## Pass Protection Plus

Herd QB Franklin Higgins is about to release one of his pinpoint passes during the Whiteface's 37-7 stampede past Amarillo's Palo Duro Dons Friday night in Whiteface Stadium. Higgins hit on six of seven passes for 96 yards and a touchdown. The Hereford front offensive line and blocking backs gave Higgins

excellent protection throughout the game, while the Herd defense held the Dons to a total of 69 yards. At right, tailback James Harris looks for a little running room near the Palo Duro goal line during first quarter action. Two plays later Harris scored from two yards out to start Hereford's scoring.

# Herd Stampedes Past Dons, 37 - 7

By DON RICHARDS  
Brand News Editor

The Palo Duro Dons Friday night here learned you can't listen to pre-game polls and predictions. Hereford sure didn't. The Whitefaces took what was supposed to be a close game and busted it wide open to cart off their second consecutive win of the young season, 37-7. The Herd racked up statistics in every phase of the game, combining a normal balanced ground attack with a strong

passing attack from quarterback Franklin Higgins. Backs James Harris and Chuck High shared duties churning away the yards and scoring as Higgins nailed six receivers in seven tries for 96 yards and a touchdown. The Herd put a little fright into the home Hereford crowd as they spotted the visiting Dons an early touchdown in the first period. However, the Herd front line then set up a brick wall to allow the Dons only 52 yards rushing all night. The

Herd secondary only allowed 17 yards on two completions in 12 tries, but shared some of the credit with Palo Duro receivers. The heroics of Whiteface defensive man Mike Munnerlyn got the Herd started on two separate touchdown drives and stopped another Don drive as he covered a Palo Duro mistake and stole two Amarillo aeriels. The Herd opened the game kicking to the Dons at the Palo Duro 22. The Dons made one first down on runs through the

middle, but were forced to punt from their own 38. Harris and High appeared to have mixed up on the catch and Harris let the punt slip from his hands at the Hereford 25 where Don Randy Branch pounced on it. Eight plays later Terry Bradley pushed over from the two for the Amarillo score. Barry Reynolds kicked the point after and the Dons held the early lead 7-0. Munnerlyn then returned the Don

kickoff to the Herd 38 to set up the first Herd scoring drive. HIGH carried for two yards before Harris brought the home crowd cheering to its feet. The 164-pound speed merchant hit the middle of the line then turned left for the sidelines. Harris outran two defenders to the corner and cut back downfield 62 yards into the end zone. However, the play was called back to the Palo Duro 35 where an official had caught Harris cheating the out-of-bounds line. High and Harris swapped carries for 13 plays and four more first downs before Harris blasted across from the two just after the second quarter began at 10:24.

Harris' kick fell short and the Herd was still behind 6-7. HEREFORD kickoff was returned to the Palo Duro 34 and Munnerlyn got set for his first big defensive play of the night. On the first Don play from scrimmage Munnerlyn wrapped up the pigskin after Palo Duro's Mike Douglas lost the handle to it. Aided by a 15-yard defensive holding penalty, Harris and High again led the Herd 36 yards in 6 plays with Harris again taking the final two steps to paydirt. Harris then made up the lost PAT points as he cleared the three yards

## Course Registration Set Tuesday

Registration for Community Education classes, to be offered through Hereford High and in cooperation with Amarillo College, will be at 7:30 p.m. Tuesday at the high school. More than 20 community service and vocational courses are planned using local personnel as the teachers. Classes for the courses will be held one night each week through the fall term. Richard Robinson, Hereford High administrator in charge of registration and class arrangement, said the classes are offered as a community service and will not be college credit courses.

However, he said college credit courses may be offered in Hereford next spring. A LIST of the courses, starting and ending times, teacher, fee and meeting times are listed below. Commodities starts Sept. 25 to Oct. 16, Ed Schroeter, \$6, 7:30 p.m. Tuesdays. Bridge starts Sept. 24 to Nov. 12, Mozelle Neill, \$10, 7 p.m. Mondays. Women's Recreation, Sept. 24 to Nov. 26, Martha Emerson, \$8, 7 p.m. Mondays. Watercolors, Sept. 24 to Dec. 12, Jon Birdsong, \$21, 7 p.m. Mondays. Men's Recreation, Sept. 25-Nov. 27,

Louis Montano, \$9, 7:30 p.m. Tuesdays. Basic Psychology, Sept. 27-Dec. 13, Barbara Stagner, \$10.50, 7:30 p.m. Thursdays. Modern Math For Modern Parents, Sept. 27-Nov. 15, Don Hooper, \$8, 7:30 p.m. Thursdays. Literature Appreciation, Sept. 27-Dec. 13, Betty Mercer, \$10.50, 7:30 p.m. Thursdays. Tennis Fundamentals, Sept. 25-Oct. 30, Steve Thomas, \$10, 7 p.m. Tuesdays. Golf Fundamentals, Sept. 27-Nov. 1, Terry Russell, \$10, 7 p.m. Thursdays. America's Cultural Experiences, Sept. 27-Nov. 29, Bill Gentzel, \$11, 7 p.m. Tuesdays. Home Interior, Sept. 24-Oct. 29, Elizabeth Barnard, \$7, 7:30 p.m. Mondays.

10, Bill McDowell, \$17.50, 7 p.m. Mondays. Income Tax Preparation, Sept. 27-Nov. 29, Ray Barber, \$12.50 plus books, 7:30 p.m. Thursdays. Business Office Machines, Sept. 25-Dec. 18, Linda Williams, \$17.50 plus books, 7 p.m. Tuesdays. Bricklaying, Sept. 27-Dec. 13, Rex Manley, \$22.50 7 p.m. Thursdays. All classes must have at least 12 registered or the course will not be held.

## Funeral Held Saturday

Funeral services for Mrs. Bill C. Thompson, 39, of 144 Mimosa, were conducted Saturday afternoon in First Baptist Church, of which she was a member. The Rev. Doug Manning, pastor, and the Rev. Eugene Brink, minister of First Christian Church, officiated. Entombment in Memorial Park Mausoleum at Amarillo was directed by Gilliland-Watson Funeral Home. Mrs. Thompson, a Hereford resident since 1949, died Friday morning in Deaf

Smith General Hospital after a long illness. Mr. and Mrs. Thompson owned and operated Dickie's Restaurant here. She was the former Dickie Ann McWhirter, born Feb. 7, 1934, at Littlefield. She married Bill C. Thompson Sept. 1, 1949, at Clovis, N.M. Survivors in addition to her husband are two daughters, Mary Ellen Parrack and Emma June Thompson; two sons, Danny and Randy, and two grandchildren, all of Hereford; also her mother, Mrs. Johnnie Jones of Borger.

## Grand Jury Indicts 12

A 69th District grand jury here Friday returned 10 indictments against 12 persons, no-billed two others and passed on six other cases. Highlighting the session in Deaf Smith County courthouse grand jury room was the indictment returned against six persons for possession of marijuana. The cases were indicted as felony offenses and apparently will be prosecuted by Criminal Dist. Atty. Andy Shuval under the old state law. The old state law, which was replaced Aug. 27 by a new law making possession of small amounts of marijuana a

misdeemeanor, states possession of marijuana as a felony offense. Shuval apparently is prosecuting the cases as felonies because the arrests were made before the new law went into effect. Charged with the marijuana possession and indicted by the grand jury Friday were Coy Francis Riffin, Steve Arnold Husmann, Harvey Raymond Gomez, and three others in one case, Sammy Munoz Ramirez, John Ramirez and Rogelio Castillo. Also indicted by the jury Friday were Dionicio Castillo for felony-driving while

intoxicated (DWI), one man for theft over \$50; Danny Castillo for burglary by breaking; Jackie Hooper for theft over \$50; Pete Encinias for felony-DWI; and one other Hereford man for swindling with a worthless check. The man was indicted Friday but was still at large late Friday afternoon. The cases no-billed (refusal to indict) and thus cleared by the grand jury were Randall Allan Arnold, David Neale Gass and Joe Don Daniels for theft over \$50; and a possession of marijuana case against Becky Wilson Riffin.

## Library Going Up

Workmen continued throughout the week with the foundation forms for the basement of the New Deaf Smith County Library across the street north of the courthouse. The concrete walls in the basement should be poured by the contractor, Wylie Hicks Const. Co., in the near future.

# Herd Stampedes Past Dons, 37-7

Continued From Page 1

round left end to put the Herd in the lead to stay 14-7.

FOLLOWING the kickoff Palo Duro ran three plays and punted and the Herd then returned the punt after three plays. The Hereford brick wall defense forced the Amarillo team to return the ball after three plays again.

PD's David Macon then boomed a 51-yard punt and Harris was injured on the return.

Herd back James Waits then made one before Wayne Schumacher was trapped on an end-around for loss of one. High made one and Higgins decided to pull out the heavy artillery. Higgins spotted Dave Charest open 17 yards downfield at the Herd 42 for a first down and then High found two yards up the middle.

Higgins then nailed end Harold McNutt on the left sidelines for a nine yard gain and first down. Higgins then snuck off guard for 3 yards.

On second and seven, the senior quarterback then missed his only pass of the night. Charest had a half step on his defender across the middle and Higgins' pass was true, but the defender wrapped up Charest just as the ball arrived. Hereford fans came to their feet hollering interference but the referee next to the play kept his flag in his pocket.

High and Waits then each carried before the Herd turned the ball over on downs at the PD 41.

HERD FANS then grabbed their breath substituting PD quarterback Stanley Stanbaugh then shotgunned a pass 49 yards through the air to a PD receiver at the Herd 10, but the ball bounced off the receiver's chest with 19 seconds left in the half.

Stanbaugh then tried another aerial but again Munnerlyn stopped the drive with the mid-air theft, with only four seconds left in the half.

On the last play of the half from the Herd 30 Higgins rambled off around left end and was finally pulled out at the Palo Duro 36 to end the half.

OPENING the second half, Waits returned a PD kick 20 yards to the Herd 28. Waits and High then shared duties through four plays and a first down. McNutt then found a hole in the PD secondary at the visitors 46 and Higgins delivered him the mail for a 12 yard gain and another first down.

The PD defense then held three plays and Mike Crim booted one out to the Palo Duro 11.

The Dons then made two first downs mainly off the running Rodney Towner and moved to the PD 38. Hereford's linebacker Schumacher then shot the gap and blasted Don's Robert Douglas forcing a fumble at the PD 37 where Herd tackle Dave Crume sealed it to the ground.

A REVERSE to Dave Charest apparently was expected by the Dons and thus forced a seven yard loss. Higgins then completed his second and third consecutive passes of the half.

Schumacher worked his way into a clearing at the PD 36 and a delivery from Higgins made up the lost yardage.

Then on a third and nine from the PD 36 Higgins tossed a screen pass in the right flat to High. The fleet halfback, following a couple of Herd linemen, tipped his way through the maze of white PD jerseys 36 yards for the score and a short rain-dance. With an even three minutes left in the third period Dave Charest then

tried his turn at kicking extra points and made it true to send Hereford up 21-7.

HERD Armando Gonzalez's kickoff was returned to the PD 36. The Dons made a yard over the middle before defensive end Whiteface Barry Allen cut down Towner for a four yard loss.

A Don pass was no good and Dave Charest then returned the PD punt 18 yards to the Herd 43.

High and Waits exchanged chores and gained a first down en route to the PD 38. However, a clipping penalty from the spot of the foul sent the play back to the Herd 46. On third and 19, Higgins fired one to McNutt over the middle which was good for 14, but not quite enough for a first down. Crim's punt carried into the PD end zone and the ball was spotted at the PD 20.

ON THE next play PD back Rodney Towner let a pitchout slip through his hands. He kicked it once and when he finally got control of the ball 20 yards back in the end zone he had three visitors — Herd linemen Jim Marsh, Allen, and Chip Guseman who smothered him for the two-point safety.

The following Don kick from the 20 was returned 18 yards by Waits to the Don 47 to set up still another Herd score.

WITH CRIM calling the signals, High made two and Waits one before the sophomore quarterback rifled one to McNutt for 11 yards to the PD 33. Crim again dropped back to pass and this time Waits was on the receiving end for nine more yards.

Crim snuck one yard for the first down and High made five more to the Don 18. Crim and Gonzalez then missed signals as another pass fell open and Waits pushed for one to the PD 17.

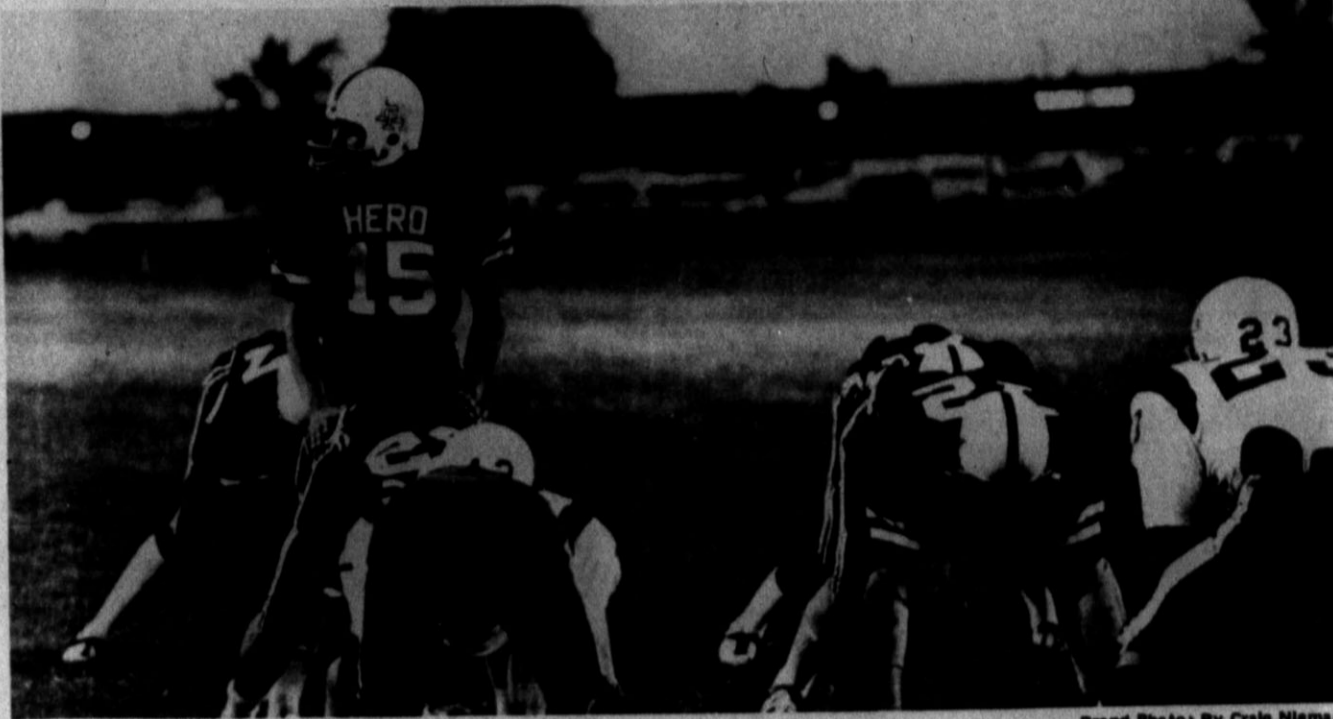

ON FOURTH and four, Crim fumbled the snap, picked it up, rolled right with Don pursuers right behind and kissed Dave Charest with a 17 yard shot one yard deep in the end zone for the score. Charest then turned around and split the uprights for a 30-7 lead.

GONZALEZ'S kickoff carried into the end zone and Palo Duro began on the 20. Two passes were incomplete, both hitting Don receivers squarely in the chest, and the Herd was called for interference for a Don 1st down at the 29.

A PD pass was good for nine and a Stanbaugh run for 10 yards set up first and 10 situation at the Don 48. Stanbaugh again dropped to pass but Munnerlyn then skyjacked his second pass at the Herd 43 and wiggled through Palo Duro defenders to the PD 32.

THE DONS were caught with a personal foul to move the ball to the 17 and Crim was trapped trying to pass for a loss of four yards. From the Palo Duro 21 Doug Charest then took over the running chores. He blasted 10 yards to the 11-yard line and then pranced the final 11 on the next play for the final tally of the night. Doug's brother Dave's kick was again true and the scoring ended lopsided at 37-7.

Hereford is now 2-0 for the season in District 4-AAAA and Palo Duro is 1-1 and in District 3-AAAA. The Herd remains at home next week to take on Borger while the Dons battle Clovis, N.M., in Amarillo.

# Assistant DA Begins Work

By STEVE CONNELLY  
Staff Writer

Roland Saul has been appointed Assistant Criminal District Attorney by Andy Shuval this week and is also an associate partner in Shuval's private law firm.

Saul, a native of Plainview, attended Wayland Baptist College for four years as a business major, and received honors from the business department. He received his B.S. degree from Wayland in 1970.

Saul went to Texas Tech University law school for three years and graduated in May of this year. He took the Texas State Bar Exam in June, and received the results Monday.

Saul said that he was raised in a ranching family and so is familiar with an agricultural community. He said his other interests, besides law, include "basketball, cattle, and horses." He played basketball at Wayland College

when he was attending that school.

He is married to the former Sandra Story, who was raised in Hereford. She graduated from McMurry College and taught in Lubbock for the past three years. She is currently teaching the fourth grade at Bluebonnet Elementary.

Concerning goals Saul intends to accomplish, he said he has entered the law profession and will "make it my life."

## Funeral Planned

Funeral services for Mrs. Julia Waechter of Amarillo, who had farming interests in western Deaf Smith County, will be conducted at 11 a.m. Monday in Schooler-Gordon Funeral Chapel in Amarillo.

Dr. Winfred Moore, pastor of First Baptist Church of Amarillo, will officiate and burial will be in Memorial Park Mausoleum.

Mrs. Waechter died early Friday in an Amarillo hospital. She was born May 13, 1900, in Palestine, Tex., and had lived in Amarillo 21 years. She and her husband, the late Fritz C. Waechter, engaged in farming in the Walcott area before his death in 1966. Several nieces and nephews survive.

SOS offers a source of financial guidance at a most important time.

Sooner or later we all lose someone close to us. It is a difficult time and SOS provides a point of organization and direction.

SOS is designed specifically to help you on such matters as the proper authorities to notify; immediate practical measures to be taken; gathering basic information for claims in such areas as: Social Security, Civil Service, Veteran's Benefits, Railroad Benefits, Teacher's Benefits, Life Insurance, Credit Life Insurance, Profit Sharing Plans.

SOS eliminates repeat trips to government agencies. For example, SOS advisors can tell a person the exact documents needed to file for benefits at the social security office.

Services of attorneys, CPA's and life underwriters are required in matters involving legal questions, accounting requirements, or insurance claims. SOS advisors point out areas in which such services are required and then assist the person in gathering the detailed information needed to proceed directly with professional counseling. This is accomplished by use of a comprehensive "Check List" which gives a methodical review of all possible benefits.

"MAKING LIFE A LITTLE LESS COMPLICATED"  
SOS IS A COURTESY SERVICE AVAILABLE TO YOU REGARDLESS OF YOUR PRESENT BANKING CONNECTIONS. . . . . JUST ASK US ABOUT IT.

**Four Accidents And Arrest Highlight Police Week**

By STEVE CONNELLY  
Staff Writer

Four traffic accidents and a local man arrested on two warrants marked a lull in police action during the week, after a busy weekend.

Jesus Gonzales Albiar Sr., 120 Ross, was arrested Wednesday evening after two warrants for his arrest were issued on charges of aggravated assault and for child desertion.

According to police reports, the assault charges occurred Tuesday evening, and the child desertion occurred a few weeks ago in Fort Worth.

Albiar was released Wednesday, shortly after his arrest, on a \$2,500 bond.

The theft of a \$130 air wrench took place at Big Daddy's Truck Stop, between 7 p.m. Wednesday and 8 a.m. Thursday, according to police reports.

