All Over the Panhandle Bowie had a small conflagration last week. Beginning July 1st, there'll be two of 'em each day. Isn't that nice, if Floyd county citizens will have a cotton gin to care for their cotton crops. Saturday, Sept. 6, Clarendon beat Claude in a base ball game by a score of 12 to 4. Floydada now has a nursery enterprise. It is owned by D. J. Muncy and R. H. Baker, and is called the Llano Estacado Nursery. The First Baptist church of Stratford was organized here Sunday with a membership of twenty-eight. Rev. Bennett Hatcher was elected pastor.—Stratford Star. The H. H. Brookes Hbel case was tried last week. Judge A. W. Cole of Clarendon presiding. The jury returned a verdict of guilty and imposed a penalty of \$100 fine.

Beginning July 1st, there'll be two of 'em each day. Isn't that nice? if Wichita Falls had another fire recently. Little damage was done, however. The Quanah Telephone Exchange has been sold to the Texas Telephone Company. Wellington will soon have a private bank, one having been recently organized, with Charles Glenn as cashier. After five years of protection by law antelope may now again be hunted in Texas after Sept. 20. However it is a misdemeanor to ship any of the venison or to buy or sell any of it. It is not expected that Texas will make a barter and sale of her game privilage.—Memphis Herald. The state land office has leased all the "public domain" in Armstrong county for another five years to Mrs. C. Adair, notwithstanding a large number of people were anxious to file on it for homes. By this action the land will be kept off the market another five years.—Claude News.

THE BRAND—\$1.00 per year. The Wichita Falls Times is clamoring for a public park. Certainly a good move. Floydada recently received a visit from the candidates for district judge and district attorney for that, the 50th judicial, district. Miami is following the example set by several of the towns along the Denver road and compels the negro to move on. One of the race stopped in the city this week for a few days but left very abruptly on Thursday night. We don't know, but it is whispered that he was waited upon by a crowd of men about 12 o'clock at night who took him down to the bridge that crosses Coon Hollow where a rope was thrown over the sill of the bridge and to one end of the rope was fixed the black man and to the other end a large rock. After balancing the negro and rock in the air for a short time they were brought to the ground and the negro turned loose with the rock tied to him and commanded to leave town and drag out his tracks with the rocks. He left.—Miami Chief.

Subscribe for THE BRAND. Middling cotton is selling for 7 1/2 to 8c at Quanah. Rev. R. W. Officer commenced a series of meetings at Floydada last Friday evening. He preaches in the interest of the Christian church. Vernon has a number of bank promoters who for industry take the cake. They are establishing little banks all over the country at every cross roads. It has got so it don't take any money to start a bank anyway. Confidence is the real thing. The patrons furnish the money.—Memphis Herald. \$15 in Premiums. As I promised to give the patrons of my horses prizes this fall for the best colts shown, sired by either of my horses, I have decided to place the date of the show on November 1, 1902, at 2 p. m. All parties owning colts who wish to compete for the prizes will please have them here at that time, when I will pay \$10 in cash for the best and \$5 for the second best colt shown. Respectfully, R. H. NORTON.

XIT LANDS FOR SALE CHEAP

At \$3 to \$4 per acre and up

ON ACCOUNT OF THE CAPITOL SYNDICATE COMPANY'S (better known as the XIT's) intention to discontinue their cattle business their large ranch, consisting of over 3,000,000 acres and situated in the best part of the Texas Panhandle, will be sold in any size tract—to suit the purchaser.

This land is all fenced and has numerous wells and windmills, and other similar improvements which make it the best in the Panhandle. Improvements on land purchased will be sold to the purchaser at the actual cost to the Company.

Nearly 2,000,000 acres of this great ranch has been sold and it will be only a few months until the stock farmer of one or two sections

will have the one million acres left in beautiful homes and farms.

It has been demonstrated that the small stock farmer can make more money compared to his investment, than can the large ranch owner, and the splitting up of this large ranch (until recently the largest ranch in the world) will be a great boon to this class of farmers.

The Pecos Valley railroad (a branch of the Santa Fe System), the Chicago, Rock Island and Pacific and the Fort Worth and Denver City Railroads are now intersecting this great ranch and the Choctaw road is now building from Amarillo to Tucumcari, N. M., and will traverse the entire Deaf

Smith county portion of the ranch. It is also expected that the Santa Fe branch, running to Albuquerque, N. M., will be built from Bovina in the near future.

This land, being situated in the western part of the Panhandle, lies close to the mountains of New Mexico and therefore is more susceptible to good rains than is land farther east.

This section of the Panhandle is noted for its mildness and even temperature—both in winter's cold and summer's heat—and has the right altitude for an invigorating and dry atmosphere. The nights are always cool, insuring sound and refreshing sleep.

