhower, and they planned to put up candidates for every elective office.

It was easy to make one prediction: The Texas political battles of next year are going to be big and bitter.

No Party Politics
If Governor Shivers had party politics on his mind he didn't say so in his speech to the state bar convention in Fort Worth.

His remarks concerned liberty on the national and international level.

Americans, he said, "are the best in the world at selling soap and television sets, and we've got to sell liberty like we sell soap."

Shivers added: "We haven't sold liberty at home or abroad. We tried to buy it abroad, but this hasn't worked and it never will."

The political experts were bound to make their interpretations of (Continued from Page 4)

TOUGH EVEN FOR SNAKES

Conditions have become so critical in this area because of the extended drouth that even the rattlesnakes are having a difficult time surviving.

One day last week, Mrs. J. C. Tinsley killed a 42 inch rattler at the feed lot on her ranch five miles south of town. "It was the poorest snake I have ever seen," Mrs. Tinsley said. "It wasn't half as big around as it should have been, considering its length, and I could have counted its ribs," she declared.

The snake had seven rattles and there were indications that others had been broken off.

NEW OFFICE FOR BROWNFIELD

Brownfield is one of five sites selected for division offices for the General Telephone company of the Southwest under a reorganization plan.

Walter G. Wright, company president, in announcing the reorganization said, "By placing more responsibility and authority in the field closer to our customers, those who are more familiar with the problems by first hand knowledge will be making decisions and exercising individual judgement in expediting the required action. This will eliminate unnecessary delays in accomplishing our aims and will improve the services to our customers." THE BROWNFIELD NEWS.

ALMOST A DOUBLE DROUTH

As if their water problem weren't enough, Land Park officials were busily scurrying to Austin this week in an effort to prevent a threatened beer drouth on a busy weekend.

It all started Tuesday when one of the operators of the pool drink stand, was searching through papers for his health certificate. He ran across the stand's beer license quite by accident and noticed his expiration date.

The manager, in order to stave off a drouth of approximately five days, went to Austin and the State Liquor Board and secured a temporary license which lasted until Sunday night. NEW BRAUNFELS HERALD.

The BOOTLEG Philosopher

Editor's note: The Bootleg Philosopher on his Johnson Grass farm seems to be dealing in words this week, of which he has an inexhaustible supply.

Dear editor:

I do not like to talk about hard times, there is a school of thought in this country which says mention of the word depression should be banned from public discussion that it's sort of like yelling fire in a crowded theater, but I am not a member of that school.

In the first place, I do not consider times hard now, except where it's dry or two cattlemen are gathered together, and I figure it's pretty difficult to have a depression when things keep going higher and higher, with the exception of course of cattle, and in the second place, I do not believe anybody can talk this country into a depression any more than he can talk it out of one in case one shows up. This country is not so shaky that a few idle words can move it in any direction and neither am I, on top of that I know I have never had to consult anybody to find out for myself whether times were good or bad. A man who don't know whether times are good or bad he's in pretty bad shape to start with.

Therefore, I was considerably amused the other day when I picked up a copy of a newspaper which somebody had used to tie on while he put a jack under his car to fix a flat, I was aiming to get down there and help him change it but when I woke up after a short nap under a shade tree he was gone, and read where a big city real estate man was hoppin mad because a farmer in East Texas had predicted a depression worse than the one we had before was on the way.

"What does that farmer know about such things?" he demanded, claimin the farmer ought to be silenced, and since nobody in his audience apparently answered him, I will.

That farmer doesn't know a thing about such matters. But I would like to hasten to add, I don't mind hastenin as long as it's just to add something and you can do it without leavin the shade, that that farmer however, is not by himself. There's a lot of real estate men in the same boat, along with a lot of other people.

The way I see it, there ain't hardly anybody who knows what times are gonna be like next year or the year after. We got lots of experts who can tell pretty satisfactorily what happened last year or the year before or ten years ago, but when it comes to knowin how business is gonna be twelve months from now, most experts, when you corner 'em, are busy doin something else.

Personally, I'm in favor of free discussion. The man who goes around tellin himself times are gonna be good forever is about the same as the man in a depression who goes around sayin times are gonna be hard forever. Regardless of how it seems, some women ain't gonna talk forever, it ain't gonna rain forever or stay dry forever, but in some places and with some women it's gettin close to it.

Yours faithfully,
J. A.

Food Inspections

It is often said that when a town reaches the population of 5,000, it becomes a small city. Hereford reached this population count several years ago, but it was only last Monday night when the City Commission decided to establish and enforce sanitation regulations that Hereford actually indicated the first signs of becoming a small city.

