## Recover Narcotics Stolen In Burglary Here July 1

A partial quantity of narcotics stolen from Rogers Drug July 1 was recovered beside U. S. Highway 385, about 100 feet inside the Deaf Smith County line, Tuesday evening.

Sixteen unbroken bottles, 11 of them with contents, and four broken bottles and scattered contents were found five miles south of the city, on the west side of U. S. 385. The narcotics were found by Lee Roy Smithers, 831 Brevard

St., an employee of the Texas Highway Department. He was cutting weeds around highway signs when he noticed the bottles.

"There were too many bottles in one pile and they were too close to the county line," Smithers said. Therefore, he explained, he became suspicious and called Hereford police.

"People just don't use that many pills," he added. Contents of the bottles were identified as containing narcotic drugs. All the bottles had broken federal stamps, or indicated that they had at one time been sealed with stamps, police said.

The bottles were found within a 20-foot area about 100 feet north of the county line. Smithers was working with two other Highway Department employees when he discovered the bottles.

Assisting police Capt. L. B. Bartlett and patrolman Bobby Roberts in investigating was Deaf Smith County Deputy Sheriff L. R. Cherryhomes.

Contents were tentatively identified as follows: 213 tablets of morphine and codeine; 78 tablets of half-grain codeine; 17 tablets of Demerol; and 49 tablets of edrial with codeine.

A total of 260 tablets were contained in five other bottles. Contents of all the bottles will be analyzed, Capt. Bartlett said.

A \$1,052,568 budget for 1960-61 was adopted by unanimous vote of the Hereford Rural High School District Board Tuesday night in the trustees' board room. That figure constitutes a \$92,221 increase over the budgeted allotment of \$960,347 for last year's school term.

Major increase in the budget was due to a \$200 per year raise "across the board" for all classroom teachers, recently approved by the trustees.

Last year's budget provided \$593,353 for teachers' salaries. The budget approved Tuesday night provides \$643,779, an increase of \$50,426.

Other major increases included \$12,000 for replacement of vehicles, under pupil transportation, and \$10,000 for proposed paving and sidewalks, under capital outlay.

Under maintenance of plant, a \$5,000 increase was provided for contracted services. School district taxes, assessed at the rate of \$1.70 per

\$100 of property valuation, will bring in about \$572,308 of the total required for the public schools in Hereford and Dawn this year.

Revenue from state sources is \$479,560. The county available fund totals \$700.

Last week, the trustees passed a motion to set the 1960 school tax rate at \$1.35 on the \$190 valuation for local maintenance and at \$3.35 for interest and sinking fund requirements.

Total administration costs

budgeted was \$43,000, compared to \$39,383 last year, for a \$3,617 increase.

Instructional salaries adopted totaled \$647,779, compared to \$597,353 last year for an increase of \$50,426.

A total of \$400 was provided for textbooks, a \$300 decrease under last year.

The budget provided \$5,230 for library and audio-visual material, a \$1,380 increase over the \$3,850 provided for the 1959-60 term.

Total elementary teaching supplies constitutes \$6,220, compared to \$5,848, for a \$372 increase.

A total of \$16,005 was provided for high school teaching supplies for \$2,660 increase over the \$13,345 provided last year.

# Boys Find Good Business In Selling Motor Scooters

By SUE MUECK  
BRAND STAFF REPORTER  
It's a job but it sure is fun, say Albert and Phillip Sciumbato, possibly Hereford's youngest businessmen.

Albert, 15, and Phillip, 13, repair motor scooters and sell new models at their own shop, which they named "Al's Scooter Sales."

The boys own and operate their own shop at their home, about four miles southwest of Hereford. They have had the Cushman dealership since June 1, 1960.

Last year the boys had a fruit stand on Highway 60 and sold fruit and gardening tools to make money to buy their first used scooter.

With the money they bought

THEY'LL MAKE IT RUN - that's their job. "Al's Scooter Sales". their first scooter, and later were able to buy a new scooter.

Albert likes to work with machines and take things apart. He was always taking the scooter apart and working on it. So he decided he would like to have scooters and parts to sell and also do a little repairing.

"We heard the scooter advertisement over the radio and we decided to write and ask if we could get a dealership," the boys said.

To get the franchise, they had to order parts and three scooters. The district manager for the company came over from Roswell, talked with the boys and gave them the franchise.

"We thought he might not like the boys having the shop out in the country, but he

thought it was an ideal location," Mrs. Sciumbato said.

