

Construction On Rise In City

Construction continues in Hereford during the sizzling summer months as contractors try to make the most of dry weather. Last month's building permits of \$427,250 pushed the year's total to \$1,210,800. Left, bricklayers in the background put up walls for the new elementary school near

Park Avenue. Center, the first row of cinder blocks has been laid on the foundation of an addition to the Park Plaza Shopping Center. The addition has been leased to Flowers West, American Laundry Distributors, Inc., and a third lease yet to be named. Right, cleanup and remodeling work con-

tinues on the John Osborn Buick building, nearly destroyed by fire earlier in the year. Workmen have replaced roof timbers with steel beams and have begun making other repairs. (BRAND PHOTO)

Branding Time

By Speedy Nieman

That feller on Tierra Blanca Creek says youth does a lot of wishful thinking, and old age does a lot of thoughtful wishing.

Every time you graduate from the school of experience, someone thinks up a new course.

Statistics seem to bear out the fact that the lower speed limit has decreased the number of traffic deaths. It may get a little tiring to drive along at 55 mph, but just remember your chances of getting there and back are greatly improved.

Our experience in driving to Austin and back this summer, however, seems to indicate that most traffic moves between 60 and 65. If you travel at 55, most cars and trucks pass you. It makes us wonder if the 55-mile speed limit is somewhat unrealistic.

From that experience, and talking with other travelers, there seems to be no problem in getting gasoline in most areas. Some station operators reported they were staying open longer in an effort to use up their monthly quota.

Incidentally, the DPS predicted there would be 42 traffic deaths over the long July 4th holiday. The final total was 33.

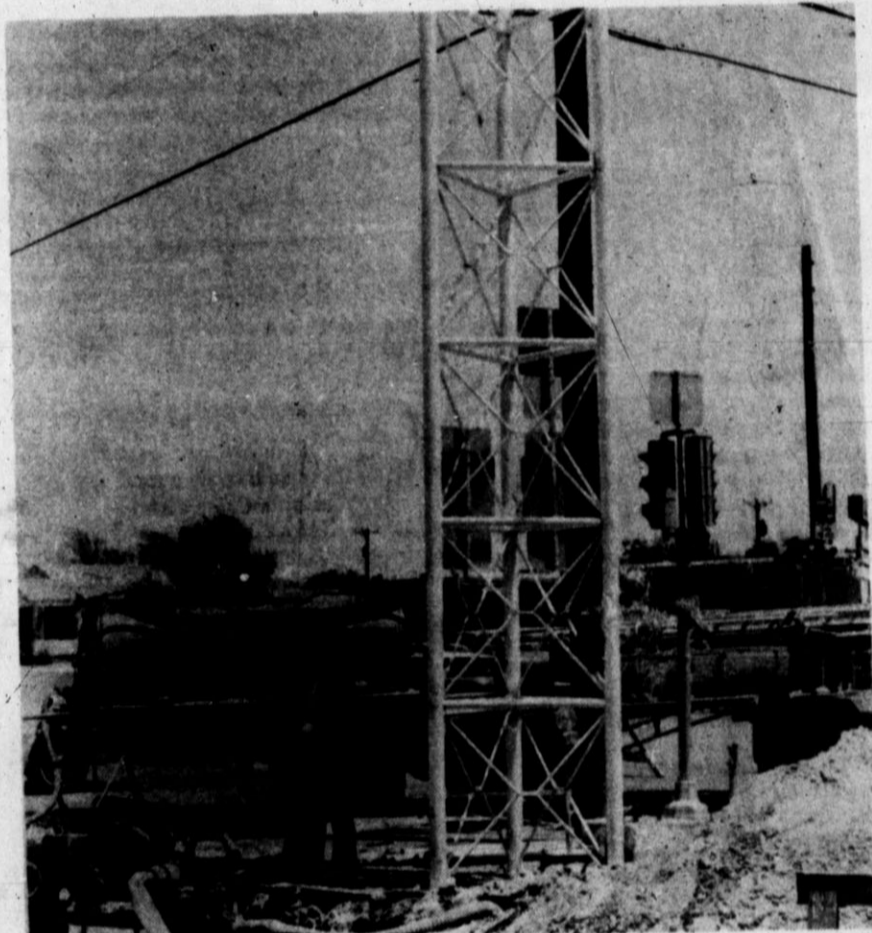

An article on the sports page today reports that Don Cumpston, Hereford High grid assistant and track coach, is leaving to take the post as head coach at Sanford-Fritch. While we hate to lose Cumpston, we're not surprised to see someone grab this very competent man as their head coach.

Cumpston is the type coach who bubbles over with enthusiasm, and it rubs off on his athletes. We think Sanford-Fritch got a good'un!

Overheard in the coffee shop: "My wife and I have an arrangement. I make all the big decisions and she makes all the small decisions. I decide what we should do about the energy crisis, Watergate, Russia, Red China, and taxes—she decides everything else.—From Texas Outlook

By the time you read this, the Miss Texas Pageant will be history. However, I'd like to report that my wife called home Friday night to say that Susie Hickman was making a fine representative for Hereford. She had been in the evening gown competition Wednesday evening, and had presented her talent Thursday night. At that time, the swimsuit competition was scheduled Friday night.

Lavon was highly impressed with the Miss Texas production, and noted the girls were all beautiful and some of them displayed exceptional talents. Several Hereford residents were attending the pageant.

Signal Improvement

Workmen began preliminary work during the week for the installation of two traffic signals at the intersections of Park Avenue and 25 Mile Avenue and U.S. Hwy. 385 and Hwy. 60. When in operation, the \$65,156.34 worth of equipment will include solid state electronic sensors to insure a smoother regulation of traffic flow. (BRAND PHOTO)

Texas Aggies Tour Livestock Operations

Hereford and the surrounding area of Deaf Smith County were transformed Friday from simply a community and so much acreage into an immense classroom.

The transformation was for the benefit of 14 Texas A&M graduate students, all working on their advanced degrees for feedlot management.

After students have completed various portions at the main campus of the feedlot management course, they journey to Bushland—an A&M experimental station—where they learn first hand from industry leaders about the different facets of feedlot management.

THE TRAINING at Bushland, which utilizes some persons from here as classroom teachers, include forays into surrounding areas where students can see in action theories which they have been studying.

Later, students will top off their degree program as interns, working at ranches, feedyards, feed companies, packing houses or other allied businesses where each student can concentrate on his subject of interest.

DR. LOWELL SCHAKE, director of the Bushland program, and veteran of six previous tours to Hereford, said the tours and cooperation of Hereford people had "contributed greatly to the success of the program."

First stop on Friday's tour was the C Bar Ranch, where owners-operators Colby and Jim Conkwright explained

their approach to registered livestock breeding.

From there, the tour moved on to Oswalt Industries, Farr Better Feeds and Shur-Gro Liquid Feeds, Inc., where a representative for each firm described its operations.

After lunch, the students got a brief respite from the heat when they were conducted through the icy locker rooms of Missouri Beef, where they saw butchering and packaging procedures.

FROM MISSOURI BEEF, the tour moved on to Pitman Feedyards, Big Tex Feedyards and Sugarland Feedyards, where students and company representatives discussed capacities, identification problems, by-product sales and other topics.

The tour, sponsored by the Deaf Smith County Chamber of Commerce, ended with a social hour and dinner at the Hereford Country Club.

Tickets Ready For Hereford Night

Reservations are to be made by 5 p.m. Wednesday for tickets to Hereford Night Friday at the Palo Duro Amphitheatre production of the musical, Texas, according to Bill Albright, Deaf Smith County Chamber of Commerce executive. Show tickets and reservations toride a special chartered bus from Hereford (See TICKETS, Page 2)

In Letter To District Judge

Judge Makes Request For County Auditor

A formal request for appointment of a county auditor was made this week in a letter from County Judge H.C. Williams to District Judge Archie S. McDonald.

The request by Williams followed a controversial commissioners court meeting Monday, in which the county judge was critical of the commissioners for allowing a deficit balance in one of the precinct road and bridge funds.

THE BRAND received a copy of the request in the mail Saturday morning. In the letter to the district judge, Williams asked that an auditor be appointed for Deaf Smith County "within 30 days if at all possible as provided for under Article 1645 of the Texas Revised Civil Statutes."

Williams said he felt it was "mandatory" for a county auditor to be appointed here. He read the article to commissioners at the regular meeting Monday and commented he had informed them "on several occasions that an auditor needed to be appointed."

Commissioners had little comment on the county auditor question Monday, but several were unhappy with the judge's remarks about their handling of precinct budgets. Commissioners took care of a deficit in the Precinct 3 budget by making two transfers of funds. Although no statement was made, it appeared that

commissioners may have felt that appointment of an auditor was optional with the county.

THE TEXT of the letter to McDonald: "As County Judge of Deaf Smith County, Texas, I hereby officially and respectfully request that you appoint a county auditor for the County of Deaf Smith at your earliest convenience and

within thirty days if at all possible as provided for under Article 1645 of the Texas Revised Civil Statutes."

"Under this article, it appears that it is mandatory that such a county auditor be appointed when the population of the county exceeds 35,000 inhabitants or when the tax valuation exceeds fifteen million dollars. I am pleased to certify to (See AUDITOR, Page 2)

Bank Deposits Show \$10 Million Increase

Deposits at Hereford's two banks at the close of business June 28 showed a healthy total of \$58,004,972 — an increase of more than \$10 million over the same reporting period a year ago.

The totals were down from the first quarter report and the first of the year figures, which is the normal trend. Deposits hit a peak of \$73.6 million here at the end of 1973.

With an unprofitable cattle market and below-normal wheat crops this year, it might seem surprising that deposits

had climbed \$10 million over the same period a year ago. However, Jim Sears, president of First National Bank, sees two reasons for the increase:

"FIRST, I think we're seeing a carry-over from the fine crops and ag prices received by farmers in 1973. And, it's hard to estimate the impact, but there are a number of people who got out of the cattle business and are sitting on their money." He added that some investors (See DEPOSITS, Page 2)

Final Adjustments

Texas A&M University's 14 graduate students studying feedlot management don white smocks and plastic hardhats Friday in preparation for a tour of Missouri Beef Packers, Inc. Ac-

companying the graduate students was Mrs. Bill Albright, far left, representing the Deaf Smith Chamber of Commerce, sponsor of the tour. (BRAND PHOTO)

Fortenberry Funeral Pending

Arrangements are pending for the funeral of Hugh Fortenberry, 79, of the Adrian community, at Gilliland-Watson Funeral Home. Mr. Fortenberry died Saturday morning in Deaf Smith General Hospital after a short illness.

He was born July 6, 1895. His home was north of Hereford, on the Deaf Smith-Oldham County line. Among survivors is a son, Jake Fortenberry of Adrian.

Funeral Is Conducted For Accident Victim

Graveside funeral services for John Neal Newton, 26, of Indianapolis, Ind., former Hereford resident, were conducted Saturday afternoon by the Rev. Gene Brink, First Christian minister, in West Park Cemetery. Burial was directed by Gilliland-Watson Funeral Home.

Mr. Newton died Friday in an Arlington hospital of injuries received in an automobile accident. He was born in Hereford and spent most of his life here.

He is survived by his mother, Mrs. Rena Rae Newton of Indianapolis; two sisters, Nickie Stevenson of Marietta, Ga., and Carol Long of Indianapolis; a brother, Tommie of Indianapolis; and grandparents, Mr. and Mrs. John B. Renfro of Hereford and Mrs. Allen Newton of Elk City, Okla.

The family requests that memorials be made to St. Jude Children's Research Center, 611 Moss Ave., Indianapolis.

H³ HUSTLE HUSTLE HUSTLE

By Bill Albright, Executive Vice President Deaf Smith County Chamber Of Commerce

Your Chamber is Hustlin' for you. That simple little statement will never make headlines, but it really deserves to. And the reason it should be summed up in the many many activities through which the Chamber expresses the desires and will of the people to make this community "a better place to live and earn a living".

Oh, I know the reaction of the uniformed and the misinformed: "He's just blowing his own horn". But that's just the point, I want to make—I am blowing a horn; YOUR horn. It is you who constitute the Chamber—not me, not the board of directors, not the officers, but you, the citizens of Hereford and Deaf Smith County. You, who care enough about the essentials required for quality growth—you who care enough about the future of our young people, you who care enough about the progress of

our civic and cultural efforts, and everyone of you who cares enough and has an interest in our economic development and well being—and who doesn't?

The Chamber works for you in everything that it endorses, promotes, supports and accomplishes. It works directly for you, its members, and it reflects your ideas, your hopes, your talents, your investments; it is a mirror image of YOU!

The Chamber of Commerce is YOU. The plans and programs, which are yours are administered by The Staff—the projects are carried out by YOU—volunteers working for community betterment.

If you're not a member, shouldn't you be?

Don't forget, it takes three-YOU, your Chamber and me—and Hustle, Hustle, Hustle!

Hughes Chosen For Workshop

The Institute for Development of Educational Activities, the educational affiliate of the Charles F. Kettering Foundation, has announced that Pat Hughes, principal of LaPlata Junior High School, has been chosen as an IDEA Fellow.

He is one of 400 outstanding educators throughout the country selected to participate in a one-week seminar this summer designed to give participants a thorough grounding in some of the new and emerging problems and practices affecting secondary education.

The topics and presenters will range from "The World Crisis in Education" by Ian Lister of England's York University to "Teacher Unions May Soon Control Public Education" by David Seeley, director of the Public Education Association of New York City.

Each Fellow will also receive a prepublication copy of the report of Task Force '74, a National Task Force for High School Reform. Working in small groups, the Fellows will discuss the implications to education of the report which includes analyses of educating adolescents for responsibility,

Jimmy Roberts' State Youth Mother Is Dead To Address Salad Supper

Funeral arrangements for Mrs. J.B. Roberts of Louisville, Miss., mother of Jimmy Roberts of Hereford, were being made Saturday after her unexpected death Friday. Plans were in charge of the Green and Wilkes Funeral Home of Louisville.

Mr. and Mrs. Jimmy Roberts left Friday for the Mississippi city, where his mother had been a lifelong resident. She was found dead at her home there that morning. Survivors include two daughters and seven sons.

The role of citizens in high school reform, and complementary learning programs for secondary-level students.

The report points to new direction of citizen and student involvement in the educational planning. The experiences of on-site investigations of fledgling efforts to be related by members of the Task Force to the seminar group will confirm the benefits of a working relationship between students, school, and community. Many of those who appeared before the Task Force will be sharing their programs with the Fellows.

The IDEA Fellows Institutes are the oldest in-service program for school administrators in the nation.

The Sunday Brand

Entered as second class matter July 6, 1948 at the post office at Hereford, Texas under the Act of March 3, 1879. Second class postage paid at Hereford, Deaf Smith County, Texas.

Established 1948. Published every Sunday at 130 West Fourth St., Hereford, Texas 79045. By The Hereford Brand, Inc. Subscription Rates: Zone 1, \$4.80 per year; Zone 2 and above, \$6.00 per year. With the Hereford Brand, both papers Zone 1, \$5.95 per year; Zone 2, \$7.40 per year. Carrier delivery, \$1.00 per month. Single copies 20 cents each plus 5 per cent sales tax.

Area Students who attended the 1974 sessions of Boys State and Girls State will be guests of the American Legion for a salad supper 8 p.m. Tuesday at the Legion building in Veterans Park.

Cindy Smart, daughter of Mr. and Mrs. Jeff Smart, and Donna Harwood of Adrian will report Girls State activities.

Stan Fry, son of Mr. and Mrs. Stanley Fry, and Craig Nieman, son of the O.G. Niemans, will also explain developments and experiences from Boys State. All former representatives of Boys or Girls State are invited to attend Tuesday's meeting. Legion members and any other interested persons are welcome.

"DOC" COWAN
GLORIOUS CORAL

There is a lovely summertime tradition in jewelry that goes well with the pastel hues and whites of a woman's warm-weather wardrobe. It is the wearing of coral jewelry. Coral is a gem; it is rare, durable and beautiful. It may rise and fall in the esteem of fashion editors, but it is never out of vogue. Coral is suitable in many jewelry roles, but is most often offered in necklaces, earrings, pendants...

As a student of gemology — one of my life's passions — I have learned to classify coral as an organic gem, material that is actually composed of minuscule marine animals. It is interesting that coral grows in colonies of often huge proportions. I hasten to add that this is non-precious coral. It grows perpendicular to the surface to which it is attached. The growth is straight downward if the coral begins on the underside of a rock.

The best known source of fine coral has been Italy. However, warm seas other than the Mediterranean have it. Although many descriptive terms have been used to describe coral, the most valued is what we term angel skin coral. Correctly, this is a rather subtle violet-pink overlay on white coral.

