Marines Fear End Of Corps Is Imminent

Apprehension Is Voiced In Sullivan's Letter To Johnson

WASHINGTON, April 27. (AP)—The Marines now have official, written support for their suspicion that armed forces unification may mean the end of the corps.

Secretary of the Navy John L. Sullivan, in his angry letter to Secretary of Defense Johnson denouncing Johnson's order to cancel building of the 65,000 ton super aircraft carrier, voiced this apprehension: "The conviction that this will result in a renewed effort to abolish the Marine Corps and to transfer all Naval and Marine aviation elsewhere adds to my anxiety."

The Marines' alarm already had been stirred by a statement from another official quarter. Secretary of the Army Kenneth C. Royall, testifying before the Senate Armed Forces Committee two weeks ago, had urged that the authority of the Secretary of Defense be made strong enough to allow him, with presidential approval, to "make the Marines part of the Army or the Army part of the Marines."

The Marine Corps has no voting voice on the joint chiefs of staff. That military high command is made up of the chief of staff of the Army, chief of staff of the Air Force and chief of naval operations. The Marines, not an autonomous military body, are represented by the naval chief. Their future thus is tied to that of the Navy.

In telling Johnson of his decision to resign because of the ruling against the carrier, Sullivan said that Johnson issued the order "without discussion with the chief of naval operations, without consultation with the Secretary of the Navy."

In his order to Sullivan last Saturday, Johnson said he took that action after receiving "the views of the chiefs of staff" and discussion with the President.

Hester was arrested in Los Angeles on March 12, four days after Lord was slain and robbed.

A. W. Haskew, Burlington lumber dealer, testified that Lord bought a sack of nails from him the morning of March 8, shortly before noon.

Mrs. Hattie Grider, teller of the Trinity State Bank, Fort Worth, testified that earlier the same morning the educator, an authority on constitutional government, had cashed a check for \$25.

District Attorney John A. James, Jr., has announced that he will ask the death penalty for Hester, who became Lord's ward after running away from the state orphanage at Corsicana in 1945.

Sheriff Walling told the packed courtroom today that Hester had a "bad" reputation.

SHERIFF ON STAND

Call Five Witnesses In Hester Trial

CLEBURNE, April 27 (AP)—Five states witnesses testified today in the murder trial of Arthur Clayton Hester, admitted slayer of his guardian, 76-year-old Dr. John Lord, graduate school dean of Texas Christian University.

Sheriff Houston Walling of Johnson county was on the stand when the court recessed at noon. Earlier testimony was given by two college students who found Lord's badly beaten body March 10 and by two persons who said they saw the elderly educator the morning of March 8. The time of Lord's death has been established as about noon on March 8.

John Dekker and William Marshall, two of Lord's students at TCU, said they found Lord's body at his secluded farm home near Burlington on March 10.

Sheriff Walling, who was called to the scene by the students, said there were nine wounds on the head "and a lot of dried blood."

He identified as the murder weapon a metal rod, 25 inches long and five-eighths of an inch thick. The rod weighed two pounds.

The handsome, 18-year-old Hester, appeared very solemn today.

GENERALISSIMO SEES THIRD WORLD WAR IF CHINA LOST IN CONFLICT

SHANGHAI, April 27. (AP)—Chiang Kai-Shek today returned to the battle against Communism, forecasting a third world war if China is lost.

His country, he said, would be the tinderbox and furnish the men for that war if the Chinese Communists win. The Generalissimo pledged to share the hardships of his countrymen "on the brink of disaster."

Calder Slated To Become New Army Secretary

WASHINGTON, April 27. (AP)—Curtis E. Calder, utilities executive, has agreed to become Secretary of the Army.

Gordon Gray, now assistant secretary, will be promoted to under secretary and serve as acting secretary until Calder can take over the post.

This is the job formerly held by Kenneth Royall, Calder, chairman of the board of Electric Bond and Share, says he will be ready to take over the top Army post within 60 days.

Secretary of Defense Louis Johnson, who had been urging Calder to take the post, was reported to have discussed the matter with President Truman during a White House call today.

385 Registered For Assembly Of God Convention Here

Registration figures reached 385 this morning as the West Texas District Council of Assemblies of God Churches moved into the second day of its 19th annual meeting in the Big Spring Municipal auditorium.

Principal speaker on the program this morning was the Rev. A. C. Bates, Missionary-Secretary of the Texas district.

The council went into a business session immediately after Bates' address. The business session was to continue this afternoon.

Tonight, the Rev. Gale Lewis, Springfield, Mo., the featured speaker of the three-day meeting, was to make his second address before the council. Rev. Lewis, who is general assistant superintendent of Assemblies of God Churches, was main speaker Tuesday night, and prior to that he spoke at a city rally Monday night, which preceded the regular council session.

The district convention will close Thursday night with ordination services in the auditorium.

Visitors had registered this morning from six districts outside the West Texas area. They came from other districts in Texas, New Mexico, California, Oklahoma, Tennessee and Arkansas.

Bullitt Sees Danger Of New World Conflict

AUSTIN, April 27. (AP)—William C. Bullitt, former ambassador to Russia, told the Texas Legislature today that by allowing Russia to conquer China "we are making certain the coming of a third world war."

He added that the "confidence of Americans in the atomic bomb is beginning to resemble the confidence of the French in the Maginot line."

Bullitt spoke to a joint session of the senators and representatives, while in Texas on a lecture tour.

"We have concluded a North Atlantic pact—three years too late," the former ambassador said. "It is a frame without a picture; an excellent idea without substance."

He asked the legislature to press national leaders for action in China.

'Y' Drive Leaders Optimistic As Fund Hits \$16,000 Mark

Leaders in the YMCA building fund campaign were optimistic this morning over prospects for pushing the drive through to successful completion as initial reports showed contributions totalling \$4,000 since Tuesday morning.

The new contributions boosted the fund total to approximately \$16,000, or four-tenths of the \$40,000 goal.

Cliff Wiley, general chairman for the campaign, said workers had reported good response in most instances. The percentage of contributions is high, thus far, and the momentum will be accelerated, workers promised.

The regular campaign for funds started Tuesday morning although some \$12,000 had been raised previously during informal contacts made by "Y" board members.

Seek Formal Basis In Negotiations

NEW YORK, April 17. (AP)—The United States delivered a note to the Russians here today asking for a formal statement as to when and on what conditions they will lift their Berlin blockade.

The note was taken by Philip C. Jessup, American ambassador-at-large, to Soviet Deputy Foreign Minister Jakob A. Malik.

Jessup called on Malik at the Soviet offices on upper Park Ave. The text of the American communication was not made public, but informed quarters said its main purpose was to shift negotiations to a formal basis and get Russia's views down on paper.

Previously no views had been exchanged in writing since Jessup first brought up the question in an informal talk with Malik at Lake Success Feb. 15.

Jessup brought the note with him on his return to New York this morning after talks in Washington yesterday with President Truman and State Department officials.

Before going alone to see Malik, Jessup met with members of the U. S. delegation to the UN at the American headquarters, 2 Park Ave. He disappeared later and was understood to have called on British and French representatives to show them the note.

The American note was understood to seek clarification specifically on two issues: An exact understanding as to what would be involved in any agreement to lift the blockade and a proposed timetable.

A U. S. spokesman said this switch to a formal exchange of notes probably would result in some delay in getting Russia's views. It was expected, he said, that Malik would transmit the American note to his immediate superior here, Deputy Foreign Minister Andrei A. Gromyko, who in turn probably would have to consult Moscow before replying.

No information on the talks will be given out immediately after the meeting, the spokesman said. Whatever information is given out is expected to come from a news conference later in the day, at Lake Success.

The United States hopes to learn at this meeting whether Russia is ready to lift the blockade of Berlin without attaching unacceptable conditions.

Senate Committee OK's Oleo Measure

WASHINGTON, April 27. (AP)—The Senate Finance Committee today approved the House-passed oleomargarine tax repeal bill. Its action sends the measure on to the Senate.

Chairman George (D-Ga.) announced the bill was okayed by a voice vote. He said he had no idea when the Senate itself might vote on it in view of the press of other legislation.

Gilmer-Aikin Forces Holding Edge In Fight

AUSTIN, April 27. (AP)—Gilmer-Aikin forces held a decided edge today as they steadily beat down proposed amendments to the second of the school bills.

They killed three suggested changes by margins of two-to-one, indicating their strength is greater on this bill than on the school reorganization bill passed last week.

Rep. J. F. Gray of Three Rivers sought to put teachers salaries on a sliding scale which would vary according to changes in cost of living as shown by U. S. Bureau of Labor statistics. He would have used the base salaries set forth in the G-A bill.

Rep. George Nokes of Corsicana argued that "such a large program as this should not be put on such an indefinite basis."

The House killed the amendment, 77 to 38.

Debate of the bill was interrupted so a joint session of the House and Senate could hear speech by William C. Bullitt, former ambassador to Russia.

