West Texas Clammers For Rights In Water Plan

Citizens' Opinions Voiced At Amarillo

By LARRY FUHRMANN
Staff Writer

West Texans put their opinions "on the line" Wednesday morning in Amarillo as they told the Texas Water Development Board that more attention needs to be given to this area before a final plan for water for the state's projected needs is adopted.

Area men testified before the board and over a hundred persons in the session at the Herring Hotel, one of the last hearings set in the High Plains area.

Final hearing will be staged in Lubbock Sept. 9, after which the legislators will begin work to draw up criteria for the state plan. Joe G. Moore Jr., executive director of the water board, said criteria should be determined sometime in the spring of 1967. Deadline for such determination must be at least by summer due to federal rulings, he told those gathered at the hearing.

Planned to be centered around development of the Canadian River Basin, most of the testimony dealt with water needs in the north Panhandle; Hereford lies to the south of the Canadian watershed, with all drainage here eventually going to the Red River Basin, however.

A summation of comments made before the board members would be that testifiers asked the water board to make a more complete study of West Texas' needs and possibilities before adopting any final plan. It was pointed out by some that

federal projects for this area are probably going to be a long time in the making, and that needs in the area are going to have to be fulfilled before Federal projects can reach this area. Jerry Johnson, a director for the board members, that that association recommends:

- 1) That a plan to divert water into undeveloped areas near the Rio Grande be held in abeyance until West Texas' water needs have been provided for;
- 2) That a detailed study of the practicality of bringing water back up the Red River and Arkansas River basins be instigated;
- 3) That a study of 11 additional dams and reservoirs recommended by the Red River Authority be begun to determine need for other conservation facilities;
- 4) That the board keep tabs on water pollution as it has done in the past, and
- 5) That studies be instigated concerning the control of water-loving plants, such as salt cedar.

Johnson told Texans at the Amarillo hearing that he felt citizens in this area were "disappointed but not discouraged" by the preliminary plan laid down by the Water Development Board. He cited figures from the preliminary plan which labeled West Texas as the most pressing problem as far as water needs are concerned.

Although West Texas was not actively considered in the plan to provide water for the state of Texas, the preliminary report made by the committee did give recommendations to get water to this area from out-of-state sources.

Johnson told board members that four different out-of-state plans could be considered:

- 1) Water from Arkansas, Oklahoma and East Texas could be pumped back up the Red River;
- 2) A canal could be cut to the Missouri River, draining water from that stream as it nears Kansas City;
- 3) Water running into the ocean via the Mississippi River could be stopped and brought back, again by way of the Red River, and
- 4) Columbia River waters and water from other streams in the Pacific Northwest could be brought south.

K. Bert, chairman of the water committee for the West Texas Chamber of Commerce, told board members the official policy taken by that organization recently. The policy has been endorsed by the cities of Dumas, Borger, Pampa, Tulla, Canyon, Dalhart and Hereford, he said. Amarillo also has endorsed the policy, although only unofficially.

The policy asserts that the water board has not adequately considered the needs and possible solution to West Texas water problems. It listed five points:

- 1) That the amount of surplus water available in Texas be re-evaluated;
- 2) That a detailed engineering and economic feasibility report on delivery of water to West Texas be made;
- 3) That the water board should investigate possibilities

See TEXANS Page 2

WEEK OF WET WEATHER

Slow Drenching Rains Break Drouth

Clouds across the sky have hidden the sun from view this week as slow, drenching rains have floated down over the area, quenching a very dominating thirst in the area.

With this year being one of

the driest in some time, the clouds giving moisture were a welcome sight to many who perhaps had begun to wonder just what rain looked like. The week's moisture, although it didn't come soon enough to lessen farmers' damp spirits for this year's crops, will be beneficial for wheat soon to be planted and some sorghum crops.

The gentle precipitation, which has dripped and drizzled off and on, has measured enough to break last year's August record by more than an inch and a half.

Precipitation in August, 1965, totaled 2.43; rains this week have brought the 1966 month's total to 4.09 inches.

The southern and northeastern section of the Hereford area caught the most moisture with four inches reported south of Hereford. Twelve miles south, Community Grain had 2.7 inches and reported that as much as five inches had fallen in a few scattered spots.

The Leo Witkowski farm, south east of Hereford, reported two inches while the Jim McCabes, located south of Dawn, had a 3.25 inch total for the three-day moisture period.

Several areas still have rains forecast, though not much more precipitation is expected.

Beginning with .25 inches Saturday night, the Bill Ellis farm got a two-inch total for the three days. On Tuesday morning the Phillip Millers, 18 miles north and west of Hereford, reported .80 inches and it was still "wettin' stuff up."

Rain had appeared to quit fall- See RAINS Page 2

RAIN? — Many are the phrases used to depict a good hard to catch this graphic illustration of the literal meaning of one phrase — 'It's raining cats and dogs!'

Colt Hopefuls Meet Problems

Colt League organization will be attempted Tuesday, August 30, at the Community Center at 8:00. Don McNeese said the meeting had been called to stir enough interest in baseball for 15-16 year old boys during summer months.

This age is too old for Pony League, he said, but not old enough for American Legion ball.

Big hold-up on the organization is the need for lighting of the high school diamond. McNeese said the school board had agreed to let the Colt League light the field and use it. Cost will be between seven and eight thousand dollars, he said. Most of the boys in this age group would need the night games because of daytime jobs.

If the need for this age ball can be established, the group will seek support from local service clubs to get the park lighted.

Interested parents, coaches or boys may contact Ted Higgins or McNeese for details.

C of C Agrees On Arts

Plans for development of a committee to investigate needs in the area of fine arts were made Wednesday morning by the board of directors of Deaf Smith County Chamber of Commerce.

Ted Swindle, high school English teacher, gave a report to the group relating information gathered at a meeting of the West Texas Chamber of Commerce meeting in Amarillo and the West Texas Study Council held recently in Lubbock.

Swindle will head up a committee that will serve as a sounding board for the community's wishes concerning development of a fine arts center.

First on the list is the selection of a group of citizens to get some concrete ideas as to community needs from such a session.

Many people participate in some form of art hobby, or appreciation program, he pointed out. It is the purpose of the chamber to pull these many people in the community into an organized program to further cultural development of citizens.

Swindle said that the group See CHAMBER Page 6

FULL WEEK FOR TEACHERS

Noted Educators Lecture Faculty

An intensive lecture-workshop program has been in session this week for public school teachers.

Outlined by the administration to cover several areas, the teachers were in session mornings and afternoons to hear specialists in pupil evaluation, science,

language arts, reading, and reports from the summer reading workshop held in Canyon.

Registration of students is today at the various schools. All elementary students are enrolling through-out the day at the elementary school they will be attending.

High school students will register as follows: seniors 9:00-10:30; juniors, 10:30-12:00; and sophomores 1:30-3:00. Pictures of sophomores and juniors for the school annual will be taken at the time of registration. School counselors request that boys wear ties and coats.

LaPlata and Stanton Junior High students will enroll as follows: 7th grade 8:00-10:00, 8th grade 10:00-12:00, 9th grade 1:00-3:00.

Teachers will meet Friday morning for a general faculty meeting in the high school.

New teachers will be honored by the business men of Hereford at a dinner tonight at the Hereford Country Club. Sponsored by the Chamber of Commerce, the dinner is an annual affair designed to help the teachers and

business community become acquainted.

As part of the training sessions, Monday afternoon, teachers heard Dr. Kenneth McIntire of the University of Texas discuss methods of evaluating pupils and the effect this evaluation has on a school system's results. Elementary teachers heard Hugh Simmons of the Silver Burdett publishing company discuss new techniques and requirements for teaching science in the grades.

While elementary teachers were in session with the science specialists, language arts teachers were hearing Dr. A. Kirk Knott at the high school. Dr. Knott is a professor of English at West Texas State University.

Use of Maps was presented Wednesday morning by Travis Burton, specialist from the Mystem Map and Glove company.

As part of a continuing in-service program for elementary teachers, Dr. Tom Salter, reading specialist from Lamar Tech discussed the teaching of phonics at Bluebonnet school Wednesday afternoon.

Dr. Salter was a guest speaker at the recent TAIR reading conference at West Texas State University. He discussed the teaching of phonics in general and delved into specifics for teachers using certain adopted reading texts for Hereford teachers.

A panel discussion Wednesday afternoon completed the in-service sessions. Tom Harkey, visiting teacher for Hereford schools, served as moderator for the reading teachers. He along with Dennie Richardson, counselor for Central school and Mrs. Joyce Bryant, Mrs. Leta Kaul

and Miss Gladys Selliff were among teachers and assistant principals who attended the six week workshop sponsored by PESO in Canyon this summer. The group discussed different phases of the summer program that would be valuable for individual teachers.

Schools have announced their faculty additions as follows: High school: Larry Brown, coach and social studies; Mrs. Grady Cope, business; Mrs. Marie Crafton, cosmetology; Mrs. Lorene Hart, English; Mrs. Daisy Huntsinger, chemistry; Bill Narrell, coach and social studies; See LECTURES Page 2

FOR LIVESTOCK SHOWS

County Barn Expansion Eyed By Commissioners

County commissioners, meeting in regular session Monday, discussed the problem of write-offs at the county hospital, the proposed expansion for the Little Bull Barn, and witnessed an informal wedding.

Approved by the commissioners in a quick move was adoption of the revised resolution affecting the three taxing agencies in the county.

One county resident was present to hear the reading of the proposed budget for the 1967 period. Included in the meeting was the setting of the tax rate at 23 cent per \$100 assessed valuation.

No major changes in the budget were seen, except for inclusion of the Deaf Smith County

Museum in bigger figures as the county historical society prepares to open the building.

Commissioners noted that the county has reached the maximum amount it can retain from license tag fees—\$157,500. All in excess of this amount goes into state coffers.

Deaf Smith Young Farmers Association was present to give county dads their ideas on the expansion of the Little Bull Barn.

Early plans slate the doubling of capacity in the building south of the original Bull Barn. Young Farmers, who work with the annual livestock show, pointed out their "wants" so that commissioners could consider them in building specifications.

The expansion is planned to be on the east side of the present building, and would be 72 feet by 100 feet, the same size as the original building. Another washroom was requested by the farmers, who cited inadequate facilities in the older portion of the building.

Commissioners went over one cost estimate as they attempted to see what changes would have to be made. The group was leery, however, of major change since the building would not be used most of the year. The livestock show is staged each January, and lasts only two days.

One end of the building would be used for cattle (that portion to be unheated) and the other See COUNTY Page 2

FIRST AND LAST — Jean Roberson, daughter of Mr. and Mrs. Ed Roberson, registers as a senior student at Hereford High School. Kathy Wilson, daughter of Mr. and Mrs. Marshall Wilson registers for her first year in school. Assisting Jean and showing Kathy what it is all about are Mrs. Wilma Brady and Robert Thompson, school counselors. (Staff Photo)

half would be used for sheep and hogs, the Young Farmers said.

Commissioners took no official action on the Bull Barn, but did review plans in detail.

Bad debts at the Deaf Smith County Hospital were the topic after commissioners read reports from T. E. Seigler, hospital administrator.

Now a member of Medicare, the hospital has changed to a different system of bookkeeping, which includes depreciation as an operating expense.

Inclusion of depreciation expense puts hospital figures in the red, commissioner pointed out, although cash accounts are running in the black.

Bad debts, expected to exceed \$60,000 at the county hospital this year, are no help to the narrow margin the hospital operates on, commissioners said. It was suggested by some of the commissioners that policies be made a little more "hard nosed" at the hospital towards payment of bills by incoming patients.

Commissioners felt that the hospital and its staff were running efficiently, and believed that more money or an almost inexhaustible supply of money for the institution would not be the answer.

The record keeping system now put into effect at the hospital lists expenses by departments. It was necessary for the hospital to keep tabs on Medicare, the administrator said in a letter to the county governing body.

Although cash figures show they are running in the black, commissioners were glad to see depreciation now being figured as "it has to be paid for sometime."

Commissioners made no official recommendation regarding the hospital.

A refund to the Texas Highway Department in the amount of \$3,248.50 was approved by commissioners, after it was found that an error had been made in the county tax office.

Other items on the agenda included an official memorandum in the minutes noting approval of warning signs on a new county road near Holly Sugar Plant which crosses the Santa Fe Railroad.

And perhaps the highlight of the whole meeting was an impromptu wedding, originally set in Judge H. C. "Hank" Williams' office.

NEW HEREFORD RESIDENTS — Thomas Graf, (left) and Elia Pesenti (extreme right) are the two newest residents of Hereford. Thomas and Elia are this year's exchange students from Germany and Italy. Elia lives with Cathy Pool, daughter of the Lloyd Pool's and Thomas with Gerald Witkowski, son of Mr. and Mrs. Leo Witkowski. (Staff Photo)

Texans . . .

(Continued from Page 1) of diverting water into East Texas from adjoining states in order to release East Texas water for diversion into important economic areas of West Texas:

- 4) That water should be transferred from east to west at the highest possible elevation and should be brought into the Colorado River upstream of Lake Buchanan, and
- 5) That water transferred from the east into the lower portions of western rivers should be used first for the replacement of upstream runoff water now committed to downstream water rights.

But the couple was brought before the court, with some seven or eight witnesses. The bride, obviously a little embarrassed, answered her vow "maybe" but changed to "I'll sure try" and then got the smile of approval from commissioners and other onlookers.

Joe Pate Jr., chairman of the water committee of Plains Cotton Growers, Inc., headquartered in Lubbock, testified before the board, but will give more when the legislators come to Lubbock for the final hearing.

Plainview Mayor M. B. Hood said citizens here are "pleading with the water board to give more interest to West Texas." He said the plan was unfair and inequitable to West Texas, and charged the preliminary plan as "leaving the state's richest agricultural area just sitting here, hoping somebody somewhere will give them some water." Economic losses in West Texas, if forced to turn back to dryland farming, will be felt in all other portions of the state, he asserted.

Tom McFarland, representing the High Plains Water District, pointed out recommendations made by the 2020 water committee of this area which were similar to ones made by others testifying.

Republican candidate for the United States congressional seat now held by Representative Walter Rogers, Bob Price took the

stand and told West Texans what he would recommend in solving the water problem. "Since the House Interior Committee has refused to include this area in the Lower Colorado River Basin Project study, I would urge that this board take the lead in the formation of an Interstate Water Compact Commission," he stated. "If elected to Congress, I pledge my support and will attempt to get West Texas included in regional planning for future water needs and/or attempts to get the necessary approval for an interstate water compact."

"I would also like to urge immediate implementation of the board's proposal for modification of the 36,000 playa lakes of the region to conserve and utilize local rainfall. Further studies into the possibilities of recharging the underground water table either with water transported into the area or with local surface supplies is also needed."

In closing the hearing session, director Joe G. Moore Jr. reported that Texas was attempting to become a member of the

(Continued from Page 1)

ing by Wednesday, though one location south of Hereford explained that it had drizzled "off and on" throughout the morning.

This week's total of 1.65 inches of precipitation tops any single week in August last year. The most rain recorded for any given week was 1.47, which is .18 under that received this week.

Several areas in the South Plains and southeastern New Mexico also had records broken this week with a few spots reporting severe floods. Carlsbad, N. M., was the scene of perhaps the worst flood covered by the three-day rain.

Relic . . .

St. where he displayed his collection of arrowheads, mostly Texas Panhandle.

Interment was held at West Park Cemetery. Pall bearers were Owen Stagner, A. J. Schroeter, Bill Hacker, George Millard, Doc Robinson and A. B. London. The services were conducted by the Rev. Don Davidson and Rev. B. L. Davis, pastor of First Baptist Church.

Survivors include a brother, R. T. Green, Corona, Calif.; and three sisters, Mrs. Walter Easter, Miss Nettie Green of Hereford, and Mrs. Richard Dickson of Amarillo.

Rip Engle's football teams at Penn State never had a losing season. He won 104 games, lost 48 and tied 4.

Mrs. Padgett's Brother Dies Of Gun Wound

Funeral services are pending for Sam Covey Jr. of Amarillo; he was the brother of a Hereford woman. Covey died Monday night from a gunshot wound in the head. He was reported dead on arrival at Northwest Texas Hospital.

The den of his home was the scene of the shooting where the Amarillo police found a .22 caliber pistol. Survivors include his wife; daughters, Susan Elaine, Tammy Gaye, Patricia Ann, and Cindy Sue, all of Amarillo; his parents, Mr. and Mrs. Sam Covey; brothers, Robert, Charles and Jerry, all of Amarillo; and sisters, Mrs. Ailene Stanford, Mrs. Loraine Looney and Mrs. Mary Lou Cates of Amarillo, Mrs. Reva Buchmaster of Calif., and Mrs. Doris Padgett of Hereford.

For big boys, little boys, middle boys - Donmoor Turtlenecks

If you can't find your boy's favorite turtleneck in the Donmoor collection, you're not half trying. Stripes, solids, V-bills. Lots of bright new ideas. And one old one: the easy comfort of Donmoor cotton knit. It has a natural stretch. Just made for boys and vice versa.