We Get Our Pay.

The editor of the Stratford Star kicks like a bay steer about a certain firm of Dalhart who advertised with him and then refused to pay the bill. That's nothing. We've advertised people lately to whom we sent the bill three times, and they don't even know us. It's probably a matter of pleasant pastime to beat a printer out of a few dimes, but in God's sight such people are rather small potatoes and few in a hill. —Channing Courier.

The editor of THE BRAND has been up against the same proposition several times, but after having our bills ignored, we wrote them a short letter to the effect that if the bill was not paid by a certain date, they would receive a free adv which would not be calculated to do them much good. A remittance followed.

A Sad Event.

What is described as "one of the saddest events" occurred in Wichita last week. An old soldier was making application for a life insurance policy and a pension increase at the same time. He got the two papers mixed and sent the one making himself out healthy to Washington, and the one in which he was a physical wreck to the insurance company. —Ex.

Beginning July 1st, there'll be two of 'em each day. Isn't that nice? if

Mollie Bailey His Aunt.

Chas. A. Chandler, general yardmaster of the Texas and Pacific Ry. at New Orleans, is a visitor here for health. Mr. Chandler arrived last Saturday, and yesterday, when Mollie Bailey's show arrived, he was forcibly reminded of the fact that thirty-two years ago, when he was a small boy, his mother had an only sister whose name was Mollie Bailey, but his information was that she was dead many years ago. He was so impressed to inquire into the identity of this Mollie Bailey that he went down to the tent and, to his unexpressible surprise and joy, he found his long lost aunt. The meeting was a most pathetic one as they had searched for each other for over thirty years. Mrs. Bailey says she has made it the burden of life to hunt for this son of her only sister, and that she loves him better than any other human living outside of her own family. —Mineral Wells Index.

PLAINS ORCHARDS.

W. F. Stimson Visits Those of Hale and Swisher Counties.

W. F. Stimson, manager of the Hereford Nursery, returned Sunday evening from an extended trip throughout Hale and Swisher counties on a visit to the different orchards of those counties, having left Hereford on the Tuesday previous. His object was to make observations of what varieties of fruits were best adapted to the plains.

He found several fine orchards, among which were those owned by Messrs. Glover, Thomason and Merrill, all of which were near Hale Center. These orchards consisted mostly of apple trees, and were loaded with fine fruit. They also contained a few peach and plum trees, which their owners said had never failed to bear an abundance of fruit. Mr. Stimson secured a large number of buds and grafts from these orchards, which will be planted in the Hereford Nursery gardens, and next year he will have a large number of these tried-and-found-true trees for sale.

Mr. Stimson also informs us that he will commence the planting of peach seeds in few days as he is looking for a large shipment of seeds from Lampasses, Texas. Over one hundred bushels of peach seeds will be planted this year.

It will thus be seen that, though the Hereford Nursery is as yet but an infant industry, it will be but a few years before Hereford will have what its promoters promised that it should be—the largest nursery in the southwest—and as they are taking particular pains to find out the varieties of fruits best adapted for this country, you can make no mistake in purchasing your nursery stock of the home industry. Their prices are right and they make good all stock which fails to live, where proper care has been given them.

Roswell Fair.

This is where you will want to go in September. The Fair will be held September 23 to 26th. The Pecos System will put on a rate of \$5 for the round trip to Roswell from Amarillo, Canyon City and Pecos, with corresponding low rates from all points on the Pecos System and Southern Kansas of Texas Railway—LESS THAN ONE FARE. Tickets will be on sale September 22 to 25, with final limit of fifteen days for return. Call on your local agent for particulars or

An Overland Trip.

On Wednesday Messrs. F. M. Avis, W. H. Patton, J. A. Kirkpatrick and Will Daniel left for a hunting and fishing trip through New Mexico and Arizona. They intend to be gone about six weeks and will make the entire trip overland. That they will have an enjoyable trip it is needless to state and the editor of THE BRAND regrets that he had to refuse an invitation to accompany the party.

For Sale.

A well improved place in Hereford, Texas, including a good seven-room house, a wind mill, 3-inch cylinder, barn, shed, hen-house, with orchard started, 20 acres land, all fenced, well situated. Come and see or address J. C. COKER. 31tf

Handsome and Errorless.

THE BRAND's job department has just finished printing some new telephone lists for the Hereford Telephone Company. When delivered to Manager E. J. White, that gentleman complimented us by saying that the cards were the handsomest he had ever seen, and, as far as he could ascertain, were entirely free from errors. That's the only kind of job work THE BRAND does—nice work and errorless work.

Millinery Opening.

Mrs. Anna Osborne will have a formal opening of her fall and winter millinery stock on Saturday, September 20, at D. R. Gass & Sons' store at which the ladies of Hereford and vicinity are specially invited. 30-2t

Hunters Have Returned.

