Crews Start Working On Gas Pipeline In County

A 24-inch natural gas pipeline started snaking its way across the southern portion of Deaf Smith County Monday.

Transwestern Pipeline Company, a Delaware corporation, is having the line installed as part of a huge gathering and transmission system that goes from two points in Texas to California.

Houston Construction Company of Houston, Tex., moved men and heavy machinery into the county last weekend and started work Monday.

Representatives of the company explained the work in Deaf Smith County started at the county line just south of Dawn and will move generally west down Frio Draw until it enters Castro County about five miles south of Hereford.

Total distance inside Deaf Smith County will be an estimated 17.5 miles.

Site for a large booster station south of Dawn also has been spotted and construction is expected to begin soon on plant facilities.

Fulton Construction Company, of Houston, is working on the eastern portion of the line, which will originate in the gas fields of northeast Texas and the Oklahoma panhandle.

Another 24-inch line will originate in West Texas, around the Midland-Odessa area. The two lines will form a Y at Roswell, N. M., and will continue west to Needles, Cal., as a 30-inch line.

A second crew from Houston Construction Company has started work at Roswell and is working toward the east to join with the crew now working in this county.

At the time Transwestern officials appeared before the County Commission to clear crossings on county roads, the pipeline company representatives announced plans to build a booster station about one mile south of Dawn.

Four Fires Hit In Rapid Order

Hereford Volunteer Fire Department answered four alarms within three days this week, three of the fires reported early on the mornings of Sunday and Tuesday.

An estimated \$15,000 loss was reported in the fire of a garage - apartment building at the rear of the residence of Neil Cooper, 210 W. Fifth, which was answered by firemen at 2:15 a. m. Sunday.

Firemen answered that alarm while fighting flames which broke out in an old wooden frame house at 129 Clements St. Firemen answered the first call at 1:40 a. m. Sunday, and were rolling up the fire engine's hoses when Cooper reported the fire he discovered in the double-garage brick structure behind his home.

At 4:45 a. m. Tuesday, a fire broke out on the exterior of a wooden barn at the north end of Ave. E, about 200 feet north of Dawn.

Allege Pistol Used To Force Check Writing

A Deaf Smith County farmer Tuesday morning filed a complaint alleging that he was forced at pistol - point to write a \$13,851.51 check to a farmer-rancher who lives near Friona.

The complaint, against Thurmond Johnson, 45, was sworn out by Al Smith, who farms about three miles east of Hereford. The reported incident was said to have occurred at about 7:15 a. m. Tuesday north of Smith's home.

Smith said Johnson had, by assault and violence, forced him to write the check, payable to Johnson Brothers, drawn on the First National Bank of Hereford.

A warrant for Johnson's arrest on charge of robbery by assault was issued by Justice of the Peace Berry Miles and served by the Deaf Smith County Sheriff's office at 8:30 a. m.

2 National Merit Finalists Named

Two Hereford High School seniors have been named finalists in the 1959-1960 competition of the National Merit Scholarships Corporation Program and have been awarded certificates designating the honor, according to Bill Stanford, principal.

They are Ronald G. Anderson, 18, son of Mr. and Mrs. Glenn Anderson, 115 Ave. I, and Dudley Bayne Jr., 18, son of Mr. and Mrs. Dudley Bayne, 514 Star.

Stanford said the two seniors were the first local students to attain the rank of finalists in the annual competition, which has been offered at Hereford High for a number of years.

Anderson and Bayne scored high on two college aptitude tests used in the National Merit Scholarship competition, which were administered to more than 30 seniors last fall.

The test results have been paraded the competitors down to 10,000 finalists in the nation.

from which the Merit Scholars will be selected and announced April 27. About six-tenths of one per cent of the seniors in each state were named finalists, Stanford pointed out.

The Merit Scholars will share several million dollars in scholarship funds to be offered by more than 110 different organizations and individuals.

At an earlier state of the competition, the names of all who had reached the semi-finals of the competition were published in a booklet which has been widely distributed to colleges, universities and other scholarship agencies for consideration of other scholarships offered outside the Merit Program.

Merit Scholarships are four-year awards which provide from \$100 to \$1,500 of year, which is determined by basic needs of the individual.

Selection of the finalists who will be awarded Merit Scholarships in 1960 is performed by the Merit Scholar Selection Committee, a panel of experts in academic selection, and by special judging teams convened by various donors of Merit Scholarships.

High school grades, leadership, citizenship, and extra-curricular activities are considered as well as tests scores, Stanford said.

Stanford said Anderson and Bayne have been on their class' honor roll since the first of the school year.

AFTER GROWERS' MEET

Business To Hear Sugar Beet Efforts Explained

By DAN MUDD BRAND STAFF REPORTER

Representatives of the Beet Growers Association will report on the area's sugar beet situation and proposed legislation in a meeting of the Merchants Committee of Deaf Smith County Chamber of Commerce Friday noon.

The membership luncheon, to be held in the ballroom of the Jim Hill Hotel, will feature a summary report by J. H. Sears, association representative.

In special meeting Saturday evening, about 150 beet growers and other interested persons considered a proposal to secure representation in Washington in an attempt to do away with beet acreage allotments when the Sugar Act is presented before the current session of Congress for amendments.

In eliminating acreage controls, the group generally felt that setting of production quotas should be under direction of sugar beet companies in cooperation with the Secretary of Agriculture.

The association met Saturday to hear reports given by Sears, James W. Witherspoon, H. L. Benefield and Hank Williams, who represented the members recently in Washington in determining what could be done in securing more beet acreage in this five - county beet area.

Another alternative suggested by Witherspoon was that the group could strive to keep new acreage in the United States, necessary to satisfy the 150,000 tons of natural increase needed to supply additional population yearly.

It would take approximately 60,000 additional acres per year to supply the required tonnage increase, Witherspoon said, and the United States would receive 30,000 acres of that amount.

His earlier suggestion was that the additional acreage allotments could be given to "new

County Gives Okay On Plats

Two residential subdivisions south of Hereford were approved by Deaf Smith County Commissioners Monday. The plats are subject to the approval of the Hereford City Commission.

Both plats were submitted by attorney Ray Cowsett. West View subdivision, platted by J. M. Hamby, is located on the east side of U. S. Highway 385, beginning south of Austin Road and continuing south to the Weston subdivision. It includes eight lots, ranging in size from five to about seven acres each.

A. N. Hopson requested the Knob Hill subdivision approval. It is located on the south of Austin Road, generally south of the John Pitman Municipal Golf Course. The plat shows 78 lots, (Continued on page 2)

Around Town

We would imagine one of the least desirable jobs right now, other than being chief tester in a dynamite plant, would be as weather forecaster for the Panhandle. Despite a high record of "rights" throughout the year, they always seem to have a knack of missing on the big ones. Or, like everyone else, we just remember when they goof.

Grant Hanna called again this morning to ask all you former Nebraskans to call him at EM4-1932 and make reservations for a reunion of cornhuskers. He (Continued on page 5)

Oklahoma Girl In Suicide Hoax Returned Home

A 17 - year - old Forgan, Okla., girl was returned to her home following a hearing in Deaf Smith County Juvenile Court Monday afternoon. The girl was involved in an apparent suicide hoax which occurred in a home here Sunday afternoon, according to Hereford police.

The girl, a guest in the home of a local woman, was taken into protective custody of local police Sunday evening after a patrolman checked out a report that the girl was victim of an apparent suicide a few hours earlier.

Hereford patrolman L.B. Bartlett said he was flagged down while driving his squad car by an unidentified man who told the officer he needed help because "a girl had taken a bottle of sleeping pills."

When Bartlett arrived at the scene, at about 4:30 p. m., he checked the girl's pulse and found it near normal and could find nothing to indicate she was in any sort of danger or had actually taken the pills. The empty bottle reportedly had contained about 50 tablets. (Continued on page 2)

'Trio' Production Has Triple Treat

A triple - treat is in store for playgoers who attend Hereford Thespian Society's trio of one-act plays in Hereford High School auditorium Thursday and Friday nights.

Directed and characterized by student members of the Society, performances will begin at 8 p. m. each night. The plays are under coordination of drama teacher Burney McClurkan.

Plays scheduled for presentation include "I'm A Fool", by Christopher Sergel; "Heat Lightning", by Robert F. Carroll; and "Mr. F.", by Percival Wilde.

The plays also will initiate the first steps toward the coordination of the fine arts departments of Hereford High in presenting a foyer art exhibit during the two nights of performances. Students' exhibits have been chosen from the art classes, and the exhibition will represent the work done by the students this year.

Cast of "I'm A Fool" includes Bobby King, Troy Don Moore, Jimmy Brown, Sheryl Patterson, Judy McGee, John Buck, Dorcay Mutter and Cherry Holt. Director is Beth Lemons, and Anne Wingert is set designer and technical director.

Dean Hudson, Judy Bradley and Jim Reinauer round out the cast of "Heat Lightning". Kay Sims is director, and Robert Bell is set designer.

"Mr. F." will feature characterizations by Judy Coffin, Dave Dzuk, Bobby Renfro and Joe Sherman. Lee Blocker will direct and Gary Wertenberger is set designer. (Continued on page 2)

Assault Follows Argument On Bet

Bond for Frank White Jr., 32, a Negro of Hereford, was set for \$500 Monday after he pleaded not guilty to an aggravated assault charge in County Court.

White was accused of committing the assault on Will Norman Jr., a 20 - year - old Negro of Hereford, early Sunday morning near a cafe on Virginia St. Norman was reported in good condition at Deaf Smith County Hospital Wednesday morning, after he was admitted Sunday morning for treatment of a compound fracture of the jaw.

Hereford police said the incident allegedly resulted from an affair about 1:30 a. m. Sunday following an argument between the two men in connection with a 50 - cent bet in a dice game. White allegedly hit Norman on the head with a tree limb during the affair, Hereford police said. The case was turned over to county authorities Monday. (Continued on page 2)

FB Speaker Proposes Law On 'Braceros' Be Changed

By H. A. TUCK BRAND NEWS EDITOR Proposed changes in the "bracero" labor law and a report on the current status of an attempt to get a sugar refinery in Hereford constituted topics for the first of a series of meetings sponsored by the Deaf Smith County Farm Bureau.

About 25 persons attended the initial meeting breakfast Tuesday in the Jim Hill Hotel ballroom.

"We hope to make this a regular series to inform farmers and businessmen on legislation and activities that will affect all of us," county FB president Steve Clements commented in opening the meeting.

Hub King of Brownfield, a state FB director, spoke to the group on proposed labor legislation and how it would affect the local situation.

Four amendments to Public Law 78, which governs contract between the United States and Mexico for importation of Mexican farm workers, were outlined and explained by King.

"Labor, to the American farmer, has spelled the difference between success and failure," King stated. "But during the past 20 years, labor has been less plentiful and more migrant (Continued on page 2)

Action Course In Politics Set

Organizational meeting for all persons interested in taking an "Action Course in Practical Politics" will be held at 7:30 p. m. Thursday, Feb. 25, in the Deaf Smith County Chamber of Commerce office.

The course will be a combination of discussion and group participation, according to Dr. Hap Cavness, chairman of the Chamber's Legislative Committee, which is sponsoring the course.

Purpose is to acquaint voters with their local, state and national governments and political activities.

The course is planned for small groups of 12 to 20 persons and will consist of nine two - hour workshops to be held once each week.

Basic topics in the course will include: the individual in politics, political party organization, the political precinct, the political campaign, political clubs, political leaders' problems, political meetings, businessmen in politics and, for the final topic, a discussion with active politicians.

A SIGN OF WELCOME to Hereford was erected Saturday south of the city. The cinder-block sign was built about one mile south of Hereford on U. S. Highway 385. The construction crew included Wade Thompson, chapter advisor, and Curtis Ritchie, standing. Seated are Ken Walser, president, and Billy Lytal, vice president. The chapter will erect four similar signs on other highway approaches to Hereford. (Staff Photo)

Alec Dickey  
... Texas FU president

### Report....

(Continued from page 1)  
than \$52 a ton," Dickey commented. Dickey admitted safflower was a low-humidity crop... and you didn't have a low-humidity season last summer in the Panhandle," he smiled.

Test results, Dickey said, indicate the crop should be primarily restricted to dryland, since yields did not vary appreciably between test plots grown on dryland and on irrigated land.

About 50 farmers in Deaf Smith County last year planted safflower as part of a widespread test. Farmers who agree to grow safflower this year, as in 1959, will be required to buy stock in the proposed oil mill. Half of the mill will be owned by the farmers' cooperative group and half by the Farmers Union state organization and private capital. "Agriculture in this country is in real trouble," Dickey said in opening his speech. "Farm programs ought to be designed for family - farm type agriculture," he declared in his East Texas twang.

The well-dressed young state president then proceeded to blast corporation-type agriculture and the "Wall Street" interests.

Citing examples of tariffs and protections, he said farmers were just as entitled to protection by the government as any other segment of American society. He explained why the Farmers Union favors stringent controls on production, based on 100 per cent of parity and realistic farm income.