WELCOME TEACHERS

It's a pleasure to welcome you to Hereford. We know that you're going to like our city, and we hope that you will want to make Hereford your permanent home. We think it's the greatest little town in Texas.

We would also like to invite you and your families to dine in the restful atmosphere of THE CAISON HOUSE. You'll like the delightful organ music of John Morris Fielder.

You'll also find the cuisine to be excellent. Dining at THE CAISON HOUSE is a pleasure.

THE
Caison
HOUSE

by MELVIN YOUNG

There's always a joker in the crowd, and when you fool around in the Lion's den, you may find a whole passel of them.

So at least, thinks Tom Robinson, a Lion of many years who is likely to be on the receiving end of a practical joke as not.

Tom and Mattie Kay have just returned from a trip to Portland, Ore. where they visited with their daughter and family, but the sight that greeted the travelers upon their return told immediately that some of their so-called "friends" had taken the opportunity afforded by their absence to indulge in some friendly mischievousness.

Inside the double garage sat Tom's farm car, turned sideways, with barely a smithering of room front and back. Obviously the car had been placed in that position with jacks and a great deal of effort on the part of more than one husky.

To top it off, when the family checked the closets in their home, it was discovered that someone had made off with six of Tom's very best suits. That cinched it. It must have been some of Tom's comrades in the Lion's club, since they, at that very moment, were busy downtown setting up a stand for a Saturday suit sale on main street.

Putting two and two together Tom came up with five. Five Lions that is Namely B. F. Cain, Bill Gentry, Raymond White, Ivan Block and J. W. Robinson Jr.

Naturally all denied having anything to do with the deal. However the evidence was there—laying on the Robinson's dining room table.

There being no honor among thieves—or practical jokers—someone had snapped a Polaroid picture of B. F. Cain closing the garage door after the dastardly deed—and left the picture for the Robinsons to find. What more evidence does a man need?

None, to be sure. And you can bet that we haven't heard the last of the deal. Knowing Tom Robinson, we're sure he hadn't been back in town 15-minutes until he started making plans to retaliate. He won't let them get away with it.

—HB—
You might think, in view of all this nonsense, that the Hereford Lions are a bunch of playboys. Well, you're right.

But before you pass judgment on the group, we might add that along with their fun, they probably do more good for the community than any other single group. They're active, and they get a lot done. The citizens of Hereford appreciate them.

—HB—
Before we leave the Lions however, we want to caution them about one thing. Don't pick on us Rotarians. We're a minority group and will have the Feds on our side.

—HB—
Conventional is not necessarily the way a man acts at a convention.

—HB—
Rex Lee and Bobby Owen are holding open house Saturday from 9 a.m. to 3 p.m. at their new Hereford location. Rex and Bobby are owners of Summerfield Fertilizer and Pioneer Fertilizer with locations at Summerfield, Milo Center, Westway and now Hereford.

Our congratulations to the part

SECRETARIES MEET — Local secretaries met at their regular meeting, Monday night in the offices of the Rural Electric Cooperative. Nancy Smith, a high school student who is working as a secretary was a special guest. Leo Forrest, manager of the REC, was guest speaker. He told the group of his trip to South America and discussed the problems

Latin American countries in their electrical development. The organization urges that all secretaries, or employers enter the Hereford Brand 'Secretary of the Month' contest. Entry blanks can be found in this paper. (Staff Photo)

Jeff Robersons Hold Reunion

Mr. and Mrs. C. E. Roberson and son Ricky of El Paso visited in the home of his parents, Mr. and Mrs. Jeff Roberson, and his brother, Ed Roberson, during the past week end. Other relatives who gathered in the Jeff Roberson home on Saturday evening for an unofficial reunion were Messrs. and Mrs. Ura Smith, Amarill, James Smith and family, Canyon, Jess Caldwell, Denton, Dock Roberson, L. J. Clark and family.

Hicks Roberson, Cecil Boyer, Pete Caldwell, Ed Roberson and family, Mrs. T. W. Roberson, Mrs. Jack Roberson, Mrs. Velma Hodges and granddaughters, and Mary Lou Roberson also attended.

AID TO THOUSANDS

DALLAS (AP) — Health and welfare programs carried on by the Methodist Church served a record 1,921,055 persons during 1965, the denomination's Board of Hospitals and Homes reports, 137,000 more than the year before.

ners upon the opening of the new location. They have done quite well in the fertilizer business over the years in spite of some rough competition.

—HB—
As a taxpayer, you may be interested to know that for every \$3 of federal aid received, taxpayers ante-up \$6.

In comparison, for every \$3 in state aid, we must pay \$4 in taxes and for every \$3 spent from the local coffers, the cost to us as taxpayers is only \$3.40.

It might be wise to remember this the next time we start looking for ways and means to milk the federal government for funds

—HB—
April 6, 1968 will mark the opening of the first World's Fair ever held in the Southwestern United States. This International Exposition, HemisFair 1968, is dedicated to the promotion of an even greater rapport between the peoples of the New World. For 184 days this festival of international importance will thrill, excite and entertain millions of visitors to Texas from all over the world.

—HB—
And speaking of fats, you might be glad to know that the local Lion's Club is returning the carnival rides to Hereford for the week of August 29-September 3 inclusive. Proceeds from the event will go to the Deaf Smith County Historical Society to be used in connection with the museum.

—HB—
There are, we understand, two kinds of voters. . . . those who support your candidate and a lot of ignorant, prejudiced fools.

Kindergarten Opens Monday

Goodwill Kindergarten will be open Monday with a rousing 40 pupils already enrolled.

A bus, run by the Baptist churches in Hereford will pick-up the children in time for classes to begin at 8:45 a.m.

Sponsored by the city's Baptist churches, classes are held in the Goodwill Center located east of the First Baptist Church. Teachers for the school are Helen Nunley and Jessie Ann Davis. Fee for each child is \$2 a month, charged for supplies.

Further enrollment is not being encouraged at this time because early enrollment filled the class, Mrs. Davis said. Some adjustment might be made after the school opens, she said.

SOLIDARITY GROWING

BIRMINGHAM, England (AP) — There has been a growing sense of solidarity within the Anglican Communion ever since the Toronto conference of 1963, the Archbishop of Canterbury (Dr. Michael Ramsey) told a meeting here. He added: "We are Anglicans and likely to be Anglicans for some time yet. We believe that, as Anglicans, we have within Christendom a job to do for the whole world."

New Mexico Court Defers Sentence

Terry Collins Hill, 18, a 1965 Hereford High School graduate and Eastern New Mexico University student, received a deferred sentence Monday by 9th Judicial District Judge Dee C. Blythe in Portales. Hill was remanded to the custody of the sheriff for transportation to the State Hospital in Las Vegas, where he will be under psychiatric examination for a 60 day period. Sentence was deferred by the judge after hearing six character witnesses testify on his behalf and studying the psychiatrist's report on Hill.

Hill and David Haskell League, a 21-year-old former ENMU student, had plead guilty on Aug.

12 to two counts of arson. The youths were arrested on April 19 after a series of fire bombs had been thrown at buildings in Portales the night before, burning two warehouses and damaging a garage. They were apprehended after City Police Chief Lloyd Moore traced a gasoline odor to one of the boys from his parked car.

League was sentenced to two ten years in the state penitentiary by the District Judge. Three men who had known him in Carlsbad testified in his behalf. They were J. V. Frazier, high school counselor, James H. Bayless, principal of Carlsbad Mid-High, and Methodist minister Dr. John Carpenter. All spoke of his fine character and reputation and Dr. Carpenter noted that he was one of the few young people of his age group who attended Sunday night services.

Three family friends from

Hereford testified for Hill. All stressed his good reputation and that of his family.

Frank Beard finished third in the 1965 U. S. Open in St. Louis and this year in San Francisco he tied for 17th.

Booster Club Has Season's First Meeting

The Hereford Booster Club will hold its first meeting of the new season Monday evening at 8 p.m. in the Community Center.

The meeting will serve as a starting point in getting the upcoming football season off to a good start.

Officers for this year's season are: B. F. Cain, president; Gene Loerwald, vice president; Donald Hicks, secretary; and Gene Guinn, treasurer.

Members of the club have been selling advertising for their

annual football program which will be on sale for the first home game. The programs can be purchased from the Future Farmers of America or from the cheer leaders, for 25 cents. The programs include pictures of players and coaches, and also the cheer leaders and those associated with the athletic program. It provides information concerning the players.

The Booster club will meet each Monday night at the Community Center, to talk football and see films of the Whitefaces in action.

Athletes' parents are invited to each of the meetings during the year.

Membership fee for the club is \$2 per year.

OFFENSIVE LINE NAMED

Herd Sets First Scrimmage Friday

Hereford Whitefaces will see their first action of the new season Friday night, as they meet Clovis for a controlled scrimmage.

Game time is set for 7 p.m. C.S.T. for the B-team and 8 p.m. for the varsity squad at Clovis.

The scrimmage with Clovis will be strictly workout giving coaches and players a chance to spot weak points in the game. Head coach Jack Meredith

commented on the fine work-outs the team has had in the past two weeks, but was a little disappointed with the wet weather which drove the herd to the field house.

The past week has been spent in the field house in skull sessions and working on agility and coordination.

The offensive line was named this week by Meredith. They are: Mike Davis, Bill Watts, Bill Coffin, Ricky Fangman,

Look

Who's New

Mr. and Mrs. Leonard Arellano are the parents of a daughter, Anita, born Aug. 21. She weighed 6 lbs. 14 ozs.

Mr. and Mrs. Francisco Garcia Trevino are the parents of a daughter, Tina Louise, born Aug. 23. She weighed 7 lb. 6 ozs.

Charles Brewton, Wayne Miller, and Walter Baker. Phillip Cain and Jim Childers are in the quarterback position Billy Frank left half back; Tony Malouf, full back and Ernie Williams and Gary Tucker, right half backs. Both quarter backs are moving along real fine, but the wet weather has hampered their progress, Meredith said.

The coaching staff is expecting the best defense attack in recent years but also say the offensive strategy is catching up. Billy Frank, Ernie Williams Gary Goodin and Gary Tucker make up the Secondary defense.

Team efforts all point toward the Floydada game on Sept. 9 which will be the season opener for the Herd. Floydada will scrimmage Brownfield on Friday and the Whitefaces will scrimmage Brownfield the following week.

Floydada has many starters back from last years action and they also have more players out this year than last year's crop.

'Crazy Quail' Open To Public

The Hereford Gun Club, located at the airport will have its "crazy quail trap" open Sunday afternoon. This is for practice for the coming dove season, which opens September 1.

One round of 15 targets will cost \$1.00, and those breaking all 15 will receive \$10.00 cash prize.

Shells are also available for \$2.50 per box.

Crazy Quail is especially suited to experienced hunters. The shooter stands 22 yards from the trap which is located in a pit at ground level. The target is released at any 360 degree direction, giving the shooter a variety of game-like shots. The shoot is held to simulate actual hunting conditions, and is good practice for the hunting season.

The Gun Club invites everyone to come out and participate in this pre-season warm up. Shooting will begin at 2 p.m. at the airport range.

BIRTH DEFECTS CLINIC

Noted Speaker Talks In Lubbock

Hereford residents interested in learning more about prevention of birth defects will have an opportunity to hear a well-known specialist in that field. Sept. 16 — The meeting held in conjunction with the March Of Dimes program to study birth

defects, will be at the Hillcrest Country Club. Interested persons can contact Mrs. A. E. Hodges, District Director of the Texas Home Demonstration Association Hereford.

Speaker for the luncheon meeting will be Dr. Virginia Appgar,

director of the Congenital Malformations Research division of the National Foundation of the March of Dimes.

Dr. Appgar was appointed to the research staff in July 1959. She is the creator of the 'Appgar Score', a clinical evaluation made within 60 seconds after birth to determine the baby's over-all condition.

She was formerly professor of anesthesiology at Columbia University College of Physicians and Surgeons. As attending anesthesiologist at Presbyterian Hospital in New York City and as consultant anesthesiologist in three other hospitals in the area,

she assisted in the delivery of 17,000 infants.

Mrs. Hodges said that young married women, young mothers as well as club representatives would be welcome to attend the meeting. She would like to know by September 10, how many women are interested in going.

VOICES, WITHOUT ORGANS

NEW YORK — Lutherans pride themselves on their singing, says the Rev. Charles R. Anders, a liturgical specialist of the Lutheran Church in America, but "there is a deplorable lack of good organs in our churches."

THEOLOGY FOR LAYMEN

INDIANAPOLIS — The Christian Churches (Disciples of Christ) have started a long-range program of regional "Academies of Teaching" to develop "core groups" of educational leaders in each state to train others for educational duties in districts and congregations.

THE CASE OF THE SWINGING SUITS

Suits have switched to the "switched-on" look. They're still sensible investments — only now they don't show it. Pantsuits with English or military airs help you look smashing while you're dashing hither and yon. When they also go to town with matching skirts, you have two for the money and the show.

The investment is small, and the fashion big, if you swing with a sewing machine. Then you can have an English cutaway suit that your friends will be "Mod" about; McCall's makes the pattern, in teen and junior sizes with cuffed pants and A-line skirt. Make it in corduroy, or in a snappy wool tweed or check. Or try velveteen if you need an ice-breaker at parties. The pattern number is 8421.

Military tactics are equally good fashion strategy; you're sure to win out over the competition in an officer's jacket with matching slim pants or skirt. McCall's Pattern #8403 would look especially smart in a spit-and-polish fabric such as gabardine or twill. Add brass or silver buttons

with a military motif for a look worth saluting.

The hacking suit, an important pantsuit with stovepipe slacks, makes you look as though there's a country estate somewhere in your family background. Play up this richly casual appearance with a handsome tweed, flannel or gabardine fabric — or

maybe a scrubbed denim. Pattern #8390, like #8403, offers a coordinated blouse to help you assemble a really suitable outfit.

No matter which of these three you choose, you're sure to be in the fashion swing.

Chamber . . .

(Continued from Page 1)
was not trying to change attitudes, merely develop existing ones. By this, he explained, tastes in the community will be used to determine what the program should include.
"If people want western music or western art," Swindle said, "we will try to give them good western music and art."
Children are exposed to some of the better literature and arts in school and the chamber agreed that this experience should be open to adults in the community.
Also discussed was the need for better cultural direction in the schools, with key people in the various arts being employed

to teach those areas in the classroom.
Pointed out as a step in the right direction is the current museum project in this community.
Another topic under discussion at the regular meeting was the need for a labor survey to attract industry to the area. The board was told of at least one industry lost to this area because of an acute labor shortage.
Don Zimmerman and Dub Hair were appointed to investigate the establishment of a day nursery to meet needs of mothers working in industry and agriculture. Ability of using churches to fill the need.

Damage, Injuries Slight In Three Sunday Wrecks

Three accidents occurred Sunday and two of them happened on South 25 Mile Avenue. None incurred severe damage and there were no serious injuries.
The first accident occurred early Sunday morning when Chris Meredith, 118 Ranger Dr., failed to make it safely through the intersection of S. 25 Mile Ave. and Park Ave. on the caution light. Her car collided with a 1951 sedan driven by Mrs. D. R. Grimes, 110 Catalpa, who had moved forward when the light turned green.
The '51 sedan received only light damage while damage to Miss Meredith's 1963 sedan was estimated at \$200.
Hugh Carlisle Amos, 45, of Plainview was struck from the rear as he was driving his 1955 sedan south on S. 25 Mile Ave. Sunday afternoon. Rachel Williams, driving a 1966 pickup belonging to Sammie West, Rt. 4, received \$700 damages to her vehicle. Amos' vehicle incurred \$200 damages.
Highway 60 on Sunday evening was the scene of another accident as Clatiec Henry High, 345 N. St. attempted to make a left turn from a private drive onto Hwy. 60 and Ricardo Reyna Rt. 2, driving his 1966 sedan, was going straight on Hwy. 60 and collided with High's 1957 sedan. Both vehicles incurred approximately \$100 damage.

DISPLAY OF POWER — Members of the '66 Whiteface football team, along with their coaches were at Sugarland Monday afternoon, as guests of the Sugarland Mall

Local Woman's Sister Buried In Amarillo

Mrs. Dovie Carter died Tuesday morning in St. Anthony's Hospital. Funeral services for the 72-year-old Amarillo woman were held at the Chapel of the Southwest yesterday.
Pastor of the First Baptist Church, Amarillo, Dr. Winfred

Moore, conducted the funeral. Entombment was in Llano Mausoleum.
Mrs. Carter was a member of the Order of the Eastern Star, the Daughters of the Nile and the First Baptist Church.
Survivors were her husband; sisters, Mrs. Thelma Chisum of Hereford, Mrs. Lizzie Bailey of Hollis, Okla., Mrs. Jennie Ross of Frederick, Okla., and Mrs. Minnie Atteberry of Amarillo;

and a brother, B. F. Vicans of Amarillo.

VISIT PARENTS

Dr. and Mrs. Ansel McDowell Jr. or Perryton were here over the week-end visiting with his parents, Mr. and Mrs. Ansel McDowell. Ansel McDowell III and Stewart who had been here visiting their grandparents for several days returned to Perryton with their parents.

