

Ferguson Receives Certification

CERTIFICATE - Captain Richard W. Ferguson, right, receives congratulations and his Professional Logistician Certificate from Colonel Ralph H. Galati, chief, Air Force Medical Materiel Field Office (AFMMFO), Ft. Detrick. Capt. Ferguson is the Officer-in-Charge of Logistics and Support Management, AFMMFO. He has been at AFMMFO since

August 1974. Capt. Ferguson received certification as a professional logistics engineer from the Society of Logistics Engineers. This certification is based on a review of professional qualifications and examinations administered by the society. Only 273 individuals in the United States have been certified under the program since the society initiated it. (U.S. ARMY PHOTO)

FT. DETRICK, Frederick, Md. - Captain Richard W. Ferguson recently received his certification as a professional logistician.

In ceremony held at the Air Force Medical Materiel Agency (AFMMFO), Colonel Ralph H. Galati, chief, AFMMFO, made the presentation.

This certification is based on a review of professional qualifications and examinations administered by the Society of Logistics Engineers. Only 273 individuals in the United States have been certified under the program since the society initiated it.

Capt. Ferguson is presently the Officer-in-Charge of Logistics and Support Management, AFMMFO. He has been at AFMMFO since August 1974.

Before his arrival at AFMMFO, Ferguson attended the School of Systems and Logistics, Air Force Institute of Technology, Wright-Patterson Air Force Base, Ohio.

Ferguson entered the Air Force in November 1961 and completed his basic military training at Lackland Air Force Base, Tex.

The son of Mrs. Ann L.

Busbee, San Angelo, Tex., he is a 1960 graduate of the May High School, May, Tex. He attended the Southwestern State College, Weatherford, Okla., and received his Master of Science and Logistics Management Degree in 1974 from the Air Force Institute of Technology.

Ferguson is married to the former Sylvia Sue Glenn, daughter of Mrs. Grace O. Glenn, Vaughn Ave., May, Tex. He is a member of Sigma Iota Epsilon and the Society of Logistics Engineers.

While assigned to AFMMFO, Ferguson and his wife are living at 209 Challendon Drive, Walkersville, Md.

Results Of Saturday's Election

All Sports Banquet Slated For April 25

ALL SPORTS BANQUET
APRIL 25

The All Sports Banquet is one of the main attractions each year at Rising Star High School. This banquet is designed to honor each and every athlete at Rising Star High and it is open to the public. The tickets are \$2.50 and

if you are interested in coming plan to purchase one now! The banquet is put on by the RSHS Cheerleaders, and one is assured to have a good time.

Coach Southall, Brownwood assistant coach, is to be the speaker. Come if you can and catch all the fun!

Newly Elected Councilman

New councilmen were introduced to numerous problems facing the City of Rising Star in the immediate future.

The regular meeting of the city council was held Monday night, April 4th, with current councilman present under the supervision of Mayor C.M. Carroll. Members present were: Elgie Crisp, Lane Wells, Walter Richburg, and Bill Medley.

The results of Saturday's election were canvassed at this time and approved. Following their order, Mayor C.M. Carroll administered the oaths of office to the incoming Mayor and City Councilmen.

Once the new members were installed, business on the agenda was handled by the group. Members of the council were appointed to work with various departments in the city. They are as follows: H.L. Killion-Sanitation, Weldon Lee-Police; W.A. Richburg, Street; F.B. Joyce- Gas; and Franklin Cox-Water.

It was agreed to send a representative, John Lee to the Gas Pipelin Safety Seminar to be held in Arlington April 28 and 29th and report back to the council.

The council instructed the Mayor to proceed with written requests to the "Local Planning Assistance Program" office of Governor in conjunction with planning done by Nat. Conner, project co-ordinator.

A report was given by Walter Richburg on the progress of the sanitary landfill.

A motion was made to increase gas meter deposits on rent houses from \$15 to \$25 and retain present water meter deposits of \$15 thus making it a \$40 deposit for both meters. People owning their own house will still be required to post only a \$5 deposit on water and \$5 on gas.

The council voted not to renew the gas contract on the Crowmover well but will try to negotiate new terms by June 30, 1977 with owners.

A motion was made to approve a 5c increase in transportation cost to Odessa Natural motion carried. There being no further business, meeting adjourned.

Jaycees Install New Officers

Newly installed officers and directors are pictured above with Mattie Fay Dixon who presented a most enjoyable program. Front row:

David Pollock, Randy Golston, Jim Williams, Mattie Fay Dixon, and Morris Delong. Back Row: Scott Felker, Tommy Pernell, and Charley Moore.

Jaycees receiving Outstanding Awards were: Scott Felker, Morris Delong, David Harris, Jim

Rutherford and not pictured are David Tharp and Ray Daniels.

Thursday evening, March 31st was the date of the 3rd Annual R.S. Jaycee Banquet held in the high school gym.

A delicious dinner consisting of Bar-B-Que and all the trimmings was catered by the Junior Class of Rising under the sponsorship of Frank Gray and Mildred Housnel.

Guest speaker for the evening was Keith Kainer, Charter President of the Stamford Jaycees in August of 1974-approximately the same time Rising Star was in the process of organizing their division.

Some of Keith's honors include: Outstanding new Jaycee in Area, 1974; Outstanding new Jaycee in district; Outstanding National Director 76-77, Presidential Award of Honor; nominated to Outstanding Young Man of America and Area Vice-President for Area I, Texas Jaycees for 1977-78.

In the absence of James Evans, Jimmy Rutherford Vice-President of the First State Bank presented outstanding Jaycee Awards to the following people: David Tharp, Scott Felker, Jimmy Rutherford, Ray Daniels, Morris Delong and David Harris.

Sam Justice was awarded a plaque for all the many services provided in connection with narrow projects for community and improvement especially the Little League Organization.

Entertainment was provided by Mattie Fay Dixon, First grade teacher at Cross Plains. This was one of the best in the area in a good while. Thanks to Ms. Dixon for coming on so short a notice.

The officers and directors for the 1977 year were announced by David Pollock and installed by Keith Kainer. They are president Randy Golston; Internal Vice-President-Charley Moore; External Vice-President-Jim Williams; Secretary-Treasurer-Morris DeLong; State Director-Scott Felker and Director-Bobby Burns, Tommy Pernell and David Pollock.

Outgoing officers are President David Harris; David Pollock and Secretary-Treasurer-Ray Daniels.

Keith Kainer from the Stamford Jaycees, guest speaker for the evening.

Decoration committee consisted of Sharolyn Cox, Mrs. Shirley Daniels, Susie DeLong and Shelly Bailey.

RPRS Changes Meeting

The Retired Persons of Rising Star met Tuesday, March 24th at 11:30 a.m. for a covered dish luncheon with 38 present.

The opening prayer was led by Mr. Earl Fussell.

Guest speaker for the evening was Brother R.D. Williams of the First Baptist Church. He spoke from the book of Joshua Chapters 3 and 4. Included in his topic were "What kind of person am I?" "What kind of gestures do I have?" and physical strength - "what am I to do?" He stressed that with the love of God, in this organization, we have a great opportunity to help ourselves and others.

Travis Williams, President of the Rising Star Chamber of Commerce spoke on plans for improving Rising Star and offered to help in any the Retired People way he could.

Mrs. Ruth Cartee, Cisco Junior College Senior Citizen Co-Ordinator told of plans she had for the Rising Star Retired Persons.

Music was provided by Mr. Bryant Houston and Mrs. Nell Maynard. The group sang several songs.

In a short business session, it was decided to change the date of the meeting from Thursday to Tuesday at 2:00.

