There was a big crowd out Saturday night for the Latin-American Fiesta queen elimination. It was a most orderly group, with some spirited action before queen was announced. The St. Joseph's Club, which is sponsoring the affair, deposited almost \$2400 into their account. The Fiesta will be held here next Wednesday, Thursday and Friday.

Wives of Hereford firemen are busy this week selling tickets and getting ready for a big fall fashion show. another report meeting for 5 p. m. Friday, Sept. 9, to see if the goal has been met.

Deadline for raising the \$100,000 is Wednesday, Sept. 14.

The funds are needed, either in donations or firm pledges, as the community's goodwill gift for a proposed Methodist home for the aged, which has been approved for location in Hereford. The home is the first of four which are planned for construction within the Northwest Texas Conference of the Methodist Church.

During Tuesday's meeting in the First National Bank, some unclear points were explained. (Continued on page 2)

AFTER 48 YEARS

Hereford Man, Sister Have Tearful Reunion

By MONA JETTE BRAND STAFF REPORTER The East bound train from Los Angeles was thirty minutes late getting to Hereford Monday evening. Mac Day was beginning to get impatient and muttered a few choice imprecations under his breath. You can't expect a man to be calm in the situation Mr. Mac faced.

Mr. Mac looked down the long track again. In the distance a tiny speck loomed larger. . . the train was coming. And in a few minutes, he was holding a tearful reunion with his sister, Mrs. Frances Jouanou, of Los Angeles, Calif., whom he hadn't seen in 48 years.

The happy brother and sister were finally cornered the next day in the lobby of the Jim Hill Hotel, where Mac works, and questioned about the events that culminated in long-awaited meeting.

"We were living in Sioux City, Iowa. In the summer of 1912 a divorce split the family with my two sisters living with my mother, and my brother John and I staying with our father." Mr. Mac said falteringly. "The last time I can remember seeing Frances was in 1912. She was just a little 'tyke then." He held his hand a little over two feet from the floor in demonstration.

"A lot of years have passed," continued Mr. Mac, a pensive expression crossing his face.

IT'S BEEN A LONG, LONG TIME for a brother and sister who haven't seen each other in forty-eight years. Mac Day of Hereford and his sister, Mrs. Frances Jouanou, discuss the many things that have happened to them since 1912. Mrs. Jouanou arrived from Los Angeles Monday night for a long-overdue visit with her brother. (Staff Photo)

City Approves Park Purchase

Hereford City Commissioners Monday night voted to purchase a three-acre park and water well from the Hereford Area Foundation. Price will be \$7000.

The park is to be located just east of Northwest Elementary School and adjacent to the proposed location for a golden age home. The well is a fairly new eight-inch well.

Commissioners also voted to make an adjustment in the rent for the city airport for a 90-day period. The rent will be lowered from \$500 per month to \$300 per month for the 90 days only. This, they felt, would enable Gerald Cady to move to Hereford.

Under terms of the agreement signed with Black Air, the airport was leased Sept. 1 with Frank Longhofer providing 24-hour service. Cady was to live in Amarillo and provide service, maintenance and instruction in the evenings and week ends. Cady felt that he would be able to move to Hereford soon to devote full time to the airport. (Continued on page 2)

Weekend Mishaps Hurt 4 Persons

Four persons were injured in two mishaps over the weekend. Both involved single vehicles overturning.

Azael C. Valdez, 22, of 241 Ave. K, was injured when the car he was driving overturned on a dirt road about ten miles southeast of Hereford Saturday night. He received a broken ankle and lacerations.

Three Hereford young people were hurt, one seriously, when the pick-up in which they were riding overturned about four miles west of Hereford on Sunday night.

Injured were: Ronald Lloyd Rayburn, 17, who was treated for minor injuries and released; and Wanda Marie Cornelius, 14,

who received a broken arm and a broken pelvis. Valdez was injured about 9 p. m. Saturday when the 1958 model sedan he was driving overturned. (Continued on page 2)

Rural Accident Injuries Minor

Three persons escaped serious injury in an automobile-pickup truck collision Wednesday morning at the intersection southeast of the old Frio School building south of the city.

Treated for minor injuries and released from the emergency room of Deaf Smith County Hospital shortly after the accident were: Fred Fox, 204 Gough St., driver of a Deaf Smith County Electric Cooperative pickup truck; and Warren Cribbs of Hereford, a passenger in the pickup.

Driver of a 1960 model sedan involved in the accident was Robert Almazan Jr., 25, 304 Blevins. Almazan escaped injury. The car is owned by Community Grain Company.

The 1960 model pickup and automobile were demolished. The pickup overturned, and the automobile swerved into a ditch south of the dirt road after impact.

The accident occurred about 9:30 a. m. The car reportedly was travelling south and the pickup was headed east.

The injured men were taken to the hospital by Maroun Scott ambulance.

The men appeared in Corporation Court at 10 a. m. Tuesday. Judge Henry Benson presided in court.

Herb Boardman of Hereford has been hired as a full-time employee in charge of coordinating activities of "Casa de Amigos", a migrant center community building recently constructed under direction of the Hereford Committee on Migrant Ministry.

Boardman, a lifetime resident of Hereford, was in the dairy business until Sept. 1 this year. He began his new duties this week.

"There is definitely a need of better understanding between migrant workers and the permanent residents of Hereford," Boardman said. "I am anxious to help this cause in any way that I can."

Three phases of a tentative program of operation announced by Boardman include: work with youth; adult education especially household management; and health education.

Operation of the building will be under direction of the Hereford Committee on Migrant Ministry, which includes the United Council of Church Women in

Hereford and five Hereford churches, First Methodist, Wesley Methodist, St. Thomas Episcopal, First Presbyterian and First Christian.

The all-metal building, constructed by 14 college students from various parts of the United States this summer, is located just east of Hereford Labor Camp.

During a meeting of the Committee's board of directors last week, it was reported that all interior work had been completed except for living quarters of the coordinator. The board expressed hope that volunteer workers from various churches would help in finishing the interior work.

Committee chairman Virgil Dodson announced that for the past five weeks, teen-age and family nights have been provided at the center. One night last week, an athletic program was offered to youngsters. Other plans include a grooming program for teen-age girls and a home management program for housewives. (Continued on page 2)

