67TH YEAR — NO. 22

## Seventy Fabulous Years 1898....1968

THE SEVENTIETH BIRTHDAY of Hereford, Texas will be September 1, 1968. The town grew and prospered, despite its hardships.

Many things have been written into its history, and to the Pioneers who persevered and weathered the storms of adversity, and shared the good time, our hats are off.

The 50th Anniversary was especially marked by the placing of a sealed metal chest, containing many items relative to the past history and some hopes for the future. It was buried on the Deaf Smith County Court House grounds.

When plans were in the making for the observation of Hereford's 70th Anniversary, it was the desire of the officers of The Mid-Plains Pioneer Association to make this year's annual meeting one to be remembered and cherished. What could be done to achieve this desire was the question? Because of the nature of the annual meeting, the idea of having a parade was ruled out. Since the primary object of the organization is the renewal of old friendships, and visitation, it was decided to make the observation brief.

To commemorate this 70th anniversary the Mid-Plains Pioneer Association is presenting to Mayor Ray Cowsert, a flag for The City of Hereford. It will hereafter be known as The Flag of Hereford, Texas. Why a flag? What is a flag? "It is a piece of cloth or bunting usually oblong and bearing various devices and colors to designate a nation, a state, a city, or organization, etc. Is commonly attached to a staff or halyard as a standard, SYMBOL or signal."

It is our desire that Hereford's City Flag will be symbolic of all the aspirations, contributions, spirit, and other high ideals which have gone into the making of our home town...Hereford, Texas.

A contest was held, in which people were asked to send in designs for a Flag for Hereford. Many entries were received from old and young alike. A committee was appointed to select the design.

Mrs. Charles (Margaret Razor) Newell submitted the winning entry. Attached to her entry was these brief words:

Suggested colors, BLUE, be-

ing significant of the blue of Panhandle skies. MAROON for our cattle which the town is named for. WHITE denoting the GOOD people who live here. WHITE STAR, that we are a part of the grand state of Texas. WINDMILL, significant of the water, which has been so necessary and meaningful to the growth, prosperity and the real life stream of our town and county. Hereford was once called the Windmill Town, having over 400 windmills in it at one time.

Rena Rae Renfro, volunteered to make the flag. It has been beautifully fashioned together, and it is the hope that all who see it fly or pass by will have a sense of pride and gratitude for such a wonderful home town and great people.

## Hereford's "Problems" Are Listed By NAACP Worker

Aims of the NAACP (National Association for the Advancement of Colored People) and what a chapter could perhaps accomplish in Hereford was the topic of meeting Monday night in St. Anthony's School Auditorium.

Speaker for the meeting was Gillespie Wilson of Amarillo, an active member of the NAACP who described himself as "first, an American, and second, a Negro—and I'm proud of it." Wilson is an employee of the Department of Agriculture.

"Civil rights," stated Wilson, "has to do with the rights of human beings." Stressing that the NAACP is not devoted strictly to aiding the Negro, he pointed out that there are nearly one-half million members in the organization, with about 20 per cent of them not being Negro. In some individual chapters, 60 per cent of the members are white, he said.

Wilson explained that the NAACP was formed in 1909 following a bad riot. Pointing out that some persons say the organization doesn't have many members, Wilson said "it does not take very many people to get something done. I always quote them the saying 'From a little seed, big things grow.'"

Speaking of Hereford, Wilson said "nationwide you are known for problems with Latin Americans. These are the people we need to reach." After stating that there are only about 300 Negroes in Hereford, Wilson asked the audience to draw a comparison as to how many Negroes are school teachers, city employees, hospital employees or on the police force, and how many Latin Americans are in the same positions.

Housing, employment and education are problems of the three main ethnic groups today, Wilson continued. "We believe by any lawful means that we should help those unfortunates acquire equality."

Wilson added that "we realize that people all around you recognize that you have a problem."

### Summer Classes To Start Monday

Enrollment for summer classes at Hereford High School will be held Monday, with the first semester to last from Monday until June 28.

The second semester of the summer classes will be held from July 1 through July 26. Classes will be held from 7:45 a.m. until 12 p.m. Monday through Friday of each semester.

Tuition is \$20 each semester. Courses to be offered include Related Math, Algebra I, World History, American History and Government.

Any interested students are urged to be at the high school for enrollment Monday.

Before calling for questions from the floor, Wilson said he was not trying to pass himself off as an authority. "But I have been involved."

Asked about the poor people's march in Washington, Wilson said "it possibly is a healthy thing." He added, however, that "the civil rights organization is one involved in civil rights. The peace organizations and poverty program are separate organizations. I am a civil rights worker, but I am interested in the other organizations when they involve the rights of human beings."

In answer to a question about the number of different organizations and leaders in the country, Wilson stated "at least it's shown to America that all Negroes don't think the same." Concerning the threat of "black power" and rioting, he said "I don't believe 21 million people can scare 183 million."

Wilson, answering another question, said he hoped the Washington movement is a success. "Remember that the 'bonus marches' brought about the New Deal."

The speaker also stated that he felt the guaranteed minimum wage, although disliked by many persons, "would give a man a sense of dignity." Continuing, he said "something must be done about those underprivileged persons in America. This is what Rev. Ralph Abernathy is trying to do."

A white man in the audience explained to Wilson that many local residents had "lifted themselves up by the bootstraps" following the Dust Bowl days, and asked "if the Negro has ambition why can't he do this?"

"How many bankers would loan the Negro money to get started on?" asked Wilson. He described a personal experience

in which he was able to get backing to purchase a \$4200 car, but the bank would only loan him \$500 to make additions to his home. This happened, he said, when he was working for the government making over \$100 a week and his wife also was working.

"The lending institutions will prevent us from lifting ourselves up by the bootstraps. And speaking of the Dust Bowl, where did the people get the money to get started. The same old power structure is running the poverty program," declared Wilson.

One of the main problems today, said Wilson, is to educate the people. "You can't legislate love into a man's heart, but you can create laws which will develop love in time."

"Prejudice is the lack of knowledge," Wilson stated.

There was considerable discussion between Wilson and local farmers who said they have had difficulty in the past with the Latin American as a worker because they could not depend on him to do a good job and he would leave without notice. Wilson said the migratory worker usually doesn't have pride in his work since he usually doesn't stay long.

"To get the reliable help—a worker with pride in his work—the community must build a conducive attitude," Wilson said.

Purpose of the NAACP, Wilson stated in answering a question, is "the complete and thorough integration of the minority groups into the main stream." Wilson added that his purpose is "the improvement of the Negroes economic standards."

A Negro man in the audience described some of the things he had seen and experienced him-

self in his 60 years. He recalled seeing lynchings of Negroes ("now there's a different kind of lynching where two or three come to your house and attack you"), and spoke at length of the problems he had experienced in Hereford in buying land. He stated that in past Negroes could not even buy gasoline in Hereford, and Wilson added that there had been a sign on U.S. 60 which warned Negroes to stay out of town.

"People have woke up and it's better now," the elderly man said. "But you can't possess something without the opportunity," he added.

Continuing the discussion, Wilson said "I'm thinking that there's so much good that can come from this community without trouble. The bell is being tolled in this country, to a certain extent."

"Once a man is thoroughly accepted as a human being, all of these other things come matter of fact," Wilson stated.

Asked if the NAACP wants all of the problems solved by revolution or by natural process, Wilson said the organization realizes that it will take "due process," but let's not let it take forever.

"Black power with all of its connotations is just the opposite of white racism," he said in closing. "We want to see some definite progress with all deliberate speed—and no foot dragging."

It was pointed out to the audience, which numbered approximately 40, that only seven interested persons were needed to form a chapter of the NAACP in Hereford. Wilson said he would talk to anyone interested.

Wilson concluded the program by leading the group in the familiar civil rights song "We shall overcome." As he announced the song, one woman stated positively to herself "And soon."

### Summer Band Begins Monday

## Pioneers To Gather Today

Registration will begin at 9:30 this morning for the Mid-Plains Pioneers Celebration at the Deaf Smith County Bull Barn. Coffee and doughnuts will be served to the early arrivals.

President John Douglas Pitman will call the meeting to order at 10:30. The invocation will be given by Rev. Russell Wingert, pastor of the First Presbyterian Church of Hereford. Presentation of the colors will be conducted by the Boy Scouts of America. The welcome address will be delivered by Earnest Langley, president of the Deaf Smith County Chamber of Commerce.

The response will be given by Ed Ireland of Sweetwater. Ireland, son of former Mayor of Hereford and Mrs. Ed Ireland, is with the Unlaub Equipment and Supply Company, which handles heavy oilfield equipment. He originally moved to Hereford with his parents in 1920 and is a graduate of Hereford High School.