Letter To The Editor

Paul in his writing at one time said the sin that does so easily beset us. What could that sin be, we are all subject to the same temptations but still there is one that I think is outstanding and that is if we do something that we know is wrong we nearly always try to cover up. The Bible says that David (King David) was a man after God's own heart.

I have wondered at times how could a man that committed the sins that David did be called a man after God's own heart. God sure wouldn't OK the sins that David committed. David was a good man at heart and wanted to do God's will but at an unguarded moment was tempted and fell to that temptation.

He knew he had done wrong but tried to cover up and by trying to cover up did even worse. But God knew it all and sent a prophet to remind David that he couldn't keep it a secret from God.

The prophet told David about a rich man that had great flocks and herds and a poor man that only had one lamb. The rich man took the poor man's only lamb and killed it to make a dinner for a traveler instead of killing one of his own and David said a man like that should be killed.

The Prophet said thou art the man, then explained what David had done, and that God was going to punish him for his sin. David as King had authority to do as he pleased and could have told the prophet that it wasn't any of his business and I'll have you put to death for being so smart. (But did he?)

No he admitted his sin and asked God to forgive him. He had done an awful wrong but humbled himself and truly repented and asked God's forgiveness. He wasn't just sorry because he got caught. His conscience had hurt him and he was really sorry because he did wrong. That is why he was called a man after God's own heart.

If we are just sorry because we get caught that is not repentance. To repent is being sorry enough to ask God's help so we won't do it again and ask his forgiveness for what we have done.

In First Kings 16 Chapter 29th Verse through Chapter 21 we read about Ahab and Jezebel. They did a great sin and Jezebel showed no repentance only hate and revenge and tried to kill the prophet that had tried to show them the wrong they had done. Jezebel not only met a tragic death, but had to meet God's final judgment and eternity in hell.

These things should help us all to realize that our sin will find us out, we can't do wrong and get by. God is not mocked.

The wages of sin is death. God sent Jesus to this world that we might have life and have it more abundantly. I am writing this thing with the hopes that someone may realize the good way of life.

Ole T. Larson

ONE MINUTE, PLEASE

THE CHURCH I LOVE MUST GUARD AGAINST PHARISEISM

GENE LOOKS

The Pharisees were a religious sect when Christ lived on earth. When Jesus was teaching the people, these religionists, who were envious of Christ, often asked him questions to embarrass him or trick him. These people holding to the traditions of men were described by our Lord in this manner, "So, for the sake of your tradition, you have made void the word of God. You hypocrites! Well did Isaiah prophesy of you, when he said: This people honors me with their lips, but their heart is far from me; in vain do they worship me, teaching as doctrines the precepts of men." (Matthew 15:6-9).
"He (Jesus) also told this parable to some who trusted in themselves that they were righteous and despised others; Two men went up into the temple to pray, one a Pharisee and the other a tax collector. The Pharisee stood and prayed thus with himself, God, I thank thee that I am not like other men, extortioners, unjust, adulterers, or even like this tax collector. I fast twice a week, I give tithes of all that I get. But the tax collector, standing far off, would not even lift up his eyes to heaven, but beat his breast, saying, God, be merciful to me a sinner! I tell you, this man went down to his house justified rather than the other; for every one who exalts himself will be humbled, but he who humbles himself will be exalted." Luke 18:9-14.
"Then said Jesus to the crowds and to his disciples, 'The scribes and the Pharisees sit on Moses seat; so practice and observe whatever they tell you, but not what they do; for they preach, but do not practice. They bind heavy burdens hard to bear, and lay them on men's shoulders; but they themselves will not move them with their fingers. They do all their deeds to be seen by men; for they make their phylacteries broad and their fringes long, and they love the place of honor at feasts and the best seats in the synagogues, and salutations in the market places, and being called rabbi by men.'" (Matthew 23:1-7).

SUGARLAND MALL HEREFORD, TEXAS

Hereford Man Charged With Manslaughter

CLAYTON, N.M.—A 60-year-old Hereford man has been charged here with manslaughter in the shooting death last week of Dorman Bryan, 40, of Pritchett, Colo.

Earl Caster of Hereford was arraigned the following day, with a preliminary hearing scheduled Sept. 1.

The State Game and Fish Department said Caster and Bryan and three others were spotlighting deer just over the New Mexico-Oklahoma line in northeastern New Mexico when the accidental shooting occurred.

The game department said also involved were David Quinn, 16, Richard Parker, 26, and Cecil Parker, 19, all of Kenton, Okla.

The investigating officer said the men were spotlighting deer and had jumped a buck. Bryan

jumped out of the truck but the men in the back were not aware of it. Coming back through the field, officers said the men spotted a reflection and shot, not realizing it was Bryan.

Bond for Caster was set at \$10,000 on the manslaughter charge and \$500 for spotlighting.

Carnival Re-Run

Money for the Museum. Play at the return engagement of Rhodes Carnival sponsored by the Lions Club and help pay for needed improvements for the museum.

August 29 through September 3 will be the time for the return of the rides and concession stands at the Bull Barn. Each evening, Lions will man the ticket booths and concession stand in an effort to raise funds for the community project. No game booths will be open.

A recent suit sales netted the club over a hundred dollars, Lion Don Chaney said.

BEGINS 11TH SEASON

Old Pro Never On Winning Ball Team

By HAROLD V. RATLIF
Associated Press Sports Writer

Don Meredith will start his 11th season of football in Dallas come September. He will be rounding out his first year as a sportscaster on television.

Meredith, the much criticized quarterback of the Dallas Cowboys, says he finds adverse comment on television, too, but not as much as in football.

Ten years is a long time to play the game in one town, says the tall young man who was the first signed by Dallas when it entered the National Football League in 1960. "In that time, you get a lot of both pros and cons," he muses.

What he means is that a lot of criticism as well as praise may accrue.

He has been booed, even when playing with bum knees, cracked ribs, stomach muscle rupture, an injured foot and a sprained ankle. He might well be the most banged up fellow as well as the most criticized.

Meredith never has been on a championship team—at Southern Methodist, where he played four years, and with the Cowboys, where he has toiled for six.

About the only person retaining faith in him all the way had been Coach Tom Landry

of the Cowboys. Landry wavered some last year when he found Meredith's passing below par, although figured a sore arm that the quarterback tried to keep from him was a major reason.

So, after Meredith showed he was below standard against St. Louis, the coach put in his quarterback shuttle, with rookies Craig Morton and Jerry Rhome doing the playing Dallas lost anyway and Meredith was even criticized for doing a poor job of holding the ball for try point after touchdown.

At Cleveland Landry started Rhome but had to call Meredith in the second period. But Dallas lost again.

Against Green Bay Landry started Morton, who played the distance in a losing cause. Then Landry said he would go with Meredith the rest of the way.

"The veterans will play better for him," commented the coach.

Dallas lost to Pittsburgh although Meredith performed well enough to win. Then the Cowboys started to roam and won five of the next seven games to finish second in the Eastern Conference of the National Football League.

But criticism of Meredith continued although on a much lighter scale, not counting the storm that arose when he passed of

first down from the opposition's one-yard and had it intercepted. But Landry upheld his strategy.

"I have only listened to my coaches and those who really knew what I was doing wrong," said Meredith. "I just accepted the criticism from the fans and press as part of the game. But I got some praise, too."

And so he became a sportscaster five days a week and also will do a weekly show during the football season.

"The criticism isn't as much as I got in football," said Meredith. "The football fans are more prone to sit down and tell you what they think. They want to win and they sometimes think the Cowboys would have a better chance without me."

He doesn't agree with them, of course, especially since his coaches think he's plenty good.

Considering the fact that Dallas never has had a top offensive line—the main weak point of the Cowboys since Meredith has been quarterback (most of the last three years as starter)—his record is quite good.

In his six seasons he has thrown 1,400 passes, completed 694 for 10,090 yards and 74 touchdowns. He has run with the ball 154 times, gained 767 yards and scored nine touchdowns.

"I'm 28 years old and don't have too much football time left," said Meredith earnestly. "I would like to be on a winning team before I leave."

The way the Cowboys have been coming on in the exhibition grind this season, it looks like Dandy Don may get his wish. They'll probably criticize him for not doing it sooner though.

Dumas Picked Top AAA District Team

Texas Football, a harbinger of fall, has made its appearance in 152-page glory.

The most important thing it does is name the way the teams will finish in the Southwest Conference football race, upon advice of 23 writers, most of whom have been telling about this annual knock-down, drag-out for 25 to 40 years.

It's Arkansas to repeat but the Texas-Arkansas stranglehold that was broken last season, when Texas dropped four games, to continue loose. In other words Texas is picked to tie Texas Christian for third. That leaves Baylor to win runnerup honors.

Baylor? Yes, Baylor, with the hound-dog look from more than 40 years of frustration. Not, however, from second place but from winning a championship.

The tumultuous high school race in Texas, says Texas Football, will crown San Angelo champion of Class AAAA, Dumas king of Class AAA, Mineola champion of Class AA and Forney top outfit of Class A.

Defending champions Permian, Class AAAA; Plano Class AA, and Wills Point, Class A, aren't ranked in the top 10. Brownwood, which won Class AAA, gets the No. 3 spot.

Baytown, Pharr-San Juan-Alamo, Alpine and White Deer were the choices last fall. Baytown and Pharr-San Juan-Alamo did not get outside the district, Alpine reached the second round of the state playoff and White Deer went to the Class A finals. This wasn't so bad when you consider there are 680 schools in the four classes and many strange things can happen in schoolboy football.

The magazine is filled with colorful and interesting feature stories, the one by Steve Perkins on the SMU-TCU "Rose Bowl game" of 1935 taking the top prize.

That one always has been considered the best football game ever played anywhere. Largely, it was because it meant so much—The Rose Bowl, the national championship and the Southwest Conference champion-

ship. But it also was a thrilling battle of the giants, with a mighty pass—from Bob Finley to Bobby Wilson—becoming known as the greatest single play in conference history.

Actually, that was the day that the Southwest Conference reached big-time stature.

Jack Gallagher does an interesting story on the class of sophomores coming up this year. But all are overshadowed by the inimitable Bill Bradley of Texas, the Super Bill who's supposed to have an S for Superman on his jersey.

But there are Norman Bulaich and Ross Montgomery of Texas Christian, Jerry Levias of Southern Methodist, Jackie Allen of Baylor, David Dickey of Arkansas, et al.

There's a piece on Harry Jones, the Light Hoss Harry of Arkansas running fans who aver-

aged 7.7 yards with the ball over 11 games; another on Terry Southall, the mighty passing man of Baylor; a feature on Diron Talbert—the last of the terrific Talberts of Texas; a story on Frank Horak, Texas Christian's wizard of the punt and kick-off returns; the saga of Mighty Mo Morrman of Texas A & M, a lad who's acclaimed for his feats before playing a varsity down; the story of Mike Leinert, the little guy who's supposed to replace Donny Anderson at Texas Tech, and the "Last Hurrah for a Grand Old Owl"—Jess Neely, who quits after this season as coach of Rice.

It's most interesting and informative as usual and can be obtained at the newsstand.

Fifty-seven major league home runs were hit in Houston's Astrodome last season.

POST TIME CHANGED AT RUIDOSO DOWNS

RUIDOSO DOWNS, N. M.—It was officially announced at Ruidoso Downs Saturday that post time for the Labor Day weekend of racing, Sept. 2-3-4 will be 1 p.m.

Twelve races are on the program for each day will the All American Futurity, the world's richest horse race, the highlight event on Sept. 5.

The post time change was made, according to executive secretary Stan Snedigar, to accommodate the expected huge crowds.

Thirteen golfers broke par of 70 in the 1966 U. S. Open. In 1955 at the same Olympic course in San Francisco only five golfers broke par.

Monroe Consigns Horse At Ruidoso

RUIDOSO DOWNS, N.M.—Sixteen states will be represented in the gigantic All American Quarter Horse Sale scheduled for Sept. 3-4 at Ruidoso Downs.

A total of 116 "blue blood" yearlings, some the kinfolk of immortals of the short distance ranks, will go through the sale which will be held indoors for the first time at the Chaparral Hotel Convention Center.

Of the group as expected Texas and California owned horses dominate the sale catalogue. The Lone Star State will have 27 representatives coming under auctioneer Dean Parker's gavel while the far westerners will send in 25.

Next in line comes host New Mexico with 15, Oklahoma with 13, Arizona 11, Colorado 6, Utah 5, Ohio 4, Maryland and Nevada 2 each and Kansas, Illinois, Washington, Arkansas, Oregon and Idaho with single entries.

Texans offering consignment are Courts K. Cleveland, Jr. of

Weatherford; J. B. Cotton, Jr. of Odessa; William B. Dean of Dallas; L. R. French Jr. of Odessa; Lloyd Gambrel of Ralls; Jim Monroe of Hereford; Nafzger Sons Cattle Co., of Olton; John Miles, Jr., of Cresson; Mike Rutherford of Buda; Kenneth Merling of Plano; James Hunt of Slaton; Tom Burnett of Fort Worth; Adams and Fenion of Fort Worth; W. H. Packham of Richmond; C. E. Jones on Littlefield; Eddie George of Priscoe; J. B. Ferguson of Wharton and Lee Shook of Marlin.

California will be plentiful. From the Golden Bear state will be yearlings owned by Spencer Childers of Fresno; William and James Carter of Clovis; Robert and Madge Dennis of Paramount; Charles Jensen of Lockford; Krum and Coffman of Clovis; S. Ellison of Ramona; Lawrence Hyland of Lake Hughes; George Kaufman of Modesto; Homer Waldon of Riverside and Jack Schwabacher of Madera.

FOR THE FIRE — Sherry Rogers, Linda Kay Ritter, Janet Baker, Kima Marsh, Rema Coffin, Darla Springer and Amy Ballard gather wood for the evening's fire.

MAKESHIFT TABLES — Charlotte Williams and Linda Kay Ritter make adjustments on a real "homemade" table for use during their week at camp.

POPULAR HANGOUT — Girls gather at the camp's dining hall, most popular spot at Camp Summer Life.

SIDE TRIP — Fifth and sixth grade Camp Fire girls board a bus to take them to Taos, N.M., for a short tour.

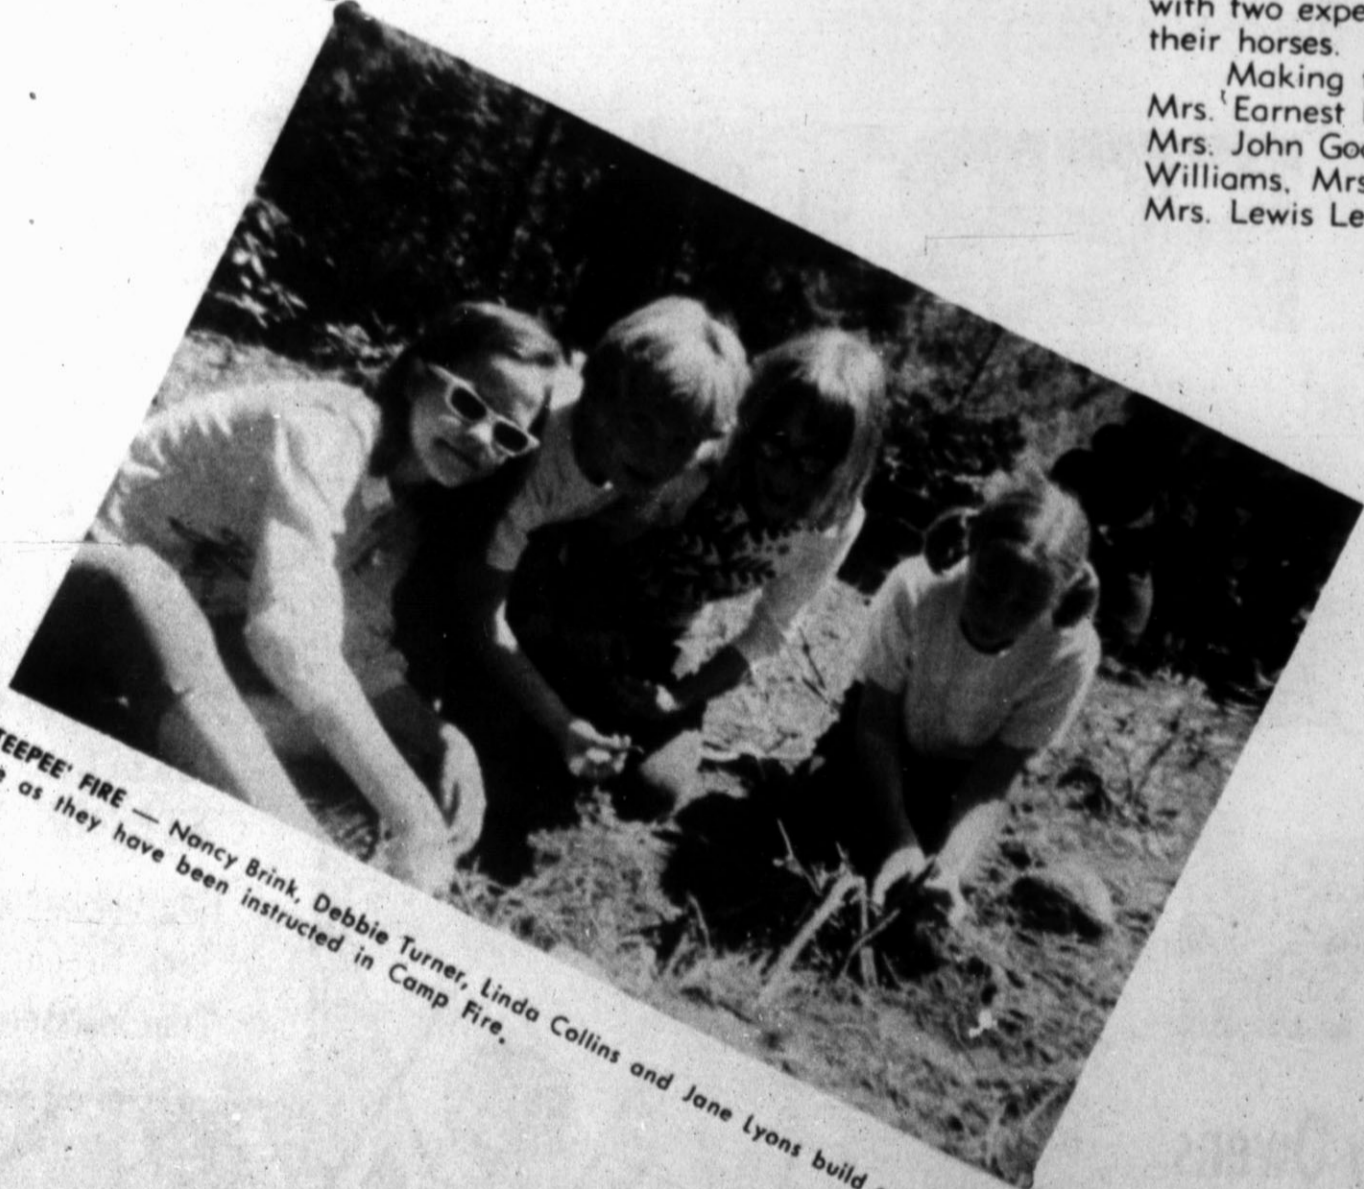

CAMP SUMMER LIFE

Camp Summer Life, located 18 miles south of Taos, N.M., annually attracts Hereford's Camp Fire girls. Eighty girls, along with nine counselors, made the trip to the resident camp during the week Aug. 7 through 14.