"A national farm program should be enacted only after it has been approved by a majority of the working farmers," he said. "This would start at the local level with committees, moving upward to state committees and federal committees.

He also endorsed the plan advanced by the Farmers Union for use of the "food stamp plan" to feed the underprivileged in this country and a similar plan to use America's surplus to feed the hungry of other nations.

Dickey declared, "The Farmers Union has stood in the halls of Congress as the sole opposition to corporate farm legislation, as advocated by the American Farm Bureau Federation, the United States Chamber of Commerce, the Republican Party and the National Association of Manufacturers, to mention only a few."

"We feel, with a realistic farm income, we would be able to pay decent labor wages. Now we have to have 'bracero' labor

and 'peon' labor because we can't afford anything else," Dickey said.

In closing, Dickey said the Farmers Union owned 50 per cent of the world's richest potash mine, located in Carlsbad, N. M. Kerr - McGee and Phillips Petroleum each own 25 per cent of the mine. Dickey said Senator Bob Kerr, of Kerr - McGee, recently had estimated his interest in the mine as being worth in excess of \$100,000,000.

County FU president Bill Gentry introduced out-of-town guests, among those the state FU vice president, Joe Berg of Amarillo; and Richard Alexander, FU state secretary from Denton.

Mr. and Mrs. Clinton Jackson, and Mr. and Mrs. Charles Hoover, all of Hereford, made a report on the state FU bus trip to Washington, D.C., in January.

Jay Boston reported on the current efforts to get more sugar beet acreage in the country. He asked support on legislation to get more sugar beet acreage and in creating more consumer demand for beet sugar.

### Trio....

(Continued from page 1)  
Adapted from a story by Sherwood Anderson, Sergio's "I'm A Fool" is a comic situation of George, who puts on airs for the benefit of a young girl he meets at a horse race. He also tells of an imaginary estate, and the girl is truly impressed.

They fall in love, but she tells him that she must leave and promises to write. But George has already made a big mistake by giving the address of "his estate."

In "Heat Lightning," a girl rushes blindly into a bus station and bolts the door behind her. While walking in an early morning storm, she has just witnessed a man dumping the body of a young woman from his car, and the man knows she saw him in the act.

He chases her through the darkness toward the bus station, and upon the scene comes two men. One of them is a murderer.

In "Mr. F", adversity has come to Victor, a pianist who was in the limelight a few years back. Desperately, he appeals to the bust of Beethoven for aid with the "Fate Knocks" plea, the first eight notes of the Fifth Symphony.

As he begins to play, a man in opera dress appears from nowhere and announces that he is "Fate", or "Mr. F." It is difficult to believe in miracles, much less the personification of the elusive Fate, but the happenings which follow give cause for wonder.

"Student members of the Society will be making their debut as directors and designers as well as actors in the plays," McClurkin said.

### Assault....

(Continued from page 1)  
Highway Patrolman Charles Skinner of Hereford investigated a one-car accident which occurred at about 4 a. m. Sunday one mile south of Hereford. Skinner said Norman was driver of the car.

The investigating patrolman said the 1953 model car, headed south on S. Main, apparently missed the turn at the end of the street. The car came to a stop about 60 feet from the road

### Crews....

(Continued from page 1)  
To be known as Station P-2, the plant will involve some 200 to 300 people, indicating an actual employment of 40 to 60 persons at the station. The station is to be located just inside the Deaf Smith County line, in the extreme southeastern corner of the county.

Hampered by frozen ground and cold, biting winds, the Houston crews moved into action with a collection of heavy equipment. The right-of-way crew Tuesday was working southeast of Hereford about six miles. This crew builds access tracks, slashes out a bulldozed track and fills and levels small hills and gullies.

Following this crew is the ditching crew. The first of two large, tracked ditchers removes the top soil to a depth of about two feet. Huge bulldozers rip out rocks and other natural obstacles before the ditchers.

This will be followed by the pipe line crew, which will put pipe beside the ditch, welding it into a solid pipe. This will be wrapped with heavy paper, lowered into the ditch and covered by bulldozers.

The pipeline is being cased inside larger pipe at all points where it tunnels beneath the roads.

Barring delays by bad weather, a Houston Construction Co. official estimated the line would be completed in the county within 60 days. Total time estimated for the line to be completed and put into operation has not been released.

### Four....

(Continued from page 1)  
of the avenue's intersection with 13th St. The barn is owned by Pete Engle of Hereford.

At 12:35 p. m. Tuesday, firemen extinguished a minor fire which broke out under the hood of a 1957 model pickup truck at 718 Ave. K. The truck is owned by F. L. Meester, who lives at that address.

Cooper reported the fire destroyed the interior of his garage - apartment, which housed a 1959 model station wagon, an 18-foot boat and outdoor motor, and an assortment of power and hand tools.

Fire Marshal Clay Angelo estimated the loss at about \$15,000. Firemen fought flames for about two hours. Cause of the fire is unknown.

The wooden frame house on Clements St. was occupied by eight Negro residents. The two-story structure was owned by Dora Inman and was rented to Eugene Harrell. The occupants included seven members in the Harrell family and B. C. Carr.

The fire reportedly broke out in the northwest downstairs bedroom.

Origin of the fire is unknown, Angelo said, and he estimated loss at about \$1,000.

Origin of the fire at the barn Tuesday morning also is unknown, Angelo said. Flames charred the southeast corner of the structure, but damage was minor as the fire was quickly extinguished.

In a plowed field, he said. No ticket has been issued and no estimate of damage was made.

Meramac Caverns in Stanton, Mo., was outlaw Jesse James' hideout in the 1870s.

### Business....

(Continued from page 1)  
areas" until the areas secured enough production to justify location of a sugar refinery. After required mills were secured, yearly increases could be prorated, or proportionately distributed, among operating refineries.

Benefield, association president, pointed out that he probably had one of the highest yearly acreage allotments in Deaf Smith County, and that he would be willing to release his present yearly acreage to eliminate controls.

Williams, another grower who has obtained relatively high planting history in past years, added that he also would be willing to give up his annual allotment and go along with the group's proposal in taking action to ultimately secure a refinery in this area.

By retaining production quotas of sugar companies, the refineries could place acreage where they receive favorable production, both in quantity and quality.

Witherspoon said that in making contacts with sugar beet mills this year, refinery officials seemed very much interested in the top quality and high production rate of sugar beets grown in Deaf Smith County.

During the meeting, 57 beet growers and others gave checks amounting to \$2,713, to be used in financing representation in Washington. It was pointed out that the proposed amendment must be put before the current session of Congress.

Explaining that domestic refineries need increases in tonnage, Witherspoon said: "Sugar companies are very interested in areas where good quality beets are grown. Many companies have gone out of business in 'old beat - growing areas' as the areas stopped raising enough beets with good sugar quality to make further operation profitable."

He said that this area grows beets with sugar content above average, and that sugar beet officials are interested in that quality.

"Now is the time to get something done," Witherspoon said, but commented that the Sugar Act has little elasticity in it. He predicted that many growers in the old beat - growing areas would probably fight legislation to do away with allot-

fronting on Austin Road and two other curved streets, designated as Baltimore and Columbia Avenues.

During the afternoon, commissioners also conferred with architect John P. Work on status of construction of the new jail and renovation of the courthouse. General contractor recently estimated the work would be completed at the end of May.

### Allege....

(Continued from page 1)  
Johnson reportedly surrendered voluntarily later during the morning and waived examining trial.

Sheriff Charles Skelton said Johnson was released on \$1,000 bond Tuesday morning, pending action by 69th District Grand Jury, which is to convene on April 11.

Benefield said that the plan could be carried out without taking away quotas in foreign countries. He added that some domestic refinery companies would like to drop some low-producing areas and pick up high production locations for refineries.

In order to secure a refinery, Benefield pointed out, more beet growers would be needed to produce additional acreage and that area-wide cooperation would be needed to create markets for refined beet sugar.

"We went to Washington with a hardship plea," Witherspoon said, "and we were greatly encouraged at how we were received by state representatives and by U. S. Department of Agriculture officials."

In the Department of Agriculture Feb. 12, the representatives discussed the situation with Lawrence Meyers, director of the Department's sugar division, and one of his assistants.

Prior to that conference, they talked to Rep. Walter Rogers of 18th Congressional District and to Ben Guill, a former Congressman for this district.

They also talked to Pete LeMaster, advisor of the Assistant Secretary of Agriculture. They made personal contacts with officials in the offices of Senate Majority Leader Lyndon B. Johnson and Sen. Ralph Yarborough.

"In all our contacts," Witherspoon said, "we went into details of Sugar Act provisions and possibilities of additional acreage and allotments."

All the representatives are confident that this area can obtain a \$12,000,000 mill if required acreage can be secured, Benefield said. At the present time, American Crystal Sugar Co. of Rocky Ford, Colo., processes beets from this area.

He asserted that a refinery could be secured here if required acreage is secured, enough growers produce beets and a market is created for the refined product.

"Just keep your wives and friends asking for beet sugar in their grocery stores, and we'll create a market to satisfy sugar beet companies," Benefield said.

"If we get a refinery located here," Witherspoon said, "growers will have the benefit of retaining pulp by-product for cattle feed and they would save freight costs to Rocky Ford." Many livestock raisers at the meeting expressed interest in the by-product feeding feature of sugar beets.

As nearly all the Texas beet crop is grown in the Hereford area, the local growers' association has the voice of practically all growers in the state.

"I'd like to revise a statement made at our last meeting pertaining to domestic sugar production in relation to U.S. imports," Benefield said. He had estimated that the U. S. imports 76 per cent of its sugar, but due to statehood of Hawaii and as Puerto Rico is a dominion of America, he said the United States imports approximately 50 per cent of its sugar.

Twelve years ago, in 1948, this county had a chance to secure a refining plant but the opportunity was turned down. At that time, however, growers had only about one-eighth the irrigation they now have, and maize sold at about \$3.10 per hundred-weight.

Benefield said the heavier beet-growing states could not handle increasing acreage and continue rotation programs.

Local sugar beet growers recently became inspired after an announcement was made that uncertainty over Cuban supplies, the after-effects of a Hawaiian strike and lagging Puerto Rican output, may keep those sources from meeting the cane

Hub King  
... farm labor report

### Speaker....

(Continued from page 1)  
workers have gone into industry. Despite mechanization, the farmer still needs a lot of stoop labor for many of his crops."

Public Law 78, since its enactment in 1948, has become a "political football," King said. "We are caught between two wings of government... and both are seemingly left wing."

King said that at the time Public Law 78 was enacted, it cost \$20 - 25 for a six-month contract. This cost, he declared, has now risen to \$36 for a six-week contract. Public Law 78 also provides that the employer will furnish transportation, tools, cooking utensils, housing and bedding.

First major amendment to P. L. 78 would provide that the Secretary of Labor, which now has control of braceros, would have to work jointly with the Secretary of Agriculture in setting wages and conditions for employing Mexican Nationals.

To figure the prevailing wage, the government would be required to give consideration to trends in farm prices, net farm income, trends in nearby areas and national trends in farm wage rates, but would be limited to an increase of 5 cents

sugar quotas set by the United States, allowing beet sugar to fill the gap.

The Sugar Act, which was originated as part of the New Deal and amended and passed into U. S. Law in 1937 after introduction in 1934 as a law to hold supply in balance with the demand, provides for the division of an estimate set by the Secretary of Agriculture between domestic and foreign producers.

per hour or 5 per cent increase for piece work.

Third would be that the interpretation of P. L. 78 would not authorize the Secretary of Labor to regulate employment relationship between the farmer and the domestic farm workers.

Fourth amendment would be the same as the third, except it would apply to the interpretation of another act, the Wagner - Peyster Act.

The proposed amendments, King pointed out, are included in two identical bills in the U. S. House of Representatives and two others in the Senate. The house bills are numbered H.B. 9869 and H.B. 9875.

King also suggested that state laws might be investigated to provide legislation superceding national regulations, particularly in regard to transportation safety and housing.

Another suggestion made by King was to look into a rather old federal statute, the McCarran Act. This provides for labor to enter the U. S. from the British West Indies, with the workers paying their own transportation and signing three-year contracts.

The employer would pay wages of \$110 a month for six months and \$120 per month for the remainder of the contract, plus buying groceries or providing funds for the workers to buy groceries.

"Using this old McCarran Act," King commented, "would encourage more diversification in this area since we would have these workers the year-around."

He also suggested that FB members in Texas might wish to set up their own labor force headquarters, which would act as a clearing house for migrant labor needs and availability. A final suggestion was the operation of an Agriculture Commodity Marketing Association. He emphasized this group would

not buy or sell anything but would merely act as a clearing house to get buyers and sellers together, particularly on the world market.

"With a few exceptions, agriculture is in better condition now than it has been in the past few years," King concluded optimistically.

Henry Sears of Hereford, briefly explained to the group the plan to push for abandoning sugar beet acreage allotments and the efforts to bring a sugar refinery to Hereford. Clements announced the next meeting would be concerned with wheat production and legislation. Guest speaker will be Moody Womble of Morse.

