## Citizens Ask Use of Reserve Funds County Reverses Plan for Road Work Borrowing

By Viola Payne  
Eastland County Commissioners Monday voted against a plan to borrow \$500,000 for bridge and road repair (\$300,000 and \$200,000) the widening of F.M. 570 southeast of town.

The decision came after considerable discussion between the Commissioners and businessmen Earl Bradley and Jim Moylan, who said they opposed the plan to borrow the \$500,000 while the County has funds in reserve.

Also present at the meeting was Ralph Fickes, Vice President and Bond Consultant from Southwest Securities of Dallas. Fickes had been retained by the County to handle the sale of Certificates of Obligation to obtain the money. He set

August 10 as the date the bonds could be sold.

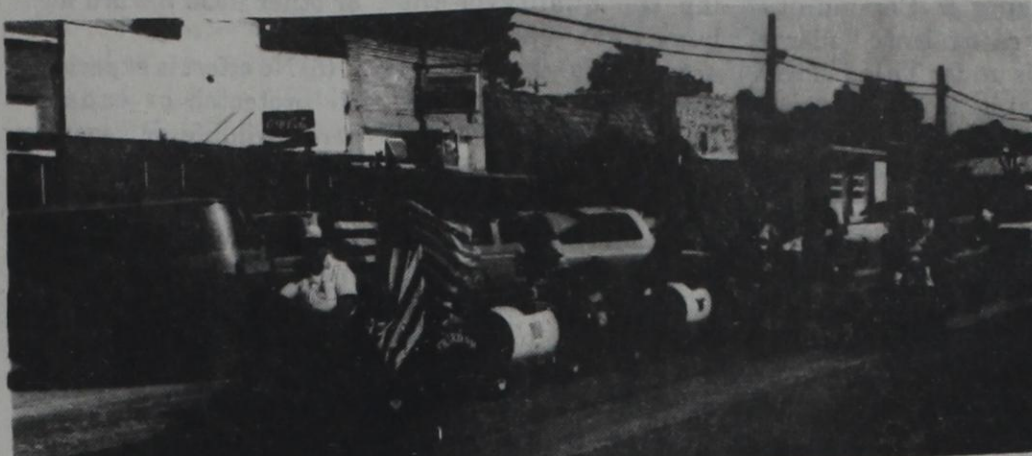

Bradley, one of the owners of EBAA Iron, said he supported the repair of roads. He said the 2 miles of County Road 442 going to his Foundry was rough, dangerous, and in need of rebuilding.

EBAA has 240 employees who have to travel that road, he said. Vulcan Materials, another company nearby, has 10 employees. Both EBAA and Vulcan do a lot of hauling with heavy traffic in and out.

"EBAA has kept a low profile, but we're one of the largest companies in the area," Bradley remarked. "We feel very neglected. We have built a new state of the art foundry, and visitors will

## Birth of Rising Star's "Freedom Express"

Anyone who attended the Freedom Festival 1992 or saw the parade downtown on the 4th of July is well aware of the little train called "Freedom Express." What most people are unaware of is how it came into existence. This is the story of the "birth" of the little train.

Once upon a time, several months ago the Freedom Express was conceived in a Chamber of Commerce & Agriculture board meeting. The actual "birth" took place in a large metal barn a couple of miles west of Rising Star on the Elliott place.

The delivery team was headed by "Dr." Mack Elliott. He was ably assisted by "Dr.'s" Rick Watson and Jose de la Cruz. Also in attendance at the "birth" and helping all the while, was "Nurse" Sandy.

As with most babies, the Freedom Express came into the world pretty bare. This situation was quickly remedied by "Clothier" Gary McGinn, who provided each car of the little train with bright shiny new "coats" of paint. Now we all know that every baby needs a nanny. Enter "Nanny" Gene Lyon,

who has operated and cared for the little train since its "birth."

To "Dr.'s" Mack Elliott, Rick Watson and Jose de la Cruz, "Nurse" Sandy, "Clothier" Gary McGinn and "Nanny" Gene Lyon, a great big Rising Star THANK YOU. You all have brought and will continue to bring much excitement and enjoyment to the children of this area.

Just remember that to us "oldsters" of the area, the Freedom Express will always be "Our Baby."

Oh yes, "Nanny" Lyon, don't forget to change our "baby."

## Businesses Support 4th of July Freedom Festival

Our local and area businesses are to be commended for their generosity and support of the Freedom Festival 1992.

They contributed many very nice items to be given away absolutely free through the "the luck of the draw." They unselfishly donated their products in order to help the Chamber of Commerce & Agriculture provide a fun time for the citizens of the area on the 4th of July.

We encourage everyone to do business with our local businesses whenever possible. They are our friends and neighbors and deserve our support.

A big thank you also goes to Mr. Gene Lyon for

his working with the businesses and gathering the prizes.

The businesses participating and donations are as follows: Ole Rip Cap Company, Freedom Festival clothes bag; Gerrie's Beauty Salon, a permanent; Palace Drug, gourmet coffee grinder; Murphree Oil Co., five gallons of hydraulic fluid; Rising Star Lumber & Hardware, a 40-quart Coleman cooler, a Little Playmate cooler set and a portable AM/FM radio; Pioneer Farmers Cooperative, Hotshot cattle prod; Rainbow Cafe, four buffet lunches; Masonic Lodge, \$100 savings bond; Rising Star Flower Shop,

silk arrangement; White's Cafe, sirloin dinner for two; Susie's Hair Hut, hair cut or a shampoo and set; Cook's Fish Barn, 10 catfish dinners; Hubbard's Gift & Gallery, hand made apron; #1 Video, 12 movie rentals; *The Rising Star*, two one-year subscriptions to the newspaper; Buddy's Plumbing & Appliance Service, garden water hose; Max's Quickway, 16 six-packs of Dr. Pepper or Pepsi and four movie rentals; George & Don's Antiques, potpourri; The Ole Store, \$50 pack of meat; Higginbotham Funeral Home, \$100 savings bond; and Peoples State Bank, two \$100 savings bonds.

## May First Baptist Bible School

First Baptist Church in May announces Vacation Bible School on Monday through Friday, July 20-24, 6:30-8:30 each evening.

Children aged three (3) years through those who completed 6th grade last

spring are cordially invited to attend.

The theme this year will be "Adventures on Son-Mountain," based on Proverbs and the life of Christ.

We are looking forward to having a good attendance and lots of fun.

## Pee Wee Had Pass for the Weekend

Stephen (Pee Wee) O'Conner was really looking forward to a weekend out of the Hermann Hospital. "Pee Wee" was able to go to Galveston last Saturday and watch the Rising Star girls' softball team play in a state tournament. On Sunday, he'll be at Astroworld. According to Patty Riddlebarger, a Hermann Hospital spokeswoman, no teenager ever looked forward to spending a Saturday in Galveston as much as "Pee Wee."

The 16-year-old boy, whose left hand was transplanted to his right arm June 22 in the first successful surgery of its kind, was released Friday afternoon from Houston's Hermann Hospital, where he spent nine weeks.

The trip to Galveston with his dad, Timothy O'Conner, is the boy's first outing since his hospitalization after the May 20 car crash in which his mother was killed and his left arm was rendered useless. That tragedy further burdened a boy who had lost his right hand in childhood to a

congenital disease. But on Friday, the teenager perked up as if he'd just gotten a "Get Out of Jail Free" Monopoly card, well aware he'd be back in another hospital Monday for more rehabilitation.

"Pee Wee" said he was able to move his left wrist and was looking forward to watching the Rising Star girls' play ball.

"As far as this stage of his recovery, he has done very well," said Dr. Emmanuel G. Melissinos, the Hermann microsurgeon who performed O'Conner's operation. Doctors were using electricity to stimulate the boy's hand. He can't move his fingers yet and it'll be a year before doctors know the full extent of his recovery.

On Monday, "Pee Wee" will check into Shriners Hospital for Crippled Children, Houston, to undergo a month of intensive physical therapy. He had been on his way to Shriners for a checkup on the prosthesis for his right hand when the accident occurred in May near Brenham.

## City Council Meets

Rising Star City Council met at City Hall Thursday, June 11 at 7 p.m. Mayor Jerrell Bible and council members Charles Barnes, Edra Butler, James Cook, Randy Goldston and Lorry Moore were present.

