A CABBAGE PLANT TURNED out to be an oddity as it began sprouting new heads one after another. The plant, according to Red Coffin, who farms northeast of Hereford, had apparently been cut — resulting in the sprouting of new heads. A count revealed that 14 had been sprouting from the cabbage plant, which took on the appearance of a pineapple. (Staff Photo)

## Eight Rural Burglaries In County Cleared By Arrest

The arrest of a house burglary suspect south of Adrian a week ago has led to the solving of at least eight burglaries in Deaf Smith County the arrest and arraignment of a Plainview man on a similar charge, and solution of break-ins in Oldham County and Plainview, according to the Sheriff's Office.

First suspect to be arrested in the case was E. C. Parker, a 40-year-old farm laborer. The second arrest came as a Plainview man, Orval Dean Jones, 40, was implicated in the series of break-ins.

Both men have been released on bond. Parker's bond was \$5,000 while Jones was under \$1,000 bond. Parker was also turned over to Oldham County Sheriff's office to face charges there.

According to the Sheriff's office, the series of burglaries began in the county almost a year ago with alleged gasoline thefts. In making statements to law enforcement officers here, Parker has admitted at least eight alleged burglaries within the county. "Two or three" alleged thefts were also said to have been committed by the pair at Plainview with at least four or five more thefts and burglaries occurring in Oldham County, said Lowell Sharp, sheriff. Officers investigating the series of burglaries and thefts reported that the pair took tools, groceries, a shot gun, clothes and such household articles as silverware, clocks, cooking utensils and appliances.

## Those School Bells Ring Out For '63-64 Year

Hereford public school doors swing open Thursday morning to admit what is expected to be another record-breaking enrollment. Registration started Wednesday, but no tabulation was available by presstime as to how many children would be present for class.

Following classes on regular schedules Thursday and Friday, students will be dismissed for a three-day weekend, including the Labor Day holiday. Before the first two weeks are finished, more than 3,000 students are expected to be in public school. The record enrollment came last November as more than 3,000 attended classes.

Two parochial schools will begin classes on Tuesday, Sept. 3. St. Anthony's Catholic School is expecting an enrollment of about 350 for its eight grades. Between 250 and 300 are being anticipated at St. Joseph's Catholic Mission School, which will have a new building this year. St. Joseph's is planned for five grades, although the sixth grade may be added. The public school facilities have been expanded because of increased enrollment. A combination cafeteria-auditorium-gymnasium, offices, library and 17 classroom were added at Northwest Elementary School, giving it a total of 25 classrooms.

Added to the facilities at Ford High School was a larger shop and agriculture building, girls health and physical education facilities, homemaking sewing laboratory, two science labs, a language lab and five general classrooms.

Other bids included \$1,672.35 by J. W. Robinson Insurance Agency; \$1,706.25 by Deaf Smith County Farm Bureau and \$1,729.18 by Lone Star Insurance.

Stephens-Hudson Motor Company was low bidder on a 1964 nine-passenger station wagon. Net bid, with a 1961 Ford nine-passenger wagon as trade-in, was \$1,535.60. McCullough Motor Company bid \$1,694 difference on a Plymouth and Orsborn Chevrolet-Olds bid \$1,900 for a Chevrolet.

Ruth Ann Richardson was hired by the board to teach special education at Stanton Junior High School. However, he reported that a teacher for first grade was available if the teaching load necessitated it.

## Around Town

**BY H. A. TUCK**  
Please cancel out what I wrote last week about leaving Hereford. My family and I are delighted that we are staying in Hereford. I'm going to start next week with the county tax office, replacing Markham Waddill, who left recently for White Deer.

The first casualty of the school year came on Wednesday during registration. . . but it wasn't a student. Mrs. Charles (Margaret) Bell, a teacher at Central Elementary School, tumbled down the steps Wednesday morning and got a broken arm in the mishap. I wonder if she was covered by insurance. (Charles is in the insurance business.) Anyhow, when she comes into the classroom, she should have a club to hold over her students' heads.

Football coach Jack Meredith will take his charges to Clovis, N. M., Saturday, Aug. 31, for a scrimmage with the Wildcats. Game time is 7:30 p. m. Texas time on the Clovis high school field. The game originally was slated for Friday. Films of the scrimmage will be shown Monday at 8 p. m. during the Whiteface Booster Club meeting in the Hereford Community Center.

Annual Boys Ranch Bazaar at Old Tascosa will be held Sunday and Monday, Sept. 1 and 2, starting at 1:30 p. m. each day. You folks who haven't been to Boys Ranch (Continued on page 5)

LET'S COOK SOMETHING!

# Fancy Fixings And Petticoat Doings In The Texas Cookbook

By Dale Stevens  
Brand Foods Editor

Among the many interesting cookbooks in Deaf Smith County Library is The Texas Cookbook, by Arthur and Bobbie Coleman. In the introduction, titled "Hello, the House," the authors listed three reasons for compiling this cookbook.

The first reason listed is "that Texas...has evolved through a adoption, adaptation, and mutation a cuisine that has come to be pretty much its own." The second reason was the obvious lack of a truly representative collection of Texas recipes. A fairly typical Texas family background and a family history of collecting, exchanging, and experimenting with recipes provided the third reason.

A chapter titled, "The Home Range" provides a history of foods and dishes common to Texas since the time of the Indians and the earliest Spanish missions to the present time. This history is necessarily brief and incomplete due to the tremendous range of time and space involved.

