

HEREFORD REPORTER

VOL. I. NO. 50

HEREFORD, DEAF SMITH COUNTY, TEXAS, JANUARY 31, 1902

\$1.50 PER YEAR

Our College

By J. P. Connell

THE advantages to be derived from the establishment of an institution of learning, such as is now contemplated, cannot be too highly estimated by the people of Hereford and the surrounding country.

The benefits to our section of the country from this institution will be many, permanent and far reaching, and will be felt by all our people. The plains country, by reason of its cool, invigorating and healthful climate, is naturally adapted to be the future seat of the best of high-grade schools and colleges. These institutions, in addition to the home patronage, will not only receive patronage from all of south and east Texas, but should reach out for students to the states of Louisiana, Arkansas, Indian Territory and Oklahoma. By reason of its splendid climate, our plains country is the natural educational ground for all this section of country. In this invigorating altitude the mind, catching energy from the robust and well developing body, can grow and expand as it cannot do in the hot, enervating altitudes of the lowlands.

The people of Hereford and the adjacent country now have it in their power to take the lead in the great matter of education, and plant an institution that will redound to the lasting benefit of our whole community. A noble start has already been made. Money and property to the amount of about \$12,000 has been subscribed. Twice this amount will not be any too much to invest in our college, and, if all will come up as they should, \$12,000 more can easily be raised.

The planting of this institution in Hereford will not only enhance the value of property in town, but will make every acre of land, in all the country around, more valuable and more salable. If everyone will contribute an amount equal to one-half of the sum that his property will be increased in value by the establish-

ment of this institution, a sum more than sufficient to build and equip this college, and start it out on a solid basis of prosperity can be raised. In addition to those who have already subscribed, there are one hundred and twenty men within a radius of thirty miles of Hereford who could profitably invest \$100 each (and many of them more) in this enterprise. This would make another \$12,000, and with \$24,000 to begin work, our college can be launched out on its career of usefulness assured of success.

But the enhancement of property is but a small part of the benefit that will accrue to us from this institution. The influence of such an institution as this on the life and character of our youth can not be estimated in a money value. Our young men and women can ever be educated at home, and be thoroughly equipped for life without having to be sent off hundreds of miles for this purpose. Families of refinement and culture will seek homes in our midst to give their children the advantages offered by our college. In this way the very best class of immigrants will be drawn to our rapidly growing section of country. In this way our whole community will receive a financial, moral, and intellectual benefit from this institution. Let us all take hold with a will and energy worthy of this great enterprise and make our college the grand success that it deserves to be.

For sale or will rent for one year, a nice residence. Troy Womble. 50tf

A. P. Murchison returned Tuesday from a business trip to Amarillo.

Rev. Randolph Clark came in on Wednesday's train and expects to stay here for a time visiting his daughter, Mrs. R. F. Holloway.

L. D. Thomason, of the Amarillo music dealing firm of Thomason & Conwell, is here with a view of opening up a music store at this place.

HEREFORD REPORTER
PUBLISHED WEEKLY BY
FRANK L. VANDERBURGH

THE ONLY PAPER PUBLISHED IN
DEAF SMITH COUNTY

Subscription Price, \$1.50 Per Year

Entered at the postoffice at Hereford,
Texas, as second-class mail matter.

ADVERTISING RATES

DISPLAY—\$1.00 per inch per month with
liberal discount on long time contracts
LOCALS—Ten cents per line first insertion;
five cents per line each succeeding in-
sertion.

All adv. copy must be in by Wednesday
noon to insure insertion in current issue.

Advertising bills due on the first of each
month; job work on delivery.

FRIDAY, January 31, 1902

Hereafter all subscriptions must
be paid in advance, and papers will
be discontinued on expiration of
time paid for.

PARTIES who are in the habit of
mailing their letters on the trains
should bear in mind that their action
in this matter prevents this postoffice
from being created a third-class
office. If all would mail their letters
at the postoffice the receipts would
soon be large enough to cause Uncle
Sam to take us out of the fourth class.

NOTWITHSTANDING the fact that
Judge J. P. Connell is in Mississippi
on a visit he is still thinking of his
Hereford home, as is evidenced by
the contributed article on the first
page of this issue in regard to the

college question. His arguments
are clear and concise and should
enthuse the more morbid citizens of
Hereford and surrounding country.

REMEMBER that this is the last
issue of the REPORTER that you will
receive unless your subscription is
paid. We have given all ample
notice that unless subscriptions were
renewed at the expiration of their
time that their weekly visitor—the
REPORTER—would cease coming. If
you are in arrears and do not come
in and settle we take it for granted
that you do not wish the paper and
will send you a bill for the time you
have had it.

By the way, what has become of
our correspondents? We have not
had a communication from Dimmitt,
Hart, Endee, North Draw, or from
any of the surrounding communities
in a long time. Our correspondents
should bear in mind that communica-
tions from their towns help to adver-
tise their particular section of the
country, as well as to help make the
REPORTER interesting to our readers.
Withal, they are getting paid for
their services and if they are not go-
ing to serve we would appreciate it if
they would inform us that we may find
some one who will furnish weekly
letters.