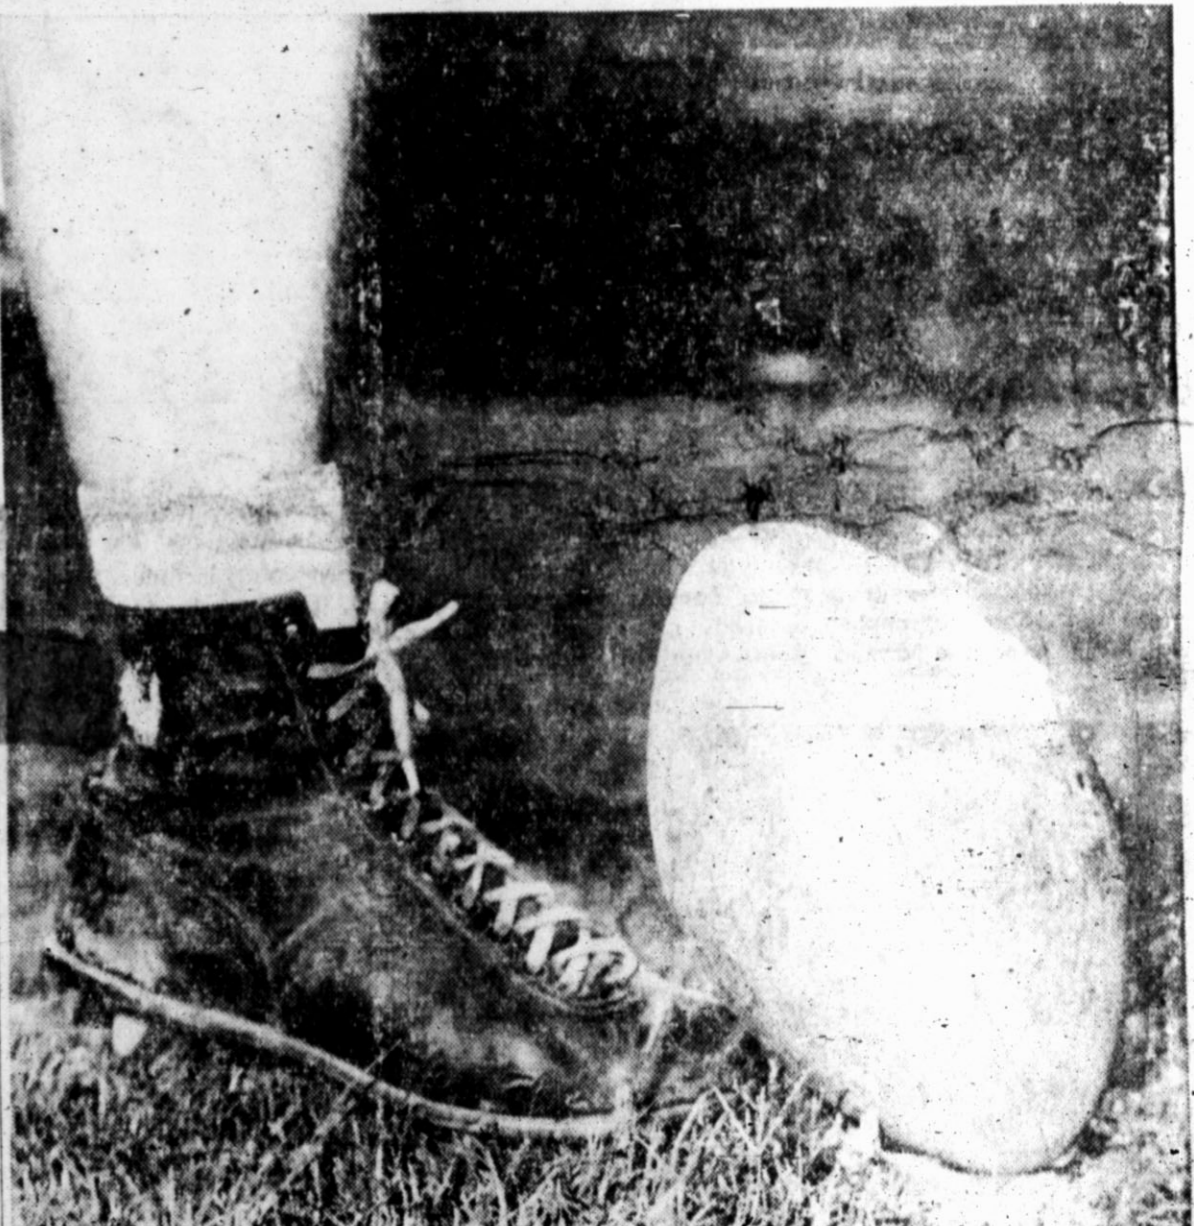

Elect Chairman, Set Dates For 1961 Festival

Clint Formby was elected chairman of the 1961 Harvest Festival during a meeting Wednesday morning. The manager of Radio Station KPAN, he was selected to head the planning which will precede the third annual Festival next summer.

Members of the committee, meeting for breakfast in the Jim Hill Hotel, also voted to hold the Festival on July 27, 28 and 29 next year.

A large part of the hour-long meeting was devoted to a resume of activities during the second Festival and recommendations for changes in the next celebration.

The Festival ended up with a small deficit, attributed to cost of special wiring installed in the Bull Barn for the exhibits. (Continued on page 2)

New assistants this year for Hereford include Joe Brooks and Max Washington, who are helping Williams, Buster Hodges and Cuby Kitchens.

Hereford's Bee squad faces its first test here at 8 p. m. Thursday against the Tulla Bees.

(Continued from Page 1) Right after that, Mr. Mac, and Frances began an extended correspondence. She had married and was busy raising her daughter; Mary. An aunt in Portland, Ore., helped keep the family in touch, passing on letters and pictures to the two brothers, a sister still living in Sioux City, and Frances. Mrs. Jouanou was asked where her brothers knew where to look for her. Just where do you look for someone you haven't seen in forty-eight years?

"Oh, it's just something you just seem to know," she said with a happy smile. "And Mac hasn't changed a bit," she added. When reminded that a man has to change over a period of nearly half a century, she shook her head. "Oh ho, I've got a picture of him as a boy, and he looks the same now as he did then," declared Frances. And really, the both of them belie their ages. She is an attractive woman who has managed to keep her schoolgirl figure and complexion, while Mac is an energetic man, with such a keen sense of humor, you will never be able to call him "old."

Last week, Mr. Mac invited Frances, via telephone, to spend her vacation here in Hereford with him. She promptly accepted, and the many letters written over the years, the many telephone calls made, finally paid off. Mac Day and Mrs. Frances Jouanou, brother and sister separated for too many years, were together again. Mary Jouanou accompanied her mother to Hereford. Don't say that time has passed them by. Just think that it has waited for them, maybe dimming their hopes a little, or catching them up in the hurry-scurry of everyday life. But it certainly hasn't passed them by. Probably by this time today, they have passed time up, and are foreseeing a future in which no more long separations have a place.

GOP Candidate For Senate At Breakfast Here

John G. Tower, G. O. P. candidate for the United States Senate, outlined his campaign platform to about 15 Deaf Smith County Republicans Wednesday morning at a breakfast held in the Western Wheel Inn. The 35-year-old candidate currently is making visits to towns and cities in the Texas Panhandle, accompanied by Nelson Bourn, regional field director for the Republican party in Texas, and Tom Cole, National Committeeman for Young Republicans and Tower's state campaigner. Tower pointed out that he believes "in encouraging the free enterprise system as the motivating power for growth of the nation's economy rather than an attempt to artificially force growth by government edict as proposed by the Democrats." He described the Democratic platform as being "so much more radical than ours" and said that it contains many "extremities." The former professor of political science at Midwestern University commented that he felt the migrant labor program should be transferred from the Department of Labor to the Department of Agriculture. Mexico, he added, was being swamped by immigration labor to Texas. He is Republican candidate for the U. S. Senate position now held by Lyndon B. Johnson. Johnson is Democratic candidate for re-election.

A passing motorist, Benio Ramirez of Friona, saw the car upside-down near a lake and brought Valdez to the Deaf Smith County Hospital, Texas Highway Patrolmen Noel Carter and Fred Lenz from Dimmitt investigated the accident.

The accident Sunday occurred about 9 p. m. as a 1958 pick-up driven by Rayburn, 17-year-old son of Mr. and Mrs. Clyde Rayburn, 217 Ave. B, swerved off Harrison Highway and overturned in a field about four miles from Hereford. The vehicle was registered to H&W Implement Company of Hereford, where Clyde Rayburn is employed.

Hudson, son of Mr. and Mrs. A. J. Hudson, 600 Star, was to have been released from the hospital Tuesday. Miss Cornelius, the daughter of Mr. and Mrs. Guy Cornelius, 503 Ave. F, is listed in good condition. Texas Highway Patrolman Charles Skinner investigated the mishap. In both accidents, the vehicles were seriously damaged.

(Continued from Page 1) by Earnest Langley. He pointed out that Hereford's donation would be used to help pay construction costs for the 40 per cent of the proposed residents who wouldn't be able to pay their own costs and to help pay annual operating costs for the same group. Some 60 per cent of the home's residents will pay their own way, or slightly more. He also explained that the home initially will have living accommodations for 60 to 75 persons with construction costs estimated at \$500,000 to \$600,000. Within three years, it is planned that accommodations will be increased to care for 150 persons, with a total investment in plant and facilities of about \$1,250,000.

Annual operating budget, he pointed out, will be about \$150,000. Langley also pointed out that pledge payments to the Foundation may be spread out over a four-year period. He also said that none of the donations would be given to the Methodist group until construction actually started and, in the event the home is not located here, all pledges and donations would be returned to the donors.

The Hereford Area Foundation is acting as an agent to collect the \$100,000 goodwill gift which was one of two stipulations for locating the home here. The other was a suitable site and that has been placed under option. The corporation established by the Methodist conference will meet on Sept. 15 in Lubbock to announce location of the home. Hereford, at that time, must have pledges or donations totalling \$100,000 in order to get the home located here.