Messrs. Rat Jowell, T. A. Cox and W. R. Evans returned Monday from their hunting trip on the Canadian. They report having had a fine time and excellent luck in killing big game, but as we did not have the pleasure of eating any venison after their return we cannot vouch for the latter statement.

HIGH SCHOOL LETTER.

Our Watchword, "Time and Duty."

If one should notice the grounds about the Hereford public school, between eight and nine o'clock in the forenoons, he would see somewhere between two and three hundred little urchins plodding on toward the building from different directions, keeping step to the music of "Time and Duty."

What can be more hopeful than to see a little boy or girl entirely wrapped in good thoughts of studies and teacher? What is more pleasing than to watch the ways of a refined young girl or boy who attends strictly to his own work and seems to know what he is about? Such a class of students I think we have with us in our school. The three months' vacation seems to have given their mental organs all the quiet and rest required and now, with a few exceptions, all take hold of their books with such enthusiasm and use their minds so diligently that we know they will accomplish much during these coming nine months, if such interest is continued.

Owing to the fact that we have two firm, strong men at the head of our school is a great stimulant to both pupils and teachers. It shall be the duty of each to exert himself to keep the pupils wide awake and on the alert so that they may not become disinterested. Our aim is to so instruct the child, that, when he finishes the course in the public school, he might be able to enter the college and take hold of the collegiate studies in such a way that we would feel proud of him.

The watchword of all is "Time and Duty," and we feel sure that the parents are interested enough to help us in making our public school one of the foremost in Texas.

A TEACHER.

Foot Scalded.

Zelda Mae, the little two-year-old daughter of Mr. and Mrs. J. A. Williams, was badly scalded about the left foot Tuesday. It seems that Mrs. Williams was preserving fruit and sat a pan of hot jelly on the floor by the window to cool and left the room momentarily to throw out a pan of parings. At the time she left the baby was in another room, but during her absence the little one toddled into the kitchen and accidentally stepped into the pan of hot jelly. The baby's screams brought its mother to the room at once and having rare presence of mind at once applied linseed oil to the burn and the little one was saved from much suffering. At last accounts she was getting along nicely and no serious results are likely to follow.

FACULTY RECITAL.

The Most Superb Entertainment of Its Kind Ever Given on the Plains.

Last Friday evening a large audience gathered at the Methodist church to listen to what was probably the finest entertainment of its nature ever given in the Panhandle and which, from an artistic point of view, was never surpassed in this country. The artists of the event were composed exclusively of teachers in the Hereford College and Industrial School, and that they possess extraordinary abilities in different accomplishments will not be denied by anyone who was fortunate enough to be present.

Following is the program rendered and we regret that we have not the ability of a high-class art critic, we might do justice to each number on the program and in lieu of lack of accomplishment we state that each number received a hearty encore—so enthusiastic a fact, that the participant was obliged to appear again and again before the audience would allow them to retire for the number following:

- Piano—Cachuca Caprice..... Miss Wilson.
- Violin—5th Air..... Mrs. Clark.
- Reading—Hagar..... Miss Robinson.

ANOTHER CHANGE.

Joe Killough Sells His Confectionery Store to Messrs. Wyatt & Cary.

Yesterday evening a deal was consummated whereby the confectionery and tobacco store, so long conducted by Joe Killough, passes into the hands of Messrs. John H. Wyatt, and Earnest Cary, who will conduct the business in the future.

Messrs. Wyatt & Cary are well known to most of our readers, having been engaged in the ranch business on the North Draw for some time, and we believe that they will maintain the high standard of service to the patrons of the store which has ever made that resort popular, and THE BRAND joins their many friends in wishing for them unbounded success in their new venture.

The many friends of Mr. Killough will be pleased that he is not to

leave this section of the country, but has bought a ranch property about fifteen miles north of town and will henceforth be one of the shining lights in the ranch business. Joe is an old time cowman and will no doubt be successful in his new business, at least, that is the wish of his many friends, including THE BRAND.

Future of the Panhandle.