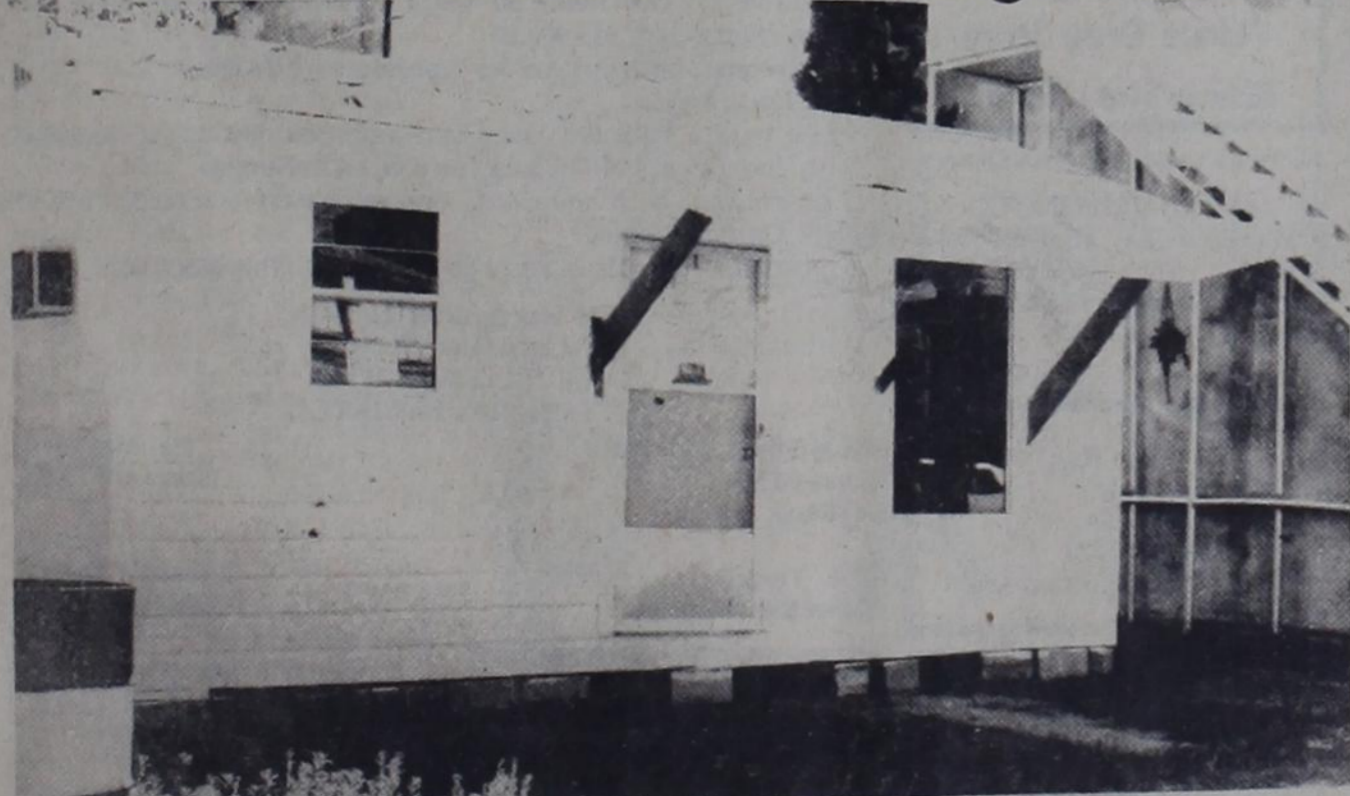

Our thanks to all who donated to our love fund, to Mrs. Bobeen for the gift and the May Home Demonstration Club for the couch.

Those needing transportation may call 643-5131, 643-3341 or 643-4781.

Five Lunches were taken to shut-ins. One correction - we are the Retired People of Rising Star and not members of the Green Thumb of Texas AARP as of yet.

Come join us next Tuesday.

Shults Plans To Move Farm Bureau Office To Rising Star

Future sight for Farm Bureau Insurance Co. to be operated by Jack Shults.

Moving day was last Wednesday here in Rising Star for a soon to be opened business. Jack Shults, who is an agent with the Eastland Farm Bureau, located in Eastland, has purchased the lot located between Higginbothams and Palace Drug store and also bought the building formerly used by Don Hosch with Star Monument. He move it to this

lot and plans to open a branch office in Rising Star. Jack also plans to move his family here as soon as plans are finalized.

Jack Bibby, who moved the building had a few problems early in the morning of moving day as a tree located on the back part of the lot, prohibited entry from that direction. The building was eventually backed with great success down Main

Street and positioned with perfect accuracy between the buildings.

More information on the opening will be available at a later date.

SENIOR NEWS

Well this is another week but at least it is a short one. We get out Friday and Monday for Easter. Next week will be six weeks tests and then we'll only like one more six weeks. The U.I.L. play won first in district competition last week and will advance to regional. Several other people will also go to regional in U.I.L. events. In English we are doing informative speeches and many of us are not doing to good. In first aid we are practicing artificial respiration. Don't forget about the Little Miss pageant in May and those of you who are interested contact Pam Hill. For the Senior Trip the Seniors are going to Red River, New Mexico and they are still making plans for that. I guess that's about all the news this week. Everyone have a happy Easter. See you next week.
 Pam

R.S.H.S. NEWS

Confusion..Confusion! Are we coming or going? It is getting to where it's hard to tell. Everyone once in awhile one even forgets which class B next. Nearly every student is either in One Act Play, which was a winning district play, Tennis, Golf, track, UIL events, or planning to try out for cheerleader April 25. But because everyone is busy school seems to be going faster and the days on our count down calender are getting less and less. Well, I know there is something that I need to be doing so until next week.
 Have a nice day!
 Pam

SOPHS

Hello folks! How is the world out there today? Well, the school world is o.k. The Sophs are going to have a bake sale. It is going to be Friday, 8 of April. We would appreciate, if all of you would come by and help us. We really need the money. There are going to be all kinds of goodies like cakes, pies, cookies, and brownies. With Easter coming up you could really save alot of baking in those hot kitchens. Well I guess that's all for now folks. See ya at the bake sale.
 Belinda

RAH! RAH! RAH!

The All Sports Banquet date was set for April 25th. Everyone is invited and we will be selling tickets for \$2.50. Be sure to get one. We are having a bake sale April 16 and we would like everyone to come and help the cheerleaders raise money for the All Sports Banquet.

Rising Star Wins One Act Play Competition

High School U.I.L. Play Art Winners Right to Left: Carla Bowers, Marc Wilson, Martha Casey, sponsor for group, Kirk Rust, Shelly Gray, and Nicky Newbury.

On Thursday, March 31st, the cheers almost lifted the roof of the auditorium of Gorman High School as it was announced that Rising Star had won the UIL one Act Play competition for our district. Besides the honor of being selected the top play, the evening found all of our cast being honored for their performances. Carla Bowers and Shelly Gray were selected to the All Star Cast and Nicky Newbury, Kirk Rust and Mark Wilson were selected as Honorable mention All Star Cast. The stage crew, Bryan Ezzell, Pam Hill and Toby Chambers, were also honored for their part in the production. We competed against four other schools. The second place school was tolar with Carbon, Gorman and Strawn following with third, fourth and fifth places. The play Rising Star presented was the Sandbox by Edward Albee.

It is a contemporary drama with a meaningful theme centered around the way we treat the aged in our society. The play is now eligible to go on to area competition later in the month. It is hoped we can present a school and community presentation before that time to give people an opportunity to

see these fine young people perform. The cast and crew would like to take this opportunity to thank everyone who helped them to give the performance they did in competition, especially Mrs. Kay Gray, who has helped so much and Mr. Mike Davis who supplied our music.

Crew members were Taby Chambers, Bryan Ezzell and Pam Hill.

Eris Ritchie Announces Resignation At CJC

Eris Ritchie, who has been Public Relations Director at Cisco Junior College for the past nine years, has announced his resignation from the college administration, effective at the end of the current school year, on August 30, 1977.

Mr. Ritchie has stated that his intentions are to devote full time to his business interests. Additionally, he said that he planned to try to spend more time with his family, and to also devote added time to a church-related project for which he is currently serving as a volunteer.

Ritchie came to Cisco Junior College in January of 1968 as Public Relations Director. In September of that year he began directing the CJC Band and coordinating activities of the Band and Wrangler Belles Drill Team, while still being in charge of the P.R. office. In 1973 he ended direct involvement with the band, but has remained as Band-Belles Coordinator up to the present time.

