Art Exhibit, Reception Set at First State Bank November 1

Wayne Baize, noted Western artist, will be at First State Bank of Rising Star for a preview reception of an exhibit of his art work November 1.

Well known Western artist Wayne Baize will be at the preview reception of a two-week exhibition of his original paintings and limited edition prints. Meet the artist and his family Sunday, November 1, from 2 to 5 p.m. at First State Bank of Rising Star.

Baize's parents, Mr. and Mrs. Novel Baize of Baird, will be at the reception as well as his wife, son and daughter. The artist has sometimes used family members in his paintings and credits his wife as being

an important inspiration during his career. He has been a full time artist for the past 20 years.

Preferring a quiet country life, Baize has often used his own ranch and neighboring ranches in the Fort Davis Mountains as the setting for many of his paintings. He raises registered Herefords and he and his brother, Arlon, raise horses of the Doc Bar bloodline bred for cutting. A cowboy at heart, Wayne grew up on farms and ranches and before he turned to art full time he worked at jobs that kept him in touch

with farming and ranching. Whether his work is in oils or with the colored pencils he prefers, the finished products have a wide appeal to Western art fans. Magazines that have used his work on their covers include the Quarter Horse Journal, The Hereford Journal and The Cattleman.

Positive statements of the cowboy's sense of accomplishment and of quiet moments taken from the working cowboy's life are portrayed in his work. Livestock working, being worked or idling on the range are included as well as the always appealing newborn animals.

The reception is being hosted by First State Bank and Hubbard Gift & Gallery.

Wildcats Crush Hornets 34-6

The Rising Star Wildcats played the Rochelle Hornets Friday October 23 and came away the victor. It was a game when everyone saw action as the final score was Rising Star 34, Rochelle 6.

The Wildcat defense held Rochelle on their opening drive and following a short punt the Cats took over with good field position. The Cats failed to take advantage of this when two plays later the offense coughed up the football. It was Rochelle's ball

on their own 43 yard line. The Wildcat defense went to work and senior lineman Lupe Pavon knocked the football loose and sophomore Derrick White grabbed the loose ball. The Wildcats took over on their own 24 yard line. The Cats moved the ball but were stalled on the Hornet 10 yard line. With fourth down the Cats decided to try the field goal. Junior Stacy Green's kick split the uprights but the referee

Letter To Editor

Editor,
I plead with my fellow Texans to defeat the constitutional amendment Proposition 10 on Nov. 3. Described as a personal property exemption, it would actually accomplish the opposite.
Article VIII, Section 1 of the Texas Constitution forbids the Legislature to allow ad valorem taxation of personal property that is not used for business purposes. Quote: "The Legislature by general law SHALL exempt personal effects not held or used for production of income." Webster defines "effects" as movable property.
Texas Property Tax Code 11.14 (b)(2) makes unconstitutional exceptions to that mandate by stating that "personal effects" does not include motor vehicles, boats and other means of transportation (any movable property that rolls on wheels, floats on water or flies in air). I contested that part of the Tax Code in 21st District Court. Therefore, the legislative lawyers are attempting to have us change the Constitution to conform to their unconstitutional law.
Since the Legislature is ordered by the Texas Constitution to exempt ALL our personal property not used for income, there is no need to "ALLOW them to exempt CERTAIN personal property" and in addition to allow each taxing unit to continue to tax personal property if they so choose. They can merely change the law to conform to the Constitution as is.
By approving Proposition 10, we would seriously weaken or repeal the personal property protection that we now have under the Texas Constitution. Please vote against Proposition 10 and any other of the 25 proposed amendments that you do not fully understand and approve. Most constitutional amendments are proposed for the convenience of the Legislature and are often falsely worded for that purpose. As the one who challenged the constitutionality of Tax Code 11.14 (b)(2) I feel dutybound to inform you of the purpose behind Proposition 10 and the inherent danger involved.
Sincerely,
Art Rohner

In Memory Of Horace And Ed

Do not stand at my grave and weep, I am not there. I do not sleep. I am a thousand winds that blow. I am the diamond glints on snow. I am the sunlight on ripened grain. I am the gentle autumn's rain.

When you awaken in the morning's hush, I am the swift uplifting rush of quiet birds in circled flight. I am the soft star that shines at night. Do not stand at my grave and cry. I am not here. I did not die.