The question is often asked but seldom answered, simply for want of proof. One thing is certain, that applications for stock ranges in Oklahoma and Texas are usually large. C. W. White of Woodward, Oklahoma, a gentleman who is well posted in the value of land in Western Oklahoma and the Texas Panhandle, informs me that he sold 23 sections of land in Hemphill county, Texas, a few days ago to a Northern man for a stock ranch, and that he has many inquiries from Northern people concerning these lands, which can be purchased at from \$3 to \$7.50 per acre, in tracts of one to ten sections, and up. Now, while prices are so very low, is the time for stockmen of moderate means to secure ranches. In a few years these lands will all be bought up, and the holders will not sell for twice what they can be bought for at the present time. The homesteader has just about taken Oklahoma, but conditions are different in the Panhandle. There is no Government land in Texas; but under the laws of that state, while they were on the market, one man could purchase from one to four sections from the state. Many have acquired large holdings of land and become wealthy, and are now ready to retire, and their lands can be bought at reasonable prices, which opens the door to the cattlemen of smaller means. The big cattle corporations are too much crowded and are going to Mexico and South America. The Panhandle of Texas has long been celebrated for its rich grasses and fine cattle. Its soil is good, and a large amount of it can be as profitably cultivated as the land in Oklahoma. It produces all kinds of fruit abundantly, its climate is unsurpassed for healthfulness and as soon as Northern men learn of the splendid opportunities offered there for the middle class of stockmen, that favored region will rapidly fill up with such men. —Woodward News.

Donley County Goes Dry.

The prohibitionists carried Clarendon dry by nearly 100 votes Saturday. Donley county is dry except for some good well water and you ought to hear them brag on that water. If wind and water will make a town, Clarendon is sure to force to the front, as any old Panhandle town can get wind and to spare. —Childress Post.

From a perusal of the Clarendon papers one would think that there are towns along the road that are "long" on wind but "short" on water. How about it, Brother Smith?

NOTES AND COMMENTS.

Pot Pouri of the Political World at Home and Abroad.

If the republican party were as honest as it is strenuous it might accomplish some reforms.

The republicans are doing some lively ping-pong with the trust question but it will need democratic singleness of purpose to satisfy the people and definitely settle the matter.

If a financial crash comes as a reason of the overcapitalization of corporate enterprises, the usual blame will be attached to the democrats. What a pity the democrats were not in power at the time of the Northern Pacific panic.

Many Ohio citizens in Washington, holding lucrative government positions, have declared themselves as in favor of the present incumbent as the nominee in 1904, and if anything should happen and Hon. Mark Hanna should loom up they would have to take the back track or swear that they did not know it was loaded.

The following criticism of the much-talked-of republican Hand Book is from the oldest and most prominent republican daily newspaper in the country: "To the casual reader it is made to appear not unlikely that the campaign managers do not recognize the trust question as one of especial importance, and, in fact, they have tried to minimize its importance, although they have included in the volume President Roosevelt's message to congress on the subject. It would also seem that, either consciously or unconsciously, an effort has been made by the compilers of the book to defend trusts."

W. F. Phipps

When our republican friends get through incubating their trust policy the brood will resemble democratic roosters.

The West and Middle West are, unquestionably, for tariff revision and are likely to have a say upon this important question, which will be made an issue, in the coming fall elections.

Judging from the force and vigor of some of President Roosevelt's recent utterances he must have been nourishing his mind on some such strong food as Baxter's Saints' Rest, or Johnson's Commentaries.

With \$600,000,000 actually invested in all the iron and steel plants of the country, the people would like to know what basis there is for the capitalization of the Steel Trust, which embraces only a part of these plants, at \$1,500,000,000.

An anomolous condition: prosperity all around, with wages advanced 10 per cent, meats 25 per cent, other provisions 40 per cent and coal nearly 100 per cent, and yet there is very little dissatisfaction except among those laborers who have thought it necessary to engage in strikes. This condition, however, cannot last. Wages must advance in proportion or the necessities of life be reduced, otherwise, prosperity will be but a name, and not one to conjure with.

It is said that Hon. Thomas Brackett Reed will not make any political speeches this fall. He has been out of politics, so long that it is feared he might not talk to the point, but speak out and say just what he thought.

The spectacle of Speaker Henderson travelling about the country in a private car to expound republican doctrines will doubtless prove edifying to the mine laborers who live with their entire families in one room twelve feet square. General Henderson's well stocked larder will also serve to electrify the prohibitionists.

Dr. P. A. Hubert, a prominent colored citizen of Chicago, says President Roosevelt is better qualified to be an imperialist than otherwise. That his record shows a displacement of colored office holders for white democrats never before known under republican authority. He suggests as a remedy for this evil and that of the disfranchisement of the negro in the South that the negro vote the Democratic ticket. He thinks such action would bring the republican party to its senses.

The republicans claim that they turned over \$2,000,000 to the Cuban Government upon its taking possession of the island. The receipts from revenues from the time of American occupancy of the island, July 18, 1898, to May 19,

1902, the time of evacuation, were \$57,200,000, and the expenses of running the island, or in other words, the amount of money the authorities expended in so doing, amounted to \$55,370,000, leaving \$1,830,000 as a starter for the Cuban Government.