Girls were on their own for the week, doing all the work except the cooking. Instructors were furnished to give the girls lessons in archery, riflery, trampoline, and riding. A wrangler, along with two expert horsewomen, assisted girls with their horses.

Making the trip along with the girls were Mrs. Earnest Langley, Mrs. Carl Hollingsworth, Mrs. John Gooch, Mrs. Jack Allen, Mrs. Delmo Williams, Mrs. Arthur Stoy, Mrs. Pat Livesay, Mrs. Lewis Lea and Mrs. Gene Brink.

(Personal Photos)

'TEEPEE' FIRE — Nancy Brink, Debbie Turner, Linda Collins and Jane Lyons build a "teepee" fire as they have been instructed in Camp Fire.

ARCHERY — Kima Marsh and Sherry Rogers try their hands at archery, receiving instruction from aides at Camp Summer Life.

READY FOR COLLEGE—Three-year-old Kim Ung-Yong, who solves complicated problems in differential and integral calculus with ease, expects to be studying under Prof. Allen D. Schneid at the University of Michigan this coming fall. The prodigy has a fluent command of English, German and his native Korean tongue.

Letter To The Editor

Reze, le 22 aout 1966
 "UP, LAD: WHEN THE JOURNEY'S OVER THERE'LL BE TIME ENOUGH TO SLEEP."

A. E. Housman
 Dear People of Hereford,
 It has been quite some time since I let you hear about me. Nevertheless, I have been thinking of you as much as usual, and more particularly with the coming to France of this sweet group from your town—which happens to be partly mine also.

For the last weeks, my main concern was to get to meet them. We did manage to meet: first in Saint-Malo for two days, and two weeks later in my home town, and finally in Paris where I spent three days.

They had been in France for just about ten hours when I first saw them. That gave me quite a thrill. We had some trouble understanding one another. Somehow, our English seemed to be somewhat different. Fortunately, by mixing up English and French, we succeeded in agreeing that a bottle of wine should be highly welcome to celebrate in the best continental way our being together!

The way they all looked, the wonder in their eyes, made me realize how I must have looked when arriving in Amarillo early on August, 17th, 1964.

It had been a year since I had left Hereford; a year during which I had been able to take some more account of what you had all done for me, a year during which I truly discovered how much I owe you, and what you mean to me. From this very moment my job naturally was to help them along in "La Belle France" and to show them around as much as I could, since they all were outstandingly true representatives of your city.

Their voluntary coming to my hometown put a vigorous accent on my abstract willingness to bring close Hereford and Nantes as twin towns, and brought a tangible proof to the idea. My parents and friends were all very impressed by this group which helped them understand that America stands as a great Nation. The students were just tremendously good girls and boys which was the best reward to our taking care of them for too short a time. They behaved in all ways as mature adults, giving trouble to no-one, except may-be when trying out their French to buy "patisseries"! And finally, my meeting them in Paris for the last time made me feel very proud. They actually were there in the Capital of France, in the very heart of the town. A year before I was in New York, this year they were

over here.
 I want you to know how happy it makes me feel to get to know so many people. I feel so much fortunate to actually have so many friends. When using this word "FRIEND", I mean using it terminologically. It was hard to leave them, but it will be so sweet to meet them again. To all of you I want to say thank you for contributing to make my life what it is.

This other experience of mine, that was the coming to France of the Hereford group, directed me to do some sort of "research work", and to terminate this letter, I should like for the young people who have participated to this particular trip, or for the ones who have travelled in some ways or others, to think about and meditate the following quotations emanating from a few experienced travelers:

"The soul of a journey is liberty, perfect liberty, to think, feel, do just as one pleases."
 W. HAZLITT.

"The use of travelling is to regulate imagination by reality, and instead of thinking how things may be, to see them as they are."
 S. JOHNSON

"The pleasure of travel only exists as a matter of fact in retrospect and seldom in the present, at the instant when it is being experienced."
 J. K. HUYSMANS

"The body travels more easily than the mind, and until we have limbered up our imagination we continue to think as though we had stayed at home. We have not really budged a step until we take up residence in someone else's point of view."
 J. ERSKINE

Once again thank you very much for all you have done,
 Sincerely Yours,
 Rene

PROPOSED CONSTITUTIONAL AMENDMENTS

To Be Voted On

DURING THE NOVEMBER GENERAL ELECTION

PUBLIC NOTICE

Proposed CONSTITUTIONAL AMENDMENT NUMBER FOURTEEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966. HOUSE JOINT RESOLUTION NO. 38 proposing an amendment to Section 2, Article VI, Constitution of the State of Texas, to omit the requirement that members of the armed services vote only in the county in which they resided at the time of entering the service.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 2, Article VI, Constitution of the State of Texas, be amended by deleting the following language:

"Any member of the Armed Forces of the United States or component branches thereof, or in the military service of the United States, may vote only in the county in which he or she resided at the time of entering such service so long as he or she is a member of the Armed Forces."

The text of this Section is shown below, with a broken line through the sentence which is to be deleted:

"Section 2. Every person subject to none of the foregoing disqualifications who shall have attained the age of twenty-one (21) years and who shall be a citizen of the United States and who shall have resided in this State one (1) year next preceding an election and the last six (6) months within the district or county in which such person offers to vote, shall be deemed a qualified elector; and provided further, that any voter who is subject to pay a poll tax under the laws of the State of Texas shall have paid said tax before offering to vote at any election in this State and hold a receipt showing that said poll tax was paid before the first day of February next preceding such election. Or if said voter shall have lost or misplaced said tax receipt, he or she, as the case may be, shall be entitled to vote upon making affidavit before any officer authorized to administer oaths that such tax receipt has been lost. Such affidavit shall be in writing and left with the judge of the election. The husband may pay the poll tax of his wife and receive the receipt therefor. In like man-

Proposed CONSTITUTIONAL AMENDMENT NUMBER TWELVE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966. HOUSE JOINT RESOLUTION NO. 48 proposing an amendment to Article IX of the Constitution of the State of Texas, providing the method and manner for dissolution of hospital districts created under Article IX of the Constitution.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 9, Article IX of the Constitution of the State of Texas, be amended to read as follows:

"Section 9. The Legislature may by law provide for the creation, establishment, maintenance and operation of hospital districts composed of one or more counties or all or part of one or more counties with power to issue bonds for purchase, construction, acquisition, repair or renovation of buildings and improvements and equipping same, for hospital purposes; providing for the transfer to the hospital land, buildings, improvements and equipment located wholly within the district which may be jointly or separately owned by any city, town or county, providing that any district so created shall assume full responsibility for providing medical and hospital care for its needy inhabitants and assume the outstanding indebtedness incurred by cities, towns and counties for hospital purposes prior to the creation of the district, if same are located wholly within its boundaries, and a pro rata portion of such indebtedness based upon the last approved tax assessment rolls of the included cities, towns and counties if less than all

(1) determining the desire of a majority of the qualified voters within the district to dissolve it;

(2) disposing of or transferring the assets, if any, of the district; and

(3) satisfying the debts and bond obligations, if any, of the district, in such manner as to protect the interest of the citizens within the district, including their collective property of the assets and provided, however, that any grant of federal funds, however dispensed, shall be considered an obligation to be repaid in satisfaction and provided that no election to dissolve shall be held more often than once each year. In such connection, the statute shall provide against disposal or transfer of the assets of the district except for due compensation unless such assets are transferred to another governmental agency, such as a county, embracing such district and using such transferred assets in such a way as to benefit citizens formerly within the district.

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed thereon the following:

"FOR the constitutional amendment providing the method and manner for dissolution of hospital districts."

"AGAINST the constitutional amendment providing the method and manner for dissolution of hospital districts."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this State.

PUBLIC NOTICE

Proposed CONSTITUTIONAL AMENDMENT NUMBER THREE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966. SENATE JOINT RESOLUTION NO. 39 proposing an amendment to Section 18, Article VII, Constitution of the State of Texas, to withdraw Arlington State College from participation in the Permanent University Fund.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 18, Article VII, Constitution of the State of Texas, be amended to read as follows:

"Section 18. For the purpose of constructing, equipping, or acquiring buildings or other permanent improvements for the Texas A & M University System, including Texas A & M University, Prairie View Agricultural and Mechanical College of Texas at Prairie View, Tarleton State College at Stephenville, Texas Agricultural Experiment Stations, Texas Agricultural Extension Service, Texas Engineering Experiment Station at College Station, Texas Engineering Extension Service at College Station, and the Texas Forest Service, the Board of Directors is hereby authorized to issue negotiable bonds or notes not to exceed a total amount of one-third (1/3) of twenty per cent (20%) of the value of the Permanent University Fund exclusive of real estate at the time of any issuance thereof; provided, however, no building or other permanent improvement shall be acquired or constructed hereunder for use by any part of the Texas A & M University System, except as and for the use of the general academic institutions of said System, namely, Texas A & M University, Tarleton State College, and Prairie View A & M College, without the prior approval of the Legislature or of such agency as may be authorized by the Legislature to grant such approval; and for the purpose of constructing, equipping, or acquiring buildings or other permanent improvements for the University of Texas System, includ-

ing The Main University of Texas at Austin, The University of Texas Medical Branch at Galveston, The University of Texas Southwestern Medical School at Dallas, The University of Texas Dental Branch at Houston, Texas Western College of The University of Texas at El Paso, The University of Texas M. D. Anderson Hospital and Tumor Institute at Houston, The University of Texas Postgraduate School of Medicine, The University of Texas School of Public Health, McDonald Observatory at Mount Locke, and the Marine Science Institute at Port Aransas, the Board of Regents of The University of Texas is hereby authorized to issue negotiable bonds and notes not to exceed a total amount of two-thirds (2/3) of twenty per cent (20%) of the value of the Permanent University Fund exclusive of real estate at the time of any issuance thereof; provided, however, no building or other permanent improvement shall be acquired or constructed hereunder for use by any institution of The University of Texas System, except as and for the use of the general academic institutions of said System, namely, The Main University and Texas Western College, without the prior approval of the Legislature or of such agency as may be authorized by the Legislature to grant such approval. Any bonds or notes issued hereunder shall be payable solely out of the income from the Permanent University Fund. Bonds or notes so issued shall mature serially or otherwise not more than thirty (30) years from their respective dates.

"The Texas A & M University System and all of the institutions constituting such System as hereinabove enumerated, and The University of Texas System, and all of the institutions constituting such System as hereinabove enumerated, shall not receive any General Revenue funds for the acquiring or constructing of buildings or other permanent improvements, except in case of flood, storm, or earthquake occurring at any such institution, in which case

"Said Boards are severally authorized to pledge the whole or any part of the respective interests of Texas A & M University and of The University of Texas in the income from the Permanent University Fund, as such interests are now apportioned by Chapter 42 of the Acts of the Regular Session of the Legislature of the State of Texas for the purpose of securing the payment of such bonds or notes. The Permanent University Fund may be invested in such bonds or notes.

"All bonds or notes issued pursuant hereto shall be approved by the Attorney General of Texas and when so approved shall be incontestable. This Amendment shall be self-enacting provided, however, that nothing herein shall be construed as impairing any obligation heretofore created by the issuance of any outstanding notes or bonds pursuant to this Section by the respective Boards prior to the adoption of this Amendment but any such outstanding notes or bonds shall be paid in full, both principal and interest, in accordance with the terms of such contracts."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed on them the following:

"FOR the Constitutional Amendment withdrawing Arlington State College from participation in the Permanent University Fund."

"AGAINST the Constitutional Amendment withdrawing Arlington State College from participation in the Permanent University Fund."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the constitution and laws of this state.

Study These AMENDMENTS! They're Important To You!

PUBLIC NOTICE

Proposed CONSTITUTIONAL AMENDMENT NUMBER ELEVEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966. SENATE JOINT RESOLUTION NO. 19 proposing an amendment to Section 49-d, Article III of the Constitution of the State of Texas, declaring state policy regarding optimum development of water resources; providing for the use of the Texas Water Development Fund under such conditions as the Legislature may prescribe by General Law in the acquisition and development of storage facilities and any system of works properly appurtenant thereto; providing for the sale, lease or transfer of such facilities under General Laws; providing for long-term contracts for water storage facilities; authorizing the issuance of an additional \$200,000,000 in bonds by the Texas Water Development Board upon a two-thirds (2/3) vote of the elected members of each house; providing that anticipatory legislation shall not be invalid because of its anticipatory character; providing for the necessary election, form of ballot, and proclamation and publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 49-d of Article III of the Constitution of the State of Texas be amended to read as follows:

"Section 49-d. It is hereby declared to be the policy of the State of Texas to encourage the optimum development of the limited number of feasible sites available for the construction or enlargement of dams and reservoirs for conservation of the public waters of the state, which waters are held in trust for the use and benefit of the public. The proceeds from the sale of the additional bonds authorized hereunder deposited in the Texas Water Development Fund and the proceeds of bonds previously authorized by Article III, Section 49-c of this Constitution may be used by the Texas Water Development Board, under such provisions as the Legislature may prescribe by General

Law, including the requirement of a permit for storage of beneficial use, for the additional purposes of acquiring and developing storage facilities, and any system or works necessary for the filtration, treatment and transportation of water from storage to points of treatment, filtration and/or distribution, including facilities for transporting water therefrom to wholesale purchasers, or for any one or more of such purposes or methods; provided, however, the Texas Water Development Fund or any other state fund provided for development, transmission, transfer or filtration shall not be used to finance any project which contemplates or results in the removal from the basin of origin of any surface water necessary to supply the reasonably foreseeable future water requirements for the next ensuing fifty-year period within the river basin of origin, except on a temporary, interim basis.

"Under such provisions as the Legislature may prescribe by General Law the Texas Water Development Fund may be used for the conservation and development of water for useful purposes by construction or reconstruction or enlargement of reservoirs constructed or to be constructed or enlarged within the State of Texas or on any stream constituting a boundary of the State of Texas, together with any system or works necessary for the filtration, treatment and/or transportation of water, by any one or more of the following governmental agencies: by the United States of America or any agency, department or instrumentality thereof; by the State of Texas or any agency, department or instrumentality thereof; by political subdivisions or bodies politic and corporate of the state; by interstate compact commissions to which the State of Texas is a party; and by municipal corporations. The Legislature shall provide terms and conditions under which the Texas Water Development Board may sell, transfer or lease, in whole or in part, any reservoir and associated system or works

acquisition of such storage facilities or the water impounded therein. The money received from any sale, transfer or lease of storage facilities or associated system or works shall be used to pay principal and interest on state bonds issued or contractual obligations incurred by the Texas Water Development Board, provided that when moneys are sufficient to pay the full amount of interest to accrue thereon, any further sums received from the sale, transfer or lease of such storage facilities or associated system or works may be used for the acquisition of additional storage facilities or associated system or works or for providing financial assistance as authorized by said Section 49-c. Money received from the sale of water, which shall include standby service, may be used for the operation and maintenance of acquired facilities, and for the payment of principal and interest on debt incurred.