### Oklahoma....

(Continued from page 1)  
Bartlett said the girl was apparently in a deep sleep, or pretended to be, at the time of his investigation. An occupant of the house showed the officer a "suicide note" scribbled on the cardboard backing of a stationery writing tablet.

Occupants of the house said the girl was married and had left her husband in Forgan to visit her girl friend's home here.

Finding no irregularities in the girl's respiration or circulation, the officer told the occupants to take the girl to police headquarters when she awakened.

The girl was taken to headquarters for questioning at 7:45 p. m., and later was taken to juvenile women's quarters of Randall County Jail in Canyon as a precautionary measure, pending the juvenile hearing set for the following day.

County Judge Homer Henslee heard the case Monday afternoon and made arrangements to return the girl to her husband by bus Monday evening.

**Hold Rites For Two-Year-Old**  
 Funeral services for William Wayne Fortenberry, two-year-old son of Mr. and Mrs. Richard Fortenberry of Bellview, N. M., were held Sunday in Rose Chapel of Gilliland Funeral Home in Hereford. Ross Blasengame, minister of the Adrian Church of Christ, officiated.  
 He was found dead in his bed at home about noon Saturday. The child had been in ill health all his life.  
 He was born June 5, 1957, in the Deaf Smith County Hospital in Hereford.  
 Survivors, other than the parents, are a sister, Linda Kay.  
 Burial was in West Park Cemetery under direction of Gilliland Funeral Home.

**Rites Set For Clyde Roberson**  
 Funeral services for Clyde Roberson of San Bernardino, Calif., a one-time resident of Deaf Smith County, will be held Thursday at 3 p. m., in San Bernardino with Shaw Company Mortuary officiating.  
 Mr. Roberson died at his home Tuesday morning.  
 He came to Summerfield with his family in January of 1909. He was married to Miss Ethel Laughlin on Nov. 2, 1909. They moved with their family in 1929 to California.  
 Survivors include his wife of the home; three sons, A. J., Wayne and Less, all of Orange, Calif.; five brothers, Wiley, Obe, Miles, Doc and Jeff, all of Hereford; two sisters, Mary Lou of Lubbock and Mrs. Lillian Smith of Amarillo.

HEREFORD FIREMEN are shown cutting through the roof of a wooden frame house at 129 Clements St. early Sunday morning to extinguish flames which broke out in the northwest bedroom of the structure. Eight residents lived in the house, which was rented to Eugene Harrell. Firemen fought to extinguish flames which broke out in the blazes for about an hour. (Staff Photo)

### REPORT

WA - O - KI - YA

Plans were made for the annual Camp Fire Birthday Week at the meeting held by Wa - O - Ki - Ya Camp Fire girls in the Community Center Friday afternoon.

Displays for the group were planned and songs were practiced. Ten girls and leaders, Mrs. S. L. Garrison and Ms. W. H. Walser, attended.

### Metcalf Hired For City Force

Hereford Police Chief Henry Aycock this week announced that Don Metcalf, 25, was assigned to the department as a patrolman.

Metcalf and his wife, the former Marilyn Henderson of Hereford, reside at 109 Ave. A with their two - year - old son.

The new patrolman worked for the Coast Patrol while stationed in San Diego, with the Civil Patrol in 1954 - 55. He also was assigned to Amarillo Fire Department as a fireman for 27 months, from 1952 - 54.

He lived in Friona for two months before joining the police department here. He was a student at the University of Texas for 1 1/2 years before moving to Friona.

He was married in Hereford in 1954. His wife will begin her duties as a nurse at Deaf Smith County Hospital early in March. She now works in the Friona Hospital.

### One-Act Play Highlights Meet

A one - act play presentation by Hereford Thespian Society highlighted the noon meeting of the local Optimist Club Tuesday noon in I. O. O. F. Hall.

Guests at the regular meeting were Bill Kester and Kenneth Malone. Roy Boyer accepted Malone's application for membership during the meeting.

Presenting the play, "Heat Lightning", were Judy Bradley, Dean Hudson and Jim Reinauer. The cast presented the play Thursday and Friday nights in Hereford High School auditorium.

The cast was introduced to the Optimists by Sharon Hill.

### Services Held For Frances Turrentine

Last rites for Miss Frances Turrentine, 77, of 234 Star, were held Monday at 3 p. m. in the First Methodist Church in Hereford. The Rev. Herschel Thurston, pastor, officiated.

Miss Turrentine died at 3 a. m. Saturday in the Thurman Rest Home in Amarillo.

She was born April 22, 1882, in Rosedale, Ark. She came to Texas in 1896 and moved to Deaf Smith County in 1902 from Waxahachie.

She was a retired school teacher and a member of the First Methodist Church.

Survivors include a sister, Mrs. E. W. Harrison of Hereford; three nephews and six nieces.

Interment was in West Park Cemetery under direction of Gilliland Funeral Home.

A yellow - fever epidemic wiped out half the population of Norfolk, Va., in 1855.

the political calendar after his announcement as a candidate for District Attorney. This has been corrected.

Annual Coronation Band Concert has been scheduled for 8 p. m. Tuesday, March 1, in the high school auditorium. Director George Hill said the Stanton Junior High band, Hereford High band and the Lamplighter stage band would perform light numbers during the concert, which will be highlighted by coronation of the band king and queen. The concert also will feature an art exhibit from junior and senior high students in the foyer of the auditorium.

Young Farmers of Hereford will have a regular meeting on Tuesday, March 1 at 7:30 p. m. in the high school vocational agriculture building. All county farmers, through 35, are invited to attend the newly - organized group.

First of two free classes on mosaics will start Monday, Feb. 29. The other afternoon class is set to start on Thursday, March 3. For information, call Mrs. Imogene Wills, EM4-2501. Mrs. Wills will instruct the class, assisted by Mrs. Joanne McGee.

Installation of officers of the Campfire organization will be held Monday, Feb. 29, at 7:30 p. m. in the Shirley School cafeteria. Mrs. Elmer Patterson will conduct the installing ceremony.

Due to some fortunate booking, the Star Theatre in Hereford will have one of the first area showings of "The Last Voyage," which is being pushed as a real pulse - quickener. It is to show here on March 13 - 15.

Don't forget to send in your postcard with population estimates for Hereford and for Deaf Smith County. Deadline is March 31 and each winner will receive \$50 cash. Just mail to Hereford Brand, Box 673, Hereford. Be sure to include your name and address.

Entire talk by Dr. James P. Corlette, president of WTSC, at Sunday's dedicatory ceremonies for the new Hereford school buildings was built on a theme of cooperativeness. There were about 300 persons on hand for the event, and at least that many more who attended one or more of the open house affairs.

Hereford women bowler's showed up in force last week end at Amarillo for the 23rd annual Amarillo City Women's bowling tourney. Local girls currently are holding on to first, third and fifth places. The Vogue team is first, Elizabeth Witherspoon team is third and Wheeler Fertilizer is fifth. The meet ends Sunday.

for the Westway Community House on Thursday, Friday and Saturday, Feb. 25, 26 and 27, beginning at 7:45 p. m. Proceeds will be used to maintain the community house. There will be nightly prizes and a grand prize at the tourney's close. Refreshments will be served each evening.

We finally got some information on an incident that took place last week at Falcon Lake, down on the Rio Grande. Jimmie Allred, B. E. Roberson, both of Hereford; former Herefordite D. C. Kinsey of Portales, N. M., and Tommy Godfrey of Carrizo Springs got dunked last week when Jimmie's boat was swamped. They were just a few of many who got wet when the lake became covered with extremely high waves during a fast - developing storm. Allred's boat and motor were saved and none of the four are the worse for wear . . . except they have shivers when they think about what might have happened.

Also found out that a few Hereford boys, with some from Friona, were arrested last week and charged with destruction of private property by Farmer County Sheriff Charles Lovelace. They were released on bond after admitting they started and turned loose a tractor, with two 10 - foot one - ways, on the Buck Elliston farm northwest of Bovina. It plowed up 10 acres of wheat in the pre - dawn hours before being discovered. Owner of the car in which the five boys were riding was James Carrol McClue, 17, of Hereford. Also charged in the incident was Tommy Joe Province, 17, of Hereford. The other three, 15 and 16 years of age, were from Hereford and Friona. They were released on \$1,000 bond each to their parents and will be brought before the Farmer County grand jury. Damage to the field was estimated at \$500.

Hereford Committee on Migrant Ministry held a meeting Wednesday evening at the First Christian Church of Hereford. The group of 17 was scheduled to discuss additional plans to invite 18 undergraduate students from colleges and universities in the United States and other countries to stay in Hereford next summer to build a "community center" type building adjacent to the Labor Camp.

Due to an oversight we have left William Hunter's name off

### Around.....

(Continued from page 1)

said about 70 already were expected for the event Sunday, Feb. 28. It's to start at 12:30 p. m. in the First National Bank community room. Bring a covered dish . . . with something in it. Plates and dishes will be furnished.

If you are interested in learning more about politics, and how it works, be at the Deaf Smith County Chamber of Commerce office at 7:30 p. m. Thursday, Feb. 25, for the first of a series of weekly courses. Since it was developed by more than 42,000 people and the roster of companies and organizations using it is fantastic.

A 42 tournament is scheduled

THE DOROTHA PROWELL 4-H Club presented a stunt Monday evening in Aikman auditorium for the annual 4-H Share the Fun Night, entitled "The Blind Men and the Elephant." A large crowd was present to enjoy the entertainment. (Staff Photo)

**By JIMMIE GULLENTINE**  
It is hardly in keeping with the weather, but many Hereford people are talking about baseball. What's more, they seem to think that we will have an excellent high school team, and that we should hold our own in competition with such teams as Amarillo, Pampa and other 4-A schools which appear on our schedule.

The whole thing traces back to Hereford's first Little League team of three years ago. Many of these boys will be on the field in high school suits this year and their old coach, Joe Smith, will be running the shindig, just as he was when they went into regional play that first year. I understand he will be assisted by Cuby Kitchens, the basketball coach, who is more than a little interested in baseball. Tom Robinson says the school trustees, like other Hereford fans, are looking for a big high school year on the diamond.

I got an invitation to go on an NEA study mission to Moscow, Warsaw, Prague, Berlin and Paris - and was real interested, especially in the Paris part, until I found out I had to furnish my own rubles and francs, which pretty well ruled me out. Besides, they might slide that Iron Curtain down while I was there, and I never did like the idea of working in a salt mine. Another thing, President Eisenhower is slated to go to Moscow this summer, and I couldn't think of anything he might not be able to handle without my help.

**Monk Johnson, Dub Reeves and Gene Moore were decked out Monday in their new C. of C. booster hats and canes. They made a sort of test run, and seemed to attract considerable attention. Everyone said they could understand why Monk and Dub really needed the canes, but most of them figured that Gene should be young enough to get along with only the hat.**

Hank Williams was telling me that he really enjoyed the trip to Washington, D. C., as part of the sugar beet committee. Hank says it will take time, but he figures things will work out on the deal. He says that he didn't have much trouble with Henry Sears and Jim Witherspoon, but Lee Benefield was a hard man to keep up with; he further says that Benny has some sort of aversion to sitting in the front seat of a taxi cab with the driver, especially after he found that the guy in the front always got the check for the ride.

I hear that they are organizing another speculator club. New faces and new ideas, but with the same old objective of making a pot of money. Sometimes they do, sometimes they don't. Hereford's last such club dissolved at around the break even point.

The rash of fires during the past few days has been pretty rough on our volunteers, but you never hear them complain. No one ever appreciates the fire department so much as just after they have a fire, but we do have one of the best volunteer departments in the state and the boys deserve a lot of credit. Always, the alarm sounds at the most unreasonable and coldest hour of the night. Sunday morning they had a double - header, taking the second call over the radio just as they were about to wind up the first one.

Some of the fires also caused ulcers. At the Cooper fire, for instance, the boys were play-

### Look Who's New!

Mr. and Mrs. Leon Wood are the parents of a boy born Monday, Feb. 22, at 11:53 p. m., and weighing eight pounds.

**SELLING EARLY**  
NEW YORK (AP) - One of New York's most famous tourist attractions, the Radio City Musical Hall, has sold over \$25,000 worth of reserved seat tickets for a show that hasn't been booked yet.

The reservations have been ordered for Christmas week, a traditional entertainment boom season. The production staff has not yet worked out the stage presentation or picked the feature film.

ing water on a blazing automobile with a tank full of gas, and on a boat which also had an auxiliary tank containing five or six gallons of gasoline. Each time one of the fires burned through enough to explode with a loud report, the boys would dodge, cross their fingers and hope.

Homer Brumley tells me that Texas' dairymen are getting a raw deal. Homer says they have to meet rigid and numerous specifications in order to market their milk, but that imports are marketed with less rigid requirements. He allows that the precautions may be OK, but figures that outsiders should meet the same specifications. All of which sounds logical. It sure does. Meanwhile, the dairy industry in this neck of the woods is becoming far bigger and more important than most people realize. Amarillo and Lubbock consume a lot of milk, and they are constantly expanding.