The recipes chosen for this article are fairly representative of Texas' vast geographical differences. Texas is not chili, barbecue, wheat fields, cowboys, and rattlesnakes, nor is it sleepy bayous, pines and magnolias, and small farms. Neither is it shrimp boats, crab nets, rice, and oyster shells. Texas cuisine is all of this and much more — German potato salad, apple strudel, plantation fried chicken, Italian spaghetti, crepes suzettes — the wonderful heritage of a huge and proud state.

### Omelet Steak

2 pounds round steak  
1 cup sliced onion  
2 cups sweet milk  
Salt and pepper  
Flour

Round the steak well, salt and pepper it, and roll it in the flour. Fry in deep fat. When brown, remove the meat and put it in a warm place. Pour off most of the fat, then fry the onions in it until they are soft. Sprinkle in some flour to thicken the liquid for gravy, and add the sweet milk, salt, and pepper. Stir the gravy until it thickens. Arrange the meat on a platter; cover it with the gravy, and serve with hot biscuits, and it might feed 2 or 3 people.

**Mother's Special Chicken Stew with Dumplings**

Cut a 4-pound chicken into pieces. Cover with boiling water, season, and cook slowly till tender (about 1 to 1½ hours). Add the dumplings while the stew is boiling.

**Dumplings:**  
Sift 2½ cups of flour and ½ teaspoon of salt together. Add enough water to make a stiff dough. Roll the dough out thin and cut in long narrow strips. Lay the strips on top of the boiling chicken stew. If the strips touch, separate them with a silver knife. When the dumplings are slightly puffed, work them down into the stew with the knife. Put on another layer of dumplings, cook as above, and then work them down into the stew. Repeat the process until all of the dumplings are in the stew. Then turn the fire lower until the stew is barely bubbling, and cook for about 20 minutes. Notice that no shortening is put in the dough. The chicken broth supplies the fat, if the chicken is fat enough. If the chicken is not fat enough, add butter. Serves 6.

**Forrest's Barbecued Oysters**  
½ cup butter or olive oil  
4 T. lemon juice  
2 t. Worcestershire sauce  
4 T. chopped parsley  
Salt and pepper

Dry 24 oysters well and roll them in melted butter, beaten eggs, and then in cracker crumbs. Use a solid sheet of metal over the fire. Place the oysters on it, and when they begin to brown, baste them lightly once with the sauce made by blending the above ingredients. When cooked (3 to 4 minutes), serve with the remainder of the sauce poured over them.

"One of the better-eating animals on foot, and one becoming more plentiful, according to various accounts, is the armadillo, the walking fort that came up from Mexico and now is reported as far east as Florida. He is the four-legged gentleman who ambles about in a telescoping shell which, when he is removed, makes nice baskets to sell to tourists. He looks, acts, and tastes considerably like a pig, and he is as fast on his feet, with the badger's talent for getting into a hole when danger is nigh."

**Barbecue de Armadillo**  
½ cup celery seed  
½ cup paprika  
½ t. anise seed  
5 dried chilepepines (small, round chili)  
1 T. chili powder

2 T. salt  
Mix ingredients well, put into a large shaker, and use as needed. Dress the armadillo and place on the grid. Sear. Sprinkle with barbecue mixture several times while it is cooking. When done, remove from the fire. Pour 2 T. of hot catsup over each serving. This mix is equally good with spare-ribs.

**Sweet Potato Pudding**  
"As far as we know, this sweet potato custard or pudding is an invention of Great-grandmother's — the one who was so highly regarded as a cook in Gonzales County. It is distinctly not a dessert, but a vegetable dish. According to Mother, Great-grandmother served this dish with two others: fresh pork ham and shelled green beans."

2 cups grated raw sweet potatoes  
3 eggs  
3 cups milk  
½ cup butter  
½ cup sugar  
Mace  
Pinch of salt  
Beat the eggs and add to the milk. Mix with the butter, sugar, salt, and mace. Add the potatoes. Blend and pour into a greased baking dish. Bake slowly in the oven at 350 degrees until the mixture is firm but not dry. From time to time, stir the custard well, as it tends to crust on the sides before it is well done. When it is done, all of the milk should be absorbed by the potatoes, which will be a creamy color. This will serve 5 or 6 people if you're lucky.

**Pickled Onions**  
Peel little white onions, place them in a bowl, sprinkle them well with salt, and let them stand overnight. The next morning, wash them in the liquid that has been drawn from them, and dry them in the sun on a cloth spread over a mat, turning them two or three times. Take as much vinegar as you need to cover the pickles. For each cup of vinegar, add 3 or 4 large chiles and 1 t. of peppercorns. Let the vinegar mixture boil up well, then pour it over the onions. Seal.

If the little onions are strong, peel them under water.

**Onion Salad**  
1 can nopales (cactus leaf)  
1 Irish potato, mashed  
1 small onion, minced  
2 hard-boiled eggs, mashed  
1 small tomato, peeled and chopped

Chopped parsley  
Salt and pepper  
Drain the nopales, mix with the other ingredients, and dress with mayonnaise.

**Mayonnaise dressing:**  
½ t. dry mustard  
½ t. sugar  
½ t. salt  
Cayenne  
1 egg  
1 T. vinegar  
¾ cup oil

1 T. lemon juice  
Mix the egg, mustard, sugar, salt, and cayenne thoroughly. Add the vinegar, stirring continually. Add the oil a drop at a time, still stirring constantly, and as the sauce thickens, increase the amount of oil a teaspoon at a time. When the dressing gets very thick, add the remaining oil rapidly. Add the lemon juice last of all.