The district manager comes over about once a month to help the boys order, to give advice, answer questions and see that they are doing okay. He said within a year the boys ought to come out on top.

They have three scooters in stock now and have three more on order. One of the scooters on order has been spoken for.

So far they have sold two scooters — a blue one to a boy in Hereford and a white one to a boy in Friona. The parts have been selling especially good.

"We have at least one customer a day, and sometimes three, four or five. Sunday is a good day because it gives

the boys a chance to come out and see the scooters," they said.

"The most popular model is the super model. The black ones were once real popular, but they must have gotten tired of them," Phillip said.

"We had the first white scooter in Hereford, and we sold it before it was broken in good," said Albert.

The boys have two sisters, Linda, 3, and Joan, 8, who like to ride on the scooters. They have burned legs all the time from the exhaust pipe, Mrs. Sciumbato said.

"We think being in business is just wonderful. The only thing we don't like to do is in order. Mother helps us order," the boys said. (Continued on page 2)

FRIO NEWS

# Joseph Findley From WT Guest Speaker At Church

By MRS. OWEN ANDREWS  
Visiting speaker at the Frio Baptist Church services Sunday morning was Dr. Joseph Findley, professor of education at West Texas State College. He and Mrs. Findley were guests of the Baldwins at lunch.

An ice cream social at Dameron Park in Hereford furnished entertainment for several Frio residents on Friday evening. Freezers of homemade ice cream and cakes were brought. Visiting and croquet were the order of the evening.

The Warrick family gathered at the home of Mrs. J. E. Warrick Jr. last week. A grandson of Mrs. Warrick's, Clifton Warrick, who is stationed with the Army at San Pedro, Calif., was here to visit. He was accompanied by his wife. Others here were Velman Warrick and his son, Glenn, and daughter Frances, of Wellington. Also Mr. and Mrs. Lawrence Warrick of Wellington came to the family gathering and to visit their daughter, Mrs. Joe Lindsey and family.

Mr. and Mrs. Earl Harkins visited his sister, Mrs. Gene Welch and family in the Black community Sunday.

Mrs. Earl Harkins and Russell visited her mother, Mrs. Lucille Reeves, and Harkins' parents, Mr. and Mrs. F. B. Harkins, all of Plainview, one day last week.

Floyd Cole and Harold Shearhart came home Saturday from Houston, where they have been with the Earl Coles. They report that Cole is still ill, but that the doctors think he is recovering from his recent operation satisfactorily.

A family reunion was

held at the Lloyd Shultz home July 31. Those attending were Mr. and Mrs. Frank Padac, Patsy and Kenneth of Buffalo, N. Y., also a friend of Kenneth's, Carmine Deangelo, of Brooklyn, N. Y., Ray Shultz and children, Linda and Lance of Fairfield, Calif., Mr. and Mrs. C.C. Shultz, Pat and Judy, of Alvarado, Mr. and Mrs. Alvin Shultz, Roscoe.

Mary Shultz, daughter of Lloyd Shultz, spent the week here. She returned to her school at Browns in Austin on Friday. An aunt, Mrs. Ed Shultz, of Loraine also was here to visit with the brothers and sisters. Mr. and Mrs. J. C. Walker, Alamogordo, grandparents of Mary and Joe, were here for the gathering.

Mrs. Padac is a sister to the Shultz brothers, and had not seen Ray Shultz in 13 years. Cameras were busy and Padac took many movies of different things on the farm. One thing of special interest to all of them was the B. & O. plane dusting the cotton. Also scenes of the