Guests were Ben and Alvis Kinard, Kathy Bush, Jed Walker, Dean Powledge, Bob Lamb, Melba Lamb, Jo Jones, Dean Wyatt and Al Jones.

Minutes of the regular May 12 and called meetings of May 18 and June 1 were approved as read.

Jed Walker of Wallace, Winkler and Rice, Inc.

presented information on the prospective location of the new water tower and recommended placement near the pumping station in the park to take advantage of the availability of adequate service lines, electrical equipment, etc.

Barnes inquired about benefits of increased pressure if the tower were placed on a higher elevation at the north end of town. Walker stated that much of the pressure problem on the north end of town is not due to the location or height of the water tower, but is due to the fact that the supply

lines for that side of town are 2-inch lines, inadequate for that type service. Hopefully, in the future that could be remedied by installing new larger 6-inch lines crossing N. Main and servicing residences there. Walker commented that placing a tower of recommended height at the park would provide 41 pounds per square inch (psi) on the high end of town and 67 psi on the low end of town; this would improve the water pressure significantly overall. He did, however state that the

## Dr. Carpenter Celebrates 25th Year in Rising Star

Staff of the Rising Star Clinic will be celebrating the office's 25th anniversary Friday, July 17. Pictured are: Patsy Walker, Norma Carpenter, Dr. Billy Carpenter, Debbie White and Frances Crafton.

Dr. Billy T. Carpenter opened his office in the old Rising Star Hospital Building on July 17, 1967, twenty-five years ago.

Patients are seen regu-

larly from Rising Star, Cross Plains, May, Cisco and many other area towns, along with visitors from "everywhere."

The office has never made appointments. "Just

walk in, register at the desk and wait your turn."

Dr. and Mrs. Carpenter and their dedicated staff wish to thank you all for your support through the years.

## Rising Star EMS Applies for Communication Grant

Volunteers for Rising Star EMS sold ice cream, hot dogs, cold drinks and more at the Freedom Festival July 4 to raise funds toward improving the communication system. Emergency Medical Service volunteers pictured here are just a few of the volunteers who worked on the project. They are, from left, Rosalie Rutledge and her son, Steven, Edward Anderson and Hettie Owen.

The necessity has arisen, and a possible solution is in the works, for a method of improving service to EMS (Emergency Medical Service) callers. The local telephone emergency number, 643-3001, is still the correct number for you to call.

With the assistance of the Rural Fire Department, Quickway Grocery and their employee group, it is now possible that radios can be secured for EMS. The Rural Fire Department has secured equipment for their radio service and the EMS has been asked to join them by using a radio frequency on their channel. In this manner, ambulance and rural fire services can

work together in emergencies.

The funds in the EMS current account are used for specific needs, supplies, repairs, fuel, taxes, etc. There is no amount available for new equipment. The EMS has applied for a grant from Texas Health Department for one half the cost of radios and equipment needed. We should know the outcome of this application within 30 to 60 days. The services here will be required to pay half the cost, which amounts to about \$2,000.00.

The ambulance crews started this money raising event with approximately \$176 raised from the booth at the July 4th Freedom Festival. The special account is at People's State Bank. The Rising Star EMS Communication Account is 55-484-7.

Please help your community service in securing the necessary funds to match a Health Department grant for communication services if it is awarded. If not awarded, further steps will be taken.

# LEGAL NOTICES

**NOTICE OF FINDING OF NO SIGNIFICANT IMPACT ON THE ENVIRONMENT and NOTICE TO PUBLIC OF REQUEST FOR RELEASE OF FUNDS**  
Date of Publication: July 15, 1992  
City of Rising Star P.O. Box 35  
Rising Star, Texas 76471  
(817) 643-4261  
TO ALL INTERESTED AGENCIES, GROUPS AND PERSONS:

On or about August 3, 1992 the City of Rising Star will request the Texas Department of Housing & Community Affairs to release Federal funds under Title I of the Housing & Community Development Act of 1974, as amended to be used for the following project:  
*Project Title:* Water System Improvements  
*Purpose of Project:* The purpose of the project is to replace the existing elevated water storage tank with a new 75,000 gallon storage tank.  
*Location of Project:* Rising Star, Texas  
*Estimated Cost of Project:* \$224,400 (TCDFP grant funds) & \$23,000 (local funds)  
**FINDING OF NO SIGNIFICANT IMPACT**  
It has been determined that such request of funds will not constitute an action significantly affecting the quality of the human environment and accordingly the City of Rising Star has decided not to prepare an Environmental Impact Statement under the National Environmental Policy Act of 1969.

The reasons for such decision not to prepare such Statement are as follows:

(1) There will be no negative impacts on the environment as a result of an activity or project undertaken with Texas Community Development Program funds;

(2) Some increase in noise, dust or other nuisance levels may occur during the program; however, such disturbances will be temporary and will cease on the completion of the project;

(3) None of the activities to be undertaken will affect any known local, state or national historic, architectural or archaeological resource presently listed, or potentially eligible for listing, in the National Register of Historical Places or in any state or local registry;

(4) No impact is anticipated upon the floodplain or other flood hazard areas;

(5) No effect is expected on protected or endangered wildlife or vegetation; and

(6) No farmland will be taken from use or otherwise adversely impacted.

An *Environmental Review Record*, which documents the environmental review of the project and more fully sets forth the reasons why such Statement is not required, has been completed by the City of Rising Star. The *Environmental Review Record* is on file at the City Hall and is available for public examination and copying, upon request, at the City Secretary's office during normal business hours.

**Public Comments on Finding**  
All interested agencies, groups, and persons disagreeing with this decision are invited to submit written comments for consideration by the City of Rising Star to the Office of the Mayor on or before July 31, 1992. All such comments so received will be considered and Rising Star will not request the release of Federal funds or take any administrative action on the within project prior to the date specified in the preceding sentence.

**Release of Funds**  
The City of Rising Star will undertake the project described above with Texas Community Development Program funds from the Texas Department of Housing & Community Affairs (TDHCA) under Title I of the Housing and Community Development Act of 1974, as amended. The City of Rising Star is certifying to the Texas Department

of Housing & Community Affairs that the City of Rising Star and Jerrell D. Bible in his official capacity as Mayor, consent to accept the jurisdiction of the Federal courts if an action is brought to enforce responsibilities in relation to environmental assessments, decision-making, and action; and that these responsibilities have been satisfied. The legal effect of the certification is that upon its approval, the City of Rising Star may use the Texas Community Development Program funds, and the Texas Department of Housing & Community Affairs will have satisfied its responsibilities under the National Environmental Policy Act of 1969 and 24 CFR Part 58.

**Objections to State Release of Funds**  
The Texas Department of Housing & Community Affairs will accept an objection to its approval of the release of funds and acceptance of the certification only if it is on one of the following bases: (a) that the certification was not in fact executed by the chief executive officer or other certifying officer of the Contractor approved by TDHCA; or (b) that the Contractor's Environmental Review Record for the project indicates omission for a required decision, finding, or step applicable to the project in the environmental review process. Objections must be prepared and submitted in accordance with the required procedure (24 CFR 58), and may be addressed to the Texas Department of Housing & Community Affairs, Texas Community Development Program, P.O. Box 13941, Austin, Texas 78711-3941.

Objections to the release of funds on bases other than those stated above will not be considered by the Texas Department of Housing & Community Affairs. No objection received after August 21, 1992 will be considered by the Texas Department of Housing & Community Affairs.

The Rising Star  
From Page 1 ...

# Local City Council Meets

citizens should be aware that increased pressure may pose slight problems to older plumbing.

Cook commented that he would like to see going on with the most reasonable and cost efficient plan.

Barnes asked for the cost benefits of locating the tower in the park and was informed that this would be more cost efficient in electrical supply lines (\$5-8 per foot), as well as using existing 8-inch water supply line available there instead of having to install new to another location.

The style of the tower was discussed and it was indicated that regardless of the location chosen, the style would probably be limited to the most affordable.

Barnes asked about the feasibility of a concrete tank instead of a tower and was told a concrete tank would involve the possibility of a multitude of problems.

A motion by Cook to place the water tower in the park at the most cost efficient location, possibly north of the ground storage, was seconded by Goldston and passed 5-0.

Barnes asked if the ground storage will be removed and was informed that it is included in the project.

Walker presented several styles of water towers for the council's consideration, including cone, double ellipsoidal and sphere shapes; the sphere type is 30-40% more expensive than the most cost effective, the double ellipsoidal.

