**The Case of the Nozy Landlord**

Alice was taking an afternoon nap. She and her husband Joe had spent all last week moving into their new apartment. Today, with Joe back at work, Alice had been trying to do the ironing while chasing after their young son, and she was tired. A noise from the front room woke Alice. She went to investigate and saw a man standing in the room. Alice was about to call the police when she recognized the man. It was Mr. Irving

Snoop, their landlord. He explained that he had let himself in with his pass key to make a routine inspection.

Alice was quite upset and asked Mr. Snoop to leave. She said that he could come back another time, but asked that he get permission before entering their apartment.

Mr. Snoop informed Alice that he owned the apartment building, and that he needed no one's permission to come and go as he please.

Is Mr. Snoop correct? Can he enter the apartments of his tenants without their permission?

Mr. Snoop is wrong. A tenant has the sole and exclusive right to the occupation and control of his apartment during the existence of his term. Therefore, as a general rule, a landlord has no right to enter the apartment of his tenant without the tenant's consent, unless the landlord has reserved such a right in the lease. An unauthorized entry or intrusion by a landlord on his tenant's premise constitutes a trespass to the same extent as an entry or intrusion thereon by a stranger.

Some courts have held that a landlord has the right, during a tenancy, to enter and make such repairs as are necessary to prevent waste. However, in general, in the absence of express permission or of some agreement to the contrary, the landlord has no right to enter upon the rented premises to make alterations and improvements, to investigate as to the need of repairs, or to make any necessary repairs, and certainly not to "snoop around."

Mrs. Perry Valliant and Mr. Mrs. Ed Witt had as their guests during the Thanksgiving holidays, Mr. and Mrs. P. T. Valliant and sons of Ruidosa, N. M.; Mr. and Mrs. A. H. Feankenberg and children of San Angelo; Mr. and Mrs. Pok Valliant of Megargel, and Mr. and Mrs. J. T. Gray of Lancaster, Tex.

Mr. and Mrs. Joe Clayton of Bryson and Mr. and Mrs. Jesse Clayton of Duncan, Okla., were guests last week of their sister, Mrs. L. R. Smith, and Mr. Smith.

Mrs. Wade Clark of Carbon, accompanied by her son, Wade Earl Clark of Plainview, visited Doc Hamlet and other relatives in Rising Star on Monday, Nov. 26.

Mr. and Mrs. Roy Haynes of Ira, Mr. and Mrs. Ennis Boggs of Kress and Mr. and Mrs. Otis Brooks of Lometa were holiday guests in the homes of Mr. and Mrs. W. L. Boggs, Dixon Boggs and other relatives in the Rising Star area.

**About Your Health**

It may be socially gallant for a man to relinquish his coat to his womanly lady to ward off the chill of these November nights. But physiologically speaking, it's foolish.

He probably needs it more she does.

Both sexes have insulating layers of fat, but the fat of a normal woman is thicker than that of a normal man. And the fatter a person is the better cold weather can be tolerated.

One of the most remarkable facts of human physiology is that we all are equipped with our own private thermostat. Normal

body temperature varies between 98 to 99 degrees. When atmospheric temperatures rise or fall from normal temperatures, the thermostat goes into action.

This built-in regulator is a tiny maze of nerve cells in the mid-brain. If the day is hot, it reroutes blood from internal organs to skin capillaries, diluting the flow with fluids drawn from skin and muscle tissue and from the liver. Sweat glands on skin surfaces dilate and exude perspiration. Body temperature is reduced by the dilution of blood and exudation of sweat. The sweat evaporates and your skin cools off.

If the day is cold, the regulator concentrates the blood and diminishes the flow through skin capillaries. Sweating is minimal and the blood courses through internal organs deep in the body.

Result: you feel cold and have to put on a coat or an extra blanket to stay comfortable.

As a fact of human physiology, body temperature remains unchanged at about 98.6 degrees, even though the air temperature might vary from zero to over 100 degrees.

However, harsh direct contact with the cold — especially icy water — can lower the internal body temperature if exposure is prolonged. Death usually occurs when the body temperature falls to 77 or 70 degrees.

