## All Over the Panhandle

Matador has a cotton gin.

Extensive repairs will be made on the Baptist church edifice of Clarendon.

Three boys were killed near Higgins in a recent heavy electrical storm.

Childress, at her recent local option election, went anti by a large majority.

The Amarillo postoffice has been changed from a third-class to a second-class office.

Quanah had an incendiary fire June 4. It was discovered before much damage was done.

At Silverton in a recent storm the Methodist church, and a number of windmills and residences, were wrecked.

Giles, a thriving little town on the "Denver" road between Clarendon and Memphis, wants a cotton gin and a blacksmith shop.

A heavy storm at Childress last week damaged the "Denver" shops to the extent of \$2300. Other property around the town was also damaged.

Editor L. E. Haskett of the Childress Index has been appointed chairman of the Democratic executive committee for the Thirteenth Congressional District.

The case of the State vs. Lee Doran for negligent homicide at Clarendon was dismissed for want of evidence. It will be remembered that Doran is the man who dropped his pistol to the car which exploded and caused the death of W. R. Curtis, a prominent businessman, a few months ago.

The Cumberland Presbyterians are erecting a new church edifice at Childress.

The bridge across the Red river at Quanah was washed away by the recent floods.

Childress will soon have a building and loan association with a capital of \$25,000.

Quanah is elated over the prospects of having the Texas Central extended to that town.

J. T. Sims has been appointed sheriff of Douley county in place of W. H. Oliver, who resigned.

A skeleton of a man was found near Miami recently, which is believed to be that of an old man who was employed at the pumping station about eleven years ago and who is supposed to have been murdered.

Infant daughter of Mr. and Mrs. A. G. Gray of Canadian, May 29.

### ANNOUNCEMENT.

Hereford College Will Be Open to Students September 10, 1902.

THE HEREFORD COLLEGE will open its doors for the admission of students on the 10th of September, 1902, in the new, progressive and beautiful little city of Hereford, county seat of Deaf Smith county, situated 47 miles south of Amarillo on the Pecos Valley and Northeastern Railway, a branch of the great Santa Fe System.

The following are some of the inducements it offers to students and patrons of the Southwest:

1. An altitude of about 3600 feet gives a dry pure atmosphere. This with an abundance of good, pure water gives us an advantage in point of healthfulness enjoyed by few other institutions in the land.
2. A community of high moral tone, exempt from the evils of saloons, "blind tigers" and drunkenness.
3. Excellent material equipment. The main building, now in process of construction, will be a large and beautiful structure of brown stone,

with large, well furnished and comfortable recitation rooms, laboratory, library, auditorium and music halls, easily accommodating 350 students. A large, well heated and well ventilated "Girls' Home," with all the refining and comforting influences of a well regulated christian home, is offered for the care and protection of the young ladies. Practical instruction in Horticulture and Dairying, at the same time affording young men an opportunity to reduce expenses.

4. Thorough work by a well trained faculty of University men.

5. A course of instruction calculated to make well informed men and women, with the power and habit of thinking, as well as to thoroughly prepare students to enter the junior year of the greatest universities in America.

6. The institution is to be thoroughly christian, but strictly non-denominational and non-sectarian.

The chief purpose of its founders is to assist young men and women in the formation of character. The aim of the college is not to produce intellectual giants, but well rounded and fully developed men and women.

**Program for Northwest Texas Press Association.**

The following is the program adopted by the executive committee of the N. W. T. P. A. which met at Bowie last Saturday for that purpose:

- President's address.
- "Getting Business and Keeping it," Harry Koch, Tribune-Chief, Quanah.
- "Best System of Collecting," A. M. Beville, News, Clarendon.
- "What a Newspaper owes to the Public," W. A. Johnson, Herald, Memphis.
- "What the Public Owes to the Newspaper," T. W. Davis, Republic, Weatherford.
- "Premiums and voting contests," N. W. Holcomb, Messenger, Decatur.
- "Should Entertainments that are charged for have press notices free?" Orion Procter, Index, Boyd.
- "Should we charge Advertisers a Flat Rate?" J. N. Rogers, Gazette, Jacksboro.
- "Price to charge for Foreign advertising," J. F. Lockney, Advocate, Amarillo.
- Report of delegates to the National Editorial Association.
- Question box.
- Cloudercroft and Los Angeles, and the Mammoth Cave were discussed as places to visit at the close of the meeting, and the president was instructed to take up the correspondence in reference to the trip. Every member of the Association is requested to notify the president at once whether or not they can go on the excursion and their choice of the above two places to go. Don't fail to do this, for if an extended trip is taken, the railroads will require a representative body before they will make a contract. All who intend to become members and go on the trip should also notify me. It is my desire that all the papers in the bounds of the Association—north of the T. & P. Ry., and west of the H. & T. C. Ry.—be represented at the Jacksboro meeting the 2d Tuesday in August.