Wayne Weaver, manager, reported the incident Thursday morning, and police could find no definite clues, according to reports.

One accident occurred Wednesday at the intersection of Park Avenue and 9th Street, involving two cars.

A 1972 Oldsmobile, driven by Laudene W. Oswalt, 100 Rio Vista Drive, was entering Park Avenue, and collided with the

rear of a 1973 Chevrolet, driven by Cecil A. Boyken, 704-C N. Houston, Amarillo.

The first of two accidents Thursday occurred at the intersection of Park Avenue and Avenue K involving a pick-up and a car.

A 1971 Ford pick-up, driven by James P. Constanzo, 112 W. Colorado, Amarillo, was headed east on Park Avenue and was stopped for a traffic signal.

The Constanzo vehicle apparently attempted a right turn

onto Avenue K, and a 1968 Plymouth, driven by Monty A. Campbell, Rt. 2, was traveling east on Park Avenue when they collided.

Thursday's second accident occurred near the intersection of Plains Avenue and Elm Street, involving a car and a motorcycle.

A 1969 Pontiac, driven by Brian K. Goodin, 430 Star St., was traveling west on Plains Avenue, and a 1972 Yamaha, driven by Robert O. Barry II, 1108 Plains, was apparently

leaving a driveway and collided with the Goodin car. Barry was treated and dismissed at Deaf Smith General Hospital for knee injuries sustained during the accident.

An accident Friday morning occurred in the parking lot of the Jord-Inn Restaurant, between 12 p.m. and 4 a.m.

A 1971 Pontiac, owned by Charlotte W. Blackburn, Rt. 2, Friona, was parked in the lot when an unknown vehicle collided with the right side and left the scene.

**Post Office To Offer New Stamps By Mail Service**

Postmaster Nolan Grady announced today that a new "Stamps by Mail" service will be offered in the local area, beginning later this month.

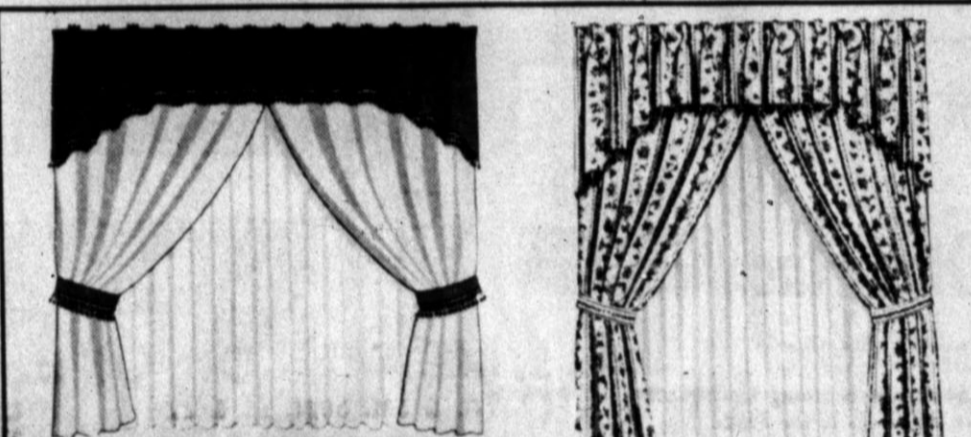

According to the Postmaster, this new service will permit customers to purchase stamps and stamped envelopes through the mail using a personal check or money order.

Grady noted that "This service will be of great benefit to all our customers and especially shut-ins, the elderly and working wives. It will enable them to satisfy their postal needs simply, rapidly and inexpensively from their own homes." Leaflets spelling out the details of the service will be distributed to area households and small

businesses during the next few weeks.

The Postmaster said "This new-service has been tested in selected cities nationwide with very positive results." "One of our customers in a test city wrote "I am very happy about this service, as many of us older people can't get around the way we would like. We really appreciate this new service." Obviously we are pleased to provide a service-which means so much to people like this senior citizen."

A 40 cent fee will be charged to defray the cost of two-way postage, internal processing of checks, and other costs associated with this new service.

**15% off all made-to-measures Just bring Penneys the measurements. We'll do the sewing, you do the saving.**

Made-to-measure draperies are a very smart idea. You get great fabrics, great fit for a custom look at ready-made prices. And this week, there's 15% off the entire line of made-to-measure draperies.

You can choose from over 70 patterns, 700 colors, from antique satins, jacquards, prints, sheers in acetate, cotton, polyester.

The draperies have deep 4" hems and headers, the corners are weighted, and tiebacks are available. Three different top treatments are available. Fringe trim, too. You can even match up bedspreads in some of the fabrics.

To make sure the draperies fit perfectly you make the measurements. Just follow the instructions below:

**Width:** measure from (G) to (H), or simply the width you want to cover.  
**Length:** for ceiling to floor length, measure (A) to (B). For regular floor length, measure (C) to (D). For sill length, measure from (E) to (F). Add three inches if you want below-sill length.

Sale prices effective through Saturday.

# La Plata 9th Graders Blast Dumas, 30-6

Hereford's La Plata 9th grade football team blew into Dumas Thursday afternoon and blasted the host team 30-6.

The La Plata players scored in every quarter of the game and a tight defense held the Dumas team to a single score.

Hereford's Terry Brady, who led all rushers with 182 yards on 12 carries, set up the first La Plata score with a 45 yard run to the Dumas 20. On the next play (tailback Roy Martinez galloped the final 20 steps for the TD. Quarterback Archie Crim then ran across for the two-point conversion on a pass-run option. Crim then upped the score to 14-0 in favor of Hereford on a 17-yard run just before the half. The PAT failed.

Late in the third period Martinez and the La Plata punt return specialty team added six more points to the scoreboard as the tailback returned the Dumas punt 65 yards. The points-after were good to run the score to 22-0. Dumas put its only score on the board in the final minute of the third period on a 65-yard pass play. However the extra point was no good.

Crim finished out Hereford's scoring in the fourth period with an 11-yard run around left end. Reserve tailback Mike McLeod struck paydirt for the two-point conversion to end the game at 30-6.

La Plata 9th grade team coach Robert Priest lauded the

defense work of the Hereford team pointing to outstanding jobs by defensive ends Rowan Alexander and Tony Benavidez, defensive tackles Frank Blackwell and Pete Madrigal and noseguard Dennis Artho who completely contained the running game of Dumas. In addition, Blackwell snatched a Dumas pass in the third quarter to stop a sustained drive.

**WALT WHITMAN**  
Poet Walt Whitman died on March 26, 1875, at age 73.

**LORD CONSTANTINE**  
On March 26, 1969, Lord Constantine, son of a Trinidad farmer, was installed as the first black in the British House of Lords.

The Whiteface Booster Club will meet at 7:30 p.m. Tuesday in Hereford High Auditorium.

Highlight of the meeting will be the showing of the Hereford-Palo Duro game color film and a football instructional period by members of the Whiteface coaching staff.

In past meeting defensive alignment and functions have been explained. Coach Larry

Dippel has said different coaches each week will explain the different positions of offense and defense and have Whiteface players demonstrate their individual duties during a game.

A scouting report of the Borger team will be given and refreshments will be served.

The meetings are open to all members of the Booster Club and memberships are available at meetings. Dippel and Booster President Virgil Marsh

## Whiteface Boosters Club To Meet

## Hunting Safety Tips Listed

A special note to the thousands of hunters taking to the fields and woods this fall in search of game —

Before you pull the trigger, know what you're firing at.

Sporting arms — from a single-shot .22 calibre rifle to a heavy big game weapon to a fast-shooting automatic scattergun — are designed to kill birds and animals. They also can easily kill humans.

The Texas Medical Association reminds that nearly every year several hunters return from fall outings via hearse. Hundreds of others return with a load of bird shot or a rifle bullet to be dug out by a doctor. Behind almost every hunting accident is one cause: carelessness. The hunter who blazes away at everything that moves or shoots before he's

sure of his target runs a big risk of bagging a fellow hunter.

The wise Texas hunter will be wearing a "hunter orange" vest or, at the very least, a cap made in this glowing bright fluorescent color. The color sends a glowing signal to other hunters, but goes unnoticed by colorblind game such as whitetail deer, which will only be alarmed when it distinguishes motion, sound, or scent.

Never cross over or through a fence or climb a tree with a loaded gun. It might fall and discharge. Unload first and reload after crossing or climbing. Don't shoot at a hard, flat surface. Ricocheting bullets can carry long distances with killing power.

Even a small bore rifle has considerable range. Know where your friends are.

## Duck Season Opens Soon

Season for Teal Ducks opened Saturday Sept. 15, and will remain open through Sunday, Sept. 23.

Season on other duck will open Oct. 25 through Nov. 25 and will then open again Dec. 8 through Jan. 2.

Hunting for geese will open Oct. 29 through Nov. 25 and then open again Dec. 8 through Jan. 2.

In all hunting season for duck and the goose, hunting must be done between half an hour after daybreak and completed no later than half an hour before dusk.

## Stanton, La Plata Teams Scheduled To Battle Here

Hereford's Stanton and La Plata Junior High 7th grade football teams will play three games against each other here Tuesday afternoon.

Also at 5 p.m. at the High School field will be a game between the Stanton 7th Maroon and La Plata 7th Maroon.

**TROOP DEPLOYMENT**  
On April 30, 1970, President Nixon announced U.S. combat troops had been ordered into Cambodia to eliminate Communist sanctuaries.

**AMTRAK DEBUT**  
The National Railroad Passenger Corp. took over inter-city railroad service with Amtrak trains on April 30, 1971.

## Date Is Changed For Area BSP

A last-minute change of plans has moved the date of the area Beta Sigma Phi convention to Oct. 20 and 21, as local members of the sorority advanced their date to avoid conflict when Jaycees scheduled a district meeting here Oct. 12 and 13.

Beta Sigma Phi members of all four Hereford chapters will meet at 7:30 p.m. Tuesday in Community Center to work on decorations for the meeting

where they will entertain members from over the Panhandle.

Decorations will be in the Hawaiian motif chosen for the convention last winter, after each chapter had offered its suggestions for the program theme.

Mrs. Howard Gore is general chairman of convention preparations. Meeting headquarters will be at La Plata Junior High School.

## Fashion Program Presented

Fashion and You was the program presented by Steve Robbins to members of the Frio Homemakers Club Tuesday afternoon in the home of Mrs. Herbert Bruns, 422 Western.

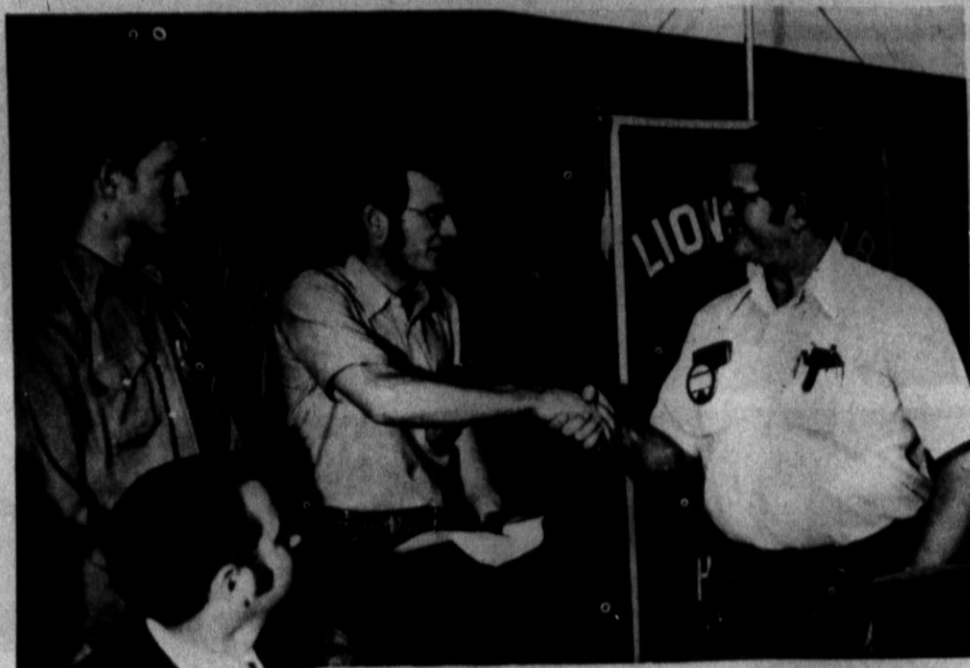

Using Mrs. Sam Ogan as his model, Robbins demonstrated how to cut blow haircuts. He also discussed line and design for different types of figures and the colors women should wear according to their skin colors.

Housewarming gifts were brought to the hostess by club

members and yearbooks were distributed. Approximately 17 members were present.

### CLUB MEETING SLATED

North Hereford Extension Club will have its first fall meeting at 2:30 p.m. Thursday in the home of Mrs. Mac Tucker, 302 Sunset. The program will be presented by Argen Draper, county extension agent, as she demonstrates easy methods of quilting.

## Good Guy Awards Given

Two Hereford men were presented "Good Guy Awards" by KVII-TV Wednesday at the regular weekly Hereford Lions Club luncheon. Making the presentations on behalf of Channel 7 was Bill Brady, and the television station sent a representative to film the ceremony. The awards are given over the area to persons who perform a life-saving deed.

## Small Talk

By SUE COLEMAN  
Women's Editor

A HEREFORD resident who made the society column of the Houston Chronicle lately is Cecil Rockwell, whose latest mention in the Hereford Brand, I believe, was in a Diamond Jubilee edition story which took note of him as one of our pioneer businessmen.

The Houston paper's comment was in a story about the very swank dinner honoring Mrs. Lyndon B. Johnson on her late husband's birthday.

Listing the notables in attendance — spacemen, NASA officials, political bigwigs, etc. — the story mentioned that "Henry Rockwell brought his brother Cecil, 86 years young, from Hereford."

THE DINNER at the Hyatt Regency was given by the Houston Chamber of Commerce and NASA, with the former NASA administrator, attorney James Webb, as the speaker.

Mr. Rockwell brought back a copy of the program, which

showed that the menu began with chilled gazpacho and progressed through Rock Cornish hen with Sauce Bigarade to ice cream bombe and brandy Sabayone.

The paper's columnist wrote that "Lady Bird was trim as a teenager in a chick pink and blue Italian jersey print by Bessi and a handsome pre-Columbian necklace from Mexico." Also that Luci Johnson Nugent wore a shocking pink dinner suit and her sister, Lynda Robb, a plaid raspberry cotton with ruffled sleeves and neckline.

I DON'T KNOW whether the Hereford man was more interested in the glamour aspects of the dinner, or former astronaut Alan Shepard's narration of the Panorama of Space which was a tribute to LBJ.

Incidentally, I'm informed that Mr. Rockwell is not really 86 years young, only 80.

Now I wonder if he is using that tactic that some people recommend for anyone over 60 — just add five or six years to your age when anybody asks, so they'll be more surprised at how young you look!

A MASTERS and two bachelor degrees were awarded to Hereford folks in summer commencement at North Texas State University at Denton this year.

Sidnye L. Johnson, daughter of Mr. and Mrs. W.C. Davis, Route 3, received her master of library science degree.

Lynda Duncan and Joe H. Childers are the bachelor degree recipients. Lynda is the daughter of the E.C. Hewitts, Route 3, and has her degree in elementary education; Joe, son of Ella M. Childers of 1108 Grand, took the bachelor of arts in economics.

A PLEDGE to Alpha Delta Pi at West Texas State is Melissa Johnson, a freshman student in the Canyon university and a 1973 graduate from HHS. Her parents are the Julian Johnsons.

## New Year Begun By Garden Club

Aims for the coming year in Hereford Garden Club were presented with new yearbooks when members met for the first time this fall Friday in Mrs. Ray L. Johnson's home at Summerfield.

Mrs. D.N. Garner, yearbook chairman, was co-hostess and gave a brief review of the program outlined for this season.

Members voted to enter the name of Mrs. Ralph McCullough, a past president, on the honorary list at state headquarters. Another principal item of business was setting the date of the club's annual bazaar at Nov. 17.

Mrs. W.C. Hromas, garden center chairman, reported interior work on the building at the center completed during the summer. An order was placed for calendars and note paper to be sold as national and state garden club projects.

Mrs. Alfred Smith gave the program, reviewing an article titled The Palm, A Versatile Plant, from the Lone Star Gardener magazine.

Mrs. R.L. Ethridge presented the arrangement of the month, in a Western Sunset theme. She used yellow marigolds in the center of a fan formed of red gladiolas and photinia leaves.

Presiding for business, Mrs. O.G. Hill Sr. introduced as a guest her sister, Mrs. Ora Schillings, who is visiting her from Espanola, N.M.

## Lions Hear Wheat Official

Bill Nelson, executive vice president of the Texas Wheat Producers Board, was guest speaker for the Hereford Lions Club regular weekly luncheon meeting Wednesday at the Civic Club Center.

The meeting was also highlighted by the presentation of two "Good Guy Awards" by KVII-TV. The awards, recognizing people for life-saving deeds, went to Paul Timberlake, Hereford High senior, and to Tommy Deas, 120 Cherokee.

DEAS WAS cited for rushing to the aid of a neighbor, Mrs. Nancy Russell, after she sustained an electrical shock from a hedge trimmer. She apparently came in contact with a worn spot on the electrical cord. Deas went to her aid and summoned an ambulance to the scene.

TIMBERLAKE was involved in a butane explosion along with his brother, Tom, 21, and Chris Kemp, 11, as the three were

working on a farm 30 miles west of Hereford in mid-June. Paul sustained less harmful burns in the accident, and administered first-aid to the other two.

Paul called for an ambulance, then drove toward town with the pair and met the ambulance. The Kemp youth died 20 days later, but the older Timberlake survived the intensive burns.

NELSON, the guest speaker Wednesday, was accompanied by Leo Witkowski of Hereford, president of the Texas Wheat Producers Association and a director on the Wheat Producers Board. Nelson was introduced by Herschel Black, program chairman.

Nelson will be leaving next month on a trip to Russia and Northern Europe to study the longrange potential for wheat exports. He pointed out that 80 per cent of Texas wheat is exported.

THE SPEAKER distributed copies of "Texas Wheat News",

a monthly paper published by the wheat board, and briefly reviewed the contents of the publication with his audience. Headline story concerned wheat farmers' decision on whether to go for "all-out expansion" of wheat acreage in 1974, or to use "cautious restraint."

Nelson pointed out that wheat prices have gone up and down more in one day this year than they did in one season about three years ago.

Nelson explained that the Wheat Producers Board was formed two years ago when more than two-thirds of the producers voted to put in one-half cent per bushel from their production to support wheat research, market development, disease and insect control, and legislative matters.

PRESIDENT Jim Hale presided at the weekly meeting. Bill Brady made the Channel 7 presentations for the "Good Guy Awards". Several guests and visiting Lions were recognized at the meeting.

## 'Unsinkable Molly Brown' To Open In Lubbock Theatre Center

The Lubbock Theater Center is preparing for its season opener, the captivating musical "The Unsinkable Molly Brown."

The music and lyrics are by Meredith Wilson and the play skims the high points of Molly Brown's life from very poor days in Hannibal, Missouri to the pinnacle of her renown after she survives the sinking of the Titanic.

Molly was married to J.J. Brown, who earned riches during the Colorado gold mining boom. She spent many years in an effort to be socially accepted, but was not a success until she rushed home to Denver from Europe to help the wives

and children of miners involved in a southern Colorado coal strike.

Production dates are September 27-30, and October 4-7. Tickets for this fun filled musical will go on sale September 24, at the Lubbock

Theater Center. Prices are \$3.50 each. The address of The Lubbock Theater Center is 2508 Ave. P., Lubbock, Texas or phone 744-3881.

The director of the theater, Roland Myers, assures an entertaining evening for all.

