Around Town

Grain harvest was the talk Around Town this week. Arguments could be had just about anywhere on how much of the crop has been harvested. Estimates run all the way from 20 percent to about 60 percent.

Mrs. Gladys Holden, professor of foods-nutrition at Texas Tech, will speak at the meeting of the Home Demonstration Council here Nov. 4. The meeting will be held at 2:30 p.m. at the Veteran's clubhouse.

New cars going on display were getting their share of attention Around Town too. The new DeSoto went on display Wednesday at Warren Motors and the new Plymouth will go on display Friday at Hale Motors, McCullough Motors and Warren Motors. The new 1956 Pontiac also goes on display Friday at H. and W. Implement Company.

Mrs. Joe Paetzold is one customer Francis Hardwick will not have to worry about Friday. Hardwick will be showing "Not As A Stranger" at the Texas Theatre, and it's a good bet Mrs. Paetzold will be the first person in the theatre. Her son-in-law, Dr. Phillip Beal, will perform a real heart operation in the movie. The operation is real (Continued on Page 5)

Paying Their Own Way Now

Hereford's crackdown on speeding and other motor vehicle violations is showing results. Result number one, according to Cecil Massey, corporation court judge, is that there are fewer violations. Result number two is that fines shot up from practically nothing to \$1186.50 during the past month.

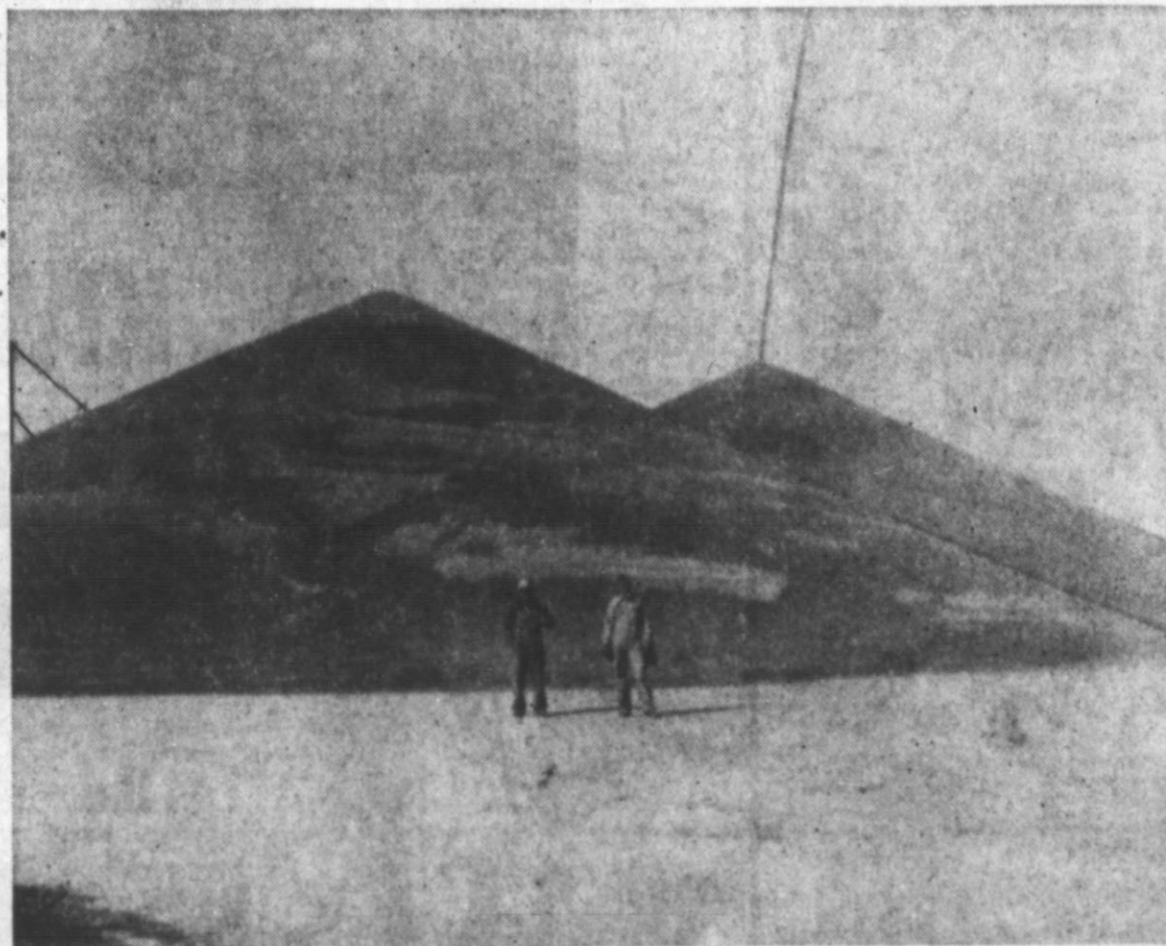

Three Are Named On Zoning Board

Hereford city commissioners on Monday night appointed three men to the City Zoning Commission. Named on the Commission were Bill Krumbeln, N. D. Bartlett and Robert Veigel. All three accepted the positions.

Overseas Christmas Mail Deadline Given

Overseas Christmas mail should be mailed by Oct. 15 and no later than Nov. 15, according to a post office spokesman here.

"You should check with the post-office for weight and size restrictions for the different A.P.O. numbers," he said. Air mail restrictions are the same: two pounds, 10 inches in length and 6 1/2 inches combined.

NOT AS BAD AS IT LOOKS — This stack of grain behind Pitman Grain Co.'s elevators had some folks worried this week, but a spokesman for the company said it isn't as bad as it looks. Although some grain is going

on the ground, the elevator spokesman said, "We still have plenty of storage room." Local elevator operators say that Hereford does not have a shortage of storage space at the present time. (Staff Photo)

Grain Storage Problem Is Not Serious Locally

Local elevator operators Wednesday denied that there is any storage shortage for the huge grain sorghum crop in the local area. The denial came following reports Wednesday morning in the Amarillo Daily News that there is a storage shortage in the High Plains area that is endangering \$2 million worth of grain.

A spokesman for the elevators said there may be a shortage of storage space in other areas in the Plains, but there is not one here.

"We saw this crop coming and prepared for it," he said. The Amarillo newspaper carried an Associated Press story which quoted Agriculture Commissioner John White as saying that "a repetition of recent rains in the High Plains could ruin two million dollars worth of grain today." White was quoted as saying, "The threat grows bigger every day as more grain is piled in the yards."

The Daily News also quoted J. Frank Triplett, general manager of Producers Grain Corp., as saying "the situation couldn't ever have been worse than it is this year."

The local elevators spokesman said that "no one has been turned down" and that all the elevators "still have space available."

He did say that there is a shortage of railroad box cars available, but predicted that local elevators

would be capable of handling the Hereford-area crop.

Some grain is going on the ground in Hereford. Pitman Grain Co. began putting it on the ground Sunday, but said Wednesday that "we are not full." All other elevators also reported space still available.

Elevator operators said the harvest here has not reached the halfway point yet. They said that it was moving "right along," however. Weather conditions in this (Continued on Page 3)

Swimming Pool Statement Given

Receipts at the municipal swimming pool this year failed to pay for total expenditures, a report presented to the City Commission Monday night by City Manager Cecil Massey revealed.

Total expenditures were \$4093.37 and receipts totaled \$4015.82, showing a deficit of \$77.55. Actually the pool would have made money except for a lot of repair work done this year that has not been made in past years. Repairs totaling \$1124 were made to the pool before it opened.

Children's admissions brought in \$1905.10 and adult admissions, \$1,943.45. Candy and soft drinks accounted for \$74.67, and parties brought in an additional \$67.50.

Roberta Campbell Named Director Of Area Pen Club

Mrs. Eileen Naugle gave the program on "Writing for Children" from members of the Panhandle Penwomen who held their quarterly meeting at the Amarillo Country Club on Tuesday.

Mrs. Naugle pointed out that a writer must become as a little child before they can be a juvenile author. By that she explained that the emotional experiences are the things remembered from childhood and the author must think simply in terms of a little child while retaining the judgment of an older person when writing for children. "Don't write down to children" she emphasized.

The Panhandle Penwomen were organized by Laura V. Hamner and each year they sponsor a Writer's Round-up under the direction of Loula Grace Erdman.

Miss Hamner is perhaps most widely known for her radio program, "Light and Hitch," but most popular of all her writing is "Short Grass and Longhorns," which gives early history of the Panhandle, and has been termed by some readers as a classic.

Miss Erdman, who teaches creative writing at the Amarillo Center of WT, has written a number of novels and will be in Hereford Thursday evening when Mrs. Lee Foster of Canyon will review her latest, "The Far Journey."

Others attending the meeting in Amarillo were Mrs. E. D. Hopson who was elected to serve a second year as contest chairman and Roberta Campbell who will be on the Board of Directors next year.

Jaycees Announce Plans For Christmas Decorations

The Hereford Junior Chamber of Commerce announced plans this week to raise funds for the annual Christmas program.

In a letter sent to local businessmen this week, Jaycees said they were making preparations for the Hereford Christmas program in an effort to make Hereford "the most beautifully decorated town in this area."

The letter said, "In previous years the complete Christmas activities have cost approximately \$2000, including the expense of street lighting, Santa Claus and approximately 3500 bags of candy and a Christmas tree. The extent of the program will depend upon your response to this letter. Since it is necessary to order many of the materials needed for the program, we find it necessary to prepare our budget at this time and determine the exact activities that we will be able to engage in, and are asking that you send us your check on or before Nov. 1, in the

School Bond Issue Is Approved By 2-1 Vote

School Board Lets Bids On Building

By a margin of almost two to one, voters of the Hereford Rural High School District Tuesday approved a \$95,000 bond issue to be used to supplement a \$325,000 issue already approved for the construction of the Ela Aikman Elementary School.

Voters favored the issue by a vote of 289 to 151. Voting by boxes showed that 286 votes in favor of the issue and 122 against were cast in Hereford and that three votes for and 29 against were cast at Dawn.

Following the election, a called meeting of the School Board was held and the votes were canvassed. Trustees also accepted low bids on construction of the school. The bids had been submitted Sept. 27, but were not accepted at that time because there was not enough money available.

Low bids on construction of the new building, including architect's fee and supervision, amounted to \$377,775. An additional \$16,000 will be spent on furniture, Board members estimated.

West Texas Builders was low bidder on general construction with a bid of \$244,503, P. and C. Mechanical Co., was low bidder on mechanical work with a bid of \$74,250 and Brooks Electric Co., was successful bidder on electrical work with a bid of \$28,125. The architect's fee of five percent would amount to \$17,344 and supervision is listed at \$5119.

Jones Resigns Position As City Engineer

The resignation of City Engineer Earl Jones has been accepted by the City Commission effective on Nov. 8.

Jones' resignation was announced following a meeting of the City Commission Monday night.

"During the past year it has been my good fortune to be associated with a group of fine people, namely the governing body and the employees of the City of Hereford."

"It is with sincere regret that I find it necessary, for personal reasons, that I tender a resignation at this time."

"I trust that the work initiated in this office will be continued and that the accrued benefits therefrom will be of long lasting value to this community. May I state here that I shall always be available to answer any question or explain any of the work done here during this past year, if such explanation will be of help to the City."

"I have found the work here very interesting and must say that I have enjoyed both the experience and the association. In compliance with the code of ethics of my profession, I herewith tender my resignation, to be effective 30 days from this date. Your acceptance of this resignation will be appreciated."

Part of the new issue will be used to expand the facilities of the High School shop. Twenty-six thousand, two hundred and twenty-five dollars has been earmarked for that work.

B. R. Cantrell, architect, made two recommendations to the Board which are expected to save an additional \$1590. Use of a differed glazed tile in the corridors and a change in electrical appliances was approved by the Board.

Trustees discussed plans for the shop addition with Cantrell and he said he would begin work immediately.

The group also discussed procedure they would follow in hiring a new school superintendent to replace George Graham, whose resignation will become effective Nov. 1. No definite action was taken, however.

Jury Returns Not Guilty Verdict In Liquor Case

A County Court jury this week returned a not guilty verdict in the trial of Merregildo Castillo, who was charged with illegal sale of beer.

Following the verdict a second charge against Castillo was dismissed.

Three pleas of guilty were also heard in Judge Homer Henslee's court. M. M. Plunk was fined \$10 and court costs for passing a worthless check. Jewell Davis was fined \$150 and costs for selling liquor, and Walter Joe Green was fined \$25 and costs for driving while his license was suspended.

One other case was dismissed. It was the L. C. Watson aggravated assault case.

Mrs. Andrew Acker and daughters, Josetta and Mrs. John Warren visited their daughter and sister in Portales Monday.

Forty-One Resolutions Due At FB Convention

Members of the Deaf Smith County Farm Bureau will hold their county convention Saturday at the Jim Hill Hotel, at which time they will elect nine new directors and consider 41 resolutions submitted by the Resolutions Committee.

The meeting will begin at 3 p.m., Virgil Doolan, president, announced. He urged all members to be present to take part in the debate over resolutions and to help elect the directors.

Resolutions to be considered, some of which are in direct contrast to others, are as follows:

1. We affirm the need for a farm program that permits freedom of action by the farmer on his farm with a minimum of cost to the Government, at the same time, protecting the interest of the farmer and the Nation. We must have acreage control to keep production in line with demand. In past

and present programs the basis of control has been on the commodity. We feel a more workable control program can be set on the basis of a farm's total tillable acreage; the percent of retired acres to be determined by the over-all over-production of all farm commodities. Good soil conservation practices must be carried out on retired acres to maintain soil fertility in order to preserve the future of America, such practices to be encouraged by Soil Conservation payments.

