DEVOURING WHEAT—Flames race across a 150-acre field leased by J. A. McWhorter, burning about 50 acres. A few moments after this picture was taken, the high flames raced toward the corner of the field and drove the onlookers and cars away. McWhorter credits Hereford firemen with saving the balance of his crop. (Staff Photo)

Farm, Ranch Land Valuations Hiked

The Commissioners' Court of Deaf Smith County raised the total valuation of farm and ranch land in the county by about \$2,500,000 Wednesday night as a step toward equalizing rural and city property taxes.

The county officials also gave tentative approval to a proposal to reduce the county road tax from 37 to 20 cents on each \$100 in property valuation.

Tax Assessor-Collector Sank Ramey was directed to employ extra help in his office in order to begin immediately to notify property owners of changes in the valuation of their property on the current year's tax rolls.

Property owners will have opportunity to discuss with the assessor any adjustments they feel are justified in their assessments prior to the meeting of the board of equalization later in the summer, said County Judge Homer Henslee.

Ramey also was directed to begin adjusting valuations of farm and ranch improvements such as farm homes, barns, granaries and other buildings and improvements of a permanent nature.

The court approved his employment of an experienced man, Markham D. Waddell of Tulsa, to assist in conducting a continuing inventory of both city and rural properties.

COURT MEMBERS emphasized, however, that Waddell's duties will not include making assessments - the making of assessments had previously been a subject for discussion in the courts' discussions of the tax equalization problem.

The action by the court apparently precluded their acting jointly with the Hereford school district trustees in employing a property appraisal "expert" to assist in tax equalization.

No change was made in the 25 per cent of assessment values used by the county as the basis of its tax structure, the increase in rural land valuation is expected to bring in about \$25,000 in additional revenue that the commissioners have cited as needed to continue operating the various local government services.

The \$2,500,000 valuation increase, plus the increase from new buildings and other improvements (Continued On Page 6)

FORM SALVATION ARMY GROUP

Deadline Set For UF Participants

All organizations which are going to participate in Deaf Smith County's first United Fund Drive are being asked not to conduct separate fund drives after Monday, according to Ben Childers, general chairman.

Childers said any group which conducts a separate drive after Monday will not be eligible for a share of the money collected by the United Fund in October.

DONATIONS collected by the United Fund will be for 1958, Childers said.

"Any organizations that normally make drives after July 1 are asked to come into the United Fund," Childers said.

In conjunction with Childers' statement, the Salvation Army has organized a service unit committee for the county. The Salvation Army is discontinuing its weekly solicitations in Hereford.

The committee was organized Wednesday afternoon in a meeting in the Friendship Room of the Hereford State Bank.

LOWELL SHARP was named chairman; Neil Cooper, vice chairman, Lloyd Sharp, secretary-treasurer, and Mrs. Jewell Smith, chairman of publicity. Other members appointed to the committee are Jimmie Gillentine, Dub Reeves and Clint Formby.

Dan Elliott Johnston, field representative for the service unit departments of the Salvation Army, attended the meeting.

Lowell Sharp said the purpose of the committee is to handle all (Continued On Page 6)

Postal Fees Will Be Higher Monday

Cost of Post Office service fees in Hereford and the rest of the nation will be increased Monday.

Increased fees will affect money orders, insurance, registration, certified mail, special delivery, return receipts card, business reply cards and envelopes and notice to senders.

Registered mail fees will be 50 cents for up to \$10 declared value; 75 cents from \$10 to \$100; \$1 from \$100 to \$200 value, etc.

INSURED mail fees will be 10 cents for up to \$10; 20 cents from \$10 to \$50; 30 cents from \$50 to \$100, and 40 cents from \$100 to \$200.

Cost of money orders up to \$5 will be 15 cents; 20 cents from \$5.01 to \$10, and 30 cents from \$10 to \$100. Money orders formerly were in four different categories, ranging from 10 to 35 cents.

Special delivery fee on first class and airmail, including air parcel post will be 30 cents on less than two pounds; 45 cents on two to 10 pounds and 60 cents for more than 10 pounds. All other classes of mail will be higher.

Correction of mailing lists will be five cents instead of one for each name, with a minimum (Continued On Page 6)

Around Town

The only fireworks display in Hereford will be at the Tower Drive in Thursday night, July 4. Admission will be \$1.50 per car. The feature will be "Fury at Showdown."

Raymond Gage, grand master of the IOOF of Texas, will make his official visit to District No. 37 Monday night. Harold Meacham, district deputy grand master of the local organization, said all Odd Fellows are urged to attend this meeting. San Jacinto Lodge No. 102, located at W. 3rd and Georgia in Amarillo, is to be host lodge.

The Deaf Smith County Home (Continued On Page 6)

First Polio Case of Year Reported

The Hereford area's first 1957 polio case was diagnosed here Monday when Shirley Pittman, 15-month-old daughter of Mr. and Mrs. Billy Pittman, Rt. 1, Friona, was found to have paralytic polio.

Shirley was taken to Dallas Monday afternoon for treatment. The child had not received the Salk polio vaccine, according to Dr. R. R. Wills, county health officer.

OR, HOW TO BOOT A BOXSCORE

To Err Is To Be Involved in a Baseball Contest

A BOBBLE is not a bingle. So says the official rules for scoring the game of baseball, of which there is plenty in Hereford.

A batter cannot be credited with a base hit when the opposing fielder should have had the batter out, in the opinion of the official scorer.

And there is plenty of room for error between the time a play is made and the time it appears in the boxscores of the Little League and Pony League as carried by The Brand.

Consider, for instance, that a player can get on base and score a run without being credited with a base hit.

EXAMPLE: The batter is walked to first base. He goes to second when the catcher drops the ball. He advances to third when the shortstop boots a grounder and then scores when the pitcher throws wild to first base. Not a

Flames Harvest 2 Wheat Fields

Costly fires ravaged two high-yielding wheat fields near Hereford Wednesday and Friday. Cause of both blazes was said to be exhaust from wheat truck motors. Both fields were being combined at the time the fire broke out.

In both cases the Hereford Volunteer Fire Department and neighborhood firemen contain the fires.

Friday night a 2 p.m. fire destroyed about 50 acres of wheat in a 150-acre field leased by J. A. McWhorter from Joe Renauer. The field is four miles west of Hereford and one mile south of U. S. Highway 60.

A blaze devoured 24 acres of Tom Draper's 30 acre crop Wednesday afternoon 10 miles south of Hereford. Draper said the field had been yielding about 50 bushels per acre.

With wheat now selling for \$1.90 per bushel, the loss to both farmers was considerable. Draper estimated his loss at about \$2,200, and McWhorter's will come close to tripling that.

Roscoe Short, who was driving the wheat truck at McWhorter's, said wheat straw apparently was set ablaze by exhaust from the truck's motor.

Short said he pulled the truck out of the field and pulled the blazing straw off the bottom of the truck. He then got a crawler tractor hitched to a tandem

disc-type plow and returned to fight the fire.

The fire started in the west part of the field and burned the northwest corner of the field. It was fanned by a strong wind from the south-southwest.

Bill Strickland, combine contractor from Amarillo, and McWhorter were on the combine. They drove the machine out of the field and McWhorter went to summon the fire department.

"If the wind had been from another direction we'd have lost the whole field," McWhorter said.

Strickland said they had made about four rounds with the combine before the fire started.

At one time a rush of wind and flame drove firemen and onlookers away from the corner of the field. The flames were about 15 feet high at that time.

The fire threatened to jump a section-line road and inflame a huge wheat field owned by Felix Urbanzyk. It stopped at the fence row.

Other patches of fire in the field were extinguished by firemen. Short, using the tractor, (Continued On Page 7)

Appellate Court Reverses County Jury Decision

The state court of criminal appeals in Austin Wednesday reversed the Deaf Smith County conviction of James Chouteau Rawlings for drunk driving.

The court said the six-member jury in the case drew too many conclusions of its own. A new trial for Rawlings will be held, but its date has not been set.

Rawlings, 62, of Dimmitt was convicted of driving while intoxicated, first offense, and fined \$500 and sentenced to 30 days in jail on March 5.

EVIDENCE of Rawlings' intoxication when he was arrested by (Continued On Page 6)

65 FOREIGN STUDENTS WILL VISIT HEREFORD

Sixty-five foreign exchange students, traveling from California to New York where they will take ship for their homes in 16 different countries, will be guests this weekend in the Hereford area.

A citizens committee, various Hereford families, and Future Homemakers and Future Farmers are making plans to entertain the visitors. Sightseeing trips through the irrigated farming areas and to a ranch, a barbecue, swimming, picnics, a "fun night," and an ap-

pearance on an Amarillo television program have been scheduled for the youngsters.

Mrs. J. J. Durham is coordinating the many activities being planned. The exchange students will spend two nights with host families in the community. They are scheduled to arrive here at 4:30 p.m. Friday and to leave at 9 a.m. Sunday.

HEREFORD is one of nine major stops scheduled for the students during their trip by bus across country after spending a year in various California high schools. The American Field Service is sponsor of the exchange student program. A man and woman will be traveling with the students as chaperones.

A total of 763 students from 30 countries will be making similar trips across the nation this month. The American Field Service schedules the trips as a means of acquainting the youngsters from abroad with the United States. The overall program's purpose is to increase understanding and friendship among the peoples of the world, by giving teenagers from abroad

to live with families in this country.

Hereford, with the Future Homemakers chapters as sponsors, has participated in the exchange program for the past three years. Elisabeth Brummer of Sweden, who studied in Hereford High School the past year, was scheduled to leave Friday to join a tour similar to the one that will bring the 65 students to Hereford.

Hereford's visitors this weekend will include boys and girls from Austria, Belgium, Brazil, Denmark, France, Germany, Great Britain, Greece, Italy, The Netherlands, New Zealand, Norway, Swe-

Boy Okay After Drinking Spray

A one-year-old boy who drank insecticide Thursday afternoon was reported "out-of-danger" Saturday morning by the attending physician.

Walter Wayne McConnell, son of Mr. and Mrs. W. A. McConnell, who work for Chester Wiggins near Summerfield, was rushed to the hospital immediately after he drank the bug spray about 6 p.m.

Doctors pumped out the youngster's stomach and placed him under oxygen. The insecticide was composed of chemicals which affect the oxygen content of the lungs and brain, the doctor said.

The boy now has a mild case of pneumonia, but is now out from under the oxygen tent. The doctor said Walter ran a high temperature and was nauseated.

Mrs. McConnell told a nurse she had gone outside to help her husband and while she was gone their 4-year-old child handed the bottle of spray to Walter and the tot drank some of it.

(Continued On Page 3)

FIREWORKS 'OUT' Business Houses Take a Holiday

With the approach of July 4, city officials are reminding residents there is a city ordinance prohibiting exploding fireworks within the city limits.

Police officers will enforce the ordinance. Violation of the ordinance carries a maximum fine of \$100.

Almost all Hereford businesses will be closed for the holiday Thursday.

BANK PLANS COMPLETED—Directors of the First National Bank on Aug. 1 will consider bids for construction of their new "home" at Main and Third, just across the street from their location since 1906. The structure, shown in an architect's sketch above, will feature a 97 by 14 feet expanse of glass on Main St., with the remainder of the building's exterior will be of face brick and Palos Verdes stone, plus more glass. See story, page 3. (Staff Photo)

EXTINGUISH WHEAT FIRE—Hereford volunteer firemen and neighbors on McWhorter place 4 miles southwest of town. (Staff Photo) tractors put out the last vestiges of a costly wheat field fire at the J. A.

To Err...

(Continued From Page 1)
 Errors are the common excuse for newspapermen who have made the fault pass themselves.
 But there is a chance the figures will be set erroneously and then not be caught by the proofreader. In putting the type into a page, there is a possibility it may get scrambled.
 Further complications are avoided by printing the simplest box score possible. The Brand carries only times at bat, runs and hits. Think how messy things might become if runs batted in, put outs,

assists, errors, double plays, left on bases, strike outs, earned runs, hit by pitcher, wild pitches, types of hits, winning and losing pitchers and the names of the umpires were carried.
THE BOX SCORES the Brand prints provide enough information for batting averages and the stories usually carry the highlights of each game.
 Incidentally, The Brand is the only weekly or semi-weekly newspaper in this area which carries box scores on Little League and Pony League games. A baseball player has his difficulties in fielding and throwing the

LITTLE LEAGUE

Dodgers Almost Upset Yankees

The Dodgers almost pulled the upset of the Little League season Friday night as they led the Yankees 12-6 going into the bottom of the last inning.
 However, the Yankees rallied for seven runs on only three hits and won the game 13-12. The Yankees were limited to five hits and the Dodgers crashed out 11 safeties.
 The Dodgers had a big inning in the fifth, scoring six runs to take their big lead. The Yankees had scored five in the fourth to tie the game.

Chuck Callaway had three hits for the Dodgers and Bill Overall got two for the Yankees, one a two-run homer in the fourth.

Thursday night, the Giants shelved the Cardinals, 15-4. The Giants banged out 16 hits while the Cards were limited to six. The Giants scored seven runs in the bottom of the fifth to ice the game.
 In minor league play the Giants edged the Cardinals 7-6, Thursday night and the Dodgers and Yankees battle to an 8-8 tie. The Dodgers-Yank game was stopped at the end of six innings because of time limitations. Each team receives credit for one-half win and one-half loss.

ball properly. When he doesn't, he is charged with an error.

The Brand sometimes boots the ball too. When it does, chalk up an error.

When it doesn't, give it credit for a hit.

Tomorrow is the greatest labor-saving device of today.

If you find life is empty, try putting something into it.

First National Bank Plans Set

First National Bank directors Friday approved plans by architect George E. Christensen for a new banking house at Main and Third. They plan to award the building contract at 3 p.m., Aug. 1, with construction slated to start immediately afterward.

"We hope to be in the new building by March 1, 1958," said Virgil Hennen, executive vice president Christensen, Dallas, said that the plans will provide 9,000 square feet of floor space for banking activities on the street level, plus an additional 1,000 square feet in a "penthouse" which will house a community room, coffee room and employees lounge.

The structure (architect's sketch is reproduced on Page 1) will feature an expanse of glass set in aluminum facing Main St., with the remaining exterior walls to be built of face brick and Palos Verde stone. Overall dimension of the ground floor will be 100 by 92 feet. Entrances will be provided on both Main and Third.

The interior will be finished in walnut panels, and vinyl fabric, with a limited amount of formica panels. Floors will be covered with terrazzo stone and carpeting.