HOW BOUT THAT

Men Notice When Lady Sharpshooter Eyes Target

BY ROSS HAGEN
"ATLANTA (AP)—"There's nothing I'd rather do than beat a man," says shotgun artist Mrs. Frances King.
And if you'll ask most of the men who have fired against her you'll learn this petite grandmother has consistently taken the measure of her male opponents on the trapshoot trail.
Mrs. King's husband, wealthy Atlanta businessman Clyde King Jr., urged her to take lessons 19 years ago and she's been re-writing the record books since.
Her appearance and manner belie the tremendous skill and competitive spirit within. Weighing only 124 pounds, Mrs. King appears even delicate.
But once she toes the firing line, she shows no mercy.
A gleam appears in her eyes when she speaks of competing with the men. "I scare 'em to death with my first 50 shots," says Mrs. King.
Name a trapshooting trophy of national importance and you'll probably find it in her fashionable Atlanta home.
"At first Clyde's friends teased him about my being able to outshoot him, but they quieted down when I began beating all of the other men too," Mrs. King laughs.
However, I have never felt that a man was jealous of my shooting accomplishments. Trapshooters are the greatest sportsmen in the world."
Mrs. King won her first trapshooting title in 1941. She set 17 world records and 14 of them still stand.
Her biggest year was 1952 when she blasted her way to victory in every meet she entered. She climaxed the performance by winning world championship — for men and women — in the Grand American at Vandavia, Ohio.

Most athletics can point to something special that gives them the victory edge, but Mrs. King says she makes no special preparation and engages in no special training for trapshooting.
"My husband and I just live normally and don't get nervous or excited," she says.
In fact, the Kings, who have twice won the world's husband and wife title, seldom practice before the trapshooting season starts.
Mrs. King's records include winning the Georgia state championship with a perfect performance — 200 out of 200. In three years, 1950-51-52, she missed only 6 out of 600 clay pigeons in the state shoot.
She has been on the All Star trapshooting team of Sports Afield magazine 10 times and was captain in 1952.
Her latest championship was the handicap title in the 1958 Georgia shoot.

"Actually the handicap is the meet to win — it's the one that pays the money," she said. Mrs. King explained that in two shooting, unlike other sports, the amateurs are the only ones who compete for money. The professionals can compete only for honors.

H. A. TUCK News Editor

By JIMMIE GILLENINE
Some people sure are gluttons for punishment. The Commissioners Court observed Labor Day Monday and got away from the subject of trees for a few hours, but I noticed they were back in session Tuesday and still seemed to be having troubles. Now that the trees are out of the way, quite a few people have approached the court about making the lawn area into a big parking lot. This would, of course, tremendously help alleviate one of the community's gravest downtown problems.

Charley Sowell was talking about the proposal, and I told him the way to get a unanimous vote would be to eliminate the caretakers and give each of the commissioners three months of personal lawn care. Charley thought this was real good, but further conversation disclosed that he was planning on January, February and March as his months.

Odin Bulls worked himself into somewhat of a lather concerning the age of the courthouse trees. He says he came here in 1926, and the trees were big at that time, and how in the heck did I figure that they were planted around 1931? He says I can count tree rings all day and all night, but no one will ever convince him that the trees weren't 50 years old. Does anybody really know how old the trees are? I figure maybe H. Oberthier might remember.

Jim Rutherford of Tyler was visiting here this week and invited me to come down to the big Rose Festival October 15-16. Jim allows that roses, like lawns, are a pain in the neck to the old boy who has to stick around and grow them, but he says they probably look pretty to the outsiders.

"I just cannot spend all of the time digging, grubbing and fighting insects - and still have the proper admiration for a rose," says Jim; "but from what I have read in the Bull Column, you are the type character who would really enjoy them."

Wayne Phillips still has me puzzled. He was off down in Arkansas on business over the week end, and got invited on a super - duper fishing trip. They even had a Negro boy to paddle the boat and bait his hook. Wayne caught a heck of a lot of fish, but says it wasn't much fun. He guesses he just wasn't destined to be a fisherman.

Wayland Smith has a 5-month-old black dog he would like to give to someone who wants it. The dog has short hair, and Wayland says it will make a nice pet for

some youngster. If you are interested, call EM 4-0129 after 5 p. m., or drop by the house - after 5 p. m. - at 401 Star. First application gets the pup.

Sue Mueck, the young lady who worked on The Brand this summer in connection with the Texas Press interne program, is back in Austin and took time out to write and say how much she liked Hereford, especially the people. Sue made many friends here, (maybe one who is real special) and says she will be visiting us every chance she gets. She also would be happy to hear from any Hereford people who might be in Austin, where she is attending the University of Texas. We miss her smiling face around the office and Dan Mudd, who went back to writing up service clubs after Sue left, says it isn't easy to follow the gal.

Leo Forrest is complaining about the way Dave McDonald operates his office hours. Leo was in a drug store looking for Dave this week, but couldn't find him.

"Any other time, he would be on the third stool," declared Leo; "it seems that he would leave word when he is out." Things worked out, though; a few minutes later Dave showed up, and someone told him to call Forrest, who was also probably out of kilter by this time.

If you missed your neighbors over Labor Day, they were probably in Ruidoso, according to all reports. One Hereford man says you could stop, look around and count 16 Hereford people at any given time. He tried it three times, and got the same result each round. Conchas, too, pulled heavy from this area.

R. C. McGilvary says I am a flat-piker trying to kill Johnson grass by moon signs. He says Jim Lipscomb, former postmaster, is having his teeth pulled by moon signs - and is getting a lot of static from his dentist. Jim was firm, though. He told the man he would go somewhere else if he couldn't have an appointment on a date when the sign was below the knees. McGilvary says this is all hog-wash, except one time he and Jim both planted beans, and Jim used his signs. Mac didn't make many beans, but Jim had so many that he furnished the McGilvary family all summer - and has been talking about it ever since.

My biggest trouble is that I still have Johnson grass, despite the signs. Skeptics Dennis Lomas and Dr. B. M. Wiltshire are really having a holiday at my expense. Jack Renfro says maybe I used Pacific time instead of Central time, but I don't think so. Anyway, I still have plenty of Johnson grass.

Little Theatre To Open With Comedy

"The Boy Friend," a musical comedy set in the boisterous 1920's, will open Amarillo Little Theatre's 1960-61 season with performances Sept. 14 through Sept. 20. There will be no performance Sunday, Sept. 18.

Curtain time is 8:15 p. m., with the box office opening Sept. 11 and telephone orders accepted. A parody of musical comedy in the flapper age, "The Boy Friend" was written (words, music and all) by an Englishman, Sandy Wilson, who knows of the era only by hearsay, since he was born in 1924. His satire overlooks no kernel of corn; tunes are heavy with saxophones and stomping rhythm and the story is full of giddy girls and their romances.

Wilson's plot is chiefly concerned with a wistful heiress in a boarding school on the Riviera who bemoans having fallen in love with a mere bellhop. Of course, he is finally discovered to be the incognito scion of an illustrious family.

An immediate success in London in 1953, the show drew celebrities, including Princess Margaret, to the little "cabaret" theatre where it opened. Moving to a larger theatre, "The Boy Friend" ran for the one and one-half years in London. On Broadway it ran for 60 weeks and was played across the country on road tour.

WEEK END VISITORS
Labor Day week end visitors in the R. A. Frye home at Dawn were her brother and family, Mr. and Mrs. Wayne Griffiths, Donna Kay and Garland of Fort Worth. Mrs. Griffiths is a science teacher in the Birdville High School and has received a scholarship to the Oak Ridge Institute of Nuclear Studies, and will attend the eighth session of Oak Ridge demonstration lecture program for science teachers and supervisors for Sept. 19 through Dec. 16.

PIRATE TREASURE?
MIDDLETOWN, N. J. (AP) Pirate crews often came here during the 17th Century for rest and refuge, and many residents still believe that Capt. Kidd's famed treasure is buried somewhere near here.

WOMEN WIN OUT
WALSENBURG, Colo. (AP) — The women are going to run things at least for awhile in Walsenburg. Six women defeated men for public offices in a recent municipal election.