The Senate rejected a change made yesterday by the House in the proposed constitutional amendment to abolish the poll tax as a requirement for voting. A conference committee to evolve differences was requested.

Proposed Taxi-Cab Ordinance Approved By Commissioners

Big Spring city commissioners started all over again Tuesday on a proposed taxi-cab ordinance, approving on first reading a revised measure embracing several suggested changes in the original draft that was read previously.

At the same time commissioners agreed to grant a 10-year franchise to Bucher Bus Lines, the transit firm currently serving the city. The latter action was taken after City Manager H. W. Whitney read a letter from J. M. Bucher, requesting a long-term franchise. In the letter Bucher explained that he planned to purchase modern equipment in the near future, requiring a substantial investment. A franchise for at least 10 years was needed, he said, to protect such an investment.

Briefly the taxi-cab ordinance calls for fees of 1 percent of gross revenues received by cab companies and the bus company, plus an additional fee of \$20 a year for each vehicle licensed for operation. The fixed fee would be paid in semi-annual payments.

The ordinance also would establish city license requirements for taxi-cab and bus drivers.

Bids Awarded For New Airport Terminal Here

Tentative contracts totalling \$49,019 for construction of a new terminal building at the Big Spring Municipal Airport were agreed upon immediately after bids were opened Tuesday afternoon at the city hall.

Contract for general construction will go to B. F. Horn, Abilene, while A. P. Kasch of Big Spring was successful bidder on plumbing and heating work and the Abilene Service Co. is due to receive the electrical contract.

Work is expected to begin within 30 days.

Horn's best bid was \$39,179, including a \$2,000 deduction for the privilege of using some salvage materials owned by the city. Other bids on general construction work were submitted by Suggs Construction Co. and by R. E. Power.

Kasch turned in a bid of \$6,050 on the plumbing and heating contract, which was lower than figures submitted by Tucker and Son, Samson Co. of Lubbock, and Power.

Six bids were considered for the electrical work, with the Abilene

Service Co. quoting the lowest figure, \$3,790. Other electrical bids were submitted by Tally and Worthing, Petty Electric Co., W. K. Jennings, D&H Electric Co., and Power.

Formal contracts will be issued as soon as figures have been finally approved by the Civil Aeronautics Administration. Such approval is regarded as a mere formality, since the CAA already has made an offer of Federal assistance on the project. Acceptance of the offer will be forwarded to CAA simultaneously with proposed contract figures.

Meanwhile, steps will be taken to establish zoning regulations in the immediate vicinity of the airport. The regulations, as authorized by state law, would be flexible, chiefly for use as safeguards against obstructions at the ends of runways. The zoning will require action by both city and county commissioners.

The new terminal will be located south of the No. 1 hangar where the airport manager's office is located. The structure will be 128-foot long and 56-foot wide, with exterior walls of redwood and stucco. Cordovan shell limestone will be used for outside trim.

Space will be provided for offices of three commercial carriers, the U. S. Weather Bureau and the CAA. The main lobby will be 41-foot long and 19-foot wide, while extra lobby space adjacent to commercial carrier ticket counters will be 45-foot long and 18-foot wide.

An open porch 42-foot long and 10-foot wide will face the airport ramp, with glass walls between the main lobby and the porch. The lobby will be finished in Amerwood to a height of four feet, with plaster above. Ceilings will be covered with acoustical tile throughout.

Plans and specifications were prepared by Puckett and French of Big Spring.

Skaggs Has Good Stand Of Clover

Warren Skaggs, district supervisor in Zone 4 of the Martin-Howard Soil Conservation District, has 30 acres of Madrid clover making good growth on his ranch 26 miles south of Midland.

Dr. Lee O. Rogers, district operator in the Tarzan soil conservation group, planted 15 acres of native and introduced grasses last week.

In a talk given at a meeting of the Toastmasters Club Monday night at the Douglas Hotel, Dr. Rogers discussed the district range management program.

Transports Ready If Blockade Lifted

FRANKFURT, Germany, April 27. — Trains and trucks can start rolling toward Berlin almost at the moment the blockade is lifted.

West German and allied officials disclosed today that they are ready to move fast if Russia relents. Plans have been kept constantly up to date ever since the blockade began nearly a year ago.

"At a moment's notice we are ready to dispatch 18 trains over the one available rail line through Nohmstedt to Berlin," Busch said.

Air Force Crew Rescued After Ocean Landing

NEW YORK, April 27. — Four men in a crippled U. S. Air Force transport plane made an emergency landing beside a Coast Guard cutter far out in the Atlantic Ocean early today and all were rescued.

The twin-engine transport, en route from the Azores Islands to Argentina, Newfoundland, belly-landed beside the Cutter Seabago at 1 o'clock this morning 610 miles southeast of Newfoundland.

Wichita Falls City Council May Sell Struck Bus Line

WICHITA FALLS, April 27. — The city council was to meet here today in another effort to end a strike by city bus drivers.

The council will act on a Mississippi concerns offer to buy the strike-bound bus company. The offer came from the Biloxi-Gulfport, Miss., city lines.

Last night, the striking bus drivers approved a proposed \$1 an hour wage from the Mississippi concern, effective if the purchase plan is accepted.

Price Insurance Program For Farm Owners Suggested

WASHINGTON, April 27. — A price insurance program for farmers was proposed here yesterday by Rep. Poage (D-Tex.).

He submitted the insurance plan as a substitute for direct subsidies. He made the proposal to Agriculture Secretary Charles F. Brannan.

The new administration farm program calls for direct subsidies. Poage said his plan would involve collection of a "social security" tax on farm income to establish a fund to bolster prices in lean years.

The government would match such collections, probably exceed them, Poage said. Then, he added, the farmer would receive help "as a matter of right, the same as industrial workers and other protected by social security."

W. C. Fields' Widow May Seek One Half Of Husband's Gifts

LOS ANGELES, April 27. — The widow of Comedian W. C. Fields may seek recovery of one half of the gifts her husband gave to others — so rules the district court of appeals.

Mrs. Fields sued to recover gifts valued at \$482,450. She claims she was entitled to this amount from the Fields estate, alleging the gifts were made from their community property and without her knowledge.

The Fields were estranged many years but never divorced. They married in 1900. Fields died Dec. 28, 1946.

The superior court threw her suit out of court but she appealed.

The appeal court ordered the case returned to superior court for trial. The Fields estate is valued at \$771,428.

Pan American Cuts Price On Crude Oil

HOUSTON, April 27. — Another major oil company today cuts its price on low gravity crude oil.

Pan American Production Co. announced a 25-cent barrel reduction in posted prices for purchase of asphaltic crude oil. The price cut is in four Northeast Texas fields.

Magnolia Petroleum Co. and Humble Oil and Refining Co. are other purchasers who have cut prices on low gravity crude in Northeast Texas this week.

E. R. Turner, president of Pan-American, said yesterday the price reduction would be effective today — in the Cayuga, Manziel, Merigale-paul and Quitman fields.

The new posting for low gravity crude for the four fields is \$1.95 per barrel on oil below 20 gravity. There will be a two-cent per barrel differential upward to a top price of \$2.21 a barrel for 32 gravity oil and above.

Fabulous Loot Of Lima Still Is Lost

RIVERSIDE, Calif., April 27. — The fabulous \$500 million "Lost Loot of Lima" is still lost.

But James A. Forbes, who admits failure for his fifth quest for pirate gold on tiny Cocos Island, emphasizes he still needs convincing that the treasure is a myth.

In fact, he said last night he just learned that Santa Clara University in Northern California has 100 ancient letters referring to the treasure.

They were written by his great-grandfather, James Alexander Forbes, an "educated pirate" whose maps were used in trying to locate the booty.

Forbes, who returned by air from Puntarenas, Costa Rica, after his latest expedition ran out of funds and food, said he plans to study the letters to see if further search is justified.

Three-Car Collision Victim Succumbs

TEMPLE, April 27. — A three-car collision north of here has claimed the life of a second victim. Mrs. Anne Shaw Lanier, 44, of Fort Worth died here yesterday.

The first victim was Mrs. James V. Hatley of Camp Hood, who died instantly in the crash Sunday. Five other persons were injured.

FORT WORTH, April 27. — An escaped Georgia chain gang fugitive told of a six-week crime spree that netted him "between \$40,000 and \$50,000."

And Paul Lord Stebbins, 36, told two Fort Worth detectives there "no hard feelings" after he was subdued in a round and tumble struggle in front of a downtown department store.

Stebbins, 36, described by the FBI as "armed and dangerous" was arrested here late yesterday afternoon.

Stebbins told a Star-Telegram reporter he fled the Fulton, Ga., chain gang last month, went from Atlanta to Denver to Houston and to Minneapolis and made all points in between.

REPORTED TO FBI ABOUT MEETINGS

Young Girl 'Red' Testifies In Communist Conspiracy Trial

NEW YORK, April 27. — A dark-haired girl photographer, appearing as the first female witness at the Communist conspiracy trial, says she has been a "very active Communist" for seven years.