Most of the superstitions regarding gemstones date from centuries past. But as recently as 1913 Italian peasant women living by the sea credited coral with great and unusual powers. First off, the coral had to be "freshly gathered from the sea," to have full power against spells and enchantments. It was worn so that its brilliant color was conspicuous. These earthy ladies were careful to guard their coral from their husbands' eyes, however, for they believed that its color paled with their indisposition.

Coral in all its manifestations is lovely to behold. As a jeweler trained in the traditions of the American Gem Society, I have the expertise to advise which is best for you.

Grand Jury Indicts Six

The 69th District Grand Jury returned five indictments for district court and one indictment for county court Friday, granted three no-bills and passed on three cases.

Four of the indictments were sealed with persons in the cases still at large. Gary Lee Thames was indicted for possession of more than four ounces of marijuana in connection with a case in April of this year.

The one case for county court was a DWI subsequent, or more than first offense.

Persons serving on the grand jury included Doug Bartlett, foreman; Loyd A. Brooks; Elias C. Briones; Alfred Smith; Roger Albracht; Mrs. Harold Kriegshauser; Joe Schollenberger; Mrs. James Fangman; Mrs. Delfino Gonzales; John Dominguez; Joe Deltoro; and Lanny Crump.

Friday's session was the last for the current grand jury. A new term of court will begin Monday, July 29, and 12 new jurors will be selected then.

Auditor--

from Page 1

you that the tax valuation of Deaf Smith County now exceeds sixty million dollars.

"THE COUNTY AUDITOR will be of great benefit to the citizens of this county and has been needed for some time. I, therefore, request that you make this appointment at your earliest convenience as above requested and that you set the salary of the county auditor in your letter

of appointment. For your additional information, this Article provides that the salary of the county auditor shall be 'not more than the amount allowed or paid the assessor-collector of taxes'. The Deaf Smith County assessor-collector of taxes is paid \$10,260 per year.

"I will appreciate hearing from you as soon as possible." The letter, dated July 10, was signed by H.C. Williams, County Judge.

COW POKES

By Ace Reid

"Tell 'em the reason we've got this meat out here and not cold storage is 'cause we're concerned about the engery crisis."

Deposits--

from Page 1

got out of the cattle business early, when big losses started occurring.

Harlan VanderZee, Hereford State Bank president, echoed some similar thoughts on the big increase in deposits over a year ago. "I believe it follows a nationwide trend, generally, and reflects the inflationary spiral which increases the money supply."

THE HSB president said deposits would have "really zoomed if we'd had a profitable cattle market this year and a bountiful wheat crop." He also felt that part of the increase was reflected in some people not re-investing their money in the cattle feeding industry.

The bank reports for the close of business June 28 showed First National with deposits of \$37,475,962 and

Hereford State with \$20,529,010. This was a total of just over \$58 million, compared to a total of \$47,898,464 at the same time last year.

Loans totaled \$29,288,984 at First National in the recent report, while loans amounted to \$10,501,545 at Hereford State. The loans at First National were up about \$5 million over a year ago, while loans at HSB were down more than \$3 million.

DEMAND DEPOSITS amounted to \$18,464,615 at First National, while time and savings deposits totaled \$19,011,347. Comparable figures at Hereford State were \$10,384,097 and \$10,144,912. Deposits at First National were up about \$7.2 over a year ago, and deposits at HSB had increased about \$2.8 over last year.

Tickets--

from Page 1

The 1974 version of the Paul Green musical based on pioneer Plains history has a number of new cast members. One of the new singers is Sherry White of this city, who was Miss Hereford 1972.

Friday evening may be obtained at the chamber office on North Main. Hereford residents will be recognized when notable visitors are introduced at intermission of the outdoor production.

Girl's Softball Season Opener Monday Night

Hereford's first girl's softball league will begin action Monday night at the Bronco League diamonds on Avenue H. According to girl's softball president Marcy Hughes, over 400 Hereford fems are involved in the program.

The program is run under the auspices of the Deaf Smith County Kids, Incorporated. The coaches of the teams are mostly working women, but some men have volunteered to take teams. Some of the coaches are single girls and two of the men coaches have none of their own children playing.

Mrs. Hughes said, "Our

teams are individually sponsored, and without the help of our sponsors, we never would make it. We're totally self-supporting without any financial aid from Boy's Baseball. Our only income is from our sponsors and the concession stands at the park.

The teams play by the amateur fast pitch softball rules. Teams are divided into three leagues: minors, ages 8 through 10; majors, ages 11 through 12; and pony, ages 13 through 15. Minor league pitching distance is 30 feet, with the bases set at 40 feet. In the majors, pitching distance is 35 feet, with 60 feet baselines and in the pony league, pitching distance is 40 feet with the baselines 60 feet.

Under their bylaws, games in girl's softball are given an hour and a half time limit. And everyone is allowed to participate in games. If a young lady attends practice regularly, she will be allowed to play in games. Most of the girl's softball officials will be men, but volunteers of any sex will be

appreciated according to Mrs. Hughes.

The program has its own board of directors, made up of president Marcy Hughes, vice-president Kay Banner, secretary-treasurer Sandra Combs, and representative to the Kids, Inc. board Linda Pagett.

Girls still wishing to enroll in the program may contact any of the Board or any coach.

Minor League coaches are Frances Kerr, Bravettes; Toby Torres, Dodgerettes; Judy Roberson, Yankettes; Nell McCullar, Cubettes; D'Lyn Davison, Giantettes; Iris Clifton, Angelettes; Randy Hamilton, Astroettes; and Carlette Messer, Cardinalettes.

Coaching in the Majors are Sondra Layton, Bravettes; Dwayne Albracht, Dodgerettes; Aurora Dominguez, Yankettes; Sandra Combs, Cubettes; Perry Ray, Giantettes; Tresa Munoz, Angelettes; Elvis Shields, Astroettes; and Pat Winkler, Cardinalettes.

Pony League coaches are Darlene Lee, Dodgerettes;

Virgil Kilpatrick, Yankettes; Geneva Kilpatrick, Cubettes; and Kay Banner, Angelettes. Below is a listing of the season's schedule:

MINORS & MAJORS

	N.	S.
July 15	4-3	2-1
July 16	8-7	6-5

Goes To Fritch

Coach Don Cumpton gives a play to a Whiteface to carry into the game during the spring scrimmage. Cumpton has resigned his position as assistant coach and head track coach in Hereford to take on head football coaching duties at Sanford-Fritch.

The Sunday Brand
SPORTS
Hereford, Texas, Sunday July 14, 1974

Cumpton Heads For Fritch Job

Don Cumpton, football assistant and head track coach at Hereford High, has accepted the job as head football coach at Sanford-Fritch, it was revealed Thursday afternoon.

A Whiteface aide for four years, Cumpton will go to Sanford-Fritch this week to start familiarizing himself with the program at the Class A school. "I'll be leaving with mixed emotions," the enthusiastic coach said Friday. "Hereford is a great community and we appreciate the fine people here... the help and cooperation has been great."

Cumpton added that his desire "to become a head coach was the big factor in my decision." He will replace Harold McCreary, who resigned just last week. Sanford-Fritch will not be able to compete for District 1-A football honors this

fall, since the district committee disqualified the football Eagles for violation of grid rules in 1973.

Cumpton said he was told the Eagles have a fine crop of sophomores, and the school has the potential for good grid teams the next two years. The Eagles also have strong hopes for their track team this year.

A graduate of Bovina High School and West Texas State University, Cumpton was football assistant and track coach at Tulia for three years prior to coming to Hereford. His track team won the district championship in 1973, and he was assistant on two championship Whiteface football teams. The Herd went to the quarterfinals in 1971 and the regionals in 1973.

He and his wife, Linda, have two sons—Brent, 4, and David, 4 months.

State Bank No. 1778

CONSOLIDATED REPORT OF CONDITION OF HEREFORD STATE BANK

of Hereford in the State of Texas and Domestic Subsidiaries at the close of business on June 28, 1974.

ASSETS

The End Zone

DAN WELTY

A BOOK IN OUR LIBRARY credits Dallas High School with organizing the first Texas schoolboy football team. Or at least the kids of the school. The school superintendent wouldn't let the team practice on school grounds, and mothers of the boys made the uniforms. The faculty decided the game as being too tough, and only two girls attended the first game. We bet football players were modest in those days!

uniforms. Coach Cumpston's salary, and numerous pieces of equipment. A hearty Here! Here! for the Noon Kiwanians who support the program. More than 65 youngsters competed in four meets, and some have advanced to championship meets. The Kiwanians have also taken on a new project to raise

THE WFL MADE its television debut Thursday night, making the wives football widows at least six weeks earlier this year, and no-doubt increasing the sales of color TV's earlier than usual.

And what a colorful bunch that WFL is! The officials, the teams, and the cheerleaders were in plumage that revelled NBC's peacock.

It's obvious the tightened and throwing quarterback are going to make their beans in the new football league. Also the specialty teams, as in the case of Alvin Wyatt, who carried that punt return 83 yards.

The Jacksonville Sharks and New York Stars didn't get much of a running game going during their five weeks of pre-season practice, but look for this to improve. Especially next year when Larry Conka joins the league.

Moving the goal-posts to the rear of the end zone seems like a good idea to us. We're not certain if that's the reason for zero field goals in the game, or if it's the lack of talent in the WFL. Kinda like it though. Running or passing the extra point (action point I believe they called it) added to the game also.

We had some doubts about the WFL ever getting off the ground. It may be slow in its takeoff, but it seemed as though the 59,000 people on hand in the Gator Bowl got their money's worth.

HEREFORD'S NOON KIWANIS presented Coach Don Cumpston a check Thursday for his services as track coach of the Hereford Track Club during the 74 season. (see picture elsewhere) And then the Hereford Track Club reciprocated by giving the Kiwanis two trophies won by the intermediate and senior girls 440-yard relay teams at the Amarillo meet earlier in the summer.

The Noon Kiwanis sponsored the group, providing financial aid for out-of-town trips,

Trophy Awarded

Howard Birdwell, president of the Noon Kiwanis, accepts a trophy in behalf of the club from Tammi Lawson, a member of senior girls 440-yard relay team. The Noon Kiwanis supported the Hereford Track Club with financial aid throughout their season. The trophy was won by the senior girls relay team at an Amarillo track meet.

more funds for youth activities in Hereford. The club has gone partners with the Amarillo Giants to stage a "Hereford Day" at Memorial Stadium. Tickets for the August 4 contest between the Giants and the San Antonio Brewers are available from any Kiwanis member, the Deaf Smith County Chamber of Commerce, and at the Hereford State Bank and First National Bank. Tickets are \$1.50 for the Sunday afternoon game.

BIG BROTHERS OF AMARILLO Executive Director Gary McDade writes to tell of the Third Annual Big Brothers Golf tourney. This year's event will be held at Ross Rogers in Amarillo Aug. 10. Proceeds of course, will benefit the Big Brothers program. Prizes include trophies, merchandise, WT season tickets, and gift certificates. Area civic and political leaders will play in the tourney and anyone is invited to participate. A putting contest will be held for the Little Brothers.

THE OLTON TENNIS CLUB will stage a ladies tennis tourney August 6 and 7 with all the standard classes for ladies 18 and up. Entry deadline is July 31. Call Mrs. Jo McGill, 806-285-2062 between July 22 and 31.

THE RED RIVER SKI area will get a new million dollar ski lift, and construction has already begun with scheduled completion before the first snow

The Texas Panhandle may look dry and dusty to most folks, but to a good-sized population of ducks, it's home. The ducks stay near the shallow playa lakes in the Panhandle the year round. Species include mallards, pintails, cinnamon and blue-winged teal, ruddy ducks, redheads and coots.

The Texas Parks and Wildlife Department plans to run a brood-production survey in July to get an accurate estimation of duck production in the Panhandle. According to Bob West, a waterfowl biologist stationed in Canyon, the water situation in the Panhandle is critical this year, and some of the normally

productive areas have dried up. Consequently, the outlook is dim for brood production although some broods have been observed on several of the more stable playa lakes. West says the periodic droughts and sporadic rains which characterize each Panhandle summer affect the nesting of the hens, but even

with the present drought, late rains will allow existing broods to mature before the hunting season. The biologists survey will furnish both state and federal agencies with reliable data on numbers of nests, size of broods and a year-to-year census. According to West, many of the early mallard and pintail

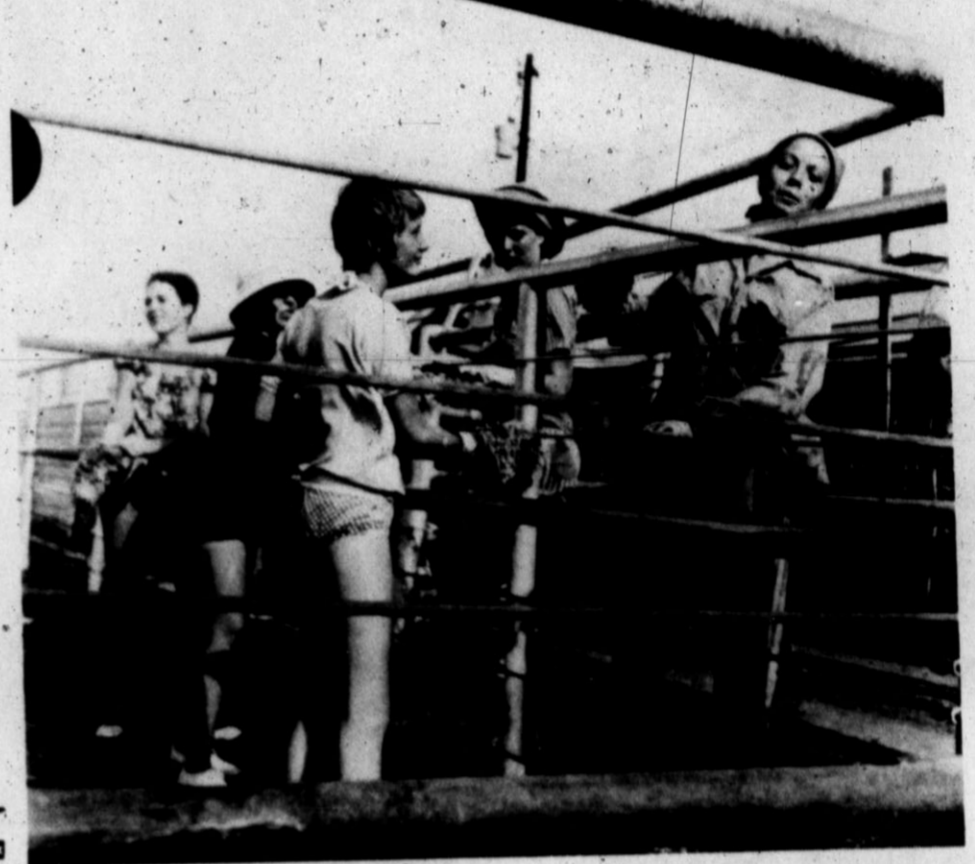

ducks bagged by Texas hunters are thought to be home-reared birds. A more complete picture of the population makeup will be in store as a result of a banding program planned for next year.

Cheerleaders To Host Clinic Here For Girls

Girls in the first, grade and older are invited to participate in a cheerleading clinic beginning tomorrow through Friday in Community Center, announced Mrs. Barbara Stagner, HHS cheerleader sponsor. The two-hour sessions slated from 5:30-7:30 p.m. each afternoon will stress cheerleading techniques and muscle coordination. Clinicians will be the 1974-'75 Hereford High School cheerleaders, who recently won high honors at the National Cheerleaders Association Clinic in Lubbock.

A \$5.50 fee will be required from girls in the first-fourth grades. Girls in the fifth grade and up will need to pay \$7.50 in order to participate. The single entry fee will be collected during the first session and will finance all five days.

Money gained from the clinic will go towards the purchase of new uniforms for the HHS cheerleaders.

Adding Finishing Touches

Branching their talents out in several directions, the Hereford High School cheerleaders recently were hired to add a new finish to fences at a local feedyard. The girls are currently involved in some fund-raising projects, including a cheerleading clinic, in order to purchase new uniforms for the '74-'75 athletic season. The HHS award-winning cheerleaders, under the direction of Mrs. Barbara Stagner, are Gloria Mays, Sharon Dearing, Karen Kitchens, Dee Ann Miller, Terry Hetzel and Brenda Owens, Scat.

ONE MINUTE SPORTS QUIZ

1. Name the recent winner of the men's singles at Wimbledon.
2. Who won the women's singles at Wimbledon?

In The Dog Days Of Summer...

