## 100th Birthday Is Celebrated

By BETTY KOELZER  
Staff Writer

Westgate Hospital was all aglow Friday afternoon, in observance of their first 100th birthday party, that of Mrs. Mary Byrd, a patient. A new hairstyle, two birthday cakes and a multitude of cards from friends and relatives, besides members of Mrs. Byrd's family and concerned hospital personnel added to the air of festivity.

Born Mary Ellen Wilks, January 23, 1870, in Hindsville, Arkansas, Mrs. Byrd has lived during the terms of 18 presidents of the United States.

Hindsville was named for Mrs. Byrd's mother's family; her father was a veteran of the Confederate army, coming to Hindsville from Alabama as a teacher. Mrs. Byrd's mother was one of his students before their marriage.

The Wilks' family came to Bartlett, Texas, in 1887, in a covered wagon. In 1888, Mary Ellen married Robert H. Byrd, a farmer, in Miami, Texas. The Byrds moved to Panhandle in 1918.

Since her husband's death in 1928, Mary Byrd has lived with their only child, Mrs. H. V. McCabe, living in the Dawn community since 1943. Mrs. McCabe reflects that her children, J. E. (Jim), Dawn, W. A. (Bill), of Dumas, and Mrs. Bill (Ann) Carthel, of Friona, have always called their grandmother "Mama", and Mrs. McCabe, "Mother" "Mama" took

Funeral services for Mrs. Reva Mae Roberson, 53, of Route 4, Hereford, who died Thursday afternoon in Deaf Smith County Hospital, were conducted at 11 a. m. Saturday in Gilliland Funeral Home-Rose Chapel.

The Rev. Charles Wyatt, pastor of the Vega First Baptist Church, officiated with burial in West Park Cemetery.

A native of Oklahoma, Mrs. Roberson moved to Deaf Smith County in 1956 from Canadian. The former Reva Mae Ward, she married D. B. Roberson on Nov. 16, 1940 at Gotebo, Okla. She was a Baptist.

Survivors include her husband; a brother, Bond Ward of Shamrock; three sisters, Mrs. Daisy Neal of Canyon, Mrs. Retta Wilson of Cordell, Okla., and Mrs. Mary Ward of Oklahoma City, Okla.

Pallbearers for the service were James Fangman, J. C. McKnight, Dick Kirkland, Robert Elliot, Steve Mives and Clifton Ueckert.

equal responsibility in disciplining the children, cooking and other household duties. "She has been just wonderful" is Mrs. McCabe's description of her mother.

Until a fall in their home this past Christmas Eve, Mrs. Byrd was still active, moving about the house holding onto the furniture, and never missed a meal with the family. Since January 9, she has been a patient at Westgate, this being her first experience with hospitalization.

Mrs. J. K. McKenzie, Miami, was in Hereford Friday to help her sister celebrate this rare occasion.

The centenarian has eleven great-grandchildren.

## Local Gun Club Plans Meeting

Jim Lassiter, secretary for the Hereford Gun Club, announced that the club will hold a meeting Wednesday at 8 p. m. in the Hereford State Bank coffee room.

The purpose of the meeting is to elect new officers, Lassiter reported, and he urged all members of the club to attend. Refreshments will be served.

## Invitation Given To Local Woman

Mrs. Henry Sears was among nine area women who received invitations from Gov. Preston Smith to serve on a Governor's commission on the Status of Women being reorganized in Austin as an advisory commission to the Governor's office and the state legislature.

Others invited to serve were Mrs. Charles Cooley and Mrs. Boyd Conner of Borger, Miss Ruth Cross and Miss Ples Harper of Canyon, Judge Mary Lou Robinson of the 108th District Court, district clerk Billie Nance Robbins; Mrs. John Merriman, and Mrs. Robert Casperson, all of Amarillo.

Plans for the reorganization of the commission will be outlined by Gov. Smith's advisors and Mrs. Margaret Brand Smith of Dallas who has been appointed chairman of the commission at a dinner scheduled Friday at the Commodore Perry Hotel in Austin.

Also invited to attend the dinner were Mrs. Lyndon B. Johnson, Mrs. Price Daniel and Mrs. Allan Shivers.

In regard to the invitation to serve on the commission, which Mrs. Sears received, she expressed her appreciation for the honor to the Governor, but regrets that she cannot serve.

## Decision Reached On County Road Dispute

A long-awaited decision by the county commissioners was reached here Wednesday in regard to the year-old debate of putting a county road through property owned by W. F. Ponder.

The land, located west of Hereford just north of Eastley Feed Yards and consisting of about 5,500 acres, was under consideration by the county commissioner of Precinct 3, Bruce Coleman, for purchase so that a county road could be built through it.

At their meeting Wednesday afternoon, which was a recessed meeting of their previous gathering, the commissioners entertained a motion to withdraw their suit to cross the Ponder land because "it simply would be excess spending of taxpayer's money."

The condemnation of the land was started and the proposed money was put up, but Ponder would not accept the amount and asked for a jury trial.

The money was then put in escrow pending the appeal by Ponder and at a three-day pre-

trial hearing, the jury returned with the amount of approximately \$13,900. Ponder then rejected this offer by the county and County Judge H. C. Williams was then required to either deny or grant a new trial.

Due to the deadline for granting or denying a new trial, Judge Williams and the commissioners convened for a recess of the previous meeting to decide on the issue. It was at this meeting that the commissioners present voted unanimously to withdraw suit because it was prohibitive from the financial standpoint of the taxpayers and the county. Commissioner Coleman was not present at this meeting.

The matter had been before the commissioners court since early 1969 but no agreement between the commissioners and Ponder could be reached in regard to the payment for the land. Ponder had appeared before the court in January of last year to protest the figure set for his property by a jury of review appointed by the commissioners.

Jury of review figure had been \$8,992 damages while Ponder's assessment totalled \$19,799. At that time, the commissioners agreed to pay Ponder in the amount of \$9,500 for the right-of-way.

In an effort to keep the commissioners from taking the land through his property, Ponder agreed to give the county a 100-foot right-of-way at no cost to the county and set his own fence back if they would take an alternate route around his property boundaries.

The first proposal of Commissioner Coleman was to go directly through the middle of Ponder's land, but the proposal was stymied and an alternate route was discussed to go west then south through Ponder's land, this time through a small lake on the western part of Ponder's land.

Ponder's suggestion, and agreement to donate the right-of-way, was to have the road go along the same route the present dirt road exists, which is east two miles then south three miles to where it connects with Harrison Highway or Farm-to-Market Road 1058. By going this route, the county would be out no money other than the expense of paving the road.

The estimated cost of the proposal to go through the middle of Ponder's land was (for the cost of the land and the construction of the road), \$25,000 while the cost of going west then south through his land was set at approximately \$4,500 for settlement of the land and about \$15,000 for filling the lake, excluding the cost of the actual paving and construction of the road.

The cost of the road going east and then south to Harrison, along Ponder's property line, with Ponder donating the right-of-way and moving his own fences, was set at just the cost of the paving and construction of the road itself.

Commissioners, excluding Coleman who was not present at the meeting, stated they could see no inconvenience to the people located north of Ponder's property.

## Date Is Changed For Grand Jury

Kervin Roper, Chief Deputy, announced Saturday that all persons receiving letters in the mail last week to appear before the Grand Jury or to serve on it should disregard the planned Feb. 2 date and mark their calendars for appearance or duty Feb. 16 instead.

District Attorney Jerry Tucker made announcement to the local sheriff's office that the date would be changed.

## Amarillo Firm Gets Contract

The first phase of a long-term remodeling and renovation program that will eventually include a new banking building, will begin in about 10 days at the Hereford State Bank, according to Hartan D. Vanderzee, president of the organization.

Ramey Construction Company of Amarillo, was awarded the contract for the initial phase of the construction program which includes the installation of three new drive-in teller units with space for the eventual construction of two more, all built over an underground tunnel. A pneumatic tube will connect the teller units with the present bank building and when the final stage of the construction program is completed, a tunnel will connect the units with the new bank building. The present tunnel will be complete with a coffee room and rest room facilities, as well as a night depository vault.

The drive-in units will face Second Street, with incoming traffic from Sampson, exiting on Second. The area will be fully landscaped and well lighted for the benefit of the night depository customers. Construction of the new units will not hamper traffic around the present drive-in window, Vanderzee said. "We feel that the new drive-in windows will facilitate faster service to our customers and we need the extra windows now," he said. "We intend to do all the construction with a minimum of inconvenience to our customers."

Five construction companies, all from out of the city, submitted bids with the contract being awarded to Ramey.

The Rev. A. Cameron Alsworth, pastor of the Advent Christian Church, officiated, assisted by the Rev. C. C. Morgan, a retired minister from Clovis. Burial was in Lawn Home Cemetery.

