The county commissioners are making a board of equalization this week, going over the maps of the Assessor P. D. Need. It was amusing to hear the board of equalization meet one hundred and sixty-some people in the home. They were sitting there, like people, to go to a town meeting. They had a long list of names on our mailing list.

Cotton Seed 35c per Bushel

Floydada wants you to plant cotton and you will furnish us seed at 35c per bushel. For information apply to W. M. Wood, Floydada, Texas.

Mr. L. E. Turrentall, of Dallas, is here on a visit to Dr. E. H. Hulse. He is just out of hospital service at Baptist Memorial Sanitarium, and has not yet decided on a return to the city.

Mr. W. H. Smith has written Miss Meg Rivers, of Haskell, who is in the city trading last Monday, and while here called in to see him. They were out of the office and failed to meet us, but hope they will call again and find us at home next time.

Mr. H. S. and Mrs. Smyer, of the Fine Fairview, were trading in Emma last Monday. They both had their names on our mailing list. The News' subscription list is steadily growing, for which the management is truly thankful.

Sundown.

When the sun goes down in the street, you'll try to recall all the deeds that were best, for soon at the seat of the Judge you appear, to give an account of your stewardship here. Each day you are doing something that may seem as smart and as blith as any man's scheme; perhaps it will raise the applause of the town, but how will it look when the sun goes down? Each day you are striving to build up your stores, and maybe resorting to systems of guilt, and when you are asked if you think it is straight, you think your defense begins to shatter. There is fierce competition and men who would win, mustn't be too held of the shadow of sin. This leg may go in the local bustling town, but how will it look when the sun goes down? You'll like to be proud if you only had time, but you are so busy serving the plans that helped your brother or trying to cheer the grace-streicken pilgrim now journeying here, it is merely another trial that comes but to fade. Only one thing to expect, which is death; and there you may prove for wealth and renown, but how will it seem when the sun is going down?—Ex.

Prof. W. H. Seffeld stopped in and shouted with the News force a few minutes today.
The Emma News and its Editor:
For the information of our readers who never heard of it, we will tell you, the Emma News is a small sheet published in the county seat of Crosby County, edited by a man (7) called Charity Watkins, the same being a resident of that good town. In the recent issue of this little innocent sheet the editor has as completely displayed his ignorance as any one we ever heard of. Why? By fighting everything that is against the interests of Crosby county and every individual in it. He is opposed to railroad building unless it is built to suit his liking, and where he wants it, and he expounds his ignorance in fighting the same. He has failed to appeal to the people in his own home town, and by the way, some of them have given liberally to the building of the Crosby South Plains railroad, and is the only man in the county but what will agree that it matters not where a road goes it will benefit the whole county just the same. He is with a few others, selling that the Crosby South Plains Railroad is being built to Emma, which is anything as anything as he could tell. All one of his articles or from that little weekly newspaper is that he is broke and wants everybody else to be broke, that he has never seen Crosby county amount to anything and does not want Crosby county do anything unless it suits him. The building of the Crosby South Plains Railroad will not keep Emma, nor Mr. Watkins, from building a railroad if it is to be built to Emma as well as to Ferguson, which is like this, if he cannot do a thing he does not want to see his neighbors anything and that sounds the whole matter down to a nutshell. He says delightfully, last week took up a clipping from the Texas Speer, and commented on it thusly: “We reproduce the above show what our neighbors think of the new railroad proposition and that we are not alone in viewing it as a threat proposition.”

There is more ignorance displayed in these six lines of type than we ever saw in so short a space, from the fact that he is considering that if Crosby county be a railroad could build a railroad across the country that it will prove a railroad proposition, and that it is being built for the purpose, and one purpose alone, that to cut the throat of the people of the county. This is not a fact, as a fact the Crosby South Plains Railroad is being built where the railroad company want to build it ad on the best line for their investments, and to look in any other direction would be foolishness on the part of the builders. We would like to ask the “Agapite Watkins” (7) if he ever heard of any man investing large or small monies in a proposition except for the returns coming to the same in some way or other? Is Watkins running his business for his health? If he is running it for the money not for us we will not say anything about it, and we will let any railroad be developed that will do us good. We will not say anything about it, and now we would like to ask the Watkins what is he ever accomplishing there? Is he working on anything that will be of benefit to the people of the county? Is he working on anything that will be of benefit to the people of this country? Is he working on anything that will be of benefit to the people of the United States? Is he working on anything that will be of benefit to the people of the world? Is he working on anything that will be of benefit to the people of the universe? Is he working on anything that will be of benefit to the people of the cosmos? Is he working on anything that will be of benefit to the people of the universe? Is he working on anything that will be of benefit to the people of the cosmos? Is he working on anything that will be of benefit to the people of the universe?

J. C. Witt; Emma, Texas.