By Bill Albright, Executive Vice President Deaf Smith County Chamber Of Commerce

It's only the middle of September but already it's time to make plans for the new year. Such is the case at your Chamber of Commerce. At present we are working on nominations to replace four directors whose three year terms expire December 31, 1973.

Ballots will be mailed to all members, both business and personal, early in October. Then at the regular November meeting the directors will elect from the members of the board those officers to serve during 1974.

Much work is necessary between that election and the new year. The all important Program of Work must be prepared - this is the "blue

print" of Chamber activities for all of 1974. It really takes a major effort in sifting, sorting and analyzing ideas and suggestions and then carefully selecting those projects of greatest importance and most feasible to accomplish. Then some detailed planning is required to insure the projects receive the proper emphasis.

Next, the budget to support that program of work must be prepared and of course the availability of funds determines to a great extent just how much "quality growth" we can provide for our community. Finally the most important ingredient of all is added - people. The committee chairmen and members are

selected and the organization of the 1974 activities is underway.

So September may be a little early for some folks to be thinking about the coming year, but at your Chamber of Commerce we have to continuously hustle, hustle, hustle!

## Robert Horton To Star In Amarillo Theatre

Actor Robert Horton, who for five years played handsome, dynamic Flint McCullough on the top rated television series "Wagon Train," is currently in Amarillo where he will kick off the 47th season at Amarillo Little Theatre September 21 with "Catch Me If You Can."

The production, a mystery-comedy by Jack Weinstock and Willie Gilbert, is under the direction of ALT managing director Peter Fox, Jr. Succeeding performances of Catch Me If You Can are scheduled for September 22, 26, 27, 28, 29, 30, and October 2, 3, and 4. Curtain time is 8:15 p.m. with

the exception of the September 30 matinee at 2:30 p.m.

Reservations may be made by calling 355-9991 or by writing

ALT, Box 2424, Amarillo, Texas 79105. Tickets may be purchased at the door.

The ALT auditorium has been completely remodeled during the summer months, and Catch Me If You Can will be the first production in the newly

remodeled facility. Changes include all new continental style seating, new ceiling and

acoustical wall-covering, and an all-new stage extension.

Catch Me If You Can centers around an advertising executive who brings his bride to his boss's mountain retreat for a honeymoon. A police inspector is called in when she disappears, and to really confuse matters, a woman appears who claims to be the missing wife.

Versatile Robert Horton, in addition to his "Wagon Train" episodes, also created the TV role of "The Man Called Shenandoah." He is a recording artist for Columbia Records and

a headliner on TV variety shows both at home and abroad.

On Broadway, he starred in The Rainmaker and created the role in the musical version, One Hundred And Ten In The Shade. Musical credits include Guys and Dolls, Oklahoma, Carousel, Pajama Game, and The Music Man, to name a few. He recently played John Adams in the musical 1776.

Film credits include "The Battle Beyond the Stars," "The Dangerous Days of Kiowa Jones," and two movies for TV, "The Spy Killer" and "Foreign Exchange."

### Chamber Board To Meet Early Tuesday Morning

The Board of Directors of the Deaf Smith County Chamber of Commerce will meet in regular session at 6:30 a.m. Thursday in the board room at the Chamber office.

One of the major items for discussion at the meeting will be a report from the sports committee concerning status of a proposed bond election to finance the re-surfacing of the high school athletic track. The

Hereford School Board is expected to discuss the possible bond election in a 7 a.m. meeting Tuesday. Results of the school meeting will be

discussed by the Chamber. Also to be presented to Chamber directors will be a report of the nominating committee concerning directors for the 1974 year. A report will be made in connection with a recent trip by local businessmen to the headquarters of Holly Sugar in Colorado Springs, Colo.

The board is also expected to discuss the impact of President Nixon's Phase IV in connection with the fuel situation of local jobbers and fuel distributors. Persons representing a Highway U.S. 60 road sign committee is also expected to be discussed by directors.

### Hospital Board To Meet Here Thursday Night

The Board of Directors of Deaf Smith General Hospital will meet in regular session at 8 p.m. Thursday in the conference room at the hospital. No major business is listed on the agenda, which include minutes approval, report of the medical staff, a discussion of the intensive care department, financial reports, and reports of the administrator.

# Holly Plant Meets Clean Air, Water Standards

When Holly Sugar Corporation's giant Shoup factory starts its annual sugar-making campaign this month, it will have taken steps to be in compliance with all known EPA and Texas clean air and water standards, factory manager Bruce Brown said.

"During the last five years, Holly has spent about \$2,000,000 on modernization and improvements," Brown explained. He said that since the Shoup

plant was less than 10 years old, a number of water conservation and anti-pollution facilities were built into it during the design stage.

However, new techniques and equipment developed since that time have been incorporated to keep Holly ahead of state and national clean air and water standards.

Brown pointed out that Holly now meets or exceeds all known

clean air and water standards in every state in which it operates.

Brown listed steps Holly has taken at the Shoup plant to keep it an industry leader in the anti-pollution field. Among them were—

1. The installation of a continuous diffuser which allows recirculation of water which otherwise would be a part of the waste water stream.

2. The installation of a pulp drier which eliminates any waste from this source.
3. The installation of a cooling tower which allows complete recirculation of cooling water.
4. Chemical boil-out wastes are separately ponded, eliminating odor problems.
5. Trash disintegrators are employed to reduce weeds, leaves, tops and other organic

material to a condition so that they may be dried along with the beet pulp.

6. The original construction contains an extensive ponding system so that no waste water is discharged to public waters.
7. The sanitary sewer is separated and treated so that it does not enter the main waste water system.
8. The installation of a waste

water analyses monitoring system so that the amounts of contaminants in the waste stream may be determined.

Brown said that the steps above have drastically reduced possible contamination of streams. He said that future plans call for refining the monitoring system for more accurate determinations of

contaminants and studying additional methods of recirculating waste water.

The Shoup plant was built in 1964 and has operated each year since then. The plant's economic impact in the area is more than \$8,000,000 a year. Economists estimate the agricultural dollar circulates about seven times in the area in

which it is produced. This would boost Holly's total impact to about \$56,000,000.

Bob Ginn, factory agricultural manager for the Shoup district, said that Holly pays its growers more than \$7,000,000 annually for their beets.

Brown put the plant's annual payroll at more than \$1,000,000.

## Hereford Girls Win Team Trophy In Hereford Rodeo

Renee Poarch was named as the all-around cowgirl during the Tri-State high school rodeo hosted last week by the Hereford High Rodeo Club.

All Around Cowboy—Roy Hawkins, Spearman.

All Around Cowgirl—Renee Poarch, Hereford.

Team Trophies — Boys, Gruver, 32 points. Girls, Hereford 22 points.

## Trustees Meet Tuesday To Discuss Bond

Hereford's School Board of Trustees will meet at 7 a.m. Tuesday in the School Administration Building for the discussion and probable calling of a \$36,000 bond election to finance the re-surfacing of a new athletic track.

The meeting was called last Tuesday night during regular

meeting of the board after trustees were presented a petition bearing 1,031 local residents and requesting that the bond election be called. Dr. Joe Whitley presented the

petition and officially requested the election.

A short breakfast will be held at 6:45 a.m. in the high school cafeteria adjoining the administration building.

Quentin Curtis was winner of the August Safety Bond presented at Holly Sugar's Shoup plant this week. Making the presentation was Bob Rich, district factory manager. A number of service awards were also presented at a pre-campaign dinner for Holly employees.

## Motorcycle Rodeo Set For Today

A public motorcycle rodeo is planned for 3 p.m. today in the Rider's Rodeo Arena in Veterans Park.

The rodeo is open to the public and entries will be allowed just prior to the start of the rodeo.

There will be 18 classes of age competing in three different events in the rodeo. Age classes will range from a 9-and-under up to a 19-and-over. The three

events scheduled at the barrel race, poles and keyhole.

Entry fee for the rodeo is 50 cents per event. Admission to the rodeo is free to the public.

Proceeds from the rodeo will go to the Deaf Smith County 4-H Clubs to build a fence surrounding property the 4-H Club leased from the City of Hereford west of town.

WAYS AND MEANS  
The paramount issue at this

time of year seems to center around the annual vacation and the family budget.

Christopher Columbus died at Valladolid, Spain, at age 55 on May 20, 1506.

# Area Farmers Receive Fish For Stock Tanks

**MEASURING FISH**—Troy Winham, who is with the Fish and Wildlife Service, is pictured pouring small fish into a measuring cup. Thirteen area farmers were recipients of the fish for their stock tanks.

Thirteen farmers stood in the rain Thursday on the parking area of the U.S. Post Office to receive fish they had applied for. Applications had been taken earlier by the U.S. Soil Conservation Service.

Troy Winham with the U.S. Bureau of Fish, Sports and Wildlife, U.S. Department of Interior, delivered the fish and gave the farmers their allocated amounts of 10 to 20 ounces each.

The fish, which included channel cat and blue gill, measured three to four inches in length. Windham said with proper feeding, the fish would grow to be about 12 inches in a year's time. He plans to deliver bass here in the Spring.

Farmers use the fish for their stock tanks and the service is free of charge to them. One of the recipients of the fish, Billy Cleavinger, has three ponds, one of which is a recreation

pond and fenced to keep cattle from using it. It can only be used by his family and personal friends. No fish can be sold from the tanks.

Area farmers receiving the fish included L.J. Conrad, Joe Derry, Calvin Lippard, Fred Wall, Bill Cleavinger, George Paschel, Alton Wylie, Ray Brown, Howard Ingle, George Gruhkey, Bobby Mansfield, O.K. May and Weldon McClure.

**WAITING THEIR TURN**—Farmers on the left are shown waiting their turn to receive fish allocated to them by the U.S. Bureau of Fish, Sports and Wildlife. On the right is Ed Blackwell of the local U.S. Soil Conservation Service who is checking the list of applicants as Troy Winham measures the amount of fish.

## DAR Group Attends Workshop

Six members of Los Ciboleros Chapter of the Daughters of the American Revolution attended a workshop at Lubbock Wednesday which was held at the KOKO Inn and conducted by the state regent, Mrs. F. Hastings Pannill of Midland.

Those attending from Hereford were Mmes. L.W.

Norvell, H.M. Boozer, Jack W. Gilliland, Carroll Newsome,

Jeff Smart and T.J. Carter. State regent and other state officers were present.

The Lubbock Chapter was hostess and there were members present from the Division

of the Panhandle and West Texas.

In setting up the 1973-74 schedule, much stress was placed on the importance of National Constitution Week,

September 17-23. This is the 186th anniversary of ratification of the U.S. Constitution.

## Hospital Gift Project Voted By Club Again

Requested to repeat a project which had aided residents of the Wichita Falls State Hospital for several years past, Westway Extension Club members voted Thursday to collect scraps of fabric and trimmings for hospital craft classes.

Mrs. J.C. Morrison was hostess for the meeting in Pioneer Gas Flame Room, beginning a new year after a summer recess.

Dates for the scrap collection will be set soon by the club, so contributions may be sent to Wichita Falls by Oct. 25. As in past years, all residents of the area will be invited to assist.

Many home sewers here take this occasion each fall to clean up their scrap bags, giving fabrics of all sorts, braids, buttons, ribbon and other trim to the club collection.

This year a greater effort will be made to add Christmas gift items for the patients to the shipment of craft materials. The club will announce soon a list of gifts most wanted by the hospital patients, many of whom never receive gifts from relatives.

Argen Draper, county extension agent, gave the club program Thursday, on Easy Quilting Methods. She installed

officers headed by Mrs. Arnold Fangman. Mrs. Orville Williamson is vice president, Mrs. Andrew Kershen secretary and Mrs. Joe Artho Council delegate.

A former member, Mrs. Richard Wagner of Gruver, was a visitor, showing off her new daughter, Ashley.

Others present were Mmes. Vernon Sherman, Bess Werner and Albert Lamb.

**Navy Seaman Recruit John L. Jennings**, son of Mr. and Mrs. Thad Cole of 609 Ireland, Hereford, graduated from recruit training at the Naval Training Center in San Diego, Calif., Sept. 5.

## HHS Business Leaders Elect New Officers

At a recent meeting of Future Business Leaders of Hereford High School, the following officers were elected for 1973-74:

President, Gerald Shipley, son of Mr. and Mrs. Don Shipley; First Vice President, Babette Stengel, daughter of Mr. and Mrs. John William Stengel; Second Vice President, Cathy Lookingbill, daughter of Mr. and Mrs. L.H. Lookingbill Jr.;

Secretary, Cindy Smart, daughter of Mr. and Mrs. Jeff Smart; Treasurer, Margaret Schilling, daughter of Mr. and Mrs. Edward Schilling; Historian, Marilyn Schmucker, daughter of Mr. and Mrs. Alvin Schmucker; Reporter, Joni Paetzold, daughter of Mr. and Mrs. Walter Paetzold; The sponsors for the club are Mrs. Regina Douglass and Miss Ann Warwick.

## TREATY SIGNED

The West German parliament ratified nonaggression treaties with the USSR and Poland on May 17, 1972.

## LINCOLN NOMINATED

The Republican National Convention in Chicago nominated Abraham Lincoln for president on May 18, 1860.

"NOW THEY KNOW." Valuable, new and very important Mind Control discoveries have appeared in the news in the past few years. October 1971 — COMPANION — "Mind Control — To Bring Out The Best In You." September 3, 1972 — PROVIDENCE SUNDAY JOURNAL — "Mind Control: When You Create Images In Your Mind, Your Whole Body Chemistry Responds." October 1972 — MICHIGAN SUNDAY — "How To Think Yourself Thin With Mind Control." November 1972 — HARPER'S BAZAAR — "Mind Control: Something For Everyone." Also articles in LIFE, NEWSWEEK, NATIONAL OBSERVER, NEW YORK TIMES, LOS ANGELES TIMES, SALES MANAGEMENT and many others.

One of the reports that won admittance of the Parapsychological Association to the American Association for the Advancement of Science as reported by a computer scientist was "That corporate executives using ESP and creating millions of dollars' worth of business success throughout the nation in teaching practical applications of controlled ESP. This is the first and only method in history known to be effective in developing controlled ESP."

The "Silva Method," as this method is known, was scientifically researched by Dr. Jose Silva from Laredo, Texas, a research scientist and a pioneer in mental training, researching since 1944. He is the discoverer of the new Science of Psychokinesiology and the creator of the MIND CONTROL program. Dr. Silva states, "The discovery that human intelligence can learn to function with awareness of the Alpha and Theta frequencies of the brain will go down in history as the greatest discovery of man."

This discovery, he adds, "is sure to change our concept of Mind, Psychology, Psychiatry, Psychoanalysis, Hypnosis and of the Subconscious."

**JOSE SILVA**

**RESEARCH SCIENTIST**

Dr. Silva explains that there are four principal brainwaves: the Beta Wave, associated with some of the outer conscious levels, physical activity, anxiety, tension, etc.; and the Alpha Wave, also associated with lower levels of mental activity, tranquility, in-wardness, creativity, concentration, ESP, accelerated learning process, memory, learning and many other phenomena; the Theta Wave, related to deeper levels of meditation, concentration, and potentially even greater learning and recall capabilities; and finally the Delta Wave, associated with deep sleep now known as unconsciousness.

Dr. Silva continues, "In just hours of classroom instruction students can learn to function with awareness of Alpha/Theta levels." This is accomplished with the use of the SILVA METHOD of Mental Training without the use of Bio-Feedback Equipment.

MANY benefits are now known to exist for those who learn to function with controlled awareness at the Alpha and Theta levels. Our students report better memory, high grades, less tension and anxiety, faster revitalization and healing, release and rejection of psychosomatic problems, control of sleep and headache problems, control of smoking, weight problems, and some report correction of drug habits, and also maintenance of better general health. Dr. Silva adds that these abilities are just side benefits and that the real benefit is that the student, when at these levels, seems to sense information dispersed on the brain cells of others at a distance.

Dr. Silva believes that this is what some call ESP, or Extra Sensory Perception, but he calls it Subjective Communication. The MIND CONTROL program has changed the meaning of ESP, which was uncontrolled, erratic and very evasive, to Subjective Communication which is controlled and effective. He adds that perfecting the means to communicate in this dimension will be the second phase of human evolution on this planet.

Subjective Communication is being used to become aware of information for problem detection and solving.

Dr. Silva states that we somehow have unconsciously learned to interfere with the body's healing function and that this effect is known as the psychosomatic health problem. It appears that by learning to function with awareness of the Alpha-Theta levels, we automatically cease to interfere, allowing the body's internal organs and glands to return to their natural rhythmic self-healing function. We don't need to touch the internal organs how to function. Nature takes care of that when we do not interfere. The Silva Method is dedicated to help humans become healthier, more productive and better problem-solving agents. For references ask any of our graduates in the United States, Mexico, Canada, Central and South America and Europe.

NONDISCRIMINATION POLICY It is the policy of the Deaf Smith General Hospital to admit and treat all patients without regard to race, color, or national origin. The same requirements for admission are applied to all and patients are assigned within the facility without regard to race, color, or national origin. There is no distinction in eligibility for, or in the manner of providing, any patient service provided by the hospital, or by others in or outside of the hospital. All facilities are available without distinction and rules of courtesy are uniformly applied to all regardless of race, color, or national origin. Staff privileges are granted without regard to race, color, or national origin. All persons involved in the referral of patients to or from the hospital or assignment or transfer of patients within the hospital must do so without regard to the patient's race, color, or national origin. S-12-1c

Legal Notice

THE STATE OF TEXAS TO: F. L. Vanderburgh, Anna D. Vanderburgh and Dorothy Vanderburgh, and if the said F. L. Vanderburgh and-or Anna D. Vanderburgh and-or Dorothy Vanderburgh are deceased, the heirs, unknown heirs and legal representatives of the said F. L. Vanderburgh, Anna D. Vanderburgh and Dorothy Vanderburgh, deceased, Defendants, Greeting: You are hereby commanded to appear before the Honorable District Court 69th Judicial District of Deaf Smith County at the Court House thereof, in Hereford, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 15 day of October A.D. 1973, then and there, to answer Plaintiff's Petition filed in said Court, on the 31 day of August A.D. 1973, in this cause, numbered on the docket of said court and styled "Amp W. Miller, Jr., et ux, Plaintiffs, vs. F. L. Vanderburgh, et al" defendants. A brief statement of the nature of this suit is as follows, to wit: Plaintiffs, Amp W. Miller, Jr., and his wife, Ruth Miller, sue for title to and possession of The East 65 feet of the West 125 feet of the South 140 feet of Block 45, of the Town of Hereford and Additions, Deaf Smith County, Texas, alleging that they have title to the said land and improvements thereon under the 3-, 5-, 10- and 25-year Statutes of Limitation; Plaintiff, Ruth Miller, sues for title to and possession of The West 60 feet of the South 140 feet of Block 45, of the Town of Hereford and Additions, Deaf Smith County, Texas, as her separate property, alleging that she has title to the same and the improvements thereon under the 3-, 5-, 10- and 25-year Statutes of Limitation, and the Plaintiffs, and each of them, pray that all of the right, title and interest of the Defendants, and each of them, in and to such properties be divested out of them and invested in the Plaintiffs and that the clouds cast upon the Plaintiffs' titles by the Defendants, and each of them, be removed; as is more fully shown by Plaintiff's Petition on file in this suit. The officer executing this process shall promptly execute the same according to law, and make due return as the law directs. Issued and given under my hand and the Seal of said Court at office in Hereford, Texas this the 31 day of August A.D. 1973. Attest: Lola Faye Veazey, Clerk District Court, Deaf Smith County, Texas By Robert Williams, Deputy (SEAL) S-10-4c

### Members Receive New Yearbooks

Yearbooks were distributed to members of the Cultural Home Demonstration Club at their first meeting of the fall Friday afternoon in the Reddy Room of SWPS building. Hostess was Mrs. Grady Parsons. Members present were Mmes. Hilrey Aven, John Hunter, Novella Stallings, J.D. Love, J.G. Gandy, Hap Wiseman and Paul Corbett.