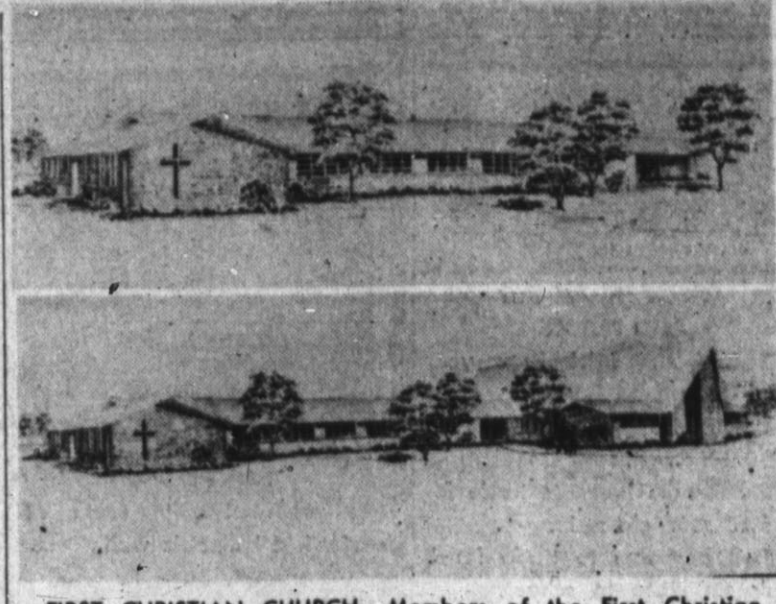

Entrance to the community room will be from the Third St. parking lot, and will be completely separated from the bank in order to permit public access to its facilities "morning, afternoon or night," said Hennen.

The expanse of thermopane glass on Main St. will cover a 97 by 14 foot section of the 100 by 19 foot building front. The south wall of the community room will also be almost entirely of glass.

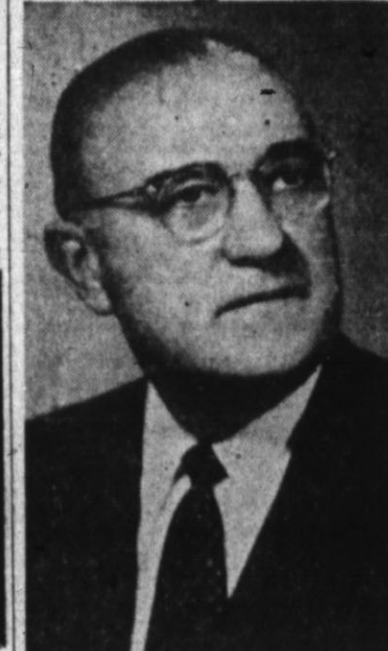

"The move next year will be our first since the First National opened for business in its present location in 1906," Hennen noted. A color painting, by Qvale of California, of the contemplated structure will be on display at the bank.

In other business, the bank officials named Bill R. Waldrep, Hereford farmer-cattleman, to the board of directors. He will fill the vacancy left by D. C. Kinsey, who is leaving Hereford to live in Portales.

VISIT HERE
Visiting in the home of Mr. and Mrs. Lee Cocconougher this week are her sister, Mrs. T. T. Fisher and Mrs. W. A. Austin Jr., Charlotte Austin and Darlene McKimm, all of Lubbock.

FIRST CHRISTIAN CHURCH—Members of the First Christian Church today will conclude dedication activities at their new building, above. The sketch shown below represents the building as it will appear when the future construction plans are completed with the addition of an imposing Sanctuary. Worship services at present will be held in the Fellowship Hall, and in the chapel—shown at left in both drawings.

DR. McGRUDER SADLER

TCU President To Dedicate New Church Today

Principal speaker at the formal dedication service at 3 p.m. today for the new First Christian Church building on Harrison highway will be Dr. McGruder Ellis Sadler, president of Texas Christian University.

The first morning worship service in the new structure this morning at 10:50 will have as guest speaker, William T. Peary, executive secretary of the Board of Church Extension of Disciples of Christ, with headquarters in Indianapolis, Ind.

This afternoon's program will include inspection of the building and a fellowship hour. The Rev. Gilbert Davis, pastor, said that a cordial invitation is extended to the public to attend today's dedication activities.

The actual dedication of the church began Thursday when members held a 16-hour prayer vigil in the new chapel. A supper meeting of church members in their new Fellowship Hall was held Friday evening, with Peary as guest speaker.

65 Students...

(Continued From Page 1)
den, Finland, Portugal and Turkey.

BEFORE arriving here, they will have made stops in Phoenix, Ariz., and Albuquerque, N. M. Before reaching New York on July 20, they will visit in Oklahoma City, Little Rock, Ark., Nashville, Tenn., Bristol, Tenn.-Va., Roanoke, Va., and the Washington D. C. area.

The schedule of activities for the visiting students will begin here with their arrival at 4:30 p.m. Friday at the high school. After meeting their host families, the group will meet in the school auditorium for a brief explanation of the following days' activities. To allow the boys and girls to rest from the trip across country, only "visiting" in the various host's home has been scheduled for Friday evening.

Saturday at 8:30 a.m., the students will meet again at the school to begin a tour by bus through the Westway community area with stops scheduled at Jack Renfro's farm and planned for some ranch in that section.

A BARBECUE luncheon will be served to the visitors, their hosts and members of the Hereford F. H. A. and F. F. A. chapters, during a noon stop at the Renfro Ranch east of Hereford.

Details of a scheduled trip to television station KGNC in Amarillo at 3 p.m. are incomplete. It is expected that only a few of the group will make the trip to Amarillo, with the remainder to be entertained at private swimming pools in the area.

The evening program will include a picnic at Dameron Park, with Future Homemakers as hostesses, starting at 7 p.m.

At 8 p.m. Saturday, "fun night" activities are scheduled to begin in the high school gymnasium. The public is invited to attend this program in order to meet and become acquainted with the visitors, Mrs. Durham said.

Arrest 2 Women on Theft Charge

Gabino Tablita Garcia, 30, pleaded guilty to charges of petty theft in county court Thursday. She was fined \$10 and costs.

Agnes Gonzales pleaded not guilty to the same charge and was placed under \$200 bond.

The two women were arrested by city police Wednesday on charges of trying to steal a dress at C. R. Anthony & Co.

Local Odd Fellows Host Encampment

Hereford Odd Fellows hosted a district encampment meeting Saturday night, June 22. There were

40 members and visitors present. Among them were Guy W. Ennis Jr., grand patriarch of the grand encampment of Texas; Ben Conklin, grand high priest, and Bill Nafziger, district deputy grand patriarch.

Also present were C. C. Pangle

and Willis Sezere, past grand Patriarchs of Texas, and B. R. Patton, past grand patriarch of New Mexico. Pangle is the oldest past grand patriarch in Texas.

After the regular business meeting three patriarchs from Hereford, Newell, Beauford and Bar-

rett, received the royal purple degree. Grand patriarch Guy Ennis Jr. gave a short talk on the origin of Odd Fellowship and the encampment branch. He also explained his program and how it could help the Order.

(Continued From Page 1)
den, Finland, Portugal and Turkey.

BEFORE arriving here, they will have made stops in Phoenix, Ariz., and Albuquerque, N. M. Before reaching New York on July 20, they will visit in Oklahoma City, Little Rock, Ark., Nashville, Tenn., Bristol, Tenn.-Va., Roanoke, Va., and the Washington D. C. area.

The schedule of activities for the visiting students will begin here with their arrival at 4:30 p.m. Friday at the high school. After meeting their host families, the group will meet in the school auditorium for a brief explanation of the following days' activities. To allow the boys and girls to rest from the trip across country, only "visiting" in the various host's home has been scheduled for Friday evening.

Saturday at 8:30 a.m., the students will meet again at the school to begin a tour by bus through the Westway community area with stops scheduled at Jack Renfro's farm and planned for some ranch in that section.

A BARBECUE luncheon will be served to the visitors, their hosts and members of the Hereford F. H. A. and F. F. A. chapters, during a noon stop at the Renfro Ranch east of Hereford.

Details of a scheduled trip to television station KGNC in Amarillo at 3 p.m. are incomplete. It is expected that only a few of the group will make the trip to Amarillo, with the remainder to be entertained at private swimming pools in the area.

The evening program will include a picnic at Dameron Park, with Future Homemakers as hostesses, starting at 7 p.m.

At 8 p.m. Saturday, "fun night" activities are scheduled to begin in the high school gymnasium. The public is invited to attend this program in order to meet and become acquainted with the visitors, Mrs. Durham said.

Court...

(Continued On Page 7)

state highway patrolmen was contested during the trial here. The jury was reported to have split 3-3 at first on the question of his guilt.

In his written opinion, the court of criminal appeals pointed out that one juror said he knew the deputy sheriff who had testified as to Rawlings' intoxication. The juror said the deputy was honest and certainly could be believed. Another juror said highway patrolmen are of the highest character and the jury had to rely upon them.

THE APPEALS COURT said the matters discussed by the jurors had not been brought out in evidence in the trial ruled there were grounds for reversal.

A motion for retrial of Rawlings was made March 23 by his attorneys, but was over-ruled in county court.

Wayne Thomas argued for reversal before the appellate court June 19.

"It wasn't jury misconduct, but an attempt on the part of some of the jurors to bring new evidence and testimony before the other jurors after testimony had been closed," Thomas said Friday.

Rites Scheduled Here Today for Sammie Davison

Funeral services for Sammie Davison, 37, will be held at 3 p.m. today in the Avenue Baptist Church with the Rev. David Blacklock of Bayfield, Colo., officiating.

Mr. Davison died Friday morning in the Veterans Administration Hospital in Amarillo. He was a veteran of World War II.

Mr. Davison was born April 20, 1925 in Royse City, Tex. He came to Hereford in March of this year. He had been a lumberman in Colorado.

Burial will be in West Park Cemetery. Gilliland Funeral Home is in charge of arrangements.

Survivors include his wife, Ernestine; two sons, Sammie Jr., 11, and Joseph, 3; a daughter, Sally, 9; his mother, Mrs. Vera Davison of Hereford; two brothers, Don of Hereford and Jack of California, and three sisters, Mrs. Juanita Houle of Hereford, Mrs. Blanche Cross of Amarillo and Mrs. Dorothy Frugue of Minneapolis, Minn.

Rites Held for Martinez Infant

Funeral services were held Saturday morning in St. Joseph's Mission at the Labor Camp for Jesus Martinez, infant son of Mr. and Mrs. Crespin Martinez.

The baby was born May 14, 1957 at the mission and died there at 7 a.m. Friday.

Burial was in St. Anthony's Cemetery. Gilliland Funeral Home was in charge of arrangements.

Survivors include the parents, five brothers and three sisters.

HOLIDAY APPRECIATED DRUMHELLER, Alta. Whether or not it's a Christmas present, city motorists applaud council's latest move: A ruling that parking meter operations be discontinued for 60 days, including the holiday season.

PONY LEAGUE

White Sox Hand Indians First Loss

The White Sox pushed across three runs in the top of the ninth Thursday night to hand the Indians their first loss of the season in Pony League play.

Friday night, the Tigers pounded the Red Sox 14-6 to even both teams' records at two wins and four losses.

Despite their loss, the Indians hung onto first place with a 4-1 record and the White Sox strengthened their grip on second place, now holding a 3-2 record.

Edwin Thomas went all the way for the Indians, giving up eight hits. Don Luck was the winner, surrendering four safeties.

The Tigers pounded two Red Sox pitchers for 14 hits in their win. Joe Mack Hale and Ronnie Caster led the attack with three hits each. Hale pitched the first six innings and was the winner.

Demonstration Council will hold a rummage sale Saturday at Hereford Locker, 130 N. Main.

The Hereford Athletic Club is sponsoring a demonstration of gymnastics and tumbling by Hereford youths Tuesday at 8 p.m. in the Bull Barn. An expert tumbling team from Amarillo also will participate in the exhibition. No admission will be charged.

Bargains ranging from furniture to bobby pins are being featured Monday by Hereford merchants. Monday is the monthly Dollar Day in Hereford.

A new schedule for services has been announced for St. Thomas Episcopal Church. Beginning today, and to continue throughout the summer, Sunday school will begin at 9 a.m., and church services at 10 a.m.

Members of the Hereford Merchants Assn. are reminded the group will hold its monthly meeting Friday in the ballroom of the Hotel Jim Hill. The group has changed from weekly to monthly meetings for the summer.

J. B. Wills and Bill Woodford, both of Hereford, have joined the staff of radio station KPAN. Wills, who will be a junior at the University of Colorado, will write advertising continuity. Woodford, who will enter the University of Texas this fall, will be an announcer.

Flames...

(Continued From Page 1)

dragged a plow between the fire and other wheat and kept it from spreading in one spot.

Carl Scumbato and Homer West, who were working nearby, brought tractors and helped Short plow fire breaks.

McWhorter carried no fire insurance on his crop.

Smoke from the fire was easily seen from Hereford and one unidentified passerby who had stopped to help fight the flames said he saw the smoke from between Bovina and Friona.

The fire at Draper's place broke out about 5 p.m. while Buren Sowell, combine contractor, and M. J. Layman, one of his crew, were working on a combine which had broken down.

The fire apparently started in the motor of a loaded 1934 model truck which had been left parked in the field. The fire destroyed the truck.

Rocking the Crib Is Normal Baby Behavior

By DOROTHY WHIPPLE, M.D.

"Nancy sits on her hands and knees and rocks and rocks. She does it in her bed and sometimes moves the whole crib across the room. The other night I woke up in the night and heard her just going to town all by herself. She seems happy enough while she is doing it, in fact she often makes a sort of rhythmic humming sound in time with rocking.

"Is this anything to worry about, Doctor? Nancy has been doing this for some time but it seems to us it is becoming rather excessive."

Bed rocking is pretty frequent behavior of young children. A baby toward the end of his first year will push himself up on all fours and sway back and forth. He may discover pretty soon that he can crawl and he prefers to "go places" rather than to stay in one place and rock. Thus he may outgrow rocking at an early age. Another child may enjoy the rhythmic motion so much that he will rock even when he has learned to do other things as well.

mrs. Draper said the fire was insured against fire, but the insurance will not cover the full loss.

She credited the fire department with saving the six acres that were left. She said the firemen wet down a strip of wheat with chemicals and halted the blaze.

"Neighbors tried to plow some strips, but the draw was too heavy," she said.

Carl McCall reported the fire to the local fire department.

NANCY was one of these youngsters who seemed to get great satisfaction from rocking. She rocked not only at night, but during the day if she was upset by anything. If she bumped herself, if she became angry or frustrated over a toy that wouldn't do what she wanted it to, she would first cry (as any child would) but she finally comforted herself by rocking. At first the rocks would be accompanied by her cries, but soon the crying gave place to a rhythmic humming. When she was comforted, she would get up and go on about her play.

Nancy had discovered a good way of solving her problems. But it seemed she was overdoing it. We don't mind if she rocks a little, but if the rocking interferes with sleep, if she prefers to rock rather than play, we had better try to interest her in a wider range of activities.

Nancy was an only child. She and her mother got along well together. Nancy was cooperative and happy, loved her play with her mother, but also was apparently con-

tempted by herself for quite long times. It was during these long solitary plays that she was rocking more and more.