Council was told that Wallace, Winkler and Rice, Inc. will take care of all the business involved in acquiring the bids, advertising for them, scheduling the opening and then will advise the council on the ability and qualifications of the contractors represented.

Barnes asked if the disassembly and removal of the old tanks was included in the contract and whether they should have been made available for sale or salvage. Walker indicated that for simplicity of cost and to keep expenses down, the contract did include the removal.

Warranty of workmanship, inspections and origination of designs of towers was discussed.

During the report on utilities, which was approved as presented, Barnes asked about a further breakdown of revenue and was told this will be done automatically when the billing is converted to the computer.

The treasury report was approved as presented.

When the monthly bills were presented Barnes asked for a breakdown of costs to date on the pavilion and asked about authorization required on purchase orders; he was told they are all reviewed and signed. Payment of bills was approved.

Dean Powledge of the Steven Company presented options on Minolta copy machines, giving comparisons on several machines and an explanation on the options of leasing, buying or renting. Moore's motion to buy the Minolta 4230 Copier with payments beginning Sept. 30 on a 36-month plan was seconded by Barnes and passed 5-0.

Police Chief Lewey Wyatt reported on the

seizure and impounding of property that took place on the previous night; included in the seizure were cash and a vehicle that will be available for the upgrading of the law enforcement of the community.

The report on the park indicated that tile was being laid in the restrooms, progress was being made on the parking lot and WTU was working on the electricity. Barnes noted that the restrooms were to be ready for sewer and water connections in the near future. Reference was made to trees that died since transplanting and the finish work that needs to be done by Craig Rogers. Rogers missed contacting Barnes or Leonard and was to be contacted by Barnes in the near future for an appointment to resolve the unfinished work.

The court report was presented and the administrator indicated that many of the tickets pending are under consideration for allowing the persons to work them off. The city administrator also indicated that this would be a good opportunity to acquire labor to clean up many of the old houses and lots that have become nuisances in the city, since the citywide clean-up day set June 29 was approaching. Barnes preferred the labor be spent on the park in a highly visible area that required digging and hand labor. Bible commented that the need for cleanup of abandoned businesses downtown be addressed in the future.

No action was taken after discussion on the Emergency Management Director position.

Animal control report was given and approved.

The Rising Star Vineyard report was discussed; the mayor suggested that the business represent itself to the council so information may be obtained and facts verified before the administrative papers are affirmed and signed; the computer system the vineyard is to furnish to the city for administrative purposes is still not in full operation and programmed.

Significant correspondence was reviewed and discussed.

The Fourth of July celebration was discussed and the council agreed to support the efforts of a horse shoe and washer tournament to be sponsored by the city; also considered were refreshments for

spectators of the parade.

Council comments were heard with mention of the 9-1-1 numbers, street signs and the need for trash barrels downtown to be emptied.

The mayor's comments were discussed, including the appropriate use of the money seized in the police business mentioned earlier.

Meeting adjourned at 11:30 p.m.

A called meeting of the City Council of Rising Star was held at city hall at 8 p.m. Thursday, June 25, with the mayor and all council members present. Guest was Lewey Wyatt.

The Rising Star Vineyard was discussed, including the documentation of employees for the vineyard. Bible commented that he had some questions on the most recent drawdown requested and felt that a complete explanation and audit would be appropriate to present before the body of the council to clarify any points. The city administrator and mayor have the authority to sign and administer the funds provided in the grant.

Barnes made a motion of confidence in the decisions made by the authorized Shirley Leonard and Jerrell Bible persons and expressed complete backing in the same. Cook seconded with the motion passing 5-0.

Wyatt presented a report on the condition of the police car. It is now in the shop. An offer of \$5,000 was made for the car and after consulting James Ramsay a decision

will have to be made on the basis of mechanical problems and actual value. Wyatt also commented that two patrol cars could be obtained at a reasonable cost from the DPS compound in Austin. Goldston commented that he felt that it would be necessary for any future vehicles should be equipped with a police package. Cook moved and Goldston seconded to try to sell the present car and look into the purchase of appropriate vehicle with Wyatt handling the purchases and city administrator approving such. Motion passed 4-0, with Lorry Moore abstaining.

The council was informed of the details of the distribution of the money and equipment acquired in the recent seizure. The council agreed that protocol would be followed with appropriate action.

Barnes commented that the new Chief of Police had not been formally acted on by the council. Barnes moved to verify the recommendation of the City Administrator to employ Lewey Dean Wyatt as the Chief of Police for the City of Rising Star, effective on the date of his employment. Other Council members pointed out that consent was given at an earlier date for the City Administrator to have the authority to hire the Chief of Police. Cook seconded the motion and it carried 5-0.

City Administrator commented that the Texas Water commission had made a visit.

There is a need for a new lawn mower and weed eater for maintenance.

Meeting adjourned at 9:40 p.m.

**Attention T. U. Electric Employees!!**

If you are considering T. U. Electric's early retirement package you will want to attend one of these Lump Sum Distribution Seminars!! The seminars will be given by Don Bradshaw, C.P.A. long time resident of Eastland and Money Matters columnist Bruce Redfield, an Independent Financial Planner who has recently moved to the Big Country.

- Learn how to minimize your tax liabilities.
- Discover sound investment strategies providing increasing income and growth.
- No cost, no sales, no product pushing. Completely independent, educational approach.
- Individual worksheets allow you to customize this information to your situation.
- Complementary consultations for interested parties.

This seminar contains information given recently to employees of Southwestern Bell and Procter & Gamble who found themselves in a similar situation not long ago.

**Seminar Dates**  
Tuesday, July 28 and Tuesday, August 11  
820 W. Main, Eastland, TX

Each seminar will last 90 minutes with time for questions and answers. Refreshments will be provided. Call 629-2201 and make your reservations.  
SEATING IS LIMITED SO RSVP TODAY.

## PEACHES EXPERIENCING PROBLEMS

You just thought you'd make a bumper peach crop! What's wrong with my peaches? I've had call after call on peaches and the caller says "I have the best looking peaches and just before I pick 'em, they

start rotting on the tree". Answer... Brown Rot: This fungus attacks fruit in blossom stage at maturity and during storage. Surface moisture and moderately warm temperatures favor fungus development. Blossom blight is the stage where

blossoms become brown and water-soaked. The fungus grows down the pedicel into the stem resulting in dark brown, sunken areas. These areas often completely girdle the stem and cause twig dieback. In some instances, young fruit may become infected but not show symptoms of the infection until the fruit matures. During periods of high humidity, diseased blossoms and infected peduncles from the previ-

ous crop become covered with "tufts" of gray spores. These spores serve as inoculum for later infections as the fruit matures. The fungus enters through natural openings or wounds and rapidly develops a brown, water-soaked lesion on the fruit. Healthy fruit touching diseased fruit quickly decays. The brown rot fungus over winters in mummies, stem cankers and on infected fruit peduncles. Dried fruit

beetles can as vectors for the fungus. Control is by applying fungicide during pink bud, bloom, petal fall, and at preharvest. Increased fungicide applications at preharvest and during harvest may be required during periods of rain. Orchard sanitation is also an important part of brown rot control. Remove old mummified fruit, these are a source for the infection to grow.

## MINERALS ESSENTIAL IN BEEF

**OPERATIONS**  
Minerals control the life of the brood cow. Without adequate minerals in their ration, cattle do not grow, reproduce or convert feed efficiently. Mineral deficiencies cause reduction in feed intake which result in mild to severe depression of animal performance. "With all the rain we've been having, the grass is growing excellent my cattle don't need any extra minerals". If this is

your answer, then let your cattle be the judge of that. Pick up a sack of loose mineral (usually more palatable and consistent than blocks), put in a mineral feeder and see if your cows go to it. If they don't consume a good portion in a few days, the chances are your mineral requirements are being met. However, if they do consume a major portion, then there's your answer...you have a mineral deficiency. It may not effect the entire herd;

OH...one maybe two cows don't look good, several may not be cycling and so on. It does not take much loss in breeding cycles to loose way more than the cost of the minerals.  
For more information on mineral requirements, give me a call at the Texas Agricultural Extension Service Office...629-1093.

## Fishing Outdoors by Terry Wilson

### LAKE LEON CHAMPIONS

Twenty-four two person teams met at Lake Leon July 12 for the 6th of seven events of the West Texas Region of Anglers Choice Team Circuit. This may seem like a small number of entrants, but for our area it is respectable and 24 is one of the larger draws for the 1992 year. Leon since being added to the Anglers Choice roster has drew a few new teams to compete for cash and points.