2. We urge adoption of the "Soil Fertility Bank" plan of acreage control to get production in line with demand. The same percentage layout for every farmer would give a more equal opportunity to all farmers.

3. We recommend that all non-perishable products be supported; the level of support to be determined by the previous years production in relation to normal supply.

4. We recommend that basic commodities and feed grain be supported at 90 percent parity with acreage control.

5. We recommend that all non-perishable farm products be supported at 90 percent parity with acreage control.

6. We recommend that Milo be allotted on a CWT basis instead of acreage.

7. We recommend that Milo be

left as a feed grain as it now is, with higher parity support.

8. We recommend that Milo be controlled and supported on a similar basis to that of Corn with commercial and non-commercial acres established.

9. We recommend that Milo be controlled and supported on a similar basis to that of Wheat.

10. We recommend that Milo be controlled and supported on a similar basis to that of Cotton.

11. We recommend controlling the use of diverted acres for the (Continued on Page 3)

Workmen Escape Injury As Fire Destroys Truck

Two workmen narrowly escaped serious injury Wednesday when a truck moving a hoist reared up and touched an REA electric line on Dairy Road just outside the city limits shortly after noon Wednesday.

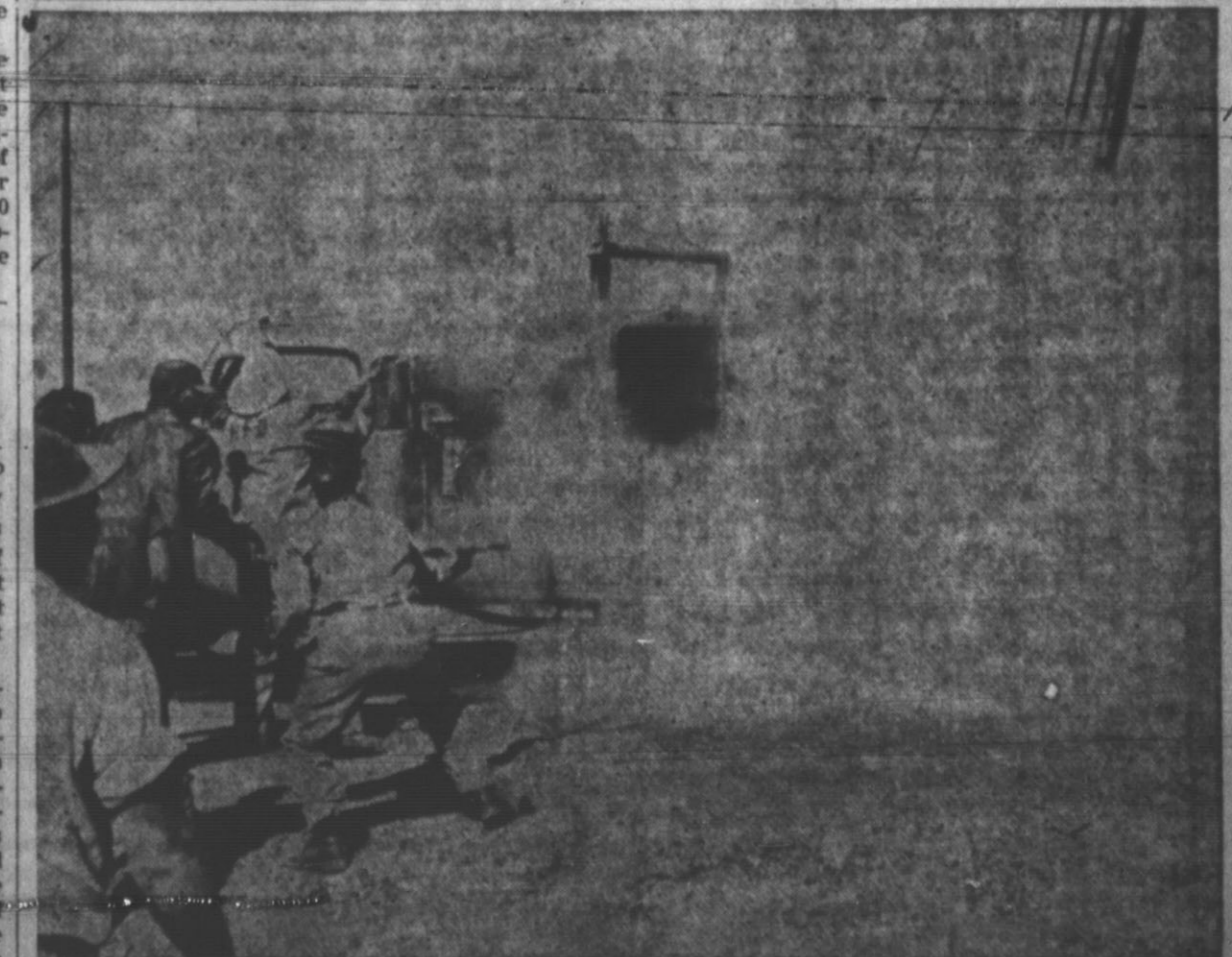

The workmen, Fred Sims and George Byrd, leaped from the truck before it burst into flames. The truck was carrying a butane tank and well drilling rig and firemen worked fast to avoid an explosion. Damage to the truck was estimated at \$700. The power lines and road were also damaged.

Pancake Supper Set By Kiwanis

Hereford Kiwanis will hold a pancake supper Friday immediately before the Hereford-Dumas football game.

Tickets for the supper, to be held at Shirley School, can be purchased from any club member for 50 cents.

The supper will begin at 4:30 and last until 8 p.m.

NARROW ESCAPE — Two workmen, Fred Sims and George Byrd, leaped from this burning truck seconds before it reared up and struck an electrical wire and caught fire. Damage to the truck was estimated at \$700.

Volunteer firemen are pictured fighting the blaze in an effort to put it out before a butane tank on the truck exploded.

HERE IT IS OFFICER — J. W. Robinson, in the car, was one of the lucky ones Tuesday. He had his drivers license. A team of city police, highway patrolmen and sheriff's officers held a day-long check on how many local drivers have their licenses. Out of 1490 cars

stopped, 98 persons were given courtesy tickets for driving without a license. There were 12 tickets issued for failure to have a safety inspection sticker, and two for defective brakes. (Staff Photo)

Second Friendly Venture Is Made

Mrs. Cecil Massey, Mrs. Glen Nelson and Mrs. Ronald Babione were in Tulla Saturday to attend the second of a series of "Friendly Venture" parties sponsored by the Kappa Iota chapter, Beta Sigma Phi Sorority in preparation for the organization of a chapter in Tulla. Mrs. Marvin O'Neal, 229 N. Dallas, was hostess.

A question and answer period dealing with the ideals of Beta Sigma Phi, rules and rituals, was featured and announcement of the Preferential Tea scheduled for Oct. 23 was made. The Tulla group will be special guests.

Following an informal talk-fest, refreshments were served. Those from Tulla attending were Mesdames Elmer Klemm, O. C. Arnold, Donald Crocker, Dan Tucker, A. B. Raymond, Bobby Howard, Clifford Duncan, Mary Frances Gunn and the hostess.

Trash Burner Demonstration Shown HD Club

Mrs. Floyd Brown, landscape demonstrator for the Messenger H. D. Club, showed how to make a trash burner for members who met with her Oct. 14. Mrs. Brown stressed the importance of keeping a cover over the burner to eliminate the danger from fire.

At the business meeting which followed the demonstration, Mrs. R. J. Coleman gave the council report. Members also brought pajamas they had made to be sent to Girl's Town and gifts to be presented to Mrs. Johnny Northcutt at the hospital for her new boy.

Mrs. Elmer Northcutt won the recreation prize and Mrs. S. N. Thweatt won the floating prize.

Visitors were Mrs. Bob Wylie, Tom Pinkerton and Lloyd Northcutt.

Members attending were: Mesdames S. N. Thweatt, H. W. Campbell, Ernest Brown, Elmer Northcutt, E. M. Jack, Bruce Coleman, N. A. Brown, R. J. Coleman, Bob Howard and the hostess.

The next meeting will be with Mrs. E. M. Jack Oct. 28.

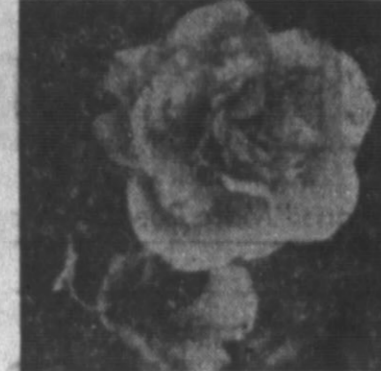

ATTEND OES TEA

Mrs. John Patton, worthy matron of the Order of Eastern Star, and Mrs. W. C. Hromas and Mrs. Vivian Major, both past presidents OES, attended a tea held in Plainview Saturday honoring Mrs. Alene Tilson, deputy grand matron of Plainview. The tea was held in the home of Mrs. Frances Austin.

Creative Art Is Topic For Garden Club

Hereford Garden Club held its regular meeting in the home of Mrs. A. L. Manjeet Friday morning. The program was built around the theme "Creative Art—a result of the understanding of the relative importance of things, order, balance and things at hand."

Subject for the day was "The Evaluation of Entries in Flower Shows" with Mrs. R. L. Wilson opening the program with a discussion of Pitfalls, Problems, and Errors; from the standpoint of selection of containers and proper use of mechanical aids.

Mrs. John Jacobsen Jr. told of the "Pleasures in Creative Art, of working with flowers and the satisfaction and contentment that may be found in this field of creative art. Mrs. C. C. Ferguson

spoke on "The Beautiful" quoting "Seek not afar for beauty, Lo, it glows and grows near you."

Mrs. M. T. Rutter, flower show chairman, conducted a round table discussion on Constructive Criticism of Flower Show," explaining the schedule for the forthcoming Annual Flower Show scheduled for Oct. 28 at the First Methodist Church.

Members present were Mesdames C. C. Ferguson, John Hacker, O. H. Herring, W. C. Hromas, John Jacobsen Jr., Ralph McCullough, M. T. Rutter, S. S. Williams, R. L. Wilson, Tom Draper and the hostess.

Mr. and Mrs. Luther Ellis, Mr. and Mrs. E. E. Ellis and Mr. Dick Ellis returned Monday from Hamilton, where they attended the funeral of their brother-in-law, J. E. Wagner.

purpose of storing fertility in the soil. (Soil Fertility Bank). And we are against the use of diverted acres to build up surpluses in other products.

12. We recommend the Texas Farm Bureau and the American Farm Bureau encourage commodity groups to promote greater use and more research for new uses as a means of disposing of our surplus farm products.

13. We recommend that the non-milling wheat now in storage in CCC be disposed of in any feasible manner that will not be in competition against feed grains and corn.

14. We recommend the Texas and American Farm Bureau's use every means available that is consistent with United States Welfare to increase the exports of farm products.

15. We recommend that the storage and handling charges of supported farm products be reduced in accordance with the reduction in loan prices.

16. We recommend that tariffs collected on imported farm products be used as a subsidy to sell surplus farm products.

17. We recommend that the cotton reserve acres of Texas be left to the State Committee to be allocated similar as it has in the past.

18. We oppose differentials in the freight rate structure over the United States, and request the Board of Directors of the Farm Bureau to exert pressure on the Interstate Commerce Commission to abolish this differential.

19. We recommend the government give more consideration, in our foreign policy, to South American countries as our allies and neighbors.

20. We recommend that the Farm Bureau and the USDA use their Public Relations Departments to counteract the unfavorable publicity that farm support programs have received in newspapers and magazines.

21. We recommend that processors of milk be compelled to show the percentage of butter-fat on containers of all milk offered for sale. We believe that processors of milk should be allowed to package any percent butter-fat milk that they can sell.

22. Be it resolved that USDA grading standards be revised so that wheat would be graded according to milling and baking qualities, rather than test weight per bushel.

23. We recommend higher CCC loans on milling quality wheat than on non-milling quality.

24. We recommend the Cargo Preference Act be repealed.

25. We recommend that the Farm Bureau use its influence to get the Department of Agriculture to set up a lending agency for farmers to use for installing mechanical distribution of irrigation water. Such loans to be made at a low rate of interest to extend over a period up to 10 years.

26. We recommend that the Farm Bureau use its influence to curb monopoly in any form whether such monopoly is by government, industry, labor or agriculture.

27. We recommend that the Social Security on farmers be on a voluntary basis instead of compulsory.

28. We recommend that more weather research be carried on to aid agriculture.

STATE ISSUES

29. We recommend the Texas Farm Bureau use its influence to prevent the repeal of the Texas Right to Work Law.

30. We recommend that the Farm License Law be changed to permit farmers with farm license vehicles to use the vehicles for family use or other transportation.

31. We recommend a reduction of a two cents per gallon of the State gasoline tax.

32. We recommend a two percent sales tax; one percent sales tax to go to the State; one percent to be prorated to the counties for Capital Improvement of the Schools.

33. We recommend that State Mortgage Fee Law be amended to permit commodity loans be exempt from the 50 cent fee.

34. We believe that Texas should have an economy commission to

study and make recommendations for increased economy in our State Government.

35. We recommend a Water Conservation and Development Program for the State of Texas.

36. We recommend a Water Development Program to be set up on a district basis and financed by:

- a. A Water Users Tax
- b. State Ad Valorem Tax
- c. Get Money Out Of General Fund
- d. Combination of Water Users Tax and Out of General Fund

37. We recommend the members of the Water Development Board be:

- a. Appointed by the Governor
- b. Elected by the people.

