Members of the West Texas Rural Telephone Co-Op passed by a 2-to-1 margin a proposal for revamping present facilities and installation of a five party system. Cost of the program was placed at approximately \$564,084 plus engineering and overhead costs.

Rate charges are to be increased under the proposal from the present rate of \$5.75 to \$8

for the new service. This is an increase of \$2.25 for the five-

party line.

If the proposal for the installation of an eight - party system had been passed at the called special session of telephone cooperative members, rates would only have Plant Changes been upped to \$6.75.
Improvements to be included

in the reworking of the rural telephone system are installation of more trunk lines, redesigning of the central offices, and installing additional lines. In the proposal, part of the new lines to be constructed will

be buried. However, present pole lines will still be in service since the cost of reworking all lines in tthe system would be prohibitive. Direct distance dialing is

not included in the proposal. It was pointed out during the meeting that cost per exchange would run about \$5,000 or more. More trunk lines would also

be needed plus special equipment to handle the service. According to Car! Dalgren, REA field engineer, Lubbock, direct distance dialing "was not deem-During discussion of the pro-

IT WAS BOTH EMBARRASSING and amusing to Cynthia Seed, 16-year-old daughter of Mr. and Mrs. Walter Seed, when she suddenly found herself trapped by a pay telephone Thursday. The mishap occured as the student called a friend from a pay phone in Hereford High School, "I was just fooling around and stuck my fingers into that opening (the coin return slot) and couldn't get them out," she blushingly related. Telephone company workers arrived in a few minutes and freed her, with no damage other than some sore fingers and slightly bruised feelings.

(Continued from page 1) due to the number of the customers in the area.

However, cooperative members were assured that no more than five subscribers would be on a line due to the manner in which lines and telephones are installed.

It was also pointed out during the question and answer session that new facilities would include plans for projected expansion of the cooperative for the next five to 10 years.

The plant modification has been designed in order that the cable will take care of growth for the next 10 years while subscribers and central plant facilities are designed on a five · year basis.

At the beginning of the session. Vernon Inmon, cooperative manager, commented that the session was called to finish J. O. McMichael and greatsome unfinished business of the great grandparents Mr. and cooperative.

He pointed out that the proposals had been discussed at the annual meeting, but no action was taken since rate schedule changes were not available from Washington.

## W.M.U. Hosts Meeting Of Women Here Thursday

By Mrs. Owen Andrews Frio Baptist Church Women's Missionary Union entertaine d the Llanos Altos Baptist Association W. M. U. for a study course on Thursday. The Frio women provided pie and drinks, and three nurseries for the children. Tables were decorated with fall flower centerpieces. In charge of Nursery One

were Mrs. Charles Self and Mrs. Glen Andrews. Mrs. Edgar Vinson kept Nursery Two, and Mrs. Frank Robbins and Mrs. Floyd Cole kept Nursery Three. In charge of the kitchen were Mrs. H. M. Mobley, Mrs. Owen Andrews, Mrs. James Dobbs, Mrs. Weldon Stephan, and Mrs. B. H. Baldwin. Other women of the church

attended classes and several sent pies. About 75 women and 25 children were present for the

Frio Home Makers Club will meet Tuesday, Nov. 13, at 11 a. m., according to an announcement from the program committee. The meeting will combine two planned programs, a "tasting tea" and a club auction. Members are asked to bring a guest and two favorite food dishes, along with recipes for the dishes.

The auction will feature 'white elephants', or items not needed by the club members. In the afternoon, a business meeting will include election of officers. The meeting is scheduled to close about 2 p. m.

Sunday evening service Frio Baptist Church consisted of a G. A. Coronation Service. Mrs. Jack Rogers, W. M. U. president, was in charge of the program. Mrs. Frank Robbins presented insignias and gave charges, while Ramona Hall provid-'ed organ music.

Jana Cole received Queen with Scepter honors, Reba Hall was crowned Queen, and receiving Maiden honors were Debbie Stringer, Diana Adams, and Cheryle Cole. Beverly Cole was crown bearer for Reba, and Jerry Robbins was scepter bear- Chevrolet 1/2 ton; Juan Martinez, er for Jana.

## 1962 National Thrift Essay Contest

FOR ALL STUDENTS OF

## 4th, 5th and 6th Grades

This contest is being sponsored locally by the Financial Institutions Committee of Deaf Smith County Chamber of Commerce whose members strongly believe in teaching our young children the importance of thrift. Americans need to return to the philosophy and practice of thrift. Helping our children and youth develop thrift habits early means better money management later and enhances their opportunity for a happier and more secure future.

The committee is proud of the 226 students who entered thrift essays in the 1961 contest. Larry Paetzold, one of the nine students who won locally also won third place nationally and was awarded \$50.00 by the National Thrift Committee.

SEE CLASSROOM TEACHERS FOR THEME SUBJECTS, RULES and OTHER DETAILS

14 Years Of Customer Satisfaction

By Mona Jette to my lips. It went on perfect- awe at the sight of Santa Claus? ly! (In case you're wondering, this is my never-fail-mood-baron the principle of a homemade horoscope.) If the lipstick | whisper delightful secrets and

The children got off to school without a major skirmish and of imagination, a bar of soap the shirt my husband wanted to wear was ironed. Oh, joy! The basin the Indianapolis Speedway rest of the day could have been as a dirty faced little urchin a madhouse but I didn't care. with dreamy eyes ties up the I woke up feeling wonderful and this was to be my "I Like with his daydreams. People" day.

it's going to be one of THOSE

"Like" is a peculiar word, easily confused with the word "love". I always love my

mean? I like people in my own age range, or thereabouts. (That's all I'm going to say. I'm one of those vain women who considers birthdays no one's business but mine.) We have- a lot in common, for most of us are living with the same problems; never enough money and trying to understand our children, our husbands . . . and ourselves

We've found that a glorious communion exists between two women as they sit at a kitchen table, chatting with each other over a cup of fragrant coffee. And, wonder of wonders, I've found I even like to talk with my husband. Sometimes we sit up and talk until four in the morning, discussing everything from politics to football back to religion and to what we'll dowhen our children are grown

I like older people. On occasions I am even jealous of them and their supreme wisdom. They have drunk deeply from the cup of life and won't tell us what it is all about. Upon pondering this, I realize how wrong it is. It's not that they won't tell us, for they try. We just won't listen.

How many times have they tried to help us? And how many times have we just ignored them and gone our stumbling, blundering way, somehow managing to get change? In doing so, we gain a little of that which they possess so completely. Exper-

But most of all I like the children. I like their dreams that know no boundaries, their tireless energy, their wide-eyed amazement at the world passing before them.