Clint Forby, manager of Radio Station KPAN, will announce the name of the Pioneer of the Year. This will be done following recognition of senior citizens and persons travelling to the Mid-Plains Pioneer Celebration the greatest distances, by John Pitman.

Following the reading of the minutes and treasurer's report by Cecil Boyer, the drawing of the three cash prizes will be made. Basket lunch will be served at noon.

Open House is scheduled at the Deaf Smith County Museum, beginning at 10 a. m. and continuing throughout the day.

Pioneers expected in record numbers today include those from Deaf Smith, Castro, Oldham, Randall, Farmer and Potter counties.

A full day of events — and surprises — are planned for each of them. Among them will be the first official exhibition of the City of Hereford flag, pictured on these pages.

## Circus To Be Here Monday

The Khiva Shrine Circus, originally scheduled here last month, will be in town for two big shows Monday.

Under the auspices of the Khiva Shrine Temple, the circus will present two performances — the first at 2 p. m. and the final one at 8 p. m. There are 42 exciting acts with the circus.

Proceeds raised in sale of tickets to the circus are used to offset costs of the Children's Clinic held annually in Hereford.

During the clinic, which was held May 18, children of all ages are given free medical examinations by specialists in every field.

Tickets which local residents had purchased for the first performance will still be good Monday.

## 159 Absentees Are In For Runoff

A total of 159 Deaf Smith County residents registered absentee votes by the deadline Tuesday for Saturday's runoff primary election. The total is believed to be a record for a runoff.

The voter selection for the Democratic runoff primary will be between four candidates vying for two offices. Preston Smith and Don Yarborough will be decided for the governor's race and Jack Hazelwood and James Joy for Associate Justice of the Court of Civil Appeals for the Seventh Judicial District.

The polling places are as follows:

Precinct 1: License Examiners Room, Court House.  
Precinct 2: Commissioners Courtroom, Court House.  
Precinct 3: J. E. McCathern residence, Westway.  
Precinct 4: Simms Community House.

### Red Cross Sets Annual Meeting

The Deaf Smith County Chapter of the American Red Cross will hold its annual dinner meeting Tuesday at the Hickory Log Restaurant with the purpose of electing officers and giving special recognition to those who contributed to the organization during the past year.

A guest speaker will be featured at the meeting which is set to begin at 8 p. m. following the buffet meal. Those planning to attend the meeting are asked to call the Red Cross office at 364-3761.

### BUSINESS TO CLOSE

Recognized as a national holiday, and locally as a Chamber of Commerce holiday, all Hereford businesses, with the exception of a few grocery stores and service stations, will be closed today for Memorial Day.

The brand offices will also be closed in recognition of Memorial Day, and residents are reminded of the deadlines for Sunday's paper. News deadline is 10 a.m. Saturday and advertising should be in by 5 p. m. Friday.

Precinct 5: Community Center, Hereford.

Precinct 6: Ford School House.

Precinct 7: Dawn School House.

Precinct 8: Bippus Community House.

Precinct 9: Palo Duro Church.

Precinct 10: Central School, Hereford.

The Republican candidates will not have a runoff election.

Preston Smith, who is now Lieutenant Governor and previously a state representative, is the owner of several motion picture theatres now being operated by the Video Independent circuit in Lubbock. Smith is indicated as being the Democratic conservative candidate.

Don Yarborough, a lawyer in Houston, is reported as being the liberal candidate.

The winner of this runoff election will face Paul Eggers, the Republican candidate for governor who is a lawyer at Wichita Falls.

Jack Hazelwood, a lifelong resident of Amarillo, is now practicing law in that city.

James Joy is now judge of the 64th Judicial District and lives at Plainview.

The winner here will have no Republican opposition in the general election.

The general election is set for November 5.

## Legion To Hand Out Flags For Graves Of Vets

A member of the Hereford American Legion Post 192 will be stationed at each cemetery here this morning with flags for the gravesites of veterans.

Families of Deaf Smith County's former servicemen now buried at these cemeteries may use these flags. It was announced by the post officials.

They urge all families of these servicemen to report for a flag. Post 192 has been in charge of erecting the flags on the city streets today, in honor of Memorial Day.

SPECIAL CEREMONIES — Four of the Deaf Smith County pioneers were photographed in 1948—on the 50th anniversary of Hereford—as they prepared to bury a time capsule on the courthouse square. The capsule contains mementos of Hereford in 1898 and will be opened in 1998. Carrying the capsule were, left to right, N. E. Gass, Bob Higgins, C. R. Smith and George Muse.

## Commission Views More Applications

The County Commissioners had a full day Monday studying applicants for tax consultant. Several were interviewed but no definite decision was reached upon any one person.

Orpha Click, the school tax assessor-collector, spent most of the morning with the commissioners and offered his assistance to any tax consultant they might hire in the future. Cooperation was also promised from the city tax office.

The Board of Equalization will meet on June 24 at 10 a. m. County Judge H. C. Wil-

liams said that all three of the local tax agencies will meet on that date together, as they did last year. "It is time-saving for the taxpayers we have learned," he said.

A total of \$3,000 was transferred from the ROW interest and sinking fund into the 1968 Road Bond Interest and Sinking Fund. However, this amount will be returned to the right-of-way fund by November 30, 1968.

County Agriculture Agent Justin McBride appeared before the court with Mrs. A. J. Bezner and Mrs. Tommy Goheen, representing the local 4-H Club Council. They explained that 16 local 4-H members have been winning contestants who are to travel to College Station soon.

The expense of the trip amounted to approximately \$540 and the 4-H had a little more than \$700 in the bank. However, there were other 4-H activities scheduled during the summer and additional money would be needed.

The county commissioners, who had aided 4-H on two previous occasions financially, unanimously agreed to help them again. The 4-H Council had asked for \$210 and that was the amount agreed upon Monday.

## Deadline Nears For UF Budget

The United Funds Budget and Commissions Committee urges all clubs and organizations for their participation and also announced that if they would like to become agencies of the United Fund, to do so quickly.

To become an agency of the United Fund, clubs should submit their budget outline and requests before June 1st. Requests and outlines should be sent to Box 467, Hereford.

St. Anthony's graduation class.

### St. Anthony's 8th Grade Holds Commencement Exercises Sunday

The eighth grade class of St. Anthony's School held their graduation services Sunday afternoon.

The students sang folk songs, accompanied by Philip Scumbato, during the mass celebrated by the Rev. John VanderKuil, S. A. At the Offertory, the class went up around the altar, and received Holy Communion while circling the altar. After the mass they were given their diplomas. They were presented white mum corsages and boutonnieres by the C Y O prior to the graduation services.

The graduates enjoyed a graduation party that evening in the home of one of their fellow classmates with Mr. and Mrs.

Ed Schilling as the hosts. Mr. and Mrs. Wern Koelser and Mr. and Mrs. Mark Koenig were also the parents present. The guests enjoyed refreshments and dancing throughout the evening.

There were 10 girls and 13 boys in the eighth grade class of 1968. Miss Sandy Fry was salutatorian and Miss Marian Betzen was the valedictorian for the graduating class.

The class enjoyed various activities the preceding week with an outing at Thompson Park in Amarillo, a breakfast given them by the seventh grade, then an afternoon service with many of the students from the school making up a living rosary.

### Small Talk

BY SUE COLEMAN  
Women's Editor

End of a vacation calls for all those clichés about its being a very satisfactory time if there were only enough of it, and good gracious how the work piles up while you're gone. Nothing is truer; consider them said.

This is one way of saying I've been on a vacation, to people who hadn't even missed me.

THERE WAS one unusual feature; it isn't often you get a chance to hear the vice president of the United States make a speech to a high school graduating class with 48 members. But that was possible at Doland, S. D. this year and because my cousin's son was a member of the class, I had a seat.

It happened—the speech arrangements, I mean—because Doland is the old home town of Hubert Humphrey, vice president and candidate for president. While he was making a tour with political intent, in that part of the country, he made the sentimental gesture of addressing the 48 graduates.

Of dozens of commencement speeches I've heard in this job over the years, this was the first one with a political tinge, although the candidate edged around politics neatly. His bragging on his home town and its young people really couldn't be blamed on politics; it was a natural thing for a returned native.

HIS REPUTATION as an interesting speaker is probably based on such graceful turns of

phrases as his remark that the familiar expression, "Home town boy makes good" might rather be rendered "Good home town makes boy".

His visit caused a lot of excitement in Doland and nearby towns. Seats for the commencement program were at a premium; all businesses closed during the hour; residents gaped at the caravan of cars and two big buses that brought the speaker to town.

And there were more television cameramen, I think, than graduates in the auditorium, not to mention the other newsmen and the secret service men who were obviously there. Maybe there were others who remained secret.