COUNTY ISSUES

38. We recommend the Deaf Smith County Electric Cooperative Association seriously consider lowering the irrigation rate to one cent in order to meet competition.

39. We recommend that Farm Bureau use its influence to help secure the services of an assistant County Agent for Deaf Smith County; such services to be primarily responsible for youth programs.

40. We recommend that efforts be made to secure one or more grain sorghum "using" plants or manufacturing establishments for our area.

41. We recommend county inspection of vegetables, so that only quality vegetables be shipped from Deaf Smith County.

HOME DEMONSTRATION CLUB WOMEN have been fascinated by two demonstrations given to them recently by Argen Draper, CHDA. A pretty and delicious piece of handwork is the date braid pictured on the left side of the pan which Mrs. Draper has just taken from the oven. The hot bread which maybe used for any meal is made with a basic sweet dough laced over a fruit filling. Beside it are the cinnamon rolls

which were cut with a piece of string instead of a knife from a neater appearance after baking. The demonstration was given when West Hereford H.D. Club entertained the Ford Club. In the picture at right Mrs. John N. Jacobsen Sr. is seated behind the coffee service. Standing is Mrs. Dwaine Walker president of the Ford H.D. Club. (Staff Photo)

HOLD HEARINGS ON NARCOTIC TRAFFIC — Attorney General John Ben Shepperd, center, chats with Sen. Price Daniel (D-Tex.) left, and Sen. John M. Your Congressman Reports

The aircraft industry has reduced the size of the world so much that global flights seem to be the order of the day. For instance, you leave Los Angeles, Calif., at 12 midnight, Sunday, and the next morning you land in Winnipeg, Canada, then take off for Greenland. Then, in one jump, you arrive in Copenhagen, Denmark. It is 9:15 Tuesday morning, and you have been half way around the world.

All of the big airlines seem to be competing for this type of business—wholly forgetting that there are people who must get from Berger, Pampa, Dumas and other towns — over to Oklahoma City, Dallas, Fort Worth and over to Amarillo, Lubbock and like places. The planes are all being designed for the long hauls and the market for the smaller feeder lines seems to be overlooked. One or two American companies are looking into this matter now, but the British and the Dutch are trying to get the jump. The British by the production of the new Vickers Viscount, some of which are already in use in the United States; and the Dutch by the production of the Fokker Friendship, which is fast reaching completion. Incidentally, the Fokker plant in Holland is seven feet below sea level, as is the airport. I am afraid, however, that neither of these planes will meet the need of the United States for the feeder type plane to make flights of between 100 and 200 miles. If air travel is to be successful without government subsidies, the operation must be economically feasible by providing fares low enough for the people to be able to pay them. Otherwise, government subsidy must be continued or the feeder line service stopped. The type of plane needed in Europe will not meet the needs of the plane needed in the United States. The air traffic in Europe is expanding rapidly. The United States must not relax in this field.

Much encouragement was exhibited by our delegates to the International Civil Aviation Organization convention which was held at the Hague. It might be well to mention that Russia and a number of satellites attended and participated in the proceedings. The delegates told me that their cooperation was excellent. There are many items concerning the international aviation problems with which I am not satisfied. I was happy to hear that the ICAO convention was held in a congenial and cooperative atmosphere, because I believe much can be accomplished through that medium.

THE HEALTH PROGRAMS
The health programs in the several Scandinavian countries, and Holland vary in many respects, and I understand they all differ from the health program in England. However, all are definitely in the field of socialized medicine. Some have certain methods of permitting you to choose your own doctor and the State bearing the expense or a part thereof. Other plans provide for self-selection of family doctors, but not for specialists in hospitals. Hospital expenses are also taken care of by different methods. Most of the plans are highly complicated, but none

seem to me to even begin to provide the effectiveness of the doctor-patient relationship that has always existed in the United States.

All of the countries are vitally interested in the polio vaccine program. In fact, Denmark has made great strides in carrying out its program, perhaps the greatest in Europe. It is manufacturing vac-

cine. Norway is not manufacturing vaccine and has not been able to get its program underway. However, present plans are moving along and the health authorities assured us that they would appreciate all possible cooperation from the United States. Their country has been hard hit for several years.

To Avoid Colds

Most colds are contracted by living in dry, hot rooms, insufficient exercise, keeping on wet shoes in the home or office, or coming in too close contact with a person who already has a cold. Consider these factors if you wish to avoid colds.

Emergency Candle

If a candle is needed and there is none on hand, make one by heating a cake of paraffin until it is pliable, and then wrapping it around a piece of heavy cord.

Lemon Rinds

Save and dry all the lemon rinds and burn them in the open fireplace. It will give the room a nice fragrance.

Laundering Overalls

Probably the best way to clean dirty overalls is to place them flat on the board and scrub with a stiff brush. After they are clean,

starch them slightly and it will make the next washing much easier.

Stuffed Dates or Prunes

First wash, dry, and stone the fruit, then cut almost in half, and fill with a half marshmallow, a blanched almond, or chopped nuts and raisins. Roll in sugar.

Hot Water Bottle

If the top of the hot water bottle will not turn, thrust the toothbrush through the long loop of the stopper, and turn as you would a handle.

ADRIAN NEWS

By MRS. A. R. BEGGS

Jess Fincher and W. C. Edmonds and J. W. Edmonds visited in Dallas recently with their relatives.

Carol Cullender, daughter of Mr. and Mrs. J. R. Cullender, remained in Canyon after the Cullenders visited with Mrs. Cullender's parents, Mr. and Mrs. E. A. Michael. Carol is to stay a week.

Mesdames Anna Witt and Hazel Chilton were Sunday dinner guests of Mr. and Mrs. N. L. Jacobson.

Mr. and Mrs. W. H. Briggs of Lubbock visited Sunday in the home of their son, W. C. Briggs.

Mr. and Mrs. R. C. Honeycray of Panhandle were in Adrian Sunday attending to farming interests and visiting with Mr. and Mrs. John Skaggs.

Last week in the list of high school favorites, Finis Brown was mistakenly named the "most bashful" instead of Kenneth Homfield.

Remember the Junior Play, "Hillbilly Wedding," this Friday at 8 p.m. in the high school auditorium. Soft drinks, popcorn, candy and homemade cakes and pies will be sold in the lunch room during intermission, so everyone be sure to come.

Mrs. Marie Godwin of Vega visited Sunday with Mr. and Mrs. N. L. Jacobson.

Mrs. W. E. Kline of Lubbock visited last weekend in Adrian with his brother, Ed Kline.

Visiting in the Lorin Creitz home last weekend were Mrs. Creitz's parents, Mr. and Mrs. G. S. Elliot of Savoy. Also visiting Sunday were relatives from Lubbock, including Mr. and Mrs. H. H. Payne and son and Mr. and Mrs. K. G. Payne and family.

Mr. and Mrs. Chock Garrison and children and Mr. and Mrs. Edgar Jacobson visited in Channing Sunday with Mr. Garrison's parents, Mr. and Mrs. Lester Garrison.

Mr. and Mrs. Wesley Story visited in Woodward, Okla., weekend before last with Wesley's grandmother, Mrs. J. W. Story and Mrs. Story's parents, Mr. and Mrs. Orvil Benjamin. Mrs. Story Sr., returned home with them for a visit.

Mr. and Mrs. A. P. Jones and son visited in Waco last weekend with Mrs. Jones' parents, Mr. and Mrs. M. K. Odum. They also made a little trip to Rockdale, where they purchased a new 1956 black and cream colored Ford.

Three Accidents Cause Damages Totalling \$440

Three accidents caused an estimated \$440 in property damage this week and slightly injured one person.

Frances Goldston suffered minor bruises when a 1951 Studebaker driven by Mrs. Helen Langley struck her as she crossed the street at the intersection of Third and Main.

Mrs. Goldston said she did not see the girl because of the sun's glare in her eyes. A witness said the girl was crossing the street against a red light.

Four hundred dollars in property damage was estimated following a wreck involving a 1952 Chevrolet driven by Wesley E. Useton and a 1944 Dodge truck driven by Donald Ray Turner.

Both vehicles were traveling east on Harrison, according to police, when Useton started to pass the truck. Turner attempted a left turn at that time and the two cars collided. Turner was given a ticket for driving without a license.

Police are still looking for the driver of a motorcycle which collided with a 1951 Oldsmobile driven by Ella Higgins Monday afternoon at the corner of Harrison and Highway 51. Damage to Mrs. Higgins' car was estimated at \$40. The driver of the motorcycle left the scene of the accident before police arrived.

Texas Today

By TIM PARKER

Associated Press Staff
You know about the "Texas Brags."

Texas is the biggest state, with the most oil, the most cattle, the most cotton, the prettiest women, etc.

But do you know about the "Texas Sorrows"?

Our "Texas Brags" are mostly the work of God.

Our sorrows are strictly man-made, made in Texas by Texans. They have to do with rape and violence, reading and the lack of it, how we care for the unfortunate, how we treat each other.

Our catalogue of sorrows includes:

Murder: Texas homicides in 1954 were at the rate of 14.3 per 100,000 people. The national average is less than 5 per 100,000 — 4.8 in cities, 4.9 in farm areas.

(We also kill more people with

cars. The 2,431 traffic fatalities in 1954 amounted to 6.6 per 100 million vehicle-miles. The national rate was 6.5.)

Rape: In Texas in 1954 there were 15.3 rapes per 100,000 people. The national average is less than 13-12.2 in cities, 12.5 in rural areas. Is the Texan, then, more of a man in the physical sense? No. Selective service figures from the beginning of the Korean war show

Those figures on violence are from the Texas Department of Public Safety. They probably do not surprise you. On page one of your newspaper you see evidence of it daily. Some of our other sorrows are less evident.

Education: Texas ranks 30th nationally in how much it spends on its schools. The figure, from the U. S. Office of Education and based on such things as money spent

per pupil, is from 1951. The Gilmer-Aikin law no doubt has improved Texas' position.

Giving: The average gift to the Red Cross in the 1955 campaign in Texas was 42.41 cents. The Red Cross does not have a national figure but reported that the per capita average in the 16-state region of which Texas is a part was 49.25 cents.

The man who reads is usually a

kinder, more understanding man than the one who does not. He is less inclined to violence.

In 1951—the last year for which figures are available—there were only 228 public libraries in Texas 717 cities and towns. Eighty-two of the 254 counties had no libraries.

The American Library Assn. says a per capita expenditure of \$1.50 is necessary for minimum li-

brary service, \$2.25 for good service, \$3 for superior service.

Texas' per capita expenditure in 1950 was 45 cents.

Wax Stains

To remove wax spots from the dresses, or linen, put a clean blotter under the spot and another over the spot. Then press the blotter with a hot iron until the blotting paper absorbs the wax.

John F. Box of Fort Worth was in Hereford last Sunday to visit his son and family, the Leo Boxes. He missed his son, however, who had business in Huntsville.

Window Wedge

If the window rattles from the wind, break a clothes pin in half and wedge one of the pieces between the window frame and the sash.

Three-fourths of U. S. standing saw timber is in small wood lots. The prying mantis often preys on its "own-species."

Hereford's Salad Bowl Literally Running Over

Hereford's big salad bowl is literally running over with a variety of vegetable crops that are moving to market in the last few weeks.