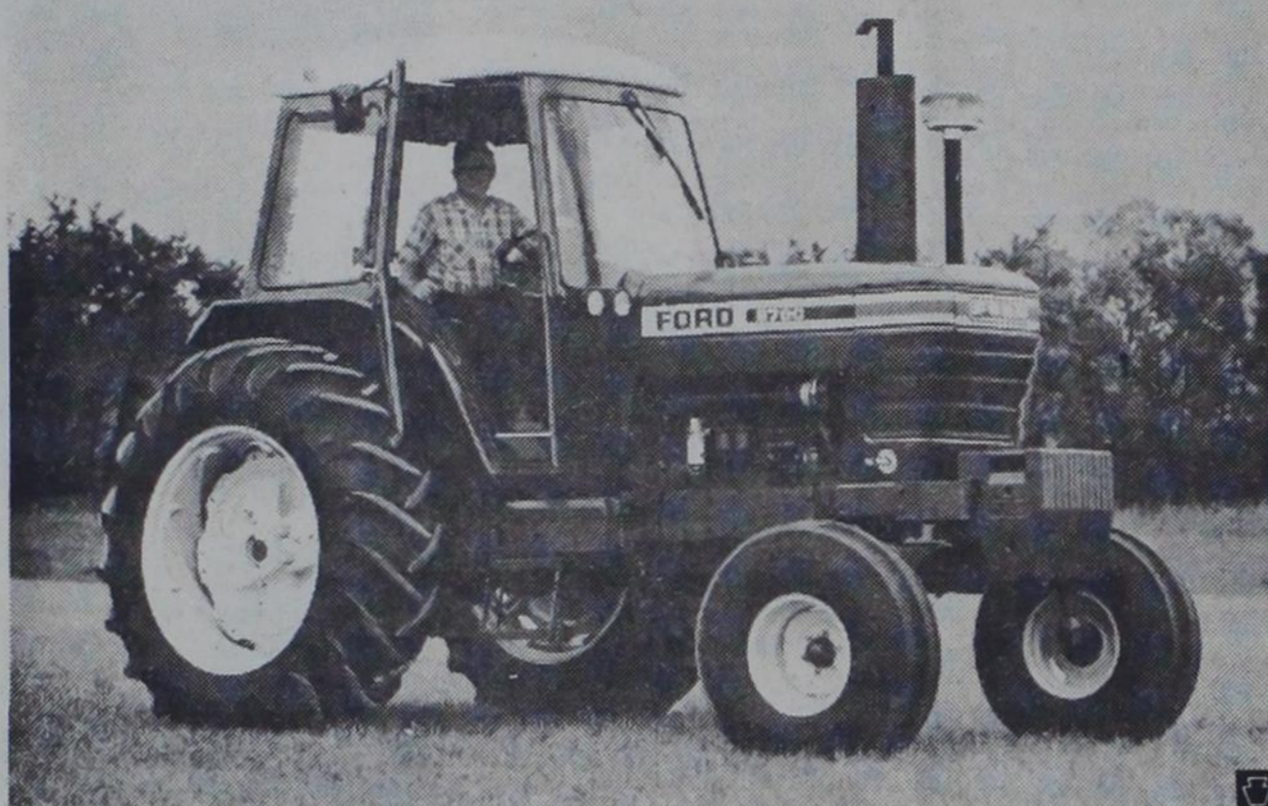

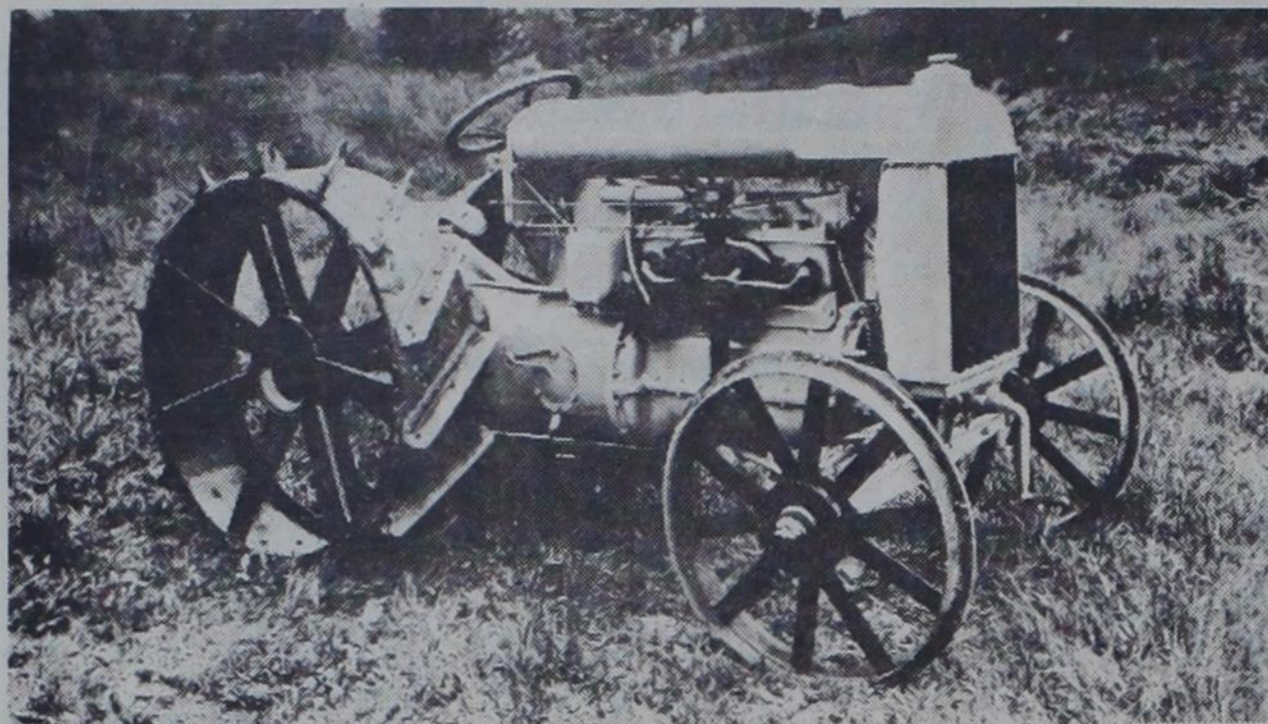

In his letter of resignation to CJC President Dr. Norman E. Wallace and the college's Board of Regents, Ritchie stated, in part: "During almost ten years of service for CJC, I have had the pleasure of working with some of the very finest people in the world, particularly in regard to all of those currently serving on our administration, faculty, and staff, as well as the Board of Regents. It has been both enjoyable and rewarding to be a part of the college family during a period of growth, and also during a time when CJC has

become recognized as a leader among the community colleges of this part of Texas. And of course there has been a tremendous amount of satisfaction in seeing the college become nationally known through our band and Wrangler Belles."

He continued, "May I assure you that my leaving the college in no way indicates a dissatisfaction on my part with anything at all regarding my position here. I simply want to devote more time to my business interests, to some free-lance public relations and promotional work, to my family, and to the Eastern European Mission program, for which I am currently doing volunteer work."

Dr. Wallace, speaking for the college, stated, "During the nine years that Mr. Ritchie has served Cisco Junior College, he has been an important part of the institution's growth and development. Some of his more important contributions have been in relation to the CJC Band and Wrangler Belles. He has promoted and coordinated two appearances in the Macy's Thanksgiving Day Parade in New York and is now in the process of making plans for the band and Belles' third appearance at this year's parade. The two groups also have appeared in a Dallas Cowboy football game and the Belles were featured in the nationally televised "Stars and Stripes Show" in 1975. Mr. Ritchie's accomplishments have been appreciated by the college and his service will be missed, but we wish him well in his new endeavors."

There've Been Some Changes Made

Modern farm tractors bear little resemblance to their small, hard-riding, steel-wheeled ancestors. An evolution of more than half a century has produced Ford Tractor Operations' new Model 8700 agricultural tractor which features factory-installed all-weather cab, modern styling and 110 horsepower six-cylinder diesel engine. Citizens Band and AM-FM radio, tilt steering wheel, power brakes and steering, heater and air conditioning now are among many options available to purchasers of farm tractors.

The Fordson tractor (top) was introduced in 1917. Ford's first mass-produced tractor — a pioneer in its time — helped to speed transfer of human and animal power previously used to raise food and fiber to modern and efficient agricultural machinery.

Dr. Wallace also stated that Mr. Ritchie, although officially leaving CJC in August, had nonetheless agreed to handle all arrangements for the band and Belles' November trip to New York for the Macy's television appearance.

Ritchie was band director for the Cisco Public Schools for nine years prior to coming to CJC in 1968, and he taught band in the Trent, Texas Public Schools for two years previous to that time. He holds a Bachelors and Masters Degree from Abilene Christian University.

He is a native of Athens, Alabama, and he grew up in Troup, Texas where he graduated from high school. He is married to the former Annita Hartsell, also a ACU graduate, and the Ritchies have three children—Matthew, age 12; Robin, age 8; and Holly, age 2. They are expecting a fourth in August. They are members of the church of Christ, and reside at 1307 Park Drive in Cisco.

