water expenses.

The City of Rising Star Oil Field Supply Business

Opens in Rising Star

The Livingstone Hotel once stood on Highway 36 between the old First State Bank building at the intersection with Highway 183 where Medley Motor Co. is now located. This photograph is on a picture postcard mailed from Rising Star in 1910 by the late Arthur Dukes to his mother in Duster. Dukes was helping lay the railroad line and was boarding at the hotel. He was the brother of M.J. Dukes of Rising Star who submitted the photo for publication.

Church of Christ Hosts Meeting

The Church of Christ will be hosting a four day Gospel Meeting June 26th thru 29th. Brother J.C. Bailey will present the Word

of God in nine exciting lessons. He will present the first at 9:30 Sunday morning.

Everyone is invited to come and begin

their day with us in a short devotional each morning Monday thru Wednesday at 7:30 a.m. Brother Bailey comes to us from Hampton, Virginia.

Birthday Reception Set for Julia Townsend

Julia Townsend will be honored at an 80th birthday reception.

The children, grandchildren and greatgrandchildren of Julia Townsend are hosting a suprise come-and-go 80th birthday reception in her honor on Sunday, June 26, from 2:00 to 5:00 p.m. The reception will be held in the

Activity Building of First Baptist Church of Rising Star.

Friends and other relatives of Julia Townsend are invited to attend the birthday reception. Family members ask that no gifts be brought.

Luther Forbes' Family **Plans Birthday Celebration**

Friends and relatives of Luther Forbes are invited to share in celebrating his 86th birthday June 25, 3 to 5 p.m., at the Community Room of the First State Bank.

His children are hosting the event and ask that no gifts be

Minutes of RSISD Board Meeting

Rising Star Independent School District Regualar Meeting June 15, 1983, 116 N. Main Street, Boardroom.

Members present: Jack Hubbard, David Harris, Dan Hughes, Sue Barnes, Joyce Baker, Terry Geye, and Joe Frank Mc-Collum.

School Personnel Gene present: Williams, Frank Gray, and Weldon Hill.

Others present: Ferrell Newton and Scott Edington.

Business: Call to order by the President, Jack Hubbard delaring that before item 3B (Personnel) meeting will go into executive session in order to discuss personnel.

City Receives Tax Rebate

Austin-State Comptroller Bob Bullock sent checks totaling \$43.8 million in local sales tax payments to 974 cities that levy the one-percent sales tax.

"The cities who lean most heavily on oil and gas for their local receipts are still suffering, but the rest of the state is beginning to make up for the drops in revenue we saw earlier this year," Bullock said. So far this year, local sales tax cities have received \$353.5 million, less than one percent behind the total paid by this time last year.

The June checks April and reported to the Comptroller by the end of May.

The City of Rising

Star received \$574.54 this period compared to \$1,052.82 for the same period last year. To date in 1983, Rising Star has received \$10,543.13, a drop of 2.19% below the \$10,779.71 received by this date in 1982.

The other sales tax cities in Eastland County also have had smaller tax payments compared to 1982; to date, Cisco's dropped 3.49%, Eastland's 7.58%, Gorman's 18.59% and Ranger's dropped 18.51%.

Neighboring Cross Plains in Callahan County received \$1,754.88 this period, were for taxes col- compared to \$1,732.60 lected on sales made in for this period last year, and \$26,055.86 to date in 1983, a drop of 37.05% below payments to date in

police blotter.

Bramlett Implement, Inc. in Rising Star, Texas, was burglarized and set fire May 23, 1983. Value of merchandise and fire damage estimated at \$20,000.00. Eastland County Sherrif's Department arrested two subjects. Deputies Delbert Biggs and Ben Sancillo worked the burglary and Sherrif Morren went to Dallas to pick up the subject's,

Charging them with Burglary of a building. Both subjects have made bonds.

The Snak Shak was burglarized four times. The Eastland County Sherrif's Department set up a stakeout after the third burglary. Deputy Delbert Biggs was on stakeout when the fourth burglary occured. He arrested one person on the charge of burglary, solving three of the burglaries.

Social Security Representative Will Be Here June 27

The Social Security Administration reminds the public that most Social Security business can be handled by telephone. To report a change of address, death, work activities, etc., call 915/698-1360; for SSI information, call 915/695-1240; and for information regarding

a Medicare claim already filed, call 1-800-442-2620.

The Social Security representative will be in Rising Star at city hall on Monday, June 27, at 10:00 a.m. You may sign up there to speak with him.

Sign up for Medicare before your 65th birthday.