A number of factors, including age, amount of fat tissue, degree of physical fitness, physical exercise, and clothing, affect the ability of man to adjust to cold environmental temperatures. (A weekly feature from Public Health Education Division, Texas State Department of Health.)

**Blanket Drive For Needy Algerians Is Church Project**

NEW YORK — Thousands of Algerians may freeze to death during the oncoming months unless 650,000 blankets are rushed to that stricken country immediately, officials of Church World Service stated after an emergency meeting here.

Hugh D. Farley, executive director of the overseas relief agency of the American Protestant and Orthodox churches, called for an immediate drive for blankets after hearing a report on the desperate plight of the Algerians by Jan Van Hoogstraten, director of CWS activities in Africa.

As the machinery was put into motion for the nationwide blanket drive, church officials declared that six hundred million pounds of U. S. surplus wheat will be rushed to Algeria to combat the growing starvation there. This, it was revealed, will be in addition to more than eleven million pounds of food and other relief supplies already sent as a result of efforts of CROP (Christian Rural Overseas Program, S. O. S. (Share Our Surplus) and other relief appeals of the churches.

Mr. Van Hoogstraten described conditions he had observed on a four-week field trip to Algeria from which he had just returned, in citing the critical need for blankets.

Church World Service is currently conducting its annual Share Our Surplus Appeal, a Thanksgiving season fund-raising activity to finance the SOS program.

Churchgoers will contribute to the Share Our Surplus Appeal at special services held in churches and communities throughout the country during the Thanksgiving week, and also through activities of CROP (Christian Rural Overseas Program) of CWS.

Contributors to the blanket drive are asked to also give 25c to cover pre-shipment processing costs. Plans are being made for interdenominational collection of blankets in communities throughout the country.

Blankets will also be received at the following Church World Service centers: 637 West 125th Street, New York 27, N. Y.; Nappanee, Indiana; New Windsor, Maryland; 4165 Duncan Avenue, St. Louis 10, Mo.; 3855 Elm St., Denver, Colo.; and 919 Emerald Ave., Modesto, Calif.

## Browsing With BEV

By Mrs. Beverly Nicholson

Don't overlook the use of pumpkins, now that Halloween is past. This fall vegetable can be turned into many delightful dishes. Select a pumpkin which is heavy for its size. The rind should be hard and free from blemishes. Extra large pumpkins may have stringy course flesh and be less flavorful than small or medium-sized ones.

Pumpkins, with their yellow to orange color, belong to the group of vegetables famous for Vitamin A. Pumpkins also provide small amounts of other vitamins and minerals.

Besides using it in pie, pumpkin can also be used in custards, cookies, and nut bread. Stewed pumpkin can be mashed, seasoned with butter, salt and pepper, and served as a vegetable. It can also be added to waffle batter.

With frozen orange concentrate so inexpensive, it's wise to use it in many ways. Here's an idea that combines two plentiful food items — frozen orange juice and salad oils.

Mix 1 can frozen orange concentrate with 1 cup salad oil; add ½ to 1 teaspoon salt and a dash of red pepper sauce. Pour over a mixed fruit salad or a scoop of cottage cheese nestled in lettuce leaves. It's mighty tasty.

Apples also are in abundant supply. Grapes — mostly Tokays — are in good supply. New crop cranberries are in our markets, and reasonable in price. And citrus fruit, mostly from Florida, is beginning to arrive. As usual, however, early grapefruit and oranges lack flavor and are relatively high prices.

Mr. and Mrs. George B. Laswell of Brownwood were host and hostess to their son and his wife, Mr. and Mrs. Ralph Laswell and two daughters, Linda and Susan of San Angelo; Mr. and Mrs. E. F. King of Hobbs, N. M.; Mr. and Mrs. Lee Clark, and Mr. and Mrs. Fred Roberds and Pauline, all of Rising Star, on Thanksgiving Day. A turkey dinner with all the trimmings was served and a family reunion enjoyed.

A. F. Folkner, who was taken to Gorman Hospital for treatment, is now at home recovering from his recent illness.

## CHURCHES, SOCIETY AND CLUBS

MRS FRED ROBERDS

### Thanksgiving Is Decoration Theme For Saturday Club

The Saturday Club met on November 21 with Mrs. John Clark, president, presiding. The club gave the Lord's Prayer in unison. A quotation from the Bible was the response to roll call.