### Gourmet Casserole

- 1/2 to 3/4 pound pork sausage
- 1 medium onion, chopped
- 1 medium green pepper, chopped
- 1/4 cup chopped celery
- 1 cup uncooked wild rice\*

- 1 can cream of chicken soup
- 1 can cream of mushroom soup
- 1 (3-ounce) can mushrooms, drained
- 1 small can pimiento, chopped
- 1 cup grated American cheese

Brown sausage; add vegetables, cook until tender. Drain excess fat. Mix in remaining ingredients. Pour into 3-quart casserole. Cover. Bake at 325 degrees for 1 1/2 hours. Makes 8 servings.

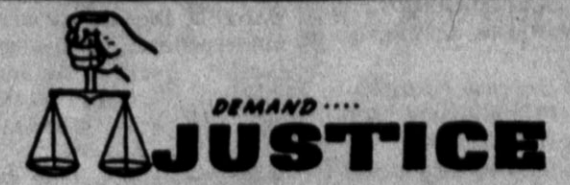

To Freeze: Combine ingredients as above. Cover and seal with masking tape. Cool. Freeze. May be frozen two months. To serve, remove masking tape and bake at 325 degrees for 2 1/2 hours.

\*White and wild rice mix may be substituted.

### Take stock in America.

Buy U.S. Savings Bonds. New 8 Bonds pay 6 1/2% interest when held to maturity of 30 years. 10 months (14% the first year). Bonds are replaced if lost, stolen, or destroyed. When needed they can be cashed at your bank. Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

400 acres on Black Water Draw, permit for four 8-inch wells, 30 feet to water, on highway. Priced at \$175 an acre, \$25,000 loan, 7 per cent interest. May trade for home or acreage near Hereford.

FOR LEASE: 120 acres, adjoining city limits, paved on two sides, strong 8-inch well on natural gas.

FOR SALE: Have several good farms in good water. Low down payment and easy terms.

FOR SALE: House at 344 Douglas St., 3 bedrooms, 2 1/2 baths, fully carpeted, drapes, kitchen built-ins, fenced backyard, double garage, finished yard. Can be bought worth the money.

## Campfire Girls Plan Training

Leaders for new groups of Campfire Girls, both at the Bluebird and elementary levels, are needed at the beginning of fall meetings, the Campfire Leaders Association has announced.

Training for new leaders and also for those currently serving, who wish to learn of new aspects in the Campfire Girls program, is to be offered soon with Mrs. Earnest Langley as instructor.

Plans for the training sessions are being made now. They will be open to all interested women of the county.

Anyone who will volunteer to serve as a group leader or assistant is asked to notify Mrs. Marvin Welty, chairman of the Leaders Association, or Nita Lea at the Campfire Lodge.

### GARDNER DIES

On March 11, 1970, mystery writer Erle Stanley Gardner died in Temecula, Calif., at the age of 80.

**YHT WEEK**—Mayor Jim Sears is shown signing a proclamation declaring September 16-22 as Young Homemakers of Texas Week. With Mayor Sears is the Hereford club's president, Mrs. Garry Kelley.

## Comedy In Rehearsal By Hereford Players

Cast complete and location definite, the first 1973-74 production of Hereford Community Players, Any Wednesday, will open Oct. 11 in the building formerly occupied by the Yardstick.

Directing the fast-moving comedy is Meredith Wilcox, with Alice Gilleland in charge of production.

Archie Dwyer returns to a Players cast after his debut as a socialite tennis bum in last spring's show, Dial M For Murder. He will portray John,

an executive in his mid-40's, vital, dynamic and very used to having things his way.

Newcomers to the Players have been assigned the other roles, Mary Ann Dziuk as John's chic wife, Jennifer Graham as Ellen, a lovely young girl, and Charles Wagner as Cass, a rugged salesman with a sense of humor.

Muriel Resnik wrote Any Wednesday, which has its setting in a garden apartment in Manhattan.

It will be presented in the

round, a theater form which had its introduction in Hereford when Mrs. Wilcox directed Glass Menagerie in 1971. The Players used the Yardstick building in successful semi-round productions of Dial M and Come Blow Your Horn last season.

The latter play was under Mrs. Wilcox's direction and she has assisted with other shows, bringing experience from an Oklahoma City theater group to the Hereford organization.

Mrs. Gilleland has done much

backstage work, appeared in comedy roles and served as the Players secretary and box-office manager.

Bobby Byers, who has done yeoman service in a number of plays with lighting and sound, will direct that phase of the staging.

## Cosmetology Club

### Elects Officers

The Hereford High VICA Cosmetology Class recently elected new officers for the 1973-74 year.

Elected were Vickie Trull, president; Mary Jean Reinart, vice president; Sue Smith, secretary; Mary Shipp, treasurer; LaDonna Woodie, reporter; Sharon Homfeld, parliamentarian; and Lane Rowan, sargent at arms.

Installation of the new officers will be held at 7:30 p.m. Sept. 25, in the Cosmetology Department at Hereford High.

### LEND-LEASE

On March 11, 1941, President Franklin D. Roosevelt signed into law the hotly contested Lend-Lease Bill.

## City Commission To Meet Monday With Full Agenda

Hereford's City Commission will meet in regular session at 7:30 p.m. Monday night in City Hall with a full and varied agenda.

In addition to regular business, Commissioners will hear the third and final reading of the gas franchise ordinance and also hear a request for monthly gas rate adjustment.

Health-Mental Retardation Center will be held and attorney Ray Cowsert is expected to appear for Jim McAndrews concerning a lease agreement by McAndrews of city property.

In final action listed on the agenda, commissioners are expected to discuss applicants concerning the position of manager for Hereford's Community Center.

Bids for a new street sweeper will be reviewed by the Commission with possible action being taken. An ordinance accepting paving units in the city is expected to be passed and commissioners will hear a request for a zoning change concerning Green Acres Addition.

Discussion of a Mental

## Holly Sugar Presents

### Several Service Awards

A number of service awards were presented to Holly Sugar employees at the local Shoup Plant this week.

Making the presentations were Bob Rich, Eastern district factory manager, for the factory employees, and Bob Ginn for the age employees. Awards were presented at a pre-campaign dinner.

Recipients of 25-year service awards were Alvin Anstey and Earl Clark, and a 20-year award went to Bobby Smith.

Ten-year awards were received by Fredrick Haug, Gary Kelley, and Harold Searcy, and 5-year awards went to J.W. Armstrong, Cordell Curtis, Manuel Galvan, Sammy Provence, and Bacilio Rodriguez.

One of the least known facts in modern American agriculture is that farmers for years have sought their profits through increased production and efficiency rather than in higher prices.

Each farmer in America today, produces enough food for himself and 51 other people.

Twenty years ago, he was raising enough to feed just 15 other people.

Self-discipline is the master key to the best things in life.

## BIRTHS

Mr. and Mrs. Jose Apolonio Greigo are the parents of a son born September 13. He weighed 7 lbs. 2 1/2 oz.

Mr. and Mrs. Gary Juan Eskew are the parents of a daughter, Shestie Denise, born September 13. She weighed 6 lbs. 6 oz.

Mr. and Mrs. James Clifford Lindsey are the parents of a daughter, Jamie Ann, born September 12. She weighed 5 lbs. 10 oz.

Seated are Mrs. Dean Baxter, second vice-president and Mrs. James Wansley, parliamentarian. Brand Photo By Sandy Inman

# Winget-Parker Marriage Read In Dallas Church

The marriage of Miss Pamela Lynn Winget of Irving, member of a pioneer Hereford family, and Lester Dwayne Parker of Arlington was an event of Saturday evening in Wesley Chapel of Lovers Lane United Methodist Church at Dallas.

Parents of the couple are Mr. and Mrs. Charles Richard Winget of 211 Avenue J, Hereford, and Mr. and Mrs. Floyd Parker of Royce City.

The Rev. A.L. Draper, pastor of First Baptist Church in Wylie, conducted the double ring wedding ceremony.

Stained glass in three walls of the chapel made decoration unnecessary; only altar bouquets were arranged, of late summer flowers with apricot color predominating.

Mrs. David Wilkins of Arlington, the former Nancy Smith of Hereford, was matron of honor and Don Lackey of Arlington was best man. Brothers of the couple, Wayne Winget and Ronnie Parker, served as ushers.

Traditional wedding music was played by Mrs. Clarence Candamio, organist.

Narrow double ruffles soft-

ened the deep V neckline of the bride's gown, of candlelight chiffon over taffeta. There was a seed pearl trim at the empire waistline and tiny pearl buttons fastened wide cuffs which held sleeve gathers.

She wore a picture hat of candlelight braid with a cluster of fresh flowers at the center back, and carried a cascade of cream roses, stephanotis and a touch of coral in rosebuds, on a bridal Bible. She wore her mother's pearl choker and earrings.

Her attendant was dressed in coral sweater knit empire dress, floorlength, with long full sleeves and V-neck. Her coral necklace was a gift of the bride. Apricot shades were emphasized in her nosegay of multi-colored flowers.

Similar flowers made the table arrangement at the reception in Oxford Hall of the church. Skirted in candlelight net with apricot swags, the table was centered with cream candles in silver candelabra. The white cake had apricot decoration and a cluster of bells on top.

Mrs. Robert Hunt of Grand

Prairie served cake while Mrs. Joe O'Brian of Arlington was at the punch bowl. Reception guests were registered by Mrs. Craig Griffin of Baton Rouge, La., sister-in-law of the bride.

The newly married couple flew to San Francisco to begin a trip down the coast of California. They will be at home next weekend at 3535 N. Story Rd., No. 137, in Irving.

Mrs. Parker, a great-granddaughter of the E.J. Newells who were covered wagon pioneers in Hereford, lived most of her life in this city and was a Hereford High School graduate before she entered the University of Texas at Arlington. Her sorority there was Alpha Phi.

Service in the U.S. Air Force Reserves followed attendance at East Texas State University for Parker, who graduated from high school in Wylie. Both have been employed in the Dallas area.

In addition to the bride's immediate family, wedding guests from Hereford were Messrs. and Mmes. Labry Ballard, S.L. Garrison, Art Stoy, Gaylord Newell, Dale Smith and Bill Johnson.

Other out-of-city guests included Craig Griffith of Baton Rouge, Mr. and Mrs. John Willoughby, Mr. and Mrs. Roger Pugh of Oklahoma City.

# Comings And Goings Miss Monical Is Bride At King's Manor Of S.R. Brazzell, Dumas

By FAYE GAUGGEL  
Louise Vaughan and Lucile Naylor spent a pleasant weekend visiting relatives and friends in Clarendon, attending the Clayton family reunion in Memphis and visiting Mrs. Naylor's brother, the Rev. J.W. Polk and wife in Paducah.

Kings Manor residents received an invitation to a tea at the home of the J.T. Gees in Friona Sept. 6. Three cars of residents went. The Gees are avid promoters of our Manor, having served on the board in various capacities.

The home is charming with memorabilia of older days intermingled with contemporary bric-a-brac. The guest book will serve the Gees and the occasion will remain in our memories.

Refreshments were spiced tea, tasty tidbits and fresh fruit.

Our executive director, Richard Snow, showed slides to us Wednesday at the Manor. It was a medley of interests. First was a view of the elaborate Snow home near Clovis, N.M.—Spanish architecture with Christmas decor.

Also depicted were the daughter and her family, the youngest being a new boy. Then came quick views of scenes

here at the Manor where we recognized ourselves at times.

Our trip to Boys Ranch gave views of the entrance, the dorms or homes, and most impressive was the new chapel with belfry and spire nestled in leafy branches and all pointed heavenward.

Boston, birth of our nation, was the main theme portraying Lexington and Concord, memorials to Paul Revere; the Old North Church and belfry which triggered off "The shot heard around the world"; Faneuil Hall, place where Founding Fathers deliberated, debated, and documented data; the constitution, a 44 gun frigate affectionately termed "Old Ironsides", as well as Plymouth Rock and the Mayflower. We saw views of lighthouses and coast homes on the bay taken from the air.

Thus we review history via the audiovision.

## Sunshine Club Has Election

Election of officers was held during the business meeting of the Sunshine Club Tuesday evening in the home of Mrs. Elsie Minor of Bovina.

Mrs. Robert Callaway was honored as a guest and assisted Mrs. Minor in serving dinner to club members.

Elected to the office of president for a two year term was Mrs. Clint Lundry; vice-president, Mrs. Edith Shepard; gift committee, Mrs. Willodyne Brooks and Mrs. Gene Kelsler; recreational committee, Mrs. Kelsler and Mrs. Elsie Jones; refreshments committee, Mrs. Jones and Mrs. Minor; yearbook committee, Mrs. Clois Kemp and Mrs. Lundry.

Mrs. Brooks was recognized as a new member by the eight members present.

It's necessity that creates the will to change—first comes the vision, then the plan.

In a candlelight setting at Central Church of Christ, Miss Marilyn Kay Monical exchanged marriage vows with Stephen Russell Brazzell of Dumas at twilight Friday with Gary German, minister of First Street Church of Christ in Dumas, officiating.

After a week's honeymoon in Colorado Springs, the couple will be at home at 1600 Binkley, No. 68, in Dumas, where the bridegroom is associate minister of First Street Church of Christ.

Mrs. Brazzell is the daughter of Mr. and Mrs. R.E. Monical, 717 Irving, and Brazzell's parents are Mr. and Mrs. Leabert Brazzell of Lamar, Colo.

Her father gave the bride in marriage as the wedding party stood before an arch of greenery between spiral candelabra and bouquets of daisy pompons. A memory candle burned under the arch.

Miss Myrna Monical was her sister's maid of honor and Troy Brazzell of Stillwater, Okla., attended his brother as best man. Bridesmaids were Miss Debbie Ginnings of Lubbock and the bridegroom's cousins, Miss Monica Brazzell of Dumas and Miss Trudy Brazzell of Lamar.

Denton Wiggains of Hooker, Okla. Alan Gann of Dumas and

Wally Westbrook of Lubbock were the groomsmen-ushers. Joe Brazzell, a brother, and Scott Brazzell, a cousin of the bridegroom, lighted candles before the ceremony.

Young attendants were relatives of the bridegroom; his sister Melinda and a cousin, Lora Beth Brazzell, were flower girls and a small brother, Tony, the ringbearer. Wedding songs were by members of Lubbock Christian College A Cappella Chorus.

White organza and lace were worn by the bride with a satin underdress. Lantern sleeves of the organza billowed from lace caps, and the circular skirt widened to carpet length.

A crown of lace and seed pearls held the illusion veil, edged with lace scallops, which lengthened into a chapel train. She carried a cascade bouquet of carnations and daisies.

Attendants' dresses were styled with lace bodices over beige satin, and crepe skirts. The maid of honor and flower girls wore gold skirts and the bridesmaids' skirts were in avocado shade. Picture hats were in colors matching the skirts, and bouquets were of gold daisy poms.

These bouquets were arranged with a dozen gold tapers as the table centerpiece

for the reception in the church fellowship hall. The tiered cake was decorated with gold daisies.

Miss Gayle McCutchen and Mrs. Troy Brazzell served the cake while Mrs. Chuck Morris of Ozona and Miss Vickie Wimberley of Lubbock poured punch, assisted by Miss Brenda Saul. Miss Mabelle Trower of Lubbock was at the guest book.

For travel the bride changed to a brown print knit dress with brown jacket and accessories, pinning on a corsage from her bouquet.

She has attended Lubbock Christian College since graduation from Hereford High School in 1971. Her campus memberships include Metah Moe social club and the A Cappella Chorus.

The bridegroom has studied at LCC and also for a year at Lamar Community College.

### NO SURRENDER

On March 22, 1942, Gen. Jonathan Wainwright rejected Japanese ultimatum to surrender his armies on Bataan peninsula.

### MEANY RESIGNS

AFLCIO President George Meany resigned from the Pay Board, a government wage control agency, on March 22, 1972.

## C of C Women Meet

The executive board of the Women's Division of the Deaf Smith County Chamber of Commerce met Tuesday for its monthly meeting and lunch at the Hereford Country Club.

The business meeting was conducted by Mrs. Rocky Lee, president.

Mrs. Melvin Jayroe, chairman of the beautification committee, reported plans were being made for a special program at the general meeting to be held in October. The committee is also making plans for a Christmas lighting contest.

Mrs. W. A. Lamm, membership chairman, reported six new members to the

organization. They are Mmes. Carol Rose, R. C. Hoelscher, Clint Formby, Bill Albright, Bill Walden and Roger Hale. There are approximately 110 members in the division.

Plans for the future include appointing a new steering committee for the Miss Hereford pageant, forming a "Helping Hands" project where school children will have homes to go to in case of emergencies, and a first aid course for anyone interested, especially women.

Attending the meeting were Mmes. W. E. Sparks, Roy Faubion, O. G. Nieman, Lee, Jayroe, Lamm and Betty Willson, new secretary at the C of C office.

## Golden Circle Elects Officers

Election of officers was held by members of Golden Circle Class of Avenue Baptist Church, this week in the Reddy Room of the Southwestern Public Service building.

Mrs. Loyd Webster was elected president; Mrs. Jerry Hix, vice-president and outreach leader; Mrs. R.S. Shaw, secretary-reporter; court captains, Mrs. Sammy Provence and Mrs. Herman Cherry; treasurer, Mrs. James David.

The revision of yearbooks was discussed and the club recognized Mrs. Tommy Mason as a guest.

**IT'S WORTH A TRIP TO AMARILLO!**

Monday, September 24 through Saturday, September 29. Our famous once-a-year event is coming! Dividend Days is truly an event. It's much more than a sale. It's a tradition at Sakowitz. Each year, and only once a year, our buyers work with our regular resources to purchase new-for-fall fashions at very special prices. They cooperate with us in this manner only because Sakowitz normally does not advertise or promote by price, but by fashion and quality. So on the same fine merchandise (not seconds, irregulars or old age merchandise) we pass these values in fashion-on to you at very special savings. It's our way of thanking you for your loyal patronage all year. And, it's a marvelous opportunity for you and your family to make great fashion investments. Come in early to take full advantage of this event in our Downtown and Western Plaza stores.

The Consumer Alert

Most Famous Mail Fraud Undoubtedly Simplest

By JOHN L. HILL, Attorney General. Although the federal mail fraud statute — one of our oldest consumer protection laws — has been on the books for 99 years, the fertile minds of confidence men keep producing schemes that lead to consumer disappointments and law enforcement actions.

advertised in newspapers and magazines: "Last Chance. Send \$1." His postoffice box number followed. By the time government officials put a halt to that, the fellow had gathered in \$200,000 worth of dollars which had been rushed by mail by people who didn't want to miss out on that "last chance." No charges were filed, however, since the advertiser had not misrepresented anything, and hadn't promised

anything he did not deliver. MOST OF THE FRAUDS which are perpetrated cost the victims much more — not only in money, but in terms of time and effort. Among the most vicious, I believe, are the fake job promises. The Attorney General's Consumer Protection Division has been the recipient of complaints from persons who followed through on ad-

vertisements about employment guidance, only to have their hopes dashed. Typically, the advertiser offers information about "job opportunities" to the person who will send \$3 or \$4 to learn more. In some cases, the mailing of the money is the last episode, but the average consumer just chalks the loss off to experience. Other schemes are more complicated, and more

lucrative. They may involve a notice that the sender of the original fee has been "accepted," and for a couple of dollars more, he or she is urged to return an "application" to rush along the referral process. IF THE CONSUMER doesn't hear any more after that, real disappointment sets in. By then enough time and effort and hope has been invested that the person really feels cheated, and turns to an agency such as our Consumer Protection Division, or a county or district attorney, or the U. S. Postal Inspector.

