Give them a Faith to live by

Worship with them this week

Naturally you want them to have all the good things in life . . . a happy home . . . a good education . . . plenty of chances to meet other nice young people. But be sure to give them the most precious gift of all . . . Faith.

The wonderful part is that faith is yours to give . . . no matter who you are, what you do for a living, how much money you have in the bank.

Faith is the gift you give a little at a time. Every week you worship with the children at your church or synagogue. The youngsters see you . . . the biggest, smartest, most important people in their world . . . asking God for help, thanking Him for blessings. Then it's clear to them . . . here they can *always* find the strength they need, *always* find the happiness they want.

Then you've done the best a parent—any parent—can do.

Can You Stop In Time?

It takes more than the distance between goal posts on a football field (100 yards) to stop a car traveling at 60 miles per hour under the best driving conditions, 4-H Club members point out. At 60 mph. a car travels 88 feet per second. There's not much "time" to come to a dead stop upon approaching a tractor or other slow-moving farm machinery.

It is also true that drivers under 20 years of age have a worse safety record than older drivers. So each 4-H boy and girl enrolled in the safety project is encouraged to become a "self-policing committee of one." These 4-H'ers make certain that the family car, truck, and tractor are in safe operating condition at all times.

For the past 15 years the 4-H Safety program has been supported nationally by General Motors, which among other things provides incentive awards for top ranking club members in each state. The awards consist of \$400 college scholarships, all-expense paid trips to the National 4-H Club Congress in Chicago, medals of honor, and plaques. The program is under the direction of the Cooperative Extension Service, United States Department of Agriculture.

Statistics reveal that there are more teen-age drivers on the highways today than ever before.

Amity News

By Mrs. I. A. White

Rev. Raymond Woodruff was the guest of Mr. and Mrs. Hayden White following services at Amity church Sunday.

Walter Ayers is visiting his sister Mrs. Effie Anderson for two weeks. He lives at Marshall, Texas. They attended services at Amity church Sunday night.

Mr. and Mrs. W. T. Henderson and sons, Tom and Paul, have gone to Austin and San Antonio on a business and vacation trip for the week.

Mr. and Mrs. Hayden White and three children Cliffadean, Shirley Jo and Roger, attended the Graham and Dillard reunion at Lake Cisco Sunday.

Visiting in the E. L. Stodghill home Thursday night were Jim Ray Bucy of Rising Star and Mrs. Carrie Caudle. Rev. and Mrs. Raymond Woodruff of Brownwood visited in the Stodghill home Sunday.

Mr. and Mrs. Horace West of McCamey visited his parents,

Mr. and Mrs. E. R. West, over the week end.

We are sorry to report that James Armstrong is ill in Rising Star Hospital, but as this was written he was reported improving.

Mr. and Mrs. Walter Hender, son visited her sister, Mrs. Albert Lancaster, and Mr. Lancaster at May Sunday. It was during the Lancaster reunion which was enjoyed by a large crowd.

Women from Amity who visited the North Star Club on July 28 were Mes. Carrie Caudle, Cora White and Ethel White. They witnessed a demonstration in making plastic flowers.

Walter Ayers and Mrs. Effie Anderson visited Mr. and Mrs. I. A. White Sunday afternoon. Mr. White is ill.

Mr. and Mrs. Buster Brown and Kent had as their guests last week Mr. and Mrs. Jackie Brown and sons from Odessa.

Mr. and Mrs. C. S. McNeely of Stamford visited relatives here Sunday.

Mrs. James Armstrong and boys visited her sister, Mozelle, at Beaumont.

HOME MAKERS

Views and News

Sandra Kirkland Home Dev. Agent Nancy Weathers Ext. Educ. Dev. Agent

Homemakers views and news... Do hungry teenagers raid the refrigerator and keep the cupboard bare? If so maybe it might be a good idea to keep plenty of milk and dairy products on hand at all times.

These foods are favorites with teenagers. What's more important, dairy products are especially rich sources of the protein, minerals and vitamins needed by boys and girls during these years when they're growing so fast.

A French toasted cheese sandwich hits the spot as a late evening snack. Simply put a slice of American cheese between two slices of plain or whole wheat bread, dip entire sandwich into a mixture of beaten eggs, milk, salt and pepper, and brown in butter in skillet. With a glass of good cold milk, this would make a perfect ending to an evening of fun and activity.

