Eastland Countian Watson Announces For House Seat

Watson

Richard Watson, 45 year old pharmacist from Gorman, and Eastland County native, has announced his candidacy for State Representative of the 65th District.

The seat is expected to be vacated by Rep. Jim Parker who has accepted a position in the Ann Richards administration.

A special election is expected to be called by the Governor for late January or early February.

Watson, a Republican and a 1969 graduate of the University of Texas College of Pharmacy is a lifelong resident of the District.

He and his wife Connie have been married 22 years and have three children, Rachel, 20, Leah 16 and Stephen 9.

A formal statement concerning his candidacy will be issued later.

Jefferies

H.R. Jefferies of Comanche announced as a candidate for State Representative for the 65th District.

Jefferies, 60, has lived in Comanche for the past 19 years and was superintendent of schools for 17 years prior to his retirement, and serves

part time with the Comanche school system. He is married to the former Rosemary

Spencer of Cross Plains. They

have three children. Jefferies has taught Political Science part time for the past several years for Ranger

Junior College.

Mr. Jefferies said he hoped to visit the various communities prior to election day and to speak to as many voters as possible as well as any political forums that communities may sponsor.

Sudderth

Ben Doyle Sudderth, 58, announced today that if Representative Parker resigns from the Legislature, he will become a candidate in the Special Election to fill the vacancy.

Sudderth served two terms in the Legislature from this area in the lae 1950's and did not run for re-election. Sudderth stated that this is the most important session for this area of the State in many years -- 'With redistricting, school finance, legislative ethics, and a need for relief from the continuous spiraling of property taxes at the top of the agenda, this district must have strong effective representation. We will not nity College.

have the luxury of a period for training a replacement. For about the first month of the session, we will have no Representative. Whoever is elected will have their hands full from the very day of elec-

tion. There are other areas which need immediate attention - for example - curbing the influence of the lobbyist. In this regard, I will not accept any so-called 'campaign contributions' from lobbyist

or lobby groups. Also, we need to prohibit the State agencies from spending taxpayer's money employing lobbyist. If we are going to have true representative govemment, we must elect representatives who are not obligated to special interest groups!'

Sudderth and his wife, Anne, live near Blanket. Sudderth has maintained a law office in Comanche for almost 35 years. They are the parents of six grown children, namely, Bonnie, Chief Justice of the Fort Worth Municipal Courts; Sandi, a Houston banker, Bo, a student at Howard Payne University; Sky, a law student at the University of Texas-Austin; Keith, who attends Cisco Junior College; and Ta'ah, who attends Austin Commu-

A Question Of Candy

Q. Itry to take good care of my son's teeth, but I'm worried that he eats too much candy. Do you have any suggestions?

A. Actually, research has shown that chocolate candy may even slow down

the development of decay-causing plaque. It appears that the cocoa in chocolate can inhibit the enzyme which breaks down sucrose (a type of sugar that contributes to plaque and decay). Also, cocoa butter is easily cleared from the mouth, and leaves little residue behind.

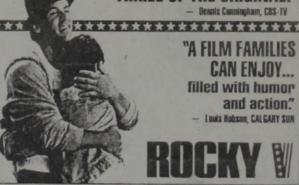

Of course, your son needs to eat a well-balanced diet. And he still needs to develop good dental hygiene through regular brushing, flossing and visits to the dentist. But the "candy menace" may not be as great

COURSES OFFERED IN FARM RANCH ACCOUNTING

Farmers and ranchers interested in doing a better job of managing for profitability and being attuned to the financial health of the business in 1991 should pian to enroll in a computer course in farm and ranch accounting.

The computerized accounting course, using state-of-art software and computers is planned for January 7-9, on the campus of Tarleton State University at Stephenville. It is sponsored by the Texas Agricultural Extension Service in cooperation with the Tarleton State University

division of Continuing Education and the Department of CIS and Mangement.

The course is designed to teach farmers and ranchers with beginning to moderate accounting knowledge and skills (prior computer experience is not required) the basics of financial and enterprise accounting, points out Dr. Ashley Lovell of Stephenville, an economist with the Texas Agricultural Extension Service, the Texas A&M University System.

Course topics include: cash and accrual accounting methods, single and double entry accounting systems, basics of accounting theory, setting up and managing a computer- ment information. ized accounting system, considerations, such as check quired for filing timely in-

writing, payroll, accounts payable, accounts receivable and fixed assets and depreciation management. During the Stephenville course the participants will set up and handle typical transactions using a computerized accounting program for a typical dairy and forage farm. Although participants may own or purchase different software than is used in the course, the material in this course will be applicable.

The objective of the course is to instill knowledge and confidence in participants through lecture and computer hands-on experience, so that participants will be able to return to their business and implement their management and financial information system, says Lovell.

Regarding farm and ranch recordkeeping, producers can use a manual record system, use a computerized accounting software package, or pay for bookkeeping service. Each producer must evaluate his own situation to determine which option is most appropriate. No one system will fit all situations, Lovell emphasizes.

He notes that whatever bookkeeping option is sclected, it should aid a business in three ways:

All of these functions are becoming more important due to changes in tax laws, increased requirements from lenders for documentation to support loan requests, and the

current economic conditions. Computerized bookkeeping can generate timely management information for decision making, and the number and complexity of production and marketing decisions is increasing and requiring greater sophistication, notes the economist.

Senior Center News

This will be our last news report for the year of 1990 which was a good year for us at the center. We have had a lot of good fellowship with our friends and neighbors and we wish for each of you a joyous holiday season.

Marion and Marjorie West went with the Bible Baptist Church group to Brownwood Sunday for their Christmas Luncheon at Underwoods Restaurant. The food was great and everyone enjoyed the fellowship.

Johnnie Lee and Benjie Clark returned to Dallas Parkland Hospital Sunday for a check up.

Bobby and Inez Elliott's Sunday visitors were Joe Fenton and Nay Wilkerson from Coleman.

Ben and Berna Lee Chick had visitors from Abilene over the weekend, Donna and LaDonna Priest and their great-granddaughter, Kiela Whitten from Stephenville.

The center will be closed from December 21-31, which will be a regular meal on wheels.

Have a safe holiday sea-

Parker Is Candidate for Legislature

Martha Parker, of De Leon, today formally announced her candidacy for the soon to be vacated 65th Legislative District seat. Martha is the 44 year old mother of two sons and the grandmother of one grandson. Martha was born and reared in Comanche County. She is the daughter of Mr. and Mrs. C. J. Hamrick, and the wife of Jim Parker.

Martha and her husband operate a farm/ranch with a cow-calf operation in Comanche County. Martha has been a legal secretary and teaches in the De Leon Independent School District on a substitute basis.

"I have been actively involved in Texas government for the past eight years."

"I know the issues, I know the players and it would certainly be to the benefit of the 65th District to have that knowledge and experience at work for them in this very critical time."

"I have my own mind, I think for myself and I am not running for or controlled by any special interest or group. I can and do work well with people and in Austin that is an absolute necessity. Regardless of who may win this race we MUST have a representative for ALL the people. I can and will be that representative."