THANK YOU

I would like to thank the May Home Demonstration ladies and others who helped serve the delicious food brought in by our friends for the family of Hermon Raleigh Nichols. Also for food brought to my home. How wonderful it is to live in a community where there are such caring people.

May God bless each of you. Byron & Rose Mae Nichols and family

The family of Josie Morris acknowledges with grateful appreciation the prayers, food, cards, calls, all love and concern of those friends and neighbors during these hours of sorrow. Thank you, God, for friends and for the touch of your hand that lifts us up and carries us through these lonely hours.

Thanks to all those at the Rising Star Nursing Center who helped us with Josie and to all those who visited her from time to time to help make her last days brighter. You are all great. Thank you. Alma Morris Emma Kent Sylvia Brown & all other family members

ASSISTANT D.A. EXPRESSES 'THANKS' TO RECENT JURY

A message has been sent loud and clear to those who would drink and drive in Eastland County.

A statement by Assistant Criminal District Attorney Bill Dowell expresses that officer's appreciation for the action of the jury:

"Recently 12 citizens of Eastland County, sitting as jurors in a felony D.W.I. trial, sent a resounding message to those who choose to drive while intoxicated. I want to publicly thank each of them for their support of law enforcement and protecting their fellow citizens. The jury not only found the defendant guilty but more important backed that verdict by assessing a punishment of 15 years in the penitentiary, no probation.

"It was my honor and pleasure to have worked with them in a victory for the citizens of this county," Mr. Dowell said.

The speaker is an accomplished story teller and led a captive audience in nature explorations on a ranch in far West Texas, going into the depths of a previously unexplored Indian cave in the West Texas mountains and joining the trail ride with the Sesquicentennial wagon train. Entertaining stories of migratory birds, helping nature by planting nuts and seeds, and of viewing geese that winter on the Gulf coast

Ella Dean, former longtime Pioneer resident, was given a dinner for her 88th birthday by Laverne and Cowan Hutton October 21. Ella is one more spry little lady!

Lou Wilson will be writing this column next week. Please call her at 725-6781 and give her your news.

Our apology if you prepared a very flat, very salty Chop Suey Cake. The recipe ran October 15 and should have read 2 tsp. soda and ½ tsp. salt, rather than 2 tsp. salt!

Commentary by Myrtle Owen

A BLESSED HOPE: Christ's return is described as the "blessed hope" in Titus 2:13. "Looking for that blessed hope, and the glorious appearing of the great God and our Savior Jesus Christ." The happiness of the greatest event in world history has to do with seeing Jesus. John said in Rev. 22:4, "And they shall see his face." If this thought does not affect one's emotions positively, something is drastically wrong. The song often sung by believers should be the position of every child of God. This song declares: "Friends will be there I have loved long ago; joy like a river around me will flow. Yet just a smile from my Saviour, I know, will through the ages be glory for me." Amen. Even so, come quickly, Lord Jesus.

A COMFORTING HOPE: Again, his appearing is described as a comforting hope. 1 Thess. 4:16-18 states, "For the Lord himself shall descend from heaven with a shout, with the voice of the archangel, and with the trump of God: and the dead in Christ shall rise first: Then we which are alive and remain shall be caught up together with them in the clouds, to meet the Lord in the air: and so shall we ever be with the Lord. Wherefore comfort one another with these words."

Oh, what a comfort it is to know that our bodies will not

remain in vermin-filled graves for all eternity. Instead, the dead and living in Christ shall sweep through the heaven lies in the twinkling of an eye to meet Jesus Christ. Then shall we, in triune form—body, soul and spirit— dwell in His presence, eternally. Because of this glorious truth, God says, "comfort one another with these words."

A PURIFYING HOPE: The return of Christ is also a purifying hope. The Bible states in 1 John 3:2,3, "Beloved, now are we the sons of God, and it doth not yet appear what we shall be: but we know that, when he shall appear, we shall be like Him for we shall see Him as He is. And every man that hath this hope in Him purifieth himself, even as He is pure." How true! One who honestly feels that Christ may come at any moment does not get involved with this world. His is not catering to fleshly desires and hanging on to unclean habits. Instead, he is constantly combating the old nature and seeking victory over the flesh in order to obtain a full reward at Christ's appearing (11 John 8).

