Around Town

There anything to the rumor Montgomery-Ward will open a store here in the fall—scattered pinpoint it for September. . .

Ground Observer Corp tried to hold its regular meeting Monday but only one person showed according to Clay Angelo. Supposedly the rest were out busily observing clouds, tornadoes, air-rafts and other such items for science. At any rate, if even two show up, the group will meet again July 2, according to Angelo.

Activity over at Central High this week as they prepare to plant the lawn — but nothing about the activity during school that is needed in tearing up the lawn has started.

E. Coleman has gone fishing. Continued On Page 2

Widow Receives \$10,000 Judgment

After an agreed judgment, Mrs. Miller was awarded a settlement of \$10,000 by the Santa Fe court Saturday. The settlement was a hearing Thursday in the District Court by Judge Harold L. Schultz and, prior to the settlement, was scheduled before Monday.

The case centered around the death of her husband, Gordon B. Miller, 49, who was killed Nov. 11, 1954, at the Lee Street crossing in Hereford, when his car collided with a Santa Fe freight train. Mr. Miller, an employee at Consummation on his way home when the accident occurred around 7:30 p. m.

Postal Receipts Up 20 Cents Per April

Postal receipts were up slightly from the month of April. Office officials reported this week.

Receipts for the month of May totaled \$25,346.35, only 20 cents more than the April receipts. They were about \$800 over May, 1955, when receipts totaled \$24,537.15.

However, officials said the May average was about average for this time of year.

Year Totals \$25,779.84. The May total brings the year's receipts to \$25,779.84. The monthly average for the year is \$2,148.32, which is approximately 20 cents less than the May total.

Yearly average for the year is \$2,148.32, which is about 20 cents less than the May total.

Receipts for the month of May totaled \$25,346.35, only 20 cents more than the April receipts. They were about \$800 over May, 1955, when receipts totaled \$24,537.15.

However, officials said the May average was about average for this time of year.

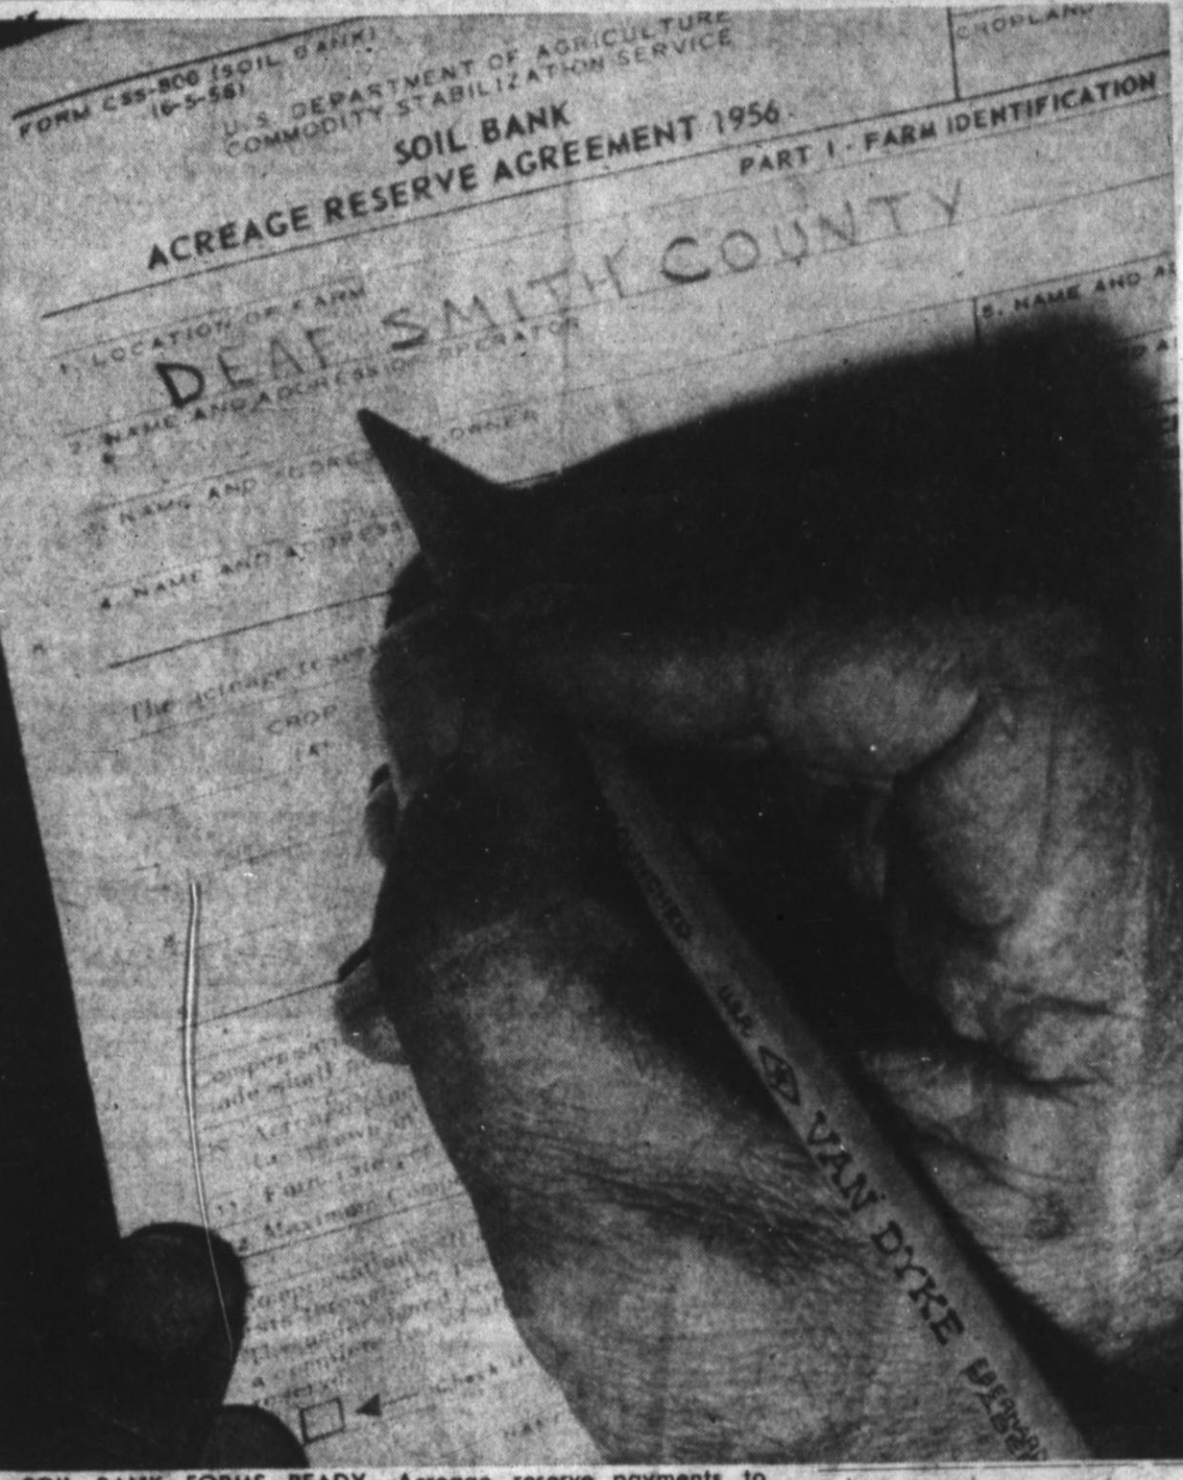

G. Chapin, 91, Buried Tuesday

Thomas Gilbert Chapin, a 91-year-old resident of Hereford since 1915, died Saturday morning in the Deaf Smith County Hospital after an illness of three months. Mr. Chapin resided at 326 Avenue J, Hereford.

Funeral services were held on Monday, June 19, in the Liberal Baptist Church of Christ, J. V. Disminger, minister of the Central Church of Christ, Hereford, in charge.

Mr. Chapin was born Oct. 24, 1864, in Iowa. He was married to Mrs. O'Neal in Missouri Sept. 1888. He came to Hereford in 1915 from Liberal, Kans. He was a retired farmer and a member of the Central Church of Christ.

He is survived by one son, L. C. Chapin of Erie, Pa.; one daughter, S. D. C. Allison, Hereford; 13 grandchildren, 27 great-grandchildren, and two great-great-grandchildren.

SOIL BANK FORMS READY—Acreage reserve payments to farmers are expected to be made in the immediate future. A district meeting of Agricultural Stabilization and Conservation officials yesterday was scheduled to give farmers the soil bank's operation for the 1956 crop in the high Plains. If approval is gained for payments on wheat raised by drought and hail, Deaf Smith farmers may reap payments of \$6 per acre, up—which could bring immediate benefits of over one million dollars to this area. (Staff Photo)

Airport, Bull Barn Discussed By Court

Two groups of businessmen met with the Commissioners' Court on Tuesday morning. The first asked regarding plans for replacement of the fire-damaged Bull Barn. The second was interested in building an airport with the aid of the recently announced \$139,500 federal funds grant.

The commissioners revealed that within the week they plan visits to livestock show facilities in neighboring counties. Before making definite plans for the type and size building to replace the Bull Barn, they will carefully study the county's needs.

No Action On Airport. No action was taken on the airport issue. Dr. H. A. Cavness was spokesman during the meeting for a group of farmers, stockmen and other businessmen who last week pledged themselves to promote the building of an airport to serve this area's needs.

In other action during the morning session, the commissioners accepted two bids.

The first, an offer of \$2500 for the old nurses' home on the county hospital grounds, was made by James W. Witherspoon. The court last week had rejected two bids of \$1060 and \$1099, respectively. The converted barracks structure is to be moved within 45 days.

Ed Tiefel was awarded the contract to do the carpentry and the plumbing work on the jury dormitories to be constructed in the courthouse. His final bid for the job was \$3,169.83. Parker Bros. Builders Supply had bid \$3,141.34.

The higher bid was accepted in view of the types of storm windows offered and preliminary design work for the job by Tiefel. Action on disposition of the Bull Barn was tabled until Monday.

Women's Hair-Do Problems Wreak Swimming Plans

The men should have asked the women before they planned their 'for women only' swimming session.

The women thought it was a good idea, essentially, but said the timing was off.

Here's what happened: Originally, Cubby Kitchens and Jiggs Hudson planned stag night swimming for Tuesday, and women's night on Friday.

But they reckoned without the beauty parlors and hair-do problems. Seems most women get their hair done on Thursday or Friday so they'll look right sweet for the weekend. Friday night swimming could play havoc with a freshly set hairstyle.

But by Tuesday the weekend is over; and as for the men, they don't get their hair "set" anyway.

Only \$7500 Needed To Match Gift For Hospital Wing

Reports are due back today from teams of men who this week blanketed Deaf Smith County in an attempt to collect donations or pledges toward the last \$7500 needed to match the \$50,000 gift which Jim Hill estate offered the Deaf Smith County Hospital.

\$42,500 Pledged. As of Monday, \$42,500 had been pledged or given to the hospital in answer to an offer which the estate of the late Deaf Smith County rancher made to the hospital board in April.

At that time, they offered to give \$50,000 toward construction of a children's wing if the county would match the gift. Under the terms of the offer, construction must start before Aug. 17.

With less than two months before the deadline, hospital board members asked the Chamber of Commerce if they would assist in the drive.

Monday morning, at a breakfast meeting in the ballroom of Hotel Jim Hill, C of C members met with board officials, agreed to sponsor a drive to collect remaining funds.

Divided into teams of two, the group were given lists of prospective donors, and contacted them this week.

Individuals, business firms and clubs have contributed the funds which are already donated, according to Wayne Thomas, board chairman.

Copulating Drive. C of C members assisting are Don Little, Hap Cavness, Francis.

Lewis Stringer Dies In Tulla

Funeral services were held on Wednesday in the First Baptist Church of Tulla for Lewis Stringer of Dimmitt, brother of T. H. (Pete) Stringer of Hereford.

He had been ill for quite some time, but was hospitalized Saturday in Tulla. A long time resident of Swissler County, he had visited in Hereford with his brother quite often.

Mr. and Mrs. Stringer were in Tulla, Wednesday, to attend funeral services.

Other survivors include his wife his mother, Mrs. R. L. Stringer, four other brothers, R. L. Jr., Don L., both of Tulla, Lester of Corpus Christi and Joe of Houston, and two sisters, Mrs. Delbert Bivens of Tulla and Mrs. Hugh Dubberly of Los Alamos, N. M.

HOW BIG WILL HIGH SCHOOL GROW TO BE?

BAYNE'S BUSY

New City Manager Gets 'Duty-Bound'

New City Manager Dudley Bayne received a flock of directions on Monday night when he met with the City Commission. The directions, in substance, were:

"Advertise for bids for a new police car. One of the present two is about used up;

"See what can be done about replacing a trash truck;

"Make sure the new city well's concrete foundation is high enough to keep it above flood waters;

"Find out the reaction of city employees to the adoption of the Federal Social Security program for them."

That was the substance of duties outlined for the smiling man from Canyon.

Bayne, who had earlier in the day struggled with the personal problem of moving his family here from Canyon, appeared ready and able to "keep the ball rolling" in the business of keeping city services and facilities operating.

With Mayor Henry Sears, Commissioner Neil Cooper and City Attorney Earnest Langley, Bayne discussed several other prospective needs of the city:

Air conditioning for the city tax collector's cubby hole at City Hall; moving the City Judge's office from the manager's office to an upstairs location and a revised building code.

The need for a building code was made apparent by a petition from residents of North Miles who complained about the presence in the 700 block of an old, incomplete and unoccupied apartment building. Langley noted that the

city has no basis now for legal action regarding the structure.

The meeting ended and Bayne dashed home, hoping that the movers had assembled his bed and that his wife had been able to locate his shaving equipment.

Commissioner Raylan Evans was not present at the meeting. He is on a two-weeks' vacation in Colorado.

Mr. Tiefel Named County Surveyor

The death of Pioneer Alex O. Thompson, county surveyor, created problems for builders and construction firms. This fact was noted — and the work he had done for decades was seen in more noble stature — during two meetings here this week.

The Commissioners' Court on Tuesday appointed George Tiefel to act as county surveyor until the next general election.

The City Commission, reviewing appeals from Hereford builders for help in surveying problems, agreed to permit off-duty surveying work by Monroe O. Moore, city engineer. It was specified that Moore would not act in his official capacity in making plot locations.

In both meetings it was noted that before his death on June 1, Thompson's charges for his work were three to five times lower than fees required by surveyors in neighboring cities.

Ralph Yarborough has scheduled a speaking appearance in Hereford at 10:20 a. m. Friday. He will be the first gubernatorial candidate to appear here this year.

Yarborough plans to speak on the west side of the courthouse square, said Louis H. Woodford.

The candidate will also speak tomorrow in neighboring towns after appearances at Amarillo and eastern Panhandle cities today.

RALPH YARBOROUGH

Mr. Tiefel Named County Surveyor

The death of Pioneer Alex O. Thompson, county surveyor, created problems for builders and construction firms. This fact was noted — and the work he had done for decades was seen in more noble stature — during two meetings here this week.

The Commissioners' Court on Tuesday appointed George Tiefel to act as county surveyor until the next general election.

In both meetings it was noted that before his death on June 1, Thompson's charges for his work were three to five times lower than fees required by surveyors in neighboring cities.

Election Petitions Withdrawn Due To Illegal Wording

The state liquor control board has ruled that wording is illegal on the local option petition circulated here for the past four weeks.

The petitions were withdrawn from circulation on Monday night, just four days before the deadline for their return. The legal option headquarters here expects new and legal petitions will be ready for circulation next Monday.

County Clerk Ralph Smith said that his office has ordered the new petitions. The deadline for their return will be 30 days after they are issued. He expects they will arrive in Hereford this weekend.

A spokesman for the group circulating the petitions said that the liquor control board made its ruling after it was noted the petition called only for an election to be held "for" legal sales.

The petition should have been worded "for or against" legal sales of alcoholic beverages, according to the spokesman.

A total of 816 signatures of qualified Deaf Smith County voters will be required on the petition to force an election on the issue. The withdrawn petition was unofficially reported to have 650 signatures.

Wheat Harvest In Stride With Yields Up to 77 Bushels

The combines are rolling in Hereford area irrigated wheat fields. "The harvest season will hit its peak in a very few days," reports Hugh Clearman, county agent.

"We need to get 15 million bushels right now," says J. B. Patterson of the Texas Employment Commission office.

Stephan Gets 77. Some exceptionally high yields have been reported. The best to date has been 77 bushels per acre on a 18 acre patch grown by Weldon Stephan on the H. D. Robbins farm in the Erie community seven miles south of Hereford.

Farmers note that reports of yields in the 40-70 bushel range have generally come from isolated fields that escaped the ravages of insects. Greenbugs and brown mites seem to have kept yields skidding below the 20 bushel mark.

Most wheat is being stored in local elevators after it is harvested. Cash grain price is about \$1.84.

The support price for grain placed in government loan has been set at \$2, but some change is anticipated when parity is computed for June 15 by the U.S. Department of Agriculture.

Loan forms have been received by the Agricultural Stabilization and Conservation office, but "we haven't all of the information necessary to process loans," says Faust Collier, manager. Deductions to be made for storage and other costs from the loan rate have not yet been computed.

Map Changes In Operation Of Cafeterias

How big will Hereford High School become?

In a called meeting Tuesday night, the board of trustees spent two hours pondering this question. The possibility of a need for expansion of the present school plant was discussed with its designer, B. R. Cantrell of Cantrell & Co., Architects, Pampa.

Current school census figures indicate the building will have an increased enrollment for the 1957-48 school year of 150 more than during the last term — when the building was filled to capacity.

Exact enrollment figures for the coming year won't be known until school opens Sept. 4.

"Then, we will get a definite count," said Fred J. Cunningham, superintendent.

Built for Expansion. Cantrell suggested that if a need for expansion is to be acted on by the board, the building was planned for additions on the north. "I would recommend a two-story addition to conform with the present design," the architect said.