While enforcement of the federal mail fraud statute is a function of the postal service, deceptive advertising is illegal under the Texas Deceptive Practices Consumer Protection Act as well, and our state and county prosecutors can take action. The new act even provides for a court order to refund the consumer's money. ANOTHER ADVERTISED practice to beware of is the "learn-at-home" or "work-at-home" plan which promises you fabulous financial rewards if you will send in some money to learn how to sell salve, raise minks, write advertising copy — there are many twists to this. Usually, you are required to buy some "materials" for the

study or manufacture of services and parttime employment on a mail-order basis. The fraudulent operator is banking on your confidence in the honest operations when he advertises his. Deceptive consumer practices always have seemed to me to be the worst sort of fraud. BUT AT A TIME when inflation, economic distress and unemployment are major

problems, cruel misrepresentations of learning and earning plans are especially outrageous. If you have any doubts, or complaints, do notify the Attorney General's Consumer Protection Division office in Austin, Houston, El Paso, Lubbock, San Antonio or Dallas, or your better business bureau, or county or district attorney.

Private Car Is Chief Means Of Transportation In County

Of Deaf Smith County's working population, how many have jobs near where they live? How many travel out of the area to their places of employment? How do they get there. According to the latest figures from the Department of Commerce, Deaf Smith County provides a means of livelihood within its own borders for the major portion of its working force. The number who travel out of county is relatively small. A total of 88.4 per cent of the local area's employed people have in-county jobs, it is shown. This is a larger proportion than is found in many sections of the country. In the United

States as a whole, 74.8 per cent work within their own country and, in the State of Texas, 84.0 per cent. The number of job opportunities in home areas varies greatly from community to community. It depends to a considerable extent on geography, on population density, on residential or commercial character and on the amount of industrialization. With families leaving the busy urban centers in droves in recent years to seek a different kind of life in the less crowded outer areas, there has been an increase in traveling time between home and place of

employment. In Deaf Smith County, as in most localities, the private car is the chief reliance for this daily trek to work. No less than 75 per cent of the local men and women who are employed travel to their jobs by car or by car pool, it is estimated. On the other hand, some 10 per cent work at home or near enough to their places of employment to walk to work. Nationally, the figures show, 77.7 per cent of the working

population travel by automobile, 5.5 per cent go by bus or streetcar, 3.0 per cent by railroad, subway or elevated train and 0.4 per cent by taxicab. Of the remainder, 7.4 per cent walk, 3.5 per cent work at home and 2.3 per cent are unreported. In some localities, where traffic congestion is most severe, the expanded use of mass transportation, especially buses, is being urged to cut down on gas consumption, air pollution and road tieups.

Club Looks Back Over Vacation

Highlights of the summer were given by members of the Ceramics Art Club at the first meeting of the season Wednesday in the home of Mrs. W.C. Hromas, 307 Sunset. The club's president, Mrs. Leona Seavey, presented a report on a flea market she visited while in Canton this summer. Also, Mrs. Quentine Martin and Mrs. Earl

Brookhart were welcomed as new members. Mrs. Lloyd Kirkeby won the president's prize at the club's drawing and the new 1973-74 yearbooks were presented. Mrs. Hromas demonstrated to club members the pouring and care of molds, greenware and bisque. At the close of the meeting, refreshments were served to the six members present.

Man first began using energy when he discovered fire and the benefits that fire could give him. Cooking and warmth in the winter. As time went on and man learned more, he started using animal and whale oil to light the lamps to see by at night. Next, came coal, then oil from the ground and, in the process, natural gas. This replaced manufactured gas because it was cheap and, many thought, plentiful. But then the natural gas started to run out and suddenly there was an energy crisis and people worried about the future. The great hope for the future was left to electricity. But, you say, it takes gas to make electricity. Yes, in our plants we do use natural gas but there ARE other sources of things from which to make electricity.

Coal is one — and that's what our next plant, about to be built, will use . . . low sulphur western coal with the most advanced pollution control equipment. Is there enough coal? Yes, we have under contract a fifty year supply. What other sources are there? Beyond the fossil fuels there is nuclear energy. The breeder reactor will actually make more fuel than it uses. The fusion process will use seawater for fuel — that supply is unlimited. So, it's obvious that the big source of energy now and for the future for industry, agriculture, business and the home is electricity. With electricity you can be sure that the electric appliances you buy today can still be used in the future . . . no shortage, no obsolescence with clean electricity.

# Hereford Can Be Proud

The Hereford School System, like many other school systems in the state, has varied programs of special education.

Special education concerns teaching those students who are having an unusually difficult time learning through the normal classroom procedures. Special Education doesn't necessarily mean a student has to have a serious mental or physical handicap to be eligible for the program.

The school does have excellent special education programs for the physically and mentally handicapped. It also has programs for those students who are looked upon as average or above average students, but for some reason or another, have difficulties in specific areas such as reading, writing or comprehension.

ONE SUCH special education program at the school is the LLD program.

LLD, or Language Learning Disability, involves five Hereford teachers in the six elementary schools. The program was a pilot program for Hereford last year and is presently in its second year. It appears to be doing

an extremely good job with the students.

In the program, the teachers work with the "slow-learning" children about an hour a day. Unique and unusual methods are used to help the children learn to understand and think by themselves.

**THE RESULTS** are impressive. Many first and second grade students — who might otherwise go through school with C's and D's and F's simply because they can't comprehend what the teacher wants — suddenly move up with the A and B students.

The LLD program is only one of the many special education programs in the Hereford School System. We hope to soon be able to look at them all.

To teach special education classes requires a great deal of patience, time, kindness, watching, and praise.

No other person than the teacher has such delicate material with which to work. The teachers should all be commended for their efforts. They are doing a good job in a good school system which recognizes the needs of the community.

# Don't Pass It Up

The Hereford School system is offering an excellent list this school term of community service and vocational courses for local residents.

The courses available could be a benefit to almost all residents who take advantage of this plan to increase their personal or professional skills.

The courses are to be offered through classes at the school one night each week this term. Local teachers have volunteered to teach the courses.

The courses are designed basically for Hereford adults who are unable to

attend colleges to pick up specific skills. Courses to be offered range from bridge, men and women's recreation, tennis and golf to bookkeeping, auto tuneup, income tax and conversational Spanish. Many other courses are included in an article in this issue.

Registration for the courses will be Tuesday. Fees for the classes are minimal compared to attending colleges.

It's an excellent opportunity — don't pass it up.

# Texas Is Important

Strange how ideas — even inaccurate ones — die a slow death. Take the image of agriculture in the U.S., for instance. Pull an average American off the street corner, ask him a question and he'll probably tell you that the typical farmer comes from somewhere in the Midwest, that he still wears bib overalls and raises corn for a living.

WELL, the Midwest still deserves mention when farm talk comes around, but for good reason we would like to see that picture altered a bit. To start with, take that farmer out of the overalls and get him out of the corn patch. But most of all, put him a little closer to Texas.

There's good reason for the change in farm geography. Texas leads all the states in a surprising number of agricultural firsts: cattle, sheep, lambs, goats, cotton, grain sorghum, and a number of vegetables. It is the nation's largest feed-producing state and consistently ranks near the top in a wide variety of other crops, including

citrus fruits, peanuts, and several other commodities.

Recounting that ranking is more than just another Texas brag, however. Statistics are important. So are correct impressions. For attitudes are important to the decision making that has a vast effect upon the entire Texas agricultural community. Public opinion still is at the core of governmental policy. Daily business decisions are shaped by impressions.

So, Texas, is an extremely important agricultural state. The whole world should become acquainted with that fact.

... some brainy bureaucrat in Washington D.C., (has) spent a sizable chunk of the public's money on a study to find out why kids fall off tricycles. . . . (And now, as if that weren't enough), \$226,000 has been given the National Transportation Center in Pittsburgh for the study of feasibility of double decker buses in cities. I didn't get any of the money — but I can tell them that in England and many foreign countries double-decker buses have operated successfully for years and years — but, I don't approve the transportation people or the bureaucrats who know that!" FOWLER, IND., BENTON COUNTY REVIEW

"Leonid Brezhnev, the anti-capitalist Communist bureaucratic boss of the (U.S.S.R.) . . . is making out very well for himself in his world survey of what he hopes to be future Communist real estate. In 1972 he picked up a shiny new Cadillac as a gift from President Nixon; later he was given a zippy Citroen-Maserati by President Pompidou of France, and now he has . . . been given a snappy silver-grey Mercedes by Chancellor Brandt of Germany. At this rate, he'll have to build a bigger garage — a great problem, with so much slave labor available in the Soviet Union." HUGHES, ARK., STAR-HERALD

"A sign in the window of a Grand Island, Nebraska, butcher advertises T-bones for 59 cents a pound. But in smaller letters at the bottom, it says: With Meat, \$2.08 a pound." LUCEDALE, MISS., GEORGE COUNTY TIMES

"As all taxpayers know, the red tape and paper work in Washington is ridiculously complex burdensome. Now there is a bill in Congress to require an assessment of the paper work in our capitol. That sounds encouraging, except no doubt the new agency, if created, will have a lot of paper work of its own, as will another subsequent agency which will be set up to investigate why the original agency has not accomplished anything." BELTON, TEXAS, JOURNAL AND BELL COUNTY DEMOCRAT

## Letters To The Editor

# Angry About Poisoned Dog

Dear Editor:

I am angry!!! My dog is dead from being poisoned. Will a child be next?

Apparently, some person who doesn't like dogs is making a practice of killing them by poison. My dog was among those murdered. I know he didn't die of natural causes because I took steps to find out how he died.

A highly toxic ingredient was used which can be fatal to humans if it is put into the mouth. A child or adult can be made very ill if they get it on their hands and then put their hands in their mouth. It is difficult for me to believe that any human does not put their fingers in their mouth occasionally.

MY DOG wasn't worth much and sometimes a big nuisance but a child is worth more than money, and I wonder how parents will feel if their child is dead because of being poisoned. It isn't much consolation to hear someone say "I only wanted to kill the animals."

Many people I have talked to are not too concerned because they don't have an animal, or they feel that their children are too old to get the poison in their mouths. I don't believe that any of us are immune.

Others have said that in this particular neighborhood, dogs have been poisoned every year for years, and a child has not been killed yet. Fine, but there is a first time for everything, and this may be the year when a child will die because some person wanted to kill a dog.

I AM not asking for sympathy for my dog, because he doesn't need it, nor do I. He can be replaced, but a child can't. I am only asking for your cooperation in finding the person responsible. There are a couple of things you can do.

1. If you have a dead animal you believe has been poisoned, report it to the Police Department and they will take the necessary steps.
2. If you believe you saw something unusual in the neighborhood (day or night), report it to the Police Department. They will be more than happy to visit with you without your "getting involved."

Even if you think what you saw may not be important, report it anyway. 3. Look at your children and thank God you have them, because tomorrow one of them may be very ill or dead because of some warped mind.

You may believe that this is the work of someone who hates dogs. Do you think someone like this is going to have any conscience if he decides he doesn't like kids?

YOU MAY be sitting in your nice comfortable home while you read this and say that the police aren't going to do anything about it. I say to you that they will if you help them. It really doesn't make much sense for a police officer to try to catch a criminal if someone doesn't give him the information he needs.

You may not have children of your own, but you more than likely have relatives who are children. Can you feel safe when they come to visit knowing that they may get poisoned?

To the person who is responsible, I say to you that I hope you are caught and put away, because you are not only a murderer of defenseless animals, but you are also a potential murderer of humans, and a menace to society.

Virginia Stevens

# Talk Of Texas

By JACK MAGUIRE  
**THE GREAT TRAIN WRECK** — The last train wreck to be deliberately staged by a railroad as a promotion stunt occurred in McLennan County 77 years ago this month.

The site chosen was on the Katy Railroad's main line a few miles north of Waco. W. G. Crush of St. Louis, the railroad's general passenger agent, got the idea of staging a collision between two trains in order to profit from the spectators he hoped to lure, to the event on special excursions.

Weeks before the widely publicized head-on collision between the two trains, Crush erected bleacher seats in pastures on either side of the tracks. On the day of the wreck, there was standing room only as more than 30,000 people arrived at the one-day boom

town named "Crush" for the man who planned it. Most of them came, as Crush had predicted, aboard special Katy trains.

The two doomed trains began their run two miles apart. The engineers opened their throttles, tied down their whistles and leaped off. The locomotives were doing a mile-a-minute when they hit head on.

Things didn't turn out quite as expected, however. At the impact, one of the locomotives exploded, hurling debris and steel into the crowd. Two spectators were killed and more than a dozen were injured.

Those who escaped injury pronounced it a great show. But it was never repeated anywhere in the U.S. again.

## The Bootleg

## Philosopher

Dear editor:

As I understand it, next year's cars are going to have seat belts rigged up so your car won't start till the belts are fastened. Somehow the belts are wired into the ignition system and your car can't be started till you're buckled up.

As far as I know this is a good idea, but it ought to be carried further.

**FOR EXAMPLE,** say you're buckled in and your car still won't start. There ought to be a radio-controlled slot in the dash where you can insert a specially coded card causing the car of the garage owner where you had it fixed not to start either.

You may say this is too complicated to manufacture but you don't have confidence enough in manufacturing. I say anybody who can design a refrigerator or a hot water heater or an air conditioner that'll stop working 30 minutes after the warranty runs out, can do it.

A more far-reaching use of the idea would be to connect a car's ignition system with a breathalyzer, the thing police now use to test your alcohol content. As I understand it, you breathe into a bag and a gauge indicates how much liquor you've had.

Equip every car with one of the things fastened to the steering wheel, and until the driver leans forward and blows and the needle registers sober, the car won't start. Anybody caught carrying a bicycle pump in his car has his license suspended.

**THESE** extra gadgets may run the price of cars up but the way everything is going up, who's going to notice?

Along that line, I read the other day that an economist said the world is in bad shape, what with the energy crisis and everything going higher and higher and scarcer and scarcer and no end in sight. "It looks like the whole world is trying to burn its candle at both ends," he said.

I doubt this. I lit a candle at both ends once and immediately both ends went out.

Yours faithfully,  
J.A.

## GRASSROOTS OPINION

"It seems that things are changing at the University . . . We had occasion to sit and visit with a couple of professors . . . and both stated very feely that up until two years ago, their jobs were literally 'heaven on earth'. They were in wonderful surroundings, teaching fine young people, and doing what they loved. Things are different now. One told of an experience in one of his classes when a graduate student called him just about everything one could think of, with scattered support from the class. In another day, an exhibition like this would have been reported to university officials, and something would have happened. This is no longer true. Many classes are a shambles. Teachers have no control, and students do just about as they please. Said these professors, 'It's a sad, sad thing, what is happening on the campuses of the nation today. We would leave . . . but there is nowhere to go. Conditions are about the same everywhere. It is a pitiful story, one we can all be ashamed of . . . The sad part of this whole thing is that there are many thousands of normal, hardworking kids who are in school to get an education and hopefully, live a normal life. It is not easy in surroundings like (these) . . ." MEMONONEE FALLS, WISC., NEWS.

"Grocers' Advocate says, a taxpayer recently moaned, 'I owe the government so much money, they don't know whether to throw me in jail or recognize me as a foreign power.'" TALLASSEE, ALA., TRIBUNE.

"When man is willing to become self-reliant, thrifty, productive in his work, honest in his business, fair to his employees, honest in politics (if that is possible), then we may hope to balance the consumer goods and their production with income . . . and be able to buy what we want and need, and have a little left for a rainy day." DUNSMUIR, CALIF., NEWS.

"Newspapers must be free if they are to give information freely and not be curbed by censorship. Freedom makes the difference in the newspapers of this country and those in the communistic part of the world." SPINDALE, N. C., SUN.

"Don't know why it is, but every time we hear a candidate tell people he is going to cut state taxes if elected, we feel he should start his talk by saying, 'Once upon a time . . . That is how most fairy stories start out isn't it?'" BROWN-SVILLE, PA., TELEGRAPH.

## By The Garden Gate With Glad

By Mrs. Art Manjeot

"A child said, 'What is this grass?', fetching it to me with full hands; I could not answer that child I do not know what it is any more than he" — Walt Whitman.

I do know that grass, trees and vegetation play a large part in our lives, and that God created the earth, and placed man here to tend it. The real question of importance is what kind of caretakers we are.

It is so vitally important that we become well aware that there are certain things which we should and must do. One is to inform ourselves of the part we play in making this a better place to live in by planting trees, grass and other vegetation. Man lives by what these give off.

Pollution and ecology are some of the pertinent things today. As citizens we should inform ourselves.

This is a good month to launch a lawn improvement program if your lawn needs it — and mine really does. Fall is now officially well on its way. We have passed Labor Day, and to the wide-awake gardener it means attention should be given to lawns so they will enter the winter months in good shape.

The sequence starts by cutting the grass shorter, and right afterward water well then put on an application of fertilizer (commercial).

It is advisable to select a fertilizer that has crabgrass and weed killer in it, and with one application the two things can be done. Purchase a well established product, one that has full analysis on the bag and one that you have previously used, if available.

It is well before you spread the fertilizer, weed and crabgrass killer that the lawn be checked for bare patches or dried areas where the grass has turned brown. Dig into the soil underneath and check for grub worms, other insects or fungi spots.

If grub worms are found, loosen the soil and treat with chlorodane, either by liquid application or the dusting powder. If grubs are not found, loosen the soil with a hand gardener's fork, mix in a little superphosphate and scatter seeds. After sowing the seed, cover these areas with wisps of straw or cured grass (lawn clippings without seeds).

Water thoroughly and hope for a rain to aid in insuring good results. The places where seed

are planted should be kept moist to aid the seed in germination and growth.

There is a bit of controversy relative to using the weed and grass (foreign) killers. Some think this should be done in the spring, however many of the authorities advise fall treatment. Timing of application can make a great difference in environmental risks with weed killers.

I really think fall is the better time, and have just completed giving my lawn a thorough check and treatments. Fall application prevents injury to nearby annuals, perennials, trees and shrubs, which have hardened tissues so as to resist penetration.

If there is not a complete kill, and for winter chickweed, dandelions and many other perennial lawn weeds, a like treatment may be needed in the spring. However the fall treatment will kill not only foreign grasses and weeds but their seed, thus lightening spring growth.

Now is also a good time to prune some trees, such as walnuts, maples, birches and other kinds that ooze inordinate amounts of sap. Make cuts smooth and neat as possible (so be sure tools are sharp). Seal cut areas with tree wound dressing and mark on calendar to make another application in late October.

CHRYSANTHEMUMS are coming into flower and they should be watered often, also checked for insects. There are still some worms and flying insects around, I found a large busy worm on one of my choice plants Monday.

Disbudding should already have been done for specimen blooms, however final check would help and if needed carefully pinch clean new buds. Don't forget to share your pretty fall flowers with shut-ins, hospitals and friends.

IRIS: Most gardeners have already transplanted and divided their iris. If not I would recommend a method that was suggested by one of my ardent iris friends. Especially with large clumps it is often such a task to divide, that she suggests the center rhizomes of each clump be removed.

This should be done with a sharp knife or spading shovel. When cleaned out and other collected debris removed from around the plant, fill the space

with sharp sand, to which you have added a cup of superphosphate.

This is called a lazy gardener's method, but it works and will give good results for several years, after which the entire clump should be divided, old rhizomes destroyed and new ones transplanted.

If you have previously divided your iris, don't fail to water the new plants. When freezing weather arrives do not water, but do check after hard freezes and quick thaws for rhizome "heave" out of the soil which breaks the tender root system.

Replace by gently and firmly stepping on the heaved rhizome and soil to pack it down. Then cover with about two inches of good garden soil. If these steps are taken there will be a better chance for blooms.

When these garden chores are completed, clean out the flower beds and rid them of weeds and grasses. Do not let them seed before removing them, if so there will be a very full crop of grass and weeds the next season.

This past week has been a happy one. I had a delightful guest, my niece from California. We talked, visited and walked through the gardens, cut some flowers and shared them. Also have had numerous phone calls and notes, and did two or three tea table arrangements, as well as a "long remembered" meeting with the Bud to Blossom Garden Club.