Respectfully,  
W. P. BLAKE, Pres.

**Loco Weed is Disappearing.**

We notice an article in the West Texas Stockman which stated that the loco weed was gradually disappearing. There is a great deal less of it in this part of the country this year than there was last, but there is a question in our mind as to whether it is disappearing for good or just backing off to get a fresh start. However, it is a fact that various weeds that were plentiful in this country 12 or 14 years ago have entirely disappeared and it may be that the loco weed will have its day and finally disappear altogether. Last year loco weed was plentiful

**Finest He Ever Saw.**

T. G. Hendrick returned this week from Hereford, where he has spent the past six weeks on livestock business. He sold his yearling steers while away at \$17.50, the purchaser to take all. Mr. Hendrick says that part of the Panhandle is in the finest condition of any country he has seen. The crops are all that could be expected. The loco weed is scarce. —Memphis News.

**An Unanswered Question.**

The Monroe Journal says: "The storm Sunday seemed to have especial fury for church houses and worshipers therein. On one occasion when a bolt of lightning jumped through a belfry of the church and ran down a post against which an old strict-construction brother was accustomed to sit and listen to what he considered altogether too loose interpretation of scripture the good old brother considered it a direct evidence of the Lord's displeasure of such unscriptural doctrine. By the way, why does lightning strike churches, anyhow?"

The Statesville (N. C.) Landmark adds: "This is an unanswered question. The storm of Sunday as the Journal says, was noticeably destructive to churches. A few years ago when a cyclone passed over Statesville churches were damaged and houses around them

untouched. If a storm destroys a stillhouse or a saloon the righteous are disposed to call it a judgment of the Lord; but why are the churches destroyed?"

ANSWERED.

While it is true that narrow-minded church people claim that it is a visitation of the wrath of God when a saloon or other similar businesses are destroyed by the elements, the fact that churches are often destroyed by these same elements, is easily explained: A church building, by reason of its prominent elevation, is more susceptible to wind and lightning than are buildings of a lesser height, and consequently receive the most damage.

**Stone for the College.**

A force of men has been at work this week laying the switch at Rasmussen's rock quarry, and with this completed he will begin at once to ship out stone. He has a contract that calls for 2500 perch for Roswell at once, and the Hereford College at Hereford, Texas, calls for 1200 more, and probably a greater quantity than this, for it is reported that the board in charge of the work are contemplating increasing their order. —Roswell Register.

**Hereford Cattle.**

I have for sale about 250 head of practically pure blooded Hereford cattle, with registered Hereford herd bulls. This herd was founded with heifers from Mrs. Cornelia Adair's JJ herd. For twenty years only registered bulls have been used in the herd. Liberal terms given. I have also a fine lot of high grade Hereford bulls of my own raising, now ready for service. **HEREFORD TO CELEBRATE.**

Enthusiastic Meeting Held at Murchison & Boyd's Real Estate Office.

Last Monday afternoon a meeting of the public spirited citizens and business men was held at the real estate office of Murchison & Boyd for the purpose of determining whether Hereford would have a big celebration on the great and glorious Fourth.

Judge L. Gough was elected to preside over the meeting and F. L. Vanderburgh was appointed secretary.

Chairman Gough then stated the object of the meeting and said that if it was the will of the meeting that we should celebrate he was confident that Congressman Sam T. Lanham, nominee for the governorship of the state, could be prevailed upon to be present and make an address.

Upon a seconded motion it was unanimously carried that we celebrate with a big free picnic and barbecue. It was also decided to have the celebration, together with the events of the day, upon the Hereford College campus. This was deemed advisable on account of having plenty of room and the fact that the corner stone of the college would be laid on that day with impressive ceremonies.