Sanitary conditions in the community, in several instances, have been neglected to the point of being dangerous. Occasions have resulted in considerable fines when federal authorities stepped into the picture on spot checks. Practically all of the trouble has been due to carelessness, however, and apparently can be easily overcome.

Regular inspections, such as the City Commission outlined this week, should be established and continued. The general public is not capable of recognizing dangerous sanitary conditions which might exist in various food handling establishments. Worse still is the fact that most of us live with the misconception that all food handlers are under strict regulations and periodic rigid inspections, thus we become lax in even casual examination of the places we eat and the foods we purchase.

The public is unquestionably entitled to the protection as outlined by the commission and, as we said, the fact that the community recognizes the fact sanitary regulations are necessary and is taking steps toward enforcing them is within itself the first mark in its transformation from a town into a small city.

Real Estate Board Reports . . .

The direct Veteran's Loan Program that has been in operation for the past 4 years . . . not to be confused with VA guaranteed loans . . . expired on June 30th. These direct loans were made from the funds appropriated by Congress for that purpose. Last week the bill was continued for another year and the money will be available at the rate of \$25 million each 3 months. The interest rate was raised from 4 to 4 1/2 percent.

What it means in our immediate area . . . based on the past 4 years . . . is that one loan per month will be closed in our 27 county area. The average loan for the past 4 years from these direct sources was \$5,800. One loan per month would mean that in our 27 county area . . . which includes both Lubbock and Amarillo . . . there would

be \$69,600 available to Veterans 12 men . . . veterans all . . . out of 27 counties . . . will use up our share. May be the best politician win.

New FHA terms. The Federal Housing Administration now has the authority to require as little as 5 percent down payment on loans under \$12,000. All this is very nice but our trouble here in Hereford or any small town for that matter is finding a source for FHA loan. None of the Companies that we now know of are taking what they call 'single shot' or one application at a time. They want as many as a 10 house project.

What to expect here in Hereford as far as real estate is concerned. For the past 3 years older house prices have fallen considerably and we can expect them to continue to do so as more people take advantage of the new FHA remodeling loans and as new homes continue to be built.

Irrigated land, with the exception of forced sales, will continue to hold its own but we cannot expect the price to jump in September as it has always done each fall since the end of World War II. Vegetable growers and farmers from drought areas will still be good prospects for our irrigated land.

New homes will come down slightly in price not from a lowering of wage scales nor of materials but from the increased efficiency of our carpenters and other workmen, who as they become more proficient, will deliver more work for an hour's pay.

Let's Talk Livestock

By TED GOULDY

FORT WORTH — Movement of livestock around the major market circle Monday was 25,000 cattle short of a week ago, and for the first time in many weeks the offering was below the comparable day a year ago. At Fort Worth, however, the cattle receipts were some 1,400 above a year ago, and calf receipts were 500 below a year ago.

The beef buying program launched by the government last week with purchase of 3,495,000 pounds of beef and gravy and 126,000 pounds of frozen boneless beef will require some 25,000 to 30,000 cattle per week to satisfy their demand for ten million pounds of beef per week. While this program has not been underway long enough to be felt in the trade, it was deemed certain to have a beneficial effect.

Buying Aggressive
The buying side was aggressive Monday at Fort Worth. Fat calves were in demand, and butchers and packers took most of the offerings that were fat, leaving stocker buyers a relatively small percentage. Cows were another 25 to 50 cents higher. Compared with ten days ago, most cattle and calves are about \$3 higher, with some spots \$4 and \$5 over the low time ten days or two weeks ago. Fat steers were the exception, and selling steady with a week ago. Stockers and killers shared the better mar-

Did it mean that Shivers would run for a national office next year?

The governor has said that he might make the race for a third term as the state's chief executive.

But then, he might not. Your guess is as good as any: if Shivers has decided what he is going to do, he has confided in no one.

And if we can judge by past performance, he won't say a word about his intentions until the deadline gets here.

Changed Faces

There was a bit of shuffling around as a result of one of the governor's appointments.

Weldon Hart, one of Shivers' executive assistants, is now chairman and executive director of the Texas Employment Commission, one of the state's biggest departments.

Hart, a former newspaperman of wide experience, served as secretary of the State Democratic Executive Committee. He had a prominent part in sending an un-instructed delegation to the national Democratic convention.

Later he was active in the Democrats for Eisenhower campaign.