Sun Exploration And Production To Downsize Four District Offices

DALLAS—Sun Exploration and Production Company today announced plans to downsize four of its ten production district offices, eliminating approximately 80 technical and administrative support positions by next spring.

The affected districts are based in Abilene (TX), Lafayette (LA), Midland (MI) and Denver (CO). Operating offices will be retained in those cities to manage ongoing drilling and production functions.

In announcing the move, Production Division Vice President James E. Roberts said, "We are leaving our operating people in the Central Texas, Rocky Mountain, Northern and Gulf Coast areas because these continue to be important regions for Sun.

"By downsizing rather than closing these four districts, we will remain in a position to take advantage of future opportunities. Since we are moving only our reserves development and

administrative support functions, we will be able to increase or decrease our operating activities in these areas as future business conditions warrant."

The Southwestern and Central Texas districts will be combined and headquartered in Midland (TX). The Mid-Continent and Rocky Mountain districts will be combined and headquartered in Oklahoma City (OK). The Southeastern and Northern districts will be combined and head-

quartered in Longview (TX). The South Texas and Gulf Coast districts will be combined and headquartered in Corpus Christi (TX).

Sun E&P's other two production districts, located in Houston (TX) and Valencia (CA), will not be affected by the downsizing and will retain their present structure and responsibilities.

Sun Exploration and Production Company, a unit of Sun Company, Inc., engages in exploration, production and marketing of crude oil and natural gas in the United States and outside North America. Sun E&P is managing general partner for Sun Energy Partners, the master limited partnership that holds all of Sun's domestic and gas properties.

Lights From The Christian World

By Josephine Cleveland

Many people have climbed the ladder of success only to find at the top that the ladder was leaning against the wrong wall. The world equates success with acquiring fame and fortune. Many have been dishonest in achieving their wealth and fame while others have used deceit.

The world is full of people who have become disillusioned with life after they have reached the top. Hemingway, the noted author, and daring wild-game hunter gained wealth and fame with his exploits. Yet, he wrote a note telling the world that "all was nothing," and then took his own life. He learned too late that he had placed his ladder on the wrong wall.

Judas, one of Jesus' disciples, placed his ladder against a stable wall-

structured wall and then because of the lust of money repositioned it on a weak structure. He betrayed his true friend. When Judas realized that Jesus had been condemned to die, he repented, and tried to return the blood money given to him by conniving men. He explained, "I have sinned, in that I have betrayed innocent blood. Take the money back." They laughed at him because of his gullibility.

Scorned by the men, he realized too late the consequences of his foolishness. His friend, Jesus would have forgiven him but he again acted rashly. He cast the money at the men's feet and went and hung himself.

King Solomon wrote, "I made me great works; I built me houses; I planted me vineyards; I got me servants and maidens... also I

had great possessions... And whatsoever mine eyes desired I kept not from them; then I looked on all the works that my hands had wrought;... and all was vanity and vexation of spirit." Solomon came to his senses and realized that fame and fortune did not necessarily bring happiness. Another ingredient was necessary. He reached this conclusion. "Fear God and keep the commandments" (Ecc. 12:13).

Friend, if you feel that "all is nothing" you may have placed your ladder against the wrong wall. Position yourself with Christ and begin now to climb worthy of the calling of Christ Jesus. You can be assured that "the peace of God will keep your heart and mind through Christ Jesus" (Philippians 4:7).

Circus To Perform In Eastland

It won't be long now until Circus day is here. The staff of Franzen Bros. Circus, invites everyone to come and watch as the lot is transformed right before your eyes, into an enchanting land of make believe, on East Main St. in Eastland.

Approximately 8 a.m. the Circus trucks will be arriving. Each truck designed to function at an unusual task, or to transport unique cargo. Part of the crew goes to work immediately, stretching canvas across the grounds, as a separate crew begins to unload, feed, and water the Circus Menagerie. What kind of animals do we have, you ask? Well, don't get too close to Wayne Franzen, owner of Franzen Bros. Circus, begins to unload Okha, one of the largest performing Circus Elephants in America. Have your camera ready, because once Okha steps out of the elephant truck Kosti and Megu, the playful baby elephants won't be far behind. Do we have any other animals you may ask? Franzen Bros. Circus is now carrying 15 trained Horses. Princess Moonbeam and her Twelve Appalossa Ponies of America is considered America's No. 1 horse act today. You will also see the Franzen Bros. Camels and Llamas as they exit the trucks onto the Circus grounds. And yes, you will be able to see the Lions and Tigers that have made Franzen Bros. Circus "AMERICA'S FAVORITE SHOW".