But throughout that time, Angela Calamiris testified yesterday, she has slipped regular reports to the FBI about secret party meetings, schools and activities.

The slender, attractive Miss Calamiris, who operates a photography studio in her Greenwich village apartment, said that at one Communist school she was taught that:

"Socialism could not be achieved by evolution, but that it was necessary to violently overthrow the existing government. All branches of the state would have to be abolished, smashed and a dictatorship of the proletariat would follow."

Miss Calamiris, about 25, said her FBI connections were so well shielded that she was a party member in good standing up to the time she began testifying.

At one point she stopped down from the stand and placed a finger on the shoulder of Gil Green, one of the defendants, to identify him as the man who welcomed her into party ranks in 1942.

Green, now of Chicago, formerly was secretary of the party in New York State.

The 11 defendants are accused of conspiring to advocate the forcible overthrow of the government.

Miss Calamiris, dressed in a chic black suit, smiled frequently as she testified in a low, even voice.

Her appearance brought this comment from Benjamin J. Davis, another defendant and Negro city councilman in New York.

"In the past the FBI stool pigeons have been males, now they have found a female."

Miss Calamiris said she accepted an invitation to join the party after a talk with the FBI.

In the party, she was known as "Angelo Cole"—a name she said she assumed on instructions of party leaders.

She became financial secretary of a Communist club in West Midtown Manhattan, and kept records of dues payments and other collections, she said.

The party was "partially underground" when she first joined, she testified, but that policy changed in 1944 when the Communist Party in the U. S. was dissolved, and replaced by a political association with a program of co-operation with capitalism.

After that, she said, "we called each other brother and sister or friend; before that we called each other comrade."

She said her group "no longer met in secret — our meetings became open and we were allowed to bring friends."

But in the following year—1945—the Communist Party was re-established, switched back to its former Marxist-Leninist line, and all "former titles were renewed," she said.

From then on, it was "regular practice" for Communist Party

units to destroy membership cards, records, and for members to use false names, she testified.

She said that one club member opposed the return to the former party policies.

Asked what happened to him, she replied: "He was expelled."

5 doctors prove this plan breaks the laxative habit

If you take laxatives regularly—here's how you can stop. Because 5 New York doctors now have proved you may break the laxative habit. And establish your natural powers of regularity. Eighty-three per cent of the cases tested did it. So can you.

Stop taking whatever you now take. Instead: Every night for one week take Carter's Pills. Second week—once each night. Third week—once every other night. Then—nothing! Every day drink eight glasses of water; eat a definite time for regularity.

Five New York doctors proved this plan can break the laxative habit. How can a laxative break the laxative habit? Because Carter's Pills "unblock" the lower digestive tract and from then on let it make use of its own natural powers.

Further—Carter's Pills contain no habit-forming drugs. Break the laxative habit... with Carter's Pills... and be regular naturally. When worry, overeating, overwork make you irregular temporarily—take Carter's Pills temporarily. And never get the laxative habit. Get Carter's Pills at any drugstore for 25¢ today. You'll be grateful the rest of your life.

McGee Carried From Courtroom After Scuffle

LUBBOCK, April 27. (AP) — Two officers carried Richard W. McGee from the courtroom here where he is on trial for murder.

The handcuffed, 24-year-old youth, charged with slaying a Lubbock grocery executive, was carried out yesterday after a mild scuffle.

Last Friday he staged a wild outburst in the court and it took officers 10 minutes to subdue him.

McGee, forced to wear handcuffs since that outburst, earlier yesterday told Chief Deputy Sheriff George Eubank and Deputy Earl Horton that he was "going to blow his top" if the handcuffs weren't removed.

The scuffle came immediately after the jury had left the courtroom late yesterday.

District Judge Dan Blair told Eubank to remove McGee.

When Eubank placed his hand on McGee's arm, the prisoner broke away. City Police Sgt. J. T. Alley grabbed him around the legs and Horton locked his arms around McGee's body. McGee gave up after a brief struggle. He was carried to the elevator, across the court yard and to his cell in the county jail.

SOUGHT EMPLOYMENT

Mrs. Brennan Still Gets Replies To Ad

DOVER, Del., April 27. (AP) — Mrs. Inez Brennan, held on a murder charge in Delaware's "lonely hearts" case, is still receiving answers to a magazine advertisement in which she sought employment as a housekeeper, state police said today.

Col. Herbert E. Barnes, Delaware state police commander, said that since Mrs. Brennan's arrest on April 12 more than 30 letters have been sent to the Brennan farm in response to the ad.

The letters, Col. Barnes said, were all opened for police examination as a matter of routine.

Col. Barnes said Mrs. Brennan met both men through "lonely hearts" correspondence and said robbery was the motive in each case.

Yesterday, Detective Wilfred Dube in Camden, N. J., announced Robert Brennan admitted shooting Mrs. Bessie Watkins, of Laurel Springs, N. J., nearly two years ago intending to rob her. She later recovered from her neck wound but the case was never solved, Dube said.

Meanwhile, Delaware state police continued their search for six men from Pennsylvania and New Jersey who wrote Mrs. Brennan and have not yet been located in extensive police checking.

TO APPEAR IN LUBBOCK—Amparo Iturbi, distinguished concert pianist now on concert tour in England, will fly back to this country the first week in May and will be the guest artist with the Lubbock Symphony Orchestra May 6 and 7. Miss Iturbi, sister of the famous Jose, has won high critical acclaim in her own right. Tickets for the concert may be obtained by mail from Lubbock Symphony, Box 694, Lubbock, with check and stamped self-addressed envelope. Prices are \$3, \$2.80, \$2.40, and \$1.80. In recognition of National Music Week, student tickets will be sold for 85 cents.

Truman's ECA Funds Facing Further Slash

WASHINGTON, April 27. (AP) — President Truman's shaved-down request for foreign-aid funds drew a "let's cut more" reaction today from some congressional leaders.

As a House appropriations subcommittee met to consider Mr. Truman's request for \$5,272,200,000 for the European Recovery Program, influential lawmakers talked about cutting as much as \$2 billion from the fund. The figure Mr. Truman mentioned itself represents a cut of more than \$150 million from the amount authorized by Congress. The President said "a number of developments," including a drop in prices made that possible.

But besides talking of a further slash in the total, some Congress members urged that any money spent for military assistance for Europe be taken from the recovery fund.

Congress recently authorized a European aid program costing \$5,430,000,000 between now and June 30, 1950, but it has not yet provided the money to finance the program.

The figure asked by Mr. Truman does not include the cost of projected military aid for European countries resisting the spread of Communism. Secretary of State Acheson has estimated that program would cost \$1,450,000,000 the first year.

Traffic Record Commendable Only In Representing Lives

Big Spring has passed the 500-day mark without having suffered a traffic fatality.

To go almost a year and a half without anyone having been killed outright or having been fatally injured in the movement of thousands of automobiles over the city streets is a notable achievement.

The police chief is correct in paying tribute to the public for its cooperation in making the record possible, for after all it is the individual feeling of responsibility and consideration for the other fellow that pays off. Officers can certainly control some traffic infractions but they cannot be everywhere at once, hence the increased reliance upon the public conscience.

It is a great temptation to crow over a record—but the record is important only to the extent that it represents the saving of lives. No one knows how many; we only know that no lives have been lost needlessly in that period of time. To sacrifice human lives to carelessness or

toughness is an indictment against intelligence.

Now is the time to concentrate upon extending that record for the sole purpose of saving lives. That means that every person who rides and walks will have to be constantly and doubly on the alert. You may be exercising care, but the pedestrian or approaching driver may not. You have to look out for him, too, as a measure of caution for your own safety.

Parents can be helpful by driving properly and setting good examples. They can be helpful by making sure that sons and daughters drive the same way when they are allowed to have the car. The immature resort to speed can claim a life that can't be brought back by a life-time of regret.

Let us all continue to be careful with our driving; to obey speed limits and traffic signals; to resolve the issue of time and safety always in favor of safety; and above all watch out unceasingly for children.

Bipartisan Foreign Policy Hit As Solon Demands GOP Take Own Stand

WASHINGTON — It wasn't officially recorded, but New Hampshire's Sen. Styles Bridges recently struck a sharp blow at the bipartisan foreign policy by demanding that the GOP take its own stand on foreign affairs — particularly in China.

He shot the challenge squarely at Michigan's Sen. Arthur Vandenberg, the Mr. Big of the bipartisan foreign policy, during a secret meeting of the Republican Policy Committee.

The debate got so heated that at one point Vandenberg snorted: "Now, this is within these four walls. There aren't many here, and if this appears in Drew Pearson's column, I won't have too many to check with."

However, here is the story of what happened at the secret meeting.

Bridges called upon the Republicans to stop echoing "me, too" to everything the administration does and to focus a "little sunlight on the mistakes and questionable policies" of the Democrats.

He charged that China was being forfeited to the Communists and urged Vandenberg to take a stand on this and demand a review of our China policy. When America realizes its mistake, Bridges argued, then the Republicans could pin the blame upon the Democrats.

