Germans Insist That Russians Suffering Most In Huge Battle

By The Associated Press Russia's armies, driving over fields littered with wreckage, reported today they had engulfed a key German stronghold, crushed repeated German tank attacks and stormed forward six more miles in the 10-day-old battle of Kharkov.

Soviet dispatches said Russian troops wiped out the nast strong-hold's garrison in a fierce 40-minute struggle.

A Red army communique said five villages had been captured in the battle area and "enormous losses" inflicted on the enemy.

Far behind the lines, Soviet guerrillas were reported to have recaptured an important city of several thousand inhabitants deep in White Russia, driving out the Germans who had held the point for four months and routing a strong nazi force which attempted to regain it in a dawn-to-dusk

Dispatches to Red Star, Sovjet army newspaper, said the Ger-man stronghold captured on the Kharkov front was one the nazis had sought to hold at any costapparently a major link in Khar-kov's immediate defense ring.

## Farm Bloc Wins Senate Victories

Battle In House Shapes Up Over Appropriations

WASHINGTON, May 21 (AP) - Cheered by a double istration farm spokesmen to day faced the touchy job of getting the house to reverse its stand on major controversies over the annual agricultural appropriation.

As the farm bill cleared the senate late yesterday after 10 days of debate, it carried \$680,000,000 cash, and loan authority for another \$185,000,000. This was some 30,000,above the house totals and a senate-house conference committee was expected to make the first attempt to fron out differences.

Topping this issue was senate approval by a better than 3 to 1 margin of President Roosevelt's special request for authority to sell government stocks of wheat, corn and grains for livestock feed at ess than parity prices.

This was accomplished after nuch legislative pulling and hauling, including a hurry-up White House conference.

The senate again responded to a presidential request by adding more than \$26,000,000 cash and some \$70,000,00 in loads to funds handled by the farm security administration

The farm bill still was the smallest in recent years—more than \$400,000,000 under last year's total and some \$13,000,000 below budget

Despite the 62 to 18 margin by which the senate finally approved sales of surplus wheat and corn for livestock feed at prices that could drop as low as 83 cents a bushel, there was a lingering ques-tion as to the future of the potent

Senator Clark (D-Mo.), one of the corn belt members who battled against releasing government stocks of grains below parity price levels, warned the senate that "we have dissolved 10 years of effort to do something for agriculture. There were reports, Barkley said, that soldiers and sailors had been "plied with liquor" in the house to obtain information on the movement of ships.

The New York Post published yesterday a further affidavit from Beekman saying that on May 15 and 16 he was questioned by the FBI "wanted me to identify somene efse as Mr. Walsh." The affidavit continued in part:

"They showed me a picture of a man called 'Doc.' They wanted me to agree that this 'Doc' was the nan and let it go at that, x x x "The FBI asked me to sign the statement. Even though I knew it was untrue, I signed it. There was nothing else I could do. x x x' Attorney General Biddle told a press conference that a principal witness in the case was questioned by the FBI on May 15, after which he made a statement, but added:

## Would Aid In Collection On Spring Livestock Commis-and 500 head of stock through Higher Rates

WASHINGTON, May 21 (A) -The house ways and means committee sought today to work out a system of installment payments encome taxes to soften the blow of steeply-increased rates in the

Hardly had the committee completed its new individual tax program by raising the range of surtaxes from 6-77 per cent to 12-81 per cent than it turned to Secretary Morgenthau's proposal to collect up to 10 per cent of taxable from salaries and wages.

That plan would authorize the treasury department, perhaps in September, to make regular de ductions from paychecks which would be used as a credit against the tax bill due next March 15.

The committee's new income tax proposals would add an esti mated \$2,758,000,000 to the \$5. 000,000,000 now collected, heavy emphasis on incomes below

The program would be based on \$500 exemptions for single persons and \$1,200 for husbands and wives, a normal tax of 6 per cent instead of 4, and minimum surtax rates starting at double the present level of 6 per cent on the

The committee, rejecting treasury suggestion, decided to earned income credit up to \$14,000 computing normal taxes only and also kept the present \$400 exemption for dependents.

Thus, the committee would bring into the income tax feld STUDENTS TO MEET for the first time single persons

and would increase the tax of a \$50,000-a-year-man from about \$20,000 to \$25,000.

Treasury tax experts have explained in this manner the socalled "withhold tax" as a means of collecting income taxes on a "pay-as-you-go" basis:

Take a man who earns \$200 a month and who has a wife and one child. He would have dependent exemptions of \$1,800. To that would be added 10 per cent of \$1,600 as an average for other reductions, or a total of \$1,760. This would mean exemptions of \$146.66 a month. His estimated net taxable income would then be \$53.44 a month. A maximum ten per cent collection would be made on that base-\$5.33 a month Those monthly payments would be credited as part payment of taxes when individual returns are filed on March 15.

#### Substitutes For Sugar Serve Many Purposes Well

By observing several simple rules, homemakers can successfully sub-stitute honey or molasses for part or all of the sugar required in their favorite recipes.

Fontilla Johnson, home demonstration agent says the characteristic flavors of molasses and sorghum make many foods more delicious. Both vary in moisture and acidity, she says, so the amounts she recommends for sugar substitution are "approximate."

It takes about 1 1-2 cups of molasses or sorghum to equal one cup of sugar in sweatness. Each cup contains approximately one-fourth cup of water so the liquid in a recipe should be reduced in proportion. In products which are leav-

Scrap Metal And Rubber Campaign In County Planned

The county committee for the collection of scrap metal and scrap rubber is a joint committee of the Civilian Defense and U. S. D. A. War Board, The Howard County Victory Council with its neighborhood Victory Leaders will be asked to handle the collection of scrap metals and scrap rub-ber to places where it can be picked up by either WPA or county trucks in communities where trucks are not available to haul it to town. Where a community can handle the delivery of its scrap to town its Victory Council will handle the entire drive in any way they see fit.