Canine representatives ranging from exotic mixtures to Heinz 57's were on parade yesterday in Dameron Park when Hereford's Sheriff Posse sponsored a mongrel dog show. Local children and their tail-wagging charges sported their best appearances for the July event.

Misty Gordon, far left, daughter of Mr. and Mrs. Rodney Gordon, persuades her wire-haired terrier, Marvin, to pause for a moment on the swing set. Dufus, an Australian sheepdog, serves as a temporary resting spot in center photo for his little master, Chris Northcutt, son of Mr. and Mrs. Wake Northcutt. In right photo, an apprehensive Chihuahua takes a precarious perch on a slide at the coaching of Dana Greenway. At lower left, Carla Greenway, daughter of the A.L. Greenways, and her Boston terrier, Ginger, display a winning stance. Holding their entries, Ranger and Barkie, are Shirla Greenway and Cole Hewitt. Shirla is another daughter of the Greenways and Cole belongs to the Jerald Kimballs.

Small Talk

By SUE COLEMAN
Women's Editor

HERE in the middle of summer is the middle of vacation time, too, and there is a lot of traveling by Hereford folks, and lots of visitors in Hereford homes. Some of the travelers are not stopping at the U.S. borders.

Bruce Carter came home Monday after one of the tours abroad that seem to be getting to be a habit for her. She goes with a sister and brother-in-law who live downstate and they head in a different direction each trip. This summer it was toward Scandinavia and other countries in Northern Europe.

Part of it was by boat around the coasts of Norway, Sweden, Denmark, Finland and Russia. The travelers went into Russia, also Hungary and Poland of the Iron Curtain countries, as well as Germany and Switzerland.

NOT so far away, but still a nice long trip is being made by Norma Jeanne Gripp, who will go to Spokane, where a World Fair is in progress, and then to daughter Nancy's home in Mount Vernon, Wash., for a visit. She comments that Washington is beautiful this

time of year and I would add, any other time of year.

VISITING in the home of his sisters, Ruby Kendrick Sears here and Mary Elizabeth Forrest at Lake Tangléwood, Sehmann Cherry of Sun City, Calif., is spending a vacation in his native West Texas.

The Cherry family lived in Childress during the years the children were in school, and Schumann graduated from CHS in the class with my youngest brother, so it was a real pleasure to see him.

AN enthusiastic china painting hobbyist and teacher, Lottie Wertenberger thoroughly enjoyed attending an international china show at Las Vegas, Nev. the first of this week. She went with Mrs. Dick Rocky and on the trip visited a granddaughter, Candy, Mrs. David Wertenberger.

SHE spends much time here with her mother, Katie McGehee, and sister, Helen Stark, so Hereford is really a second home for Lucy Hupp, but she still calls Seal Beach, Calif.

her real home. Her mother says Lucy was quite happy to be going home when she left for the West Coast city this week.

GRANDPARENTS, the James Mercers and Fred Sims, were the ones announcing the birth of the Gilbert Sims' son at Midland Friday. Charles Sims was born at 3 a.m. in a Midland hospital, weighed 8 pounds 9 ounces and was 20 inches long. He has a sister, Kellie. Mother of the two is the former Ann Mercer. Both she and her husband were reared in Hereford.

William E. Simon, Treasury Secretary:

"I do not accept the prognosis that 5 per cent inflation will be here in five years or even three years from now."

Joseph L. Alioto, President of the U.S. Conference of Mayors, in appeal to the President:

"Our cities still beg in our state houses and the nation's Capitol for help."

Mrs. Gerald Warren Ripley
...nee Rose Mary Fangman

Rose Mary Fangman Weds Friday In Amarillo

Miss Rose Mary Fangman, formerly of Hereford, and Gerald Warren Ripley, both of Amarillo, were married Friday evening in St. Mary's Catholic Church in Amarillo with the Rev. Ken Keller of the church performing the ceremony.

Miss Fangman is the daughter of the late Mr. and Mrs. S.A. Fangman of Hereford and Ripley is the son of Mr. and Mrs. Warren Ripley of Holliston, Mass.

Two baskets of gladiolas and candelabra with white tapers were arranged on either side of the main altar of the church.

The bride's sisters, Misses Diana and Mary Fangman served as maid of honor and bridesmaid. Best man was Tac Coleman and groomsmen was John Henderson.

James Paetzold and Dean Gum escorted guests to their seats.

The bride's niece and nephew, Denise and Dennis Paetzold, children of Mr. and Mrs. James Paetzold, served as flower girl and ring bearer.

Altar boys included Russell Fangman, son of Mr. and Mrs. Eugene Fangman, and Fred Arnold Fangman, and Fred Fangman, son of Mr. and Mrs. Eugene Fangman.

Mrs. Allen Evers accompanied Larry Kuper who sang Twelfth of Never, Ava Mana and The Lords Prayer.

Given in marriage by her brother, Clifford Fangman, the bride wore an A-line white dotted Swiss bridal gown over taffeta. The stand-up collar, sheer puffed sleeves and bodice of the dress were trimmed in lace.

The empire waist was belted at the back with a bow. The bride's summer picture hat was trimmed in lace matching the gown.

Her bridal bouquet consisted of pink roses and orchid pompons with pink streamers. As a good luck piece she wore a cameo necklace which was given to her by the bridegroom.

Attendants' dresses were

fashioned after the bridal gown. Maid of Honor and bridesmaid wore orchid pink and dotted Swiss dresses. The flower girl's was pink. Each carried a bouquet of pink flowers.

Misses Paulette Reinart and Suzanne Appleton served punch from a round table at the reception held in the Tropic Room of Villa Inn.

Miss Nina Gilleland and Sheryl Thomas served the four-tier cake which was topped with a cluster of orchids, daisies, babybreath and pink carnations. Billy Gum registered guests.

The bride wore a traveling costume a pink knit suit with brown accessories and a corsage from her bridal bouquet.

After a wedding trip to Colorado Springs and Denver, the couple will be at home July 20 at 4231-R, West Thirteen, Amarillo.

Mrs. Ripley is a 1969 Hereford High School graduate and attended Durhams Business College in Tucson, Ariz.

The bridegroom is employed at Glover's and graduated from Holliston High School in 1969.

Pre-Wedding Shower Is Recent Event

Preceding her wedding at Amarillo this weekend, a shower complimented Rose Mary Fangman Sunday afternoon when Hereford friends entertained in the REA Medallion Room. Miss Fangman and Gerald Ripley, both of Amarillo, were married Friday evening and will live at 4231-B West 16th in that city.

Guests at the afternoon party were greeted by the honoree, a Hereford resident until recent years; her grandmother, Mrs. Iva Saltzman; her sister, Mrs. Jim Paetzold and daughter.

Other sisters, Mary and Diane Fangman, served tea from a table covered with white lace and ornamented with wedding bells around a bouquet of pink, white and orchid daisies. Nina Gilleland was at the registry table.

Gift packages were presented to Miss Fangman, who opened them to display the contents to guests.

In the hostess party were Mmes. Mark Koenig, W.J. Albracht, Ray Wilhelm, F.A. Marnell, L.J. Jones, Alvin Schmucker, Walter Kuper, Roy Kuper, George Schulte, Agnes Betzen, Leander Reinart and Bill Gilleland.

Elmo Zumwalt, retiring Chief of Naval Operations:

"The United States Navy has lost control of the seas and could be defeated in a confrontation with the Soviets."

John C. Sawhill, Federal Energy Administrator:

"Clearly, the public isn't conserving energy the way they were."

Tour Party Is Back Home

Returning Friday after a tour of Hawaii, a large party of Hereford residents had spent eight days in sightseeing on the islands in a group of approximately 50, most of them from the Panhandle area.

They included Messrs. and Mmes. Howard Gore, N.R. Jones, Glenn Watts and E.M. Green; Mrs. Ellis Coombes,

Verlea Nixon, Audrey Powell, Eudene Glover, Addit Stallings and Alta Thomas.

Richard Nixon, President, briefing 14 NATO leaders in Brussels:

"We will never sacrifice the interests of our allies."

If you need a car that's roomy and comfortable at an affordable price, Impala is a sensible buy.

Not every family can fit into one of today's popular small cars. Because of your family's size or your job, it may make sense to own a full-size car like the Chevrolet Impala with a roomy interior that holds six comfortably.

If you sometimes haul bulky objects, you'll appreciate Impala's 18 cubic feet of trunk space. And to make the least of rough roads, Impala has Full Coil spring suspension, strategically placed rubber body mounts and extensive sound insulating.

For extra protection, there are side guard door beams and a Cargo-Guard luggage compartment. And to make driving more pleasant, Impala comes with such standard features as Turbo Hydra-matic transmission, power front disc/rear drum brakes and variable ratio power steering.

Come in and let us show you why it makes sense to buy a reasonably priced Impala, the car that's been the nation's Number One seller for 14 years. And why it makes sense to buy it from us.

B.J. Crowley's HOROSCOPE

Week of July 14, 1974

CANCER--Those born under the sign of Cancer are emotional and sensitive. A gift of extra sensory perception seems to be more predominant with those of this sign. Best day of the week is usually Monday.

CANCER--June 21 to July 22--Plan to sleep a little later in the mornings if possible, this week. You can then expect to have more energy for those busy evenings.

LEO--July 23 to Aug. 22--Artistic endeavors are favored this week. Write that

story or paint that picture you have been longing to create.

VIRGO--Aug. 23 to Sept. 22--Be precise with your work, avoiding mistakes. There is no room for error. You can then achieve almost anything you set your mind to.

LIBRA--Sept. 23 to Oct. 22--Curb your enthusiasm. You must think not only of points to be gained in an undertaking you are now looking at, but you must also evaluate the pitfalls.

SCORPIO--Oct. 23 to Nov. 22--Avoid the tendency to be vindictive. Otherwise, someone is going to pull the rug out from under you. Examine your actions to see if they smack of the devilish.

SAGITTARIUS--Nov. 23 Dec. 21--Don't promise more than you can give. Take care of family obligations first. A new hobby would give you a lift.

CAPRICORN--Dec. 22 to Jan. 19--Expect good news. Take a break away from the routine of your work. A short vacation trip could prove

enjoyable.

AQUARIUS--Jan. 20 to Feb. 18--Modesty is not one of your virtues, but it would be well to try to acquire a little of it. Your mate or partner needs to be reassured.

PISCES--Feb. 19 to March 20--If you have been considering some repairs or remodeling for your home, this is the time to do it.

ARIES--March 21 to April 20--Trying to do too many things could lead to frustration. Someone who is trying to cook your goose will wind up stewing in their own juice.

TAURUS--April 21 to May 20--Put off answering correspondence until next week. Even though you are giving honest answers, not everyone is.

GEMINI--May 21 to June 20--Conformity is absolutely essential for you this week. Otherwise, personal conflict arises. Keep life simple. Pining for things you don't have is a waste of time.

Couple Exchange Vows In Double Ring Ceremony

Mrs. Henry L. Ramaekers ...nee Linda Jo Collins

A double ring ceremony was conducted by the Rev. Ralph Zinser, pastor of St. Mary's Catholic Church of Umbarger, assisted by the Rev. Don McWhorter, pastor of Wesley United Methodist Church for the marriage of Miss Linda Jo Collins and Henry Leonard Ramaekers at Wesley Church Friday evening.

The bride is the daughter of Mr. and Mrs. Boyd Collins of 806 Miles Ave. and the bridegroom is the son of Mr. and Mrs. Vincent Ramaekers of Umbarger.

Church decorations included a basket of spring flowers centered between two candles on the communion table and candelabra arranged on either side of the altar.

Miss Joan Frische of Dawn was maid of honor and best man was Don Thompson of Canyon.

Serving as bridesmaids were the bridegroom's sister, Miss Debbie Ramaekers, and Miss Patricia Brownlow.

David Collins, the bride's brother, and the bridegroom's cousin, Glen Ramaekers, were groomsmen.

Ushers were the bride's brother, Danny Collins, and the bridegroom's cousin, Gordon Wilhelm of Nazareth.

Georgia Mae and Rita Ann Collins, the bride's younger sisters, served as flower girls. They wore yellow and blue floor-length dresses designed with square necklines and cap sleeves. They carried small baskets of spring flowers.

The bridegroom's cousin, Scott Hoelting, son of Mr. and Mrs. Leroy Hoelting of Colorado Springs, was ring bearer.

Lighting candles was the bridegroom's sister Linda Ramaekers, and Dennis Collins, the bride's brother.

Linda Ramaekers wore a floor-length yellow dress fashioned with a square neckline and puffed sleeves. The gathered skirt was trimmed with a wide ruffle at the hem. Her escort wore a yellow shirt complementing the dress.

Mrs. Jimmy Bell, organist, and Kevin Raef of Umbarger, guitarist, accompanied the bridegroom's sister, Miss Elaine Ramaekers, and Miss

Vicki Gerber of Umbarger singing, Young Love, Our Father, For Bobbie and Prayer of St. Francis.

Given in marriage by her father, the bride wore an A-line bridal gown which she and her mother, made, The miramist over polyester crepe dress featured an empire waist, a lace Bertha collar matching lace at the hem of the skirt which formed a slight train.

The sheer full sleeves were gathered at the deep lace cuff which buttoned with tiny pearl beads. The bride's finger-tip veil, also made by her mother, was of layers of net attached to a headpiece of wedding dress lace and small-pearl beads.

She carried a cascade of white daisies and wore a strand of pearls belonging to her mother and pearl earrings, a gift of the bridegroom.

Attendants wore high-waisted floor-length dresses fashioned with A-line skirts. Round necklines were trimmed with ruffles as were the short sleeves.

The maid of honor was dressed in yellow and the bridesmaids in blue. Each wore a wide brimmed hat trimmed in blue and yellow and carried nosegays of white, yellow and blue daisies. Escorts wore colored shirts matching attendants' dresses, and blue carnation boutonnieres.

The bride's attendants wore gold chains with small pearls, gifts of the bride.

Mrs. Collins chose a beige shift-style dress with beige accessories for her daughter's wedding. A sleeveless coat of matching figured material completed the outfit.

The bridegroom's mother wore a blue knit dress fashioned with a collar and black accessories.

The bridegroom's sister, Miss Sharon Ramaekers, invited guests to sign the registry book at the reception held in fellowship hall of the church.

Miss Melissa Johnson and Miss Mary Beth Ramaekers, the bridegroom's cousin, served punch from the refreshment table covered with a blue cloth trimmed with lace. A basket of spring flowers was used as a centerpiece.

Miss Karen Scott served the wedding cake. Its bottom tier formed six hearts and the remaining tiers were round trimmed with small dolls, rings and yellow daisies. White dove figurines were perched on top.

Leaving for a wedding trip to West Plains and St. Louis Mo. the bride wore a street length yellow print dress with a solid yellow collar and front placket. The bridegroom wore a shirt yellow with print collar and placket. Both costumes were made by the bride.

The couple will be at home after July 21 in Canyon.

The bride is employed at Sears and Roebuck and Co. and is a 1973 honor graduate of Hereford High School.

The bridegroom is with Umbarger Co-op. He is a junior student at West Texas State University majoring in accounting.

Out-of-town guests included grandparents of the couple, Mr. and Mrs. Leonard Conrad and Mr. and Mrs. Florence Albracht of Nazareth; Mr. and Mrs. Leroy Hoelting and family and Mr. and Mrs. Tom Conrad of Colorado Springs.

Also, Mr. and Mrs. Bill Hieman and Judy of Inglewood, Calif.; Andrew Albracht and family of Reseda, Calif.; Mr. and Mrs. Howard Bacon and Mike of Amarillo.

Others, Mr. and Mrs. Harold Hendrickson of Bolivar, Mo.; Mr. and Mrs. Ray Barnes of Lexington Park, Md.

TV COMMENT

HISTORY REPEATS itself, repeats itself, repeats itself. Last year Julie Andrews won an Emmy for her show, which was flushed by the network. This year NBC unceremoniously put the ax to Dinah Shore, while in the same breath offering due congratulations to her for winning an Emmy.

SHE is shifting networks and will be with CBS next fall, doing a 90-minute syndicated series five days a week. The show will emphasize variety, plus some talk.

MONEY is not scarce in all quarters. It is reported that Tony Musante was paid \$11,000 for each segment of ABC's "Foma" series.

FOOTBALL FANS and lovers of Howard Cosell and the spoken word will have an opportunity to sit on the edge of their chairs in the near future. The humble sportscaster will host a roast of O.J. Simpson on an upcoming ABC "Wide World of Entertainment" special.