Mrs. Leo Stacy was named the first woman mayor here. Mrs. George Christensen is the new treasurer and Mrs. Doris Cain city clerk. Women also won three of the eight alderman positions, including Mrs. Don Lenzzi, Mrs. Ida Zapeda and Mrs. Pete Ravlick.

THANKS, BUT SHE'LL WALK
TOLEDO, Ohio (AP) — Mrs. Wilma Scroggins, 30, 636 is a confirmed pedestrian. She told police she paid a man 75 cents to drive her home from a dry cleaning shop, only to have him \$100 when she got out.

Later the same day she went to a market, bought \$5 worth of groceries, and hired another man to drive her about in search for the first man. The hunt was fruitless and the second man took her home, took a dollar for the ride and drove away with the groceries.

HIGH DRAW
ANNAPOLIS, Md. (AP) — No trouble to open a drawbridge? The average yacht skipper might think not, but Anne Arundel County Officials voted up the cost of operating one over Weems Creek and figured it amounted to \$125 a draw.

That was for opening the span 25 times from May 1 to Sept. 30 at a total cost of \$3,128 for maintenance and operation.

HEAVY-EATING LIONS
ARDMORE, Okla. (AP) — Two lions that eat like horses are breaking up the Junior Chamber of Commerce's zoo.

Jaycee president, Burke Morley said the heavy eaters are taking too big of a bite out of the group's treasury and that was why he is offering the animals to the city.

The United States produces about two-thirds of the peaches in the world.

Beauty at Home

By Lynn Carter

Q. What is a facial beauty mask that will help to remove wrinkles?

A. With some cornstarch and evaporated milk, make a paste about the thickness of a flour-and-water mixture for gravy. Apply this to the face, and let it dry. It will become very stiff. Remove with cold water, and you'll like the results.

Q. Is there any homemade substitute for rouge?

A. You can try using beet juice, or rubbing the raw beet on your cheeks. This produces quite a lovely color, is harmless, and will serve quite well in a pinch.

Q. What style of coiffure will add some needed length to my rather small face?

A. Hair worn off the brow, with either a center or high side part, will produce an illusion of length to your features.

Q. What are some tips for keeping my hands smooth and white?

A. You can use equal parts of glycerin and lemon juice well mixed, adding a few drops of alcohol and a little rose water for a slight perfume. Washing the hands in warm milk each night is also a good bleach for reddened hands. Still another bleach is made of one ounce each of lemon juice, honey, and perfume.

Q. What makeup routine helps minimize the appearance of an acne-pitted skin?

A. Fill in the pits with a cream base that is lighter than skin-tone. The cream base can be pressed in and set by using

a puff lightly dusted with talcum powder. For the makeup, use a liquid foundation cream of a skin-matching tone, smoothed on evenly and carefully so as not to disturb the first cream base. Then rouge, and finally, powder.

Q. What is a good formula for bleaching the hairs on my legs?

A. A periodical application of a mixture of one-half teaspoon of toilet ammonia and three tablespoons of peroxide should help. Mix this fresh for each treatment.

Q. What is a good treatment for soft and smooth hands?

A. Put two tablespoons of uncooked rolled oats into a saucer and cover with water. Allow to stand until the water becomes milky or cloudy, then dip your fingers into this mixture, and rub it well into your hands until they are thoroughly dry.

LOADED—WITH LIPSTICK
TULSA, Okla. (AP) — L. Harold Wright says his wife, hunting pheasants with him, raised her gun to fire, but there was only a click when she pulled the trigger.

She had shoved a tube of lipstick into the chamber, thinking it was a shotgun shell.

PERFECT PAIR
MILWAUKEE (AP) — Napoleon and Josephine took out a marriage license here. They are Napoleon J. Martin of Blue Island, Ill., and Josephine V. Nasta of Milwaukee.

Light dim? Try washing that electric lamp bulb.

PULLS THE SWITCH
LIMA, Ohio (AP) — When his wife refused to leave a tavern, Sescow Howard went outside and pulled the handle on what he thought was the police alarm box. Two aerial ladder trucks, three pumps and the fire chief's car showed up. His wife, Hazel, 43, was jailed on an intoxication charge.

Local Residents Attend Assembly

Jehovah's Witnesses' three-day assembly in Altus, Okla., was climaxed Sunday when R. L. Anderson, district supervisor, spoke on the subject, "Finding Peace in This Troubled World." Lloyd Reddoch, presiding minister of the Hereford Congregation, and about 14 other persons from Hereford, attended the assembly, which stressed the theme, "Seek Peace and Pursue It."

In speaking to the 563 persons assembled in the City Auditor-

ium, Anderson declared that "The Lord's Prayer points to the sure remedy for this troubled world - God's Kingdom."

He added, "The Kingdom government through its 'Price of Peace,' Christ Jesus, is invested with power to end man's wars and worries forever and bring world-wide peace to mankind."

Anderson, in speaking to the 19 - congregation assembly, said "Peace is now attainable for you, first by seeking peace with God and then you will have peace with your fellow man."

R. H. Smith, circuit supervisor of the Oklahoma - Texas - New Mexico meet, said the pur-

pose of the assembly was to analyze the 19 - reporting congregations, determine the existing weakness and lay plans for expanding the work at circuit and national levels.

Texas Circuit No. 9 held its last such assembly at Lubbock in January.

REP. WALTER ROGERS WRITES:

Danger Of Red China: Part II

To the people of the 18th District:

The Leadership, Messiahs and Manias
When China's ruling Manchu Dynasty came crashing down in 1912 under the combined weight of outside interference and internal corruption, more than forty centuries of civilization accompanied the collapse. China had been time itself - ancient and unchanging since the very dawn of history, a face on the world stage as immobile and impassive as a human Gibraltar.

But now, with all the accumulated and irremediable power of an erupting volcano, the heritage of uncounted generations crumbled and fell. Then, after less than forty years of war, revolution, and chaos, Mao Tse-tung marched triumphantly into Peking to inaugurate what may well be the most horrible yet miraculous era in history.

Mao, like his ideological cousin Lenin, had been a revolutionary since childhood, when he raged against his father and teachers. In May of 1921 he attended the first meeting of the Chinese Communist Party and received important posts within its echelons. The key to Mao's development came a few years later, when he suddenly realized that "without the poor peasants there will be no revolution."

The industrial proletariat which could be the only base for revolt according to Marxian gospel, simply did not exist in China. Hence Mao began to found his movement upon the peasants, and by 1935 he had

claimed Communist leadership for himself despite the opposition of his more orthodox colleagues.

The rest of the Chinese leadership, in the 25 years which have elapsed since the Mao takeover, have adopted his outlook. Together they enunciated a philosophy which is highly radical even within the framework of communism, and the program they have sought to carry out during the past decade of Red rule has been the most convulsive on record. At the outset, at least 12 million Chinese were exterminated in what Mao called the "mass shock." Countless millions more were thrown into prisons and brainwashed. Then came a constant, omnipotent propaganda effort which sought to make it impossible for the people "to lead a normal life again." And in the spring of 1958 the commune movement began, a program which essentially meant herding 650 million people about as 70 many animals.

I will attempt to focus more closely upon the Chinese life itself later, but at the moment I think it is important to examine the communist leadership and its ideology. The Western mind, and particularly the American, may never really penetrate the Oriental character. The Chinese have devised some of the world's most lovely philosophies and some of its most grisly tortures. They have invented the printing which has spread so many ideas and the gunpowder which has killed so many thinkers. Their millennia of inbreeding have produced, in

the broadest sense, some of the most refined and subtle minds the world has ever seen. And throughout the entire fabric runs a thread of incredible and almost dogged patience, a sublime reliance on what I suppose the Western world would call fate.

The purpose of the Chinese communist leadership has always been to forge a strong industrial state with an absolutely regimented people. Most of its rather lofty pronouncements and goals, can be reduced to these purposes. "Our present task," says Mao, "is to strengthen the people's state apparatus - meaning principally the people's army, the people's police, and the people's courts. . . . Given these conditions, China, under the leadership of the working class and the communist party, can develop steadily from an agricultural country into an industrial country."