He estimated that increased building costs will make construction cost around \$13 per square foot, compared to the \$10.47 square foot cost of the present school building on contracts let July 15, 1953. An eight-room addition would require an expenditure of about \$125,000, according to Cantrell's off-the-uff estimate.

No definite action on the growth problem is planned by the board before September.

Cafeteria Change Planned. The trustees approved preliminary plans for a change in operation of school cafeterias.

Cunningham said that the change may enable the school lunch program in the county to operate at an annual profit of \$4000 to \$6000—compared to a loss last year of about \$2000.

The new lunch program will bring home economics teachers and homemaking students into the role of meal planners for the cafeterias. Requests from individuals in the school body will also be given careful consideration by the menu planners, Cunningham said.

Central Office Buys Supplies. Menus will be planned to gain greater patronage from students for the cafeterias. All supplies for the cafeterias will be obtained from one central office, that of

WHEAT HARVEST NEARS PEAK—Combines are rolling in every direction from Hereford this week as the grain rapidly reaches maturity. Less than 90,000 acres of wheat are expected to be harvested in Deaf Smith county this season. Drought cancelled a big percentage of the 219,000-acre wheat allotment. Local elevator operators report grain being delivered is of very high quality. (Staff Photo)

Day Center Opens Monday

DAY CENTER OPENS—Bennie Zermeno reads a story while Miss Kaye Caillut and two Latin-American children listen. Zermeno and Miss Caillut opened the center Monday and plan several activities for the classes. The two workers are sponsored by the Federated Churches of Hereford, and were trained for their work with the children at a summer conference at Benton Harbor, Mich. (Staff Photo)

Labor Camp children welcomed the opening of the Day Center on Monday.

Under the direction of Miss Kaye Caillut of Dallas, and Bennie Zermeno of Houston, the center was opened with more than a dozen Latin-American children on hand to enjoy the facilities available.

Hereford is the only city in Texas at this time which has a project such as the Day Center at the Labor Camp.

Open Each Weekday

The Day Center will remain open each weekday until July 28. The day nursery has kindergarten classes each morning from 9:30 a.m. until 12 noon for children up to eight years old. Activities of the children consist of story telling, games, arts, and music. In the

afternoon from 1:30 until 3 p.m., the children from nine to 12 are invited into the center, and arts and crafts are taught them.

Miss Caillut and Zermeno also are conducting a teenage night for the Latin-Americans, each Wednesday at 7 p.m. Their activities will include cooking, arts and crafts, and discussion groups.

Family Night Scheduled

A family night will be held each Thursday evening at 7 p.m. with films, singing, refreshments, and games for the Latin-Americans. Tentative plans are also being made for conducting language classes, but no dates have been set yet.

Miss Caillut will be a junior at Phillips University in Enid, Okla., this fall. She is living with the A.M. Petersens during her stay in Hereford. Zermeno, a senior at Southwestern University in Georgetown, is staying in the home of Mrs. S. L. Easley.

The two young workers were selected by the National Council of Churches for this work, and were trained for their work here at a training conference at Benton Harbor, Mich.

Reunion Held Father's Day At McGehee Home

Mr. and Mrs. William McGehee celebrated Father's Day with the members of their family, including daughters, sisters, nieces, nephews, and great-nieces all present for the occasion.

Mrs. R. O. Hupp of Long Beach, Calif., their daughter, arrived Saturday to be here for Father's Day. She will remain as their guest for several weeks. Another daughter, Mrs. R. O. Stark, has been visit-

ing several weeks from O'Donnell. She was joined by her husband, and on Tuesday the couple left for a vacation in California.

Also here Sunday were Mr. McGehee's sister, Mrs. L. S. Kennedy, Olton, and her two daughters, Mrs. Bill Yates of Olton and Mrs. Ruth Gautier and daughter of Plainview. A nephew, Lloyd Cowart, and Mrs. Cowart and Mr. and Mrs. Walter Shyrer, also of Olton, were present for the Father's Day get-together.

How Big...

Continued From Page 1
Bill Stanford, assistant superintendent.
Dietician Mrs. Claude Francis, who aided in planning the new

cafeteria program was employed upon her request last night as an elementary teacher for Central School. Mrs. Lena Fae Nivens, formerly of Estelline, was also hired for the Central teaching staff.

The trustees accepted the low bid of Charlie Seed Motor Co., to furnish a new school car for use by the staff. Kinsey Buick Co. won acceptance for its bid to furnish on a rental basis a car for the driver education program.

New Mower Purchased
Approval was granted to purchase a \$1,231.50 El Toro mower for use on the school grounds. Stanford said, in asking for approval of this purchase, that he believes the machine will pay for itself in labor savings during one season.

Purchase of 132 new chairs for the school library at \$2,728.20 was

approved.
Elementary school zones for the coming year were set-up, and the curriculum offerings for high school students were approved.

The zone maps and a complete listing of subjects will be printed in The Sunday Brand.
Only addition to the list of courses available for high school students will be second-year Spanish, Cunningham said. Board members noted that Hereford's curriculum compares favorably with that of several larger schools in the area.

Household Tips

Wonderful first course: Deep-fat fry a shrimp with a light crispy crust served with a dunk of soy sauce, sugar and grated white turnip radish. Inspired by the Japanese cuisine!

Small amount of turkey, chicken, duck, roast pork or ham left over from Sunday dinner can be Monday's lunch or supper. In the diced cooked meat with red rice, salad oil, finely diced onion, strips of green pepper or lentils and heat in a large skillet. Season with soy sauce.

Meat membrane-free orange segments in a spicy sugar syrup and served with poultry or meat. Whole eggs and stick cinnamon may be used for spicing the syrup.

Many good Florida cooks use coconut with fish as well as in desserts. If you don't like tedious job of grating coconut, you may put it through the food chopper.

Strawberry jam is widely available in supermarkets. This sweet red jam makes a delightful addition to a fruit cup when used with discretion.

Add sliced strawberries to vanilla pudding and use as a filling for angel food cake. Cut the cake swiss in three layers.

Simple but scrumptious sauce for meat: currant jelly mixed lightly with prepared mustard. Don't try to mix smooth; leave the jelly lumpy.

Pretty salad plate for lunch: top with aspic (canned or home made) and crisp greens.

Ever add a little pure vanilla extract to sliced peaches? Hauntingly good!

You'll need to add about two tablespoons of hot water to a cup of red confectioner's sugar if you are making a glaze for a coffee cake.

Sliced crabapples are readily available at most food markets. The syrup from the fruit for roasting a clove-studded boneless pork shoulder butt. Heat the crabapples and serve as a garnish for meat.

Grapefruit sections and red-orange rings make a delectable salad when teamed with romaine and ranch dressing.

Lemon juice helps to tenderize meat. So add thin rounds of fresh onion to Swiss Steak for both texture and flavor.

Add a dash of curry powder to your marinade for lamb or beef ribs.

A cup of medium white sauce will be enough for a 6 1/2 or 7-ounce can of tuna when you are preparing the fish cream-style.

Aluminum foil may be had in a variety of packages: the foil comes in sheets, each 12 by 10 1/2 inches that may be pulled out easily.

Leftover white fish in the refrigerator. Mash it with a beaten egg and shape into patties; fry lightly on both sides in butter or margarine.

Want new flavor for your standard loaf of banana bread? Add a half teaspoon each of cinnamon and nutmeg.

How Can I?

Q. How can I remove old varnish from furniture that is to be finished?

A. One of the best ways is to use three tablespoons of cooking soda in a quart of water and apply liberally with a rough cloth. Newspaper will then remove the varnish very easily.

Q. How can I make a new tag on a shoe?

A. If the metal tag comes off the end of a shoe lace, press a piece of melted black sealing wax around the end of the lace and shape it to form a tag.

Q. How can I prevent the colors of cotton materials from running?

A. Stir into the first suds in which cottons are to be washed a tablespoon of black pepper, or 3 tablespoons of turpentine.

Q. How can I remove oil or grease from marble?

A. Take 1 part of soft soap, 2 parts of fuller's earth, 1 part of soda. Add enough boiling water to make a paste. Cover the stains and allow it to stand for a few days. Then wash off and polish.

Q. How can I prevent the icing from running off a cake?

A. Dust a little flour over the top of the cake before it is iced.

Q. How can I improvise a good candle holder in an emergency?

A. Use a large iron nut, with a hole about the size of, or a little smaller, than the candle. This occupies a small space and its weight prevents the candle from tipping over easily. The nut can be painted an attractive color if desired.

Q. How can I whiten clothes?

A. Put a few slices of lemon, with the rind on, in the boiler, and boil with the white clothes. This removes stains and makes the clothes white without injury.

Q. How can I remove ink stains from washable fabrics?

A. Cover the spot with a paste made of starch and buttermilk. Allow this paste to dry and then wash the goods in warm water. Q. How can I determine the quality of a mop when buying one?

A. A good method of testing is to shake the mop well and see if the strings stand alone and do not mat together. A good quality mop will have strings that hang straight and free from each other.

A. Cover the spot with a paste made of starch and buttermilk. Allow this paste to dry and then wash the goods in warm water. Q. How can I determine the quality of a mop when buying one?

A. A good method of testing is to shake the mop well and see if the strings stand alone and do not mat together. A good quality mop will have strings that hang straight and free from each other.

Q. How can I whiten clothes?

A. Put a few slices of lemon, with the rind on, in the boiler, and boil with the white clothes. This removes stains and makes the clothes white without injury.

Q. How can I remove ink stains from washable fabrics?

A. Cover the spot with a paste made of starch and buttermilk. Allow this paste to dry and then wash the goods in warm water. Q. How can I determine the quality of a mop when buying one?

A. A good method of testing is to shake the mop well and see if the strings stand alone and do not mat together. A good quality mop will have strings that hang straight and free from each other.

Q. How can I whiten clothes?

A. Put a few slices of lemon, with the rind on, in the boiler, and boil with the white clothes. This removes stains and makes the clothes white without injury.

Q. How can I improvise a good candle holder in an emergency?

A. Use a large iron nut, with a hole about the size of, or a little smaller, than the candle. This occupies a small space and its weight prevents the candle from tipping over easily. The nut can be painted an attractive color if desired.

Q. How can I whiten clothes?

A. Put a few slices of lemon, with the rind on, in the boiler, and boil with the white clothes. This removes stains and makes the clothes white without injury.

Yankees Take Lead As Giants Win First Game

Cards Take Loss, 5-3

Blue Turpin's Giants won their first game of the year here Monday night. While doing so they deprived the Cardinals of their first victory.

The Giants stopped the Cards, 5-3, on the strength of clutch pitching by David Dowell and Ken Loerwald and slick fielding which was guilty of only one error.

The Cardinals came back to win the minor league game, 13-9.

The beginning of the game indicated that it might be a higher scoring affair than it turned out to be. Both teams scored a pair of runs in the first inning, but then the contest developed into a pitcher's duel. Starter for the Giants, David Dowell, got credit for the win while Jackie Nichols is the loser.

Bombers Nip Brooks With Rally In Sixth

The Yankees scored two runs in the bottom of the sixth to nose out the never-say-die Dodgers, 9-8, here Tuesday night.

With the victory, Bronx Bombers move into undisputed possession of first place with three victories and no defeats. The Bums move to second place, ahead of the Cardinals.

Butch Hoff of the Yanks yielded 11 hits while getting credit for the win. Lynton Allred gave up eight hits to the Yankees.

The Dodgers never trailed for long — until the sixth inning. The Bums made a habit of overcoming a Yankee lead. However, their final one-run lead which they carried into the last inning couldn't hold up to the Yankee onslaught.

The Bombers took an opening lead with one run in the bottom of the first after Hoff had blanked the Brooks. Jay Boynton led off with a double. He stole third and scored when Ron Greenway grounded to shortstop Barry Gabbert.

But the Dodgers were quick to erase the lead. Jerry Curtisinger opened the second with a double. Lynton Allred smashed a sizzling single to score Curtisinger and took second on the throw in. After taking third on David Gray's dribbler to the pitcher he scored on Donald Payne's long fly to right.

However, the Yankees didn't stay behind long. John Buck smacked a single and took third when the ball was fumbled in the outfield. Drew Kershen was hit by a pitch and stole second. Van Smith drove both runners across with a single to put the Yanks ahead, 3-2.

The Dodgers exploded in the top of the fourth with five tallies which put them four runs ahead of the Yanks. Lynton Allred connected for a single, and David

Morton Slates Golf Tourney

Hereford golfers are invited to participate in the first Invitational golf tourney ever sponsored by the Morton Country Club. It will start today and close Sunday.

A \$10 entry fee affair, the event is planned to accommodate 100 golfers from the area.

Those wishing to enter are asked to send or phone their qualifying scores to Roy Tarver Jr., Morton, but if they want to compete for medalist honors and enter the championship flight, the qualifying round must be played on Thursday.

Match play will begin at 6 a.m. next Friday morning, June 22, and the tourney will end Sunday.

One of the big features of the tournament is the total of \$1000 in prizes to be awarded. The awards will be in the form of merchandise.

Earl Crum is president of the Morton Country Club.

However, the Giants countered with a loner the last run of the game, in the bottom half of the inning. With one out Duncan walked. He advanced on an error then scored on Eugene Jennings' second hit of the night.

KNOX'S KNOTHINGS
Can Softballers Cop With Little League?

The Hereford Softball League made a wise choice when they elected not to play in the new Little League Baseball Park. They are to be commended for their foresight in seeing that their playing on the field would literally put it in a state of ruins. They played only one game on the field, and that was enough for everybody.

It was not hard to tell that the softball league's playing on the field would do plenty of damage. They had sense enough to see this. They could also see that the hours would be too late; their game would start usually around 10 p.m.

The only thing which the new park wrought as a benefit for the softballers was that additional people, other than those who ordinarily watched softball games, might stay after the Little League game to watch softball. But at that no admission was allowed and a hat would have had to be passed.

The VFW and American Legion had earlier given the league an ultimatum—point Veteran's Park if you want to play in it. The league decided to point Vets Park and then saw the opportunity to play in the brand new Little League Park. They got permission from Little League and the school board.

They're in the same rut as they were now—only the rut is twice as deep. They are now confronted with a problem of being in direct competition with one of the most successful baseball programs in the world; and it's made a big success in Hereford.

As far as we can find out from softball president Wendell Burdine, the league plans to play four nights a week, one game a night, the same nights as Little League plays. They'll have to charge admission so they can pay for the lights, about \$10 a night. Doesn't sound like much, but when you get to thinking about the few people that attend and pay admission, it's quite a sum.

This year attendance doesn't promise to be better, but worse. They can't compete with the impression Little League has made of Hereford.

The brand of softball played here isn't good, and that's the main reason why it hasn't been a success. Only until they get good enough teams in the league to play a good game every night—not one that lasts until at least midnight—will fans go to see them play.

Then they may not. That's the way the ball bounces.

Little League Standings

Major League				Minor League			
Team	W	L	Pct.	Team	W	L	Pct.
Yankees	3	0	1.000	Dodgers	2	1	.667
Dodgers	2	1	.667	Yankees	1	1	.500

Cards	0	3	.000	Giants	1	2	.333

Pigs And KC's Win Softball

Piggly Wiggly and the Knights of Columbus grabbed opening night victories in Hereford Softball League play Monday and Tuesday.

Piggly Wiggly stopped Summerfield, 14-10, Monday. Winning pitcher for the Pigs was Gib Carlyle. Losing pitcher was Jack Clark.

On Tuesday night the Knights of Columbus thoroughly thumped the Rocky's, 10-1. Walterschied was the winning hurler for the KC's, while Hutchinson took the loss for Rocky's.

Thursday night the Hereford Jr. Oddfellows tangle with Dimmitt. Friday night the Piggly Wiggly Pigs have battle with the Jr. Oddfellows.

Buffalo Lake Restocked With Bass Last Week

Hereford fishermen now have a chance to catch more bass. And at a nearby place—Buffalo Lake.

The United States Fish Hatchery of Fort Worth stocked the lake with 31,000 little bass Thursday morning, June 14. Ninety-five hundred pounds of rotenone were dumped into the lake earlier to eliminate the shad and carp.

However, about 25 percent of the chemical was saved and dumped Wednesday, June 13, to catch the shad and carp at spawning time.

Game Warden Cal Lovelace said that fish were biting pretty good at Buffalo anyway and that the new fish in the lake should make fishing good for local people.

Lovelace said reports from other fishing spots in this area have been scant. However, he said that Conchas seemed to be yielding a good share of fish to fishermen.

Lake Marvin, near Canadian in Hemphill County, has been a popular spot for local fishing enthusiasts. Lovelace said fish also seem to be biting good there.

Although in 1955, the average U. S. wage earner lived six years less than the population average, the life-spans of the two groups now are equal.

CROSS PROJECT BOOMS

CAIRO, Ill. (AP) — Contributions for the construction of a huge cross on Bald Knob near Alto Pass, Ill., are rapidly increasing. The total is now \$108,243.90.

The General Federation of Women's Clubs is behind the project and offerings are received on a national scale.

"The Cross," symbolizing united faith of the nation, is under the supervision of Wayman Presley, chairman of the Executive Committee of the Bald Knob Christian Foundation.

Bermuda is 73 miles southeast of New York.

Freezers Save Cash, Time, Labor Says Speaker

"The average family saves enough money to pay for a freezer in about a year, if they use it wisely," stated Dorothy Brown during the freezer demonstration Tuesday morning at high school.

The hour demonstration was sponsored by Southwestern Public Service and was devoted to preparation of a meal.

Mrs. Brown told the group of women that freezers are not only a big advantage to a family in saving money, but that they save time and labor. Buying meat in large quantities, buying vegetables in season, and using left overs are three money savers.

A family of six should allow at least six cubic feet of freezer per person, Mrs. Brown said. It may vary with the type of family; whether they use the freezer a lot, or very little. Buying groceries on special and freezing them for future use also saves money.

Grandfield, Okla. In Football Coaches' Honor

GRANDFIELD, Okla. (AP) — Football coaches aren't the only ones who get automobiles from admirers.