Vandenberg retorted sharply that it was easier for Bridges to snipe against our foreign policy because he didn't have the responsibility as GOP foreign-policy spokesman. Vandenberg admitted that the picture is dark for the Chinese anti-Communists, but argued that it was too late to interfere without jeopardizing the chances of salvaging what is left. By intervening now, the United States wouldn't save China but might endanger future relations.

He also pointed out that the corrupt government clique that runs the central government soaks up most U. S. aid intended for the Chinese people.

DIPLOMATICS?

Bridges snapped back that members of the State Department were sabotaging our foreign policy and demanded that the pro-Communists be flushed out of the service.

At this, Massachusetts' lean Leverett Saltonstall raised a cautioning hand, suggested it was unfair to question the motives of diplomatic personnel.

"If you had a general who commanded an Army and lost a battle through incompetence, you would remove him," crackled Bridges. "If he lost by conspiring with the enemy, you would court-martial and probably shoot him. But the State Department loses country after country and all you do is promote them."

Vandenberg said he didn't know of any pro-Communists in the State Department. Ohio's Sen. Robert Taft suggested, however, that the people underneath are often biased and don't give the people on top a true picture.

Tempers flared up at the height of the debate, but cooled off by the time the meeting adjourned.

CHAMPIONS NEGRO?

Ohio's statesman Sen. John Bricker has been posing as the great champion of the Negro by demanding that segregation be outlawed in all public housing projects.

But what the public didn't real-

ize is that Bricker toned down his own anti-segregation amendment, the minute it conflicted with the real estate lobby.

Bricker's original anti-segregation amendment would have cut off federal funds, including FHA loans, for any segregated housing project. But when the real estate boys saw this, they realized Bricker would cut off one of their most lucrative sources of money—loans from the Federal Housing Administration. So they hofooted it to Bricker's office and had him change his amendment so that it abolished segregation for public housing, but not FHA-financed housing.

NOTE—Bricker's real motive was to inject civil rights into the housing debate so it would turn the Southern vote against public housing.

MALMEDY TRIAL

Only one important committee hearing at this session of Congress has been chairmanned by a Republican—Sen. Baldwin of Connecticut who presides over the Malmedy trial investigation. Baldwin is one of the ablest and most fair-minded members of the Senate, but there is an interesting backstage story behind his appointment.

It results from the fact that Maryland's Dapper Sen. Tydings wanted to euvre the probe of the Army's court-martial away from his Democratic colleague from North Carolina, swallow-tailed Clyde Hoey.

Tydings appeared to believe that American officers were justified in using brutality and tor-

ex-German storm troopers who allegedly took part in the Maltre to wring confessions from medly massacres during the Battle of the Bulge. Tydings also claimed jurisdiction for his Armed Services Committee — though only after Hoey had ordered his special investigating committee to look into the case. Previously, Tydings had flatly refused to investigate; then changed his mind after learning of Hoey's interest.

Fearing that Tydings would whitewash the brass hats, Hoey suggested turning the investigation over to a joint committee, made up of members from the armed services, judiciary and expenditures committee.

This started talks between the two that were still proceeding when suddenly Tydings pulled a surprise announcement that his committee would go ahead with its own investigation, and he appointed Sen. Baldwin, Republican, to head the probe.

The payoff is that Baldwin's law partner, Dwight F. Fenton, helped the Army prosecute the Malmedy defendants.

Cooperation Warranted For Meeting Garbage Regulations

A few days ago we received a letter from a public spirited Big Spring woman. Before we ran it through the channels to publish it, the letter, we are ashamed to say, was lost.

But there were a couple of major points worth repeating in connection with the clean-up campaign this week.

One had to do with the city's requirement of standard sized garbage cans. The writer thought this was a good idea, but took occasion to point out that all too often these are not available. At the moment there are a number of the 30-gallon cans in town, but were the city to crack down on this requirement, as it has announced it will, the supply could not meet the demand. When time comes for rigid enforcement of this regulation, it is to be hoped that the city will give ample warning and fix a deadline far enough in advance so that suppliers will have an opportunity to arrange for shipments to meet the de-

mand.

Another point had to do with the manner in which workers handle the cans, particularly the lids. More than one resident has been disillusioned in purchasing a sparkling 30-gallon container with fly-tight lid.

Then, after a few emptyings, the lid is not put back firmly and the first breeze whisks it into the street where a passing car puts a most distressing crease on the cover. Or, if a sand storm happens to be blowing, the lid is never seen again. In either case, it henceforth is lost for use.

A little cooperation could iron out this problem—cooperation by residents in meeting requirements through standard cans, and cooperation by city garbage handlers in making certain that lids are fixed tightly to the can after emptying. If necessary, some simple hook and cabin might be developed to make sure that the lid doesn't blow away in event it is not fitted tightly on the can.

North Atlantic Pact Has Effect Of Increasing Cold War Budget

Recently at a meeting in the Pentagon, Dr. Edwin G. Nourse, the President's principal economic adviser, made a speech off the record. It was released for publication about ten days ago. Dr. Nourse had said that it would be unwise on economic grounds to treat the North Atlantic pact as a reason for adding to the total of our expenditures for military security. And then he added that unless the pact has "increased our national danger," it ought not to be necessary to vote "additional outlays" over and above the 15 billion for military defense.

At the White House press conference, which took place the day Dr. Nourse's remarks were published, the President said that Dr. Nourse was entitled to speak as an economist, but not as a maker of policy. The policy of the Administration was to ask Congress to vote additional funds — presumably upward of another billion dollars — to arm our allies in the Atlantic pact.

Four days later Mr. Hoover came along with the report made by Mr. Eberstadt which says that the military budget is padded, that there is in it a "staggering waste" which may be as high as 1 1/2 billion (just about the amount necessary to begin rearming Western Europe), and that "Congress allocates billions without accurate knowledge as to why they are necessary and what they are being used for."

Two days after that the House of Representatives passed a military appropriations bill, which only a handful of the members can even pretend to understand at all. The hearings were perfunctory, and the debate was negligible. This bill asks the Administration to spend more money than it asked for.

balance of power between the Soviet Union and the Atlantic community. But in fact the formal commitment by the United States to treat aggression as war against the United States has redressed it more surely. It will only indicate that we lack confidence in the effectiveness of the pact.

Southwest China Still Likes Coin

KUNMING, China (AP)—Southwest China is a coin collector's paradise. There are more than 20 kinds of gold, silver, and tin coins in circulation. Many long have been out of circulation in their own countries.

There are U. S. \$5 gold pieces, French Indochina silver piastres, and Mexican gold dollars. Rupees from India and Burma come in over the Burma road.

Most common is the Yunnan province half dollar, probably the only half dollar in circulation in all China. It originally was coined as a dollar, but for years it has been worth only a half dollar because of its high tin content.

This tin dollar is worth next to nothing beyond Yunnan's borders, but tradesmen prefer it here over the inflated Chinese paper money. Hoarded for years, it came back into circulation after the war.

In fact, merchants don't like any kind of paper money—even the American dollar so precious in most countries of the world. The traveler bringing American dollars to this remote corner of China may have them discounted as much as 50 percent by wary dealers.

ECA Funds Aiding Iceland Fisheries

PARIS (AP)—Marshall Plan funds are saving Iceland's "lifeline"—the fishing industry.

R. H. Fiedler, European Cooperation Administration fisheries specialist, said after a survey trip to Iceland that ECA funds are being used to modernize their fish processing plant and to outfit the herring industry.

The significant thing about the expansion of Iceland's fishing industry isn't only in saving it for Iceland, Fiedler said, "but it is providing animal protein food for Europe at a time when meat is in short supply."

Ted Malone's List Of 15 'Best' Poems Includes Old Favorites

We're one of those kind of people who think that there isn't anything better than reading poetry unless it's the ability to write pleasing verse. But we'll never make the class of a poetry writer because we're still in the same division we were when we almost flunked a freshman English course because we were afraid to try our efforts in the field.

We've always envied the people in the class of Ted Malone, radio and magazine collector of poetry. We found his books helpful when we had a regular poetry program on the air once. Unlike Malone, we gave the idea up after looking in vain for a sponsor for about three months.

In this month's issue of Coronet magazine, Ted Malone chose 15 poems which he considered lasting contributions. We think his selections will sound familiar and be favorites of yours. Included in the selections were: the story of a December day, "Snow-Bound" by John Greenleaf Whittier; Psalm 23, a bit of Biblical verse

which has been memorized by many children; Edgar A. Guest's familiar "Home," Henry Wadsworth Longfellow's "The Village Blacksmith," "Elegy Written In A Country Churchyard," Thomas Gray; another Longfellow contribution, "The Arrow and The Song;" "Rudyard Kipling's inspiring "L'Envoi," Alfred Lord Tennyson's great "Crossing the Bar;" Longfellow's "The Children's Hour;" "Thana-topsis" by William Cullen Bryant; "Paul Revere's Ride," another by Longfellow; John McCrae's war poem, "In Flanders Fields;" "Sam Weller Foss's meaningful "The House By The Side Of The Road;" Rudyard Kipling's "If."