Of these 24 teams all but three were able to boat a keeper fish in the hurricane force winds that swept Leon to a froth. And of the 21 teams weighing in there were five fish limits weighed.

As both flights of Anglers came in one at 3:00 p.m. and the other 3:15, it was evident that the fishing at Lake Leon had slowed tremendously, especially the four and five pound fish.

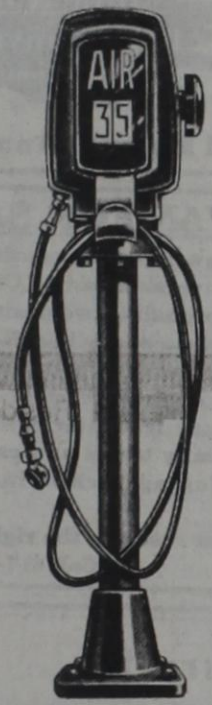

The final five spots went as follows: First, Blane Dyess and James White 5 fish, 13.90 from Big Spring; second, Bob Maynard and Terry Wilson, 5 fish, 13.03 from Ballenger, Eastland; third, Tom Maynard and Chuck Burges, 5 fish, 12.43 from Eastland, Olden; fourth, Kendall Davis and Jimmy Stiles, 5 fish, 11.93 from Early, Brownwood; fifth, Trevor Romans and Gary Carr, 5 fish, 10.73, San Angelo. The big bass was won by Gary Harton and Jimmy Johnson, a nice 14.59.

Top waters and crankbaits were the ticket for Blane and James mid lake. Bobby and I relied on the whole tackle box with worms taking 4 fish

and top waters one, also mid lake. Tommy and Chuck reported ringworms for their catch in the river end of the lake. A total of 91 bass were brought to the scales with no reported fatalities. These 91 fish weighed a total of 164.22 pounds.

## Small Business Owners Voice Their Opinions

by Congressman Charles Stenholm

Recently, I sent a list of questions to some independent business owners in the 17th District who have expressed an interest in offering opinions on a variety of legislative topics. I would like to share the results of my latest poll to show you what information I am basing many of my voting decisions on.

My questions addressed a handgun waiting period, aid to Russia, the Social Security "notch" issue, National Endowment for the Arts and funding for NASA.

The 1991 anti-crime bill contained a provision which required local law enforcement to conduct a five-working-day waiting period and background check on gun buyers prior to purchase. Although the crime bill was not enacted into law, the waiting period/background check provision won overwhelming approval in both chambers of Congress. When I supplied the questionnaire recipients with the pros and cons of the issue the results showed 166 respondents or 80% supported a waiting period for handgun purchases while 40 were opposed and one did not indicate an opinion.

The Russian aid questions were broken into five parts. Of the 153 responses received, 24 did not support any form of aid to Russia, 119 supported emergency/humanitarian aid; 95 favored technical assistance, 59 approved financial assistance and 58 favored military aid.

In 1972 Congress increased social security benefits and provided an automatic annual cost of living adjustment or COLA that resulted in retirees receiving double compensation for the effects of inflation. In 1977 when the error was cor-

rected it left retirees born between 1917 and 1926 receiving less in monthly benefits than those born in the years preceding them. These "notch" retirees believe they are being discriminated against and should receive more money.

When presented the full picture, 34 respondents supported changing the benefits formula and 117 or 90% were opposed to changing the formula again.

The National Endowment for the Arts (NEA) was established by Congress in 1965 to support a variety of artistic projects around the country. In recent years, however, the agency has come under increasing criticism for funding works and programs that some consider inappropriate subjects.

After studying the issue, 223 respondents or 90% opposed any funding for the NEA, 18 wanted a small reduction in funding to send a message against inappropriate art, 5 believed the NEA should continue to receive small annual increases in funding and 2 offered no opinion.

NASA, the National Aeronautics and Space Administration, was formed in 1958 to conduct

research for the solution of problems of flight within and outside the earth's atmosphere.

After reviewing what NASA does, 90 respondents wanted to reduce funding for NASA, 82 wanted to freeze funding and 31 supported continuing the present level of funding.

As you can see these issues are diverse and yet they all affect us in some way. If you would be interested in getting involved with some of my future questionnaires, please contact me at 1226 Longworth, Washington, DC 20515.

## ISK Biotech Corporation Explains How Ag Chemicals Are And Are Not Made

On a recent tour of ISK Biotech Corporation's Greens Bayou manufacturing plant, a group representing Peanut Quality Award winners from the Eastland and Comanche county areas learned a lot about how agricultural chemicals like Bravo® fungicide are, and are not made.

"The first component is people," says Drew Wenner, ISK Biotech's District Sales Supervisor, who hosted the trip to the 215-acre plant site. "I don't think that growers realize just how many people and how much effort goes into making a product like Bravo fungicide. There are 200-plus people working here full-time to produce the product for growers worldwide."

According to former Comanche County extension agent Bob Whitney, the tour was an eye-opener. "My assumption was that the manufacturing process involved taking one chemical and mixing it with another, cookbook-style, like making a cake." However, after touring multi-story manufacturing units, a formulation test center, and a quality-control lab, the group found that the reality of agricultural chemical manufacturing

was much different. The group included growers Manselle and Lucille O'Brien and George and Sue Bingham; Eastland County agent David Vestal and his wife, LeChelle, and Mr. Whitney and his wife, Laurie; as well as Drew Wenner, Keith Castner, and Kim Castner of ISK Biotech.

"The way the chemicals are formulated is far different than what we had assumed," says Mr. Whitney. "For example, we were impressed by how the research lab was able to mix small batches for testing purposes. It was like a mini-factory that allows them to experiment with various product formulations before large-scale production."

"We were also impressed that the company gave us the opportunity to visit, because you don't usually expect that a chemical company would want you to come in and walk through their facilities," he says. "I think that we gained a greater appreciation of the difficulty and costs involved in the development and production of the chemicals. It's really quite impressive."

"It is interesting how ISK Biotech is working to get rid of some of the problems faced by crop pro-

ducers," he adds. "For example, the company is working to reduce the volumes of the product formulations, so that less packaging will be required in the future. I had some idea that these things were being researched by the chemical companies, but never knew how much."

Howard Peters, ISK Biotech's Vice President, Manufacturing, who has hosted facility tours for groups ranging from foreign businessmen to Houston schoolchildren, is used to the surprise expressed by visitors to the plant. In 1987, as part of a plant-wide quality program, ISK Biotech began hosting local, business, and customer groups at the plant. At the same time, ISK Biotech manufacturing personnel began traveling to the field, to see how their products are used.

"It's always interesting to meet our end-use customers, the growers, firsthand and understand what is important to them," says Mr. Peters, a 22-year plant veteran. "Talking to our customers is one way to keep up with the changes that are at work in the marketplace."

Bravo fungicide, which is manufactured at the Greens Bayou plant, is applied to many of the 44,000 acres of peanuts grown in the Eastland-Comanche county area.

An EPA-registered fungicide with the active ingredient chlorothalonil, Bravo protects growing crops, like peanuts, from fungal diseases that might otherwise ruin their yield and value.

ISK Biotech Corporation is a manufacturer and marketer of a variety of agricultural and specialty chemical products. ISK Biotech agricultural products are designed to help provide a bountiful and high-quality harvest by protecting agricultural crops from weed and fungal pests. These products, as well as other ISK Biotech formulations, are developed and tested for effective performance.

Headquartered in Mentor, OH, ISK Biotech has area offices around the world, as well as manufacturing facilities near Houston, TX.

**CD Savings and Income Plan**

Take advantage of attractive rates and still receive income regularly.

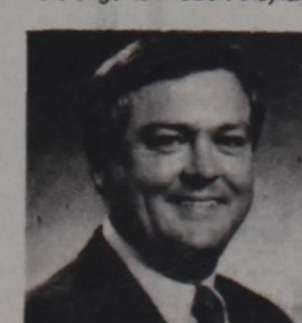

TODAY YOU BUY	AT MATURITY
a 1 yr CD	1 yr CD matures, buy a 5 yr CD → 5 yr CD matures, for reinvestment
a 2 yr CD	2 yr CD matures, buy a 5 yr CD → 5 yr CD matures, for reinvestment
a 3 yr CD	3 yr CD matures, buy a 5 yr CD → 5 yr CD matures, for reinvestment
a 4 yr CD	4 yr CD matures, buy a 5 yr CD → 5 yr CD matures, for reinvestment
a 5 yr CD	5 yr CD matures, buy 5 yr CD → 5 yr CD matures, for reinvestment

With the CD Savings and Income Plan, you'll have the dual advantage of higher rates and regular income.