For something sweet, try this Orange Fluff. Put 1/2 pint vanilla ice cream into a large bowl and let soften a little. Add to the ice cream 1 can frozen concentrated orange juice and two cups cold water. Beat with rotary egg beater or electric mixer until fluffy. Pour at once into tall cold glasses and top with the remaining 1/2 pint of ice cream. For party refreshments, add a half slice of orange and sprig of mint. Makes six servings.

Thick milkshakes can be quickly made with your electric mixer or a rotary egg beater. Just put slightly softened ice cream milk and flavoring into mixing bowl and beat until fluffy.

Fast work is the key to success when you're cleaning venetian blinds. Here are some materials for cleaning blinds: a very mild synthetic detergent, a large container such as a bathtub or laundry tub; liquid wax, a soft brush, several clean soft cloths, and a good supply of lukewarm water.

The first step is brushing off,

CYCLONE FENCE

Cyclone Fence around your property makes it tough for intruders—keeps people from trampling your lawn and flowers—gives your children a safe playground. Cyclone is a quality fence. Made of heavy, galvanized steel, it lasts longer than fence of other materials. Expert erection service. For detailed information just phone and say "Please mail me the free booklet that tells me how I can fence my home." Free estimate if you wish.

all surface dust. Use the dusting brush of your vacuum cleaner or a clean soft cloth for this job.

Once the dust is all off, whip up a suds in the bathtub or laundry tub. Use water and a mild synthetic detergent which should be completely dissolved. Place the entire blind in the suds and brush gently with a soft brush or cloth. Work fast. Rinse fast, also, using clear lukewarm water. Two or more rinsings may be needed.

Dry the slats with a soft cloth, then hang the blind up at the window so the tapes can dry. White is it drying, the blind should be extended all the way down. Give the tapes a good stretch. When the tapes are completely dry, apply a thin coat of liquid wax to the slats. The wax will prevent dust from sticking to the shade quite so readily. And when the slats are dusted, they will be cleaner.

Speed is especially important if the slats are made of wood. If the wood soaks up water, it may warp or the paint may peel. Handle your blinds with care so that no paint is chipped. Sandra Shelton, ECHDA

New Publication On Angora Goats Is Available

COLLEGE STATION.—"Texas Angora Goat Production" is the title of a new bulletin released by the Texas Agricultural Extension Service which should be of interest to both present and prospective raisers, as it discusses Angora goats from the time you select your breeding stock to the marketing of mohair and goats.

Texas had 90% of the Angora goats produced in the United States, says J. A. Gray, extension animal husbandman and author of the bulletin. They are very useful in helping to clear some types of brushy land and help to control sprouts on some types of cleared land.

Angora goats can use many kinds of pasture. They are adapted to high, rough land, since they are excellent climbers and good travellers, Gray says. They need a good water supply and year-round browse. If they have access to green browse or green grass, their fleeces will be heavier and contain more natural oil. If year-round browse is not available, goats may require supplemental feeding during the winter, he adds.

Controlling sprouts on cut-over, bulldozed or chained brush country with goats has become popular in certain sections. Wether goats are more popular or controlling sprouts because they usually are larger, stronger and can withstand more cold after shearing than does and kids. The ranchman who is interested in controlling brush many times is not interested in breeding goats, he says.

Producers recognize the importance of size and good conformation in Angora goats. They still differ about the types of fleeces. Differences in type of fleece are associated mainly with types of lock. Three principal types of locks are ringlet or C type, flat lock or B type and the web lock.

Recent guests in the home of Mrs. R. A. Horton were Mrs. Frank Castleberry of Eastland, Miss Lucile and Helen Horton of Dallas, and Mrs. Horton's brother, Ernest Herrington, and wife of Fort Worth.

Sheep Producers To Vote on Wool Market Program

COLLEGE STATION.—Sheep producers will have the opportunity to vote in September on a nationwide referendum on the question of continuing to finance a market development program for wool and lambs, says A. B. Wooten, extension economist.

The program of advertising, promotion and related activities is carried out under an agreement with the American Sheep Producers Council, he says. It is financed by deductions from wool incentive payments earned by growers under the national wool program.

The agreement has been in effect since the 1935 marketing year, and if approved in the September referendum, will be continued for another three years. Favorable vote of producers having two-thirds of the volume of production represented in the referendum is required for approval, states Wooten.

Under the new agreement, deductions may not exceed the rates that have been in effect under the original agreement of one cent per pound for shorn wool and five cents per hundredweight for lambs.