His final selection is one of our favorite quotes from Longfellow in his "The Day Is Done." It reads: "And the night shall be filled with music, And the cares, that infect the day, Shall forget their tents, like the Arabs, And as silently steal away.— MILDRED YOUNG"

New Major Crisis Created By Chinese Reds In War Of Isms

THE STEAM-ROLLER OFFENSIVE OF the powerful Red armies in China has created a fresh major crisis in the now-not-so-cold-war of the isms.

The western powers had scarcely finished signing the Atlantic Pact, to halt the Communist drive across Europe, when Chinese chieftain Mao Tse-Tung forced the line of the mighty Yangtze.

True the new thrust in the Orient is much further away than was the drive across Europe. The present danger is less imminent, and in that sense the situation is perhaps not so critical.

It's idle to speculate on how much time may be involved in the Chinese conflict. We know that the Communist resources, both military and economic, are great, while the National government's resources are terribly weak.

The Nationalists' most powerful defense against the Red forces from the north—the Yangtze—has been smashed. Their capital of Nanking has been occupied by the enemy—a shocking blow to the morale of the nation. A million and a half Red troops are ready for the drive southward

through China.

WHAT OTHER ESTIMATE CAN BE made than that the Nationalist situation is desperate? However, Generalissimo Chiang Kai-Shek is said to have planned a defense by zones as the Reds advance. Many of those zones with their troops are in the hands of war lords and, if they remain loyal to Chiang, the Nationalist defense might give the Communist a surprise. Speculation at this time is idle. We shall have to await developments.

What we can see clearly enough is that a Sovietizing of China, world's most populous nation, would give Communism a powerful base from which to work on all Asia. Neighboring India would be the next great nation to come under pressure, and it might be that she would provide a barrier which Communism couldn't surmount. The Hindus and Moslems of the Indian peninsula are intensely religious — and Communism and religion can't be mixed.

In any event, should Communism have a sweeping success in the Orient, the western nations would be in a Red vise.

Big Problem Is Just How Far U. S. Health Program Should Go

WASHINGTON, (AP)—LIFT THE LID ON the argument over a government health program and you find this:

It is not an argument over whether the government should interest itself in health. There is a government health program now.

The problem is how far should such a program, backed with government money and some government control, be allowed to go.

This will give you an idea of how deep the government already is involved:

1. It is giving states up to \$75 million a year to help them build hospitals; it gives states money to strengthen their public health services; it gives states money for mother and child care and to help crippled children; it is spending money on research in cancer, dental, mental, heart and venereal diseases.
2. In addition, 18 1/2 million veterans are eligible for care in government hospitals; every veteran with a service-connected disability is entitled to complete care for that disability at home or in a government hospital; there are 28 government marine hospitals for the care of merchant seamen and the coast guard; men in the armed services and their dependents get medical care. The government operates more than

200,000 hospital beds.

BOTH PRESIDENT TRUMAN AND those who oppose his ideas on a national health program are pretty generally agreed it is necessary to expand No. 1 with even more and wider government help.

But it is on the next part of Mr. Truman's program national compulsory health insurance—that the President and his opponents disagree.

Mr. Truman wants the people to have health insurance through a tax on pay-rolls.

Three per cent on a payroll, with 1 1/2 paid by the worker, 1 1/2 paid by the employer, on salaries up to \$4,500.

Doctors wouldn't have to take part if they didn't want to. They could choose their own patients. Patients could choose their doctors.

Mr. Truman and his supporters say the program could be carried out with a minimum of government interference.

But the opponents contend the Truman program would put far too much control in the government's hands. They want people, if they're going to take part in health insurance programs, to go into the voluntary kind.

Gloria Swanson Doesn't Regard Age As Burden

HOLLYWOOD (AP)—Being old, remarked Gloria Swanson, with perfect logic, merely means that you have lived longer.

"I think it's a crime," the age-less movie queen continued, "that in America age is treated as something distasteful—a burden which people carry on their backs like a bag of rocks. No other country considers age that way; in China, for instance, old people are revered."

Miss Swanson looks a good 10 or 15 years younger than the 50 she admits to. She advertises her age freely. One reason is that most people guess her to be older.

"Often in powder rooms I hear women discussing my age. They usually guess 10 or 20 years older than I really am. Not only that, but a studio driver here told me he had trouble convincing a friend that I was still alive."

She explained why she's considered older than she really is: she started her film career at 14; she never was an ingenue, but began as a siren.

"Age means nothing," she emphasized. "Why, I can name you four top actresses in the movies — and they're not playing grand-ma roles, either—who come within a year or two of my age. And maybe one is a couple of years older, too." Unfortunately, she didn't name names.

The natural question is: how

Modern Hubby Is Far Cry From His Progenitor Of The Caves

NEW YORK.—THERE IS A NEW all-American male on the scene.

He isn't exactly the kind of man his father was. And certainly he isn't the woman his mother was. But in many ways he is like them both, and in some ways he is more talented than either.

Half a century ago father, quite often, was a tobacco-chewing, independent rooster who ruled his wooden castle like an army top sergeant. About all he did around the place was eat, sleep, grunt behind the daily newspaper he read in his easy chair, and carry out coal ashes in the winter.

His spare time he spent at a saloon arguing about the government. He didn't talk much at home, because what was there for him and the old lady to talk about? He was interested in sports, business and politics. Mama was interested in raising the kids and running the manor.

All this is changed.

The modern husband is a real all-American male. There has been no husband like him in history. And the American woman is the envy of the women of every other country in the world—for having him.

Daddy takes an interest in everything about the house now. He insists on going with mama to the store to pick out the drapes and furniture.

THE COOKSTOVE IS NO LONGER A feminine empire. Once they put gadgets in the kitchen and cut down the hours papa spent at his job, he was bound to turn to cooking.

The pact should be the occasion for re-arranging our expenditures within a fixed total. To be sure, in the vast amounts we are spending another billion more or less will have no noticeable effect on the American economy. But as a matter of principle it makes a very great difference whether the budget of the cold war is larger, is smaller, or is stabilized, after the pact is ratified.

If it is larger, nothing that Mr. Acheson can say by way of explanation will dispel the impression that the pact has inaugurated a more feverish race of armaments because it has not redressed the

NOT HALF-SAFE

MIAMI, Fla., 1949—Leona Fredericks of Miami says: "A half-safe girl is only half-alive—she misses all the fun. That's not for me! I use a deodorant that stops perspiration 1 to 3 days and kills odor on contact. It keeps me safe up to 48 hours—and that really bolsters my self-confidence. What's more, it's safe for my skin and clothes!"

How about you? Don't be half-safe—be Arrid-safe! Use Arrid to be sure. Buy new Arrid with Creamogen. Arrid with Creamogen is guaranteed not to crystallize or dry out in the jar. What's more, if you are not completely convinced that Arrid is in every way the finest cream deodorant you've ever used, return the jar with unused portion, and we'll refund the entire purchase price. Our address is on every package. Get a jar of the new Arrid with Creamogen today—only 50¢ plus tax.

Prom Held Tuesday

An oriental theme was carried out in the decorations for the Junior-Senior prom attended by some 250 students and guests at the Settles Hotel Tuesday evening. Umbrellas, colorful lamps, imitation dragons and a Chinese painting were used. Cherry blossoms formed the floral arrangements.

Amos Jones, president of the Big Spring high school junior class, was master of ceremonies. Billy Van Pelt gave the response to the welcome given by the junior president.

Special program music included a vocal selection by Peggy Lamb, accompanied by Nell Frazier; a piano number by Billie Jean O'Neal, and a vocal selection by Mary Gerald Robbins, accompanied by Miss O'Neal.

First Baptist Class Has Hobo Party At Local Youth Camp

RIBBON RAMBLINGS

By MILDRED YOUNG

People who have or take time to settle down now and then for the purpose of thinking have always amazed us. Whether or not he ever takes time to think, we have always envied the philosopher who always has a well-stocked supply of ideas on how to build a peaceful world, how to be a success at 95 and how to build a better mousetrap.

Discussing time, we walked to town and back shortly after dark last night and for the first time this year, the feeling of approaching summer seemed to be over the city. There was a group of small girls playing jacks under a street light, many number of people sitting on their porches talking, a couple of girls going through the words of some popular tunes and a man quietly smoking his pipe. There's something about warm days that call for the out-of-doors and most people make their way out as soon as possible.

One of the grandest things, we think, about summer is the beautiful evenings. There's nothing so relaxing after a long summer day than a walk or talk in the out-of-doors. It's something like the fire-side and a good book on cold days, but deliver us from the fire-sides.