Once you have an eyeful of the Circus Zoo, you might enjoy watching as the massive tent poles begin to push the canvas high into the air. Hey, I know who that is helping those men with that tent pole. It's Okha, the Circus Elephant. Helping to put the Circus Tent up, is one of Okha's jobs. This is definitely something you don't want to miss.

Attention Former De Sailors

In the annals of naval history the destroyer escorts are acknowledged for winning the "Battle of the Atlantic." Though many of these ships were recommissioned during the Korean conflict and used in reserve service, they are non-existent today.

Over ten years ago, a dedicated group of men formed the "Destroyer Escort Sailors Association" to honor those sailors who served on board the destroyer escorts. They believed that the destroyer escort sailor should not be lost to oblivion as most of their ships were. These ships were considered obsolete for our present day Navy and were sold for scrap iron or used as targets for torpedo/misile practice. Twelve of these ships were sold to foreign nations. The former USS Hurst De 250,

now the Manuel Azuea A-06, used for cadet training in the Mexican Navy, made a port of call to Philidelphia for the 1986 DESA Convention.

If your interest is activated as a former destroyer escort sailor, we are having a reunion and convention for your shipmates in St. Louis, September 2-6, 1988. Anyone who served aboard these types of ships or knows of anyone who did, please contact:

Edward L. Lesniak

Niles, IL 60648

There is a chance that you may locate a lost "Ole Buddy." De Sailors and DESA are special for, fellowship, communication, recognition and reunion. Do you know where your shipmates are today? What they are doing? How some "Ole" buddies are trying to locate you? DESA is there to renew that old camaraderie.

Noted Australian Scientist To Speak

By Richard Kurklin

People in this area have a unique opportunity to hear a world renowned scientist, educator and author speak and use visual aids to compare chapters 1-11 in the Bible with modern findings in Archaeology.

Dr. Clifford Wilson, the president of Pacific College in Melbourne, Australia, and a resident of Victoria is paying a visit to the United States.

A holder of numerous degrees and honors both in Australia and the United States, including being a former Professor of Education at the University of South Carolina where he also obtained a doctor's degree and was chosen as "An Outstanding Educator of America" in 1971, Dr. Wilson has been Director of the Australian Institute of Archaeology and served as

an Area Supervisor at the excavation of Gezer in Israel.

Dr. Wilson is also the author of more than 35 books, the Consulting Editor of a journal and the featured speaker on a weekly radio program.

Usually a man of such achievement would be expected to speak in a large auditorium in a metropolitan area and probably before television cameras, but Dr. Wilson had heard about Cisco, Texas, and had been told about the Calvary Baptist Church in Cisco. So Dr. Wilson asked to visit Cisco and to speak at the Calvary Baptist Church this Wednesday night, October 28, at 7:00.

The church's pastor, Ronnie Shackelford, invites the public to take advantage of this rare opportunity to hear Dr. Clifford Wilson, and he especially encourages schoolteachers of the area to be present at this event.

Nubion Lions and Royal Bengal Tigers, natural jungle enemies, will be brought together in one steel arena on Saturday, October 31, at 2 p.m. only on East Main St. in Eastland at the Franzen Bros. Circus. You might find it necessary to cover your eyes as Renowned Animal Trainer, Wayne Franzen, opens the steel door and steps into the arena with the snarling jungle beast's. Don't cover your eyes for long, because you won't want to miss a thing as he begins putting the wild animals through their paces. Rolling globes, walking on their hind legs, and jumping through flaming hoops, just to name a few. This act, a favorite of young and old alike, is just one of the reasons Franzen Bros. Circus has acquired the nickname "AMERICA'S FAVORITE SHOW".

The PEOPLE'S FORUM

I've Been Wrong Before

by Gordon S. Clark

Probable the least justifiable reason for losing my temper was the rejection of an idea. Maybe the anger was because, like some people have called an idea ones "brain child" and people resent violently a hurt to their children. You might take tearing your idea apart about as badly as someone tearing a real child limb from limb.