ENROUTE TO Buenos Aires to make their home, Mr. and Mrs. Samuel Hoover who have been living at San Gabriel, Calif. visited her mother, Mrs. Cora Johnson, 301 E. Sixth; her brother Clifford Johnson and his wife, this week.

They left Wednesday afternoon for Dallas, then plan to visit Hoovers relatives in Tennessee a couple of weeks before going on to Miami to leave for the Argentine city. Hoover is employed by Union Oil of California.

The couple previously lived 19 months in Canada on another company assignment. Both are graduates of Fablene Christian College. Mrs. Hoover, the former Elaine Johnson, spent her high school years in Anson.

A FAMILY GATHERING that was enjoyed by its members in spite of the sad occasion which inspired it, was held in the Bruce Plummer and Ben R Plummer homes here the past week. Relatives came to attend the funeral in Clovis last Thursday of the Bruce Plummer's son-in-law, Claude Francis.

Visitors here for varying lengths of time were Mrs. W. R. Manning of Washington, D. C.,

# Rebels Slaughter Umbarger, 10-3

Behind the combined pitching of Mike Ranspot and Alex Diaz, the Hereford Rebels kept their record perfect for the year as they downed the Umbarger team by a sweeping 10-3 score.

Scoring went dead for the next two complete innings but in the bottom of the fifth, the Rebels again took the initiative and added five runs to their score through three singles, one double, and two base-on-balls.

The first score of the game for the Umbarger team came in the top of the sixth frame on a series of base-on-balls permitted by the host team's pitching staff.

Starting time is set for 8:45 with admission being \$1.50 for ringside, and general admission being \$1.

Hospital on the east. This they did. The Memorial consisted of five evergreen trees, planted in a complete circle. One for each of the gallant men who had given their lives for their country. The trees grew and were attractive.

In due time when it became necessary, because of city expansion and the enlargement of the hospital grounds, it was decided to remove the trees which had become unattractive, through weather hazards.

MEMORIALS Have you complained about the winds which we have had this spring? Wondered WHY it has been blowing so much? According to botanists, the blustery winds of March are necessary for the development of plant life.

Truly nature has done its best to make a beautiful setting for the observation of Memorial Day, and for the annual meeting of The Mid-Plains Association. Red roses are a blaze of crimson glory, the delphiniums have lifted their stately spikes toward the blue sky, and the white roses are lovely and fragrant.

For a number of years I have been interested in compiling data relative to Memorials, Markets, and Special Plantings in Hereford. For this Memorial Day we have some information relative to these.

Memorial for World War I Fallen Heroes. Established in 1918

The United Daughters of the Confederacy, a very active organization, decided to establish a memorial honoring our fallen heroes. They decided on a living memorial, of plantings. The trees selected were evergreens. Since they owned the triangle plot located near 6th and Park Avenue, they planned to make the planting on their property.

The UDC after discussion decided to make the planting in the triangle plot which now joins The Deaf Smith County

Members of The Hereford UDCs, who assisted in this Memorial Planting were Mrs. Hattie Rutherford, chairman and Mesdames R. N. Mount, Matt Gilliland, J. B. Jones, E. B. Black, Jesse Stanford, and Fletcher Rodgers.

PEACE ROSE GARDEN MEMORIAL TO THE MEN WHO DIED IN WORLD I WHO ATTENDED HEREFORD SCHOOLS

In 1950, the Ralph McCulloughs moved back to Hereford from Amarillo, where they had resided for several years. Mrs. McCullough was elected president of The Hereford Garden Club. After the election, when plans were being made for projects she asked the club to support her in the establishment of a Memorial honoring the men of Hereford Schools, who had paid the supreme price for their

rate will have their doors open for public showing of their new offices. Troys Carmichael and G. S. "Mutt" Wheeler will both be on hand to greet the visitors.

Be sure to go by. Your presence will be appreciated. And it's all free.

Which reminds us of a story told recently by Rev. Clifford Trotter.

It seems this family was returning home from church one Sunday morning, when the daughter suddenly started criticizing the singing. "Just sure wasn't up to par this morning," she said. And the mother chimed in with a comment about the choir robes, and father decided suddenly that he didn't particularly appreciate the sermon that particular morning.

The younger son, taking in the conversation, capped it off however. "Well," he said, "it was a pretty good show for a quarter."

Don't forget the big Shrine Circus, coming Monday, June 3rd. There will be a Matinee performance beginning at 2 p. m. and another performance at 8 p. m., according to Charles Bell and Ray Simpson. The circus has been postponed once due to rain.

The local Kiwanis Club is now selling season tickets for the Summer Vacation Movies at the Star Theatre. The movies will be shown on Monday and Tuesday afternoons starting at 2:00 p. m. A ticket to the ten (10) movies will cost \$2.00. Profits from the ticket sales will be used to help furnish the new Campfire Girls hut. Tickets can be bought from any Kiwanian from now through June 10th.

All the movies have been approved for children, and we understand that Francis Hardwick has quite a lineup for the vacation season.

We've heard it said: Waiting for women to finish talking is like looking for the end of a roller towel.

country, in World War Two. The club voted unanimously to adopt the project. A location was selected, on the grounds at Hereford High School. Permission was secured to establish the MEMORIAL. The club started a fund to purchase materials and plants which would be needed. In keeping with a District One TGC project, sponsored by the Governor of the District, which was the planting of PEACE roses throughout the fifty four counties of the district.

The club selected The Peace Rose as the chief planting for the Garden. The garden was established in 1953. A program was presented, and the Peace Rose Garden was dedicated as a Memorial to our World War Two Fallen Heroes. A large group of people attended, and many of the gold star mothers were of the number and were recognized in the ceremony. A Black Metal Marker was added to the garden.

This has been a continuing project of The Hereford Garden Club. Recently it has been re-planted, accenting the color scheme of red, white and blue. A flag pole was erected near the garden, and daily the flag flies over the lovely garden.

VETERANS' MEMORIALS Probably the largest Memorial is Veteran's Memorial Park. The entry is designated with an attractive rustic sign. As one enters and drives around the circle drive, their attention is called at once to the Brick Memorial Marker which was erected in 1956. On the front the following inscription is cut.

"IN MEMORY OF THOSE WHO GAVE VETERANS O FALL WARS. There are no plantings near the marker, but there is a most effective natural background. Large beautiful trees, the flag pole with our FLAG flying, seemingly to the etched in movement in front of the trees, near by there are garlands of Red Blaze roses. I viewed this at eventide, and it was so very impressive.

A MEMORIAL OF YELLOW ROSES This sweet garden of choice yellow roses was planted in memory of Sharon Roberson, daughter of Sheriff and Mrs. Edward Roberson. The rose garden is directly in front of The First Christian Church entry, and is predominately of yellow roses (Gold-locks). Yellow was chosen because it was Sharon's favorite color. Their golden beauty reflects the happy gay life of the lovely girl, who had shed so much sunshine in

DO. Plant chrysanthemums now. They can be divided and planted as late as July. In transplanting, pinch the tops at least two or three inches, and trim off lower leaves so that none will touch the soil. This often causes diseases. By MELVIN YOUNG It's all over but the shouting. Saturday's run-off election will name the Democratic candidate for Governor of Texas, and chances are, the primary winner will be the man in Austin for the next two years.

Smith, the West Texan from Lubbock, may have problems winning unless we have a big voter turn-out.

The Oregon primary, won by Eugene McCarthy, has been called a "scaback but not a disaster" for Bobby Kennedy, who wants to be president more than any human being we've heard of.

# PRESTON SMITH FOR GOVERNOR

**VOTE SATURDAY JUNE 1**

**TO: The Citizens and Voters of Texas FROM: Preston Smith, Candidate for Governor**

I am proud to have been a part of Texas government for 18 years. Opponents may harp about what is wrong in Texas; I happen to think there are a lot of things RIGHT in Texas. I am proud of my state and its people.

Things can be even better, and I want to work with you in that direction. It's more or less in the political tradition to lambast your opponent and say a lot of ugly and cutting things about him. I don't want to engage in personalities; my opponent has no public record to criticize. Therefore I am running for Governor on my own merits.

It may be pretty ambitious for a farm-born, farm-raised Texas boy, who worked his way through Texas Tech and spent his adult years in business activities in Lubbock, to aspire to be Governor. You will be the judges as to whether my experience and proven qualifications entitle me to be elected. I will accept your judgment with real gratitude for your past support and friendship.

Please remember that if I am elected, my door will always be open to any Texan who has any problem whatever that the Governor can help with. I will always be interested in good government. I will always be interested in you.