Elaine Brooke Is Bride In Afternoon Wedding

The marriage of Miss Elaine Gray Brooke, daughter of Mr. and Mrs. Courtney Brooke of 240 Centre, and Robert Neil Cummings of Wichita Falls was read by Dr. Jordan Grooms, pastor, in the sanctuary of First United Methodist Church late Saturday afternoon.

After a honeymoon in the Colorado mountains, the couple will be at home in Abilene where both are students. The bridegroom is the son of Mrs. A.L. Loyd of Wichita Falls.

Lighted candles and white satin bows marked pew ends down the center aisle of the church, which led to altar decorations centered with a large bouquet of Killian daisies, white gladiolas, babybreath and fern. On either side were spiral candelabra and pedestal bouquets of the same flowers.

Unity candles were lighted as part of the ceremony. The couple knelt on a bench decked with clusters of daisies and white carnations with English ivy tendrils.

Her mother's wedding veil of fine Brussels lace in candlelight shade, held to her blonde hair by a lace coil and extending over the train of her satin

organza gown, was the focal point of the bride's costume. Another heirloom item was a pearl necklace which her father gave her mother on their wedding day.

A flounce of Brussels princess lace edged the skirt hemline which widened into the circular train. Lace was ruffled at the high neckline, around a tucked organza yoke and on cuffs of the full sleeves.

Candlelight satin ribbon circled the natural waistline. Seed pearls traced the pattern over Alencon lace appliques on bodice and sleeves. Her flowers were white orchids in cascade arrangement with Miss Nancy Graves, Mrs. Randy Arnold, Mrs. Guy Brooke, her sister-in-law, and Mrs. Garry Such of Wichita Falls.

They were dressed in lemon yellow and mint green dotted voile, with pinafore ruffles outlining the apron front. Necklines were squared, sleeves full and caught by deep cuffs with ruffles at the wrist. Skirts were given added fullness with hemline ruffles.

Their wide-brimmed hats had bands of satin ribbon to match their gowns and they carried baskets of yellow daisy poms, babybreath and ivy.

The flower girl, Kimberley Brooke, daughter of the Guy Brookes, wore a white voile pinafore over her long-skirted lemon yellow frock. Her lace basket held yellow and white petals.

The bridegroom's brother, Terry Cummings of Wichita Falls, was his best man. Groomsmen and ushers were Guy, Mark and Godfrey Brooke.

brothers of the bride; Steve Petty, Richard Clark, Dennis Smith, Denneth Abbott and Kent Tibbels.

Mrs. Charles Jones and David Thompson played wedding selections and Miss Karen Scott was vocal soloist to present The Lord's Prayer.

After the ceremony a reception was held in Ward Parlor of the church. Mrs. Mark Brooke of Amarillo invited guests to register.

Mrs. Ron Boostrom of Estes Park, Colo., and Mrs. Ronnie Etheridge served the wedding cake while Misses Bridget Mazurek and Vickie Mills poured punch at the white-covered table where a five-branched silver candelabrum was centered with a bouquet of white rosebuds, daisies and carnations. A crystal vase which belonged to the bride's great-grandmother held three white roses.

The colonnade cake, three-tiered, was iced in white with touches of pastel green, trimmed in bell design and topped with a cluster of bells and lilies-of-the-valley.

For a trip to Estes Park, Mrs. Cummings changed to a white linen skirt and navy voile top, wearing a corsage from her bridal bouquet.

The bride attends dental school at Dyess Air Force Base, Abilene and Cummings is a pre-med student in McMurry College there. She formerly attended McMurry after graduation from Hereford High School. He was a high school graduate at Burk Burnett and attended North Texas State University at Denton.

In addition to the bridegroom's family from Wichita Falls, out-of-city wedding guests included Lt. Col. and Mrs. Elery Watson and Ron Boostrom of Estes Park, Mrs. D.B. Denney of Greenville; Mrs. Godfrey Brooke of Abilene; Mrs. Grady C. Brooke, Mr. and Mrs. L. Grady Brooke of Wolforth; Mr. and Mrs. James A. Blackmon of Lubbock and Mrs. Herbert Mulder of Beaumont.

Mrs. Neil Cummings ...nee Elaine Brooke

Award Received For Study On Cancer

Dr. Clare Skov, whose wife is the former Twyla Springer of Hereford, has received a research fellowship award from the National Cancer Institute and will engage in research related to tumor immunology, working at the Oak Ridge, Tenn., National Laboratory. The Skovs are now at home at 115 Lancaster Rd., Oak Ridge after moving from Lansing, Mich., where he lately completed requirements for a doctorate in Microbiology and public health, specializing in

cellular immunology, at Michigan State University. He will attend the World Health Conference in England later this month. The research he is to do at Oak Ridge is concerned with problems of tumor mutation, progression and immunotherapy. Mrs. Skov is the daughter of Esther Springer, Dimmitt Highway, and the late Earl Springer. Mrs. Springer plans to visit her and the three children while Dr. Skov is on the trip to England.

Here's How Beef Is Best

BEEF PARMESAN
Mrs. C.F. Newsom

2 lbs. tenderized round steak salt and pepper to taste
2 8 oz. cans tomato sauce with cheese

1-2 1/2 size can tomatoes or equivalent of fresh tomatoes - 1 tsp. oregano

Grated Parmesan cheese
Cut tenderized steak into serving portions. Salt, pepper and flour. Brown on both sides in hot shortening. Remove and drain well.

In large skillet place tomato sauce, tomatoes, salt and pepper and add oregano. Simmer steak in mixture. Sprinkle with grated parmesan cheese before serving.

People who were yelling for warm weather a few months ago are getting what they thought they wanted.

Threat to Lifestyle

Julius Shiskin, commissioner of statistics in the Department of Labor, speaking about the consumer price index the other day, said nearly half the country's population has some portion of its income automatically pegged to rises in the cost of living.

This includes many who work under labor contracts with cost of living clauses, along with about 29 million Social Security recipients and two million retired military and federal employees whose income rises as the cost of living goes up.

As desirable as such security is for the recipient, the massive size of the hedge against inflation serves to throw a monkey wrench into the machinery of the nation's economy and aggravates the very problem it is designed to fix.

A free market system responds to the public's acceptance or rejection of prices. Normally prices rise until they meet resistance, then tend to stabilize, or even fall. In the absence of consumer resistance there's no upper limit on how high prices can go.

Consumer resistance, though, is minimized by cost of living guarantees. A person doesn't hesitate to pay a nickel more for an item if he knows it really won't cost him a nickel more, that his income will be adjusted upward to cover it.

In making the upward adjustment, the employer now must raise the price on the item another nickel or more to recoup. And so it goes. Not in a circle, but in an upward spiral.

It is a real-life application of a theory of Economist C. Jackson Grayson Jr. that any interference with the wage-price balance leads to distortions in the economic system and invites the danger of permanent central control over the system.

The American free enterprise system has been the envy of the world because it has:

—Produced for Americans the highest standard of living in history.

—Been most compatible with the principles of democracy and personal freedom enjoyed by Americans.

—Efficiently allocated America's resources based on billions of market decisions by the public each day.

Yet Federal Reserve Board Chairman Arthur Burns is concerned about survivability of the U.S. economic system as we know it. He attempts a Keynesian fight of inflation through tight money and high interest. But there still is a heavy loan demand; for a 10 per cent annual rate of inflation goes a long way toward nullifying the cost of borrowing against the 11 per cent prime.

Others decry deficit spending in the federal government; yet inflation hits the federal establishment, too. And other billions in deficit spending seem likely.

There is, apparently, no painless answer to the problem, despite short-term relief which some receive in cost of living allowances. The intolerability of it all embraces that half of the nation which can find no relief from inflation.

"The gravity of our current inflationary problem can hardly be over-estimated," said Mr. Burns.

He seeks stability through austerity. If current efforts fail, he indicates, Americans still could have their austerity, but it would be forced through instability.

Ft. Worth Star-Telegram

Food for Diplomacy

For decades, the big stick of U.S. diplomacy has been military might.

Now comes a new tool—"food power."

President Nixon says that food was a factor in Secretary of State Henry Kissinger's ability to achieve the recent truce between Israel and Syria.

He said that the U.S. has something that the Arabs need more than arms. We have food power and we are beginning to use it diplomatically.

Americans do not know, however, just what part American foodstuffs played in these peace negotiations. We will no doubt be hearing more about the use of food power in the recent settlement as more details of the arrangement are made public.

We can only hope that peace in the Middle East was not achieved by a U.S. promise to ship plenty of free food to both sides. We might need it at home.

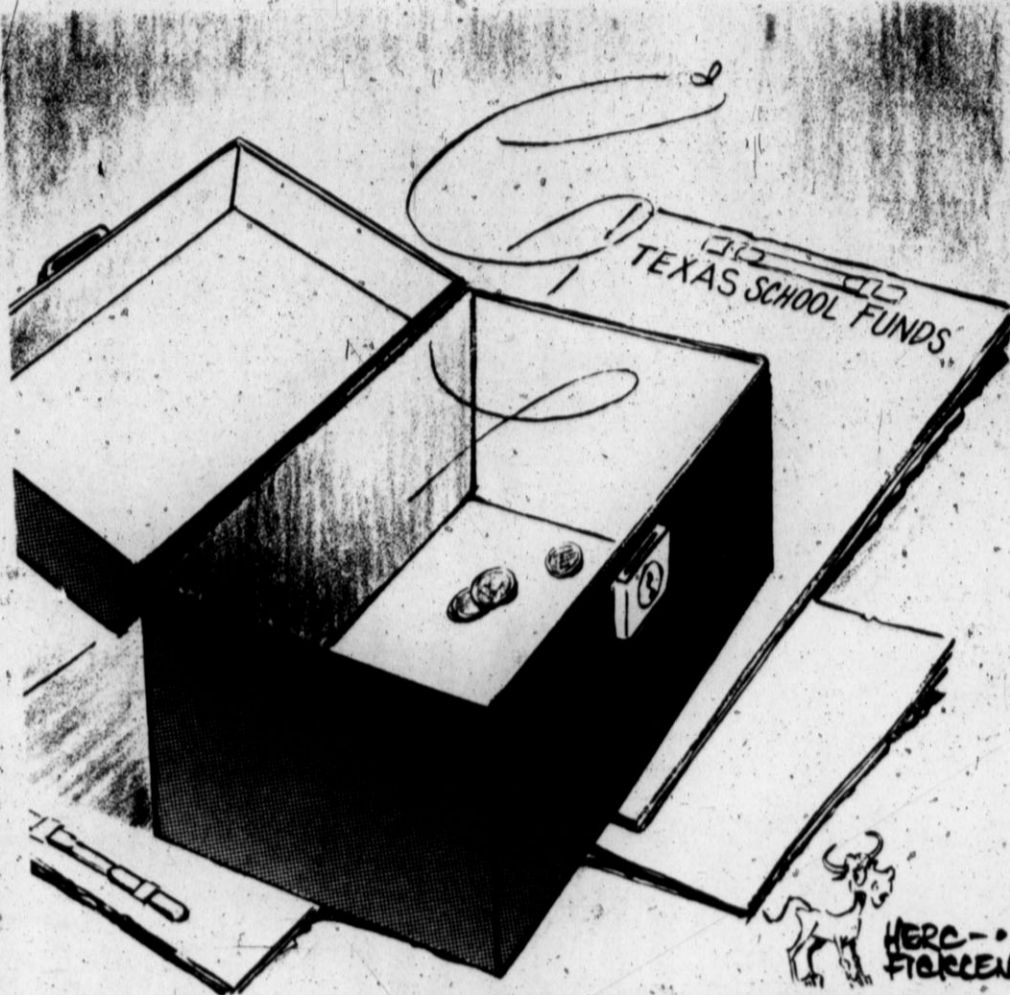

The American farmer is being called on to produce more food, and at the same time not complain if he gets less for it. This odd situation is unique in today's economics as nobody else would respond to such an invitation.

Last year was a bumper wheat year with record yields and record prices. So the wheat farmers were asked to plant more acres and grow more wheat so that the price would go down. This they have done, and it now appears as though prices will go down.

In fact, farm prices are going down on all fronts. A conservative estimate is that the American farmer will get at least 20 per cent less than he did last year and maybe more of a cut than that. Nobody else in the whole United States is asked to take such a pay cut.

The U.S. will be able to use food power as a diplomatic tool only if American farmers keep on producing enough food to keep prices low at home and still have enough surplus to send overseas. It appears that the U.S. Farmer is being asked to shoulder quite a burden. And he isn't even rewarded with a decent price for the food he grows. Something has to be out of joint in a system like this.

The Perryton Herald

Talk of Texas

BY JACK MAGUIRE

DOWN MEMORY LANE — Wonder how many children today would recognize a clay bowler, a peewee, a crockie or a glassie if they saw one?

Anybody who was in grammar school as long as 30 years ago will recognize these as marbles — once the number one treasure of every boy. More boys lined up with taw in thumb than ever played baseball or football in those days.

Drawing a circle and pitting the accuracy of one's favorite taw against all comers was more than a game — it was a rite of manhood. The rules were simple: Marbles inside the circle had to be knocked out and over the line by the momentum of a well aimed taw (usually a cat's eye agate). Peewees usually were put up as loot because they were made of clay and could be had for a nickle a dozen.

The serious player might even be willing to risk his favorite china marble if he felt lucky. For the most part, however, favorites like tourmaline agates or laticino's (handmade of glass) were kept as precious possessions in a convenient cigar box. Those that one could afford to lose (peewees and bennies) were carried in a Bull Durham sack for easy access. The taw, the trusty shooter used to knock the lesser marbles out of the ring, usually was carried in a special place in a trouser's pocket.

Playing marbles as a pastime began to disappear from the American scene about the time World War II began. It's too bad.

GHOST STORY — Mission San Joe, most beautiful of all the churches built by the Spanish

around San Antonio, also is the only one where ghosts are said to walk.

Legend has it that on still days in the sanctuary one can hear the penance prayers of Indians long dead — Indians who had refused to be converted by the missionaries.

FAMILY REUNION — Descendants of Quannah Parker, last and greatest war chief of the Comanches, will honor his memory July 21. They will gather on the old reservation near Lawton, Okla., for a reunion of the Parker family.

Quannah Parker was the son of a Comanche chief, Petas Noconas, and Cynthia Ann Parker. Cynthia Ann was kidnapped by the tribe in 1836 during a raid on her family's compound, Fort Parker, in present-day Limestone County. She lived with the Indians for 24 years before she was "rescued" and returned to the white man's civilization.

Descendants of the great chief (he had seven wives) pride themselves on both their Indian and white heritage. They have been getting together for a family reunion for many years, alternating between the old Comanche Reservation in Oklahoma and the restored Fort Parker, near Groesbeck.

THE CHANGING TIMES — Today electric companies try to sell their customers as much power as they'll buy, but it wasn't always so.

When Bay City Ice, Light and Power Co. was organized in 1903, its customers were limited to one light (comparable to a 25-watt bulb) per room. For this service, available only from sundown to midnight, the customer paid a flat rate of \$1.50 per light per month.

From The Brand Files

50 YEARS AGO

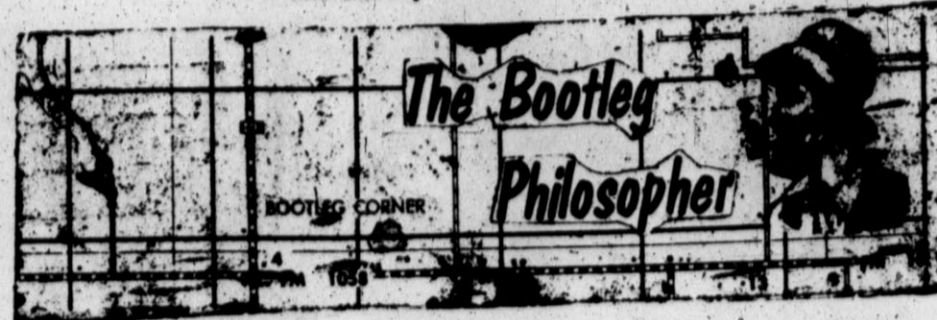

In all probability three additional mail routes will be established from Hereford post office soon, and the residents of the county districts accord the privilege of receiving their mail regularly and promptly without having to travel all the way to town to secure it...a grand total of 3087 Jack Rabbits have been sent to the Rabbits Happy Grazing Grounds within the past few days by determined hunters of Deaf Smith county, following the offering of a bonus of ten cents per head for them by the commissioners court.

35 YEARS AGO

Further improvements have been made at the Star Theatre. This time new carpets have been placed on the aisles. They are really quite lovely, and lots of fun to walk on...Several citizens have commented on the fact that the street lights in Hereford, especially those on East Third street, have been burning during the day lately. Most of them just wonder why, but some of them figure that such a practice is an unnecessary expenditure, particularly from the standpoint of the taxpayers.