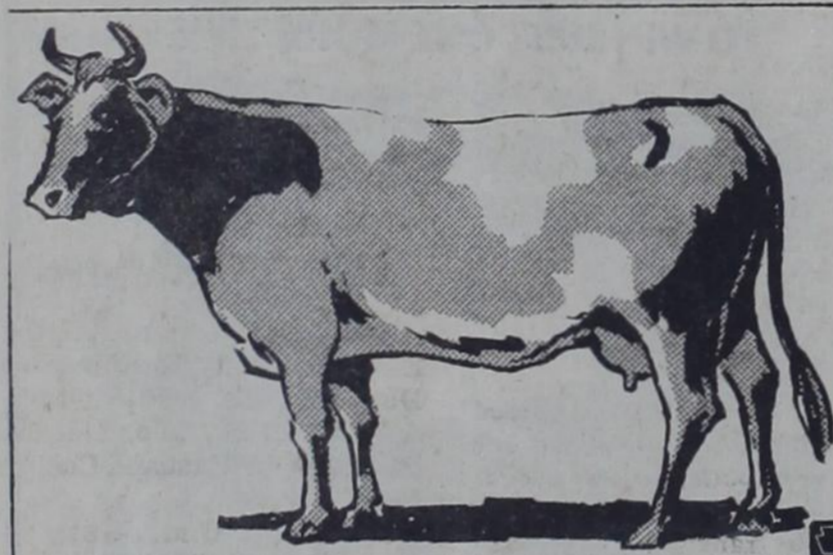

Mr. Ritchie has been active in civic and church affairs during the eighteen years he has lived in Cisco. He is a past president of both the Cisco Chamber of Commerce honored him as Cisco's "Citizen of the Year." He is a song leader and chairman of the World Bible School program for the Cisco Church of Christ, and is president of his alumni class in Abilene Christian. He has been listed in *Who's Who in the*

South and Southwest for the past several years.

The business interests to which Mr. Ritchie plans to devote more time include a women's retail store, an embroidered emblem business, several privately-managed summer camps, and a distributorship for a nationally known home products company.

Cows' Bodies Now Heat . . .

Water On Dairy Farms

A long-neglected energy source is now being tapped on dairy farms around the country.

It is clean energy, and best of all, it is free!

The energy comes directly from the cows themselves in the form of body heat.

Milk, when it comes from the cow, is about 98.6° F. It must be cooled quickly to about 38° F. to prevent spoilage. What happens to the heat that is extracted from the milk?

In the past it has been blown into the air from the

bulk milk cooler's air-cooled condenser. Now, however, it can be used to heat water.

Equipment to do just that is being manufactured by Dairy Equipment Company, division of DEC International, Inc., Madison, Wisconsin. It is called the Darl-Kool

Therma-Stor energy recovery system.

In this system, the bulk milk cooler's condenser is cooled with water, rather than air. The water is thus warmed and is stored in tanks in the milk house. The water can be used for cleaning the milking machine system, the milking parlor and the milk house itself.

For every gallon of milk cooled, a gallon of 110° water is produced. The Therma-Stor can also produce water of 140° to 190° for washing the milking machines and cooler.

The payoff comes when the dairyman receives his electric bill. The new energy recovery system can pay for itself within two years, just from the reduction in use of electricity.

The Therma-Stor can also be used in butcher shops, supermarkets, air-conditioned restaurants and other places that use both refrigeration and hot water.

Three From May Named To All-State

JERRY NEWMAN
...first team

Four players from state champion Marathon and three from runnerup May make up more than half of the all-state six-man football team released today by the Brownwood Chamber of Commerce.

Players from the two finalists make up the entire first team offense. Phil Mitchell, May's record-shattering halfback, is the only repeater and Marathon's Ben Rameriz is the only player to make the first team both offensively and defensively. Rameriz was selected as a halfback on offense and linebacker on defense.

May's other first team selections were end Jerry Newman and linebacker Jay Edwards.

Mitchell is the unofficial all time scoring champion of Texas high school football after tallying 61 touchdowns last fall despite playing less than a half of some games.

The 5-8 160-pound buzzsaw had 16 touchdowns in three playoff starts.

Newman may be the best end in 6-man football, May coach Grayum Hart said last season. The all-state pickers agreed. Edwards was a head-hunter in a May defense that scored a bundle of touchdowns and gave the Tiger offense good field position all season.

Central Texan named to the second team were quarterback Phil Hickman and end Steve King of Mullin, linebackers David Hale of Talpa and Mark Theatt of Mozelle and back Steve San Miguel of Cherokee a first team choice last season.

Sandwiches That Stack Up

Sandwiches made with Peanut Pan-anana Bread add flavor and nutrition to lunches. The addition of peanut butter adds the nutritional bonus while a subtle hint of banana enhances the flavor. Jelly, cold cuts, apple butter and egg salad are a few flavormates for this unique bread.

Peanut Pan-anana Bread

Yield: 2 loaves

3/4 cup Peter Pan Peanut Butter, Smooth	3/4 cup mashed bananas (about 2 bananas)
2 packages active dry yeast	1 egg
1/3 cup warm water	1 cup milk, scalded and cooled
1/2 cup packed brown sugar	1 1/2 teaspoons salt
	6 to 7 cups flour

Dissolve yeast in water and let set until bubbly. In large bowl, beat together peanut butter and sugar until creamy. Stir in bananas, egg, milk, dissolved yeast and salt. Blend well. Add 2 cups flour; beat well. Stir in enough additional flour to make a stiff dough. Turn onto a lightly floured surface; knead about 10 minutes, adding enough flour to keep dough from sticking. When smooth and elastic, place in large greased bowl; flip so surface is greased, too. Cover loosely and let rise in warm place (85 degrees) until double in bulk, about 1-1/2 hours.

Punch down dough and divide in half. Cover and let rest 10 minutes. Roll out each half into a rectangle about 3/4 inch thick. Wrap like a jelly roll, tightly sealing together the seams. Place in loaf pans, 9 by 5 by 3 inches. Cover and let rise again until double in bulk. Bake in 350 degree oven 40 to 45 minutes. Cool 10 minutes before removing from pans.

ARE YOU UP ON NUTRITION?

Whether you're cooking for a big family, a small one, or just for yourself—it's important to plan nutritious, well-balanced meals.

To focus your attention on this very vital part of everyone's life, the first week of March has been designated National Nutrition Week.

How can you be sure you're serving nutritious meals? First, you have to know generally the basic needs of the human body. For this you learn about the Basic Four Food Groups of bread and cereals, fruits and vegetables, meat, fish, poultry, and eggs; milk and milk products.

In the second place, you have to have specific nutritive information, which you can get from the labels on many food products. For instance, the labels for rice tell you that rice has only 100 calories per 1 ounce or about 1/2 cup serving, but that it also contributes protein, iron, thiamine, and niacin to the diet.

Since rice is frequently combined with other foods, its nutritive contribution enhances that of the other foods in the combination. The result is a casserole, side dish, or dessert that is more nutritious than any of the foods alone would be.

The following recipe for Casserole Beef Olé is a good example. The protein of the rice teams up with that of the pinto beans; the B-vitamins of thiamine and niacin add to that contributed from the cheese and so on.

BEEF CASSEROLE OLÉ

- Quick to fix and just right for the family on-the-go...
- 1 lb. ground beef
 - 1/2 cup chopped onion
 - 1/2 cup chopped green pepper
 - 2 clove garlic, minced
 - 2 cans (8 oz. ea.) tomato sauce
 - 2 teaspoons chili powder
 - 1 teaspoon salt
 - 3 cups hot, cooked Carolina or Mahatma Rice
 - 1 can (15-16 oz.) pinto beans
 - 1 cup crushed corn chips
 - 1 cup shredded American process cheese
- Brown ground beef and drain excess fat. Stir in onion, green pepper, and garlic. Continue to saute until vegetables are tender. Blend in tomato sauce, chili powder, and salt. In lightly buttered 2 quart casserole, layer the cooked rice, pinto beans, and meat sauce, beginning and ending with the meat sauce. Sprinkle with corn chips and bake at 350°F. for 15 minutes. Sprinkle with shredded cheese and bake an additional 5 minutes. Makes 8 servings (about 1 cup each).
- Beef Casserole Olé is in a collection of 50 recipes printed on handy index cards in five colorful card file folders for Entrees, Casseroles, Side Dishes, International and Desserts. You can have a set by sending 50 cents to Carolina/Mahatma Recipe Offer, P.O. Box 55019, Houston, Texas 77055. An attractive Recipe File Box can be had by sending \$3.25 to the same address.