As far as the "state apparatus" is concerned, it has been "strengthened" beyond anything the world has ever seen. The worst of Stalin's purges in the 1930s would appear mild in comparison, and the most serious Soviet propaganda efforts are amateurish in the Chinese context. Workers are given political lessons during rest periods, loud speakers blare the party line everywhere and incessantly, posters demand more, and still more of the people's efforts. Nothing more complicated than survival of the fittest has furthered the mass conformity, for those who lack enthusiasm are simply exterminated.

Like the huge colony of ants which this policy has indeed made them, the Chinese have been ruthlessly driven by their leaders toward a greater economic development. Mao and his lieutenants have had their five year plans as well as the grain-diose "Great Leap Forward." This latter bit of communist policy sought to double the production of virtually every major product, and there is little comfort in the fact that the effort ultimately failed. For even though the Chinese were not travelling at the speed of light, they were doing so at the speed of sound. The production of grain reached almost 400 million tons in 1958, more than three times the total in 1949, and steel output jumped from less than two million tons in 1952 to more than 10 million in 1958.

The leadership has yet to pro-

duce anything resembling a threat to the United States so far as sheer economics is concerned, but their policies have developed a rate of growth which in some years has surpassed the Soviet Union's three times over. The brand of communism enunciated by Mao has been intensely practical and ut-

AUSTIN HIGHLIGHTS

Commission Passes Motion To Avoid Political Hassles

By VERN SANFORD

AUSTIN — A family trying to get all slicked up to make a good impression on important company can't take time out for a domestic squabble.

On this premise, the Texas Industrial Commission, whose job is to lure new industry to Texas, voted to steer clear of political hassles and concentrate on putting the best foot forward.

Vote on this decision was 5 - 1. Voting no was Al H. Chesser, railroad brotherhood representative, who has urged the Commission to sponsor a legislative program including repeal of the state's "right to work" law.

"Our job is to sell Texas," said E. B. Germany, Commission chairman. He said he felt the Commission would be hampered in doing so if it got involved in controversial legislation.

Reviewing two years' progress, Germany reported that 475 new plants had located in Texas since the TIC was formed in March, 1958. Plans have been announced, he said, for 375 others in 99 counties, and 492 plants have expanded in the past two years.

For the future, Walter Dickerson, TIC executive director, said 136 factory managements are considering a move to Texas. A number of these, he said, would make products for which Texans now send \$2,500,000,000 out of state.

Hands Off Houston — As a long believer of local control for local matters, Gov. Price Daniel said he would not intervene in affairs of the Houston Public School system.

For weeks Houston schools have been in a squeeze between a federal court order to begin gradual integration and a state law which says it will lose state aid if it does.

As a last resort, the Houston School Board asked Governor Daniel to "interpose" in its behalf. Under the theory of interposition, the state has, under the Tenth Amendment to the U.S. Constitution, the right to interpose against any federal act by which it believes the federal government is exceeding its constitutional powers.

Daniel pointed out that this course had been tried without success in other states. Expressing confidence in the Houston board and its attorneys, Daniel said, "The Texas policy of local operation and control of public schools is far better than an attempted control by the governor or state."

Tax Bites Uncle Sam — It was a sort of man-bites-dog story when the Attorney General's Department ruled the federal government would have to pay a \$400,000 state inheritance tax to Texas.

In her will Mrs. Susan Vaughan Clayton made a bequest to "the United States of America, to be used for the retirement of the national debt." Mrs. Clayton was the widow of the late Will Clayton of Anderson, Clayton & Co.

A federal attorney proposed keeping the money in a special account in Texas since bequests to Texas and its citizens are exempt from the inheritance tax.

But the AG ruling said other states would benefit just as much as Texans from national debt retirement. In effect: the federal treasury will have to take the bitter with the sweet.

What's in a Name? — Hottest rivalries between neighboring Texas towns used to center on who would have the courthouse. Nowadays it's usually over who has the best high school football team.

But two Central Texas towns,

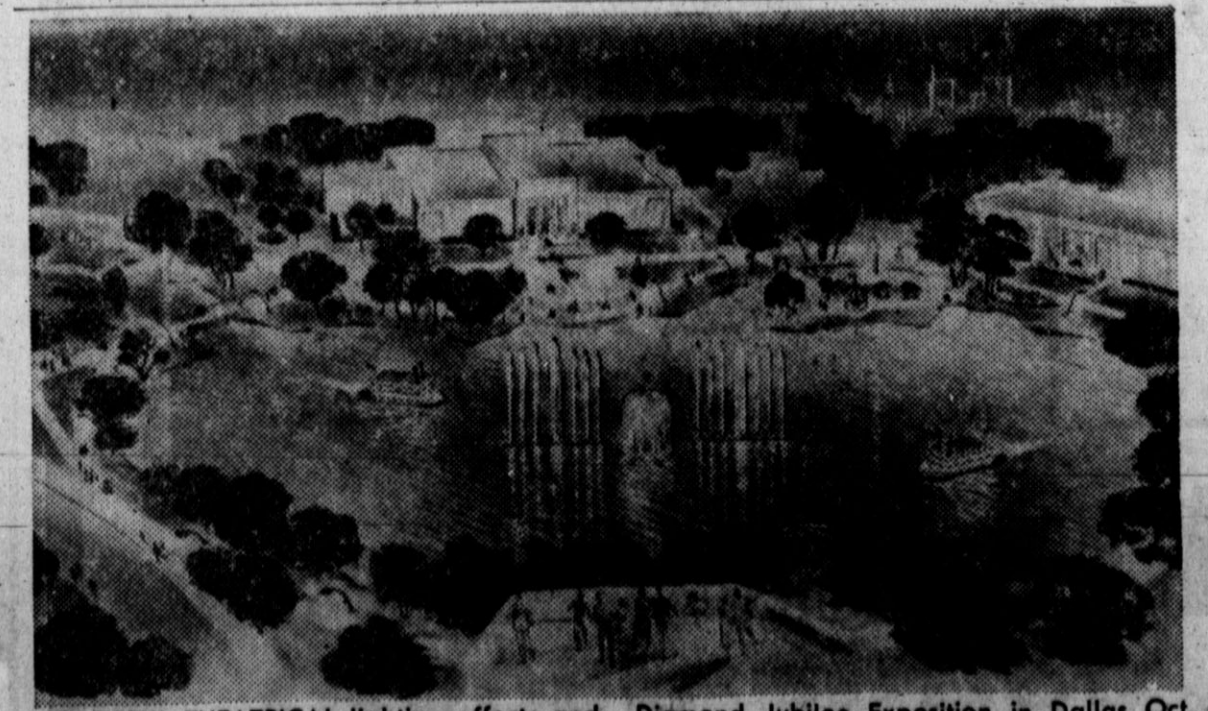

San Marcos and New Braunfels, are having a lively contest over the naming of a park to be built between the two towns.

State Parks Board, back in July, designated it as "San Marcos State Park." Civic-spirited San Marcos has raised \$2,500 for park equipment with the request that it be named after their town.

New Braunfels folk raised a storm. They claimed it would be nearer to their town, that their county would have to maintain a road to it, etc.

terly brutal. Yet its achievements, purchased though they are at the price of untold suffering, must not be overlooked. Chinese "communism" is, like the Russian variety, only a veil for dictatorship and hardly resembles the visions of Marx.
 "We are opposed," says Mao, "to the die-hard in the revolutionary ranks. Their ideas do not advance with the changing objective circumstances. . . . The external world which is to be changed includes the persons who are opposed to that change. To be remolded they will have to go through a stage of compulsion before they enter into a stage of remodeling of their own accord. When the whole of mankind of its own accord remolds itself and changes the world, that will be the age of World Communism."
 That "state of compulsion," calculated to "remold"—two-thirds of a billion people, is well underway in Communist China. It is a process absolutely unknown elsewhere in the civilized world. It has almost seemed to tear each Chinese limb from limb only to reconstruct him in a new image which not only ignores previous human values but also the Supreme Intelligence which created those values.
 Mao and his followers have moved with impatience. Behind all the semi-automatic plug-

ging of communist slogans, little reliance is placed upon the smiles which fortune is supposedly scheduled to bestow. The truth is that the Chinese communists are determined to eliminate the slightest intellectual or personal deviations of their people. And in this task they have thus far been eminently successful.
 "The Chinese are overworked and overgoverned. This being the end result of their leadership and its theories of a perfect society. But it does not necessarily follow that Communist China is merely a vast land packed with dull-minded slaves whose regimentation has destroyed their power or purpose. Mao's experiment has produced a potent and highly disciplined force. Listen to the workers chant: "The communist party is like the parents, the people's commune is like heaven. The parents love their children dearly, the latter enter heaven and lie in everlasting bliss."
 The "everlasting bliss" has been purchased with freedom and human dignity, but we must not forget that these are Western concepts which the Chinese have foregone since before the time of Abraham.