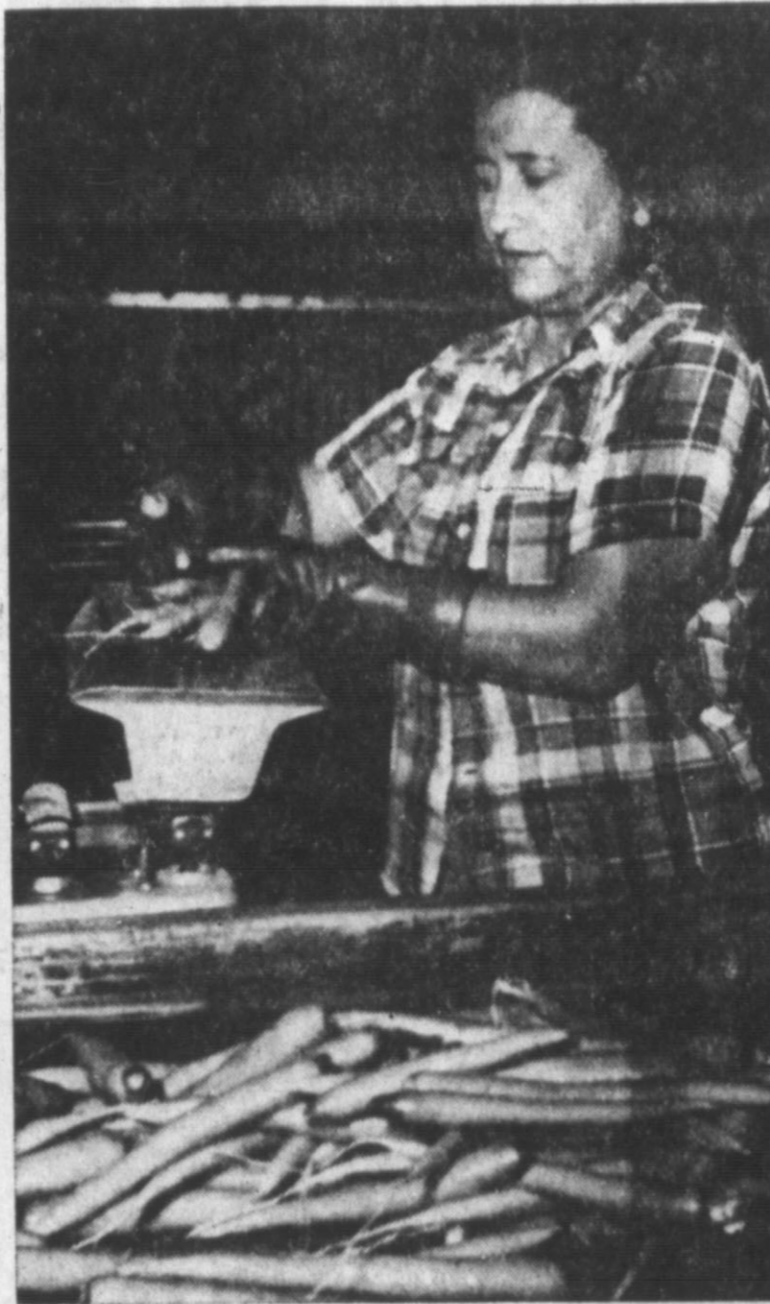

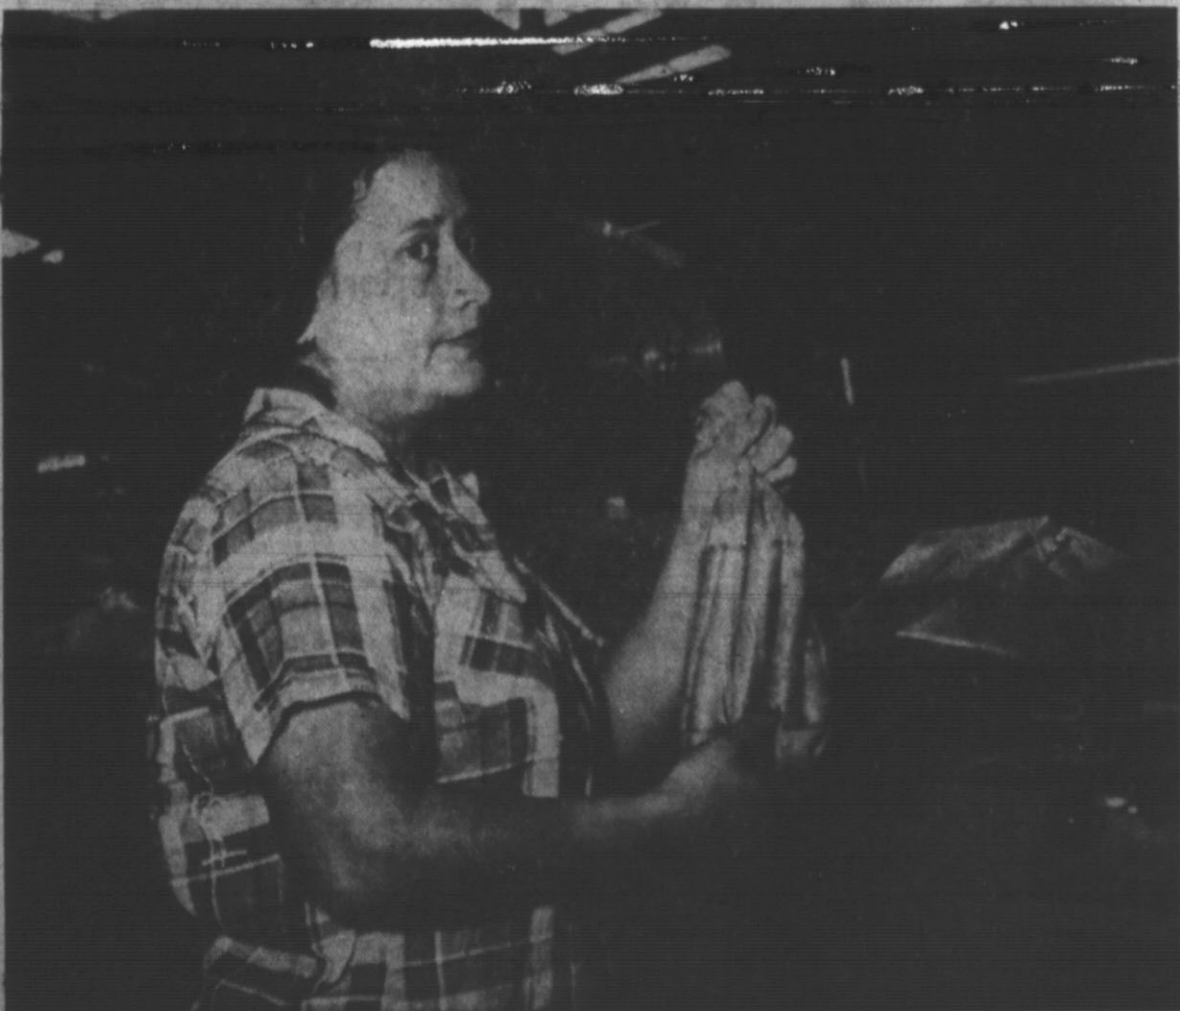

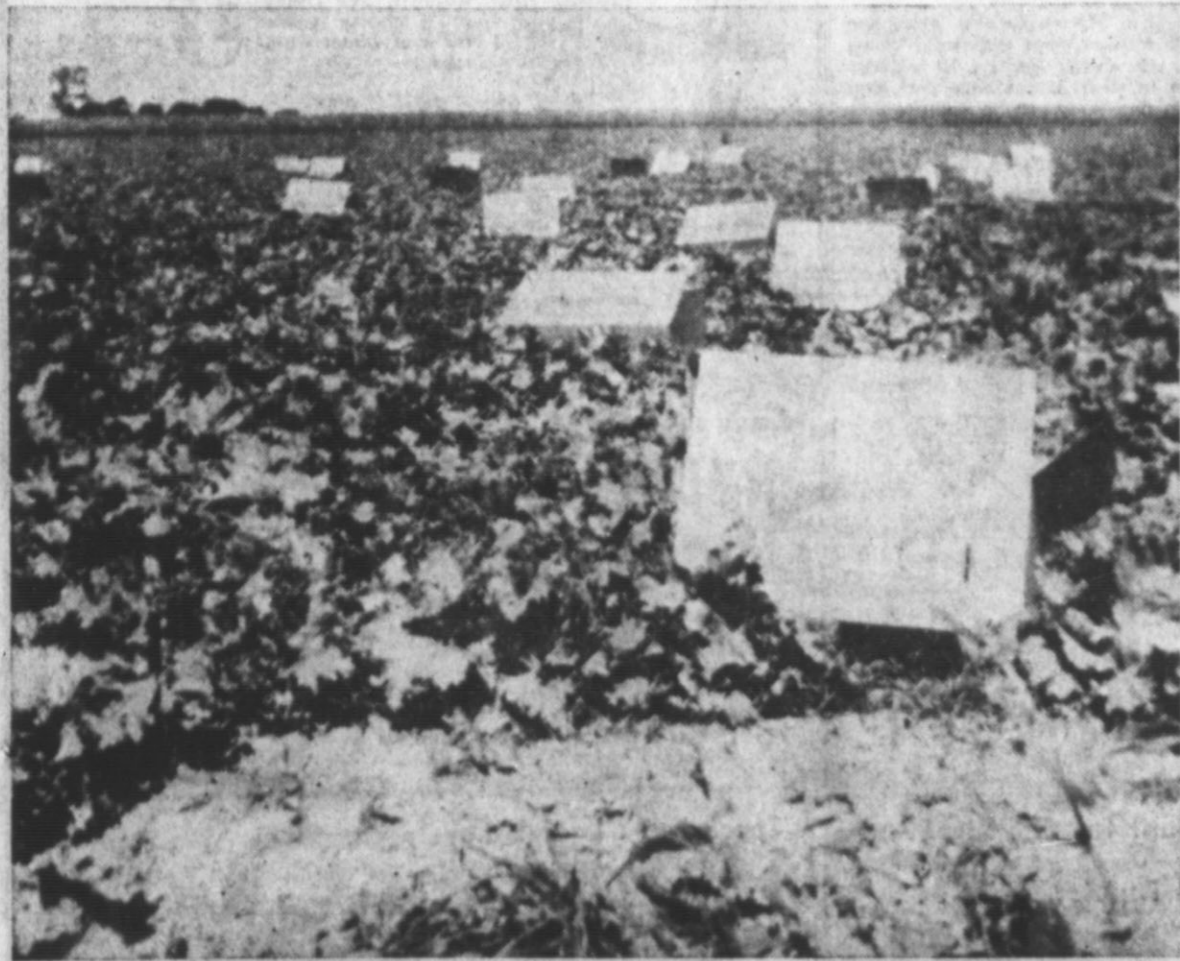

Right now the emphasis is on lettuce, which growers are hurrying to get on the market before harvest in Arizona starts in a few days.

An estimated 4000 acres is of excellent quality and the price rise the first week spurred activity in the fields. Growers of a large acreage of carrots might do well to adopt a popular bakery slogan and urge people to "Get The Rabbit Habit" to help consume a crop that Trautman Bros. has been processing through their sheds for several weeks. Pictures taken at the shed in August show steps for the truck with which the carrots are hauled into the shed after digging and sack-

ing much as potatoes are harvested.

The carrots are then carried over a conveyor where they are washed and graded. Plastic bags, taping machine and scales furnish the necessary equipment for processing the carrots which are crated for shipping. The jumbos go into 50 pound bags for sale in bulk. Some 250 acres of cabbage which has made an average of about 25 tons to the acre reached a high of \$50 per ton at one time during the season but the current price has dropped back to around \$25 dollars which is still a money maker for the grower.

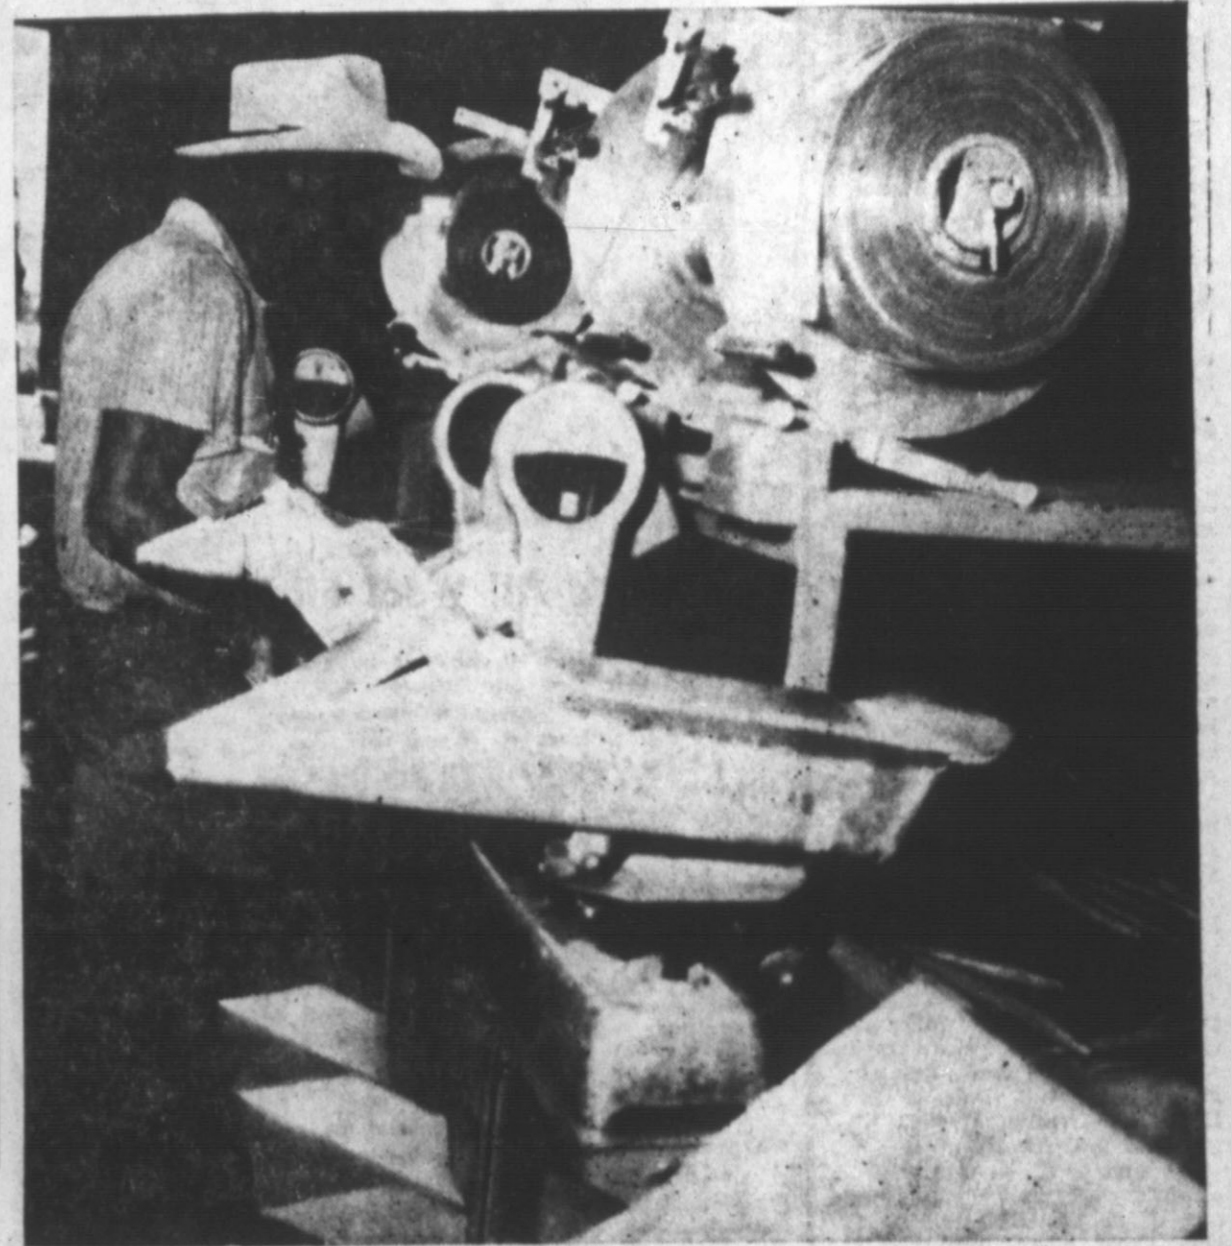

According to some of the growers all of the vegetables are going to the north middle east points at present and also points to the south in Texas. (Staff Photos)

With all that's newest in glamour—and all that's greatest in "go"—the fabulous '56 Pontiac now awaits your hands on the wheel.