One of the letters, written on shocking pink stationery, ended, "love and laughter." Whatever happens let love and laughter prevail and yours will be a happier life.

Next week . . . some new introductions to some new friends. See you then!

## Loretta Lynn To Appear At Fair

Loretta Lynn, who for years has fashioned hit country songs from the plain language of her native Kentucky hills, will appear at the Tri-State Fair in Amarillo, Sept. 17-22.

She has long been skillful in using native language to recreate the matter-of-fact philosophy of rural America. Witness "Don't Come Home A-Drinkin' (With Lovin' on your Mind)," "You Ain't Woman Enough (To Take My Man)," "World of Forgotten People" and "I Wanna Be Free."

Loretta Webb was born in

what she calls "the last house" in Butcher Hollow in Johnson County, a few miles from the Van Lear, Ky., coal mine in which her father earned his living when she was a child. At the age of 14, in marriage, she acquired her present name.

A decade ago, Loretta Lynn became a professional singer. She made a recording ("I'm a Honky-Tonk Girl") on an obscure West Coast label and it made the country and western Top 10 charts. By 1962, she was in Nashville and soon a top recording star.

LORETTA LYNN

## Newcomers Install Officers

New officers were installed when the Newcomers Club met Tuesday evening in the Community Center.

Glady's Setliff installed the officers.

Mrs. Homer Yokum was installed as president. Other officers are Mrs. Roger Kinder, first vice president; Mrs. Melvin Hoover, assistant first vice president; Mrs. Dean Baxter, second vice president; Mrs. Leon Kothmann, secretary; and Mrs. Frank Bethune, treasurer.

Members' husbands were guests at the meeting.

The children were entertained by a magician, John Gilliland.

## Dr. John Green Speaks To Music Study Club

Dr. John E. Green of Canyon spoke to members of the Music Study Club at their luncheon Monday in the Wong House.

Dr. Green, who has been associated with West Texas State University for ten years, has served as past president of TAMS, dean of WTSU School of Fine Arts, has been a member of Friends of Fine Arts, served on the Symphony Board and held a position with the National Association of Schools of Music.

Dr. Green commended the Hereford school system on their fine string, choral and band programs.

He also stated that WT is upgrading its art program. "We are in hopes that a BA in studio art and commercial art is to be implemented next fall."

"WT is now offering two new degrees in music, masters degree in music and a bachelor of music degree in music therapy. Only 19 institutions in the United States has a music therapy degree."

In presenting his program he noted that the university has instituted four new areas of emphasis which include

theatre, technical theatre and commercial theatre.

The university is currently in the process of working to secure funds to increase the Fine Arts Complex which is overcrowded. Memberships in the Friends of Fine Arts are for one year and it entitles the holder to complimentary tickets to Fine Arts performances.

Mrs. Mack Cansler, member of the Music Study Club, is one of the directors of Friends of Fine Arts. The organization has about 250 members from over the Panhandle area.

It provides scholarships, pays for faculty Fine Arts programs and "Artist in Residence" series for WTSU students.

During the business meeting, a ribbon was presented to the club for their participation in the Diamond Jubilee Parade. Also, Mrs. Joe Reinauer gave a report on the Community Concert series.

It was announced that Mrs. Wesley Fisher will be a delegate in the District Concert at Borger October 15.

Members signed up for museum hosts through the month of September and Mrs. Cansler presented the yearbook committee report and handed out music for the coming club year.

## Club Meets With Comic Strip Pals

Comic strip characters featuring Snoopy the Beagle, supplied the theme for a breakfast that opened a new year for La Madre Mia Study Club Thursday in Mrs. Lynton Allred's home. Hostesses were the yearbook committee which she heads.

An informal program looked forward to meetings outlined in the 1973-74 yearbooks which were distributed to members. One highlight will be the annual Holiday Tour of Homes; Mrs. Bud Snyder was named chairman to plan it, with Mrs. Ben Scott and Mrs. David Hones as assistants.

Mmes. Charles Watson, Richard Ward and Roger Williams were hostesses with Mrs. Allred; all wore costumes reminiscent of Snoopy's friends in the Peanuts comic strip.

From a doghouse on the front porch, with the dog's recumbent figure on top, footprints led guests to the door. Another figure of Snoopy held lollipops in the center of the breakfast table.

Gifts were exchanged by secret club pals of the past summer, and names were

drawn for new pals. Reports were heard, including one on the pie kitchen conducted by the club during the Hereford Diamond Jubilee celebration.

That activity kept members busier than usual in vacation months. Also one summer social was held, a Mexican supper with husbands as guests. It was at the country home of Mrs. Williams, the new president.

Those at the season opener Thursday included Mmes. C.D. Adams, Jimmy Anderson, Waldo Baxter, Herschel Black, Charles Frye, James Gentry, Dean Herring, Wayne Lady, Don Lane, Don Taylor, Craig Smith, W.E. Sparks and Don Walser.

## YHS Club Has

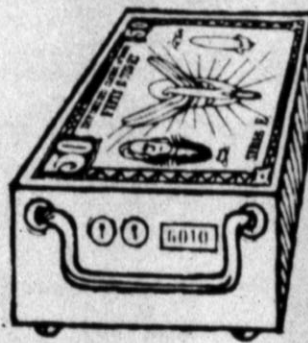

### Salad Supper

Members of the Young Homemakers Study Club enjoyed a salad supper Tuesday in the home of Mrs. Bud Thomas, 136 Hickory.

It was decided that the office of historian and secretary would be combined this year and Mrs. Jim McDowell elected to the position. After the business meeting, members held a general discussion for plans for the new club year.

Present at the supper were Mmes. Robert Devin, Jerry Tisdale, Eldon Howell, Buri Spears, Chesley Johnston, Travis McPherson and Harvey Milton.

Questions Answered  
About Fruit Canning

By Argen Draper  
Home Demonstration Agent

THERE HAVE BEEN questions about canning and freezing with syrup. For converting sugar measurements for syrup: Fruits will have a better flavor, texture and color when canned in a sweetened solution of sugar or corn syrup, but fruits keep well without sugar in the liquid as well as with it.

The final product will be slightly different when using syrup instead of unsweetened liquid. Syrup made with corn syrup and sugar use 1 cup syrup and sugar use 1 cup sugar, 2 cups corn syrup and 6 cups water. If corn syrup is to replace all the sugar, use 3/4 cup syrup to 1 cup water.

One-fourth of the sugar required for making jelly may be replaced by corn syrup.

One-half of the sugar required for making preserves and jams may be replaced by corn syrup.

Honey may replace up to one-half the sugar in jams and preserves.

**FREEZING FRUITS WITH CORN SYRUP:** Use 1 1/3 cups corn syrup to 3 1/2 pounds of fruit. Treat for discoloration. Canning fruit with non-caloric

sweetener (not saccharin): In home canning procedures, you use the non-caloric sweetener in much the same way you would use sugar, adding it during the preparation for processing.

Either the liquid or tablet form may be used for this purpose. Fruit will put up with non-caloric sweeteners will taste sweet, but since it provides only the sweetness and not the bulk or other properties of sugar, the fruit will not have the heavy syrup characteristic of fruit put up with sugar.

Allow from 3/4 to 1 cup liquid for every 2 pints (or 1 quart) of fruit. Sweeten according to the table below, depending on personal taste preference and the natural sweetness of the fruit.

For each cup of liquid use for moderate sweetening: 12 to 16 tablets, or 1 1/2 to 2 teaspoons solution. For tart fruit or greater sweetening: 20 to 24 tablets, or 2 1/2 to 3 teaspoons solution.

If tablets are used, always be sure they are completely dissolved.

GRAPE JUICE I

Wash, stem, crush and measure fresh, firm-ripe grapes. Add 1 cup water to each gallon crushed grapes. Heat 10 minutes at 190 degrees F (Boiling develops a poor flavor).

Strain through cotton flannel, jelly bag or 4 layers of cheesecloth. (For a greater yield of juice, twist the two ends of the bag in opposite directions until most of the juice is extracted).

Let stand 24 hours in refrigerator. Strain again. Add 1 to 2 cups sugar to each gallon juice. Reheat to 190 degrees F. Pour, hot, into hot jars, leaving 1/4-inch headspace. Adjust caps. Process pints and quarts 15 minutes at 190 degrees F in hot-water bath.

This can be adjusted for canning any juice.

This is a short cut for making grape juice. We haven't used it but some people use this method. You might try it for variety.

GRAPE JUICE II

Wash and stem fresh, firm-ripe grapes. Put 1 cup grapes into a hot quart jar. Add 1/2 to 1 cup sugar. Fill jar with boiling water, leaving 1/4-inch headspace. Adjust cap. Process quarts 10 minutes in boiling-water bath.

IF YOU SEE ME wearing a pretty red and green necklace, it is because Helen Parsons made Christmas come early. She's made these and they are very nice. Thanks, Helen.

Beauty Students  
Take Courses  
In Hereford

Fourteen cosmetology students from Friona and Bovina high schools are enrolled in cosmetology classes at Hereford's La Plata Beauty School.

The students are taking three hours each day in class and will gain six high school credits for the two-year course.

Calliopian Year  
Opens At Dinner

This year's programs in Calliopian Study Club will add up to a gift for Deaf Smith County Library, the yearbook committee announced at a buffet dinner Thursday evening which began a new season.

With the general topic of Let Us Be Aware, the study series will feature reviews of books which the club is buying and will give to the library when it moves from quarters in the courthouse to its own building now under construction.

Mrs. Alton Fraser, yearbook chairman, with Sue James, Virginia Holmes, Mary Gibson and Kathlee Palmer, other members of the committee, played hostess for the dinner in First National Bank Community Room.

Different varieties of roses centered the tables, with cloths in the matching colors. Also a part of the decor was a bouquet sent by Mrs. Gene Parsley, a

former member who lately moved to Colorado Springs, with her best wishes for the new club year.

Mrs. Howard Johnson was the program guest whose talk on physical fitness had the subject, Let Us Shape Up. She told amusingly of steps required to patent an invention, from her experience in securing a patent last year on a "shake and slim" exerciser.

Members enjoyed trying out the gadget which is now on the market, as Lorene Johnson showed how various parts of the body are exercised or relaxed.

Members at the dinner were Mmes. Irving Alexander, Clyde Cave, Paul Coneway, C.J. Crump, Emil Dettman, Dale Furr, John Gilliland, Tom Kendrick, Ansel McDowell, Dayton McWhorter, Emmett Milburn, A.T. Mims, Millard Nobles, Keith Simmer, George Warner, and Bob Word.

Beware Of Waterless  
Cookware Bargains

Despite claims and advertisements, waterless cooking isn't anything new or fantastic, one authority said this week.

"It simply involves cooking food by steam rather than water — so great quantities of liquid aren't necessary," Lillian Cochran, home management specialist, Texas Agricultural Extension Service, Texas A&M University System, explained.

Salesmen for "waterless cookware" have several sales pitches, the specialist cautioned.

Some include "reducing the amount of food needed" and "increasing flavor and nutritive value of food prepared."

"However, wise consumers know that cookware will not improve family health or decrease food bills."

Sometimes sales pitches offer "additional temptations — "discounts" or "free bonuses" such as glassware or silverware.

"However, prices are usually set very high to allow the salesman to offer such so-called bonuses.

"Prospective brides, single women on their first jobs and young people in school often make prime targets for zealous salesmen," Miss Cochran continued.

Actually, waterless cooking

can be done in any heavy metal pan which has a tight-fitting lid, she noted. "The tight lid allows only a small amount of steam to escape.

"Utilizing low heat is extremely important in keeping vapor losses to a minimum."

In general, waterless cookware is made of a heavier gauge metal than normally used in top-of-the-range pans.

However, it's usually sold in sets — so use caution when considering a purchase, the specialist advised.

"Pots included in a large set may not come in sizes needed — and buying a set that includes items you won't use is hardly a bargain," Miss Cochran emphasized.

"When purchasing cookware — whether it's waterless or regular — a pan should possess several characteristics," the specialist contended.

A good pan is: —made of thick, durable, non-warping material —constructed of a material that heats quickly and evenly —designed with wide, flat bottom; wide, smooth rounded corners and straight sides —complete with a tight-fitting lid, and

—made of materials and construction features which permit easy cleaning.

Weekly Market Report

Fryer Chicken Prices Drop

Fryer chicken prices dipped "considerably lower than prices two or three weeks ago," according to Mrs. Gwendolyn Clyatt.

The consumer marketing information specialist, Texas Agricultural Extension Service, Texas A&M University System, termed fried chicken "almost

impossible to surpass for economy and versatility.

"Egg supplies are adequate and count as a bargain when compared to other high-protein foods—grade A, large-size eggs offer the most economy and quality for your egg money."

SHORTAGES in the meat case and high prices will dictate

restraint in meat buying, the specialist predicted.

"However, beef items to consider this week include chuck roasts, ground beef, stew meat and liver. Also be on the lookout for reasonably priced sirloin, rib and round steaks."

She cited dairy features as "irregular" with most emphasis on lowfat milk, cottage cheese and medium-sharp cheddar cheese.

Also, tuna is featured in some stores along with several ready-to-serve canned meats.

TURNING TO FRUITS and vegetables in seasonal supply, Mrs. Clyatt noted there are many—"however, a strong demand from commercial processors keeps them a little higher than usual for this time of year.

"Worthy of consideration price — and quality-wise are prunes, plums, peaches, nectarines, seedless grapes, bananas, watermelons and cantaloupes.

"Fresh vegetable items in best supply at the most economical prices include carrots, cabbage, celery, dry yellow onions, head lettuce, potatoes, squash, corn, radishes, green peppers and green onions."

Living Plants Add  
'Extra Something'

Living plants often breathe "house life" into home life.

They are that "something lacking" in the otherwise well-furnished home, according to Patricia A. Bradshaw, housing and home furnishings specialist with the Texas Agricultural Extension Service, Texas A&M University System.

"Plants add an immediate sense of intimacy and individuality to even carefully furnished rooms that lack warmth and personality," the specialist observed.

In selecting plants, decor factors to consider include placement, size and container style, she said.

"Placement of plants can soften sharp lines or fill 'vacancies' in a room.

"A floor plant set in a corner will soften the sharp line where two walls meet—if it's large enough and tall enough to do the job.

"Perhaps a stand will lift it to a suitable height.

"The cocktail table requires a plant kept in scale with the table and other accessories on it, and the plant on a side table just below a picture on the wall shouldn't be so tall it hides the picture.

"Placing the plant on a base or pedestal adds to its importance, as well as protecting delicate furniture finishes," the specialist noted.

"It's a 'no-no' to set a potted plant directly on a piece of furniture."

Turning to containers, she cited simple design as the

keynote to beauty.

"Its container shouldn't compete with the plant for interest.

"Avoid ornate or elaborate containers except for a very special effect.

"Container material, design and color should harmonize with furnishing background."

Miss Bradshaw advised home decorators to consult the florist or nurseryman for proper care of plants, adding, "Most green foliage plants need plenty of light. They require proper watering techniques and well-drained soil."

Goodbye Hereford

We're moving to Nashville, Tennessee and are closing Molook's Coiffeur at 108 Brevard. We would like to express our gratitude to those who have been our friends and customers during the last 4 years.

# Division Of Rural Community Services Created By Governor

An executive order has been issued by Gov. Dolph Briscoe creating the Division of Rural Community Services in the Texas Department of Community Affairs.

Governor Briscoe, who has listed rural development as one of the priorities of his administration, created the new division in response to what he termed "the urgent needs of rural areas."

In announcing the new rural services office, Governor Briscoe said the role of the Texas Department of Community Affairs is to make all state resources available and accessible to local communities as they strive to help themselves.

The Rural Community Services Division will provide information and technical assistance to rural communities and will assist in development of a state policy for rural development, the Governor said.

The new office will serve as a clearing house and will be a central state office that rural communities can go to for help, said Briscoe.

Raymond L. Prewett, executive director of the Texas Rural Development Commission, has been named to head up the Division of Rural Community Services.

A major part of his new duties, said the Governor, will be to assist rural communities in their relations with state and federal agencies and to direct communities with specific problems to the appropriate agencies.

Along the same line, the Governor has acted to expand the Texas Industrial Commission to include three members from rural areas. In the past, membership on the Commission has been two employees of labor, two employees or laborers and five members from the general public.

The Texas Industrial Commission is responsible for planning, organizing and operating a program for attracting and locating new industries and to promote the

**Delegate To OES Meeting Chosen**

Mrs. Vernon Darden, worthy matron, will represent the Hereford Eastern Star chapter at the Grand Chapter of Texas convention in Dallas this fall, it was decided at this week's meeting in the Masonic Hall.

Members were reminded of the Order of Rainbow installation, to which they are invited, Sept. 29.

On the host committee were Mr. and Mrs. O.R. Sanders, Mmes. C.A. Sauley, Leota Good and Alma Scott.

expansion of existing industries in Texas.

New rural members of the TIC are James Hunt of Sonora, president of Stockman's Feed Company; James B. Bond of Navasota, an attorney and director of the Navasota Industrial Foundation; and William A. Porter of Terrell, a farmer and businessman.

**REVISION COMMISSION REVERSES ITSELF**

The Texas Constitutional Revision Commission reversed its August 25 decision—that the Texas Legislature should meet annually—and voted that the proposed new Constitution should require the legislature to meet once every two years. But the time and duration of session or sessions would be set by the lawmakers themselves.

**POT LAW RULING DUE**

The Texas Court of Criminal Appeals is expected to rule later this fall on an amendment to the state's criminal code to allow resentencing of persons previously convicted of possession of marijuana.

Travis County Dist. Atty. Bob Smith, who argues against implementation of the resentencing provision, claims it amounts to commutation of sentence, a power which the constitution gives only to the governor.

"Just because you call a horse a cow doesn't make it a cow," Smith told the Criminal Appeals Court. "Just because they (the legislature) call it a resentencing doesn't mean it's not a commutation," said Smith.

Lawyers on the other side of the question claim the resentencing provision is an authorization for the courts to review sentences, upon request from the defendant, and amend them, if justified.

About 800 persons serving terms in Texas could be affected by the outcome of the ruling. Conviction of possession of marijuana carried possible sentence of up to life imprisonment prior to revision by the 63rd Legislature to reduce first-possession penalties.

**AG OPINIONS**

Present county commissioners may serve out their terms of office without residing in the new districts established by redistricting, Attorney General John Hill held.

Areas affected by redistricting will retain their

wet or dry status enjoyed prior to any redistricting of the commissioners court—until an election is called to change the county from wet to dry or vice versa, Hill held in the same opinion.

In other recent opinions Hill ruled:

—The Commissioners Court of Navarro County may pay the district judge no more and no less than \$4,000 per year for performing the duties of judge of the juvenile court.

—A court may direct the payment of a probation fee of a misdemeanor defendant who has been placed on probation, such fee to be collected by or under the direction of the court.

—The Galveston Ship Channel is a "pass" within the meaning of the Texas Shrimp Conservation Act and shrimp may not be taken from it.

—An independent school district has the power to contract with a city for construction and use of recreational facilities to be used by the district and may in exchange convey title to surplus school land to the city if both agree paramount use of the land would be its use as a public park for benefit of all residents.

**WARM UP THE WEDDING BELLS**

It's a December wedding in the Governor's Mansion for Janey, daughter of Gov. and Mrs. Dolph Briscoe. The December 29 wedding date was set as Gov. and Mrs. Briscoe announced Janey's engagement to Edward Vaughn of Hillsboro.

The groom-to-be is a junior law student at St. Mary's University in San Antonio. His parents are Mr. and Mrs. S. J. Vaughan III of Hillsboro.

**APPOINTMENTS**

Mrs. Robert M. Ayers Jr. of San Antonio has been appointed to a six-year term on the Texas Youth Council. She replaces Louis Henna of Austin, whose term expired.