### Atrazine 80W Is Registered For Broadleaf Weed Control

The USDA has registered the use of Atrazine 80W with oil for post-emergence broadleaf weed control in sorghum in the Southwest, Geigy Agricultural Chemicals, Division of Geigy Chemical Corporation, has announced.

The new label clears the use of Atrazine and oil for either ground or air application in Texas, Oklahoma and New Mexico. The use of an emulsifiable oil labeled for use with Atrazine is required. It should contain at least one per cent suitable emulsifier.

If the mixture is to be applied with ground equipment, the label calls for a broadcast rate of 1 1/2 pounds of Atrazine and one gallon of oil in 20 to 40 gallons of water. The application should be made when sorghum is 6 to 10 inches high and before broadleaf weeds reach 6 inches in height.

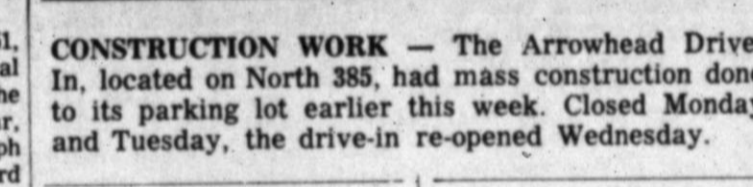

For aerial application, broadcast 1 1/2 pounds of Atrazine and one-half gallon of oil in no less than 5 gallons of water per acre when sorghum is 6 to 10 inches high, and before broadleaf weeds reach 6 inches in height.

Extensive testing over the past several years has shown that the addition of oil to Atrazine in water sprays can speed the activity of Atrazine and provide quicker kill of annual broadleaf weeds. Improper use of oil can seriously damage sorghum. To minimize this possibility label directions and precautions should be followed.

The new Atrazine label warns that the Atrazine-oil mixture should not be combined with any other herbicide, insecticide, liquid fertilizer or other materials, as sorghum injury or incompatibility of materials may result. Further, only one application of the mixture should be made per season. Heavy rains immediately following application tend to result in excessive concentrations of herbicide in seed furrow depressions, resulting in possible crop injury. Therefore, applications to furrow-planted sorghum should not be made until furrows are leveled. Deep planter marks or seed furrows should also be leveled before application.

Do not graze or feed treated forage for 21 days following application.

The Angels are members of the Methodist Church. Angel is a member of the Hereford Optimist club. Their son, Joe, 17, plays in the Whiteface band, and Methodist Bell Choir.

The Angels say they play to stay right where they are until the time comes to retire, unless, as Mrs. Angel put it, "We still feel like we are 21 and want to keep on going."

PRACTICING THEIR TRADE — Bill Angel gives a roll of negatives the professional eye in the darkroom of his studio on Park Avenue, while his

wife, Carmen, gets ready to snap the smiles of all who sits before her camera.

#### BY TYLER VANCE Staff Writer

Some 17 years ago, Bill and Carmen Angel were just two ordinary camera bugs. Mrs. Angel was a student at Wayland Baptist College in Plainview, and Bill had a wholesale candy and tobacco business.

Then something happened—things got out of hand. The neighbors suddenly wanted Mrs. Angel to take pictures of their children. The students at Wayland also wanted pictures taken. Overnight, the Angels were in the photography business. Fantastic? Maybe, but that's the way it happened, and today Bill and Carmen Angel have their own studio in Hereford. They are recognized as "outstanding photographers" in photographic circles.

No doubt, their business had a small beginning. "We started out with a 35mm camera and a \$13 developing closet in the nursery was the darkroom, and we washed our prints in the kitchen sink." The Angels call themselves the "original do-it-yourself" workers.

Their studio in Plainview was opened in 1952, and then in 1955, the family moved to Hereford. For a town that needed and could support a studio, said Mrs. Angel. "We drove through Hereford, and saw some of the ever seen—so we built here."

The Angels combined their studio and home in one building, so that the many hours of night work needed to keep a photography business going would not interfere with the home life of the family.

Success hasn't dampened the Angel's desire for learning new things. Since opening their studio here, they have attended several schools and seminars on photography, learning new methods and sharing new ideas with other photographers. Some of the sessions attended by the local pair include a course in oil coloring methods in Clinton, Oklahoma; National Photographers school at Winona Lake, Indiana, (the only professional photographers school in the United States) Also, Mrs. Angel studied oil coloring under Kay Isacson, nationally known for her oil color work. In June, the Angels will travel to Brownwood for a course in portrait framing.

The various professional exhibitions. Also, we have a trophy for the Best Color Print of the Show from the Southwestern Professional Photographers Assn. convention in 1965.

The Angels have earned the State of Texas Professional Photographers certificate. Angel is a past president of the Panhandle Professional Photographers Assn., and also a past director of the Texas Professional Photographers Assn.

Organization in which the Angels have membership include Professional Photographers Assn., American, Southwestern Photographers Assn., Panhandle Professional Photographers Assn., and the Rocky Mountain Professional Photographers Assn.

Mrs. Angel does most of the portrait work, while her husband does the commercial and darkroom work.

LOCAL PHOTOGRAPHERS — Two of Hereford's photographers, Bill and Carmen Angel, have had their studio at 301 Park Avenue since 1955. Although not planning a career in photography, it turned out that way—and they like it.

Ernest Flood, farming four miles west of Hereford, says there are more ways than one to solve an irrigation tailwater problem. His method of using tailwater on this farm is direct proof of this.

The farm is situated so that almost all of his rows are very flat. Quite sometime ago, Flood considered the problem of tailwater and the several possibilities of controlling it.

The conventional method of using a tailwater recovery pit with a pump and extra pipeline would have worked but would have caused extra expenses.

He then decided to make his irrigation system fit the water application needs of the land. This was done by using the old method of "cut-back head irrigation" and building berms on the end of his rows to back the water up the row. The land being flat, this provided a good method of soaking the end of the rows without pumping so much water.

The cut-back head method simply consists of starting the irrigation with a larger head of water down the row and after a few hours or about one-fourth of the irrigation time cutting the head of water back by about one-half. This gets the water a good start down the row and almost out to the end. Then the cut-back head holds the water