And when you drive it, you will get the biggest thrill in all your motoring experience... because this car is *really* loaded!

The big and vital General Motors "First", which heads its long list of look-ahead features, couples the two most advanced high-per-

formance developments in the industry:

1. An all-new, big-bore Strato-Streak V-8, placing 227 blazing horsepower at your toe-tip.
2. A completely new Strato-Flight Hydra-Matic* that delivers this terrific "go" with a smooth surge of power at any speed.

You now sweep swiftly from take-off to top performance with the silent ease of a sailplane.

You slow down for traffic, speed up for passing, or gun for a high hill with the chang-

ing pressure of your toe on the accelerator the only sign of effort.

You may have had it smooth before—but never like this! It literally must be experienced to be believed.

That's plenty—but there's more to make this date long remembered.

There's smart, new beauty and luxury for America's most distinctive car... the safety of big improved brakes... the security of a

smooth new ride and sure-footed cornering.

There are many, many other things which mark this beauty as the glamorous pattern for tomorrow's cars. But come in and see for yourself. Take a long look at the six luxurious new Four-door and Two-door Catalina hard-tops. Sample, in person, the fabulous results of the great General Motors "First".

Sure as you enjoy thrilling action, here's your next car!

APPLE CATS for Halloween have marshmallow features.

Apple Cats To Prowl Halloween

By CECILY BROWNSTONE
Associated Press Food Editor

HALLOWEEN PROWLERS are fun to make from apples, marshmallows and cocktail picks. And so good to eat: If you choose broad-shouldered Delicious apples you'll have whimsical cat faces that are just the right shape.

APPLE CATS

When you are ready to fix the cat faces, dip your kitchen scissors in water and cut the marshmallow in half; then cut one half in half again. (The cut surfaces of the marshmallow will stick to the apple.) Stick the two smaller pieces of marshmallow on each side of a Delicious apple, fairly close to the stem, for perky ears. From the other piece of marshmallow, cut narrow triangles for the cat's eyes and mouth. Insert cocktail picks and you'll have impish faces.

For munching along with the apples, bake cupcakes from a mix; then try topping them with the following frosting.

COFFEE FROSTING

Ingredients: 4 tablespoons butter or margarine, 2-3 cup (one-half of a 12-ounce can) sweetened condensed milk, 2 teaspoons instant coffee powder, 2 tablespoons lemon juice, 1 teaspoon grated lem-

on rind, 3/4 cups (about) confectioners' sugar.

Method: Cream butter; gradually stir in condensed milk until well blended. Stir in instant coffee, lemon juice and rind. Beat in confectioners' sugar gradually until of spreading consistency. Spread on cooled cupcakes. Makes enough frosting for 18 cupcakes. Cupcakes may be garnished further with a little chocolate frosting and wal-

nuts.

ORNAMENTAL FROSTING
Ingredients: 2 to 2 1/4 cups confectioners' sugar, 1-4 teaspoon of cream of tartar, 2 egg whites, 1/2 teaspoon vanilla.

Method: Sift together the confectioners' sugar and cream of tartar; add egg whites and vanilla. Beat with a rotary beater (hand or electric) until frosting holds its shape. Cover with a damp cloth until ready to use.

MOLASSES FRUIT SQUARES
Ingredients: 1-3 cup shortening, 1-4 cup sugar, 1-4 teaspoon baking soda, 1 teaspoon salt, 1 teaspoon cinnamon, 2-3 cup old-fashioned molasses, 1 egg, 1 1/4 cups sifted flour, 1 cup finely-cut dates, 1/2 cup chopped walnut or pecan meats.

Method: Cream together the shortening, sugar, soda, salt and cinnamon. Beat in molasses, then egg. Stir in flour, dates and nuts. Spread in a greased and lightly floured 9 by 9 by 2 inch baking pan. Bake in moderate (375 degrees) oven 25 minutes. Turn out on cutting board or plate. Make confectioners' frosting adding 1 tablespoon grated orange rind and tint orange with a few drops of food coloring. Frost. To cut into squares, make 5 cuts one way and cross with 5 cuts. Makes 36 squares.

SMALL-FRY TODDY
Ingredients: For each serving 1 cup milk, 1 tablespoon old-fashioned molasses, heaping teaspoon whipped cream, nutmeg.

Method: Heat milk; stir in molasses. Pour into mug. Top with whipped cream and sprinkle with nutmeg.

How Can I?

By Anne Ashby

Q. How can I clean oil paintings?

A. Make a thin paste of raw potatoes and clear water. Add some fine pumice stone and rub on the painting very gently with a sponge. Then wipe with a clean cloth and clear water. After the surface is dry a coat of clear varnish is sometimes applied.

Q. How can I restore velvet so that it looks like new?

A. Hold it over a gallon of boiling water, to which one half a cup of ammonia has been added. Hold the underside of the velvet next to the steam.

Q. How can I remove ink stains from white goods?

A. Cover the spot with lemon juice and salt and hold it over a steaming kettle.

Q. How can I remove chocolate stains from clothing?

A. Moisten borax and leave it on the fabric for several hours. This should be used only on white

materials as the borax might take the color out of dyed materials.

Q. How can I keep woollens soft?

A. When laundering woollens, rinse them in the same temperature water as that in which they were washed. They will be nice and soft.

Q. How can I clean suede shoes that have become spattered with mud?

A. Rub the spots with fine emery board from the manicure set. It will loosen the mud, which can then be brushed off easily.

Q. How can I make a fire screen?

A. Form the frame work out of heavy picture molding, into which is placed a sheet of glass for the panel. This will afford protection from the heat and at the same time will give the pleasure of seeing the fire.

Q. How can I prevent stubborn window sashes?

A. Rub the cords of the windows that are hard to open with soft soap, and the sashes will run smoothly.

Q. How can I renovate a seal-skin coat?

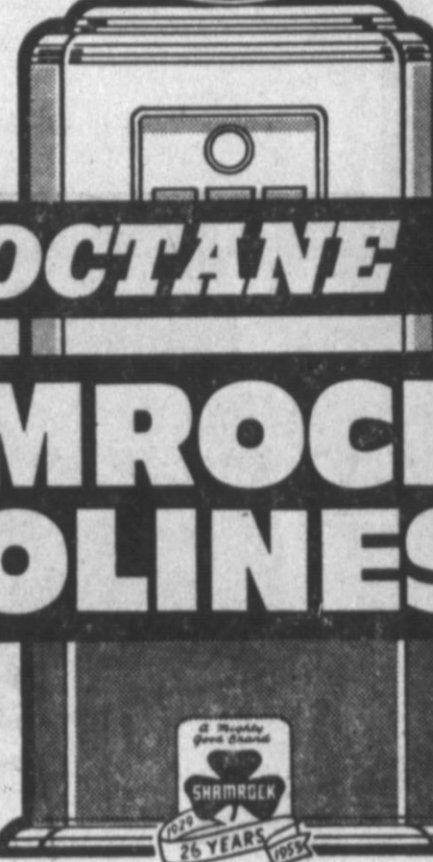

A. One can make last year's sealskin coat look like new by rubbing with hot salt. It will absorb the dirt.

three of the most rabid golfers I know:

WHAT IS GOLF?

"Golf is a form of work made expensive enough for a man to enjoy it. It is a physical and mental exertion made attractive by the fact that you have to dress for it in a \$200,000 club house."

"Golf is what letter carrying, ditch digging and carpet beating would be if those three tasks had to be performed on the same hot afternoon in short pants and colored socks by gouty-looking gentlemen who require a different implement for every mood."

"Golf is the simplest looking game in the world when you decide to take it up, and the hardest looking after you have been at it ten or twelve years."

"It is probably the only known game a man can play as long as a quarter of a century and then discover that it was too deep for him in the first place."

"The game is played on carefully selected grass with little white balls and as many clubs as the player can afford. These little balls cost from seventy-five cents to \$25.00 and it is possible to import a family of 10 people 'all

adults' for five months on the money represented by the balls lost by some golfers in a single afternoon."

"A golf course has eighteen holes, seventeen of which are unnecessary and put in to make the game harder. A "hole" is a tin cup in the center on the "green." A "green" is a small parcel of grass costing about \$1.98 per blade and usually located between a brook and a couple of apple trees, or a lot of "unfinished excavation."

"The idea is to get the ball from a given point into each of the

eighteen cups in the fewest strokes and the greatest number of words."

"The ball must not be thrown, pushed or carried. It must be propelled by about \$200.00 worth of curious looking implements especially designed to provoke the owner."

"Each implement has a specific purpose, and ultimately some golfers get to know that purpose. They are exceptions."

"After each hole has been completed, the golfer counts his strokes. Then he subtracts six and says, "Made that in five. That's one over par. Shall we play for

fifty cents on the next hole, Ed?"

"After the final or eighteenth hole, the golfer adds up his score and stops when he has reached eighty-seven. He then has a swim, sings "Sweet Adeline" with six or eight other fiars and calls it the end of a perfect day."

Buffalo nickels almost went out of circulation here this week, but will probably get rolling again today. The cause of this unusual incident was a "Buffalo Supper," sponsored by Beta Sigma Phi for members and families at the Jaycee Club Tuesday night. Rules for the supper required that each person deposit a Buffalo nickel for each dish he ate—and without the nickel, he just didn't eat.

All in all, this antelope hunting must really be duck-soup. You never hear of anyone failing to get their animal. Even Carl McCaslin went on the second round, and came marching in with a full-grown antelope. There's a nigger in the woodpile somewhere. I don't know where, but when these foam-rubber-chair boys like Carl, Hap Cavness and Harold Banks come home with wild meat for the deep freeze, you can bet there is a catch to the deal somewhere along the line.

I never heard of a deal like this before, but it sounds wonderful, even if you bring the food yourself. There is a sort of consolation to being able to buy a used car or a nickel—even if they are your own. Besides, it's sort of like the "good old days" you are always hearing about. I remember in 1939—only 16 years ago—when Debbs Knox and Buck Richardson had a hamburger emporium where Carter Kean Estate now stands, and the going price on hamburgers was a nickel. However, those boys didn't make any restrictions about buffaloes. They were glad to get any sort of nickel that came along.

About this pheasant hunt! The gang at The Brand office, assisted by my wife, have just about talked me into going to South Dakota. I never saw anything like the way they can twist me around their fingers. Just to be sure that I make no serious mistakes, The Brand Office force is even giving me a briefing on what and how to hunt. I came back Wednesday and found the following "Game Tip" posted prominently on my desk:

Once in a while, when a sandstorm blows up, some of the newcomers in this area are prone to complain. The old timers will, invariably, recall the early days when sandstorms were really bad—and the newcomers usually think they are being kidded. I was reading the other day about the newspaper feud which once existed between the Las Vegas (N. M.) "Gazette" and the Albuquerque "Democrat." The Gazette editor, it seems, never missed an opportunity to jibe at the "village of Albuquerque" and the theory is substantiated from a Gazette reprint of June, 1880, when it reported an Albuquerque sandstorm as follows:

"During the recent gale in Albuquerque, which blew boulders as big as pumpkins and ripped the water mains out of the streets, an old Chinaman was observed in the eastern part of "the village" calmly flying a kite. The kite was made of an old iron shutter with a log chain for a tail."

This, of course, was back before Bob Higgins had even thought of digging Tierra Blanca Creek.