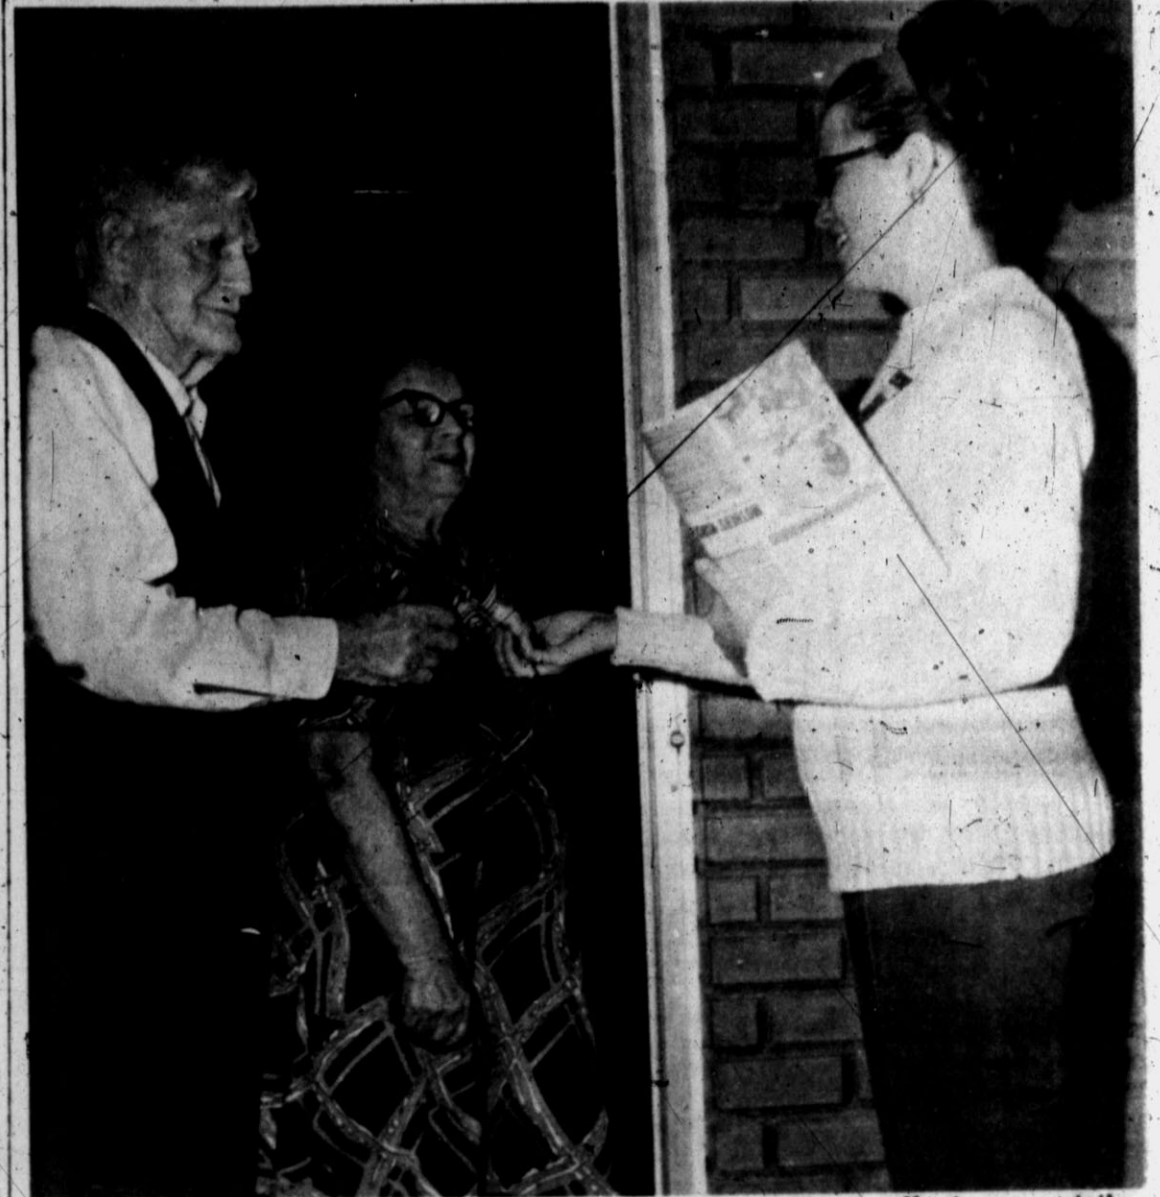

Mr. Winkles died at 11 p. m. Tuesday in Clovis Memorial Hospital. A retired farmer, he was born in Grant, Ala. and moved to the Clovis area in 1921. Other survivors include his wife, Ardle Una; three sons, Lowry and Jake, both of Clovis and Perry of Texico; four other daughters, Mrs. Minnie Hillard, Mrs. Dorothy Dudley and Mrs. Jeannette Wood, all of Clovis and Mrs. Jean Skaggs of Texico; two brothers, Gordon and Lee, both of Grant, Ala.; 23 grandchildren and 15 great-grandchildren.

## Tax Office To Open Saturday

Nell Miller, tax assessor-collector, announced that the county tax office will be open Saturday, Jan. 31 for the convenience of those persons wishing to register to vote in this year's elections.

The office, located on the second floor of the court house, will be open Saturday from 8 a. m. to 1 p. m. Saturday is the deadline for "over the counter" registration. Mrs. Miller pointed out, but registration cards mailed into the tax office and postmarked no later than midnight Saturday, will be accepted.

At last report, almost 4,000 persons had registered to vote, with the number registering last week having picked up considerably over the previous weeks.

## Conservation Applied On Reinauer Ranch

By JERRY ODOM  
Staff Writer

Joe Reinauer Sr. and his son, Joe Jr., may own some of the best grazing land in Deaf Smith County. Because of the fact that they preserve every acre of it, Joe Sr. was recently named Conservation Rancher of the year.

Since 1944 the elder Reinauer has been cooperating with the soil conservation district which at that time was called the Deaf Smith County Wind Erosion District.

Seeing the need to preserve his land, Reinauer continued his conservation practices. In November of 1959 he entered the Great Plains Conservation Program.

Under this program he has acquired cost-share assistance on both his range land and crop land.

Since the time Joe Sr. has entered the program, the younger Reinauer has grown to understand the necessity of conserving the ranch, and has carried forth many projects on his own.

One in particular was the converting of 325 acres of cropland back to rangeland. This is what Conservation Manager J. C. Brown calls an "application practice."

He stated, "The Reinauers have carried out proper grazing on all parts of the rangeland along with quite a bit of deferred grazing."

They have complete conservation systems on all their cropland acreage plus good residue management. They apply contour farming on all terraced acreage for better utilization of the rainfall.

Three thousand acres of the sixteen thousand acre ranch are in cropland where the Reinauers raise mostly wheat and milo. On their cropland they have acquired cost-share assistance from the USDA on 41,310 feet of diversions and 27,480 feet of standard terraces.

On the thirteen thousand acres of grassland, Reinauer and son run only stocker steers. "Not a mother cow or calf can be found," said Brown.

Cost share projects on the rangeland include one diversion around a windmill which extends 1855 feet, 200 acres of aerial spraying on yucca for brush control, and 17,036 feet of pipeline for livestock water.

There have also been installed two water wells for livestock water, one pond, six water storage facilities, and 9,651 feet of fencing.

The younger Reinauer explained how the extensive pipe-

line aids conservation-wise other than just providing water. "Your cattle are going to graze closest to the water tanks. With several tanks along the pipeline we can distribute grazing with the water."

"The pipeline also provides an alternate system for water other than the windmill. If a windmill goes out then we're not in trouble."

The Reinauers believe there are many advantages from resting the grassland. One is that the taller grass will hold the snow and retain the moisture. Another is that it allows for a better root system.

The numerous diversion terraces installed on the spread were naturally for the purpose of preventing rapid water drain-

age on the sloped land. One diversion was built on the uphill side of a dam. The reason was that water was draining down the hill in the cattle tracks and was eroding the pasture away.

Even with thousands of feet of fencing, the Reinauer Brothers Ranch still possesses a few sizeable pastures. The biggest spreads over a 2,300-acre area. Before various cross fencing was applied on the ranch a gigantic pasture spread over a 4,700 acre area.

The entire ranch extends a width of eight miles, bordering New Mexico on the west. The estate also holds its own landmark. It is known as Escabada, one of the old XIT headquarters.

## Santry Rush Is Named To WT Academic Team

Santry Rush, Hereford High School senior and offensive lineman, has been named to the AAA "All West Texas Academic Football Team" as announced by the West Texas Chamber of Commerce.

Nominations were made from the more than 400 West Texas high schools in the 132 county area served by the WTCC and selection to team membership was made by a special committee named by President J. Fike Godfrey of Spur.

"President Godfrey said, 'We feel that exceptional academic achievement in addition to athletic ability should be recognized and encouraged in West Texas high schools. Too often there is too much honor bestowed for athletic achievement without regard to scholastic attainment.'

The effects of the selection of such an academic team in each school classification from AAA to B has encouraged better grades in some of the schools, according to one of the coaches.

"Last year after notification of their selection we sent the nominees to the Junior High School to talk to the football players in the Junior High about the importance of grades education, etc. This year our teachers have remarked about the low rate of failures among the boys participating in athletics. I feel this is the stimulus we have needed to add incentive for better grades," one of the coaches reported.

Defensive and offensive teams were named in all classifications. In order to qualify for nomination the students had

to be seniors maintain better than average grades and be selected to represent his school on an all-district team.

Because of Texas Interscholastic rules there will not be any prizes awarded to these honorees. A letter of selection has been mailed to each student selected, and a copy of the letter sent to his coach. Announcement of the selection will be made in the individual schools at proper school functions.

In some instances the charts will show grade averages of 100. This has been achieved by the students through extra work in various subjects or additional studies through an enriched curriculum.

## Children Must Be Enumerated

Mrs. Dorothy Mercer, school census trustee, announced last week that all parents who have children born on or after September 1, 1952 and on or before September 1, 1964 and have not included them in the school census in Hereford, should do so as soon as possible.

Children who will be five on or before September 1, 1970 are also included in this census, Mrs. Mercer added, meaning those born on or before September 1, 1965.

Mrs. Mercer stated that all children who fall into this category must be enumerated and to do so, parents are asked to contact her at the school administration office at 364-0008.

# La Plata Wins Best Of Three Against Stanton

When the cross-town rivals of Stanton and La Plata clashed in cage action Thursday night, the Mavericks of La Plata took the best of the three contests.

The Dogie seventh graders were mauled on the kickoff game by a score 32-8. The majority of La Plata's points came as a result of sharp shooting by Marvin Harris who made eleven and Doug Charest who tallied eight.

Next in line for honors were Mike Munnerlyn with five, Zane Mayfield with four and Steve Bryan who scored two. Top scorer for Stanton was David Clark with three points.

The victory boosts the seventh graders of La Plata to five wins and seven losses for the season while Stanton's now stands at two and six.

The Maverick eighth grade followed their younger buddies' performance but not with quite the same margin. Jim Marsh and James Harris combined for La Plata to tally twenty four points in the May-erick's 33-25 victory.

Jerry Brock and Dan Vander-Zee were rated next in scores as they netted eight and five points, respectively. Micki Ward was the only double figure man for Stanton. He was on the mark for twelve points. Three players held second place, each scoring four points. They were John Stoy, Mike Albar, and David Arraiga.