T. R. Reagan, representing the Hereford Manufacturing Company, volunteered to build a large tank and place it upon the grounds to provide water for the visitors, also said that he would let it remain there for the convenience of the men engaged in erecting the edifice.

Upon a carried motion the chair was empowered to appoint the various committees necessary for the successful issue of the great event, and upon that power the following committees were appointed:

**FINANCE.**

A. P. Murchison, A. J. Oliver, J. M. McGlothlin, Rat Jowell and T. R. Reagan.

**A Psalm of Conquest.**

A writer of the Roswell Record, who signs himself as "The Tenderfoot," gets off the following satire on the policy of the United States in their dealings with the Filipinos:

According to latest advices, and judging from recent congressional investigations, the following is now the way Uncle Sam renders the 123d Psalm in the Philippines:

1. The Filipino is my sheep, he shall not want cure by water; nor shall his tribe increase too much.
2. I maketh him to lie down by the trail; if he refuseth I shooteth all over ten; I pursueth him into still waters.
3. I dematerialize his soul from his body; I lead him into the paths of rum and bock beer for my trade's sake.
4. Yea, though he walk into town under a flag of truce, and the shadow of death is upon him, he shall fear no evil, for I am with him; my American rifles and booze they shall benevolently assimilate him.
5. I prepare a table before him for the feasting of his enemies; I anoint his head with Chicago lard and Alabama cottonseed oil; his cup of emancipation runneth over.
6. Surely Smith and Peace shall follow him all the days of his life, and he shall dwell under the protecting arm of civilization as long as I have anything to do with him—which will be until the Pasig freezeth over.

**HEREFORD CATTLE**

**At Hereford—A Sight Never Before Seen on the Plains.**

With the shipment of the long "S" two-year-old steers from Hereford this week there have been 45,900 head of cattle sent from this point to the Northwest. There are \$300 in the long "S" herd sold by the C. C. Slaughter Cattle Company of Texas to the Pioneer Cattle Company of Montana, of which Conrad Kohrs of Helena is president, and J. M. Boardman, general manager. This is the largest delivery of two-year-olds of one mark and brand made to one purchaser in the Panhandle, and attracted unusual interest from the fact that there were upwards of 2000 whitefaces in one of the bunches, chiefly the descendants of Ancient Briton, the famous World's Fair champion Hereford bull of 1893, and ten of his best bred registered sons which came to the Slaughter breeding establishment with him. Besides to their registered Hereford cows these bulls were bred on the cross "J" cows, 2000 of which came to the Slaughter ranch in their purity just as Charles Goodnight selected them from the famous "JJ" herd when the division was made with Mrs. Adair of the Palodura ranch. From these cross bred Shorthorn-Hereford bulls come the sires of these whitefaced two-year-old steers.

Ancient Briton, Sir Bredwell, (champion of the Omaha exposition), Country Gentleman, Rex and upward of 100 other registered Hereford bulls of fine individual form and established breeding merit were brought into this herd the same season. But these herds are the gets chiefly of the sons of Ancient Briton and himself out of the full blood cows bought by Col. C. C. Slaughter for the establishment of the Texas blooded cattle preserve which he has founded on his solid body of land on the plains containing 450,000 acres.

In company with A. W. Marriott and Thomas Tomb of South Dakota, A. B. Robertson of the "Hat" brand, H. H. Robinson, ex-president of the American Cattle Raisers Association of Colorado, Col. C. C. Slaughter of Dallas, John Loftin of the "Curry-Comb" ranch, G. M. Slaughter of Roswell, N. M., R. L. Slaughter of Midland, W. P. Anderson, range cattle statistician, of Chicago, and others, including W. W. Meeks, with photographic outfit, the representative of THE BRAND visited the holding grounds of this herd near Hereford, where they were separated in three bunches, representing the whitefaces, the pure reds and red and white and roans, thus outlining three distinctly uniform colored types of cattle—"just

like John D. Gillett, the great Illinois cattle grower, shaped up his cattle for market," said Mr. Anderson.

The Shorthorn end of this herd having for several years been recruited with the entire crop of the Gillett bulls, as well as several consignments of Gillett heifers, which were added to the already deeply dipped Shorthorn blood of the long "S" herd.