Just received at Gough's Drug
store a fine line of stationery, books
and Bibles.

Illegitimate Methods.

A short time ago the REPORTER
commented upon the methods em-
ployed by the Western Advocate,
published at Amarillo, to build up a
subscription list, and explained
wherein its publishers were violating
the postal laws relative to second-
class mail matter. In a subsequent
issue of that paper appeared an
article to that effect that its methods
were perfectly legitimate and that
our "ignorance of the postal laws was
appalling." It also said that they,
as publishers of the Advocate, "had
no respect for the rules and regu-
lations of the postal authorities at
Washington."

It being our desire to elevate the
country newspaper business and to
see that business conducted in a
legitimate, business-like manner, we
requested our local postmaster to
forward that particular issue of the
Advocate to the Third Assistant
Postmaster General, Edwin C. Mad-
den, for the purpose of satisfying
ourselves as to the correctness of
our position in the matter. The
following reply was received by
Postmaster Montgomery on Tuesday
of this week:

WASHINGTON, D. C., Jan. 23, 1902.
Postmaster,

Hereford, Texas.

Sir—In reply to your communica-
tion of the 6th instant, addressed to
the Third Assistant Postmaster
General, you are advised that not
more than three sample copies of a

second-class mail publication may
be sent to the same persons within
twelve months, and the continuous
mailings of sample copies of "The
Western Advocate," of Amarillo,
Texas, will jeopardize the second-
class permit. Sample copies must
be marked.

The postmaster at Amarillo will
be advised to this effect.

Yours respectfully,

EDWIN C. MADDEN,

Third Assistant Postmaster General.

We would regret to see the Advo-
cate deprived of its second-class
mail privileges, as it undoubtedly
will if they still adhere to their
present methods, and hope its pub-
lishers will in the future conduct
their business in a legitimate manner.

The controversy arose as a result
of an article in the Advocate to the
effect that they were "sending the
Advocate to a number of people
who were not subscribers and that
they would expect those receiving
the paper on those conditions to pay
for the same unless it was ordered
stopped.

Notice.

After the first of February we will
let no more rigs out on credit. All
those owing us will please come in
and remit at the earliest convenience.
Cox & Davis. 48tf

Rev. J. K. Walling of Johnson
county arrived in town on Wednes-
day and is prospecting hereabouts.

THIS is without doubt the best Piano sold in the Pan-
handle today. Its easy action and pure, clear,
mellow tone give it a standing among competent
musicians that is not reached by any other Piano sold in
these parts. The fact that during the thirty-six years that
the Mathushek Piano has been manufactured, over thirty
thousand have been sold and not a single case of broken

plate has been reported,
is sufficient testimony as
to the strength and sta-
bility of the iron frame,
one of the most important
features of a piano. Only
the best of materials is
used in the construction
of this Piano, and the
building of the same is
entrusted only to compe-
tent workmen, who are
employed by the day in-
stead of by piece work,
as is common in all other
makes.

If you are contemplat-
ing buying a Piano it will
be greatly to your advantage to investigate the qualities of
this excellent instrument. We carry a large stock of these
Pianos at our store in Amarillo and will be pleased to
show them to you whether you buy or not. Every instru-
ment guaranteed. Yours for music,

The Mathushek Piano

J. E. BEASLEY, AGENT
AMARILLO, TEXAS

Right You Are.

Who could fail to fall dead in love with the Panhandle these days when right in the midst of winter a glorious sun shines every day, from a cloudless sky, and a soft, south wind lures one out to be fanned by its health-giving breath. Prosperity and contentment reign all over these broad plains. The Panhandle has been tried and found to respond in generous measure to every effort put forth. While drouth of the past year brought poverty and disaster to other sections, not a cry of complaint goes up from the plains. Railroads are being built, new towns springing up, and old towns putting on new life—up-to-date modern improvements are reaching out everywhere. Telephone, electric lights, ice plants, water works, oil mills. All these are here. —Vernon Sun.

Good Advice.

Young men cannot estimate too highly the advice of parents and friends. It affords them the benefit of experience and is given them from sincere solicitude for their welfare. It should be remembered, and weighed and acted upon. But, after all, every man has his own individual existence; he has his own life to live, for which he alone is accountable. He should sit down and meditate by himself, and make up his mind as to the course which he wishes to pursue in the world. Having done this he should enter upon the execution of his plans with a determination to accomplish what he undertakes, without reference to the opinions of others. No man is of any real account in the world unless he is something in and of himself. —Ex.

The Small College.

There is a great deal of truth in the remarks made by Mr. Bryan, Mr. Barnes and others at the value of the small college. There is no doubt that the institutions of the kind that Mr. D. K. Pearsons delights to honor have done a world of good. Nearness to home, inexpensive board, lodging, and tuition; democratic feeling, closeness of personal contact—these are merits that claim and get recognition. By all means let there be as many "neighborhood colleges" as are necessary both for boys and girls who would not go elsewhere and for boys and girls who need the kind of training they there receive. —Chicago Tribune.