A recent attempt to swindle the government out of at least \$25,000 has been discovered. It was in the case where only two bids were submitted to the Navy Department, both of which were excessive and were, consequently, rejected. Later it became known that the two bidders were in collusion and had approached other probable bidders offering them a certain amount in case the low bid was accepted. The old adage: "It is no sin to steal from the government," apparently still holds good.

The Difference.

At a recent tea given by a lady in Dakota town a very dignified young married lady and a North Dakota Soldier boy were seated together. The conversation lagged for a moment and the young lady said: "Tell me what is the difference in dress between the women in Manilla and those in Honolulu; I understand that the women of Honolulu wear wrappers?" "That is the difference," replied the volunteer, "the ladies of Manilla don't."

Y. M. C. A. Meeting.

Last Saturday evening a goodly number of young men interested in the organization of a Y. M. C. A. in Hereford met at the Williams & Harrison gents' furnishing goods store and heard the report of the committee appointed at a previous meeting for the purpose of securing members to such an organization. President Clark called for the report, which was read by the secretary, and it was found that forty-one men were interested enough in the maintaining of a high standard of morals among our young men to join and help organize an institution calculated toward that end. There are a great many more, we believe, who will join as soon as the matter is properly brought to their attention. Among those who have signified their intention of becoming members of this institution are the following:

D. H. Walsh, Lee Clark, F. L. Vanderburgh, T. R. Reagan, G. A. Sachse, W. H. Russell, Allen Bell, Thomas Howard, J. H. Hickox, H. D. Howard, J. A. Williams, Conner Jowell, T. J. Coffee, R. F. Holloway, John Boyd, I. Jennings, Judge Jno. E. Ferguson, Judge L. Gough, Dr. W. E. Robertson, Dr. R. M. Johnson, E. E. Dyer, D. F. Johnson, J. P. Harding, R. L. Ball, O. F. Smith, Emmett Cardwell, J. H. Cardwell, A. J. Lipscomb, Joe Killough, J. C. Newman, L. F. Gamble, R. F. Davidson, J. H. Beach, R. A. Daniel, J. W. DeVaney, T. J. Davis, G. A. F. Parker, J. P. Snyder, Dr. R. H. Gough, Esca Harrison and Ross W. Davis.

On motion the report of the committee was accepted and President Clark requested that the committee continue to act and also requested that all who were not on the committee endeavor to obtain members.

The question of a suitable building was discussed and the following committee was appointed to see about raising the funds with which to erect such a building for the use of the organization: T. R. Reagan, Conner Jowell, Judge Jno. E. Ferguson, Judge L. Gough and F. L. Vanderburgh.

It was also decided by those present to organize as soon as possible and get the business of the organization in proper working order.

There being no further business to transact the meeting adjourned. The next meeting will be held at the call of the president, of which ample notice will be given.

Cattle Movements.

A Wonderful Growth

During the past eighteen months our business has experienced a wonderful growth. Notwithstanding this favorable condition, we are not disposed to let this growth stop. We therefore solicit your business.

THE HEREFORD NATIONAL BANK

Do you want a Fine Home in the Panhandle?

I have for sale one of the best improved sections (640 acres) in the Panhandle of Texas, situated three miles east from Hereford, the county seat of Deaf Smith County. This section is in the valley of the Tierra Blanco river, which intersects it, and contains over 275 acres which will grow alfalfa profitably without irrigation, making it the best dividend paying section of land in the Panhandle. There are 55 acres in alfalfa at the present time, which will cut three crops each year. For the past nine years an average of 100 tons of valley hay has been cut from this land yearly, which readily sells at \$10 per ton.

...Improvements...

Among the improvements on this place are: A modern \$2500 8-room residence, modern \$500 2-story barn—26x46 feet in dimensions with 16-foot walls—corrals and out-buildings. Has a 75-foot well, containing 35 feet of pure water, with a 10,000 gallon storage tank and a water-works system supplying house and barn with water. A 16-foot Eclipse windmill with 6-inch cylinder supplies ample water to irrigate a 20-acre garden patch. This property would be an ideal one for party wishing to engage in the fine stock business. My reason for selling is that other business demands my attention.

A farmer's boy in Scotland was charged with attempting to steal an article from a shop door. In pleading his case he said he didn't steal the thing—he was only gaun tae dae it."

Whereupon the judge informed him that to do it and going to do it were all the same and that he would have to pay a fine of 10 shillings or go to jail for ten days.

The boy, not having the money, was allowed to go and get it from a friend. In a little while he was seen standing in the court, and when asked if he had got the money to pay his fine he answered:

"Na, but I was gaen tae dae it, and ye said that gaen tae dae it and dae it were jist the same. I'm thinking you and me'll be aboot clear noo."—Pearson's.

HEREFORD COLLEGE LETTER.

A Few Items of Interest From the Campus.