The La Plata eighth grade record now stands at thirteen wins and two losses for the season. Stanton's is one win and nine losses.

The Maverick freshmen weren't quite as successful in their battle with Stanton. A reason

The ringneck pheasant may not be a native species, but he's no newcomer either. He landed in New York State first between 1728 and 1731 when Governor James Montgomery stocked several dozen on what is now known as Governor's Island in New York harbor.

why is evident. And that's the hot-shooting of Stanton's Keith Kitchens who was good for twenty three points in the 53-50 Dogie victory.

Another Dogie, Terry Scott, was right behind with sixteen points.

Though losing the contest, several Mavericks were also vivid standouts.

The oldest Harris lad, Danny, popped the net for an evening total of twenty points while Terry Champ shot for thirteen. The season record for the Maverick freshmen is now leaning on the win side, standing at seven and three while Stanton is rolling along with a 13-1 record.

In action last week, the Stanton ninth graders fell two points short of a championship in the Clovis Tournament when they fell to Gattis, 53-51 while their eighth grade fell in their first game of the single-elimination tournament. For La Plata, the ninth grade suffered their third defeat, the seventh grade was nipped in overtime and the eighth grade crushed their Estacado opponents.

For Stanton's ninth graders, they won their first game in the Clovis tournament, defeating Clovis Marshall, 83-51 with Keith Kitchens getting high point honors with 28. Terry Scott had 17 Rex Carpenter 11 and Alan Cornelius nine. In their second game of the tournament, Stanton nipped Clovis Yucca 40-44 with Kitchens again going with the game's high of 15. Scott had nine and Carpenter had eight.

In their final game with Gattis for the championship, the game was tied at 51-51 and just as the buzzer sounded, a Gattis player let loose with the ball and scored the winning points. This was the ninth grade's first loss of the season.

Stanton's eighth grade was crushed in their opener of the

tournament, by Clovis Yucca, 50-12.

For the Mavericks of La Plata, the ninth grade, leading throughout the contest, fell in the final quarter to the Estacado team, 39-37. At the end of the first quarter, the ninth graders from La Plata held a 13-7 lead and at the end of the second quarter, the score was closer with the locals holding a two-point lead, 20-18. Estacado took the lead in the third quarter as they went into the final stanza, 26-25.

Terry Champ led the scoring with 15 points on seven field goals and one free throw while Wallace Hill was second with seven, Larry McNutt with five, Danny Harris with six and Walter Olson with four.

The La Plata eighth grade, taking the only win of the night,

downed Estacado, 47-18 with eight boys figuring in on the scoring. James Harris led the scoring with 14 points, Jim Marsh had ten, Wayne Schumacher had eight, Lynn Lauderback had five, Dan VanderZee, four, Jerry Brock three, Bobby Bogard two and Lee Line two.

throughout the first half, fell victim to a cold second half to drop their game to the Plainview Estacado team in overtime, 41-35.

The next cage action for La Plata and Stanton will occur Monday night. La Plata will host Dimmitt while the Dogies will take on Tulia.

The eighth graders allowed Estacado only four points in the first quarter of their game while getting 18 of their own. In the second stanza, the score stood at 30-11 for the locals and at the conclusion of the final period it was 47-18.

# Herd Handed 2 Defeats In District Cage Play

By JERRY ODOM  
Staff Writer

Just as the district engine of the whiteface cagers shifted into high gear, a couple of sharp nails punctured their tires last week leaving them in worrisome shape.

Things were looking in tip top condition for the Herd after flogging the Tulia Hornets and Perryton Rangers in the beginning district encounters.

And then they were flayed by the Canyon Eagles Tuesday and outkicked by the Muleshoe Mules in an overtime affair.

In the Canyon game the point scoring was a swap off with the Eagles slightly ahead at half time 33-29. But from then on the margin began to broaden.

At the end of the third quarter the scoreboard read 50-39 and by the end of the game the Eagles had flown away, winning by a score of 69-50.

The Whitefaces posted three

players in the double figures Tuesday night — they being Mike Wartes with thirteen points, Marsh Pitman with eleven and Santry Rush with ten.

The Muleshoe game proved to be a revenge campaign for the Mules. Back in the heat of district football the Herd romped the Muleshoe crew by a score of 49-0. Then earlier in the basketball season this year, the Herd again was victorious against them by a score of 65-49 in a non-conference battle.

Muleshoe took the honors Friday night in their hometown but they had to go into overtime to do it. At the end of regular play the score was deadlocked 39-39.

When play started once again it appeared Muleshoe had found the net a bit more often than the Herd. The final score read 45 for the Muleshoe gang and 41 for the Whitefaces, leaving the

locals with a two and two conference record.

Six foot six Dennis Hicks was the top scorer for Hereford in the game with fourteen points.

Next in line was Percy Mays with eight, Marsh Pitman with seven, Santry Rush with six and Mike Wartes with four.

In other I-AAA action Friday, Perryton downed Tulia and top rated Canyon defeated Dumas in a battle for number one.

This coming Tuesday will end the first round of district play. On this date the Whitefaces will host the Demon boys from Dumas. And its evident that Hereford "must" come out the victor to remain a major threat for the conference champion.

## dry up, lady!

Think about it. Your biggest complaint about washday is probably the clothesline routine. With a family, it gets to be a hang up. You can spend a big part of your life hanging out T-shirts, mini-skirts and Hubby's socks. And sheets, and jackets, sweaters, bedspreads . . . even curtains. Not to mention the unmentionables.

You don't like lifting, lugging and wrestling loads of heavy, wet wash to the backyard. Then there's always the weather. Now's the time to do something about this bundle of problems with a GAS clothes dryer. A gas dryer does five loads of clothes for the price of one load in an electric dryer. So, dry up with gas.

**Registration Is Down In County**

According to a release by the Texas Democratic County Chairman Leo Witkowski, the voter registration drive, "Operation: Everybody!" for the county is lagging considerably as throughout the state. At last check-in, the number of registered voters in Deaf Smith County had reached 2,900, or 61.3 per cent of the estimated number of eligible voters here. This percentage rates Deaf Smith County 13th in Group 5 which has 24 counties between the estimated 7,500-6,000 voters. Lavaca, with 5,700 registered for 79.1 per cent, leads Group 5 for the state. "Operation: Everybody!" is an all-out plan to register more than 4,250,000 Texans between now and the end of the voter registration period which is Jan. 31. Each county has been given a quota. These quotas were based on the fact that 56.3 per cent of all Texans are 21 or older. From the Bureau of Business Research at the University of Texas, estimates on each county's population were secured then computed. Then, each county was given a quota of registering 65 per cent of that number to meet their goal.

**ProChemco Inc. Has Expanded**

AMARILLO, Texas, January 19, 1970 — ProChemco, Inc. has expanded its cattle ranching operations approximately 150 per cent through acquisition of a 2,880-acre pasture operation near Poplarville, Miss., it was announced today by Paul F. Engler, president and chairman. Purchased for an undisclosed amount of cash and notes from Pierre Valcour Miller of New Orleans, the property in-

creases ProChemco's total land holdings in Mississippi to 4,000 acres plus an additional 800 leased acres. When improved, the Mississippi land will provide winter pasture for more than two head of cattle per acre, ultimately supplying approximately 10,000 steers per year to be finished in ProChemco's two feed yards in Hereford, Texas, and Ohio, Nebraska. "This is a significant step toward achieving ProChemco's goal of reducing the geographic and economic risks of the cat-

tle business," explained Engler. "The recent rapid growth of the feeding industry in the Great Plains has caused a serious shortage of feeder cattle. ProChemco has initiated a brood cow and growing operation to insure an economical supply of calves and yearlings." ProChemco's Montana ranch provides the company's feed yards with calves and yearlings in the fall, and the Southeast winter grazing operation will supply yearlings during late spring and early summer.

"The Southeast is rapidly becoming the Great Plains' largest source of cattle," Engler related. "By locating our growing operation there, we not only get higher returns on investment, but we also eliminate much of the sickness and death loss caused by the stress of shipping light calves long distances." Engler pointed out: "We have complete faith in each segment of the cattle industry, and feel ProChemco can substantially increase its net income from cattle operations by developing

By MELVIN YOUNG

It's coming soon. The solution to the ever present problems of how to raise money for local service clubs and the prevention of the littering of the streets.

It's the all-aluminum beer can. The Adolph Coors Company of Golden, Colorado, hopes to begin salvaging its aluminum cans sold in the area beginning February 1. The all-aluminum containers for Coors beer can be shredded and the metal reused; company officials say, and intimate that all brewers will soon be using the reusable cans rather than the tin and steel ones.

The salvaging at 10 cents per pound, will be handled through company distributors, who in turn, will work through service clubs. It takes about 23 cans to make a pound, we're told.

We might even suggest a centrally located collection area where beer drinkers could do their civic duty while embarking and toss the empties here rather than out the auto window along the roadway. If we could get the deal going, service clubs might make a fortune and do a good turn for the community as well. And then there's always that stretch of road between Hereford and the retail outlets south of town. Of course it would be quite a bit of work picking them up, but the supply is ample.

Now, if we can just come up with a use for used soft drink caps and chewing gum wrappers, we've got the litter problem whipped.

Which reminds us that back during World War II, we had to return the empty tooth paste tube before purchasing a new supply.

Never could figure out how they got the wrinkles out after refilling!

That's enough dumb puns. But truthfully, the problem of waste disposal is becoming stupendous. If you don't believe it ask the mayor of any city, from the smallest to the largest.

We realize of course, that Mayor Lindsey has had more than his share of problems in New York, but every city is faced with the problems and it just gets bigger and bigger every year.

The professional writers have come up with a lot of adjectives to describe the decade of the sixties, but you can take care of the seventies with just one word. CHANGES!

And we sincerely believe that with these changes will come SOLUTIONS to the many problems that have popped up the past 10 years.

If not, then we may not need to worry about the eighties.

Just one week left in which to qualify as a voter for the 1970 elections. Deadline for registration is January 31.

There will be a number of important issues facing the voters in 1970 other than the normal political races. For instance, the city is again considering a 1 per cent sales tax — not as a substitute for the present ad valorem taxes but as a possible deferment to an increase in this area. There could also be an important vote concerning additional educational facilities for our area, above the high school level, and there will be races for city council and school board coming up as well.