Here's how it works:

Initially you buy five different CDs, all with varying maturity dates—a one-year, two-year, three-year, four-year, and five-year. When the first CD matures in one year, you purchase a higher yielding five-year CD. In two years, when the second CD matures, you roll it over into a five-year CD, also. And in three, four and five years, as those CDs mature, roll each over into the higher-yielding five-year CD.

With this plan, 20% of your investment will come due every year, so you have access to the full value of that investment each year. And because you lock in your interest rates, your income will be more predictable. If interest rates rise, you will be able to take advantage of them when you buy the longer-term CDs. If they fall, you'll still have money locked into higher rates.

CDs offered by EDJ:

- are Federally insured.
- offer competitive interest rates.
- have an estate feature.
- offer liquidity.
- may be subject to an interest penalty for early withdrawal.

## Rabies Outbreak Underscores Need For Vaccinations

The Texas Department of Health (TDH) regularly reminds Texas pet owners to make sure their dogs and cats receive annual vaccinations against rabies, as required by law.

This year, especially in South Texas, pet owners should heed the advice. A continuing outbreak of canine rabies, found mostly in coyotes and in dogs, has totaled about 47 cases since Jan. 1, 1992, in the 11 South Texas counties of Brooks, Duval, Hidalgo, Jim Hogg, Jim Wells, Kenedy, Kleberg, Nueces, Starr, Webb and Zapata.

Although no human cases have been reported this year, "unvaccinated domestic dogs remain the most frequent threat to

humans in this outbreak. The potential of a person being infected by the family pet has always been there," according to Dr. Keith Clark of the TDH Bureau of Veterinary Public Health in Austin.

Clark explained that of the strains of rabies most common in Texas, the canine strain is potentially the most dangerous to humans, since people are more likely to be exposed by a dog than by most other animals.

Although another strain of rabies occurs more frequently in Texas, it is usually found among wild skunks. "Any strain of rabies is dangerous to humans and other animals, but some animals

are more susceptible to particular strains," Dr. Clark said.

Clark said that an unusual feature of the canine rabies outbreak in South Texas is that the link between many of the infected dogs appears to be infected coyotes. However, almost any wild mammal can be infected.

Clark expressly warns against adopting a wild animal as a pet. There is no approved rabies vaccine for wild species. "People should be especially careful not to handle wild animals, especially showing abnormal behaviors such as not being afraid of people. Such behavior is not natural and is a good clue that the animal could be sick, possibly with rabies," he said.

If a person is bitten by a wild animal, it is important that the animal be tested at a TDH lab for rabies. The most recent case of rabies in a human in Texas was in 1991; a 55-year-old woman in Starr County died from the canine strain of rabies.

In 1991, 447 laboratory-confirmed cases of rabies were found out of 9,598 specimens tested. Of those, 209 were skunks, 59 bats, 46 coyotes, 37 foxes and 36 dogs. Some other animals infected with rabies included cats,

## Texas Alive To Be At Six Flags July 17 & 18

Texas Alive, a two day Christian music and teaching event will be held at Six Flags Over Texas on Friday, July 17, and Saturday, July 18.

Performing on Friday will be 2 Hearts, Radio Halo, Jacob's Trouble, 4-Him, Carman, Mylon & Brokenheart and speakers Jay Strack and Jeff Nicholson. Out of the Grey, Al Fike, Cindy Morgan, New Song, Al Denson, D.C. Talk and speaker Ike Reighard are scheduled to perform on Saturday.

The event will begin at 12 p.m. and will end at 11 p.m. both days in the theme park's Music Mill Amphitheater.

The Texas Alive concerts are free with park admission. Concert seating will be provided on a first-come, first serve basis, limited to first 12,000 people to receive the special Music Mill Free Concert Ticket each

horses and cattle. "Any animal bite should be taken seriously," Dr. Clark said. If the animal is a dog or cat, it should be isolated and observed for 10 days. All bites should be reported to the local health authorities to ensure that the biting animal is properly managed. The wound should be cleaned with soap and water, and a physician should be contacted about treatment.

day. The tickets will be distributed at the entrance of the amphitheater beginning at 10 a.m.

Six Flags will be open both days from 10 a.m. until midnight.

Six Flags Over Texas is one of seven Six Flags theme parks. Six Flags Theme Parks, Inc. is the country's largest regional theme park company. An estimated 85% of all Americans live within driving distance of one of the parks, which are, in addition to Six Flags Over Texas: Six Flags Over Georgia (Atlanta); Six Flags Mid-America (St. Louis); AstroWorld (Houston); Six Flags Great Adventure (New York/Philadelphia); Six Flags Magic Mountain (Los Angeles) and Six Flags Great America (Chicago/Milwaukee). Six Flags Theme Parks, Inc., is a subsidiary of Six Flags Entertainment, a Time Warner affiliated company.

Metter, Georgia

A girl had dusted the furniture, but her mother made her do it the second and third time.

When there was no word of approval, the girl said kindly, "Mom, the dust isn't on the furniture. It's on your glasses."

You'll be criticized. Don't be afraid of it when you're right, and don't ignore it when you're wrong.

The only way to avoid it is to say nothing, do nothing and be nothing.

But don't look for the faults of others unless you have no faults in yourself.

The Bible says, "Why worry about the speck in the eye of a brother when you have a board in your own?"

Before you say the furniture's dusty, check your glasses.

# Over Half Of Texas Counties Infested With Fire Ants

The red imported fire ant reached Texas during the 1950's from Alabama and has spread steadily across the state. The ants disperse naturally through mating flight, mass movement of colonies or by being moved to new locations by floods. Fire ants can also travel long distances when newly-mated queens land in automobiles. Nursery stock or soil shipment may cause relocation of entire colonies or nests. Now more than half the counties in Texas are infested with the red imported fire ant.

Chemical control can be aimed at the foraging and/or the entire colony. Individual mound treatments and broadcast applications are two of the most common techniques for controlling fire ants. Individual mound treatment include the uses of mound drenches, granular products, liquid fumigant and injectable products. All of these means of individual mound treatments can be effective in the control of fire ants. When population densities have reached an intolerable level, whether the location is your yard, a pasture or a park, a broadcast application of a fire ant bait product may be the best solution. The only way to control a fire ant colony permanently is to kill or somehow neutralize the queen. Contact poisons broadcast on the ground kill only the foraging workers—the oldest ants which make up about 10-20% of the colony; below ground, the younger ants are not killed, and the queen continues to lay

eggs. This is why contact poisons often provide only temporary relief. For further information of these means of control, ask for brochure B-1536 ("Fire Ants and the Management") at the County Extension Office.

Church was well attended Sunday at the Baptist Church. Bro Keith Henson's message was on Proverbs Chapter 19 verses 18-27. Eric, son of Larry and Beverly Sandlin, brought the special music, "The Lighthouse". It was very touching. Visitors in the home of Palmer and Lula Stokes recently were Faye Womack of Norwalk, Calif. Claudia Smith and Glenn Faye Wells of Felt, Okla. Joyce Savage of Beaver, Okla., Lavern Kennedy of

DeLeon and Gladys Bond of Flatwood. They also visited Lavelle Whitehorn and Marie Cook. Bro. Lee Fields states that he is doing well and would like to thank everyone for the prayers, phone calls, cards and visits that he received when he had surgery and after he got home. Helen Jackson of Odessa and her sister, Edna of Dallas visited Faye and James Smith and JoAnn Saturday. Also visiting was Janet Girtz of Eastland. On Sunday afternoon Faye's sister, Mr. and Mrs. Bill Belyeu of Cisco came by for a visit. Collin and Hazel Campbell attended the Campbell reunion Sunday in Cisco.