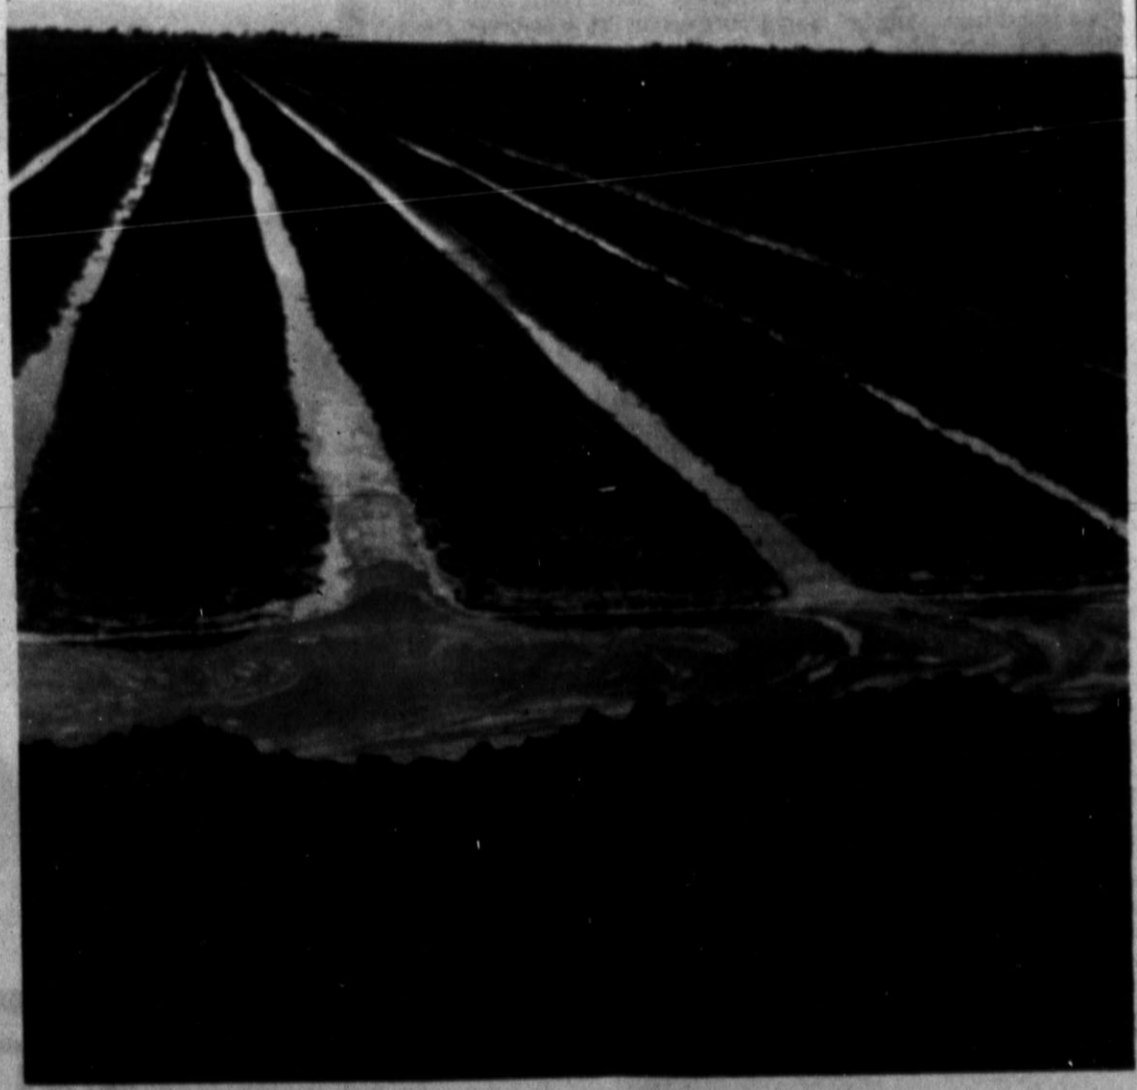

in the row at about the same rate it is penetrating the soil. This system in combination with the berm on the end of the row eliminates the tailwater on almost all of the crops.

When Flood grows potatoes he usually leaves 400 to 600 feet at the end of the row unplanted. This is because of the need to apply water to potatoes more often than most crops. The vacant row at the end allows him room to care for the extra water without losing it.

Ernest has taught three sons to irrigate this way and his oldest, Ernest Jr., is now using the same methods in his farming operation at Easter. Darrel is a sophomore at West Texas State University and Joe will be a freshman in Hereford High next year. He has two daughters, Mrs. Cathy Musser of Hereford and Grace Ann, a high school senior next year. With this family and a hired hand, Ernest is able to farm his 640 acres and a rented half section.

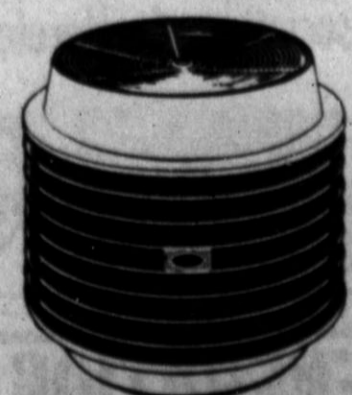

This type of irrigation and method of controlling tailwater may not fit every farm, but it will work on many of them. The proper control of the irrigation water is the key to this successful system.

It points out that every possible method should be considered in the control of irrigation tailwater.

CUT-BACK HEAD IRRIGATION — This method of cut-back head irrigation is being used on the Ernest Flood farm four miles west of Hereford. The cut-back head holds the water in

### Wheat Yields Should Be Par

Average yields are expected in the Hereford, Farwell and Dimmitt areas, with harvest to begin June 15, the Wheat Harvest Control Office of the Texas Employment Commission in Amarillo has reported.

The report added that "normal migration of men and machines is expected to be adequate."

The Farm Labor Bulletin explained that "continued general rains that have fallen over the Texas Wheat Belt during the past week have helped to improve conditions in most areas. Some isolated spots suffered damage as a result of heavy thunderstorms and hail. Harvest has begun in some areas as crops have started maturing rapidly as a result of hot drying winds during the latter part of the past week."

# Soviets Changed Tactics; Still Have Same Objective

It has been some time since we have discussed the relations of the United States with the Soviet Union. Perhaps that is because we have been preoccupied in the foreign sphere with Vietnam where the influx of Soviet arms and equipment makes it very clear that our two nations are in direct opposition.

Also, it is clear to those of us on the Armed Services Committee that the Soviet Union's continuing buildup of sea and missile strength represents a threat and challenge to the United States' worldwide defensive posture.

There has been some talk around the world in the last year or so to the effect that the policies and aims of the Soviet Union have changed under its new leaders. Some diplomats on both sides of the Atlantic have claimed that they see evidence

the Soviets are turning 180-degrees to a policy of seeking permanent peace for the world.

The record of the Soviets in the Middle East war caused a reassessment of this point of view. At a time that they were talking peace and détente in Europe, the Soviet leaders were spending 4 billion dollars arming Nasser and his colleagues. They encouraged the Arab leaders in their aggressive actions. They blocked diplomatic moves to avoid the war. They supported a cease-fire only when it became necessary for them to do so to save their Arab clients from further losses.

Then came the Glassboro conference. Kossygin was a gentleman. He did not ban his shoe on the table at the United Nations. Many hoped that the Soviet leaders had learned their lesson, and the spirit of Holly-

bush swept over the land. But it soon became apparent that, while the music was different, the words were the same.

More revealing were the actions of the Soviet leaders since Glassboro. Kossygin stopped to see Castro on his way back to Moscow. The Soviet Union sent millions of dollars in arms to build the shattered Arab armies. The Soviet Union is still providing 100 percent of the oil and 85 percent of all sophisticated military equipment for the armies of North Vietnam. The Soviet line against West Germany has perceptively hardened. The Soviet continues to build both offensive and defensive missiles.

This does not mean that the Soviet leaders have not changed. But what we must recognize is that the change is one of the head and not of the heart

—of necessity, not choice. The Soviet leaders today have three major foreign policy objectives, as I see it.

They are still Communists, and they are committed to the goal of a Communist world. They are battling the Chinese for leadership of that world. They want to achieve that goal without war. At the same time they want more economic progress at home. They will work with us only when doing so serves one or more of these three objectives.

In the light of this analysis, the policy America should follow becomes, it seems to me, clear.

Militarily, we must recognize that we have not had a world war for twenty years because of America's clear military superiority. That superiority is now threatened, both because of Soviet progress in missile development and because of an attitude in U. S. policy circles that nuclear parity with the Soviet is enough. Because the primary Soviet goal is still victory rather than peace, we must never let the day come in a confrontation like Cuba and the Mid-East where they, rather than we, have military superiority. The cost of maintaining that superiority, including the development of an anti-missile capability, is a necessary investment in peace.

Economically, it may be possible for us to have a policy which encourages more trade with the Eastern European countries. We must recognize, however, that to them trade is a political weapon. If we build bridges, we should build only our end of the bridge. For example, there should be no extension of long term credits or trade in strategic items with any nation, including the Soviet Union, which aids the enemy in any way.

Diplomatically, we should have discussions with the Soviet leaders at all levels to reduce the possibility of miscalculation and to explore the areas where bilateral agreements would reduce tensions. But we must always remember in such negotiations that our goal is different from theirs. We seek peace as an end in itself. They seek victory with peace being at this time a means toward their end.

In sum, we can live in peace with the Soviet Union but until they give up their goal for world conquest it will be for them a peace of necessity and not of choice.

As we enter this last third of the twentieth century the hopes of the world rest with America. Whether peace and freedom survive in the world depends on American leadership.

Never has a nation had more leadership potential. Our economic and military superiority can be whatever we choose to make them. Most important, we are on the right side—the side of freedom, peace and progress against the forces of totalitarianism, reaction and war.

Poverty is the parent of revolution and crime. —Aristotle

## Washington Report

From Congressman  
**BOB PRICE 18TH DISTRICT, TEXAS**

1223 LONGWORTH OFFICE BUILDING, WASHINGTON, D. C. 205-5736

The Poor People's Campaign headed by the Rev. Ralph David Abernathy is now firmly entrenched in their shanty town near the Lincoln Memorial.

The permit they are issued by the Department of the Interior, over the objections of Congress, is for not more than 3,000 people; but apparently that limit has been exceeded with new arrivals. Leaders of the so-called "Resurrection City" indicate that they will ignore the limits of the permit, including its expiration date of June 16. They have announced a mass march in support of the groups anti-poverty demands for June 19-June 25 in Texas. Groups of the demonstrators marched on the Capitol during the week to attend Committee hearings, protest a speech by Representative Albert Watson of South Carolina and air their grievances before individual Congressmen.

Several of them were arrested for disorderly conduct during a mass demonstration in the street by the Longworth House Office Building Thursday. About 250 of them had come to the Capitol to demand changes in welfare legislation. Some 150 of the marchers milled around or sat on the floor of the foyer of the building just outside Representative Wilbur D. Mills' office who they demanded to see. Mills, Chairman of the House Ways and Means Committee, was at the Capitol. He said the protestors had sent him a tele-

gram Friday demanding that they be heard by his Committee.

"If the leaders want to see me, all they have to do is ask but no one told me today they wanted to see me," Mills said. He added, "I don't answer demands and I don't convene the Committee on anyone's demand, not even the President's."

