## Let's Wipe Out Destructive Predatory Animals Which Inflict Heavy Economic Losses on Farmers and Ranchmen!

Income from livestock (cattle, hogs, sheep and goats, wool and mo hair, etc.) accounts for over two-thirds of Eastland County's wealthproducing agricultural industry which contributes in excess of six million cash, spendable dollars to our area economy - and EVERYBODY, in town and country alike, BENEFITS and PROFITS! Livestock are constantly menaced by predatory animals - wolves, foxes, bobcats, etc. which cost farmers and ranchers thousands and thousands of dollars annually. And - without a trapper to eliminate these vicious pests; stockmen's losses would soar to even more staggering proportions! Continued growth and prosperity of our livestock industry obviously is a key factor in our economic future. Especially significant is rapid expansion in production of wool and mohair derived from an increasing sheep and goat population constantly harrassed by predatory animals. Goats, by foraging on weeds and brush, clear land thereby increase its value. In addition, sheep and goats have brought profitable diversification of the livestock industry.

# **A Full-Time Trapper Is a Sound Investment** That Pays Dividends ... Today and Tomorrow!

## Check The Facts ... Then Go To the Polls Nov. 9 and Give Your Livestock Industry A Vote of Confidence ....

The record speaks for itself! Eastland County, along with 115 other Texas counties, has benefitted from employment of a full-time trapper for 10 years. Investigate - check with farmers and ranchers and you'll find trapping has PAID OFF in cash dividends which have contributed to our over-all economy. The cost? Again, check facts. The trapper's salary is modest and far less than half of the total is supplied from county tax funds. Fifty per cent comes from State and Federal governments- and a portion is generously contributed by the Eastland County Trappers Association. The county trapper employs snares and traps to bag predatory animals. Cyanide poison is used only as a last resort - and even so, trappers always have written permission of the land owner before working on his property.

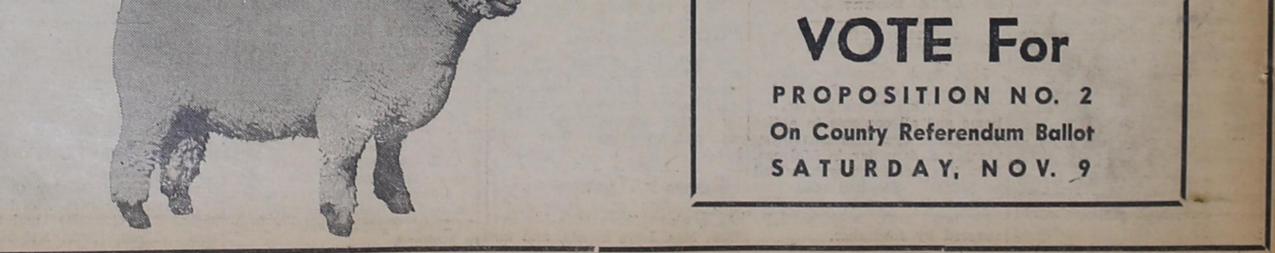

# The Welfare and Destiny of Eastland County's **Livestock Industry Is In Your Hands**

Eastland County citizens, your VOTE OF CONFIDENCE at the polls on November 9 will be a vote FOR continued progress of Eastland County agricultture!

## And Will Be Suitable for Seed

# Tetanus Deaths Unnecessary, Says AMA Health Official

Despite the outpouring of | new "wonder" drugs, man's ancient enemy, tetanus, has not yet succumbed to a cure.

Even so, death from tetanus, or "lockjaw" as it is commonly called, is "almost entirely unnecessary," says Raymond L. White, M.D., Director of Environmental Medicine for the American Medical Association. "As a disease, tetanus is com-

pletely preventable," Dr. White noted. The only reason it per-sists is that people fail to get immunized, or fail to maintain their immunity. Out of sheer neglect, three-fourths of the people don't have the protection they need.

"If it weren't for medicine's continual concern over the possibility of tetanus-if practically every time a physician saw a wound he didn't take precautions against tetanus-the dis-ease would rank much higher among human killers."

Tetanus is caused by a deadly poison emitted by certain bacteria which contaminate certain types of wounds-especially puncture wounds, or wounds survive long enough in the open in hospital operating rooms-air to infect wounds. But its tracked in on street shoes.

Puncture wounds are a common cause of tetanus. tances on the wind, can survive | -three injections four weeks for as long as 11 years. Besides cultivated land, they are com-monly found in household dust To maintain this protection, with imbedded dirt. The bacteria itself cannot Some have even been detected essary every four years. "Protection," he said, "should begin early in life-one to two

air to infect wounds. But its seeds or spores can. Tetanus spores are usually produced by bacteria growing within the air-free intestinal tracts of mammals, including man, and reach the ground in animal manure. Within the in-testines, bacteria cause no harm to their host, other than to serve as factorici for the production of spores. ores, which are unaffected by against tetanus, says Dr. White, requires a series of inoculations immunized."

