## CRISIS in the COUNTRYSIDE

SOIL STEWARDSHIP WEEK MAY 15-22, 1966

## Erosion and Improper Use Wasting Soil Of Nation

A Soil Stewardship Week Statement by D. A. Williams, Administrator Soil Conservation Service

Today, there is indeed a "crisis in the countryside" — or rather, two crises. One is the continued wastage of the land through erosion and improper use. The

other is the result of man's partial success. This is the crisis of complacency about conservation.

Why this complacency? Perhaps it is because the need for increased conservation measures does not immediately strike the eye. The supermarkets are full — today. The dust may not be blowing — today. And so we concern ourselves with the big headlines — wars, space, missiles, murders!

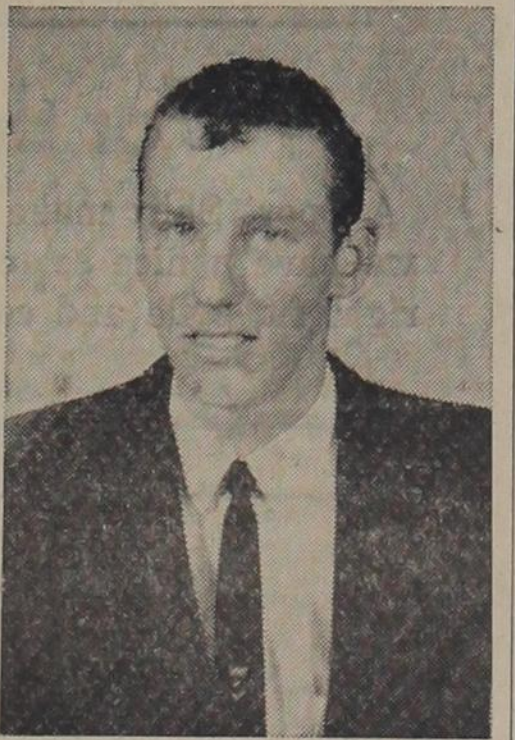

These are serious matters indeed. But, we lose more of our land every year to silent erosion than we have ever lost, or shall ever lose, to a foreign foe. Where is the battle cry for this?

What happens to the eroding lands in Missouri and Montana affects us more directly than our landing on the moon. Where are the pleaders for this? And — no (Continued on page five)

## Mrs. R. E. McCall Is Buried at Brownwood

Funeral services for Mrs. R. E. Call were held Thursday, May 4, at Central Methodist Church in Brownwood, with burial in Greenleaf cemetery.

Mrs. Call died in a Temple hospital after a lengthy illness. She is survived by her husband, R. E. Call of Brownwood, three sisters and three brothers. Virgil Bramlett of Rising Star is one of the brothers.

## Land Purchased For May Water System

The May Community Improvement Club met Monday, May 9, at 7:30 p. m. in regular session. Dalton Sudderth, Brownwood attorney, spoke on the importance of making a will.

Mrs. Reno McGregor, chairman of the committee for improving health conditions, sponsored the program. A covered dish supper was served and an hour of fellowship was enjoyed.

O. A. Burnett announced that land had been purchased for the location of the May water system.

Mr. and Mrs. Burton Bowers Fort Worth spent the weekend here with Mr. and Mrs. F. J. Maynard and Mrs. Ruby Nell Hubbard.

## 314 Votes Cast in Primary Election Saturday in Local Box

Rising Star area voters turned out in light number as expected Saturday for the first Democratic primary. Only 314 of the eligible voters in Precinct No. 8 cast their ballots at the City Hall box.

And, as also expected, they gave overwhelming support to Gov. John Connally and his State administration team, and to incumbents seeking re-election to county and district offices.

In the county judge's race, Scott Bailey received 209 votes to 102 for John Hart in his successful bid for re-election to a sec-

ond term. Bailey won over the county by about the same ratio.

In the race for Congress from the 17th Texas district, veteran Omar Burleson took an almost two-to-one over his challenger, Eldon Mahon, and State Senator Tom Creighton of Mineral Wells received 230 votes to 66

for his opponent, Vernon Smith. In the race for State Representative for the 63rd district, Saul Pullman of Eastland drew a healthy plurality of the local vote, although he failed to gain a berth in the run-off in returns from the district at large.

Pullman received 137 votes to 71 for Burke Musgrove and 40 for John Musselman, Jr., of Albany, the two leading candidates in overall returns.

In the vote for Democratic chairman of Precinct 8, G. A. Dunn, Jr., received 241 votes, Charlie Ballew got a write-in tally of 44.

Mr. Dunn, who has been serving as Precinct chairman under appointment by the county committee following the death of Raymond Gray, presided at the election, and also at the Precinct convention held at the American Legion Hall at 2 p. m. Saturday. Twenty-two attended the convention which voted to bind its delegation to the county convention with the unit rule and named all present as delegates to that convention. The county group will meet at the courthouse in Eastland at 2 p. m. Saturday, May 14.

The Rising Star vote was:

For Governor:  
John Connally, 227;  
Stanley C. Woods, 14;  
Johnnie Mae Hackworth, 9;

For Lieutenant-Governor:  
Preston Smith, 252;  
Bill Hollowell, 52;

For United States Senator:  
Waggoner Carr, 258;  
John R. Willoughby, 42;

For Attorney-General:  
Crawford C. Martin, 153;

BURKE MUSGROVE

JOHN MUSSELMAN, JR.

## In June 4 Run-Off for 63rd Legislative Post

Burke Musgrove of Breckenridge and John Musselman, Jr., of Albany won their way into the second primary to be held June 4, in a field of four candidates seeking nomination to the State Legislature from the 63rd Texas district of which Eastland county is a part.