H. G. Tucker left Saturday for Washington for the purpose of obtaining a patent for his new oil burner.

A. Davidson, a merchant of Childress, was here Monday prospecting.

George H. and Steven White of Brownwood are here prospecting.

STALLIONS.	BULLS AND COWS.	BOARS AND GILTS.
I have for sale a few good young stallions of Morgan and Steeldust breeding, the latter predominating. They have the size, style, color and action. They are the best all-around horse for the country that can be bought. I sell them worth the money. If in need of a stallion, it will pay you to see or write me before purchasing.	In the cattle line, I have eight registered Hereford bulls, from 16 to 20 months old; seven high grades, seven to thirty months old. These bulls were brought here as calves, and are now in only moderate flesh. Buyers can thereby tell just what they are buying, and pay for it accordingly. I also have fifty head good grade Shorthorn cows bred to Hereford bulls, at live and let live prices.	I invite your especial attention to my Berkshire hogs. Herd headed by Elma, Majestic, Windsor and Texas King. Have a few young boars now ready for service, also a few good gilts, from three to six months old. Remember, I guarantee my hogs to give satisfaction. Not me, but you, to say whether or not you have your money's worth.

VISITORS ALWAYS WELCOME.

We have received a letter from S. M. Woods of Modena, Mo., accompanied by a postoffice order of sufficient size to pay for six annual subscriptions to the REPORTER. Evidently six Missourians are interested in the Panhandle.

J. D. Ludwig, representing the Wichita, Kans., Daily Beacon, was here last week in the interests of the paper. The Beacon is an evening paper and leaves Wichita at 6 o'clock in the evening and arrives here at 11 o'clock the next morning. It is an excellent paper and deserves success, as it proposes to print all the news, both foreign and domestic.

We learn that H. R. Morrow of Roswell, John McKnight and Nola Oliver of this city, have organized a company with a capital of \$20,000,

to go into the general merchandise business.—Amarillo Champion. Mr. McKnight was formerly manager of Smith, Walker & Co.'s large mercantile house at this place and his knowledge of the business will be very valuable to the new enterprise. We wish them every success.

We have a quantity of old type at this office which makes excellent babbling metal for windmills, etc., for sale at 10c per pound. 48tf

J. D. Price, a veteran of the Texas war of independence, has a \$50 bill and two \$20 bills issued by the republic of Texas in 1845 and paid out to Mr. Price for services rendered in that war.—Ex.

INTERESTING STOCK NEWS

Happenings in the Cattle World of Interest to Reporter Readers.

Sixteen cars of fat cattle were shipped out of Hereford to the Kansas City market on Sunday. The following cattlemen were the shippers: Henry VonLienen, 10 cars; A. S. Bassett and C. E. Wheeler, 3 cars; J. O. Lindsey, 1 car; I. N. Dillard, 1 car; W. B. Beach, 1 car.

Rat Jowell and J. D. Burkett went to Quanah Friday to look at S. T. Howard's herd of registered Herefords. Mr. Burkett returned Monday and reported that Mr. Jowell had purchased eight of the bunch and had gone to Kansas City to attend the Hereford sale being held there this week, with the intention of buying more, which will be placed on his model Tierra Blanco ranch. This is only a starter for his new venture, that of a breeder of registered Herefords.

An Excellent Piano.

J. E. Beaseley, the Amarillo piano dealer, is in town this week with one of his superior make of instruments—the Mathushek—which was on exhibiton at Witherspoon & Gough's office on Wednesday, but later was taken to the residence of Judge Witherspoon, where it is likely to remain. Mr. Beaseley's pianist, H. B. Gurke, rendered some very fine music on this instrument on Wednesday and clearly demonstrated the musical powers of this instrument. Too much in favor of this excellent make of piano cannot be said. Its tones are clear and mellow and responds to the slightest touch of the keys.

Much care and study have been expended in the effort to produce an upright piano that will stand climatic and atmospheric changes; this problem is solved by the simple expedient of passing the tuning pin through a hard maple bushing at right angles with the grain, a method which has proved so effective in their square and grand pianos. This makes a solid and permanent support for the tuning-pin at the point where the string draws, and results in giving but one-fourth the leverage found in other pianos, while there is fully three times the hold. By securing

the tuning-pins in this manner the metal frame supports the great tension of the strings, thus relieving the case from any strain, and enabling them to dispense with the many wooden posts so necessary in other pianos. This particular bushing

device is one of their many inventions, and has the effect of keeping the piano permanently in tune.

Mr. Beaseley has placed a standing adv. in the REPORTER and if any of our readers contemplate buying a piano we believe that it would pay

them to at least investigate the merits of Mathushek before purchasing, as Mr. Beaseley fully guarantees every instrument that he sells. He buys all his pianos direct from the factory and does not sell on a commission, as is the case with most other piano sellers.