J. D. Kirkland was telling me that crappie fishing at Lake Brownwood is really hot. No tremendously big fish, but gunny sacks of pound to pound - and - a - half crappie. He operates one of those heated and air conditioned piers, where you "rough it" with all of the comforts of home while hauling in the fish. Most of the big play on the lake is coming from Lubbock.

The position of Superintendent of Hereford Schools is still a highly sought job, according to school trustees who have been literally snowed under with applications. Roughly, they had 20 hats formally tossed into the ring - and feel letters of inquiry from another 25 or 30 prospects. All of which means that the interview business is booming around Hereford these days.

"IT PAYS to be Snickering," one of the many stunts shown at the 4-H Share the Fun Night Monday evening, was named by judges as first place winner in the junior district division entries. The Dawn boys' club staged the one-act skit. (Staff Photo)

## Soil Fertilization Studied At Meet

Garden Beautiful Club met in the Community Room of the First National Bank Friday afternoon, with Mrs. Howard Walker and Mrs. Charles Hood serving as hostesses. Mrs. Gerald Wilson presided.  
Mrs. L. H. Lookingbill Sr. and Mrs. N. D. Bartlett Jr. presented the program. Mrs. Lookingbill discussed pruning, describing in detail how to cut back and shape and the best time for pruning.

Mrs. Bartlett spoke on fertilizers for different types of soil and explained how to make a compost pile.

During the business session plans for the club project, landscaping the new community center grounds, were discussed.

Members present were Messdames N. D. Bartlett Jr., Tom Carter, Ray Cowser, Wayne Edwards, Joel Hodges, L. H. Lookingbill Sr., Ansel McDowell, E. W. Harrison, Charlie Noland, Dick Miller, G. P. Owen, W. B. Owen, Mary Seigler, Harold D. Roy Smith, Gerald Wilson and the hostesses.

San Antonio, Tex., was established as a city in 1731 by King Phillip V of Spain.

# Thanks Folks

... for the wonderful way you came out last Thursday for our formal opening. We feel as if we had a very successful day. Words cannot express our deep appreciation we have toward you, our friends and customers.

Don't forget, if its a cup of coffee or a full meal, you'll always find it here. Drop around often!

## MEMO TO ADVERTISERS

## A Guide to the Point of Sale

Our local stores are the display rooms and warehouses for the world's finest products. Efficient banking, insurance, real estate and other business services are also available to the people in our community. The readers of this newspaper find our advertising columns a dependable guide to the point of sale—a useful source for up-to-date news and information about these goods and services.

In order that advertising expenditures may be made with us on the basis of known values, as required for any sound business investment, this newspaper is a member of the Audit Bureau of Circulations.

Every advertiser should know about A.B.C. The Bureau is a cooperative, non-profit association of 3,450 publishers, advertisers and advertising agencies. Working together, these buyers and sellers of advertising establish standards

for paid circulation, rules and methods for auditing and reporting the circulations of newspapers and periodicals.

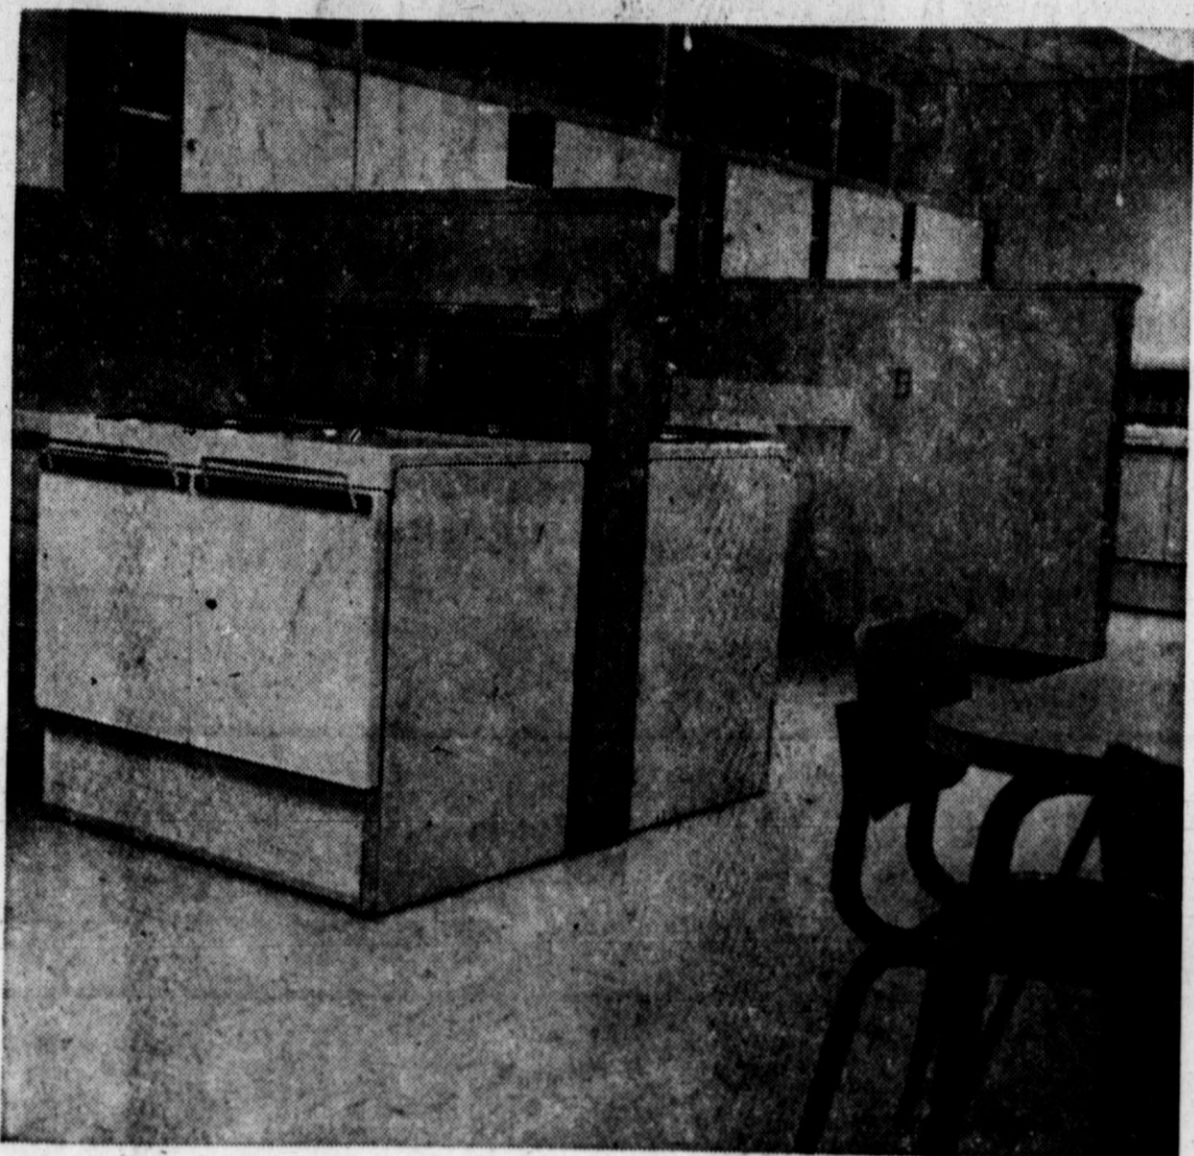

At regular intervals one of the Bureau's large staff of experienced circulation auditors visits us to make a thorough audit of our circulation records. The FACTS established by his audit are published by the Bureau in A.B.C. reports which are available to you, our advertisers. These reports tell you how much circulation we have, where it goes, how it is sold and other FACTS essential to the profitable use of newspaper advertising. Ask us for a copy of our A.B.C. report.

**WALCOTT NEWS**

# Janell Weaver Attends Future Nurses Supper

By MRS. T. L. COLLINS

Mr. and Mrs. Jack Weaver and Janell attended a Future Nurses Club salad supper in the new Hereford High School cafeteria. It was held at 7:30 Monday night.

The occasion was also attended by several of the nurses and doctors of the Walcott area to give inspiration and information to the interested group. Janell was awarded her Future Nurses Pin that night.

Kathryn and James Burrus are ninth graders from Walcott who helped move in the new Junior High School building in Hereford last week.

A special called meeting of the Walcott School Board was held recently to transact business. President Jack Weaver and members, G. V. Hall and Glenn Burrus, were present.

An informative Soil Conservation meeting was held recently at Walcott School. Only a fair crowd attended.

Eldred Brown, who is now on the Board of Supervisors for the Great High Plains District, acted as chairman for the evening. He read "Our Best Investment", part of a speech that was delivered at a state meeting he attended in Galveston last month.

John O. Patrick with the Soil Conservation Service from Hereford, told of the population expanding at a rapid rate - more than our food production. He showed a film published by the United States Department of Agriculture on "Grasslands."

Jack G. Douglas, SCS from Amarillo, explained the slides of farm equipment as Herbert Burns of Hereford showed them. Douglas stated that at the present time, in the United States, there are three acres of cultivated land and seven acres of grassland for every man, woman and child.

Arneal Scott, another Soil Conservationist, wrote an outline on the blackboard as he

explained how the program would work for the individual farmers of the area.

Mrs. Tom Draper, Deaf Smith County Home Demon-

stration Agent, told of planting trees available to farmers for wind breaks. Mrs. Paul Corbett of Hereford was recognized before the group. Wayne Johnson, a Walcott boy, was present for the meeting. He is now a part-time Soil Conservation employee through the Hereford office.

Mrs. Eldred Brown acted as hostess, serving doughnuts and coffee to the group. Mrs. G. V. Hall assisted her.

Those attending besides those already mentioned were Mr. and

Mrs. Jack Fortenberry and Christine, Mr. and Mrs. Julian Perrin, G. V. Hall and sons, Elmo Hall and Kerry, Mr. and Mrs. S. N. Thyoatt, Mr. and Mrs. T. L. Collins, Mrs. N. A. Brown, Ernest and Floyd Brown, Bruce Coleman, J. T. Guinn, Bernie Northcutt, Herschel Burrus, C. F. Homfeld, Cliff Johnson, Bertram Jack, Joe Merrill and B.E. White.

Several visitors were shown the school building before they departed.

Walcott 4-H Clubs held their

regular meetings at Walcott School on Tuesday afternoon.

Miss Loreta Fowler, assistant Home Demonstration agent, and Mrs. Glenn Burrus, met with the girls. Mrs. J. V. Perrin, Mrs. Norman Minks and G.W. Downing met with the boys.

Mr. and Mrs. Elton Wyly and children had her sister, Mr. and Mrs. Ralph Lewis of Anton and Mr. and Mrs. Rufus Lewis Wednesday night and Thursday in their home.

Mr. and Mrs. Stanley Sanders from Levelland received

word on Wednesday night of the illness of his mother, Mrs. Leon Sanders of Aransas Pass. They came early Thursday morning to tell his sister, Mrs. Melvin Henderson. Shortly Mrs. Henderson was on her way with Mr. and Mrs. Stanley to Houston. There they expect to join their mother, Mrs. Sanders, who is to undergo surgery there.

Art class ladies met Thursday morning in Walcott School auditorium for another lesson presented by Mrs. Earl Plank of

Hereford.

Bob Berggren of the Bob's Fire Extinguisher Service in Amarillo came to Walcott School on Thursday afternoon to talk to principal T. L. Collins about the school's fire extinguisher needs.

Mrs. Norman Minks received word Thursday night that her father, Claud Beckett, who had been in the hospital at Greensburg, Kans. for several days, is in serious condition. The Minks family left at once to be at his bedside.

H. D. CHATTER

# Counties Name HD Club Woman

By ARGEN DRAPER

A letter from the Home Demonstration Agent in Moore County tells me that Moore County club women are planning to select the Home Demonstration Club Woman of the year. This is the result of the recognition that Jimmie Gillentine has given to the club women in Deaf Smith County. This makes four counties that I know about that recognize the Club Woman of the Year.

Has the "garden fever" hit you yet? If not, it likely will because Blueford Hancock, extension horticultural specialist, says when we have a few warm days with clear skies and the trees begin to bud out, they always look for the annual epidemic of "garden fever."

Hancock gives these tips on gardening that will help you enjoy your 1960 gardening effort.

1. Plan your garden in advance.
2. Keep the garden small, Hancock reminds.
3. Make a succession of plantings. The idea here is to stagger the plantings so as to have a continuous supply of top quality vegetables.
4. Plant a variety of vegetable crops. There are 32 vegetables that can be grown in Texas gardens.

There is a lot more to it than this, of course. So . . . why not check by the county extension agent's office and get the information on gardening that they have for you.

When energy lags - in mid-morning or afternoon - drink a cold glass of milk for a refreshing lift.

Extension foods and nutrition

specialists of Texas A&M remind us that it is difficult to have a balanced diet without including a good deal of milk every day - that's because it is so rich in calcium and other minerals, high quality protein and vitamins.