Most of you have probably noticed the current publicity concerning the addition of a new home sewing service for Herald readers. So many women and girls are making clothes at home that we believe this feature will be a real service and one you will find useful. The Peerless Fashion Service

Mrs. E. E. Holland Leads Nazarene Group

Make This Home Recipe To Take Off Ugly Fat

It's simple. It's amazing, how quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your drugstore and ask for four ounces of liquid Barostreine. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. There take two tablespoonfuls twice a day. That's all there is to it.

Follow the easy way endorsed by many who have tried this plan and help bring back slithering curves and graceful slenderness. Note how quickly belly disappears—how much better you feel. Move alive, youthful appearing and active.

10 pounds lost in 10 days

Mrs. M. C. Britton, 206 W. Wildwood, San Antonio, Texas, writes us as follows: "I am a faithful user of Barostreine. I had started for weeks without your product and needed so badly to lose 10 pounds, so I started using Barostreine and my worry was over for 1 lost 10 pounds in 10 days. I now weigh 128 pounds. "I can't meet anything I want and hold my name weight."

GIL GUERRA—May prove out to be the ace of the staff. A tall right hander, he's a rookie but he pitches like a veteran. He hurled a no-hit, no-run game against Orlando when the Hosesses were in Florida.

AMBASSADORS—Big Spring's representatives in the Longhorn baseball wars this season, the Broncs, are set to get away in the 1949 race Wednesday night. Left to right, front row, they are Batboy Bobby Mears, Felix Gomez, Ace Mendez, Manny Mantaras, Carlos (Potato) Pascual, Ray (Cookie) Vasquez and Julio Ramos. Middle row, Pat Lorenzo, Humberto Baez, Louis Gonzales, Justo Azpiazu, Rene Esdalera and Gil Guerra. Top row, Bob Harvick, Bill Vincent, Nester Labrada, Tony Iglesia, Lazaro Cato, Joe Carballo and Bert Hernandez. (Photo by Jack M. Haynes).

PAT STASEY—The big gun of the local attack. Plays right field, led the league in hitting last year with a .389 mark, usually hits cleanup.

DASHING INTO ACTION—Running from their dug-out to the playing field are the current members of the Big Spring Broncs of the Longhorn baseball league, most of whom will see action against the Vernon Dusters in the official league opener at Steer park tonight.

Leaders in regular season's play for the past two seasons, the Cayuses are out to make it three times in a row. The two teams clash again Thursday night here, then move to Vernon for two games. Left to right, they are Felix Gomez, lf; Ace Mendez, cf; Justo Azpiazu, 1b; Pat Lorenzo, rf; Carlos Pascual, 3b; Ray (Cookie) Vasquez, ss; Manny Mantaras, c; Bert Hernandez, 2b; and Julio Ramos, p. Lorenzo and Mantaras have been sent to Sherman-Denison but may join the locals later. Manager Pat Stasey will start in Lorenzo's place while Al Valdez is due to get the ball in place of Mantaras. Padres Boast Streak Of Own

By The Associated Press
The Texas League's concern over the high-flying Dallas Eagles has left a lot of clubs unconcerned about the San Antonio Missions. A bad error.
The Missions were rained out last night, but got two chances at the Beaumont Exporters tonight. They're only two games back of pace setting Dallas and have been winning regularly without fanfare.
Dallas held its two-game lead over San Antonio by slugging the Tulsa Oilers, 12-5, last night. It was some measure of revenge against the club that Monday spoiled a perfect record.
Shreveport grabbed third place in the standings by downing Houston, 4-2, and Fort Worth won a 4-3, ten-inning victory from Oklahoma City.
The same opponents meet again tonight.
Buck Frierson's two home runs paced a 15-hit Dallas attack against three Tulsa pitchers.
Tommy Finger and Otho Nitchols held Tulsa to six hits.
Relief pitcher Vic Johnson's wildness gave Fort Worth its slim victory. He walked three men and then served Al Leap a pitch that was turned into a game winning single.

Muny Circuit Begins Play

First games of the Muny softball league, sponsored by the local YMCA, will be played at the city park this evening. The opener is down for 7:30 p. m. while the second contest goes on at 9 o'clock.
T & P Shops tangles with the Red Caps in the initial bout. The afterpiece will see Tresco and Big Spring Merchants in action.
The league was scheduled to begin play last week but weather interfered.
Friday night, Big Spring Vocational school meet the Bombers Tresco and the Red Caps collide in the second game.
Texas Electric, seventh team entered in the league, will not begin play until next week.

Looking 'Em Over

by Tommy Hart

The caliber of umpiring in the Longhorn baseball league is going to improve this year over that of 1948. So say Steve Sadowski and Bill Frank, Longhorn league arbiters last year and at the present time on Milton Price's WT-NM league staff. Steve and Bill visited here Tuesday. Sadowski and Frank, this league's most efficient team a year ago, should know about what is upcoming in the way of umpires. They worked with the current crop for six weeks down in the Corpus Christi umpiring clinic.
Incidentally, the present staff is going to be bolstered by the addition of Milt Eiler and Dick Reichert, veterans of the 1948 wars. Eiler has been working winter league baseball in California and should be ready to step in, immediately.

Frank, by the way, is a newlywed. He married a San Angelo girl in South Texas three weeks ago, spent his honeymoon at the fabulous Shamrock hotel. His missus is currently staying in Amarillo. When he and Sadowski work Lamesa, they room at a local hotel and drive back and forth.
Sadowski wonders what kind of a thief would steal two umpire suits, a ball-and-strike indicator, a whisk broom and other items. That's what happened to him when he was in Dallas recently. He left the clothes in his car and when he came back the mentioned items, plus some street clothes, were gone.

GIGLIELLO LIKES RULES IN S. A. BETTER
Perhaps you wondered why Ernie Gigliello, the ex-Longhorn league arbiter, moved from the Texas league to the Southern Association this year. (They're both AA circuits).
The Texas league makes it mandatory for an arbiter to wear his coat when he works. It becomes pretty uncomfortable during the hot months. In the Southern Association, there's no such rule. He can wear them inside or out. Gig preferred to wear his pad showing, and accepted the SA offer when it came along.
Of Pat Stasey, manager of the village's Broncs, Frank insists that if all pilots owned the temperament of the Irishman, there would be 150,000 applicants for jobs as umpires in this country every year. Patrick never raises a howl.

FANS' YAK-YAKING WITH WEBB PAYS OFF AT GATE
When Harold Webb, the Midland skipper, strode to the plate in last week's exhibition game between his Indians and the Broncs here, the spectators began to ride them in their familiar, good-natured way. One fan in particular, Webb, heard above all the rest.
"Bet you don't get it out of the infield, Webb. You hit just like the rest of your club."
Webb turned on that one and shot back, "Yeah, well, you see where the pennant is flying this year, don't you?"
"Uh-huh," retorted the fan, "but your hitting never put it there."

Webb is always good business for the local park. For that reason, Stasey and Company like to see him coming.
The Broncs do their part in keeping the Little King in business, too. Webb reveals that the Big Springers drew more than 5,000 more fans to his stadium during the season than any other Longhorn league foe.

EX-BRONC CATCHER SENT TO EMPORIA, VA.
Orlando Echeverria, the popular second-string catcher of the 1948 Broncs, has been ordered to Emporia, Va., a Class D team, by the Charlotte team. Orlie will probably catch regularly there.
Harvil Jakes, who was with Midland last year, joins his former team mate, Lee Crisman, at Spartansburg, N. C.

Dusters Guests Of Cayuses In Longhorn Opener Tonight

Capacity Crowd Is Expected

Probable lineups:

Vernon
Lou Ehlinger, cf
Lupito Gonzales, 2b
Guinn Simons, lf
Harry Scherting, rf
Don Veitch, 1b
Jack Brewster, ss
Lou Morath, 3b
Wayne Moon, c
Carl Carter or Lloyd Tripp, p
Big Spring
Felix Gomez, lf
Ace Mendez, cf
Justo Azpiazu, 1b
Pat Stasey, rf
Carlos Pascual, 3b
Ray Vasquez, ss
Al Valdez, c
Bert Baez, 2b
Julio Ramos, p

They clear the decks for the resumption of Longhorn baseball league play at Steer park tonight. Guests of Pat Stasey's 1948 Broncs will be the Vernon Dusters. The two teams get together at 8:15 o'clock and indications are every seat in the house will be taken. Upwards to 2,500 of the faithful should be on hand.

The Vernon club, who rallied in the stretch to finish fourth in the 1948 race and then clipped front-running Big Spring in the first round of play, is managed this year by Bob Huntley, who also owns the club.

Bob, of course, is on the active North Texas and has filled in as an outfielder.

Indications are Stasey will send Julio Ramos to the hill in quest of victory. Ramos, a little left-hander, has been going great guns in spring training.

Carl Carter or Lloyd Tripp could get the starting call for the Dusters. Both are holdovers from the 1948 club.

Missing from the Vernon lineup are such standouts as Gerald (Red) Fahr, now with Shreveport; Eddie Jacobs, like Fabr a pitcher; Lloyd Rigby, short stop and third sacker; Hap Holliday, infielder; and Morris Cowser, catcher.