In communities that request the use of WPA or county trucks, the owners of the scrap may dispose of it in one of several ways: 1-Donate it to the local school or some organization of the com 2-Donate it to the government.

3-Exchange it for War Savings Stamps. 4-Sell it for cash.

In those communities where WPA or county trucks are used, routes to be covered by the trucks will be mapped; and the scrap may be collected at any points on these routes. Each owner will label his pile of scrap with a tag showing his name, the approximate weight of metal and of rubber in the collection, and the way in which he will dispose of it. The driver will report the weight of the load and any difference will be prorated among the individuals who made up the load.

Since the government setup for handling scrap is the junk dealers, it will be sold through them to the war factories to the high-

All of the scrap scattered about the farms is sorely needed to make bombs, and other things our fighting forces need. To withhold it, or fail to gather up prolongs the war. The least we can do for the boys we are sending to fight the battles for freedom is to furnish them something to fight with. There may be enough scrap on your farm to save a life. Therefore we cannot afford to quibble over the price, or what agencies government must use to get the scrap to the war factories. This organized plan of delivery does not interfere in any way with deliveries by individuals. If you can bring your scrap to town be-fore this drive gets started, by all

Neither spoke for a little while after that. They looked at the countryside, and were lost in thought. Only Fred did most of the looking, when he didn't have to pay too much attention to his driving; Kathleen did more thinking than looking. While Fred admired the blue of the sky, the green of the foliage, and the way a small calf awkwardly kicked up its heels, Kathleen was trying think of a way to bring up the

subject of her acting.

There was no need putting it off, she reasoned. The weeks would be gone almost before she knew it, and the theatrical people departing. And when a girl ed to go places in any line of endeavor, that girl had to grasp ev-

"Sure. You did look that way." "Then if I do," Kathleen went on, gathering courage, "maybe you

could do me a favor." What sort of favor." "It's about acting."

"Yes?" "I have done some acting. Here in Linville, I mean.

"You do? Who told you?"
"Mrs. Buxton," said Fred. "She gave you quite a boost last night when we were having a little visit in between dances."

"That was sweet of her." said Kathleen. "Only I hope she didn't the roost. I mean, they have the bore you." "Oh, no," said Fred. "I had an what, and so on."

This Old Treatment Often Brings Happy Relief

Brings Happy Relief
Many sufferers relieve nagging bedraches
quickly, once they discover that the real cause
of their trouble may be tired kidneys.

The kidneys are Nature's chief way of tabing the excess acids and waste out of the blood.
They help most people pass about 3 pints a day.
When disorder of kidney function permits
poisonous matter to remain in your blood, it
may eause nagging besicable, rheumatic
pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the
eyes, headaches and dirriness. Frequent or
scanting passages with amarting and burning
sometimes shows there is something wrong
with your kidneys or bladder.
Don't wait! Ask your druggist for Doan's
Pills, used successfully by millions for ever 40
years. They give happy relief and will help the
15 miles of kidney tubes flush out poisonous
waste from your blood. Get Doan's Fills.

## THE WAR TODAY: Dutch Will Out-Smart Gestapo

(This daily feature, conducted by Dewitt Mackenzie, Wide World war analyst, is being written in his absence for a fortnight by Fred Vander-

Hitler's decision to let his chief hangman, Heinrich Himmler, apply the full fury of Gestapo "pacification" to the Netherlands is evidence of his fears lest this hearthstone of western Europe become one of the main routes of allied invasion. Since Monday Himmler is re-

ported to have been in the Nethrlands, organizing his horrors, and cloaking with Gestapo auhority even the loutish Dutch nasis who betrayed their country wo years ago.

There are excellent tactical rea sons for an allied bridgehead to the Netherlands, when the time is ripe for a western land front, and situation also has arisen there which might conceivably give the allied invaders a greater degree of skilled and organized assis-tance from within than will be available in other countries. The Germans themselves admit

that the class primarily responsible for the steady growth of opposition to the occupying forces is the officer personnel of a Dutch army which once totaled 400,000. Among the 96 Dutchmen recently shot by German firing squads were an unstated number of Netherlands officers accused of violating their paroles; later the Germans said that "all 2,000" offi cers and cadets still out on parole had been arrested,

Obviously, however, the Germans have not caught all the officers who had so little chance to fight in May of 1940, or Hitler would not have detached Himm-

### First Bomber Comes From Ford Plant

DETROIT, May 21. (A)-The first of the big four-engined bombers which soon will be put into mass production based on automobile manufacturing methods has rolled off the new half-mile long assembly line of the 37-acre Willow Run plant, the Ford Motor com-

pany announced today. Edsel Ford, president, told correspondents on the National Asso- 10:30 ciation of Manufacturers "production for victory" tour that comple- 11:05 tion of the first bomber assembly marked a new phase in Ford's war 11:15 manufacturing which now includes 11:30 70 different con- 11:45 approximately tracts, including tanks.

"The bomber program we are now beginning is equivalent to the 12:15 whole motor car business," Charles E. Sorensen, vice president, declared. "Our work on general war 12:45 production will double the entire peacetime business of the Ford Motor company and our employment will also be about doubled."

The bombing plane, which will be produced on the design of the Consolidated Aircraft Corp., is known technically as the B-24-E. It is a giant ship weighing 30 tons, 3:35 Jolly Four. powered by four Pratt & Whitney 1,250-horsepower engines with a cruising range of 3,000 miles at a speed of 300 miles an hour. It can carry four tons of bombs.

Sorensen already has been quoted as saying the Willow Run plant has been built on an estimated production rate of one bomber ev-