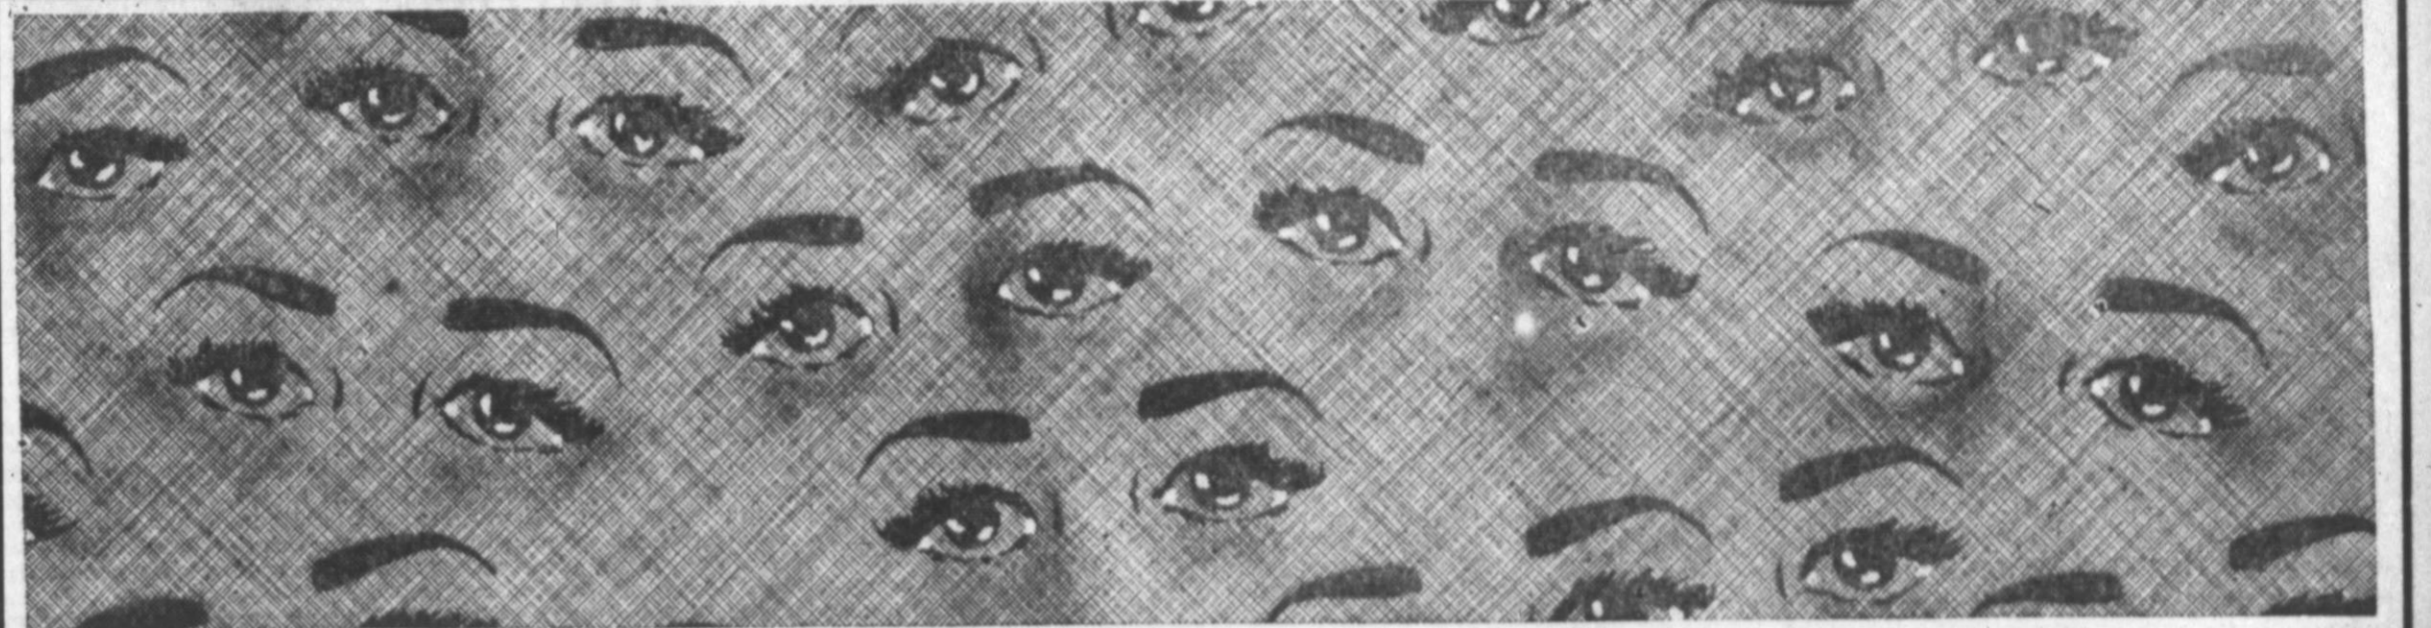

Some women, it seems, have to learn the hard way to rely on the statements their husbands make. Mrs. George May, for instance, asked when her son and husband would be back from the antelope hunt near Dalhart.

"Well," replied George, "you can't shoot before 8 a.m. I'd guess we will have the antelopes by 8:15, then by the time we skin the critters, get back to town and drive from Dalhart to Hereford, it should be just a little after noon."

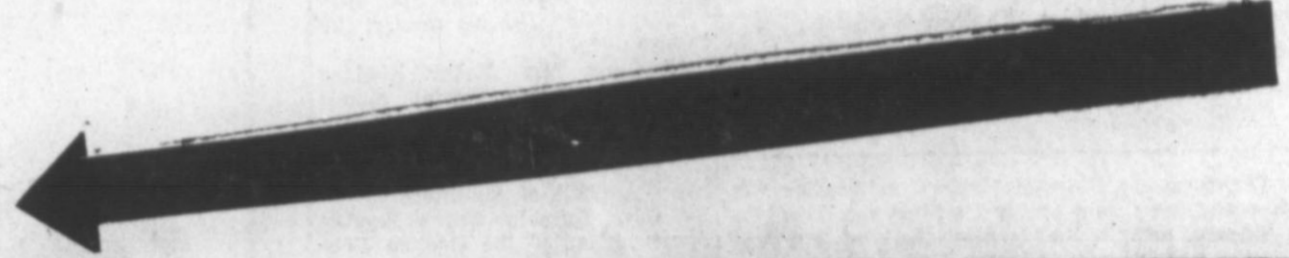

Mrs. May thought the boys were kidding—until they drove up just a little before 2 o'clock, complete with two antelope. Both got their animal shortly after 8 o'clock, just as they had predicted on their time table. Furthermore, I doubt if she will hear the last of the incident for three or four months to come.

Anyway, if you keep on twisting my arm, I don't see how I can resist making the trip. Besides, I am going with my father-in-law, J. B. Castleberry of Wellington and we have a deal which we both think is good. He says if I will pay for all of the necessary expenses, such as gasoline, food, lodging, licenses, etc., he will pay for all of the "unnecessary expenses." It sounds like a real deal to me. Therefore, if the next column is datelined South Dakota, don't be too surprised. You'll know that I finally gave in and decided to make the trip.

Here's an article which Bob Wilson, school transportation manager, located somewhere. I am dedicating it to Pick Harman, Doc Cowan and Dr. J. H. Channer.

Bible Words for Today

JOHN 15:7—"If you abide in me, and my words abide in you, ask whatever you will, and it shall be done for you." (RSV)

This promise of the Master, is often thought to be universal and limitless. For this reason it is frequently discounted and not taken seriously. However, it is such only to those who do not read carefully or think deeply. The promise is definitely limited, and practically related to a very few people. Like all promises, it rests on a condition, and the condition here is drastic. In simple language it means that the Master must dwell within the individual as One who controls completely, and whose teachings have been fully translated into daily action. This means a life entirely given over to Him and His purposes. In such a situation, His will becomes the will of the individual. If He is all-powerful, and all-loving, it becomes most natural and most likely that when such things are asked of Him, they will be given. The promise is sure and certain, in its real meaning and purpose. If we meet the conditions, the answer is certain. Spiritual laws are just as dependable as natural laws. In each case the conditions must first be met.

There has been some change in the Texas Forest Program. There are only three species of trees available. These are: ponderosa pine, red cedar, and chinese elm. These trees are still to be used in wind break planting. No order for less than a total of 100 trees or 50 trees of one species will be accepted.

These orders are to be content and kept in the county until the truck from the experiment station will deliver the trees to Hereford.

Orders must be received in the agents office before March 1. Payment must be remitted with the order. The check or money order payable to Texas Forest Service must accompany the order. The Home Demonstration Council chose Mrs. T. J. Parsons to han-

dle the checks to the Forest Service.

With cabbage plentiful, the office has had a number of calls for recipes for making kraut. Kraut made in a stone jar is usually more successful than in quart jars however, making kraut by the quart has proved popular.

All equipment used should be thoroughly cleaned and scalded by pure salt which is salt which has had nothing added to keep it from lumping. Cheese or daily salt or meat salt is pure salt.

Shred cabbage with a regular cabbage shredder, slaw cutter or a sharp knife. Weigh five pounds of cabbage and add two ounces of salt. Two ounces is approximately four tablespoons. Shred the cabbage directly into the jar without exposing it to the air. Exposure to the air reduces Vitamin C content. Place uneven pieces of cabbage on top of the shredded cabbage. Cover with cheesecloth and a plate. Place a weight on top of the cover.

Kraut turnips and lettuce is made in the same manner. Lettuce kraut is more mild than other kraut.

LOW PRICES ALL ALONG YOUR FOOD LIST

It's fun to be fooled — but it often costs you money. So don't be misled by big type "specials" in food market ads. They make up only a small part of your food list and, as you well know, you can't serve 21 meals a week on a few weekend "specials". You'll find that you'll save more money—and serve better meals in the bargain—when you buy ALL your food needs here where every price is a low price. That means LOW PRICES ALL ALONG YOUR LIST—and more low prices add up to smaller food bills for you.

AFTER TWO STRAIGHT LOSSES

Whitefaces To Meet Powerful Dumas Demons

Herd Has Home Field Advantage

Hereford's stumbling Whitefaces, reeling from two straight setbacks at the hands of mighty Phillips and not-so-mighty Perryton, may find it exceedingly difficult to avoid a third consecutive loss Friday night when they meet powerful Dumas, owners of an undefeated record marred only by a tie with high flying Canyon.

Despite the two straight losses, the unpredictable Herd, who won four straight before getting on the losing trail with a terrific loss to Phillips, will be only a 13-point underdog.

But Dumas' Michigan State multiple offense may be hard to stop. Defense has stood out as a sore spot for the Herd all year, and Dumas' offense is hard for anybody to stop. And Dumas has boasted a fine defense.

Hereford's one shining spot, a bruising ground game, fell on its face Friday night. The Whitefaces were held to 164 yards on the ground, cellar total for Hereford this year. They gained over 300 yards against an uncomparably better Phillips Blackhawk team.

Hereford Coach L. B. Russell has not expressed a pessimistic attitude toward the lash with Dumas, however. "Every team has its off night (or nights). We just weren't playing ball against Per-

ryton. I hope that's our off night for this year," Russell said.

"But I don't deny that Dumas has a fine team. But we've got a lot better club than we showed everybody Friday night. We have a good chance against Dumas."

Russell, at the same time, also said that Dumas' club is not as good as Canyon. He indicated that the Herd may find it somewhat less difficult to stop Dumas than Canyon, but still said that both teams are rugged.

No injuries will plague the Whitefaces Friday night. Tommy Weemes will be raring to go, according to reports. Weemes' ankle injury in the Perryton game was not serious.

Perryton's victory over the Herd Friday night all but eliminated any Hereford hopes of a district crown. Only mathematically do they stand a chance. "But don't sell us short," says Russell. "We'll make it rough on the rest of the teams we play."

The Mighty Mite

Whitefaces Find Weemes Valuable

Little Tommy Weemes, a 130-pound streak of greased lightning, has contributed a great deal toward Hereford's winning four games this year. And had it been left up to him the Whitefaces wouldn't have lost the two games which blotch their record.

He's only scored 12 points all year, but as most Hereford fans agree, he's been worth 20 times that total. And Hereford fans looked pretty concerned when it looked as if Tommy may have a badly injured ankle in the Perryton game.

But he's been having that difficulty all year. He's probably the smallest player in the district, let alone on the Whitefaces. But he's gained plenty of respect from opponents who find him rugged to get by in the middle of the line.

Weemes' defensive play at his middle linebacker post has stood out all year. An excellent pass defender, he turned in one sterling pass interception against the Portales Rams with a leaping catch.

But his offensive play has also gained him respect. Despite his size he's as hard to stop as most big men. Against Perryton he averaged 10 yards per carry on punt runbacks and kickoff returns. He leaped high in the air over his own blockers and Perryton men on one of his fine returns.

So the Whitefaces may have found a box office attraction. The fans like Tommy Weemes whether the Whitefaces win or not.

WORK HARD — Coach L. B. Russell of the Whitefaces works feverishly over Tommy Weemes in Friday night's game with Perryton. Weemes' injury, however, was only

cramps, which have bothered him all year. He should be in top shape for Friday's game with Dumas. (Travis Caraway Photo)

KNOX'S KNOTHINGS

BY BILL KNOX

What will two straight losses do to the Whitefaces? Your guess is as good as mine.

Are they finished for the rest of the year? Has that once-brilliant offensive power pooped out? We've been hearing a lot of these interrogations around town this week.

Well, the smashing defeat at the hands of mighty Phillips came as a shock to no one. But when the Perryton Rangers invaded Whiteface Stadium Friday night and left town with a 19-7 victory in their hip pocket, it did shock the majority of Whiteface followers. Hereford was only a one touchdown favorite, but Hereford coach L. B. Russell had publicly announced that he "felt sorry for Perryton after the Whitefaces had lost so bad to Phillips."

But it looks as if his plans didn't pan out. Nothing went right Friday night. Hereford's offense never got going. Perryton's line would not budge and time after time Hereford backs bit the dust when they tried to break through it. Defense wasn't good although it wasn't as bad as the statistics sound.

But our guess is that it was just one of those off nights that football teams are noted for having. We sometimes wonder if the Whitefaces don't get more than their share. We hope that they got rid of all the "off-nights" Friday night. Hannibal help us against Dumas if they didn't!