William E. Brown, Oklahoma Vocational agricultural instructor for 40 years, has been presented a new car by Tillman County citizens and more than 400 of his former students.

Methodists Honor Rev., Mrs. Cockrell

Rev. and Mrs. Alby Cockrell and his family were honored at a welcoming reception Sunday evening in Fellowship Hall at the First Methodist Church after the evening church service. Rev. Cockrell began his service as pastor of the church Sunday.

Assisting in the receiving line were L. B. Russell, chairman of the board of stewards, and Mrs. Russell, Donald Shipley, vice-chairman, and Mrs. Shipley, Joel Hodges, secretary and Mrs. Hodges, Messrs. and Mesdames Bert Boomer, Grant Hanna and Colby Conkright.

The refreshment table was done in gold, blue and white, and featured a wide satin runner centering the table's length, bearing the inscription "WELCOME." Gold and blue daisies and white stock added color to the scene.

Mrs. Grant Hanna, president of the WSCS and Mrs. Phillip Barkley, vice president, presided. Mrs. Cliff Hicks was at the register. Mrs. Delmar Sigle was in charge of decorations. Informal music was provided by Verita Sanders, Dick Wilson and Jane Newsom.

WELCOMED — The family of the Rev. and Mrs. Alby Cockrell were welcomed Sunday by members of the First Methodist Church entertained in their honor. Left to right are Nancy, Mrs. Cockrell, and Rev. Cockrell. Front is Connie. (Staff Photo)

A BIRTHDAY SUIT birthday party was given by Ann Woodward for her daughter Kathy, who was three years old Sunday. Cake, ice cream and punch were served to the children. Attending the party were Darrell Edwards, Patty Lawrence, the honoree Bruce Woodward, Mark Woodward, Kenneth Edwards, Barbara Lawrence, Jan Miller, Laura Leigh Jones, Susan Miller and Clifford Edwards. Labor Camp School Teaches Home Arts

As part of their summer adult program, Mrs. Joel Hodges and Mrs. J. J. Durham, high school homemaking teachers, have been giving free demonstrations on sewing and cooking to Latin-American women at the Labor Camp for the past two weeks. Homemaking students of high school acted as baby sitters and helpers during the lessons, as a part of their summer project on child care. The girls will receive credit in school for these projects. The Labor Camp school, held for adults and out-of-school youths, had regular classes meeting Monday through Friday from 1:30 to 3:30 p.m. An average of 12 Latin-American women attended each day, along with 18 or 20 children.

Simple Sewing
Beginning June 18, Mrs. Hodges demonstrated how to make easy garments such as aprons, sundresses, pillowcases, and boys' play suits. Women's clubs of various Hereford churches provided the women with materials and supplies. About 12 girls from ages eight to 13 were instructed in the art of textile painting. They also made table-scarves as their projects for the school.

Milk Dishes
This past week, Mrs. Durham has been instructing the Latin-American women on how to cook various milk dishes. She used evaporated, powdered and condensed milk along with whole milk, in her demonstrations. She told the women the value of milk in these forms, and how milk could be used in several other ways other than for drinking purposes. Pies, cakes, cake decorating, and other milk desserts were her main subjects, demonstrating richer foods because the Latin-American women wanted to know about something they couldn't buy in a store. Mrs. Durham also handed out booklets of recipes to the dozen or so women who attended the classes.

CLEAN ONES PAY Dirty Eggs Are A Poultryman's Main Problem

More than half the work on a poultry farm is made up of collecting eggs and getting them ready for market and dirty eggs provide the greatest problem to the poultryman, says Hugh Clearman, county agent.

Clean litter and correct management of nests offers the greatest opportunity for preventing egg soiling. One nest should be provided for every four hens, especially in this Panhandle climate.

Good Nest Size
A good nest size is 12 inches wide, 14 to 16 inches deep and at least 14 inches high, says Clearman. This is large enough for comfortable laying space. Nesting trays at the bottom of nests should be 4 to 6 inches deep providing high enough sides to hold a good cushion of nesting material, he adds.

Nesting materials should be fine and highly absorbent. Results of a Missouri study of seven nesting materials show that where a fine material such as shavings, oat hulls, sawdust, or excelsior was used, the percent of clean eggs ranged from 83.4 to 86 percent. Where coarser materials such as ground corn cobs, sugar cane pulp and straw were used, clean egg percentage ranged from 77.6 to 79.7 percent. It was found that it took more time to clean the nests when straw was used than when shavings was the nesting material.

Dark Nest, Cleaner Eggs
A higher percentage of clean eggs was obtained from darkened nest, states Clearman. Ninety-one percent clean eggs were gathered from dark nests whereas 82 percent clean eggs were secured from well lighted nests.

Eggs gathered four times a day showed a percentage of 85 percent clean eggs, where only 63 percent clean eggs were secured when gathering eggs only once. The poultryman who gives the nests uncommonly good care will profit from the savings in time needed to clean eggs and in the increased market value when sold to the trade, says Clearman.

PERIPATETIC EDUCATION
URBANA, Ill. — Steven Gattrell of Lost Creek, W. Virginia, who has graduated from the University of Illinois, previously had attended 12 elementary schools, two high schools and four colleges. He will add another to the list by taking graduate work in Florida.

DEFENSE BY CHANCE
MADISON, W. Va. — Circuit Judge K. K. Hall drew lots to determine what attorney would represent a man charged with the mutilation murder of a 47-year-old woman.

State law provides that the court designate legal counsel when a defendant has no funds. Judge Hall adopted the unprecedented procedure for Orlen Arnold Shaffer, 37, because all eight attorneys practicing in this county appeared reluctant to take the case.

MOUSE'S EYE VIEW OF HARVEST—Heavy grain and straw were keeping combine speed low as our Farm Scene of the Week was snapped. This field of Early Wichita on an A. N. Hopson field just north of Hereford, made 48 bushels per acre. Stored at Sears Grain Co., the grain weighed 62 pounds per bushel, tested 13.4 per cent moisture. "The wheat had three irrigations and about 130 pounds of anhydrous ammonia per acre," Hopson said. (Staff Photo)

Helpful Hints On Defrosting Freezer

By ROBERTA CAMPBELL

Although a home freezer is a good source of insurance for a variety of food for the table, it should not become a safety deposit box, warns Argen Draper, CHDA.

Food freezers, farm housewives have found, come in only one size—TOO SMALL—but the homemaker can get the most from this piece of equipment by rotating her

withdrawals of frozen foods and by proper defrosting.

Good Time to Defrost

Now is a good time to tackle the chore of defrosting as most of the food put up last summer and fall should have been used. Thus the problem of taking care of the remaining will not require so much work.

It is advisable the day before to turn the temperature control to its coldest position if possible so the food won't thaw as quickly during the defrosting process.

If the deposit is only frost, some women prefer to leave the packages in the freezer and move them from one area to another so the surface may be scraped clean. Others use an attachment on the vacuum cleaner to suck the frost from the freezer.

Kitchen Utensils Handy

Kitchen utensils such as a broad stiff spatula, a putty knife or an old butter paddle, sharpened on the edge a bit, should do fine for scraping off the frost.

Newspapers or cardboard may be used to catch the frost. Removing ice and a complete cleaning job should take less than an hour but the food packages will have to be taken from the box and the freezer disconnected.

To Keep Food Frozen

To keep the food from thawing while out of the freezer women have discovered a number of ways to take care of the packages.

A freezing compartment in the refrigerator or shelf space below is sometimes adequate to hold the frozen packages until they can be returned to the freezer. Packages can also be packed into boxes or cardboard cartons and wrapped with blankets or newspaper as insulating material to cut off warm air.

One housewife brought out the small ice box used from traveling and picnic and closed the packages up in it to prevent thawing.

Another kept a couple of boxes of Dri-Ice frozen along with the food so they would be ready to wrap up with the frozen food during defrosting process. She also found this handy when she wished to carry a package or two to a friend perhaps an hour's drive away.

The new insulated plastic zipper plastic bags many families now have will also keep food packages frozen for a much longer time than defrosting the freezer should require.

Important Factor

The important factor is to be sure that any packages which may have thawed are not returned to the freezer for refreezing. After the food has been taken care of there are other things which may make the job less of a chore in defrosting.

Most owners of food freezers have been cautioned by the dealer or given instructions about the danger of using hot water in defrosting.

Hot water should never be used because refrigerant pressure builds up in the evaporating coils and may cause difficulty in starting the compressor again.

Electric Fan Helps

An electric fan placed so it will

blow room air into the freezer will help to melt the ice.

When the ice is melted the water should be wiped up with a cloth and the inside of the freezer cleaned with a solution of one tablespoon of baking soda to one quart of lukewarm water. This freshens the interior, leaving a sweet clean smell before replacing the packages.

Greases and other substances have a tendency to rot rubber so to prevent deterioration of the door or lid gasket manufacturers suggest they be cleaned with soap and water.

How to Test

The door seal can also be tested by using a thin sheet of paper. If the paper can be pulled from the closed door the door needs to be tightened to prevent air leakage which results in frost buildup inside the freezer.

While the electric cord is still disconnected the working parts of the freezer should be cleaned of lint and dust with a vacuum or a cloth. The motor or fan should be checked to see if it needs oiling.

For best results after defrosting, the freezer should run for half an hour or so to bring the temperature down before replacing the packages.

Since food can be kept too long to be palatable or even safe to use, the older packages should be stored to the front or top of the freezer where they can be used first.

Like any other major appliance the home freezer must be properly taken care of. Defrosting before there is more than a half inch of frost over a large area insures better operation. The real test of the usefulness of any home freezer is not how full the housewife can keep it but how often she can empty it in feeding her family.

EXCHANGE STUDENTS

NEW YORK — Every year some 50,000 persons are on exchange between United States and foreign colleges, universities and research organizations.

Last year, says the Institute of International Education, about 3/4 of these were foreigners coming to the United States.

Officials of the Institute, founded in 1915, believe that persons with international training are of such value to business, government and professional groups that it has established a Central Index of Exchanges covering 210,000 persons who have had contact with it in the past 36 years.

Information on an estimated 25,000 to 30,000 new exchanges will be added annually, says Kenneth Holland, president of the Institute.

BRIDAL SHOWERS

Bridal showers can be held at any time of day — morning coffee, luncheon, afternoon tea, dinner or supper time. The hostess often specifies that it will be a luncheon shower, kitchen shower or general shower, so that guests will know what type of gift to bring.

SEWING STUDIED AT LABOR CAMP—Women living in the labor Camp west of town have recently had opportunity to study practical sewing in a school sponsored by the Hereford schools. Top left, Mrs. Joel Hodges of the school home economics department shows proper adjustment of a machine or Julia Salcedo. Above, Mrs. F. S. Gonzales shows off the garment she made for 8-month-old Juanita to a second daughter, Gloria. Lower left, Eugenia Alexander, center, homemaking I student who assisted Mrs. Hodges, helped younger camp residents master the art of machine stitching.

Use Of Annuals In Landscaping Is Home Demonstration Topic

The use of Annuals in the landscaping program will be the subject of demonstrations given during June by Argen Draper, CHDA, Home Demonstration Club women.

Clubs reporting early June meetings are:

DAWN
Annuals always come up from the garden. Argen Draper told members of the Dawn H. D. Club who met with Mrs. H. S. Fuller on June 11, for a program on landscaping. Mrs. Draper also told the women that annuals with bright colors require a great deal of sun. She pointed out that there is little time to plant.

The group discussed recovering up shades. Only those frames which can be recovered successfully they were told by the hostess.

WEST HEREFORD
Mrs. John Jacobsen Sr., was the hostess for West Hereford H. D. Club June 11.

The program on Flag Etiquette was given by Mrs. Carlos Vaughn, Mrs. Vern Witherspoon and Mrs. Mary Williams.

Mrs. L. W. Denton led the re-

FORD
Mrs. S. T. Wiseman led the opening exercises for members of the Ford H. D. Club who met with Mrs. J. L. Fite June 6 for a program on Flag Etiquette.

Mrs. W. A. Bunch gave the program which was followed by a council report given by Mrs. LeRoy Williamson.

Mrs. Noble Howard of Littlefield and Ann Dyer were visitors. Others present were Mesdames C. D. Corley, J. E. Dyer, Dwayne Walker, S. T. Wiseman, LeRoy Williamson, W. A. Bunch, Bob Simmons, Henry Browning and the hostess.

HOMEMAKER'S CLUB
The Homemaker's H. D. Club met Thursday, June 14, in the home of Mrs. Robert Hobbs Jr. The president called the meeting to order with members answering roll call with "Annuals which have meant the most in my yard."

Mrs. Argen Draper gave the program on "Blossoms for year round color and preparation of annual bed." She also gave some helpful suggestions for controlling insects.

After the secretary read the min-

utes of the meeting. Members attending were Mesdames W. A. Duncan, Mary King, Edna Bowe, R. L. Calhoun, L. W. Denton, Mary Williams, A. E. Douglas, W. H. Awtry Sr., Vern Witherspoon, Carlos Vaughn, Misses Mary Bradley and Evelyn Bell and the hostess.

The next meeting will be a covered dish luncheon in the home of Mrs. Mary King June 26.

ADD BROKEN ICE
Too, he adds, if the weather is extremely hot, broken ice scattered over the bedding will help. The hogs killed or injured en route to market represent a loss of feed, labor, time and money and such losses can get the profit from an entire load in a hurry, says the agent.

Here are other suggestions for cutting transit losses. Don't feed just prior to loading but feed on arrival at market to reduce shrinkage; use good loading chutes; re-

frigerate hogs in transit; use good loading chutes; re-

frigerate hogs in transit; use good loading chutes; re-

frigerate hogs in transit; use good loading chutes; re-

The Hereford Brand Meet Your . . . Neighbors H D Chatter

By Argen Draper

The Homemakers Club met on Thursday with Mrs. R. W. Hobbs Jr. The refreshments and table decoration were of the Flag Day theme. Both were very attractive.

The lamp shade making has proved to be popular with some of the club women. The members of the Dawn Home Demonstration Club had the idea of taking a shade without ribs and welding ribs to the top and bottom rings. They suggested making the ribs of coat hangers. Probably a good idea and will probably work fine.

A letter from Mrs. A. E. Jury at Fair Play, Mo., and she says the fruit crop has just been wonderful. She has frozen seven gallons of strawberries in pints and

for herself. Barbara Barrett is at the machine and up front Key King looks up from her work as does Nancy Boardman. Looking at the pattern is Linda Moselery. Gerry's house guest from Amarillo. The girls are being instructed by Dorothea Prowell, assistant HD agent, Mrs. Edgar Telchik and Paula Beth Corbett. (Staff Photo)

Four-H Girls Have Sewing Workshop

Sewing Workshops are a new innovation in the summer program of the 4-H Girls Clubs this year.

All 11 of the 4-H Clubs are holding three day sessions for work on garments to be shown at the Dress Revue in August.

Most of the work periods are scheduled for afternoon but some of the girls prefer to take a sack lunch to the meeting place and make it an all day affair so they can get more done on the dresses, blouses or skirts they are making.

Garments are selected according to age and experience of the girls. Some are making skirts and simple blouses while the older girls eligible for state competition are making wool suits according to Dorothea Prowell, assistant H. D. agent.

A NEW INNOVATION—A workshop in sewing is being tried for the first time this summer by 4-H Club girls in the county in preparation for the Annual Dress Revue which will be held in August. Girls shown are members of the newly organized Happy Workers Club under the leadership of Mrs. E. E. Bishop. Busy with a needle on the left is Derry Wheeler while Beverly Barrett is cutting out a blouse she is making

Cooking Tips, Tricks for the Bride

BRAND BABIES—"Come on, Marsh, let's play jungle with our elephant," says Jamie, the two year old daughter of Mr. and Mrs. John Douglas Pitman. Her brother, Marsh, is four years old. (Staff Photo)

By CECILY BROWNSTONE
Associated Press Food Editor

COOKING SUCCESS comes with experience. But here are kitchen tips and tricks that will hurry along the bride's know-how.

Keep a heavy skillet just for omelets and fried and scrambled eggs. When you first buy the skillet, coat its inside with soft shortening. Let the skillet stand this way for a couple of days. Then wipe the fat from the pan. Each time you cook eggs in the skillet, wipe out the pan; never wash it. Flour comes three ways: all-purpose, cake and self-rising. All-purpose flour is always used for yeast breads, most quick breads, most pastries, many cakes and cookies. Cake flour is often used for cakes, sometimes for cookies and quick breads, and occasionally for a certain type of pastry. Self-rising flour is often used in cakes, cookies and hot breads; it is not recommended for yeast-raised batters and doughs, for true sponge cake or for the usual pastries. Modern recipes state the type of flour recommended for the particular recipe; follow this direction!

Many recipes call for grated lemon or orange rind, or lemon or orange juice. It's handy to remember that a medium-sized lemon usually gives 1 teaspoon of grated rind and about 3 tablespoons of juice. A medium-sized orange usually gives 2 teaspoons grated rind and about 1/3 cup juice.

In making quick breads such as loaves or muffins, it is important not to overheat. Dry ingredients should be stirred with wet liquids only until moistened. Lumps can be disregarded; if quick breads are beaten they develop tunnels and peaks.

Drop biscuits are easier to make than regular rolled biscuits so use this never-fail formula: Increase the milk in a regular baking-powder biscuit recipe to 1 cup, then spoon mixture into small, well-greased muffin pans or onto a baking sheet. Bake according to the directions for the regular biscuits. Drop biscuits may be sprinkled with grated cheese (Parmesan or Romano) for a savory topping.

Remember this important point when you are rolling out cookie dough. Roll out one-quarter to one-half of the dough at a time, but don't add the scraps of dough to the new portion you roll out. Put all the scraps together and roll out at the same time.

Be sure to add salt to macaroni, noodles or spaghetti at boiling time so that the seasoning will

penetrate the pasta. For 4 ounces (1/2 pound) of the macaroni product, you can use 2 quarts of boiling water and 1 tablespoon of salt in a good-sized kettle.