Democratic and Republican primaries and a general election in the fall. Any voter ought to get his money's worth in 1970.

Besides that, it's free. Remember, the professional bureaucrats told us a few years ago that if we would do away

with the poll tax (\$1.75) potential voters would flock in to register?

So far, they haven't flocked. We still have the same old problem of getting the voters to register.

In all seriousness, it's most important. Do your thing. Register now and be prepared to vote later.

By the way, Mrs. W. B. Nunley of Westway has entered the race for County Treasurer. She filed Saturday morning and her formal announcement will be carried in the Thursday paper.

That makes three in the race for the treasurer's job, which will be vacated this year by Velma Hodges.

In 1970, there will be more than 200 million automobiles in the United States. If you want to cross the street, you'd better do it now.

## Episcopal Class Begins Tonight

The Winter-Spring Episcopal Inquirers' Class will commence tonight, at 7 p. m. in the St. Thomas Episcopal Church Parish Hall. The class is open to all who are interested in learning about the Episcopal Church's doctrine, history, theology, etc. The class will be conducted in seminar structure, and it will be led by the Rev. Fred J. Howard, Vicar of St. Thomas.

In commenting about the class, Mr. Howard emphasized that it was not simply a 'new members orientation class' but rather an open seminar directed at presenting the tradition and perspective of the Episcopal Church. The class is aimed at three categories or interests: (1) Non-Episcopalians who are curious about the Episcopal Church and who would like to learn about it without being pressured or embarrassed about joining the Episcopal Church; (2) Anyone interested in being confirmed in the Episcopal Church who would like to satisfy the necessary study requirements for doing so; and (3) Episcopalians who would like to take a 'refresher' course.

The hour and day may be changed to meet the needs of those taking the class. It is scheduled for seven weekly sessions of two hours each. There is no tuition fee other than personal interest. St. Thomas' Episcopal Church is located in the 600 block of West Park Avenue.

Saucy Ideas

By Mrs. Argen Draper  
Home Demonstration Agent

Beef fondue has increased in popularity both for casual meals and for cooking for one or two persons. As there have been requests for the sauce we used in the January demonstrations and for other sauce recipes, we will list some. Sauces can be made ahead of time and stored in the refrigerator until the meal is served. However, sauces are better served at room temperature.

**SOUR CREAM SAUCE**  
1 cup dairy sour cream  
1/2 to 1 t. curry powder  
1 t. prepared horseradish  
1/4 t. sugar  
1/2 t. salt  
paprika

Blend all ingredients together except paprika. Place in small serving bowl and sprinkle with paprika. Serves 5.  
Two to four tablespoons of sauce per person is normally a sufficient serving. These recipes are given in "parts" so you can fit the amount to serve your family.

**HORSERADISH SAUCE**  
Two parts sour cream, one part

horseradish, two parts mayonnaise.

**PAPRIKA SAUCE**  
Five parts sour cream, one part paprika, one part, finely chopped onion, pinch of salt per serving. If you have some of this sauce left, you'll find it great as a sandwich spread or cocktail dip.

**MUSTARD SAUCE**  
One part dry powdered mustard, three parts mayonnaise. Worcestershire Sauce.

One part Worcestershire sauce, three part mayonnaise. Naturally, you can use the Worcestershire sauce without mayonnaise.

**TOMATO SAUCE**  
1 cup catsup  
1 t. worcestershire sauce  
2 T. finely chopped onion  
2 T. finely chopped green pepper  
1 T. all-purpose flour  
1 T. finely chopped ripe olives  
Combine all ingredients in a small bowl and stir to blend well. Cover and chill 1 hour. Makes about 1 1/4 cups.

Pecans can become rancid. The high oil content which lends their characteristics rich flavor makes pecans very perishable. To store pecans for year around use the cooler the place the better.

At room temperature (70 to 80 degrees) pecan meats keep fresh only two months. In the home freezer at zero degrees, pecans will be in good condition for two years.

Before cracking pecans, soak them in water to increase the number of whole kernels obtained. Pour boiling water over the nuts and let them soak 15 to 30 minutes depending on the thickness of the shell.  
Soaking makes the kernels more pliable so they hold together better during the shelling operation. Crack the pecans when the shells are dry.

Like meat, pecans supply protein, fat and B. vitamins. One cup pecans halves has 740 calories.  
Pecan flavor blends well with

many foods; waffles for breakfast, soup or bread for luncheon, salads, pastries and desserts for dinner.

Other ideas for using pecans: add chopped nuts to bread crumbs for casserole topping, use chopped nuts to top pumpkin pie in the last few minutes of baking, or roll cheese balls in chopped nuts before serving.

Make nut-bread fingers to serve with salads by rolling fingers of buttered bread in chopped pecans. Or try mixing equal amounts of chopped pecans and chopped olives with mayonnaise to moisten. Spread this on whole wheat bread for extra special sandwiches.

There have been some favorable comments on the apple crisp recipe of last week. Another has been recommended for serving two people:

**RAISIN SPICE APPLE CRISP**  
Base: 2 medium size apples  
2 T. firmly packed brown sugar  
1 t. lemon juice  
Topping: One 1-1/2 pkg. instant oatmeal with raisins and spice uncooked  
1 T. all-purpose flour  
1 T. butter or margarine, melted

For base, peel and slice apples, divide evenly between two individual 12 oz. baking dishes. Add 1 tablespoon brown sugar and 1/2 teaspoon lemon juice to each, toss lightly.

For topping, combine oatmeal and flour. Stir in butter until mixture resembles coarse crumbs. Sprinkle mixture evenly over each apple base. Bake in preheated oven (375 degrees) about 25 minutes or until apples are tender. Serve warm with cream. Makes 2 servings.

At least two cups of milk a day is recommended for all adults who need the calcium in milk for strong bones and teeth. "Eaten milk counts toward this requirement and a good share of the day's milk can appear in soups, cereals, sauces, casseroles, and desserts.

Evaporated milk is ideal "eating" milk as it contains twice the nutrients of whole milk. It blends easily with other ingredients and adds extra richness and creaminess to sauces and soups. Use it in soup stocks and with canned soups in place

of water. Mash potatoes with evaporated milk for smooth and fine flavored potatoes. When scrambling eggs, add 1/2 cup evaporated milk for every 4 eggs.

The food dollar isn't what it seems. Today we spend actually less, percentage wise of our income on food than ever before. Percentage of income spent by average Americans for food declined from 20.7 percent in 1957 to 17.4 percent in 1967, down to 17.2 percent in 1968, according to U. S. Department of Agriculture statistics. Food costs definitely have not increased as fast as the wages of food buyers. Farmers received 39 cents out of the dollar spent for market basket of U. S. Farm foods in 1968, an increase of one cent over 1967. The remaining 61 cents of the

County-serving Office Is Now Located In Amarillo

State Representative Walter Knapp of Amarillo reported recently that improved services to blind and visually disabled Texans in the twenty-five county area surrounding Amarillo are anticipated as a result of the establishment of a new State Commission for the Blind district office located in Colonial Plaza, 1309 West 8th Avenue, Amarillo.

This new district office, under the direction of vocational rehabilitation counselor Myron Lasher, will serve visually disabled and blind persons located in Armstrong, Briscoe, Carson, Castro, Collingsworth, Dallam, Deaf Smith, Donley, Gray, Hall, Hansford, Hartley, Hemphill, Hutchinson, Lipscomb, Moore, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Sherman, Swisher and Wheeler Counties. Residents of these counties had previously been

served from the Commission's district offices located in Lubbock.

Also located in the Amarillo office is Miss Joy Kirkpatrick, visually handicapped children's caseworker. A rehabilitation teacher to serve primarily homebound blind individuals will be added to the staff at a later date.

Through the agency's vocational rehabilitation program and related services, adjustment and vocational training, counseling and guidance, physical restoration, optical aids, sp-

cial tools and equipment, and related types of assistance are available to eligible blind and visually impaired individuals. The State Commission for the Blind offers all services to the blind except those which are educational or welfare in nature.

The agency's goal in the children's program is the prevention of blindness and conservation of sight. The children's caseworker also counsels the parents in training and guidance of a child who has an irreparable severe visual impairment.

The Commission now has 17 district offices located throughout the state. The telephone number of the new office in Amarillo is (806) 372-2333.

# Loves Friendly Town

By BARBARA DRYDEN  
Society Editor

"This is just about the friendliest town I've been in, and I haven't met an unfriendly person yet," says Mrs. Wylie Allumbaugh, who moved to Hereford in August from Plainview. I even like it better than Plainview," she said, "but I haven't found a fishing buddy here yet."

"Scooter," as she is known by all her friends, is quite an avid fisherman, and is looking forward to finding a spot near here in which to fish. "I can even forget the day of the week when I'm fishing," says Scooter, "and I love to fish in any kind of weather."

Mrs. Allumbaugh's first name is Maggie Lena, but she prefers to be called Scooter, which she acquired when she was a baby because she scooted instead of crawling. "You can imagine what it sounds like when you get the horrible name Maggie Lena together with Allumbaugh," she said with a twinkle in her eye, so I'd rather use the nickname of Scooter."

Scooter has developed another hobby when on her many fishing trips, which is quite artistic. She collects weeds of all kinds and makes dried floral arrangements from them. The arrangement of cattails in the photo is mixed with lovely flowers made by Mrs. Allumbaugh out of horse apples. The apples are sliced and baked, which come out in different shapes and forms and make beautiful arrangements.

The Allumbaughs lived in Plainview four years where they moved from Dumas. Wylie is terminal manager of Western Commercial Transport, Inc. which he also managed in Plainview and Dumas.

He doesn't share her love for fishing as much as she would like, she said, because he doesn't have the time, but they enjoy traveling and made a trip to California last year.

She also enjoys hobbies of knitting and bowling. She recently joined a bowling league and is getting back into the swing of things after not bowling for several years.

She has knitted a lovely sweater cape for a friend and is busy making an afghan.

The Allumbaughs have three sons and five grandchildren living in Missouri and Alabama. They hope to visit them this summer on their vacation.