To make it easy as possible for all growers to participate, the referendum will extend over the entire month of September. Wooten said ballots will be mailed to producers from the county ASC office before September 1 and may be voted and returned through September 30.

Return From Tour Of Western States

Mrs. Ethel Taylor and Mrs. Bobby Guynes, and Hettie returned from a three-week tour of the western states. They visited with Mrs. Taylor, Elmer Guynes, and family at Bloomfield, N. M., Mrs. F. Guynes, and wife at Colo. They fished in West Dolores river and in some mountain lakes and Bob visited the ice box with some of the day while fishing in the mountains. They visited Indian at Artee and Choco, N. M., and went to Mesquite, Colo., and took a train from Durango to Silverton. En route home they visited Andrew Guynes and sons at Globe, Ariz., and saw the copper mines where the boys worked. They had a short visit with Clinton and Robert Dearman, formerly of Rising Star. They came through the Painted Desert and Petrified Forest between Gallup, N. M., and Globe, and visited Carlsbad Caverns. At Midland they visited the Walker Byerlys, and went to Munday to visit a sister, Mrs. J. E. Tomlinson and family. Sylvia Byerly of Midland accompanied them home.

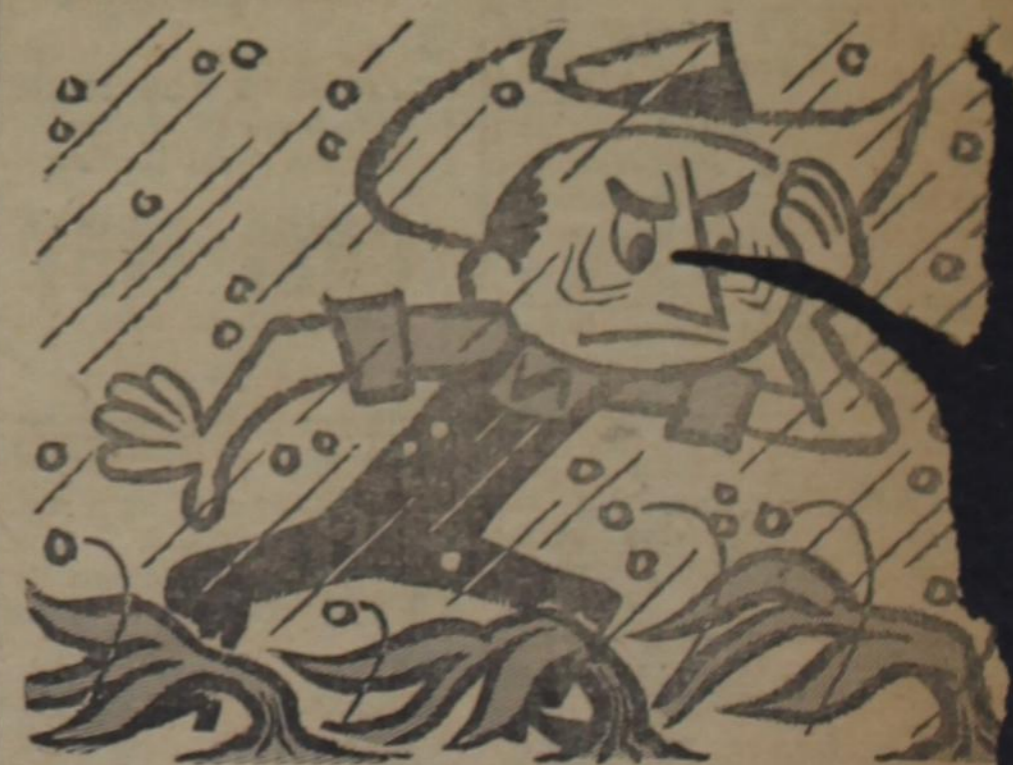

Mrs. Robert Horton returned to her home in Houston after spending a few days with Mrs. R. A. Horton, Mrs. O. E. Shultz and other members of the family.

Visitors in the home of Mrs. P. N. Valliant and Mr. Ed Witt the past week were Mr. and Mrs. P. T. Valliant of Ruidosa, N. M., and Mrs. A. H. Frankenburg of San Angelo.

Mrs. Vera Young of College Station is here for a visit with her parents, Mr. and Mrs. T. C. Crisp.

Kathy Yancy of Tyler was a visitor in Rising Star Sunday.
