Vegetable Research Program Established In Munday Area

TEXAS TECH COLLEGE, Lubbock, Texas - Potatoes, cabbage and onion variety trials have been planted in Munday in cooperation with area growers and the Ferry-Morse Seed Company.

Cabbage and onion varieties were planted in October, 1968 and to date have made excellent progress. The possibility of over-wintering these two crops look excellent. These crops have withstood temperatures as low as 10 degrees F. with no noticeable damage. Sand damage has been moderate to severe on young onion plants, however the plants are well enough established with a large root system, and should recover in good condition.

Eleven varieties of chipping and fresh-market potatoes were planted on February 13th in trial plots on the Eugene Thompson farm. The potato trials will be followed by cantaloupe, honey-dew, slicing cucumber and onion varieties for onion-ring processing trials.

Area Vegetable Specialist, Joe D. Tidwell, will coordinate plantings with area growers.

Five or six cantaloupe varieties, with available honey-dew varieties, will be planted on the Floyd Reed farm. Five or six hybrid slicing-cucumber varieties will be planted on the Lonnie Offutt farm.

Cabbage and onion trials will again be planted on the James Smith farm in late fall to evaluate the potential of over-wintering.

MRS. KENNETH RAY PRESENTS PROGRAM

Mrs. Howard Perry Jr. directed the Progressive Study Club program Thursday night in the community room of the Haskell National Bank.

She introduced Mrs. Kenneth Ray of the Merle Norman Salon, Olton, Texas, who is Howard Perry Jr.'s youngest sister, and whose parents, Mr. and Mrs. Howard Perry Sr., reside in Rule. Mrs. Ray practices cosmetics, the art by which just plain beauties are transformed into gorgeous ones.

Presentation of a gift to the members and guests was also the means of choosing a "victim" for demonstration, the jar with the "x" on the bottom made it's owner, Mrs. Kenneth Lane, the "it" model for the evening. It is difficult to improve on a good thing, but Mrs. Ray performed very well, demonstrating useful tips for every one present. If only William Shakespeare had known that "It's What's Up Front that Counts", he might have re-phrased his famous question into "To Be or To Seem To Be" o, well...

TEXAS BANKERS BANQUET

Haskell's National Bank was impressively represented at the 7th District Convention of Texas Bankers' Association, held in the Fort Worth Hotel Texas, February 21 and 22. Making the trip to Fort Worth were Mr. and Mrs. Roy T. Everett, Mr. and Mrs. Wayne Waincott, Mr. and Mrs. Abe Turner, Mr. and Mrs. Raymond Couch, and Mr. and Mrs. David Conner.

John Geis of Beaumont, President of the Texas Bankers Association, reported to the convention on association business. Guest speaker was Dolph Briscoe, Chairman of the Board, First National Bank, Uvalde, Texas, and a candidate for Governor of Texas in 1968. Mr. Briscoe addressed himself to the cattle industry in Texas, its proportion and place in the healthy economy of this state.

Convention guests gathered for a gala banquet and to be, among others, entertained by the Giesenslaw Brothers who are frequent guests on the Arthur Godfrey Show and who coined the phrase "I would have wrote you a letter, but I didn't

know how to spell eeeoooooh".

BADGE AND PISTOL SUSPECT

Edward Fiedora, about 45, was apprehended in Haskell Feb. 19, after police received a report of a man begging for food and showing off a pistol and an investigator's badge. Mrs. Brytis Chamberlain of the Sweet Shop became suspicious when a man asking for food showed her a pistol and a badge. She notified the police department. Chief Tom Barnett stopped the suspect on South Ave. E and 5th Street, Sheriff Garth Garrett, Deputies Pete Mercer, Buster Shelton and Game Warden Jack Young rushed to his aid. Mr. Fiedora gave up his weapon, which turned out to be a .22 caliber blank pistol, stolen along with the badge and a 1956 model Buick.

Investigation revealed the man to be a patient from Wichita Falls State Hospital, although he insisted he is a guitar-picking preacher on his way to Midland. Three attendants from the hospital came to Haskell that night and returned Mr. Fiedora to Wichita Falls.

O'Brien FHA Girls Visit State School

By MARY LYNN ADKINS

Tuesday the O'Brien FHA girls went on a very interesting trip to the Abilene State School. The girls were taken on a tour of the school by one of the school's Psychologist, Dr. Flowney. The State School covers 640 acres of land and has a population of 2300 residents.

In 1889, the Texas State Legislature authorized the establishment of an Epileptic Colony. In 1901, the legislature designated the colony's location as Abilene on 640 acres of land donated by the city. The institution's name was changed to Abilene State Hospital in 1925. In 1957, the function was changed to that of a school for the care and training of the mentally retarded and the name was changed to Abilene State School. Since 1965, the school has operated under the supervision of the Texas Department of Mental Health and Mental Retardation.

Their goal is to help each individual to develop his abilities to the maximum, in order that he may lead as productive and satisfying a life as possible. Abilene State School is one of nine state residential institutions for the retarded and serves 101 West Texas counties through the efforts of over 950 employees and a payroll expenditure of about \$3,856,068 annually.