I grew up in coal country and years ago a series of explosions in the same mine killed men but their cause was undetermined. Having had contact with testing of gas from Texas natural gas wells and knowing that gas is not simply "gas" but a mixture of methane, hydrogen, and heavier combustible the BTU (heat) content can vary widely with some gas having hydrogen as to be too poor to market under present conditions. Gas in the Panhandle in some wells contained helium which doesn't burn at all. But while not a hot cooking gas, hydrogen explodes violently.

Knowing that the gas detecting devices of that period (I don't know about now) could only detect methane, I wrote the Bureau of Mines in Washington my thought that the undetected problem might be hydrogen. They did answer my letter but rejected as quite improbable my idea.

There they were with dead men on their hands, no idea why, yet they rejected without investigation a sug-

gestion. Oh yes, they did mention that a new device capable of detecting hydrogen as well could be developed but would be very expensive. I wondered what the bureaucrats thought the value of lives would be set at if they asked miners families?

Maybe they thought that because the idea was free it was worth the asking price, NOTHING. Maybe they felt that no idea had value unless it originated in their own bureaucratic baliwack. Maybe they just sat on their fat and didn't really care. I was angry but impotent as most who encounter entrenched bureaucracy.

Poor government employees. We are all too hard on them. We do get distressed by endless waiting as when I wanted to see eye doctors at Veterans Administration hospital in Dallas. Your appointment is made months in advance yet on the day you wait and wait and wait some more. That particular day was the worst. Still, my wife was with me to chat with and to fetch a cup of coffee least I be called while getting one myself. The day dragged toward five and I feared I might have to ask my boss at Texas Employment Commission for another day off if they said, "Come back tomorrow." The winter day grew dim and waiting patients became impatient and cursed "these blankety blank bureaucrats." Discussion turned toward occupations. There was a mechanic who gave up his trade because of failing eyes, a driller from Ranger, etc. until someone asked me, "Say buddy, what do you do?" My casual reply, "Oh,

I'm just another bureaucrat," was followed by stunned silence. Even my wife who should have expected weird replies from me was shocked. On the way home she admonished that I could at least have said I was a placement interviewer.

It turned out that when we got in one doctor and an intern were doing the work several usually did. One doc. had called in sick, another had fallen on the side of his boat while fishing Sunday breaking ribs, yet another was injured in an accident and might never recover. Those "bureaucrats" who apologized for our long wait were missing supper too but waiting in the hall we impatient ones didn't know what was holding things up. The average bureaucrat would have shut it down before five.

My own boss at TEC was probably responsible for my more understanding attitude. She admonished us in training that we might encounter hostility. Most people who enter an employment office have serious problems. They have no job and they have dependents looking to them for their daily bread. Naturally they are going to be "up tight" and may let their hostility and frustration boil over on the interviewer. Nor does the man off the street understand the rules, regulations, and laws which govern what must be done. Thus, we were never to reply in kind regardless of how abusive they might seem.

One incident which stands out involved a man looking for work following the slump precipitated by the oil embargo. No sooner had the receptionist handed me his

QUESTION: Mr. Cartee, as you know the flu season is just around the corner. I took the flu shot one time and it made me sick. Do you have information who should take those shots?

ANSWER: According to the doctors you may need a flu shot if you are among the following: A healthy person over 65 years of age; or any person with a chronic (long term) condition like: Cancer, diabetes, disease of the heart and lungs, kidney disease, anemia, tuberculosis and aids and related condition. Also those who take certain medications like steroids, or those who live in a nursing home or institution, or a health care worker should consider taking the flu shots.

QUESTION: Mr. Cartee, I care for my mother but I need to get away every now and then. Is there a program in this section of the state where I could leave my mother and know she is being cared for?

ANSWER: Yes. The Graham Memorial

Hospital in Cisco has a respite program. Respite programs offer support so that family care-givers may take a break from the demands of caring for a frail person in the home. Such care may be provided for a few hours or for several weeks.

QUESTION: Can you tell us about the home care services and are they available in this section of the state?

ANSWER: Home care services are available throughout the big country. I would suggest you ask your doctor or look in the yellow pages for assistance. The number of home health agencies certified under medicare rose by more than 50% between 1982 and 1984. We do not have recent figures. Medicare only covers skilled care provided by certified home health agencies under defined conditions.