New Horizons

Did you realize that 23 million Americans have high blood pressure and only half of them know it? I thought there had been so much publicity about the need for adults -- particularly older ones -- to have regular blood pressure checks that everyone recognized the potential danger of high blood pressure and how easy it is to find out whether you have it.

Blood pressure checks are offered free at many clinics and by health maintenance organizations. Some cities have mobile test centers that locate in different areas of the city on different days. Large corporations and department stores sometimes have free blood pressure check stations. Call your United Way or Citizens Information Service to find out where these checks are offered in your city.

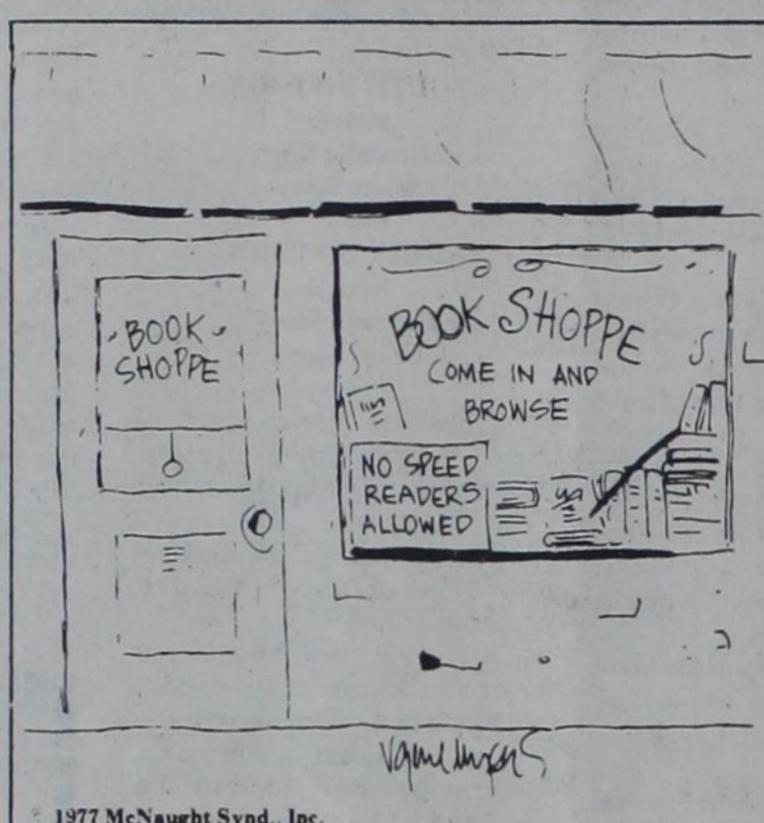

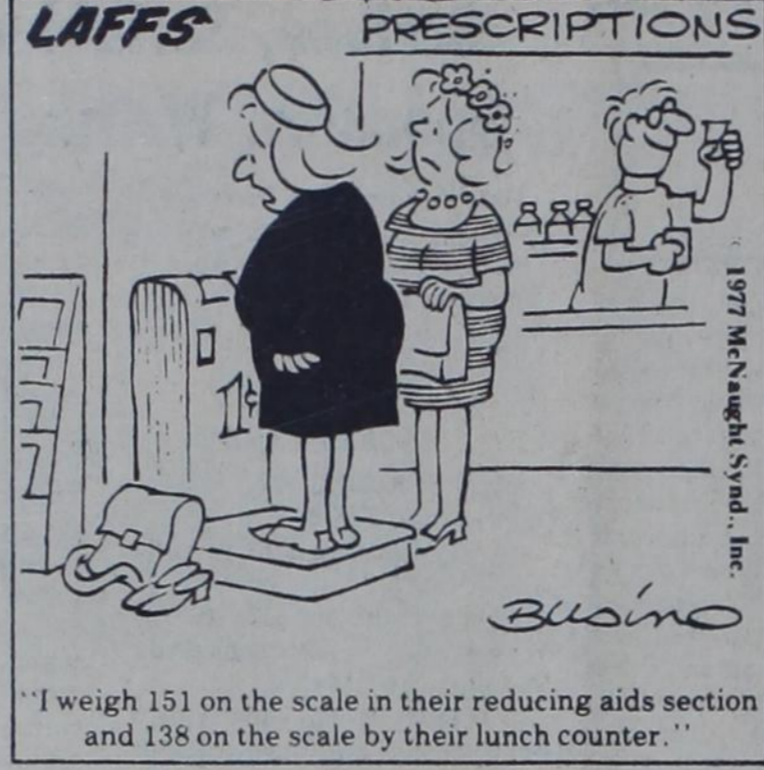

Other rules which doctors recommend to reduce chances of a heart attack are: (1) Keep your weight down. (2) Control your cholesterol intake, especially if you are over 55. (3) Cut down or quit smoking. (4) Get adequate exercise. Exercise which improves the pumping action of your heart is what you want. (5) Avoid undue stress. If you are under stress which you cannot avoid, be sure you get enough rest.

Would You Believe...

The loss to the U.S. economy because of the common cold is about \$3 billion a year.

The world's total of languages and dialects is now estimated to be about 5,800.

The skin is by far the largest single organ of the human body, weighing about 16 per cent of the total body weight.

FITTING NEW STYLE PANTSKIRT

The pantskirt is sure to be a winner. Simplicity's entry in the field is feminine plus the comfort of pants. It's paired with an equally smart unlined jacket.

As the pantskirt is designed for woven fabric, the pattern may look a little roomy, if you're used to making pants with knits. A certain amount of ease was incorporated. However, as there's not a modicum of stretch, double check the crotch fit. Here's a review:

While seated on a hard surface chair, have a friend measure from your natural waistline to chair. Place the short side of a triangle on the lengthwise grainline of the front pantskirt pattern. The point of the long side of the triangle should intersect the seams that join at the crotch. Draw a horizontal line from grainline to point. Flip the triangle and extend line across pattern.

With a yardstick placed along the side seam, measure from waist seamline to horizontal line, which you drew. Compare this with the measurement taken while seated, plus half an inch ease if you are a small size, or one inch, if medium to large.

If your measurement plus the ease is less than the depth of the crotch as marked on the pattern, take a tuck in the tissue on the adjustment line to shorten it the corresponding amount. Tape paper under the crotch and redraw curve.

If your measurement plus ease is more than allowed for in the pattern, slash pattern along adjustment line. Spread the amount needed and tape over paper. Here again, adjust the crotch curve line.

The crotch seamline is something else again. While standing, pin the end of a flexible measuring tape to the waist at center front. Bring it under the body and up to the waistline center back. This measurement is the crotch seamline.

Spread flat the adjusted front and back pattern sections and pin together at the adjoining crotch seamline. Stand a tape measure on edge and measure this "u" curve, being sure not to include the seam allowances. This pattern measurement should be equal to that of your standing crotch seam measurement plus three inches.

MAGICWORD

HOW TO PLAY: Read the list of words. Look at the puzzle. You'll find these words in all directions -- horizontally, vertically, diagonally, backwards. Draw a circle around each letter of a word found in the puzzle then strike it off list. Circling it will show a letter has been used but will leave it visible should it also form part of another word. Find the big words first. When letters of all listed words are circled, you'll have the given number of letters left over. They'll spell out your MAGICWORD.

MEDICINE CHEST

by H. BOSWELL YORK, R. PH.

What drugs are used to treat gout? -- B.F.

The drugs are varied. One group of drugs is used primarily when a person has a tendency for gout. Benemid, anturane and zylprim are examples of this group. Another group is used primarily when gout flares up. Indocin, colchicine and butazolodin are used in this case. All of the above medicines are very powerful, and should only be taken by persons who see their physicians regularly.

Is it true that cell transplants for diabetes treatment have been performed on man? -- I.T.

Yes. A Minnesota surgeon has successfully injected a solution of insulin cells into diabetics. Seven volunteers participated in the initial trial. One of the seven obtained a substantial reduction in the amount of insulin required. It will still take 4 to 5 years of research to perfect this technique.

What causes a hangover? -- C.L.

Latest thinking on the "day-after" feeling is that it's caused by methanol -- that's right -- wood alcohol. Findings by researchers at the National Institute of Alcohol Abuse and Alcoholism indicate that drinking booze leads to an accumulation of wood alcohol which persists after the drinking stops.

KITCHEN BEAUTIFIERS --- Here's a prescription for your dull, spotted kitchen appliances. Borrow your husband's favorite paste car-wax and apply as directed. It cleans as well as polishes and a little buffing will restore the appliance to its original beauty. Also helps keep it that way longer!