IRS Delays Withholding Tax on Interest

Dallas-The Internal Revenue Service today (June 17) it is granting to all payers of interest and dividend income an automatic onemonth extension of the requirement withhold tax scheduled to begin July 1, 1983. The automatic onemonth extension is being granted to alleviate any undue hardship to payers.

This action is being

BUDDY COOK Residential, Commercial Refrigeration & Plumb-817-842-5950 Rising Star

Gordon Spot County Extension Agent DeMarquis Gordon

THE GORDON SPOT

It seems this is going to be another big year of flea problems for Eastland County homeowners. Over the last 6-7 years fleas seem to have become more and more of a problem. The most common type of flea encountered homeowners is the cat flea, which infest dogs or cats and will readily attack humans.

Flea bites are extremely annoying, but they may not be felt immediately. They generally become increasingly sore and irritated over a period of up to a week or more. Some relief from the itching can be obtained by applying cooling preparations such as carbolated vaseline. menthol, camphor, calamine lotion or ice. Severe allergic reations or infections should be treated promptly by a physician.

Effective flea control must include treatment of the pets and thorough treatment of the entire premises indoors and outdoors. These three areas should be treated simultaneously in order to break the "flea cycle" and maximize control results.

Insecticides containing carbaryl (sevin), dichlorvos (DDVP), pyrethrin, rotenone, malathion, methoxychlor, or propoxur (Baygon or Sendran) are labeled for use on animals. Dusts or powders are generally preferred over sprays for treating pets, and should be used at 3-4 days intervals when infestations are heavy.

CARD **OF THANKS**

The family of W.N. Jenkins, Sr., wish to express gratitude to Delbert Biggs, the Rev. R.D. Williams, the church choir and Pat Walker for their services and to the First Baptist Church for the lovely meal. Thanks, too, to all those who sent tributes.

The Jenkins Family

GROUP HEALTH INSURANCE THE TRAVELERS Eastland County Farm Bureau 643-5951

Rub the dust into the animals fur by hand. Flea collars which conpropoxur tain (Sendran) or naled (Dibrom) appear to be superior to those which only contain dichlorvos (DDVP). Read the label before using any of these products and consult a veterinarian

of questions arise. Spray all infested outdoor areas such as the yard, porches, garages, and outbuildings with either chlorpyrifos (Dursban), diazinon, propoxur (Baygon), or carbaryl (Sevin). Be sure to treat areas which are frequented by pets and let the spray dry before pets or children are allowed to use treated areas. Repeat the spray at approximately two weeks intervals until control is achieved. It is a good idea to mow and water the lawn a day before this spray treatment and avoid mowing or watering for as long as possible after treating.

Inside the home, control measures should begin with thorough cleaning. Vacuum all floors and upholstery. Dispose of the vacuum sweepings immediately to prevent fleats escape and subsequent reinfestation. Launder all pet bedding. Apply an insecticide spray of chlorpyrifos (e.g., Rid-A-Bug) to all floor areas, under and around upholstery cushions, and to pet bedding areas where fleas have been found. Also spray molding, baseboards, and drapery in flea infested areas to a height of one foot above floor level. Try to avoid further vacuuming and cleaning for 10-14 days after treatment. While this insecticide should

For your metal building needs get a **Second Opinion Rolston Metal**

Building Systems 915-698-1721 give 3-4 weeks of effec-

tive residual control indoors it will not give rapid knockdown of adult fleas present. In conjunction with the residual spray indoors, homeowners might also use a non-residual insecticide applied as a total-release aerosol or fogger. Products con-

taining pyrethrins, resmethrin (SBP-1382), dichlorvos (DDVP or Vapona) are available to provide this quick relief from fleas indoors. Some of these foggers contain both dichlorvos and a residual insecticide such as propoxur (Bagon). When these are used, additional spot spraying with other residual insecticides may not be

necessary. A relatively new chemical, methoprene is now available. It is among a group of chemicals known as insect growth regulators (IGR). When applied to the early larval stage of fleas, methoprene prevents further development into pupal and adult stages. To animals it is virtually nontoxic, a great advantage. Products containing methoprene are available in total release aerosol formulations which can give 75 days of flea control.

A partial listing of methoprene products currently available on the market is as follows: Zodiac IGR-75, Vet Kem Siphotrol-10 and D-Con Flea Stop.

These require very careful application for effective and safe control. Be sure to read and follow all directions on labels and insecticide used.

. **Senior Center News**

Wednesday the Star Brites went to Stephenville to put on a program for the Senior Citizens Center. We had a lovely lunch and everyone gave us a big welcome. It really makes us feel good when we are shown appreciation for working hard to put on a program. There were 17 band members who made the trip. Geraldine Richter played with us; she is great on that guitar. Thank you so much for helping us out when our other guitar pickers were out.