 Budget Rogers and Maion expect to discuss the matter at length with both Floyd Dornay, Commissioner of the Bureau of Reclamation, and Secretary of the Interior Fred Seaton as well as the Bureau of the Budget so that no loss of time is occasioned.
 The project as originally planned some ten years ago was estimated to cost approximately \$88 million. Subsequent changes in the project and the economic situation indicate it will now cost about \$100 million. Approximately ninety per cent of the cost will be repaid to the Federal Government, which is one of the highest percentages of repayment to the Government for Federal reclamation projects.
 "I am delighted and pleased that plans can go forward for the possible early construction of the Canadian River Dam," Rogers said. "It's completion will mean much to the Panhandle and South Plains area, and we expect to waste no time in doing what is necessary here in Washington."

Salmon: Fish Fit For The Epicure

By CECILY BROWNSTONE
SALMON'S REPUTATION for being an epicurean food is richly deserved. Steaks cut from the fish can be attractive supper-party fare. Easy to prepare and serve, they are rich enough to make guests feel sumptuously fed.

If the steaks are broiled or pan-fried you can do no better than to offer them with lemon wedges, fresh asparagus or green peas and new and minced fresh dill. When the salmon steaks are steamed and served hot, Hollandaise and broccoli are delicious go-alongs.

If the steamed steaks are to be served chilled, take a cue from fine chefs and offer them with cooked green peas, diced carrots and sliced snap beans folded into homemade mayonnaise. This version of the classic Salade Russe may have a crisp American addition—finely diced celery.

Another great accompaniment to chilled steamed salmon is finely diced cucumber folded into sour cream or sour cream substitute. We have mentioned the latter so often that by this time our readers probably remember that we made it in an electric blender with an 8-ounce portion of cream-style cottage cheese (small or large curd), 1/4 to 1/3 cup buttermilk or fresh milk, 1 tablespoon of lemon or lime juice and a dash of salt. We strongly recommend the formula on weight-watchers.

On a cool day we like to cook the steaks in the oven and use any pan juices in a white sauce to which we add oven-steamed carrots. It doesn't sound exciting, but wait till you taste it. The carrots become richly sweet and add color and flavor to the sauce. Light cream instead of milk may be used in the white sauce but in this day of calorie-counters and budget-watchers we find it quite smooth and delicious as it is.

SALMON STEAKS WITH CREAMY CARROTS

Beauty At Home

By LYNN CARTER

Q. How can I renovate or stiffen a limp and lifeless-looking hair veil?

A. Lay it on a piece of wax paper, press carefully with a warm iron, and it will be fresh and crisp again.

A. What is a good system for giving oneself a "dry shampoo"?

Line a shallow pan just large enough to hold them; brush with melted butter. With swivel-blade vegetable peeler, pare carrots and cut crosswise into thin rounds. Pile carrots onto a foil rectangle; dot with 1/2 tablespoon butter and sprinkle with 2 tablespoons water. Bring up long ends of foil to meet and fold over double; fold over ends several times to seal. Bake salmon and carrots in foil in a moderate (375 degrees) oven 20 minutes or until fish flakes easily. Remove fish and carrots. Lift steaks with wide spatula to serving dish turning them over (for best appearance) and keep warm; sprinkle with salt. Pour salmon liquid into a measure; add enough milk to make 1 cup. Melt 2 tablespoons butter in a 1-quart saucepan over low heat; stir in flour. Add milk mixture; cook and stir constantly over low heat until thickened and bubbly. Add carrots and salt and pepper to taste; reheat if necessary. Stir in sherry. Spoon around steaks; garnish fish with parsley—minced or in sprigs. Makes 4 servings.

Note: If salmon steaks are frozen, thaw before using.

A. Beat the whites of two eggs as stiff as possible, then take this a handful at a time, and rub it into the scalp with a light, circular movement of the fingers. Dry in the sun for about 20 minutes, then brush with a clean brush for several minutes. This will leave the hair soft, fluffy, and clean.

Q. How do I avoid the annoyance of having my fingernail polish constantly running into my cuticles?

A. Possibly you haven't been assuming the correct position for this operation. Lean your elbow on a hard surface with your arm up and the palm of your hand facing you. Then bend your fingers toward you, making sure that the nail tips are facing downward. While the hand is in this position, apply your polish.

Q. Will you please suggest a good hip-slimming exercise?

A. Lie flat on your tummy, with your head resting on folded arms, legs together and outstretched. Lift left leg, holding the knee stiff, and describe a wide circle, moving the leg to the left, to the right, then down. Without resting your leg on the floor, describe 10 complete circles. Now do the same with the right leg. If practiced regularly, this is an excellent exercise!

Grandma America Says Keep Going, Be Happy

BY VIVIAN BROWN

You can keep young if you keep busy, says Mrs. Eugenie Carothers. She's the 73 year-old dynamo who just has won the title "Grandma America" in the first contest of its type. "If you maintain a young outlook, you can't sit around moaning about your health and that dropped stitch," she advises older women.

You must be part of our times to keep youthful," says the cheerful grandma who has retired from three jobs and is now copy and proof reader for the Canonsburg (Pa.) Daily Notes.

You don't have to do a big job to keep busy, she reminds her contemporaries.

"It can be those community enterprises that are important civic responsibilities. They don't pay cash. The rewards are in your mental outlook and the spirit of accomplishment.

Grandma loves work. "I've been reporting, doing columns and proofreading off and on since 1914," she explains.

"At 68 the editor drafted me for this job, and I took a refresher course in English to be sure I hadn't forgotten gerunds, participles and what have you."

Busy women stay healthy, she says.

"You will not have time to

MRS. EUGENIE CAROTHERS think about those aches and pains of arthritis if you keep busy. A little pain will disappear before you have time to think about it. Take an interest in the news of the day.

Don't sit in a corner and brood as you watch the world go by. Knit in your spare time, if you have the time, but don't glue yourself to it," she advises.

Grandma used to knit, do afghans, and dream, in between jobs. But she now is too busy. "Keeping alert" to fritter away her spare time.

She was dumbfounded when she was selected to represent Pennsylvania in the Grandma America contest.

"I just thought it was another rejection slip when the letter came. When I opened it, I almost

fainted," she says. "Everybody on the paper was thrilled."

"The girls insisted that I looked too young. "Better take your birth certificate with you to the finals," they kept saying. "No body will believe you are 73."

There were 20 finalists in the contest. The judging was based on civic achievement, domestic achievement and personality. The eldest grandma in the group Mrs. Carothers stole the show from the beginning.

"I never saw such wonderful group of women," she says. "There was no rivalry, no cattiness among those women. Do you know that every one of them wanted me to win," grandma says with pride in her voice.

She has been winning friends

for long years, so it comes easy. "When you work hard, you get to know people, how they live, what they enjoy. You get to like everyone for one reason or another," she says.

A Gold Star mother, she had three boys and one girl, now has five grandchildren. Her winnings in the contest included a \$500 bond, a sterling silver service, a fall wardrobe of 12 dresses ("and what in the world would I ever do with 12 dresses? hats, and the grand prize—a trip to Rio De Janiero with a friend with hotel expenses paid for a week.

The "friend" she invited was a new acquaintance, Mrs. Elizabeth Conway, who was a runner-up in the contest as Grandma Greater New York. Grand-

How Can I?