If you have a question please write Mr. Roy V. Cartee, 900 Avenue H, Cisco, Texas 76437.

threw a flag and the penalty was marked off against the Cats. Green's kick once again split the uprights and the score was Rising Star 3, Rochelle 0, when the first quarter ended.

The second quarter Rochelle decided to go for the first down on fourth down. The mighty Wildcat defense held and the Cats took over on Rochelle's 30 yard line. With 10:43 left in the first half senior quarterback David White ran around the end for 11 yards and the touchdown. Stacy Green's PAT was good but once again there was a penalty stepped off against the Cats and Green had to kick the PAT over. This proved to be no problem as Green's kick split the uprights again and the Cats led 10-0. The Wildcat defense proved too much for the Hornets as they tried for the first on fourth and long. On the Cats very first play David White connected with senior wide receiver Ronnie Evans on a 47 yard touchdown pass. Stacy Green's PAT was good and with 7:11 left before half-time, the score was Rising Star 17, Rochelle 0.

On the next defensive series, senior end, James Holman, came up with the first quarterback sack of the night and Rochelle was forced to punt. The Wildcats had trouble holding on to the ball and fumbled on their own 45 yard line. The Hornets took advantage of the turnover and connected on an 11 yard touchdown pass. The pass for the two point conversion was incomplete and with 54 seconds left in the first quarter the Hornets recovered the football on an

inside kick. Once again the Wildcat defense came through. Junior cornerback Steven Wilson intercepted the ball and the Cats were able to move within field goal range. This time Stacy Green's field goal was good from 36 yards out with two seconds before half-time. The Cats took a 20-6 lead into the dressing room.

Early in the third quarter the Wildcats put the game away with two touchdowns in 1:48. The Hornets kicked off and on the first offensive play of the half a determined Derrick White broke tackles for a 60 yard touchdown run. Stacy Green's PAT was good and only 15 seconds had run off the third quarter clock. The Wildcat defensive line, James Holman, Cory Atwood and Lupe Pavon did an outstanding job and the Hornets were forced to punt. The snap was over the punter's head and the Wildcats recovered the ball. On the first play fullback Stacy Green spun out of tackles and sprinted 30 yards for the last touchdown of the game. Green's PAT was good and with 10:22 left in the third quarter the score was Rising Star 34, Rochelle 6. Rochelle's offense tried to get something going but once again failed when they fumbled the football. Freshman cornerback Donny Alcorn recovered the ball for the Cats on the Rochelle 38 yard line. The Wildcats were plagued by turnovers and fumbled once again. This time on their own 25 yard line. The quarter ended with the Cats leading 34 to 6.

The Hornets moved the ball to the Wildcat four yard line before the defense caused another fumble. Kerry Hill pounced on the football and the Cats took over deep

in Rochelle territory. The Cats were forced to punt. The Wildcats junior defensive end Shawn Morrow sacked the quarterback and the Hornets once again came up short on fourth down. Rising Star took over only to fumble on Rochelle's 48 yard line. This time sophomore Alan Havens sacked the quarterback and the Hornets failed to move the ball. The game ended and the Wildcats are now 3-1 in district play.

Next week's game will be at Lometa at 7:30 p.m. The Wildcats remain tied with Blanket for second place in the district behind Baird.

Homemaking Hints

From Janet Thomas, County Agent

BEEF PROMOTIONAL BOOTH

The Eastland-Stephens-Palo Pinto Extension Agents-Home Economics are joining a Statewide campaign to educate the public on the "lean truth" about beef. Beef is lower in calories, fat, and cholesterol than most people think.

At the Tri-County Cow-Calf Clinic on Wednesday, October 28th at the Eastland County Livestock Showgrounds, the public is invited to visit the beef promotional booth that the home economists will be sponsoring. Our booth will be on display from 9:00 a.m. until 3:00 p.m.

The booth will feature a large display illustrating the cholesterol comparisons of various meat groups. Also, two computer nutrition programs will be available and we can analyze your diets.

How does beef stack up when compared to poultry, which is generally perceived to be more healthful?