**1866 Corn Pones**  
(Note: This recipe is preceeded by an amusing history of the

corn pone in Texas. A few samples of the authors' comments are "...about all they had in the way of breadstuff for a long time...up until the 1870's the Lipans and the Comanches sort of blighted most people's ambitions to grow wheat on the Plains, the area where conditions were suitable...not only survived on it (corn) but thrived...people who visited that country back in the 1830s and 1840s and spoke impolitely about the mosquitoes and ticks and coffee and other natural assets were regarded with pity by those Texans who did not consider them outright slanderers. Particularly if one passed such a remark about corn pones...smart writers have low-rated it and poked fun at it until many people have got the mistaken idea that corn pone is eaten only by poor people and is somehow found only in association with sowlbelly.)

Sift 4 cups of corn meal and 1 t. of salt. Have the water jumping hot. Pour it over the meal and form a stiff dough. Dip the hands in cold water. Mold the dough into 2 large flat pones-elliptical cakes about 6 or 8 inches long and 1 inch thick. Have grease melted on a hot griddle. Place the pones on the griddle in a very hot oven and bake until the crusts are brown. When done, the crust is thick and crusty, the inside moist and steaming hot. Serve while hot. Break into pieces and butter as used.

**Rice Pudding**  
"...rice was basic to frontier Texans. It not only sustained explorers and other travelers on their journeys, serving them also as a substitute for breadstuff; but it was a lifesaver to more than one family caught without flour while the corn crop was not yet ready to harvest."

3 eggs  
2 cups cooked rice  
1½ cups sweet milk  
½ cup melted butter  
1 cup sugar  
½ cup seedless raisins  
Beat the eggs and mix well with the remaining ingredients. Bake in a slow oven, in a pan well-greased with butter, until it is set well. Serves 4, with Mrs. Blake's Hot Wine Pudding

"The national drink of Texas—the one that separates the real Texan from the maverick—has always been and still is coffee...there is no doubt that a coffee pot could stand as the national symbol of the kind of people who more than once drank their coffee out of tin cups on Dresden china saucers...even today the coffee pot seldom leaves the stove..."

**Texas Republic Coffee**  
1 cup coffee, freshly roasted and ground  
1 cup cold water  
6 cups boiling water  
1 egg and crushed shell  
1 pint rich cream  
1 egg white, beaten  
Pinch of salt

Scald the coffee pot. Beat the egg slightly, add ¼ cup of cold water, the crushed eggshell, and the coffee. Place the mixture in the pot, add the salt and the boiling water. Mix well and boil for 3 minutes. Add ½ cup of cold water to settle the grounds, and clear up the coffee. Then let it stand over low heat for 10 minutes. To serve, combine the cream and the egg white. Place this mixture and sugar in the cups. Then pour the hot coffee.

MRS. GLENN WATTS, 308 Star, exhibits the paintings and handcrafts which won her a sweepstakes ribbon at the recent reunion of her family at Lake Brownwood. She is holding the Pinnell family crest as she sits before the exhibit with her children, Bobby, David, and Melinda. (Staff Photo)

## Mrs. Glenn Watts' Interests Include Absorbing And Rewarding Hobbies

As she searched for and found interesting handcrafts for the children of her Cub Scout Den and vacation Bible school classes, Mrs. Glenn Watts, 308 Star, found an absorbing and rewarding hobby for herself and her family, which includes Bobby, 15, David, 10, and Melinda, 5.

For a short time Mrs. Watts owned and operated "Bunny's Hobby Shop." After it became necessary for her to give up the business because of a leg infection, she continued making wall plaques of various kinds and began oil painting. She has experimented also with many other media in handcrafts.

Mrs. Watts is a member of the Pinnell family, which has traced its family history to 22 B. C. The family motto is "Semper Legalis," and there are members of the family in many countries. Each year they hold a reunion at Lake Brownwood, reported to be the largest family reunion in the United States.

During these reunions the family members compete in sports tournaments and canning.

### Around...

(Continued from page 1) certainly will enjoy a visit. And those of you who have been, know what to expect in top-quality showmanship and riding skill.

Jumping back to football for a moment, spectators have been enthused about the Whiteface squad this year. There are some boys with the necessary experience, but a lot of exciting young players are going to be pushing for a place on the varsity and on the starting line-up. If you'd like to see for yourself, we would urge you to attend the workouts each afternoon.

And football coach Joe Kerbel opens drills at West Texas State University on Sunday. He's expecting a lot from Junior Eugene Baldwin and quite a bit of action from Butch Walterscheid, both Hereford exes. Over at Oklahoma State University, Junior Edwin Thomas of Hereford has been moved to center on offense, but remains at linebacker on defense. OSU has a new coach and is apt to be tougher than expected this year.

Still on the sports scene: we are pleased that Amarillo College signed Ronnie Welty of Hereford to a baseball-track scholarship. Ronnie is a hard-working lad and could be a great one for the Badgers.

warded ribbons, and each year there are four sweepstakes ribbons awarded. This year Mrs. Watts won a sweepstakes ribbon for her exhibit of her paintings and wall plaques. She also won 13 ribbons.

Taking honors also were Bobby, who won ribbons in the junior handcrafts division with mosaics and wall plaques, and Mrs. Watt's mother, Mrs. Leona Seavey, who won ribbons with her needlework. David and Melinda participated in the campfire entertainment and morning devotions. Melinda presented an original reading written by her mother.