Sunday George and Detta Webb celebrated their golden wedding anniversary. They had a very enjoyable day. All of their children were there and many more of their kinsmen. Our club give our congratulations to this couple.

Sarah and Red Chamberlain are busy with their fine garden and are getting a bit more done on their house they are redo-

Nellie Morgan of De Leon was back to club Thursday; she is one of our Star Brite bandmembers.

M. G. Morton, Helen Mitchel and B. Morton went to Coleman Sunday p.m. for a fish fry.

Wednesday Julia Ross went to the Eastland nursing home to visit Edith Hull.

D.W. and Georgia Curtis of Fort Worth visited his parents, Wilburn and Lucy Curtis. They all attended the Romney School reunion.

Lucille and Weldon Stillwell spent Thursday night with Marion and Marjorie West. They came down to attend the annual S. C. Steel reunion at Kirkland Lodge on Lake Brownwood.

June 28 the Star

Brownwood to the **Cross Country Nursing** Home to put on a program celebrating anniversaries for the month of June.

A grandson and a granddaughter from Oklahoma are visiting Edith Bostick for a few

There was a large number of Senior Citizens at club Thursday. Everyone enjoyed a lovely lunch. There were two tables of domino players. The Star Brites had their regular band practice.

Roland Hassel is ill the Gorman hospital. Roland, we hope for you a speedy recovery You and Tena were missed at club Thursday.

I have been out of town most of the week and did not get a recipe for our news column so I will share my recipe for Seven Day Sweet Pickles. Pickle season is here, so here goes-

Seven Day Sweet Pickles

(1) Soak cucumbers 48 hours in brine, made of 1 cup salt to 1 gal. boiling water. Pour over cucumbers to cover; use crock or plastic container.

(2) Wash cucumbers and pour boiling alum water, 2 tablespoons alum to 1 gal. water. Let stand 24 hrs.

(3) Wash and cut cucumbers and make new alum solution as above of alum and boiling water. Let soak 24

(4) Wash cucumber and let stand 24 hrs.

cucumbers, reheat to cucumbers. Let stand

(6) Drain syrup off and add as much sugar as at beginning and heat to boiling. Make a spice bag by taking 2

Four current 4-H members who are interested agricultural careers may qualify this year for a \$500 scholarship and trip to National 4-H Congress donated Dekalb AgResearch, Inc., DeKalb, Ill.

The agricultural careers scholarship program is designed to encourage members to pursue careers in agriculture, says John Blair, county 4-H program coordinator with the Texas Agricultural Extension Service, Texas A&M University System. Today's agriculture is a highly specialized, constantly expanding field, which encompasses more than 500 distinct occupations, ranging from farming and farm management to research and development to proand cessing marketing.

Scholarship winners are chosen by the Extension Service, which conducts the 4-H program. Awards are arranged by the National 4-H Council, a not-forprofit educational organization supporting the 4-H program with private resources.

Area Reunions

J.W. Emfinger Reunion

On June 5, 1983, family members, relatives and friends of the late J.W. Emfinger family held a reunion. Some 70 people joined together to celebrate the occasion, the first reunion since 1962.

Woodson Emfinger and Irene Heughley are the last two living children of eight of James Wesley and Virginia Lee Emfinger. Relatives from all far sections of Texas and from as far away as Alaska paid tribute to the ones named above and to the memories of those deceased.

In attendance were four generations of Emfingers, representing all eight families, plus a group of cousins.

The family plans another reunion in

Mrs. Bobbie Jo Blair Secretary

Nunnally Reunion

The 34th annual reunion of the Nunnally families was held in the Activity Building of the First Baptist Church of Rising Star on June 11 and 12, Saturday evening and Sunday. We had 69 to register on both days.

Saturday evening we met for a lot of visiting, looking at pictures and have our pictures made again. We had a delicious sandwich supper with all the trimmings.

On Sunday we had the usual basket lunch with lots of good things to eat.

One of the highlights of our meetings each year is to see what has been added to "The Family Albums." One of our cousins and his wife, C.C. Florence Nunnally of O'Donnell, have done a

marvelous job in getting this together. They are the ones who have done so much in keeping our meetings together. Each year Florence takes everyone's picture and also group pictures. We always look forward each year to seeing what has been add-

On Sunday a beautiful silver tray was presented to C.C. and Florence as a token of our love and appreciation for them. Many said this was the best reunion yet.