Dr. George A. Wiley, executive director of the National Welfare Rights organization, led the demonstrators to the Capitol. He later described Mills as a "racist," because of his support of a welfare amendment to last year's social security bill which would freeze Federal contributions to State welfare programs. It would also require states to establish programs to train each adult or older child not attending school for work and place them in a job or cut from welfare rolls.

While I am a firm believer in the right of petition, I do not believe the First Amendment of the Constitution compels the Federal Government to provide a place for people to speak or assemble on government-owned property, streets, highways or buildings for any cause or purpose. This city — the Nation's Capital — belongs to all of the people of all fifty states, and I think it is a shame and a disgrace that the citizens of the District of Columbia live in fear, and people who would like to come here on business or pleasure are afraid to do so.

In a letter published by a Washington D. C. newspaper, the Rev. C. B. Nunn, Pastor of the Plymouth Haven Baptist Church in Alexandria, Virginia, reflected the sentiments of many toward the campaign as it is being conducted. Rev. Nunn wrote:

"When leaders of government and private industry silently permit people to point their fingers in their faces and threaten them with this and that if they don't give them what they want, what can hard-working, law-abiding, tax-paying citizens expect? The time of rewarding people for violating the law must cease or this kind of weak, sick thinking will destroy us as a Nation. I have no sympathy with the means in which those involved in the 'Poor People's March' seek to accomplish their goals. I wouldn't offer them or promise them anything but what any honest hard-working American can achieve and that is a chance in this life if they want it bad enough. . . . The United States needs a President who won't seek to please everyone but will give us the kind of leadership that will return us to economic and social responsibility that will make America a place where people really want to live work, and raise their families. . . . 'It is our only solution and our only hope! It is my prayer daily.'

I add my "amen" to Rev. Nunn's prayer.

## States Cooperate To Secure Water

By Cliff Chamberlain, Executive Director of Water, Inc.

It is good to know that the basic cooperation between states to solve mutual water problems is gaining favor. Mayor Sam Yorty of Los Angeles has been fostering cooperation between Arizona and California to bring about a central Arizona project. In a recent address before the Tempe, Arizona Chamber of Commerce, he stressed the benefits of cooperation between California and Colorado including augmentation of existing water supplies by transfer of water surplus to the needs in other river basins.

Cooperation between all sections of Texas, between all neighboring states and between all states having similar water problems is a must if we are to get the water we need by interbasin transfer.

We can expect to get only the water that is surplus to the needs in the source basin. We can obtain that water only if there is a demonstrated benefit to both the exporter and the importer. It is also true that we can get water only if we can afford to pay for that water.

States boundaries were not determined by analysis of the stream courses of water basin areas. Therefore, it is obvious that most efficiently utilize existing water supplies for the greatest benefit to the nation,

mutual cooperation between states is required. Texas and New Mexico have a need to import water. This common shortage should insure cooperation. Other western states have water problems and mutual cooperation between states must occur if we are to efficiently use our national water resources. Many years ago when states boundaries were established, no thought was given to efficient use of water without crossing state lines. It would be quite an accident if we could develop water resources to their full potential for benefit to the nation without crossing state lines.

It will profit all of us learn more about the water problems of the various areas of our state as well as the water problems of our neighbor states, if we are to secure import water for agriculture on the High Plains. We must cooperate with neighbors who have similar problems and insist that they help us. Our big task is to get organized and work for maximum development of the Texas water resources. This includes import of surplus of water from other areas where economically justified.

This is a job Water, Inc. has undertaken. Our sources will depend upon the people we represent.

AUSTIN HIGHLIGHTS

# State Capitol Is Bustling As Three Events Draw Near

BY VERN SANFORD  
Texas Press Association  
AUSTIN—Your Capitol is bursting with life on the eve of the most significant political and governmental events—the June 1 runoff election, the June 4 beginning of a special session of the Legislature, and the June 11 conventions of State Democratic Republican parties.

Although there are 15 runoffs in Legislative races to be decided Saturday, the main bout, of course, is that between Lt. Gov. Preston Smith and Houston Attorney Don Yarborough.

Probably no more than a million voters will decide whether moderate-conservative Smith or liberal Yarborough will be the Democratic nominee for governor. Each is reaching for the other's voter potential. Smith boasts of his 18 years' governmental experience; Yarborough, without governmental experience, urges his own "fresh approach" and "constructive programs," including lower auto insurance rates and consumer protection.

Even name identification—usually considered the wellspring of political success—won't be the deciding factor between these two. Both men have been in state-wide races nearly a decade and are well-known names on the ballot.

Incidentally, the winner may find surprisingly tough opposition in November from Republican nominee Paul Eggers of Wichita Falls.

Regardless of whether Smith, Yarborough—or Eggers—is the next governor, the battlewise Democratic legislative presiding officers, Lt. Gov.-nominee Ben Barnes in the Senate and Speaker-to-be Gus Mutscher of Brenham in the House, will be powerful figures to be reckoned with. Barnes admittedly aspires to higher office and Mutscher reportedly is interested in a long tenure in the House.

LEGISLATIVE RACES—There are few district races on the June 1 ballot and no other state-wide contests. However, as far as professional politicians go, the legislative races are very significant—especially where incumbents are concerned. This because "lame ducks" often vote differently from those re-elected.

Many eyes will be on the races between Sen. Bruce Reagan and Rep. Ronald Bridges of Corpus Christi, for the State Senate seat for that area; Rep. John E. Blaine versus Ramon Ramos of El Paso; Rep. J.E. Miller of Burkeville versus Don Adams; Rep. Bob Hendricks versus former Rep. Bill Dungan of McKinney.

Other runoffs involve top vote getters in local races where incumbents lost altogether or were not running for re-election. LIQUOR LEGISLATION DUE—Gov. John Connally's June 4 special session of the Legislature almost certainly will come to grips with important liquor legislation, probably including a mixed-drink bill.

report on how to improve present. A House study committee's report has been promised before the special session begins. Rep. R. H. Cory of Victoria, chairman of the panel, and House Speaker Ben Barnes have indicated the report will contain major, controversial recommendations.

Results of the investigation made by Atty. Gen. Crawford Martin—and his recommendations—also are due by June 4.

Connally has strongly indicated he will urge the lawmakers to come up with a mixed-drinks bill as a part of his tax program. Observers believe that instead of a straight booze-over-the-bar measure, he will ask for legislation permitting the sale of liquor in small, one-drink-sized bottles on a local option basis. This would mean that, if the bill passes, Texans still will have to mix their own but at least they won't have to bring their own bottles. STATE CONVENTIONS—Every even-numbered year state politics in presidential election years the June convention, customarily, is called "the presidential convention," and the September convention is known as "the governor's convention."

This year since the big issue in the State Democratic convention in Dallas on June 11 will be whether Governor Connally is picked as the "favorite son,"

both Democratic party conventions will be "governor's conventions." If Connally is chosen as "favorite son", the first vote of the Texas delegation at the national convention in Chicago will go to Connally, the second to whomever he likes of the major candidates—probably Hubert Humphrey.

Republicans, who will hold their convention in Corpus Christi on June 11, doubtless will pick US Sen. John Tower as their "favorite son." State GOP Chairman Peter O'Donnell of Dallas, and other southern GOP chairmen, met in New Orleans with hopefuls Gov. Ronald Reagan and Gov. Nelson Rockefeller. But O'Donnell is not expected to talk about a second-ballot alternative to Senator Tower until he has conferred with Richard Nixon, and considered results of talks with all three.

PORNOGRAPHY WAR MAPPED — Attorney General Martin has mapped a drive against "lewd" movies and pornographic literature.

His office has received frequent complaints about circulation of obscenity, so he will ask the Legislature to tighten its control laws.

Specifically, Martin said he will ask for repeal of a portion of the penal code which exempts from control foreign films and movies that are in interstate commerce. Many of the complaints he receives concern pornography originating in Mexico and other foreign countries.

Martin also will seek legislation to include the attorney general among those granted authority to enforce the law by civil injunction. He criticized US Supreme Court decisions as having "torn down virtually all standards in judging pornographic materials."

SALES TAX— Board members of the Texas Municipal League will meet at El Paso on June 6. They are expected to discuss Governor Connally's plan to abolish the city sales tax.

Connally's plan would raise the state sales tax from two to three per cent and funnel part of this money back to incorporated cities.

There is a difference of opinion among legal experts on the constitutionality of such a plan. Texas' Constitution may forbid the state from giving money to municipalities when there is no return to the state. Governor's advisors apparently feel the courts would be hesitant to deny funds to the state and cities with both in dire need.

Still, the sales tax change is quite likely to be sent to the Legislature when it convenes in special session next Tuesday.