Unofficial returns from last Saturday's Democratic primary election gave Musgrove 5,068 and Musselman 4,224 votes. They won over Saul Pullman and Pat McGough of Eastland County.

## Returned for Eleventh Term In Congress . . .

## Burleson Swept Back Into Congress

Omar Burleson, veteran Congressman from the 17th Texas District, emerged from last Saturday's Democratic primary with a smashing, almost two-to-one triumph over his challenger, Eldon Mahon of Abilene.

Burleson received almost 41,000 votes to less than 24,000 for his opponent.

Burleson's opposition had counted heavily on support from the 12 new counties by which the old district has been enlarged—it now has 24 counties—but the Congressman led in all but Glasscock which gave Mahon a one-vote margin out of 155 counted. Mahon's home county of Mitchell favored Burleson by 135 votes. It was Burleson's 11th consecutive victory in the district.

## Cattle Field Day At Ranger May 30

A. L. Maddox, Texas A&M University Specialist, will explain performance testing at the Eastland County Beef Cattle Field Day, May 30 at Ranger, according to an announcement from the county agent's office.

Sponsored by the agricultural committee of the Chamber of Commerce the program will be held at the old Tiffen Gas Plant, three miles northeast of Ranger, near Hagaman Ranch.

W. T. Eaton and Dr. John Foster, D.V.M., met recently with County Agent J. M. Cooper to plan the all day affair that will begin at 10 a. m. on the above date.

James Denton, Stephenville, Area Farm Management Specialist for the Agricultural Extension Service, will discuss the future price outlook for beef.

Dr. Foster will discuss and demonstrate the testing of beef bulls for fertility.

Creep feeding of calves on the range as well as the status of the screwworm and brucellosis programs are also items on the agenda. Dr. J. B. Henderson, Coleman, Area Supervisor for the Texas Animal Health Commission will attend and participate according to Cooper.

The group will be welcomed by Pete Brashier, Chamber President.

A Dutch lunch will be served at noon.

Mrs. Jack N. White returned last week from El Paso where she visited her daughter, Mrs. Bud Watkins, Mr. Watkins and children. Mrs. White was met in El Paso by her son and wife, Mr. and Mrs. Alton White, and family and Mrs. Dorothea Mecca of Pacomia, Calif. On the return trip she visited a son, Wayne White, and family at Midland.

Mothers Day visitors of Mrs. Lela Ham were her son, Murray Ham and family of Temple, her daughters, Mr. and Mrs. Omah McLauren and family of El Paso and Mrs. Cecil Lewis of Omaha, Nebraska and Miss Lois Weincke of Bellview, Texas.

This month, May, will be observed as Senior Citizens' Month.

Gov. John Connally has issued a proclamation calling attention to Senior Citizens' Month. He has asked people to focus attention on one of the state's most valuable resources - her aging citizens.

This is an opportunity to recognize the continuing contribution which older citizens are making to the communities in which they live. Programs are being planned in many communities to honor them for their achievements and contributions to community life.

Today, in many of our communities, a growing number of older people need our attention and concern. They need health care, housing, recreation, a variety of social services and opportunities to participate in community affairs. This is a good way to focus attention on their special needs.

And we need them! Wisdom and experience belong to the retiring leaders. Energy and enthusiasm characterize the developing leadership of today. Youth and age need each other.

During the month, I will be giving ideas for activities involving our County's Senior Citizens during THEIR month, and why not all through the year.

What about a "Friendly Visitors Corps?" Enlist the help of local church groups to assure a friendly visit to all elderly shut-ins during May. Include nursing homes in your visits.

Or, organize a "Transportation Brigade." Simple transportation needs sometimes become very difficult problems for elderly people - we've found this especially true in our county. A civic club or voluntary organization might set up a transportation corps to assist with grocery shopping, medical visits, a visit to a friend, or perhaps, a Sunday drive. This group should consider the possibility of maintaining a permanent corps.

Retirement can be enjoyed if home accidents don't needlessly mar your health. With planning and a little extra effort, most accidents can be avoided.

Light can help reduce accidents in dark hallways and on stairways. A bedside light and a flashlight in good working order can be other aids for older

citizens. You can prevent many home accidents by learning to use the stair rail to prevent tripping or falling. Never wear loose shoes when going down stairs.

Loose electric cords stretched across the floor are potential causes of home accidents which can result in serious injury. Tape or staples can be used to secure cords away from traffic lanes.

Spilled liquids on the kitchen or bathroom floor are open invitation to accidents. Spills should be mopped up as quickly as possible. Give special attention to careful removal of greasy spots, for these are especially dangerous.

Long, loose sleeves or loose cords or ribbons are a safety hazard around the kitchen stove. Loose garments can catch fire quickly, and should never be worn when cooking. The extra minutes required to turn a saucepan handle away from the stove edge may prevent a serious burn.

"Accidents don't just happen - they are caused. With care and patience, home accidents can be prevented. So safeguard your retirement years by observing home safety rules."

If teenagers could only be convinced that good grooming is a passport to poise, much of their agonizing self-consciousness could be avoided.

Officials of the American Medical Association have stated that "Many boys and girls of high school age are much more self-conscious than they need to be, simply because they let themselves become careless about their grooming. The very first thing any self-conscious teenager should do is to make it a habit to keep himself perfectly clean at all times."

The AMA further emphasizes that "soap and water are your best friends" in the care of the complexion:

1. A thorough face-washing is needed before bedtime, in the morning, after gym or other exercise, and always before applying fresh make-up.
2. One bath a day is a minimum.
3. Freshness requires the use of a deodorant or anti-perspirant after the bath.
4. Hair should be brushed twice a day and shampooed as often

as needed. 5. Nails should be manicured and pedicured at least once a week.