Why do we have to lose so many of these precious qualities as we grow older? Our eyes become jaded through the years as we stare unseeing at the good things life waves enticingly before our noses. We take for granted everything around us; things that a child watches with saucer - eyes and bated

Children, too, take things for granted. They become secure in their family circle, confident in the love and affection they receive. But who else but a small

NOTICE OF SALE OF

REAL ESTATE THE STATE OF TEXAS COUNTY OF DEAF SMITH

By virtue of an order of sale issued out of the District court of Deaf Smith County, Texas, on a judgment rendered in said court on the 24th day of September, 1962, in favor of J. B. Haile and wife, Dorothy Haile, and against Jack Gilbert Gibson in the case of J. B. HAILE, ET UX VS. JACK GILBERT GIBSON, ET UX, No. 4547 in said court, I did on the 9th day of November, 1962, at 9:00 a. m. levy upon the following described tracts and parcels of land situated in the County of Deaf Smith, State of Texas, as the property of the said Jack Gilbert Gibson and Delores Maxine Gibson, to - wit:

6.287 acres out of the North Half (N½) of Section No. 79, Block K-4, Certificate No. 1/-572, issued to Beaty, Seale and Forwood, in Deaf Smith County, Texas, described by metes and bounds as follows: BEGINNING at a 1" Iron pipe in the West line of U. S. Highway No. 385, and State Highway 51, 66.66 feet West of and 1066 feet South of the Northeast corner of Section No. 79. Block K - 4:

THENCE West parallel with the North line of said Section, 415 feet to a 1" irop pipe; THENCE South parallel with the West line of U. S. Highway No. 385, 660 feet to a 1" iron pipe;

THENCE East parallel with the North line of said Section, 415 feet to a 1" iron pipe; the West line of said highway; THENCE North along the West line of U.S. Highway 385, 660 feet to the place of beginning:

and on the 4th day of December, 1962, being the first Tuesday of said month, between the hours of 10:00 a. m. and 4:00 p. m. on said day at the Courthouse of said county, I will offer for sell and sell at public auction for cash all the right, title and interest of the said Jack Gilbert Gibson and Delores Maxine Gibson in and to said property above described. DATED this 9th day of Nov-

ember, 1962. Lowell Sharp Sheriff, Deaf Smith County, S-20-3c

#### Legal Notice

Notice is hereby given that the Zoning Commission of the City of Hereford, Texas, will convene at the City Hall at 7:30 p. m. on the 27th day of November, 1962, to consider rezoning the following proerty.

The South 90' of the North

416.2' of the West 250' of the Block 32 Evants Addition to the Town of Hereford, Deaf Smith County, Texas

Commission requesting that the above property be rezoned from "B" two family district to "D-1" tourist court district. Those interested in the above request are invited to attend the meeting on the date set forth above. Dudley Bayne

## And

With Mrs. Merlin Kaul The J. C. McCrackens are reia McCracken of Sloux City, Iowa, and entitled "My Silent Obbligato". It consists of her own short, reflective medita-tions on many subjects and, according to the Sioux City Sunlay Journal "it is an attempt sharpen our appreciations. does not try to analyze, criticize, or speculate. As an appreciative book, this is a book that should be placed on one's night - stand, to be read in short snatches in our meditative ioments."

From the Lincoln Journal, ". Time was when the keeping of journal was the natural conomitant of an inquiring mind. oday such writing is rather sadly limited, due, perhaps to the times and the dearth of relective thinking done in most ouseholds. Sylvia McCracken shares epigrammatic observaons from her journal jottings aspects of this thing called

Miss McCaracken was honored with an "Autograph Party" the Sioux City Stationary Company where her book was eing put on sale.

She has many friends in this area who are interested in sharng her achievement.

Funeral services for Mrs. Susan Elizabeth Weaver were held at the Wall Funeral Home on Monday, October 8. Mrs. Weaver died at Clinton, Oklahoma on October 5. At the time of her death she had reached the age of 84 years, 7 months, and 17 days.

Mrs. Weaver was born on Feb. 18, 1878 at Port Lavaca. She was married to William Thomas Weaver at Bogg, Okla., on Nov. 6, 1895. Mr. Weaver preceded her in death in 1947. They were the parents of \12 children.

The Weavers made their home the Blanco community for a number of years, and moved to this area where they lived several years in the Westway Community. She was united with the Missionary Baptist Church in early life and she was a member of the Blanco Baptist Church where she was active as long as she was able. She was a Gold Star Mother

due to the death of her son John, in service. Survivors are William T. Weaver, San Antonio, Essie Weaver, Toole, Utah; Uriel A. Weaver, Glen Ellen, Cal.; Julia Miller, Hayward, Cal.; Jack Weaver, Hereford; Margueri t e Knoll, San Antonio; 26 grandchildren and 28 great grand-

children. Services were conducted by the Rev. Wm. McNeill of San Marcos. Interment was in the Blanco Cemetery.

Word has been received here the serious illness of Mrs. Kelly Gray at her home in Bruceton, Tenn. She would wel-

#### Accordionists **Enter Contest**

Carolyn Kuper took a group of her accordionists to Enid Okla., for a contest on Nov. 3. Three of the four taken were students of Miss Kuper.

Those making the trip were: Linda Stengel, daughter of Mr. and Mrs. A. C. Stengel, who played "Join the Fun" and placing 1st in the fourth grade. She is nine years old and has taken accordion since Jan.

Kay James , daughter of Mr. and Mrs. C. W. James, played "La Golondrina" and placed second.

Linda Kuper, daughter of Mr. and Mrs. Henry Kuper of Summerfield, placed playing "Jenny Lind Plka".

In conclusion they all played as a group and received a plaque for the 15 - minute pro

playing "Pietro's Return".

er, Conductor.

Topic Is 1920's A program, "Entertainment In the 1920's" was given by Mrs. Raymond White to the LaPlata Study Club members meeting Tuesday in the home of Mrs. Louis Woodford.

Mrs. White described the "era of the Twenties" as an era of discontent and frustration following World War I. She went on to say; "Hates changed to race issues and socialism. It was a time when people were trying to catch up on their fun. Prohibition seemed to push people to drinking and partying. The automobile made a new way of life and the radio broadcasted all the latest incidents. Use of cosmetics became popular along with movies and confession and sex magazines. Frankness was considered a virtue and divorces became prevalent."

During the meeting, plans were made for a Thanksgiving dinner, honoring the member's husbands. Plans were completed for giving two sets of encyclopedias to the special education department of Central and Shir-

ley Schools. Members attending were: Mesdames Jay Boston, Jack Brown, Eugene Campbell, Viola Chis-

### **Unique Tourney** Of Shot Choice To Last Month

tournaments will be tried at the John Pitman Municipal Golf Course during the next 30 days. A partnership Shot Selection Tourney is scheduled from Nov. 19 through Dec. 16 with one week allowed for each match. In this type of tournament, players choose their own partners, then are paired in teams

for match play.