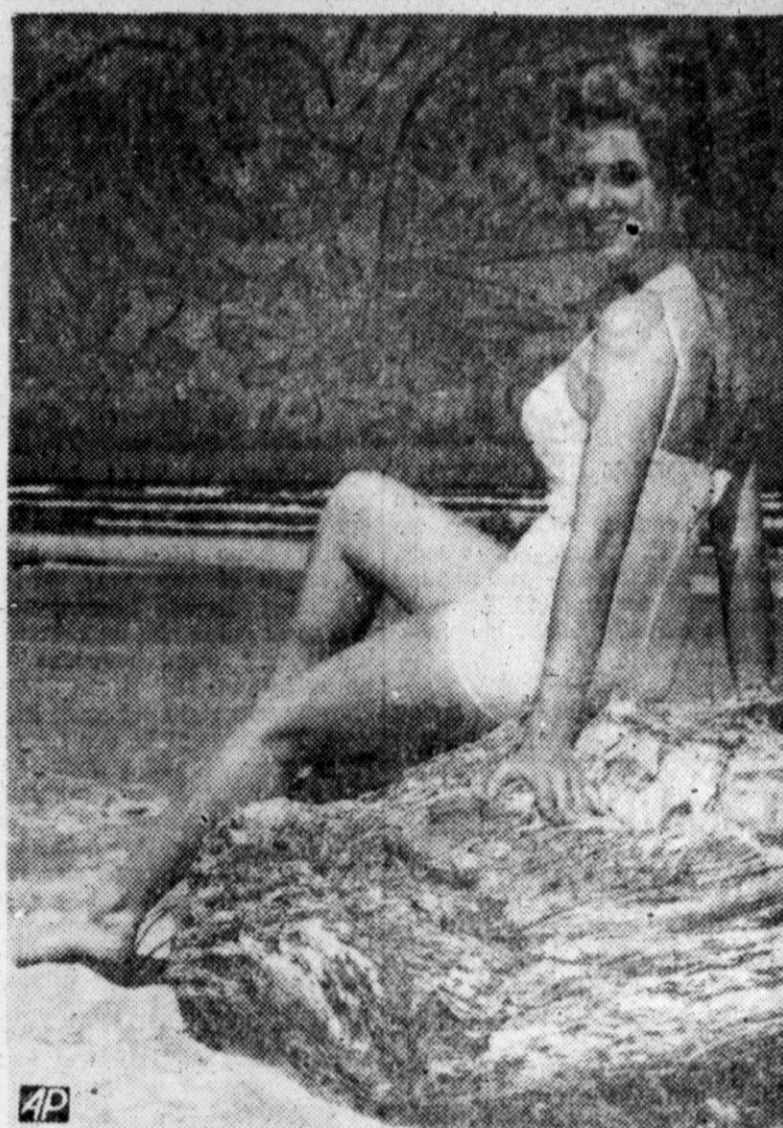

true west interested them, such as the young boys riding some steers. Padac said they would have to show the New Yorkers that Texas is all it claims to be.

Also visiting the Shultz home last Sunday evening were Mr. and Mrs. Olin Parris and Clark Andrews.

Mr. and Mrs. Harlan Barber, Jimmy and Virgil attended funeral services for Mrs. Barber's uncle, J. S. Barber at Lubbock on Sunday afternoon.

Mesdames Weldon Stephans, Owen Andrews, T.L. Sparkman, Misses Alma Andrews, Bonnie and Darlene Sparkman and Rhonda Stephan were in Amarillo Monday. The ladies were a committee designated by the Frio Church to report on possible choices in selection of a church organ.

Mrs. Addie Bingham of Valiant, Okla., is visiting her daughter, Mrs. Bill Warrick, for several days. She came home with Mrs. Warrick when she was visiting in Oklahoma recently.

## Letter To The Editor

To the Citizens of Deaf Smith County:

As I listened to the platform of the Republican Party and am still trying to digest the platform endorsed by the Democratic Party, it seems fitting to present a platform which your Chamber of Commerce is trying to perform. I hope you realize that each of you is an active member of your Chamber of Commerce and that the Board of Directors is dedicated to helping solve all of our community problems and planning advancements. In order for us to fully perform our duties, it is necessary for your wishes to be expressed to us and for you to take an active part in the accomplishment of these desires. Together with the advantage of being the Hub of a garden spot of the U. S. A. (with our cattle, vegetables, wheat, milo, pastures, etc.), we can develop our County to any degree that we so desire.

First, whether you are a Republican or Democrat makes no difference. It is necessary and essential that each person understands the operation of our Government, and that each person acquaints himself in advance of each and every bill that goes before the House or Senate. In our form of Government the individual person must decide his view - points on all legislative matters and so inform his Congressmen and Senators of his beliefs in order for our Congress to express the will of all the people. Your Chamber of Commerce, in the near future, will set up the necessary mechanism so that your views may be presented to your Congressmen.

Second, your Chamber of Commerce is attempting to expand the advantages of our part of the country to the whole United States; however we are limiting our attempts of new in-

dustries in this area to the basic improvement of the resources that have made it possible for this county to grow. That is, we are working on additional sugar beet acreage for this area, which in turn will expand the cattle feeding industry by using products which we produce agriculturally.

Third, we have put our town and county's name in the pot for attachment to the Canadian River Dam project. We have not committed ourselves; however, if in the distant future it becomes necessary for us to rely on this type of water we will then be in a position to bargain.