By ANNE ASHLEY

Q. How can I repair veneer which has become loosened on the edge of a piece of furniture?

A. First remove the finish from the area and steam the veneer with an iron and a wet cloth to make the veneer pliable. Scrape out the old glue from under the veneer with a

scrap of sandpaper, and work new glue in with a spatula or wire. Cover the surface with newspaper and pile books on it until the glue has set. Then sand the area lightly with fine sandpaper, wipe on varnish - and oil, rub with rottenstone, and wax.

Q. How can I renovate the white tape on my venetian blinds, which has become soiled and dingy looking?

A. You can improve the appearance 100 per cent by applying some white shoe polish to them. An old toothbrush makes a fine applicator.

Q. How can I keep my goldfish from constantly leaping out of their bowl?

A. A hairnet, affixed around

the top of the bowl, will keep your fish in bounds.

Q. How can I remove lipstick stains from materials?

A. Place a white towel or cloth under the material where the stain is, then rub into the stain a paste made of soapflakes and a little water. Sponge the cloth with a little clear water and, if the material is washable, launder in the usual manner.

Q. What can I do about doors that stick and are hard to open and close?

A. Put some wax on a cloth, and rub this on the door edge and facing where the door is causing the trouble. This should alleviate the stickiness.

San Patricio A Ghost Town Since Execution Of Women

SAN PATRICIO, Tex. — Late in the afternoon of a November day in 1863, residents of San Patricio stood in Constitution Square near the county courthouse.

The women were silent. The men clustered together and talked in low voices.

San Patricio was a small Irish colony built on the Nueces River near Corpus Christi.

A door at the rear of the courthouse opened and John Gilpin, the San Patricio County hangman, led out a

woman in shackles. The woman was Chipita Rodriguez. She had been condemned for murder.

Chipita, slightly built and past middle age, climbed a wagon unaided. She seated herself on a cypress coffin.

As the ox cart passed, many of the San Patricio folk dropped their eyes. Some believed her innocent.

She was accused of murdering a horse trader named John Savage with an ax. Her accusers said the motive was robbery. Savage carried gold in his saddle bags when he stopped to eat at Chipita's small wayside inn. She was supposed to have heaved his body into the river.

Chipita was tried before Judge Benjamin Neal of 14th District Court in San Patricio, the county seat. A jury found her guilty, but recommended mercy because of her age and because she was convicted on circumstantial evidence. Judge Neal sentenced her to be hanged.

Some of the townspeople trail-

ed after the oxcart until it stopped beneath a giant mesquite tree beside the River. Gilpin affixed the noose.

The cart was driven away, and Chipita's body jerked at the end of the rope. A witness reported there was no cover on her face "to conceal the horrors of strangulation."

She was pronounced dead and her body cut down. A grave was quickly started near the base of the tree. As soon as it was deep enough, the coffin was lowered into the ground and covered.

One witness said later he "heard a thump and a subsequent groan from the coffin" as it was dumped into the open grave.

Thus ended the hanging of Chipita Rodriguez — the first and so far last legal execution of a woman in the state of Texas.

The people of San Patricio never forgot. Hangman Gilpin had to requisition the ox and cart because no one would loan them to him.

After the execution he was driven from town by dark looks and mutterings of the townspeople.

There are a few dusty records of the trial in the county courthouse at Sinton now, but historians have chosen largely to ignore the hanging.

Only a grassy depression marks the spot where Chipita was buried. The hanging tree to remind people of Chipita Rodriguez was struck by lightning soon after the execution and was cut up into cordwood.

Little actually remains today to remind people of Chipita Rodriguez except countless legends and tales about her ghost.

Many persons have claimed they saw Chipita walking slowly along the riverbank, and frayed noose dangling from her neck.

The folks who gather at Hugh McGown's general store in San Patricio nowadays still talk of Chipita's hanging.

They tell of how Savage, who had just sold some horses to the Confederate Army, stopped at Chipita's inn. His body, wrapped in burlap bags, floated down the river a few days later.

Suspicion centered on Chipita and her illegitimate son, Juan Silvera. Both were indicted. Chipita pleaded innocent. Thereafter she didn't speak again during the trial.

"We, the jury, find the defendant Chipita Rodriguez guilty of murder in the first degree, but on account of her old age and the circumstantial evidence against her do recommend her to the mercy of the court," the verdict read.

Silvera was convicted of second degree murder. He drew a five-year prison term.

Disregarding the jury's recommendation, Judge Neal the next day ordered Chipita "to be closely and securely confined Friday, Nov. 13, 1863, when she will be taken to the place of execution and there between the hour of 11 o'clock and sunset be executed by hanging by the neck until she is dead."

Some other oddities about the case:

1. The saddle bags — containing \$600 in gold — were found on the river bank before the trial. That seemed to eliminate robbery as the motive.

2. The foreman of the grand jury that indicted Chipita was William Means also the sheriff who arrested Chipita, and appeared as a witness against her.

3. Four members of the grand jury has been charged with crimes ranging from rustling to murder.

4. Owen Gaffney, the trial jury foreman, was also chief justice of the county. George McGown, George Williams and J.E. Hendrickson are listed in the district court records as members of both the grand jury and trial jury.

At the time of Chipita's trial, San Patricio was one of the most flourishing towns in the area. Once it had a population of nearly 1000. By 1920 even the post office was gone.

Today it is almost a ghost town. Hugh McGown's store is the only business place. McGown's wife, 71, is one of the persons who have always believed Chipita innocent.

While there are many legends about her innocence, the one mostly agreed upon at the McGown store is that Chipita kept silent and went to her death because she thought her son guilty. He refused to talk because he thought his mother guilty.

Another legend is that 25 years after the hanging, an old man made a deathbed confession of the murder to Sheriff Dave O-dem, Jim Odem of Sinton, the

Termite Detection

Look for tiny vertical tubes of earth running from the ground to the wooden part of your house. The termites use these as tunnels. Look for small, silver-colored wings on the basement floors or the floor of any part of the house. Take some of them to an exterminator to determine whether they are the wings of termites or of ants. Stick an ice pick or other sharp tool into posts, girders, or other suspected areas, and if it penetrates easily, you probably have termites.

When Darning

To relieve strain on your precious eyes when you are darning hose, use a small electric light bulb as a darning egg. When the lamp is lighted, your work is easily discernible.

Handy Gadget

A small carpenter's coping saw, added to your other kitchen cutlery, proves invaluable

sheriff's son, discounts that story.

Oldtimers say Chipita's ghost came back to haunt Juan Silvera after he left prison. Guests of the late Miss Lida Dougherty of San Patricio said they saw the ghost back in the 1930's peering through rooms of the Dougherty house. Those who believe in Chipita's innocence also are convinced her execution caused San Patricio to lose its prosperity.

"Could a more unholy or natural thing have happened in an Irish village?" Miss Dougherty asked after the hanging.

for cutting through meat bones when carving or preparing a roast.

Needle Cleaner

Run a strip of fine emery paper back and forth under the pressure foot of your sewing machine, so that the needle will penetrate the paper rapidly. This will sharpen and polish the needle so that it will operate efficiently. Rusty needles can also be polished in the same way.

Non-Skid Bowl

A wooden chopping bowl will not skid around over a table if it is supported on the opening of a cooking pan about half its size. Also, the bowl can be shifted or tilted to any angle to facilitate your chopping.

Fingernail polish can be used to paint wooden buttons for dress trimmings.

Care of White Knits

White knits need special care. Keep them in dark blue tissue paper or in blue plastic bags, even when the knits are kept in drawers. This will avoid any danger of their turning yellow and will preserve the freshness of the white, even after repeated wearings.

Too Much Upholstery

Excessive use of upholstered furniture in a room often gives the room a "stuffy" appearance. This can be relieved by use of occasional pieces of wood furniture, such as a delicate mahogany end table or side chair.