"Should the Legislature enact enabling laws in anticipation of the adoption of this Amendment, such Acts shall not be void by reason of their anticipatory character."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment authorizing the issuance of an additional \$200,000,000 in Texas Water Development Bonds and providing for further investment of the Texas Water Development Fund in reservoirs and associated facilities."

"AGAINST the Constitutional Amendment authorizing the issuance of an additional \$200,000,000 in Texas Water Development Bonds and providing for further investment of the Texas Water Development Fund in reservoirs and associated facilities."

Sec. 3. The Governor of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this state.

PUBLIC NOTICE

Proposed CONSTITUTIONAL AMENDMENT NUMBER TWO ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966. SENATE JOINT RESOLUTION NO. 1 proposing an amendment to Article IX of the Constitution of Texas by adding thereto a new Section to be known as Section 12; authorizing the Legislature to provide by law for the creation, establishment, maintenance and operation of Airport Authorities composed of one or more counties; authorizing the creation of a board of directors by appointment or election; providing that the board shall be based upon the proportionate part of the population of each county, with no county having less than one member; providing for the necessary election; authorizing the levy of an annual tax not to exceed Seventy-Five Cents (75c) per One Hundred Dollars (\$100) valuation; provided, however, that the property of state regulated common carriers required by law to pay a tax upon intangible assets shall not be subject to taxation by the Authority; authorizing the Authority to employ or appoint an assessor and collector of taxes whose duty it shall be to assess and collect the taxes on the tax rolls approved by the Board of Directors of said Authority, said taxes to be assessed equally and uniformly throughout the county or counties comprising the Authority, as required by the Constitution; granting to such Authority the power to acquire by purchase, or through eminent domain proceedings existing publicly financed airport properties or other sites necessary to have and to improve the same, power to issue and sell general obligation bonds and revenue bonds, or either of them; authorizing the assumption of outstanding indebtedness secured by general obligation bonds and assuming the obligations of the city or cities under ordinances and bond indentures under such revenue bonds; to enact zoning regulations and other measures to protect the airport facilities from hazards and obstructions; providing for the adding of an additional county or counties to the Authority.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article IX of the Constitution of the State of Texas be amended by adding thereto a new Section to be known as Section 12, reading as follows:

"Section 12. The Legislature may by law provide for the creation, establishment, maintenance and operation of

thereon vote in favor thereof; provided, however, that an Airport Authority may be created and be composed of the county or counties that vote in favor of its creation if separate propositions are submitted to the voters of each county so that they may vote for a two or more county Authority, or a single county Authority; provided, however, the appointment by the Board of Directors of an Assessor and Collector of Taxes in the Authority, whether constituted of one or more counties, whose duty it shall be to assess all taxable property, both real and personal, and collect the taxes thereon, based upon the tax rolls approved by the Board of Directors, the tax to be levied not to exceed Seventy-Five Cents (75c) per One Hundred Dollars (\$100) assessed valuation of the property, provided, however, that the property of state regulated common carriers required by law to pay a tax upon intangible assets shall not be subject to taxation by the Authority; said taxable property shall be assessed on a valuation not to exceed the market value and shall be equal and uniform throughout the Authority as is otherwise provided by the Constitution; the Legislature shall authorize the purchase or acquisition by the Authority of any existing airport facility publicly owned and financed and served by certificated airlines, in fee or for any interest therein, or to enter into any lease agreement therefor, upon such terms and conditions as may be mutually agreeable to the Authority and the owner of such facilities; or authorize the acquisition of same through the exercise of the power of eminent domain, and in the event of such acquisition, if there are any general obligation bonds that the owner of the publicly owned airport facility has outstanding, the same shall be fully assumed by the Authority and sufficient taxes levied by the Authority to discharge said outstanding indebtedness; and likewise any city or owner that has outstanding revenue bonds where the revenues of the airport have been pledged against the airport facilities, the Authority shall assume and discharge all the obligations of the city under the ordinances and bond indentures under which said revenue bonds have been issued and sold. Any city which owns airport facilities not serving certificated airlines which are not purchased or acquired or taken over as herein provided by such Authority, shall have the power to operate the same under the existing laws or as the same may hereafter be amended. Any such Authority when created may be granted the power and authority to promulgate, adopt and enforce appropriate zoning regulations to protect the airport from

hazards and obstructions which would interfere with the use of the airport and its facilities for landing and take-off; provided, however, the county or counties may be added to an existing Authority if a petition of five per cent (5%) of the qualified taxing voters is filed with and an election is called by the Commissioners Court of the county or counties seeking admission to an Authority; and the vote is favorable, then admission may be granted to such county or counties by the Board of Directors of the then existing Authority upon such terms and conditions as they may agree upon and evidenced by a resolution approved by two-thirds (2/3rds) of the then existing Board of Directors, provided, however, the county or counties that may be so added to the then existing Authority shall be given representation on the Board of Directors by adding additional directors in proportion to the population according to the last preceding Federal Census."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed thereon the following:

"FOR the addition of Section 12 of Article IX of the Constitution, authorizing the Legislature to provide by law for the creation, establishment, maintenance and operation of Airport Authorities composed of one or more counties, and authorizing the levy of a tax not to exceed Seventy-Five Cents (75c) on the One Hundred Dollars (\$100) valuation of all taxable property within such Airport Authority except the property of state regulated common carriers required by law to pay a tax upon intangible assets, after approval of its voters."

"AGAINST the addition of Section 12 of Article IX of the Constitution, authorizing the Legislature to provide by law for the creation, establishment, maintenance and operation of Airport Authorities composed of one or more counties, and authorizing the levy of a tax not to exceed Seventy-Five Cents (75c) on the One Hundred Dollars (\$100) valuation of all taxable property within such Airport Authority except the property of state regulated common carriers required by law to pay a tax upon intangible assets, after approval of its voters."

Sec. 3. The Governor of Texas shall issue the necessary proclamation for the election, and this Amendment shall be published in the manner and for the length of time as required by the constitution and laws of this state.

SIGNS OF PROGRESS — Removal of a neon cross framing entranceway at St. Thomas Episcopal Church on Harrison Highway has changed the looks of the building. Stained glass will be placed in the ceiling-to-floor frame now installed. Construction is nearing completion on the remodeling and expansion program at the church. (Staff Photo)

TCU SCIENTIST

Cuba Might Be Part Of Continent

FORT WORTH, (U)—A Texas Christian University scientist spent his summer leave in the jungles of Central America this year looking for clues that might show two major Caribbean islands once were one land mass.

The islands are Cuba and the island occupied by Haiti and the Dominican Republic.

The question behind the research of Dr. Jack L. Walper is whether there was, 60 million years ago, a lateral, or sideways, movement of the earth in that area. The clue is in Guatemala and nearby nations.

The islands are directly on an east-west line of a major earth fault—or slippage—in Central America, a line which shows that long ago the earth moved at least 10,000 feet vertically.

A question is: Was there also a lateral movement in this break in the earth's crust. There is some speculation to that effect. One geologist thinks the earth may have moved to the side as much as 375 miles along

the break line. If this happened, and if the fault extends eastward to the Caribbean, it could mean that the fault tore off the Cuba-Haiti-Dominican tip and shoved Cuba to the east, making it an island of its own.

Dr. Walper, associate professor of geology at Texas Christian University, is not sure there was any lateral movement. His view is that no one has done sufficient study to prove any theory, and that was the reason for his Central American trip. He was in the area 10 years ago for a mining company. At the same time, he was making a geologic map of an uncharted 350-square-mile area as part of his doctor of philosophy degree from the University of Texas.

He thus became one of the first scientists to study the fault, and he named it the Polochic Fault because it lies in the valley of the Polochic River. Although he discovered the fault, time ran out before he

could determine whether lateral movement took place at the time—about 60 million years ago.

A fault is easy for a geologist to pinpoint. Movement to the side is not as easy to pin down. Edward Heuer, a paleontologist and an associate TCU professor, was a part of the scientific party to see if he could match up any features.

Scars on rocks show the direction of movement.

Villages are few in the area, and most inhabitants are descendants of the Mayan Indians who built some of America's great cities long before the white man arrived.

"More knowledge about the fault could cast more information about the entire face of this part of the world," Dr. Walper said before leaving.

It could also lead, he said, to better understanding of the entire face of the world. The effect of the Guatemalan disturbance could help support or attack the theory of continental drift, an idea that all continents were once part of one or two giant land masses that broke up and rearranged themselves over the globe.

Amateur golfers, John Miller and Robert Murphy qualified for the 1967 U. S. Open by shooting 290 and 293, respectively, in this year's event in San Francisco.

No Gov't Checks Written Till Certifications Signed

Farm Reports Must Be In September 1

Government checks to farmers as part of agriculture programs cannot be issued to those participating in Federal programs until farmers report to the ASCS office their acreage figures, says Faust Collier, office manager.

September 1 is the final date for reporting feed grain, cotton and diverted acreage, Collier reported.

AT LUBBOCK Water Board Sets Final Hearing For September

AUSTIN—A Texas Water Development Board hearing team will return to Lubbock on Sept. 9, to receive testimony on the Texas Water Plan as it affects West Texas, Joe G. Moore, Jr., executive director of the Texas Water Development Board reports.

(See story on Amarillo hearing, page 1)

The hearing will begin at 9:30 a.m. in the Lubbock City Auditorium on the Texas Tech campus.

The Lubbock hearing will bring to a close the series of public hearings on the Texas Water Plan that began in the High Plains city in mid-June, and continued through the summer in all sections of Texas.

The Sept. 9 hearing will follow generally the format that has been used in all basin hearings this summer; however, there will not be a review by staff members of the Texas Water Plan in order to permit more time for testimony. Moore will open the hearing with some general remarks, then the board will begin receiving testimony.

Moore said persons desiring to testify should present written statements of their testimony to the Board so they may be made a part of the official record. "This, however, will not preclude hearing anyone who desires to speak from notes or extemporaneously," he said.

The hearing will cover the High Plains, the Trans-Pecos, and West Texas, Moore said.

Failure to report by Sept. 1 will have serious consequences to participating farmers, who will forfeit all program payments if they do not report figures before the deadline. Advance payments made by the ASCS office also would have to be paid back to the government.

Government checks written for farmers up to this point have been negligible, Collier said. The checks have been made to wheat farmers only.

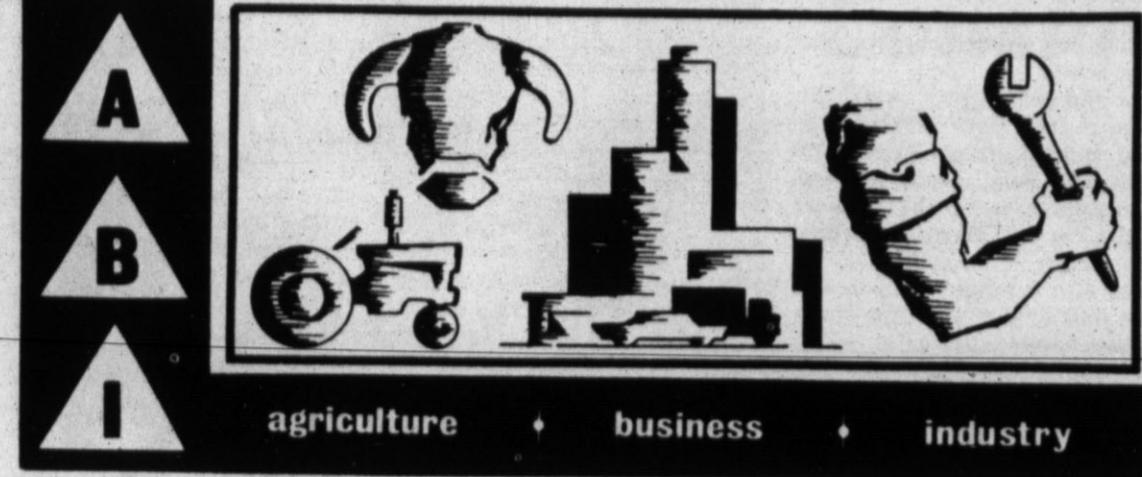

Checks cannot possibly be mailed before the middle of September, he said. Spot checks are made after deadlines are reached, or as soon as 90 per cent of all reports are in. Spot checks See CHECKS Page 2

Open House Set For Fertilizer Firm Saturday

Summerfield Fertilizer, opening new offices in its \$75,000 facilities on Holly Road, will celebrate its completion with an open house Saturday from 9 a.m. until 3 p.m.

A drawing at 3 o'clock will highlight the open house event, with prizes to include a shotgun, electric toothbrush set, and lawn fertilizer.

The Hereford office will headquarter the company's three other locations, at Westway, Summerfield, and north of Hereford. Rex Lee and Bobby Owen, owners, have been conducting business at the new office for about two months, but finishing touches on the building have only been completed recently.

SECTION TWO HEREFORD, TEXAS 79045, THURSDAY, AUGUST 25, 1966

FOR JAP DICKERSON Carpentry: Year-Round Occupation

Rain or shine, Jap Dickerson plies his trade. Building is his specialty but diversification keeps him busy through all kinds of weather, winter or summer.

A self-employed carpenter, J. W. Dickerson Jr. plans jobs so that he will have indoor work waiting for bad weather.

Building has been heavy in Hereford the past few years. Dickerson says that 1963, 1964 and the first part of 1965 seemed heavier.

Prospects seem good for his industry, he says. "It's leveling off and that is better," he commented.

Dickerson is primarily interested in residential construction. At times he employs several carpenters to help him. At other times, he contracts the labor for a home or he might contract the entire job.

Jap, as he is known in the town where he grew up, prefers cabinet making. He started training with Scotty Buckner in a planing mill located on east Second street.

He had worked with his father some in the Wyche community. Neighbors asked for cabinet work, additions to homes, etc. and Jap and his father worked together.

Jap was in World War II, serving in the Air Force from 1941-46 as a flight engineer.

He came back to Hereford to help his father, who was in failing health. He worked the family farm south of Hereford for several years and then became involved in his first love—carpentry.

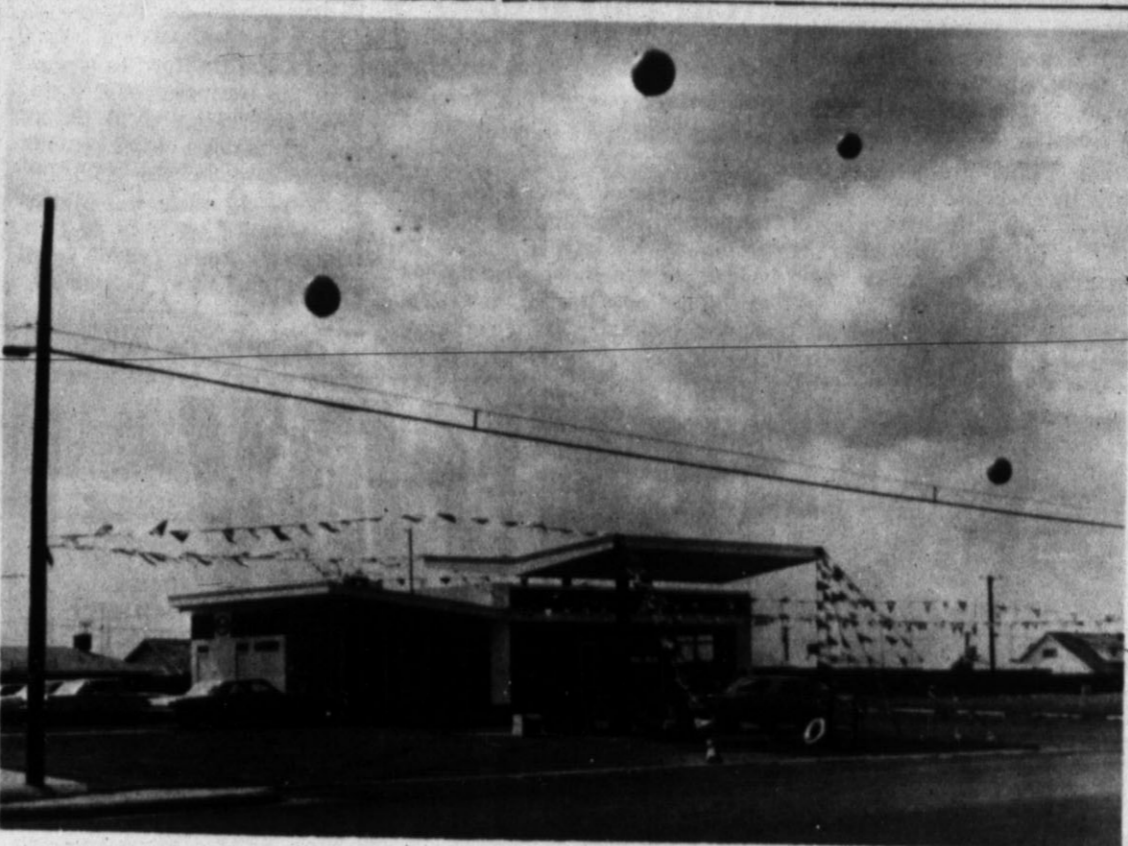

A fondness for good tools has led to quite a collection of hand tools, both power and manual. James Neal, 15, Jap's son, has

learned to use some of these tools and constructed bookcases this summer.