20 YEARS AGO

Hereford Jaycees have joined with other Jaycee organizations over the state in beginning a collection of food, clothing and other sorely needed times which can be gathered and sent to Laredo for distribution to the homeless residents of flood-swept towns of the south side of the Rio Grande, according to Dennis Lomas...During the last five years 106.50 miles of roads have been built in Deaf Smith County. It was Texas' greatest period of road construction history, Highway Department files show.

Editor's note: The Bootleg Philosopher on his chickweed grass farm on Bootleg corner claims he has noticed something about the economy others have overlooked.

Dear editor:

Because economists are too busy trying to decide whether or not we're in a recession — as I figure it, economists are, two lengths behind doctors; doctors can recognize when a man has a bad cold, they just can't cure it, whereas economists not only can't cure a recession, they can't even agree on whether we've got one — at any rate because they're so busy they've overlooked a couple of vital things about the economy.

I noticed them just yesterday. They are: interest rates are now equal to the inflation rate.

That's right. Inflation is now pegged at 12 per cent a year and big city bank interest rates are now at 12 per cent.

I DON'T know how the economists missed this, but I have been figuring, if the two keep abreast of each other for a few more years, they will of course reach 100 per cent.

All right, say you need to borrow \$1,000. You borrow it at one window and then if you're smart you'll race to another window and pay it back before the interest eats you up.

That takes care of 100 per cent interests rates, but about how to handle inflation, I'm not very clear. The trouble is, not everybody believes in inflation.

YOU TAKE a rancher. He goes into a cafe and the waitress tells him coffee has gone up to 20 cents a cup on account of inflation and he believes her. He hands over 20 cents. But when he takes some steers to market and says they're worth 40 cents a pound, nobody believes him.

When one part of the population believes in inflation and another part doesn't you've got a complex situation on your hands.

It seems to me the rate of inflation ought to be set by Congress and it ought to be made to apply to everybody. How Long could the game of football last with one end of ball inflated and the other end flat?

Yours faithfully,
J.A.

Defining Productivity

Polls indicate that many Americans are turned off by talk of improving our productivity as a nation. They have been misled into believing that productivity is a code word for a speed-up or other means of getting more work out of them.

Actually, productivity simply means the value of an hour's productive effort. Or as Henry Ford has said: "Productivity is the measure not of how hard we work but of how well we use our intelligence, our imagination, and our capital."

Dr. Carl H. Madden, chief economist of the Chamber of Commerce of the United States, recently observed: "Increased productivity is the only source of higher real incomes. We cannot long consume more than we produce."

Over the years productivity has grown an average of 2.3 per cent per year. But the 5.8 per cent drop in the nation's gross national product the first quarter of 1974 should serve as a warning to all Americans.

It is important to remember that in a time of soaring inflation the nation cannot afford slumping productivity. It is important also to remember that productivity gains come not only from the work force but in large part from capital investment in education and training, in research and development, in health and safety and in labor mobility.

Quality of output also improves productivity. That's where those of us who work can make our contribution. Work smarter, not harder.

PROLIFERATION of the federal bureaucracy is hardly news any longer. In some quarters you will even find those who attempt to defend tripling of government payrolls (federal, state and local) in the 1960s on the premise of increased responsibility.

What is news — bad news for taxpayers — is the fact in peacetime we have a proliferation of generals and admirals.

An economist for the Chamber of Commerce of the United States, poring over budget data, found there are about seven times as many generals or admirals today per soldier or sailor as there were 30 years ago.

As a matter of fact, we have more admirals or generals today with a peacetime force of 2.2 million men and women in uniform than we had in World War II with 12.2 million in uniform.

Sort of keeps everyone busy. Saluting.

Energy Act Casts Ominous Shadow

The petroleum deficiency has brought more than a gasoline shortage to the U.S. It has introduced the basic issue of whether the competitive, free enterprise system is to endure.

Political vilification of the oil industry has been logically followed by proposals to put the government in the oil business via a measure called the Consumer Energy Act of 1974.

A top official of the American Petroleum Institute calls the Act, "a stacked deck in a deadly serious game that may well determine the fate of the competitive enterprise system in America." The proposal, which is under consideration by Congress, would, among other things, establish a Federal Oil and Gas Corporation (FOGCO) and extend Federal Power Commission control to intrastate sales of natural gas and all sales of oil and oil products.

The industry executive, in a letter to the nation's 500 leading corporations declared, "I am alarmed by this specious proposal out of concern for the future of the country as well as out of concern for... the petroleum industry."

"It seems to me that adoption of the

principles on which this proposed act is based would establish a precedent leading to the nationalization of every major industry in America, and long before the last industry fell the American people would find their traditional freedoms no more than hollow slogans."

It should be noted that the writer of this disturbing message to colleagues of the business world, speaks first of his concern as a citizen for the future of his country. The fact that, as chairman of an oil company, he also speaks authoritatively for the oil industry should lend credence to his words—words that deserve consideration by all citizens.

NEWS VIEWS

Richard Nixon, President, in Moscow:

"The peace we seek to build is one that is far more than simply the end of war."

Wedding Planned

The marriage of Miss Sandra Ann Roberson of Houston, daughter of Mr. and Mrs. Deward Roberson of Hereford, to Steven J. Rudy of Houston is to be solemnized in that city July 27.

Miss Roberson is a teacher in Medical Center at Houston. After she grew up and graduated from high school here, she has earned bachelors and masters degrees from Baylor University. Her fiancé is associated with his father in real estate management in Houston.

The couple plans a visit to Hereford later in the summer and will be honored with a reception in the home of the bride's parents. Mr. and Mrs. Roberson plan to be guests at the wedding.

DISMISSALS

Pablo Rangel, Shyla Gerk, Robert Blackwell, Mrs. Reiley Luckie, Fain Cesar, Mrs. Gertrude Pfobasco, Wednesday.
Mrs. Carl Skaggs, Mrs. Robert Elliott, Mrs. L.C. Whatley, Emmett Johnson, Earl

Mrs. Eugene Warrick
...nee Lanea Webb of Amarillo

An afternoon home wedding for Miss Lanea Raye Webb of Amarillo and Billy Eugene Warrick of Ford Community was conducted Friday in the residence of her parents, Mr. and Mrs. Raymond Webb of 3501 Rutson, Amarillo. The bridegroom is the son of Mr. and Mrs. Billy C. Warrick, Route 4.

The Rev. Jesse J. Nave of First Baptist Church at Petersburg directed the exchange of marriage vows as the couple stood before a large bouquet of pink carnations, yellow pompons and babybreath flanked by paired candelabra.

Miss Melinda Bills of Vega was maid of honor and Andy Wilhelm of Umbarger best man. Also attending the bride was Miss Donna Milhoam of Munday while the bridegroom's

brother, Raymond Warrick, was groomsmen.

Jed Welch, brother of the bride, and Kenneth Adams of Hereford acted as ushers. The bride's cousins, Arnold and Arden Beagle of Perryton, lighted candles before the ceremony.

Mrs. Roddy G. Allred of Wildorado, vocal soloist, sang On Top Of The World and With This Ring, accompanied by Mrs. Jimmy Newton, organist.

From the notched high collar of the bride's peau de soie gown, Chantilly lace was applied in a panel to the carpet length hemline. Lace motifs circled the empire waist and ornamented wide cuffs on the full sleeves. A lace caplet held her long veil which was bordered with lace scallops.

She carried a cascade of yellow roses, white carnations and babybreath.

Her attendants' dresses were cut on princess lines, of sheer

print with daisy pattern in pink and yellow. Their flowers, in the same colors, were carried in baskets.

Before the couple left on a Colorado honeymoon there was a reception in the home. Punch was served with the three-tiered wedding cake, which was decorated with pastel pink and yellow sugar flowers and topped with bride-and-groom figurines.

Mrs. Warrick is a graduate of Vega High School and plans to attend West Texas State University in the fall with Warrick, a senior student there. He completed high school studies in Hereford.

Guests coming from other cities to the wedding included Mr. and Mrs. J.C. Miller, Kate James and Emmie Shamin of Memphis; Mr. and Mrs. Doyle Souder of Sanford, Mr. and Mrs. Arnold Beagle of Perryton, the Rev. and Mrs. Ray Milhoam of Munday.

Chapeau de Paille meaning "Straw Hat" is the title of a Ruben's painting, which shows no straw hat!

Shower Honors Marsha Rowe

Marsha Rowe, teacher at Tierra Blanca Elementary School, and bride-elect of Wayne Winget, was honored with a bridal shower Saturday morning in the home of Mrs. Bill Gentry of 547 Willow Lane. Miss Rowe and Winget will marry August 3.

Wearing party hostess pajamas and white corsages, Miss Rowe and her fiancé's mother, Mrs. Richard Winget, greeted guests.

Janice Newsom invited guests to sign the registry book. Refreshments of fresh fruit,

homemade cinnamon rolls and coffee were served by Orinda Eikman and Debra Butler from the table centered with an arrangement of red roses.

Hostesses included Mmes. Tommy Braddy, S.L. Garrison, Earl Stagner, Don T. Martin, R.N. Yarbro, Art Stoy, Ed Wilson Jr., Elmer Kimball, Kelly Coplin.

Also Mmes. Bert Brown, Joel Hodges, Wayne Phillips, J.D. Gilbert Jr., Bob Poston, Ted Panciera, Bill Angel, L.B. Russell, Spicer Gripp and Norman Gray.

Sawyer, Mrs. Charles Pledge, Mrs. Guadalupe Garcia, Mrs. Nelson Pearce, Thursday.

Mrs. Luisa Luna, James Tice, Mrs. Laura Gibson, Mrs. Roger Brumley, Mrs. Mark Benefield, Mrs. Robert Jackson, Mrs. R.W. Thuett, Mrs. Wayne Swopes, Friday.

NO HEALTH BILL

Senator Edward M. Kennedy (D-Mass) reports that it is unlikely that Congress will pass a national health insurance bill this year. The President had termed national health insurance his top domestic priority this year.

ON WHEAT QUOTAS

The White House has released an order by President Nixon suspending U.S. wheat import quotas indefinitely.

Miss Paula Herring of Sentinel, Okla., is the fiancée of Kim Gripp, son of Mr. and Mrs. Spicer Gripp, south of Hereford. Both students in Southwestern State College at Weatherford, Oklahoma, the couple plans to marry Sept. 7 in the Baptist Church at Sentinel.

Camp Head Thanks Lions

Gene Brock, Camp Wigwam director of Hereford, expressed his presentation to Hereford Lions Club for its support of the camp Wednesday at the weekly Lions luncheon.

Brock briefly outlined the successful summer camp where 99 mentally retarded children were hosted. He presented a film, shown to the summer campers, which he thought Lions would also enjoy. It was a movie on the highlights of the Dallas Cowboys' 1973 football season.

Nolan Grady made a special announcement on the club's sponsorship of the "Tommy Overstreet" show to be held here Aug. 2 in the Bull Barn. Lions will not be selling tickets, but will have coupons for persons to send in the request tickets. Reserved seats are \$4, \$5 and \$6 and general admission tickets are priced at \$3. Proceeds of the show will go to Girlstown, U.S.A.

Three students from Girlstown were guests at the meeting here Wednesday, and the superintendent of Girlstown invited Lions to attend a 25th anniversary party Saturday at Whiteface.

A number of guests and visiting Lions were introduced at the meeting.

Henry Kissinger, Secretary of State, on arms talk: "... we will never accept a strategic disadvantage for the United States."

Summer Garden Wedding Unites Hereford Couple

A garden wedding late Friday afternoon was conducted for Miss Lorraine Kay Acton and Jimmy Sandoval, with the Rev. Roger Knapp, minister of First Presbyterian Church, officiating. The setting was the yard at the Bob Spangler home, 300 Sunset.

Orchids and daisies studded green foliage on an arch set between ivy-twined pedestals which held smilax garlands, as a background for the bridal party.

The bride is the daughter of Mr. and Mrs. Bill Acton, 502 East Third, and Sandoval's parents are Mr. and Mrs. Andrew Sandoval of 606 Stanton.

Given in marriage by her father, Miss Acton wore a summer wedding gown of flowered voile, with ruffles forming cap sleeves, narrower ruffles around the wedding ring neckline and a deep yoke on the empire bodice. The floral pattern on the dress was in pink, pastel blue and green.

Her hat was of tuck white organza, wide-brimmed, with pearl trim on the band. She wore a bracelet of white and lavender orchids.

Her sister, Miss Cindy Acton, was maid of honor, Misses Jana Bidwell and Darla Slagle of Amarillo the bridesmaids. Rob Lomas served as best man and

the groomsmen-ushers were Gary Friemel, Dennis Nunley, Kevin Fox and Mike Spangler.

Sisters of the bridegroom, Kim and Angie Sandoval, were flower girls and Steve Spangler carried the rings.

Dresses of the feminine attendants were floorlength, with short flared sleeves. Miss Acton's was lavender and the bridesmaids' leaf green. Daisies in those colors made their nosegays.

Mothers of the bride and bridegroom wore orchid corsages. They greeted guests with the newlywed couple in a reception after the wedding in the Spangler garden.

Miss Shyla Thomas served the bride's cake, two-tiered and iced in white with orchids as decoration, and Miss Lynette Clearman cut the German chocolate cake at the groom's table. Miss Vicki Payne ladled punch and Steve Spangler poured coffee. Miss Patty Ray was at the guest registry.

Mrs. Dennis Lomas and Mrs. Spangler assisted in serving

refreshments. The table was laid with a candlelight cloth and centered with brass candelabra and an arrangement of daisies.

After a trip to Carlsbad Caverns, Mr. and Mrs. Sandoval will be at home at 311 Avenue C. Both have attended Amarillo and Hereford schools.

Now employed at Spanglers Diamonds, she was on the high school tennis team, in DE Club, homemaking projects and was a drill team lieutenant. He was a Key Club member and on the junior varsity football team. He is an employe of Cottingham Bearing Corp.

Community Party Is Fun For Everyone

By Argen Draper
Home Demonstration Agent

Ford Community residents had a good time at their meeting Monday night.

Donald Hicks received very appreciative recognition for a job well-done as Commissioner of Precinct IV. The women gave him a certificate and a cake showing 1955 to 1974. Twenty years service to the community is worthy of note.

The girls style show was a practice session before the County 4-H Dress Revue on Friday. We thought it was a very good opener for the program to have the novelty style show in the beginning to get everyone to laughing and have fun.

The girls modeling were Barbara Kendrick, Deanna Stokesberry, Brenda Glover, Juanita Kendrick, Judy Flores, Brenda Strafuss, Cindy Stokesberry, and Melody Kendrick.

An added attraction was the little sisters modeling. The small fry were Kelly Stokesberry, Derdia Check, Sandra Strafuss, Lavenda Check, Louann Flores and Corlinda Bromman.

We thought how good it is to have all ages together and the memories these young people will have of Ford Community. We can almost hear some of them saying, "We had a community party. There were all kinds of ice cream and all kinds of cake, good music and it RAINED."

HAVE you noticed? The cantaloupes are better than ever this week. Here's some information on choosing and using this popular fruit. Look for cantaloupes with a coarse, corky outstanding netting on the rind, and a yellow cast under the netting.

A fragrant, sweet odor indicates ripeness. A good melon will have fine-textured, orange flesh and a sweet flavor. For proper home care, wrap ripe cantaloupes in waxed paper or plastic bags before storing them in the refrigerator. This prevents the odor from mingling with other foods. However, under-ripe can-

taloupes should be ripened at room temperature.

I LIKE to think about the man's comment after he watched a woman shopper pick up every head of lettuce before selecting one.

When she finally put the lettuce in the basket, the man said, "Pardon me, lady, would you show me the second best?"

WHY waste time for removing eggs from their carton to store them in the refrigerator egg tray? Leave them in the covered egg carton, suggests the U.S. Department of Agriculture.

The covered carton helps maintain their quality. Eggs in an uncovered container will lose moisture and the white will become thin and watery.

DON'T let the fresh vegetable

season slip by this summer without getting your fill of delicious sweet corn-on-the-cob.

Since the days of the pilgrims, corn-on-the-cob, boiled, steamed or roasted, has been a popular American favorite.

The U.S. Department of Agriculture says the fresh sweet corn is available practically every month of the year but is most plentiful from early June until mid-September.

USDA's standards of quality and its voluntary inspection service help wholesale buyers and sellers define the quality of fresh corn. There are three grades: U.S. Fancy, U.S. 1, U.S. 2.