Care of the feet is often overlooked phase of youthful grooming. But frequent foot-washing, and wearing clean socks, are of utmost importance in preventing irritation and infection.

Only when cleanliness and neatness are assured can young people forget themselves and be at ease with others.

Good grooming is the total look of a clean body and well cared for clothing.

## THE END OF 1965-66

School is drawing to an end, and once again R.S.H.S. will close her door and enjoy three months of uninterrupted peace. She will take a vacation from the noises of banging locker doors, students hurrying down her halls and the quietness that engulfs such a building after the final bell has sounded.

These last few weeks of school are impressive on the minds of the students. They are seeing many things for the first time and are regretting that they did not take time to notice before. Most discouraging is the fact that the school year has expired and there is no time left for changing undesirable habits or improving discreditable standards.

The Seniors are hit hardest by the impact. The time they thought would never come is here. Although they look forward to their new life and are anxious to meet new challenges, there are doubts in the minds of the most confident. They were dependent upon their parents to provide for an

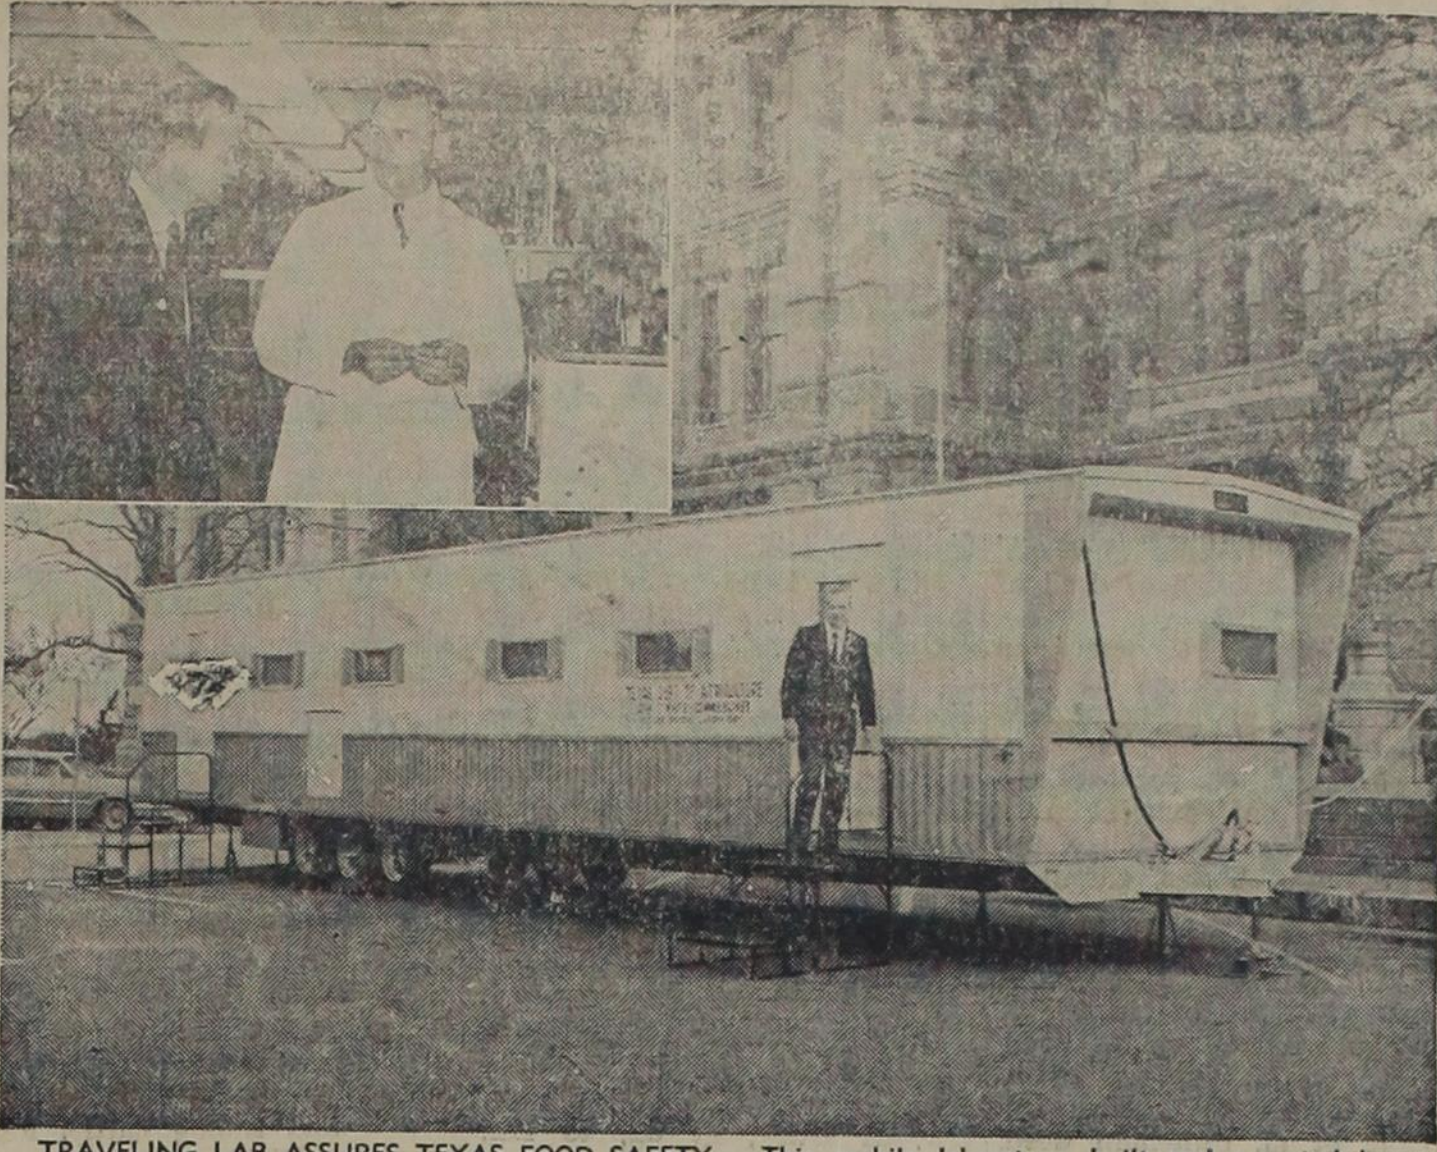

education through high school, and nearly all relied upon parental advice in deciding on matters of vital importance. They feel they are being thrust into a mad world where survival is the key word.

They bring themselves back to reality, however and plan the foundation for future life. They realize that they have passed another milestone, which has better prepared them for what lies ahead. R. S. H. S. is a signpost on their road of life which has offered many opportunities as to the path each should follow. Varied interests will lead each to different parts of the country; fond memories will grow dimmer and fade; but a permanent imprint of "old R.S.H.S." will be firmly engraved upon the heart of each and every student.

today for their long-awaited trip. All has been prepared, reservations are made, and everyone is riding contentedly.

There is much that goes into a trip like this—things not often seen—or told. There was Zelle, who had been eagerly looking forward to that first dunk in the pool, as she was seen last week splashing around in her father's tank trying to learn what to do after the dunking. I think she said it had something to do with coming back to the surface: There are the preparations made by the accompanying teachers and parents, such as vitamins, healthful foods, and proper amount of sleep.

Bandera is near San Antonio, and we expect it to be sunny and warm. We hope to return with suntans, sleepy smiles, laughs, fun, and memories of a wonderful Senior trip — one

that your help made possible. Julie.

## BUILDERS OF TOMORROW

Only one more week to go and students are trying hard to get in book reports and notebooks.

Algebra II students are struggling through the last chapter.

English II students will begin a final review soon while the United States tries to make world peace in our American History study.

The girls in Homemaking III are finishing their studies with a review for the final exam.

The Junior class would like to thank everyone who attended our play and also those who made any contribution toward its success. We made approximately \$150.00. Jill.