Miss Maggie Harris entered college Tuesday.

Miss Kate Rambo entered school Monday and is taking a special business course.

W. W. Wetsel of Amarillo brought his son, Harry, to enter school this week.

The music department has thirty pupils and prospects for more. Two new pianos are expected soon.

Hereford College Building Association has sent its president, Judge Gough, to Dallas to secure bids for putting in a steam heating plant.

Quite a number of applications have been received for the position of Kindergarten teacher. A competent teacher is expected to arrive in a few days.

The mother and two nephews of G. A. F. Parker arrived from Armstrong county Tuesday and are boarding at the Girls' Home. The two boys have entered school.

The Girls' Home is being papered, the carpenters are doing the inside finishing on the wood work and new furniture is being put in. The building and equipment will soon be unsurpassed in the Panhandle.

About 600 cubic feet of fine black-board has arrived for the college; also chemicals, apparatus and anatomical charts for the science department. This is but the beginning of the thorough equipment for the laboratory we hope to have in the near future.

The Brand

A Weekly Journal Devoted to the Interests of the Panhandle Country of Texas

FRANK L. VANDERBURGH
Editor and Publisher

WHAT are you going to do in regard to the tree planting proposition this fall?

WITH an excellent public school and a college second to none in the country Hereford can well be proud of her educational facilities.

THE BRAND would like a good correspondent at each of the surrounding towns and communities, for which services it will liberally pay. Will not some one in each community kindly volunteer to do this for us?

E. F. LITTLE has purchased the Texan Press, published at Plainview, from J. Winford Hunt, and will henceforth struggle with the rest of us Panhandle printers for a livelihood. Mr. Hunt, we understand, has accepted a position on the reportorial staff of the Rocky Mountain News.

Do you wish to see the main building of the Hereford College and Industrial School finished by Christmas? If so, go down in your pockets, you who are receiving the most benefits financially by the building of this enterprise. Are you aware of the fact that your land has more than doubled in value on the prospect of this institution? If not, compare the price of land tributary to Hereford now and the price it would bring last year at this time. Of course the natural growth of the country would have enhanced its value somewhat, but nothing in comparison to the enhancement the college has given it. Laying aside all other considerations, is it not really a business proposition to the real estate owners and business men of Hereford and vicinity to invest your just share toward the placing of this institution on a sound, financial basis? Had the college been finished on time, which it could have been had all invested their just share toward the building fund, there would have been over one hundred and fifty pupils attending the Hereford College and Industrial School at the present time. Isn't the trade of one hundred and fifty pupils, together with the the number of families which would have accompanied them, worth going after? Think this matter over and make your investments without delay.

If it's news you're after, subscribe for THE BRAND—one dollar per year.

LET'S incorporate and have a clean town—from a sanitary standpoint. The health of our citizens demands it.

WE are pleased to state that the county commissioners are taking measures to open up public roads in this county. Now is the time to lay them out, before the value of the lands condemned for this purpose increases to such an extent as to make their purchase burdensome to the tax payers.

ONE of the best things which ever happened to this country is the determination on the part of the XIT ranch owners to sell their lands to homeseekers. This will open up a vast area of country to settlement which would otherwise remain as it has in the past—inhabited only by vast numbers of cattle and a few cowboys.

SOME fine morning our citizens will awaken to the fact that many of our business and residence houses are razed to the ground by the fire fiend. Then and only then will they feel the need of a water works system and proper apparatus with which to fight the devouring elements. These progressive measures can only be had by incorporation. Why not provide these enterprises before our beautiful city is destroyed by fire?

It gives THE BRAND pleasure to announce that through the earnest solicitation of his many friends, Judge L. Gough has consented to become a candidate for the office of county judge and superintendent of schools. Judge Gough is a native Texan and came to the plains in 1891, settling in Castro county. Upon the organization of that county during the same year he was elected county judge, which position he held up to the time he moved to Hereford, which was in 1898, and where he has since resided, forming a co-partnership with C. G. Witherspoon in the real estate business. Since residing in Hereford Judge Gough has remained strictly out of politics, until the present campaign. Judge Gough has always been considered

as one of the most progressive citizens of Hereford, never leaving a thing undone which would promote the best interests of our city, and is generally in the lead to secure any enterprise for the town which would be a benefit to the town and its people—especially any educational enterprises. Should he be elected at the coming election we believe that he will fulfill the duties of his respective offices—that of judge and superintendent of schools—in a manner which would reflect credit upon himself and his constituents, and we bespeak for his candidacy your careful consideration when at the polls next November.