Maxine Morgan and Billie Stacy attended the Moore family reunion at the Golden Corral in Stephenville Sunday afternoon. The Moores were cousins of the late Edward Stacy. Fifty five were present and all enjoyed being together. Ethel Moore Weaver was the oldest and her great great grandbaby Ashley Hair of Abilene, one month old, was the youngest. Gordon and Jo White spent the Fourth of July

in Paris, Texas, where they attended the White-Grimette reunion at the home of Gordon's sister, Mr. and Mrs. Ray Jones. Truitt, Pat and Rodney Spruill spent Sunday afternoon with their son, Shannon and family in Eastland.

# Carbon News

# Commodities Distribution

## Obituaries

### Ellen McBroom

COLORADO CITY - Ellen McBroom, 70, of Rising Star, died Thursday, July 9, 1992 in a Lubbock hospital. Graveside services were at 11 a.m. Tuesday at Sweetwater Cemetery, directed by Kiker-Seale Funeral Home.

Mrs. McBroom was born in Whitney and was a former resident of Colorado City. She was a homemaker and a Protestant.

Survivors include six sons, Joe Pendleton of El Paso, Billy Pendleton of Midland, Everett Pendleton of Riverside, Calif., Cortez Pendleton of Abilene and Frankie Eugene Pendleton and George Pendleton, both of Needville; four daughters, Ellen Reed and Margaret Smith, both of Cisco, Roberta Baker of Rising Star and Pearl Lee Derring of Gatesville; two sisters, Mary Lou Forbes of Snyder and Pearl Atkins of Lake Whitney; 23 grandchildren; and 21 great-grandchildren.

### Artie Fleming

Artie Fleming, 80, died Saturday, July 11, 1992, at a Brownwood hospital. Services were at 2 p.m. Monday, at Higginbotham Funeral Home with Gary Adams officiating. Burial was in Pioneer Cemetery.

She was born in Oplin, and moved to Rising Star in 1969. She was a homemaker and a member of the Church of Christ.

Survivors include two sisters, Ruby Goldston of Rising Star and Reba Mae Ship of Big Spring.

## Jones-Lawrence Vows Exchanged

Mrs. and Mr. Howard Lawrence

Caryl Dyan Jones and Howard Royce Lawrence were married Saturday, June 27, at First Baptist Church in Rising Star in a ceremony officiated by John Bernard.

Mr. and Mrs. Gary Jones of Abilene are the bride's parents. The bridegroom is the son of Mr. and Mrs. Aubrey Lawrence of Rising Star. The bride's grandparents are Mr. and Mrs. Leonard Ramph of Frisco and Mr. and Mrs. Rabbit Jones of

Rising Star.

Betty Jo Jones was maid of honor and Steven Wilson was best man.

The bride was graduated from Monahans High School in 1989 and attends Howard Payne University in Brownwood. The bridegroom was graduated from Rising Star High School in 1989 and attends Tarleton State University in Stephenville.

The couple will reside in Rising Star.

From Page 1 ...

## County Commissioners

he understood the need for good road equipment, but there ought to be some way to spread the purchases out over a year's time and not deplete all the reserves at once.

Richard Robinson replied: "At schools we're taught that if we don't have enough money in reserve to operate the county on for two years - you're broke."

But the Commissioners appeared to agree that if the decision to borrow the \$500,000 was put to a vote it would probably fail.

Pct. 2 Commissioner Calvin Ainsworth remarked: "Some people who talk to me - it tears 'em up because the County has money laid back. They want us to spend it."

"Whose money is it?" asked Moylan. "You're sitting here with over \$800,000 of tax payers money —"

Ainsworth remarked that this money also brought interest to the county, making up for some of the 5 percent interest charged on borrowed money.

But when it came to a vote the Commissioners decided to turn down the Certificates of Obligation. The vote was unanimous.

No other plan appeared in the works right now.

Pct. 1 Commissioner Richard Robinson discussed Road 442 leading to EBAA Iron.

"I know it's real bad, I dug up the worst of the pavement, and put a base in. Due to the weather I haven't been able to get back. I don't have the equipment to maintain a paved road. But we will be out there and do something about it."

Jim Moylan, owner of Moylan Construction, asked Fickes how much it would cost to borrow the \$500,000.

Fickes said he had figured interest at 5 percent for 5 years, which would total \$75,000. He said the Administration fees would be \$8,000.

Fickes reminded the Court "Money is tight. I feel that after the Election interest rates may go up."

County Auditor Ray Pruitt estimated that the county should have about \$850,000 left at the end of this fiscal year. That would pay for the road improvements, but wouldn't leave much for emergencies.

Moylan asked: "Does it seem like a good business move to borrow and pay \$75,000 in interest plus the \$8,000 rather than use the money available?"

Moylan also said that

he understood the need for good road equipment, but there ought to be some way to spread the purchases out over a year's time and not deplete all the reserves at once.

Richard Robinson replied: "At schools we're taught that if we don't have enough money in reserve to operate the county on for two years - you're broke."

But the Commissioners appeared to agree that if the decision to borrow the \$500,000 was put to a vote it would probably fail.

Pct. 2 Commissioner Calvin Ainsworth remarked: "Some people who talk to me - it tears 'em up because the County has money laid back. They want us to spend it."

"Whose money is it?" asked Moylan. "You're sitting here with over \$800,000 of tax payers money —"

Ainsworth remarked that this money also brought interest to the county, making up for some of the 5 percent interest charged on borrowed money.

But when it came to a vote the Commissioners decided to turn down the Certificates of Obligation. The vote was unanimous.

No other plan appeared in the works right now.

## Hospice Program Is Available Here

Hospice, a special way of caring for a patient whose disease cannot be cured, is now available in Rising Star through the Cross Plains branch of Mediplex Home Health, 959 N. Main.

The Hospice Program is operated under Medicare, Medicaid and private insurance. Hospice is primarily a comprehensive home care program which provides all the medical and support services necessary for the management of a terminal illness. This includes physician services, nursing care, medical appliances and medications, short term respite care in the home, outpatient drugs for pain management, physical therapy, occupational therapy speech therapy, home health aide and homemaker services, social services and nutrition

and dietary counseling. When a patient receives these services from Mediplex Hospice, Medicare hospital insurance pays almost the entire cost.

Hospice is also available locally through memorial donations. Patients who do not have Medicare, Medicaid or private insurance can be helped through this memorial fund. For those people who do not wish to donate money to this fund, there is ample space for you to volunteer time. Volunteers are a very vital part of the service Mediplex Hospice serves in the community.

Special benefit periods apply to hospice care. For more information concerning Mediplex Hospice, to make a memorial donation or to volunteer your time, call the Mediplex office at 1-800-695-2199.

### Comanche

## Rodeo Is July 16-18

The Comanche Roping Club's 51st Annual Open Rodeo will be July 16, 17 and 18. Kicking off the event will be a big street parade at 6:00 p.m. on Thursday, July 16. The parade is co-sponsored by

the Comanche Chamber of Commerce and the Comanche Roping Club.

Everyone is invited to attend the parade either as a participant or a spectator. The parade will form on West Grand and come around the courthouse to North Austin then back up West College Street. On Thursday, before and after the parade, there will be homemade ice cream, barbecue brisket sandwiches, sausage on a stick, fresh lemonade and cold drinks available at the Oak Tree on the square.

Nightly performances of the rodeo will begin at 8:30 at the arena just West of Comanche on Highway 67/377. Events include bareback riding, calf roping, barrel racing, saddle bronc riding, steer wrestling, team roping, calf scramble, bull riding and the Roping Club's Special Events! Rodeo stock producer is Terry Walls of Stephenville.

Friday and Saturday nights there will be a rodeo dance on the rodeo grounds. Music will be provided by the Miles of Texas Band.

## Senior Citizens Center

by Marjorie West

Thursday, July 9, found members at the center enjoying a bright sunny day. July 4 had come and gone and it was a great day in our town. The parade was the best we have had in a long time. The music, presented by some very talented musicians of the Rising Star area, was great. At noon, a barbeque lunch, featuring brisket and sausage, was catered by Cook's Fish Barn. (J.C., you just out-did yourself!)

Curtis and Stella were out Thursday. Stella had a doctor's appointment. We missed you people a lot.

Ladell Key had the following visitors July 4: Dean Key of Freeport, Bill and Jane Jenkins of Levelland and Bay Wright of Troup.

Berna Lee Chick has not been to the center in some time, due to having den-

tal work done in Stephenville every week. She also has her granddaughter, Jerrilea Hubble, spending the summer.