I would appreciate any help or new ideas to be presented to the Chamber of Commerce in order that we may more fully carry out your wishes and make our county the most progressive area in the United States.

Sincerely,  
C. Palmer Norton,  
Pres. Deaf Smith  
County Chamber of  
Commerce.

## Stevens Speaks To Rotary Club

Paul Stevens, superintendent of Hereford Schools, spoke to the Rotary Club Monday, Aug. 8, on the school finance program.

"All state finance is based on the actual attendance of the students. The teachers' daily register is the basis of the accounting," Stevens said. The actual attendance is divided by the number of days that school is in session, Stevens explained. That result is divided by 26, which is the average number of students in a class. This is the class teaching unit, he said.

The state pays according to the number of class teaching units in the school. The state guarantees a base salary for the number of class teaching units in the system. In Hereford, the school pays the teachers \$500 over and above the state base salary, Stevens said.

The school can hire the special teachers according to the number of students enrolled in the course. The state pays on the transportation also, Stevens said.

This year there will be 208 persons in the school system, and an enrollment of 2,800, he said.

"The school district is yours. It will be whatever you make of it, and it can be no better than you want it to be," he commented.

The biggest problem is the parents who have a criticism and will not come in and talk about it, Stevens said.

"The office is always open, and we are always ready to talk to you concerning the school. It is for the interest of the children, we want to discuss it," Stevens concluded.

A birthday cake was baked and decorated for the occasion by Past President Lady Anna Conklin, featuring the I. A. P. M. emblems.

A short business session was held with the Canton, Captain Chevalier A. R. Rogers Presiding.

Lady President Cora Lee Lovin held a very short business meeting of the Auxiliary.

## Coach Talks To Optimist Club

Bobby Williams, head coach for Hereford football team, spoke to the Optimist Club Tuesday, Aug. 9, concerning the team for this year.

"This year we are counting on about 46 boys on the varsity and B-teams. There are about 25 boys ready for the varsity team," Williams said.

Football practice will begin Monday, Aug. 15, when season tickets go on sale, he explained.

Last year the teams Hereford played were all rated top teams in the state. "This year we are very optimistic about the season," Williams said.

"We always try to teach the boys something that will help them in later life," he said.

er, regarded by the inspector, and ungraded by the state experts. Any man who can think up a new way of rejecting potatoes is called a horticultural inspector and given a \$10,000 job by the state.  
After the grower does all this, and gets what potatoes are left over to a broker. He is called this because he is the same as the grower, only broker. This man sends them 2,000 miles away and has them looked at by a color blind confederate who telegraphs back that they can't handle the car at any price on account of lack of color. Try to get a half dollar per hundred weight.  
Then they call in the grade guesser. This paid guesser is

called an inspector by the authorities, a crook by the buyer and a fool by the grower. After two or more telephone calls, the grower says: "All right, do the best you can for me, will you?" and goes out to load another car.  
The broker brings them back to the next town, sells them for 10 per cent less than the price of the empty sacks and deducts freightage, demurrage, storage, lighterage, towage, breakage, postage and his own age. That leaves the grower's children entering the orphanage.

I figure the price of potatoes must have gone back up, on account of Coleman McSpadden promised me some potatoes and onions - and I

never did get them. A low market is tough on the grower, but it sure does help us moochers.

Most of the youngsters I see are reluctant to start back to school in a couple more weeks, but some of the parents seem to have an entirely different outlook. All in all, I guess our schools are probably the most expensive baby sitters in the world. A few more timely rains, though, and I guess we can afford them.

Colby Conkright was glad to get the two - plus inches of rain on his place Tuesday night, but found it a bit inconvenient Wednesday morning when he rode a horse two

# Mr. And Mrs. K At A Moscow Breakfast Table:

VAUGHN FAMILY REUNION was held Sunday in the Community Room of the First National Bank in Hereford. Among those attending, seated from left, were: Ida May Vaughn (with Elaine Cook), Dick Vaughn and Ruby Anthony (holding Mark Anthony on her lap.) In back row are: Carlos A. Vaughn, Pete Vaughn, Tommy Vaughn and Frank Vaughn. (Staff Photo)

To the people of the 18th District: Chit - chat at a Moscow breakfast table:

MRS. K. Good morning, dear Mr. K. You look grumpy as an old bear this morning.

MR. K. Now you know very well I'm supposed to look like an old bear - what would all those decadent Western cartoonists do if I looked like Cupid?