As the play begins, both players drive from each tee. The best tee shot is selected and both players hit their second shots from this location. This continues on the green, with the best shot of the two taken as the point for the next shot, until they hole out, with the score determined.

Players may choose their partners and enter the tourney any time before 6 p.m. Sunday,

### The Sunday Brand — Editorials

The Sunday Brand, Hereford, Texas, Sunday, Nov. 11, 1962

### Building Permits, Bank Deposits and General Attitude Indicate Continued Growth For Area

A year or two back, many people arrived at the conclusion that Hereford had "reached a peak"; they predicted that the community would level-off and remain static at approximately 10,000 population. Instead, the town and country are both marching ahead as never before, and some observers are altering their predictions up from 10,000 to 25,000, 50,000 — and even

No one knows, of course, just what the future does hold. We do have indications, however, that more growth can be anticipated. The zoom in building permits for 1962 — already at an all-time \$2,409,405 record high at the end of October is a good indication. Bank deposits, at an alltime highs, are another step in community

General attitude should also be calculated, and never before have seen or heard so many optimistic reports. A large - scale apartment building is now under construction, new business housing's considered by many and daily we hear rumors of retail firms who would like to move into the community, along with reports of manufacturing plants, canning plants, feed lots and meat processing plants,

A key to the current boom is no doubt the optimistic outlook for location of a major sugar refinery in the area. This improvement has stimulated people of the community and, for the first time, has centered the eyes of business people all over the nation on Hereford and Deaf Smith County.

As we have mentioned before, Hereford does possess many qualifications to make it a "hub" town on the Plains. Adequate gas and electric facilities, central telephone dialing, rural electric headquarters, and transportation ability are some of the important basic qualifications. Retail outlets, though ample, will likely improve sharply during the next decade if the town is to continue its present spurt of growing pains. Basic planning on schools, water, and city facilities though far from perfect are adequate and can easily be improved and expedited.

When you pause to consider the everdwindling population of most smaller towns as rural residents pour into the cities, these things take on a more important meaning than ever before. "Hub" towns, like the cities, are destined to face considerable future growth, while many of the less fortunate towns can be expected to continue their downward spiral. The die seems already cast in this direction and, fortunately, most of the Plains towns in this area are holding their own, or showing progress. This is due, in part, to the fact that most of them were under-populated at the close of World War II. Irrigation and basic economy seem to have done the rest.

#### **National Recognition** To Local Youth

During the past year we have been agreeably surprised at the tremendous amount of recognition awarded youngsters of this area through 4-H, FFA and other farm orginizations. Climaxing the long list of achievements this week came additional Gold Star awards and state-wide winners.

Nothing could be more gratifying than news of this type. In a farming area, such recognition indicates progress and development of a basic economy. More important, it denotes an interest of the young people of the community in making their future homes in the area as they prepare to cope scientifically in bringing forth continued high production from one of the nation's more fertile regions.

Looking at the situation from a more limited viewpoint, one must also conclude that our community has some of the smartest and most alert youngsters in the nation, or some of the best leaders. More probably, we would say, the fortunate situation is a result of both.

#### The Sunday Brand

Established 1948 Published every Sunday at 336 Main St.

James M. Gillentine, Editor and Publisher H. A. Tuck, News Editor

Entered as second-class matter July 6, 1948 at the post office at Hereford, Texas, under the Act of March 3, 1879. Hereford, Deaf Smith County, Texas. Subscription Rates: Zone 1, \$4.00 per year; Zone 2 and above, \$5.00 per year. With the Hereford Brand. both papers, Zone 1, \$4.95 per year; Zone 2, \$6.15 per year. Carrier, delivery, 60c per

month. Single copies 15c each. Classified advertising rates: 6c per word per word first insertion (60c minimum; 4c per word each additional insertion.)

Fortunately, this particular area has never been over-expanded. It is still on a sound basis in the fields of agriculture and livestock, which provide the basic economy. Current growth, too, appears to be solid and economically sound. If the present trend continues, we would not at all be surprised to see a 25,000 population in Hereford in the 1970's, along with some of those new shopping centers and other developments, about which we hear so many

rumors these days. This area is definitely "on the march" and, as we have always said: A town never stands still; it always goes forward or backward.

### County Should Check On Voting Machines

We live in the "space age" these days and, needless to say, many changes have been made during the past 50 years in the things we use and the way we live. For this reason, it seems logical that Deaf Smith County should at least carefully consider the application of voting machines.

To our knowledge, there has never been a vote-counting discrepancy in the community. On the other hand, it is apparent that we can never expect complete and fair vote tabulations in the national level until all voting precincts ultimately install

machines. Cost-wise, we have no figures or information for comparision. We do feel sure, however, that it would be practical to cut down on the number of voting boxes when, and if, machines are ever installed. It is also possible that our volume of votes may not justify the expense. We merely say it should be investigated from all sources.

Back in the horse-and-wagon era, it was important to have many boxes so that people could get to the polls. For more than 50 years, most people vote, then come of town to get the results. Rapid mechanical tabulation, it seems to us, might well be an improved service to all concerned.

This particular area in the Golden Triangle is unquestionably in the top per capita income counties of the entire nation. If we cannot afford voting machines, we seriously doubt if anyone else can afford them either. Who knows? They might even save money over a period of five or 10 years.

So far, Randall County is the only comparable territory to investigate or consider voting machines, and they were adopted in that community in the recent election. We presume that the county did investigate and carefully consider the "pros and cons" prior to the election. Potter County turned

Anyway, it seems to us that the time has come when we should at least consider throwing off the antiquity of horse collars and hitching posts for something more modern. If they are not practical, we can soon find out. If they are, we can benefit from Twentieth Century progress. At least, it will give the commissions something to occupy their time when they are not busy with road improvements.