Mrs. Watts also painted the family crest on five china plates which were awarded at the reunion in different categories.

Born in McLean, Mrs. Watts went to school in Dalhart and attended West Texas State College. She then went to Springfield, Mo., to attend Western Union College and worked as a telegrapher in various parts of the Texas Panhandle and New Mexico as a trainer and for vacation relief. When she came to Hereford, this was to be a permanent station. It became her permanent residence, although not with Western Union, when she met and married Glen Watts in December of 1946. He is with Tri-County Fertilizer Company.

Among Mrs. Watt's many other interests are sewing, writing short poems and readings, and being with people. She also loves to cook, but since she uses no recipes, no dish ever is the same twice.

Mrs. Watts is another of Hereford's many interesting women.

Three bids were opened for a utility tractor, with loader and blade, for Precinct Three. Low bid from Farm and Home supply for a Case was accepted. With trade-in of a 1955 International Harvester, net difference was \$2,380.56. Kemp Auto and Tractor bid \$2,652.27 on a Ford and Hays Implement bid \$2,946.70 difference for an International.

H. A. Tuck was hired as deputy tax assessor-collector, replacing Markham Waddill, who resigned recently to become tax assessor for the White Deer School District. His salary will be \$7,200.

Commissioners also drafted and passed a resolution urging that the poll tax not be abolished. The resolution said that if the poll tax were abolished, another state tax would have to be installed to replace the lost revenue.

### Ten...

(Continued from page 1) Sinking Fund, up to 1 1/2 cents from 1 cent; Hospital Interest and Sinking Fund for 1963 issue, remains at 6 cents; Permanent Improvement Warrant Fund, up to 1 1/2 cents from 1 cent; Jail Interest and Sinking Fund, 9 cents, down from 10 cents; Courthouse Interest and Sinking Fund, same at 5 cents.

In addition, by special bonds issued in past years, all county taxpayers pay an additional 5 cents for Right of Way Interest and Sinking Fund and 6 cents for Road District Interest and Sinking Fund. Those in the High Plains Underground Water Conservation District also are assessed 5 cents. The state levy, above these, is 42 cents.

The county's income is based on the above tax rate per \$100 of valuation with collection of 90 per cent of all taxes due.

In other action, Commissioners approved \$100 for travel expenses for C. O. Wilkins, county veterans service officer, to attend a training school in San Antonio next month.

An audit for 1961 and 1962, prepared by Brown, Graham and Glover, was reviewed by the court.

Commissioners voted to return land to three couples. The land had been dedicated several years ago for road purposes, but was not used. Right-of-way land was returned to Mr. and Mrs. J. H. Burrell, Mr. and Mrs. C. B. Thomas and Mr. and Mrs. Roy Calvert.

The group decided to attend the annual meeting of the Panhandle Association of County Judges and Commissioners in Amarillo.

Campbell Pontiac submitted a bid for a 1963 GMC half-ton pick-up to replace a like model that was recently wrecked. Exchange bid was \$987.47, about \$600 of which was for estimated repair. The pick-up was purchased for Precinct Three.

## County Youth Is Taking Big Step As Salesman

By Argen Draper  
A trip to the Gearn Vineyards (West of town on U. S. 60) made me wonder if salesmen are born or made. Ken Gearn was tending the market when I was there. He was very courteous, well-informed and a good salesman. I was so impressed and thought a young man of that caliber already had the giant step taken—how to get along with people and to

sell his product. Congratulations to Ken.  
Recipes for grape juice and grape jelly have been left at the market for customers to pick up. If more are needed call EM 4-8578.  
Verna Schroeder brought me a cook book (she knows my weakness) from Pampa. Her sister, Blanche Jenkins, helped compile the cook book. Some of Mrs. Jenkins' recipes follow:

## Deedee's Doodlings

By Deedee Thomas  
I feel a little ashamed of myself this summer because I have completely ignored the new high school and junior high students who have come to Hereford. I have met several of our newcomers, but I hate to admit I don't remember some of their names. During school, especially don't forget your manners and give them a warm Texas welcome. I know that none of you kids will forget—will you?

Kay Coffman made a last fling before school started. She went to Midland Tuesday, Aug. 20, and returned to Hereford Saturday, Aug. 24, after her brother Thomas' wedding that was held in Midland. On Wednesday, Kay attended a bridal luncheon for all attendants. Thursday there was the rehearsal dinner and Friday, the wedding.

Sharon Tinnin and Barbara Langley accompanied Sharon's sister and family, Dalene and Charles Springer, to Lake Altus on Sunday, Aug. 25, and planned to return home on Tuesday, Judy Wiman left on Tuesday, Aug. 20, for a visit in Midland with friends. She came home on Friday.

Members of the F. T. A. held a coffee on Tuesday morning honoring all the teachers of Hereford High school. Purpose was for everyone to get acquainted and welcome new teachers for the coming school year.

Suzanne Seigler and parents flew to New York on Wednesday, Aug. 21. They planned to come back through Washington to visit with friends. They also plan to return to Hereford on Saturday.

Bruce Miller returned home on Sunday from his trip to Urbana, Ill., where he attended a meeting for the honorary camping fraternity, the Order of the Arrow. The group took a sight seeing trip on the way to their meeting. Troy Don Moore and Steve McWhorter went to Boulder, Colo., on the weekend of Aug. 18. They made their first stop at Trinidad and then drove on to Boulder.