For the night time rocking we made the rocking a little less satisfactory. The crib was screwed up very tight so it didn't sway with Nancy's rocking, the casters were removed and the legs screwed to two heavy planks which prevented it from moving on the floor. Nancy continued to rock during the night, but she got less satisfaction from it and before long found sleep more restful and satisfying than rocking.

Only if your child rocks instead of playing or sleeping need you be concerned. A little rocking is quite normal behavior for a small child. Excessive rocking suggests you try to find more interesting things for the child to do. Scoldings and punishments "quite obviously" do not help - they would but increase a child's need to seek the comfort of rocking.

Boys Plan Trip to Scout Jamboree

Thirteen scouts from Hereford will attend the Fourth National Boy Scout Jamboree July 12-18 at Valley Forge, Pa. They will be accompanied by Dr. M. C. Adams, who will do administrative work in the Region 9 health lodge, and Albert Maxwell, assistant scoutmaster of Jamboree Troop 26.

Hereford Boy Scouts making the trip will be Lewis Block, Jim Bradley, George Davis, Larry Edwards, James Gentry, Eddie May, Carl McCaslin Jr., Troy Don Moore, Jimmy Reinauer, Joe Reinauer, Richard Smith, Edwin Thomas, and Jan Wallace. Davis is senior patrol leader for Troop 26, which includes Deaf Smith, Dallam-Hartley-Sherman, Randall and Amarillo districts. May is scribe and Joe Reinauer and Wallace are patrol leaders.

The group will leave Amarillo Saturday, July 6, by chartered train to visit Washington D. C. and New York City and watch a major league baseball game in Philadelphia before the jamboree. After leaving Valley Forge, they will see Niagara Falls July 19, and the next day a trip to Detroit and tour of the Ford Museum is scheduled.

The jamboree's expected attendance is 30,000 scouts from all over the United States and representatives from scouting organizations in other countries. An education program, cookouts, skill contests, special entertainment and talks by distinguished guests are included in the schedule. The closing pro-

No More 'Rights' On 'Red' Lights

By state law, right turns on a red light are prohibited and city police will be enforcing that law from now on, according to chief Henry Aycock.

Aycock said signs are being placed on all traffic lights notifying drivers of the law.

The chief also pointed out truck traffic is prohibited on Main from 1st. to N. 5th. Signs are now posted on the traffic lights on Main at 1st, 3rd and 5th.

PARTNERS IN CRIME
FAYETTEVILLE, W. Va. — Charles Levesay, charged with threatening to shoot his wife, was joined in jail by Wolfe Alfonso, accused of stealing the gun Levesay allegedly used in the threat. The weapon was one of four taken from Levesay's home.

REASONS OF HEALTH
ATLANTIC CITY, N. J. — Local bandleader Ray Mathis phoned a dance chairman to cancel an engagement of his musicians. "Double trouble," he said.

Miss Jean Wertzberger, chairman of the Jefferson Dance Club, obviously provoked asked Mathis what the "double trouble" was.

"Two of my musicians came down with the mumps," he replied.

gram will be a dedication service held in a large natural amphitheater at the historic battle site.

CARD OF THANKS

May we take this means of thanking everyone for the many kindnesses shown to us and our loved one during her illness and in her passing. We want to express our gratitude for the loving memorial, the little piano, which you have placed in the Primary Department of the church school at the First Christian Church. We are sure it would be a source of great joy to her to know that her life and service will be continued in the voices of little children. We ask God's blessing upon each of you.

LETTER FROM GERMANY

Kids Are Kids the World Over

(Editor's Note: This is the second weekly letter from Jane Newsom, who is traveling in Europe this summer. At present she is in Germany in the home of Helga Thome, exchange student here in 1956.)

Hi there! June 24, 1957
Gee, how the days fly by! It hardly seems possible that I have been here more than a week. It seems that every day brings a new and exciting experience, and I am enjoying them all.

With a little effort I manage to get up at 5:45 a. m. to go to school with Helga. This is quite an experience and I found the schools very different than I had expected. The students didn't stand and curtsy as the teacher entered and the classes weren't quiet enough to hear a pin drop, as I had expected. I guess kids are just kids the world over. I realize that I cannot get a true picture in only two days, but I hope to attend several times so that I may compare our schools fairly. Incidentally, the school that I am attending with Helga is a girls' school.

First period I found myself in front of the English class reading from their English text. From the giggles and looks on their faces they must have discovered that Texans speak differently than the English. One of the classes I enjoyed most was the music appreciation class. The teacher told about the composer and the music and then we listened to Schubert's "Unfinished Symphony."

Tulsa, Okla.; Duane Noyes, Tulsa, Okla.; Dwight Noyes, Tulsa, Okla.; Mrs. Ruby Noyes, Tulsa, Okla.; Steven Noyes, Tulsa, Okla.; Mrs. Pat Robinson, Hereford; Mrs. Besie Smith, 111A Ave. F; George Whisenunt, Hereford Hotel; Mrs. Annie Williams, Tulsa, Okla.; Mrs. E. J. Williams, 615 Union.

Patients Dismissed
C. V. Burges, 6-26; Sandra Huckabee, 6-26; Mrs. Ora Garrett, 6-27; Mrs. Leon Martin, 6-28; Mrs. V. C. Riley, 6-27.

Because of the difference in language it is rather difficult to get an all-round picture of the classes as I can't understand the teaching methods, etc. However, I have enjoyed going to their school and perhaps I can tell you more about it after I have attended more.

After school one day, Mr. Thome picked Helga and me up and we drove to Wiedsburg where Helga and I took a tour through a castle which was built in the sixteenth century. It was very elaborately furnished with furniture that was used in those days. The beautiful chandeliers and the tapestries especially caught my eye. When we had completed our tour we spent the rest of the afternoon looking at the formal gardens, visiting the churches, and just walking around and looking.

Yesterday Helga and I went to Marburg where we attended St. Elisabeth's Protestant Church. It is quite a famous church which was built in the 13th century. I believe it is the most beautiful building I have ever seen. It is so old and elaborate. In the afternoon we walked for miles and miles sight-seeing. Marburg is a very old town with narrow streets and old, old buildings, and it is a fascinating place. We walked to the top of a hill where we visited in Elisabeth's castle. The view of the city from the hill was beautiful. It was very cold and rainy most of the day but we were so absorbed in all that we saw that we didn't notice the weather too much. It is still raining today and it is very cold. I wish we had some Texas sunshine. Well, the time has come again to say "auf wiedersehen" (goodbye). See you next week.

EXPENSIVE EXPERIMENT
PUEBLO, Colo. (AP) — Rudy Cruz found the engine of his pickup truck frozen, thought building a fire beneath it would thaw it out. The fire did the trick all right. Firemen estimated the flames caused \$40 damage to the truck.

ROW CROPS NEED NITROGEN!

APPLY PHILLIPS 66 AMMONIUM NITRATE NOW

Corn and other row crops need plenty of nitrogen to return bigger yields and profits at lower unit production costs. Phillips 66 Ammonium Nitrate contains a guaranteed 33.5% nitrogen. Half is quick-acting nitrate nitrogen for fast, healthy growth right from the start and half is ammonia nitrogen to provide long-lasting continued plant feeding.

This high quality fertilizer promotes stronger deeper root systems which make better use of available subsoil moisture to help you beat the drought. And it helps increase the protein content of grain and feed crops which put more money in your pocket.

HERE COMES THE BRIDE

MANY YOUNG couples wend their way to marriage in June . . . for June is a traditional favorite with brides and bridegrooms. But although it is the most popular season for tying the knot, May and August are close runners-up, and marriage take place in this country about the rate of a million and a half a year.

Why do brides favor June? No one can answer that question for sure. But if you look up the derivation of the word Juno in the Encyclopaedia Britannica, you will find three versions of its origin: (1) that the month was named after Juno, wife of Jupiter and the chief Roman and Latin goddess of women and marriage; (2) that it referred to the union of the Romans and Sabines; (3) that Romulus assigned this month to the young men of the country.

In early Roman times, engaged girls who found their hearts skipping an extra beat dashed out to the local oracle or consulted the auspices before setting the happy day. Presumably the sages decided June is a good month to encourage young love and to please the goddess Juno.

THE MARRIAGE ceremony is based upon a multitude of traditions. Some are observed in original form while others have succumbed to changing times. Placing a ring on the fourth finger of the left hand came from an ancient belief that an artery in this finger connected with the heart. Primitive tribes bound and fettered prospective brides around wrists and ankles. Fellow tribesmen then turned the "captive" woman over to her husband, thus signifying that she was his property. A "honeymoon" originally lasted one lunar month, but nowadays some say it depends on how much money the bridegroom has.

While we may have come a long way from primitive customs, folk beliefs are as firmly and deeply rooted in tradition as the pomp and ceremony of the law and church, and can no more be ignored than the events themselves. Marriage is surrounded by folk beliefs and customs, and after searching through brides magazines, historical writings on the subject, and thumbing through old etiquette books, it seems traditions still govern the average courtship and marriage.

For example, from the mountains of Virginia to the great Cathedrals in London, the bride religiously wears "something old, something new," and from the fastlands of Texas to Paris there is a bit of "blue" worn by the bride. Grandmother will tell you that they are as important as the bridegroom himself.

ONE LONG-AGO poet suggested this wisely advice. If you are about to marry, Remember this is true. Men are grouchy in the morning (and in the evening too). They roar and grumble at smallest chores and proudly think brainy women are bores. MEN . . . but what's the use of talking? You won't listen to what I said. If you are about to marry. GO AHEAD!

You should consider the birth date, name and initials of your intended. His birthday should not occur in the same month as yours. It is unlucky to marry some one whose name begins with the same initials as yours, as the rhyme goes "To change your name and not your letter, you'll marry for worse and not for better."

The customary diamond ring will bring the greatest happiness. Pearls are the emblem of tears but emeralds signify success in love. Never let anyone try on your engagement ring and don't ever lose it for your engagement may be broken.

June, August and December are the luckiest months for the wedding. If you "Marry in Latin, you will live to repent." The day of the week may be chosen by the rhyme:

"Marry on Monday, marry for wealth,
Marry on Tuesday, marry for health,
Marry on Wednesday, the best day of all,
Marry on Thursday, marry for crosses,
Marry on Friday, marry for losses,
Marry on Saturday, bad luck will befall."

It is safe to marry when the moon is new, but better when it is full. Never marry when the moon is on the wane. Your life will be a success if the ceremony takes place when the hands of the clock are rising or on the hour; but the half-hour bodes no good. It is very bad luck to postpone a wedding, because the marriage will be unhappy.

YOUR FUTURE happiness may depend on the color you select for your wedding dress. Here is a rhyme to guide you.

"If you marry in green,
You will live like a queen;
If you marry in red,
You'll wish yourself dead;
If you marry in brown,
You will live out of town;
If you marry in black,
You will want to turn back;
If you marry in gray,
Your love will go astray;
If you marry in pink,
Your love will sink;
If you marry in yellow,
You'll be ashamed of the fellow;
If you marry in pearl,
You will live in a whirl;
If you marry in blue,
Your love will be true;
If you marry in white,
You are sure to be right."

DON'T LET the bridegroom-to-be see the wedding dress before the ceremony. Pack it away in lavender and rose petals. If you can borrow your grandmother's wedding veil, you will always be wealthy and your wearing it will bring good luck to the lender. Borrow as much of your wedding costume as you can, because you and your husband will not be rich until your wedding clothes are worn out.

Don't cry on your wedding day, and don't break anything—it will mean a quarrel with your mother-in-law and your husband will side with her. It is bad luck to be late. Borrow an old yellow garter from one of your bridesmaids—it means happiness for you and a wedding for her within the year. Before you put on your stockings, pass

one over your left shoulder. If it lands in a straight line your luck will be continuous. Be sure to have your hair dressed and your veil put on by a happily married woman, and don't keep any of the pins from your bridal array, scatter them over the floor for your bridesmaids to pick up. The one who does not pick up any pins will be an old maid. Always keep the silver coin you wear in your shoe and great wealth will come.

Carry a bit of thread and a pinch of salt in your pocket during the ceremony and then throw them away for you will be throwing away your troubles. Some say it is bad luck to look in a mirror on your wedding day; if you do have to peek after you are dressed, add something to your costume, such as a glove, handkerchief or ribbon. Do be careful not to tear your gown; but if you see a spider crawling on it, leave him alone—he brings you great happiness. Orange blossoms in the wedding always bring good luck.

"BLESSED IS the bride the sun shines on." Some say if it rains you will cry all your married life, although others believe that rain is lucky. It it snows you get a dollar for

By MRS. JOHN McLEAN

Brand Society Editor

every flake that falls on you. And if you see a flock of birds on your way to the church you will have as many children as there are birds in the flock.

Remember to step over the threshold of the church with your right foot to start off right, and during the ceremony to stand in line with the cracks in the floor, not at right angles to them. When your hands are joined during the ceremony, the one whose thumb is on top will be the master of the household. It is bad luck to lose the wedding ring. "As the wedding ring wears, so wear away life's cares."

The climax of a wedding is the celebration. You should be kissed and your husband congratulated by all the assembled guests. Both must cut the wedding cake and it is wise for the bride to drink a glass of water before her husband does, because the first one who does will rule.

Should there be dancing after your wedding, your unmarried older sister should dance in her stocking feet if she wants to get married. "If there are two weddings in the family within a short time there will be a third within the same year."

WHEN YOU toss your bridal bouquet, throw it to one of your unmarried friends. She will be married within the year. Do not let the barrage of rice and old shoes annoy you when you leave on your wedding journey. The heavier the barrage the more luck you will have. The rice signifies fertility. It is the last opportunity your family and friends have to wish you well.

It is very unlucky to stumble into your new home. To avoid such an accident your husband should carry you over the threshold. It is claimed that in some sections of the country it was customary, not so long ago, for a bride to jump over a broomstick before she entered her new home, so that she never would be hoodooed there. To establish a friendly relationship with your mother-in-law, she should break a cake or loaf of bread over your head as soon as you move in.

Anyway, with wedding bells for some ringing in the distance, life for all takes on a brighter hue. And whether you set the day in June or January, you'll have plenty of company.

Cupid moves in pretty much the same cycle in prosperity and depression. Thus it seems that man's last excuse, "Let's wait until times are better," goes by the board when a woman makes up her mind and sets her heart on marriage. Caution and advice are gone with the wind, but if you have followed consistently these folk customs and traditions, by now you are well on your way to "living happily ever after."

Miss Patty Jordan (Caraway Photo)

ENGAGEMENT IS ANNOUNCED

The engagement of Miss Patty Jordan to Billy Frank Amrey, son of Mr. O. L. Amrey of Amarillo and Mrs. Jim House of Fort Worth, has been announced by Miss Jordan's foster parents, Mr. and Mrs. David Schmuck of Albuquerque, N. M. The wedding will take place in September.

ADRIAN NEWS

Relatives Visit with Residents

By JUDY PINNELL
Spending the weekend with Mr. and Mrs. P. P. Doherty were Mr. and Mrs. J. M. Donnell of Amarillo.