## NOT FINISHED, JUST BEGUN

This a fun day for all Sophomores. We are going to Lake Cisco on our class trip. There will be swimming, skating, golfing, and best of all, eating.

Our class would like to thank all the room mothers for helping to make today a pleasant memory for years to come.

Most of the Typing I students are on their final unit; it seems only yesterday we were learning to place our fingers on the right keys.

World History class is finishing the study of World War II, which has proved to be very interesting.

We have finished our English notebooks and book reports.

G. P., tell us about your island? ? Pegs.

## IN THE FISHBOWL

Thursday of this week the Freshmen go on our class trip. We are planning to have a wonderful time. We have been working on this event for weeks.

In General Math we are just finishing the square and the square root of numbers.

In Algebra Mr. H. gave a problem like this: If you have a hole two feet square and 10 feet deep, how much dirt is in that hole. Do you give up? There is no dirt in a hole.

In General Science we are studying about genetics or heredity; this is a very interesting subject.

In English I we are studying about complex sentences and the different types of clauses.

In Home Economics we are trying to develop a philosophy of life.

In Ag I the boys are involved in different types of grasses.

In P. E. I we are playing baseball a lot. We have found out that we have quite a few sluggers.

C. W. seems to enjoy flying across the floor when we play volleyball in p. E.

## LA ESTRELLITA

The 1966 annuals have arrived and the student body of Rising Star High School seems to have given them the final stamp of approval.

Mrs. C. A. Claborn called a meeting of the staff members of 1966 and the new members for the 1967 staff. The purpose of the meeting was to discuss plans for a staff picnic, and the date was set for Monday, May 16. The members of the annual staff for 1967 held a short meeting directly afterward to discuss the annual school at Lubbock, which will be in August.

The members of the annual staff for 1967 are: Pam Geye, editor; Kay Nunnally, assistant editor; Jill Harding, business manager; Mike Donham, photographer; Debbie Medley, assistant photographer; Floy McKinney, Robbie Richburg, Beverly White, Sara Howard, Brenda Bailey, Peggy Burns, Lita Jones, and Beinda Hickman.

Robbie Richburg.

## DO-RE-MI

The band is very proud of its ratings at Brownwood. We received a high three in concert and a two in sight reading, which gave us the highest ratings in our class.

The number of majorettes has again been cut. We have decided

to have only three.

All people who are interested are to sign up in Mr. Reed's office. There were only four people to sign up for majorettes: Beverly Fisher, Bess Lee, Ruth Ann Calloway and Brenda Bailey. The only person to sign for drum major was Markie Roberts, who automatically became drum major.

## TOWARD NEW HORIZONS

On Wednesday, April 27, three lucky girls—Pam, Beverly, Becky — and their sponsor, Mrs. Nowlin, arrived at the Gunter Hotel in downtown San Antonio.

The next day Becky, who was on the State nominating committee, attended a meeting of this committee. At this meeting, Becky and the other girls on the committee interviewed the incoming state officers and placed them in the offices to which they were best suited.