Registering from Rising Star were Ray & Eleanor Nunnally, Jamie & Jarrod Belk; Robert & Edra Butler, Jamie Butler; Duck & Ruby Bailey; Dean & Jeanine Bailey; Lottie Mae Roach; Franklin, Sharolyn & Laura Cox; Ethel Parker; Sbyil Parker; and David, Sara, Leslie, Allison & Matthew McGowen.

From Abilene, Wanda Siekman; Kathy Decker; Mary & Tom Curry; Les Havins: & John Jan Lineweaver; Alton & Jessie Nunnally; and Bob, Joy & Tia Nunnally.

Others in attendance

were Florence & C.C. Nunnally of O'Donnell; Geneva Wallace of Ranger; Mae Claire Crownover of Comanche; Bob & Fran Roach of Dallas; Jack & Ann Roach of Fort Worth; Karen & Mia Allen and Mike Bell, all of Clyde; Eldon Roach of Brady; Pat, Justin & Jennifer Havins of Wasilla, Alas.; James, Christy; Scott & Shea Roach of San Angelo; Bill, Marie, Clifton & Clayton Nunnally of Los Alamos, New Mex.; Virgil Bowers of Anson; and Jerry, Linda, Mark & Chris Cot-

tingame of Dallas. Guests were Dr. H.K. Neely of Abilene, A.P. Smith of Rising Star and Luther &

Ruby Wilson of Ropesville.

S.C. Steel Reunion

The descendants of the Rev. Sam Steel and his wife, Charity Lindley Steel, held their annual reunion at Kirkland Lodge at Brownwood Lake June 17, 18 and 19. Everyone reported a lovely time.

Fifty-five signed the register. The oldest member present was Oliver Steel of Brownwood and the youngest member present was Justin Hollis, 18-month-old son of Steve and Juanita Hollis. Justin is also the voungest grandson of Marion and Marjorie West.

Traveling the fartherest distance were Norma and Wilson Mc-Coy of Beaumont. Traveling the next fartherest distance were Tom and Edith Steel from Houston. James and Thelma Steel and two of James' cousins, Ruth Shaw and Virginia Johnson, came down from Oklahoma to attend the reunion.

Some of the relatives enjoyed fishing nights at the pier. The bass were running fair. Weldon Stillwell of Fort Worth got the largest one. We can't say that much for his mother, Lucille, and his aunt, Marjorie West. Theirs were smaller.

The same officers are to serve for another year. They are Charles Campbell, president; Harris Johnson, vice president; and Judy Howard, secretarytreasurer.

Food committee: Marjorie West, chairman; helpers, Lucille Stillwell, Mary Jane Steel and Jennie Fisher. Mary Campbell, who is wonderful kitchen help, was added to our list; this was her first year to help with the reunion.

The reunion will be held the third-Sunday weekend in June, 1984, at the same location.

It was great to see everyone present and hope those who were ill or otherwise hindered from coming will be able to come next time.

There were relatives from Fort Worth, Brownwood, Abilene, Crane, San Angelo, Arlington, Austin, May, New Mexico, Rising Star and probably others I did not get addresses.

4-H Horse **Club Plans** Field Trip

The Rising Star 4-H horse group met Saturday night at 7:00 in the Ag room with plans to elect officers and plan a tentative calendar. Due to lack of participation, we decided not to elect offcers at this meeting. However, we did make some decisions.

We plan to meet again on Friday, July 8, at 7 p.m. at the rodeo grounds. We plan to make the rodeo grounds our meeting place with two meetings a month and one meeting in June and September. Our horse project will last from April through September.

At our next meeting we will have a learning session on terms. We planned our first field trip, which will be attending the District 8 4-H horse show in Goldthwaite on June 28. We will leave about 7:30; anyone interested in going may call Shelly Bailey at

Those attending this meeting were Brian Bailey, Shannon Bailey, and Gina and Tracy Spencer.

T-Ball Mets: Back Row: Dean Sessums, Donnie Horton, Clint Goode, Jimmy Ayres, Trey Rutherford and Toni Hardurck; 2nd Row: Tanya Lancaster, Chris DeLong, Gary Robertson, Lisa Kay Palmore, Christy Hughes and Ernie Smith; Bat Front: Tony Goode, Amanda Rutherford, Terri Hardurch, Matthew McDaniels and Stephen O'Connor, Coaches: Jim Rutherford, Danny Hughes, Fenton Smith and Zandy Goode.

Tigers: Back Row: Becky Murphree, Wayne Larkin, Leigh Ann Webb, Kim Larkin, Terry Ware, Dewayne Schuab and Jason Tischler; 2nd Row: Toby Lindley, David Chambers, Junior Gomez, David Bronson, Tracy Chambers and Will Ezzell; Front Row: Ray Spencer, Heather Wright and Janette Tidwell; Coaches: Jesse Bilbrey, David Pollock, Randy McGinn, Earl Wright and Missy Gomez; Not Pictured: Randy Jones and Jesse Jackson.