#### Election Over, And Everybody's Happy?

"Anyway, I am glad the election is over!" This sentiment, regardless of political preference, seems to pretty well sum up the opinion of most Deaf Smith County residents Wednesday morning following the general election Tuesday. The attitude, following the only active two-party general election campaign in the history of the community, seems to us a most impor-

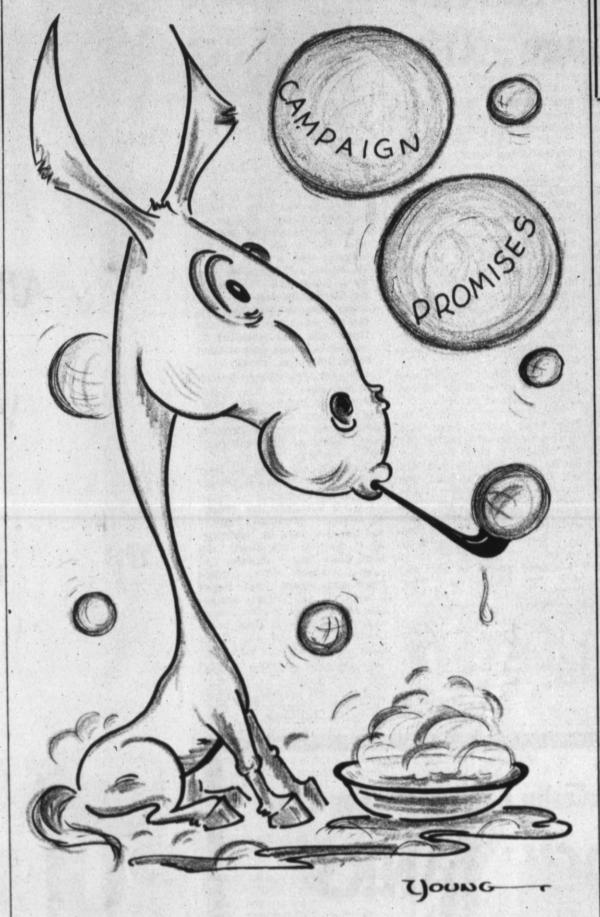

Zealous workers on both sides, although not happy with results in some of the spots, can look back upon a campaign in which both sides waged efficient and effective races. Republicans, though losers in the state-wide poll, also face a slight loss in the percentage established when the Kennedy administration went into office buton the other hand - when we stop to recall that such issues as Catholicism and integration played a most important part in the 1960 campaign, it becomes immediately apparent that the present campaign, waged on more normal issues, does reflect increased GOP in this area, and all over the state. Conservative thinking is definitely on the upgrade, and will likely continue to expand before the next general election.

Winning the posts was nothing new to the Democrats, except that they did have to settle down and do some real work, where they have previously coasted through general elections in non-Presidential years.

The fact that everyone is willing to settle down and make the most of conditions is perhaps the most significant factor to emerge from the election. This, of course, is a basic requirement for a functioning democracy. Elections are a lot like the weather; once they are over, there just isn't a lot anyone can do about themand we have yet to meet a politician who is worth the loss of a friend on the local

like everyone else, we are glad it is over. We do feel that we will have better government in Deaf Smith County, in Texas and in the United States as a result. Consequently, we hope that the two-party system is with us for many years to come. The whole country, we believe has benefitted from the "new look" in Texas politics.

How Long Will They Last?

REP. ROGERS WRITES

### Armistice Day Is A Time To Consider Armed Forces

TO THE PEOPLE OF THE 18TH DISTRICT:

Shortly after this newsletter is being written - on Sunday, Nov. 11, to be exact - we will celebrate Veterans Day. Therefore, this seems to me an appropriate time to consider just what our Armed Forces mean

November 11, 1918, was the original Armistice Day, That day was the end of World War I, and it was made a national holiday shortly thereafter, as a tribute to all those who had ent. One American pilot died in died in the "war to end all this encounter a few days ago;

wars." Since then, we have engaged in World War II, the Ko- tions are that in this case we

tered parts of the world, and the continuing Cold War. The cost of these struggles in men and money has been tremendous, and all of us mourn the gallant men and women who gave their lives that we might live. But, the result is something we must never forget: we are free, and we will

remain free. The current trouble over Cubamakes this all the more pertinother lives may be lost before it is all over. But, all indica-

50 YEARS AGO Grand Jury Investigation Find Leaks On The Roof

The Grand Jury reconvened Monday and remained in session two days, returned one bill of indictment which was for a misdemeanor, and then adjourned for the term. Their final report is as follows: "To Hon. D. B. Hill, Judge, 69th Judical District; We, your Grand Jury, empanelled in and for Deaf Smith County, Texas, at the October term, 1912, beg leave to make this our final report. We have diligently inquired into all violations of the law in this county, so far as same have come to our attention, and have returned true bills of indictment in all cases in which the evidence, in our judgement, warranted the finding of the same. In this connection, however, we beg report that we find this county especially free from violations of every character. We have visited in a body our county jail and find same kept in fairly good and sanitary condition. We find the walls of the building somewhat cracked caused by the settling thereof on account of drain water reaching the foundation. This ought to be attended to at an early date. We also find leaks in the roof of the court house, and we respectfully call the attention of our Commissioner's Court to the defect, to the end that they may take such steps to correct the defect as will save our splendid building from serious injury. We have had a committee examine the books kept by the officers of the county and hereto attach, the report of said committee and make same our report. Having no further business before us, we ask to be adjourned for the term. Signed: A. P. Murchison, Foreman. 25 YEARS AGO

Predicting completion for surface work across Parmer County by April, 1938, the Texas Highway Department this week announced that Highway 33-60 will be topped, making a hard surface road from Clovis to Amarillo. During recent months Highway 60 was surfaced across Deaf Smith County connecting with the surfaced road on the east at the Randall County line, and furnishing a road from Hereford into Amarillo. The 40-mile strip to be paved extends across Parmer and Castro Counties to Farwell, and will be let in two contracts because of the length of

rean "police action," several have convinced the Communist small conflicts in widely scat- aggressors that we will fight if we must; and this determination on our part, firmly and unequivocally conveyed to the rulers of the Kremlin who pull the strings in the Cuban puppet state, has apparently won the

day for us. Based 'on the information available as I write, the offensive missile bases in Cuba are being dismantled and the weapons of mass destruction which they supported are being crated for return to the Soviet Union.

I am sure we all rejoice together that this threat is being removed and that our national strength and unity have again guaranteed our position as the greatest nation on earth.

The lives that have been lost in recent wars were terribly precious - there is nothing more an individual can sacrifice for his country and loved ones. We who enjoy the fruits of their sacrifice owe them a debt that can never be repaid; a debt we can only commemorate by remembering them and by doing everything in our power to main tain the nation which they saved for us.

And, there are two major facets to this job. First, as individuals, we must remain constantly aware of what our country means to each and every one of us; we must remember that the maintenance of our nation is infinitely more important than the personal concerns and problems which face us in our daily life. And, collectively,

our way of life. This latter duty is an expensive proposition, in terms of dollars. As I mentioned several months ago, the appropriations for the Department of Defense for the current fiscal year amounted to \$47,839,491,000 - about sixty cents out of every tax dollar collected.