Visiting with Mr. and Mrs. Ralph Perry is Mrs. Perry's mother, Mrs. McMinn of Lelia Lake. Mr. and Mrs. B. L. Kinsey visited with Mrs. Kinsey's sister, Mrs. Evans at Clovis and their son, Mr. and Mrs. Alven Kinsey at Ft. Sumner.

Mrs. Ralph Perry, Mrs. D. P. Doherty, and Mrs. B. L. Kinsey attended a wedding shower at Lelia Lake Tuesday.

A surprise housewarming was given to newlyweds Mr. and Mrs. Robert Jacobson Sunday afternoon. Refreshments of ice cream and cake were served to out of town guests, Mrs. Marie Godwin, Mrs. Jo Montgomery, Mrs. John Halliburton, and Mr. and Mrs. Bill Tolbert, all of Vega, and Mr. and Mrs. Henry Creitz, Mr. and Mrs. L. E. Lemke, Paula Creitz, the Rev. Johnnie Williams and Glenda, Mrs. Floyd Brown, Mrs. E. L. Brown and Davis, and Finis, Mr. and Mrs. E. L. Jacobson, Mr. and Mrs. E. K. Pinnell, Mr. and Mrs. E. B. Pounds, Mr. and Mrs. James Cavin, Jim and Jan, Mrs. B. E. Witt, and hostesses Mrs. Loren Creitz, Mrs. Johnnie Williams, Mrs. Ernest Frank, Mrs. Vic Lemke and Mrs. Oscar Bronnman.

The Methodist Men's breakfast was held Monday morning. Guest speaker was the Rev. Bill Lewis. Cooks for the occasion were John Skaggs, Don Morgan, and Bill Leslie. There were about 12 attending.

Mr. and Mrs. V. C. Overall Feted At Departure Coffee

Mr. and Mrs. V. C. Overall, who are leaving Hereford to make their home in San Marcos, were honored at a farewell courtesy in the form of a coffee given in the dining room of the home economics department at Hereford High School Tuesday morning.

Overall has served as high school principal for the past year and a half and will be employed by the Southern Engraving Co. He will report in San Marcos Monday. Mrs. Overall and children will remain in Hereford another month before joining her husband.

Hosts for the farewell event were members of the Hereford High School faculty with the arrangements committee made up of Mrs. Claude McDougal, Mrs. J. J. Durham, Mrs. V. E. Dodson, Mrs. J. D. Neill and Mrs. Joel Hodges. Mrs. Raymond Higginbotham, Overall's secretary, presided at the coffee service.

The coffee table was laid with a cutwork linen cloth and decorated with mid summer garden flowers. Lovely personal gifts were presented to the couple as an expression

of esteem from their coworkers. Claude McDougal made the presentation.

Attending were Supt. and Fred Cunningham, Mrs. J. H. Mercer, Mrs. Raymond Higginbotham, Mr. and Mrs. Jack H. Ham, Mr. and Mrs. Cuby Kitchens, J. D. Neill, Mr. and Mrs. Robinson, Mr. and Mrs. Joel Hodges, Mr. and Mrs. Claude McDougal, Mr. and Mrs. Rob. Thompson, Frank Jones, Mrs. J. J. Ham, Mrs. V. E. Dodson, Bill Lips, Mr. and Mrs. Ed Dewey and Mrs. Joe Smith, Mr. and Mrs. Don Moore, Charles Bell, Hudson, Mrs. Mary M. Buck, Mrs. Elmer Patterson, Roy Calvert and the hostesses.

Demonstration Freezing Slated

The homemaking department at Hereford High School will present a scene of a freezing demonstration at 2 p.m. Tuesday for home-making girls, their mothers and other interested persons, according to Mrs. J. J. Durham, home-making teacher.

Mrs. Jo Helen Calwell and Mrs. Dee Anne Crowley, home service advisors for Southwestern Service Co. of Amarillo, will give the demonstration, Mrs. Durham said. It will include the freezing of fruits and vegetables, baked goods, complete meals and party foods. They will also show how to wrap foods for freezing and present kinds of materials for wrapping.

Buryl Fish Takes ROTC Training

FORT HOOD, Tex. (AP) — Buryl G. Fish, 22, whose wife, Ruth, lives at 2432-8 21st, Lubbock, Tex., is receiving two weeks of ROTC summer training at Fort Hood with members of the Texas Technological College cadet program.

Cadet Fish, an agronomy major at the college, is scheduled to complete the training July 5. Fish, son of Mr. and Mrs. J. H. Fish, 200 Lake St., Hereford, is a 1953 graduate of Hereford High School.

Piano Students Present Recital

Judy and Deedie Kreighshauer, daughters of Mr. and Mrs. Harold Kreighshauer, were presented in a piano recital recently held at the home of their teacher, Mrs. Roy Calvert.

The program consisted of classical, modern and sacred selections by Bach, Beethoven and arrangements by Thompson, Schram, Weybright, Pestalozza and others.

A special vocal number, "The Muffin Man," was presented by Johnny and Randy Kreighshauer. An informal social hour was held following the recital when refresh-

ments were served to Mrs. Tony Albracht, Mr. and Mrs. John Albracht, Miss Judy Shulte, Mrs. Ada Neease of Pampa, Mrs. Bud Minor and Sue, Karen, Kay, Mona, Mary Virginia and Rita Albracht, the recitalists' parents and the hosts.

Woman Plan To Run Town

BUFFALO, W. Va., (AP) — Buffalo housewives aided by some — not all — of their husbands are on the warpath with a full slate of female nominees against perennial male officeholders.

"The weeds are over our heads, sidewalks all broken — things are

terrible," says Mrs. Norma Warner, who heads the slate of nominees opposing the administration of Mayor Vernon D. Pigg. "All we want to do is make Buffalo a better place to live," Mrs. Warner said.

"Last time there was supposed to be an election," said Mrs. Warner, "they just got together and appointed each other." Among the five women for council is Miss Caroline Frazier, a retired school teacher confined to a wheelchair.

She names among planks in the women's platform better fire protection, natural gas service, extension of telephone service and reduced water rates.

Business is like oil, it won't mix with anything but business.

YOUNG MODERNS

Summertime Offers Fun and Perils

AP Newsfeatures

Summertime for all its fun offers greater perils to sub debs than Pauline ever knew. It is a carefree season when im-

aginations run riot, and life is so casual that danger is overshadowed by palm tree and rose arbor. A wise girl anticipates these departures from the norm, always alert to behavior inconsistencies in friends and acquaintances. Girls who've encountered such difficulties during past summers offer these pointers to others:

1. Working away from home? Be choosy about all friends you make, particularly if your job is at a summer resort where unsavory types may look disarming. It is

best not to live alone when away from home, and most parents will make sure that you are set up with friends, a good family or a group of girls.

2. Proper dress is important. If you are out to get a man this summer, you are asking for trouble if you are bent on using the wrong tactics, such as too-revealing swim suit, plunging neckline dresses and play clothes that leave little to the imagination.

3. Like to bicycle? It's a good idea to make sure you have com-

pany before you go off on a jaunt, particularly if you are not too familiar with the neighborhood, you have chosen for cycling.

4. Pioneers are not all the insect kind. The boy who looks tame on the sofa at home may be a real idea to take a picnic with one or two other couples - preferably him.

5. The automobile is one of the greatest dangers to youth. It's a good idea not to ride with a hot-rod

group or a driver who is under the influence of alcohol. Make a rule never to ride in a car at night with some one you do not know well.

6. Conversation with a stranger should be limited to the necessity of the occasion, such as offering street directions or time of day. It's a good idea not to encourage friendship initiated in this manner.

7. Shrubbery is picturesque, but danger often lurks behind it. No matter how beautiful the scenery do not walk or hike alone in heav-

ily wooded areas.
8. It is a good idea to tell your parents what time you expect to be home and where you are going when you go out. If you are away from home and your crowd is planning anything unusual like a boat trip, be sure to inform your parents. They'll be keeping tabs on you in case something goes wrong.
9. Even if your best friend is going to do something you have your doubts about, don't go along with the idea. Lots of people have bitten the dust following the leader.

10. Avoid doing things that are out of your reach such as skin diving, pool diving, long distance swimming, just to keep up with the crowd. That's a sure way to get hurt.

INDIAN GIVER
BRIGHTON, Colo. (AP) — When District Judge Martin P. Miller ruled that four small boys were entitled to share the \$2,910 they had found in a vacant lot, there was only one other claimant for any of the money.

This was a woman who told the court one of the boys had given her little daughter a \$20 bill for a chocolate candy cigarette, but the sheriff later confiscated the money. She felt her little girl was entitled to it, but Judge Miller ruled otherwise.

Three birds which cannot fly are the emu, kiwi and ostrich.

If sold for the value of its chemical elements, the human body would be worth about 98 cents.

Miss Vonda Pitts (Angel Photo)

Miss Vonda Pitts, Mr. Finley To Be Wed September 1

Mr. and Mrs. Joe Pitts 317 Ave. H, are announcing the engagement and forthcoming marriage of their daughter, Miss Vonda Pitts, to Bob Finley, son of Mr. and Mrs. John Finley, 563 Miles Ave. The marriage service will be read September 1 in the Central Church of Christ of Hereford with

the Minister of the church officiating.

Miss Pitts is a graduate of Hereford High School and for the past six months has been employed as secretary at the Central Church of Christ.

Finley attended Hereford Schools and is presently employed at the Hereford Bakery.

SURPRISING RESULT

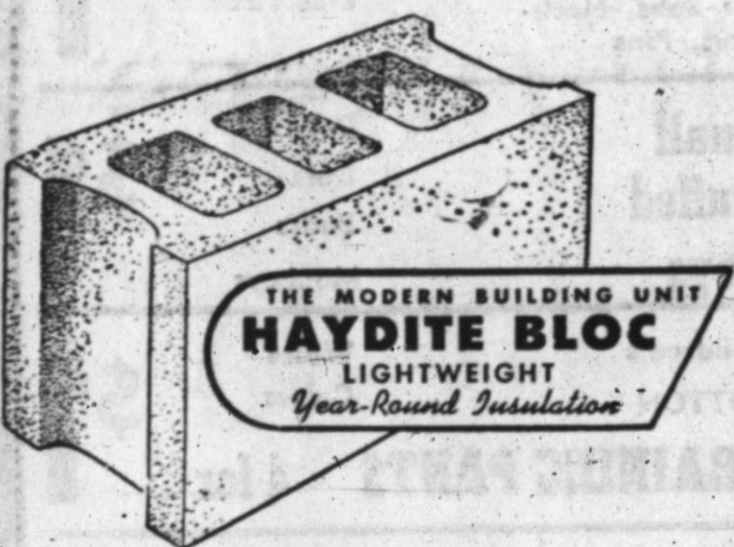

OSCEOLA, Ark. — Garner Robbins won his race for alderman against Tim Bowles - but not the way he expected.

After Bowles was declared the winner by six votes, Robbins filed suit, charging that the absentee votes were illegal.

Circuit Judge Charles Light let the absentee votes stand but declared Robbins the winner by 18 votes on the basis of a recount.

THE MODERN BUILDING UNIT
HAYDITE BLOCC
LIGHTWEIGHT
Year-Round Insulation

CROWE-GULDE

HAYDITE BLOCCS

have 10 Bonus Building Advantages no other block can equal:

- 1. LIGHTER WEIGHT—Makes possible reduction in dead load without sacrificing strength. Easy to handle—quick to lay.
- 2. STRENGTH IN EXCESS of normal requirements and local building codes. An average HAYDITE Blocc can support the weight of a loaded railway freight car weighing 72 tons.
- 3. FIRE RESISTANCE—Will withstand temperatures well in excess of 2,000 degrees F.
- 4. UNIFORMITY—Permits pattern work of unvarying accuracy and beauty.
- 5. MORE PAINTABLE—HAYDITE Bloccs take paint perfectly with no possibility of rusting or other blemishes bleeding through.
- 6. MORE ATTRACTIVE—Pleasing texture and natural gray color blend in beautifully for either modern or traditional architecture.
- 7. INSULATES ACOUSTICALLY—The unusual cellular structure absorbs noise to such a high degree that other sound insulating materials are usually unnecessary.
- 8. AVAILABLE—You can find right into a HAYDITE Concrete Blocc to save real time and money on many jobs.
- 9. DURABLE—HAYDITE Bloccs are concrete and multitude of tiny air cells in HAYDITE Bloccs are excellent insulators in summer and winter.
- 10. DURABLE—HAYDITE Bloccs are concrete and naturally are impervious to rodents, termites, rot and corrosion.

For details before you build, call or write for brochure.
* Remember—No Other Concrete Block Gives You

All of These Bonus Advantages

TAKES OATH—Judge Peñ J. Jackson, left, of Cleburne is sworn in as the Chairman of the new State board of Insurance in Austin. At right Chief Justice of the State Supreme Court John E. Hickman administers the oath to Jackson. The ceremonies were held in the Governor's reception room. (AP Photo)

The Justice Is Retired, But Routine Lingers On

ACTIVE RETIREMENT—Mrs. Stanley Reed, wife of the retired Supreme Court justice, presents a silver bowl to Mrs. Richard Nixon, at a Senior Congress Club luncheon. The Reeds are still active in Washington despite the justice's retirement.

By JANE EADS
WASHINGTON — Justice Stanley F. Reed stepped down from the U. S. Supreme Court last February after 19 years service but retirement has barely caused a ripple in his daily routine. "He goes over to his office at the court every day, even on Sunday," says Mrs. Reed with mild amusement. "He keeps the same hours. He doesn't work nights; that's the only difference."

In the old days, Mrs. Reed explained, the justice used to go back to the court at night unless she took him off to a social function. "I always thought the change from his work would do him good," she told me as we sat in the homey, antique-filled living room of the mid-town hotel apartment they have occupied for 27 years. The 73-year-old justice retired, his wife said, because he "thought the great pressure of having to read much on both sides before writing an opinion on a case before the Court was a little too hard on him."

could do more could be appointed to his place," she added. "He still reads a great deal, mostly in preparation for speeches he's making all over the country. Whatever he does he goes into in a big way. He's out of the house every morning by 9:30 and doesn't return until after 7 p.m., and he still walks to the court as he always did. He used to be a runner in his college days."

Under the retirement law, Reed is still a member of the court and subject to call to act as a judge in any federal court. At the court, Reed shares an office suite with Justice Sherman Minton, who retired in 1954. The Reeds, among the capital's most popular official couples, still keep up their active social life. Mrs. Reed has often been called the "Mona Lisa of Washington Society" because of her slow enigmatic smile. Her interests are centered around her husband, their sons and grandchildren. Both John A. and Stanley F. Reed Jr., are lawyers practicing in New York. Stanley has three youngsters, Stanley F. Reed III, 7, Gurnee, 3, and Harriett, 2.