## Book Recaptures Era Of Events

Available at the Deaf Smith County Library this week is the story of a young reporter who sets out to get the biggest story of the year and becomes, in the end, the doomed victim of a frightening experience.

**ORDAINED**  
By Robert Leckie  
The story of a young priest consecrated to the traditions of a Church in a world assailed by change. The road Father Robert Cullen travels in these pages is a long one, and it takes him from a grimy New Jersey parish, where his heart and conscience collide with duty and dogma, to the blood-soaked battlefields of World War II, where his heart and faith are tested in the sight of savagery and suffering. It is in this crucible that he learns in full measure the place of the man of God in the world of man.

Ordained recaptures the events of an era as a setting for a vivid portrayal of spiritual devotion tempered by human compassion — as a perceptive reflection of prophetic unrest in the affairs of the Church and the burgeoning chaos in the affairs

## CARNAVARON'S CASTLE

by Jean Francis Webb  
When young Jennifer Stratton accepted an invitation from the widow of famed actor Charles Carnavaron to spend a weekend at Tintagel Castle, she thought only of how exciting it was to be the first person allowed to interview the eccentric recluse. Jennifer was also eager to prove to her fiancé (and boss) that she could write an attention-getting story to publicize the upcoming prestigious Carnavaron Awards, named for the dead actor.

But her first sight of the castle — bulky, sullen, cold, and mysterious — made Jennifer strangely afraid. And the strange inhabitants and peculiar happenings on the island didn't ease Jennifer's mind.

Why did they put her in Charles Carnavaron's old room? Who was trying to scare her away by pretending to be the actor's ghost? It couldn't be frail, old Miranda Carnavaron, who was being so kind to Jenny, or Lizzie, the half-witted servant girl. Could it be handsome

## GOOD FOOD IS MY LINE

By Red Hagan

Many praise the restaurants of other nations over ours, but all in all, Americans don't have to take a back seat to any one in the culinary field. According to reports from recently returned tourists who have made the big swing through Europe, all Frenchmen eat like Kings, Germans are served only the finest dishes of soderbraten and wiener-schnitzel, and Italians leisurely dine with rare vintage wines combined with their pasta. We must remember that this is only the tourists view. What would a European John Doe like us report when he returned to his homeland after hitting the connoisseur's high spots of this country? I'm sure the report would be highly favorable.

## Sea Shells Is Topic Of Calliopian Club

An interesting program entitled "Our Changing World in Water" was presented by Mrs. Barbara Self to members of Calliopian Club at a meeting Thursday evening in the home of Mrs. Bob Word.

"A sea shell is actually the muscle around the body of a

fish," she said. The mollusks, which are popular foods are clams, oysters, snails and of course the pearls which form in the shell as a sort of cyst are most valuable jewels.

The Conch is also a beautiful shell with mother of pearl lining the shell.

The hinged shells of the scallop are also a unique creation, she added.

Shells vary with the ocean in which they grow. They are used as ornaments, fertilizer and paving materials such as caliche.

Other members attending were Mmes. D. W. Palmer, Emil Dettman, Ansel McDowell, George Warner, J. T. Gilbreath, Thomas Kendrick, B. F. Cain, Jack Wilcox and Sue James.

The next meeting will be held Feb. 12 by Mrs. Palmer. She will present a program entitled "Our Changing World In Music."

### CARD OF THANKS

To my many friends,  
 I can't begin to find words to express my deep love and appreciation for all the pretty cards, the beautiful flowers and lovely gifts, your visits which I enjoyed so much and most of all — your prayers meant so much to me during my long stay in the hospital. Thanks also to the ones who watched over me at the time of my wreck. I want to especially thank Doctors Rush, Mims, and Nobles, and the nurses for all of their efforts; also, thanks to Marlin, Eva, and John Gilliland.  
 Sincerely,  
 Mrs. J. B. Sowell

# New Mill, Manager At Texsun Feedyards, Inc.

With the recent completion of their new mill, Texsun Feed Yards, Inc., also announced that Wayne Barber, former general manager of Texas Agricultural Enterprises of Midlothian, has been named manager, replacing Art Baker who is going into phases of the cattle

business. Barber was born and raised on a farm and ranch in Dalhart, and received his BS degree from Abilene Christian College, majoring in Animal Husbandry. His parents still have farming and cattle interests in that area.

He has been associated with cattle feeding for the past 11 years and for the past five years has been general manager of Texas Agricultural Enterprises, a cattle feeding and ranching operation.

Baker will remain a stockholder of the corporation and will be an advisor to the directors and manager of the yard. Directors include C. F. Newson, Lowell Sharp, Frank Ziffser, Jr., Zearl Cansler, A. H. Cook, Frank Barrett, all of Hereford and Don Harwell, of Vega.

Texsun Feedyards, Inc., probably one of the oldest lots in Deaf Smith County, was built

by Homer Brumley of Hereford in 1945 to feed his cattle being slaughtered in his own facilities. Originally, the capacity was 1,600 head and remained at this capacity until 1965 when Baker and Charlie Stone purchased the lot and named it Hertz Livestock Industries, Inc.

All existing pens were removed at this time with additional pens being constructed over the next three years increasing the capacity to 5,000 head.

In 1969 the feedlot was reorganized with additional stockholders and the name changed to Texsun Feedyards, Inc. A new expansion program was started immediately by increasing capacity to 15,000 head and constructing new office, new mill and additional cattle handling facilities with an outlay of

\$500,000.

The new mill was constructed by Brown McKee Construction Company of Lubbock. The mill features new and unique grain processing equipment engineered and constructed by Process Engineering, Inc. of Red Rock, Oklahoma. This equipment provides the mill with absolute control of gelatinization of the grain, moisture, heat, and capacity. The capacity being approximately twice the amount of pounds per hour per roller processed as conventional types of equipment. Capacity of the mill is 45 tons of complete

feed per hour. The feedyard is feeding corn at the present time and will feed corn through November of this year.

Texas produces more sheep than any other state.

## St. Anthony's Elect Council

The Parish Advisory Council of St. Anthony's Church, with ten new members elected recently, met Tuesday evening in the school library.

Elected to serve for a three year term were: Mrs. August (Buster) Miller, Mrs. Ed Schilling, Mark Koenig and Ed Reinauer, Jr. Serving for a one-year un-expired term will be Mrs. Freddy Cooper, Mrs. Arnold Fangman, and Larry Waltersheid.

Also serving one year terms are: Jeanette Waltersheid, representing the Young Adults Organization; Kathy Schumacher and Chris Dziuk, Catholic Youth Organization.

Remaining members on the board include: Charles Schlabs, chairman for the past year. Mrs. Arnie Husmann, Mrs. W. J. Albracht, Jim McAndrews, and S. T. Loerwald.

Ex-officio members include clergy and sisters of St. Anthony's and representatives to the Diocesan Pastoral Council: Mrs. Ed Loerwald, Mrs. Jim McAndrews, Owen Seamands and Charles Schlabs.

Highlight of the meeting was the election of officers for the coming year: Ed Reinauer, Jr., president; S. T. Loerwald, vice-president and Mrs. Buster Miller, secretary.

Giving committee reports and guidelines to the Council were chairmen: John Tomasi, education; Mrs. Carl Last, ecumenical; and Mrs. Ed Loerwald, finance.

In recent years, the world has become somewhat easier for the sizable minority of left-handed people. Manufacturers now turn out left-handed golf clubs, egg and other articles. Some banks furnish left-handed checkbooks, the stubs to the right of the checks.

## Mother's March Nets \$1,817.00

Members of La Madre Mia Study Club and their workers collected a total of \$1,817.00 on the Mother's March for the March of Dimes according to a report given at a club meeting Thursday evening in the home of Mrs. Norman Hodges. Mrs. Jerry Don Glover was co-hostess.

They expressed their appreciation for the help received Citizen Band Radio Club, Tri-Hi-Y and the Community Center, also all of the many-volunteer workers who helped with the canvass.

Mrs. Hodges presented a program on the use of cosmetics with each member participating.

The program was followed by a business session with Mrs. Waldo Baxter presiding. Future club projects were discussed and plans were made for the husband's party scheduled at 7:30 p. m. Feb. 14 in the Community Room of the First National Bank. Hostesses for the occasion will be the social committee.

Others attending the meeting were Mmes. Don Walser, Ben Scott, C. D. Adams, Roger Williams, Dean Herring, Bobby Owen, John Smith, Charles Frye, Herschel Black, Charles Watson, Don Lane, Gene

**Washington Report**

From Congressman **BOB PRICE**, 18TH DISTRICT, TEXAS  
1323 LONGWORTH OFFICE BUILDING, WASHINGTON, D. C. • 205-3708

The announcement Friday that all farm program payments for 1970 will be made in July and early August was hailed Monday by Congressman Bob Price as a partial victory. "I have been working closely with Secretary of Agriculture,

Clifford Hardin, since the Bureau of the Budget advised him that advance payments could not be made this year. We shall continue to urge the Bureau to allow advance payments, meanwhile, because both Secretary Hardin and I recognize the extreme financing problem facing farmers the Secretary's Friday announcement that full payments will be made in July and August is a partial solution," Price said.

**Yarborough Issues Plea**

Senator Ralph W. Yarborough (D-Tex.) today urged all Texans to register to vote before the January 31 deadline.

Senator Yarborough said, "I am greatly concerned because voter registration totals are down in the small and medium population counties. It's essential for good government that the people in the small towns of Texas and in the rural areas register so their voice can be heard through the ballot boxes on election day.

"All eligible Texans must register before the January 31 deadline, including those senior citizens over 65 years of age who reside in the rural counties of our state," Senator Yarborough said.

"Let me warn you, if only a small, select number of people register to vote, then this small group alone will have their say on election day. All eligible citizens must register by the January 31 deadline if true democracy by all of the people is to reign during 1970.

"The only way we can have a true democracy with the government representing the people is to have great numbers of citizens register," Senator Yarborough said.

"The program announced by the Secretary will assure that voluntary diversion payments as well as feed grain and cotton price support, and wheat certificate payments will be made in July and early August. This will put most of the approximate \$3.3 billion in 1970-crop payments in producer's hands as much as two months earlier than usual," he added.