Gerry Bybee was in Austin on the weekend of Aug. 16-17 for freshman orientation at Texas University. There were probably more Hereford students attending this session but this roving reporter didn't catch up with them.

The weekend was a big one for the rodeo fans. Jo Pearch, Mike O'Connor, and Robby Lemons travelled to O'Donnell to participate in the Junior Rodeo. Jo won the barrel race and placed in the break-away roping. Robby placed in his events.

Don't you forget to return over the Labor Day holiday alive so you can come to the Hereford Whiteface's first football game Sept. 6 against the Tulsa Hornets on our home field. See you all Thursday morning at HHS. This looks like it might be a great year

**HUSH PUFFIES**

Mix dry ingredients; add milk and onions. Mixture should be thick enough to drop by spoonfuls into hot fat. Fry and drain. Serve piping hot. Good served with beans.

**DATE BREAD**  
Four 2 cups hot water over: 1 pkg. dates, chopped, and 1 tsp. soda. Cream:  
1/2 cup oleo

The yearbooks are printed and in the hands of the club presidents. The presidents are working like mad to get the books filled in with committee members and places for clubs to meet in September.

There will be several special meetings for club members as well as regular meetings. I hope the club members appreciate the effort that has been put out for the programs to be interesting as well as helpful for this next year.

Last Rites For Mrs. Bodner  
Last rites for Mrs. Nellie Bordner, 82, were held at St. Anthony's Catholic Church at 6:30 a.m. Tuesday, Aug. 27. Mrs. Bordner died Sunday, Aug. 25, in Deaf Smith County Hospital, after a short illness. She resided with her daughter, Mrs. R. J. Cramer, at 122 Catalpa.

Mrs. Bordner was born March 29, 1881, in Ireland. She was married to H. N. Bordner in June of 1913.

Mrs. Bordner is survived by one daughter, Mrs. R. J. Cramer, and two grandchildren. Burial was in the City Cemetery at Big Spring.

**Caution, Courtesy Urged For Labor Day Traveling**

A special Labor Day safety bulletin urging Texas drivers to display "caution" and "courtesy" in their driving during the long holiday weekend has been issued by Texas Safety Association.

"Caution and courtesy can go a long way in cutting down traffic accidents and fatalities during the Labor Day weekend," J. O. Musick, TSA general manager, said.

The safety director said drivers should put all their driving skills to work for them to stay out of trouble in traffic and should be prepared for the unexpected actions of other drivers. He also urged drivers to start out with a proper driving attitude.

Your attitude about your own driving and that of other drivers has a profound effect on the possibilities of your being involved in an accident. Treat other drivers the way you want to be treated — with courtesy," he added.

Musick reminded drivers they have a moral as well as a legal responsibility when driving. "No one really wants to be killed or be responsible for killing another person in traffic. But, for some reason, many drivers seem to think they have built-in personal immunity to a fatal accident. It just isn't so — and it can happen to you."

The TSA is cooperating with the Texas Department of Public Safety, the Texas Highway Department and other groups in promoting traffic accident prevention during the Labor Day holiday period.

In addition to traffic safety activities, the Association is promoting accident prevention programs for holiday safety at home and in public places. "Non-transport accidents at home and public places also take their toll during holidays," Musick noted.

He said an unusual number of drownings this summer has given cause for special concern in the area of water safety. "If you are going to a lake, river or some other body of water, make sure you know the hazards of that particular place before you go in swimming or take your boat out. Be sure you have approved life-preservers for every passenger in your boat and that everyone knows and observes safety rules," he said.

Musick said homeowners should use caution in starting fires for cook-outs. Make sure all fire prevention precautions are taken. "And don't forget about the small children and elderly persons," he continued. "Special attention should be given to removing environmental hazards that might cause falls. These two groups are frequently the victims of accidental falls."

"No matter how you celebrate the holiday where you are — on the road, at home or at play — put safety first," he concluded. "It's not worth the chance you take if you don't."

Come from the MORTON fun FOODS RACK!

By Melvin Young  
Buenos Dias, Señor!  
For those who have never been, we might say that it's a long, long journey to Monterrey, Mexico; however, a journey that we enjoyed very much from beginning to end.

But as nice as vacations are, we are quite happy to be home and have the entire family together again, in spite of the fact that our home is now overflowing with the culture of Mexico. Or, as we told the customs man when reentering the United States, "a bunch of junk."

The trip down was rather uneventful. Of course we were traveling alone on the way down, and had nothing better to do than listen to the radio. Everything went along fine until we approached the Mexican border, at which time it seemed almost impossible to pick up anything on the air waves other than Spanish language broadcasts. This of course, didn't help much since we do not speak Spanish.

Monterrey is located 140 miles south of Laredo on the Inter-American Highway, which, at this time is under repair with 17 detours along the route. Consequently, we crossed the border at Falcon Dam and proceeded to Monterrey via Mexican Highway 12. The road was good, but it was also being used by a number of cattle, burros, goats, etc., not to mention a few horse-drawn carts loaded down with dried bundles.

The city of Monterrey presents many contrasts. Here the traveler may view the ancient architecture of the old Spanish families alongside a modern office building that would do credit to Dallas or Houston. The rich on the one hand, and the very poor on the other, . . . all blended together to form Mexico's second largest city (population 800,000).

The city is the industrial heart of Mexico, having no agriculture whatever, but a host of factories, producing everything from furniture to beer (a product of which they are quite proud). It is a prosperous city by Mexican standards, with a great proportion of the population being gainfully employed.