Dickerson likes Hereford and married a Hereford girl, Doris Campbell. They live at 519 Ave. K and have a son and a daughter, Lynda Kay, 11.

He is fire chief of the Hereford Volunteer Fire Department. He has held that post three years. On call day or night, he said that he can't remember when he hasn't been a fireman. Before becoming chief, he served as a fireman for 14 years.

GRIFFIN NAMED TO ACCOUNT INSTITUTE

NEW YORK—A. T. Griffin, CPA of Hereford, has been elected a member of the American Institute of Certified Public Accountants.

Griffin is associated with the accounting firm of Brown, Graham & Glover.

TECH RESEARCH

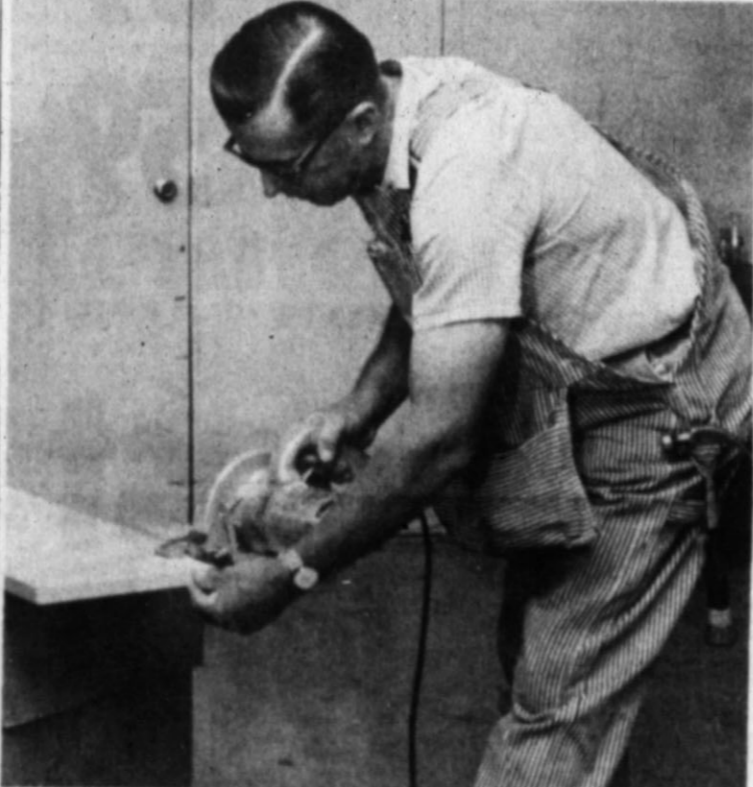

Waste Disposal Is Studied By Feeders

FORT WORTH—Lloyd Bergsma, director of the cattle feeders division of the Texas and Southwestern Cattle Raisers Association, has announced that the cattle feeders have completed arrangements to begin a research program in animal waste disposal.

"With increased urbanization in the state, the possibility of air and water pollution problems related to cattle feeding operations is increasing," he said.

Recent sessions of the State Legislature approved legislation regulating air and water pollution by all industries. "Although we do not feel that the cattle feeding industry is a serious contributor to either air or water pollution in the state, we must accept the responsibility of providing our industry with adequate information regarding pollution control to prevent our industry from becoming involved in serious problems," Bergsma stated.

See WASTE Page 2

INSIDE WHILE IT RAINS — Jap Dickerson has found carpentry to be no "fair weather" job. He plans his work so that there's always an inside job to be done when rains keep him from outside duties. (Staff Photo)

Tourist Promotional Dollars Pay Off Handsomely In Texas

AUSTIN—The story of "Vacationland Texas" World of Difference" will be told with increased forcefulness as the Texas Tourist Development Agency begins its fourth year of operation September 1.

Supporting the program will be an advertising promotion budget of \$200,000.

Projects for which the funds will be used include an expanded travel advertising schedule, the state's first participation in national travel shows and its first representation by a national travel agency.

The TTDA program began September 1, 1963, as a result of Governor John Connally's request of the 58th Legislature for the state's first appropriation for travel advertising and promotion.

Return on the state's investment during calendar 1965 averaged \$100 for each \$1 put into the program. That year, an estimated 17 million visitors paid \$72 million in direct state taxes. In addition, they are estimated to have spent another \$906 million while in Texas.

Increased numbers of ads in

Automobile Club of Southern California.

Magazines that have performed well for the state in the past, back on the schedule this year, are Look, Reader's Digest, Field & Stream, Outdoor Life and Popular Photography.

Newspapers which will be used, primarily for a late winter "escape the slush" campaign, will be the Chicago Tribune, Kansas City Star and St. Louis Post-Dispatch. Also on the schedule is the Spanish-language publication, Hablamos, a Sunday newspaper supplement widely circulated throughout Mexico.

Each of the ads invites the reader to request a package of travel information published by the Texas Highway Department. During the past two and one-half years that the state has been advertising its tourist wares tens of thousands of requests for the literature have been filled.

Additional queries about Vacationland Texas are expected to be generated by the state's first travel show exhibited. The 20-foot display, now being built, will capsule the diverse attractions that await visitor to Texas.

Texas who staff the exhibit will answer questions about the state and distribute travel literature.

Cities in which the state will exhibit include Chicago, Kansas City, Los Angeles, Milwaukee, St. Louis and Toronto, site of the Canadian National Exposition. It is estimated that five million prospective Texas visitors will see the state exhibit at the six shows.

Professional personnel at 11 of the nationwide offices of the Ask Mr. Foster Travel Service will also begin dispensing Texas travel literature.

See TOURIST Page 2

AT SAN ANTONIO — Mr. and Mrs. Roy Simpson, Mr. and Mrs. Leo Forrest, Mr. and Mrs. Tom Draper (in back) and Mr. and Mrs. Eldred Brown attended the 26th annual membership meeting of Texas Electric Cooperatives, Inc., in San Antonio last week. The Hereford people were among 785 rural electric members who registered for the three-day meeting.

 on acreage figures are taken on about 25 per cent of the reports picked at random.
 Letters to some 450 farmers—about half those participating in federal programs—have been sent out by the Agriculture Stabilization and Conservation Service this week, urging those signed up for the programs to certify their acreage figures.
 Subsidy checks for Deaf Smith County farmers last year added up to about \$7 million. This figure included the wheat, feed

grain, sugar beet, soil bank and cotton programs.
 Feed grains has the biggest amount of money involved because of yields even though it is only the second highest number of farms in the program.
 Wheat farms included in the program number 1,009, feed grains, 962, cotton 446. Soil bank has 293.
 The programs often overlap each other, with many of the same farms participating under more than one of the programs.

 el material and answering questions about the state Sept. 1. The offices include those in Chicago, Cleveland, Detroit, (two), Grand Rapids, Minneapolis, St. Louis and its suburb, Jennings, New Orleans, Dallas and Houston.
 Other TTDA promotional activities in the new year include purchase and distribution of 25,000 sets of Texas Parade magazine's current 12-part "Traveling Texas" series.
 Also, the number of illustrated feature stories written by the

Austin Hodges New Enco Agent Near Sugarland

Austin Hodges, local resident and former owner of a Texaco service station in Hereford, has recently opened an Enco station on U. S. Hwy. 385 near Sugarland Mall.
 The new service station is located at the intersection of 385 with Moreman Avenue.
 Hodges opened the station July 24. He is the independent agent, but has Dean Crofford as a partner in the business.
 "We are equipped to do all types of service work except major overhauls," he said.
 Hodges will have the station open from 8 a.m. until 10 p.m. He formerly was a Texaco agent at Miles and First Streets.

TTDA's year-old news & features bureau will be stepped up appreciably. Recipients of the periodic service include some 400 of the nation's leading newspaper and magazine travel editors, and free lance travel writers.

Carpentry...

(Continued from Page 1)
 Intent on keeping busy, he is assistant scout master, institutional representative, merit badge counselor and head of the emergency service corps of the Boy Scouts.
 In this emergency work, he helps to train boys to assist firemen and this frees firemen for front line duty. Scouts worked with Dickerson at the Hacker-Jesko Packing House fire early this spring.
 He also teaches the four and five-year-olds at the First Methodist Church.

NO PHILATELIST — Interest in stamp collecting is not a hobby for Brother Chris of St. Joseph's Mission, here licking some of the hundreds of trading stamps he has gathered in his one-man campaign to amass enough of the little gummed trading bonuses to buy a new 66-seat bus to transport children of the mission's school. Three thousand books are needed and the first 500 books were collected by July 14, before the lay brother left on a vacation visit to relatives and friends in New York, other eastern cities and Chicago. He was not hesitant in asking for stamp contributions during the trip, and returned with 60 books. Meanwhile, residents of this area had dropped stamps into boxes Brother Chris has set up in banks and loan company lobbies here. He asks for any variety of trading stamps, in books or loose, for his goal of replacing the badly worn mission bus.

ESSAYS BY OLIVER LAFARGE

Like many who have read Oliver LaFarge, a writer of merit we remember only one of his books, *Laughing Boy*. When he wrote *Laughing Boy* he enjoyed writing it and he believed it had a message. He could not understand why the City of Amarillo removed it from the school library. This fact he denounces in his new book. *Laughing Boy* was written when he was quite young and is not his own favorite. He could never understand why some of his other work was not received with more acclaim. A friend Winifred Townley Scott edits and writes the introduction to a collection of LaFarge's latest book entitled "The Man With the Calahash Pipe." Much of these writings or essays are ironic. They appeared in the Santa Fe newspaper, *The New Mexican* in form of columns. These form the first part of the book. In it you will find many things

LEADER

CHARLES BELL, JR.

... receives a Southwestern Life salute for earning two of the highest honors in life insurance:

- Texas Leaders Round Table membership, 1966
- National Quality Award, 1966

These honors have been awarded in recognition of his top achievement in life-underwriting and excellence in service to his policyowners.

Our congratulations to Charles Bell, Jr. — Your Southwestern Life Agent... your friend for life.

Southwestern Life
127 N. 3rd. 364-2343

of interest about Santa Fe, old and new. The razing of old landmarks which LaFarge fought against, the inconsistencies of the city, state and federal government officials and the people of New Mexico.

Part Two will be of great interest to those who love words, language, and writing. He has much advice and examples for those interested in these subjects.

For those seeking information about Indians of the Southwest, especially of this area and New Mexico—past and present—part three will give insights. These are brief and to the point. His chapters which deal with the character of Horned Husband Kachina Chief are very amusing.

In the last division, *Farrago*, various subjects are discussed, both humorous and serious. The book contains so much on so many subjects from Lilacs and Holly Trees to Rhode Island Chowder, that it is not easily reviewed. It needs to be read. But we liked best the chapters listed under the heading "The Man With the Calahash Pipe." This man was a bachelor philosopher with whom LaFarge exchanged banter and smart repartee.

Corinne J. Neely

DEER

West Texas Wild Life Count Shows Population Up

MARFA-Pre-season deer population estimates west of the Pecos indicate a possible net gain of approximately 9,000 head over 1965, says, Tom Hailey, Trans-Pecos project leader for the Texas Parks and Wildlife Department.

Hailey reports that deer population figures released in August before complete census efforts are finished are preliminary estimates.

Timely rainfall in many Trans Pecos counties is credited with bringing about the increase in deer numbers which normally total 200,000 head in the nine county regulatory area.

Population estimates by county are as follows: Brewster, 54,000; Culberson, 23,000; El Paso, 2,000; Jeff Davis; 25,000; Hudspeth, 22,000; Presidio, 34,000; Reeves, 6,000; and Terrell 15,000.

Brewster and Reeves Counties showed the highest percentage increase with an eight percent gain while the tri-county area of El Paso, Hudspeth and Culberson showed a 2-3 per cent decrease in total population.

The 1966 Trans-Pecos deer season extends from the last Saturday of November for 16 consecutive days.

MAGAZINES MERGE

WASHINGTON (AP) — A 10-year-old American fortnightly, "Christianity Today," has merged with a century-old British weekly, "The Christian." Each will have access to editorial content of the other, under terms of the merger.

REP. ROGERS WRITES

Restraint Of Congress Considered An Assault

Dear Fellow Texan:

The Judiciary can correct improper actions of the Legislature for such is the proper role of the Judiciary in our tripartite system of Government. But to restrain a committee of Congress from meeting at all, from taking any action, is an outrageous assault upon the Congress, the people's branch, and upon the very structure of our Federal system.

Yet, this was the action threatened when a Federal judge in Washington granted a temporary restraining order against a hearing set by the House Committee on Un-American Activities to uncover the persons and their motives involved in "overt acts" against the U. S. war effort in Viet Nam. The injunction was thrown out by a three-judge appeal panel just in time for the hearing to begin, thus averting for the time being a certain showdown with Congress as to the proper roles of the two branches.

I hope you believe as I do, that your conviction is as strong as mine, that the Congress of the United States is the cornerstone branch of our governmental system. Those who serve in the Congress are the direct representatives of the people of this country, and an attack upon the exercise of Congressional functions assails the people themselves. The separation of powers of the Legislative, Executive, and Judicial branches of the Government is delicate and subtle; many of us believe that the Constitutional power of Congress have been repeatedly infringed by other two branches

and we have repeatedly battled against these intrusions. No threatened assault, however, has been as blatantly aimed at the heart of Congress' right to act as was the ill-advised (and promptly set aside) ruling by the Federal judge in the instance of the hearing scheduled by the House Committee on Un-American Activities.

In 1867, Chief Justice Chase wrote these words in the Supreme Court decision in *State of Mississippi v. Johnson*, turning aside an application for an injunction to forbid President Andrew Johnson from enforcing the Reconstruction Acts: "The Congress is the legislative department of the government; the President is the executive department. Neither can be restrained in its action by the judicial department; through the acts of both, when performed, are, in proper cases, subject to its cognizance." After they are performed, then the acts of the President and Congress are in proper cases subject to judicial review and disallowance. The separation of powers set forth

by Chief Justice Chase has never been denied by a subsequent court decision. It is important to note that while the courts do not have the power to curb—before the fact—the actions of the President or Congress, the courts do have the power to nullify their actions. Congress, as the body representing the people and their wishes, should be empowered to overturn a decision of the Supreme Court it finds to be against the interests of the people. In this Congress, as in past Congresses, I have introduced an amendment to the Constitution to accomplish this end, to permit the House and Senate, by two-thirds votes, to nullify decisions of the Supreme Court. The courts have the power of nullification and

Mrs. Easter Briggs spent Friday night in Olton with her sister Mrs. Flay Langley. She brought Mrs. Langley home with her for a visit.

Mr. and Mrs. Pat Maupin Jr. of Santa Rosa, N. M., spent Saturday night with Mr. and Mrs. Earl Brown and boys.

Mr. and Mrs. Marvin Tucker of Portales visited with Mrs. Millie Maupin Saturday night.

Mr. A. M. Chapman and Mrs. Gary Grogan of Amarillo visited with the Joe Brownlee family Tuesday.

Mr. and Mrs. A. D. Lewis and family enjoyed the weekend at Ute Lake near Logan, N. M.

Mr. and Mrs. Terry Creitz and Stacy of Earth, were Monday night supper guests of Mr. and Mrs. Loren Creitz and Melanie.

Craig and Christene Allen of Amarillo are spending the week with their grandparents the E.

E. Allens. Sunday visitors in the E. E. Allen home were Mr. and Mrs. Gene Webb of Amarillo and Mr. and Mrs. Lge Webb of Lubbock.

Mrs. Butch Boydston and Mrs. Glen Boydston enjoyed dinner with Mr. and Mrs. Jerold Horrell and family Saturday in Amarillo.

The E. B. Pounds and the Neil Pounds of Earth met at the Western Skies in Vega, Sunday for dinner. The E. B. Pounds brought Beth and Britt home with them for a longer visit.

The Tuck Monk Sr. of Melrose, New Mexico spent Friday night

Dessert For Dieters

Lime Snow is a fluffy gelatine dessert that is absolute perfection for dieters—and a refreshing sweet for those who don't have to watch calories. What's more, it's so easy to make thanks to the quick-gel method. This way of preparing Lime Snow calls for four basic ingredients: unflavored gelatine, frozen limeade concentrate, egg whites and ice water. When you use the serving consistency as directed, the snow quickly reaches serving consistency. Getting in trim shape for warm weather wardrobes will be easy when Lime Snow is the finale to lunch or dinner. For other low-calorie recipes, you can order a new leaflet, "Delicious Dishes for Dieters," from Suite 1100, Dept. SH, 551 Fifth Ave., New York, N.Y. 10017.