Rebha Pinnell and Martin Cribbs Wed

Saturday at 4:30 p.m. Miss Rebha Joyce Pinnell, daughter of Mr. and Mrs. E. K. Pinnell, and Martin Cribbs, son of Mr. and Mrs. M. L. Cribbs of Wildorado, exchanged vows in the Adrian First Methodist Church with Rev. Johnnie Williams reading the double-ring ceremony.

The bride wore a white real silk frock, with a short train and self covered buttons down the back to the waist line. Long pointed sleeves covered her wrists. The sleeves and around the bottom of the dress was edged with tattering. For something old, the bride wore a string of very old pearls. For blue, she wore a blue garter and her fingertip veil of illusion and shoes were all new. For borrowed, she wore the wedding gown loaned to her by her sister-in-law. Her corsage was a white gardenia center, with peonies around the edge lying on a white Bible.

Miss Barbara Pinnell, sister of the bride, was maid-of-honor. She wore an ice-blue dress of crystalline with a high neck-line and covered buttons stretched down the front to the waistline. Her bridesmaids were, Mrs. Harold Stone, of Seminole, sister-in-law of the

sage of white carnations. After the wedding a reception was held in Fellowship Hall. The serving table was decorated with the bridesmaids flowers, white tapers stood at each end of the table, and the crystal punch bowl and dishes sat on one end of the table. Opposite the dishes was the wedding cake, two tiered with a miniature bride and bridegroom standing on the top. Mrs. Wayne Pinnell and Mrs. Donald Pinnell of Clovis, both sisters-in-law of the bride served

Art Invades Kitchens

NEW LOOK FOR POTS AND PANS—Black and white porcelain enamel cookware is decorated with game birds.

AP Newsfeatures

How kitchens have changed since the days when Grandma was a girl!

Color and design have invaded the modern kitchen, changing it from a strictly utilitarian work shop to the most cheerful room in the house. Gone are the dingy, dull pots and pans of a generation ago. Gone are the antiseptic white walls and appliances of the kitchenette era. Today's kitchens are designed with an eye to color as well as convenience. Walls may be mellow knotty pine. Appliances may be any color of the rainbow. And pots and pans can be works of art.

Kitchen utensils are kept on display these days, as part of the decorating scheme. Some homemakers like the warm gleam of copper pans on the wall. Other like the new decorated porcelain enamels, which now come in a wide range of colors sporting gay designs such as game birds, fruit and flowers.

Today's housewife may select porcelain enameled pots and pans to match her range, refrigerator and other appliances - pink, blue, aqua, yellow or even bright red. She can plan her own kitchen color scheme, and find all the utensils and appliances she needs in

the tones of her choice. No wonder today's kitchen is the favorite gathering spot for all the family, as well as the guests.

C. W. Quattlebaum in ROTC Camp

FORT HOOD, Tex. (AHTNC) - Charles W. Quattlebaum, son of Mr. and Mrs. Willie C. Quattlebaum, 407 E. 4th, Hereford, is receiving two weeks of ROTC summer training at Fort Hood with members of the West Texas State College cadet program.

Cadet Quattlebaum, a biology major at the college, is scheduled to complete his training July 5. He is a 1954 graduate of Hereford High School.

A LA ROCKETTE

CHICAGO (U) - Looking into his crystal ball, Don Roth, Chicago restaurant owner, says the restaurant of the future will serve meals from all over the world.

He says further that the meals will be prepared by famous chefs in gourmet capitals and sped by inter-continental rockets to your favorite restaurant in time for dinner. The diner, he says, will or-

How Can I?

Q. How can I exterminate ants?
A. Keep small bags of sulphur in drawers and boxes. Or dampen a sponge in a solution of sugar and water, put it in a saucer, and place near the haunts. It will soon be full of ants and can then be plunged into boiling water.

Q. How can I make a good furniture polish?
A. Mix equal parts of turpentine, spirit of wine, vinegar, and linseed oil. Shake well and do not use much at a time.

Q. Should the milk be hot or cold when used for mashing potatoes?
A. It should be hot. Lukewarm or cold milk will make the potatoes pasty and heavy.

Q. How can I prevent sunstroke?
A. The weakest part of the spine is at the back of the neck. When in danger of sunstroke see that the back of the neck is well protected from the sun's rays.

Q. How can I remove the scorching top or bottom of a cake?
A. Grate over it lightly with a nutmeg grater instead of scraping with a knife. This will leave a smooth surface for the frosting.

Q. How can I make sweet peas bloom well?
A. When planting sweet peas they should run north and south to make them bloom well.

Q. How can I prevent passersby from seeing into a house through the window screens?
A. If the window screens are painted on the inside with a thin white paint, it will not obstruct the view of the persons inside the house, but passersby cannot see within.

Q. How can I clean rubber raincoats?
A. They can be cleaned with lukewarm water and white soap. Wipe off with clear water and hang out to dry. Never use benzine or gasoline on rubber.

Q. How can I kill flies?
A. Place around the room several dishes containing a mixture of cream, ground black pepper, and sugar.

Q. What can be used for seeding cherries?
A. Try using a new hairpin, inserting the double end into the stem end of the cherry. This does the work quickly without crushing the fruit.

Q. How can I stiffen fine lace after laundering?
A. Use two lumps of sugar to a basin of water, instead of starch. It will make a much better body.

Q. How can I make a three-dimensional color television and watch it prepared.

STATELINE SPECIAL

Bellview Boys 4-H Club Meets

By MRS. C. L. HUTCHINS

The Bellview Boys 4-H Club met Monday night in the Bellview Sunshine Extension Club house for a regular meeting with five members present. Ralph Daughtrey, Carry County assistant county agent, Miss Marilyn Hutchins, local Junior Leader, and Mrs. C. L. Hutchins, assistant local leader also were present. Lucky Mitchell, son of Mr. and Mrs. Leonard Mitchell of Tucuman, N. M., was a guest. Marilyn Hutchins called the meeting to order and presided over the election of officers. Garry Saxton was named president; Don Cross, vice president; Victor Harrington, secretary and treasurer; Donnie Chandler, recreation leader and song leader.

Garry Saxton conducted the business meeting. Chandler led the group in singing the 4-H Club song and Victor Harrington led the group in 4-H Club pledge. Roll call was answered by the boys "Project Discussion."

Marilyn Hutchins gave a talk on "Fire Prevention is Year-Around Job." She stated each day there are 1,200 home fires, 107 barn fires, 31 deaths by fire. She gave pointers in fire prevention on electricity, lightning, flammable liquids and smoking. After her talk she also posted a larger poster on "Be Safe-Be Sure-Light Up For Safety" which stressed farm machinery safety by the use of reflector tape.

Don Cross gave a talk on "Safety With Farm Fencing". He gave seven safety suggestions to remember. The fences which safeguard crops, livestock and sometimes human life represent a substantial and profitable investment for American farmers. Building a fence is an important operation. It can be a dangerous one.

Ralph Daughtrey then showed the group a movie "Cutworm Control." The next club meeting will be held July 22, with Joe Burnett and Donnie Chandler as host.

The Bellview Sunshine Extension Club met Tuesday afternoon at the club house for a regular afternoon meeting with Mrs. Hershel Hughes as hostess. Ten members and three guests were present for the meeting. Mrs. T. E. Burnett, president, conducted the short business meet-

ing. Roll call was answered by "The trip I would like to make this summer." This was a very interesting part of the program for the afternoon. Mrs. Elmer Burnett, secretary and treasurer, gave both reports which were approved. Mrs. T. E. Burnett won the traveling gift.

The program for the afternoon was on "Purse Making" by Mrs. Herman Chandler of the Hollene Busy Bee Extension Club. She showed several purses which she had previously made from types of material to match different costumes. The purses were made from plastic, gingham and novelty weave. All these purses were draw string type. Each member was given a purse pattern and several purses were made.

Refreshments of assorted cakes were served with pop by the hostess to mesdames Clinton Burnett, Wesley Brown, Elmer Burnett, A. G. Campbell, T. E. Burnett, Rhone Hughes, George Pulliam, Gibbs Fucker, and Sterling Pulliam. Guests included Mrs. Herman Chandler, Miss Terry Potts of Canyon granddaughter of Mrs. Wesley Brown, Miss Jackie and Peggy Hughes.

Mrs. Ralph Northcutt will be hostess to the Bellview Sunshine Club Tuesday.

Quality has everything in its favor including the price.

NO HORSES
NORFOLK, Va. (U) - The Air Force this year ordered its planes to stay out of a 100-mile area around Louisville, Ky., at Derby demonstration at nearby Fort time. This followed the so-called Knox - an invitation which was Army "mistake" in inviting select-cancelled after some rhubarb - ed congressmen to a weapons about the timing.

Cherries Add Flavor To Dessert

BING CHERRIES add fresh flavor to vanilla ice cream dessert.

By CECILY BROWNSTONE
Associated Press Food Editor

Dark sweet cherries contribute their fresh flavor to this vanilla ice-cream dessert. Make it from scratch or from a mix; both directions follow.

Whether cherries are the Bing, Lambert or Royal Anne variety, they should be refrigerated and washed in cold water just before

using. Nowadays fruit-orchard people advise storing ripe cherries in plastic bags; they believe this treatment prolongs the fruit's keeping qualities.

CHERRY ICE CREAM DESSERT

Ingredients: Dark sweet cherries, 2 eggs, 1/2 cup sugar, 1/2 teaspoon salt, 1 1/2 cups milk, 2 teaspoons vanilla, 1 cup heavy cream.

Method: Wash and pit cherries; coarsely chop enough of them to make 2 cups. Beat eggs until they begin to get thick and are lemon-colored. Beat in sugar gradually until very thick. Add salt and heat with milk to combine. Pour into freezing tray and freeze at coldest setting. When frozen, remove to chilled bowl. Add vanilla and whip with rotary beater (hand-

Dimmitt Boys in Summer Training

FORT HOOD, Tex. (AHTN) - Bennie R. Gollehon and Jesse K. Fuller of Dimmitt are receiving two weeks of ROTC summer training at Fort Hood with members of the West Texas State College cadet program.

Cadet Gollehon, son of Mr. and Mrs. Robert N. Gollehon, is majoring in music at the college. He is a 1954 graduate of Dimmitt High School and a member of Kappa Psi and Alpha Sigma fraternities.

Fuller, son of Mr. and Mrs. Jesse B. Fuller, is a business administration major at the college. He is a 1953 graduate of Dimmitt High School.

The cadets are scheduled to complete their training July 5.

or electric) until light and creamy. Have cream whipped and fold into first mixture; fold in chopped cherries. Return to freezer without allowing to melt and finish freezing. Makes 6 to 8 servings.

QUICK CHERRY

ICE CREAM DESSERT

Ingredients: 1 1/2 cups dark sweet cherries, 1 package (4 ounces) vanilla flavored freezing mix.

Method: Wash cherries, pit and halve. Prepare mix according to manufacturer's instructions. Just before pouring into freezing tray, stir in cherries. Pour into tray and freeze immediately. Makes 6 servings.

KILL THOSE MOSQUITOES!

Many kinds of mosquitoes exist in Texas and can be a severe nuisance as well as carriers of diseases such as malaria and encephalitis. An outbreak of encephalitis (sleeping sickness disease) on the High Plains last year struck at least 262 persons, including 18 that were admitted to Deaf Smith County Hospital. A disease regarded by many persons as more deadly than polio, the threat of a recurrence of encephalitis has resulted in the City of Hereford, many individuals, and now the county, taking steps to control the mosquito menace.

The city has in use a new "chemical cannon" - a high velocity dust turbine - that is used nightly in dusting residential and business areas with BHC chemical. If weather conditions are good, each area of the city receives a dusting at least once a week. American Dusting Co. supplies an aircraft to dust Tierra Blanca Creek and two nearby lakes on request.

A number of individual farmsteads have been dusted by agricultural pilots on the request of the farmers who use chemicals extensively in protecting their crops against insects.

NOW, THE county commissioners are preparing an all-out campaign against the mosquitoes in scores of shallow lakes and water courses where they reproduce. Valis Schunter and his pilots have agreed to undertake the extensive project at cost, if entomologists advise that reasonable effectiveness can be gained.

But without the cooperation of every home and landowner in the area, the mosquito control program cannot be a success, "and half a program will be no program at all," warns the county commission.

HERE ARE recommendations from the state extension service as

HANDY "DUSTER" is turned against the eaves of this garage by Commissioner Massie, above, left, but he recommends using DDT in an emulsion as longer lasting here. Oil base sprays are more stable than chemicals mixed in water, but should not be used in spraying shrubs and other ornamentals where leaves might be burned by the oil.

STOCK TANK, left, gets treated by Massie with kerosene as a prevention against wigglers. Deep tanks, where wave action beats against the shore are seldom a source of infestation unless vegetation covers part of the surface.

CHEMICALS, like pellet being tossed below, can be used in stagnant ponds where wigglers are noted, or may become a problem, but check to make sure they are not toxic to any animals or fish that may inhabit the pond.

to action you can personally take to kill adult mosquitoes and to prevent their reproduction, to protect yourself and others:

1. Keep all weeds and unnecessary vegetative growth mowed. Weeds provide cover for all types of insects and later will be a fire hazard. Keep them down around houses, on vacant lots, along irrigation ditches, bar ditches, in pastures and anywhere that they exist.
2. Control mosquitoes in the home with a prepared household spray or aerosol bomb containing pyrethrins or allethrin, or apply a residual household oil spray of 5 per cent DDT, 2 per cent chlordane, .5 per cent dieldrin or 2 per cent malathion to dark secluded spots, under chairs, tables, beds, bookcases, in closets and behind pictures. Paint or spray malathion on doors and windows - DDT will also prove effective here.
3. "Bring the children in when the air is still and the mosquitoes begin to roam," advises Hugh Clearman, county agent. "If they, or you must be outdoors when the little buggers are buzzing, use a mosquito repellent in either lotion or spray form. Reapply it to exposed skin hourly."
4. Eliminate all standing water, if possible. Check ditches, surface lakes, fish ponds or ornamental ponds for wigglers. Don't forget those places where water drips and stands, as around faucets or wells. If wigglers are found, treat water surface immediately with nonleaded gasoline, using 2 to 4 ounces per 100 square feet. Use caution to prevent creating a fire hazard. DDT, aldrin or dieldrin can be dusted or sprayed over the surface to kill the wigglers, and would be advisable if gasoline would create a fire hazard.
5. Treat stock tanks with kerosene; other bodies of water with fuel oil or diesel oil. In tanks or lakes with vegetation, apply 9 ounces of oil per 100 square feet of water surface or 30 gallons per acre. With no vegetation, apply 2 to 4 ounces of oil per 100 square feet of water surface or 7 to 14 gallons per acre.
6. Treat stagnant water, where fish and livestock, do not present a problem, with 1 per cent emulsion or oil solution of DDT, chlordane, toxaphene, TDE or methoxychlor; 1 ounce per 100 square feet or about 10 quarts per acre of water surface. Use .5 per cent gamma BHC, dieldrin or heptachlor at the rates listed above. Repeat treatment as needed, usually at weekly intervals.
7. Spray livestock to prevent their being attacked by the mosquitoes. The chemical will eliminate their getting the "blood bite" required by mosquitoes before they can reproduce from this source and keep them from hiding or resting in the animals' hair. Use malathion or methoxychlor solutions for treating dairy cattle. Either chlordane, DDT, toxaphene, BHC or lindane can be used to treat beef cattle if not applied within 30 days before they are to be slaughtered.
8. Chicken houses are a favorite resting places, chicken blood a favorite "meal" for mosquitoes. Use DDT to spray or dust chicken houses, barns and under the eaves of buildings.
9. Spray, being careful to choose a prepared emulsion labeled safe for vegetation, or dust with DDT under and around trees, flowers and other vegetative growth around your house. Repeat every two weeks, more often if mosquitoes are observed around the premises.