Thursday night we went to see the "Sound of Music" and decided it was the best show we had ever seen.

The next morning we walked to the Municipal auditorium where the State F.H.A. meeting began. The speaker, Dr. Carl S. Winters from the General Motors Corp., spoke on "Citizenship Challenges You." He stated in his speech: "Although three per cent of the teenagers are juvenile delinquents, the other 97 per cent are wonderful young people in whose hands America's future is safe."

Friday afternoon Becky, along with 428 other girls, was recognized for receiving her State degree. It was a beautiful ceremony with all the girls wearing white dresses and receiving long-stemmed red roses. That same afternoon the state chorus sang "Jamaican Farewell" and "Give Me your Tired, Your Poor." It was very beautiful and inspiring.

Friday night we attended a program with the theme, "You Were There" as six flags flew over Texas. There was a different act for the country of each flag. In addition to this, two foreign exchange students were present. Hugo Boets of Antwerp, Belgium, talked about how strange our dating customs are, and he sang "Domino" and "The Green Beret." Teresita Parba, a beautiful girl from the Philippines, did a lovely native dance. We enjoyed this program very much.

Here's that Tiger.

You're a skeptic. Good. Then you're going to be a good customer, if we can ever win you. We showed you proof on television that High-energy Enco Extra cleans your carburetor while you drive.

(Probably you said, "So what? My car still runs.")

We told you it improves firing power, helps

prevent hot spots and misfiring and gives you the high octane to help you take off like a cat.

(You drove right on by.)

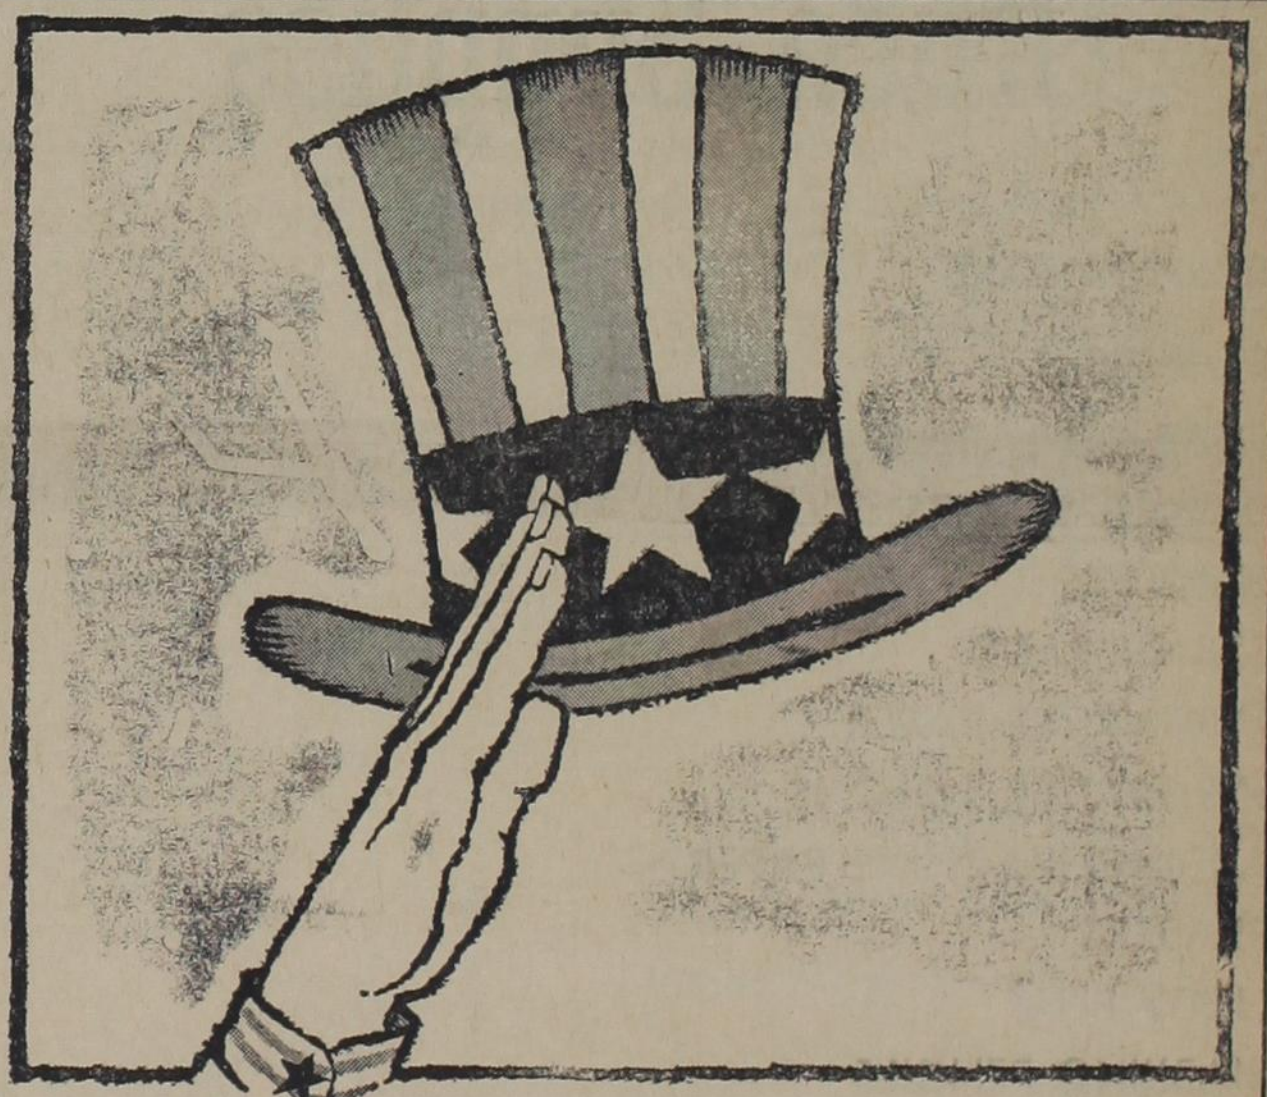

It's frustrating to develop a gasoline that gives this kind of performance and then not even have you try it.