PUBLIC NOTICE

In compliance with Sec. 43(a) of Art. 1446c, V.A.C.S., West Texas Utilities Company hereby publishes NOTICE that it has filed, on June 10, 1983, its Statement of Intent to make changes in its retail rates charged for electricity and services sold and rendered inside and outside municipal jurisdictions, such proposed changes to be effective July 16, 1983. Such Statement of Intent includes the proposed revisions of tariffs and schedules and a statement specifying in detail each proposed change, the effect the proposed change is expected to have on the revenues of the Company and the classes and numbers of utility customers affected. Systemwide retail adjusted annual revenues are expected to be increased 11.4 per cent by the new rates. Statements of Intent were filed with the Public Utility Commission of Texas and with the following municipalities:

Abilene	Haskell	Quanah
Alpine	Hawley	Quitaque
Anson	Impact	Rankin
Aspermont	Iraan	Rising Star
Baird	Jayton	Rochester
Ballinger	Junction	San Angelo

HOW TO WALK WITH GOD: "Be strong and of good courage, fear not, nor be afraid of them; for the Lord thy God, he it is who doth go with thee; he will not fail thee, nor forsake thee," Deut. 31:6. Oh, how marvelous! He, Himself, the Eternal, the Almighty God declares this same assurance to you and I. Do not be afraid, for He Himself will go with you!

DO HOW WALK? One must move along with measured pace, neither too hasty nor too slow, but conscientiously ever onward: allowing neither man nor circumstance to turn us from the way. Such a walk is seldom found in these prodigal times.

WHAT THEN IS THIS WALK WITH GOD, may we ask? This walk with the Eternal One? Hasn't He Himself promised to walk with us, but it is possible to walk with Him, the Everlasting God. This means not only to walk forward but to walk in step with Him. Such a measured walk with Him can be achieved only when there is an inner stillness, a quiet rest in Him. When disharmony occurs between your soul and the Living God, when sin comes between you and Him, you will no longer be in step with Him; you will either run ahead or fall behind Him. Amos 3:3 tells us: "Can two walk together, except they be agreed?" Inother words, the first premise for walking in step with the Living God is to have become one with Hime. One with the Holy One through the shed blood of the Lord Jesus

THURSDAY, JUNE 23, 1983

State Production Above 900 Million Barrel Figure

Texas Mid-Continent Oil & Gas Association reports that an 11th consecutive year of production at the maximum effective recovery rate in nearly all of Texas' oil fields kept 1982 petroleum production in the state above the 900-million barrel figure.

Avery Rush, Jr., chairman of the Dallas-based Association, says that figures compiled by its staff show the total petroluem output of

901,910,343 barrels included 871,780,379 barrels of crude oil and 30,129,964 barrels of condensate from wells in 214 of Texas' 254 counties.

Eastland County, which has had recorded production since 1917, last year produced 2,487,169 barrels of crude oil and condensate at the rate of 6,814 barrels per day. Production in 1982 boosted Eastland County's production total through the end of the year to 132,594,726 bar-

Crude oil and condensate production last year was 26.8-million barrels below the 1981 figure, a drop of 2.9-percent. This compares with a 3.3-percent drop in 1981 production from the year previous, Rush said.

Rush, of Amarillo, noted that this percentage of drop

petroleum energy will increase. This need for more oil and gas is one that must be filled in significant measure by production from Texas wells," Rush added.

Also in a positive vein, 1982 production pushed the state's cumulative production total since 1866 to more than 47.5-billion barrels. However, for the 10th consecutive year, crude oil and condensate production in the nation's No. 1 energyproducing state was down after peaking at nearly 1.3-billion barrels in 1972.

Last year, 19 counties in the state produced more than 10-million barrels of crude oil and condensate, down from 21 in both 1980 and 1981. The following listing shows 1982 production figures for the state's five top producing counties, all with production in excess of 39-million barrels.

Pecos, third last year and fourth in 1980, became the state's top producing county while Yoakum, the 1980 leader, held second place for the second consecutive year. Last year's leading producer, Gaines, dropped to third. Ector, which held third place for six consecutive years from 1975 to 1980, remained in fourth place for the second consecutive year. Gregg retained the fifth place ranking it

has held since 1980. 1. Pecos - 50,711,326 2. Yoakum - 48,442,386

3. Gaines - 47,522,004 4. Ector - 45,958,036

5. Gregg - 39,240,456 The remaining top producing counties include the

following: 6. Hockley - 39,120,433

7. Andrews 39,057,555 8. Scurry 31,731,929

9. Crane - 26,865,582 10. Refugio - 23,523,691

Plans Revealed To Drill In P. Cameron Field

Regular Field.