AERIAL DUSTING, above, is being used this season by many Hereford area farmers as a means of protecting not only their crops but their homes from insects. Deaf Smith County officials are considering a county-wide aerial attack against mosquito breeding places

in shallow lakes, but emphasize that control will only come when every resident works to kill the adult mosquitoes and to prevent their reproducing in stagnant water. (Staff Photo by Roy Clark)

THE SUNDAY BRAND

Hereford, Texas, Sunday, June 30, 1957

Section Three

"DAISIES CAN BE DEADLY, as hiding places for mosquitoes," warns County Commissioner Otto Massie, who here illustrates some of the protective measures that individuals should take to rid their property of mosquitoes. DDT

dust, in the hand pump device he is using, is effective as a protection for vegetative growth around homes. It should be applied about every two weeks.

HERE ARE recommendations from the state extension service as

HANDY "DUSTER" is turned against the eaves of this garage by Commissioner Massie, above, left, but he recommends using DDT in an emulsion as longer lasting here. Oil base sprays are more stable than chemicals mixed in water, but should not be used in spraying shrubs and other ornamentals where leaves might be burned by the oil.

STOCK TANK, left, gets treated by Massie with kerosene as a prevention against wigglers. Deep tanks, where wave action beats against the shore are seldom a source of infestation unless vegetation covers part of the surface.

CHEMICALS, like pellet being tossed below, can be used in stagnant ponds where wigglers are noted, or may become a problem, but check to make sure they are not toxic to any animals or fish that may inhabit the pond.

USE SPRAYS, either chemical or recommended types of petroleum to treat shallow bar ditches and other small, weed or grass-infested water holes, recommends Massie. Specific and proven control methods are given above. Farm-type spray rigs, the big ones that are towed behind tractors or mounted on trucks, would do this sort of job more quickly and efficiently than a hand rig. Kerosene, diesel oil or non-leaded gasoline can be used effectively on ditches, but caution should be used to prevent creating a fire hazard. BHC, dieldrin or heptachlor will prove effective, too, in killing wigglers in ditches. (Staff Photos)

Mrs. Craig Johnson Favored At Farewell Gift Courtesy

Mrs. Craig Johnson, who with her family has moved to Canyon, was favored at a gift courtesy given in the home of Mrs. Bill Stanford Thursday afternoon. Other hostesses were Mesdames Hugh Clearman, Gid Brown, Kenneth Weaver, Jimmy Bownds, Gerald McCaskill, and L. J. Jones.

The refreshment table for the come and go affair was laid with a pastel blue cloth and centered with an arrangement of Peace roses. Appointments were in crystal.

Mrs. Hugh Clearman presided at the punch bowl.

A shower of gifts was featured in appreciation from co-workers in the Woman's Society of Christian Service of the Methodist Church and other church and club activities. Many who were unable to attend the party sent gifts.

Attending were Mesdames Fred Cunningham, Charley Seed, Gerald Hale, Arthur Dean, Bill Bradley, Ralph Gragg, Richard Winget, Don Martin, Wayne Edwards, A.

T. Mims, T. J. Parsons, R. R. Wills, Grant Hanna, Colby Conkright, R. L. McAnally, Ronald Fuhrman, the honoree and the hostesses.

Craig has been head of the industrial arts department in Hereford-High School for the past four years and will serve as an associate professor in Industrial Art at West Texas State College.

Dessert Bridge Entertains Club

Mrs. Neill Cooper was hostess at a dessert bridge party for her afternoon bridge club Thursday at 1:30 p.m. Prizes as score awards were presented to Mrs. Charley Seed and Mrs. Lloyd Sharp.

Other players who attended the party included Mesdames Dudley Rayne, Don Little, Charley Hill, J. H. Early, Robert Lemons and the hostess.

Miscellaneous Showers Given To Compliment Brides-Elect

Two brides-elect who will be married in a double ceremony on July 6 were honored recently at miscellaneous showers.

Miss Rose Stephan, daughter of Mr. and Mrs. Moody Stephan of the Progressive community, who will become the bride of Arman 2/c Dale Wright, son of Mr. and Mrs. Coleman Wright, 216 Ave. H, was favored at an informal evening affair given at the home of Mrs. Alvin Williams Thursday evening with Mrs. Milford Grisham and Mrs. Neely Culp serving as assistant hostesses, and presiding at the refreshment table.

The refreshment table was laid with a white linen cloth and centered with an arrangement of red rosebuds. The three tiered bridal cake was topped with a miniature

bridal couple. Approximately 35 guests signed names in the guest book.

Miss Gwen Wright, daughter of Mr. and Mrs. Coleman Wright, 216 Ave. H., who will marry Arman David Self, son of Mr. and Mrs. A. J. Self, N. Blevins, was favored at a miscellaneous gift party held in the home of Mrs. George Hudson Tuesday evening with Mrs. H. V. Fields assisting as hostess.

Tiny flower covered parasols decorated the refreshment table which was laid with a lace cloth over orchid. Pink and orchid flowers were used on the table and about the house. Mrs. Hudson and Mrs. Fields presided. Thirty guests attended.

GARCIA NEWS

Rain Covers Small Area

By MRS. S. N. THWEATT
The rain Saturday evening didn't cover a very large space. Mrs. Ruth Coleman had rain on the north half of the Jones section. Pat Webb received rain on the north side of his place. Frank Ford and Bill Davis received better than an inch.

Mattie Lue Hagan of Levelland is visiting in the home of the S. N. Thweatts. She and Mrs. Thweatt are sisters.
Mrs. N. A. Brown, Mrs. J. E. Rouse, Mrs. S. N. Thweatt and Mattie Lue Hagan attended a council meeting in Hereford Monday.

The Messinger H. D. Club will meet Friday at 2:30 p.m. in the home of Mrs. W. D. Howard. The Walcott 4-H girls will be guests.

Attending the dress review at Hereford recently were Mesdames Bruce Coleman, N. A. Brown, Ernest Brown, E. M. Jack, Joe Brown, J. W. Rouse and Elmer Northcutt.

Mrs. D. C. Coldiron and boys, David and Ronnie, Amarillo, are visiting Mrs. Coldiron's mother, Mrs. Ruth Coleman.

Mr. and Mrs. Joe Brown visited Mrs. Brown's brother, David Busby of Brownfield Saturday night and returned home Sunday by way of Lubbock.

Mrs. Josie Busby returned home with them. Mrs. Busby, mother of Mrs. Bruce Coleman, is visiting in the Coleman home.

N. A. Brown cut a load of wheat Sunday but found it a little green. S. N. Thweatt pulled his combine into the field Tuesday afternoon on the Thompson place north of Boot Leg.

Piano Recital Is Scheduled Tuesday

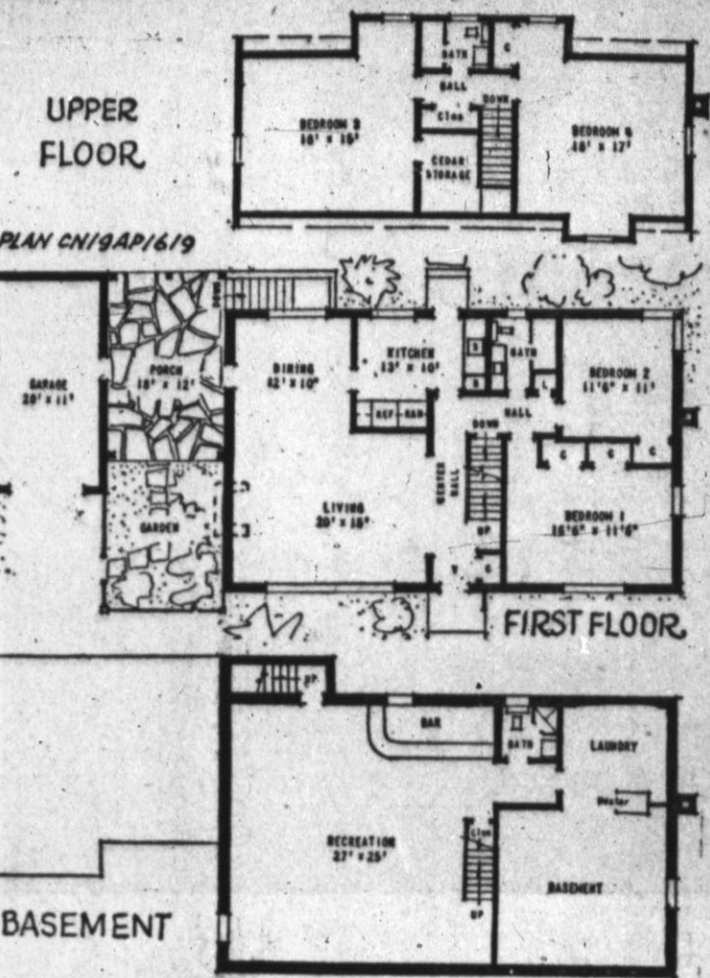

Mrs. Sam Long will present her piano students in a recital Tuesday at 8 p.m. at the Temple Baptist Church.

Students participating will be Dolores Andress, Jackie Andress, Ada Mae Bettis and Dianne Kroll.

PRESLEYANA
OKLAHOMA CITY — Elvis Presley's fame even has filtered down to the diaper set.

Jackie Rodgers, 2-year-old daughter of Mr. and Mrs. O. Rodgers, went with her parents to a restaurant and ordered "a hound dog and malt."

HOMES FOR AMERICANS

LARGE DIMENSIONS, particularly in the formal living areas, make this a home for easy-living. A fireplace can be added to the L-shaped living-dining area and on the expansion floor upstairs two airy bedrooms can be added whenever you choose, with a second bathroom and closets to spare. It is Plan CN19AP1619, by Lester Cohen, architect, Architects Home Plan Bureau, Box 141, Bethlehem, Conn.

CUBAN OIL
HAVANA, Cuba — Cuba's infant oil industry is going ahead rapidly, but it still looks like a long time before the country can produce enough to satisfy domestic demands.
The 1956 production was 40 per cent above that of 1955. But the output of 540,000 barrels last year was just enough to meet nine days of Cuba's domestic consumption. Ten million dollars were spent on oil exploration in 1956, compared with \$7,500,000 in the preceding year. Cuban and American companies are leading the search for oil.

PROGRESSIVE NEWS

Residents, Relatives Swaps Visits and Talk

By MRS. IRA RICKETTS

Mr. and Mrs. Walter Huntley of Dumas and their daughter, Mrs. Geraldine Rhodes and daughters of Pine Bluff, Ark., spent Friday with Mr. and Mrs. V. E. Dodson. Mrs. Huntley is a sister of Mrs. Dodson. Kay Lynn and Betty Mae Scott visited with the Rhodes girls in the afternoon.

Ralph and Fred Ricketts of Grants, N. M., spent Friday night, Saturday and Sunday night with their grandparents, Mr. and Mrs. Ira Ricketts.

Shari Carmichael attended a slumber party at Janis Higgins' home Friday night.

C. V. Burges is having to spend several days in the local hospital. He seems to be improving at this time and hopes to return home in a few days.

Janet and Jeffery Ricketts of Carlsbad, N. M., spent last week with their grandparents, Mr. and Mrs. Guy Lawrence.

Mrs. Taft McGee and Judy visited Joan in Lubbock Tuesday.

Mary Beth Ricketts of Grants, N. M., spent several days last week visiting in the John Hunter home.

Mr. and Mrs. Jim Ricketts, Mary Beth, Ralph and Fred returned to their home in Grants Sunday afternoon after being here to attend the wedding of Albert Ricketts and Jean Glass. They also spent a few days visiting relatives and friends.

Mrs. P. L. Carmichael and Shari spent Monday in Summerfield with her father, W. G. Harris.

Mr. and Mrs. Herman McIlwain and daughters, Glenda, Patricia and Martha of Hale Center were Sunday dinner guests of Mr. and Mrs. T. J. Parsons and family.

Mrs. Stacy Scott, who has been spending some time with her daughter, Mrs. V. E. Dodson and husband is in Canyon for part of the summer with another daughter, Mrs. D. R. Weaver and family.

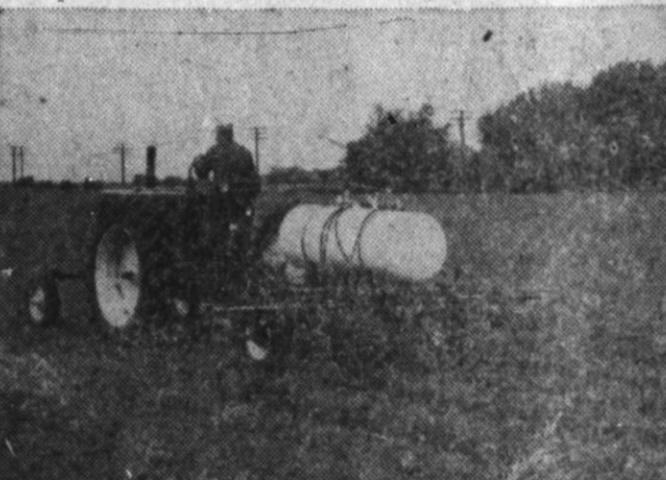

Mr. and Mrs. Jim Ricketts, Mary Beth, Ralph and Fred and Mr. and Mrs. Forrest Ricketts, Janet and Jeffery were Sunday luncheon guests of Mr. and Mrs. Ira Ricketts.

Mr. and Mrs. Port Miner of Kankakee, Ill., spent Tuesday night with Mr. and Mrs. H. L. Hershey. Mrs. Miner is Mrs.

Mrs. Murrell Whitaker of Amarillo was here Tuesday to attend the funeral of Mrs. Earl Phillips and visited with Mr. and Mrs. V. E. Dodson.
Ken Carmichael of Sudan, N. M., spent the weekend with his parents, Mr. and Mrs. P. L. Carmichael and family.
Mr. and Mrs. Ira Ricketts visited with Mrs. Ray Hershey Sunday afternoon.
H. V. Lee of Amarillo was a visitor in the Virgil Dodson home Tuesday.

For increased profit per acre...

SIDE DRESS ROW CROPS WITH NITROGEN

Corn needs extra nitrogen during the critical growth period from the time plants are knee high through the grain forming stage. For example, an acre of corn uses nitrogen at the rate of 4 pounds a day during the peak growth period.