THAT this district is sure of having a good officer in the position of district attorney is manifest by the number of good men who are announcing their candidacy in THE BRAND. The latest addition to these announcements is W. F. Kelly of Silverton, who authorizes us to announce that he is a candidate for the position of district attorney for

the 47th judicial district. Mr. Kelly is well known to most of our voters, but for the benefit of those who are unacquainted with him we would say that he is a native Texan, having been born into the grandest of states twenty-eight years ago. For the past seventeen years he has been a resident of this section of the state, the last four of which he has been practicing law, three of which has been at Silverton. During that time he has been connected with nearly every important criminal case in this part of the country, and the older residents will remember him as one of the defending attorneys in the Thornton murder trial. We bespeak for his candidacy the consideration of the voters at the coming election.

As there are many new comers into this country who are unacquainted with the relative merits of the two candidates for district judge we will endeavor to enlighten them somewhat. Judge Wallace, the present incumbent, has held this

CUT NO. 1

The accompanying cut (No. 1) represents the jaws of a child between the age of six and seven years and shows the relationship of the temporary teeth with the permanent ones.

You can readily see the importance of taking care of the children's teeth.

Preserve the crowns of the children's teeth till wonderful nature has time to do its work. Nature intends for the permanent teeth to follow the roots of the temporary teeth as they absorb, but when you allow your children's teeth to decay and the nerves to become exposed and die an abscess results and extraction is necessary, nature is thwarted, and, instead of the arch of the

CUT NO. 2

mouth expanding for the reciprocity of the permanent teeth, the arch is necessarily contracted and conditions as illustrated in No. 2 are inevitable. Of course, these conditions can be remedied, but it requires a great deal of time, patience and expense, also a skillful *Orthodontist* that you don't often find. Few dentists will hazard their reputation on such cases. So parents watch your

children's teeth. We offer these suggestions for the reason that almost every day, we are consulted about irregular teeth and often we are compelled to extract teeth, when they should have been preserved.

position for the past twelve years, during which time he has, according to the testimony of every old resident with whom we have conversed, had somewhat of a leaning toward the anti-prohibitionist element, depending upon their strongholds for final victory. Then, when the prohibition element seemed to be the stronger in his district, he decided in their favor in the contest case at Amarillo. These facts are given to show that he is more of a politician than otherwise, though we will grant that he may have had a "change of heart." The other candidate, Ira Webster, is also well known to the older residents, he having been district attorney for some time, but for the benefit of those who are unacquainted with him we would say that he has always been a strict prohibitionist and a consistent church member, an able and forceful attorney—uncompromising when dealing with an offender of the laws, as they appear on the statue books—and we believe that, should he be elected, will make an able judge and will make a record for himself, such as will be approved by the the people whose votes elect him. Then, too, we believe that Judge Wallace has held the office long enough and should retire and allow some younger man to have an opportunity. But, being a politician,

he is not liable to retire until the people retire him by their votes.

 on were made for them; it's a satisfaction that's worth paying for,
 but—
 Some tailors charge too much for it; perhaps they need the
 money; we don't know. But—why not

After you have selected the pattern for a suit of clothes, all
 you can get in it at any price is style and fit. You may say that in
 addition the garments should be well made; but that's only a repe-

 you may depend upon that; and if they are well made, they fit and
 have style; the terms are inseparable.

Reasons for Buying a Deering Corn Binder

- BECAUSE It binds corn while lying in a horizontal position.
- BECAUSE Its wide frame gives steady motion.
- BECAUSE Long, short, down or tangled corn are all bound with equal facility.
- BECAUSE It is thoroughly equipped with Deering roller and ball bearings.
- BECAUSE It is provided with Deering covered oil cups.
- BECAUSE Of the large space between deck and drive wheel.
- BECAUSE Of its enclosed gear drive and immediate and direct distribution of power.
- BECAUSE It has self-aligning boxes held in position by bracket supports.
- BECAUSE It uses but a small amount of chain, only one-third of that required on other binders.
- BECAUSE The band can be placed on the bundle exactly where desired.
- BECAUSE A fly wheel running on ball bearings steadies and governs the knife.
- BECAUSE The knife can be easily removed.
- BECAUSE Only one-half as much power is required to operate it as with other corn binders.

MEDICATED SALT

MEDICATED SALT

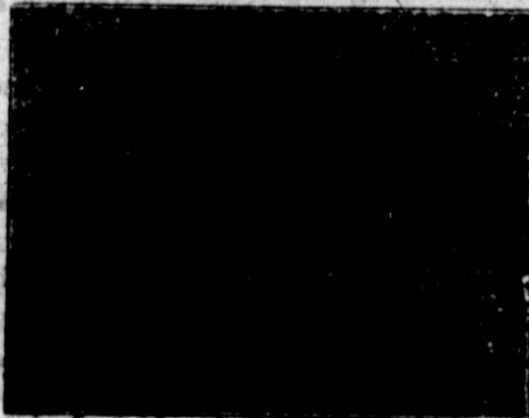

The Stockmen's Life Long Friend

WE DESTROY NO CATTLEMAN'S GODS.
Incorporated with the purest of salt is saltpetre, sulphur, ashes, bone meal, nux vomica, gentian and other important ingredients generally overlooked by the majority of cattlemen. The result is perfect satisfaction. Medicated Salt is put up in block form, 20 lbs. to the block. It is convenient to use and impervious to rain. Once used and you will not do without it.