EGG EXTENDER --- When preparing breakfast for a large group, add bread crumbs to your scrambled egg mixture! This not only makes the eggs go farther, it gives them a good flavor also.

KEEP COOL --- Heat, especially in the winter, is hard on hair. If you use a hair dryer, set it on the lukewarm setting and keep it constantly moving. The minute your hair feels dry enough, shut off the dryer. Split ends are often caused by direct heat.

BOSTON BEANY --- A sandwich kids will love! Lightly butter a slice of Boston Brown bread, cover

generously with hot baked beans and a thick layer of shredded cheddar cheese. Top with a bacon slice and broil slowly until cheese melts and the bacon crisps. Delicious!

ALWAYS PREPARED! --- Retrieve one of those old purses headed for the discard bag and make it into a permanent first-aid sewing kit for your car. It will fit easily under the back seat and you'll be prepared for all minor emergencies!

SHARP TRICK --- Did you know candy will not boil over on the stove if you put a knife across the center of the pan?

WARMING TREND --- Eggs will cook better if they are warmed to room temperature. Try to remember to remove them from the refrigerator three or four hours before using.

THE PERFECT DRINK --- Your house plants should be watered with warm tap water that has been let set for a day or so to reach room temperature. Don't water too often. A plant must be able to dry out before each watering.

CREATIVE CACTUSERY

There are more than 2,000 varieties of cacti in the world. By selecting two varieties and grafting them together, chances are you'll create a cactus plant that's one of a kind.

Cactus grafting is quite easy. Top grafting is probably the easiest method for the beginner. All you need to do it are two different cacti plants, a clean sharp knife and some rubber bands.

The cactus to be grafted onto the top is called the "scion." The bottom plant is called the "stock." Cut the top part of the stock off with the knife. Allow this piece to dry for about three days and then root it in moist sand to make another plant. Inside the cut stock is an area called the

growth column and this must be just about the same size as the growth column within the scion to be attached. Cut a top section from the plant you wish to become the scion and try to match up its growth column with that of the stock. Additional cutting may be necessary to equalize the diameters of the growth columns of both plants. When you have matched sizes of the inner growth columns, simply place the scion on top of the stock and hold it there by putting a rubber band over the top of the scion and down under the pot -- not too tight, use string if the band will not stretch sufficiently. As soon as cut sections heal, the two plants will grow together and you'll have a unique and original cactus plant.

Care for cactus as usual but never allow the grafted section to become wet or damp or it will rot.

SPORTS from the pressbox

By RED LAKELAND

HOTLINE ON SPORTS

Watching sports events on television can preserve your mental health, a Chicago doctor believes. It serves as a healthy outlet for accumulated aggression, reports Dr. Zenonas Danilevicius in the Journal of American Medical Association. The activity is known as "toot-toot" therapy, comparing a person with pent-up emotions to a locomotive that lets off steam by blowing its whistle. The TV sports fan releases emotions by yelling and cheering. The doctor advises TV viewers to add "health to boot" to the "toot-toot." Sitting in an easy chair can lead to obesity. "Walk at least a dozen blocks a couple of times a day," he warned. "Do some calisthenics and physical work around the house." The physician is so concerned about some people's lack of exercise that he suggests that he battled with the same amount of effort that is used to combat crime.

SPORTS IN BRIEF

The team with the poorest attendance record in the National Football League last season has raised the price of tickets for next season. The price of general admission tickets for home games of the San Diego Chargers went from \$4 to \$5. The \$7 seats jumped to \$8.50, the \$8.50 ones to \$10 and \$13 tickets to \$15.

TEXACO Have A Nice Day

Official Memorandum

By
DOLPH BRISCOE
Governor of Texas

GREETINGS:

AUSTIN, TEXAS

Our State's greatest resource is its people and volunteering of one's time and talents is an integral part of our State's vitality and is essential to its spirit and well-being.

Volunteers demonstrate their concern by sharing their time.

Volunteerism directly reflects the democratic principles upon which this Nation was founded that everyone can volunteer and by so participating contributes to the general welfare.

We are constantly seeking even more contribution of human resources in volunteerism and better application of these valuable contributions.

THEREFORE, I, as Governor of Texas, do hereby designate the week of April 24-30, 1977, as

TEXAS VOLUNTEER RECOGNITION WEEK

to be observed in conjunction with National Volunteer Week, and urge all Texans to renew and sustain the spirit and vitality of our great Nation by volunteering.

In official recognition whereof, I hereby affix my signature this 14th day of March, 1977.

Dolph Briscoe
Governor of Texas

your national parks Right Around Home by ben moffett

Add "wilderness" to the words used to describe Banderliel National Monument, that 46-square-mile enclave of natural, historical and archeological charm in north central New Mexico.

In late 1976, the President signed a bill giving wilderness status to 23,267 acres or about 79 per cent of the monument.

The only parts of the monument excluded from wilderness are a strip along the Rio Grande, the developed area in Frijoles Canyon where the visitor center is located and a strip along New Mexico 4 containing the parks campgrounds.

The new designation will not substantially alter the visitor use of the monument since the area designated as wilderness has always been managed as such.

But it will ensure that Banderliel's back country will remain in its primeval condition for future generations of Americans to enjoy.

Banderliel was proclaimed a national monument in 1916 to preserve the ruins of pre-Pueblo Indian civilizations. And hikers into the wilderness can enjoy 60 miles of trails

Niece Of Ed Witt's Music Therapy Major

BY LYNNE MESSINA
Staff Writer

Because ancient Greeks and American Indians acknowledged the healing power of music, music therapy, or the use of music in healing, is an old practice, says Angelyn Frankenberg, McMurry College's "undercover" music therapy major.

The 21-year old senior explained that Greeks used music to heal the mind and the soul and "to evoke mental reactions" in the citizenry.

Indians used music in healing rituals.

degree with a double major in music and social welfare.

She feels she will learn more through her double major than in any single major program.

"I love music, but I did not start out as a music major. I was a social welfare major and taking piano on my own with Dr. Alan Karpel," she said. She also mingled in English for a while.

Dr. Karpel convinced Miss Frankenberg that she could succeed as a music major.

"I thought about being a performer, but I decided that even if I could I didn't want to. That kind of life to me would be very limiting," she said.

"That doesn't mean I never want to perform," she added, smiling.

A native Abilenean, Miss Frankenberg said she had planned to attend McMurry for only one or two years.

However, she said, "I liked it; I liked the atmosphere of a small college. I couldn't do what I'm doing if I couldn't work closely with my professors."

She said she would like to leave Abilene "for a little while, just for the experience" and to obtain a master's degree in music therapy.

Miss Frankenberg's double major at McMurry has required some juggling of requirements.

For example, because she will not receive a degree in music, she can skip some advanced music theory courses.

Miss Frankenberg's double major at McMurry has required some juggling of requirements.

On the other hand, carrying a double major will mean doubling some credit hours.

Though she will finish college with "a lot more than the average" number of credit hours, she will not receive her degree for another year.

Asked if her music and social welfare courses ever conflict, she replied, "Yes, because music is so much practice. Music theory has been a humbling experience because it takes a lot of time and a lot of work."

A former Head Start volunteer, Miss Frankenberg hopes to do field work involving

some music therapy this summer.

Angelyn is the daughter of Mr. and Mrs. A.H. Frankenberg of Abilene and a niece of Mrs. Ed Witt of Rising Star.

CHRISTIAN FELLOWSHIP CHURCH SPRING HATH SPRUNG

We are living in a glorious day! Not only has Spring come to us in the natural, but it has come to us in the spiritual realm. "My beloved spake, and said unto me, Rise up, my love, my fair one, and come away. For lo, the winter is past, the rain is over and gone; the flowers appear on the earth; the time of the singing of the birds is come, and the voice of the turtle is heard in our land." Song of Solomon 2:10-12

Churchdom will be celebrating the resurrection of Jesus Christ. There will be Passion plays, literature and sermons on His complete victory over death, hell and the grave. Then, after the Easter season is over with, Christians will once again return to their beds of slumber and sleep. The resurrection should mean more to us than a historical factor. It should be a living reality each and everyday.

Paul the apostle said, "And HATH raised us up together, and made us sit together in heavenly places in Christ Jesus..." Eph 2:6. "Are you enjoying the blessings of this resurrected experience? When heaven is within, then heaven will be without."

Commentary

By Myrtle Owen

"THE LOVE OF GOD"

St. John 3:16: For God so loved the world, that He gave His only begotten Son, that whosoever believeth in Him should not perish, but have everlasting life.