So, side dress your corn and other row crops now, to be sure they get the nitrogen needed for higher yields and increased profit per acre. See us today about Phillips 66 Agricultural Ammonia, the 82% nitrogen fertilizer that row crops need.

You Can Afford A Fur Coat

BUDGET SWANK—This handsome casual coat is made of spotted Labrador hair seal, double-breasted and styled for petite figures.

FUR POLO COAT—Here's a coat that looks like a million for a penny-bank price. It's white sheared rabbit, processed to look like bleached beaver and styled with the precise tailoring that lends distinction to fur or fabric. Roomy, casual and smart, it is styled for the petite woman.

AP Newsfeatures
There's something about a fur coat that makes women dream and scheme. A woman who doesn't have one is likely to feel underprivileged, and a woman who does enjoys a fine sense of well-being and pride.

factory and design. Says J. George Greenberg, executive manager of the Associated Fur Manufacturers: "There are no 'neglected furs' any more. The industry is making history with new processes which put luxury furs within reach of everybody."

Time was when furs were for the privileged few, but times have changed. Today there's a handsome fur coat to fit every budget, thanks to recent advances in the techniques of fur breeding, manu-

You don't have to wear mink to be pampered this year. New budget-priced fur coats include such pelts as: muskrat dyed to look like Alaska seal; American broad-tail, soft and silky as the expensive Russian variety; Persian lamb in improved new light-weight lustrous varieties; sheared raccoon, sheared fox and even rabbit dyed to look like anything from chinchilla to ermine.

For the college girl there are gay new dyed furs in all colors of the rainbow, employing such furs as mole, muskrat, broadtail and rabbit. New processes make them soft, light-weight, long-wearing and handsome. New styles run to simple lines, such as back-belted polo coats and understated Chesterfields, as well as many varieties of the jacket, from bolero to cardigan.

On March 21 and September 23, day and night are of equal duration in every part of the world.

POTPOURRI

Three Attending Lions Convention

By MARSHA COCKRELL
Mr. and Mrs. D. C. Martin and Judge Fred Baird flew to San Francisco, Calif., Monday for the national Lions convention. Martin is local president and Baird is secretary-treasurer. The Martins' son, Don, is staying with the Cavthon Bryants while his parents are gone.

Guests of Mrs. Bess E. Givan last week were Mrs. Bertie L. Stuart of Shelbyville, Mo., and her granddaughter, Mrs. Evalyn Thomas of Coffeyville, Kan. Mrs. Stuart is Mrs. Givan's sister.

Bill Callaway, Burk Inman and Jerry Malone are taking six months of training with the Marine reserve in San Diego, Calif. After the training they plan to attend college. All three are 1957 graduates of Hereford High School.

The J. E. Beyer family returned Friday from a week's visit with the Beyers' son in Hutchinson, Kan. They reported that a tornado hit a block away from the home where they were staying.

Ronald Fuhrman and son Stanley left last Sunday for Caldwell, Kan., to visit Ronald's father, who is ill. They came back Wednesday.

Margaret Boomer and Carolyn Aven left Friday for Camp Truchas in the Tres Ritos Valley near Vadio, N. M. Margaret is helping the camp this summer, and Carolyn is attending.

Mrs. and Mrs. Harry Schulz were honored with a housewarming Thursday night. After several games, refreshments were served. Present were Mr. and Mrs. Harold Hawkins, Mr. and Mrs. Clarence Schulz, Mrs. R. W. Botsford, Mrs. May Curry and Rose, Mrs. O. R. Neel and Lillith, Mr. and Mrs. Mark Matthews, Ronnie and

Connie, Mr. and Mrs. Leon McCutchen and children, the Rev. and Mrs. V. W. Marcontell and David, Laura and Minnie Abney, Mr. and Mrs. E. M. Rice, Mr. and Mrs. Ronald Matthews, Mrs. Less Thompson and Mr. and Mrs. C. W. Pierson and children.

The Darrell and Lyle Blanton families have visitors this week from Belle Fourche, S. D. They are Mr. and Mrs. Bob Steen and son Mike, who arrived Thursday. Another visitor from Belle Fourche is Judy Reed.

Ellsabeth Brummer from Sweden, exchange student at Hereford High School the past term, left here Friday to go back home. After meeting other exchange students in Amarillo, she is touring the United States with them before sailing for Europe. States they will visit include Oklahoma, Illinois, Indiana, Michigan, New York and Pennsylvania. The will meet President Eisenhower in Washington D. C. and will spend five days in New York City, staying in homes of an Army camp.

Their ship sails July 26. Ellsabeth will arrive in Rotterdam, Holland, on Aug. 3 and will be in Sweden later in the week.

Mr. and Mrs. Bill Lenderman left Monday for Dallas where Mrs. Lenderman was to have a medical checkup. They are expected back today.

Mrs. S. O. Wilson was called to Clovis Wednesday morning because of the serious illness of her brother.

Nancy Cockrell was on the committee that met in Levelland Friday and Saturday to plan recreation for the Northwest Texas conference Methodist assembly, July 8-13. She is fellowship

chairman on the conference council.

Mr. and Mrs. A. H. Davis have returned from a two weeks vacation trip to Wichita Falls, Marlin and Hillsboro where they visited relatives. They were accompanied home by a sister-in-law, Mrs. Buri Davis of Hillsboro, who will spend several weeks with Hereford relatives.

Mr. and Mrs. Walter Parks of Morgan, Tex., were guests over the weekend with his sister, Mrs. Hardy Benson, and family. They were accompanied here by their son and family, Mr. and Mrs. Walter Parks Jr. and children of Meridian. While here the Bensons accompanied them on a trip to Boys Ranch.

The visitors left Wednesday on a vacation trip to points in Colorado, planning to stop at the Carlsbad Caverns on the return trip.

Mrs. Ada Neease has returned to her home in Pampa after spending a month here with her daughter, Mrs. Roy Calvert.

Mr. and Mrs. Jimmy Mercer and Ann left Saturday for Hayward, Calif., to visit her sister and family, the Arthur Housleys. They also plan to visit Disneyland and Tijuana, Mexico, on the two-week trip.

LOW BLOW
STERLING, Colo. (AP) — Lloyd Jensen, band director at Sterling High School, announced the next number during a practice session. Trumpet player Bob Pass whirled around toward the instructor and exclaimed: "Holy Cow! That's what I was playing the last time."

Storage Facilities Advised in Utilitarian Living Room

Utilitarian living rooms contain one built-in hazard — every member of the family tends to bring his pet project or hobby in there, since he can't do any real harm to it.

From a "togetherness" standpoint, this is fine. But from mother's viewpoint it's another story. Too often the clutter and confusion is left in place when the hobbyist is interrupted, a situation which is especially undesirable if friends unexpectedly drop in.

There's an answer to this problem, however — storage facilities so that each member of the family can whisk his hobby out of sight when the door chimes sound.

Generally, the handiest place to turn for storage is to the walls. And the best wall to use is one space and which is in a corner away from traffic.

Some of the best storage walls combine concealed and open storage. A typical unit would contain a number of open shelves sufficient to handle a fairly complete library. Surrounding the shelves would be the concealed storage units.

Some persons prefer to carry the business of concealment as far as possible by eliminating any visible hardware and making the storage

space look like a solid paneled wall. There's one thing to remember about storage facilities. If you have valuable equipment such as films, records, hi-fi units, etc., place it high enough on the wall to keep it above the reach of small children. You might even have a secret latching device.

HOME REPAIR

Restoring Finish

By ANDREW C. LANG

RESTORING FINISH

DO... restore a shellac finish by cleaning the surface first with a cloth dampened in turpentine in order to remove any old wax or dirt.

DO... mix two parts of paraffin oil with one part of white shellac, dampen a steel wool pad with the mixture and rub with the grain, keeping the pad in constant motion.

DO... wipe the restored finish with a lintless cloth and apply a coat of wax.

DO... if you aren't sure whether the original finish was shellac, wipe a small hidden area of it with denatured alcohol — which will soften shellac but have no effect on other finishes.

DON'T... forget that the above instructions are for restoring a shellac finish and not for a complete refinishing, which is necessary if the old surface is cracked or chipped.

DON'T... wash a shellac finish with either water, which may turn it white, or alcohol, which will soften it.

DON'T... use shellac which has been around the house for a year or two, as it deteriorates with age, even when you think the container is completely sealed.

DON'T... apply shellac to wood that is damp or when it is raining, or when the humidity is very high.

The human heart rests about eight-tenths of a second between each contraction.

It's a dear bargain to buy insurance from the "sell 'em and forget 'em" agent who doesn't bother keeping a professional eye on your constantly changing insurance requirements.

We have a bunch you'd rather BUY FROM AN AGENT

who takes a personal interest in you and your family, who takes the time to review your needs periodically so that you never have too little — or too much — insurance.

That's how the Agency conducts its business.

City and County Leaders Show the Way; Let's Help

"One case of sleeping sickness this summer will be too many!"

This was the declaration Wednesday night of Otto Massie, county commissioner. It reflects the thinking of our county commissioners and city commissioners.

If each individual would only display the concern of our local officials, then take the necessary action to see that the premises he controls are properly treated to kill the mosquitoes and their larvae we—you and I—could breathe a lot easier.

The action last Tuesday of County Health Officer Dr. R. R. Willis in declaring a state of emergency in Deaf Smith County should focus everyone's attention on the mosquito menace.

If not, action promised by City Manager Dudley Bayne to consist of enforcement of the city ordinance providing that property within the city limits be kept weed and junk free may bring some reluctant property owners into line.

The problem of mosquito control, because mosquitoes are the pests that now pose a menace to the health of the community, must necessarily be an individual as well as a community and county-wide project. "A project that is only half-successful will be a complete failure in this instance," duster pilot Hollis Schunter advised the county commissioners during a special meeting Wednesday evening.

What will failure mean? We, no one can rightly say. Encephalitis (sleeping sickness) outbreaks in recent years have occurred just twice in Texas. But due to the lack of research and information regarding the disease and the causes for its outbreaks, there is reason to fear that the High Plains may be in for a second year in which many will be stricken. Last year, 262 cases of sleeping sickness occurred in the irrigated High Plains area, according to the state board of health's reports. Fifteen cases were in Deaf Smith County. Eighteen cases were treated at Deaf Smith County Hospital. One death was attributed to the disease here.

The effects of the disease are not too widely publicized. Reports we have studied from past years indicated that 50 per cent of the sufferers showed complete or nearly complete recovery. But 25 per cent were affected permanently, their mental faculties impaired to varying degrees. And 25 per cent died.

Medical science has as yet been unable to develop cures for, or inoculations against the disease. The low death rate experienced last year on the High Plains indicates, however, that our doctors are able to reduce the death rate below that of years past.

Laymen who last year observed encephalitis sufferers are particularly concerned about preventing any recurrence of the disease outbreak.

"I'd much rather take my chances with polio," is an expression we have heard several times from persons acquainted with the effects of both that dread disease and the little known encephalitis.

We feel that encephalitis—mosquito-borne threat can be controlled here. It will be up to all of us to do everything possible to rid the area of mosquitoes.

The county is presently badly infested. Most areas within the city have experienced good control due to the dusting program undertaken by city officials and employes. Our county commissioners now propose chemical treatment of the many lakes and few streams that serve as prime breeding places for the insects. While that project will prove expensive, it should help. Its effectiveness, however, will depend on our farmers watching their bar ditches and other points that might serve as breeding places for mosquitoes.

Its effectiveness, too, will depend on city residents and our neighbors on the farms making sure that no breeding, no resting, no hiding places exist for the dangerous pests.

The Brand from time to time will detail those control measures recommended by qualified authorities. Most retailers of insecticides will be able to make recommendations as to their most effective use.

Our city and county officials are doing their best to emphasize the problem and to exercise the controls that are within their means. The rest is up to you and me.

No Newspaper Is Better Than The Place It Serves

First place in the General Excellence division of the National Editorial contests, is an honor which reflects exceptional credit to The Hereford Brand—your hometown newspaper since 1901. Unquestionably, the plaque, despite its actual small value, is a memento which will ever be treasured within the organization.

As we have pointed out before, however, a newspaper cannot be any better than the community which it serves. Its most severe critics are the men and women who pay their nickels and dimes to read the paper, and its direct sponsors are the advertisers who pay their money to spread their wares before you each issue.

It takes a lot of people and a lot of talent to compile and present the contents of a newspaper. These people—the staff—are justly proud of the General Excellence award which, in effect, says they are doing a good job—perhaps a little bit above the average. It says the readers are getting a little bit better news, possibly a little bit better written. It also says that the advertiser has a medium, likewise above the average; a medium which should bring him a little surer and better results.

When you analyze these things, however, they must become secondary. Without progressive, ambitious merchants, the advertising staff could not function efficiently. Without educated people, interested in their home community, circulation would be nil. Without broadminded readers, the editorials would create riots. Without friendly news tips and general cooperation, the news department would cease to function.

Few newspapers, including The Brand, live up to the obligation to their community. On the other hand, we repeat: "No Newspaper Can Ever Be Better Than The Community Which It Serves."

If The Brand has gained recognition, it is primarily because Hereford is a good town, populated with wonderful citizens and served by progressive merchants. The opinions of these people are the ones which really count. Certainly, we are proud of the national recognition, but we are far more proud to be recognized and accepted as a part of the community and its way of life. This, we believe, was the ultimate aim of the founders of The Brand, when they adopted the slogan, "Your Hometown Newspaper" back in 1901.

FACILITIES of the new Children's Wing at Deaf Smith County Hospital proved their value recently when they were pressed into service to care for the four Noyes children, their mother and grandmother, all of Tulsa, who were injured in a car-truck accident near Summerfield on June 18. The care and treatment of Duane Noyes, 6, above under oxygen tent, has involved the use of some of the hospital's most modern equipment. Treatment of his three-year-old sister, Brenda, below, right, includes the use of modern traction devices to aid in the healing of a broken leg.

QUESTION OF THE WEEK

Mosquito Control Program Is Given Full Support

What do you think of the city's work in controlling mosquitoes? Or the commissioners court's new proposal for a county-wide mosquito control program? Do you feel that individual homeowners will do their part in treating their premises to eliminate possible breeding or hiding places for mosquitoes?

IRVING ALEXANDER—I think they're doing an excellent job. We have less mosquitoes this year, and I thought we would have more because of the heavy rains. I think they are to be congratulated because their work is a great help to the people of our town and county. The homeowners certainly should do their part and there should be a heavy fine for those who don't.

MRS. HOWARD SCOTT—As much as I know about the program, I think it's good. We are doing our best and I think those who are studying the problem will do as effective a job as they can. I believe the homeowners will do their part. Surely we'll do all we can to protect our families.

MRS. GLEN RUTTER—I think the county-wide program is a very good and will help a lot. I don't know if other homeowners are treating their own premises, but we have been spraying around our home.