Lime Snow
2 envelopes unflavored gelatine
1 cup cold water
1 can (6 ounces) frozen limeade concentrate, thawed
Non-nutritive sweetener equivalent to 1/2 cup sugar
1/2 cup ice water
3 egg whites
Green food coloring

Sprinkle gelatin over water in saucepan. Place over low heat; stir constantly until gelatin dissolves, about 3 minutes. Remove from heat; add concentrate and stir until melted. Add non-nutritive sweetener and ice water. Chill until slightly thicker than consistency of unbeaten egg white. Combine with egg whites in large bowl; beat on high speed of electric mixer until mixture begins to hold its shape, or beat with rotary beater until light and fluffy, about 7 minutes. Add few drops of green food coloring. Turn into 8-cup serving bowl, or into individual serving dishes. Chill until firm.
YIELD: 8 servings, 64 calories each.

Millie Maupin of Adrian.

Tinana Rogers of Lubbock is visiting her grandparents the Herman Siffords while her parents are on vacation.

Garre Reed (18) son of Mrs. Billy Lee Johnson of Canyon, Neal Thrasher (19) were shot in Amarillo Saturday. Both Reed and Thrasher are in the St. Anthony's Hospital in critical condition. Garre attended the Adrian School from 1961 to 1963.

Mr. and Mrs. Loren Creitz, Mr. and Mrs. Don Morgan and Jess Fincher attended a Lions District 271 Picnic and Bar-B-Que in Palo Duro Canyon State Park Sunday night. They later attended "Texas".

Mr. and Mrs. Lee Amason of Amarillo spent the weekend with Mr. and Mrs. Jack Fincher and family.

Mr. and Mrs. P. N. Johnson, Sue Gilliam, and Diana attended the Golden Spread Coon Hunt at Cliffside in Amarillo Sunday bringing trophies home with them.

Mr. and Mrs. D. P. Doherty attended a Pool-Brown family reunion at the Mansfield Memorial Hall of Mansfield Friday through Sunday. The speaker for the occasion was Christie Pool of Algeria, Africa. He has been a missionary for 35 years in Africa and is in the United States on furlough. There were around 83 relatives attending from all over the United States.

Miss Rita Speed, 17, was requested by the Vega Jaycees at the Oldham County Roundup to serve as Oldham County Queen for this year. Rita was second runner-up in the contest last year. She is the daughter of Mrs. Francis Speed and the granddaughter of the Joe Speeds of Adrian. Rita is a junior in school, church, F.H.A. and J.H.A. She is also Adrain Lions Club Sweetheart.

Mrs. Geneva Glass was in Wil-lamsburg, New Mexico over the weekend visiting Mr. and Mrs. Jeff Fields and children bringing her daughter Mary, home. She had been visiting there.

Mr. and Mrs. Austin Gamble were dinner guest Sunday of Mr. and Mrs. Frank Dominae and children in Amarillo.

Mr. and Mrs. Chock Garrison and children, Patty Fortenberry and Chris Burns left Saturday for the mountain area around Las Vegas and Santa Fe, N. M. and will return Wednesday.

Kenneth Hicks visited in Hereford Monday with his grandfather, John Hicks, and Mr. and Mrs. Ed Hicks. He also visited with his grandparents, Mr. and Mrs. Earl Head in Umbarger.

Mrs. Cal Jackson and Kenneth Hicks visited in Tulsa with Mr. and Mrs. John Carter.

Mrs. Cal Jackson and Kenneth Hicks, Harry Tillman and Mrs. John Carter visited in Miami with Mr. and Mrs. I. D. Hulvey and Mr. and Mrs. John Ray Ehey and family.

OLD PARISHES

NEW YORK (AP) — In the United States, there are 152 Lutheran churches which are more than 200 years old, according to a count by the research department of the National Lutheran Council.

Of the 200, 95 are in Pennsylvania, 17 in New York, 13 in Maryland, 9 in Virginia, 8 in South Carolina, 5 in North Carolina, 3 in New Jersey and 2 in Georgia.

BACK TO SCHOOL!

The Adrian Public School System has announced that due to remodeling, classes will begin Sept. 5 instead of Aug. 29. There will be a teachers meeting on Sept. 2 at the school.

Also due to the fact that the curriculum is enlarging classes will begin at 8:35 a.m. with the school day lengthened. Dismissal time has not yet been set.

The Adrian Cheerleaders had a Car-Wash Monday at the home of Gay Brothers.

Mr. and Mrs. F. W. Waldrop and Eva Waldrop of Dennison visited Monday through Wednesday with the Loren Creitz family. They took Mrs. G. S. Elliot and Wayne Waldrop home with them.

Aaron and Jeanne Parker of Happy, visited their grandmother Mrs. Imogene Parker last week.

Mr. and Mrs. Jake Fortenberry request the honor of your presence at the marriage of their daughter Coralie to Mr. Walter W. (Speck) Cox on Saturday, September 3, at eight o'clock in the evening in the Adrian Church of Christ. Reception following the ceremony at home.

The Maupin family reunion was held Sunday at the Tollie Shubert home. Attending were Mrs. and Mmes: J. B. Maup-

The Hereford Brand, Hereford, Texas, Thurs., Aug. 25, 1966

Lodge, Assembly Meet Jointly

Hereford Oddfellows and Rebekahs will attend a fund raising supper in Amarillo, August 27. Proceeds will be used to finance the I.O.O.F. Grand Lodge and Rebekah Assembly

to be held in Amarillo, March, 1967. This is the first assembly scheduled for this part of Texas in many years and the local group is urged to support the dinner. Adult plates are \$1.25. The Hereford Patriarch Militant Canton and Auxiliary met at the I.O.O.F. Temple August 19 for a covered dish dinner. After the dinner, a joint meet-

ing was held with Captain Floyd Houston and President Lady Mae Smith presiding. Those attending the meeting of the Canton were: chivaliers; Floyd Houston, Ben Conklin, Sam Smith, Albert Cherry, Guy Lawrence, Arnold Gross, Archie Love, John Gooch and Arthur Rogers. Members of the Auxiliary attending were: Ladies: Mae

Smith, Leona Love, Helen Cherry, Anna Conklin, Bessie Lawrence, Annie Mae Houston, Ruth Rogers, Lydia Hopson, Alta Davis and Ada Hollabaugh.

By July 1, 1966, U. S. motorists had paid an estimated \$100 billion in state and federal motor fuel taxes since the first levy was enacted in 1919.

College News About Students From This Area

DENTON.—Darwin Carl Miller of Hereford is among 44 graduate students who have applied for master's degrees at North Texas State University.

Summer commencement exercises are scheduled for 8 p.m. Aug. 24 at Fouts Field. There are 612 candidates for the bachelor's degree and 14 for the doctor's degree. Miller, son of Mr. and Mrs. D. C. Miller, 110 Fuller, Hereford, is seeking the master of education degree in secondary education.

ABILENE—Two 1962 graduates of Hereford High School are candidates for the bachelor of science degree at Abilene Christian College. They are Judy Fowlkes, who resides with Mr. and Mrs. Glenn E. Breeding, Midwest City, Okla.; and Les McGee, son of Mr. and Mrs. Ernest L. McGee, Route Four. A social science major, Miss

Fowlkes is a member of Gata Social Club; Kappa Delta Pi, an honorary education organization; and Phi Delta Theta. McGee is an economics major. Commencement exercises are scheduled for 8 p.m., Aug. 26 in the College Church of Christ.

Speaking of YOUR HEALTH...

By LESTER L. COLEMAN, M.D.

Hopeful News In Medicine

SUFFERERS from rheumatoid arthritis are being given welcome relief with a new but effective drug, indomethacin. Reports of studies from many hospitals and clinics in America are encouraging and seem to suggest that the drug will be included in the standard treatment of this type of arthritis.

The drug seems to alleviate pain, lower fever and reduce the inflammation of the joints in rheumatoid arthritis. Indomethacin is not a steroid. Yet it produces favorable effects and frequently spares the need for large doses of cortisone. This is particularly important since the side-effects of large doses of cortisone can be distressing.

Dr. W. D. Paul, of the University of Iowa, says, "Indomethacin, a new, non-steroid, anti-rheumatic agent is a safe and effective drug in the management of rheumatoid arthritis." Like many other drugs this new one must be used with discretion and according to a physician's advice. Like aspirin, another effective drug for this type of arthritis, indomethacin may affect the lining of the stomach in patients who have ulcers.

Dr. Paul says, "When used wisely, this drug is an exciting ally in the physician's war against rheumatoid arthritis, one of the nation's leading crippling diseases."

Plastic surgery for prisoners is playing a vital role in their

return to social responsibility. Physical, emotional and social rehabilitation is the goal of the new programs in penitentiaries in the United States and Canada.

Gratifying changes in the personality of inmates are readily noted within weeks after plastic surgery. The physical and emotional "rebirth" seems to affect the inmate's cooperation with authorities. Difficult, hostile and aggressive prisoners were found to be more readily approachable after surgery.

Dr. Edward Lewison of Vancouver has performed many plastic operations at the Oakalla Prison in British Columbia. Studies on these prisoners indicate a marked drop in second offenders after successful surgery. The success of plastic surgery is changing the outlook and widening the horizon of hope of many prisoners.

SPEAKING OF YOUR HEALTH—An adult's fear is easily transmitted to a child. Fears planted by parents can blossom on nutritious soil of childhood sensitivity. The fears instilled unwittingly in children become full-grown neuroses in adolescence and in adult life. Parents must provide a climate of security if children are to be spared some of the penalties of fear.

These columns are designed to relieve your fears about health through a better understanding of your mind and body. All the hopeful new advances in medicine reported here are known to doctors everywhere. Your individual medical problems should be handled by your own doctor. He knows you best.

Magdalena Cantu Engaged

September Date Told

Mr. and Mrs. Ernesto Cantu of Edinburg announce the approaching marriage of their daughter, Magdalena, to Jesie Guerrero, son of Mr. and Mrs. Jesus Guerrero. The wedding has been set for September 11 at 10 a.m. and will be held at St. Joseph's Catholic Church. The wedding dinner will be at St. Anthony's cafeteria and the dance will be held at the G. I. Forum. The couple will reside in Hereford.

INTERNATIONAL MOSAIC

FLEET, England — A 19-foot-high mosaic, originally intended for an Ethiopian cathedral but rejected because it was judged too Western in style, is being adapted to fit the new Roman Catholic Church of Our Lady at Fleet in Hampshire.

The mosaic, depicting the Madonna and Child, had been designed for Addis Ababa by Dr. J. Bajo, a Hungarian artist living in England.

Halfway Extends Invitation To Gov't Agencies

The governmental agricultural services have been invited to display materials and charts of their activities in the conference room of the Kilgore Building at the Tenth Annual Field Day of the High Plains Research Foundation on Thursday, September 8, says, Bedford Forrest, head of education and public relations.

Displays of the running water draw project and other exhibits will be presented by the Soil Conservation Service board and staff. The noxious weed control program in Hale, Floyd and Swisher counties will be on display by officials of that program.

The home demonstration activities in Hale County will be displayed and explained by the home demonstration personnel and representatives of home demonstration clubs in the county. Activities of the county agents

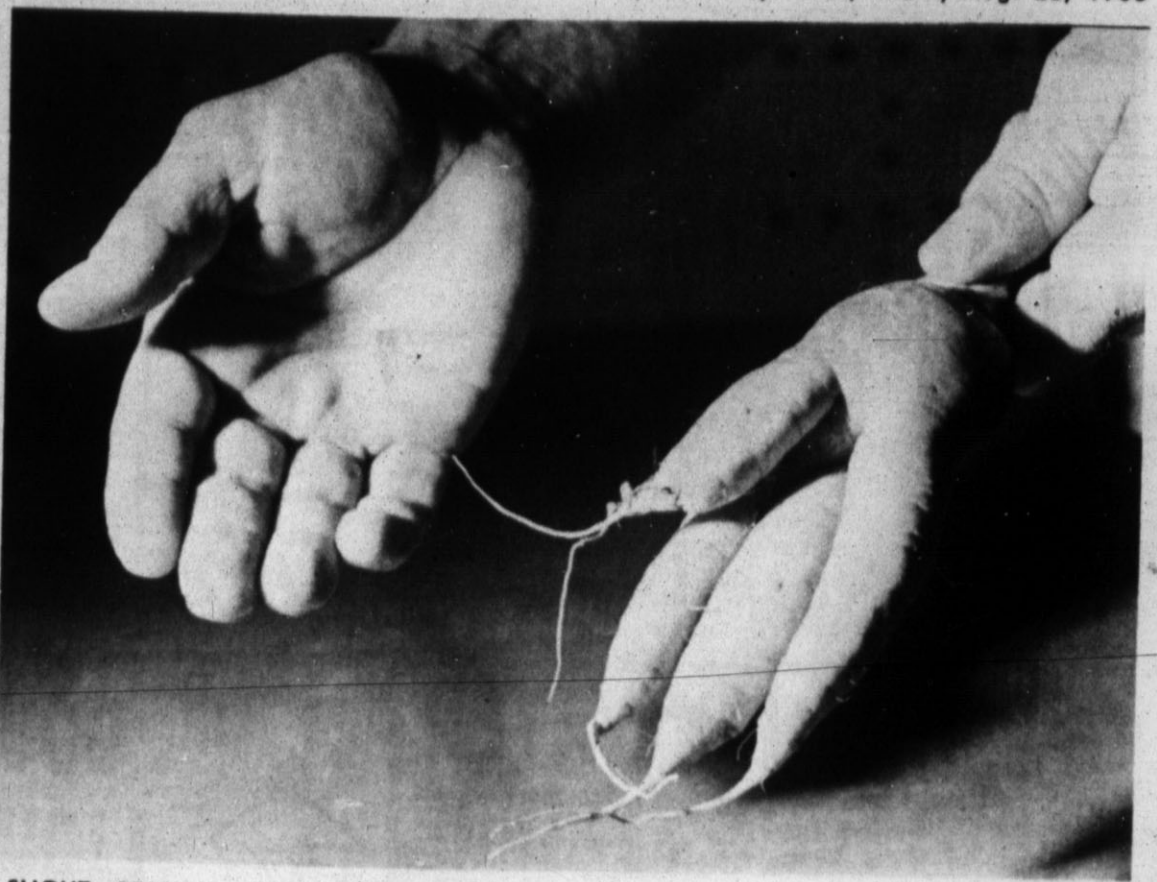

service and 4H club programs will be included in the display for the first time this year.

Visitors to the Kilgore Building and Laboratory will be welcomed and shown through the building by members of the Board of Trustees. Olan Alexander, board member, is chairman of the host committee for this tour on Field Day.

INTERFAITH TEMPLE

GREENWICH, Conn. — Rabbi Samuel M. Silver, of Stamford, Conn., has been elected vice president of the Temple of Understanding Inc., an organization working for construction near Washington of an international center for interfaith exchanges among the world's major religions — Christianity, Judaism, Buddhism, Islam, Hinduism and Confucianism.

Tony Lema failed to break par in the 1966 U. S. Open at Olympic in San Francisco yet tied for fourth place. He was only six over par for the four rounds.

SLIGHT RESEMBLANCE? — This Danvers carrot, grown by M. J. Layman in his small garden on 25 Mile Ave., bears some resemblance to a human hand. Layman said that he had several other odd looking carrots in his garden. (Staff Photo)

Glad's Garden

By Gladys Howton Maxwell

Tuesday is MAINTENANCE DAY.

"Those garden and flower seed planted in the spring must have come up sturdy and strong," writes a friend, "because so many aggressive weeds have come up to squelch them. I would have pulled the weeds, but in this summer heat my wife ran out of energy to make me do it."

Yes it is difficult to keep up a program of good maintenance, and a trim look during the extreme warm weather, but a real gardener should not become a shoddy gardener.

During the month of August many weeds and grasses reach maturity ragweed and others begin to pollinate, therefore we should wage WAR on them. They are detrimental, unsightly, and take moisture and nutrition from the growing plants.

If you watered thoroughly on Monday, then the weeds and grasses will pull easily on Tuesday. Pulling is better than hoeing, because plants can be bruised, small ones cut up, and mistakes made. Another benefit is, it gives women gardeners stooping and bending exercises, and that means a trimmer figure, as well as a trimmer garden.

An unkempt garden is very unattractive. It is hard for lovely flowers to compete against weed and grass filled flower beds. Their beauty is dimmed and hidden. Fight those pesky weeds, not only gardeners but all property owners and business men. Weeds are ugly, and denote a lack of civic interest and pride. Customers often go to a more attractive and well kept place to shop.

A lawn is an important feature to our homes. Well kept lawns contribute much to a more beautiful city, one in which we can be justly proud. Some of the enemies to our lawns are weeds, crab grass and dandelions. To aid in the control of dandelions, first we must be consistent in fighting them. One of the means

suggested is a 24 D herbicide. An Aersol type can be convenient to use and very effective when properly used.

Crab grass can be eradicated by the use of potassium cyanate preparations, if used according to directions. While Chloradane was created as an insecticide, it has been found to give excellent results in killing crab grass. In either, be sure and use according to DIRECTIONS. Neighbor cooperation is highly effective and desirable.

For the hardy soul, if you have the patience and strength pull the crab grass up, roots and all. Crab grass, that is, not dandelions. Love's labor is lost in attempting to pull or cut dandelions. During the summer months mow high. Weeds and crab grass are retarded by mowing. Lawns of blue grass are sometimes ruined by close mowing of the grass. Leave clippings for food and organic matter, unless they smother or shade the growing grass.