All of the cattlemen of the party, many of whom are among the largest and most progressive cattle growers of Texas and the Northwest, were pronounced in their expressions of admiration as a whole, and were concurrent in the opinion that this was the greatest herd of range steers of one age ever brought together. Mr. Robertson was especially enthusiastic, who, when he saw the pure

reds and the red, white and roans, thought they could not be beaten until after he had driven through the whitefaced bunch, which he said were the best. Sugg Robertson is a natural cowman and is considered one of the best judges of cattle in the Southwest and has unusually strong predilections favoring Shorthorns, hence his judgment and candid expressions of opinion of the superiority of this exhibition of Hereford cattle breeding are very complimentary to this high-class Hereford cattle blood.

Mr. Boardman says that when these cattle are sent from the Montana ranges to market, which will be in 1904, that they will be gathered and shipped separately, as they were received, and that a record will be kept of the results, so that the value of the different elements of blood entering into their breeding

can be practically demonstrated on the final market.

**Butter at Sixty Cents.**

The Kansas City Journal, one of the leading Missouri papers, comments on the passage of the Oleo bill as follows:

"Grocers, produce men and packers are alike in believing that the price of butter will rise as soon as the Grout law becomes effective. Creamery butter was 31 cents per pound two weeks ago. Since then, the available supply has increased very rapidly, and it was selling yesterday for 23 cents per pound. It is expected that the price will continue to be low until the law goes into effect. Every man who has a cold storage plant has begun to buy as large quantities as he can get and store it, in anticipation of a rise in price, and this will probably hold the price up. Meantime, the packers are making and putting on the market all the oleomargarine they can find buyers for.

"The rise in the price of butter will begin as soon as the law goes into effect," said a ninth street grocer yesterday. "It may not go very high this summer, because the supply during warm weather will be large, unless the cold storage men try to corner it. But it will be out of sight next winter. The men who passed the oleo bill had no idea how large the sale of it is. The dairy men and creamery men cannot come anywhere near supplying the butter demand the year round. I believe people will be paying 50 or 60 cents for butter by the middle of next winter."

We would urge that every citizen decorate their residences and business places with flags and bunting and thus give our city a beautiful and patriotic appearance.

**SCHOOL TAX ELECTION.**

To Be Held on Saturday—Everyone Should Vote.

On Saturday next there will be an election to decide whether the county's taxes shall be increased from twelve to twenty cents on each \$100 valuation. There are many reasons why this tax should be carried, chief of which are that two new school houses are needed in the county at once—one in the Files settlement and one in the Bassett settlement—and that the High School in Hereford is in need of financial assistance, and as the increase is so slight—only eighty cents on each \$1000 valuation—it should be carried without a dissenting vote. The county is growing rapidly in population and more school buildings will be needed from time to time and the taxes collected in the county are the only available funds for this purpose, the appropriations by the state for school purposes being available only for the payment of teachers' salaries. Everyone should come out and cast a vote in favor of this project as good schools are an absolute necessity in the building up of a new country, as well as to sustain an old one.

**The Story of a Farmer.**

A farmer living not far from town brought in some butter last week, and after going to every store in town was compelled to take his butter home unsold. It seems that this farmer sends to Montgomery Ward & Co. for everything he buys, and our grocers have decided to let him sell Montgomery Ward & Co. his butter. And that reminds us that when the Baptist ladies held their bazaar last week they wrote to Montgomery Ward & Co. and to Sears, Roebuck & Co. for a contribution. Their first letter remained unanswered, but the second elicited a reply from Montgomery Ward & Co., who said that they gave away a great deal for charity, but confined their giving to their home town. Why not allow them to make their money off of their home town?—Palmyra (Mo.) Herald.

**A**S THE CUTS I have for this week only illustrate METAL WORK, I will describe how that class of work is done. You often see teeth without Plates advertised. Fig. 1 fully illustrates that class of work. You will readily see that the patient has four natural teeth, the second molars (which are crowned with gold) and the two canines (which are cut off and Richmond Crowns set). Then we set in Porcelaine facings and the piece of work is attached together with gold, which is commonly called a "Bridge." All of this class of work I do with coin gold, which is the toughest gold we can get. Those needing this class of work would do well to call and see my facilities for doing this branch of Dentistry. Figs. 2 and 3 illustrate smaller pieces of work. Fig. 4 shows surfaces of teeth, and is intended for a diagram showing the work done, which I

will give you for references, as each tooth operated on will be marked, while Fig. 5 shows a Metallic Plate. To those who have been wearing Rubber Plates and are dissatisfied with them, I would request that they call and get prices on my sensitive Aluminum Plates, which are unquestionably the most comfortable plate you can wear. Opposite is a half-tone cut of the man who does the work, and he will be glad to have you see any of these appliances made that you may need, and will explain in detail the methods.