Corn sold from a supermarket bin is not usually labeled by grade, but the consumer can easily check the quality for himself.

LOOK FOR ears that are well

Mr. and Mrs. Roger Brumley are the parents of a son, Michael Jason, born July 9. He weighed 8 lbs. 5 oz.
Mr. and Mrs. Delbert Wayne Swopes are the parents of a son, Jared Wayne, born July 9. He weighed 6 lbs. 12 oz.
Mr. and Mrs. John Louis Torres are the parents of a daughter, Monica Jean, born

July 11. She weighed 7 lbs. 1 oz.
Mr. and Mrs. Pablo Garza are the parents of a daughter, Noemi Pinon, born July 11. She weighed 7 lbs.
Mr. and Mrs. Raul Ramirez Saldana Jr. are the parents of a daughter, Michelle Lyn, born July 11. She weighed 6 lbs. 14 oz.
Mr. and Mrs. Joaquin

covered with bright, plump kernels. Husks should be fresh and green. Silk-ends should be free from decay or worm injury and stems should not be discolored or dried.

Avoid ears with underdeveloped kernels as well as very large over-mature kernels. Also avoid kernels with depressed areas on the outer surface. Avoid yellowed, wilted, or dried husks and stems.

Because modern commercial practice calls for prompt cooling of fresh corn after it's harvested, corn-on-the-cob nowadays is better than ever.

When you bring it home from the store, place it in the refrigerator without delay. Then cook and eat it as soon as possible — the sooner the better.

If corn is held too long, or at too high a temperature, the sugar in the kernels start to turn

Nazareth..Small Community Growing With Pride

BY LAVON NIEMAN

From reports we read from across the nation, many of our smaller communities are slowly dying. But this is not true for Nazareth, one of the small communities in the Hereford area. There the residents don't believe that community pride comes from population, but from people.

Not only is Nazareth not dying, it is progressing. Just

last year on April 6 it was incorporated as a state-identified city. When the folk there elected to be incorporated, they also elected Greg Hoelting as mayor. Commissioners elected were Joe Drerup and Urban Ball. During the last election one half of the 240 registered voters got out to the polls and elected Ball as their mayor and Joe Lange and Gregory Schacher as the two city commissioners.

Mayor Ball says they now have 106 water meters. Nazareth obtained its water system in 1961 and sewage system in 1965. Deaf Smith Electric Cooperative brought electric power into Nazareth and the area around it in the fall of 1937. The REC still is the city's source of supply and the residents there are quick to relate their appreciation for it. Raymond Annen, a longtime director of Deaf Smith REC,

and the late Mr. George Schacher and Mr. Joe Warren were instrumental in getting the electric power to Nazareth.

The people there are proud of their fire station which was built about a year ago. Fire Chief Gene Kern is assisted by 20 volunteers and says they average two or three fires a month. "Castro County has been good to us by supplying us recently with a 1963 GMC fire truck and a 250-gallon mini-pumper valued at \$16,000", Kern said. "We also receive help from Dimmitt, Happy and Hart when needed during a fire," he related.

Nazareth is a Catholic community with mostly German and Dutch residing there. There is one church, the Third Holy Family Church, with Father Stanley serving as priest for the congregation. Next to the church is a rectory and youth hall.

Back in 1903, the priest of the Catholic Church, Joseph Reisdorff, started an advertising campaign to encourage pioneers to settle there. He began a series of advertisements in the Southern Messenger, which at that time was the only newspaper being published in the English language in Texas.

Following is part of the advertisement he had printed:

"Nazareth is situated on the plains of N.W. Texas in Castro County. Since June, 1902, Catholics from various parts of the United States have purchased over 17,000 acres of fertile and beautiful land in this part of Texas. This new Catholic colony is intended for German farmers, yet it will, according to appearance, be a mixed congregation, since there are several English-speaking families here, which were here before the colony was started. This is the best country for cattle and sheep raising that can be found in this state. Land is yet very cheap, from \$3.50 to \$5.00 per acre. Water is in abundance in the ground at a depth of from 25 to 100 feet. The water is said to be chemically pure."

The usual source of supplies

for early Nazareth was Hereford. A trip here often consumed three days time, one to go, one to do the buying, and one to return. Most of the families made one or two trips a month for supplies.

The earliest settlers had no way of knowing how far it was to town. Their method of calculating the distance was to tie a rope around the wheel of the wagon, count the number of times it went around in a minute, and multiply the distance by the length of time it took to make the trip.

There is mostly milo, wheat, corn and cotton grown around Nazareth and there are three dairies. During the early days, grain was marketed in Hereford, but for small produce, such as eggs, butter and vegetables, there was practically no market.

It is recorded in the history of Nazareth, that cattle and sheep were raised and wool was sold. The article reveals that Ber Huseman recalled an incident which occurred soon after he arrived on the plains. His herd of 1,800 sheep had to be sheared, but the shearers refused to do the work until they were paid.

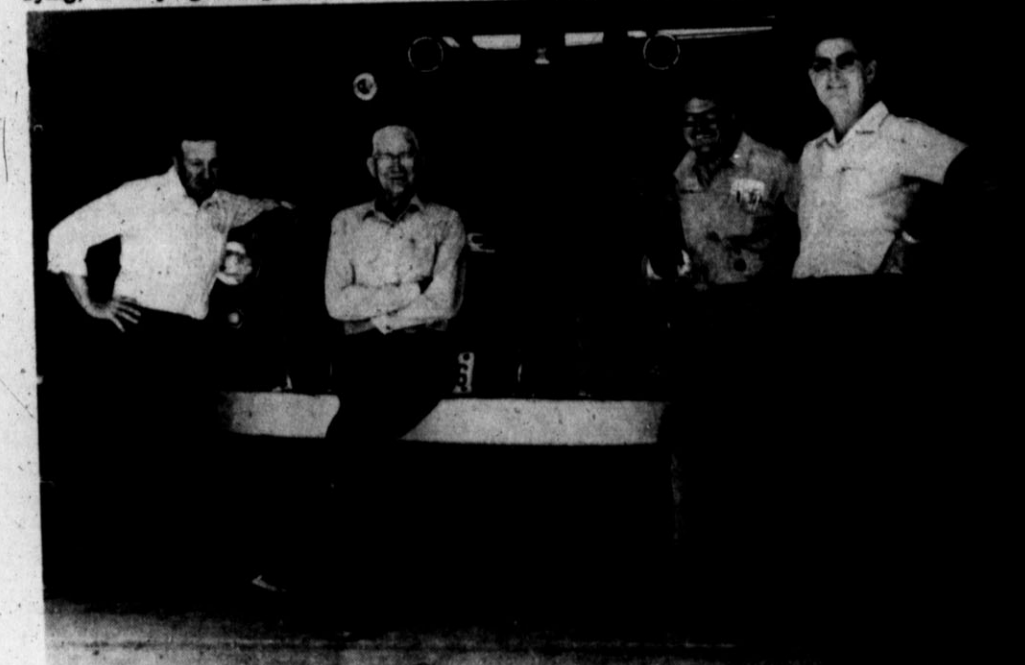

Huseman's balance at his bank in Hereford was \$26. He had to add to his borrowings to pay the shearers, but discovered that the bank would not lend him more money. As he stood in the street in despair, an official of the other bank in the town, approached him, asked him if he wanted money, and offered to lend him as much as he needed. He paid the shearers 10 cents for bucks and 5 cents for the rest of the flock, and sold the wool for \$1,212.12.

Schools in Nazareth were started in the church building. In 1904 or 1905, a separate school building was erected with other parochial schools erected over the years. The present school building has been added on to, but was first built in 1939 with the aid of the Public Works Administration. The building, when erected contained six classrooms, a library, office, and auditorium-gymnasium, cost \$35,000.

Nazareth's Only Church

Catholic pioneers first settled Nazareth and therefore the community is still composed of many German and Dutch families. The community has only one church—the Third Holy Family Church, which is pictured here. Located next to the church is the rectory and youth hall.

Community Leaders

City officials are shown visiting with Fire Chief Gene Kern at Nazareth's fire station. Discussing community business are, left to right: City commissioners Joe Lange and Gregory Schacher, Kern, and Mayor Urban Ball.

Communities Slate Reunions

Summer reunions for residents and ex-residents of two Deaf Smith County communities are announced for this month.

Slavik said the schools have progressed over the years. When he began his tenure as superintendent in 1956 there were 175 students enrolled. When he retired from being superintendent and became a classroom teacher two years ago, he said there were 400 students and 19 teachers. In 1956 there were nine teachers. Seven when he went there are still teaching in the system, he said.

The school now offers football, basketball, tennis, track, homemaking, and vocational agriculture—which weren't available when Slavik took over as superintendent. "There were even no school buses back then," he said.

"Government surplus carried us for years and we strived to

keep the tax rate down, which we did", Slavik said. "We now have 11-man football, but I can remember when we had 6-man football and won bi-district in 1963. You know, it's amazing", Slavik said, "but every quarterback that's come out of Nazareth ended up getting a college degree."

Nazareth held its first annual German Festival last year and plans to have another one in August in conjunction with the Castro County Activities Week. The festival will be held in the town's Community Hall and everyone in the area is invited to attend and eat German sausage with all the trimmings.

both gatherings which bring former residents back for visits each year. Progressive community will have its annual reunion July 21 in Hereford Community Center and Westway reunion is set for July 28 at the community building in that neighborhood west of the city.

At both, most of the time will be allowed for informal talk and renewing of old acquaintances. Basket dinner will be served at noon, special visitors and oldest residents will be recognized, brief memorial services held and group singing will recall familiar songs of past years.

This will be the 15th annual reunion for the folk who made up the Progressive neighborhood around the school which was located northeast of Hereford. It is to begin at 10:30 a.m. and a program is planned after noon dinner. John Hunter is president this year of the reunion association, and Betty Mercer is secretary.

Scrapbooks and photographs dating back many years will be on display at Westway Community Building, the former school building on Harrison Highway, for the reunion there. Mrs. Merlin Kaul, historian, will have these ready to show.

Bussy Kaul is the association president and Mrs. Forrest Ricketts secretary of the group making reunion plans. Oldest, youngest, longest resident in the area and person traveling farthest for the reunion will be recognized by annual custom at this gathering.

Wood-Item use is seen down by 10%.

Miss Pierce Begins Term

Laura Pierce, daughter of Mr. and Mrs. U.V. Pierce of 216 Fir in Hereford, has enrolled for the second summer session at Lubbock Christian College.

Miss Pierce is a 1971 graduate of Hereford High School. At LCC she is a junior liberal arts major.

Fourteen modern, permanent buildings form the heart of LCC's 11-million dollar campus in west Lubbock.

"Cattle tops \$56!"

Six months from now, live cattle will be selling for \$ per hundred pounds; feeder cattle for \$ per hundred pounds

Please fill in the prices in the headline above tear off the headline and clip it to your calendar for that date. If you prove right, you have our heartiest congratulations. If you prove wrong—well it's only a game. Or is it?

If you base buying or selling decisions on your expectations of future cash prices—and you turn out to be wrong—it can be very costly. That's where we come in.

We offer an alternative to people and companies in the industry who admit that their powers of prophecy are limited. It's called contracting. It means you can contract to buy or sell both Fats & Feeder Cattle in advance of your needs.

If you contract with Heinoold Cattle Markets, you don't have to wonder about what these cattle will be selling for in six months. Then you can devote all of your time to your business. We think you're better at that than at fortune telling.

For more contracting information, send us the coupon below.

HEINOOLD CATTLE MARKETS VOGEL & KENDALL CATTLE CO. REP. 135 East 3rd. Hereford, Texas, 79045. Gentlemen: Phone 364-6121

Please send me contracting information

Name _____ Address _____ City _____ State _____ Zip _____

About the time we were running ads like the above, on August 14, 1973, choice slaughter steers sold for \$56.94 at Omaha. Now they're around \$41. Clearly, if a cattle producer had contracted then he would be a lot better off now.

That, in a nutshell, is the whole point of contracting—to prevent loss. We readily admit that if prices had gone the other way, a producer who contracted would have not lost \$150 to \$250 per head. But presumably he would have still made a profit. And reasonable profits—year-in and year-out, are still the best way to run a business—and stay in business.

On the Heinoold Cattle contracts you can contract fat cattle & feeder cattle. Six months from now, you may be glad you did. For information, send the coupon below.

Ranchers Glad Over Herbicide Approval

The Environmental Protection Agency's decision to cancel 2,4,5-T hearings is good news to local ranchers, John A. Matthews, chairman of the Texas Brush Control and Range Improvement Committee, said.

"We're relieved to see the EPA agree there is no case against 2,4,5-T a position we've held all along," added Matthews, whose organization is supported by Texas ranchers who use 2,4,5-T and other herbicides to control brush that limits grass growth on Texas ranges.

Matthews was one of numerous witnesses scheduled to appear at the hearing, now cancelled. The TBCRI Committee he heads has actively opposed any move to cancel use of 2,4,5-T, arguing that its removal would significantly reduce the number of livestock produced in Texas where brush has invaded 88 million of the state's 107 million acres of rangeland.

Ranchers who have used 2,4,5-T extensively for the last 20 years without observing any adverse affect "on so much as a single head" of their range animals joined others in challenging the EPA to present indisputable scientific evidence of adverse effects before attempting to restrict use of 2,4,5-T, Matthews said.

Matthews noted that the hearing was called as an aftermath of studies that showed 2,4,5-T and its contaminant could cause birth defects when fed to pregnant mice. A fact overlooked was that birth defects were caused only in small numbers of mice and then

only when mice were given "Massive doses—thousands of times greater than an animal could get on a pasture sprayed at recommended rates," he declared.

Moreover, Matthews said, the sample used in the tests was manufactured several years ago and contained a much higher incidence of the dioxin contaminant than is permitted under today's rigid manufacturing standards.

"This hardly amounted to a scientific case against proper use of the material," Matthews added, "and it's encouraging to see the EPA is in apparent agreement."

Watch Out For Peddlers, White Says

AUSTIN—Spring is here and so is the likelihood of fly-by-night peddlers selling plants and cure-alls for sickly lawns and gardens.

Agriculture Commissioner John C. White has issued a warning on such door-to-door sales, pointing out that anyone who sells nursery or florist plants must have a certification of inspection from the Texas Department of Agriculture (TDA).

"Though most nursery and lawn and garden people are reputable dealers, there are those in the business strictly for what they can get," White said.

By The Garden Gate With Glad

By Mrs. Art Manjeot

Yesterday morning was a delightful time to be in the garden. Weather was nice, flowers in bloom and I had a good garden companion. The mockingbird was atop the light pole and as soon as I started working he started his serenade.

I whistled along with him, and as I did he would perform with extra didoes. When I moved into the front yard to work with the roses, he followed along perching on top of the neighbors' antenna.

As noon approached it was time to quit so I picked some daisies, roses and hemerocallis to make arrangements and he flew away.

While roses are blooming it is a good time to begin plans for the new ones to plant next season. The list of new All-America Roses for 1975 is now out.

For 35 years tests and selections have been made of the highest rated roses. There are three winners for 1975. The honors go to a hybrid tea (superb for cutting) a floribunda (great for landscaping and garden color, also an abundance of flowers) and a grandiflora (offering a combination of cut flowers, also excellent for landscaping effect).

Oregon gold, the hybrid tea, comes from the rose workshops of R.M. Tantau in Germany, a source of many wonderful roses of the past. Yellow roses of high quality are scarce, so this big full, fragrant new one with long lasting qualities should be especially welcome.

It produces classic five-inch blooms on 8 to 14 inch stems. This makes them well qualified for the arranger as well as the horticulturist. The bush grows to a height of 3 to 4 feet.

With all the beauty comes the thorns, which are many on the long strong stems. Some of the ancestors of Oregon gold are of the best, they are Tropicana and Peace, and this is very, very good.

The selected floribunda is Rose Parade, a pleasing medley of coral pink and peach tones in well-formed 2 1/2 inch flowers. The plants reach a medium height and bear lots of lovely flowers all season.

The bushy habit suits it for both mass plantings and individual specimen use. Flowers are very fragrant, and it will be very popular because of its continuous blooms. Benjamin Williams of Maryland was the hybridizer of Rose Parade. I predict this will become a great favorite.

Arizona is the grandiflora. Color—an outstanding blend of bronze and copper with red and yellow tints—is one of its chief attractions. The light tea fragrance and shapeliness of the flower form are other attributes.

Plants are vigorous, with considerable resistance to mildew and blackspot (this will be a very strong point in its selling value). The flowering nature of the grandifloras is that they send up blooms in candelabra effect. Those who have grown Queen Elizabeth will know this to be one of their assets.