However, Cottog McCaskey, star first baseman, is due back with the team and may be in the lineup tonight.

The Dusters will stay over Thursday night for an imbroglio with the locals, after which the two teams move to Vernon for a brace of games.

Umpires for the contest will be Jack Dorothy and A. B. Sykes, graduates of Lefty Craig umpiring school in Corpus Christi.

One of the dignitaries sitting in on the battle will be Hal S.yles, Abilene, president of the league. Hal was elected at a winter meeting to succeed Howard L. Green as president of the circuit.

Lamesa Whams Eagles, 7-4

LAMESA, April 27 — Lamesa neared the District 3AA baseball pennant by defeating the second-place team, Abilene, 7-4, here Tuesday afternoon.

A four-run outbreak by the Tornados provided the cushion for the Dawson county team, which has lost but one game this season. Abilene made six errors, three of them in the big fourth.

ODESSA, April 27—Odessa surprised the Midland Bulldogs, 7-5, in a District 2AA baseball game played here Tuesday afternoon.

Three bases on balls, two hits and five Midland misplays led to all seven Odessa runs in the fourth inning.

Banner Season Predicted For Longhorn League, Which Begins Season Tonight

Big Spring, Roswell, Odessa and Rio in the league and is set for a banner year in attendance. Some opening games tonight as the Longhorn baseball league opens its third season of activity tonight. The Broncs will host, Vernon, Midland goes to Roswell, Sweetwater will be the guest of Odessa as Ballinger invades San Angelo in the contests.
The contingents will change sites on Friday night. Work is still going on on the Sweetwater park but it is due to be ready by Friday night.
The league is set for its greatest season. Roswell has replaced De-

stadiums have gone up at San Angelo, Roswell, Sweetwater and Ballinger. New boxes were added at Midland.
No major improvement was made

here but an umpire's dressing room was added, the infield improved, more dirt hauled into the depression in left field and, most important of all, State street, to the east of the stadium, was paved.
Umpire assignments tonight will send Gus Steiner and Ed Hammond to Odessa, Ben Cook, Tom Murphy and Bruce Averill to San Angelo, Jack Dorothy and A. B. Sykes, Jr. to Big Spring and Clarence Brown and John Quigg to Roswell.

Barney McCosky batted .326 for the Philadelphia A's in 1948 but he failed to hit a single home run for the first season since he entered the majors in 1939.

Curtis Faces Ruiz Friday

George Curtis, the popular Tennessean, makes a re-appearance at the Big Spring Athletic club Friday night, at which time he squares away with Arturo Ruiz of Mexico in the "main event."

Patrons will probably see a clean, scientific tussle in this one, since both lads have a high code of ring ethics.

A new boy, George Guesette, a New Yorker, takes on Jack Pappenhelm of Oregon, in the semi-windup while two local amateurs will be featured in the curtain raiser.

City Tourney Nearing End

The women's city bowling tournament will be wound up here Thursday with team play.

Singles and doubles competition was virtually completed on Monday night with leaders clearly established.

The mother and daughter combination of Olive and Dot Cauble led in doubles with an aggregate of 1138 pins. In second place were Vera Doner, and her daughter, Mrs. Mary Ruth Robertson, who collected 1129 pins.

Winnie Wood is the singles leader with 632 points, followed by Margaret Howie with 613 and Cozarea Shields with 597.

Seventeen singles players are entered, compared to 16 in doubles. Prizes will be awarded to the first two doubles teams and the top three single players.

Civil Rights Issue Enters Labor Debate

WASHINGTON, April 27. — A northern Democrat said today he will try to tie a civil rights amendment to the Wood Labor Bill which was introduced in the House with the support of southerners and Republicans.

The measure was offered by Rep. Wood (D-Ga.) as a substitute for the administration's Taft-Hartley repeal bill. The Wood bill would repeal the Taft-Hartley Act too, but it would then write back into law many of the Taft-Hartley features.

As the House went into its second day of debate on a new labor law, Rep. Cavalcante (D-Pa.), a freshman lawmaker, said he will propose amending the Wood bill to make it an "unfair labor practice" for either an employer or union to discriminate against a worker because of race, creed or color.

Any bill with that amendment in it would have a difficult time getting southern support. But the amendment itself would have the same trouble.

Technically, the measure now under debate is the bill introduced by Rep. Lesinski (D-Mich.) and supported by President Truman and labor unions. It would wipe out Taft-Hartley and replace it with an enlarged version of the 1935 Wagner Act.

But the Wood bill is scheduled to be acted on first, because a substitute bill must be disposed of one way or the other before the principal bill.

Speaker Rayburn (D-Tex.) and Rep. Priest (D-Tenn.), assistance Democratic House leader, both told reporters it won't pass. Rep. Hallock (R-Ind.) said it will pass.

If it fails, the House will plunge into consideration of amendments to the Lesinski bill—which is identical with a measure approved by the Senate Labor Committee. Senate debate is still some weeks off.

Local Royalty Firm Pays Big Dividend
Southwestern Royalty company, organized here a decade ago, paid another whopping dividend today.

At the annual stockholders meeting Tuesday evening, the annual dividend was announced as 20 per cent.

Since its organization, the company has repaid more than the equal of original stockholder investments.

Officers of the company were all re-elected. They were B. F. Robbins, president; Fred E. Keating vice-president; S. M. Windham, secretary-treasurer; Mrs. B. F. Robbins, assistant secretary-treasurer.

Mr. and Mrs. Robbins, who interrupted a visit to return here a week ago for the annual meeting, were planning to leave for Tulsa and other Oklahoma points on a visit before returning here.

City Commissioners Call Public Hearing On Zoning Proposals

Failing to reach agreement on a request that one block be thrown open for community business buildings, city commissioners Tuesday called a public hearing for May 12 at which time they hope to make a decision on proposals to re-zone all of 11th Place.

At a previous hearing, on April 13, commissioners heard testimony both for and against a proposal to establish an "E" district for Lot No. 4, block No. 94, Original. Some property owners who appeared at that hearing urged that all of 11th Place be changed from "B" district to "E" classification.

Petitions from four churches that have acquired property in that area were read by commissioners Tuesday. All of the churches requested that 11th Place zoning regulations remain unchanged.

However, commissioners observed that vast changes have occurred in that area since the original zoning ordinance was adopted, and all members agreed that a hearing on the entire street appeared to be the best course.

At the same time commissioners made four appointments to the zoning and planning board to fill expired terms, and agreed to ask the board to submit recommendations for zoning of the Merrick-Greene and McEwen additions and for the newly annexed area in the southwest part of the city.

Named to the zoning and planning board were R. L. Beale, Dewey Martin, John Dibrell and A. P. Clayton. Beale and Martin were original members of the board. Original members whose terms have not expired are Ted O. Groehl, Dr. Lee Rogers, Jess Thornton, John Coffee and E. B. McCormick.

Residents Of City Leave For Wisconsin Attend Kin's Rites

C. R. and C. C. Balch left today for Tomah, Wisconsin, where they will attend funeral services Friday for Raymond E. Balch, 36, son and nephew, who died at the Veterans' hospital in Milwaukee, Wis., at 12:30 p. m. of an extended illness.

The deceased had been in Milwaukee for about a year, having been transferred there from a Waco hospital, where he had been confined for two years. A former resident of Big Spring, he was a veteran of World War II, having joined the service in 1941.

Survivors, besides his parents, include his wife, Mildred, a son, Gene Roy, a sister, Mrs. Milton Hadley of Odessa, and a brother, Des Balch of Amarillo.

His mother was too ill to make the trip to Wisconsin.

The body will be laid to rest in the Wood cemetery at Milwaukee.

Berlin Excited Over Blockade Reports

BERLIN, April 27. (AP) — The people of western Berlin seized eagerly today on reports that the Russian blockade would be lifted "in the very near future."

The reports, distributed by western-licensed German news agencies were attributed to German sources closely connected with the Soviet military administration.

The informants said the Russians had ordered immediate technical preparations for lifting the blockade. No official confirmation of these reports was available.

The British-licensed Newspaper Sozialdemokrat said leading Communists of the Russian zone were summoned to Soviet headquarters at Karlshorst yesterday for a conference in connection with the lifting of the blockade.

University Of Texas Student Is Winner Journalism Award

NEW YORK, April 27. (AP) — James L. Rogers, 23-year-old University of Texas student, was announced today as the winner of the 1949 Journalism award of the American Newspaper Publishers Assn.

He was presented \$500 and a gold medal for his entry on the topic, "How Readership Studies Affect News, Features and Advertising in Newspapers."

Second place went to Clifford F. Johnson, a Negro student at the University of Oregon.

Third place went to William P. Splendon of the University of Texas.

Prof. Granville Price of the department of journalism of the University of Texas was presented a replica of the gold medal won by Rogers. The replica is given each year to the school attended by the winning student.

Endurance Fliers Have Had Plenty

FULLERTON, Calif., April 27. (AP) — Bill Barris and Dick Riedel agree today it's wonderful to have and to hold the world endurance flight mark, but:

"We'll never try it again," says Barris.