After mowing the lawns be sure and trim all edges neatly. That TRIM LOOK is a real asset, and puts the finished look to the landscape. The right tools and equipment help enormously.

Another attention in maintenance is the removal of faded flowers. To do this, one should have a comfortable, sharp pruner or clipper, with a clean sharp cut on the rose canes, and other flower stems. There is a twofold purpose in this, namely: flowers are more attractive and blooming is prolonged. If blooms are left on the plants, many of them will seed so if this is not desired, the dead or faded flower heads should be removed.

If you do want to save seed then remove the seed pods, dry and keep for another year's planting. Care should be exercised in this however. There is an exception, it is the perennial phlox, if they are allowed to form seed they will revert to the old magenta color.

No matter where one's gardening tastes and preferences fall, neatness and well maintained grounds and gardens, certainly has reached a point, where it is now very chic to be for Conservation and Beautification. I might add that it is also patriotic, idealistic, intensely practical, and in keeping with National Council of Garden Club practices.

REMINERS: 1. Select bulbs for fall planting, so you will have spring blooms.

NO PATIENCE? — Who said children don't have patience? How many adults would be willing to sit for hours waiting for a "bite" from a water-filled gutter? This fisherman

found his "lake" right in his own front yard. He is David Nolan, son of Mr. and Mrs. C. D. Adams, 110 Ave. D. (Staff Photo)

Ricketts Moves, Takes Associate

133 W. 3rd. Old clients won't find him there now—they'll have to go to the opposite side of Main Street—110 E. 3rd to find the land office.

Ricketts, who has been in the real estate business in Hereford for 41 years will be joined by

Harold Morton. Morton has been in real estate for about five years.

Ricketts will continue handling farm and ranch property and Morton will specialize in city property. The firm will continue to make Kansas City Life In-

FIVE STATES Cattle Numbers Increase In Feed Lot Operations

Texas Crop and Livestock Reporting Service says that on July 1, in the five leading cattle feeding states—Texas, Arizona, California, Colorado and Nebraska—there were 3,428,000 cattle and calves on feed, compared to 3,005,000 July 1 a year ago.

The 1966 figure is 114 per cent of what it was a year ago. The number of cattle and calves placed on feed in the five states during July, 1966, was 516,000, compared to 577,000 a year ago.

The 1966 July placement in the five states was 89 per cent of what it was a year ago.

Cattle and calves marketed during July, 1966, in the five states were 658,000, as compared to 582,000 a year ago. This figure represents a 113 per cent increase over the 1965 July total.

Total cattle and calves on feed in the five states on Aug. 1, 1966 was 3,288,000 head, compared to 3,000,000 on the same date a year ago.

In Texas there were 511,000 head of cattle and calves on feed for slaughter market on Aug. 1, 1966. This is 32 per cent above the 1965 figure but about the same as a month ago.

Wax museums have become major attractions in dozens of cities in the United States.

Insurance Company loans on farm and ranch land.

News About Area Men On Duty

FORT RUCKER, ALA. (AHTNC) — Private Donald A. Hestand, 20, son of Mr. and Mrs. Charlie A. Hestand, 1190 W. Estes, Dimmitt, completed an aircraft maintenance course at the Army Aviation School, Fort Rucker, Ala., Aug. 17.

During the five-week course, he was trained in the repair and maintenance of Army helicopters and airplanes. He also learned the fundamentals of Army airfields operations.

Pvt. Hestand, whose wife, Janis, lives at 105 E. Halsell, Dimmitt, entered on active duty last April and completed basic training at Fort Bliss, Tex.

A report in "Business Trends" shows that federal, state and local governments added nearly a half million workers to the payroll in 1965. These agencies now employ approximately 10.5 million people, a 65 per cent increase over 1955.

HEREFORD IS A GREAT PLACE TO LIVE!

WELCOME TEACHERS

Sure Hereford is a great place to live. We know you're going to like it, and as you move in and get settled, let us take a minute of your time to say WELCOME TEACHERS, to Hereford, Texas, the greatest little town in the state. We're happy that you have chosen Hereford to make your home. We hope you'll be a permanent resident.

Meanwhile, whatever your needs in banking, let the folks at the HEREFORD STATE BANK — the friendly bank — take care of your banking needs.

HEREFORD STATE Bank

NEW RANK EARNED — Lloyd H. Manjeot, left, son of Mr. and Mrs. Arthur L. Manjeot, 303 Westhaven Dr., receives new rank insignia upon his promotion to Lt. Colonel at Fort Lee, Va., July 20. Col. Francis Ford of the Combat Developments Command in Virginia pins on the new silver oak leaves.

Former Hereford Man Gets Rank Of Lieutenant Colonel

Lloyd H. Manjeot, son of the Arthur L. Manjeots recently received new rank insignia upon promotion to Lt. Colonel in the United States Armed Forces. A quartermaster supply officer in the U. S. Army Combat Developments Command Supply Agency, he entered on active duty in July 1961, after graduating from Texas Agricultural and Mechanical University with a B.B.A. degree.

Manjeot was sent to Korea for 14 months and upon returning, attended Alabama University and obtained his Master's degree. He was then sent to Germany for 3 years, West Point 4 years, then 8 months in Virginia for special training, which prepared him for Viet Nam duty. Manjeot spent 1 year in Viet Nam, receiving an air medal for helicopter flying, which he did on week-ends in addition to filling his official position as quartermaster supply officer. After returning to the States, he was stationed at Ft. Leavenworth, Kan.

Manjeot completed General Command School a year ago in June and has had some special studies in Washington. He has won several medals including: Bronze Star, Infantry Combat Badge, Combat Ribbon and Medalion, President's Ribbon, and Silver Star.

A graduate of Hereford High School in 1945, Manjeot lettered in both football and basketball, was president of the Student Council, and active in Tri-Hi-Y. He was listed in Who's Who his Jr. and Sr. years at Texas A&M.

Manjeot is presently visiting with his parents before going to Okinawa. He and his wife, Rosemarie, have two children Beverly Gayle and Lloyd, Jr. He was last stationed at Fort Lee, Va. Manjeot is making the military his career.

New Hunting, Fishing Permits To Be Issued

AUSTIN—Replacements for the old hunting and fishing license that are invalid after August 31, have been distributed by the Texas Parks and Wildlife Department to approximately 2,500 dealers in all 245 Texas counties well in advance of the deadline.

A spokesman for the department pointed out that persons hunting or fishing beginning September 1 should have the new licenses.

But until that time the law requires all participating in either sport to have a license on their person.

The department points out that recent year efforts to expedite distribution of the licenses in advance of the new fiscal year have worked out so well that an even earlier shipment schedule was adopted this year.

A spokesman credited the news media, particularly the growing number of regular outdoor writers, for contributing to the accommodation of license buyers by publicizing details. Cooperation of the hundreds of dealers naturally has been a major factor.

Individual fishing licenses cost \$2.15 for both residents and non-residents. Resident hunting licenses are \$3.15. Non resident hunting licenses cost \$25.00.

There is a five-day non-resident license for hunting migratory game birds, costing \$5.00. This applies to the white-winged dove hunt, September 3-5 and September 9-11 that attracts many out of staters.

Basically, persons 17 years of age and under 65 need the regular Texas resident licenses.

CLEAN CATHEDRAL

LONDON — The cleaning of St. Paul's Cathedral, which started in May 1964, is expected to be finished by June. The leadwork of the cupola and the gilded ball and cross atop Sir Christopher Wren's famous dome are now getting the finishing touches. The ball and cross were added by Andrew Niblett, a copper-smith, in 1708. Cost of cleaning the cathedral is expected to be within the 150,000 pounds (\$420,000) raised by public appeal for doing the job.

Jimmy Raye, a 170-pounder from Fayetteville, N. C., is in line to be Michigan State's No. 1 quarterback next fall. He's a sophomore.

HemisFair Builds Exhibitor List

SAN ANTONIO — HemisFair 1968, a World's Fair opening in San Antonio on April 6, 1968, is on schedule with construction well underway and major exhibitors being signed up almost weekly.

James M. Gaines, executive vice president of the international exposition, said that HemisFair is ahead of the schedule maintained by the Seattle World's Fair at a comparable point of time before it opened in 1962.

Gaines said that HemisFair now has 15 announced participants. Among the governments who will have exhibits at the Fair will be the State of Texas, Mexico, Spain, Switzerland, Peru, Bolivia, Panama and Canada.

Private Exhibitors include the Pearl Brewing Co., General Electric Co., Coca-Cola Co., Humble Oil and Refining Co., Southwestern Bell Telephone Co., International Business Machines, Inc., and Pepsi Co., Inc.

Several other foreign nations and giant industrial firms have indicated they will participate and will make their official announcement in the near future.

HemisFair officials are currently planning for a visit of delegates of the Bureau of International Expositions. Member of the 32-nation organization are scheduled to be in San Antonio for three days starting on Sept. 15. The purpose of the visit is to acquaint them with the plans and progress of HemisFair in order to secure European participation in the exposition.

FOR GOD SO LOVED THE WORLD

DESpondent

— life savings are gone. Physical comfort for these two, during old age, went out with the trash can. Disillusionment reigns here. These harried, cross, impatient faces reveal the pang of personal loss. It would be well for this household, as well as yours, to realize how futile things of the world really are compared to the things of God. When crisis like this tear at your very soul, — when your nerves are worn from daily reversals, — when tragedy all but overwhelms you, — do you ever stop to experience the Comfort of Divine Presence? Try going to church for a cure. You'll take on a different outlook. Money, and lands, and oil wells will pass away but the things of God are Eternal.

These Hereford Business Firms Make This Page Possible in the Interest of a Christian Community. Go to Church Sunday.

HIGHLIGHTS AT AUSTIN

Labor Day Traffic Death Estimated

AUSTIN.—Department of Public Safety estimates that 41 persons will die in traffic accidents on Texas highways during the upcoming three-day Labor Day weekend.

"The current traffic trend indicates that Texas is headed for its third straight record high in terms of fatal accidents," says Col. Homer Garrison Jr., DPS director. "At the present time, we are approximately 15 percent ahead of the same time in 1965, and we are still faced with the four months of the year which generally produce the most deaths."

Garrison points out that: "More people are killed in Texas each year in traffic than are killed in all the United States by murder, and the deaths are just as senseless, as needless and as tragic, but not nearly as well publicized."

He analyzed the reasons citizens have failed to take positive action in traffic safety: "Psychologists say that one reason is a lack of personal identification with the problem. I might behave each driver in our state to stop and consider that he has less than a 50-50 chance to go through his driving career without being involved in a traffic mishap."

In an attempt to cut back on the number of accidents and deaths during the Labor Day weekend, the DPS will conduct its "Operation Motorcade." Approximately 150 uniformed officers from other DPS services will be on the road to supplement the Highway Patrol. To call public attention to the problem, each traffic death will be tabulated and the totals will be announced three times daily in Austin.

Texas Highway Department, Texas Safety Association, Texas Council of Safety Supervisors and Texas Motor Transportation Association are joining forces to help the DPS.

ELECTION SYSTEM UPHELD
Seventh Court of Civil Appeals

at Amarillo upheld the Texas "closed primary" election system, holding that members of one party cannot vote in the primary of another.

Court reversed the district court ruling that would have permitted to stand 71 votes of Republicans in the second Democratic primary for a Pampa judge.

State Democratic Executive Committee had filed a brief urging the court to uphold the closed primary system.

AG OPINIONS
State higher education student loan funds not immediately needed to meet loan applications can be invested in direct obligations of U. S. agencies which are not unconditionally guaranteed by the government, Atty. Gen. Waggoner Carr has held. Investment is within discretion of Coordinating Board, Texas College and University system.

In other opinions, Carr has concluded that:
A Texas Ranger can execute a writ of commitment for contempt in child custody cases on direction of judge of court of record.

Money erroneously deposited in State Treasury cannot be withdrawn except in pursuance of specific appropriations made by law.

A peace officer must accept cash bond tendered by a defendant in lieu of signature of sureties if he is authorized to take a bail bond.

Harrison County may not legally reimburse county jail prisoners for money and other property belonging to them which was taken from custody of the sheriff by escaping prisoners.

FUTURE PARKS
State Parks and Wildlife Commission next month will officially review proposals to purchase more than 100,000 acres of land by the year 2000.

Preference reportedly would be shown to parks connected with water recreation, those near big city areas, and sites of

statewide significance, including historic sites.

Gov. John Connally has given his strong backing to a massive parks-acquisition program. At one time, he indicated he was thinking in terms of recommending a \$25-\$50,000,000 expenditure. Plan evolving undoubtedly will be the largest in history — to provide more room to romp for recreation-minded Texans.

COLLEGE BONDS
Texas colleges slowly are selling their building bonds authorized by the constitutional amendment raising the ad valorem tax to 10 cents-per-\$100-valuation. But there's still \$18,710,000 worth to go.

Issue started at \$33,420,000. At end of the regular bid-taking, Texas Tech and the University of Houston sold their \$7,000,000 worth. Then, as a result of an exclusive option given a New York syndicate, four more schools—Texas Southern, Texas Woman's, Lamar State and Pan American—sold their bonds, a total of \$7,710,000.

College officials now are going out on their own to sell the remaining \$18,710,000 worth of bonds. It's hoped that local backers will buy them, so the colleges can proceed with construction to meet the mounting demands of college enrollments. Problem is that interest is held to 4 percent, which is below present market.

SHORT SNORTS
Governor Connally approved applications for \$893,881 in grants under Federal Elementary and Secondary Education Act of 1965 for pilot programs relating to supplementary learning centers for talented elementary and secondary pupils.

A three-year U. S. Public Health Service grant of \$267,734 has been presented to the Texas Department of Health for the control of leprosy—which is on the increase in the state.

Governor Connally announced more than \$2,000,000 in Neighborhood Youth Corps grants for San Saba, Cherokee, Harris, Limestone, Taylor and Eastland Counties; Burk Burnett and San Angelo; Southwest Texas State College and West Texas State University.

Texas Parks and Wildlife Department has announced that Garner State Park is back in operation, despite record high water from the Frio River that

damaged a few shelters. Forty-one cases of paralytic polio among pre-school and infant children (none of whom were fully immunized) have been reported to the Department of Health to date.

Governor Connally appointed John L. Paxton of Fort Worth as chairman of the state in German and French languages, in addition to the English and Spanish versions, to be distributed at U. S. Travel Service offices, international travel agents, and steamship-air lines.

Marine Mike Moore

News About Area Men On Duty

Marine Mike Moore completed boot training at San Diego, August 5. He has entered school in Pendleton where he will remain until the last of September. Moore entered the service May 30. He was a 1966 graduate of Hereford High School. He is the son of Mr. and Mrs. Jake Moore, Hereford.

Director of "Kids Inc." Speaks To Local Rotarians

Featured speaker at the Rotary Club luncheon Monday was Earl Smith, director of "Kids Incorporated" in Amarillo. Smith grew up in Hereford, graduating from high school at Cal Farley's Boys Ranch, and was later graduated from Texas A & M. He taught and coached three years in New Mexico, taught two years in Friona, and taught in Hereford one year.

Smith told the Rotarians about the operations of "Kids Inc." which has become a large, complete youth program for boys and girls from 6 to 18. Last year 9500 Amarillo youth were reached through Kids Inc. and 6500 kids participated in the recent softball and baseball program. There will be 1400 volunteer workers for 1966 in addition to those young people participating in Kids Inc.

Smith said that 9500 young people enlisted in a worthwhile project sounded good, but he expressed concern for the remainder of the more than 20,000 young people in Amarillo. It is these young people who need to find an interest in life and get involved in something like Kids Inc., he said. He believes that Kids Inc. should strive to reach the "bottom" youngster in Amarillo. By this, Smith said that he means that child that everyone has lost genuine interest in; the one who isn't good in football or baseball and hasn't any interest in anyone or anything. This type child probably would not join Kids Inc. or any like organization because he has no interest in what is offered.

The program must be so large inclusive that it saturates the entire city and absorbs even the lonely boy or girl. It is then that one must show the desire, love and patience necessary to direct healthy interest in an otherwise purposeless life, Smith said.

Smith believes that society must begin to make a few "square holes" for the youth who are not of the ordinary round mold. He believes that everyone shouldn't be expected to fill the same mold, but that separate molds should be made for individual needs. This is what Kids Inc. is trying to do, just as Cal Farley's Boys Ranch is also trying to help youth in a very similar way.

Smith emphasized that each community will have a few youngsters that don't fit in the round mold and that society must not force them into an ill-fitting mold. He pointed out the fact that many good organizations discourage or prevent children from remaining in the club if they do not conduct themselves properly. This is fine except that a child who breaks windows, etc. and is sent home is being sent right back where he learned to do the mischief. Someone should strive to change his attitudes and outlook on life.

The Amarillo crime rate is extremely low, being in the bottom ten of the nation. The state Committee on Juvenile Crime has asked "Kids Inc." to appear before the committee, Smith says.

Smith says that he and several other Boys Ranch graduates who live in Amarillo hold Sunday School at the ranch each week. He still shares the problems and joys of the ranch, as he feels a kinship with all the boys who live there.