"While everyone connected with agriculture can certainly understand the need for advance payments, the Bureau of the Budget has filed that a balanced budget is absolutely necessary to fight inflation which is hurting the farmer more than almost anyone. Consequently this program for making farm payments after the beginning of the new fiscal year on July 1 has been instituted," Price said.

**Farwell Stops Visiting Walcott**

Last week proved a disastrous one for the Walcott cagers as both the boys and girls were dropped by the host Farwell teams.

The girls, trailing by only three points at the half, 9-12, saw the Farwell girls toughen up in the final two quarter to take the game, 22-13.

For the boys, things were somewhat worse as the Farwell quintet grabbed an early lead, took a 13-6 margin into the locker room at half time, then came back out in the second half to demolish the Wildcats, 38-15.

The next game for the Wildcats will be Monday when they travel to Vega.

### Letter To The Editor

Dear Editor,

Having noted the various articles in the Brand as to the change made in the making the 1970 diversion payments.

The one-half of these payments are not to be made earlier as has been done formerly.

We can think of just two reasons for this course of action.

The first, it has seemed to us that there are some in the U. S. D. A. who would want anything coming to the farmer

to be of the least benefit to him. Second, that it would be an additional expense to the government.

To counter this let us offer this suggestion.

That each one signing up in the program be charged with the interest at the going rate. The interest to be for the amount of time from when the first one-half could be made until the date of final payment.

This procedure would be of benefit to most farmers, and at

## Along The Frio

By MRS. OWEN ANDREWS  
Brand Correspondent

Frio Homemakers Club had its first meeting of the new year in an all-day session, at the home of Mrs. Annie Lee Dobbins, on Jan. 23. Guest demonstrators, Mrs. Joe Benson and Mrs. Wesley Brown, both of Dimmitt, brought cosmetics and clothing for the ladies to see. Mrs. Annie Springer was the subject for a facial during the morning session. After the luncheon, several ladies modeled clothing. During the business meeting, presided by Mrs. T. L. Sparkman, Jr., new year books were given out. Others attending the meeting were Mesdames Harlan Barber, David Yandell, Olin Parris, Ben Scott, Edgar Vinson, Henry Andrews, Eugene Baldwin, E. F. Vogler, Jim Brooks, Henry Andrews,

Tommy Sparkman, Owen Andrews and Miss Alma Andrews. The next meeting is scheduled to be Jan. 27 in the First National Bank Community Room with a guest speaker from out of town.

Attending the Lanos Altos Baptist Associational Quarterly meeting for Young People, at Bovina Baptist Church on Jan. 12, were sponsors Mrs. Floyd Cole, Mrs. Charles Self, Mrs. Sam Ogan, Mrs. Weldon Stephenson and Mrs. Mike Waldrip. Young people attending were Billie Faye Manion, Cheryl Cole, Boyce Waldrip, Jerry Robbins, Debbie Ogan, Rhonda Steppan and Marsh Pittman. Guest speaker was Marge Caldwell, from Dallas, very talented and inspirational speaker.

Jerry Blackburn came home Jan. 8 with a release from the Army. He has just completed a year of duty in Vietnam. Jerry is employed with the Highway Department, and staying at home with his parents, the Arthur Blackburns.

Mrs. Dovie Isbell, of Tahoka, is spending a few days with her sister, Mrs. G. W. Parker.

Mr. and Mrs. Homer West returned Thursday from several days in Denver, where Homer underwent tests in a hospital. The reports indicate less serious ailments than had been feared for Homer and they hoped to be able to get the needed treatment here.

Ted Bush underwent surgery for a blood clot in his leg on Monday. He is in Northwest Texas Hospital, Amarillo.

Mr. and Mrs. T. L. Sparkman, Sr. visited her brother, F. J. Springer and Mrs. Springer at Kress on Sunday, Jan. 11. The Springers had celebrated their 61 wedding anniversary that week and they and the Sparkmans were guests of a friend at a local restaurant for lunch that day.

Newcomers to the community are Mr. and Mrs. James Blackwell and two sons, two year old

**Guild Program Concerns Wills**

Local attorney Wayne Thomas presented a program concerning wills and legal documents to thirty members of the St. Anthony's Guild with their husbands as guests at a Thursday evening meeting held in the parish auditorium.

Mrs. Joe Schumacker introduced Mr. Thomas who, in his talk, stressed the importance of making out a will and explained the consequences which occur when a person does not have one at the time of death.

Following the program the group were allowed an open question period.

Presiding over the meeting was, Mrs. Bill Gilliland, president.

Refreshments were served by Meses. Alvin Schmucker, Ed Hoffman, Mark Lindeman, and Raymond Schlabs, hostesses.

Fresh dairy cottage cheese is made from pasteurized skim milk, separated into curds and whey. The salted dry curd is sold as plain cottage cheese. Creamed cottage cheese is the same curd with three tablespoons of light cream per cup added.

**CFWC Meeting Slated Friday**

Women's contributions, past and present, to the cultural life of Deaf Smith County will be surveyed in the program for the winter meeting of the County Federation of Women's Clubs, to be held at 12:30 p. m. next Friday in Community Center.

Mrs. Elmer Patterson will direct the program, a facet of the general topic, Texas Heritage. Author of a history of Deaf Smith County and its pioneer settlers, Mrs. Patterson will sketch the contributions of individual women and several women's organizations in such fields as music, the county library, Deaf Smith Historical museum, art and philanthropy.

An exhibit from the museum arranged by Mrs. Henry Sears will be presented with comment by Mrs. Sears, one of the offi-

cers of the county Historical Society who was instrumental in establishing the museum.

Music on the program will be by groups from Hereford High School's award-winning band, Mrs. A. J. Schroeter, Federation program chairman, announces.

It will follow the customary covered dish luncheon of the Federation, which is open to all interested women of the county as well as members of the affiliated clubs. Hostess clubs are Lone Star Study, Hereford Garden and Hereford Ceramic.

Mrs. W. T. Carmichael, president, will be in charge of a short business session. She was hostess for a Federation board meeting in her home Saturday afternoon.

# Sherian Seiver Is Bride Of Roger Lee Gregory

Wedding vows of Miss Sherian Kay Seiver and Roger Lee Gregory of Canyon were solemnized at 7:15 Friday in the First Baptist Church here with the Rev. Gerald Mann, pastor, officiating.

Parents of the couple are Mr. and Mrs. John Seiver 114 Elm and Mr. and Mrs. D. N. Gregory Sr. of Paducah.

Following a wedding trip to Santa Fe, New Mexico, the newlyweds will be at home at 1618 Line Ave., Amarillo, where he is employed. They are both students at West Texas State University in Canyon where Gregory is an agri-business major and his bride is majoring in physical education and English. An arch of greenery entwined with white doves was lighted by spiral and tapered candelabra across the front of the church as a background for the wedding. Lighted votive candles with greenery and doves lined the bridal aisle.

Mrs. Steve Russell of Canyon was matron of honor and D. N. Gregory Jr. served his brother as best man.

Bridesmaids were Mrs. Jerry Leatherman, and Miss Helen Reed of Canyon. Jimmy Sweeney of Paducah and Pat Paschell of Lubbock were groomsmen and ushers were Terry Danc, Paducah, Harold Seiver, cousin of the bride of Donna

and Johnny Seiver, the bride's brother.

Junior bridesmaid was Miss Terri Linn Seiver, sister of the bride.

Mrs. Sam Long was organist and Mrs. Wayne Hamilton and Miles Medcalf were vocalists. Selections included Twelfth of Never, More, Wedding Prayer and One Hand, One Heart.

Given in marriage by her father the bride wore a formal gown of white velvet and imported Italian lace with seed pearls tracing the empire lace bodice and legs of mutton sleeves. It was styled with a line skirt and Watteau train attached at the high back waist line. Lace flowers, enhanced by seed pearls held the cathedral length double veil of illusion and she carried a cascade of red roses on a bridal Bible.

Her only jewelry was a gold locket a gift from the bridegroom.

Her attendants wore formal gowns of red velvet styled with empire silhouette and leg of mutton sleeves. They carried white fur muffs with a long stemmed red rose attached.

A reception followed the ceremony in the Fellowship Hall of the church where wedding guests were registered by Misses Sidnye Davis and Jan Nelson of Canyon.

White doves and red bells decorated the five tiered wedding cake which was surrounded by four heart shaped cakes at the bride's table.

The bridegroom's table was laid with a red cloth and held a red and white floral centerpiece and chocolate cake.

Presiding at the tables were Mrs. D. N. Gregory Jr. and

Miss Susan Brazeal of Canyon. Members of the houseparty included Mrs. B. R. Milstead, Mrs. Jake Sides and Mrs. J. F. Wagner Jr.; all aunts of the bride from Roswell; Mrs. Rex Lee, Mrs. Bill Willis, Mrs. E. Leasure, Mrs. W. D. Gibson and Mrs. Gwynne Owen.

Out-of-town wedding guests were Mr. and Mrs. J. F. Wagner Sr., Mr. and Mrs. Jake Sides and family, Mr. and Mrs. B. R. Milstead and family, Mr. and Mrs. J. F. Wagner Jr., all of Roswell; Harold Seiver, Donna, Tex., Mr. and Mrs. A. G. Bontke and family of Kress, Ir. and Mrs. Ace Hooper of Plainview and Miss Cindy Henderson of Spearman.

# Miss Jane Messick Wed In Impressive Ceremony

In a candle-light ceremony performed at 6:00 p. m. Saturday in the First United Methodist Church of Plainview, Miss Jane Elizabeth Messick, daughter of Mr. and Mrs. William John Messick, formerly of Plainview and Hereford, became the bride of Lt. Warren David Mueller, son of Mr. and Mrs. Irving David Mueller, of Peekskill, New York. The bride is the granddaughter of Mr. and Mrs. W. H. Messick of Plainview, also of the late Mr. and Mrs. C. E. White, pioneer residents there. The Rev. Mark B. Williams, pastor, officiated in the double ring ceremony.

Sprays of greenery and white bows marked the bridal aisle leading to altar arrangements of chrysanthemums, gladioli, smilax and votive candles. Candelabra holding lighted white tapers fringed with gypsophelia, and tropical palms, completed the background.