The Only Medicated Salt Made

We quote you price of \$1.75 per 100 lbs., f. o. b. Colorado, Texas, less than car load lots. \$1.50 per 100 lbs., f. o. b. Colorado, Texas, in car load lots. Money must accompany all local orders.

It Destroys Ticks

BEWARE OF IMITATIONS
It prevents Blackleg, kills stomach worms. Prevents all diseases cattle are subject to, and never fails to build up run down stock of all kinds.
STOCK SALTED AND MEDICATED AT THE SAME TIME

The Greatest Triumph of the Age

"TO WASTE NEITHER THE CATTLEMAN'S Time or Money" is our motto. Our product is used with marked satisfaction by the stockmen of this part of the State. With our new factory now in operation at Colorado City, where salt is manufactured in the natural state, we are better prepared than ever to supply the demands of our patrons. Satisfaction guaranteed. Prices quoted on application.

The Only Medicated Salt Made

Remember, Medicated Salt is not an experiment, but a demonstrated success. Present prices place it in the reach of all, and the wise stockman is the one who always provides against emergencies.

FORT WORTH

BIG DEAL OF XIT.

An Important Scheme of Public Road Through XIT Pasture.

Col. A. G. Boyce, representing the XIT, sold to Thos. Kelly, of Chicago 55,000 acres of land at \$2.50 per acre. Improvements \$600 and fencing 100 per mile.

In addition to the above and nearly doubling it in the amount of land involved, was 102,400 acres to A. Laird, improvements and fencing at same price.

Manager Boyce said to a reporter, "We will now build a public road from the Mexico line straight through to our east line, and on each side of this line the land will be sectionized and sold at \$2.50 per acre."—Channing Courier.

L. H. Boyce, who is stopping here, said that the second sale only consisted of 10,240 acres. Since that time Mr. Kelly purchased 25,000 acres in addition to the first 55,000.

A Christian Colony.

The town of Hereford gives promise of being a Campbellite colony in the near future. All adherents of that faith in northwest Texas are headed for Hereford.—Memphis Herald.

Let them come—they are good people—and we can't get too many of that sort.

Why Do They Persist?

Mal Shelley left Sunday for Hereford taking his sons, Mal and John, and daughter Miss Pearl, where they will attend the Christian College. Mr. S. expects to move his family to Hereford in the near future.—Hale County Herald.

Miss Iva Norton has left for Hereford to attend Dr. Randolph Clark's institute.—Quanah Tribune-Chief.

Why do our exchanges persist in calling our college anything but its proper name—The Hereford College and Industrial School. We have repeatedly called attention to the fact that our college is strictly non-denominational, non-sectarian and non-partisan, yet our exchanges would give the impression that it is anything but that.

For Sale.

One of the best improved ranch places in New Mexico. Good one and one-half story stone building, good corrals, well watered, mowing machine, plows and tools together with 100 head of stock horses, about 50 of which are young stuff out of Standard Black Hawk horse. Also one black Spanish Jack eight years old and one Mammoth Jack six years old. Ten miles of fence. Will transfer lease to two school sections. Price for all, \$4,000. Will give terms on part. Apply at the Hereford Dental Parlors, or at this office. 26tf

ANOTHER THRU TRAIN TO KOOL KOLORADO

BEGINNING JULY FIRST, WE SHALL HAVE TWO THRU TRAINS TO COLORADO EACH DAY.

One will leave Fort Worth at 9:45 a. m., the other, 11:10 p. m., after the arrival of all evening connections.

For guests who wish to retire early, a sleeping car will be ready each evening at 9 o'clock.

Both trains will be run thru to Denver. Each will carry thru coaches and sleeping-cars, and meals will be served, en route, in cafe dining-cars.

Tho this doubles the thru train service to Colorado from this territory, there is still "Only One Road" which has any at all. We have also the only direct Colorado line; make the best time, and haul very nearly everybody who goes. And, using our line, "You Don't Have to Apologize," you know.

"THE DENVER ROAD"

Passenger Department

Fort Worth, Texas

N. B.—The rate from all Texas points, is one fare plus two dollars for the round trip, good, returning, till October 31, on sale all summer, every day. Tickets routed over our line have more stop-over privileges than any other road can offer, too.