This is a staggering sum

of money, but the job to be done with it is also huge. And, I am sure none of us would begrudge a single penny, as long as it is spent carefully and accomplishes the purpose for which it is appropriated Out of this total, the amount of \$12,901,890,000 is designated for "military personnel." This is the money which pays the guardians of our sovereignty, to whom we all owe a debt of

thanks. Although the members of our armed forces are imper-(Continued on page 5)

## Panhandle Paragraphs

TWO MEN PULLED FROM WRECK

Two men, Louis Wall and Charley Thomas, both of Clovis, were saved from certain death by fire Tuesday afternoon. Lynn Dosher, 17-year-old Texico high school senior, and W. H. Doctor, a tourist from Independence, Mo., pulled the two from the diesel-powered truck in which they were riding when it was hit by an Amarillobound passenger train at the Texico-Farwell railroad crossing at approximately 4:50 p. m. The train was moving at approximately 25 miles an hour at the time of impact and the truck burst into flames almost immediately. Wall, driver of the truck, was wedged into the cab and was pulled from the wreckage by the efforts of the two men only seconds before the tank exploded. His clothing was already burning when he was rescued.

THE STATE LINE TRIBUNE (Farwell)

FALL OUT SHELTERS BEING READIED Public fallout shelters were recently selected in Canyon and Umbarger, according to County Civil Defense director Bill Sternenberg. Under President Kennedy's National Shelter Program, started some months ago, buildings suitable for radiation protection have been inspected by private architectual and engineering firms employed by federal government. Buildings that offer sufficient radiation protection and large enough to shelter 50 or more people were selected as public fallout shelters if the building owner agreed and signed a form contract. Public shelters in the Canyon area will accommodate 3056 people and will be used on the "first served basis", said the Randall County Civil Defense director.

THE CANYON NEWS

DAM OPPONENTS LOSE INITIAL ROUND ,

Opponents of the Palo Duro Dam project, including Ochilfree county commissioners court and a number of oil companies, lost the first round in the Palo Duro Dam project battle in Austin Monday when the Texas Water Commission voted 3-0 to hear an application to construct a \$3.5 million dam on Palo Duro Creek in Hansford County. This is only the opening step, however, and opponents of the project are confident it will never come to the building stage. The vote by the state commission came after objections to continue the hearing were voiced by opponents from Ochiltree County, which contend that it is being called upon to bear half the cost of a dam in Hansford County. OCHILTREE COUNTY HERALD (Perryton)

FIRE DESTROYS EARTH ELEVATOR

A raging fire - punctuated by three sharp explosions - raced through Earth Elevator's grain storage facility Thursday morning, inflicting a loss estimated at \$150,000. The fire continued to smoulder Thursday night but was under control according to firemen at the scene. A watchman was posted to report any major fire flair up. Firemen said it would be impossible to extinguish the fire until grain was relocated and moving operations were began Thursday night. An automatic fire alarm sounded at 6:45 a. m. and flames broke out from the building at 7:40 a.m., firemen said. Fire departments from Littlefield, Olton, and Muleshoe joined the Earth and Springlake departments in fighting the blaze.

COUNTY WIDE NEWS (Littlefield)

VEGETABLE CROP SETS RECORD

Bailey County's third money crop - vegetables - is winding up one of the most successful years in its history, Muleshoe Chamber of Commerce reported this week. The Chamber has just issued its summary of the vegetable situation in Bailey County and it's good — very good. The summary stated that proven yields were as follows: Irish potatoes, 225 sacks; tomatoes, 20 tons; onions, 3,000 pounds; blackeyed peas, 5,000; sweet corn, 1500 dozen ears, and green beans, 9,000 pounds. "Yet, despite the proven production ability of the county for vegetables," the statement continued, "there is now no processing plant in existence locally to offer a market for this vast potential." The report pointed out that 20,000 acres are available for vegetable production but only a tenth was used during the past year due to the lack of a market for fresh and processed vegetables. THE MULESHOE JOURNAL

### THE BOOTLEG ——Philosopher

(Editor's note: The Bootleg Philosopher on his bindweed farm must have been affected about like everybody else by the international situation, his letter this week indicates.) Dear editar:

Despite the fact I've tried my best to keep the international leaders informed that this bindweed farm out here is the most un-bombworthy spot on the face of the earth, that nobody in his right mind would waste a bomb on it, I'll admit I was a little on the jittery side when those Russian ships were sailing toward those American ships off of Cuba two weeks ago.

Well, not jittery enough to make a run for any place, don't have any place to run to, but I was uneasy, and the reason is that the world's not ready yet for an all-out missile war. It's too inexperienced. I mean, its aim ain't good enough.

Oh, I know the experts talk about intercontinental ballistic missiles which are in place and zeroed in on this or that big population center, but judging by the number of failures, miss-firings, and off-course satellite shots so far, how do I know a giant missile with an atomic warhead aimed at Amarillo might not get off two degrees and land on my chimney?

This is typical of the human race. You're required to have a license to drive a car 60 miles an hour, a license to get married, a license to sell real estate, a license to even cut hair or run a beauty shop, but any nitwit can pull the pin Joosening a missile going 500 miles a second. I tell you, this is a dangerous situation for a man who has spent years carefully developing a farm that's not worth drop-

ing a cannon ball on. Building a big city, that's one thing, everybody knows that's a bomb target, but when even this bindweed farm might get hit through some unlicensed gunner's bad aim, nobody's safe. Something ought to be done about it.

By the way, a lot of people are saying, "We sure proved Khrushchev was a liar when he said he didn't have any big missiles in Cuba, then agreed to remove them," but anybody who's just now finding out the Russians are liars, well, it's mighty late in the day for him.

Yours faithfully,

### Residents Receive, Give 4-H Achievement Awards

### The Sunday Brand — Editorials

The Sunday Brand, Hereford, Texas, Sunday, Nov. 11, 1962

### Building Permits, Bank Deposits and General Attitude Indicate Continued Growth For Area

A year or two back, many people arrived at the conclusion that Hereford had "reached a peak"; they predicted that the community would level-off and remain static at approximately 10,000 population. Instead, the town and country are both marching ahead as never before, and some observers are altering their predictions up from 10,000 to 25,000, 50,000 — and even

No one knows, of course, just what the future does hold. We do have indications, however, that more growth can be anticipated. The zoom in building permits for 1962 — already at an all-time \$2,409,405 record high at the end of October is a good indication. Bank deposits, at an alltime highs, are another step in community

General attitude should also be calculated, and never before have seen or heard so many optimistic reports. A large - scale apartment building is now under construction, new business housing's considered by many and daily we hear rumors of retail firms who would like to move into the community, along with reports of manufacturing plants, canning plants, feed lots and meat processing plants.

A key to the current boom is no doubt the optimistic outlook for location of a major sugar refinery in the area. This improvement has stimulated people of the community and, for the first time, has centered the eyes of business people all over the nation on Hereford and Deaf Smith County.

As we have mentioned before, Hereford does possess many qualifications to make it a "hub" town on the Plains. Adequate gas and electric facilities, central telephone dialing, rural electric headquarters; and transportation ability are some of the important basic qualifications. Retail outlets, though ample, will likely improve sharply during the next decade if the town is to continue its present spurt of growing pains. Basic planning on schools, water, and city facilities though far from perfect are adequate and can easily be improved and expedited.

