WASHINGTON, Nov. 9 (AP)-The supreme court held constitutional today legislation imposing a 49-cent-per-bushel penalty on wheat produced and sold in excess of Agricultural Adjustment Administration quotas. 172

Justice Jackson delivered the opinion on a challenge of the 1941 legislation by a group of Montgomery county (Ohio) farmers. The litigation was considered of farreaching importance by the

promulgated by the secretary or Roosevelt administration. The legislation, passed by Con-gress May 28, 1941, increases the penalty on the excess over AAA quotas from 15 to 49 cents per bushel and prevented the sale or bushel and prevented the sale or

FD's Message Indicates Blow Eastward At Axis

WASHINGTON, Nov. 9. (P)-President Roosevelt has notified the Bey of Tunis that the Amerlcan armed forces in North Africa hope to pass through French Tunisia, apparently to

strike eastward toward the Axis forces now retreating from Egypt. The White House disclosed today that the message had been delly-

American armed forces which I am dispatching to North Africa in collaboration with the forces of France, will cooperate with you in

the defense of your country. They have no other aim than the early destruction of our common enemy. "They and their Allies hope for the great privilege of passage through Tunisia thus enabling them to accomplish their mission —the elimination of the forces of evil from North Africa."

Tunisia is a French protectorate ying between Algiers, which American troops already have entered, and Italian-controlled Libya. The

Bey is the nominal governor of Tunisia. The message to him was transmitted through Admiral Jean Pier-re Esteva, French resident general

at Tunis. While the chief executive's message was couched in friendly, polite terms, it could be regarded

as a sort of ultimatum to let United States forces go through Tunisia. There was no explanation of the

president's reference to collabora-tion with the forces of France, although this government had ap pealed to the French to cooperate with the American troops toward the ultimate goal of freeing the French colonies from the threat of the Axis.

CAIRO, Nov. 9 (AP)-Remnants of Marshal Rommel's fleeing Africa corps shook loose from the advancing British Eighth army today and plunged across the Egyptian border into Libya in the vicinity of Halfaya (Hellfire) Pass despite heavy American and British air bombardment which made that route nearly impassable.

British advance forces which had been making a des perate effort to catch the back-pedalling enemy plunged into Libya only a few hours behind the rear axis troops.

The situation in Halfaya Pass at the moment was described as "confusing."

ALGIERS TAKEN: VICHY PUTS RESISTANCE

By The Associated Press LONDON, Nov. 9—United States forces, striking with overwhelming might and en-quisite precision, closed today upon the key defenses of French North Africa after inflict-ing serious losses on the Vichy navy at Casablanca and capturing Algiers. This powerful American challenge to Hitler, still only at its start, has been achieved with but slight United States losses, an allied headquarters spokesman said. Most of the resistance so far has been naval, he said, but there is no doubt that the combined might of United States and British naval strength backing up the landing op-

erations can cope swiftly with any Vichy forces which might seek battle

Both axis enemies were said to have entered the defense of North Africa with air action against the allied fleets off Algiers, but the headquarters spokesman declared there was no truth to reports that the French fleet had steamed from Toulon to enter the battle.

A German communique said that German and Italian planes had scored bomb hits on six allied warships and four merchantmen in attacks since Friday night against British and American vessels off Algiers.

The Vichy radio reported that Italian planes had attacked Gibraltar today but gave no account of the results.

Besides Algiers, which capitulated under land, sea and air attack last night at the close of the first day of the campaign, the Americans also had occupied Safi, on the Atlantia coast 140 miles south of Vichy Warships In U.S.

Americans still were streaming ashore in Axis-dominated Vichy's empire and a French communique disclosed a still wider sweep to the

complete the break in relations with the United States. WASHINGTON, Nov. 8 (27)—Secretary of State Hull disclosed today that all Vichy French ships in American ports had been taken into protective custody. Hull also said that passports for Vichy's ambassador, Gaston Henry-Haye, were ready and would be handed to him in due time. The secretary told his press conference that Henry-Haye had not yet requested an appointment to see him, but that such a visit in any case would not be necessary. Asked whether the French ambassador and his staff would be interned pending their return to France on an exchange ship, as were the Japanese, German and Italian diplomats, Hull said the situation in this case was different. Mull's disclosure concerning the seisure of Vichy French ships was in answer to a question about the reported seizure of three Vichy French freightors by the coast guard at New Orleans. Hull explained that these ships had been taken into protective custody until the full significance of the new developments could be evaluated, and added that any other Vichy ships in any American ports would likewise be under such custody.

77 Taxi Bows |Real 'Home Cooking **Woman Driver**

That all taxi driving will sooner or later be up to women is the opin-ion of Odie Moore, owner of the 77 Taxi Company, who, for the first time in his eight years experi-ence in the cab business, has a woman driver.

She is attractive Mrs. Zora Car-ter, whom he hired about a month ago to beat the labor shortage, and she is one of the most efficient, careful and capable drivers on the force, usually making as much money as any of the men.

Moore started in the cab business Moore started in the cab business here in 1935 with his father, H. T. Moore, operating the 38 Taxi Com-pany at the Busy Bee Cafe. About 14 months later they established the 11 Taxi Company at the Set-tles, and in February 1937 bought and added to the system the 77 Company. Dividing the partnership in May

1938, the elder Coore took the 33 company and his son the other two, which he consolidated and now op-erates as the 77 Taxi Company at 112 Runnels.

Starting in 1935 with one "very much second-hand cab," Moore now has four almost new cabs in service, and his business has about doubled since the bombardier school was located here. Except for war-time restrictions on the service because of the tire short-age, Moore finds the taxicab busi-ness has changed little during the past eight years. PLEASE AVOID THESE BUSY HOURS

By not calling from 9 A.M. to noon, you leave clear right of way for Army and Navy men and government officials to put through the thousands of long distance war calls they must make every day.

By not calling from 7 P.M. to 9 P.M., the hours when the boys call home, you help the thousands of soldiers and sailors in cantonments and ports

to do their telephoning in the few hours they have

By not calling from 2 P.M. to 5 P.M., you help those same Army, Navy, and government men to complete the day's husiness—and you leave the wires clear for the men who make the calls that help to produce more tanks, airplanes, ships, and shells

ing your long distance calls in less busy hours whenever possible, you help to speed the nation's business of winning this war. You know we can't get material to build more lines just now, and we know you're glad to help in this way to make the most of what lines we have. Thank you!