The president welcomed two guests, Mrs. A. E. Tucker, Somerville, mother of Mrs. Ray Nunnally, and Mrs. Grady Lackey of Pulaski, Tenn., a cousin of Mrs. Ira Hudler.

"Christ the Great Teacher," was the subject of Mrs. Baney Cargile's talk. "In the Garden" was sung by the assembly. After the business session the club was adjourned from the social hour.

The Thanksgiving theme was carried out in the lovely decorations featuring mums and autumn leaves. Coffee and a delicious salad course were served by the hostesses, Mrs. Adrain Jenkins and Mrs. Floyd Joyce. The next meeting will be on December 5.

### North Star Club Plans Christmas Boxes for Home

The North Star Home Demonstration Club met at the club house on November 20. The meeting was well attended and refreshments were served by Mrs. Carl Irby and Mrs. J. T. Alford.

There will be a called meeting on December 4, at which time members are to bring either cookies, peanuts, popcorn candy and a toy or other gift. These gifts will be boxed and sent to the Travis State School at Austin to be used at one of the dormitory parties which begin on December 7.

All eight of the HD clubs in Eastland county will meet in the basement of the First Baptist Church in Eastland on December 5 for an all-day meeting and a covered dish luncheon, under the auspices of the Eastland Council. There will be a Christmas tree and all members attending are asked to bring a covered dish and a gift.

The concession booth at the Eastland County Pecan Show at Ranger will be sponsored by the Home Demonstration Council and pies, cakes and coffee will be sold. The North Star Club has given a check for \$10 toward this project.

Please do not throw away your deer hides. Mr. Carl Irby will salt them and send them to Austin where they will be processed and tanned and given to the children at the State School to be used in making belts, purses and billfolds, which they sell.

A box of white and colored rags was taken to Rising Star Hospital on Nov. 15.

### All Towns Invited To Enter Pecan Queen Candidates

RANGER. — Col. Roy Plumley, manager of the Ranger Chamber of Commerce, states that he is anxious to have every community in the county represented in the contest for queen of the 10th annual Eastland County Pecan Show to be held in Ranger Dec. 14-15.

The show will be held in the Joseph building, and the queen contest in the past has been held in the high school auditorium on Thursday night before the opening of the show on Friday.

Communities represented in last year's queen contest included Pumpkin Center, Pioneer, Long Branch, Cisco, Cisco Junior College, Gorman, Okra, Scranton, Nimrod, Eastland, Ranger Junior College, Rising Star, Ranger high school and Olden.

Manager Plumley urges communities who wish to be represented in the queen contest, send in the name and address of the contestants at the earliest possible time, and detailed information will be mailed to them.

A bake contest will be held in connection with the show. The contest will be sponsored by the County Home Demonstration Council, which has the concessions.

The contest will be open to everyone whether or not they are members of the Association or the County Council. Prizes will be awarded by the council and entries must include pecans in some form.

Out-of-town guests were the bridegroom-to-be's mother and sister from Odessa; Mrs. Neal Jones from Dallas, and the mother of the hostess, Mrs. Frazier, of Sundown.

Ray Butler, who flies his own plane, brought his family by air from Alice in a time of one and a half hours.

### WCS Has Program and Business Meeting Monday

The WCS of the First Methodist Church met Monday for a business and program session following the luncheon in the church dining room.

The meeting opened with a song, "Beautiful Garden of Prayer." After a short business meeting, Mrs. O. D. Carver gave the devotional based on the 22nd Chapter of Luke.

Mrs. Slayden offered a prayer for friends who are critically ill. A song, "Sweet Hour of Prayer" followed and the closing prayer.