Did you know new High-energy Enco Extra is more powerful than aviation gasoline of just a few years ago?

That the Tiger is now the favorite of motorists all over the world? And that Jimmy Clark became the World's Champion Race Driver with a Tiger in his tank?

So why not "Put a Tiger in Your Tank®!" "Happy Motoring!"

## A 25th Anniversary Salute

to the 500,000 star-spangled Americans who work for this country's security without pay

The U. S. Treasury Department sells about \$4½ billion worth of Savings Bonds every year.

Yet no one ever tries to sell you Bonds on the phone.

Though you rarely see them, there are about ½ million patriotic Americans who will help you buy Bonds. Have been since the first Series E Savings Bond was issued 25 years ago.

Your banker, for instance. He'll give you folders and facts, issue your Bonds, make certain they're properly registered, cash them when the time comes.

Your employer and thousands of other employers who have set up the Payroll Savings Plan are also on the team. So are the officials of your union who have endorsed Bonds.

There are many others. Like your neighbor, the advertising man, and the radio, TV, poster, magazine and newspaper people he works with.

All of these volunteers work for the Bond program without pay.

You can do your part, too. Buy U. S. Savings Bonds.

Now pay 4.15% when held to maturity

May 31 Deadline For Sign-Up For Medicare Program

May is Senior Citizens Month. Under the new law passed by Congress, May is also the month that persons who reached 65 before March 1, 1966, will have to sign up for doctor bill insurance if they are to have coverage by July 1, 1966, the date that medicare coverage begins.  
R. R. Tuley, Jr., District Manager for Social Security in Abilene, urged all senior citizens age 65 or over who have not signed up for doctor bill insurance to visit their social security office immediately, so that they may have protection when the program starts on July 1.  
Almost all persons 65 or over are eligible for the two types of health insurance under the medicare program, hospital insurance and doctor bill insurance. Social security beneficiaries are automatically enrolled in the hospital insurance program, but persons who are still working or who do not receive social security benefits must sign up for hospital insurance. On the other hand, in order to get protection toward the cost of doctors bills at a cost of \$3 per month, ALL persons must enroll.  
According to Tuley persons who were 65 before March 1, 1966, and fail to enroll before the deadline, May 31, will have to wait till October, 1967 before they will have another chance to apply for doctor bill protection. He added that as senior citizens become 65 they should visit their social security office no later than the month before their 65th birthday to have protection as soon as they reach 65.

**FROM THE WILDCAT DEN**  
Track season has finally brought itself to a halt. The team this year has really done a fine job. They have not only captured honors in district and regional, but other track meets as well.  
The mile relay failed to qualify for the State finals last week at Austin, but I am sure they feel the trip was well rewarding. Failing to qualify in the preliminaries, they ran a 3:34, their best time this season. Bartlett was winner of this event in the final competition, with Friendswoods winning second and Bangs placing fifth. Bartlett won the Conference B championship with both relays as well as the 880-yard run. Bartlett won the 440-yard relay with a time of 44.0 and Eden was second with a 44.1.  
I am certain the boys who went will tell you it was really something getting to see some of the best runners and field eventsmen ever competing in a State meet.  
Franz.

Starliter Camp Dates Are Set

The Starliters will have a Day Camp May 24, 25 and 26, from 9:30 a. m. until 1:30 p. m. each day, it was announced this week.

Each group will be under the supervision of an adult leader. A schedule of handcraft, outdoor and nature craft, games and music is planned at the Jack Agnew farm just south of Rising Star.

All registered Starliters are eligible to attend, and all girls now in the first grade of school are invited to attend also. There will be a special group for girls who have not been in the Starliter program, but who might be interested in the camp.

A fee of \$1.50 per girl will be charged to help cover the cost of handcraft materials, insurance, and other expenses. Each girl will be required to register before the camp dates in order for her name to be included in the insurance coverage. The date for registration is Friday, May 13, at Croan's Variety Store. No registrations will be taken after that date, it was said.

Day Camp rules were announced as follows:

Arrangements for transportation to and from camp are the responsibility of each parent; No girl may participate in Day Camping without a parent signature of permission;