MRS. K. Well, you'll feel better when you get to work. I'm sure there'll be plenty of capitalists needing to be buried.

MR. K. Maybe so, mama, but I don't know. It isn't easy being a Moscow bear in and day out. It takes a little initiative. Coming up with new ways to be nasty all the time can get pretty tough.

MRS. K. Oh, you'll think of something. That last plane you shot down was a real stroke of genius.

MR. K. Yeah, but that's getting to be a pretty old dodge. And those Americans made me look kinda silly at the UN, proving the plane was really over international waters and all that. I guess they caught on after the U-2 business.

MRS. K. Why don't you stir up a riot someplace? That's always fun, and it cheers you up so.

MR. K. But I've done that already - Japan, South America, Turkey, Korea - and that's getting pretty dull lately. Besides, school starts again pretty soon and you can't expect those professors to let students keep cutting classes forever. Incidentally, what

would really cheer me up is a little bacon for breakfast that isn't so raw.

MRS. K. But you always said it makes you more quarrelsome, dear. After all, you might want to raise a big stink about American bases today. I liked that speech Malinovsky made about using rockets against countries that allowed planes to take off from their territory.

MR. K. That shook 'em up okay, but they're beginning to wise up and ignore it. What I need is a really good disappointment to throw at them. I'd break up another talk at Geneva except they're beginning to expect that now after the disarmament talks walkout. There's always that Cuban business, but even that has its drawbacks.

You never know what that fuzzy revolutionist over there is likely to do next. He's beginning to be such an expert at denouncing the United States that makes me look bad. If that little pipsqueak is trying to put me in the shade just because he's got more hair he's got another think coming. Think look pretty bleak all the way around.

MRS. K. What about all those struggling classes that are being exploited in the underdeveloped countries you've been shinning up to lately?

MR. K. I've been working on that. Did you see that attack I had Pravda make against the United Nations in the Congo - the one that accused the United States of being behind the whole thing?

MRS. K. Yes, but wasn't that kind of far - fetched? After all, the troops were all Africans.

MR. K. I guess so, but it looked good at home here. Got to keep the folks guessing, you know.

MRS. K. Yes, but you know what Lenin said: "You can fool all of the people some of the time, some of the people all of the time, and send the rest to Siberia."

MR. K. You sound like a Stalinist. After all, this African situation offers a great opportunity not just at home. Chaos and confusion are always wonderful for us as long as it's somewhere else. Those people down there are pretty inexperienced too, so it's not a total loss. The trouble is I don't know whether to be palsy-walsy or a stinker about it. We can try to get the Belgians out of there first. That looks good to the Congolese and will probably paralyze the whole area. Still, it's pretty awful not to have anything new to throw a tantrum about.

MRS. K. The League of Women Tractor Drivers passed another world peace resolution yesterday. Maybe it would be a good time to spread that around.

MR. K. Those women ought to keep their noses out of politics. They're always talking about peace when I'm talking (Continued on Page 2)

### Water In The Ground Far From Being Free

LUBBOCK — According to the High Plains Underground Water Conservation District, almost every farmer in the southern High Plains who has a well is either irrigating with it or is seriously thinking about the need to water his crops. High Plains District officials say:

"Just as in other business enterprises, to make a profit is the motivating goal of farming operations. Economists tell us that many of our farmers have paid about \$10 per acre - foot for the water that is in storage beneath their land.

"They say further that when we irrigate grain sorghum as a cash crop we can expect to make a little more than \$10 in additional income for each acre - foot of water used over what we could make if we farmed dryland.

"To begin with, you can readily see that to raise grain sorghum by irrigation is just about a break - even proposition. If an irrigator wastes even a small amount of water, he probably is giving away the little profit that he would have otherwise made.

"The trouble with the way most of us think, is that we completely disregard the fact that the water in the ground costs us money, or has a definite monetary value. It is not free. We pay good hard - earned cash for it; consequently, when we pump water to the surface and irrigate with it, we have more involved than just operational costs. We also are using up a portion of our capital investment.

"The High Plains Water District urges all who are watering, and all who will be watering in the near future, to use the water that is needed

but to use it without waste. Water that is pumped but not used to produce a crop is costly. Waste indicates a complete disregard for adequate management practices.

"We live during a time when almost everyday we see more of our rights as individuals being consumed by governmental decree behind the guise of public welfare. Even so, we in Texas still maintain the right to privately own underground water. Do we like it that way?