Survey, A-1193.

Chase-Mann Petroleum Inc. of Ft. Worth has revealed plans to drill a 4,000-foot developmental well in the P. Cameron Field. The operator has 93-acres leased, with drillsite in Eastland County's H&TC RR Co. Survey, Sec. 42, Blk. 4 and has designated the venture as the No. 1 B. McGough. Drillsite is four miles northwest of Eastland.

Location has been staked by Ridge Oil Co. of Breckenridge for a 3,750-foot development probe in Eastland County's REB Field, four miles north of Eastland. The well is designated as the No. 2 Tankersley "A". Drillsite feet. will be in a 70-acre lease in the H&TC RR Co. Survey, Sec. 15, Blk. 4.

Flowing natural gas at the rate of 93,000 CF per day on a 3/4-inch choke, the No. 3 White is a successful new developmental well in Eastland County's Lee Ray Field. P&R Oil Inc. of Eastland is the operator.

The well exhibited absolute open flow potential of 95,100 CFD. Location is in a 332-acre lease in the H&TC RR Co. Survey, A-1913, about six miles northwest of

zone at 3,872 feet, the well bottomed at 4,135 feet and will produce from a set of perforations ranging from 3,880 to 3,906 feet into the

George Harris of Abilene has filed for permit to drill a 1,650-foot wildcat for oil or gas eight miles northeast of Rising Star, in Eastland County's John Sapp Survey, No. 34. The explorer will be known as the No. 1-A-S Agnew. The operator has 20-acres under lease.

The No. 1 C.E. Graham, a developmental well in Eastland County's JMJ Field, is scheduled to be drilled eight miles northeast of Cisco. Richey & Company Inc. of Ft. Worth is listed as the operator. Location is in a 100-acre lease in the H&TC RR Co. Survey, A-222. Projected total depth is 4,300

A 500-foot wildcat for oil or gas is planned by Gro-Tex Inc. of Paducah at a drillsite two miles northeast of Dothan, Eastland County. The location is in a 390-acre lease in the TE&L Co. Survey, A-520. Well's

March Figures Down 14.35% From Last Year

Railroad Commission Chairman Mack Wallace announced that Texas oil and gas wells produced 452,822,019 Mcf of gas in March, down 14.35 percent from field runs a year earlier. That brings the total gas production for the year to date to 1,382,720,664 Mcf of

Marketed gas production in March totaled 374,065,184 Mcf and reflected a 15.91 percent decrease from the March 1982 volume. Marketed production is the total gas to transmission lines, carbon black and plant fuel and lease use.

Gas exported from Texas in March totaled 198,782,437 Mcf. Exports of Texas-

...give little thought to the question of values when we should measure them in terms of personal worth in everything he buys, enjoys or does. For example, some folks will buy real estate without any kind of evidence of title disregarding the fact that the principal value of the purchase is in the title, not in the land itself or the improvements thereon. This kind of thinking costs property owners thousands of dollars annually which could be saved and a part of the savings wisely spent for an abstract of title or title insurance.

Ranchers Win Brucellosis Battle-For Now

By Gary Slade Staff Writer

AUSTIN-In an afternoon press conference Wednesday Texas Governor Mark White announced that the U.S. Department of Agriculture had agreed to delay the brucellosis quarantine of Texas cattle until July 25.

The USDA maintains that the delay was granted in hopes that the state would be able to get an effective program started that would control Brucellosis in Texas cattle.

Governor White stated at the conference that he would try to make administrative changes in the rule and not changes in the law in hopes of solving the problem.

"I will not let the cattle industry in Texas be subjected to a quarantine and I will call a special session only if needed." White stated.

Brucellous, also called Bangs disease is a highly contagious bacterial disease that affects mainly cattle in the United States, and to some extent swine, and sheep. In humans it is called Undulant Fever.

Brucellosis, in many cases, will cause abortions, weakened calves, reduced milk production, and in some instances will cause sterility in bulls.

The Texas Animal Health Commission reports that more than 98 percent of all cattle heards in Texas are free of Brucellosis infection, yet the subject of Brucellosis is controversial, and the disease is highly contagious.

Last year more than 1800 cases of Brucellosis was reported in Texas cattle and 27 cases of Undulant Fever in humans was reported.