Many Texans are not getting enough milk and dairy foods in their daily diet. This was shown by figures in a recent home demonstration survey.

Drinking milk is the simplest way to get the good from milk. But there are many opportunities in cooking to get part of the milk needed daily.

New and different milk drinks are easy to prepare. With a bit of planning and organization, you might arrange a "milk bar" near the refrigerator where youngsters can make their own milk shakes and other delicious drinks.

Recipes and ideas for using milk in drinks and tasty dishes are given in the extension bulletin, "GOOD MILK FOR GOOD MEALS." Get a copy from the office.

**CABBAGE SLAW**  
1 medium head cabbage  
1 cup chopped celery  
1 medium pepper  
1 teaspoon salt.

Put a weight of either a plate or bowl and let set an hour. Drain well.

½ cup white vinegar  
½ cup water  
½ cup sugar  
1 teaspoon mustard seed  
1 teaspoon celery seed.

Pour this mixture over the vegetables and set in refrigerator, and let stand 24 hours. This will last several days and is a very tasty salad.

MORE THAN 300 persons heard Dr. James P. Cornette, standing, give the dedicatory address for three new buildings of the Hereford school system Sunday afternoon. An open house of the new cafeteria, Stanton's renovated building and addition and Northwest Elementary School followed the ceremony. (Staff Photo)

used toward improving the Community House.

A large crowd attended the chili supper held at the Community House Saturday night.

Mrs. Bess Werner received word Saturday morning that her sister-in-law, Miss Frances Turrentine, passed away. Miss Turrentine was also the aunt of George Turrentine of this community. Services were held Monday at the First Methodist Church in Hereford.

Harold Head spent Saturday in Amarillo attending the PCA meeting.

Mr. and Mrs. Ralph Mitchell and her sister, Mr. and Mrs. J. A. Talburt of Littlefield returned Thursday night from a trip to the Big Bend country. They also stayed at Eagle Pass and Del Rio.

The Willing Worker Missionary met at the Community House Wednesday afternoon. They concluded their study of the Book of James. Mrs. R. L. Wilson, Mrs. Joe Landers and Mrs. J. C. Morrison were present.

J. C. Morrison and George Turrentine worked at the Community House Wednesday and Thursday. They did some plumbing work in the kitchen.

Mrs. David Seal of Canyon came home with Mr. and Mrs. G. C. Merritt Jr. of Hereford Friday night. She spent the week end with her parents, Mr. and Mrs. Joe Wagoner.

Sandra Townsend of Hereford ate dinner with Mr. and Mrs. Elmer Combs, Bill and Gene last Sunday.

Mrs. Joe Landers visited her cousin, Mr. and Mrs. R.B. Gunn of Wewoka, Okla., in the home of Mrs. Guy Lawrence in Hereford Saturday afternoon.

Mrs. Ed Jesko of Hereford visited with Mrs. Johnny Jesko and children Wednesday afternoon.

Ruth Capentier of Twin Falls, Idaho spent this past week with Mr. and Mrs. C. A. Sauley. The Sauleys took her to Amarillo on Wednesday to catch the train home.

Mr. and Mrs. Carl Smyth of Wych and Mrs. Eva Lee Potter of Hereford ate supper with the Sauleys and Mrs. Capentier on Tuesday night.

Micky Merritt spent Saturday night with Mr. and Mrs. G. C. Merritt.

Mrs. George Ritter and Larry visited with Mrs. Clinton Jackson in Hereford Wednesday.

Mrs. Harold Rudd, Cheryl and Kit visited with Mrs. Charles Laing in Hereford Wednesday morning.

Mr. and Mrs. C. A. Sauley and Mrs. Bess Werner visited with Ed Blakeney in the hospital in Hereford Thursday.

Mrs. Emmitt Johnson attended a shower for Mrs. Gerald Lindsey in the home of Mrs. C. C. Neu in Hereford Thursday night.

Elmer Combs and G. C. Merritt spent Tuesday in Amarillo. Glenda Faye Cates of Hereford spent last week with her sister, Mrs. Cliff Combs.

Patsy Fowler of Hereford spent Thursday night with Sandra Frank.

Mrs. Joe Landers ate dinner with Mrs. Guy Lawrence Monday and also visited with Mr. and Mrs. Roy Landers in Hereford.

Milton Meharg of Hereford spent last week with Mr. and Mrs. W. G. Frank while his parents, Mr. and Mrs. W. C. Meharg, were on a fishing trip to the coast.

Mrs. G. C. Merritt spent Tuesday with Mrs. G. C. Merritt Jr. and Michelle in Hereford.

Mrs. Walter Lewis and children of Olton and Mrs. W. B. Nunley of Hereford visited with Mrs. Joe Landers Thursday afternoon.

Mr. and Mrs. Sammie Cates of Happy visited with Mr. and Mrs. Cliff Combs last Sunday.

Mr. and Mrs. J. B. Odom left Thursday morning for Oklahoma City to attend the funeral of Mrs. Terry. Her parents, Mr. and Mrs. Ross White of Hale Center, stayed with Jerry in the Odom home.

Mrs. Kenneth Rudd and Paul Douglas visited with Mrs. Ed Dzuik Jr. Wednesday morning.

Mrs. Bill Stengel accompanied Mr. and Mrs. Sam Mazurek to Amarillo on a business trip on Friday.

Mrs. Harold Head and Mrs. Leo Ohlig of Hereford visited with their sister, Mrs. Mozelle Vance in Dumas on Thursday.

Sandra Frank spent Friday night with Ruth Wagoner in Hereford. The girls attended the basketball game in Canyon that night.

The 150 canals of Venice, Italy, are each about 15 feet wide.

Refreshments will be served each night at the end of the games. Anyone liking to play 42 is especially invited to come and enjoy the fun and frolic. The proceeds will be

THE ELECTRIC CO-OP MEANS

# SO MUCH

TO RURAL TEXANS

It would be difficult to count the blessings the electric cooperatives have brought, and impossible to list them in order. For how can you choose between running water, or electric lights, or refrigeration, not to mention literally hundreds of home appliances and work saving devices.

But there's no argument that rural Texas is a far better place to live because of the member-owned electric cooperatives that are paying their way with interest.

The Electric Cooperatives of Texas borrowed money to build their own electric systems. And they are paying back principle and interest with honesty and industry, while providing PARTNERSHIP POWER FOR PROGRESS.

AUSTIN HIGHLIGHTS

# Senate Begins Economy Study

By VERN SANFORD  
AUSTIN. — With an eye on the growing cost of government and need for new taxes, a committee from the Texas Senate has launched an economy study.

Overall state budget for the present two-year spending period is \$328,000,000 more than for the previous two-year period. It was an increase of about 11 per cent. There is every indication that the next Legislature will be faced with demands to raise salaries and expand and improve state services in approximately the same proportion.

Some of the cost increase is attributed to sheer quantity. With Texas population increasing an estimated 26 per cent from 1950-60, there are more youngsters to educate, more patients for state hospitals, more cars wearing out the roads.

More significantly, the percentages of oldsters and youngsters is increasing faster than the percentage of middle-aged people. Older and younger people generally up revenue needs — for welfare benefits and schooling — but contribute less in taxes than income-earning middle-agers.

Some of the increase in costs results from a drive for quality — better schools, hospitals and highways.

With undeniable money needs so great, the Senate committee was set up to seek out any indications of extravagance or waste and "see if we are getting our dollar's worth for the money we're spending." As a starter, the committee,

headed by Sen. Ray Roberts of McKinney, agreed to hold its own expenses to the bare minimum.

State Highway Department Engineers are faced with the task of re-designing bridges for the interstate highways to conform with a U. S. Defense Department requirement for a 16-foot clearance.

Texas has 254 bridges in the interstate system which do not meet the newly announced overhead clearance requirement. U. S. Bureau of Public Roads, which works with the Highway Department in planning the joint federal and state road system, has specified only a 14.5 foot clearance.

Bridges cost approximately \$140,000 apiece, and re-designing to meet the new standards would cost about 55 per cent of the original cost. By-passes for transport of missile and other defense equipment are being considered.

When the subject is water development, Texans always seem to have a few million well-chosen words to exchange.

Hearing before the State Water Board over whether Houston and the Trinity River Authority shall receive a permit to build a new Trinity reservoir is one of the longest ever held. It has been in progress off and on since November.

Main opponent is the San Jacinto River Authority which wants Houston to use its money developing the San Jacinto rather than the Trinity.

SRJA witnesses contend the Trinity water will be inadequate in amount and unsuitable for domestic use.

Texas Railroad Commission set the March oil allowable at \$2,900,568 barrels a day.

This is 170,498 barrels a day less than the February allowable. It continues February's 10-day production pattern.

Most of the industry testimony before the Commission was gloomy. There is an over-supply of oil now, said some spokesmen, and another month of over-production would be "disastrous."

Cities of Harlingen and West University Place (Harris Co.) are to receive awards for their water and sewage plants on March 2.

Dr. J. E. Peavy, State Health Commissioner, will present cups to representatives of the cities at the banquet sponsored by the Texas Water and Sewage Works Association.

Harlingen will be recognized for having the "most attractive water treatment plant in the state" and West University Place for the "most attractive sewerage treatment plant."

Presentation will be made during a short course for city water and sewage plant personnel to be held Feb. 28 to March 5 at Texas A&M College.

Texas' need for more mental hospital space has focused attention on the number of

state mental hospital beds occupied by persons not mentally ill.

In a talk before the Texas Association for Mental Health, Gov. Price Daniel said, "One of our toughest problems now involves those 5,000 hospital patients whose only illness is advanced age."

"Senility is not insanity," said the governor, "and a concerted effort must be made to enable these aged citizens to be cared

for in nursing homes or in their own homes."

State Hospital Board Chairman French Robertson called it "a sad thing that people send their old people to mental hospitals when they don't want to take care of them."

Young men between 21 and 35 years of age will have an opportunity in April to seek admission to one of the nation's most highly regarded law enforcement agencies.

Col. Homer Garrison Jr., Director of the Department of Public Safety, announced that entrance examinations will be given April 12, 13 and 14 for candidates for the State Highway Patrol.

Applicants must be high school graduates, in good physical condition and of high moral character. They must be not less

(Continued on page 2)

Hereford, Texas, Thursday, February 25, 1960 Section Three

C OF C SCOUT

### 'Deaf' Smith Says

(Editor's Note: In his weekly letters to Sam, "Deaf" Smith will tell all he hears in connection with Chamber of Commerce activity. And what he doesn't hear, C of C manager Bill Thompson will supply additional information.)

Sam, I've been scouting that county in the Panhandle that they named after me and figured you'd like to know what's going on up there. There's a whole lot of folks there that are sure-workin' hard to make that County a mighty fine place to live and work.

Take right this week, for instance. My Chamber of Commerce is planning to have a luncheon meeting Friday noon in the Hotel Jim Hill. Henry Sears is going to report to the membership on their sugar beet project. Now Sam, I don't know what sugar beets are cause they didn't have those things when we were around fightin' fer Texas, but it looks like it's mighty important thing to the folks in my county and the county thereabouts. Anyway, the Chamber of Commerce wants everyone to hear this report and asks that the membership make reservations for their meal. It will be just \$1.50, payable at the door.

And you know, Sam, I believe that my people there in my county may be starting to get interested in how the country is run. I hear that a bunch of folks are going to get together Thursday night in the Chamber of Commerce office to plan an "Action Course in Practical Politics." Now this here course doesn't have any teacher. It seems that they are just going to get together and study as how they can do a better job of helping the political party of their choice. You know that's a real good idea, Sam, because it looks like people in our day took a right smart more interest in their government than they do today. It don't rightly matter whether they are Democrats or Republicans (Sam, that's a new party that got started just after I died), just so they make their democracy work.

Well, Sam, I'm going to keep an eye on those people in Deaf Smith County and report to you regularly on how they're comin' along. They've got some problems but they've got some mighty fine people workin' through their Chamber of Commerce to find answers to those problems. I sure like to see farmers, ranchers, doctors, lawyers and business people all working together like they are there 'cause from up here we can see how they all depend on each other. Sam, try a Hereford potato.

Interested in how the country is run. I hear that a bunch of folks are going to get together Thursday night in the Chamber of Commerce office to plan an "Action Course in Practical Politics." Dr. Caldwell Beckham . . . speaks on dentistry

### Dentistry Program Presented At Meet

Dr. Caldwell Beckham of Amarillo, a periodontist, spoke on dentistry at the noon meeting of Hereford Kiwanis Club Thursday in L.O.O.F. Hall.

Guests at the regular meeting were Joel Harper of Olton, Millard McNabb of Amarillo, Ray Eller of Fort Worth and Walter Harrison.

Kiwanis program chairman Hap Cavness introduced the specialized dentist, who treats diseases of the gums. He explained that periodontal diseases are widespread, but that loosened teeth can often be saved.

"Early diagnosis and regular checkups are very important to treatment of gum diseases," Dr. Beckham said. "Cooperation of the patient and dentists are important during treatment."