Mrs. W. J. Stanford, organist, played "At Dawning" (Cadenan) and "Because" (Chardot) preceding the ceremony. She accompanied Mrs. Richard J. Godwin, Hereford, who sang "I Love You Truly" and "Always". During the ceremony Mrs. Stanford played "Roses of Picardy". The "Bridal Chorus" from Lohengrin (Wagner) was used for the processional and the recessional was Mendelssohn's "Wedding March".

## BRIDE ENTERS WITH FATHER

The bride entered on the arm of her father who gave her in marriage. She wore a traditional formal gown of white silk satin in empire mode, with a portrait neckline and long tapered sleeves ending in a point at the wrist. Appliques of pearl embroidered peau d'ange lace adorned the bodice and sheath skirt. The sunburst train swept to full chapel length and the tiered veil of imported silk illusion was attached to a petal princess crown of lace and pearls. She carried a colonial cascade of white Sweetheart roses encircled by gardenias and Stephanotis, with streamers of white satin atop a lace covered bridal Bible, gift of her aunt, Miss Blanche White. She attached with love knots to her bouquet, the engagement ring which had belonged to her paternal grandmother, Mrs. W. H. Messick, and the wedding ring which had belonged to her maternal grandmother, the late Mrs. C. E. White.

Mrs. Gerald D. Leatherman of Hereford, was matron of honor, and Misses Audrey and Diane Mueller, sisters of the groom, Peekskill, N. Y., were bridesmaids. The attendants were attired in mental-floor length gowns of azalea pink chiffon with bateau neckline and bishop sleeves. A flowing panel accented the back of the

empire gown, and satin bows of the same color adorned the shoulders. Their wedding ring crown headdresses were brimmed with tulle illusion. They carried cascade bouquets of pink roses with pink velvet streamers.

Alison Gae White, daughter of Mr. and Mrs. Ronnie White of Terrell, Texas, cousin of the bride, was flower girl. She wore a floor length gown fashioned after that of the other attendants. She was escorted by Danny Dean, son of Mr. and Mrs. Bill Dean of Amarillo, cousin of the bride. Chance Wade White, son of Mr. and Mrs. Kenneth White, Plainview, cousin of the bride, was ring bearer.

Candles were lighted by Robert Messick, El Paso, and William Mueller, Peekskill, N. Y., brothers of the bride and groom.

Lt. Kenneth Douglas Knapp, Ft. Bliss, served as best man. Groomsmen were Lt. Michael Paul-Hulten, Ft. Sill, Oklahoma, former West Point classmate of the bridegroom, and Lt. James M. Palmer, V. Ft. Bliss.

Serving as ushers were Ronnie White, Kenneth White, Bill Dean, Robert Messick and William Mueller.

## RECEPTION HELD AFTER CEREMONY

The reception was held for the couple in the church parlor after the ceremony. The bride's table was covered with white net over satin, and held a central arrangement of silver candelabra with pink tapers and flowers in the bride's colors. Anthurium and ti leaves, sent for the wedding from Wahiawa, Hawaii by Mike White, cousin of the bride, were also used in a table arrangement. Cranberry punch was ladled from a silver punch bowl by Mrs. R. G. Peeler, Hereford, and the tiered wedding cake was served by Mrs. George Redinger, Plainview.

Members of the houseparty were Miss Blanche White, Mrs. Emmett White, Mrs. Tom Dean, aunts of the bride, and Mmes. Bill Dean, Ronnie White, Kenneth White, Tim Wilson and Glen Yates, all cousins of the bride.

For a wedding trip to points in New Mexico the bride wore a tangerine wool frock with matching accessories, and a white rose corsage lifted from her wedding bouquet.

After February 1 they will be at home in Northgate Apartments in El Paso. The groom is presently assigned to A Battery 7th Battalion, 61st Artillery, Chaparral - Vulcan.

The bride attended West Texas State University in Canyon, Texas, two years and will graduate in May from the University of Texas at El Paso with a B. S. degree, majoring in Element

ary Education. The groom graduated from the U. S. Military Academy at West Point in 1969 after attending the State University of New York at Stony Brook 2 years.

## PRE-NUPTIAL COURTESIES

Pre-nuptial courtesies extended the bride included a miscellaneous shower held in the home of Mrs. R. G. Peeler, Hereford. Other hostesses were Mrs. J. R. Allison, O. G. Hill, Jr. Ted Panciera, Dale Tinnin, Garland Solomon, H. C. Williams, Leslie B. Owens, M. W. Nobles, and Earl Huckabee.

A miscellaneous tea-shower was also held in Plainview in

the home of Mrs. George Redinger. Other hostesses were Mrs. M. B. Hood, Wesley Barnes, Helen Pemberton, Misses Lou Scarborough, Mildred Tucker, Wilma Courtney and Jo Ann Clements.

Mrs. Redinger entertained with a luncheon in her home for feminine members of the bridal families on Saturday. Guests were Jane Messick, Mrs. W. John Messick, Mrs. J. D. Mueller, Mrs. W. H. Messick, grandmother of the bride, Miss Blanche White, aunt of the bride, Misses Audrey and Diane Mueller, sisters of the groom, and Mrs. Gerald D. Leatherman.

Mrs. Charles Walker and Mr. and Mrs. Lloyd Woods entertained with a candlelight buffet dinner in the Walker, home for the bride and members of her family.

In El Paso Mr. and Mrs. J. M. Thomson entertained with a formal dinner in their home.

# Recent Bride Complimented

Mrs. Kerry Thompson, the former Anne Bennett, was complimented with a prettily planned miscellaneous shower held Monday evening in the Community Room of the First National Bank.

Hostesses for the occasion were Mmes. Milton Adams, Bill Lamm, Robert Hickman and Lynn Kester.

Guests were received by Mrs. Thompson with her mother, Mrs. G. E. Bennett and her husband's mother, Mrs. Bill Thompson.

The silver appointed serving table was laid with a sheer white organza cloth centered with a dusty rose arrangement of carnations contained in an epergne. Hot spiced tea and petite

fours were served by Mrs. Hickman.

Corsages of white carnations were presented to the honoree, Mrs. Bennett and Mrs. Thompson.

Approximately 30 guests were registered by Mrs. Adams.

The guitar in its earliest stages had four pairs of strings.

## Share Of Income Continues Down

Every American farmer is now responsible for the feeding of 43 of his city cousins. And if the population boom continues, along with the urbanization trend, the responsibility facing the remaining farmers will become tremendous. Yet, we show our appreciation by continually trying to force down the price of farm products under the guise of "keeping living costs low."

The farmer, who once received the highest share of the national income, has now slipped almost to the bottom rung economically. His responsibilities have increased — his share of the income continues to slip.

Moreover, there is now a push being made from some areas to defeat current legislation designed to control the inflow of foreign beef and other imports. Their reasoning being that if imports are curtailed, we will no longer get "real beef" in our hamburgers and the prices will soar even higher.

Which, incidentally, is a lot of poppycock.

There is, however, a great deal of concern throughout the nation about the consumption of contaminated foods, much of which is coming from imports. According to an Associated Press article recently published in the area press, Americans last year ate at least 100 million pounds of contaminated meat, and some sources place it at 500 million pounds. In addition, Americans ate at least 15 million pounds of contaminated vegetables. They also consumed a lot of hamburger fortified with filler material.

Certainly there will always be some imports from other nations, just as there will always be exports of the same products from this country to friendly nations abroad. The process has something to do with the "balance of trade" and the idea of course is to export more than is imported, while keeping the trade routes open and helping friendly nations economically. It's important to the overall world economy and will continue. But it is also important to keep our agricultural areas on a sound footing and we cannot do this by opening the doors to unlimited and indiscriminate imports of agricultural products.

According to 1969 USDA statistics, the United States imported \$1.5 billion in food in 1955 that also can be grown in this country. These foods are called supplementary imports.

By 1968, this figure jumped to \$2.845 billion, almost double the 1955 figure. But, says the Associated Press the number of inspectors for the imported foods remained virtually the same. Increasing these imports will only increase the problem of consumption of contaminated foods.

The advocates of increased imports also claim that without the flood of foreign meats and vegetables, the cost of living will increase sharply. Which, simply isn't true. The American farmer is the most efficient farmer in the world. He can and does produce the finest quality foodstuff at prices competitive with the same quality imports. Increases in the cost of living in this nation cannot be placed on the doorstep of the American farmer. In fact, he is not even receiving a fair share of the national income. We would suggest that the sharp increase in living cost has not come from an increase of price in basic foods at all but rather because of the wider variety of products available today — products that were not even on the market 20 years ago.

To prove our point on the cost of food, we checked an advertisement in a paper dated January 20, 1948 and compared prices with an advertisement published in this newspaper this week. The ads, by the way, were from a chain supermarket which has operated in the area for many years. The first item that caught our attention was bacon. It happened to be the same brand in both advertisements, 22 years apart, but the price was exactly the same. Many other items were near the same price in both ads, with a slight increase in some canned goods.

So what is the reason for the increase in living cost? It's simple. We're living better. But we're still trying to lay the blame on the farmer, and as it stands at this time, he is in real trouble. Politicians foment the housewife's revolt for the sole purpose of garnering more votes, and in the meantime farm legislation is allowed to stagnate with the farmer's annual income continuing to decline. He has about reached his peak of efficiency; his abundant supply of water is not so abundant any more; his uses of fertilizers is increasing yearly just to stay even with production and in the meantime, the cost of labor and machinery continues to go up.

What happens then, when the whole thing goes to pot? Ever wonder who is going to feed those 43 city people?

## Two To Tango

So many people are yelling stop the war in Vietnam and the screams seem to be aimed exclusively at the United States. Why don't they aim some of their yells at the other side, too, and curve a few toward Russia and China? Let's be fair about it. It takes two to start a war and two to stop it. This the protestors don't seem to realize. It's Uncle Sam do this, and Uncle Sam do that.

Only the better-informed are aware of the role Russia is playing in Vietnam. Without the supplies she sends to Hanoi, North Vietnam would not be able to carry on the war. It is as simple as that. Of course, there's Red China. She's helping in a fashion but from what is heard from the mainland Red China is more concerned with her own affairs right now. What aid she gives Hanoi is probably not enough to wage a first-class skirmish.