Similar to a small city, the school has facilities which include an Academic School, Arts and Crafts, Business Services, Campus Life, Developmental Recreation, In-service Training, Medical Services, Physical Therapy, Psychological Services, Recreation, Chaplain, Social Development, Social Service, Speech Therapy, Superintendent, Vocational Rehabilitation, and Volunteer Services. This school has helped a lot of people of all ages. It is wonderful that there are so many people who care enough to donate their time, money, and services to such a worthy cause.

The best place to start in helping the retarded is with YOU. Whether or not you work with them as a volunteer or in a career, whether you hire or fire them, if you accept them as a fellow human being, their battle is half won.

Notice! Of City Election

An election will be held Saturday, April 5, 1969, in the City Hall in the City of Rochester for the purpose of electing two (2) Councilmen and a Mayor. Deadline for filing for these offices will be March 4, 1969.

(Signed)

Pete Tanner

Mayor, City of Rochester

THANK YOU

Due to circumstances beyond my control we have sold our grocery store here in Rochester. It has been a pleasure to have been a part of this community with its fine people. We feel that we have been blessed with you, the finest customers in the world, and we also have been blessed with having the finest help that anyone could ask for. Without them, we could not have made it.

We want you to know that we have, and do, appreciate all you people have done for us and we want you to know that we will still be able and willing to help in any way possible.

We have sold the store to a fine, young family, who we feel will be an asset to the town and community. They are good, honest, God fearing people who intend to make this their home. They have four children, all of school age, and we hope you will be as loyal to them as you have been to us.

We hope you will accept this as our feeble way of saying, thank you for all the wonderful things you have done, and we say, God bless and keep each of you, is our prayer.

Fych's Comments

Remember, how as a child you were eager to have your mother or father notice your achievements, encourage your aims and ambitions? Stop to think about it, and we find even as adults, attention once in a while feels good.

It's the same with children today. That is why Public Schools Week is observed in Texas.

This year March 3 through 7 is Texas Public Schools Week, and it's your chance to visit your child at his school. You'll meet his teacher, and see first hand what he's accomplishing — the progress he's making toward his goals in life.

Besides offering him encouragement, a visit to your child's classroom will let you see how your tax dollars are being spent for modern education.

You'll marvel at the many advancements Texas education

has made in just a few years.

Texas teachers are the newest innovations in schools. They are preparing your child for tomorrow's world. You help your child with a visit to his classroom. Public Schools Week is a time when you can see your child's teacher at work. This visit is your responsibility, but it's one you and your child will enjoy.

Rochester Public Schools will join in this great celebration which you and your child will enjoy, by your visit to the Rochester Schools. Several years the Rochester Schools have shown their work at open houses during Public Schools Week there. Every child that wishes to take an act part. This year the theme will be "Patriotism."

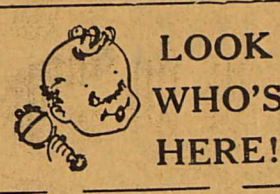

Many hours are spent by the teachers in preparing script which will hold the interest of children as well as adults. Teachers and child work diligently practicing their

are very few mistakes. The public should, and most of them do, appreciate the time spent on this project.

Don't forget to take the time to attend the program, the open house in each classroom. Start early so as you may make the round of all the rooms in school. Naturally you will want to visit the Home Economics girls who serve refreshments. No one has mentioned this part of past programs, but my thoughts are that the girls, Mrs. Chambers and the two student teachers will come through with the much needed refreshments after a survey of all the classes.

The program has been well planned and you will feel you have had a full evening when you finish off with the patriotic program. Be on hand for Public Schools Week and make this a day when the youngsters can show mom and pop just how smart they really are.

Mr. and Mrs. John Lane Ballard of Tarleton State spent the weekend with his parents, Mr. and Mrs. J. F. Ballard and in Knox City with Mr. and Mrs. Middlebrook.

"Melare Meddles"

By Janie Whitley

CHESTER

If you think the gennon gap is bad, consider the an who is in the gap where is "too young for Medicare and too old for Men-to-care."

I think one of the grst feelings must be to sing a stage in front of an audie. I get a super charge of listening to Glen Campbell Petulia Clark sing any.

If you listen carefully, ill find that most of these soto have words. In the Mason-Williams Phonograph Record-bum there is one song 27- s long which he says "ses to sum it up pretty good." ses words are "Isn't life wor-ful! Isn't life gay? Isn't life perfect thing to pass the e away?"

In my opinion the song at says everything is on the In Make It With You album bye now-parted Pozo-Seco Sings. The song "Johnny" is wra by M. Merchant:

Johnny, run to the window.
Daddy's coming through the meadow.
What's that he's holding in his hand?
Johnny, it looks like a pres-ent,
For you Daddy's bringing home
A present for his little man.
Johnny, Johnny, run and meet
him,
Run laughing to your father,
greet him,
Show him you're happy that
he's home.
Give him your little baby kiss-
es
So that he may know that this
is
His darling son, his very own.
Johnny, peep into the sack,
Get ready for your thrill.
What has Daddy brought you
back?
It's a little bird, lying still.
Johnny, hush your crying,

Little birds can't fly from
dying,
Loveliness is powerless to stay.