He concluded by saying, "Be true to your teeth, and they won't be false to you."

### Miss Wimberley Sorority Pledge

Phyllis Wimberley, sophomore from Dawn, is pledging Delta Zeta, national social sorority, at West Texas State College. She was among 42 coeds to participate in spring rush activities for the four national social sororities on campus.

Miss Wimberley, daughter of Mr. and Mrs. Carl T. Wimberley, is majoring in secretarial science. She was graduated from Hereford High School in 1958.

A series of round-robin parties marked the beginning of formal rush week activities. At 8:30 p. m., Feb. 7, the rushees received their bids and new pledges were announced to the sororities.

REP. WALTER ROGERS WRITES:

## Hats Off To Senator Connally

To the people of the 18th District:

Former Senator Tom Connally gave certain proof the other day that he has lost none of his ability and wit in debate. He wrote a letter to Senator J. W. Fulbright (D-Ark.), chairman of the Senate Foreign Relations Committee, advising the Committee that the proposed repeal of the "Connally Amendment" would be most unwise.

He branded the move to support repeal of that Amendment as propaganda device designed to "win an international popularity contest." Under the Connally Amendment, which gets its name from Senator Connally, the United States reserves the right to determine whether or not the International Court of Justice, referred to commonly as the "world court", has jurisdiction in any case which this country claims is a case of domestic jurisdiction.

In other words the United States reserved the right to say to the world court this or that particular case is essentially within the domestic jurisdiction of the United States, therefore you do not have jurisdiction.

Many writers call this a veto power over the jurisdiction of the Court of International Justice. I do not agree with that contention, but on the contrary, I feel this country is deeply indebted to Senator Tom Connally for the great vision and foresight which he exhibited in attaching his Amendment to the 1946 Senate Resolution subjecting this country to compulsory jurisdiction of the court in four classes of cases.

History has again proven that Senator Tom Connally will

be marked as one of the great patriots of our time — a man of ability, integrity and foresight.

The great debate as to whether or not this country should give up the right to determine whether the International Court has jurisdiction in any case which this country says is a matter of domestic jurisdiction, rose out of the proposal by Sen-

## Huge Construction Project Is Slated

Southwestern Public Service Company will invest \$18,325,000 in construction and new equipment throughout the company's 45,000 square mile service area in 1960. It has been announced by A.R. Watson, Executive Vice President and General Manager.

At the same time that he announced the 1960 construction investment, Watson revealed that the company's long-range forecast anticipates a \$86,000,000 investment in new facilities in the next five years.

"Our responsibility as a public utility is to stay ahead of the growth of our service area. Every economic index indicates that our service area will continue the phenomenal growth it has shown in recent years. We must plan now to keep ahead of that growth," Watson said.

Southwestern Public Service Company's 12th major generating station will go into service in June. Located north of Am-

arillo, the new plant will have a generating capability of 112,500 kilowatts when it goes on the line. The second unit, which will double the size of the plant, has already been ordered, and is scheduled to be in service in 1962.

When the second unit at the station north of Amarillo does go into service, Southwestern Public Service Company's generating capability will pass the million mark for the first time. The capability of the 12 major generating stations will be 1,037,000 kilowatts in 1962. The growth of the area, and the company, is dramatically portrayed by a comparison with the system generating capability in 1952, which was 404,500 kilowatts.

"Electric service continues as the biggest bargain in your family budget," Watson pointed out. "The average residential kilowatt-hour cost our customers 3.05 cents in 1959, compared with 3.11 cents in

ate if Tom Connally was still a Member of that Body. I feel that he had no peer as a master in debate. One of the best examples of his ability to cope with an adversary is the occasion when he told one of his colleagues who had been talking a long time without saying very much, the following: "If the gentleman would approach these problems with an open mind instead of an open mouth, he would be much more effective."

Another controversial matter in which the President will, undoubtedly, encounter much opposition is his recommendation in his Budget Message for repeal of the provision of the National Defense Education Act that prohibits payment of loans being made to any individual unless he executes an affidavit that he does not believe in or belong to any organization that teaches the illegal overthrow of the Government.

The President said "This affidavit requirement is unwarranted and justifiably resented by a large part of our educational community which feels that it is being singled out for this requirement." With this statement I disagree. Candidates for public office are required to sign a loyalty oath, and rightfully should be. A person going to school on borrowed taxpayers' money should not hesitate to declare his loyalty to the country which provides that money.

## Red Cross Chapter Recognized At Stanton Assembly Program

Stanton Junior High School's Junior Red Cross chapter was recognized during an assembly program at the school last week.

Appearing on the program were Mrs. W. J. Messick, junior chapter chairman; Mrs. H. F. Neely, executive secretary; and Mrs. O. G. Hill Jr., representing Deaf Smith County chapter chairman Bill Harwick.

After an explanation of the purposes of Junior Red Cross, a skit was presented and Audin Miller, album chairman, showed a JRC album from Japan and explained how Stanton was working on its album.

Mrs. O. Wertenberger, sponsor, introduced each officer and home room representative to the Stanton JRC Council.

Officers are: Kay Allen, president; Pat Rowland, vice president; Cynthia Seed, secretary; and Caroline Brumley, treasurer. Home room representatives include: Cynthia Seed, Kay Allen, Mary Drerup, Patricia Houle, Cieta Kay Rutter, Linda Lemon, Caroline Brumley, Cheryl Edmonson, Cathy Billbre, Nancy Martin, Patricia Maxwell, Eugene Green, Betty Sue Curtis, Pat Rowland, Gloria Covington, Carl Staff, Mike Ranspot, San-

ford Williams, Terry Watson and George Muse.

JUNIOR RED CROSS COUNCIL members, each representing a home room, were recognized last week during an assembly program at Stanton Junior High School. The entire program was devoted to the activities and plans of the Stanton chapter of Junior Red Cross. (Staff Photo)

PART OF \$18,325,000 Southwestern Public Service Company's 1960 construction budget will go to build the second unit of this giant new electric generating station north of Amarillo. So fast is growth

of the area served by the company that construction, doubling size of the station, will begin before the first unit starts producing electricity in June.

OUTSTANDING MUSICIANS in the Stanton Junior High seventh grade band were announced last week by director George Hill. They are, from left: Arlene Reid, first; Merle Carmichael, second; and Patricia Maxwell, third. They were selected after try-outs and competition in the band, which is the first year of instruction in the school band program. (Staff Photo)

### Local Auxiliary Studies Pensions

Mrs. Hazel Sparks, local American Legion Auxiliary Unit president, announced recently that the Hereford Unit of the Auxiliary is offering the help of informed workers to women with questions about pension problems. She said with the new pension law becoming effective next July widows of war veterans should study the old and new laws and decide which is the most advantageous for them.

It may be advantageous for widows, orphans and veterans who already have qualified for pensions to remain under the old law. Individual cases differ and careful study should be given to each widow and veteran now drawing pensions to their individual case before any change is made, she advised.

**ANTIQUE DOORS**  
CHICAGO (AP) — Two antique doors from the British Isles now stand at the entrance to the Chicago Art Institute's new court gardens. The inner door is a 9 foot, 11 inch pine door, nearly 200 years old which came from the interior of Douglas Castle, Lanark, Scotland. It is an early work of Robert Adam. The outer door is a decorative early Georgian pine door from a 1715 London house. Both doors are part of the Howard Van Doren Shaw memorial collection of the Art Institute.

### Hold Meeting Of Wyche HD Club

The Wyche Home Demonstration Club met recently in the home of Mrs. J. V. Pickens. Mrs. Charles Packard presented the program on Wheat Products. Recreation was conducted by Mrs. Ira Ott and Mrs. J. V. Pickens brought the council report. Mrs. H. L. Ward brought a report on a pattern and fabric program she attended recently.

### Wheat Discussed At Club Meeting

North Hereford Home Demonstration Club met in the Flame Room of Pioneer Natural Gas building Thursday for a program on wheat products by Mrs. Ray Roberts and Mrs. Nelson Reiger. Roll call was answered to: "One of many reasons for keeping healthy" and "The whole wheat products I like best."

Mrs. Roberts discussed wheat products in daily diets for good nutrition. She said: "Wheat contains thiamin, Vitamin B-1, Riboflavin B-2 Niacin, and one slice of wheat bread contains 60 calories, whether toasted or not." Mrs. Bell Williams reported on the club's food sale held at a recent farm sale. Miss Roberta Campbell reported on the plastic flower demonstration held Monday in Deaf Smith County Electric Cooperative building and displayed some of her arrangements.

(Continued from page 1)  
1958, and since 1950, the average cost of a residential kilowatt hour has decreased by 23%, he added. 23.9 cents of every dollar of gross revenue received by Southwestern Public Service Company went to pay federal, state and local taxes, Watson said. "We have no quarrel with carrying our fair share of the tax load, but it seems manifestly unfair that some of our taxes, and those of our customers, should be used to finance government power projects which have tax-free profits, and destroy private industry which would add to the tax revenues," Watson concluded.

### Rep. Walter

(Continued from page 1)  
In a recent Congressional hearing, a witness vigorously opposed a project involving some irrigation water for an area noted for its ability to grow fine hay. He was asked by one of the committee members why he opposed projects designed to provide food for this country. His answer, "Because the people in my state don't eat hay." Another alert member of the committee observed to me that there were times in the lives of all of us when hay would be an appropriate diet.

18th District of Texas

Have you read the classifieds?

1,000 cubic feet. Lone Star, which sells to 328 Texas cities, had asked for an increase to 40 cents. Twenty-eight cities vigorously opposed the company's request, keeping the matter in heated controversy before the commission for more than a year. Several legislative races have been "won" without a shot fired. Texas Legislative Service reports 20 announced candidates for legislative posts have withdrawn.

## 4,718,904 Reasons You Should Try

# MORTON'S SALAD DRESSING

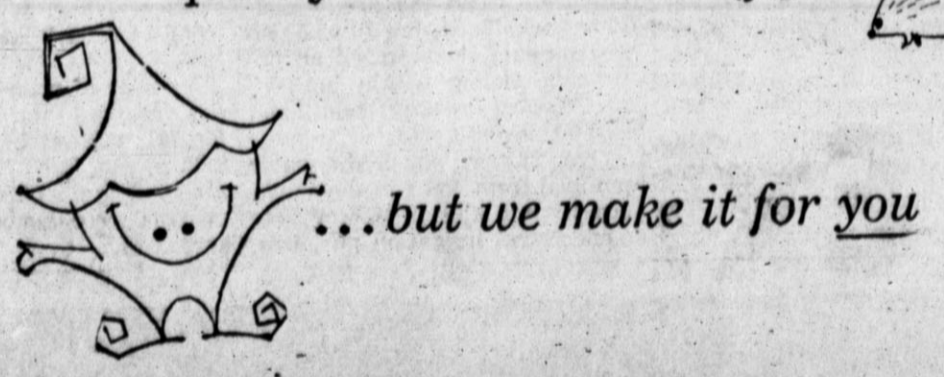

Yes, last year 4,718,904 jars of Morton's Salad Dressing products pleased their purchasers in Southwestern homes! There's a reason so many folks prefer Morton's... why don't you try its fresh, wholesome goodness and see for yourself? Your Food Pyramid will like the price, too.

## And just as good as your favorite MORTON'S POTATO CHIPS

## If we made Gladiola Flour for Porcupine, S. D...

we could lower the quality a little...

Gladiola Land (that's Texas and a little bit more) could give the rest of the country lessons in home baking. Nobody makes biscuits, pies and cakes the way the ladies make 'em here.

Nobody's so fussy about flour, either—and that's fine with us. We're fussy, too. That's why Gladiola Flour is like no other flour made. Naturally, it outsells every other brand.

As for the folks in Porcupine, S.D., what they don't know won't hurt 'em. Snow-white Gladiola Flour isn't for them—it's for you. And it costs only about 1/2¢ a day more than the cheapest brand at your store.

Bake and be Glad—with **GLADIOLA FLOUR**  
The best-selling flour in the Southwest

(Porcupine is in Shannon County on Porcupine Creek near Porcupine Butte.)

**YOUTH IN PRINT**  
FREDERICK, Okla. (AP) — Editor of the daily Frederick Leader, Bob E. Cull, is only 21. His city editor, Miss Jurhee George, is 18.

**HE HAD AN EXCUSE**  
NEWCASTLE, Wyo. (AP) — Fred M. Bozanic, 20, showed up a little late for his wedding. But he had a good alibi. He was in justice court, paying a \$25 fine and \$5 court costs for disturbing the peace.

**NO IMMUNITY**  
NOGALES, Ariz. (AP) — Sheriff Robert Connor reported a burglary to city police — thieves broke into his home and carried off an electric toaster and clothing.

### 1,000,000 SOUND WAVES PER SECOND

We use the McKenna Ultrasonic watch cleaner. One million vibrations of sound per second removes even microscopic particles of dirt and old oil actually from within the blind holes and crevices of the watch.

Let us show you this new Ultrasonic watch cleaner and explain its operation.