Pin and Needle Holder

An empty lipstick container can be converted into a pin-

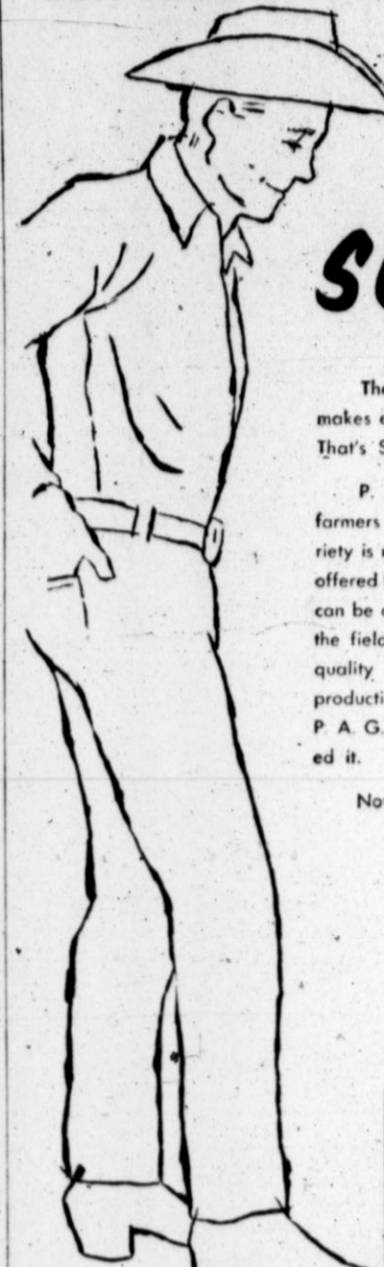

and-needle case. Remove the lipstick residue, and pack the holder with cotton for a cushion.

Enameled Brass
Enamel will not adhere to

brass unless the surface has been prepared correctly. A thorough washing with any household cleaner that does not contain soap, followed by a wiping with denatured alcohol, is all that is needed.

WEST TEXANS SAY OF P-A-G

**MAN...
that's
sorghum!**

The way P. A. G. Sorghums look in the field makes everybody who sees them exclaim "Man, That's Sorghum!"

P. A. G. has earned the confidence which farmers have in this sorghum. Each exclusive variety is researched, tested, and proved before it is offered for sale. Then when you plant P. A. G. you can be confident that not only will it look good in the field, but it will provide top yields. Careful quality control through triple isolation on seed production pays off in your field when you plant P. A. G. Sorghums. Hundreds of tests have proved it.

Now is the time to book your P. A. G. seed.

HUMBLE OIL & REFINING COMPANY — America's Leading ENERGY COMPANY

AT THE RODEO: Mrs. John Ackel, a fourth grade teacher who doubles as a cowgirl, comes out of rodeo chute aboard a bucking bull.

Teacher's At Home In Arena Or School Room

HAMSHIRE, Tex. (AP)—Fourth grade youngsters in East Chambers elementary school like to boast that "teacher is a cowboy." Cowgirl would be correct.

On week ends, pretty, blonde Tony Ackel is a rodeo rider and takes her share of the spills and thrills.

Tony, wife of high school teacher John Ackel, is a barrel racer. Her husband not only approves of it but goes in for rodeo sports himself.

What does a barrel racer do? She circles three steel barrels, set up in a triangle in the rodeo arena, at breakneck speed astride her pony.

John is a bulldogger. His steed is an angry critter with ugly horns and usually, Ackel says, "so ornery even his own mother hates him."

On week ends the two head out in their trailer for nearby rodeos and a shot at the prize money.

Tony, who takes part in the

colorful horseback drill opening the rodeos and who has been known to ride a bull on a dare, has had one serious mishap in the arena.

A horse she was riding in a barrel race 12 years ago fell on her and she had to stay on crutches for months.

ENJOY SUPPER

Mr. and Mrs. Del Brunstetter of Alva, Okla., visited this week end in the home of her sister, Mr. and Mrs. Jerry Albracht of Hereford. The two families went to the home of their parents, Mr. and Mrs. George Parker, Sunday night for a supper in the back yard.

LABOR DAY VISITORS

Mrs. J. R. Allison and daughter Ruth Ann spent the Labor Day week end in Dallas.

As early as 1787 Pennsylvania legalized driving vehicles on the right hand side of the road.

put me back on the potato sack, which was my saddle." And she remembers he then gave her a word of advice for all time: "Keep going, girl."

QUALITY YOU CAN MEASURE

BY YOUR CAR'S PERFORMANCE

THIRD TIME'S CHARM

CHICKASHA, Okla. (AP)—A 90-year-old motorist struck a horse and rider with his car, knocking them into a ditch. A short distance away he barely missed an ambulance but collided head-on with a wrecker.

Kings Canyon, a national park in California since 1940, is famed for its giant sequoia trees.

WEEK END VACATIONERS

Mr. and Mrs. J. K. Baker and niece Carolyn Venable from Pawnee, Okla., and Mr. and Mrs. Stanley Stump from Amarillo spent Saturday at Lake Conchas in New Mexico.

STUDY FOR SATISFACTION

TOLEGO, Ohio (AP)—Promising junior a new sports car for all A's on his report card, a new suit for B's or a fishing rod for C's is not the proper way to get him to study harder, says an authority on mentally disturbed children.

VISIT IN PLAINVIEW

Mr. and Mrs. J. C. Asher spent the Labor Day week end in the home of her parents in Brownfield, Mr. and Mrs. W. H. Ely, Arnold Yell, who has spent the last three weeks in Plainview with his grandparents, Mr. and Mrs. O. M. Yell, returned home with the Ashers Monday night.

Prophets of GOD

That's what they were. They were of great faith, these Trail Blazers, and most surely they were commissioned of God. On their westward trek, they built homes, planted families and erected churches and schools. *These dedicated pioneers set out to finish what had been intended in the first place.* God commanded, "go ye into all the world," and these imbued started their journey which has made life more abundant for all of us. No sacrifice was too great. *They were living examples of Americanism and true ambassadors of a great God.* Now, may we take heart and from their consecrated example, erect crosses for Christ and lead those about us to a richer, fuller life in Him.

You In The Church
 The Church In You - form a combination for good. Every man, woman and child needs the influence of the church. So, come let us go into the house of the Lord. Let us support her program of service to humanity, be a faithful worker, a daily bible reader and attend services regularly.

the situation, the State Parks Board says it will re-consider the whole thing at its October meeting. Both sides are to be given a chance to present their views.
Pistol - totin' Curb Urged - Legislation to close the loopholes in present state law governing sale and possession of pistols may be offered in the next session.
Atty. Gen. Will Wilson ruled that the law requiring the presentation of a certificate of good character before buying a pistol is not enforceable.
In 1958, the opinion pointed out, the Court of Criminal Appeals ruled that this part of the law was unconstitutional because the caption of the bill passed by the Legislature did not sufficiently explain what was in the bill.
Local peace officers were quick to call for corrective legislation. Lawmen feel there should be curbs on who can buy concealable weapons and records of purchases so the police can check on who made them.
Old Age Rolls Dwindle - Though the number of oldsters in the state is increasing, the number receiving state old age assistance checks is declining and is expected to drop still more.
This conclusion was contained in the report of a subcommittee to the state Conference on Aging.
Drop in the state pension rolls was attributed to more Social Security benefits, more company retirement plans, more oldsters working or receiving other support.
Auto Inspections Begin - Period for having official auto safety inspections made in Texas begins this month.
Cost of an inspection is \$1

plus any needed repair for motor safety. Average cost to each vehicle owner, including the repairs, was \$2 last year.
SHORT SHORTS - Commission on Higher Education has announced that the 19 state-supported colleges and universities have asked for appropriations running 39 per cent above present spending... To make the road map reader's job easier, the State Highway Commission has given a single route number to the most direct highway connection between Huntsville and Paris. Now named State Highway 19, the route formerly had five different numbers... Worst plague of army

worms in years is blighting the lawns of Texas home owners from Central Texas down to the Coast. State Department of Agriculture recommends spraying with DDT or toxaphene.

DO YOU KNOW?
That the drug industry and drug stores, to justify the high prices of medicines, have started comparing their prices to those of the movies. To us in the movie theatres this is highly complementary. To have the great drug industry recognize the value of motion pictures as a necessary element for the relaxation needed for your health's sake.
Relax and enjoy a good movie often.