When you pause to consider the everdwindling population of most smaller towns as rural residents pour into the cities, these things take on a more important meaning than ever before. "Hub" towns, like the cities, are destined to face considerable future growth, while many of the less fortunate towns can be expected to continue their downward spiral. The die seems already cast in this direction and, fortunately, most of the Plains towns in this area are holding their own or showing progress This is due, in part, to the fact that most of them were under-populated at the close of World War II. Irrigation and basic economy seem to have done the rest.

#### **National Recognition** To Local Youth

During the past year we have been agreeably surprised at the tremendous amount of recognition awarded youngsters of this area through 4-H, FFA and other farm orginizations. Climaxing the long list of achievements this week came additional Gold Star awards and state-wide winners. Nothing could be more gratifying than

news of this type, In a farming area, such recognition indicates progress and development of a basic economy. More important, it denotes an interest of the young people of the community in making their future homes in the area as they prepare to cope scientifically in bringing forth continued high production from one of the nation's more fertile regions.

Looking at the situation from a more limited viewpoint, one must also conclude that our community has some of the smartest and most alert youngsters in the nation, or some of the best leaders. More probably, we would say, the fortunate situation is a result of both

#### The Sunday Brand

Established 1948 Published every Sunday at 336 Main St. Hereford, Texas

James M. Gillentine, Editor and Publisher H. A. Tuck, News Editor

Entered as second-class matter July 6, 1948 at the post office at Hereford, Texas, under the Act of March 3, 1879. Hereford, Deaf Smith County, Texas. Subscription Rates: Zone 1, \$4.00 per year; Zone 2 and above, \$5,00 per year. With the Hereford Brand. both papers, Zone 1, \$4.95 per year; Zone 2, \$6.15 per year. Carrier, delivery, 60c per month. Single copies 15c each.

Classified advertising rates: 6c per word per word first insertion (60c minimum; 4c per word each additional insertion.)

Fortunately, this particular area has never been over-expanded. It is still on a sound basis in the fields of agriculture and livestock, which provide the basic economy. Current growth, too, appears to be solid and economically sound. If the present trend continues, we would not at all be surprised to see a 25,000 population in Hereford in the 1970's, along with some of those new shopping centers and other developments, about which we hear so many

rumors these days. This area is definitely "on the march" and, as we have always said: A town never stands still; it always goes forward or backward.

### County Should Check On Voting Machines

We live in the "space age" these days and, needless to say, many changes have been made during the past 50 years in the things we use and the way we live. For this reason, it seems logical that Deaf Smith County should at least carefully consider the application of voting machines.

To our knowledge, there has never been a vote-counting discrepancy in the community. On the other hand, it is apparent that we can never expect complete and fair vote tabulations in the national level until all voting precincts ultimately install

Cost-wise, we have no figures or information for comparision. We do feel sure, however, that it would be practical to cut down on the number of voting boxes when, and if, machines are ever installed. It is also possible that our volume of votes may not justify the expense. We merely say it should be investigated from all

Back in the horse-and-wagon era, it was important to have many boxes so that people could get to the polls. For more than 50 years, most people vote, then come ot town to get the results. Rapid mechanical tabulation, it seems to us, might well be an improved service to all concerned.

This particular area in the Golden Triangle is unquestionably in the top per capita income counties of the entire nation. If we cannot afford voting machines, we seriously doubt if anyone else can afford them either. Who knows? They might even save money over a period of five or 10 years.

So far Randall County is the only comparable territory to investigate or consider voting machines, and they were adopted in that community in the recent election. We presume that the county did investigate and carefully consider the "pros and cons" prior to the election. Potter County turned them down.

Anyway, it seems to us that the time has come when we should at least consider throwing off the antiquity of horse collars and hitching posts for something more modern. If they are not practical, we can soon find out. If they are, we can benefit from Twentieth Century progress. At least, it will give the commissions something to occupy their time when they are not busy with road improvements.

#### Election Over, And Everybody's Happy?

"Anyway, I am glad the election is over!" This sentiment, regardless of political preference, seems to pretty well sum up the opinion of most Deaf Smith County residents Wednesday morning following the general election Tuesday. The attitude, following the only active two-party general election campaign in the history of the community, seems to us a most important point.

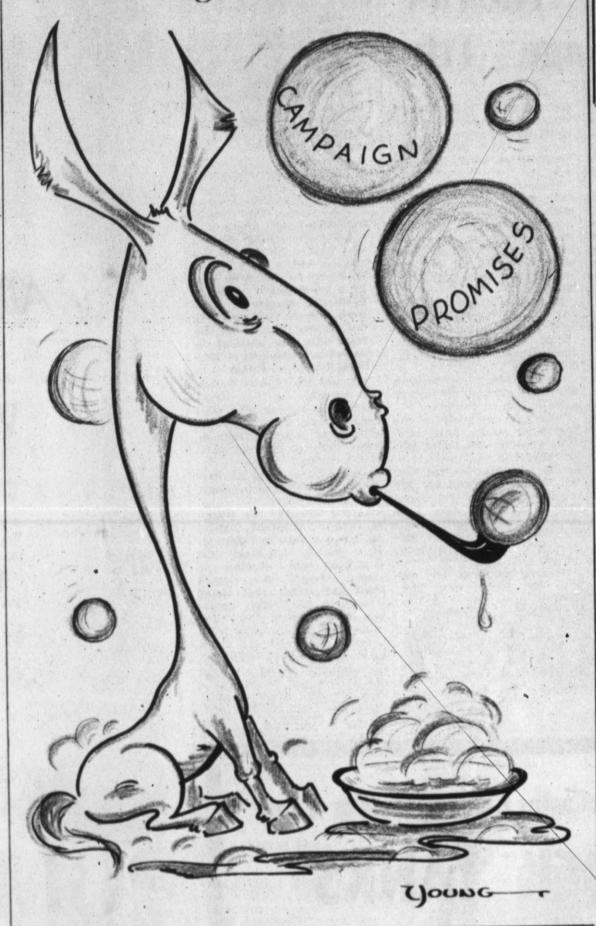

Zealous workers on both sides, although not happy with results in some of the spots, can look back upon a campaign in which both sides waged efficient and effective races. Republicans, though losers in the state-wide poll, also face a slight loss in the percentage established when the Kennedy administration went into office buton the other hand — when we stop to recall that such issues as Catholicism and integration played a most important part in the 1960 campaign, it becomes immediately apparent that the present campaign, waged on more normal issues, does reflect increased GOP in this area, and all over the state. Conservative thinking is definitely on the upgrade, and will likely continue to expand before the next general election.