ATTORNEY GENERAL RULES School districts are not authorized to issue time warrants for the purpose of purchasing unimproved land only. So held Attorney General Martin in a recent opinion. However, he stated that warrants can be issued to purchase school buildings and equipment.

State officials may be reimbursed by the government for expenses incurred in delivery of veterans land bonds to out-of-state banks, said Martin in another opinion.

NEW BANKS PROPOSED— State Banking Board is considering requests for charters from Harlingen, High Island and Missouri City.

Organizers of a proposed Bank of Commerce for a new Harlingen shopping center insisted through their spokesman that downtown banks are not readily accessible due to traffic congestion. But presidents of the Harlingen National Bank and First National Bank of Harlingen disagreed.

DEVELOPMENT COMPANY — The Snider and Edwards Development Company and the men shown here at the beginning of the century, helped to develop Hereford — when there were

only one or two cars in it. They are among the area pioneers, for whom the Mid-Plains Pioneer Celebration will honor on May 30.

## Uncle Sam's Selective Service

Editors note: Below are questions now being asked at draft boards. The answers are by Colonel Morris S. Schwartz, State Selective Service Director, 209 W. 9th Street, Austin, Texas 78701. He will welcome your questions.

Q — My draft board wouldn't defer me in Class II-S because I had not made normal progress toward my baccalaureate degree, but it gave me a Class I-S (C) deferment. The board

said this was good for a year. If I've made normal progress by then, can I get Class II-S again?

A — Yes, provided you request a II-S deferment, can provide the local board with evidence that you are then satisfactorily pursuing a full-time course of instruction, and you are still under the age of 24.

Q — Do I still have a right of appeal after I have had a personal appearance before my local board?

A — Yes. Each classification, or determination made by your local board not to reopen your classification following your personal appearance, must be followed by the same right of appeal as in the case of the original classification.

Q — What are the two type of conscientious objector classifications?

A — In Class I-A-O are placed those who have been found, by reason of religious training and belief, to be conscientiously opposed to combatant training and service. In Class I-O placed those who have been found, by

## 2 Local Persons To Attend Meet

Representing Hereford at the 8th Annual Teyas Nuclear Science Symposium, which is to be held in Austin June 4th through the 7th, will be Marvin Readhimer, Hereford High School senior, and Mrs. Gene Huntsinger, chemistry instructor.

Jointly sponsored by the University of Texas at Austin and the Texas Atomic Energy Research Foundation, of which Southwestern Public Service Company is a member, 500 of the states top students and instructors will attend the meeting. Southwestern Public Service is sponsoring the local representatives.

Dr. John R. Bradford, dean

of engineering at Texas Tech, will be among the speakers as he will lecture on "Industrial Application of Radioactive Materials." Following the lectures by numerous outstanding authorities, students will have an opportunity to tour the laboratory facilities at the university.

Leron B. Gough, whose father was Hereford's first full-term mayor, set up a bootblack stand at the town barber shop in 1905 when he was fifteen. During the summer he shined the cowboy's boots when they came in from the range to get cleaned up and make "Whoopee."

Pioneers indicated their intention to stay on the Plains by building permanent homes to replace their first dug-outs and pole houses.

## You say you'd like a few suggestions on how to get more out of your telephone service?

### Here are five tips to help make your every "hello" a real good buy:

- Whenever you're moving to another town within the Bell System, let us arrange for your phone service before you move. If you know the address of your new home, we can make arrangements in advance so you'll have the exact service you want in your new home. We'll also refer calls from your old phone to your new number if you like. Just call the business office and ask about our Easy Move Plan. There's no extra charge.
- Speaking of moving, we hope you realize that wherever you move in the Bell System, there is no color charge for the phones at your new address if you had color phones at your old address.
- Ever wonder what to do when you get a wrong number on a Long Distance call? Just hang up, dial "0" for "Operator," and tell her what happened. She'll see that you're not charged for the call.
- And if you ever lose your dime in an out-of-order pay telephone, just go to a working phone and report it to the Operator. She'll arrange to have your dime mailed to you. Also, if you give her the number of the out-of-order phone, we'll get it fixed right away.
- Long Distance interstate rates are lower all day Saturday and Sunday, and after 7 p.m. each weekday. You can also save money if you call by number. A station-to-station Long Distance call costs about one-third less than a person-to-person call. At Southwestern Bell, our goal is to help you get the very best telephone service. We want your every "hello" to be a real good buy.

## Missionary Plans Return To Brazil

Gaither Vanderveer, who has been a missionary at Sao Paulo, Brazil, for the past two years, spoke at the Central Church of Christ here Sunday morning with color slides showing the operation of the field work there.

Vanderveer had been preaching at Lazbuddie when he became interested in missionary work. The reason he selected Brazil, he said, was because he knew most of the missionaries there.

"There were 14 American families there when I got there," he said.

The Central Church of Christ has supported Vanderveer for the past two years in the field, and more than two years prior to that. They will continue to do so for an additional three years beginning in August, according to pastor Gene Fooks, when the Vanderveers will return to Sao Paulo.

He and his wife, Lavern — who will be married 13 years in July — have four children, LaGay, 11; Lynn, 9; Greg, 6; and Gena, 5. The children have been in private schools there.

Vanderveer said that there are 6 million people in Sao Paulo. It is the largest city in South America and considered by many to be the fastest growing city in the world. The Church of Christ now has four congregations established in the city, plus many in the interior.

"We are operating a radio network (which still serves 26 stations, although some of them have been sold) with daily religious programs," Vanderveer said. "In connection with radio, owned by members of the Church of Christ, correspondence courses are offered."

He is the director of the correspondence courses. He said that over 1,000 students are now enrolled.

"The work was started in Sao Paulo in 1961, when 13 families arrived there."

He explained that there are other places where Church of Christ groups have gone. "For example, nine families went to Belo Horizonte last year to establish the church. Twelve other families are expected this year."

Vanderveer reported that one missionary was now working in Rio de Janeiro and will

be joined this year by two others. Three missionaries are working in Porto Alegre. "There are many mission points where only one American family will be working," he said.

"We have spent two years in Brazil and are now in the United States for a four-month furlough. We will return to Sao Paulo in August for a period of three years. At the end of that time, a re-evaluation of the work will be made — and a decision as to whether to come home or continue working."

The Vanderveers are now living at Spade, 10 miles east of Littlefield. "The church there is furnishing us a house until the first of August. My wife and I grew up at Spade — that is our home congregation," he explained.

The language of Brazil is Portuguese. For those who wish to visit Brazil, he said that it is best to learn the language first. During his lecture, Vanderveer pointed out that there are those in Brazil who try to take the correspondence course with the hopes that they can learn more English. But their literature and tracts are published in Portuguese, in order to discourage this idea among them — because they may be unqualified for the English course.

He said that he and his family had gotten to know the people of Brazil. "That is important. But it is more important to know Christ. If Christ is not in your life, you do not know Him."

Vanderveer was born at Cordell, Oklahoma, in 1936.

## Boys, Girls Vie In Track Meet

Somewhere around 232 Bluebonnet students participated in a track meet held last Wednesday afternoon with 200 of those students walking away with place ribbons.

Events in the track meet included the 50 yard dash; the 75 yard dash; the 100 yard dash; and the 150 yard dash.

In the sixth grade, Mrs. Kosub and Mr. Weaver tied for total grade ribbons with 23 each, and Mrs. Kosub's room won the toss of the coin to collect the sixth grade first place ribbon.

**VOTE SATURDAY JUNE 1**

**TO: The Citizens and Voters of Texas FROM: Preston Smith, Candidate for Governor**

The purpose of this message is to ask for your support and vote in the Second Democratic Primary Saturday, June 1.

As your Lieutenant Governor for the last six years, I believe I have qualified myself to seek the high office of Governor. You know I finished second among 10 candidates in the First Primary, about 29,000 votes behind the leader with 1,750,000 votes cast.

With your help we can win this runoff against an opponent who has no public record of any kind... one who is aligned with groups that want to reject the progressive, constructive programs built by John Connally and his predecessors and replace them with so-called "liberal" ideas of their own.

I want to continue and improve on the start we have made in education, pollution control, law enforcement, highways, water conservation, promotion of industry and tourism, and many other vital areas.

I am proud to have been a part of Texas government for 18 years. Opponents may harp about what is wrong in Texas; I happen to think there are a lot of things RIGHT in Texas. I am proud of my state and its people.

Things can be even better, and I want to work with you in that direction. It's more or less in the political tradition to lambast your opponent and say a lot of ugly and cutting things about him. I don't want to engage in personalities; my opponent has no public record to criticize. Therefore I am running for Governor on my own merits.