When you are baking two layers of cake, make certain that the pans do not touch each other in the oven.

Here's the easiest way to frost a layer cake. After cake is completely cooled, use pastry brush to get rid of all crumbs on the cake. Spread frosting on top of one layer; place top layer over. Spread frosting on sides of cake, a little at a time; now spread the frosting evenly over top. Protect cake plate with triangles of waxed paper before you put first layer on it; pull out waxed paper when cake is covered with frosting.

Get a meat thermometer. Use of a thermometer is the only accurate way to tell whether roast meat has achieved the degree of doneness you are aiming for.

To coat chicken or meat: Put the required amount of flour, salt and pepper (and any other seasoning called for) in a paper bag; drop in the chicken pieces or the meat cubes. Twist the top of the bag to close tightly; shake chicken or meat in the bag. Or stir the flour and seasonings together thoroughly on a piece of waxed paper; roll the chicken or meat in the seasoned flour.

To cream butter and sugar in cake or cookie-making: Have the shortening at room temperature and work it against the sides of a mixing bowl with the back of a wooden spoon for a few minutes; gradually work in the sugar in the same way. If you have an electric mixer, use it for creaming the shortening and sugar.

To cut shortening into flour: Use a pastry blender with an up-and-down movement; when shortening sticks to blender in the beginning remove it with a spatula and continue cutting. Work the pastry blender this way until the fat particles are the size designated in the recipe you are using.

BLACK TABOO

Black should not be worn by close relatives attending a wedding unless they habitually do so or are in mourning. Then its somberness should be relieved with colored trimmings or accessories. In the latter case violet is a suitable choice.

KEEP LOTION HANDY

A new bride should keep a bottle of hand lotion on the shelf near the sink for use after dish washing. This will help her hands stay soft and white.

Break Accident Victim Recovering; Many Attend Large Family Reunions

UDY GRETCHEN PINNELL, daughter of Mr. and Mrs. Jim Ricketts, was hospitalized from Friday to Tuesday of last week in Littlefield. The rashish accident occurred when the steel frame of a milk loader balanced and toppled out of a truck at the sub-station near Cream Plains plant in Hereford. The impact mashed his leg. The injury was very painful, but a few days back at home, he has returned to work. Mr. and Mrs. Jim Ricketts have been hereford to visit their son this week.

Beth Ricketts left Sunday morning, June 10, for the First Christian Church camp at Ceta Canyon. She returned at Hereford and Mrs. Jim Ricketts attended the wedding last week of Shirley Rose Root to Char Humphry of Pueblo, Colo., at First Christian Church in Hereford.

Many Pay Visits
John L. Wilson and daughter Pam and Amelia of Vega visitors in the Don Morgan home Friday. Mrs. Wilson is an of Mrs. Morgan.

Forrest Ricketts and children Janet and Jeff, spent Thursday and Friday in the home of her father and mother-in-law, and Mrs. Jim Ricketts on the F. Roberts ranch. Mrs. Ricketts is the former Nelda Guyette.

Mr. and Mrs. Frank Watson and Douglas, of Hereford, visited the home of Mrs. E. L. Brown yesterday afternoon. Mrs. Watson and Mrs. Brown are sisters. Other moon visitors were Mrs. Floyd and her mother, Mrs. Hor Adrian.

Alph and Fred Ricketts attended Vacation Bible School at First Christian Church last night in Hereford, spending the night in the home of Rev. and Mrs. Don Root. Climax of the department program was a play night with a visit to a Jewish Synagogue in Amarillo. They returned Saturday.

Mrs. W. C. Briggs and Mrs. Bill Mac Briggs attended the wedding of Mrs. W. C. Briggs' nephew Don Briggs to Noretta James last week.

M. Sessum and sons were here guests Wednesday evening at the home of Ronald Furham. They enjoyed cooking out in the night. Mr. Sessum then took his relatives to Ardmore, Okla., to visit relatives before he returned to Washington.

Paul Jackson has been visiting the past week with Bob Clemens of Dalhart. Mrs. McCown took him Friday.

Visiting with Lillie Reynolds week was her son and family, and Mrs. Earl Reynolds of Fayette, Ark. They also visited his mother and family, Mr. and Mrs. McCown.

Mr. and Mrs. Claude Bogle attended an ice cream party at the home of their son and daughter-in-law, Mr. and Mrs. Guy Bogle hereford Wednesday.

Visiting with her sister, Mrs. Ed Heaton and family, was Mrs. Ed Heaton and children Patsy and Stephen. Mrs. Heaton and children

A Cool...

move sharp objects, such as bolts and nails that protrude into the loading chute, trailer or truck; use patience and common sense when handling the animals.

Use slappers instead of whips or clubs and use an electric pole very sparingly when loading or moving the animals; avoid crowding; separate boars, stags and large from small hogs in transit.

SPOTLIGHTING

We have sent passes to the following congratulating them upon the occasion of their anniversary:

Mr. and Mrs. Millard Nobles
Mr. and Mrs. A. W. Goforth
Mr. and Mrs. ...
Mr. and Mrs. Eursel Young
Mr. and Mrs. Ira W. Scott

THE REEL DOPE

The following is a showman's view of view and does not necessarily reflect the opinion of anyone's right mind, or he should not in the show business.

LOOK AROUND THE CLOCK, going at the Star Theatre Friday and Saturday has been turning away in Florida and other vacation areas. For some reason type of picture does not do in Hereford, so for the fun of it are going to have a pop over Friday night in front of the Theatre. It is free.

ICNIC starring William Holden and Kim Novak is in my opinion the finest movie on the market today. You will shed a tear or two, laugh a little and leave with a pleasant feeling. What more could a want?

BLACKBOARD JUNGLE show at the Tower Drive in Thursday and Friday is a picture about what could happen in our schools. We should be thankful that it is not likely to happen. Several people who have seen the picture have expressed their desire to see it again.

A wedding reception menu may be a traditional one or it may be new-style. Choose the one that fits in best with your way of living. Both the following menu plans will help make a wedding day that bride, groom, relatives and guests will enjoy.

If you feel that you can handle about 50 people at a home reception, make sure that you have all the equipment that will be needed for the food and drink preparation and service. Buy, rent or borrow — but plan well ahead.

Special Treatment
Mrs. Bob Renfro of Steed, N.M., was taken to a specialist in Amarillo on Wednesday of this week. While tests are being made, Mrs. Renfro is staying in the home of a daughter, Mrs. R. D. Sisk, in Adrian.

Eliasville will be the scene of a family reunion of the Munn clan this weekend. Mr. and Mrs. H. D. Tomlinson and Judy plan to leave Saturday morning to attend this reunion as Mrs. Tomlinson is the former Gladys Munn.

Honor Bride
Miss Glenda Meeks, bride elect of Floyd Schuyler of Ft. Leavenworth, Kans., was honored with a bridal shower in the home of Mrs. Dallye Stone Thursday afternoon. Hostesses were Mrs. John L. Wilson and Mrs. W. V. Tolbert. Many gifts were received and congratulations were given by all. Glenda is the daughter of Mr. and Mrs. August Meeks and formerly lived in the Simms Community.

Attending from this community were Mrs. E. K. Pinnell and Wanda, Mrs. R. L. Pinnell and Judy and Lindsay, and Mrs. Wayne Pinnell of Clovis.

Mr. and Mrs. Jo Speed went on a business trip to Roswell, N.M., this week and returned Friday. While there they visited with Mr. Speed's mother, Mrs. W. L. Speed, and sister, Mrs. Winnie Weaver.

Bobby Speed went to the doctor Tuesday to have a piece of steel taken from his eye. His daughter, Rita, saw the doctor about an ear infection. Both are doing very well.

Visiting in the George Gruhley home this week were Mrs. W. H. Woods and Mrs. James Dur and children of Amarillo, mother and sister, respectively, of Mrs. Gruhley.

The monthly Simms Community Family Supper will be this Sunday, June 24. Visiting starts at 3:30 p.m. and supper will be at 5:30 p.m. The Hospitality Committee of Simms Study Craft; Mrs. Jim Ricketts, Mrs. Jim Stocks, and Mrs. Glenn Hetzler, announce, "Everyone is invited. Bring salad and pie for your family."

New-Style Reception
Punch or some other cold beverage, is as much a "must" on the new-style as on the traditional reception menu. But along with new-style sandwiches, various spreads may be served with crackers. A particularly delicious and appropriate spread is one made of equal parts of Roquefort cheese and cream cheese (sieved together) with a little brandy flavoring. Other spreads may be made of cream cheese and drained minced canned clams, cream cheese and chopped chutney, soft cheddar cheese and deviled ham. Be sure to have an array of small crackers, in attractive shapes, as an accompaniment to the spreads.

Next comes the wedding cake—departing from tradition. The new-style wedding cake may be of nutted chocolate, frosted in white. It is made in three household-size layer cake pans. Several of these cakes are baked, and when one has been finished, another is then brought to the serving table. Each cake is centered with a tiny bouquet of lily of the valley. Sensible, yes—and oh so pretty and delicious. Here's the recipe:

New Bridal Cake
Ingredients: 2½ cups sifted cake flour, 1 teaspoon baking soda, 1 teaspoon salt, 1 cup butter, 2 cups sugar, 5 eggs, 3 squares (3 ounces) unsweetened chocolate (melted over hot water), 1 cup buttermilk, 2 teaspoons vanilla, 1 cup finely cut walnut or pecan meats, Bridal Frosting.

Method: Sift together the flour, baking soda and salt. Cream butter and sugar. Beat in eggs thoroughly one at a time. Blend in chocolate. Add flour, alternately with buttermilk, in about 6 additions; begin and end with flour. Add vanilla; beat only until smooth. Stir in nuts. Turn into three round 9-inch layer pans that have been lined on the bottom with paper. Bake in moderate (350 degrees) oven 30 to 35 minutes or until cake tester inserted in center comes out clean. When cool, put three layers together with 1 cup of raspberry preserves to

Load and unload slowly to avoid injury to the animals.

Watch Feeding Rations
Feeding rations which do not provide enough minerals to produce hogs with strong bones is also listed as a contributing cause of injury. Slop-fed hogs and those that have received too much "fill" just before shipping shrink more than other hogs.

Finally, says Clearman, a good feeding job, profit-wise that is, can be nullified if deaths and injuries are permitted to take their toll. A dead hog is worthless regardless of the kind of feeding job done and those injured en route to market are docked when offered for sale.

For **Ditching or Plumbing Service** Call **The Plumbing Shop** Phone 2130 or 745

which brandy flavoring has been added. Cover top and sides with Bridal Frosting and decorate with fresh flowers. Be sure to brush off crumbs before frosting.

Bridal Frosting
Ingredients: ¼ cup butter, 1/16

teaspoon salt, 3½ cups (1 pound) confectioners' sugar (sifted), 1/2 cup light cream, 1 teaspoon vanilla.

Method: Cream butter and salt. Blend in about half of the sugar gradually. Blend in remaining su-

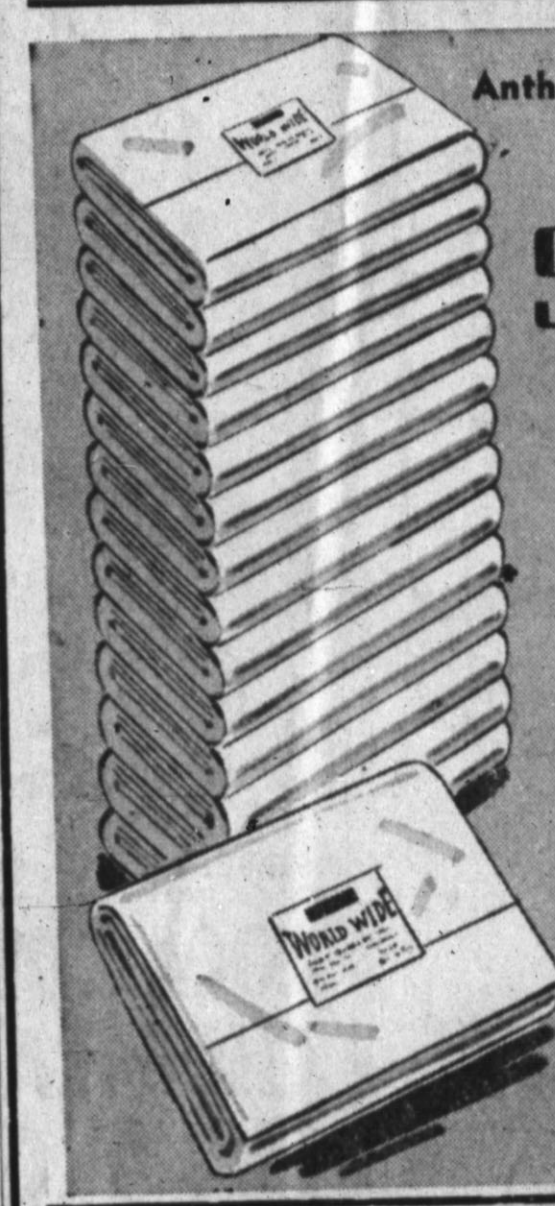

gar, alternately with cream. Beat vigorously after each addition. Beat in vanilla. To frost Bridal Cake: spread a very thin coating of the frosting over sides of cake to catch any crumbs. Then frost top and spread frosting over sides again.

AUTOMATION BRAINPOWER

ANN ARBOR, Mich. (AP)—A University of Michigan sociologist says automation and the atom will place more importance than ever on the middle class of workers.

Asst. Prof. Harold L. Wilensky said middle class salaried white collar and professional people will be joined by the blue collar factory worker who "already is merged in income and with automation will become more mental and less physically minded."

By Jimmie Gilentine

quality for inter-city play.

Things are beginning to pick up. This looks like "the year" for the vegetable growers. Spuds are still running around \$8 a hundred wholesale, while onions and carrots are in heavy demand. No one ever knows what will happen, of course, but the outlook is really good. Rumors around town have it that Jake Moore, who lives around two miles north on Avenue K, sold his onions in the field at \$3.25 a sack. To say the least, prospects are good, real good!

When it comes to boats, Blue Turpin recently racked up the hard luck story of the year. It all started when he had his motor overhauled, and just had to give it a trial run.

He got up in the wee hours and headed for Conchas, stopping in Tucumcari to buy some steak—just in case. He arrived at the lake around 9 a. m. Wednesday, pitched his bedroll, cooking utensils and a gasoline stove into the boat. Instead of going back to the car for his grocery box, however, he jumped into the boat and took off. The motor was purring like a kitten, so Blue decided to run down to Spring Creek and leave his stuff, then come back, after the groceries. The only trouble was that just as he approached Spring Creek, the motor conked out.

By nightfall he had decided the fool thing was never going to start, but he did manage to rake up a can of beans and some crackers—thinking all of the time about his juicy steak back in the car. A big storm blew up and it rained at the lake all of Wednesday night. Finally, about the middle of Thursday afternoon—some 30 hours later—he managed to stop a passing boat and hitched a lift back to the dock and his car. He went into Tucumcari and got a replacement part, which also burned out immediately. To complicate matters, there were no more extra parts in Tucumcari, so Blue had to drive to Raton. By the time he got this far with his story, I was too upset to listen to any more. However, there is a lot more—but don't ask him about it unless you can spend at least 30 minutes listening to the gory details.

Folks who are not thinking about business seem to have three things on their minds: boats, vacations and Little League. Lee Kent was out the other night and brought along his coat. "I seldom agree with anything in the Bull Column," said Lee, "and when I read your advice, I do just the opposite. However, I did read about it getting chilly—and brought along my coat."

Jack Gilliland was hardheaded though, he shivered through the entire game Monday night, and insisted all of the time that it was silly to wear a sweater or coat. Some people have to learn the hard way. I still say you are missing a real bet when you miss the LL games. I would much rather see one than to watch the Amarillo squad in action.

There was especially a lot of fun when someone lined a fool into the concessions stand the other night and smashed the coffee urn. Word has it that Little League specifications call for 24 more lights on the field before it can

PET PARADE—Peter the rabbit is the newest member of the Charlie Callaway pet family. Charles, 10, feeds "Pete" out of a doll's baby bottle. Other than the rabbit, which they got about five weeks ago, the family also has two dogs, three parakeets, five cats, two goldfish, and a rooster. (Staff Photo)

And 2 broke not 2."

Lawyer Ray Cowser is scheduled to make one court appearance he didn't bargain for. Lynn Bybee is home from college this summer and is helping Ray and Owen at the office, so Ray dispatched Lynn to Amarillo Tuesday afternoon to deliver a brief. Lynn made the trip in Ray's automobile and just as he got there he was picked up by the Amarillo police. Ray, it seems, had never had the car checked—and it had no State Highway Sticker on the windshield.

Lynn was right on the ball, however. He told the officers that it wasn't his car and that it belonged to Ray Cowser of Hereford. The police called here to check, then issued the ticket to Ray. The boy, according to Ray, is going to be a topnotch lawyer; at least, he knows how to "pass the buck."

Dub Reeves says The Brand reporting is too accurate. He got up at an airport meeting the other day and after pointing out that it would cost him only \$5.86 a year, said something about moving if the folks weren't interested. And since then people have been calling up and asking if he was packed and ready to go.

"I guess it's all right," said Dub, "but they don't have to sound so doggone anxious. Maybe someday I'll learn to quit shooting off my big mouth."

What Dub needs is a year or two in the newspaper business. After the first week, you find out that you should never volunteer to move. What you really try to do is keep folks from running you out of town.

Honest, though, we do need an airport. There were more travel miles by air than by bus in 1955—and many, many more than on the railroads. Air travel is here to stay. Why hang on like the lively stable-boys did when the automobile came out? This will never be a gigantic air center, but a modern airport will help keep the town and county property valuations up. I had much rather pay a little more in taxes than see my home go down in value—or get to the point where no one wanted to buy it because the town was dead. Many of us can remember when Hereford was a sleepy little village and a lot of folks were fighting against paved streets, a swimming pool and the spread of irrigation. These were the days when you could pick out your farm land and buy almost any tract for \$30 an acre.