While in Monterrey, we stayed at the Ancira hotel which was built in 1912 and apparently hasn't been touched since. The hotel has quite a history we understand. Apparently, one of Mexico's dictators dropped by one day and rode his horse up the staircase. We never did find out what happened to the bird after that.

The food was good and not particularly expensive; comparable in price and quality to the better restaurants here in the United States.

There are a number of United States citizens that live permanently in Monterrey. We met one such gentleman while attending Rotary at the Casino de Monterrey. He had been living in Monterrey for the past 12 years and was connected with the natural gas industry. His name was John Day, and he says that an uncle by the name of George Barber once owned a ranch here in Deaf Smith County. However, he had never been here personally, and did not know the exact location of the ranch.

Unfortunately, we did not have the time to travel deeper into Mexico, or to see many of the sights that tourists normally take in, but we did enjoy the trip very much and would like to return some day for a more extended visit.

On the next trip however, we believe that it might be advisable to fly rather than drive, since the pedestrians and cattle seem to have the right of way on all highways and streets. It is quite a task to keep from hitting one or the other.

Red Coffin was by the office Tuesday morning to bring in his annual contribution of cabbage. However, this time Red brought in one head (or heads) of cabbage that looked more like a pineapple to us than it did cabbage.

Argen Draper says it looks like a cabbage that changed its mind. However, we'll let you decide for yourself. The picture of same will be found elsewhere in this issue of the Brand.

— HB —  
We are happy to see that the weather has cooled a little since we left. However, it's getting about time. With school starting, and football just around the corner, it doesn't seem fair to have to keep the air conditioner running all night. If the weather man can't get things straight-

ed up pretty soon, we'll have to send him an official protest.

— HB —  
Meanwhile, the face of Hereford continues to change daily. We were amazed at the progress made in the short time that we were away. We also noticed that the estimated population of Hereford has topped the 9,000 mark. I doubt however, that Chamber of Commerce manager Bill Thompson will rush out to have all the signs changed. We can still remember when former manager Pete Cowert had to "paint-out" the estimated 7,000 population figures after the 1950 census reported a mere 5,300. Such is life.

— HB —  
The annual drive for the Christian Rural Overseas Program will be beginning soon. Executive board members have met and appointed area chairmen for the drive. Also, the United Fund campaign is not far afield. Both are most worthwhile projects and should be given due consideration by all citizens of Deaf Smith County.

— HB —  
And then there's the story about Salesman Sam who says it's not his fault he's so heavy, it's his glands they weigh 200 pounds.

## the Academic and God

The Great Teacher once said, when the fig tree buds it is spring. We might add, when the youngsters go back to school, it is fall. What a challenge back-to-school brings. It is time to learn more about math, and science, and citizenship, and God. How necessary to our American way of life are these basic requirements in our educational system. Our curriculum must include some precepts of Jesus if we are to have sufficient moral and spiritual stamina to endure. It has been said, education without a knowledge of God is dangerous. Our teachers, our preachers, and all loyal Americans should see to it that our basic education be broad enough to include both the academic and God. Of course our youngsters should be loyal to their colors, to their school, but they should also be faithful subjects of the Great God. They should worship in church every week.

# Tuition-Free Colleges Eyed By Committee On Education

By — Vera Sanford  
Gov. John Connally's Committee on Education Beyond the High School has its eye on tuition-free colleges and "super universities."

Also being looked upon with favor are Texas junior colleges and vocational schools. Committee is searching for a way to meet educational needs in the next decade. Task is made difficult by the need for 900,000 new junior and senior college graduates by 1974.

The prediction, called "conservative" by committeemen Clifford Johnson, Dallas industrial leader, includes 456,300 four-year college graduates, and 440,000 graduates of two-year schools.

Right now the total enrollment in 19 of the states' four-year colleges and 34 private senior colleges totals 175,100. Junior college enrollment in 35 state junior colleges and 10 private schools is 37,200.

If these students all were to graduate, they would produce about half the number of graduates needed in the next four years. But Johnson said the problem is — many won't graduate. There is a big drop-out problem in colleges and an even bigger drop-out problem in the grades below college level.

Johnson stated that only 14 per cent of the students enrolled in the third grade in 1953 graduated from high school in 1963. What to do about the drop-out problem, which Governor Connally has called "one of the most critical problems of the decade"? Both Johnson and committeeman Tom Sealy of Midland, as well as other members of the committee which is composed of some of the state's most powerful citizens, recommended more and better counseling through all the high school years and college.

"If students aren't encouraged to stay in high school and perform well there, they don't have a chance," Johnson said. His opinion on trying colleges and state universities which would admit only the top 15 per cent of high school graduates brought a lot of favorable comment from the committee. But Chairman H. B. Zachry of San Antonio warned all that this was just the preliminary to a preliminary report. Final report to Governor Connally is not due until Aug. 1964.

**POLL TAX CAMPAIGN ON** Governor Connally will kick-off the League of Women Voters' campaign for repeal of the poll tax with a speech on Sept. 3 — the day the women launch a two-month drive for repeal of the tax.

November 9 is the date voters will decide whether to strike the poll tax requirement for voting from the state Constitution.

Vice President Lyndon B. Johnson, Sen. Ralph Yarborough, Sen. John Tower, congressmen and state legislators are being invited to the Sept. 3 meeting in Austin.

