WHERE THREE GOOD

Class Of 1963 Has Gone A Long Way Isaac Newton-discoverer of the law of gravity--another

By Ben A. Butler

Last Spring the girls of Rising Star High School won the Class B track and field championship of the State. It was quite an athletic distinction, a matter of pride to the students and patrons and, taken in common with other records of the school, an evidence of a well-rounded

program. It was not the first time, however, that the Wildcats. as they are called in totem, have enhanced the athletic dinstinction of their school. Rising Star football teams of the late "forties" twice advanced as far as

Interscholastic League regulations then permitted -- to convincing regional titles -and there was plenty of expert opinion to rate them the best in the State. Wildcat teams have since gone to district football championships, to district and regional track and field titles, and ranked high in basket ball competition.

But this article is not a celebration of Rising Star High School atheltic achievements, That has been done, as deserved, many times in the local and distant press. A matter of fact it has sometimes been overdone to the discredit of the funda-

mental purpose and the excellence of the all-around school program. Why, one may ask, should a boy, or girl, who runs a hundred yards in 9.7 seconds rate florid headlines, while the same youngster who puts a 9.7 or 9.5 scholastic average on his record must wait until graduation to receive a polite mention of his or her

achievement? It is the intent of this article to offer some tribute to the many high school graduates who have earned high grades in study and gone forth to justify those grades in places of honor and distinction in the wide, wide world of intellectual, scientific and

political opportunity. Because the limits of newspaper space are tyrannical, I have chosen the post-graduate records of the honor students of one remarkable class as indicative of a general

scholastic excellence equalling, if not exceeding, the athletic achievements of the school. The example is both quantitative and qualitative -- quantitative because rarely do so many members of a graduating honor roll in a student body of less than 100 achieve distinction in their following careers, and qualitative because of the degrees of their distinction. It is a sort of microcosm plucked from an overall pattern of good teaching and

good scholarship. I wish it were possible to list all who have made similar successes. But the theme here is one of a reasonable anticipation -- how faithfully the pattern of careers has reflected the pattern of scholastic accomplishment evoked by the instruction and challenges of the local classrooms.

The four honor graduates of the 1963 class, as suggested. represent a considerable percentage of their group.

They were: Kay Lewis, daughter of Mr. and Mrs. L.L. Lewis, valedictorian with a grade

average of 97.375; Don Donham, son of Mrs.

Helen Donham, salutatorian with an average of 97.306; Michael Fisher, son of Mr. and Mrs. Art Fisher, who averaged 95.960, and

Kenneth Nunnally

Kenneth Nunnally, son of Mr. and Mrs. Ray Nunnally, with a grade average of

Two of the four chose the scholastic field for their careers; one went into space technology, and the fourth answered the challenge of industrial opportunity.

The last mentioned was Kenneth Nunnally whose briefly worded record reflects all too modestly significant accomplishments in the area of industrial chemistry which have contributed to the life styles and satisfaction of so many who use the products of the great Dow Chemical complex.

Kennth went to Abilene Christian College -- now university--from which he graduated in 1967 with a major in chemistry. In June of his graduate year he began work in the Dow Chemical Company's Freeport, Tex., laboratory. In the time spent there his creative work produced three patents for the company, no mean contribution to the expanding pattern of that vast industrial complex in service to the American

standard of living. His work won him transfer to the production side of the company, where he is presently supervisor of a new, computerized styene plant in the Gulf Coast area. Within ten years the "rookie" advanced to a front line player in a field where competition in mind and ability is, to put it mildly,

Kay Prosser

The record of Kay Lewis, now Mrs. Jerry Prosser of Arlington, Texas, offers no spectacular single accomplishment. but is marked by a steady performance at a consistently high level of achievement and nomination.

From Rising Star High School Kay went to Cisco Junior College where she repeated her Rising Star success as the valedictorian of her collegiate class with an average of 3.9, one-tenth of a point short of perfection. Then in further emphasis of her scholastic competence she finished fourth in a graduating class of 1,500 at Texas University at Arling-

En route to these honors she served, at CJC, as lab assistant in the science department, conducted work shops in math for high school teachers and was named most outstanding student in Math and Science. At Arlington U. she was pledged to Phi Mu Service Soroity, was a member of the BSU Math Club. served as dean counsellor to her dormitory and as a grader and counsellor in the math

department. After graduation she went on to a teaching career in Nichols Junior High and Sam Houston High of the Arlington public school system. At Sam Houston she was sponsor for the Honor Society. counsellor in basics for lagging students, head of the Math department and named teacher of the year for the 1974-'75 term.