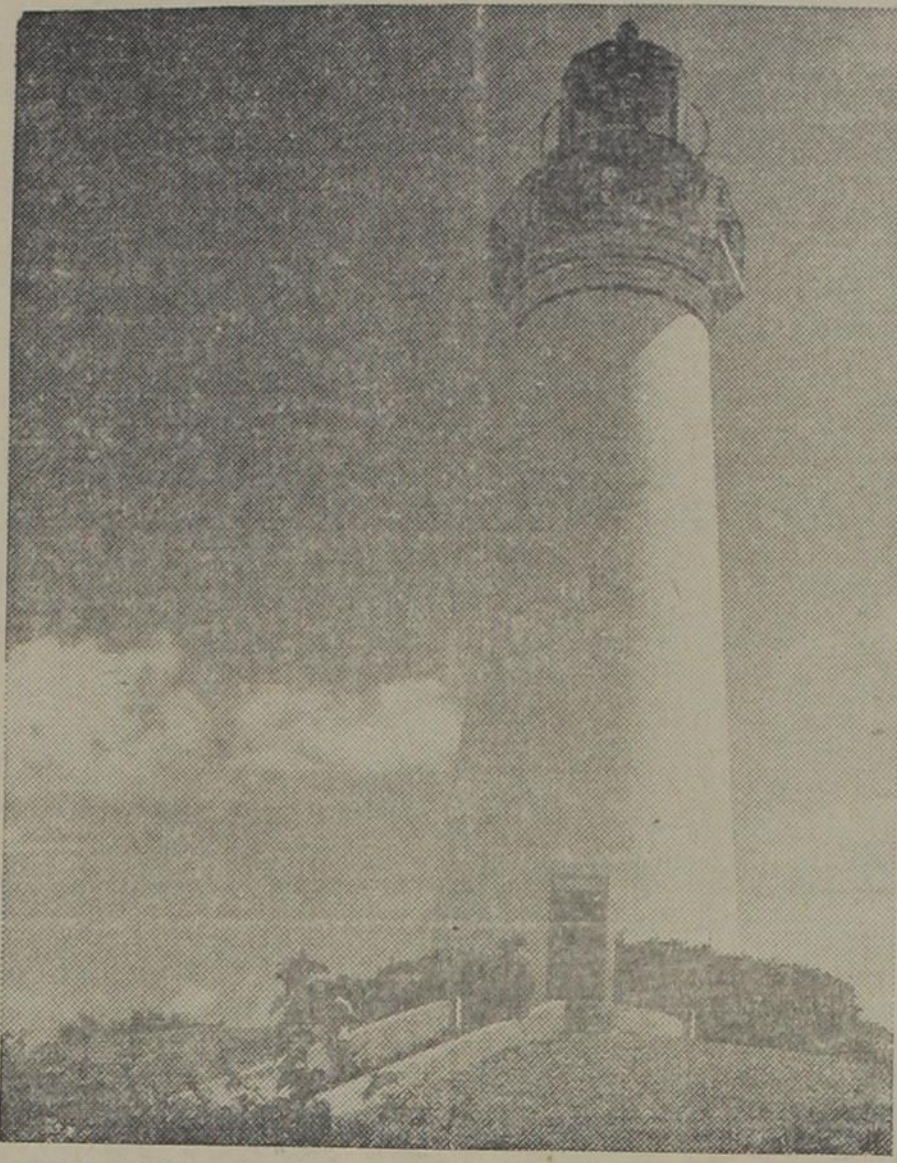

Each girl will bring her own (marked with her name) sack lunch, but drinks will be furnished;

Comfortable shoes should be worn—no thongs or sandals because of hiking

CJC Nursing Students Name Class Officers

Those elected were Mrs. Evelyn Clark of Ranger, president; Mrs. Ethel Sutton of Gorman, vice president; Mrs. Jo Ann White of Gorman, secretary-treasurer; and Mrs. Earlene Burge of Pioneer, reporter.

Mrs. Clark is getting her hospital training at Ranger, Mrs. Sutton and Mrs. White are training at Gorman and Mrs. Burge at Eastland Memorial Hospital.

PORT ISABEL LIGHTHOUSE—A sentinel over beaches that once sheltered Spanish explorers, Indians, and pirate treasure, this structure marks historic Port Isabel State Park on the tip of Texas.

Soil Wastage—

matter what weapons of the future we develop—the most modern army in the world still travels on its stomach, still depends on the bountiful earth we take for granted.

Do not misunderstand me. Our activities around the world, and out of it, are very necessary. But I will firmly believe to the end of my life that there is NO work more important, now or for the future, than conserving and enriching our own land, the basis for our life, our living, our national wealth.

Yet, we lose each year, through erosion and other forms of preventable damage, about 500,000 acres of formerly productive land. The bulldozer and the builder take another one and one-third million acres of the best land every 365 days for highways, factories, housing and so on. Our rivers continue to flood and destroy homes and hopes. Our water supply runs short, becomes polluted, erodes the land. And, as much of our land disappears, our population and that of the world increases.

Yes, our supermarkets are still full. Our time has not run out. But, quite literally, the sins of our forefathers are being visited upon us. We cannot afford to be as wasteful in the future, if we desire our children's children to inherit an affluent America. We must plan more intensively, farm more wisely, care more urgently. And we must make sure the city man understands that what happens in rural America affects him immediately and profoundly.

We call our land "God's Country," and it is. Let us clearly acknowledge it is our job to keep it that way. Farmers and ranchers, as the chief soil stewards, have the heaviest responsibility. They, of all people, know the con-

servation job is far from done. Thirty percent of our land is being properly treated. What about the 70 percent?

As we acknowledge Soil Stewardship Week, let us indeed thank God for this country, and for the thousands of dedicated people working to keep it rich and bountiful—especially the officials and cooperators of our 3,000 soil and water conservation districts. And then—let us get off our knees and go back to work.

Bob Carters Will Host Open House On Anniversary

Mr. and Mrs. R. L. (Bob) Carter are inviting their friends and neighbors to an open house and coffee at their home Sunday afternoon from 2 to 5 o'clock in celebration of their 50th wedding anniversary.

Mr. Carter and the former Bertha Butler were married in the home of the Rev. Frank Scaggs at Rock Bluff near Gorman on May 14, 1916. Rev. Mr. Scaggs, who officiated, is still living and near the age of 90.

The Carters have three children—two daughters, Mrs. Pauline Gibbard of Fort Worth and Mrs. Lena Mae Hopper of Vernon, and a son, Boyce Carter of Lubbock — nine grandchildren and two great-grandchildren.