Grandifloras bloom from early spring until frost. Blooms change in color as they age but remain very attractive until petals drop.

Open flowers will measure 3 1/2 inches in diameter. The creator of Arizona is Ollie Weeks of Ontario, Calif. and it is his third AARS award in as many years.

The people of Arizona are thrilled over the Arizona. State officials have already planted Arizona in the state house garden at Phoenix. The blend of copper and bronze tones for which the Southwest is famous will make it a great favorite.

All of these will be ready for distribution in 1975. Am now planning to prepare a space for Rose Parade (The floribunda). The colors will harmonize well with Chicago Peace (a hybrid tea) and other blends.

The American Rose Society and other garden magazines, caution gardeners on their care of roses. Be sure and water them systematically and do not let them dry out. Water is most important to roses. If you have planted new ones, they need extra care.

I have learned to place the water hose (without nozzle) pressed firmly on the top soil. Turn the water on full force and hold the hose securely. The water will force itself along with air, to the root system of the rose. This is needed in all watering, it must reach the root system to give the aid so necessary to the growth of plants, trees and grass.

If you have an old rose which you are thinking about digging up, don't. Instead save it. Shape it, then cover the old root which is now perhaps on top of the soil, with good humus soil, add a cup of Epsom salts to the soil, and water it slowly.

Mrs. Ray Johnson who is a good rosarian, told me that she had saved many of her roses in this way. Mrs. McCullough also uses Epsom salts for her roses. I am going to treat my old ones, and also those which are in the memorial rose garden at HHS.

Keep roses well groomed, remove faded blossoms, and while cutting roses remember you can prune as you cut to shape the bush so that it will be more attractive and flower better.

During these extreme hot dry days, use the nozzle which produces a misty spray on the roses, wash them carefully (early morning) also use the spray on other plants and shrubs to cleanse them of accumulated dust and residue. Remember plants breathe through their foliage, therefore should be kept clean.

If you missed the opening of the Hereford Garden Center, stop by when you see others in the garden. Temporary name plates have been placed. There is a good display of growing ground covers, which are adaptable to our area, also evergreens.

The Johnson Growers displayed an excellent selection of hanging baskets. They were hung on an iron implement which was made of farm (cast off) materials by Norman Brown.

Other baskets were used in the building and in the trees. Old, tea-kettles were used as containers for some of these planting materials were adaptable to the outside weather in our locale.

Hanging baskets are very popular for gardens, patios and inside rooms. They are fun to plant and a joy to the grower.

President Proclaims Farm Safety Week

President Richard M. Nixon has proclaimed that July 25-31 will be dedicated to the observance of National Farm Safety Week. This marks the 31st consecutive year in which this annual national safety activity co-sponsored by the National Safety Council (NSC) and the U.S. Department of Agriculture (USDA) has been observed.

Farm Safety Week was initiated during World War II to attack accident losses that were impairing crucial agricultural production. Thus, the two-fold purpose of Farm safety week is to call attention to major accident problems that drain human and economic resources in agricultural production, and to suggest preventive measures which can be applied to reduce these losses.

Accidents claimed the lives of about 6,000 farm and ranch residents last year. Approximately half of these were victims of motor-vehicle mishaps. Another one-fourth were accounted for in accidental agricultural work deaths. About 500,000 farm residents suffered disabling injuries last year.

The cost of these accidents, including farm fires, totaled \$2.75 billion in 1973—losses that farm and ranch people can ill-afford.

About one-fourth of all work-related injuries reported in a recent NSC ten-state farm accident survey were attributed to falls. Work falls often occur in the use of farm equipment—especially tractors, wagons, and combines. But not all falls are work-related. Many additional falls occur right around the house and yard—on ladders, down stairs, on slippery surfaces, and over hidden obstacles.

Watts To Speak

Curtis Watts of Amarillo, representative of the Social Security office there, will be guest speaker at the regular monthly meeting of the Magic Triangle Chapter of the National Association of Retired Federal Employees.

The speaker will be heard during the business meeting at 4 p.m. in the Pioneer Natural Gas Flame Room on Tuesday.

Members, their spouses and others interested in the organization are invited to hear the lecture and to participate in a question and answer session on matters relating to Social Security and retirement, according to Elmer Patterson, president of the local chapter.

Organized last year, the chapter now has 17 active members.

At the conclusion of the afternoon's program, all are invited to enjoy a pot luck dinner following immediately in the Flame Room.

Small Boy: A restless noise with dirt on it.

Indemnity Approved For Brucellosis Reactors

Texas cattlemen with brucellosis reactors in their breeding herds now are eligible to receive federal indemnity payments provided by the U.S. Department of Agriculture (USDA), when infected animals are marketed for slaughter.

The indemnity will be paid only on reactors found in complete official herd tests—not in tests at sales yards—points out Dr. E.S. Cox, area director of USDA's Animal and Plant Health Inspection Service (APHIS), Austin.

"The decision to make the payments was made at the request of the Texas Animal Health Commission," to strengthen efforts to eradicate brucellosis," Dr. Cox said.

All states now participate in USDA's brucellosis indemnity program. At present, about 99 per cent of the nation's cattle are free of brucellosis. But the remaining 1 per cent continue to threaten our livestock industry, Dr. Cox points out. A large percentage of the infected herds are in southern and southeastern states.

The indemnity will be paid on reactors bled on or after July 1. The amount will be \$50 on grade cows and \$100 on registered cows and bulls. No indemnity is allowed for grade bulls, steers or spayed heifers.

Reactors will be branded with the letter "B," not less than 2 inches nor more than 3 inches high, on the left jaw. They also must be identified by a metal tag with "reactor number" in the left ear, and must go to slaughter directly after the test.

Indemnity claims will be initiated by state or federal regulatory officials or accredited veterinarians, subject to approval for payment by APHIS Veterinary Services. Instructions for preparing claim forms will be sent to these offices soon.

Dr. Cox suggested that first payments under the indemnity program may be delayed as much as 90 days after claims are received. The time lag should be cut in half, however, as the program becomes established.

Miss Koelzer At Youth Corp Camp

Kathy Koelzer, recent graduate of Hereford High School is up to her elbows in hard work and enjoying every minute of it, according to Texas Parks and Wildlife officials.

The daughter of Mr. and Mrs. Werher Koelzer of 424 Ave J is part of a national pilot program involving high school students in the Youth Conservation Corp. The Corp is a summer work and environmental enrichment program which combines environmental education with useful outdoor projects on public lands involving manual labor.

Miss Koelzer is working at Lake Meredith, one of eight such camps in Texas.

Half of the money for the Lake Somerville projects comes from the federal government by

way of the U.S. Department of Agriculture and the U.S. Department of Interior, and the other half comes from the Texas Parks and Wildlife Department. The Texas program is coordinated through the Governor's Office of Youth Opportunities, Texas Department of Community Affairs.

One camp of 40 boys and another camp of 40 girls at Lake Somerville work at environmentally related projects such as construction of trails, beach stabilization and erosion control, assembly of picnic tables and other state park related projects.

The youths are required to participate in two hours of environmental enrichment training each day in addition to six hours of physical labor

duties. They receive a salary which is adjusted for food allowances and quarters. Food is prepared and managed by a private concessionaire.

The Lake Somerville camps are considered the largest co-educational projects within Texas. The camps have one work leader-counselor for each ten youth. All the counselors have college degrees or have college training with complementary backgrounds ranging from majors in forestry, biology, and wildlife management to degrees in sociology and psychology.

Department officials describe the camp as "reasonably comfortable," but they say living in camp is not like living in a modern home.

There is a certain degree of "roughing it" within the barrack-type buildings. Food, described as "tasty and solid" and "outdoorish and hearty," is quite unlike what the youth are accustomed to at home, which is part of the program.

Department officials say the youngsters have accomplished a tremendous amount of work since the camp started in June. Full term of the camp is eight weeks.

Double Talk

Said one angry twin to the other: "If it wasn't for me you'd have two heads!"
-Gosport, Pensacola.

A Weekly Report Of Agri-Business News

Farm-facts

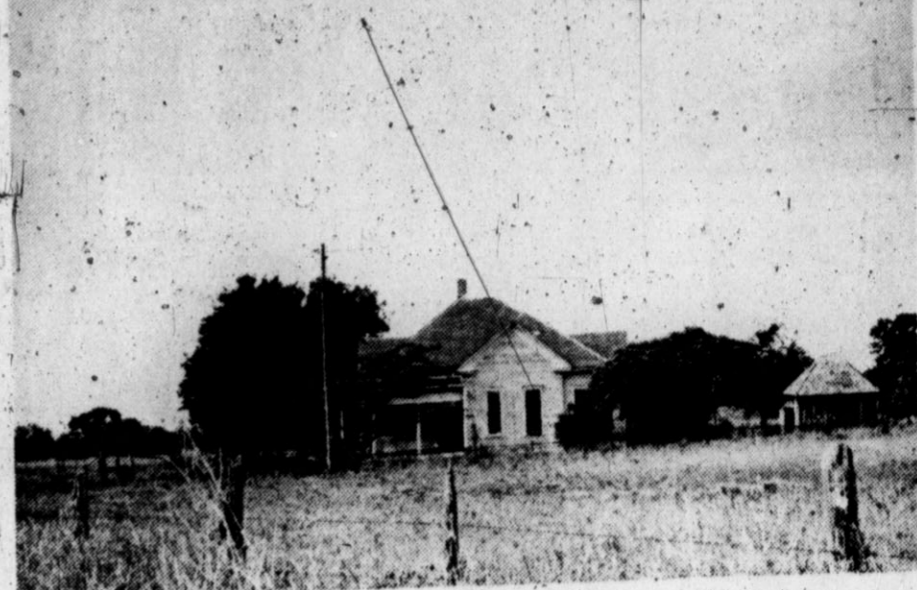

Compiled From Sources
Of The Texas Department of Agriculture
John C. White, Commissioner

THE BOLL WEEVIL was first found in Texas cotton crops in the early 1890s, and it has been found in every cotton crop since that time, despite efforts to eradicate or control it. At one time, the Texas legislature offered \$50,000 for an effective solution to the boll weevil problem, but a committee appointed to judge entries decided that no one who submitted a plan deserved the \$50,000. This year boll weevils have been reported in cotton fields from the Rio Grande Valley to North Central Texas; and heavy damage has been reported in Ellis, Delta, Dallas, Hunt, Collin and Kaufman Counties. Overwintered boll weevil populations have been noted in Fisher, Foard, Knox and Wilbarger Counties. Increased number of cotton fleahoppers also have been noted in all cotton-growing areas of the State. Bollworm damage was noted in the Valley and in Brazos and Burleson Counties.

RICE HARVEST is underway, and Texas Crop and Livestock Reporting Service says that prospects for a good crop are good to excellent. Harvest of most other crops is moving north. Sorghum is ripe for cutting from the Blacklands southward, but there are a few fields yet to be planted farther north. Peanut and soybean planting in the State is almost complete; and a good corn crop is in prospect across the State. Hot temperatures and dry weather is affecting pastures across Texas, and some ranchers in West Texas are reporting having to feed to keep livestock in their present condition. Prospects for third and fourth cuttings of hay have decreased because of the weather.

TEXAS FARMERS and ranchers are much better off than their predecessors in 1910-14, if that is any consolation. Texas Crop and Livestock Reporting Service reports that prices received by farmers and ranchers on June 15 were 448 per cent of the January, 1910-December, 1914 period, sometimes known as the base parity period. However, the all-crops index was three per cent below the month of May, 1974 and 36 per cent above a year ago. Food grain prices were up, and wheat and corn prices showed a slight increase over May prices. Hay prices remained about the same. Livestock and livestock product prices were down 12 per cent from May, 1974 and 28 per cent below a year ago. Livestock prices brought the all-farm products index of prices (crops, livestock, etc.) seven per cent below May prices and two per cent below a year ago.

THERE WERE 362,000 head of cattle and calves sold in Texas auction barns during May, which is 51 per cent below a year ago and 18 per cent below a month ago. May sheep sales were 19 per cent more than in April, reaching a total of 145,000 head. That is 37 per cent below a year ago. A total of 40,000 head of hogs were sold at auction in May, two per cent below the same time in 1973 and seven per cent below April, 1974. The number of hogs and pigs on Texas farms also decreased, falling to 930,000 head which is three per cent below 1973 and the lowest June 1 inventory for Texas since 1969. Hog farmers report they plan to farrow 58,000 sows from June through August and 53,000 during September, October, and November. That will be an increase of over four per cent over the same quarters in 1973.

COULD THIS BE A WINNER?-The Texas Department of Agriculture inaugurated its Family Land Heritage Program July 1 to recognize Texas farmers and ranchers whose families have been involved in a century or more of agricultural production on the same land. Those who qualify by Aug. 31 will be honored in a special ceremony at the State Fair, Agriculture Commissioner John C. White has announced.

Another Fine Texas Recipe

TURKEY SALAD IN MELON HALVES

- 3 cups cut-up cooked turkey
- 1/2 cup thinly sliced celery
- 1/2 cup thinly sliced green onions and tops
- 1/2 tsp salt
- 1/2 tsp lemon pepper
- 1/2 tsp ground ginger
- 1 jar (2 ounces) sliced pimiento, drained
- 1/2 cup seedless green grapes, halved
- 1/2 cup dairy sour cream
- 2 small cantaloupes or honeydew melons

Mix all ingredients except cantaloupes; cover and chill. At serving time, cut melons in half lengthwise and scoop out seeds. Cut thin slice of bottom so melon will not roll on plates. Spoon salad into melon halves. Yield: 4 servings.

Egg, Poultry Production High In State

AUSTIN--Texas was among the top 10 states last year in eggs, broilers, turkeys and hens and pullets of laying age, according to the 1973 Texas Poultry Statistics.

The new booklet provides county-by-county statistics on the Texas poultry industry. It is published by the Texas Department of Agriculture in cooperation with the Statistical Reporting Service of the U. S. Department of Agriculture.

The booklet provides maps, charts and graphs for a better understanding of Texas poultry.

Family Land Heritage Off To Strong Start

AUSTIN--The Texas Department of Agriculture's Family Land Heritage Program, honoring farm and ranch families devoting a century or more to agricultural production, is off to a strong start, Agriculture Commissioner John C. White has announced.

The program is seeking to recognize farmers and ranchers whose families have lived on and worked the same land since 1874 or before and honor them at this year's State Fair.

The program will be continuous and will honor subsequent families that qualify at a later time.

To obtain an application and a copy of the rules, write John C. White, Commissioner, Texas Department of Agriculture, Box 12847, Austin, 78711.

To qualify, a family must have worked the land continuously for 100 years or more. Mere ownership does not qualify a family, nor does renting the land to others to work make a

family eligible for the award. The family must own the land and live in Texas on the land, or at least actively manage the land use operation.

Applications must be submitted to the family's county judge for verification and supporting evidence or documents are necessary.

Land settled any time in the calendar year 1874 or before which meets the U.S. Census definition of a farm/ranch qualifies for the award. The definition says that the land must be at least 10 acres and producing \$50 or more annually or, if less than 10 acres, producing \$250 or more.

Any land in the process of being sold to a non-relative is ineligible.

"We regret that mere ownership of the land for that period of time will not qualify for the award," White said. "We are seeking to honor those farms and ranches whose history of productivity in the same family has been continuous and uninterrupted for 100 years or more."

Corn Borer alert!

southwestern corn borers are threatening your corn crop

Stop southwestern corn borers before they can cause profit-robbing damage to your corn fields. Use dependable, economical SEVIMOL 4 carbaryl insecticide... a free-flowing liquid, blend of molasses and SEVIN featuring simple measurement and no pre-mixing. It's ideal for ground or air application.

SEVIN carbaryl is biodegradable, and compared with other agricultural insecticides it ranks low in toxicity to people, farm animals, birds and fish. Chances of illegal residues occurring on adjacent crops are less with broadly-registered SEVIN carbaryl than with insecticides registered on fewer crops. See bee caution on label. SEVIMOL 4 should be your choice. It lets you get tough on southwestern corn borers... and get tough sensibly.

STOP! All pesticides can be harmful to health and the environment if mis-used. Read the label carefully and use only as directed.

Children Submit Ideas On Energy

Perhaps what Americans need are some really hard-nosed, down-to-earth solutions to the energy crisis. Here are some offerings from a fourth grade class in St. Louis, as related by teacher Harold Dunn in the American Petroleum Institute's magazine, Petroleum Today:

"Don't drive more than one car at a time.
"Change jobs so that everybody is working at the place closest to their homes.
"Don't accept any new inventions using oil and electricity and things we are short of."