In his new office, Hart succeeds Harry Bengé Crozier, a former newspaperman who announced that he would go into the public relations business with Joe Hitchcock and Hugh Williamson in Austin.

Hart's old job as executive assistant to the governor will be filled by Earl Braley, Austin public relations man who worked for the Lubbock Avalanche Journal.

New Highs

Both the state and federal governments get a lot of money from taxes on alcoholic beverages.

Coke R. Stevenson Jr., administrator of the Texas Liquor Control Board, reported that a new high in receipts was registered for May of this year: \$1,391,589.

The state's revenues from taxes on alcoholic beverages will run above \$19 million for this calendar year.

And the federal government's excise taxes on alcoholic beverages are higher than the state's.

Old age assistance checks started going out on schedule, although it looked for a while as though there might be a delay.

SHORT SNORTS: The Texas draft quota for the next 12 months will be 16,000 men. That's 12,000 less than were called during the past year . . . It was a hot job for men of the 36th Division, Texas National Guard, who were march-

ing with full packs at Fort Hood . . . R. Dean Moorhead of Austin told the State Bar convention that Texas' probate laws are of the "horse and buggy" character. The Bar is sponsoring a new probate code . . . A Houston Negro American Legion Post complained to Governor Shivers that students at Texas Southern University were receiving un-American indoctrination, and directors of the school for Negroes ordered a full-dress investigation.

Ice Cream Sundae Cake's A Dream

You can dream, can't you, of a luscious cake easy to make? Well, Ice Cream Sundae Cake is a dream come true. It is two desserts in one, cake and ice cream sundae, and all the makings can be bought at the grocery store. Whether you make the cake layer yourself or buy the ready baked at the store, the result is delicious. Now that pre-packaged ice cream is sold in half-gallon cartons you can keep the main part of this dessert conveniently in stock in the freezing compartment or home freezer. Cakes or cupcakes, a can of chocolate sauce and a can of shelled nuts complete the dessert.

West Texas Gas Company May Sell Natural Gas Transmission Line

A Federal Power Commission examiner has recommended approval of application by the El Paso Natural Gas Company for authority to buy, for \$287,389, a pipe line system now owned by the West Texas Gas Co.

The lines are used by West Texas Company to supply natural gas to Southern Union Gas Co, which serves Portales, Tucumcari and Clovis from that line. The gas is bought from El Paso Natural Gas Company, and the transaction would eliminate the West Texas Gas Company as a middle man in the operation.

Conditions Given
Examiner W. J. Costello recommended approval on the condition that El Paso Natural Gas Company either adopt the West Texas Gas Company rate to Southern Union of 13 1/2 cents per thousand cubic feet or charge an additional 2 cents per thousand.

If the rate is increased, however, the additional money must be covered by bond and subject to refund, in case the FPC does not approve the rate increase.

The change in ownership of that section of gas line will not affect the customers of West Texas Gas Company in any way with the exception of Southern Union, a company spokesman said, and it will, in turn, make possible long term agreements for gas supply for the towns West Texas Gas Company services.

This compact new kind of car outperforms the entire lowest price field - ON LESS GAS, TOO!

Because it's wonderfully compact, it's a delight to handle, drive and park in today's traffic - and there's ample room for six.

On any road, hill or highway you select, we'll outdemonstrate any other make of car in the lowest price field. We'll prove with scientific measuring equipment that the Jet will do it on less gas than any of them! Come see us prove it with a teacup of gas.

HUDSON JET

A COMPACT, NEW KIND OF CAR

Standard trim and other specifications and accessories subject to change without notice.

HEREFORD HUDSON COMPANY

PHONE 773

Come in, we'll prove every word! and you may win **FREE A HUDSON JET**

1 PERFORMANCE!
We'll take you out and put a Jet through its paces. You'll see why it's a new kind of car before it has used a teacup of gas.

2 ECONOMY!
It takes only a teacup of gas to show you the almost unbelievable gas mileage the Hudson Jet delivers.

A SCIENTIFIC, DRAMATIC TEST!
Our "Teacup Test" uses scientific gasoline measuring equipment. It shows you exact, low fuel consumption while the Jet is in action.

HOW YOU MAY WIN A FREE JET!
After "Teacup Test" on official entry blank, complete in 25 words or less: "The advantages of this new kind of car, the compact Hudson Jet, are..." Get details at Hudson Dealers. Contest ends Aug. 1, '53.