If they make it a "City-County Airport," I will stick out my neck and predict that it will pass. However, I am not going to promise to move in case it fails. In the first place, my creditors wouldn't stand for it!

Hereford Kiwanis Club Reviews Record Of Community Service

The local Kiwanis Club, in conjunction with an international program, reviewed their community service projects this week and tabulated results.

They discovered they were one of 4200 Kiwanis Clubs throughout the United States and Canada, which, during 1955, turned in their greatest record of community service, according to Dr. H. A. Cavness, president.

Last year club members throughout the two countries, who channel the greater part of their energy into eight community service fields participated in activities ranging from the purchase of an artificial eye for an underprivileged child, to attracting a new industry to a hard up community.

Pay Scout Hut Bills Locally, their projects ranged from paying the bills on the Scout Hut to taking up tickets at the rodeo.

Boys and girls work: Sponsors boy scout troop 51; also sponsors a unit of Camp Fire Girls; pays bill on Boy Scout Hut.

Underprivileged child: Provides funds for needy children at each of five elementary schools. These funds are administered by the principals of each school and may be

used to provide lunches for hungry children, shoes for the needy, etc. Average cost of this work, per year, is \$200. Contributions are also made to the work at Boys Ranch.

Vocational guidance: Three club members provide jobs for school students after school or during the summer.

Agriculture and conservation: The club assists where needed in the work of FFA members and Four-H Club boys. The local FFA sponsor is a member of the Kiwanis Club.

Public and business affairs: Assisted Chamber of Commerce with the rodeo, last year took up tickets at the gate.

Support of churches in their spiritual aims: Distributed prayer cards containing Jewish, Catholic, and Protestant blessings imprinted thereon to all the cafes in town.

Organized in 1949 The local club has been organized for seven years. It meets every Thursday for luncheon at the Jim Hill Hotel, and has, at present about 33 members.

Programs are arranged by the 12 program chairmen, one of whom serves each month.

National Progress On a national scale the organization collected almost six million dollars last year for youth services

of various kinds, and raised more than four million dollars for hospital and hospital facilities. They contributed a million and a half dollars to needy churches and distributed more than a quarter of a million to deserving students through scholarship loans.

In addition, they provided treatment for children in dental clinics, assisted delinquents, gave away clothing, sponsored safety patrols, provided recreational facilities for boys and girls and sponsored baseball teams.

Even Planted Trees They counseled veterans, entertained farmers at city-country affairs, secured harvest hands, and planted trees. Last year, Kiwanis International acted as coordinating agency for Farm-City Week in which more than 400 national groups participated with a quarter of a million people actively engaged in observances.

In urban affairs they supported community chest drives, worked to get-out-the-vote through their ballot battalions, and sponsored drives for better schools and for increased teachers' salaries.

One of the objects of Kiwanis International is "to give primacy to the human and spiritual, rather than to the material values of life." Kiwanians devoted considerable effort to their "support of

churches in spiritual aims" program in 1955. They conducted 14,250 "go to church" campaigns; they furnished 13,712 lay preachers for the needy churches; they sent 73,700 youngsters to religious camps; and they contributed the time of 24,720 of their members to the teaching of Sunday School classes.

Highway Patrol Reports Accident

Hereford highway patrolmen Kenneth Maxwell and Joe O'Rear report few minor accidents in the Hereford area this week.

In fact, the only one near the Hereford area happened Sunday afternoon eight miles south of Bovina on farm to market road 1731. A 41-year-old Spanish American

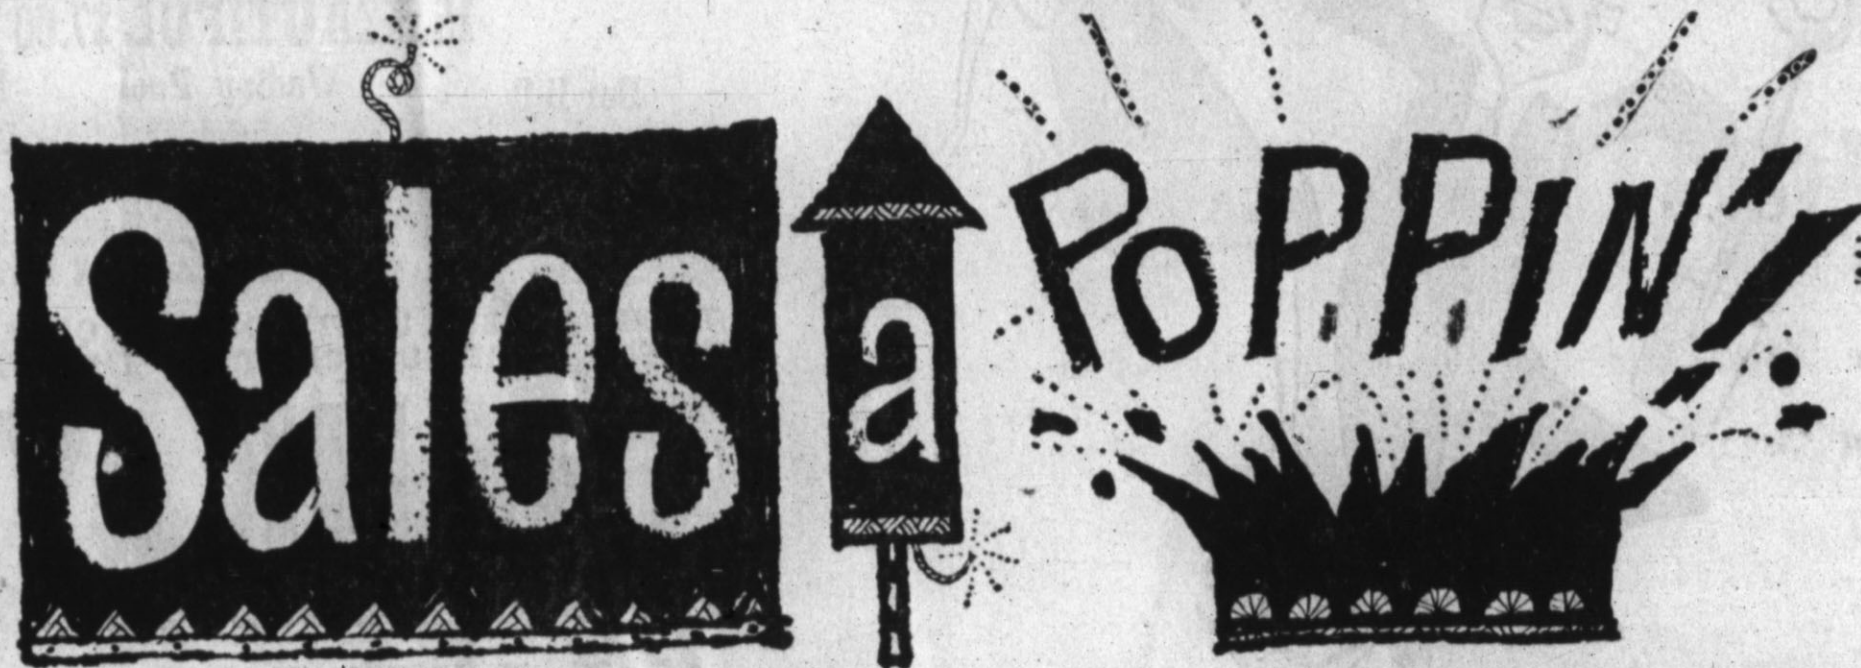

was given emergency treatment then released from Parmer County Hospital following the accident. According to highway patrolmen, Jose Antonio Anaya of Fort Sumner, N. M., suffered only minor cuts and bruises when his 1941 Ford ran off the road and crashed into a high line pole. Officers said Anaya could not see because of a driving rain.

Damage to Anaya's auto was estimated as a total wreck or about \$200.

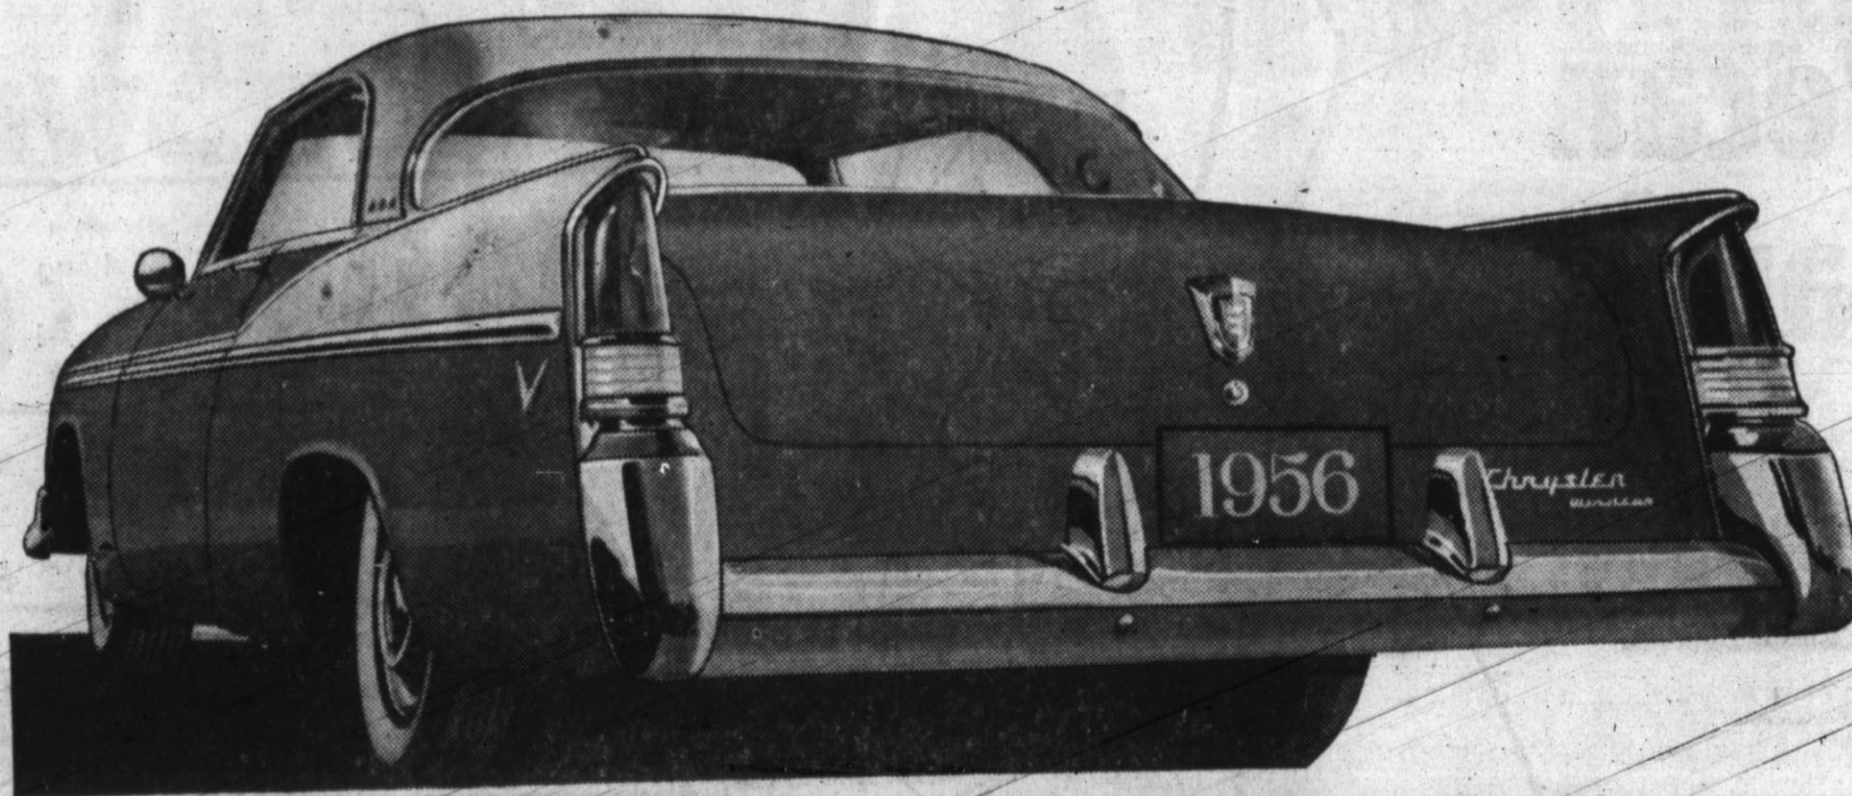

The U. S. aircraft carrier Saratoga is 187 feet from waterline to the top of its mast.

How To Give Casserole Supper

By CECILY BROWNSTONE
Associated Press Food Editor
COOKS ALL OVER THE COUNTRY have been furiously using onion soup mix and sour cream to make a dip for nibblers, potato chips and small crackers. We know because, wherever someone — man or woman — is sure to offer us the dip. We never have the nerve to say the concoction is old news, but politely listen while the pret formula is detailed. Now comes a spanking new use for the soup: as a spread for French (Italian) bread.

French bread began to be extremely popular when casseroles in dishes and short menus came into vogue. It is usually served with a casserole: the loaf sliced but not all the way through, the slices are buttered, and the whole thing is put into the oven to heat along with the casserole shortly before that main dish is ready.

But cooks are never satisfied. They've given the original plain bread a new slant — with garlic bread. For this the butter used for spreading the slices is mixed with crushed or minced garlic. And some valiant souls offer innovations: the butter for spreading is mixed with herbs or with grated cheese.

Of course ease of preparation tips to make popular this bread companion to a casserole or dessert supper. But we suspect that the bread is also such a favorite because many a hostess discovers that a big loaf of the bread is not only easy to fill but also helps to fill customers at her two-course meal.

Interested in the new Onion Bread? Here's how to prepare it. You can't get a baked French loaf from your corner market bakery, you can use the brown-and-serve French loaves that are readily available.

FRENCH BREAD enlivened with savory onion butter.

NEW ONION BREAD
Ingredients: 1/4 pound (1/2 cup) butter, 1 package dry onion soup mix, regular baked French bread.
Method: Have butter soft enough to spread easily and mix it with the dry onion soup mix. Cut French bread diagonally into slices, almost to bottom but not all the way through. Spread butter mixture on one side of bread slices—how much you use depends on how thin or thick you slice the bread and your own taste. For slices that are no more than an inch thick, try 1 or 2 teaspoons of the mixture on one side of each slice. Place the prepared bread on a sheet of aluminum foil; leave the top uncovered but draw up the foil around the sides of the bread. Bake in moderate (375 degrees) oven about 15 minutes. Serve at once. Refrigerate any of the butter and onion soup mixture left-over in a jar that has a tight cover for use another time.
Note: If brown-and-serve French

loaves are used, cut and spread as directed for regular French bread. Place in oven (without covering with foil) as package directs to finish baking.

SUPPER MENUS
Chili con Carne makes a fine casserole dish. Serve with the Onion Bread and a tossed salad that includes carrot curls.
Macaroni and Cheese, enlivened with small cubes of ham, makes another good main course. Serve with the Onion Bread and a salad of romaine, cucumber and anchovies mixed with olive oil, wine vinegar, prepared mustard, salt, freshly-ground pepper.
Chicken Breasts and Mushrooms takes to the tang of the Onion Bread. Nice with a salad of water cress and orange slices.
Dessert? A fresh fruit compote is delicious after the Chili con Carne and Macaroni and Cheese. After the Chicken Breasts and Mushrooms you might serve Chocolate Roll filled with Whipped Cream.

Little Damage In Minor Accidents

Two minor accidents occurred Hereford Sunday and Monday. Sunday only \$10 worth of damage was done in a collision at the intersection of Highway 60 and Main. A 1955 Pontiac driven by Mrs. Lee Ranspot collided with the rear end of a 1954 Oldsmobile which was stopped at the red light. Ten dollars damage was done to the Oldsmobile, Miss Ranspot was given a ticket for following too closely.

Monday afternoon during a rain, an accident occurred at the intersection of Highways 51 and 60. A Ford, driven by Clara Sells Williamson, was stopped at the stop sign on Highway 51. She started across the intersection thinking she had time to make it.

A 1956 Chevrolet station wagon driven by James Otis Hall was going faster than she thought and it hit the right rear fender of the Ford. Seventy-five dollars damage was inflicted upon the Ford and \$30 damage on the Chevrolet.

Clara Williams was issued a ticket for failure to grant right of way and Hall for driving too fast or conditions.

Robert Davis In Recital Program

Robert Davis, tenor, who was recently awarded a music scholarship in auditions at McMurry College, Abilene, will be presented in a voice recital at 4 p.m. Sunday afternoon June 24, in the Wesley Methodist Church, by his teacher, Miss Mattie Mae Swisher.

TEC Finds Jobs For More Than 100 People In Area

The local office of the Texas Employment Commission has been open one month as of June 16, and has already placed more than 100 people in jobs.

According to J. R. Paterson, manager, the majority of these people have been put in agriculture jobs, about half of them in seasonal work and about half are regular jobs.

"Our problem has been getting enough workers; we have more jobs than we have applicants," he pointed out. "If everyone who was really interested in finding a job would come to us, I believe we could help him out."

He said that there were several requests on file for farm families who were needed in Deaf Smith County or on farms in this area for permanent jobs. Also there is a need for tractor drivers and other seasonal workers right now.

A few jobs have been filled in town. Waitresses have been placed and other similar jobs have been filled, but so far the big demand has been for agriculture workers, he said.

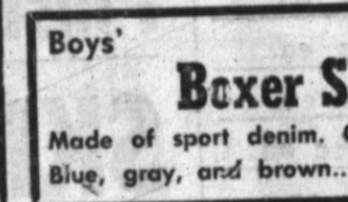

The first two weeks were slow ones, but in the first 20 days of this month, 87 people were placed in jobs.