Using 3 ounce cooked portions, beef has 73 milligrams of cholesterol, chicken fried with skin on has 74 milligrams and roast chicken served without the skin has 76 milligrams. Dark meat turkey has 72 milligrams and light meat turkey 59 milligrams. One large egg, incidentally, has 252 milligrams of cholesterol.

The American Heart Association recommends consumption of no more than 300 milligrams of cholesterol a day. Beef fits easily into a healthful diet.

Until recently, facts and figures on beef were based on a 30 year old study made before beef was being bred to be leaner and lower in cholesterol.

Research on today's leaner, trimmer beef paints a rosier picture for the consumer whose taste buds are more tuned to an occasional steak than to an

everyday diet of fish or chicken.

Come by this coming Wednesday, we will, also, have beef recipe booklets available free to you.

SENIOR CITIZEN'S BAZAAR

Don't forget the Senior Citizen's Bazaar on November 5 and 6. This is county-wide, free and all persons 55 years of age or older are welcome to participate.

The Extension Homemakers are sponsoring stew and cornbread for \$1.75, along with all kinds of delicious baked goodies.

Seniors are reminded that there are no booth fees - everything is free and you keep all of your proceeds from sales. Bring 1 or 2 cardtables because tables will not be furnished.

Those needing additional information are invited to telephone Janet Thomas, County Extension Agent, at 629-2222.

NEW CISCO EXTENSION HOMEMAKER CLUB ORGANIZING

A new E.H. club is organizing in Cisco. All interested women are invited to join. There are no dues.

The next meeting will be November 9, at 10 a.m. in the First National Bank of Cisco Community Room.

1 cup quick or old fashioned oats, uncooked
1 teaspoon baking soda
1 teaspoon ground cinnamon
1/2 teaspoon salt
1 cup butter or margarine, softened
1 cup firmly packed brown sugar
1 cup granulated sugar
1 egg, slightly beaten
1 teaspoon vanilla extract

1 cup semi-sweet real chocolate morsels
Assorted icings or peanut butter
Assorted candies, raisins or nuts

Preheat oven to 350°. Combine flour, oats, baking soda, cinnamon and salt; set aside. Cream butter; gradually add sugars, beating until light and fluffy. Add egg and vanilla; mix. Alternate additions of dry ingredients and pumpkin, mixing well after each addition. Stir in morsels. For each cookie, drop 1/4 cup dough onto lightly greased cookie sheet; spread into pumpkin shape, using a thin metal spatula. Add a bit more dough to form stem. Bake 20 to 25 minutes, until cookies are firm and lightly browned. Remove from cookie sheets; cool on racks. Decorate, using icing or peanut butter to affix assorted candies, raisins or nuts. Guest Slot

By HVO

(ED. NOTE: Voters in this county and across the state will go to the polls on Tuesday, Nov. 3, and mark ballots in the General Election which offers no candidates for offices, but does offer 25 choices on proposed Constitutional Amendments and two binding referenda. The following is a summation by the Texas Research League in its publication *Analysis*.)

In 1873, Richard Coke was elected Governor of Texas having defeated the incumbent E.J. Davis, a Republican Reconstructionist. Two years later, with the Democrats firmly in control, Texans set about drafting a new constitution. After almost a decade of carpetbagger rule in the post-Civil War era, Texans were skeptical of vesting too much power in government. As a result, the 1876 Constitution attempted to limit spending and debt

creation, legislative actions and executive privilege. Detail usually found in statutes in other jurisdictions became a traditional part of the Texas constitution.

Wholesale revision attempts have not been successful; the last, in 1975, was overwhelmingly defeated by the voters. Changes to the constitution have had to come in the form of amendments - a form seemingly readily accepted by Texans. Through 1988, a total of 465 amendments will have been submitted to the electorate; 287 have been approved.

The 70th Legislature approved another 28 amendments (a new record) for voter consideration. Twenty-five of these will be on the ballot this year; the other three will be submitted in 1988.

1987 AMENDMENTS
Bonded Debt. Texas is a

pay-as-you go state; the constitution requires a balanced budget and prohibits debt creation. Prohibits, that is, except where it is otherwise specifically authorized; a practice frequently utilized. Five amendments (Nos. 6, 7, 8, 18 and 23) authorize the legislature to issue additional state bonds.