Although Governor Mark White wants a law put into effect to check cattle for Brucellosis but not all ranchers agree that the test is the way to control the

The Texas Animal Health Commission passed a later updated and revised it in October of 1981 in an effort to give all the states an effec-

tive law to go by. Texas would have joined the set of uniform rules this year but the program did not pass in Austin as it lacked one vote going to the floor for approval.

One reason that it did not pass was because Texas had a program on its own, one that went into effect in 1965-66. A Texas court later ruled that the program could not be enforced, thus leaving Texas without a Brucellosis program and under the threat of a quarantine.

Eastland County Extension Agent DeMarquis Gordon pointed out that although Brucellosis is a state-wide program it is more common in South and East Texas where the climate is warm and humid.

"In the past it has been more widespread in dairy cattle we still want it cleaned up to prevent a quarantine." Gordon said.

Texas, Oklahoma, Arkansas, Louisana, Mississippi, Alabama and Florida were the seven states reporting the most herds quarantined because of Brucellosis as of March 31, 1983. Texas was the leader with 2,148 quarantined herds out of more than 160,000 total herds.

Out of the 2,148 quarantined herds Eastland County reported six while northern neighbor Stephens County

Before the cattle are put up for sale at the area sale barns they are tested for Brucellosis. If the herd gets a good report it can be sold, if not then it cannot be sold and the Texas Animal Health Commssion will return in 60 days to check the herd again. Two negiative tests on the herd must be passed before that herd is allowed to be sold.

Breckenridge rancher C. O. Thompson says he wants the problem solved as quickly as possible or it is going to hurt Texas and area ranchers more than it already

"In the short time that Brucellosis has become an issue the bad public relations has forced the price of Texas cattle down and some states are not accepting Texas cattle anymore." Thompson

Eastland rancher Lloyd Coan feels the same way. "We won't know how much it will hurt us until it happens, but it will be detrimental. We just don't know how detrimental." Coan said.

If the quarantine goes into effect officials estimate that

it could cost Texas ranchers over \$130 million.

Texas Farm Bureau president S. M. True Jr. in a letter to Governor Mark White said, "Your support of Brucellosis legislation is important not only to the beef cattle and dairy industry, but to the economy of the state as a whole."

In his letter to White, True also stated, "Texas must go forward with an eradication program of Burcellosis." He called it important to the livestock industry and to public health because Brucellosis effects human beings as Undulant Fever.

At the request of the Texas Cattle Industry, the National Brucellosis Technical Commission was appointed in 1976 and after a two-year study the commission concluded that Brucellosis could

be eradicated.

reports that vaccination with Strain 19 vaccine is an excellent tool in the control Brucellosis.

According to the National Brucellosis Technical Commission, Strain 19 has proven to be about 95 percent

"More than 98 percent of all cattle herds in Texas are free of Brucellosis infection, yet the subject of Brucellosis is controversial, and the disease is highly contagious."

Texas Animal Health Commission

With the threat of a federal quarantine on Texas cattle still possible cattlemen are being asked to vaccinate their herds for Brucellosis.

DeMarquis

effective against Brucellosis under average field condi-

The state will pay for the vaccine as part of the revised Brucellosis Control Pro-

Gordon states that for best results, and to decrease the number of false reactors in later tests, dairy heifer calves should be vaccinated at four to six months of age, and beef heifer calves at three to 10 months of age.

"Calfhood vaccination is an important element of the revised Texas Brucellosis Control Plan and should be considered as routine as vaccination for other diseases." Gordon said.