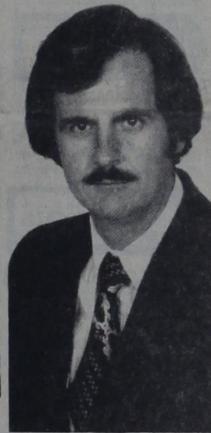

Meanwhile she married Jimmy Prosser of Arlington and Valley Mills in 1971, and in 1975 she retired from teaching to await the birth of their first child, Jason Allen, who arrived on Sept. of that year. She and her family now live in a new home near

Mansfield where she devotes herself to gardening, home management and private tutoring while awaiting a second child early in 1979.

Most TV viewers will recall film strips of a 707 airplane taking off with a wingless space ship clutching its back like an eaglet on a giant bird. Far above the earth the chick leaves the mother ship and rockets into the weightlessness of space, then returning with unfolded wings to land like a normal plane.

The spectacle represents the formative stage of a space shuttle designed to carry people and commodities to and from satellites far above the earth, envisioned as eventual cities permantly afloat in space, sustained there by laws of physics having to do with inertial forces and permanence of motion in a balance of gravitational attraction.

What they do not see is a young man rather handsomely moustached sitting in a post of high responsibility for the performance of that shuttle. He is a Rising Star boy who is having much to do with the evolution of this dream of an expanding civilization, free of the vicissitudes of our earthly environmant--a sort of material Valhalla, destined perhaps to the proportions of a vast new frontier.

Mike Fisher

He is Mike Fisher whose job at the Houston-based NASA IBM Federal Systems is hidden behind the giant computer complex which he helps program to govern every mechanical thought and motion of the space shuttle testing projects. He has the title of associate programmer, Gound Based Systems, a job to which he as promoted last year.

Mike--diminutive for Michael--arrived at his present job via a B.A. in Physics from Texas A&M, and assignment to Holmon Air Force Base, Almagordo, N.M., where he worked in the White Sands Missle Test-

ing Program. He was commended for his work in tracking and recovering erring missles flown from Utah to the White Sands Range, using a discovery process of recomputering flight data on inflight

missles. Two years of this and he went to Baylor University for an M.A. degree; taught physics at TSTI in Waco for almost two years. and in 1974-'76 earned a PhD in Geophysics at Texas A&M. He went to work for IBM at NASA in September

He relaxes by taking part in theatrical productions. appearing this summer in a "Promises. Promises," musical version singing in the Bay Area teen present and a Chorus of 100 voices which last Christmas presented Handel's "The Messiah" in

Nasa auditorium. Walking under the medieval arcades of an 800- delivered refrigerator to the year-old center of learing center. hallowed by the spirits of Disiderius Erasmus, the for the Chamber of Commartyred William Tyndale, and that giant of early scientific reformation, Sir

member of the honor foursome of the 1963 Rising Star class today is expanding his scholastic horizons in postdoctorate study. He is Don Donham, salutatorian of that class, and the achiever of a Doctor of Philosophy degree in Anthropology from a prestigious American institution of learning--Leland Stanford, Jr., University at Palo Alto, Calif. Don went to Cambridge University, Cambridge, Eng., this year on a grant from the

National Science Foundation,

itself a mark of highest

Don Donham

From Rising Star Don went to Baylor University at Waco where he graduated Magna Cum Laude (with highest honors) and a B.A. degress majored in chemistry and math, in 1967. His scholastic path took him to Stanford and a Masters degree in chemistry; to William and Mary College in Virginia; to Tulane University, New Orleans, and back to

Stanford for a doctorate in Anthropology in 1977. The sequence of his scholastic career speaks enough for his record. But a word significant of his character may be added. While a student in Rising Star High School he added the study of piano to his elective curriculum solely for its cultural benefits and self-pleasure. With the same sober dedication that he applied to his career studies he became one of the best young amateur musicians to leave Rising Star, and no doubt when his classroom and research duties become irksome he still relaxes at the

keyboard. What a contribution to a needy, and sometimes shortsighted, community these youth, and others as distinguished, could make if only a sufficient challenge were here to attract their ambitious spirits! But who can blame them for seeking inspiration and success else-

where? We are the products of our conflicts, and the competition of equal minds summons forth the best achievemtn of which we are capable. Without that challenge the

individual stagnates. That is something for those of us who see and bemoan the slow decay of the small towns might profitably think about!