MRS. J. W. THOMASON—The mosquitoes are really bad around here. I think it would be wonderful if we could find some way to control them. We plan to get rid of the weeds around our place, and one of my neighbors said they are using hand sprays to help control the mosquitoes.

MRS. C. F. MOORE—We definitely need the control program. I think the homeowners will do their part—we've been working on ours. I think if everyone will take a personal interest in their own property, I see no reason why our town shouldn't be clean.

MRS. WAYNE STARK JR.—I definitely think the program is good. I hope that the individual homeowners will do their part.

MRS. WILLIAM DAMERON—I think it is an excellent idea and one that needs to have the full cooperation of everyone in the city and county for its carrying out. I think the homeowners will do their part if they are well informed about what they should do. I don't think we know enough about what should be done and we need a lot of advertising such as editorials in the paper to let us know exactly what we should do to help in the program.

the healing of a broken leg. The older boys, Dwight, 10, left, below, and Steve, 12, are able now to leave their rooms to enjoy the comforts of the solarium and occasionally to relax on the well-kept hospital lawn, as shown here. Doctors and officials of the hospital staff report that several other youngsters have been under care in the new wing at the same time as the Noyes children. Hospital staff members and those persons who contributed to the building of the Children's Wing may take pride in providing excellent facilities here for the injured and sick.

COIN COLLECTORS
DILLWYN, Va. (AP)—Yeggs who robbed a safe may attract some attention if they try to dispose of the loot.

The haul included a set of Cuban coins, several United States 2-cent pieces, some nickels thicker than those in use today, a number of large U. S. pennies, 100 Indian head pennies and about 20 very old silver dollars.

C. I. Poole, owner of the general merchandise store which was robbed, valued the odd coin collection at \$200.

ROUGH TIME
ANADARKO, Okla. (AP)—Sheriff Ty Yount tried to figure out where a robbery suspect would be hiding, so he took to the back roads and spent a bumpy and fruitless afternoon.

The suspect was caught at the same time - on one of the smooth highways.

NO NUDES
TAMPA, Fla. (AP)—At 65, Paul Hubbard claims he's painted more barroom murals than any man alive. In fact, he's been called the Barroom Michaelangelo. But he's never painted a nude above a bar. "Just beautiful scenery - outdoor scenery, I mean. And they end up liking it that way," explains Hubbard who specializes in pastoral scenes or maybe water pictures with a swan or two thrown in for a bonus.

Panhandle Paragraphs

MOSQUITO WAR PROGRESSES

Chemical war against mosquitoes progressed recently over about one-third of Parmer County in the Hub and Lazbuddie communities. About 46 farms were sprayed from the air and 16 others signed up for the attack to come to their places, according to Elvie Jennings of Benger Air Park. A mixture of benzene hexachloride and DDT, one and one-half gallons diluted with 10 gallons of water, is being used. More persons are expected to contact him to arrange for the aerial applications, Jennings said.—THE FRIONA STAR.

HAIL DAMAGES WHEAT

Heavy winds, rain and hail lashed Castro County early last week to knock out an estimated ten per cent of the county's wheat production for this year. Hail damage was heaviest in the east half of the county, according to agricultural experts who made spot surveys. Rainfall ranged from .50 inch to more than three inches and strong winds from the south caused considerable damage to near-ripe wheat. Castro County Agent Marvin Simms estimated that about 20,000 acres of farm crops were affected by the hail, wind and rains. There are about 500,000 acres in cultivation in the county.—THE CASTRO COUNTY NEWS.

600 PERSONS X-RAYED

Around 600 persons were x-rayed in Panhandle last week by the State Health Department mobile x-ray unit. The Carson county TB Association arranged for the x-ray unit visit to the county and the Carson county Red Cross, assisted by members of the Carson County Home Demonstration Council, made the blood typing program possible.—THE PANHANDLE HERALD.

The BOOTLEG Philosopher

Editor's note: The Bootleg Philosopher on his bindweed farm must figure he's going to have something to sell this fall, his letter this week indicates.

Dear editor: I was out here on my farm yesterday afternoon watching things grow by leaps and bounds, you know, one of the advantages of farming is that a crop will grow even while you're sleeping, which is the ideal way to make money, although you have to remember the price can drop while you're sleeping too, and it's nothing to wake up some morning and see your crop an inch taller and the price a dollar lower, but since things were growing pretty good I got to wondering what prices will be like this fall.

Consequently, it was with considerable pleasure when I read in a newspaper I'd been carrying in my pocket for a couple of days where the United States Chamber of Commerce had collected a bunch of experts to advise on business trends for the rest of the year.

And according to the experts, and they had 'em from all fields, wages and prices are going to continue to climb, retail business is going to increase, construction will climb and things will keep booming, in fact, 1957 may be our best year.

But what interested me most was the estimate on the farming situation made by an economist for the outfit, after a survey of the whole nation.

According to the article, he "expressed hopes that farm prices will rise along with other prices."

Well, it's a funny thing, I've been hoping farm prices would rise every year all my life, but I've never considered myself an economist or any other kind of expert. However if the best an economist can offer after a careful analysis of the agricultural situation is come up with the hope in the summer that prices will be higher in the fall, then I could hang out my shingle along with the best of them. I'm an economist too.

In fact, come to think of it, I suppose most farmers are automatically agricultural economists, as I've never run across one yet who wasn't hoping he'd get a little more for his stuff than he suspects he will or past history tells him he won't.

Experience is a fine thing, but if you haven't got the knack of forgetting some of it, you ain't cut out to be a farmer.

The price of nearly everything is going up, according to the experts, but about all they can offer the farmer is an increase in hopes, and most farmers already have plenty of that, or they wouldn't be going up one row and down another.

Yours faithfully,
J. A.

Hemisphere Women Gain Rights, Now Being Trained To Use Them

By JANE EADS
WASHINGTON — Women in all but one of the 21 American republics have won political, economic and social rights. Now they must learn to use them.

step is to turn emphasis on working with women.
Up to now the commission has concentrated on governments, urging extension of political, economic and social rights to their women. Only one, Paraguay, has failed to do so. Mrs. Quan says it is, however, making great strides towards equality in civil rights.

ed the new vice chairman.
"We also are looking for equal education and training facilities so that women may be prepared to make use of their abilities."
Mrs. Lee, chief wife of a wealthy rancher, Floyd W. Lee, and mother of twin son and daughter, was appointed by President Eisenhower in 1953. A former school teacher, she says her primary interest has been in education. For 14 years she was a member of the Board of Regents of the University of New Mexico. She is a member of the National Citizens Council for Better Schools and was a delegate to the White House Conference on Education.

WOMEN'S RIGHTS — Mrs. Graciela Quan Valenzuela of Guatemala, left, new chairman of Inter American Commission of Women, discusses a program for training women of the Americas in using their newly gained rights with Mrs. Frances Marron Lee, U. S. delegate and new vice chairman.

Sun-tanned, brown-eyed and fluent in Spanish, she says she has often been mistaken for a Latin American. She has visited all Central and South American countries except Colombia and Chile and is always taking off for some conference or other. Her husband, accompanying her to the airport recently, observed with amusement it used to be the other way around. He was always the traveler, she the one bidding farewell.

WHERE ANTELOPE PLAY
LANDER, Wyo. — It's a frequent sight in western Wyoming to see a rancher driving down the road, his speedometer registering

55 to 60 miles per hour, in a race with the antelope.
And for short distances the antelope can keep up. "Crusing speed" for the spindle-legged creatures is 35 to 40 miles an hour. They can hold that pace for miles.

FORGOTTEN SWITCH
LOGAN, W. Va. — Circuit Judge C. C. Chambers, expressing approval of a proposed legislative measure which would switch responsibility to parents for the actions of their children, said: "Everything in the home today is run by switches, except the children."

The group losing the greatest number of pounds was to be feted by the losers.
The prize: a steak dinner.

CHEAP LABOR
STERLING, Colo. — Snowball tossers at Sterling High School now must do their throwing on the practice field behind the school building. The school has made a ruling that students caught throwing snowballs in front of the building will shovel snow the rest of the winter.

Outdoor Gals Win Romante Sweepstakes

By VIVIAN BROWN
AP Newsfeatures
Are you a hot house flower? If you are - it may hinder your popularity. That's the theory of some young girls who've noticed their dates are fewer than usual this year.

"The girls in our set who are popular" says one hothouse type "are the ones who keep up with the boys - hiking, swimming, horse back riding, tennis, golf, badminton. It wasn't that way until recently."
You don't have to be a tomboy to be a good sport. The idea is to be vivacious, not boisterous.
"It's true that some young moderns do not like to exercise.
Fear may present a problem, but it is not insurmountable. There are girls who are scared of the water and have never even tried to swim. A good teacher can change this. Local organizations and private clubs have swimming courses. A lifeguard is another good bet. He may be lured (or charmed) to teach you on his off time. Shy types could take lessons early in the morning or in the evening until they get up courage to go it with the crowds.
Languid types are definitely not popular this season. It may be true that a boy will invite you out for a nice relaxing sail, but he'll want you on deck if things get stormy. A girl who prefers to hover in an emergency is a dead pigeon for a future sailing date.
Your femininity doesn't need to be overshadowed if you pursue a sport. Tennis is a graceful game for a girl. Golf may be taken at your own pace, not with beads of perspiration dotting the brow. Horseback riding, the sport of queens, may be just the sport for a girl who is a nature lover. Bicycling, too, is a delightful pastime. It gives a girl an opportunity

to wear chic shorts, attractive blouses, trim shoes. It is fun for one or a group. The modern American bicycle may be loaded with all sorts of accessories to please the hot-rod crowd.
It's a good idea to remember if you meet a new beau, whether he is the outdoor type to make an effort to go along with him and enjoy whatever. If you give it a whirl and do not enjoy it, an understanding date will at least give you an effort. But nobody loves a kill-joy.
Noah Webster began writing the dictionary in 1807 and finished in 1828.
CLEAN CAT
MARDELA, Md. — Mrs. Francis Hopkins noticed her pet cat was missing when she was doing the family wash.
The cat couldn't hear her call because it is deaf, but she soon heard from it. Pulling the plug of her automatic washer, she dragged out a soaking, undamaged and very clean cat.

HEREFORD BAKERY COMPANY
Hereford's Only Baking Industry

The Hereford Bakery, located at 519 Park Avenue, is Hereford's only baking industry.
Being an established business in Hereford for over 26 years, it has kept pace with the other rapid developments of the area in the production of only high quality loaf breads, a complete line of pastries, buns and rolls. This assortment of breads and pastries is delivered fresh daily to the Hereford area and neighboring communities of Friona, Dimmitt, Mulshoe and Earth.
Owner and Manager Debbs Knox has been working with the bakery for over 24 years. With this background in the Baking business he knows how to satisfy the public with high standard products. Every effort has been made to keep pace with competition in price and quality, making it possible for their many customers to enjoy the best at no increase in price.
Experienced bakers such as John Finley and Boyd Knox make it possible for the bakery to stand behind their motto of "Better Bread to More People."
Special orders are handled by Mrs. Debbs Knox, whose experienced hand in decorations and arrangements of pastries and cakes have made those extra special celebrations more than a success.
At meal time or just for that between the meat break you will find food to satisfaction at their restful lunch counter. Fresh sandwiches, pastries and drinks at low cost prices are waiting for your enjoyment.
Always remember, wherever you buy, whenever you buy, always "Buy Hereford Bread."

Now, This Is the Way It Should Be IT'S: HER POINT OF VIEW

By BETTY BABIONE

Right off, I'd like to say a few thousand words about what happened to a portion of my column last Sunday...

As you recall, I had tried to elaborate on the idea of friends in need and so forth...

Since my efforts to be serious were foiled, and since my readers may be expecting me to burst forth with a dozen or so verses of "Friends, Friends, Friends"...

BE LOOKING for more letters from Jane Newsom as she travels about in Europe...

Have you had a chance to find out and I wonder if the Gillentines and the Paul Harveys ever ran into each other...

You have only to get a glimpse of Irene Cleveland to know that she's been to a land of sunshine and invigorating salt air...

I guess most Herefordites, if they get away from a vacation, go to New Mexico or Colorado...

PARDY LINER is going to take a little vacation, too, so you won't have to tolerate her nonsense for a few weeks...

Lamm Jewelry 307 Main St. Hereford

I heard that Jay and Bruce enjoy their "exhibition matches" so much that they may forget that the pupils want to play, too.

Item 8: Find out if Mrs. Arthur Dean got her car door fixed. The last time we saw her, the problem was that the door swung open at frequent intervals...

Item 9: Recommend to mystery fans Hitchcock's book, "Stories They Wouldn't Let Me Do On Television" which is available at the local library.

Item 10: Let Bill Dameron know I have a present for him - found a book which is just his type.

Item 11: Hope everyone has a routin' tootin' Fourth of July.

FOR THE BIRDS

UNION, S. C. — Birds of different feathers are flocking together here at the home of Mr. and Mrs. James W. Workman.

Workman, a lawyer, picked up a young dove that had fallen from its nest. He put the bird in a cage with the family parakeet...

BULL MARKET

MAGNOLIA, Ark. — Fred Steward, a Columbia County cattleman, owns the majority interest in what apparently is the highest priced bull in the area.

Red Willett of Monroe, La., paid Stewart \$33,333 for an one-third interest in the purebred Angus, Bandolier of Indian Creek...

Item 6: How about slipping over to the city pool to join in the fun had by certain teenage boys who climb the fence for a midnight dip?

Item 7: Visit the tennis group of the city athletic program to see if Jay Barnett and Bruce Miller are still using their see-how-it's-done method of teaching the kids.

DOUBLE INDEMNITY: CANTON, Ohio — A motorist, charged with speeding 80 miles an hour, explained to Judge Donald L. McCarroll that he was rushing to pay his income tax...

FAST RECOVERY

DETROIT — A Flint, Mich., plumber told police his argument with a cab driver turned out better than he thought.

Floyd Wilmoth said he "did the town" and, after taking a cab home, was short-changed a dollar by the driver. Wilmoth protested to no avail.

But, said Wilmoth, a second look the next morning revealed that what the cabbie thought was a dollar bill in the change actually was a \$100 bill.

PREFERS PRISON

PEORIA, Ill. — John Edward Robbins had a choice - freedom or prison. He chose prison.

Pleading guilty to a charge of transporting a stolen car across state lines, he was before Judge J. Leroy Adair who asked Robbins if he believed he could adhere to probation requirements.

Robbins, of Marshalltown, Iowa, said he didn't think so. Judge Adair sentenced him to two years in prison.

HIGHWAY PLAN

LANSING, Mich. — Gov. G. Mennen Williams says a "vigorous but reasonable and fair" traffic law enforcement can reduce the number of fatalities on highways.

Noting a reduction in traffic fatalities in Michigan in 1956, the governor created "increased State Police patrols and suspension of licenses of dangerous drivers, use of National guard troops sheriff's routes and wide-spread publicity."

William Howard Hall was the first U. S. president to receive a salary of \$75,000 a year.