But don't get us wrong. We're not backing down on our earlier prediction which says that Hereford will beat Dumas. We do feel a bit precarious about the situation but so would anybody against a fine Dumas club. We hold strong on our conviction that Hereford has a better ball club than Dumas. We also believe that the best team doesn't always win. But we sincerely hope that the best team wins Friday night because the Whitefaces are better than Dumas.

Don't let the loss to Perryton worry you. Maybe it'll be good for the Whitefaces. That's just the way the ball bounces. Maybe it'll bounce the Whitefaces way against Dumas.

Saturday saw one of college football's most tragic weeks. Upsets were very frequent. We think that there were more upsets than there were games that went the right way. Among the more outstanding was Texas A&M's 19-16 victory over very highly rated Texas Christian.

In the Brand football contest, 15 winners took the cake this week. And that's pretty unusual when the winner usually has to get at least 21 or 22. And sometimes even 23. We noticed that none of the seven or eight that wound up with 15 picked the Whitefaces to lose. In fact only three or four out of about 150 picked Perryton to win.

Back to school spirit concerning the Whitefaces we know that there is at least one member (feminine at that) of the Hereford student body who has the right idea. Maybe some of that Amarillo school spirit rubbed off on her. We may need some more.

Teams War; Hawks Rest

IAA football action gets into full swing Friday night as mighty Phillips takes a rest and the other teams fight among themselves.

Canyon, Perryton and Dumas will be handed the favorite role. All except Canyon boast undefeated records. Canyon has only a 7-2 opening game upset loss to Floydada against their record. Perryton has tied two games and Dumas has one tie to mar their record.

Of the three games, the Hereford Whiteface-Dumas Demon game may be the most closely matched. Dumas will be given a 13-point edge, but Canyon and Perryton will be given larger margins over Shamrock and Dalhart.

Dumas has been tied only by powerful Canyon, while Hereford has won four and lost two games—to the Phillips Blackhaws and the Perryton Rangers. The unpredictable Whitefaces, however, with their dangerous offense, make the

lead one that is not too safe. Dumas has receded a bit from their early season form. But Dumas' Michigan State — multiple-type offense may prove too much for the Whitefaces.

Canyon takes on the Shamrock Irish at Shamrock in what should prove to be a breather for the soaring Eagles. Shamrock has only one win this year, an opening game victory over the smaller McLean Tigers. Canyon's edge will probably be about 26 points conservatively.

The Perryton Rangers, fresh from a 19-7 victory over previously favored Hereford, will also be given a big edge over Dalhart, owners of only two wins. Last week Phillips stomped the Wolves 62-0. Perryton probably won't make the score quite so decided but are expected to come out definitely on the long end of the score. The Rangers are yet to lose.

Callaway Takes Scoring Lead

Bill Callaway took the lead in Hereford Whitefaces scoring this week as he scored the Whitefaces' only touchdown in the Herd's 19-7 loss to the Perryton Rangers.

Callaway ran his total to 38 points with the lone touchdown against Perryton, only six more than John Bryant who has 42 points. Callaway has stepped into paydirt eight times, while Bryant has scored seven times.

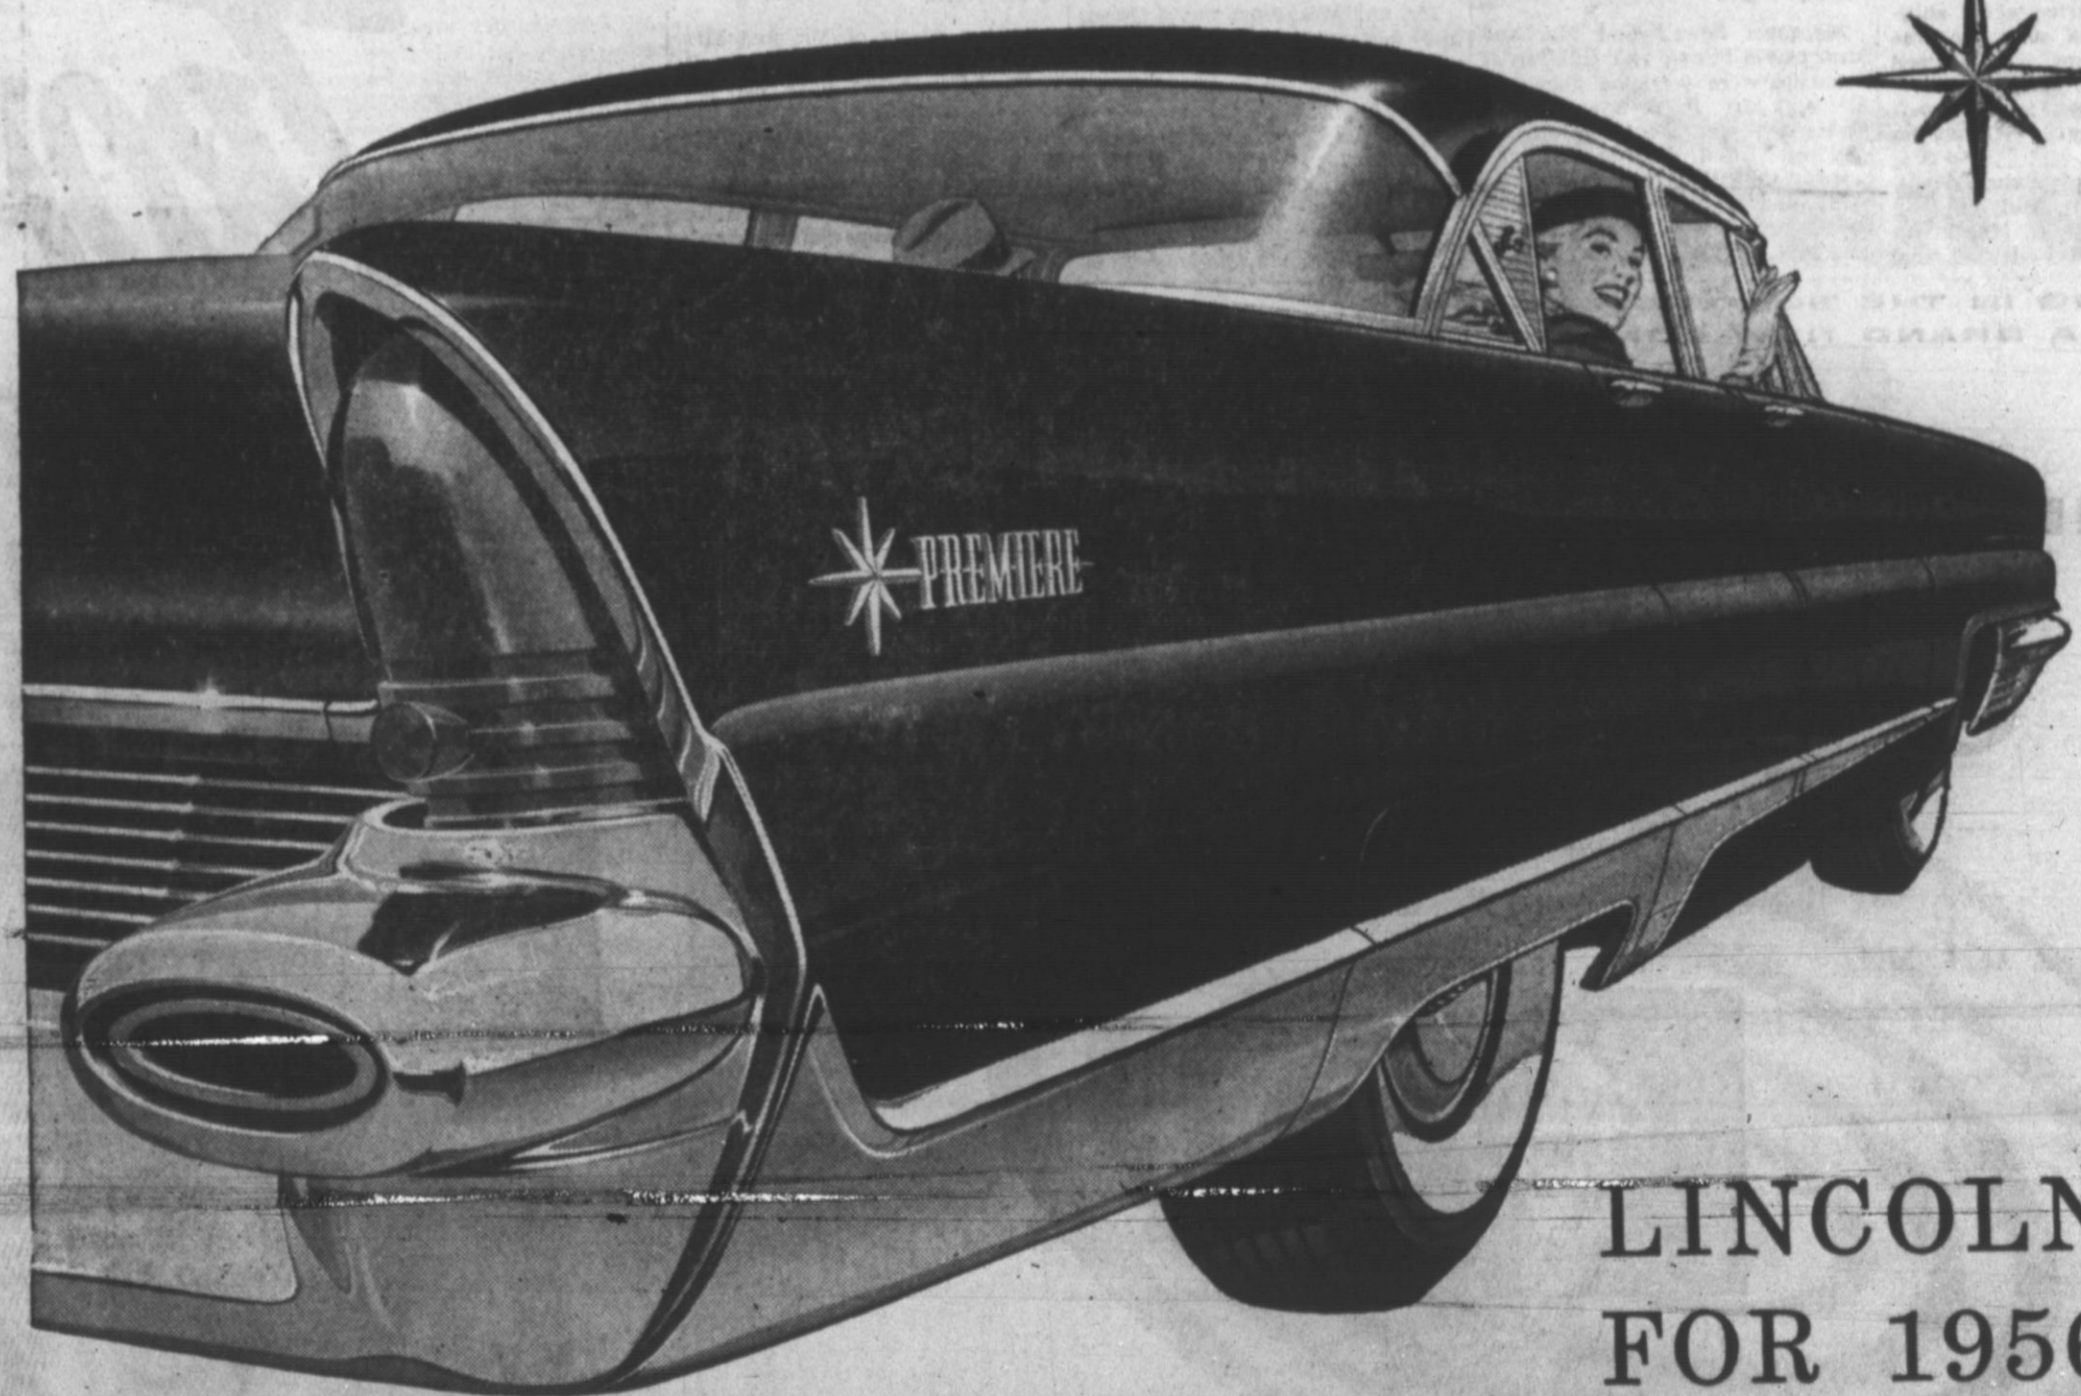

Wayne Smith, hard luck scorer who has had five touchdowns called back this year, boasts a total of 30 points, while G. C. Merritt has 24.

Tommy Weemes has 12 and Danny Elliston, lanky end, has scored 20 points on three touchdowns and two extra points. He caught two touchdown passes against Tulla and one against Muleshoe. He has also caught two passes for extra points.

In other scoring, Glen Reeves has scored six points as has Bobby Veigel. Veigel, while not scoring, caught two fine passes against Perryton Friday night. Walter Kaul, Herd tackle, has kicked 18 extra points.

"Well, well, Dear! So THIS is the office bowling team!"

LINCOLN FOR 1956

Longest... Lowest... Most Powerful Lincoln of all time!

Here — pictured the way you see it as it sweeps majestically by — is the new one that's been turning so many heads. And no wonder.

Lincoln for 1956 — the longest, lowest, roomiest, most powerful Lincoln of all time — is far and away the newest car on the road.

It's a larger, more luxurious Lincoln — obviously. And from hooded headlights to jet-pod exhausts, the refreshing, clean-lined Lincoln look goes beautifully with this great new size. Inside, greater size means more room, and the leg-room, shoulder-room

and hat-room (all increased) comfortably belie the snug-to-the-ground lowness of Lincoln's new silhouette.

And that's just a starter. Match this new Lincoln against any other fine car — on luxury, on safety, and especially on performance — and you'll soon find out why we say this car is the finest in the fine car field.