Governor Briscoe named Amarillo attorney Edward B. Nobles to the 108th Judicial District Court bench. Nobles has been serving as Potter County Judge in Amarillo.

James Arnold has been named acting director of the Governor's Office of Traffic Safety.

The Governor has appointed Frank Manning of El Paso to the Commission on Law Enforcement Officer Standards and Education.

Bolin Mahaffey of Corpus Christi has been reappointed by the Governor to a two-year term on the State Depository Board.

He also has named Edward N. Wishcamper, editor of the Abilene Reporter-News, and Robert H. Burck, Dallas, to the Texas Tourist Development Board. He reappointed George F. Dillman of Dallas. All three's terms will expire in 1979.

**ENGINEER RETIRES**

Charles W. (Chili) Smith, district engineer of the Texas Highway Department in Amarillo, will retire October 1, State Highway Engineer Luther DeBerry has announced.

Replacing Smith, who is closing out a 42-year career with the Highway Department, will be Alvie L. McKee, district maintenance engineer at Abilene.

**SHORT SNORTS**

U. S. Sen. John Tower reports the Environmental Protection Agency will award a \$2,150,348 grant to the Texas Air Control Board to enable the state agency to continue its air pollution control program.

Governor Briscoe spent a week in Japan encouraging Japanese investors to consider building mills in Texas to process cotton fiber at its source before exporting to Japan.

Roy Coffee Jr., administrative assistant to Governor Briscoe, has resigned

to return to his Dallas law practice. Coffee had served for the past eight months as Briscoe's legislation liaison officer.

**State Republican Chairman**

George Willeford will be the first to know if and when he decides to retire.

published reports of his

## 2 Sisters Honored Here With Informal Reception

Two pioneer residents, Mrs. Tom Vaughn of Tacoma, Wash., and Mrs. Ida Clay, 509 Ave. J, who were the Schulz sisters before they married, gathered with friends and relatives last Sunday in the Medallion Room of the REC building to reminisce and exchange pictures.

Mrs. Vaughn was a visitor here for the Hereford Diamond Jubilee, and Mrs. Clay returned after spending the summer in Tacoma.

The sisters' niece, Molly Anthony of Elida, N.M., registered guests and Mrs. Irving 'loughby served cake and coffee from a table decorated with a cutwork linen

cloth centered with peace rosebuds.

Hostesses for the reception were Mrs. Bess Jennings, Annie Springer and Merlin Kaul.

Guests included Messrs. and Meses. Willoughby, Ronald Matthews, H.L. Hershey, Ira Ott, Ralph Sears, Guy Lawrence, U.V. Pierce, Elmer Patterson, O.A. Smith and M.C. Kaul.

Also Meses. Carl Cockrell, Nona Jowell, George Millard, Hazel Sparks, C.J. Mountz, Clarence Schultz, Wood Vaughn and Ruby Anthony. Also, Carlos Vaughn and John Anthony of Elida.

Mr. and Mrs. Tommy G. Davis at home in Hereford

## Couple Wed In Kansas, Living Here

Mr. and Mrs. Tommy G. Davis are at home in Hereford after their recent marriage in a double ring ceremony in Hays, Kansas and a trip to Dallas. Mrs. Davis is the former Miss Connie Rigby of Hays.

The bride is the daughter of K.L. Rigby of Hays and Mrs. Juanita Liekam of Denver. Davis is the son of Mr. and Mrs.

James Davis of Hereford. Maid of honor was Miss Patricia Davis of Hays, the bride's cousin, and best man was Tilford Norvell of Hereford. James Davis Jr. of Hereford was an usher and Brad Arnold of Lubbock groomsmen.

The bridegroom graduated from Hereford High School and is currently engaged in welding.

## Mrs. Lytal Is Teacher

Mrs. Joel Lytal demonstrated to members of the Sweet 'n' Fancy Decorating Club how to create sugar daisies and to make colored sugar.

Members voted to continue to bake and decorate birthday cakes for residents of Kings Manor. Also, Mrs. Lytal and Mrs. Dale Henson were elected

to instruct future decorating classes.

All persons interested in becoming a member of the club are asked to contact Mrs. Leroy Edwards. A workshop is being discussed if enough persons apply for membership.

Mrs. Burnia Riley and Mrs. Charles Watkins were honored as guests. Members present were Meses. Edwards, Neill Foster, Lynn Pittard, Carlton Richardson, Manuel Garcia and Neill Driver.

**STAMP ACT**

The Stamp Act, which led to the Boston Tea Party in 1773, was passed by England's House of Lords on March 8, 1765.

**HOLMES BORN**

Oliver Wendell Holmes, Supreme Court justice from 1902 to 1932, was born on March 8, 1841.

## Free Fair Admission For Medicare Beneficiaries

According to Rex B. Baxter, general manager of the Tri-State Fair, the fair will once again honor Medicare beneficiaries in the panhandle area.

Baxter said that Thursday, September 20, has been designated "Medicare Day." On that day all persons having Medicare will be admitted to the fairgrounds free of charge upon showing their Medicare card. A \$1.00 discount will also be given on the purchase of any ticket for the 5:30 p.m. performance of the Lynn Anderson Show.

Travis C. Briggs, manager of the Amarillo Social Security Office said there are 22,000

persons living in the Panhandle eligible for free admission. Briggs added that his office will have a special exhibit in the north end of the Commercial Exhibits Building throughout the fair. It will be manned each evening from 6:30 to 8:30 p.m. and all afternoon and evening, 12:30 to 8:30 p.m., on "Medicare Day" and Saturday. Questions regarding Medicare and related subjects will be answered and free literature distributed.

At The Library

# Matlock Discovers Underworld Crime

The Matlock Paper and A Cold Front are two books being featured at the Deaf Smith County Library this week.

In the book The Matlock Paper, Matlock, an Associate Professor of English at a small university, is called on by the government to determine where and when the overlords of the crime world have scheduled a deadly meeting.

A Cold Front is a novel of suspense.

A sinister nightmare emerges as a woman and her son vacation in Venice and Cyprus. Unknown to them, danger lurks behind a frightening secret.

The library is open to the public on weekdays from 9 a.m. until 5 p.m. and on Saturday mornings until noon.

**THE MATLOCK PAPER**  
By Robert Ludlum

First found on a dead man, the filthy, mutilated, silver-coated paper has made its way from the Turkish hills of Totos Daglari to Ankara, from Rashid to Marrakesh, from Washington, D.C., to a small college town named Carlyle.

The writing on the paper is Corsican, in a little known strain called Oltremontan. Yet it is understood quickly by those who see it, for it is an invitation to an urgent meeting of the overlords of crime.

It is an invitation as well to an innocent man named James Barbour Matlock—an invitation to horror, to pain, to the savage torture of the girl he loves, and almost surely to his death.

For Matlock, Associate Professor of English at Carlyle University, has been selected by Washington's data banks to discover where and when the meeting is to take place, and to do by himself precisely what the crime chiefs have called the meeting to do: Break up an immensely powerful organization known only as Nimrod.

Nimrod—ruler of Babylon and Nineveh—distributor of narcotics, overseer of

prostitution, gambling, loan-sharking, and corporate—even government—corruption throughout North-east, affecting every college and university on the academic landscape.

An inexorable machine destroying everything in its path, a force wherein the elite have taken control of too much, too willingly surrendered—and yet, an organization not unloved.

For, in the words of a young Yale student, a Vietnam veteran caught in its years: It's mid-American, man! It's company policy!

By coming face to face with Nimrod, Matlock comes face to face with the ultimate terror. And through his odyssey the reader is led through a heart-stopping chain of events so frighteningly plausible that the view of a peaceful college campus can never be exactly the same again.

**A COLD FRONT**  
By Bridget Everitt

Once Philippa's name had been Jennifer, in the days when she had no reason to hide from the public. That was before her scientist husband, Martin, walked away from their marriage and their small son and never returned.

Then the enigmatic Charles appeared and helped her change her name, her job, and her life by introducing her to Frank, who made a happy and passionate love affair inevitable.

Except for traumatic memories of her marriage, Philippa was happy.

Then Charles suggested that she and Frank take a vacation together in Venice and Cyprus where her nine-year-old son, Tim, will join them.

It is in Venice that the smooth facade of their relationship begins to crack. Cyprus is beautiful and fascinating, Tim, a delight. In the old walled town of Famagusta, filled with ruined palaces and churches, sinister nightmare.

Mr. and Mrs. Richard DeLaCerde are the parents of a son, Richard DeLaCerde Jr., born September 10. He weighed 5 lbs. 9 oz.

## New Officers Lead Bippus Club

Officers elected earlier in the summer were installed at a meeting of Bippus Extension Club Wednesday afternoon in Mrs. Charlie Burk's home. Mrs. Wayne Sifford took office as president.

Mrs. Burk is vice president, Mrs. C.F. Homefield secretary-treasurer, Mrs. Jimmie Bradley delegate to the County Home Demonstration Council and Mrs. J.V. Perrin reporter.

Argen Draper, county extension agent, installed the officers and gave the program on Quilting The Easy Way. She and several other members displayed quilts of different types.

Mrs. Phillip Miller and a former member, Mrs. John Hill of Lupton, Colo., were guests. Mrs. Inman Larson and Mrs. G.V. Hall were other members present.

For the next meeting, Oct. 10, Mrs. Bradley will be hostess.

## Hereford Ladies To Attend THDA Meeting

Four Hereford ladies plan to attend the Texas Home Demonstration Association's 47th annual state meeting which will be held Sept. 18-20 in the Waco Convention Center.

Hereford delegates are Mmes. J. G. Gandy, Jimmie Bradley and Thomas Brisendine. Mrs. Leroy Johnson will attend as a guest.

They will join more than 700 members of Home Demonstration Clubs throughout Texas to attend the 1973 meeting.

Open to the public, the meeting will feature three keynote speakers during general assemblies along with two days of workshops for THDA members. Workshops will concern citizenship, family life, 4-H, health, cultural arts, recreation, safety and publicity.

Also, THDA county chairmen and THDA official delegates will attend workshops dealing with their primary areas of responsibility.

Addressing public assemblies will be U.S. Rep. Omar Burleson of Anson, the Rev. Peter McLeod of First Baptist Church in Waco, and Mrs. Florence W. Low, assistant director for home economics with the Texas Agricultural Extension Service.

McLeod will discuss Home — A Beacon Light in a speech titled after the convention theme, and Mrs. Low will outline Present Trends in Family Living.

Special guests at the meeting will be Claudia G. Williams of College Station, state home demonstration agent with the Texas Agricultural Extension Service, along with Mrs. Low and Mrs. Smith.

Frederick McClure of San Augustine, immediate past president of the Texas Future Farmers of America, will be featured in a special program during the concluding banquet Sept. 20, according to Mrs. Bill Hardy of Rotan, THDA president.

Home demonstration clubs, numbering 1,397 in Texas with more than 20,000 members, are sponsored by the Texas Agricultural Extension Service, The Texas A&M University and the U. S. Department of Agriculture cooperating.

**PRESIDENT CITED**—Reece Whittington, left, president of the Deaf Smith County Classroom Teachers Association, presented a past-president pin to Rueben McGilvary when the group met Monday.

## YHT Group Joins Observance

Young Homemakers of Texas Week will be observed September 16-22, announces the Hereford chapter's president, Mrs. Garry Kelley. A window display will be set up at the former Yardstick location in Sugarland Mall.

A religious and educational organization, the club supports the Future Homemakers Association and many area projects.

These include donating books to the Deaf Smith County Library and to Girlstown, participation in the Meals-on-Wheels project and project Christmas Card, and assisting with the area eye bank and Hereford Day Care Center.

Much of the club's money is made by selling pecans each year.

## DE Club Gets New Officers

The Distributive Education Co-op Club officially installed their new officers September 10.

The meeting was held at the Flame Room Monday night with Mrs. Clarkie Cook officially installing Earnie Randell as president; David Renfro, vice president; Brenda Nahrgang, secretary; Rodney O'Rand, treasurer; and Simon Mendoza, reporter.

Cake and punch were served after the officers had taken their oaths for office. The club thanked Mrs. Cook for doing them the honor of installing the officers.

## Keepsake

Roger Miller, playing to standing room only crowds in London, took time out from his own tight professional schedule to catch Liza Minnelli's concert.

And he loved it.

He's gone with Columbia Records and has a new single out carrying two of his original songs. "Open Up Your Heart" is the A-side attraction, and "Whistle Stop" is the B.

# Farm Bureau Official Slams Price Controls

Commenting on the administration's action in lifting the price freeze on beef, Texas Farm Bureau President J.T. "Red" Woodson said in Waco that, "We have just had another very expensive lesson demonstrating again that price controls are not an effective tool for controlling inflation. The root cause of inflation is excessive government spending."

"It is high time for the administration to learn from this and other expensive lessons in price control that the only answer to the situation is the termination of all price controls

on all segments of the economy, with the assurance that price controls will not be reimposed," Woodson said.

"We may not see the increased production of agricultural commodities government is asking for because farmers and ranchers do not know from one day to the next when price controls may be reimposed at the insistence of consumers who do not seem to understand the basic economic laws of supply and demand," he added. For example, producers are still fearful that the administration

may impose various types of export controls such as embargoes on cotton and feed grains.

"The net result of price controls is decreased supplies, increased demand and higher prices.

The immediate termination of all wage and price controls are in the best interest of the consumer, producer, and handlers. Texas Farm Bureau insists that Congress and the administration discharge their responsibility by following a sound monetary policy," Woodson concluded.

A Weekly Report Of Agri-Business News

Compiled From Sources  
Of The Texas Department of Agriculture  
John C. White, Commissioner

Good News and Bad News... Brucellosis Hearing Date Changed... Pink Bollworm Problems... Broiler, Egg Hatch Drop, Turkeys Increase.

Good and bad news faces Texas livestock producers relating to the screwworm situation. The Fall of the season is approaching, and this always means a build-up in screwworms. More than 1,000 cases have been confirmed in Texas so far this year, and it's expected this will increase considerably through the Fall.

Meantime, officials at the fly laboratory in Mission urge all livestock producers to check their herds regularly, treat wounds on livestock for screwworm control, and submit suspected samples of screwworms to the fly laboratory at Mission.

Your county agent or agriculture teacher has shipping vials which can be used free of postage charges to mail to the laboratory. The number of cases this year is very low compared to last year.

The good news about screwworms is that work is now underway on the sterile fly plant in southern Mexico. When that plant is in operation, 300,000,000 sterile flies per week will be dropped throughout Mexico to eradicate that pest there.

Once that is accomplished, the screwworm in Texas will be a thing of the past. But until that is finalized, authorities want all livestock producers to continue to submit suspected screwworm samples so that appropriate measures can be taken to fight the pest.

A PUBLIC hearing will be held in Room 117 Sam Houston Building, Austin, Oct. 1 by the Texas Animal Health Commission to discuss new brucellosis regulations for Texas as well as proposals for garbage feeding.

A series of hearings has been held throughout the state this past month to explain the regulations affecting brucellosis control. Everyone interested is invited to attend the meeting.

Food eaten at home today costs the average American worker only 15.7 per cent of his take-home pay. In 1962 he was spending 23 per cent of his take-home pay on groceries.

# New Highway Construction Announced

The Texas Highway Department has announced a new construction project — Farm to Market Highway 2587. The location of the project is extending from Farm to Market Road 290, 4.8 miles North of Farm to Market Road 1412, east to end of Farm to Market Road 2587, a distance of ap-

proximately 8.5 miles. This construction will consist of grading, structures, base and surfacing.

The Texas Highway Department and the contractor, Cooper and Woodruff, Inc. stated that work would be completed by the end of April, 1974.

Donald D. Day, Sr. resident engineer of the Texas Highway Department in the Hereford area explained that traffic will be routed through the project. Motorists are urged to please obey all warning signs and barricades which will be prominently displayed at all times.

# Texas Realtors Institutes Set This Month In Austin

There will be two Texas Realtors Institutes in September, it was announced here by Gene Campbell, president of the Hereford Board of Realtors.

On Sept. 16-22, Course I, II and III will be taught in Austin, and Sept. 30-Oct. 6, Course I will be offered in Amarillo.

Local men and women in real estate are beginning to register for these institutes, which cover every imaginable phase of the industry, from appraising to professional standards to subdividing. "The Austin faculty will include three outstanding University of Texas professors, plus Al Mayer from Cincinnati, teaching sales," Campbell said. The University of Texas is joining TAR in sponsoring this session on the campus at the Thompson Conference Center, adjoining the LBJ Presidential Library.

Franklin Jeffers of Amarillo, the president-elect of TAR, announced that the Sept. 30 session, which is open to the public as well as members of TAR, will be held in the Camelot Inn. Jeffers said that "this

Course I is a brand new addition to the calendar of Institutes for 1973, designed especially for men and women interested in adding to their educational level in the West Texas Area. We expect students from Amarillo, Lubbock, Hereford, Odessa, Midland and other cities. Among the teachers will be Albert Gore and Conway Taylor, both past presidents of the Austin Board of Realtors; Bill Fair and Judge B. Fite of Dallas; and H.P. Hawkins of Abilene."

Fees, \$75 for members of TAR and \$100 for non-members, should be sent to TAR, P.O. Box 9907, Austin 78766.

Benny McMahan of Dallas, the association's education committee chairman, announced this week that the Institute at the University of Texas is a joint venture of TAR and UT and "should draw a great response, for Austin is so centrally located and the Center which will house the lectures is well-designed with special teaching aids," McMahan said that over

300 men and women will be learning about real estate law, professional standards, marketing techniques, management of property, construction, financing and appraising, as well as other associated real estate transactions.

McMahan added that "students will find the faculty very capable and up on the latest developments in loans, mortgages and tax problems. We think the Institutes are some of the finest in the country, for the lecturers are innovative and successful people who know how to communicate in a great variety of areas."

# Field Day Planned At Plainview Seed Company

Breeding nursery and seed plant facilities of Pioneer Hi-Bred Company in Plainview will be open to the public Thursday. Guided tours through Pioneer's production facilities and test plot areas will be conducted from 10:30 a.m. to 1:30 p.m. Free Bar-b-que lunch will be served from 11:30 a.m. to 1 p.m.

Field experiments to be shown include double and single row comparisons in sorghum and corn, planting rate studies and a corn kernel size yield study. Millet and sorghum sudangrass clipping tests will also be included. Plant operations to be viewed include temperature and humidity controlled seed storage areas as well as drying and bagging facilities.

Because tours will be conducted by Pioneer research personnel, farmers will be able to obtain detailed information while viewing crops in actual nursery and field experiment conditions. Agronomists will also be able to answer specific questions which the visitors may have regarding conditions in their own fields.

The Plainview facilities of Pioneer Hi-Bred Company are part of a larger organization, Pioneer Hi-Bred International headquartered in Des Moines, Iowa. The Company's responsibilities include research and production of sorghum hybrids for distribution throughout the Pioneer organization.

In addition to their sorghum involvement, Pioneer Hi-Bred

Company sells Pioneer brand seed corn, pasture and forage hybrids in Texas and New Mexico and oversees operation of Pioneer Beef Cattle Southwest in McGregor, Texas.

American farmers in 1972 paid \$2.8 billion in farm real estate taxes and another \$2.5 billion in federal and state income taxes.

Modern farm machinery is helping farmers to do more work than ever before, according to Sperry New Holland farm equipment engineers. Giant combines today harvest enough wheat in just one hour to make 20,000 loaves of bread while automatic bale wagons allow just one operator to stack over 3,000 bales of hay in one day.

## Constitution Week

Hereford Mayor Jim Sears signs a proclamation declaring this week as Constitution Week in Hereford. Standing with the mayor are Mrs. Earl Holt, left, and Mrs. Kate Johnson, both members of the Hereford Chapter of the Daughters of the American Revolution.