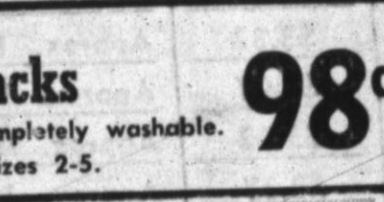

Penney's baby prices on your tot's polished cottons . . . color gay as a strawberry shortcake! Crease-resistant, color-fast finish! Deep hems for her next summers wear. Machine washable!

Brother of Local Man Dies Saturday

Carl McCaslin was called to Wichita, Kans., this week by the death of his brother, Vern, who passed away Saturday in a Wichita hospital.

He died as the result of injuries received in a car wreck approximately three weeks previously. His family had believed he was recovering satisfactorily when he suddenly became much worse.

Funeral services were conducted in Wichita, Tuesday afternoon. Mr. and Mrs. Carl McCaslin left Hereford Sunday to be with the family, and plan to return to Hereford on Thursday or Friday.

Vern McCaslin visited in Hereford several times with his brother, his last visit being just last year. He was owner of a chain of variety stores in Kansas and also owner of a wholesale firm which distributed merchandise to such stores.

He is survived by his wife and several children.

ALARM AND EXCURSION

LITTLE FALLS, N. J. — Police believe that when they find the two men who held up a cleaning establishment here, they'll also find the person who turned in a false fire alarm.

They said the holdup men apparently sounded the alarm to lure the borough's two police cars away from the shopping district and the cleaners.

Then, unworried about police showing up, they carried out the robbery.

Addicts Appreciate 'Living Sound' When Hi-Fi Comes To Hereford

has come to Hereford. People as Urin Streu, A. Gyles Jr., Rosemary George McLean, Francis Clark, and Dr. Millard Nobles become addicts.

addicts are people who are acutely conscious of sounds—sounds, full sounds, unusual

are people who can talk of infinite baffle effects, radial sound, drift free and cantilever—stylish construction.

So What's Hi-Fi? An abbreviation for hi-fidelity, musically speaking, is a completely developed sound and transmitting device

you hear the entire audio-frequency range of every inch without distortion. It is all the excitement, colorfulness of a live performance projecting a wider range.

It isn't limited to the Bach, and Brubeck school of music. On hi-fi these days you can

pick up smart little recordings that supposedly transmit the mating song of a butterfly, the splash of a migrating salmon—or other sounds heretofore unheard.

However, around here, hi-fi owners prefer music. They like classical, jazz, musical comedy songs or popular tunes. And they like them better on hi-fi.

150 Hours of Music
Streu, for example, who has one of the most extensive record collections in this entire area, estimates it would take him 150 hours to play all of his albums. He rotates his records, and figures he gets to hear each one about once every four months.

Gyles specializes in jazz records. He prefers the big bands, Billy May type music.

At the Noble residence, daughter Patti thinks hi-fi is wonderful and mother figures it's a labor saving device because as Patti says, "Please play the records; it makes working so much more fun."

65,000 People Agree
Although hi-fi has been on the market since the war, it became popular around here only a couple of years ago. But its nationwide habit. The magazine of hi-fi fans, appropriately titled "High Fidelity," has a subscription list of 65,000 music lovers although the annual subscription rate of \$6 is no giveaway. Each issue is devoted entirely to music and musicians, conductors, and composers, review of new recordings and results of home tests on sound equipment.

But there's more yet. Real addicts can even purchase hi-fi phonographs to put in their cars. They play specially made records which whip around at only 16 2/3 rpm, and as some suggested, they have all sorts of possibilities. Such, for example, as playing "Nearer My God To Thee" while barreling down a wet highway at about 80 mph, or playing Dowland's "Flow My Tears," if you haven't any insurance and should happen to smack into somebody's 1956 Cadillac.

But, whereas automotive hi-fi may be a little slow attaining popularity in Deaf Smith County, hi-fi is here in a big way.

From \$74.50
People who have the ready cash, the desire to own better transmitting equipment and the initiative to look into the matter will discover they can purchase hi-fi equipment for as little as \$74.50 right here in Hereford. They can also pay \$1600 and up.

Smaller sets, of course, play 45 rpm records, and do not begin to approach the technical excellence of custom built jobs, but they do accent the clarity of hi-fi over ordinary records.

More Speakers, More Tones
Three speed changers begin at about \$124.50. Most of these have only one speaker, but the more

speakers, the greater variety of tones. Dr. Nobles, who has three speakers in his custom set which plays through a speaker cabinet which the family has had for years, has one 15-inch speaker and two "tweeters." Streu has two speakers each 12-inch.

The greater cost, the more expensive the cabinet and the more intricate the equipment. Purchasers can buy sets made by some standard manufacturer like RCA Victor, Magnovox or Philco, or build their own, using parts by such famous makers as Universal, Garrard and Grammes.

Range, Volume, Clarity
What makes hi-fi exceptional is its greater range, volume and clarity. The latter two pretty well explain themselves, but the variance in range, can best be determined by comparison.

Radio, for instance, covers a frequency-of-sound range from 200 to 10,000 cycles; TV, from 100 to 12,000 cycles; inexpensive hi-fi, from 50 to 15,000 cycles; and "highest" hi-fi from 30 to 20,000 cycles.

Although modern homes can be constructed with built-in hi-fi fidelity equipment, no homes in Hereford have this particular advantage. As one homemaker said "When we built two years ago, we had never heard of hi-fi; now everybody is talking about it."

Record Prices Vary
Records range in price about like the sets do. You can, for example, buy a 7-inch hi-fi recording of some popular song for 89 cents, the complete musical score of "My Fair Lady" for \$4.98, or an album of Enrico Caruso's favorite arias for \$19.95.

Addicts warn you that you can play hi-fi records on an ordinary recorder with pretty good results, or play ordinary records on a hi-fi set with better results, but the ultimate is hi-fi records on a hi-fi recorder.

About this, they wax lyrical and start murmuring about "wrap-around sound," "extended range," "living presence of music" and "full dimensional sound."

For best results at this stage, turn off the addict and concentrate on the music.

INDIANS ASK FUND
CHAMPAIGN, Ill. (AP)—A lot of wampum is at stake in a case between the Potawatomi Indians and the Federal Indian Claims Commission. Prof. Nathalia Belting, University of Illinois historian, is helping the Indians prepare their case.

The Potawatomi once lived in much of Northern Illinois. They ceded about four million acres of land to the United States for about four cents an acre. The United States sold it for \$1.25 an acre.

The Potawatomi now number about 1800 and live on a reservation in Oklahoma, with other bands in Kansas, Michigan and Ontario.

Elvis Presley Still Out Front In Disc Sales

A survey of what's being sold record-wise, in Hereford stores this week indicates that Elvis Presley records are way out in front—by no one's surprise.

One dealer said, "That's all I've sold in months." Most popular record in the last two weeks seems to be "My Baby Left Me," backed up with "I Want You, I Need You, I Love You."

His albums, are also still selling like hot cakes.

And he sets a trend: bop numbers are far and away the most popular records among Hereford's teenagers—the biggest record buyers in town.

In fact, the only non-bop record that is currently in favor with the crew-cut kids is Johnny Cash's "I Walk the Line." Along with Presley's bop offerings are Mac Curtis' "If I Had Me A Woman," and the most popular, the Teen King's "Ooby Dooby" and "Be-Bop-A-Lula" by Gene Vincent.

As for children's records, dealers report that not since Davy Crockett has there been a race on to buy any particular children's favorites. They sell right across the board with the emphasis on Walt Disney recordings, and on story records like Peter Rabbit, and Little Black Sambo.

Adults, who usually buy records with a little more somber forethought than younger groups do, stick to the old favorites, so that the best sellers, week in and week out are the Strauss waltzes; the "Grand Canyon Suite," "New World Symphony" and "Nutcracker Suite," which, incidentally is also a children's favorite.

"Adults don't usually buy for children," records which they themselves don't know or understand," said one dealer.

to on Mrs. Crown's family e- only partly from her indus- The major cause of the strophe result stems from her bitterness and hatred, espe-ward her son who, she feels, vered a lapse that might have

ed hidden forever.

Not Monumental
The novel slackens its pace somewhat in the latter half, yet retains enough acceleration to keep the reader interested. This is no monumental work, but it will sell. Shaw knows how to write material that sells.

IMPERIAL WOMAN. by Pearl S. Buck (John Day).

Few write with the authority of Pearl Buck on her favorite subject of China and her historical novel, "Imperial Woman," is probably her best and certainly her most detailed and complete work in this field since "The Good Earth."

Tzu Hsi
The novel revolves around the last Empress of China, Tzu Hsi, who was known to most westerners of the time as "Old Buddha."

While Tzu Hsi remains the central character throughout the book, Miss Buck brings in so many lesser characters that at times it becomes confusing. This was probably necessary, however, to give the intimate inside portrayal of the last great court of the Man-

chus and how it governed by a mixture of wisdom, ruthlessness and intrigue. The fascinating picture of the workings of the Chinese court is so detailed that the action seems to move slowly at times.

The story of the rise of Tzu Hsi to the throne and then her continual battle to retain her power at the cost of her womanhood is a fascinating one. Its historical accuracy would have to be vouched for by better Chinese authorities than this reviewer but it is interesting reading.

Scores of Characters
Miss Buck's grip of the scores of characters she introduces is always authoritative and believable, although it would seem that in the educated Chinese aristocracy of the period, with their many cultural qualities, there would be more statesmen of influence concerned with the good of their country than Miss Buck portrays. Most of her characters are constantly engaged in intrigues to further their own personal ends, with the inevitable result that they pull their own empire to pieces.

The publisher describes the Imperial Woman as Pearl Buck's longest novel and this certainly seems so at times but those who like historical novels with an inside look at an imperial court's intrigues and personal life will find it well worth reading.

MY SHIP IS SO SMALL. by Ann Davison (Sloan).

This is the most convincing argument I ever read against sailing across the Atlantic alone.

Sails Atlantic Alone
The author, Ann Davison, doesn't seem too sure herself why she became the first woman ever to do so. Previously she and her husband had tried it together in another boat. That one was wrecked and her husband killed almost before they got started.

For her solo attempt she bought a little 23-foot sloop—something you'd hardly see out in Long Island Sound in rough weather. Yet it was a boat that could and did live through some pretty rough weather on the high seas.

Her Route
Mrs. Davison sailed from Portsmouth to France to Spain, Gibraltar, North Africa, the Canary Islands, and then on to Dominica in the West Indies.

That last jump took 65 days. Sixty-five days of too little wind,

too much wind, water shortages, poor food, insufficient exercise and physical exhaustion.

Maybe Mrs. Davison, like many another sailor, likes the life because it feels so good when you stop. She says on one occasion that she thought the venture would offer freedom, travel and a home into the bargain. At the end she mentions it had been a quest for courage. Quite possibly she herself didn't know exactly what she sought.

The book sounds vaguely familiar from previously read newspaper and magazine stories, but it makes pretty good reading for the armchair navigator.

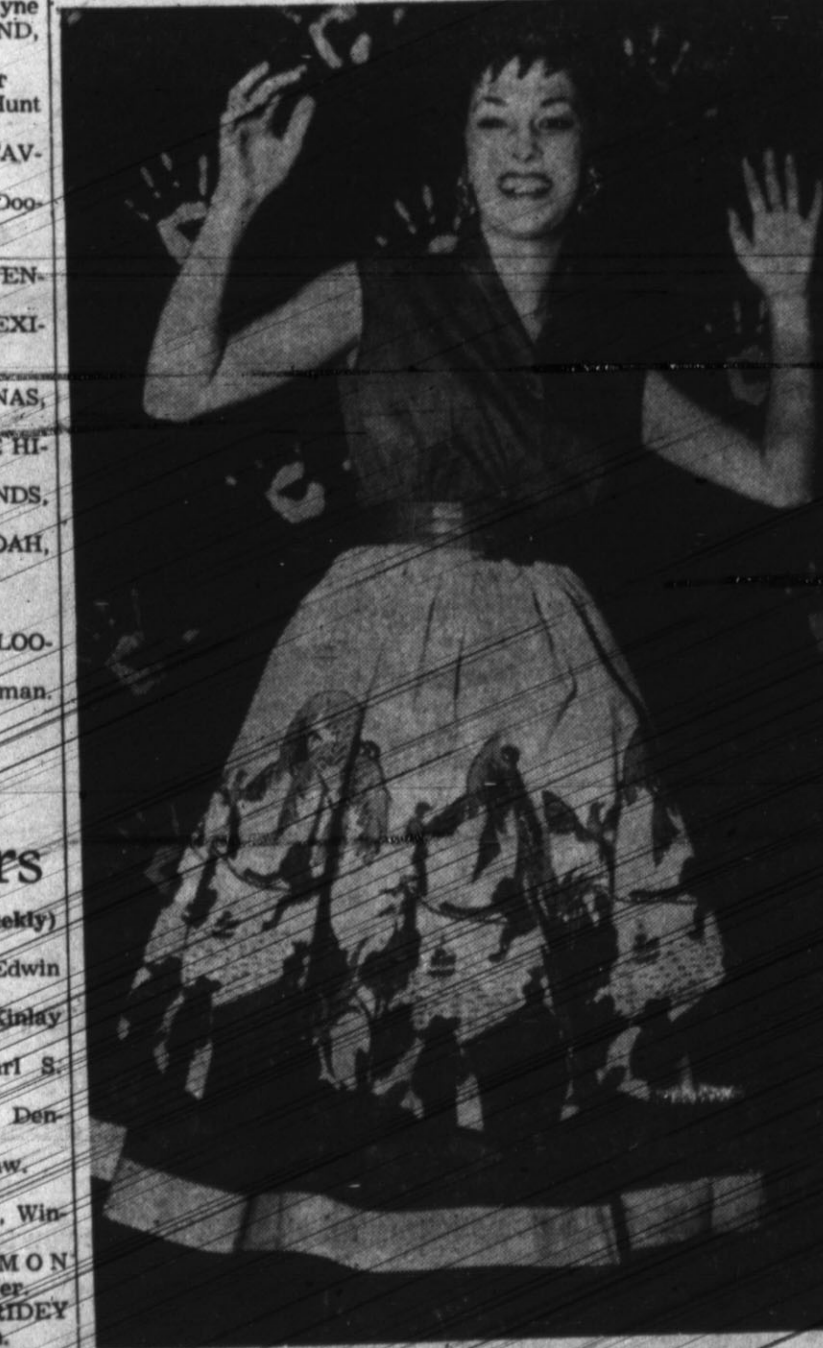

NEW LIBRARY BOOKS LISTED
New books at Deaf Smith County Library, as released by Mrs. Jake Boydston, county librarian, include:

FICTION
THE FOURTH WORLD. Athas AND DEATH CAME, TOO, Gilbert

MOVIE NEWS

Rock and Roll, Adolescent Gangsters, Western Story Provide Screen Plots

ROCK AROUND THE CLOCK
Even Columbus said, "The world ain't square!" And the world, proving it isn't "square" is really "digging" the current rock 'n' roll craze. Records by Bill Haley and his Comets, who are the heart and soul of Rock and Roll, have sold over 6,000,000 copies in little more than a year. The cast of "Rock Around the Clock," which shows Friday and Saturday at the Star Theatre, reads like an honor roll of rock 'n' roll. In addition to Bill Haley and his Comets, there are the Platters, Freddie Bell and his Bellboys, and Alan Freed, the disc jockey who's done so much to make rock 'n' roll a national sensation. Tony Martinez and his band provide a change of tempo with mambo rhythms. Taking top acting roles in the film are Johnny Johnston and Alx Talton.

BLACKBOARD JUNGLE
The problem of juvenile delinquency crowding today's newspaper headlines forms the subject of M-G-M's powerful film, "Blackboard Jungle," at the Tower Drive In Thursday and Friday. Based on the sensational best-seller novel by Evan Hunter, with its pivotal characters enacted by Glenn Ford, Ann Francis, Louis Calhern and Margaret Hayes, the picture tells a realistic, uncompromising, and relentlessly gripping story of a young teacher whose career, marriage, and very life are threatened by the teen-age gangsters who make a mockery of his classroom in a metropolitan vocational school.

THE BROKEN STAR
Rated one of the screen's most daringly different films and intensely dramatic in its theme and treatment, "The Broken Star" shows at the Tower Drive In Sat-

urday, June 23. A red-meat story of old Tucson in the late eighties when the town was a collection of frame buildings and adobe houses, this release is interpreted by a cast in which Howard Duff, Lita Baron, and Bill Williams have the top roles. The action centers upon the plight of Howard Duff, a United States Deputy Marshal who murders a rancher for his money. Fiery Lita Baron is seen as the cousin of the dead rancher, who is in love with Bill Williams, also a Deputy Marshal. Williams pursues Duff, finds him in a deserted mine in the Arizona mountains. There is a showdown fight between the two, and the drama moves swiftly to a powerful and happy climax.

Shadow Players Quit for Summer
Hereford's amateur little theatre group, the Shadow Players, have disbanded for the summer, rounding out their season's performances with specialty acts for clubs.

They performed for Beta Sigma Phi earlier this spring. Their production of "Hillbilly Courtship," originally scheduled for February was cancelled because of the big snow and a crowded schedule at Hereford High School auditorium prevented its being presented later, according to officials of the organization.

Mrs. Ray Johnson, president, is also director of that production. Members of the organization said it may be presented later next season, but no definite plans have been made as yet.

There are about 20 members of the organization.

Household Scrapbook

Wall Paper Cleaner
Wall paper cleaner can be made as follows: Mix 1 cup of flour and 1/2-cup cold water to a smooth paste. Add 2 tablespoons salt, 2 tablespoons vinegar, 1 tablespoon kerosene. Boil until it thickens, stirring constantly. Allow it to cool, then knead thoroughly. Use the same as the manufactured kind.

Damp Flour
Damp flour can be dried by sifting it several times in front of the open door of a hot oven. The flour should be cooled before using it or returning it to the container.

Wool Garments
Before attempting to clean a woolen garment brush it thoroughly. Most of the dust and dirt will come out and then one can clean the spots and soil.

Trousers Creases
Put a teaspoonful of sugar in a cup of water and sponge the creases in the trousers with this solution, when pressing, and the creases will last much longer.