Wolves and big spenders

to P. O. Box 30, Abilene, Texas.

re-printed from the Texas Tax Journal, Oct. 1963 "The Eskimos have a very effective way of dealing with wolf packs, They embedded razor-sharp knives clasp down in the ice and rub the blades with a little seal blood. The wolves, attracted by the blood, lick the knives cutting their tongues. They are greedily dellighted by the seeming inexhaustible supply of nourishing blood they can lick off the knives. They stand there licking until they drop in their tracks from the loss of their own blood, and freeze to death in the snow."

In a less grisly way big and unprincipled federal spenders are forcing American taxpayers into monied-bloodletting 19 20 2

#### Sign your own declaration of independence

You can do a lot for your independence-financially and personally-just by signing a slip of paper, like the one above, in your employer's office.

The paper is an application for the Payroll Savings Plan. It authorizes your employer to set aside a small amount from your paycheck (you decide how much) towards the regular purchase of U.S. Savings Bonds.

You hardly miss the money because you never see it. Your nest egg of Bonds builds up fast - autoguard your independence as a free American right now. These dollars help you give America the strength it needs to stand up to the enemies of freedom.

Why not tell your employer you want to join the Payroll Savings Plan — starting this payday? And see if you don't feel pretty good about it when you sign your name.

Quick facts about U.S. Savings Bonds • You get \$4 for every \$3 at maturity • You can get your money anytime

## Notice, Taxpayers

AGAINST: Spending tax funds to hire a trapper and poisoner

On Sat. Nov. 9th the voters of Eastland County will have a chance to scratch out an expensive item that has cost all of us thousands of dollars thru the years. It is time that the persons who benefit from this expense start paying for it.

CHECK THE RECORDS: In the month of September not even one Animal waas Snared, , Trapped or Poisoned by the program that is claimed to be so needed in Eastland County. Thats right, not one was caught. Total Catch -None. Total Cost - \$272.00, Our part was \$135.00. Some time ago a suit was filed asking that the County of Eastland not be allowed to help repair and maintain the streets within the City Limits. Now certain persons are asking you to pay tax money to help them snare, trap and poison the wildlife out in the rural areas of the County. When you think about this, you will scratch this deal next Saturday. Speak Up Against Spending and Taxes.

VOTE AGAINST SPENDING TAX FUNDS FOR TRAPPER-POISONER

No other wall paint has ever won such a big "OK"!

traps.

A harsh indictment? Not at all when you look into the facts. The only money the national government has is what it takes from the people in taxes. Therefore, no matter how inticing the bureaucrat disbursers make their program look by smearig them with "SOMETHING-FOR-NOTHING" BAIT, every nickel of the expenditures must be extracted from the taxpayers." This is true on the State and County level also. Don't take the "BAIT" now being offered by certain persons who want you to vote them a special tax subsidy.

Jimmy R. that new car is very Saturday of this month, so We are very happy to aneveryone please watch for the nounce that Charlene Vermillion posters and then buy a pastry has been elected "Homemaker of the Month" for October. from us.

The will go on the In selecting "Homemaker of field with high spirits and good the Month," a point system is sportsmanship tomorrow night used. Charlene maintains an A with - Beating Gorman - on average. She is President of the

their minds. Everyone come to the Wildcat Stadium at 7:30 and watch those Cats claw the

Panthers!!! At the half-time entertainment, Miss Sharon Donham,

will be presented as the Wildcat Band Sweetheart. She is a senior and deserved this honor very much. She is also a good performer on the alto sax in the stage band.

This is all the news until next week. Everyone watch for the Junior news in the next edition of the "Wildcat Tales." Junior Reporter Linda Burkhaulter

#### "LIVE AND LEARN"

Hi! Book report time is here and the library is booming with business.

The Sophomore class would like to thank the room mothers for their co-operation and help at our powder-puff football game. The Warriors won 14-0. The Sophomore class came out with about \$100.00.

Other than book reports, we review Chapter Three in Algebra I and are taking up Chapter Four. Those in Biology are studying insects and their habits. World History students are completing Chapter Nine. Typing students are working on Unit Eight while taking timing tests. Home Ec. II girls are slowly finishing their projects; some are looking very nice. I would like to congratulate all the members of both teams. I hope all your bumps and bruises get well soon. Also, I would like to wish our great football team - Cats that is, great luck all during our game with Gorman. Until next week-Marcia

#### "IN THE FISH BOWL"

The Freshmen girls are still recovering from their football game; the score ended, Warriors, 14; Bloomers, 0; we lost, but I do not think we have ever had more fun.

We have been solving equations in Algebra I, and we were given a test last Thursday. The General Math students are bi-

No homeowner should be without this somplete, yet low cost, insurance protection. It covers everything: home furnishings, etc. Just one policy, one premium, one agent!