It may be pretty ambitious for a farm-born, farm-raised Texas boy, who worked his way through Texas Tech and spent his adult years in business activities in Lubbock, to aspire to be Governor. You will be the judges as to whether my experience and proven qualifications entitle me to be elected. I will accept your judgment with real gratitude for your past support and friendship.

Please remember that if I am elected, my door will always be open to any Texan who has any problem whatever that the Governor can help with. I will always be interested in good government. I will always be interested in you.

*Preston Smith*

### Deadline For Signing Up For Loans On Crops Is Thursday

Frank J. Bezner, chairman of the Agricultural Stabilization and Conservation County Committee, reported that the farmers eligible for price support on their 1967 crops will be able to put farm-stored or warehouse-stored grain sorghum under loan until June 30.

The June 30 deadline also holds for warehouse-stored corn. The deadline is July 31 for corn.

The growers eligible for 1967 grain sorghum or corn loans are those who have signed up and participated fully in the 1967 feed grain program.

Bezner has reminded growers that the deadline for requesting loans is May 31. The maturity date for the loans is June 30.

The loan maturity date may be extended for grain sorghum and corn stored under loan in warehouses and for grain sorghum and corn not yet under loan, provided the extension is requested by the original loan maturity date.

Producers with such crops stored under loan on farms may have the maturity date extended within 60 days after the original loan maturity date.

The Deaf Smith County loan support level for the 1967 corn crop is \$1.18 per bushel. The 1967 crop support level for grain sorghum is \$1.59 per hundred-weight. These rates are based on national average loan rates of \$1.05 per bushel for corn and \$1.61 per hundred-weight for grain sorghum.

Frost and drought are constant threats to wheat.

### Letter To The Editor

Dear Editor:

Seldom do I write letters to the editor, but now I feel a need and a desire to do so. This concerns the letters of Mrs. Paul Zinzer about the community recognizing and doing something special for our fine young men who are dying in Vietnam.

It has long been a dream of mine to erect a memorial for our early pioneers of Hereford, but I think this honor should be transferred to newer memories and honors. For the men who have fought and died for our beloved country.

I, like many of you, come from fighting stock. And if you will forgive me for being personal, I submit this for comparison to your own background. This is done to support the reason why we should follow Mrs. Zinzer's suggestion.

One of my great grandfathers was killed and scalped by the Indians on the Brazos River of Texas, but as a lone horseman gave them a run.

Also on Texans, two of my grandfathers fought in the Civil War and one later was a Texas Ranger.

In World War I, I had cousins and uncles taking part, luckily none were killed. But one had a narrow escape when the ship was bombed and went down. I was a teenager in high school, and I had friends in service who did not return.

World War II brought two of the cousins back into service. One lies somewhere in India, and the other was in the Merchant Marines. I have a brother who owns a Purple Heart as a result of a sniper's bullet in the Pacific Islands. Another brother was in the Navy.

The Korean War placed two of my young relatives in un-

known graves somewhere in the battle area. Another served in Germany.

If the present war continues, it will draw great-nephews who are now in college. It is so easy to say or write to the grieving parents that we are sorry. But where is our patriotism and love of man-kind?

Where, up to now, I may have been a rebel without cause I now take up my cudgel in defense of Mrs. Zinzer and her idea. I am not ashamed or afraid to sign my name in doing so.

Corinne Jewell Neely

**TAX MAN SAM SEZ:**

The good tax folks point out that many employers don't withhold income tax on the students who work for them during the summer, since they know that the student won't earn over \$600 and be subject to filing a tax return. The law just don't read like that. You have to withhold based upon the annual wage or salary, not on how long the temporary employee will be around. The student will get it back when he files his tax return in January 1969, but in the mean time it belongs to Uncle.

# FOR GOD SO LOVED THE WORLD

Up to now they've been reading about it. They have had a teacher to fall back on, but now they're in it. It's THEIR LITTLE RED WAGON FROM HERE ON. They must now make decisions. Their flour bin and their smokehouse will be only as full as they fill it. This is COMMENCEMENT DAY. They learned in church that God promised bread only by the sweat of the brow. Unless they have learned to take prosperity without pride, and adversity without anguish, they are still unprepared. We pray they are ready for THE YEARS AHEAD.

**ALTON B. CHAPMAN**

Associate Justice  
Court of Civil Appeals

TO THE RESIDENTS OF THE SEVENTH SUPREME JUDICIAL DISTRICT:  
Thank you for the privilege of serving you for eleven years and four months on the Court of Civil Appeals.

For the sake of the Court from which I am retiring and for the good of the State of Texas, I earnestly solicit your votes for Jack Hazlewood because:

1. In my opinion, the judges on every appellate court, from the United States Supreme Court on down, should be first and foremost good lawyers. Jack Hazlewood is an outstanding lawyer.
2. Of six major scholastic honors possible for a student to win in the Texas University Law School, Jack Hazlewood won them all. Such a scholastic record is possible only by one with an outstanding legal mind and the willingness to work, two attributes needed on an appellate court.
3. Jack Hazlewood is the only candidate with experience in the Court of Civil Appeals and Texas Supreme Court.
4. The most practical and effective training for an appellate court justice is trial and appellate practice, as a lawyer, against other strong lawyers. This is exactly the training Jack Hazlewood has had for more than fifteen years, and in it he has many times demonstrated his competence.
5. This is the exact same training five justices of the Supreme Court of Texas had before becoming members of that Court. None had judicial experience on the trial level. They are Justices Griffin, Walker, Greenhill, Steakley and Chief Justice Calvert.
6. In the official bar poll conducted by the State Bar of Texas among the lawyers and judges of the 46 counties of this district Jack Hazlewood received more votes than both his opponents combined. This poll indicates that the members of the legal profession also rank him number one.

Respectfully submitted,  
Alton B. Chapman, Associate Justice,  
Court of Civil Appeals

**THANK YOU . . .**

My sincere thanks to the voters who supported me in the Court of Civil Appeals race. I would like for all of you to know that I will now actively support JACK HAZLEWOOD in the June 1 second primary election.

JACK HAZLEWOOD is the only remaining candidate who has had experience in the work of the Court of Civil Appeals. He has been an active and respected attorney in this area for 16 years and is far and away the better qualified candidate. Please join with me and let us elect JACK HAZLEWOOD to the Court of Civil Appeals.

**4-H Groups Plan Summer Activities**

An active summer with plenty of projects to keep them busy seems to be in line for the 4-H groups in Hereford.

To begin the summer, several 4-H members will travel to College Station to attend the 4-H Roundup held June 3-7. Sixteen members are going and participating in the contest being held.

Jerry Sublett will enter the tractor operation division at the Roundup, and Charles Atchley, Kay Atchley, Gary Goheen, and Mickey Ginn are planning to enter the entomology division. Under livestock judging, Rodney Brooks, Jimmy Christie, Bill Cole, and Tommy Beznar plan to enter. A skit will be given by six girls and they are: Martha Ann McBride, Thresa McAndrews, Mary Kay Wagner, Donna Olsen, Joette and Cynthia Hanna, and Cheryl Cole.

Sponsors for the trip will be Mrs. A.J. Beznar for tractor operation, Mrs. Therna Atchley for entomology, Justin McBride for livestock judging, and Rita Huckert for the skit.

Another activity set up by the 4-H members is the County 4-H Camp to be held June 11, 12 and 13 at Hidden Falls Ranch southeast of Canyon, This camp is being held for all 4-H members who care to attend and will consist of different activities such as craft sessions and game sessions.

The annual 4-H Dress Revue is planned for July 18 at Sugarland Mall and the girls are starting their cloths groups to prepare for the event.

## New SS Change Affects Many

Our recent change in the Social Security Act which will affect many Panhandle area residents involves the amount a beneficiary may earn, according to Travis C. Briggs, district manager, Amarillo.

Effective this year a person receiving social security checks may earn as much as \$1680 in a year without losing any benefits. If he earns more than that amount," Briggs explained, "one dollar in benefits will be withheld for each two dollars of earnings between \$1680 and \$2880. But for earnings exceeding \$2880 a dollar in benefits will be deducted for each dollar earned. These rules do not apply to a person who receives

disability benefits, or to those who are age 72 or older." Briggs also pointed out that regardless of how much a beneficiary earns in a year, he will receive a social security benefit check for any month in which he does not earn over \$140 nor work to any extent as a self-employed person.

The previous yearly limit was \$1500 or \$125 monthly. The only two types of income considered as earnings for this purpose are wages and self-employment income. Income from rents, interest, dividends or retirement payments are not considered.

World population will surpass 3.5 billion in 1968. Another billion increase is expected by 1983. If the upward trend continues, 7 billion people may test the world's resources by the year 2000.