Economic Development. Three amendments (Nos. 1, 4, and 5) are directly related to the state's current economic development efforts. Each is an attempt to overcome the constitutional ban on government lending credit or granting public moneys to an individual or corporation. (Some of the bond authorization proposals also could be grouped as economic development endeavors.)

Property Tax Exemptions. The constitution once required that all property be subject to ad valorem taxes based on full market value. Over the years a long list of exceptions have been written into the constitution by amendment. Proposals Nos. 3, 10, 11, and 20 would expand that

list. State Government. Three proposals (Nos. 9, 21, and 22) pertain to limitations on state executive and legislative offices.

County Government. County organizational structure and authority are severely restricted by the constitution. Amendments Nos. 15, 16, and 24 would provide some limited flexibility for counties.

Special Districts. The constitution authorizes the legislature to create various types of special districts for the performance of specific functions. Proposals Nos. 2, 13, 18, and 25 pertain to these limited local governments.

Miscellaneous Provisions. The final three amendments (No. 12, Community Property; No. 14, State Criminal Appeals; and No. 17, Municipal Tort Liability) deal with separate, but important, topics.

TWO BINDING STATEWIDE REFERENDA

Texas' voters, for the first time, have been asked by the legislature to pass

statutory law. In each case, the subject matter was so controversial that the legislature could not reach a conclusion on their own. Public referendums most often are included as advisory matters, but in this case they are binding votes.

State Board of Education. No. 1 proposes to retain the present appointed status for the State Board of Education. A "yes" vote means the Board members will be appointed; a "no" returns the members to an elected status.

Pari-mutuel Betting. No. 2 proposes to permit, on a local-option basis, wagering on horse or dog races. A "yes" vote would allow local voters to approve betting.

Ladies Game Day Nov. 6
Come one come all to Ladies Game Day, Friday, November 6 Lone Cedar Country Club, at 10:00 a.m. Your favorite games will be played and a delicious meal served at noon. See you then.

Jr. High Girls Basketball

Coach Debbie Bacon has been working hard preparing her girls for this year's basketball season. The girls have also worked hard perfecting their fundamentals. This Monday Coach Bacon and the girls will be traveling to Blanket to participate in a round-robin type scrimmage. Your support would be appreciated.

Dear Penny,

Dear Penny,
I'm starting to like this guy in my class. The thing is he's not very popular. He's cute and real nice and there's something about him I like. What should I do?
Popularity or Love

Dear Pop. or Love,
If you like this guy as much as you say you do, then his not being popular shouldn't matter. First, realize that popularity is not everything. When you like a person, you like his attitude, manners and that he's nice. You don't fall in love with his outside. Looks are not everything, what matters is how the person is inside.

Another contest is called the "Scrapbook Competition". It is a book constructed by each club telling the story of experiences for the year. It is judged on creativity, neatness, originality, theme, and promotion of 4-H. Winners receive \$25, \$15 and \$10, respectively and are First-Rising Star, Second-

Band Notes

The marching Wildcat Band left the band hall at 5:30 a.m., Saturday, October 24. Some members had a little trouble waking up but the band managed to get in a good practice before leaving for Brady and the Universal Interscholastic League Marching Contest.

After arriving at the Bulldog Stadium in Brady, area bands began performing. The Wildcat Band received a Division III average.

Band members participating were Maxine Perales, Jo Landers, Stacey Wright, Jo Linney, Vickie Cox, Michelle Ferbrache, Juanita Ramirez, Kim Schwab, Patricia Paxon, Roanen Barren, Lupe Paxon, Gherda Williams, Renee O'Connor, Duane Schwab, Stephanie Long, Shawna Waddle, Betty Jones, Becky Walker, Pam Hollis, Clarissa Atwood, Brandon Geye, Tami Vandiver, Amy West, Shawn Morrow, Staci Schlittler, Wendy Green, Danetta Bible, LaQuita Hendricks and sponsor Tim Riley.

The band would also like to thank the school for purchasing their lunch.

A Small Oversight

Thanks to Mr. Travis Williams, the question of small town patriotism was partially answered Friday night. With Mr. William's encouragement most, if not all, people sang the National Anthem at the football game. It was a great ego booster for those of us who were concerned about the example we are setting for the younger generation. Evidently the "not singing" was simply a small oversight. Thank you, everyone, for participating! Let's keep up the great sound.