**NEW REGIME** Commissioners of two brand-new state agencies were sworn into office, as well as the man who will take Attorney General Waggoner Carr's place on the State School Land Board, Judge Wilson Fox of Taylor.

New commissioners are Loan Regulatory Commissioner Frank Miskell, and Parks and Wildlife Commissioners, Will Odom of Austin, chairman, J. M. Dellinger of Corpus Christi, and A. W. Mourund of Johnson City. All four have been trying to keep up with new roles and heavy commission agendas at the same time.

**PARKS BOARD-BOWS OUT** State Parks Board held its last meeting just a few days before being replaced by the Parks and Wildlife Commission. But it could not transact any business since it couldn't get a quorum.

Chairman Maurice E. Turner of Huntsville was there, as well as Ed Kilman of Houston and Max Starcke of Austin. But Reese Martin of Beaumont was out of the state; Uvalde member Harry Hornby was ill, and J. Carter King of Albany was not available.

Parks planner Elio J. Urvanovsky of Texas Tech was on hand to present an estimated \$400,000,000 plan for a model parks system — developed with a \$70,000 legislative appropriation. But the board asked him to make his recommendations to the Parks and Wildlife Commission at some later date.

**REHABILITATION RECORD SET** J. W. Edgar, Commissioner of Education, claimed a new record for the Texas Vocational Rehabilitation program. He announced that a total of 3,568 disabled men and women were rehabilitated into productive jobs during the year ended on June 30.

Edgar said 365 of these persons had been receiving public assistance payments totaling some \$346,000 a year. He figured their new ability to be self-supporting now would save many thousands of dollars in federal and state assistance funds.

**OLD FOLKS ASSURED OF INSURANCE** New law assuring Texans 65 years of age and older the right to purchase health insurance now is in effect. First period of enrollment for the cooperative plan will be October 1-31.

All licensed insurance agents in the state are eligible to give details about the plan. **SLOW DRIVING PROHIBITED** Col. Homer Garrison Jr., director of the Department of Public Safety, issued a reminder that the new speed law specifically makes it a violation to drive a vehicle so slowly as to impede traffic.

Minimum limits, as well as maximum limits, are being posted on the highways throughout the state.

**YOUTH** Austin was stacked full of high school leaders as Atty. Gen. Waggoner Carr held a conference on youth. The 1,140 young people who attended were told how to prevent juvenile crime and school drop-outs. It is up to them to put the ideas into effect through high school organizations.

Basically, the solution is in finding things for junior high and high school students to do. Recreation for those who only need to keep occupied and jobs for those who need to help their families at 14 or 15 were the major prescriptions.

Carr hoped the conference had set some brushfires in the civic consciousness of high school leaders to burn out the pockets of trouble for many thousands of Texas young people.

**PADRE**  
In a colorful ceremony, the State of Texas handed over some 90,000 acres of submerged land in Laguna Madre to become a part of the Padre Island National Seashore.

Hailed as a tourist attraction, the Padre project was created by Congress and the Texas Legislature agreed to contribute the state's land.

Reserved to the Permanent School Fund are the oil and gas which may be under the Madre.

The National Park Service, with a \$1,500,000 appropriation to start, will buy the uplands of Padre Island from Private owners. Governor Connally, Land Commissioner Jerry Sadle and Attorney General Carr, members of the School Land Board which signed the deed, all predicted bright things for this major addition to the Texas recreation scene.

**POLLUTION**  
Some areas of the state have developed major water pollution problems and the new Texas Water Pollution Control Board has set out to cure them.

Board will have a hearing on Sept. 25-26 designed to protect the vast Ogallala formation, which supplies irrigation and municipal water in most of the Panhandle and South Plains. Expected to come from the hearing is an order prohibiting the use of open, unlined surface pits for the disposal of salt water produced with oil and gas.

Already the Board has started placing strict chlorination requirements on municipal sewage treatment plants in the Houston area to stop pollution of Clear Lake where a huge population growth is being created by the Moonshot Center of the National Aeronautics & Space Administration.

Water pollution problems are popping up all over the state. New Board, which operates only with money given to it by other state agencies, is going after them as fast as it can.

## DENTIST DRILLS FOR SPACE

PITTSBURGH (AP) - Engineers at the Power Circuit Breaker Division of Westinghouse Electric Corp. in nearby Trafford had to make a dentist appointment to fill a space contract.  
The "patient" was an electrode for a 10,000-kilowatt arc heater - the device used to simulate extreme conditions encountered by spacecraft upon re-entering the atmosphere.  
Engineers needed to enlarge two small openings inside the neck of the electrode, but they couldn't reach the spot with their precision tools.  
So they took it to the office of Dr. W.H. Milligan Jr. in suburban Wilkinsburg. Dr. Milligan did the job with a dental drill.  
The dentist said he used an old-type low-speed drill to bore out the copper electrode, since for once he didn't have to worry about his patient's discomfort.

## TRAIL OF CRUMBS?

Officers said the gang had slipped into a potato chip company for six consecutive weekends. The thieves have taken nothing but packages of potato chips and cookies.

## TIME ENOUGH

TUCSON, Ariz. (AP) - Angel E. Ochoa of Tucson asked Justice of the Peace Clark H. Johnson for a little more time to raise the \$35 needed to pay a traffic fine.  
Johnson refused the request after noting that Ochoa received the citation two years ago.