Once again, the High Plains Water District emphasizes - if we are to continue down the road of private ownership we must minimize waste. Wasteful exploitation of our underground water supply would be playing into the hands of more government control.

On the other hand, to use what we need without waste is merely good common-sense and conservation. The result of conservation is continued prosperity even for future generations that must look to us for the resources necessary for a more demanding tomorrow.

### AUSTIN HIGHLIGHTS

## Study Older Person's Income

By VERN SANFORD  
AUSTIN — How much income does an older person need to live decently during the retirement years?  
Governor's Statewide Advisory Committee on Aging sought to discover this and other information in a survey on the needs and problems of Texas' older citizens.

For a couple, 43 per cent of Texas counties estimated the minimum need at \$1,500 to \$2,000 a year. Thirty - five per cent set the minimum at \$2,000 to \$2,500.

For a single elderly person, 58 per cent of the counties suggested \$1,000 to \$1,500 as a minimum annual income. Twenty - four per cent named a higher figure, \$1,500 to \$2,000.

Some 4,000 persons took part in the grass - roots county - by - county survey. Recommendations growing out of their findings will be discussed at a conference in Austin on September 7 and 8. Out of this will come the Texas contributions to the White House Conference on Aging next January.

Amid all the upped budget requests, they have received lately, state officials were happily stunned when University of Texas officials asked approval to spend a comparatively pittance sum for a president's home.

UT asked to spend \$40,000 to build a home for its president Harry H. Ransom.

Last year legislative tempers blew over the \$100,000 - plus presidents' homes built by two smaller state colleges. Officials responsible for the expenditures were called on the carpet.

### Letter To The Editor

To the community of Hereford: The Hereford Work Camp wishes to express gratitude and appreciation to everyone in the community of Hereford who helped to make our stay here pleasant and wonderful. Our special thanks goes to those who went out of their way in the interest of our welfare - those who brought us food and dishes, Robert's Appliance Store for our washer, The Star Theatre for movie passes, The Hereford Brand for such wonderful articles periodically, and Buy - Rite Furniture for our stove. There would never have been a community center if it hadn't been for the work of the Migrant Council and its chairman, Virgil Dodson.

We will always remember Hereford for its friendliness, cooperation and understanding of the migrant situation. It is our hope that the community Center, Casa de Amigos, will be used to its fullest advantage, and that our services here during the summer of 1960 will not have been in vain.  
The Work Camp

This time the scene was played in reverse. "Do you really think this will be enough?" worried the Legislative Budget Board. Plenty, said UT officials. They said they'll use a site the University already owns, clear it with University equipment and cut materials costs by using "historic" bricks from UT buildings that have been torn down.

Ways to clip the wings of irresponsible drivers who carry no insurance are being studied by a committee of the Texas Legislative Council.

Spokesmen for the casualty insurance industry told the panel they were opposed to a compulsory insurance law. They suggested that pressure could be exerted by such measures as requiring uninsured drivers involved in accidents to put up a money deposit, revoking licenses, impounding cars, etc.

Committee also heard Department of Public Safety Director Homer Garrison Jr. urge a system of traffic courts for Texas. County courts are completely bogged down by the appeals from traffic cases, said Garrison.

Chances of the state's earning money by leasing mineral rights along state roadways

are not encouraging, a legislative committee found.

Committee learned from a national survey that only two oil and gas producing states get income from leasing along highway rights of way. One reported earnings of less than \$100,000

one of \$5,763.

An Attorney General's opinion recently held that the state owned mineral rights along the roadways.

But State Highway Engineer D. C. Greer reported there's not much demand for highway leases.

"Why is it difficult for senior citizens to get jobs in spite of qualifications?

"These and nearly a thousand other questions are probed in a grassroots study of the needs, resources and interests of Tex-

as' citizens who have reached their golden years.

"The results of the study are tabulated in a comprehensive report issued this week by the Governor's Committee for the White House Conference on Aging.

### Governor's...

(Continued from Page 1) medical facilities, or 4) mechanization and consolidation of farms have left them or their families jobless.

"Fifty-seven per cent of the counties reported shortages in trained personnel - mainly nursing - to provide services needed by the aged.

"Forty-three per cent of the counties, both heavily and sparsely populated estimated that \$1500 to \$2000 a year would provide a minimum, decent standard of living for a retired couple, and 35 per cent placed the figure at between \$2000 and \$2500.

"For an elderly person living alone, 58 per cent of the counties reported from \$1000 to \$1500, and 24 per cent estimated the minimum required at \$1500 to \$2000.