Dell Bible's daughter, Paula Centella, and granddaughter, Sherri Howell, and children came Friday and packed up a load and took it back to Weatherford. Dell and Alvy will be moving to Weatherford the first of August. They commented, "We are sorry to leave our friends, but hope it will be better for Alvy."

Henry Robertson will have heart surgery at Humana Hospital in Abilene July 10; we hope he will be well again soon.

Irma and Mearlyn Jones attended the funeral of Laurence Henry in Monahans July 2. Laurence is the brother to Glen Henry and brother-in-law of Irma and Mearlyn.

## Pioneer Patchwork

by Irma Miller

The Pioneer Baptist Church had a great revival this week, much enjoyed by the participants.

Frankie and Oliver Smith went to Ranger Wednesday to see her daddy, who was doing well. They attended a wedding in Brownwood Saturday.

This week, Novilia Barton's son from Waco came to see her and she visited in Rising Star with Myrtle Wilson. She and Betty Beggs went to Brownwood on business.

Laverne Hutton went to Abilene Tuesday and picked up her granddaughter, Melissa, of Savannah, Ga., at the airport. She is visiting with her grandmother for a few days. Sunday, Laverne entertained her granddaughters at luncheon given at her home. Present were Melissa, Tabitha, Tamara, Shana and Robbie.

This author learned Sunday of the death of Artie (Liverett) Fleming in Brownwood. After the Monday funeral, the de-

## Claborn Family Has 40th Reunion

The Claborn family held its 40th reunion on Saturday and Sunday, July 11 and 12, at Lake Cisco Christian Camp.

Norman Claborn presented the message at the church service Sunday morning; Don Claborn led the song service and Danny Claborn and Steve Hill served the Communion. Weldon Hill gave the opening prayer and Jerald Maynard gave the closing prayer.

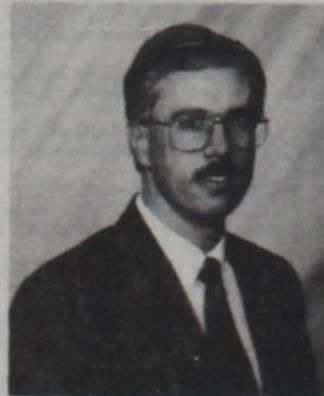

Among those attending were Bobby and Lois Claborn of Hobbs, N.M.; Marsha and Mike Locke of Eunice, N.M.; Wilma Johnston of Hobbs, N.M.; Wynelle and James Melton of Breckenridge; Betty and Bob Siekman of Pyote; Athal and Mae Dee Claborn of Mineral Wells; Beryl Claborn Cole of Lubbock; Jean Claborn

Anderson of Ransom Canyon; Ken Claborn of Corpus Christi; Wade Earl Claborn of Tomball; Brad and Stella Carroll of Amarillo; Charles and Kathy Carroll of Tolar; Danny and Annette Claborn of Cisco; Tommy Claborn of Cisco; George Johnston and Ashley of Carrollton; Pam Thompson, Brandon and Weldon of Cisco; and Olene Claborn, Jerald and Pat Maynard, Herman and Jimmie Claborn, Mutt and La Verne Carroll, Norman and Lolene Claborn, Don, Linda, Maci and Lance Claborn, Steve and Shelly Hill and Weldon and Arla Hill, all from Rising Star.

Everyone enjoyed visiting, eating and playing games. The reunion will be held on the second weekend in July 1993 at the same place.

## "Why Farm Bureau life insurance?"

"Value. Their rates are competitive and help you get great value for your money. Your agent can help you plan for the future with a wide range of products. Life Insurance, Annuities, IRA's, Mortgage Cancellation, Disability Income, Whole Life ... you name it. No wonder Americans from every walk of life depend on Farm Bureau Insurance."

# MORAN NEWS

By Mrs. Luke Huskey

Mr. and Mrs. Fred Parish of near Beaumont visited with relatives and friends in Moran last Wednesday.

L.N. (Lawson) Agnew of Oakwood visited his uncle, A.L. Agnew, last Wednesday.

## A RECEPTION

The children and grandchildren of Llano and Mimmie Lee Mitchell of Moran will be hosting a casual get-together of family and friends to honor the couple's 65th wedding anniversary. They were married July 14, 1927, in Breckenridge.

Everyone is invited to attend the reception from 2 to 4 p.m. on Sunday, July 19, at the Moran Community Center.

Only your presence is requested. No gifts please.

Frances Green attended the Hill family reunion at the State Park in Meridian, over the weekend.

Mrs. Martha Williams of Eunice, N.M. visited with her brother, Jim Howard, and Mrs. Howard, Sunday.

Mr. and Mrs. David Mohon and children of Houston spent a few days last week with his parents, Mr. and Mrs. Larry Mohon.

Remember the Moran Country Musical will be held on Friday night, July 24, at the Moran Community Center, starting at 7 p.m. Sid Vick of Breckenridge will be master of ceremonies. A concession stand will be open at 6 p.m. with sandwiches, homemade pies, coffee, tea and soft drinks. All area musicians are invited to attend and take part in the musical. Admission is free.

Mrs. Frances McAfee, president of the American Legion Auxiliary, called the July meeting to order last Monday night, when the members met for the regular July meeting.

The pledge to the flag and the preamble to the Constitution was repeated in unison.

Various items of interest of the auxiliary was mentioned and discussed.

A convention in Dallas was mentioned. The treasurer gave a financial statement.

Mildred Smith, who was president of the unit for the past six years was given a gift of appreciation from the unit for her years of service.

Hubert Brewster of Eden, a member of the Masonic Lodge, NO. 863, in Moran was honored twice Saturday afternoon. He received his 50 year award for being a member of the Masonic Lodge for 50 years. He was given the "Golden Trowel" award for his many years of active service to the lodge. Mr. Brewster has held many offices in the Masonic Lodge. Marvin Kays, worshipful master of the lodge acted as master of ceremonies. Larry Mohon, district deputy, presented Mr. Brewster with the Golden Trowel award. Mr. and Mrs. Brewster are former residents of Moran. He was raised in Moran and is retired from the U.S. Navy.

Others present made comments.

Guests were from Eden, Granbury, Albany, Houston, Abilene and Moran. Homemade ice cream and cake were served following the meeting.

Funeral for Mrs. Pierce, mother of Mrs. Edith Cook of Moran, was held in Breckenridge last Friday with burial in the Necessity Cemetery. Mrs. Pierce has been in failing health for some time.

Funeral for Mrs. Chester (Emogene) Allen, 88, of Albany Blue Bonnet Lodge was held at 10 a.m. Monday with graveside rites in the Moran Cemetery with Rev. O'Conner and Jack Clack officiating, directed by Godfrey Neese Funeral Home of Albany.

Mrs. Allen was a long-time resident of Moran until moving to Albany a few years ago.

She is survived by two daughters, Mrs. Inez Benda of Albany and Mrs. Charlene Austin of El Paso; two sons, Jerrel Allen of Seagraves and Bill Allen of Fort Worth; a brother, W.D. Jeter of Dallas; 11 grandchildren;

## Judy Mallow Is National Collegiate Award Winner In Communications

**JUDY C. MALLOW**  
The United States Achievement Academy has announced that Judy C. Mallow has been named a United States National Collegiate Award winner in Communications. This award is a prestigious honor very few students can ever hope to attain. In fact, the Academy recognizes less than 10% of all American college students. Judy C. Mallow, who attends Odessa College was nominated for this National Award by Tom Barnett, a professor at the school. Judy will appear in the United States Achievement Academy Official Collegiate yearbook, published nationally.

25 great-grandchildren; and five great-great-grandchildren.

lished nationally.

"Recognizing and supporting our youth is more important than ever before in America's history. Certainly United States Achievement Academy award winners should be congratulated and appreciated for their dedication to excellence and achievement," said Dr. George Stevens, executive director of the United States Achievement Academy. The Academy selects USAA winners upon the exclusive recommendation of professors, coaches, counselors or other school sponsors and upon the Standards of Selection set forth by the Academy. The criteria for selection are a student's academic performance, interest and aptitude leadership qualities, responsibility, enthusiasm, motivation to learn and improve, citizenship, attitude and cooperative spirit, dependability, and recommendation from a professor or director.

Judy Mallow is the daughter of Gail Meister and the late Jim Meister. Her grandparents are Mr. and Mrs. Brombaugh of Clyde, Texas

## Gov. Richards Announces Bond Program To Help Low Income Texans Purchase Homes

Governor Ann Richards announced today that the Texas Department of Housing and Community Affairs (TDHCA) has established a new Single Family Bond Program to help low and moderate income Texans buy a home.