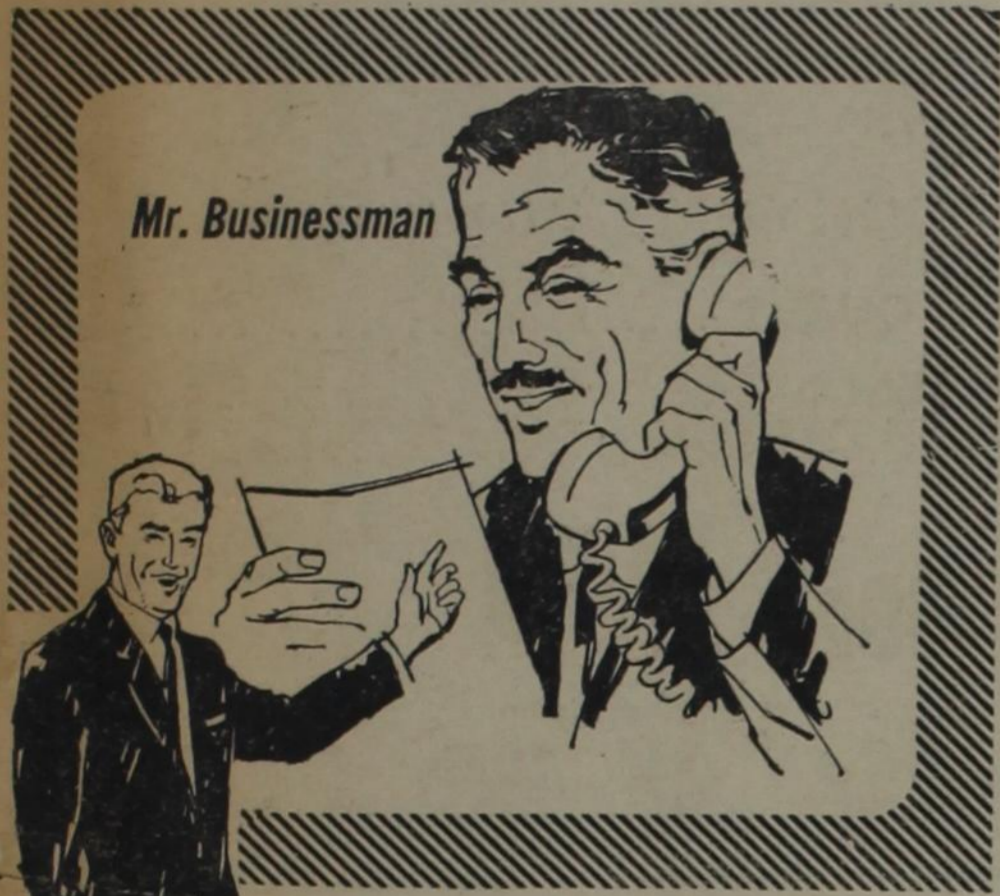

Twelve members attended.

Elgie Crisp has returned from a deer hunting trip to south Texas. He said he failed to get a buck.

## How 45,000 companies help their employees buy security

The average American company is pretty busy tending to its own business. Yet many companies have sandwiched in a valuable service for their employees—the Payroll Savings Plan for U.S. Savings Bonds.

Through this plan, your payroll clerk sets aside a certain amount each payday for Bonds, buys them, and arranges to get them to you. It's completely automatic, and the easiest way in the world to save.

Save as much or as little as you wish. Employees can sign up to save as little as \$1.25 a week. The average among the more than 8 million folks on the Plan is \$20 a month.

All in all, 45,000 companies help their employees save about \$2 billion in Savings Bonds a year—a lot of future homes, vacations, college degrees, and nest eggs for retirement.

The security built into Savings Bonds. U.S. Savings Bonds are guaranteed by the Government to grow. \$18.75 becomes \$25 in 7 years, 9 months. In 10 more years, it becomes \$36.25. Your Bonds can be cashed in anytime, with interest. And if they're lost or destroyed, the Treasury Department replaces them free.

Every Savings Bond you buy is an investment in Peace. What better way to help your government help you enjoy the things you're saving for.

### Hats off to American Industry!

"American Industry has given the Savings Bond Program its greatest success," says William H. Neal, National Director of the Treasury's Savings Bonds Program. "45,000 American companies have paid many billions of dollars in Savings Bonds—at no cost to the taxpayer," says Mr. Neal. "By operating the Payroll Savings Plan, these companies, big and small, are helping to keep our country strong. At the same time, they're helping more than 8 million people save automatically for the things they want. America owes a vote of thanks to these companies for their outstanding contribution to the 20-year success story of the U.S. Savings Bonds Program."