"Roger!" echoes Riedel.

The weary pair had plan to leave their wives for a beach last night after their 1,008-hour aerial ordeal. But friends and well-wishers staged a big party for them at the Hollywood Knickerbocker Hotel.

STILL WOBBLY
And the airmen, their legs still wobbly, and partly deaf from listening to the Sunkist Lady's six-cylinder motor for six long weeks, couldn't disappoint them.

They postponed their rest until today. Even at that, it will be interrupted. They are booked for several radio appearances this week. Luckily, both men were declared to be in excellent shape after bringing the Sunkist Lady down on Municipal Airport here at 10:45:50 o'clock yesterday morning. A crowd of 8,000, including their families greeted them.

It was their fourth try at the endurance record. Nearly 12 days earlier they broke the old record of 728 hours, set 10 years ago by Wes Carroll and Clyde Schlieper of Long Beach, Calif.

Senate Won't Concur In House Amendment To Poll Tax Measure

AUSTIN, April 27. (AP) — The Senate today refused to concur in a House amendment to the proposed poll tax amendment and asked for a conference committee to adjust differences.

The vote was 14-13 against concurrence.

The proposed amendment would abolish the poll tax as a requirement for voting. It had been approved by the Senate and the House. The House attached the amendment yesterday.

If the proposal's submission to the electorate is finally approved by both House and Senate, it would be voted on at a special election Sept. 24.

Bigony Resigns As Clerk-In-Charge At Postoffice Here

Dorsey F. Bigony has resigned his post as clerk-in-charge at the local post office, effective immediately, in order to devote his full time to his farming interests.

Bigony, who has been connected with the post office since Dec. 16, 1927, operates four farms within the county.

Postmaster Nat Shick, who accepted the resignation, said the department was doing it with regret. He added not only Bigony's capabilities but his personality was a credit to the whole organization. Bigony served as a substitute clerk. For a while he divided time between delivering parcels from an old model T and as an inside clerk, but soon became a regular clerk.

In retiring from public service, Bigony said he was deeply appreciative of the "many friends I have been privileged to make through the years through the opportunity of service in the post office. I only hope that I may now have time to see more of these good people."

Prior to becoming a postal clerk, Bigony was a school teacher around Snyder.

His successor as clerk-in-charge is Alvin Smith.

University Of Texas Rejects 34 Negroes Seeking Admission

AUSTIN, April 27. (AP) — The University of Texas today rejected applications of a group of Negroes seeking admission as graduate students.

Assistant Registrar Max Fichtenbaum told them to make application at the Texas State University for Negroes at Houston.

"That's the law," Fichtenbaum told the group of 34 who had marched in an orderly procession to the administration building, carrying placards.

Earlier, nine representatives of five Texas colleges for Negroes called at the governor's office in their campaign to gain admission to the University of Texas.

No. 1 Cosden Is Abandoning At 8,133-Feet

Sun Oil No. 1 Cosden, immediately north of Cosden refinery, was plugging and abandoning Wednesday at 8,333 feet in lime and sand.

The venture, a deepening operation from 5,503 where John I. Moore abandoned a test in February of 1945, reportedly had no shows and possibly was running structurally low on the Pennsylvanian markers. Location was 660 feet from the south and 1,980 from the west lines of section 38-32-1N, T&P.

Magnolia No. 1-A Gartner, Vincent exploration in the Mississippi, reacidized through perforation 9,000 gallons and recovered 22 barrels of oil in 24 hours of swabbing Monday. Tuesday it recovered 18 barrels in 24 hours. It is 660 feet from the north and west lines of section 67-20, LaVaca.

An extension of the Kelly (Canyon lime) pool four miles west of Snyder was in prospect on the basis of showings by the Magnolia No. 1 O. B. Eicke, C SW SW section 209-97, H&TC. Top of the reef was picked at 6,767 feet and on a two hour drillstem test from 6,765-78 gas was to surface in 25 minutes. Recovery was 215 ft. of mud, 180 feet of heavy oil and gas cut mud, 135 feet of oil and gas cut mud with 82 per cent oil, and 6,500 feet of heavy oil and gas cut mud. Open bottomhole flowing pressure was from 300 to 350 pounds and over 15 minutes shutin, pressure was 2,950. The venture is north west of the discovery well, Magnolia No. 1 H. G. Moore, which completed for 161 barrels of 41.2 gravity oil flowing in 24 hours from 6,845-65 feet.

Sinclair-Prairie No. 1 Sterling Williams, 660 feet from the north and east lines of section 45-32-5N, T&P, northwest Borden county wildcat, was below 7,800 feet in lime.

Seaboard No. 5 Mae Zant, Vealmoor venture just over the line in Borden county and 660 feet from the north and east lines of section 28-30-3N T&P, was below 1,102 feet in lime and shale.

TERMED WAYS OF BUILDING SECURITY

Acheson Pleads For Approval Of West Pact, Arms Program

WASHINGTON, April 27. (AP)—Secretary of State Acheson pleaded with Congress today to approve both the North Atlantic Treaty and the proposed \$450,000,000 arms aid program to bolster "world-wide security."

Acheson appeared before the Senate Foreign Relations Committee at the opening of hearings on the pact. It requires approval by a two-thirds vote of the Senate before it can be ratified.

Acheson termed the 12-nation security treaty and foreign military assistance program parallel ways of building world security and said he believed both are necessary.

But he met head-on one of the biggest questions raised by some congressional critics by saying that the treaty does not formally bind Congress to approve the projected military program.

Both the treaty and the arms assistance program are aimed frankly at building up western strength against fears of Russian aggression.

Acheson himself told the senators that the two measures stem from Soviet foreign policies, declaring: "The sense of insecurity prevalent in western Europe is not a figment of the imagination—it has come through the conduct of the Soviet Union."

Nowhere in his 4,500-word prepared statement did Acheson men-

tion the latest development in the cold war—Russia's apparent willingness to lift the Berlin blockade in favor of Big Four talks on the whole German problem.

But even in advance of his appearance, there was no sign in the Senate that the drive for ratification of the North Atlantic Treaty

Rent Controls May End In Amarillo

AMARILLO, April 27. (AP)—Rent control may end in Amarillo.

The city commission yesterday voted to remove controls and Mayor Lawrence Hagy said the decision would be sent to Gov. Jester.

Under the new rent law, if the governor approves the council action, control will be lifted.

Last Rites Scheduled For Texas Oilman

FORT WORTH, April 27. (AP)—Last rites were to be held here today for Walter J. Bahan, 49, prominent Texas and Oklahoma oilman.

Bahan died here yesterday in a hospital of a heart attack.

He was a partner in Bahan Bros., oil producers in Texas and Oklahoma; vice president of the Guthrie Gas Utilities Co. and vice president of the Kingfisher Gas Co. in Oklahoma.

would be slowed even if the Berlin air lift can be abandoned.

Acheson gave out the cost figures on the arms program for the first time so far as the administration is concerned although they previously had come from members of the Senate committee. Those figures are \$1,130,000,000 for the Atlantic Pact countries and \$320,000,000 for other countries such as Greece and Turkey.

Acheson reviewed the development of American foreign policy to meet the situation created by Russia. He described the Atlantic treaty and the military assistance program, as well as the European recovery program and help for Greece and Turkey, as "all designed to this end."

REQUEST GETS BI-PARTISAN BACKING

Proposed New Farm Program May Be Granted 'Trial Run'

WASHINGTON, April 27. — The administration got bi-partisan backing today behind its request for immediate authority to make a "trial run" in the hog market with its proposed new farm program.

If Congress approves, and hog prices continue to drop, this could mean:

1. Cheaper pork chops, ham and bacon for the consumer.

2. A government-guaranteed hog price for farmers, probably at about \$16.50 per hundredweight.

Chairman Cooley (D-NC) of the House Agriculture Committee said Secretary of Agriculture Brannan is preparing legislation to authorize quick application of the new farm program principle to hogs. He said it will be given top priority.

"I think I will support, and I think Congress will approve it," Cooley said.

Rep. Hope of Kansas, senior agriculture committee Republican, told reporters he, too, expects to support the legislation. Otherwise, he

said, the government might find itself with great stores of spoiling meat.

The present law requires the government to purchase hogs, alive or in packing houses, to remove surpluses, so as to maintain a support price of about \$16.50 a hundred weight. Prices are still above this support level but Brannan told the committee he expects the government will have to start supports on hogs soon.

"I approach this with fear and trembling," he said, asking for the new authority.

The new farm program stresses cheaper food for consumers as well as guaranteed prices for farmers. Instead of surplus food purchases, it would let many foods, like pork, sell at what the market would bring. Then the government would

pay the farmers with money it collects in taxes, the difference between what their crop brought and what the government established as a fair price.

Brannan wants immediate authority this principle to hogs only, with the remainder of the new program to be acted on later.

It is not clear yet whether enough members will follow Cooley and hope to put the "trial run" program through Congress.