# Constitution Week To Be Observed In Hereford

Yearly observance of Constitution Week, Sept. 17-23, is being sponsored again this year by Los Ciboleros Chapter, Daughters of American Revolution. To remind the people of the meaning of the Constitution of the United States, the week has been proclaimed to be National Constitution Week by officials at every level of government. The special week calls attention to the 186th anniversary of the signing of the United States constitution. DAR members request residents and merchants to display the American flag all week. Sept. 17 is the actual anniversary of the signing of the document which is regarded as the foundation of rights and freedoms enjoyed by Americans ever since.

Mrs. Earl Holt is chairman of Constitution Week in Hereford. Assisting on the committee are Mrs. Kate Johnson and Mrs. Charlie Bell.

Key Club members at Hereford High will put U.S. flags over town Saturday as part of the nation-wide observance.

## Former Resident Dies In Wichita

Funeral services for Thurman L. Hawkins, 75, of Wichita Falls, former Hereford resident, were conducted recently in a Wichita Falls chapel and burial was in Crestview Memorial Park. Mr. Hawkins, son of the late D.W. Hawkins who was an oldtime school superintendent here, grew up in Hereford, graduated from high school here and from West Texas State, then a junior college. After completing college at Peabody in Nashville, Tenn., he

taught in Plainview and Tullia, then in Wichita Falls beginning in 1933. After retirement he operated a grocery store and a variety store which he sold about five years ago.

Born in Midlothian June 11, 1898, he married Christine Carter in Wichita Falls. She survives, with a daughter, Mrs. Glen Fox of Conroe; two sisters, Mrs. F.Y. Ross of Wichita Falls and Mrs. Barry Wheelless of Amarillo; and a brother, Daniel, of Corpus Christi.

## Sunday School Class Met For Luncheon

The Victory Sunday School Class of Avenue Baptist Church met in the home of Mrs. Billy Wall Thursday afternoon for a covered dish luncheon.

New schedules for hospital visiting were set up by members and Mrs. Wall, committee

chairman, presented the hospital reports. New yearbooks were discussed and plans were made for the class' first fall meeting. Members present were Mmes. Jim Noyes, Carlye Sargent, J.W. Duncan and Johnnie Townsend.

## Lately-Wed Students In Canyon Home

Mr. and Mrs. Lonnie Markley are at home at 1803 First Ave. in Canyon, where both are junior students in West Texas State University, after a New Mexico honeymoon following their marriage in Kingswood United Methodist Church, Amarillo. The bride is the former Miss Winona Hennigh, daughter of Mr. and Mrs. Max Hennigh of Amarillo; the bridegroom's parents are Mr. and Mrs. W.O. Markley, Star Route, Hereford. The Rev. Jim Uselton, pastor of the church, was assisted by Ben Read of Savoy in officiating for the wedding. Bridal at-

tendants were Mrs. Pat Kerr of Tullia, Miss Darlene Weaver of Amherst and the bride's sisters, Mrs. Read and Mrs. Darrell Silke of Abernathy. John Clark of Canyon was best man. Joe Paetzold of Hereford was one of the ushers.

The bride's gown of white voile and lace was worn with the veil her sisters wore as brides. Bridesmaids were dressed alternately in blue and green. Mrs. Markley is a business education major in WTSU and Markley a pre-law student. Both are employed in Canyon.

Mrs. Lonnie Markley nee Winona Hennigh

## Seminar Set For Monday

A seminar covering all aspects of trading in the commodity futures market will be held at Pioneer Natural Gas at 7:30 p.m. Monday. Hulan Bass, Account Executive with A.G. Edwards & Sons, Inc., will be in charge of the program.

According to Bass, subjects to be covered include a brief history of the Chicago Board of Trade, the function of the Futures Markets and their relationship to Cash Markets and the functions of the Commodity Exchange Authority under the U.S. Department of Agriculture. Fundamental and technical factors affecting the futures markets will also be covered as well as the mechanics of trading and the types of orders that can be used in the market. Special emphasis will be given the subject of

"Hedging" for producers and growers in the area, and to "Spreading" for those interested in lower risk commodity trading.

A.G. Edwards & Sons, Inc., established in 1887, is a full service brokerage firm with memberships on all leading Stock and Commodity Exchanges. The firm is headquartered in St. Louis, Missouri with 70 branch offices throughout the United States.

In scheduling Monday's Seminar, Mr. Bass emphasized that the meeting will be informal and open to all who might be interested, without charge, and informative material will be available for those who attend. Questions from the floor will be welcomed during the meeting.

Kate Jackson of "The Rookies" and "Limbo" says, even though she wants to produce and direct some day, she simply hates to be called "Ms." To continue the contradictions in her personality, she's so afraid of airplanes that she's thinking of taking flying lessons.

**Prince Valiant** IN THE DAYS OF KING ARTHUR by Hal Foster  
Our Story: SO ARN SAILED AWAY AND LITTLE LYDIA EXPECTED TO DIE OF A BROKEN HEART AT ALMOST ANY MOMENT. HOWEVER, ALETA, NOT WISHING TO LOSE SO CHARMING A PROSPECTIVE DAUGHTER-IN-LAW, INVITES HER TO SPEND THE WINTER AT VIKINGSHOLM. HERE IN THE GRACIOUS SURROUNDINGS OF THE COURT SHE WILL LEARN THE WAYS OF ROYALTY.

ARN IS LEARNING A HARD LESSON. EMOTIONALLY UPSET BY HIS UNHAPPY LOVE AFFAIR, HE SEEKS SURCEASE IN AN ILL-PLANNED ADVENTURE.

DELAYED BY COLD AND TEMPEST IT IS MIDWINTER ERE THEY REACH THE SEINE. AT ROUEN THEY LEARN THAT KING CLOVIS HAS REMOVED HIS COURT TO PARIS. THE AWESOME FIGUREHEAD IS TAKEN IN TO SHOW THEY COME IN PEACE, AND THE JOURNEY IS RESUMED.

THIS IS ARN'S FIRST VENTURE IN TRADING AND HIS CREW, WHO SHARE IN THE PROFITS, GRUMBLE THAT HE IS BEING CHEATED. THE HARDSHIP OF THE VOYAGE AND THE IDLENESS TAKE THEIR TOLL, AND ARN IS LOSING HIS AUTHORITY OVER THEM.

HE CANNOT EASILY RESTRAIN THESE HARDY YOUNG VIKINGS. THEY SPEND THEIR TIME AMONG THE TAVERNS OF THE CITY AND VIOLENCE ENSUES.

THE PORT OFFICIALS GIVE THEM ORDERS TO MOVE ON... BUT WHERE? TO THE INDEPENDENT NORSEMEN, ALREADY SURLY WITH BOREDOM, THIS IS AN INSULT AND THEY DEMAND REVENGE.

ARN'S DREAM OF A TRADING VOYAGE ACROSS STRANGE SEAS TO FOREIGN CITIES COMES TO AN END. HIS CREW IS NOW IN NO MOOD FOR MERCHANDISING. THEY WANT THE THRILL OF RAIDING.

NEXT WEEK—The Parting 9-23

## hints from Heloise

**DEAR HELOISE:**  
I must tell you about my "bullet boards." I have one by each phone.

Downstairs, it hangs on the wall - upstairs, it rests behind the phone and against the staircase.

Anyhow - they are just plain old cookie sheets, covered with adhesive-backed paper.

The one in the kitchen matches or blends with colors in the wall decor, and I use daisy magnets to hold notes, numbers or whatever. Upstairs, ivy-covered paper makes a pretty patch of color and ladybug magnets hold the notes.

Some cookie sheets already have holes in the end; if not, a sharp nail does it.

Ivy Ugbetta

## HELP FOR HOMEMAKERS

**JOY TO THE BRIDE!**

**DEAR HELOISE:**  
At a recent bridal shower, the girl received dish towels plus a bottle of dishwashing liquid, and she was really pleased.

This can be applied to other things too. For example: a cake mix can be put in a bakeware set, spaghetti or noodles in a colander, etc.

This gift is one that is not only clever and different, but will be fondly remembered for years.

A Reader

**LETTER OF THOUGHT**

**DEAR HELOISE:**  
Tell all the gals who have the humdrums to make a garden. Even if it is only in a flower bed or even a box filled with dirt - makes 'em feel like somebody new!

I'm 73 years old, and some days when I first get up, I feel just like going back to bed and staying there - then I quit kidding myself, grab my trusty walking stick, amble out to the garden, and before I know it, I feel like an "almost" 16-year-old!

Mrs. J.C. Witt

**WHAT'S YOUR BEEF?**

**DEAR HELOISE:**  
Maybe you have tried this, but if you haven't, I hope that you will some time.

Go ahead and buy that rump roast. When you get home, slice it in about one-half inch slices and wrap separately so they can be frozen.

Keep out two slices, salt and pepper and place side by side in a covered casserole. Bake in a 400-degree oven for about thirty minutes. Reduce the heat to 350 degrees and bake about thirty more minutes or a little less.

Your roast beef will be tender, juicy and just like a big

**HERE KITTY, KITTY!**

**DEAR HELOISE:**  
We have four cats and a dog. Our own dog is good with the cats, doesn't bother them or eat their food.

Two or three neighbors' dogs, however, come up on our deck-patio and eat the cat's food and even take the dish off with them.

After months of frustration and running all through neighbors' yards to pick up dishes, my husband took one of our

**SOME COVER-UP!**

**DEAR HELOISE:**  
I have what I believe to be a good arrangement for storing plastic lids and covers. I use a bookend at the end of a shelf to hold them against the wall.

Sometimes, I use a plastic place mat with one side folded halfway up and the ends stapled together. This forms an oblong sack-like container.

Nailed to the inside of a lower cabinet door it is handy to reach and takes up no usable space.

It is large enough to place different sizes together.

Mrs. M.B.

**CURTAIN TIME!**

**DEAR HELOISE:**  
Being a young mother of a rambunctious toddler, I always read your column for helpful hints - and now I have a hint for you. My little girl yanked so hard on the shower curtain that she broke one of the plastic hooks that hold the curtain up.

I got my husband's wire clipper and wire pliers. After snipping off the hook top of a wire clothes hanger, I bent the bottom end of the hook up to form a hook for the curtain.

It worked perfectly!

The hanger uncurls at the top, so I imagine it would be easy to bend back and forth at the top to break it off if you don't have any wire cutters.

This hint sure beats having to buy a whole package of ten curtain hooks just to replace one.

Mrs. Theresa Poe

**WOODEN SALAD BOWLS**

wooden salad bowls and screwed the bowl to the top rail of our deck.

No more spills, or empty dish when our cats are hungry and no more looking for dishes.

The rail is wide enough for the cat to sit there comfortably and the overhang of the house protects him and his food from the weather.

I was pleased with my husband's idea, and thought someone else might be.

Sandy Casagrande

**IT'S LOW TIDE**

**DEAR HELOISE:**  
There is a much easier way to lower the water line in a toilet than dipping.

Simply pour in a whole bucketful of water and the water line will stay down to about two inches.

I'm surprised that you don't know this, Heloise. You must never have had to improvise

**WHAT'S UP FRONT?**

**DEAR HELOISE:**  
Hope this little hint helps other mothers as much as it has helped me.

My children seemed to always get their clothing on backwards, which drove me up the wall until I got the bright idea to mark the front of their garments with a red tag.

Attach it on the inside and tell the child to be sure that the red marker is in front and next to his skin.

This system has saved me a lot of time and many a headache.

M.M.

**EVERYDAY READER**

Guess when we have had bathroom repairs at our house, we ran over to the neighbors, 'cause honestly, hon, I didn't know this.

Now I find your method is 100 per cent right! I also found that pouring a stream of water from a teakettle just "ain't" the thing to do either!

It takes that big "swoosh" from a pailful of water to chase the water line down.

Heloise

# BUZ SAWYER featuring his pal Rosco Sweeney

by ROY CRANE

WELL, DANG MY DINGIES — A SNAPPING TURTLE!

LOOK WHAT I FOUND IN THE WOODS, BABY SISTER — A SNAPPING TURTLE!

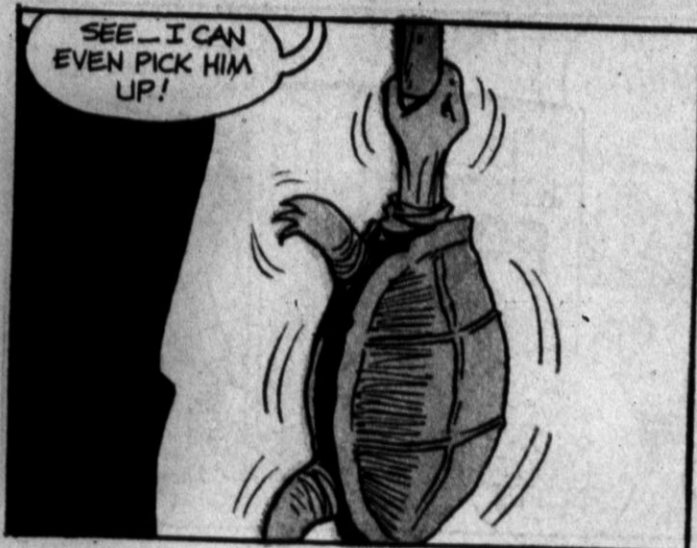

EEEK! WHY ON EARTH DID YOU BRING THAT HORRID THING HOME WITH YOU?

I THOUGHT LITTLE STANLEY MIGHT LIKE TO SEE IT.

THEY'VE GOT VERY POWERFUL JAWS. WATCH HIM GRAB ONTO THIS STICK.

**SNAP!**

SEE... I CAN EVEN PICK HIM UP!

HE'S GOT A GRIP LIKE A VISE!

ROSCO SWEENEY, PUT THAT CREATURE BACK WHERE YOU... WAIT A MINUTE, I'VE JUST GOTTEN AN IDEA!

SEE IF HE'LL SNAP AT THIS!

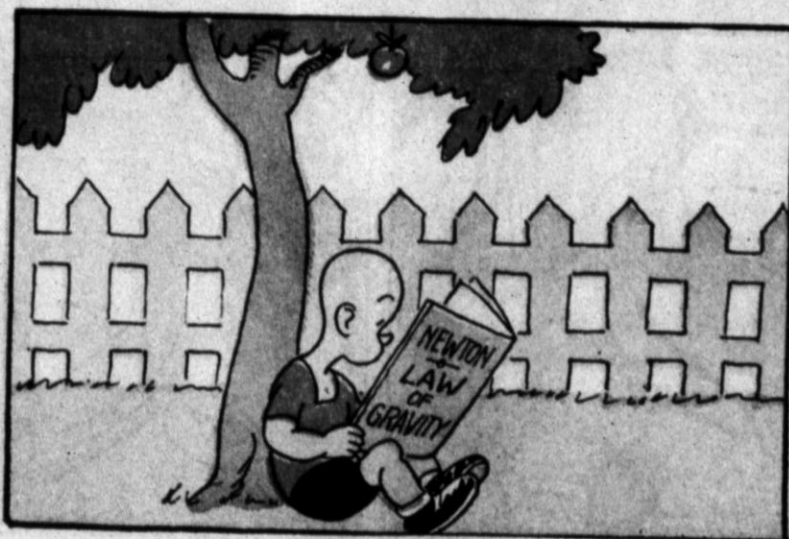

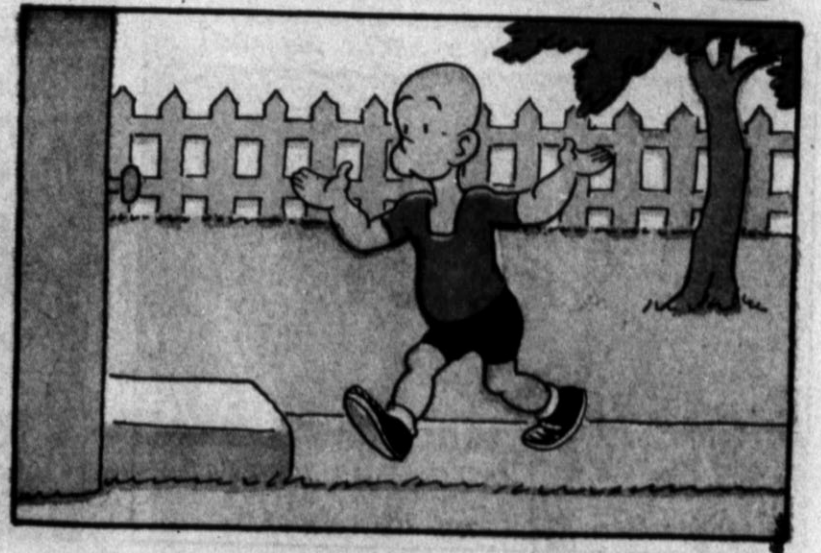

HURRAH, IT WORKED! I'D JUST ABOUT GIVEN UP GETTING THIS JAR OF OLIVES OPEN!

## HOCUS-FOCUS

CAN YOU TRUST YOUR EYES? There are at least six differences in drawing details between top and bottom panels. How quickly can you find them? Check answers with those below.

Differences: 1. Looket is missing. 2. Sweater is different. 3. Stand is missing. 4. Pan is missing. 5. Sleeve is different. 6. Rug is different.

## Hal Kaufman's JUNIOR WHIRL

**THREE BLIND DICE?** A drinking glass full of water and three dice are needed for this bit of "magic." The magician hands these props to someone in his audience and requests that the dice be dropped into the glass.

The performer then glances at the tops of the dice and guesses exactly the total of the spots on the bottoms of the dice.

How it's done: The total of all three tops and bottoms will always be 21. It is a matter of simple arithmetic, therefore, for the performer to add the spots on the tops of the dice and subtract this from 21.

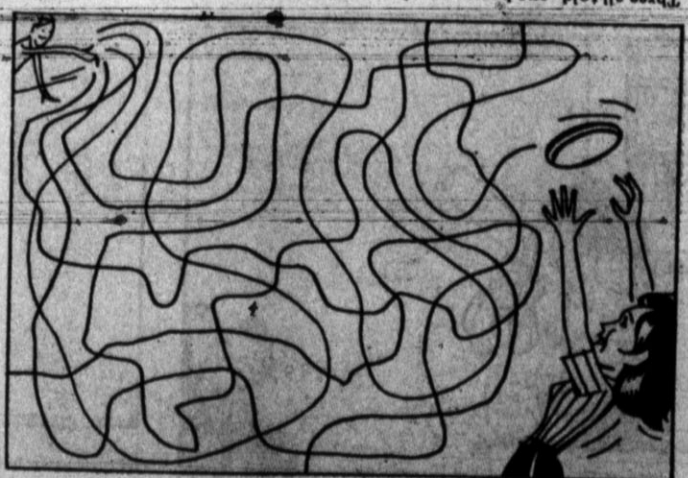

### BULLETIN BOARD

● **SHORT SIGHTED?** Fill blanks with single letters to make short forms of common words: — evator, — ercise, — ography, — nut, — ro. Perhaps you can think of some more. If so, send them in. Add L, X, G, P and Z, respectively.

● **Show Me State!** Eight other states surround the state of Missouri. How many of Missouri's neighbors can you name?

● **What helps to make BAKERS FAT?** Answer by anagram, if you can. That is to say, rearrange letters to form a one-word reply.

● **Asked how many animals he keeps,** a farmer says, "They're all horses but two, all sheep but two, all pigs but two." How many animals has he?

**CATCH QUESTION!** Has the young man at left above tossed the plastic disk within reach of the young lady below? You decide.

(© 1973 King Features Syndicate, Inc.) 9-23

**THE SWEET LIFE!** Color code: 1— Red. 2— Lt. blue. 3— Yellow. 4— Lt. brown. 5— Flesh tones. 6— Dk. green. 7— Dk. blue. 8— Black. 9— Lt. green. 10— Lavender. 11— Purple. 12— Gray.

## SPELLBINDER!

SCORE 10 points for using all the letters in the word below to form two complete words:

PROVINCE

THEN score 2 points each for all words of four letters or more found among the letters. Try to score at least 50 points.

One possible anagram: "Crop, vine."