The program offers mortgage financing at a 7.41 percent interest rate, one of the lowest in the nation.

"Home ownership has long been regarded as the equivalent of the American dream," Richards said. "For Texans that dream has become increasingly difficult to attain.

"That is why I am pleased to see TDHCA establish this new Single Family Bond Program aimed at making home ownership more affordable for low and moderate income Texans," Richards said.

Under the program, participating lenders must reserve 25 percent of their funds for low income persons during the first six months of the program. In addition, the department is also incorporating an extensive

marketing campaign to reach these potential home buyers.

The new program will begin about July 8. During the first two weeks of July, The department will conduct eight home buying seminars throughout the state.

The department identified areas of the state which traditionally have not participated in the Single Family Bond Program and Campaigned to get representation in those areas. As a result, lenders are now participating in 17 counties that

have not had past participation.

The department is also offering down payment assistance covering two-thirds of the downpayment for low and very low income persons. Through this program, the department hopes to assist Texans who are unable to make a down payment. The loans are available at zero percent interest and do not have to be paid back until the borrower sell the home.

The 72nd Texas Legislature created TDHCA by merging the former Texas

Housing Agency and the former Texas Department of Community Affairs. The Community Development Block Grant was also transferred from the Texas Department of Commerce to TDHCA.

The TDHCA is dedicated to helping achieve an improved quality of life through the development of better Texas communities.

For more information on TDHCA programs, please call the agency's toll-free hotline number, 1-800-792-1119.

## Babies' Low Birthweights Attributed To Smoking

Women who smoke during pregnancy are nearly twice as likely to have low birthweight babies than are women who don't smoke, according to the Texas Department of Health's (TDH) Office of Smoking and Health.

A baby is considered of low birthweight if born weighing 2,500 grams (5.5 pounds) or less.

Information gathered through new and more detailed birth certificates by the TDH Bureau of Vital Statistics shows that of the women who smoked during pregnancy, 11.3 percent had babies with low birthweights, while only 6.1 percent of non-smoking women delivered low birthweight babies.

According to Ron Todd, coordinator of the Office of Smoking and Health, "Smoking is probably the most important modifiable cause of poor pregnancy outcome among women in the U.S. recent

estimates suggest that the elimination of smoking during pregnancy could prevent 5 percent of perinatal deaths, about 20 percent of low birthweight births and about 8 percent of premature births."

"Why would anyone put an unborn child at risk by smoking while she's pregnant? It's a crime," said Dr. David R. Smith, Commissioner of Health. "The baby is not even born yet and already that child's chances for survival are reduced because of its mother's smoking habit," he said.

Even "light" smokers risk their unborn babies' health. Pregnant patients who smoke less than a pack a day increase their risk of having a low birthweight baby by 53 percent. Pregnant patients who smoke a pack or more a day more than double their risk (113 percent) of having a low birthweight baby.

"A clear dose-response relationship exist," Todd said. "The more the woman smokes during pregnancy, the lower the

baby's birthweight is likely to be. Maternal smoking retards fetal growth, causing an average reduction in birthweight of 200 grams."

Studies have shown a 25-50 percent higher rate of fetal and infant deaths among women who smoke during pregnancy compared with those who do not.

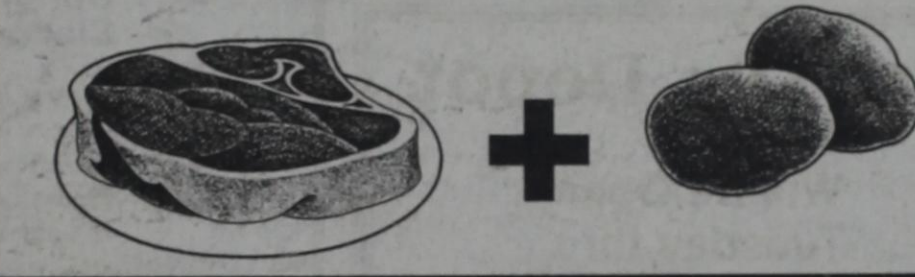

According to Todd, however, women who stop smoking before becoming pregnant have infants of the same birthweight as those born to women who have never smoked. The same benefit occurs to women who successfully quit smoking in the first 3 to 4 months of pregnancy.

According to Dr. Smith the message to all women who are pregnant or planning a family is quite clear: "Don't smoke."

## Pharmacy Topics

By Bob Mueller

Youngsters with chicken pox seem to get a shorter breakout phase with acyclovir, the herpes drug. "The New England Journal of Medicine" reports. Lesions were cleared in just four days.

No need to be embarrassed about old tattoos. A Q-switch ruby laser can remove them, say doctors at the University of Massachusetts Medical Center, Worcester. Method is quick and probably less painful than getting the tattoo in the first place.

Taxol, the tree-bark medicine used against ovarian cancer, seems to be effective for the treatment of breast cancer, too. Study at the M. S. Anderson Cancer Center in Houston reported complete or partial remission in almost half the cases.

Doctors at the Bronx Veterans Administration Medical Center in New York found two reasons ulcer patients shouldn't drink alcohol. The drink aggravates the ulcer, and anti-ulcer drugs slow down gastric acids so more alcohol goes to the brain, making the drinker more drunk.

You'll get quality and service when filling your prescription at Walmart Pharmacy Hwy 80 East, Eastland, 629-3347.

## Lakewood News

by Barbara McKoy  
Lakewood Recreation Center had its first "Get Acquainted" golf for new members Sunday and reported that it was a success. Not knowing how many people would show proved not to be a problem. Fifty-one players, plus family members not playing golf and a bunch of kids along for the ride, were there.

We realized at the beginning of the year that we needed more families and young people involved and we're proud to an-

nounce that we got them Sunday. We want to thank you for coming and will look forward to your continued attendance.

Remember our scramble every Thursday evening at 6:00 and Ladies Day on Friday at 9:00 a.m. There will be numerous club outings, so keep in touch for those announcements.

A special thanks to the members who cooked the food, organized the tournament and worked so hard to make it possible.

## Baby In Contest

Tyler Lane Crafton, the 13-month-old son of Shane and Valerie Crafton of Henrietta, was one of 15 finalists selected in the "Sweetest Baby Face Contest" held June 27, 1992 in Wichita Falls. It was sponsored by Sikes Senter Mall and Lone Star 103.

Tyler is the grandson of Darrel and Frances Crafton of May and Monty and Mary Ellen Cooper of Jacksboro and is the great-grandson of Ben and Elizabeth Cook of May.

## 4-H News

by Janet Thomas, County Extension Agent

**PROJECT E.A.R.T.H. - 4-H COUNTY CAMP**  
Project E.A.R.T.H. - Everyone Acting and Recycling Together Helps is the theme for the 1992 Bi-County 4-H Camp. The camp will be held at the Texas 4-H Center on Lake Brownwood on July 17-18. A special workshop will focus on environmental awareness. Other workshops will be canoeing, riflery, archery, crafts, and recreation. The camp is being co-sponsored by Comanche County. If you have not yet registered for camp and wish to, please come by or contact the Extension Office in the Basement of the Courthouse or call 629-2222 or 629-1093.

**TEXAS 4-H CONGRESS**  
Four 4-H members have received one of the most prestigious honors one can OI the state level. From July 19-23, 600 4-H members will take over

the capitol building in Austin. Chosen as delegates for Eastland County were Joanna Wallace of Ranger and Jeremy Keith of Olden. Ricky Agnew of Nimrod served as a delegate for the county in 1990 and will return as one of the 18 lobbyist chosen statewide. Cathy Thomas of Eastland also served as a delegate in 1990 and will return as a press corp member. The press corp is newly organized and Cathy is one of four chosen in the state. Eastland County is represented in full force as most counties will only have one to two representatives.

**FOODS AND NUTRITION PROJECT WORKSHOPS**  
In order to get a head start on fall 4-H activities, a series of valuable Foods and Nutrition Project Workshops will be held on July 15, 22, and 29, and new materials and information will be pro-

vided. Each of the workshops will be held from 9:00 a.m. to 11:30 a.m. at the TU Electric Reddy

Room in Eastland. If you plan to attend any or all of the workshops, please contact the Extension

Office by July 13 at 629-2222. You do not have to be a 4-H member to attend!