A Weekly Journal Devoted to the Interests of the Panhandle Country of Texas

**FRANK L. VANDERBURGH**  
Editor and Publisher

**HURRAH** for Hereford and her enterprising citizens! We celebrate the 4th.

It has been reported, we understand, that J. M. McGlothlin has withdrawn from the sheriff's race. This is a mistake, as Mr. McGlothlin has assured THE BRAND that he was in the race to stay, and has requested us to so state in emphatic terms. Why anyone should make such erroneous statements is more than we can understand, especially when the fact is taken into consideration that there is absolutely no ground for them, and anyone who would start such reports is in pretty small business.

Did you ever stop to think of the many calls which are made upon our merchants for charitable purposes? If you have not, pause and consider a moment. If you are broad and liberal minded the next time you start out with a subscription paper you will pass them by and solicit from some of the land owners, who are far more able to contribute to your cause than the constantly drained business man. Often times, too, we are sorry to say, there is an implied threat to boycott the business of our merchants if they refuse—solely on account of being financially unable—to comply with all the demands upon their exchequerer.

With the opening of the Hereford College we may expect the town to gain at least three hundred more citizens. Isn't incorporation necessary?

THE citizens of the Panhandle are cordially invited to attend the Fourth of July celebration at Hereford and have a good time. There will be plenty for all in the way of eatables.

RANDALL county at their democratic caucus instructed for Judge Gough for representative and R. F. Holloway for district attorney. Who says that Gough is not a candidate?

EVERYONE should take an interest in the great celebration to be held the Fourth. By an earnest co-operation of our citizens the day can be made a memorable one in the history of the plains country.

**Announcements.**

District Judge of the 47th. Judicial District.

H. H. WALLACE.  
IRA WEBSTER.

County Judge Deaf Smith County.

W. B. BOYD.  
FRANK M. AVIS.

Sheriff and Tax Collector of Deaf Smith County.

Assessor Deaf Smith County.

J. S. WYCHE.

WHAT did you say about incorporating?

THE growth of our city and the health of our citizens makes incorporation imperative.

If you miss the celebration at Hereford on the Fourth you will miss the best time of your life.

HEREFORD is the only town of importance in the Panhandle which has not taken steps to incorporate. What is the matter?

If you don't know anything about the cattle business and want to learn all about it, spend a few evenings at either of the hotels and if you don't know all about the business (theoretically) after that time it is because your powers of absorption are latent.

Judge J. P. Connell has finished taking the school census for the Hereford school and announces that there are 288 children of the age designated by the state (8 to 17 years). On account of a special tax being in force in this county for school purposes children between the ages of 7 and 20 have been allowed to attend free, and within these ages there are 356. A pretty good showing.

**Keep Cool.**  
Make arrangements with Troy Womble to bring you ice every morning. Phone 76. 10tf

**XIT's in Favor of the Tax.**  
We have heard it rumored that many would be opposed to the increase in the tax for school purposes, an election for which will be held tomorrow (Saturday), on account of the fear that the Syndicate owners would object to it and force a division of the district into separate school districts, in which event, it is claimed, the schools would suffer. This impression is erroneous, as this company is in favor of the tax, having so expressed themselves. They believe that the better schools we have the more valuable will be their land. So come out and vote for the increase.

**Notice.**  
We have on hand a complete line of the Kingman and standard cultivator that we propose to close out for cash at 5 per cent above cost and carriage they were bought right and shipped in car lots. Call early and get choice. Respectfully

 gives the prices—not a picture in it—needed the space for real information. But we have  
 some very select stuff, with handsome illustrations, which we have had printed just to give  
 away to those who appreciate it and are interested in Kool Colorado, and Ticket Agents,  
 all over the State, have supplies. They will be glad to give you these books, also to sell  
 you your tickets, and, if you tell them you want to go so that "You Don't Have To Apolog-