Kitchen Drawers
It will save time if all the kitchen and pantry drawers are lined with white or colored oilcloth. A damp cloth is all necessary to keep them clean.

Woolens
Shrunken woolens can be brought back to their normal size by rinsing in fresh soapsuds instead of clear water after washing. Repeat each time the garment is washed until the correct size is obtained.

Laundry List
Always make a careful list of all articles that are sent to the laundry. Check this list when the clothes are returned, and you will be insured against loss.

Buttermilk
An added flavor can be given to buttermilk by sprinkling a little ginger on top of it.

Of Bop, Blue Suede Shoes Valid Jazz And Cat Walks

By CAROL INMAN
Can you bop?
This seems to be one of the first questions teenagers ask each other after they are introduced.

Rock 'n' roll, more commonly known among Hereford teenagers as "bop," is both music and dance. The music has a rhythm often heavily accented on the second and fourth beat. The dance combines the Lindy and Charleston and almost anything else.

"Bop" is a rhythmic, highly animated form of dancing adopted from the African native dances, but the heavy beat and hopping melody tunes of today's rock 'n' roll have a clearly defined ancestry in Louis Armstrong's and Bessie Smith's jazz of 20 years ago. The music formerly called "rhythm and blues" was first performed by Negroes Disc Jockey Alan Freed originated the rock 'n' roll craze in New York a few years ago, and it spread quickly.

Valid Jazz Form
Despite the fads attributed to it, bop is an extremely valid jazz form, and it is of fascinating interest as it contains the germ of what has become "progressive" or "modern" jazz. It is a pretty crazy music and dance, for it blandly disregards the time-honored tradition of expression. But it is exciting—not only in the savagely rhythmic way we usually associate with jazz—but in the complex thought processes found in the music.

Hereford "boppers" first began "digging" the "cool, crazy rock 'n' roll" about two years ago, learning the craze from colleges, who prior to that time called it "jazz."

None Done Alike
No two boppers dance alike, although the steps are similar. The first movement in the bop dance consisted of moving across the floor, first to the left and then to the right, on one foot with the toe of the other foot marking time. Now, steps have been added possibly to make it more interesting and because the "bop" is called "the expression of dancing as you feel."

Although Hereford's boppers do the "clean bop," the "dirty bop" also became very popular in the days when bop was young. As the name suggests, the "dirty bop" or "dirty boogie" is much more intimate than the "clean bop."

Many towns in the area have established heavy fines which are imposed upon anyone doing the "dirty bop"—which Hereford hasn't had to do as of yet.

And With Variations
The Duck Waddle is a variation step of the bop, and is done by sliding on the balls of the feet, overlapping the knees as you move, and descending to the floor. Another variation of this step is the Shorty-Squat.

One-foot crossed over the other while the dancer hops on the outside of each foot is called the "Camel Hop." The "Cat Walk" greatly resembles the steps of the

Charleston, by sliding the feet across the floor with the toes together and moving the feet until the heels touch, then once again to the toes.

And the "real gong symbol" of bopping is the shake fingertips and extended arms or hands on the hips!

As for the rock 'n' roll songs making this dance popular, the first ones were, "Thirteen Women," "Sh-Boom," "Earth Angel," "Shake, Rattle and Roll," "I Need Your Lovin'" and "Hearts of Stone."

The more current ones are "See Ya Later, Alligator," "R-O-C-K," "Ooby Dooby," "La La," "Be-Bop-a-Lula," "Shippin' and a Slidin'" and "Blue Suede Shoes."

They Send 'Em
"Boppers" are especially enhanced by the music and singing of Elvis Presley, Fats Domino, Little Richard, Gale Storm, The Platters, and Bill Haley's Comets.

And proof that Hereford isn't "square": A local firm is offering prizes soon to the best "bopper" in a contest to be held on Main Street. And anyone can enter! So it stands to reason that Hereford boppers will continue to be busy and blithely rockin' and rollin' around.

A Smooth Tablecloth
The tablecloth will have a nice, smooth section in the center of it if it is folded lengthwise and then in thirds when ironing it, instead of the usual half fold.

Leon Bell Built The 'Bedrail Buggy'

By BILL KNOX

"American people are always wanting to do something they can't do." At least this is the reason offered by Leon Bell for the construction of a bona fide horseless carriage.

And plenty will testify to its ability to run without a horse. "Just made it for my kids," Bell said, "but I sure had a hard time making it legal."

Bell first got the idea as a hobby. "I work with wood and I kinda got a yen to work with metal some," he explained. "I guess a man who works with metal likes to fool around with wood, too."

Took Six Months

It took Bell about six months, just working in his leisure time, to collect, construct, and assemble all the parts of the car. "Most of the parts are junk, and I sure had a lot of trouble finding the right junk. I can't imagine all the trouble Henry Ford had — he didn't have a junk yard to go to," Bell declared.

The automobile is run by a five horse power Clinton motor. Bell brags that "the motor is the only thing new I bought." The rest was either made by him or picked up at the junk yard.

Top speed is about 25 miles per hour. It idles from 5 to 25 m.p.h. on the average, but "I had it going a lot faster last year," Bell says. "But that was too fast. Might be dangerous for the kids."

Cost \$180

The whole outfit only cost about \$180, and it's got a wide variety of working parts from all different kinds of contraptions. The brake, which is hooked onto the back wheel of the car is from an old wagon wheel. The gear box is from an old pump motor. And the steering column is through the courtesy of Henry Ford — 1933 edition that is.

The front wheels are wheel barrow wheels, while the back ones are big six ply airplane wheels. The gas tank will hold five quarts, and the car gets about 45 miles per gallon. It has only one forward gear and no reverse; the clutch is engaged by tightening the idler against two belts.

License Trouble

"Sure had a lot of trouble getting a license," Bell complains. First he had to get a bill of sale on the motor, so he sent the motor number to the license division of the State of Texas. Instead they sent him back a number to stamp on it. "Then I had to get a bill of sale on the frame and body."

"Had to weigh it, too, and it came out 340 pounds. Figured I would get a scoter license, but I had to get a car license. Cost me 96 cents."

And to top it all off, since the first part of the frame was bedrails, Bell is going to christen the car the "Bedrail Buggy."

And what name could be more accurate?

DOG ON GUARD

MEMPHIS, Tenn. — A policeman complained that Alfred Dandridge's dog tried to bite him when he went to investigate a card game at Dandridge's house.

"That dog was sitting on the front porch like a lookout," the officer testified, "I think he's got him trained."

"No, sir, your honor," Dandridge protested. "He just don't like to see policemen around the residence. The way it is, judge, he's been picked up by the dog catcher so many times that the sight of a policeman's badge drives him crazy."

City Judge Beverly Boushe dismissed gaming charges against Dandridge.

HORSELESS CARRIAGE—Leon Bell, pipe protruding boldly from the corner of his mouth, sits in the operator seat of his homemade car. Pictured with him are his children, Mitchell and Terry, and Pete Guinn.

Insect Pests Can Cost Meat, Milk Producers Money

Meat and milk production in Deaf Smith County can be cut by insect pests which attack livestock during this time of the year, says Hugh Clearman, county agent. The worst insect offenders are hornflies, spinose ear ticks, and stable flies. Unless controlled, they will rob Deaf Smith County meat and milk producers of several thousand dollars, warns Clearman.

These pests can be controlled by pesticides applied as smears, dips or sprays. But, he points out, chemicals alone are not enough. The breeding centers, such as manure piles, strawstack bottoms and the like should be eliminated. All water outlets and pools of accumulated water should be drained and low places in the lots filled with soil.

Clearman says DDT should not be used for lice, tick or fly control on cows producing milk for human consumption. Neither should this material be used for spraying the inside of dairy barns and buildings. He advises using only recommended insecticides for treating livestock and barns and urges care in mixing and applying the materials.

A good livestock pest control program depends on correct diagnosis and medication.

For complete details on the amount of pesticides to use, he sug-

gests getting a copy of L-256, Guide for Controlling External Parasites of Livestock and Poultry from his office or write to the Agricultural Information Office, College Station, Texas for a copy.

Long Time Ago

45 Years Ago

Hereford is again in the saddle ready to start on a new publicity campaign. In the days past, thru the efforts of its splendid commercial organization, the fame of Hereford and the Hereford country was spread far and near, and the benefits that accrued therefrom are undisputed, and it will be the constant endeavor of the members of the new organization to surpass in good results, if possible, those of the old.

The Hereford Water Carnival is past and the progressive citizens of that place have demonstrated the fact that there is plenty of water under the surface of the

ground sufficient to cause crops of all kinds to grow and yield a bountiful harvest. The managers of the McDonald well say that sufficient water can be pumped to the surface for 98 cents to cover an acre of ground one foot deep. It would probably cost about four times that amount to pump the same quality of water to the surface here as it does in the shallow water belt. But the difference between a good crop or poor or no crop at all would amply repay the extra expense.

25 Years Ago

The First State Bank announces installation of safety deposit boxes for convenience of customers. There are 170 boxes, built of tough magnesia steel, affording all protection possible against forced entry. The containers are arranged in four sizes and two large vaults are available for storing silverware.

The wheat market, along with most every product, including the bonds and stocks was stiffened the first of the week in the announcement of President Herbert Hoover that the American nation was ready to agree with Europe for postponement of all war debt payments for one year. The grain prices advanced three cents on the bushel in the Hereford market. The price Wednesday morning was 34 cents for wheat.

NOT SO HIGH

MUSKEGON, Mich. — Roger Sloan, 15, was pretty high on his dad's business until he tried it. Now he's not so sure.

His father, Jack, 47, is a steeple jack. He sent Roger up a 60-foot flagpole to paint the top and "everything was fine until the wind started to whip the pole," says Roger.

After sliding down the pole in a hurry, Roger said: "I think I'll wait a few years."

Legal Notice

NOTICE TO CREDITORS THE STATE OF TEXAS COUNTY OF DEAF SMITH TO THE CREDITORS OF WAYNE McELROY AND WIFE AILENE McELROY

You are hereby notified that Wayne McElroy and wife Ailene McElroy of the County of Deaf Smith, on the 22nd day of May, 1956, executed a deed of assignment, conveying to the undersigned all of their property for the benefit of their creditors and that the undersigned has accepted said trust, and has duly qualified as required by law. All creditors consenting to said assignment must, within four months after this notice, make known to the assignee their consent in writing, and within six months from the time of the first publication of this notice file their claim, as prescribed by law, with the undersigned who resides at Hereford, Texas, which is also his post office address. Witness my hand this 22nd day of May, 1956.

Teachers, Administrators, Board Members To Attend Workshops

Teachers, school administrators, board members and custodians will spend part of their attending various workshops on educational and administrative problems relating to conferences are being held at the Technological College in West Texas State in Canyon, Texas University in Austin.

June 25 at West Texas State College. The initial conference will deal with "Administration of guidance services in public schools," and continues through June 29 and will be attended by Miss Della Stagner, Overall and Cunningham, and perhaps others.

Second workshop is set July 2-6, and deals with "Measuring Teaching Competence."

School Board Members

Final conference on "The School Board Member and Public School Administration" will be held July 9-13. All will be held in the Canyon High School cafeteria, with daily sessions from 9 a.m. until noon.

Planning to attend the third conference are Robert Wagoner, W.R. Hair, Bert Boomer, Marcus Latham, Tom Robinson, Wilburn Axe, Don Zimmerman, Fred Baird, Overall and Cunningham.

Dr. Emmitt Smith, professor of education at WT, will coordinate the conferences, and special consultants will conduct the sessions. Mrs. Bess Ferguson, consultant in

guidance services for the Texas Education Agency, will direct the first conference.

Conference members may enroll in WT courses for one-semester hour's college credit or attend for no credit. A conference fee of \$5.00 is charged, and those enrolling for credit also pay regular college tuition. Registration for each conference will be held at 9

a.m. on the first day of the meeting.

To Austin

Overall and Cunningham will attend a two-week conference in Austin from July 24 through Aug. 10, on the administrator's role in school improvement. It will be held in the air-conditioned classrooms of the administration building.

Opera Gives You Enough Language To Travel in Foreign Countries

By W. G. ROGERS
Associated Press Arts Editor
NEW YORK, June 20 — Do you know your opera? Then you know your languages.

When you sail for Europe, dig down into your memory for the stories in the librettos and you don't need to bother with grammars or dictionaries.

There are limits, of course. You can't learn from Mozart how to whistle for a taxi, or from Gounod how to buy a plane ticket, or from Verdi how to go up in an elevator.

But you can order enough food to live on, watch out for your health, keep appointments, amuse yourself, go from here to there, exchange small talk about the weather, and bawl out the servants just from familiarity with the arias, choruses, parlados and in-between passages in operas.

Say you're going to Italy. Say, to make it harder, that the only opera you know is Verdi. Even so you know a lot:

Italian for Handkerchief

"What's the word for handkerchief? Naturally you think of 'Otel-lo,' and you have the answer: fazzoletto. You have a basketful of laundry, you see, you remember 'Falstaff': cesta piena di biancheria. You are interested in a merry time, so Flora in 'Traviata' invites you to a dance that very night: Flora m'invita a danzar per questa sera. You play cards: Ho vinto, and then perdo, which is to say, I win, and lose, from 'Forza del Destino.' But look out: back to 'Falstaff' to have your pockets picked: m'hai vuotate le tasche! Maybe that was when you were blindfolded with la benda from 'Rigoletto.' You want your mail: turn again to 'Traviata': dammi quel foglio. In 'Traviata' they sing: let's go, andiamo. Go at once: va all-

istante. Where are you coming from? From Paris: Dove viene? Da Parigi. Someone is coming: qui giunge alcun. I'll be there: Saro la.

From Falstaff

"Falstaff" teaches you: It's late, the appointment is urgent, or, e tardi, l'appuntamento preme. You're due between 2 and 3 o'clock, or dalle due alle tre. It's Friday: E venerdì.

Good heavens, you cry: Giusto ciel, or, gran dio. Three months have already gone by: volaron gia tre lune. It's 7 o'clock: son sette ore.

So you want to eat: Supper's ready, la cena e pronta, according to "Forza." But one fellow noticing it's venerdì is fasting: digiuna. Give me a cup of water: dammi d'acqua un sorso, or if you have any use for it, a cup of vinegar: dammi d'aceto un sorso. You want it ice cold: add gelido. Bread is pane.

Or Il Trovatore

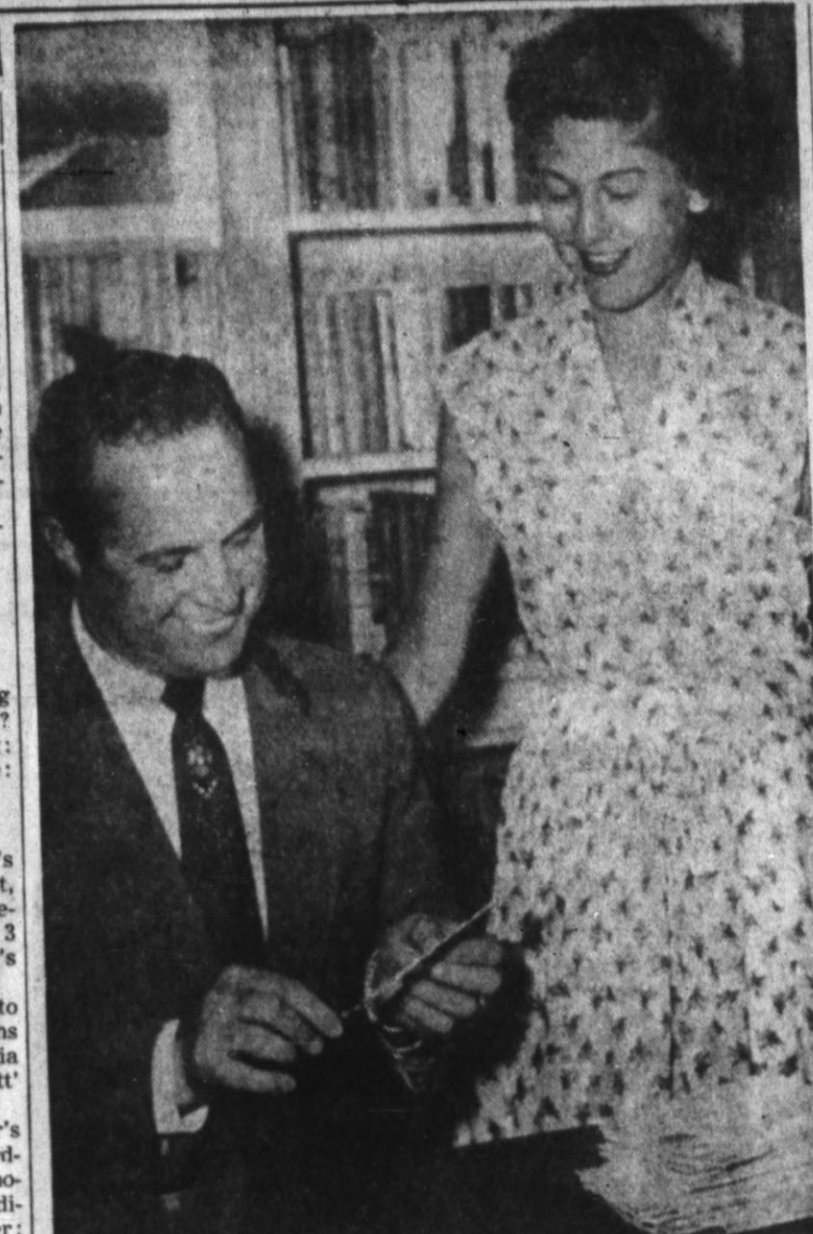

And so we go on, picking here and there from the operas already mentioned and also from "Il Trovatore."

You feel some sickness: mali. Why am I trembling, you ask: Perché tremo? I'm stifling: Affogo. You're ill: Voi Soffrite. How pale: qual pallor! Weep: piangi. Go call the doctor: va pel dottore. You cry for help: Aita, or soccorsi! Then at last: forgive me mi perdona I am better: Sto meglio.