John 16: 27, 28: For the Father himself loveth you, because ye have loved me, and have believed that I came out from the Father, and am come into the world: again, I leave the world, and go to the Father. (St. John 19:14). And it was the preparation of the passover, and about the sixth hour: and he saith unto the Jews, Behold your King! V-15: But they cried out, Away with him, away with him, crucify him. Pilate saith unto them, Shall I crucify your King? The chief priests answered, we have no king but Caesar. (v-16) Then delivered he him therefore unto them to be crucified. And they took Jesus and led him away.

Commentary: 3:16) Jesus came as God's messenger and God's sacrifice, as a "lamb slain from the foundation of the world." The most precious life the world has ever known was surrendered deliberately for your salvation. This life was not merely taken; it was given for you. This is the "Love of God." While we were yet sinners, Christ died for us." Rom. 5:8.

Money To Be Used For Market Building

Mrs. Irene Mayfield, Chairperson of the Arts and Crafts Committee has reported that approximately \$75.00 in proceeds from the sale has

In an article bearing the title Dehorned; Cecil Hook makes some very appropriate observations.

"Even though I grew up on a farm with cattle, I had a healthy respect for their deadly horns. But now we see few cattle with horns. Most of them are dehorned. Now there's little to be afraid of."

There are continuous efforts to dehorn sin so as to take away our fear of it and make it seem not so evil. Marijuana is in the process of being decriminalized. One by one the evils that destroy men and their souls have been decriminalized, such as drunkenness, homosexuality, free sex, and divorce.

Stupid inconsistency glares when we put horns on saccharin, red dye, and leaded gas while dehorning tobacco, marijuana, liquor, and all sorts of moral evils.

"Woe unto them that call evil good and good evil; that put darkness for light, and light for darkness; that put bitter for sweet, and sweet for bitter" (Isaiah 5:20). (End of quote)

What is desperately needed is faith in God to lead us in the right way, to work things out for our good. The lifestyle prescribed by God, and made known in the Scriptures, is not designed for hermits, but for people who want to lead a happy and productive life in the busy stream of life. It is both positive, setting forth what is invariably good, and negative, warning of pitfalls concealed in "alienated" patterns of living. It flows from a God who Loves (desires and works for our good.)

Our Bible classes will help you to know God, his Son Jesus Christ, and his Revelation to us, better. Join us: on Sunday at 9:30 a.m., on Wednesday at 7 p.m., and for the Assemblies on Sunday at 10:30 a.m. and 6 p.m.. Our sick list is a little longer this time, but most are improved. Gene Hill is back home, but still "wobbly". Leveta Scott is back in Scott and White in Temple for treatment of an infection. Mr. Kirby is home and some better. Hazel Pierce was in an auto accident, was bruised and shaken but no bones broken. Kenova Weaver is better. Mrs. Georgia Crossnoe is under treatment in the West Texas Hospital (Room 323) in Lubbock. Helen Jackson has not been feeling too good lately. Mrs. Ora Jane White recently fell and injured her leg, but is much better now. Several others still have the flu.

We are happy to have Mrs. Dale (Elois) Lipsy and Mr. Everette Hutchinson move into our midst; and become a part of our congregation. They both moved here from Brownwood.

An important Board Review of the Equal Rights Amendment is slated for April 13, at 4 p.m., in Austin. Plans are to charter a bus for all ladies who would like to attend this meeting. For information, call Jackie LeBleu at 643-3662. Projected cost is \$15 or less.

May God richly bless you this week and beyond. Call us if we can serve you in any way.

Owen Aikin

First United Methodist Church

This being Holy Week most of us are aware of the transactions that took place during this week nearly twenty centuries ago. The events have been etched deeply in the minds of most of us and we cannot forget them, for as we enter our Churches we are reminded again and again as we face the Cross of Calvary.

Douglas Clyde Macintosh reminds us that the Cross of Calvary means three things. "It has shown us the end result of sin, the death of a man. It reveals also the Grace of God; and it exhibits fundamentally the meaning of discipleship. The evil that lurks in human nature is shown by what it led typical men, respectable business men and politicians and religious leaders as well as the fickle mob to do, in hounding to his death such a one as Jesus, when we see that it was God with Christ and in some sense God working in and through him that kept him steady even unto death in his loving, self-giving service to men, we have our most impressive individual revelation of the gracious attitude of God toward sinful men. An when we see what bearing the yoke of the will of God for the kingdom's sake meant for Jesus as he endured the Cross and all that led up to it and went with it, we get an idea of what it is in principle and what it may mean in practice truly to take upon ourselves his yoke as our way of life."

Said Our Lord, "He that taketh not his cross, and followeth after me, is not worthy of me" Luke 14:27

We of the Methodist Church invite all our friends and neighbors to unite with us in a special service of worship this Easter Sunday. Two opportunities will be provided for you, either the Sun rise Services which will be held at the First Baptist church, or the regular services within our Church at eleven o'clock. We would pray that you would attend both. Further mention of the Sun Rise Service may be seen elsewhere in this newspaper. Come that you may be blessed of God Our Heavenly Father.

What will happen to death? Into a world which had faced death for centuries with only the words of prophets to give answers from God, stepped God himself.

Even Jesus experienced physical death. Only He could proclaim, "I am the resurrection and the life: he that believeth in me, though he were dead, yet shall he live."

The resurrection of Christ does not just prove immortality of the soul, it declares victory over death and the grave. We can now shout, "Where death is your victory?" "Thanks be to God! He gives victory through our Lord Jesus Christ."

Christ rose physically from the grave. He stepped forth and talked with His disciples. He walked with them. He ate with them. He appeared to them and disappeared from their sight as He wished. All of which gives us some insight into resurrection life.

The resurrection is God's declaration to the world that He has provided salvation from sin's penalty and power.

Jesus taught that all who die will have resurrected bodies in which those who refused to receive Christ as Lord and Savior will go to judgement and eternal separation from God; and to every believer, eternal life in the presence of God.

What do you think of the resurrection of Christ? What is your choice today?

Visiting Sunday morning were Mr. and Mrs. Jerry Cook and children Scott, Lisa and Ann Nicole from Arizona.

Sunday morning at 6:30 the Methodist and Baptist churches will have an Easter Sunrise service at 6:30 a.m. It will be held at the Baptist Church. Everyone is invited to this service.

R.D. Williams
Pastor

Implications Of Farm Policy

IMPLICATIONS OF FARM POLICY PROPOSALS FOR GRAIN PRODUCERS -

Carter Administration proposals to raise the corn loan rate to \$2 per bushel while holding the wheat loan rate at \$2.25 would if implemented, tend to encourage feedgrain production relative to the wheat production, says an economist with the Texas Agricultural Extension Service. A 300-million bushel wheat reserve is also being proposed which would be held by farmers under a three-year storage contract. The sorghum target price is being proposed at about \$3.70 per hundredweight while the corn target price will be \$1.75 per bushel.

Did You Know...

LENT, THE NAME GIVEN TO THE FORTY DAY PERIOD OF PRAYER, FASTING AND PENANCE FOR CHRISTIANS IN PREPARATION FOR EASTER, COMES FROM THE OLD ANGLI-SAXON WORD "LENTEN," MEANING SPRING. THE DURATION OF THIS ANNUAL OBSERVANCE, HOWEVER, STEMS FROM SEVERAL EVENTS IN BIBLICAL HISTORY...

MOSES RECEIVED THE LAWS OF HIS PEOPLE FROM GOD DURING A FORTY DAY FAST... ELIJAH THE PROPHET FASTED DURING HIS FORTY DAY JOURNEY TO HOREB TO RECEIVE HEAVENLY ENCOURAGEMENT... AND JESUS CHRIST PROVIDED THE SUPREME EXAMPLE WHEN HE TOO, FASTED FORTY DAYS IN THE DESERT, FOLLOWING HIS BAPTISM BY JOHN.

A FASTING EDICT BY POPE ST. GREGORY THE GREAT IN 604 A.D. BANNING "FLESH MEAT, MILK, CHEESE AND EGGS" STOOD FOR 1,000 YEARS. ROMAN CHRISTIANS MADE LENTEN BREADS WITH ONLY FLOUR, SALT AND WATER IN THE SHAPE OF TWO ARMS CROSSED IN PRAYER CALLED BRACELLAE OR "LITTLE ARMS" IN HONOR OF THE SEASON. CALLED "PRETZELS" IN GERMANIC EUROPE, THESE WERE SOLD BY STREET VENDORS AS LENTEN SNACKS.