Winning the posts was nothing new to the Democrats, except that they did have to settle down and do some real work, where they have previously coasted through general elections in non-Presidential years.

The fact that everyone is willing to settle down and make the most of conditions is perhaps the most significant factor to emerge from the election. This, of course, is a basic requirement for a functioning democracy. Elections are a lot like the weather; once they are over, there just isn't a lot anyone can do about themand we have yet to meet a politician who is worth the loss of a friend on the local

Like everyone else, we are glad it is over. We do feel that we will have better government in Deaf Smith County, in Texas and in the United States as a result. Consequently, we hope that the two-party system is with us for many years to come. The whole country, we believe has benefitted from the "new look" in Texas politics.

How Long Will They Last?

REP. ROGERS WRITES

### Armistice Day Is A Time To Consider Armed Forces

TO THE PEOPLE OF THE 18TH DISTRICT:

Shortly after this newsletter is being written - on Sunday, Nov. 11, to be exact - we will celebrate Veterans Day. Therefore, this seems to me an appropriate time to consider just what our Armed Forces mean

50 YEARS AGO

small conflicts in widely scattered parts of the world, and the continuing Cold War. The cost of these struggles in men and money has been tremendous, and all of us mourn the gallant men and women who gave their lives that we might live. But, the result is something we must never forget: we are free, and we will

remain free. The current trouble over Cuba makes this all the more pertina tribute to all those who had ent. One American pilot died in died in the "war to end all this encounter a few days ago; other lives may be lost before Since then, we have engag- it is all over. But, all indicaed in World War II, the Ko- tions are that in this case we

Grand Jury Investigation

Find Leaks On The Roof

was for a misdemeanor, and then adjourned for the term.

Their final report is as follows: "To Hon. D. B. Hill, Judge,

diligently inquired into all violations of the law in this

county, so far as same have come to our attention, and

have returned true bills of indictment in all cases in which

the evidence, in our judgement, warranted the finding of

the same. In this connection, however, we beg report

that we find this county especially free from violations

of every character. We have visited in a body our county

jail and find same kept in fairly good and sanitary con-

dition. We find the walls of the building somewhat cracked

caused by the settling thereof on account of drain water

reaching the foundation. This ought to be attended to

at an early date. We also find leaks in the roof of the

court house, and we respectfully call the attention of our

Commissioner's Court to the defect, to the end that they

may take such steps to correct the defect as will save

our splendid building from serious injury. We have had

a committee examine the books kept by the officers of

the county and hereto attach the report of said committee

25 YEARS AGO

County by April, 1938, the Texas Highway Department

this week announced that Highway 33-60 will be topped,

making a hard surface road from Clovis to Amarillo. Dur-

ing recent months Highway 60 was surfaced across Deaf

Smith County connecting with the surfaced road on the

east at the Randall County line, and furnishing a road

from Hereford into Amarillo. The 40-mile strip to be paved

extends, across Parmer and Castro Counties to Farwell,

and will be let in two contracts because of the length of

Predicting completion for surface work across Parmer

A. P. Murchison, Foreman.

rean "police action," several have convinced the Communist aggressors that we will fight if we must; and this determination on our part, firmly and unequivocally conveyed to the rulers of the Kremlin who pull the strings in the Cuban puppet state, has apparently won the day for us.

Based on the information available as I write, the offensive missile bases in Cuba are being dismantled and the weapons of mass destruction which they supported are being crated for return to the Soviet Union.

I am sure we all rejoice together that this threat is being removed and that our national strength and unity have again guaranteed our position as the greatest nation on earth.

The lives that have been lost in recent wars were terribly precious - there is nothing more an individual can sacrifice for his country and loved ones. We who enjoy the fruits of their sacrifice owe them a debt that can never be repaid; a debt we can only commemorate by remembering them and by doing everything in our power to main-tain the nation which they saved for us.

And, there are two major facets to this job. First, as individuals, we must remain constantly aware of what our country means to each and every one of us; we must remember that the maintenance of our nation is infinitely more important than the personal concerns and problems which face us in our daily life. And, collectively, our way of life.

This latter duty is an expensive proposition, in terms of dollars. As I mentioned several months ago, the appropriations for the Department of Defense for the current fiscal year amounted to \$47,839,491,000 - a bout sixty cents out of every tax dollar collected.

This is a staggering sum of money, but the job to be done with it is also huge. And, I am sure none of us would begrudge a single penny, as long as it is spent carefully and accomplishes the purpose for which it is appropriated. Out of this total, the amount

of \$12,901,890,000 is designated for "military personnel." This is the money which pays the guardians of our sovereignty, to whom we all owe a debt of thanks. Although the members of our armed forces are imper-(Continued on page 5)

Panhandle Paragraphs

TWO MEN PULLED FROM WRECK

Two men, Louis Wall and Charley Thomas, both of Clovis, were saved from certain death by fire Tuesday afternoon. Lynn Dosher, 17-year-old Texico high school senior, and W. H. Doctor, a tourist from Independence, Mo., pulled the two from the diesel-powered truck in which they were riding when it was hit by an Amarillobound passenger train at the Texico-Farwell railroad crossing at approximately 4:50 p. m. The train was moving at approximately 25 miles an hour at the time of impact and the truck burst into flames almost immediately. Wall, driver of the truck, was wedged into the cab and was pulled from the wreckage by the efforts of the two men only seconds before the tank exploded. His clothing was already burning when he was rescued. THE STATE LINE TRIBUNE (Farwell)

FALL OUT SHELTERS BEING READIED Public fallout shelters were recently selected in Canyon and Umbarger, according to County Civil Defense director Bill Sternenberg. Under President Kennedy's National Shelter Program, started some months ago, buildings suitable for radiation protection have been inspected by private architectual and engineering firms employed by the federal government. Buildings that offer sufficient radiation protection and large enough to shelter 50 or more people were selected as public fallout shelters if the building owner agreed and signed a form contract. Public shelters in the Canyon area will accommodate 3056 people and will be used on the "first served basis", said the Randall County Civil Defense director. THE CANYON NEWS

DAM OPPONENTS LOSE INITIAL ROUND

Opponents of the Palo Duro Dam project, including Ochiltree county commissioners court and a number of oil companies, lost the first round in the Palo Duro Dam project battle in Austin Monday when the Texas Water Commission voted 3-0 to hear an application to construct a \$3.5 million dam on Palo Duro Creek in Hansford County. This is only the opening step, however, and opponents of the project are confident it will never come to the building stage. The vote by the state commission came after objections to continue the hearing were voiced by opponents from Ochiltree County, which contend that it is being called upon to bear half the cost of a dam in Hansford County.