So that leaves Russia, and President Nixon is well aware of the role the Reds are playing in prolonging the struggle.

Fairly reliable reports are that President Nixon felt, before entering the White House, that he could prevail upon the Russians to stop rendering equipment assistance to North Vietnam and the struggle would be halted.

It is further reliably reported he has had secret talks with the Russians, but the talks got no where. He is reported to have told them that if they would cooperate, he would be prepared to work for more East-West trade, with some extremely advantageous angles for the Russians.

Did the Russians react favorably? Reports are they did not. In fact, there is some evidence the Russians reacted by sending even more arms to Hanoi.

This being the case, why don't those who are yelling loudest for the U. S. to stop the war start demanding that Russia get out of it. Or can it be that the reason is that protestors against the U. S. might just be inspired by the Communists of Russia, China and North Vietnam?

Man has proved he can live in outer space and beneath the sea, but in the regions between those two life is becoming increasingly dangerous. — Calgary (Alta.) Herald

## MIGRATING

## MAIN STREET, U. S. A.

# Affects On Human Life Is Number 1 Concern Now

Washington, D. C. — Politicians have discovered environmental degradation as a popular issue and Congress and President Nixon are engaged in a race to see who can do the most to correct the situation and to gain credit for saving man from the consequences of his own shortsightedness.

Environment is one of those all-purpose words that means different things to different people. As now used in government, it is given the widest possible definition, including not only such obvious matters as air and water pollution but also noise, traffic congestion, inadequate housing, and almost anything else that affects the quality of human life.

Concern over environmental problems is world wide. In 1972, there will be a United Nations Conference on the Human Environment.

The U. S. Department of State recently named a special assistant to the Secretary to handle international environment matters, including representing the U. S. at international conferences. The job went to Christian A. Herter, Jr., son of the late Secretary of State.

President Nixon is on the environment bandwagon with both feet and has promised to spell out his views in his messages to Congress this year. A member of his staff said recently: "There are more people in the White House now working on the environment than on any single issue, and that includes Vietnam."

**Muskie Got Head Start**  
One of the first of the current generation of political leaders to benefit from support of legislation in the environmental

area was Sen. Edmund S. Muskie (D., Me.). He sponsored water and air pollution measures which attracted attention to him, with the result that he became the Democratic nominee for Vice President in 1968. Muskie is still leading the fight for anti-pollution legislation. Last year he pushed through the Senate a tough Water Quality Act. Among other things, it would invoke heavy penalties against those responsible for oil spillage which contaminates beaches and kills fish and birds.

A conference committee is seeking to resolve differences between the Muskie bill and a milder version passed by the House. A new law seems sure to come, and major credit is bound to go to Muskie. This will not hurt the Maine Senator's chances of being nominated for President in 1972.

In the air pollution area, this is the year that the Clean Air Act expires. If Muskie has his way, it will be replaced by the Air Quality Improvement Act, which would broaden the expiring law considerably, including establishment of national emission standards for ground, air and water vehicles.

Naturally, the Republicans do not intend to let the Democrats gain all the credit for leadership on environmental legislation. That is why the President is offering his own package as a major part of his 1970 legislative program.

**Students Adopt Issue**  
On many college campuses, protesting students have adopted environmental improvement as a key issue. This trend is being encouraged by many national leaders as far more constructive than most causes embraced in the past by the young. Furthermore, colleges have the trained personnel to make a major contribution in many areas of the pollution problem.

Environmental problems tend to be many-sided. It may take experts in a half a dozen widely separated fields to help solve a complex question, such as how to prevent a new atomic plant from contaminating a lake or river — by thermal pollution, through discharge of heated water that may kill fish, cause marine growth, and make other undesirable changes.

A university has the resources to tackle the various facets of such a problem and if student power is harnessed in such cases, the end result may be progress instead of the reverse. There is ample reason for the young to embrace such an effort, for they will have to live in the world they help to shape.

## Talk of Texas

By JACK MAGUIRE

**SHIP, THAT NEVER RETURNED** — A piece of timber and an S. O. S. message written on a scrap of brown paper are the only clues to the fate of the ship "Marine Sulphur Queen" that disappeared in the Gulf of Mexico just seven years ago this week.

On February 2, 1963, the Queen sailed from Beaumont bound for Norfolk, Va., with 39 men and 15,000 tons of molten sulphur as her cargo. At 8:25 p. m. the next day, a crewman radioed his family that the vessel was 230 miles southeast of New Orleans. That was the last word of the ship anybody ever received.

On the night of February 7, when the Queen was long overdue at Norfolk, a search was started. On February 20, a plank with the ship's name painted on it was found off Key West, Fla. The following May, a bottle containing a message written on brown paper washed ashore at Corpus Christi.

On one side of the paper were the words: "SOS. Sulphur Queen. Help." On the other side was written: "Our ship was sailing steadily. Suddenly there was an explosion. Two men were hurt. This is all I have to say because I am get..." Later handwriting experts said the message was written by a crew member.

What happened to the "Marine Sulphur Queen?" Her disappearance remains one of the sea's great mysteries.

**FACTS TO FORGET** — Texas ranks second only to New York as the state where a citizen is most likely to be murdered. And New York has twice as many people!

**IT COULD ONLY HAPPEN HERE** — One of Lubbock's top tourist attractions is, of all things, a bank. It's the only spot on the High Plains where a visitor, in a one-hour conducted tour, can get a good look at paintings, sculpture and objects d'art from around the world.

Lubbock's First National Bank has more than 500 pieces of art collected from galleries and individuals in London, Paris, Athens, Madrid and a dozen other faraway places. In addition, it boasts many sculptures and paintings commissioned by the bank from artists whose works are well known.

Each department of the bank from the offices of the board chairman (Southwestern decor) to the data processing division (Ancient Egypt) is decorated with authentic art from different countries of the world and different periods. Viewing these art treasures has become so popular that the bank has trained guides to take visitors on complete tours.

**THE FLAG IS STILL THERE** — Most residents have never seen it, but the city of Houston has an official flag that never flies except in the chambers of the City Council.

Houston's flag is a white star on a navy blue background. In the center of the star, a double-banded ring of red surrounds a depiction of the official seal of the city. The seal bears a drawing of a locomotive with a star above it and a plow below it.

Unlike Denison, in Grayson County, which flies its city flag daily from a pole located at its busiest intersection, Houston never hails its banner in public.

**65 YEARS AGO — 1905**  
Two men who recently struck this community to take orders for groceries for a Chicago store arrived in Hereford this week and made a few small deliveries which they had sold. No sooner did they begin unpacking their wares at the Hereford House annex than our ever vigilant sheriff demanded of them that they pay their occupation tax and upon their refusing were arrested and brought to trial. On Tuesday of this week, Claud Mason, who works for Mrs. Nanna Bowman east of town, happened to an accident which may cost him his left leg. He was driving a four horse team when it became frightened and ran away, throwing him off the wagon and breaking his leg in three places below the knee.

**50 YEARS AGO — 1920**  
Another prairie fire of unknown origin burned off quite a lot of acreage besides destroying about 500 bundles of feed, on the Will Gilbreath ranch about twenty miles northwest of Hereford. The new highway running from Happy Canyon and on to Amarillo will be completed Saturday and the Federal and State Engineers will be here to make an inspection and finally accept the road from the contractors. Little Raymond Elmo Keeler, about three years old son of Mr. and Mrs. A. A. Keeler wandered in his sleep from his father's house on the R. N. Mounis ranch northwest of Hereford last Monday morning somewhere between midnight and 5:30 a. m. and his frozen body was found a quarter of a mile out on the prairie.

**35 YEARS AGO — 1935**  
Hereford High School band boys, accompanied by Director Ralph Smith, went to Amarillo this afternoon to hear U. S. Marine Band, most famous military band in concert. Planting conditions were said to be ideal for most of Deaf Smith County following rains of the past two weeks which brought several inches of moisture to many sections of the Hereford area. Dewey Reed, until recently the Deaf Smith county agricultural agent, will return here to resume his work, County Judge C. W. Humble, announced last week.

**20 YEARS AGO — 1950**  
Absentee Ballots will be used in the forthcoming city election for the first time in history Mayor W. E. Dameron announced Saturday. Mayor W. E. Dameron was presented the "man of the year award" by the Lions Club Thursday night at the annual Chamber of Commerce banquet. W. M. Stewart was elected chairman of the Tierra Blanca Soil Conservation district. Work is well along on paving West Park Avenue or Harrison Highway from the intersection with Highway 51 to the city limits and all property owners are providing curbs and gutters for the 50 foot paved street.

**5 YEARS AGO — 1965**  
Two prisoners in the Deaf Smith County jail pushed a deputy, to the floor and held a knife to his neck in an attempted break Friday morning. Deputy Ed Roberson let out a yell as he fell — warning enough to bring help though it came in a roundabout way. A giant \$1 million shopping center for northwest Hereford, stalled for nearly two years, began shaping up quickly last week with the announcement that a group of Lubbock developers has taken over. Youthful Johnny Clark Jr., 36-year-old school superintendent for the last four years at Olton, will become superintendent here in early summer, the system's fourth in a year.

## Garden Club Hears Landscape Program

"Plants In Your Landscape" was the program topic given by Mrs. Deward Roberson to members of Garden Beautiful Club at a meeting held Friday in the home of Mrs. Garland Solomon. Co-hostess was Mrs. Ray Cowser.

Mrs. Roberson illustrated her

lecture with drawings and said plants with design can add beauty to your home. She stressed using textured plants and to plant in groups.

"Plants or shrubs with scents," she said, "should be planted near windows."

In the illustration Mrs. Roberson

added the shrubs and trees last.

Mrs. L. H. Lookingbill presided at the business session.

Others attending were Mmes. Roy Smith, B. E. Roberson, Charles Hood, Herman Ford, Lewis Woodford, Charles Noiland, Homer Newton, Leo Witkowski, Virgil Hennen and Tom Carter.

Mrs. Hennen will host the next meeting Feb. 6.