CERTAIN FISH, LIKE HERRING, BECAME A STAPLE OF MEATLESS FAST DAYS AND REMAIN A TRADITIONAL FEATURE OF MANY SPECIAL LENTEN DISHES. TODAY, SARDINES FROM MAINE ARE AN IMPORTANT AND POPULAR ADDITION TO ANY LENTEN MEAL BECAUSE OF THEIR VERSATILITY AND ECONOMY, AS WELL AS THEIR CONTRIBUTION OF MAJOR NUTRIENTS TO LENTEN DIETS.

Results of the statewide hunter survey conducted by the Texas Parks and Wildlife Department in that approximately 586 deer were harvested in Eastland County during the 1976-77 hunting season. This consisted of 413 bucks and 155 does. Compared to last year, this represents a 67 percent decrease in total deer kill for the county. An estimated 2,849 hunters hunted in Eastland County with hunter success being about 18 percent.

Scripture Thought Of The Day

Lord, who shall abide in thy tabernacle? who shall dwell in thy holy hill? He that walketh uprightly, and worketh righteousness, and speaketh the truth in his heart. He that backbiteth not with his tongue, nor doeth evil to his neighbor, nor taketh up a reproach against his neighbor.
(Psalms 15:1-3)

★ Deaths & Funerals

Robert Landreth

Services for Robert Alexander Landreth, 99, of Rising Star were held at 2 p.m. Friday at First Baptist Church in Rising Star. Rev. L.A. Sartain is officiated and burial was in Amity Cemetery. Morelock Funeral Home in Brownwood is in charge of arrangements.

Mr. Landreth died at 9:50 p.m. Tuesday in the Brownwood Community Hospital following a one-month illness.

He was born Nov. 25, 1877 in Amity and was a retired farmer. A member of the Amity Baptist Church, he had lived 12 years in Rising Star and was formerly of May. He married Lillie Beard at Amity Dec. 20, 1905. She died in 1962.

Easter SUNRISE SERVICES

First Baptist Church

Sunday Morning 6:30

Services will be held jointly with the First United Methodist Church. Bro. Williams And Rev. Taylor extend a cordial invitation to each and everyone to join in this service.

IMPLICATIONS OF FARM POLICY PROPOSALS FOR RICE GROWERS - Texas rice producers would be adversely affected if the Carter Administration proposals for rice policy are implemented, contends an economist with the Texas Agricultural Extension Service. The Administration desires to lower government costs and move the industry further in the direction of a free market when U.S. rice surpluses are currently at a record level. A rice target price of \$6.75 per hundredweight is proposed for 1978 while the loan rate would remain at \$6.19. An elimination of rice allotments is also being proposed along with a reserve program allowing farmers to enter into three-year farm storage contracts.

Questions on your family's move...

by Alice Bowman
Allied Van Lines
Home Moving Consultant

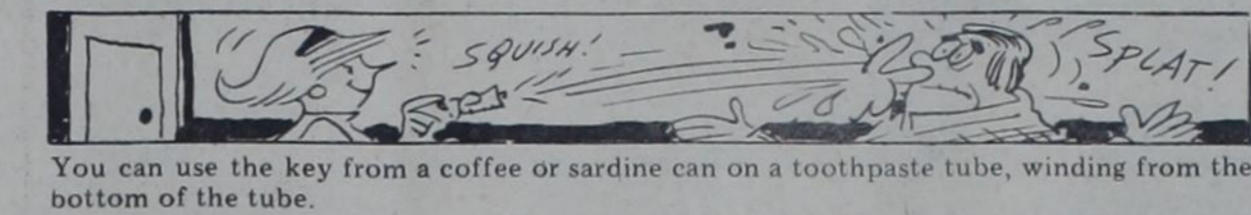

Dear Miss Bowman: How can I make the actual move into my new home easier? Ms. G. P., Atlanta, Georgia.

Answer: Here are a few tips for making the job easier. Be sure the house is ready before the van arrives. It's much easier to clean an empty house than a full one. Decide ahead of time where you want the furniture to be placed. Make sure boxes are pushed into corners of the appropriate rooms; keep them out of the doorways. One last tip, set up your cooking and eating area early, but leave permanent shelf arrangements for a more leisurely time.

Dear Miss Bowman: Are Americans really the most mobile people in the world? Mr. T. H., Providence, Rhode Island.

Answer: Citizens of the United States, Canada and Australia average 12 moves in a lifetime, making them the most mobile nationalities. This mobility rate compares with an average of eight moves in a lifetime for a Briton, seven for a Japanese citizen, six for a resident of Taiwan and three or four for a person living in Ireland. Although the level of industrialization and urban development in a nation is believed to contribute to the degree of geographic mobility, Census Bureau researchers offer three additional reasons for the high mobility rates in the United States, Canada and Australia. All three countries are nations of immigrants, and people who have moved once find it easier to move again. Each of the three nations also had a frontier. Their governments developed programs to encourage settlement and thus created waves of internal movement. Now each country has widely scattered urban centers that compete for industry, migrants and national pre-eminence.

Coffee Craving

People are paying the continually rising price of coffee because many are hooked on it. The Texas Medical Association says medical researchers have identified several symptoms of "caffeinism" in people who drink too much coffee.

Caffeine is the "pick me up" stimulant in coffee, tea, chocolate and other substances. It affects heart rate, blood pressure, stomach acid amounts, moods and skills such as typing. In very large doses theoretically it could kill someone although there is no recorded case of this occurring-mainly because a person would have to drink 70-100 cups of coffee to get the 10 theoretically fatal grams of caffeine.

However, Medical World News Magazine reports that smaller doses can cause restlessness, insomnia, irritability, headache and nervousness. People have varying sensitivity to the caffeine in coffee but people who drink 12 or more cups daily may very well have many of these problems. Youngsters also can fall prey to caffeinism if they have too many soft drinks, hot chocolate, cocoa or chocolate bars. Caffeine also is added to many cold remedies and common medicines.

More than 60 percent of the people in one study said they feel the need for coffee in the morning. People who drank five cups a day felt less alert, less active, less content, more sleepy and more irritable before having their coffee. Another study reports many people use coffee to fight off drowsiness, to help them think and to speed their reaction time.

Some doctors advise people with ulcers, heart disease, high blood pressure, diabetes or other problems to ease up on the amount of coffee consumed. A scientific panel told the Food and Drug Administration it had a divided opinion about caffeine in soft drinks hurting children and urged more study on the problem. Certainly people with symptoms of caffeinism should cut down consumption.

Many people have switched to tea but it has 30-60 milligrams of caffeine in instant form and bagged tea has 42-100 mg. The average cup of brewed coffee carries 80-120 mg; instant coffee has 66-100 mg. Soft drinks with caffeine pack 15-30 mg. of caffeine, the Medical World News article reports.

BATTLE HYMN OF AGING

We reach the age of sixty-five. Our golden years are here. They tell us that the age begins A happy new career. For now our Uncle Sam becomes Our permanent cashier As we go marching on. **Chorus:** Glory, glory hallelujah, Glory, glory hallelujah, Glory, glory hallelujah, As we go bravely on. Our social security from Baltimore is sent. We buy a little bit of food and Maybe pay the rent. And after that we're stony broke And left without a cent But we go bravely on (Chorus) And as for checks from Medicare, Will someone tell us how They always find some doctor bills They sadly disallow. And dental cost, as well we know, They wholly disallow But we go bravely on (Chorus) We don't know how we make it As we live from day to day. With income fixed, and prices up. There is always more to pay. So minding our arthritis, Let's get on our knees and pray That we'll go bravely on (Chorus) And first of all, let's thank the Lord That we are still alive. The dreams we have may still come true. When we are ninety-five, So, please dear Lord, give us the Strength our troubles to survive As we go bravely on (Chorus)

Green Up Your Lawn

COLLEGE STATION - With the spring season at hand, a few maintenance practices can get your lawn off to a good start. A turfgrass specialist for the Texas Agricultural Extension Service suggests three operations for a greener, better looking lawn - scalping, fertilizing and applying a weed killer. "Scalping a lawn serves to revitalize it and promote spring and summer plant growth," points out Dr. Richard Duble. "Begin the operation by lowering the blade of your lawnmower one-half inch below the normal setting. Then mow the lawn in two directions that are at right angles to each other. Remove the clippings after each mowing." Duble also recommends keeping the lawnmower blade lowered until mid-summer. "After scalping the lawn, apply a complete fertilizer (one containing nitrogen, phosphorus and potassium) to promote leaf and root growth," advises the Texas A&M University System specialist.