JOHNNY HAZARD

by FRANK ROSSIN

FLEEING TOWARD THE CITY OF JUSTUS AND SAFETY, JOHNNY, ALBA AND CUTOUT FIND THEY ARE BEING PURSUED... AND SLOWLY OVERTAKEN!

IS THERE ANY CHANCE WE CAN OUTRUN NALLOR'S BOYS... AND MAKE IT TO YOUR FATHER'S CITY?

I DON'T THINK GO, JOHNNY! THEY HAVE A FASTER SHIP, AND WE STILL HAVE NEARLY ONE HUNDRED MILES TO GO!

BESIDES, I THINK WE ARE RUNNING LOW ON FUEL! LOOK AT THE GAUGE!

GUESS THAT SETTLES OUR HASH! SORRY IT TURNED OUT THIS WAY, ALBA... BUT WE'LL PUT UP A FIGHT BEFORE THEY TAKE US!

BUT THEY CAN'T TAKE US... IF THEY CAN'T FIND US! LISTEN, JOHNNY, I HAVE A PLAN!

SHOOT, BABY... WHAT'S YOUR IDEA FOR A LITTLE GAME OF HIDE-AND-SEEK?

I KNOW THESE TUNNELS... AND THE LITTLE CUTOFFS THEY HAVE! SUPPOSE WE DON'T MAKE STRAIGHT FOR HOME... AND FLY INTO A SMALL CUTOFF TUNNEL?

WE HAVEN'T ENOUGH FUEL TO GET US TO JUSTUS, ANYHOW! ONCE WE GET INTO A NARROW PART, WE LAND...

... AND BLOCK OFF THE TUNNEL! BY THE TIME THEY BACKTRACK TO ANOTHER ENTRANCE WE'LL BE ON OUR WAY!

IT'LL BE A LONG WALK HOME, BUT IT'S BETTER THAN BEING RECAPTURED! OKAY... LET'S FIND A CONVENIENT SIDE POCKET!

HO!... THEY THINK TO ELUDE US! MAKE READY TO TURN INTO SIDE TUNNEL No. 212! THE STUPID FOOLS.....!

THEY'RE STILL WITH US, ALBA... THEY TURNED IN WHERE WE DID!

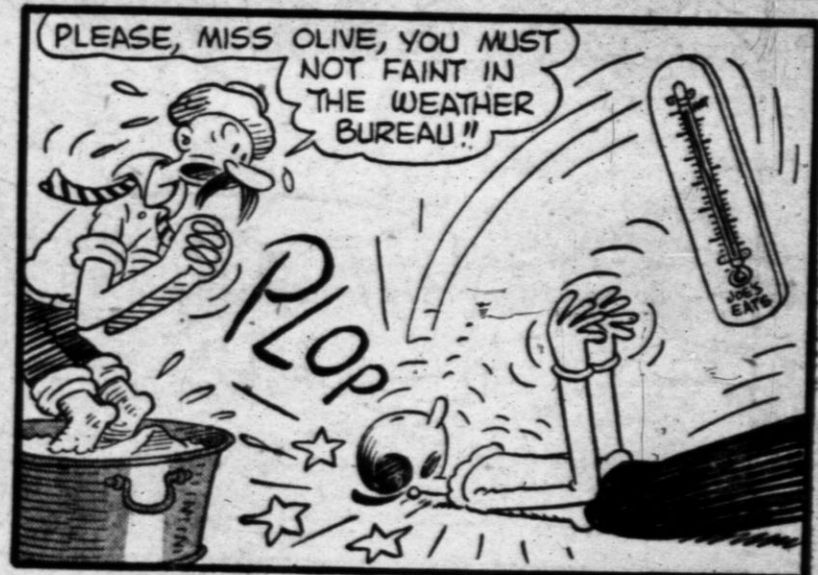

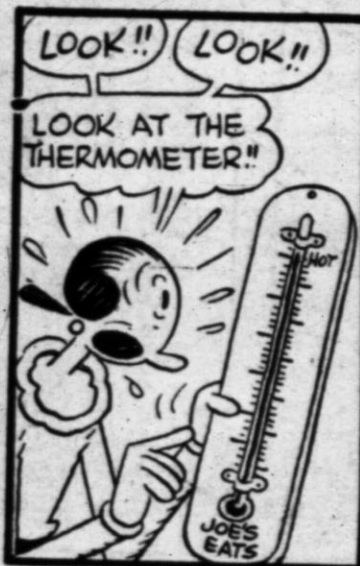

GOOD! NOW THE TUNNEL NARROWS... AND WE PREPARE TO LAND!