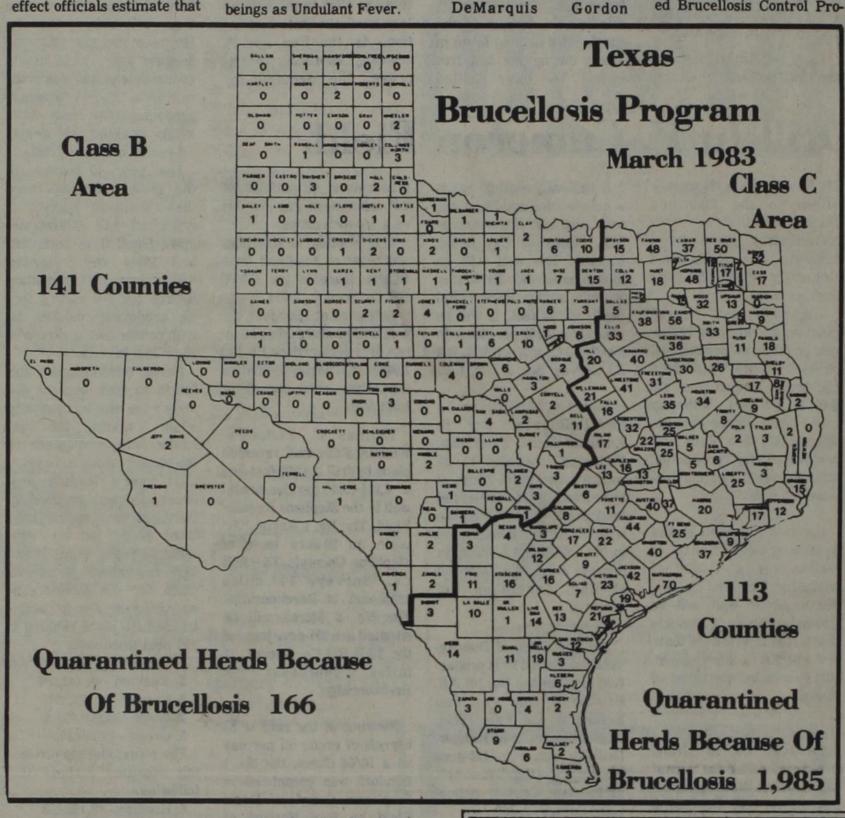

The USDA backed down on calling a quarantine for several reasons after they realized that Texas is seeking a solution to the Brucellosis problem.

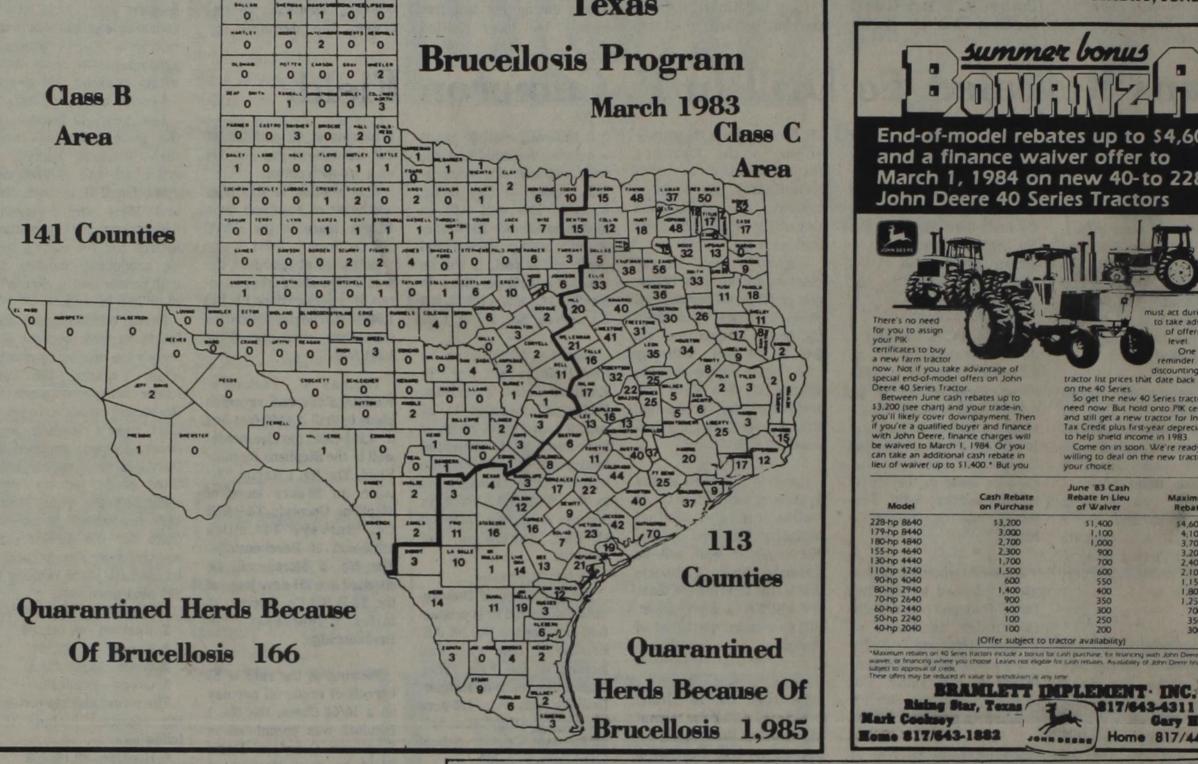

The USDA will republish proposed new rules for Brucellosis control in Texas in a routine matter rather than as a proposed emergency order.

That postponement will give the state 30 to 60 days to work out an administrative compromise. So for now, cattle are calling the postponement a major victory.