# An American Duet In German Opera House

By REINHOLD ENSZ

BERLIN (AP) — Divided Berlin has opera houses in both East and West. In the West, one of the leading baritones happens to be a real westerner—from Texas.

But hardly anyone would suspect that tall handsome 31-year-old Thomas Stewart hails from San Saba, Tex. German is the language for almost all of the opera's productions and Stewart sings them like a German.

"His German is often easier to understand than that of German singers," says Dr. Horst Georges, one of the opera's top officials. "Stewart has a definite gift for languages."

Stewart's pretty, 31-year-old Brooklyn-born wife, whose stage name is Evelyn Lear, also sings with the opera.

Stewart makes 70 to 80 appearances a year, while his soprano wife makes 30 to 40.

"It is unusual that a man and wife are both singers," Stewart says, "but it is even more unusual for them to sing in the same opera house."

When they're not singing, they're at home in West Berlin's fashionable suburb of Dahlem, practicing their opera roles, or playing the roles of parents. They have two children, Jan, 13 and Bonnie, 11.

How did the family get to West Berlin?

"It was simple," Stewart says, "my wife and I got Fulbright scholarships for singing lessons here."

The scholarships were for West Berlin's College of Music. They arrived at the school in August, 1957, and immediately began studying German, in addition to singing. It wasn't long before both were singing at the West Berlin opera, thus joining the scores of Americans who are singing professionally in West Germany.

West Germany has about 65 opera houses and many of them have one or more Americans on their rolls. The influx of Americans has caused some grumbling among German singers, some of whom suspect that

AMERICANS IN GERMANY: Mr. and Mrs. Thomas Stewart—he from Texas, she from Brooklyn—are two of the number of Americans who sing in German opera.

The American government is forcing the opera houses to hire Americans.

"Anyone who says this is being naive," Stewart says. "The director of our opera hires only on the basis of singing ability. Germany has a definite shortage of trained singers."

Hamburg's independent newspaper Die Welt recently made a survey on the subject and came to the same conclusion as Stewart. The paper said there is no evidence of favoritism, but added that the United States is turning out more opera singers than it can possibly use.

On this point, Stewart says: "It's very hard to get practical experience in the United States. Only three cities have opera houses—New York, Chicago and San Francisco. What's more, they have short seasons. German opera houses operate 11 months out of the year."

Before starting his singing

career, Stewart put in a three-year hitch in the United States Air Force as a statistician. He stuck with statistics for one year after his discharge, but then switched to his real love, singing.

He sang with the New York City Center Opera, with the NBC TV opera and at Chicago's Lyric Theatre.

He says there is very little difference between stage life in Germany and America.

"Musicians are musicians. But there is a basic difference in personalities. Germans are much more subdued than Americans."

The average American will go to a party and within two minutes he will be telling someone his life history. Germans simply do not do that. You have to know a German some time before you can possibly become close friends."

Stewart and his wife want to remain in Germany until 1962. Then they would like to go back to the United States and land jobs at the Metropolitan Opera in New York.

"We like Germany," Stewart says, "but after all, America is home. We are well treated and I have never encountered any anti-American resentment."

Stewart adds with a grin: "What's more, you can't get any American-style ice cream over here."

### HITS ARE A HABIT

NEW YORK (AP) — Two of the most successful producers on Broadway are Robert E. Griffith and Harold S. Prince, who have five musical hits in a row.

The learned the hard way—as stage managers before they became impresarios to present such theatrical gold mines as "Fiorello!", "The Pajama Game," "Damn Yankees," "New Girl in Town," and "West Side Story."

Prince was born within a few blocks of Broadway, but became interested in the theater as a student at the University of Pennsylvania. Griffith was born in Methuen, Mass.

The Taj Mahal, famed mausoleum in India, was built by Shah Jahan as a burial place for his favorite wife, Mumtaz-i-Mahal.

# How Can I?

By Anne Ashley

Q. How can I mix my own cement for mending some crockery?

A. Here's one which might take a very long time to dry, but is well worth it, for it will stand up under heat and water. Just mix a little pure white lead with some linseed oil, and use it very thick on the broken edges of your crockery. Let it set for at least a week.

Q. How can I put some life and crispness into a limp veil?

A. This trouble can often be cured by putting the veil between two pieces of waxed paper and running a moderately warm iron over it.

Q. How can I prevent snow and sleet from sticking to the windshield of my car?

A. Try rubbing a cut, raw onion over the outside surface of the Glass.

Q. How can I preserve apples for future pies?

A. Fill a sterilized jar half full of the sliced fruit, add an aspirin tablet, and finish by filling the jar with apples. Run cold tap water into the jar until it overflows and seal with a sterilized lid. When you are ready to use your apples, rinse them thoroughly with cold water.

Q. How can I prevent scales from forming on the inside of my teakettle?

A. One preventive is to keep an oyster shell in the kettle, replacing this when it has accumulated all the scale it can hold.

Q. How can I get oil into machinery spots which are hard to reach even with a very small oilcan?

A. Try attaching an ordinary drinking straw to your oilcan as an emergency extension.

Q. How can I avoid the tarnishing of some of my brass articles?

A. You can prevent danger of tarnish with a coat of clear metal lacquer. Be sure the surface is clean and free of polish before applying the lacquer. A second coat will provide even greater insurance.

Q. How can I produce a good gloss on my bathroom tile?

A. After washing the tile, cover it with a thin coating of laundry starch, allow this to dry, then polish it off with a dry soft cloth.

Q. How can I prevent milk from scorching the dish or pan

### STANDING ROOM ONLY

NEW YORK (AP) — "The Sound of Music" is playing to \$75,000 a week capacity at Broadway's Lunt-Fontanne Theater. It is also doing \$619 a week standing room, all that fire department regulations will allow.

In addition to playing, singing and dancing the starring role, Mary Martin is benefiting from the box office. She is part owner of the production.

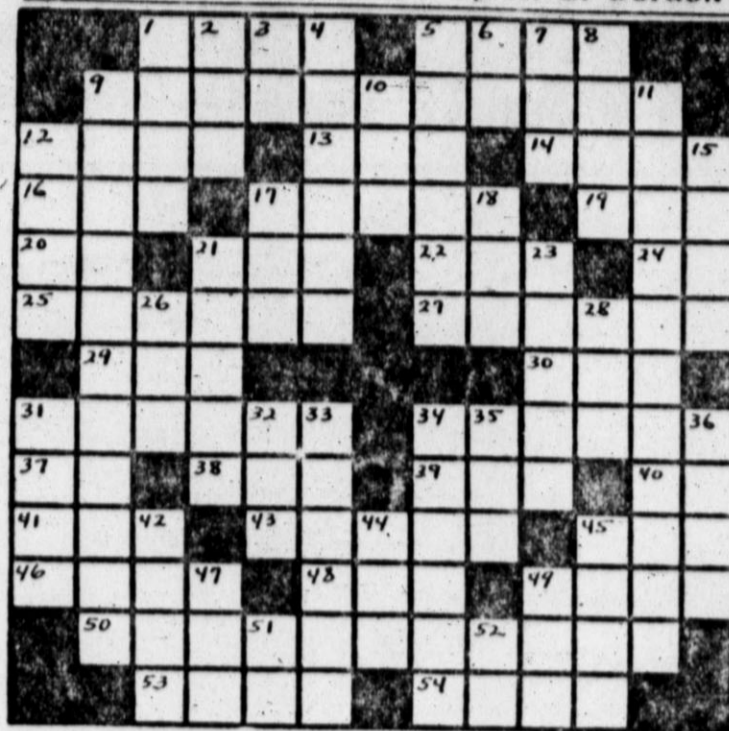

### RIVALS WIN

LANDER, Wyo. (AP) — An automobile dealer held a birthday anniversary and as door prizes gave free wheel alignment.

The winners: Two employees of rival auto firms.

Moussorgsky, the Russian composer noted for his rugged and powerful operas, had a contrasting first name. It was "Modest."

in which it is to be heated?

A. By rinsing the utensil in cold water before pouring your milk into it.

Q. What is an easy way of stripping an electric wire, that is, removing the rubber insulation for the purpose of making a connection?

A. One very easy way is to

make use for the nail - pulling claw on your hammer. Pull the two strands of your wire apart, then insert one of these at a time clear down to the bottom of the "v" in the claw of the hammer, and pull the rubber off in bites of about two inches.

### Fern Tonic

Even house ferns like a cup of tea now and then! Cold tea acts as a tonic and will often revive ailing ferns.

### Clothes Care

It's always a good idea to let your dry-cleaner know what caused a particular stain on some of your clothing. Here's a good way to do it: Mark the spot plainly by pinning a piece of paper to it, noting information about the cause of the spot.

### Enamel Preservative

To prevent white enamel from yellowing, try adding one teaspoonful of black enamel to each quart of white enamel used.

### Scorched Shirt

Don't give up too easily on a white shirt that's been scorched, until you try bleaching it out under a sunlamp. Moisten the scorched portion with water and hold it under the lamp until the fabric regains its whiteness. You may have to moisten it more than once.

### Ink On Fingers

Ink stains on the fingers can be removed, if you will dip an old toothbrush or nailbrush into vinegar and then into salt, and scrub over the stains until they disappear.

It's always a good idea to let your dry-cleaner know what caused a particular stain on some of your clothing. Here's a good way to do it: Mark the spot plainly by pinning a piece of paper to it, noting information about the cause of the spot.

To prevent white enamel from yellowing, try adding one teaspoonful of black enamel to each quart of white enamel used.

Don't give up too easily on a white shirt that's been scorched, until you try bleaching it out under a sunlamp. Moisten the scorched portion with water and hold it under the lamp until the fabric regains its whiteness. You may have to moisten it more than once.

Ink stains on the fingers can be removed, if you will dip an old toothbrush or nailbrush into vinegar and then into salt, and scrub over the stains until they disappear.

Even house ferns like a cup of tea now and then! Cold tea acts as a tonic and will often revive ailing ferns.

try our new

**Esso Extra gasoline**

Yes! Famous Esso Extra, No. 1 "premium" gasoline in Texas, has been improved.

Substantially improved. No other gasoline in its price range exceeds new Esso Extra's over-all quality. No other will give your car better performance.

Octane rating reaches a new high. Mileage is better—you get all the mileage your car can deliver. And a chemical additive, perfected at Humble Research Center, conditions your engine so that performance improves mile after mile.

Esso Extra, at intermediate price, is the perfect gasoline for hundreds of thousands of Texas automobiles. Try it in yours.

You will be a happier motorist when you become a Humble customer.

 The Men's Club meets on the second Friday of each month at 7:30 p. m.  
 The Ladies Aid meets on the third Wednesday of each month

## Our Symbol

One of our most treasured relics is the Liberty Bell. It is so-called because it was rung on July 8, 1776 to summon the citizenry for the terse announcement that the Declaration of Independence had been adopted. Today, it remains the greatest symbol of a nation free from tyranny in government and intolerance in religion... that nation is America.  
 But one fact often overlooked is that when the historic bell was originally cast its makers turned to the Bible, to Leviticus, for the words inscribed around its contour: "Proclaim Liberty throughout the land unto all the inhabitants thereof." What a beginning! What a heritage! What a privilege to be a son or daughter of Freedom's Land. What a blessing to be an American.  
 How great is our Symbol!!!

at 7:30 p. m.  
 Text and Topic for Sunday, Feb. 28: "Ye Shall Be My Witnesses," John 15:27. Topic and text for the first Lenten Service, Wednesday, March 2, at 7:45 p. m.: "Dividing the Spoils," John 19:23-24.  
 Lest We Forget: When a soul begins to feel its guilty and undone state, it needs a comforter; and none but the Holy Spirit is sufficient to administer such consolation. When He reveals Christ to the soul, all tears are instantly wiped away. Through Christ He heals the wounded spirit and binds up the broken and contrite heart.  
 A most cordial welcome to you.

## Seventh Day Adventist

**Thru and Lawton**  
**J. D. Sammons, Pastor**  
 Song Service at 9:30 a. m. Saturday; Sabbath School, 9:45 a. m. Saturday; Worship Service, 11 a. m.  
 Subject for Lesson Study Sabbath, Feb. 20: "Other Last Day Signs." Memory Verse: Dan. 12:4.  
 Study Helps: "The Great Controversy," pages 355 - 356; "Christ's Object Lessons," pages 170 - 371, 372; "The Seventh-Day Adventist Bible Commentary," on lesson scripture; Lesson Help in "Review and Herald" of Feb. 4.  
 Note: When God foretells future events, He does so for two reasons: 1. that the sinner may be warned and saved; 2. that the church may be reassured and prepared.  
 Lesson Outline: 1. Increase of Knowledge and Responsibility. 2. Warnings for Perilous Times. 3. Disturbed Nations. 4. Facing the Future Confidently.

## Thompson Memorial Mexican Baptist Mission

**Norton and Texas**  
**Rev. Ernest E. Atkinson, Pastor**

# IT'S SPRINGTIME...

And time to

Start thinking about getting your land ready for planting, and of course, one of the first things you need to do is apply an ample supply of Nitrogen to feed the crops to come.