"A large majority of the counties pointed out that most of their elderly people cannot meet emergencies.

"There was a wide variation on the number of older persons subsisting on less than a minimum income. The majority of counties reported from thirty to seventy per cent, but 27 per cent of the counties reported fewer than ten per cent had less than minimum requirements.

"Most counties recommended an increase in Old Age Assistance as the way to bring standards to minimum. Twenty-five counties stated that provisions for some type of medical care would enable older persons to meet emergencies. 17 suggested increasing employment opportunities as the solution. Another 13 per cent would solve the problem by increasing the amount of cash reserve allowed for OAA beneficiaries or by permitting higher earnings on the part of Social Security recipients.

"A tax measure of some kind - generally at the State level - was suggested by 40 per cent of the counties reporting as a means to finance broadening of programs to raise standards of living.

"The grassroots study showed that the chief sources of livelihood of elderly people who do not receive Old Age Assistance or other form of public assistance are 1) employment, 2) retirement plans, and 3) financial assistance from relatives, in that order.

"Main reasons listed by most counties for the reluctance of employers to hire older workers despite qualifications for the job were difficulty in fitting them into company retirement plans, and doubts about flexibility to accept new ideas and methods. However, in rural counties, physical disability ranked high as a reason. Physical disability also figured prominently in a systematic special poll of small firms in Dallas.

"As for local welfare work among the aged, only 18 counties reported municipal government sponsored programs, but 108 counties sponsored welfare program of one form or another.

"One hundred thirty-eight counties reported they had no visiting nurse program. Of this number, 95 said there was a need for such a program.

"Very little rehabilitation services to the handicapped aged was noted by all counties.

"The counties were somewhat divided on whether or not there were many cases where a senile person was sent to a State mental hospital when another type of care such as nursing home care might be used. By a small majority, urban counties said "yes," while more rural counties said "no." The State-level section of the report shows that the rate of admissions of older patients to the State mental hospitals has been increasing at the rate of about 3.5 per cent per year for the past five years.

"Only 16 counties listed adult education efforts directed specifically toward older people, but a more counties giving age breakdowns in these classes, 1217 enrollees were from 45-64 years old, and 711 were over 65.

"In 51 counties, large numbers of middle-aged and a significant number of elderly take part in adult education classes not especially directed to older people but covering their known interests. Among counties giving age enrollment, a total of 6583 were from 45 to 64 years of age, and 718 were over 65. Two hundred and sixty-seven of the over-65 group were enrolled for college credit.

"Leisure time activities, education for employment and a need to stimulate interest of older people ranked high among the needs of older people.

"A vast majority of the older people were found to prefer independent living arrangements to living with relatives or in some form of congregate living. Many elderly women, however, prefer living with relatives.

"No great construction boom for individual small homes for the elderly for either sale or rent was forecast, mainly because homebuilders seemed to consider the market limited.

"A waiting list of 500 was reported for San Antonio's recently-completed public housing 185-unit project designed specifically for the elderly with minimum income.

"State-wide, the report shows there were 224 establishments with a total of 9192 beds in Texas which were licensed by the State Health Department to operate as nursing homes. Another 285 homes with 6015 beds were licensed to operate as custodial or attendant care homes.

"Also State-wide, it was estimated that about 50 per cent of existing buildings inspected cannot qualify for license under minimum sanitation and safety standards. The report attributes this to prohibitive cost involved in renovation.

"Churches, led the list of sponsors of non-profit homes for the aged. Twenty-six counties listed 56 homes with a total resident capacity of 2038. Seventeen of these were under auspices of churches and sixteen were sponsored by county or city government.

"Overall, the report noted that the fundamental unmet needs of the elderly vary greatly from city to city, as well as from one rural county to another, but generally the facts gathered give a revealing picture of the status of the aged.

"Details of the report show that some counties show ingenuity in their attempts to bring older people into the total life of the community. In Collin County, two churches have pews wired to accommodate the hard-of-hearing, and one church tapes sermons for shut-ins. In Dawson County, a "books on bikes" program sends Boy Scouts with library reading material to shut-ins."

School is authorized by the State Board of Education to hold the summer courses. Cavness observed, but it is not directed either by law or the board to serve free meals to participants.

"Cavness' audit showed the school has an average of 503 pupils at a cost of \$192 a month per pupil.

Diners Club, Inc., won a court order allowing it to continue - at least temporarily - collecting for package liquor store purchases made with a credit card.