OCHILTREE COUNTY HERALD (Perryton)

FIRE DESTROYS EARTH ELEVATOR

A raging fire — punctuated by three sharp explosions — raced through Earth Elevator's grain storage facility Thursday morning, inflicting a loss estimated at \$150,000. The fire continued to smoulder Thursday night but was under control according to firemen at the scene. A watchman was posted to report any major fire flair up. Firemen said it would be impossible to extinguish the fire until grain was relocated and moving operations were began Thursday night. An automatic fire alarm sounded at 6:45 a. m. and flames broke out from the building at 7:40 a.m., firemen said. Fire departments from Littlefield, Olton, and Muleshae joined the Earth and Springlake departments in fighting the blaze.

COUNTY WIDE NEWS (Littlefield)

VEGETABLE CROP SETS RECORD

Bailey County's third money crop — vegetables — is winding up one of the most successful years in its history, Muleshoe Chamber of Commerce reported this week. The Chamber has just issued its summary of the vegetable situation in Bailey County and it's good - very good. The summary stated that proven yields were as follows: Irish potatoes, 225 sacks; tomatoes, 20 tons; onions, 3,000 pounds; blackeyed peas, 5,000; sweet corn, 1500 dozen ears, and green beans, 9,000 pounds. "Yet, despite the proven production ability of the county for vegetables," the statement continued, "there is now no processing plant in existance locally to offer a market for this vast potential." The report pointed out that 20,000 acres are available for vegetable production but only a tenth was used during the past year due to the lack of a market for fresh and processed vegetables. THE MULESHOE JOURNAL

### THE BOOTLEG ——Philosopher

(Editor's note: The Bootleg Philosopher on his bindweed farm must have been affected about like everybody else by the international situation, his letter this week indicates.) Dear editar:

Despite the fact I've tried my best to keep the international leaders informed that this bindweed farm out here is the most un-bombworthy spot on the face of the earth, that nobody in his right mind would waste a bomb on it, I'll admit I was a little on the jittery side when those Russian ships were sailing toward those American ships off of Cuba two weeks ago.

Well, not jittery enough to make a run for any place, don't have any place to run to, but I was uneasy, and the reason is that the world's not ready yet for an all-out

missile war. It's too inexperienced. . I mean, its aim ain't good enough.

Oh, I know the experts talk about intercontinental ballistic missiles which are in place and zeroed in on this or that big population center, but judging by the number of failures, miss-firings, and off-course satellite shots so far, how do I know a giant missile with an atomic warhead aimed at Amarillo might not get off two degrees and land on my chimney?

This is typical of the human race. You're required to have a license to drive a car 60 miles an hour, a license to get married, a license to sell real estate, a license to even cut hair or run a beauty shop, but any nitwit can pull the pin Joosening a missile going 500 miles a second. I tell you, this is a dangerous situation for a man who has spent years carefully developing a farm that's not worth drop-

ing a cannon ball on. Building a big city, that's one thing, everybody knows that's a bomb target, but when even this bindweed farm might get hit through some unlicensed gunner's bad aim,

nobody's safe. Something ought to be done about it. By the way, a lot of people are saying, "We sure proved Khrushchev was a liar when he said he didn't have any big missiles in Cuba, then agreed to remove them," but onybody who's just now finding out the Russians are liars, well, it's mighty late in the day for him.

Yours faithfully,

### Residents Receive, Give 4-H Achievement Awards

By Mrs. Harold Rudd Carol Turrentine and Judith Morrison were among those receiving awards at the 4 - H Achievement Banquet held at the Hereford high school cafeteria on Monday evening. Carol received an award in Clothing and Judith received an award in Foods.

#### Livestock Survey Cards To Be Left In Rural Boxes

Rural mail carriers from the Hereford Post Office will leave s o m e livestock sur v e y cards along their routes beginning Wednesday, Nov. 16.

"Information reported on these cards is used to set the yearly inventory of livestock and poultry on Texas farms," Postmaster Nolan Grady explained

Rural carriers distribute the cards at random in boxes along their routes.

"This means that not every box will get a card," Grady said. "For this reason, it's important for everyone who gets card to return it filled out so that USDA can get a true sample of the state's livestock foldings.

Carriers assisting with the

#### Damages Heavy In Auto · Pickup Collision Here

An accident occurring in the 800 block of 25 Mile Ave. about 11:30 p.m. Nov. 3 heavily damaged a 1958 model pickup truck and a 1962 model sedan. Damage to the pickup, belonging to Coleman McSpadden, was estimated at \$650 by the investigating officer. Damage to the sedan is reported to be

The accident occurred as the sedan, driven by William Harvey Brock, 42, Lucky U Motel, collided with the truck which was parked on the west side

survey are C. L. Wright, Route 1: LeRoy Price, Route 2; Howard Armstong, Route 3; Owen Stagner, Route 4; E, W. Young, Route 5 and Mrs. Jesse

Ford, Star Rt. Facts and figures secured in this survey are the basis for the Texas and National pig crop report and inventories of livestock and poultry on farms as of the first of the year. Stockmen and many others use this information in making business

Survey results will be widely distributed through Texas Crop and Livestock Reporting Service releases, newspapers, farm magazines, radio, and television.

#### Faithful Workers Class Holds Meet

Mrs. Opal Roberson called the meeting of the Faithful Workers Class to order on Nov. 6 in the home of Mrs. Ola Hacker. Opening prayer was given by Mrs. Opal Roberson and Mrs. Mable Dones brought the devo-

Those present at the meeting were: Mesdames Opal Roberson, Mable Dones, Leona Sowell, Grace Witherspoon and hostess Ola Hacker.

#### REPORTS FOR DUTY

Ray L. Parmer, aviation machinist's mate second class, USN, son of Mr. and Mrs. A. D. Parmer of 405 Fourth St., is stationed at the Naval Air Station, Corpus Christi, Tex.

He reported to the air station recently from the Naval Auxiljary Air Station, Beeville, Tex., and has been assigned to the aircraft maintenance depart-

Parmer, who entered the service in March 1955, attended Hereford High School.

Ray Makes Best

Carl Ray's enthusastic speech on "Enthusiasm" won him the speaker's cup at Hereford Toastmasters Club meet in g Tuesday night in the Jim Hill

Also speaking was J. Raymond-Flores, whose topic was The Happy Medium".

Bill Penn served as toastmaster, while Virgil Dodsor was evaluator. Louis Machuca, Dr. Milton C. Adams and Bill Penn tied on best table talks, speaking on politics, elections and candidates. Table topics were conducted by Virgil Dodson.

Carl Ray also gave a report on the state meeting in Fort Worth and on the district contest last weekend. Ray and Dr. Adams attended the meeting.

Hardy Benson will serve as speaker for a home demonstration club meeting at Raney's Restaurant on Saturday, Nov. 17. The club will provide a speaker for any meeting, president Irving Alexander pointed

Brian Adams attended the meeting as a guest.