REP. WALTER ROGERS WRITES:

# Controversial Aid Program Extended In Showdown Vote

TO THE PEOPLE OF THE 18TH DISTRICT:

The showdown on the foreign aid authorization bill brought a vote of 224 yeas to 186 nays and the House of Representatives thus extended the controversial program through the current fiscal year.

In a dramatic action preceding final passage, the House voted 222 to 188 to "recommit" the bill to the Foreign Affairs Committee with instructions that the authorization amount be cut by half a billion dollars. Within minutes the Committee had obeyed that injunction by the House majority and reported the bill to the floor once again.

With the foreign aid authorization ceiling thus measurably cut, the next round in the fight

will come over the actual appropriation for the program—and further cuts are likely.

I voted against the foreign aid bill. Never have I voted for foreign aid authorizations or appropriations measures. This program was sold to the American people and the Congress as a means of combatting Communism in the world's underdeveloped nations.

If foreign aid would bring us the advantages its supporters perennially promise, not a single vote would be cast against it in the House or Senate. But foreign aid simply does not measure up to its high purpose. It does not produce results. In addition, it is too wasteful.

Before Friday's final vote, a long session of the House stretching late into Thursday night brought action on a series

of amendments. Of 21 amendments acted upon in the succession of votes, seven were passed, including one to limit aid for projects creating competition with certain American industries and another to provide for inspections in countries receiving U. S. aid so that the manner of its administration and distribution may be checked.

Another amendment provided a cut-off of aid to countries whose ships or planes carry products to or from Cuba. You may recall that last year, when the foreign aid bill was up for debate, I offered an amendment cutting off foreign aid funds to any country whose ships engaged in trade with Cuba—and this was the same sort of provision as included in the bill this year.

However, I could not agree with the limitation spelled out in the amendment adopted by the House. My position is that all aid should be completely stopped—not temporarily suspended—to any country engaged in the Cuban trade.

I am not satisfied with what has been done or what is being done about this situation. I am again insisting on hearings by the House Foreign Affairs Committee and action by the full House on a bill I have written to close all United States ports to ships engaged in trade with Cuba. This will prove more effective than any other weapon we can exercise—short of an outright blockade—to discourage commerce with our avowed enemy, Communist Cuba.

By barring access to U. S. ports to ships also doing business with Cuba, the profit margin for the trading countries would be sharply reduced. Deprived of American cargoes, these foreign vessels would sail with partly empty holds to and from Cuba and further tighten the already difficult economic pinch facing the Castro regime.

My bill is worded: "Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, that all parts of the United States are hereby closed to all vessels while engaged in trade or commerce with Cuba (except United States installations therein), or while engaged on any voyage during which such vessel has engaged in trade or commerce with Cuba (except United States installations therein), except where such vessels are required to enter ports of the United States for repairs or emergencies recognized as such under international law.

SEC. 2 "Any vessel which enters or attempts to enter any port of the United States during a period when the ports of the United States are closed to it under the first section of this Act shall, together with its cargo, be forfeited."

This measure would estab-

MORE THAN 100 persons attended the Alex O. Thompson Memorial Baptist Mission. The Rev. Guillermo Benitez has been pastor of the mission since July 15, but his formal installation was held in the First Baptist Church

## Installation Rites For Pastor Sunday

Formal installation services were conducted Sunday, Aug. 25, at the First Baptist Church for the Rev. Guillermo Benitez, the new pastor of the Alex O. Thompson Memorial Baptist Mission. The installation service began at 2:15 p.m.

The Rev. Benitez has been serving as the pastor of the mission since July 15. The Rev. B. L. Davis, pastor

of First Baptist Church, and Bro. Truett Fogle, Latin American Missions Coordinator of the Amarillo Baptist Association, encouraged the installation program, which more than 400 Latin American Baptists attended.

A quartet from the First Mexican Baptist Mission in Plainview sang. The group is composed of Glen Godsey, Nick Gonzales, Pete Ibarra, and Carlos Martinez.

Bro. Eustorgio Bengoa then sang a scripture reading. "En el Valle Florece la Rosa" was a duet sung by Lydia and Yolanda Rendón, followed by music furnished by the St. John and Mt. Sinai Baptist Church choirs. Miss Julia Sala-

zar directed the Mission Choir. The title of the Rev. Benitez' message was "La Iglesia Gloriosa de Nuestro Señor" ("The Glorious Church of our Saviour").

The Rev. Benitez is a native of Guadalajara, Mexico. He was a pre-medical graduate at the University of Guadalajara when he decided to enter the ministry. Encouraged to come to the United States, he did so in 1950. He became a United States citizen in 1958.

The Rev. Benitez studied at Wayland Baptist College where he majored in social sciences, and he received his Bachelor of Divinity from Midwestern Baptist Theological Seminary in Kansas City, Mo., this year.

Mr. Dobbins was born March 16, 1883, in San Saba. He married Beulah Williams in Frederick, Okla.

He moved to Hereford from Seymour in 1929, and was a long-time employee of the city water department.

Mr. Dobbins was a member of the First Baptist Church. He is survived by his wife, of the home; two daughters, Mrs. W. B. Dowell of Hereford and

Sammy, 8; Henry, 7; Danny, 2; and Gloria, 1. They reside at 907 Union Ave.

## Services Held For Mr. Dobbins

Funeral services for W. A. Dobbins, 80, were held at 3 p.m. Tuesday, Aug. 27, in the Rose Chapel at Gilliland Funeral Home. Mr. Dobbins died about 8:30 p.m. Sunday, Aug. 25, in the Deaf Smith County Hospital.