BLIP! BLIP!

MANDRAKE

THE MAGICIAN

BY LEE FALK & PHIL DAVIS

BEGINNING: MANDRAKE'S MAGIC HOUSE...

BUNK. BUT THIS WILL BE GOOD PUBLICITY FOR MY BOOK.

I ARRANGED THIS INTERVIEW FOR YOU WITH MANDRAKE, MR. SIMPSON. I'M ANXIOUS TO SEE HIS HOUSE. I HEAR IT'S AMAZING! MAGICAL!

1

SO YOU ARE THE AUTHOR OF 'MAGIC IS BUNK'. I'VE JUST BEEN READING IT.

I THOUGHT IT WOULD BE AMUSING--teehee--IF YOU, THE GREATEST OF THE SO-CALLED 'MAGICIANS', WOULD AUTOGRAPH IT.

2

I SEE YOUR POINT. WON'T YOU BE SEATED?

SEATED? WHERE? THERE'S NO FURNITURE--Huh--AT LEAST--THERE WASN'T ANY--

3

SO YOU THINK ALL MAGIC IS BUNK?

YES! MY BOOK PROVES IT--gulp--

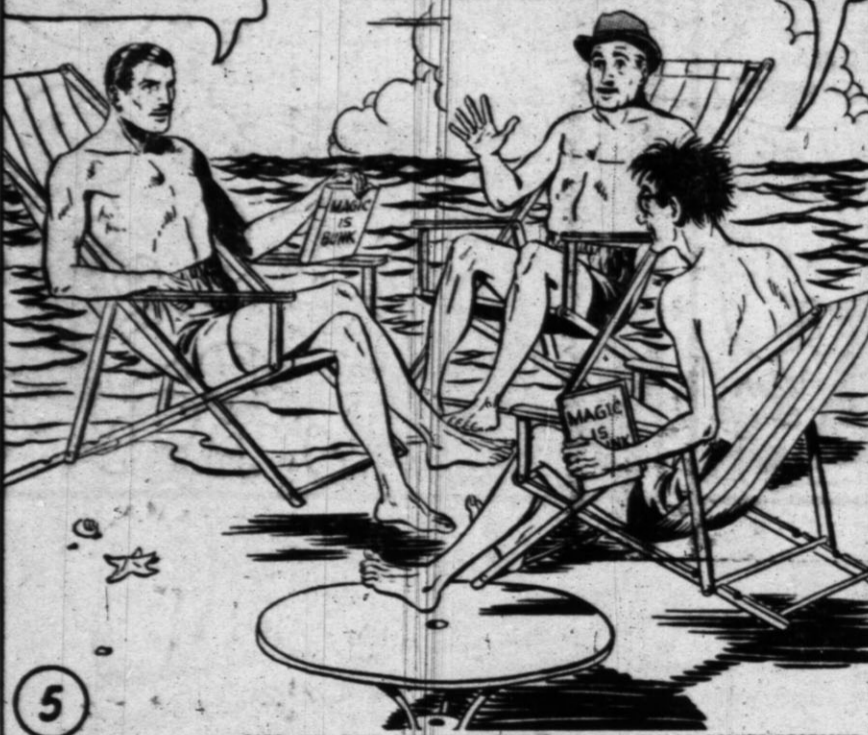

4

DON'T YOU THINK THERE MIGHT BE EXCEPTIONS?

NO! I INTERVIEWED HUNDREDS OF MAGICIANS--IT'S ALL PHONY--gulp--

5

THEN YOU'D SAY MAGIC IS IMPOSSIBLE?

YES.--BRRR--IMPOSSIBLE!

LOOK! THERE'S BLUE HEAVEN LAKE, AN' THIS IS THE END OF OUR TRIP~ I KIN HARDLY WAIT TO SEE MRS. MORGAN'S CASTLE~ I'LL BET IT'S BIGGER'N HER MANSION IN TOWN~

~IT'S A SIMPLE LITTLE SUMMER COLONY~ AND THIS IS NOT A TRIP OR A JOURNEY~ IT IS A PILGRIMAGE~

EVERY JULY I MAKE A PILGRIMAGE TO WHAT MRS. MORGAN CALLS "MY BLUE HEAVEN", IN THE SAME SPIRIT THAT A DEVOUT MOSLEM MAKES A PILGRIMAGE TO THE SACRED CITY OF MECCA~