"Don't have so many days people have to drive to work or school, especially school.
"Cold engines take more gasoline. Everybody should put insulation around their engines.
"Keep the volume of the car radio down so it won't take so much energy.
"Fix it so that cars can travel piggyback on roads like they do on trains.
"Drive faster so you won't have to be on the road so long using gasoline."
And the best one of all:
"Find oil on the moon."

Available At Local Bank

The Bicentennial Association of Texas has announced that the official bronze and fine silver medallions struck in commemoration of the American Revolution are now available at First National Bank of Hereford. Royalty revenues from medallion purchases will be a major source of financial support for Bicentennial activities authorized by the Legislature.

Navy Provides Greater Choice

Young men between the ages of 17-30 and who have a high school diploma or the equivalent of one, now have their guaranteed choice of apprenticeship-school training at their selected spot overseas.

Volunteers can choose duty in Scotland, Italy, Greece, Japan, Spain, Hawaii, the Philippines or other countries. For further information, call collect 806-376-2141 or visit Navy Information Team, 317 E. 3rd, Amarillo.

Some Scots believe that people born on Halloween have the gift of second-sight!

Texas Coins Pay Tribute

Official bronze and silver Bicentennial medallions, available now at First National Bank of Hereford, commemorate the founding of the United States and pay tribute to the peoples of Texas.

The official emblem of the American Revolution Bicentennial Commission of Texas is struck on the front of the medallion.

The converging arrows represent the ethnic groups which have united during 200 years to form the Lone Star state.

A two-headed figure of man on the reverse side dominates the design. One face looks to the past and the heritage of a

bountiful land. Man's other face looks through a space helmet to a new age with bright promise of an even greater future.

Each 50 millimeter (1.97 inches) diameter medallion in both bronze and silver is serialized with a number stamped into the edge. The recipient may register his medallion's number along with his name in the Archives of the American Revolution Bicentennial in Texas.

Mrs. Bill Hobby, president of the Association, said that royalty revenue from medallion purchases will be a major source of financial support for official American Bicentennial

activities authorized by the Legislature.
"We greatly appreciate the help of so many members of the Texas Bankers Association in marketing the medallions as a public service," Mrs. Hobby said.

Our Softest No Seam Vamp

MISS AMERICA SHOES

The staff of the Formby Stations and the family of Clint Formby welcome their boss and Dad home.... Congratulations for a job well done as a director of the National Association of Broadcasters for four years, and this past year as chairman of the NAB Radio Board—where you were speaker, traveller, salesman, and the world's champion luggage loser. From the gang at KPAN, Hereford; KLVV, Levelland; KTEM, Temple; and KTBB, Tyler, Texas; a big welcome home!!!!

NOTICE

Beginning September 2, 1974, Cloverlake Dairy Foods of Plainview, Inc. will discontinue its premium program. Thereafter, Cloverlake premium points which are redeemable in merchandise will be eliminated from all Cloverlake Products Cartons.

However, we will continue to redeem, through December 31, 1974, all Cloverlake premium points which you may have on hand.

This action has become necessary due to inflationary trends of salaries, distribution cost, repairs, insurance, utilities, bookkeeping and accounting and the cost of merchandise redeemable by our customers.

Please remember, we will continue to produce and process the finest dairy products at the lowest possible prices.

Comings And Goings
At King's Manor

By **FAY GAUGGEL**

Mrs. C.S. Pryor had friends,
Mrs. H.C. Pederson of Denver
and Katherine Driscoll of
Amarillo, visit her. Her
daughter, Mrs. M.E. Wells, and
grandson, David Wells, came to
spend the 4th of July holiday
weekend.

Mr. and Mrs. Robert Strong of
Amarillo were recent visitors in
the home of Louise Vaughan.

Guests of Mrs. Lee Curry over
the weekend were Mr. and Mrs.
Pat Morse of Ft. Worth.
Saturday they were dinner
guests of Mr. and Mrs. Guy
Walsers of Summerfield. The
Walsers also gave the guests a
cook-out Saturday.

Mrs. Don Davidson and
granddaughters, Cathy and
Jennie Luker of Richardson,
entertained the couples living in
King's Manor cottages July 3 in
the backyard of Mrs. David-
son's home. Home-made ice
cream and cake were served
and a time of fellowship and
visiting was enjoyed.

The Virgil Dodsons were
honored on this, their 44th
wedding anniversary. Rev. and
Mrs. Jordan Groonfs and
grandson, Kirk, were special
guests. Sixteen were present.
On the next evening, July 4, the
rest of the cottage residents
were guests. Again home-made
ice cream and cake were ser-
ved, this time to 18 guests.

Mr. and Mrs. C.J. Gzenasz of
Dallas were week-end guests of
her aunt Louise Vaughan. They
were in a camper and on the
way to Colorado on vacation but
wanted to see if Kings Manor is
all Mrs. Vaughan claims it is.
They agreed that she is right-its
great! Mrs. Ethel Vaughan of
Amarillo was a guest of Louise
Vaughan Saturday, lunched at
the Manor and visited with
other friends there.

Our new residents at the
Manor are the delightful Joe G.
and Minnie Evans of Hereford,
having moved here in 1931 from
Happy. They know many people

here and in neighboring towns,
so they are at home and have no
difficulty in relating to us all.

The Evans' son, Wayne
Evans, and grandson, David of
Ft. Worth; another son and
daughter-in-law, the Raylan
Evans of Colorado Springs,
spent part of the week-end here
and assisted in the moving and
settling activities. The Evans
occupy Apt. 116 at Kings Manor.
Avis Thompson, another new
resident, comes to us from
Tulia. She is a cousin of our own
Anna Blake and Dixie Stewart.
Our newest cottager is Mrs.
W.R. Beard of Ralls. She is the
widow of the late Rev. W.R.
Beard. She resides in Cottage
105-B.

We heartily welcome all these
fine people, and hope they will
find us worthy members of their
new Manor Family. They are
all endearing themselves to us
daily.

A male quartet from Friona
came and sang for us at the
Manor June 28.

Anna Mae Thomas ac-
companied on the Piano. The
four were Forrest Osborn,
Herbert Day, Carl and Don
Gatlin. They sang gospel songs.
We appreciate your music.
Come again.

Marvin Gregory, summer
youth director at Hereford First
Methodist, led us in some songs
Friday night. Although at the
piano himself, he led songs from
Cokesbury Hymnal. After we
had chosen favorite songs, he
sang several numbers on his
own such as Jesus, Jesus.
There's Something About
That Name, Beautiful
Dreamer, and an especially
interesting one entitled We
Plough the Field.

Mr. Gregory's rich bass (or
right hand improvisations)
intrigued us. He is quite
talented, a Texan who attends
Asbury Theological Seminary
in the winter. His music and
personable nature were most
attractive and we hope he
comes back to King's Manor.

BOB HILL
Lents, Newton & Co.
Amarillo

When the cost of gas becomes
an important factor in deciding
whether you are going to go
anywhere on your vacation this
year, you may find out doing
what a growing number of
Americans are doing. They are
staying home and adding a
room to the house or building a
fence, paneling a room, in-
sulating the house or adding
storm windows or a host of
other do-it-yourself projects.
The homebuilding industry is
in trouble. Housing starts have
dropped sharply but the do-
it-yourself projects are running
at a tremendous clip. It has to be
a do-it-yourself boom when Yours
Truly (who is still trying to
figure out the hammer) decides
to build some window boxes
himself instead of having them
custom made.

MORE HOMEBUILDERS are
staying put this year because of
high travel expenses. They have
also decided to stay in their
present houses and add im-
provements instead of buying
that new house with an interest
rate on the mortgage that is so
high, it's embarrassing.

Consequently, the home
improvement industry is
chalking up record sales. The
National Remodelers
Association estimates that
industry sales are up 30 per cent
to 35 per cent over a year ago.
Individual purchases are also
up by 20 per cent due partly to
inflation but also because
projects are more elaborate and
expensive.

THE INDUSTRY has
recognized the trend in do-it-
Legal Notice

NOTICE TO ALL PERSONS
HAVING CLAIMS AGAINST
THE ESTATE OF MARY GAY
PHILLIPS, DECEASED:

Notice is hereby given that
original letters of administration
with the will annexed upon the
Estate of Mary Gay Phillips,
Deceased, were issued to me,
the undersigned, on the 10th
day of July, 1974, in the
proceeding indicated below my
signature hereto, which is still
pending, and that I now hold
such letters. All persons having
claims against said Estate,
which is being administered in
the County below named, are
hereby required to present the
same to me, respectively, at the
address below given, before suit
upon same is barred by the
Statutes of Limitations, before
such Estate is closed, and within
the time prescribed by law.
My residence and post office
address is 435 Western Street in
the City of Hereford, Deaf Smith
County, Texas.
DATED this 10th day of July,
1974.

WELDON DICKSON, Admin-
istrator with Will Annexed of the
Estate of Mary Gay Phillips,
Deceased; No. 2458 in the
County Court of Deaf Smith
County, Texas.
S-2-1c

BIBLE VERSE
"This is the confidence
that we have in him; that, if
we ask anything according to
his will, he heareth us."

1. Of whom is the writer speaking?
2. Who is the author of the above statement?
3. By what term was he known?
4. Where may this statement be found?

Answers to Bible Verse

1. Of Jesus Christ.
2. John the Apostle.
3. The "disciple whom Jesus loved."
4. I John 5:14.

Golden Gleans

It is possible to go wrong
in many ways, but right in
only one.

Extremity of right is wrong.
-John Clarke.

He that hath right, fears; he
that hath wrong, hopes.
-John Ray.

We are not satisfied to be
right unless we can prove
others to be quite wrong.
-William Hazlitt.

There is always a right and
wrong way, and the wrong
way always seems the
more reasonable.
-George Moore.

Right is the opposite of
wrong; and wrong con-
sists in inflicting injuries
on other people.
-Robert Briffault.

4-H Dress Revue
Winners Chosen

Costumes they made and
modeled in the County 4-H
Dress Revue Friday afternoon
won first places for Jo Ann
Wagner, Carla West and Diane
Warden in senior, intermediate
and junior divisions respec-
tively.

They will represent Deaf
Smith County in the annual
district dress revue at Amarillo
Aug. 1. Miss Wagner will
compete there for district
honors that will send the
winners to a state contest.

Her maroon and white knit
pantysuit with jaunty cap to
match gave her first place for
county seniors. The costume
included pants and vest of solid
colored maroon with short jacket
of a white-flecked fabric, worn
with a high-necked white top.
She also made the gap, with
alternate sections of the solid
and flecked material and solid
maroon bill.

Senior alternate was Micki
Merritt, modeling her attractive
pantysuit in gray diagonal stripe
knit.

The intermediate winner
entered a smart red-and-white
checked pantsuit. Geni Welty

took the alternate honors in this
division. Christi Welty and
Missy Merritt tied as alternate
for juniors. Winners of these
divisions will compete in
district, but do not advance to
state competition.

The revue was presented in
First Baptist fellowship hall as
girls from over the county
appeared in the style parade to
show their entries. They were
judged not only on workman-
ship, fit and appearance as
models, but also on their choice
of appropriate styles and
materials.

A number of their family
members and friends were
guests for the show and an
informal social period after-
ward, when the girls served
frosted punch from a table
centered with daisies. Joyce
Shipp, county extension agent
and 4-H director, was narrator
for the show.

The ministry isn't an easy
profession, despite all the
jokes to the contrary.

CAROL ROSE

LEE UMSTED

A little confidence in a person can often produce great results.

People who go to the beach just for the sights are well rewarded.

A conversationalist will talk whether anyone is listening or not.

A business has no more character than the people who operate it.

Progress would be faster if people could go forward on excuses.

There are people who have time to talk (about their views) indefinitely.

The people who smile often have more friends than the people who frown.

FOR THE BEST DEALS ON NEW or USED CARS

Come in and talk with one of the Men at

A COUNTRY ACRE
with 3 bedroom house, 2 baths, plus a basement; carpeted. On pavement. Has deep well, 160 ft. Good terms.

ON PARK AVENUE
A very nicely finished home . . . plus attached offices easily accessible to the public. Choice traffic attention spot on corner lot. \$37,500.00 for all.

TWO STORY
nice older house. Has 5 bedrooms, fenced. NW La Plata school area. \$24,000. Owner will carry paper.

FREE CONSULTATION ON BUYING OR SELLING

A ROOMY HOUSE
2 front bedrooms (16x14 ea.) and a back 18x20 bedroom (or Den) area with shower bath. Lots of kitchen cabinets. New carpet thru-out! On beautiful Star Street. Don't pass this one up.

817 BREVARD
3 bedrooms, 1 bath, brick, paneled and has shag carpet. It is nice. Owner leaving town. \$1500.00 will move you in and payments will be under \$100.00 a month.

1/2 BRICK FRAME
on Star with country kitchen. Neat as a pin. Beautiful kept yard. 3 bedrooms, single garage. \$17,500.00

NEED A 2 BEDROOM?
Prefer Northwest Hereford? Cannot pay too much? Then you should consider 131 Beach. Hardwood floors, utility room, adequate kitchen, living area. Needs someone to "care". \$13,000.

ACREAGE:
*We have lots for you to build on in the city.
*9.1 Acres on pavement, within 1/2 mile of town, choice area for an extra nice home site.
*10 acres with deep well and permanent new mobile home. Owner will carry paper for you.
FARMS:
*1120 acres dryland SE Hereford. Good grass, level ground. Good buy.
*1488 acres, Parmer County. Underground tile, Lindsey pivot sprinklers. \$225 per A.
*Choice, 840 acres, Rhea community. Excellent improvements. 6 wells.

OPEN HOUSE 1:00 P.M. to 6:00 P.M.

3 bedroom, 1 1/2 baths. It is a honey! New carpet, new paint thru-out. You will like it! Double garage, fenced, 621 Ave. J.

REALTORS

Move into this prestigious location at 1929 Plains. This large home has 2500 square feet of space with four bedrooms and three baths. Garage entry is from the alley with a farmers bath nearby. Extras include cedar shingles, refrigerated air, large patio and a refreshment center.

This four bedroom, 2 bath home has 2250 sq. ft. for your family to enjoy. Refrigerated air and central gas heating provide year round comfort. Enjoy a fireplace in winter and a patio in summer. Built by Gerald Boggs and yours for \$45,000.

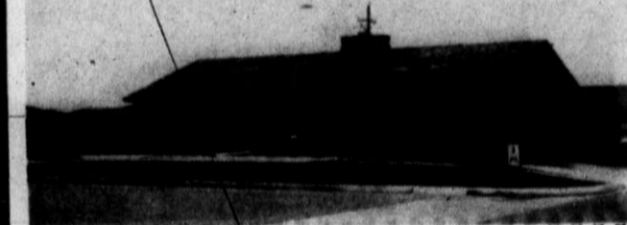

Young couples looking for their first home need to see this one. This 3 bedroom, 2 bath home has been newly painted with carpet and drapes throughout. This house sits on a corner lot and has a very neat and clean appearance. Call to see it now.

Enjoy living on Hereford's newest street in a new home. This 3 bedroom, 3 bath home has over 2700 sq. ft. of living space. The master bedroom is sunken with a beamed ceiling. There is also a finished, carpeted basement which could become a 4th bedroom. Come see it for yourself.

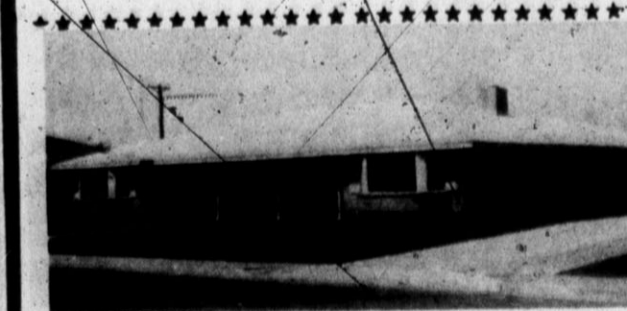

This home has all the first class extras you've ever wanted. A brick and wrought iron fence accent the beauty of this 3 bedroom, 2 bath home. Exquisitely decorated with beautiful drapes, chandeliers and built-in wooden features, you need to see this home built by Jay Swayze.

This 3 bedroom, 1 1/2 bath home can be bought for only \$21,000. Purchase the equity and assume this loan. This home has many fruit trees and is in a nice neighborhood. Call for an appointment.

Douglas Street boasts another beautiful home with this 4 bedroom, 3 bath special built by J.D. McCaslin. Three bay windows create a rich look on the exterior which continues inside to a fully paneled den with a cathedral beam ceiling. Ask to see this house.