Most important of all, this new Lincoln is never too proud to prove all we say. Come in any time and take a few turns behind the wheel.

The only completely new car in the fine car field

- New 285-hp Lincoln engine with more usable power than any other car
- New Lincoln Turbo-Drive — most versatile, most obedient of all automatic drives
- New firm, yet gentle ride and effortless handling ease
- New individualized interiors — 29 to choose from
- New safety all around you: Retracted steering column with Safety-Flex steering wheel . . . triple strength safety-plus door locks . . . optional safety belts . . . largest windshield area in any car.

Unmistakably . . . the finest in the fine car field

Mr. and Mrs. Harold Rudd of Estancia, N. M., came Sunday night to visit with Mr. and Mrs. Paul Rudd and Mr. and Mrs. Raymond Wells of Hereford for several days. Their children have been here for some time visiting grandparents.

Mr. and Mrs. Austin Corbin are in Lone Wolf, Okla., this week visiting with relatives.

Mrs. Elmer Combs and Mrs. Ed Blakney went to Dalhart Wednesday to visit the Luther Thomas family.

The Westway H. D. Club met for its regular meeting Wednesday afternoon at the home of Mrs. B. B. Northcutt. Nine members attended the meeting and Mrs. Leo Ohlig gave the demonstration on trash burners.

J. J. Welch, and Ruby and Rawlins of Fortales, N. M., were weekend visitors with Mr. and Mrs. B. J. Northcutt and family. Sunday afternoon B. B. Northcutt, and sons, and T. J. Welch and Rawland attended the air show in Amarillo.

Mr. and Mrs. C. A. Sauley were supper guests of Mr. and Mrs. Cliff Potter in Hereford Monday night.

Mr. and Mrs. Jack Renfro were in Lubbock Thursday on business.

Terry Gearhardt, grandson of Mr. and Mrs. Ralph Mitchell, spent the weekend with his grandparents. They took him home to Amarillo Sunday and visited with Mr. and Mrs. Gearhardt.

Mr. and Mrs. Perry Auten are now living at the Westway farm. Mr. Auten is employed at Corcutt Cleaners in Hereford.

Mr. and Mrs. C. A. Sauley attended the zone meeting for the Auxiliary Tuesday night.

Mrs. Jesse Odom had a near tragedy on Tuesday evening. She left her car running while she got out to open the garage door. Jerry, the Odom's three-year old son, decided he was quite big enough to drive. He stepped the car rolling pinning his mother between the car and the garage, he finally followed his mother's advice about shifting the car and soon she was free. Mrs. Odom was bruised badly but no serious injuries resulted. Jerry has learned that he is not nearly so big, as he thought.

Ralph Morrison, Walter Knul, Woodrow Northcutt, Bill and Edgene Combs and G. C. Merritt attended Junior Odd Fellows Lodge

Wednesday night. Raymond Gago Grand Warden of Texas was initiated at the meeting.

The first session of choir practice for the young people was held Thursday night with their new director, Bud Taylor. There were several attending. The choir will meet on the first and third Thursday nights.

The Sadie Lee Oliver 4-H Club met on Friday with Diedra Thomas as hostess. Loyce A. Sullivan gave the program on "Closet Accessories." Six members and the leader were present. The next meeting will be held at the home of Sandra Campbell and the program will be on copper crafts.

Reed Green accompanied Bob Pitman to Mississippi recently.

Mr. and Mrs. Edwin Morrison of Hereford were visitors in the T. B. Thomas home Friday afternoon.

Mrs. Phillip Miller was a luncheon guest of Mrs. O. E. Sherman of Hereford Tuesday. Mr. and Mrs. Emmett McCathern returned from an extended visit which took them to points in Texas, Oklahoma and Missouri. They visited in Snyder, Chickasha, Oklahoma and Jane, O. They attended an old settler's reunion in Missouri. There were eight of Mrs. McCathern's family there.

Mr. and Mrs. Jack Brown and sons were Sunday dinner guests of Mr. and Mrs. R. L. Wilson.

Mr. and Mrs. Troy Smith and children and Mr. and Mrs. Clarence Boatwright of Plainview left on Monday to attend the State Fair. They returned home Friday.

Long Time Ago

45 Years Ago
A small, but threatening blaze occurred in the Hawkins bake room just before noon. It seems that no one was in the baking department for a few minutes when Jimmy Robinson, the delivery boy, discovered it.

One hundred and sixty acres of land three and a half miles from Wheeler County; 140 acres good farm land, 45 acres now in cultivation, 80 acres fenced; no other improvements. Price \$15 per acre.

25 Years Ago
Combined statements of the three Hereford banks issued on call as of Sept. 24 show totals of \$1,309,892.74 in resources; \$841,150.28 in deposits; and \$788,476.16 loaned out. Short crops and low markets have reduced deposits of individuals to a great extent over the past three months, but the bank resources have a small reduction of only \$65,000.

The Hereford Clinic has been formed and suite of offices taken in the Buckner-Lambert Building over Sprows Cronin Co. In the clinic are Drs. J. W. Hicks, G. F. LeGrand and R. R. Wills. "More Roads, better roads and all-weather roads" was the keynote of the Chamber of Commerce Meeting Monday noon at the Christian Church.

The Whiteface Herd routs Happy

Jacks in best game of the year. The entire squad plays a good game. The Whiteface 11 brought back some of the old glamor last Friday and became a thundering herd again as they stamped over the Happy Jacks 27-0. Ireland, Higgins, Mitchell, Noland, Roger, Orr, Bell, Cliner, Russell, Wilson and Whitehead were in the starting line up. Brumley did not play on account of injuries.

Mrs. A. C. Thompson was elected delegate at the Music Study Club meeting Monday to represent Hereford at the Seventh District Federation Convention. The club met at the home of Mrs. R. P. Conaway, with Mrs. Carl Mountz, vice president in the chair, in the absence of Mrs. Homer Fox.

AUSTIN — Texas public schools will get state aid this year whether integrated or segregated. Right of both to state aid was upheld last week by the Texas Supreme Court. It says the U. S. Supreme Court decision overturns Texas' school segregation laws but does not force immediate integration. Apparently the court action removed need for a special session of the legislature. Litigation originated in Big Spring. Suit was brought by the Texas Citizens Council in district court to prevent payment of state funds to mixed schools. High court judges, in effect, upheld District Judge Charlie N. Sullivan's ruling that portions of state law requiring segregation are unconstitutional. Gov. Allan Shivers was quick to point out that neither the state nor U. S. courts set a deadline for desegregation, but both leave it to local school authorities.

Atty. Gen. John Ben Shepperd, who had sided with the Citizens Council, merely said the decision "settles the law in Texas on a statewide basis." He added that timing will be a "district-by-district matter."

Hospitals Move Forward A priority list has been set up to use the remaining 110 million in the state hospital building program fund during the next two years.

On the day a new medical and surgical building was dedicated at the Austin State Hospital, the State Board for Hospitals and Special Schools decided on this order for new projects, by cities: Mexia, Wichita Falls, Austin, San Antonio and Abilene.

Two others, one in Austin, one in Harlingen, are under construction now. Governor Shivers spoke at the dedication of the \$1,312,000 medical surgical hospital in Austin.

Narcotics Hearings Under Way Texas has been labeled a "national gateway" for illegal narcotics trade from Mexico.

Witnesses so testified before U.S. Sen. Price Daniel's subcommittee in Austin.

Department of Public Safety Director Homer Garrison charged that Mexican authorities are not cooperating with Texas officers in trying to halt the flow of dope across the border. Garrison and W. E. Naylor, chief narcotics agent of the department, testified that 90 percent of the heroin and 98 percent of the marijuana reaching Texas or flowing through Texas, came from Mexico.

Daniel invited the Mexican secretary of state and the Mexican representative on the narcotics committee of the United Nations to attend hearings. They did not show up at Austin, however.

From Austin, hearings went to San Antonio, Houston, Dallas and Fort Worth.

Judge Criticized, Supported Judge Lloyd Davidson of the Court of Criminal Appeals has been the target for both verbal brickbats and bouquets.

Davidson, a new judge, tipped the scales in the court's two-to-one decision nullifying 104 Duval County indictments on grounds the grand jury was illegally constituted.

Atty. Gen. John Ben Shepperd and Duval Co. District Atty. Sam Burris were sharply critical of the court's opinion. They announced plans to file a motion for re-hearing and said they were considering a motion to disqualify Davidson. He had "expressed himself" on the cases before they came before him as a judge, they contended.

Meanwhile, Hunt and Hopkins County Bar Associations sent telegrams affirming their faith in the integrity of Davidson and the court. Hunt lawyers expressed regret that "politicians have seen fit to abuse Judge Davidson."

Texas Farm Income Down Texas farm income for the first eight months of the year dropped six percent below 1954.

PET PARADE — Weldon, left, and Pat Brinkman, sons of Mr. and Mrs. Frank Brinkman, had a busy day when they brought Tippy, their pet dog to town recently. Tippy it seems thought he should investigate his strange surroundings and Weldon ended up carrying the dog around. (Staff Photo)

Decreases in prices of 10 of the 19 major farm commodities account for the slump, said the University of Texas Bureau of Business Research.

Reported down were cotton, cottonseed, wheat, oats, flax, rice, calves, hogs, wool and poultry. Corn prices remained about the same. Increases were noted for grain sorghum, peanuts, cattle, sheep and lambs, mohair, eggs, milk and fruits and vegetables.

Though cotton prices are down, prospective production is up. U. S. Department of Agriculture forecasts put the 1955 Texas crop at four million bales, 150,000 bales more than was expected a month ago. This would be two percent more than in 1954, 18 percent above average.

Ramsey Choice Explained Lt. Gov. Ben Ramsey was chosen national Democratic Committeeman, at the suggestion of U. S. Sen. Lyndon B. Johnson, the Senator explained.

West Texas State Homecoming Due To Attract Many Exes From Here

CANYON (Spl.) — Hundreds of Hereford exes are expected to join the anticipated record-breaking crowd of ex-students for the annual West Texas State College homecoming celebration Saturday. Members of the Class of 1930 will be honored during the day.

Program for Homecoming Day and "Western Days" preceding the celebration has been completed, with the traditional parade, barbecue and football game heading the list of attractions. An assembly, held for the first time last year, will again be featured during the morning.

"Western Days," when students and faculty don western clothes on penalty of being thrown into a tank of cold water, opens Oct. 20 and continues until Homecoming Day. Students get the celebration underway Oct. 19 at the annual Western dance sponsored by Gamma Phi Sorority. On Thursday, Oct. 20, the traditional Homecoming Assembly is slated, and a bonfire and pep rally is to be held Oct. 21.

Exes will begin registering at 8 a.m. in the Administration Building, where they will be given barbecue tickets. A general assembly for students and exes is scheduled at 10:45 a.m., when Luther Roberts, minister of the Gatewood Church of Christ, Borerger will be speaker. Roberts is a member of the Class of 1930. Climaxing the assembly will be the crowning of WT's Homecoming Queen. Campus clubs, organizations and groups will entertain their exes from noon until 3:30 p.m. at teas, smokers and get-togethers. An ex-student band, composed of former

Commission, and steps have started for construction of two \$3 million state buildings in Austin. Texas has dropped from 12th to 17th in national traffic safety ratings by states, according to the Texas Safety Association. Texans entering the armed forces during September totaled 4,698 and 4,249 were separated.

Mr. and Mrs. Thomas L. Collins and sons, Raymond and Bruce, visited in Hereford Sunday evening in the O. F. Sanders and S. O. Perkins homes.

Remember-

How well do you remember? What do you forget? Memory is a powerful tool...it is the measure of the man. If we would tie strings on our hearts, we would not need strings tied on our fingers. We should "Remember the Sabbath day to keep it holy." We would do well to remember to attend church regularly...remember God with one day since He remembers you every day. We are all big debtors. We owe so much to so many. To remember is the heart of the grace of gratitude. God says, "Owe no man anything but to love one another," Romans 13:8. Attend church regularly.

HOMES FOR AMERICANS

FIRST FLOOR PLAN 903 sq ft
SECOND FLOOR PLAN PLAN #P-332AP

AP Newsfeatures
 THE TWO-STORY HOUSE continues to hold favor because of its economy of construction and maintenance. It provides the greatest amount of floor space with a minimum of foundation and roof area. This farmhouse design has a topped living room and dining room, three bedrooms and two bathrooms upstairs and a study with adjacent lavatory downstairs, a good sized kitchen and a big entrance foyer. Sliding door closets are indicated by shaded areas. Breezeway and two-car garage are not shown on above plan. This is plan P-332AP by Samuel Paul, architect, 89-51 164th St., Jamaica 32, N.Y.

CHAMPAGNE RAILROAD NO MISOMNER NEW YORK

The Bath and Hammondsport Railroad, only nine miles long, has the nickname The Champagne Trail.

This tiny railroad, strictly a local enterprise, is located in the heart of the Finger Lakes region of New York state.

The title, Champagne Trail, is no misnomer. The line serves chiefly the wine and grape industry in and around Hammondsport and the Keuka Lake grape belt.

The B and H line was originally built in 1875 as a narrow gauge line to connect Hammondsport to the six-foot gauge Erie at Bath.

Canada's province of Alberta produces 240,000 barrels of oil a day from more than 4,000 wells.

Gus Phillip, to Mr. and Mrs. C. P. Ward, Sept. 26; a son, Frank Paul, to Mr. and Mrs. O. R. Galley, Sept. 27; a daughter, Deborah Lynn, to Mr. and Mrs. C. A. Markham, Sept. 29.
