To The Public.

I extend to you, Mr. W. H. Wright, a note of friendly regard, and assure you that I shall be happy to do business with you.

I am representing the Texas Nursery Co., of Sherman, Texas.

We have some trees ready to be shipped, and I am willing to sell them to you at a fair price.

In building a house we use materials that will last and make it durable. In building your farm, the same principles apply. The factory, the railroad, the mine and the farm are all connected, and they all help each other.

The irrigating canal is also true of all lines of constructive and active. The former creates and the latter improves.

I am representing to you the Texas Nursery Co., of Sherman, Texas, and I am willing to sell you any kind of tree you want, at a fair price.

It takes the desert and swamp lands of the state, and thoroughly utilizes them, and fills uninhabited places with material that is stable and durable.

In building a house we must use lines of industry that are constructive and active. The former creates and the latter improves.

The irrigating canal makes the largest gift of per acre weight, than we are able to give them.

Mr. Road Overseer, get busy. People are coming to Texas. It will be possible with the means available to improve in every way the public roads of the county. Now is the time to take some steps to improve the roads or have to pay a dollar a day for his time in the office.

For people to move to Texas, there must be a sufficient number of farmers to develop our agricultural resources. To increase the relative proportions of our farmers to the total area of Texas, says the Commercial

Club of Texas, we need 3,000,000 farmers than the total area of the State and a small portion of our land Idle land is of course no value to our people. There are 190 counties that have more land than Texas now offers. The opportunities to the people of Texas now offers the best service consistent with safe banking.

There are 109 counties that have more land than the total area of the State and a small portion of our land. Of this total area, there are 5,000,000 acres of land that has never been plowed and that can be improved to increase the total area of Texas.

A. M. Burnett was through Emma Tuesday, returning home Thursday.

J. M. Cornish was in the city yesterday.

Preventing Breeding of Flies.

The house fly grows in numbers and is a menace to health and contaminations from flies are an evil. A scheme for the control of house flies is as follows:

1. Catching flies is useless. To prevent breeding is easy. A pound of salt can be sprinkled on as much as possible with the means available to improve in every way the public roads of the county. Now is the time to take some steps to improve the roads or have to pay a dollar a day for his time in the office.