They have lived in Rising Star since moving here from Gorman in 1925.

Mr. Carter is a former county commissioner.

Wesley Chamberlain Back From Navy Patrol

USS DANIEL BOONE (SSBN-629) (FHTNC) April 15 — Machinist Mate Third Class Wesley R. Chamberlain, USN, son of Mr. and Mrs. Charles A. Chamberlain of Rising Star, Texas, has returned to Pearl Harbor, Hawaii, after a two-month patrol as a member of the Gold crew of the Fleet Ballistic "Polaris" Missile submarine USS Daniel Boone.

Fleet Ballistic Missile submarines have two complete crews, called Blue and Gold, of about 130 officers and men each. The crews alternate on patrols with the off-duty crew employed in specialized training ashore.

With almost unlimited cruising range and free of the need to surface or extend a snorkel, the Daniel Boone represents the modern submarine design.

HIGGINBOTHAM'S

## It Has Been

By VADA ARNOLD

About mid-May 1928, two local lads left Rising Star for an extended trip. These lads were Mac Martin and Ernest Thompson.

When they left home that bright May morning they were riding in Mac's famous old Ford. The old car had been christened "Asma" the year before when the boys went on a similar trip.

As a means of defraying the expenses of the jaunt, they rigged up a power saw for trimming the blocks used in meat markets and found plenty of work along the way, this kept them in "Three Squares" a day and provided gasoline and oil for their trusty old Ford.

The boys worked their way up to Washington, New York and on to Niagara Falls, Detroit and Canada.

While in Detroit they went out to the Ford factory and spent some time enjoying the big plant and the grounds. While at the plant they expressed a desire to see Henry Ford, and were laughed at and told that it was impossible. Learning that Mr. Ford lived at Dearborn, they decided to drive out ad try to see him, despite opposition. The Ford mansion was located, and they drove up the beautiful drive to the front of the big estate, here they encountered a guard at the gate, entering the grounds. The boys told the guard they had been invited by Mr. Ford to visit him and they had driven all the way from Texas to see him. They were told to be on their way.

Driving away, the boys mulled the matter over and decided that since they had driven so far, they would make one more desperate attempt to see Mr. Ford.

Returning to the gate the lads found the guard out of the gate temporarily, the driver "poured the gas" on the old Ford and was past the gatekeeper, before he could stop them. Driving on up to the mansion they found Henry Ford sitting on the lawn, and got out and went over to him. They made themselves known. About this time the guard came running up and was told by Mr. Ford "calm himself that these boys were alright." They were asked

to be seated and visit for awhile. Mr. Ford showed much interest in "Asma," the old car bore many signs and the name of each state in the union.

After the thrilling experience of a personal visit with the famous Henry Ford, Mac and Ernest were on their way agreeing that it was worth all the trouble they had gone to but would not advise anyone else to try their plan.

It October 1932 quite an oddity turned up at the Record office in the form of an old school report card issued to Matt Tyson at Sipe Springs in October, 1884.

The card was clear and legible and neatly printed. It bore the imprint of the Cisco Round Up, one of the first newspapers established in Eastland County.

The Sipe Springs school was evidently a paid tuition school, taught by the late Dr. B. F. Terry and W. A. Anderson. On the front of the card were these words "Sipe Springs High School taught by Terry and Anderson. Tuition from \$1.50 to \$4.50 per month, term of 1884-85." The card was addressed to Mr. and Mrs. J. M. Tyson, parents of the student. On the card was printed "You should examine this report regularly and sign it, by doing this the child will observe the harmony that exists between his parents and the school. In this way parents can help the school to better discipline and better work." We will not be responsible for advancement when attendance is irregular. No deduction" Terry and Anderson. On the reverse side of the card was the heading "Monthly Report" of Matt Tyson, and the name of J. M. Tyson written in. Under subheads of first week and second week, etc. was a report that the student had made headmarks each month. His conduct was excellent and he was not absent for a day.

M. G. Joyce was a student in the school at the same time and remembers Matt Tyson quite well.

M. G. Joyce and daughter, Mrs. Madell Jackson, spent the weekend with the Jerry Don Brown family at O'Donnell.

COUPLE CITED FOR SERVICE

A carnation is adjusted in the lapel of Dr. C. S. Woodward by his wife prior to a banquet of nearly a thousand friends in Fort Worth held to honor the couple. They have retired after 33 years of service at the Home for Aged Masons in Arlington. Dr. Woodward was named Curator and Custodian of the Grace Woodward Museum, which is located at the Home. R. Bruce Brannon, a past Grand Master of the Masonic Grand Lodge of Texas, commended Dr. and Mrs. Woodward for sacrificing a prospering medical practice to head the Home from 1932 until their recent retirement.

## briefs

**Getting the Bird**  
 A psychologist at a large pharmaceutical company has trained two pigeons to pick out imperfect capsules on a production line. Their work, he says, was 99 percent accurate, but the company decided against using them.

**Disease Slow-down**  
 New vital statistics for New York State (including the city) indicate that the heart disease death rate is slowing down, and so is the death rate from cancer.

**Landing of a Brick**  
 The U.S. is considering a plan to land a group of men on the tiny planet Eros on its next close approach to the Earth. The brick-shaped planet, only a few miles long, may offer clues about the origin of the planets.

**Cancer Immunity?**  
 The human appendix may provide some form of immunity from cancer, a California scientist suggests. He found more cancer cases among people who had appendectomies than among those who hadn't.

**Why Germs Marry**  
 Japanese scientists have found an unexpected benefit in the mating processes of bacteria: if one of the germs is resistant to an antibiotic or other drug, it passes the resistance along to its partner.