GOLLY~ LOOKIT! AN' AIN'T THE LITTLE GLASS HOUSES GRAND? THEY SPARKLE JUST LIKE THE FRONT WINDOWS OF SWELL JEWELRY STORES~ THEY MUST ALL BE MILLIONAIRES LMIN' HERE~

OH, NO, CHILD~

THIS IS THE GATHERING OF THE SONS AND DAUGHTERS OF THE SUN~ YOU MIGHT CALL IT A 31-DAY MEETING OF STREAMLINED SUN WORSHIPPERS, WHO ALAS! ARE NO LONGER QUITE SO STREAMLINED AS OF YORE~

MRS. MORGAN FOUNDED THIS COLONY TO GIVE THE POOR BUT PROUD, OR WHAT SOME FOLKS CALL THE SHABBY GENTEEL PEOPLE, WHO CONSTANTLY STRUGGLE TO MAKE BOTH ENDS MEET~ ONE MONTH A YEAR FREE FROM WORRY AND CARE~

I THINK SHE'S GRAND.

I AM ONE OF HER PAMPERED PAUPERS WHO COMES TO DUNK MY BONES IN THE SACRED WATERS OF BLUE HEAVEN LAKE~ IT WASHES AWAY MY SINS, MY SORROWS, AND CURES MY LUMBAGO~

DARRELL McCLURE

~AND HERE COMES HER LOVELY LADYSHIP NOW~

GEE~ WOULDN'T IT BE WONDERFUL IF THERE WAS LOTSA PEOPLE LIKE HER?

FIRE - PROOF VAULTS

The Hereford Brand

THERE'S SOMETHING QUEER ABOUT THIS, TEX... IF THIS IS A DETOUR FROM THE MAIN HIGHWAY, THERE SHOULD BE A LOT OF CARS USING IT, BUT THERE'S JUST ONE SET OF TIRE TRACKS!

THAT SHORE IS QUEER, RUSTY. WAIT... I'LL TAKE A LOOK!

YOU'RE RIGHT, RUSTY... ONLY ONE CAR HAS BEEN OVER THIS ROAD LATELY... IF THAT DETOUR SIGN IS A PRACTICAL JOKE, IT AIN'T FUNNY... WE CAN'T TURN AROUND!

WE'LL JUST HAVE TO KEEP GOING... IT MUST LEAD TO A FARM OR SOMETHING!

THAT WAS A RIGHT GOOD GUESS O' YOUR'N, LAD... THERE'S A LIGHT OVER YONDER... ANY KIND OF A HOUSE'LL HAVE A TURN-AROUND SPACE.

THEY CAN TELL US, ANYWAY, IF THIS DETOUR IS ON THE LEVEL.

MEANWHILE, AT MILESTONE FARM, MR. MILES HAS A VISITOR.

I BELIEVE, MR. CALDAREZ, THAT YOU WISH TO PURCHASE A NUMBER OF YEARLINGS OF THE BLOOD LINE OF THE FAMOUS HUNTER STALLION, "GALLANT CORPORAL"... RIGHT?

THAT IS CORRECT, SEÑOR... I WOULD HAVE PAID ANY PRICE TO ESTABLISH THAT LINE ON MY RANCH... BUT, ALAS! I AM INFORMED THAT THE LAST OF THOSE HUNTERS WAS LOST IN A STABLE FIRE.

...SO I AM ABOUT TO BUY, AS SECOND CHOICE, ALL THE YEARLINGS FROM A SEÑOR KANE... I AM NOT TOO HAPPY, BUT I HAVE NO CHOICE.

I SEE... WELL, IF YOU HAVEN'T ALREADY CLOSED THAT DEAL, YOU MAY BE INTERESTED TO KNOW THAT I HAVE JUST BOUGHT "SILVER LAD", A SON OF "GALLANT CORPORAL"!

THAT IS WONDERFUL, SEÑOR MILES!... IF THAT IS TRUE, I WILL CONTRACT FOR ALL THE YEARLINGS YOU WILL SELL IN THE NEXT THREE YEARS!

"SILVER LAD" IS ON HIS WAY HERE NOW. YOU CAN LOOK HIM OVER AT THE JUNIOR LEAGUE HORSE SHOW AT THE LEXINGTON TROTTERS' TRACK TOMORROW.

...AND IN THE MOUNTAIN SHACK

THEY'RE COMING, SCRUB... I CAN SEE THE HEADLIGHTS THROUGH THE TREES!

OKAY, PORKY... WAIT TILL THEY ROUND THE BEND, THEN SNEAK DOWN TO THE BRIDGE AND PLANT THAT FIRECRACKER!