How about the weather? In such weather? Con tal tempo? How dark it has turned: Fitto e la tenebra. It thunders: Tuona Shut the doors: Chiudete le porte.

About the Family?

As for the family there are father, padre; mother, madre; son, figlio; grandfather, bisavolo; baby, bambino; brother fratello. How beautiful she is: Quanto e bella. But as for me: Son sordo e muto,

IT'S FUN to help father work on his Vacation-Bible School correspondence. J. V. Davis and his fifteen year old daughter, Lillian, laugh and work together as she helps him with his duties at the church. (Staff Photo)

Helga Thome Is Guest Speaker For Alesia Circle

Alesia Circle of the Women's Society of Christian Service of the First Methodist Church heard Helga Thome speak to them when they met recently with Mrs. Dick

or I'm deaf and speechless. My eyes are occhi my chin mento testa.

Perhaps you've had enough of this sort of thing? Yes I have exhausted my patience Pazienza non v'ha che basti. You're ready for bed: letto. You have had enough vocabulary you beg for mercy grazia! You exclaim: Never more, mia piu.

Godwin. Miss Thome, German exchange student, talked about the differences in her homeland and America.

Mrs. Godwin gave the devotional on "Fellowship, Beginning in our Community." A farewell gift was presented to Mrs. S. M. Dunnam, who organized this circle.

Other circles met for the purpose of rotating members and electing circle officers in preparation for starting the new year's program June 27.

POLITICAL CHANCES PORTALES — Candidates for county office left it strictly to chance to determine the order in which they would appear on the ballot. The county clerk provided dice and a game of craps settled who came first.

Don't Store Silver For Future Use

THERE is no need for a young wife to store away her wedding presents of silver to preserve them for the future. Silver is one of the few things that improves with use. It will gain a certain luster in the process, so long as it is cleaned regularly. It should be washed in hot, soapy water, rinsed in hot water, and wiped with a soft cloth while the metal is still hot. About once every two weeks it should be polished with a good silver polish. Rub it lengthwise and never crosswise. If the polish dries in the design of the silver use a soft brush to remove it.

Favors In Cake For Bridal Party

Favors are often baked in the wedding cake — those for the bridesmaids in a certain portion of the bride's side and those for the ushers on the groom's side. The bridesmaids find a 10-cent piece for riches, a little gold ring for the "first to be married," a thimble or a cat for an "old maid" and a wishbone for "the luckiest." On the ushers' side a button or a dog is for "an old bachelor," and a miniature pair of dice is a symbol of a lucky life.

Singapore stands on a 220-square mile island.

DESOTO

THE MOST POWERFUL CAR IN THE MEDIUM PRICE FIELD

for PERFORMANCE

The only car picked to pace both the Indianapolis "500" and Pikes Peak Races.

and for PRICE

You can own a full-powered, full-sized DeSoto for just a little more than you would have to pay for a much smaller, less powerful car. See your nearby DeSoto dealer today. Make it a point to... drive and price a DeSoto before you decide!

WIN \$50,000 CASH IN 50 SECONDS

That's first prize in your DeSoto-Plymouth dealers' new Solid Gold License Plate Jackpot. You can enter in 50 seconds. There are 446 prizes in all, \$100,000 in cash. Contest closes July 14. Enter today!

Be Not Overcome Of Evil, But Overcome Evil With Good

ANCHORED

Do you have an anchor? Ships without anchors will drift. People without anchors will drift too. Do you know where to drop your anchor? Can you say, "My heart is fixed trusting in the Lord?" Psalms 112:7. Are you an anchor holding family and friends together? Is your anchor imbedded deeply in truth and righteousness? Phil. 1:28.

EVERY MAN must answer to God and to his own conscience. The sins we do by two and two; we must answer for one by one. If God holds your soul, your feet will never be moved, Psalms 66:9. Do right though the Heavens fall. Be true even if all others are false. The Church, the Bible and daily prayer are sure anchors for every man.

Twenty three Red Cross workers were honored Wednesday afternoon at the annual meeting of the Deaf Smith County chapter held in the county court room.
Pins were presented to Mrs. Henry Benson, in recognition of her 15 years of service, and to Mrs. Bill Howard, in recognition of her 10 years of service.

Award Certificates Presented
Award certificates, acknowledging special volunteer contributions, were given the others. Pins were only presented those who have been paid workers.
Bill Decker, president of the local chapter, presented the pin to Mrs. Benson, who served as executive secretary for 11 years and as a board member for five years.
Mrs. C. Ora Cookrell was presented a certificate by Mr. Decker, in recognition of her 35 years of service as a volunteer worker. Three of these years she has been a board member and two years she has been treasurer.

A. J. Schroeter received a certificate for his 20 years of service. Fifteen of these years, he has been disaster chairman, three years he has been on the board, and one year he served as chairman.
Mrs. Bill Howard was assistant secretary for six years and for the past four years has been home service committee chairman.

W. B. Wilson also was given a certificate as 1956 fund chairman.
Volunteer Services Honored
Miss Colline Brown presented certificates for their years of special service to Mesdames Tom Carroll, Jim Lipscomb, Ralph McCullough, Billye Buck, Alice Cox Steen

Miss Betty Buse and W. G. Harris. Commendations were made to J. B. Wills, Gerry Patterson Bennett, Dorothy Faye Daniel and Mrs. Millard Nobles.
Special teams, composed of parent and child, were also recognized for their dual contributions. They included Mrs. M. R. Latham and John, Mrs. George Suggs and Sue, and Jim Kirby and Karolyn.

People, Plows And Water Make West Texas Future

AP Texas Supplemental Service LUBBOCK, Tex., (AP)— People, plows and water will do the most to make or break West Texas' future, says economist Dr. Sidney L. Miller in his new book, "Tomorrow in West Texas."

"West Texas has three assets of immeasurable worth: a population of high type, a fertile soil, and extensive reserves of oil and gas," the author writes.
"All of these are exhaustible but only the last-named need be—and, if sound policies of conservation and recovery are followed, existing reserves of oil and gas will continue to add wealth to the area for perhaps a half century," he adds.

Retain Population
Dr. Miller placed major importance on holding in West Texas the best descendants of those who have built the area on faith, courage and hard work. The economist warns that West Texas must offer opportunities comparable to those offered elsewhere if its high type population is to be retained.
At a number of points throughout the book, emphasis is put upon the need for a better balanced agriculture program than that which now characterizes portions of the area, as well as a program adapted more closely to long-time advantage than to immediate dollar profit.

Labor and Climate
"Industrially speaking, West Texas assets are its labor force and climate," Dr. Miller says. "Its limitations are water, distance from major markets and absence of an adequate supply of many raw materials."
"In this battle for industrialization, West Texas must—if ultimate success is to attend its efforts—select with care those types of industry adapted to the area," he explains.
Commenting on Dr. Miller's book, Dr. Robert L. Rouse, Texas Tech economist said, "Dr. Miller has capably described the basis for the economic development of West Texas, and has focused attention on a number of the primary problems facing the people of the area."

Army School Graduates Alston
FORT EUSTIS, Va. — Second Lt. James E. Alston, son of Mr. and Mrs. T. D. Alston, Route 4, Hereford, Tex., recently was graduated from the Army's Transportation School at Fort Eustis, Va.
Lieutenant Alston completed the school's transportation officer basic course for officers who recently received their commissions. The lieutenant entered the Army last April. He is a 1955 graduate of Texas A&M College. His wife, Shirley, is with him at Fort Eustis.

Bobby W. Frost Sails for Okinawa

CAMP PENDLETON, Calif. — (FHTNC)—Marine Pvt. Bobby W. Frost, son of Mr. and Mrs. J. M. Frost of 105 Knight, Hereford, Tex. departed May 16 for duty on Okinawa after completing four weeks of training in the Staging Regiment at the Marine Corps Base, Camp Pendleton, Calif.
The Regiment handles all last minute details and training for personnel slated for overseas duty. The training period is filled with clothing inspections, refresher courses on weapons, physical conditioning and cold weather survival training.

HARD-WORKING THIEVES OKLAHOMA CITY (AP)— Alrey DeLaughter, superintendent of the parking meter department here, reports the most ambitious thieves he has ever encountered.
They yanked up a meter—with 150 pounds of concrete still attached to the base. It is a puzzle how they got the meter and concrete out of the sidewalk. For their efforts, they got about \$1.50.

Although peacock meat is dry and tasteless, it was often eaten during the Middle Ages.

GLAMOROUS, SURE— but a tomboy at heart!

Turn Chevy out on the road to discover its real charm! For this is the beauty that recently raced 2,438 miles in 24 hours to set a new round-the-clock competition track performance record!

It happened at the famed Darlington Raceway, Darlington, S. C. A regular production Chevrolet with 225 h.p. poured it on for 24 straight hours, averaging 101.68 miles per hour, to top the Indianapolis stock car record by 280 miles!
Add that to Chevy's unparalleled record in stock car competition—and you come up with the low-priced beauty that outshines every

body! No maybes about it. Here's proof of pep and performance that means safer, happier highway driving. Few cars at any price can hold the road with Chevrolet's grace. And it's got the stamina to stand the gaff for 24 straight scorching hours at a pace that few other cars would even attempt to match! Drop by—you'll see you can't beat Chevy for a buy, either!

AIR CONDITIONING—TEMPERATURES MADE TO ORDER—AT NEW LOW COST. LET US DEMONSTRATE

TRULY - TEAGUE CHEVROLET

As You CONSIDER Who Shall Be YOUR NEXT DISTRICT ATTORNEY CONSIDER THE AGE:

Community Residents Attend Wedding Of Miss Kay Steele, Mr. McWilliams

By VERADELLE ANDREWS
Mrs. Annie Springer, Mr. and Mrs. G. A. Springer and family, Mr. and Mrs. Elbert Summers and family, Charles Springer and Daleine Tinnin were in Silvertown Thursday afternoon to attend the wedding of Mrs. Annie Springer's niece Miss Kay Steele, to Charles Dean McWilliams.

Miss Steele is the daughter of the Alton Steeles and the couple were married Thursday afternoon at the Methodist Church. Donna Gayle Summers returned home with her grandmother, Mrs. Annie Springer, Thursday night to stay until Sunday.

Mr. and Mrs. Charles King and David King of Amarillo spent Father's Day with Mrs. King's folks, the J. E. Andrews. Mr. and Mrs. T. L. Sparkman, Tommy, Bonnie, and Darlene also spent the day in the Andrews' home.

Celebrate Birthdays
Mr. and Mrs. B. M. Sudduth, Frances Andrews and George Zetzsche were Sunday dinner guests of Mr. and Mrs. Leonard Schmidt. The occasion was to celebrate all of the mens' birthdays which were within the past week.

Mrs. Claude Wicker of Idabelle, Okla., visited from Wednesday night until Sunday with her niece and family, the Herb Schmidts. Wednesday evening, the Schmidts went to Amarillo to the home of Mrs. Wicker's daughter, to get her for the visit. Mrs. Wicker was on her way home to Idabelle after spending several months in California with her children. Schmidts took her to Amarillo Sunday.

Revival Closed
The revival closed with the Sunday evening service. Rev. Nipp left for his home at Gomaz, Sunday afternoon after Rev. Nipp and the B. H. Baldwins had had dinner in the Herb Schmidt home. During the revival, several people came in to the church by letter and baptism, and there were many rededications. Those coming by letter were Mr. and Mrs. Thurmond Mousner, Carol Jane and Johnny Mousner, Mrs. Clark Dobbs, Don Glenn, Billy Martin, Mrs. Gene Welch, Mr. and Mrs. Johnny Robinson, Roy Battles. Those who came for baptism were Misses Norma and Delores Battles, Gene Welch, and Mrs. Patterson.

Has Chicken Pox
Dale Schmidt had to stay at home over the weekend, as he has the chicken pox. He is getting fine, as they did not bother him too much.

Mr. and Mrs. James Dobbs attended the reunion of the 1951 graduates of the town of Hereford, and being a part of Blk. No. 11, DeAtley Division, a sub. of Blk. No. 10 and 11 of Womble Add. to the Town of Hereford.

Community Residents Attend Wedding Of Miss Kay Steele, Mr. McWilliams

duating class Saturday night a week ago. Mrs. James Dobbs was one of the hostesses for the occasion. Saturday morning, the women of the class met for a coffee.

Mr. and Mrs. Floyd Cole and family went to Spearman, Sunday, to visit in the John Cole home. They also took Marilyn, daughter of the John Coles, home after a week's visit here with her relatives. Jana Cole remained in Spearman for a few days' visit.

Mr. and Mrs. Kenneth Cox, Larry, Lynn and Virginia were in Amarillo Sunday to visit with Mr. Cox's father, H. H. Cox.

Attends Reunion
Mrs. H. M. Mobley was in Brady, Sunday to attend a Todd family reunion. On Friday, Darwin Miller took her to Plainview to go to Brady with her nephew, Rev. Ellis Todd. Mrs. Mobley returned home Sunday night.

Mr. and Mrs. Owen Andrews, Glenn, Joe and Veradelle Andrews were Sunday dinner guests of Mr. and Mrs. T. L. Sparkman Sr.

Visiting in the home of Mr. and Mrs. Jeff Terrell, Sunday, were Jeff's parents, Mr. and Mrs. Tom Terrell of Plainview, and his brother and family, Mr. and Mrs. Glenn Terrell, Mike and Hardy of near Hart.

Messrs. and Mesdames James Dobbs, Henry Dobbs and Danny McLallen were Sunday dinner guests in the home of Mr. and Mrs. S. B. McLallen and Sammie.

Houston Guests
Mr. and Mrs. Ralph Cole and boys of Houston, came Saturday morning to visit with their Cole relatives. Mr. and Mrs. Cole went on to Colorado to vacation and the boys remained here with the Earl Coles.

Mr. and Mrs. Elbert Summers, Dean and Clint, visited Sunday in the home of Mrs. Annie Springer and took their daughter, Donna Gayle home with them.

Mr. and Mrs. E. H. Little, Peggy and Becky of Texline came Sunday morning to visit with her folks, the Robbins families. The Littles, the H. D. Robbins family, the Frank Robbins, the Weldon Stephens, and the Gary Masons, enjoyed a picnic dinner Sunday in the home of Mrs. Frank Robbins' parents, Mr. and Mrs. F. Y. Moremon. In the afternoon, the Moremon's daughter and family, the G. O. Edwards visited in the Moremon home.

Thompson Park Party
Mr. and Mrs. R. L. Simpson, Mr. and Mrs. Glenn Roberts and family and Mr. and Mrs. B. G. Cotton and Gary and the Roy Campbells of Summerfield were in Amarillo, Sunday to attend a Roberts family reunion at Thompson Park. They reported that 61 relatives attended the reunion.

It was really a reunion for many of them as some had been separated for four or more years and nine of the 11 children and the parents were present. One of the families, the C. W. Roberts of Sacramento, Calif., had not been with the other families for four years and had never seen their seven-month-old grandbaby, the son of the Dale Roberts of Louisiana. The C. W. Roberts and the Dale Roberts came to Frio to visit for a longer time with their relatives here.

Also, a niece and her husband, Mr. and Mrs. Vernon Ensey of Dumas is spending the week with their relatives here. Dale Roberts has visited here before during the summer and helped the Campbells and Simpsons with their farm work. All of the Roberts relatives of this community met Monday night at the Glenn Roberts home to visit and to eat ice cream.

Visits Grandparents
Jerry Roberts who had been visiting his grandparents, the C. E. Roberts of Wellington returned home with his parents, the Glenn Roberts Sunday. The other children went to different relatives' homes for their visits. Barbara Roberts is visiting her cousin, Bonnie Hudson of Dumas. Charles Roberts is visiting his grandparents,

Farm Bureau Head Asks Investigation Of Oil Companies

WACO — (Sp) — The president of the Texas Farm Bureau has asked Texas Senators Johnson and Daniel to investigate the possibility of collusion on the part of oil companies in a recent gasoline price increase to farmers.

In messages to the Senators, J. Walter Hammond said discriminatory gasoline price increase to the farmers could eliminate the benefits of the federal gas tax exemption recently passed by Congress. The state farm leader said oil companies have recently hiked the price of gasoline one-half cent per gallon to the farm and ranch trade only. Heretofore, the "tank

Farm Bureau Head Asks Investigation Of Oil Companies

wagon" delivery price had been the same to all, he said.

"Farmers are of the opinion," Hammond said, "that this increase is a flagrant discrimination against the farm and ranch trade and appears to be a deliberate attempt to take away some of the benefits farmers would receive from the recent tax refund law."

Hammond asked the Texas Senators to "Please investigate the possibility of collusion on the part of oil companies to divert all or part of this refund into their own treasuries." He said that if there is collusion, it "could completely nullify the intention of Congress to refund federal taxes paid on gasoline used in tractors and stationary engines on the farm."

Farm Bureau Head Asks Investigation Of Oil Companies

A date palm comes to full bearing at about 20 years of age and ceases to be important as a fruit producer after about 60 years of life.

The New Sensation! CARS LUBRICATED While In Swaying Motion

MOTO-SWAY
LUBRICATION PRACTICALLY UNDER DRIVING CONDITIONS
SWAYS SQUEAKS AWAY

- WE—Pull the spring leaves back into their natural curve—we call it "Temporary Re-arc-ing."
- WE—Put the proper lubricants where the ACTUAL WEAR takes place—the highest points of friction.
- WE—Permit 100% lubrication, apply grease while the car is in motion and while the weight of the body is on the MOTO-SWAY.
- WE—Spread spring leaves even inside the covers to actually put lubricants between the leaves—not just smear on the outside.
- WE—Locate those HIDDEN BODY SQUEAKS, we detect impaired parts.
- WE—Lubricate "Knee-Action" cars. See it work, it's perfect while the parts are all in motion—"floating action."
- WE—Lubricate and free bearings even in WINTER so snow and water won't run them—also FORCE OLD LUBRICANT OUT and FRESH LUBRICANT IN.
- WE—Make old cars ride like new ones, keep new ones riding like NEW.—WE prove it.