An Austin district court granted a temporary injunction halting enforcement of the Texas Liquor Control Board order prohibiting such sales.

Liquor Board contends that by becoming the collection agent for liquor store purchases, the Diners Club is, in effect, selling liquor without a license.

Diners Club says it simply buys up the accounts of its card holders from the liquor dealers and takes responsibility for collection. Club has contracts with package stores in nine Texas cities.

# Group's 'Tacky Party' Was A Huge Success

By ARGEN DRAPER

It just takes the Dawn Home Demonstration Club to plan family parties that are fun. The Recreation Committee out there can take an old idea and make a lot of fun out of it. Thursday night they had a Tacky Party and it really was, really.

Bill and Jim Fowler were dressed in sloppy cowboy hats with rope belts and oversized boots. Donna Burrow sewed patches on her slim jims as she took the invitation seriously. Some of the other things that that crowd think is tacky: conspicuous slips, hair curlers, slippers mismatched, shirttails out

that aren't supposed to be, bare feet and rhinestones with sweat-shirts.

There were several guests. Mrs. W. A. Cox of Mangum, Okla., is visiting her daughter, Mrs. Orval Burrow and family. The Burrows live on the Ervin Shugart place, Art and Dickie Grimes are visiting the Rea Cox's. The boys live near Longmont, Colo. Melody Kay Caraway was visiting with her cousin, Alice Ann Caraway. Mrs. C. L. Whitehead visited from Hereford.

Mr. and Mrs. H. D. Fowler were the hosts and their yard is quite a beauty spot. They have landscaped with several kinds of vines and it is very effective, too.

The patio east of the house will be dining room - den combination some day. The floor is 12 1/2 by 25. Others attending were who want the light bulbs: Please Caraway family and the Jim McCabes.

I was asked to help with the judging. I made certain of one thing - that was - did the person really intend to be in the contest? It looked like a Hereford Crazy Daze affair. The winners were Bob Caraway, Bill Fowler, Donna Bur-

row and Charlene Cox. In this case - when you win you lose. Donna Burrow is a prospective 4 - H member.

There are two meetings that we'll attend - one this week and one next. Loreta Fowler will be on vacation beginning the 17th. The new bulletin racks are partially filled. The food preservation bulletins are on the racks so you can get what you and your neighbors need.

I hope you are taking a good look at this wonderful fruit this summer as we will have the artificial fruit - making demonstration and you will need to remember the details. The fruit is made of lye soap, Mrs. H. S. Fuller is to learn the craft while she is on vacation.

This week I got a nice cook book of local recipes, "Home Cooking Secrets of Hereford." It is sponsored by Wesley Methodist Women's Society of Christian Service, and is a wonderful looking book! Abbie Crume says every recipe she has used has been good. Abbie sold us the books and then she hooked and sounded shocked when we sold her some food flavoring. She just thought she had a corner on the high pressure selling. This is the last of the food flavoring sales that help support the 4 - H clubs. Those of you who want the light bulbs: Please wait until we find them. They are here, but where?

Mrs. Frank Wilhelm has already enrolled in the tailoring course. The Committee voted to have the tailoring in October, but I'm wondering if we can manage to have it sooner. We'll try to beat maize harvest.

We're having a program Monday, Aug. 15, at the high school auditorium at 9:45 a. m. It is a commercial wardrobe and should be good. Too, there will be 25 door prizes. It will be worth your time even though it is Monday morning. I hope we have good attendance.

## Beauty At Home

Q. No matter what kind of swim cap I wear, or how I wear it, the water still seeps in and ruins my hair curl. Do you have any suggestions regarding this?

A. Here's one trick some of the expert swimmers employ: Wind a chamois band, four to five inches wide, around your head. The hair is pushed over the band, the chamois is folded once, wrapped snugly, and fastened with a hook and eye, or by tying the string attached to each end. Your head should be "waterproof" now.

Q. My facial skin is dry and sometimes very sensitive to soap. How can I wash it?

A. At these sensitive times, try using warm milk for cleansing your skin.

Q. What is the best way to remove all lipstick from the lips?  
A. If, after the usual wiping with tissues, there is still a stain on your lips, apply some good cleansing cream and massage this well into the lips. This should do the trick. Then use camphor ice, an antiseptic lipstick, or a healing lotion, and leave this on overnight.

Q. Please suggest a good, general-purpose, skin-toning facial beauty mask I can make.

A. One of the best consists simply of white-of-egg, painted over face and throat, this allowed to remain on for 10 minutes, then washed off with warm water.