Order your Anhydrous Ammonia now. Of course, there are lots of Agricultural Chemicals available, but when you're looking for Guaranteed Quality, you'll just naturally turn to DOW CHEMICAL Anhydrous Ammonia... the finest Agricultural Ammonia money can buy.

Phone BLANTON BUTANE and place your order early. When the ground dries sufficiently to apply Ammonia, you'll want to be among the first to get your rigs in the field and get to work... so, don't take chances, place your order NOW!

# Blanton Butane

Phone EM 4-0220

"DON'T BREAK the chain of 12 essential elements" was the program for a fertilizer meeting held recently in the Western Wheel Inn Cafe. Approximately 25 local farmers and cotton growers attended the dinner and discussion on mineralized fertilizer. Leading the discussion were, from left:

Dr. J. K. Morgan, representative of the American Potash Institute; Ike Morrison, co owner of High Yield Fertilizer; Bonham; Harley Davis, owner of the Lady Bug Company, Hereford; and Joe Eller, representative and vice-president of Dawson Chemical Co., Houston. (Staff Photo)

# Next Best Thing To Paul Bunyan Himself

By DICK MEISTER  
ISELTON, Calif. — The Bunyan Buggie is beginning to take shape. It is 24 feet in diameter, weighs 32 tons, payload 85 tons — the world's largest tractor.

That's not all. The giant two-wheeled machine is designed to pull 145 tons, almost five times its own weight. Even Paul Bunyan's legendary blue ox, "Babe," couldn't do that.

And it's supposed to move 96 yards of earth at one swipe, be waterproof in water up to eight feet deep and carry a 12,000-gallon water tank for fire fighting.

A full scale pilot model, on the drawing boards 11 years and three months in the making is being built at an abandoned cannery in this Sacramento River town by inventor Harold Manning and two helpers. It should be ready by March.

Manning, a logger in California, Washington and Oregon since 1922, acknowledges that his Buggie is a novelty.

Q How can I remove some powder stains from my clothes?

A On most hard-finished fabrics, these stains can be removed with cleaning fluid. On silks and wools, though, first treat the spot by rubbing it with a piece of cheese cloth dipped in warm, soapy water and wring out; then proceed as usual with cleaning fluid.

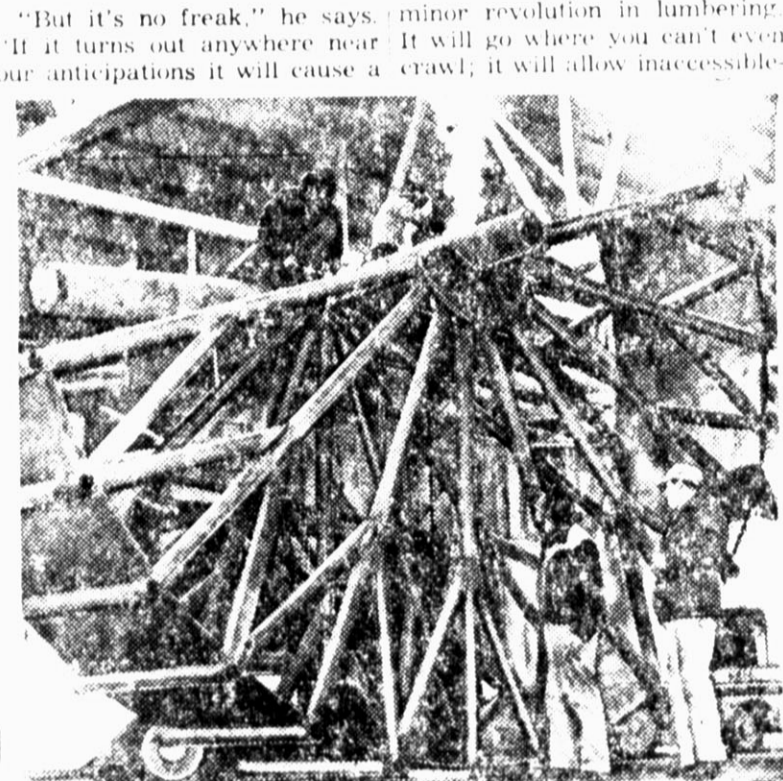

Q How can I eradicate blackheads and whiteheads from the skin on my back?

A Have you been giving the important area the BRUSHING it should have with every bath? You could have avoided this condition if you had. However, now give your back a coating of skin oil, let this soak in for about a half-hour, then scrub the back vigorously with a stiff brush and soapsuds.

Q What is a good emergency repair for a cracked or split fingernail?

A Coat the damaged nail with some colorless polish and while still wet, press a small piece of tissue paper over it. Cut the paper to the shape of your nail and cover it with several coats of polish. Clear adhesive tape does a good job, too.

IT ADDS  
TULSA, Okla. — Attorney Travis Milsten, making conversation with two small boys in an automatic elevator, asked them where they were going. "Up to five," one replied, punching the No. 2 and 3 buttons.

TAKING SHAPE: The Bunyan Buggie, shown here under construction at Iselton, Calif., will have wheels 24 feet in diameter and be able to pull 145 tons.

## Delightful Earful For Opera Buffs

By L. J. KRAMP

OPERA RECORD fans can choose this season from four new and sumptuous albums, three by RCA Victor and one by London, and a dozen excellent single discs of highlights and recitals.

The RCA Victor Albums, each arrayed in colorful, flip-top boxes hinged in metal, and enclosing a tasteful libretto, are of Rossini's "The Barber of Seville," Mozart's "The Marriage of Figaro," and Verdi's "The Force of Destiny." "The London is a superb "Das Rheingold," by Wagner. In stereo all four are top notchers.

Also outstanding in new choral music are a four-disc Vanguard album of Bach's "St. Matthew Passion," and Columbia's single disc of Stravinsky's "Threni."

"The Barber" features Robert Merrill, Roberta Peters, Cesare Valletti, George Tozzi, and Fernando Corena, and the Metropolitan Opera Orchestra and Chorus under Erich Leinsdorf. It is uncult and the best available.

The Leinsdorf stereo results in "The Barber" are only less sensational in his "Marriage of Figaro," with Miss Peters, Lisa Della Casa, George Tozzi, and George London, with the Vienna Philharmonic Orchestra and Vienna State Opera Chorus. It is uncult and a close rival to the famous 4-year-old London album by the same orchestra and chorus under Erich Kleiber, newly offered in a highlights single disc that is short on stereo but long on singing by Cesare Siepi and Hilda Gueden.

Zinka Milanov and Leonard Warren headline the "Force of Destiny" album with the St. Cecilia Academy Chorus and Orchestra of Rome under Fernando Previtali. It is highly dramatic and superior to previous versions, except perhaps the Tehaldi-Del Monaco album by London.

Wagner's "Das Rheingold" by London, with George London and Kirsten Flagstad, is by far the best in musical value. Stereo dimensions add a bonus to make it even more outstanding. The instrumentation includes 18 anvils, six harps and a thundersheet. George Solti conducts the Vienna Philharmonic.

The Bach "St. Matthew Passion" is expertly conducted by Mogens Waldike, directing the Vienna Chorus and Orchestra. The stereo album is the best of its kind.

Igor Stravinsky directs "Threni," his 12-tone work based on the Lamentations of Jeremiah, for six solo voices and chorus. The Columbia Symphony Orchestra provides a delicate accompaniment.

London has issued stereo highlights singles of its Tehaldi-Del Monaco "Andrea Chénier" and of "The Merry Widow" with Hilda Gueden. London also issued a Wagnerian recital by George London and two other fine single recitals by Mario Del Monaco and by Carlo Bergonzi.

RCA Victor has condensed its stereo singles into "La Gioconda," with Milanov and Warren, and "Samson and Delilah" with Rise Stevens and Del Monaco. The former is in a full album but the latter is not.

Maria Callas is exciting in an Angel single, "Callas Parlays Verdi Heroines," her first stereo disc and one highly recommended in sound as well as performance.

Switching to monaurals and lighter fare, a group of old favorites ranging from "In the Evening by the Moonlight" to "Good Night Ladies" is sung roundly in a new RCA Victor recording, "Sing With the Four Roses Society."

Television stars Anne Jeffreys and Robert Sterling introduce the record and take you on a melancholy journey into the past.

Lyrics are conveniently placed on the back of the record jacket.

FAST START  
NEW YORK — The screen rights to George Axelrod's new play, "Goodbye Charlie," have been sold even though the stage production won't reach Broadway until December.

An escalator clause in the sale contract provides for a price tag up to \$500,000, depending on the length of the Broadway run. Lauren Bacall and Sidney Chaplin are to star in the stage version.

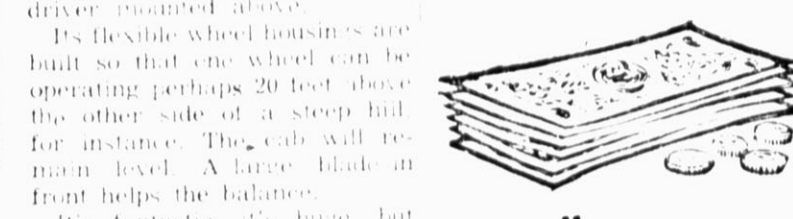

The Panama Canal varies in depth from 41 feet to 85 feet.

Several logging companies, he says, have shown interest in buying the Bunyan Buggies, which would cost about \$1,000 each.

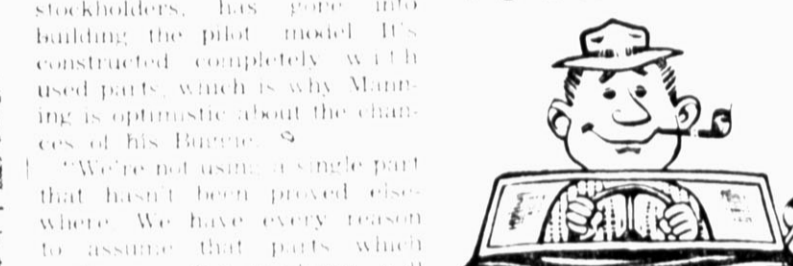

About three billion barrels of oil were produced in the United States in 1958. The oil came from 9,250 fields located in 32 states.

## Beauty At Home

A. Scrupulous cleanliness of the hair and scalp. Fairly full brushing of hair and scalp, hot-oil massages prior to the shampoos are all good contributors to healthy, luxuriant hair. Very important, too, is good physical condition plus good, over-all health habits.

Q. How can I exercise to help firm and strengthen the skin and muscles of my thighs?

A. A very simple, but good one is this: Stand on tiptoes with hands on hips. Bend knees to a squatting position, then rise to a standing position again, on tiptoes throughout.

Q. What can I do about shadows under my eyes?

A. These usually mean that one has been lying it up just a bit too much and losing much-needed sleep. If this is your case, resolve now to get better on this score — but in the meantime, try one of the makeup tricks on the market, especially designed for covering such blemishes as these.

IT ADDS  
TULSA, Okla. — Attorney Travis Milsten, making conversation with two small boys in an automatic elevator, asked them where they were going. "Up to five," one replied, punching the No. 2 and 3 buttons.

See The Dinah Shore Chevy Show in color Sundays, NBC TV — the Pat LaBeche Chevy Showroom weekly, ABC TV.

"CORVAIR HANDLES BETTER, STEERS MORE EASILY, RESPONDS MUCH MORE QUICKLY AND HOLDS THE ROAD MORE SECURELY THAN ANY STOCK FOUR-DOOR SEDAN EVER MADE IN THE U.S." — Jim Whipple, Car Life

If you think we're enthusiastic about Corvair, leaf through the leading automotive, sports and science magazines and see what the experts are saying. Then, by all means, drive one yourself.

"Corvair's steering is so light that at parking speeds it feels power assisted; it is so precise as to be absolutely without play, and it is fast enough to allow complete control over every situation." — Karl Ludvigsen, Sports Cars Illustrated

"Steers like a feather and is extremely quick... This is a beautifully designed automobile, engineered by real pros..." — Tom McCahill, Mechanix Illustrated

"Most surprising thing to me outside of the excellent handling characteristics was the feeling of roominess inside... I didn't have the sensation of driving a small car and the headroom was greater

in the Corvair than in some standard size cars..." — L. H. Houck, Automotive News

"So far as shopping goes, the Corvair is a housewife's dream. It's small and easily maneuvered without any power steering, and so easily parked... it's a lot easier to unload a cart full of groceries into a front trunk at the supermarket than it is into a rear one." — Rosemary Francis, Popular Science

"I want to state as firmly as I can that the Corvair handles as beautifully and as safe as—if not safer than—any family car on the road today." — Jim Whipple, Car Life

"There is none of the typical whine normally associated with rear-engined vehicles. Inside the car, the effect is quite unlike anything we have ever experienced. It almost seems that there is no engine, and the general effect is so quiet as to be almost uncanny." — John R. Bond, Road & Track

"No written word can suffice for the genuine pleasure that you will receive behind the wheel of America's newest and most advanced contribution to transportation... It is a great car." — Don Stewart, Motor Life