You will learn as you grow
older,
Days are shorter, nights get
colder;
The web of time entangles and
enslaves.
Johnny, listen carefully:
Our debts must all be paid,
Beauty would not beauty be . . .
If it did not fade.

Johnny, don't be a mourning,
Let the bluebird be a warning
Enjoy the world, enjoy it while
you may.
Each moment that your heart
is beating,
Time is passing, time is fleet-
ing,
Live your life, live it every
day,
So live your life, Johnny, live
it every day.

READING PROBLEMS NOTED
Fifteen percent of children reaching school age are not yet ready for reading instruction because of immaturity, according to education expert Hale Shirley. Some children who are described as "immature" actually suffer from a perceptual handicap or other learning disability.

CATTLE DRIVE the modern way. Sunday afternoon Felix Mullino and his grandchildren, Susan, Reid and Buddy brought a small herd of cattle down the highway just as your reporter was going home. The cattle were supposed to be going down the side of the highway and everyone seemed to have everything under control until a modern vehicle or two had passed. This caused the cows to start wandering about. They are pictured with a car on both sides and the horseback riders in the background. A red jeep driven by George Mullino was leading the cattle drive. Cattle drives, horseback riding and modern vehicles make for a cattle drive with plenty of excitement.

Tax Man Sam Sez:

The good tax folks have a problem this year. IRS's change to computer operations requires that all income tax returns be sent to the IRS Service Center in Austin, Texas this year. Many taxpayers don't believe their instructions. They don't believe the radio and television folks when they tell them to send their tax returns to Austin, and they don't believe the newspaper stories. Several thousand of these good folks have delayed their refund and the processing of their tax return. They mailed their return to the District. Percentage-wise there aren't many of these folks. But, there is no point in their wasting their time and IRS time by sending their tax return to the wrong place. The thing to do is to send that form 1040 straight down to Austin so that computer can go right to work on it. You can use the envelope IRS sent you. The tax folks at the district offices are not mad at you. They are still in business, but they can't process your tax return.

Mrs. Bill Yarborough is visiting this week with her daughter and family Mr. and Mrs. Charles O'Pray, Shannon, Kelli, and Joel of Fort Worth.

Words are inadequate to express our feeling to those of you who visited us at the hospital. The calls and visits you've made and all the delicious food you've brought us since we came home has certainly made us aware that we are so very fortunate to live among the finest people on earth.

May God richly bless each of you.

large lime-green bow and two streamers accompanied the floral arrangement. The two streamers had the bride and groom's names on them in silver glitter.

The guests signed the bride's book, which was on a linen covered table, held open with white ribbon with lime-green rosettes attached to it. After an evening of dominoes, '42', other games and lots of visiting the following signed the bride's book.

ROCHESTER WALLOPS MUNDAY

The Rochester Baseball Club's slugging spree backed up by stellar pitching of Lee Holden and Fonzy Austin trounced Munday 11-2. Home runs were knocked by Leck Carothers, Ned West and Beans McCandless which brought in most of the runs.

Holden pitched the first four innings with Mansell catching; while Austin pitched the remaining five with Martin playing the plate.

Jim Wyatt, flashy short stop, shared honors with Ned West in leading the Rochester attack with three hits out of five trips.

Mr. and Mrs. Tommy Herring of Munday visited Mrs. R. L. Love Sunday.

Mr. and Mrs. Kenneth Weems of San Antonio spent part of last week with her mother, Mrs. Sterman Hudspeth and boys.

Junior High Teams Cop District Titles

ROCHESTER - The Rochester Junior High boys and girls came home with the Junior High District first place trophies Saturday night from Paint Creek.

The boys played Paint Creek for the title Saturday and had a very narrow escape as they won over the Paint Creek team 34-33. They played a very hard game and were very tired but happy when the buzzer sounded and they were ahead. The game had been nip and tuck all night. To get to the playoff for first place, the boys had defeated Old Glory 38-24 and Goree 43-23. Larry Davidson was high score in the Old Glory game with 12 points and Johnnie Mar-

tin was high for Rochester in the Goree game with 19. High point was not available in the Paint Creek-Rochester game.

The boys begin track this week and will be making the dust fly to cop the junior high district trophy in track.

The girls swung into action as they tackled O'Brien Saturday night for the first place trophy. They won 28-14. O'Brien played a deliberate game of stalling which caused the points to soar downward. Debbie Beauchamp was high for the winners with 15. To reach the playoff for first place the junior high girls played Old Glory and won 41-4. In their game with Goree they won 53-33. Debbie Beauchamp

had 37 for Rochester and Mableine Reeves had 22 for Goree.

Mr. Simmons has been coaching the junior high school girls the past seven years. He has a 154 win to 13 loss record for his seven years of coaching. You could probably say he sorta has a winning streak going. This is 20 straight wins for this year's team. In 1962-63 his win and loss record was 22-3; 1963-64, 23-3; 1964-65, 21-1; 1965-66, 24-2; 1966-67, 21-0; 1967-68, 14-5; 1968-69, 24-0. This is a record any school can be proud to own.