Senior Citizens Host Seventeen For Luncheon

The senior citizens met July 11 for business and games. We hope to have news about a new center soon. Attendance is down some. Hot weather and family reunions along with vacations has of "The Apartment," and by taken a toll. We had seven-Cohen, from California.

We give special thanks to Steve and Juanita Hollis for the donation of a nice clean

"Summer Garden Fashions" was the theme of the 1978 Eastland County Dress Revue. The annual 4-H event was held Saturday, July 8th at the Ranger Junior College Auditorium.

In the senior division, Ruthie Hagood, daughter of Mr. and Mrs. Howard Hagood of Gorman, took top honors. Ruthie's outfit consisted of a skirt and blouse. Her pink flowered skirt is gathered to the waistband with a ruffle on the bottom. The skirt is fully lined. Ruthie's ruffled and laced blouse has raglan sleeves with buttoned cuffs. It is yoked and gathered to the buttoned back opening. For her top placing, Ruthie will receive a dress length of fabric from the J.C. Penny store in Cisco.

Carla Hargrove, daughter of Mr. and Mrs. Carl S. Hargrove of Cisco, was the other senior division participant. Carla received a red ribbon for her red sundress trimmed with red flowered print ruffles.

Patri Spurlen, daughter of Mr. and Mrs. F.L. Spurlen of Eastland was the first place winner in the Junior division. Patri's three peice outfit consisted of a three tiered skirt, a camisole top, and a reversible shawl. Ruffles and lace accent Patri's ensemble. She used two coordinated blue colored fabrics throughout her outfit. Patri also made a slip and camisole to be worn with her outfit. Patri will also receive a dress

length of fabric from the J.C. Penny Store. Leanne Brown and Shiley Kidd were the other Junior participants in the revue. Leanne, daughter of Mr. and Mrs. Lawson C. Brown received a blue ribbon for her blue and pink shirt and top.

Mrs. John Kidd modeled a khaki colored sundress. She recieved a red ribbon.

Five Sub-Junior 4-Hers entered the Dress Revue. Jami Long, daughter of Mr. and Mrs. Rex Long of Rising Star was the top sub-junior. She modeled a yellow sundress with a tie belt and a ruffle at the bottom. Jami also made a matching shawl with a ruffle to complete her outfit. For her prize Jami will also receive a dress length of fabric from J.C. Penney's.

Other Sub-Junior participants receiving blue ribbons were Jeanine Reich, daughter of Mr. and Mrs. Harold Reich; and Sue Ann Osborne, daughter of Mr. and Mrs. Phillip Osborne. Jeanine made a three tiered flowered skirt and an ivory colored ruffled blouse. Sue Ann modeled a three tiered navy blue skirt with lace between each tier. She purchased a white top to

complete her outfit. Robin White received a red ribbon for her flowered print sundress. She is the daughter of Mr. and Mrs. Ronnie White of Eastland. Wendy High, daughter of Mr. and Mrs. Leroy Kirby, received a red ribbon for her white pantsuit.

Ruthie Hagood, Patri Spurlen, and Jami Long will be competing in the District Fashion Revue to be held July 25th in Waco.

Jeanne Hounsel was the commentator for the County Dress Revue. Jeanne was last year's winner of the County Revue. She also won at the District Dress Revue and participated in the State Dress Revue.

A reception after the Dress Revue was sponsored by the Eastland County Home Demonstration Council.

Carla Thornhill Signs Letter Of Intent With CJC

Carla Thornhill of May has signed a letter of intent with Cisco Junior College with a

basketball scholarship. Carla is the daughter of Mr. and Mrs. Bob Thornhill. She g graduated third in her class and received numerous honors at May High School. A starter on the 1977 Class B State Runner- Up team, she is a three year all-district player, numerous alltournament selections, and was selected on the All-Regional Tourney team.

Carla placed 5th in the discus at the 1978 State Trade meet. She has all the qualities needed to be an outstanding College player. She averaged 20 points per game and 16 rebounds.

"She is a tough aggressive competition, one who is fundamentally sound and a team player. CJC anticipates great play and leadership from Carla," stated Jimmie Campbell, Women's basketball coach at

Cisco is located between

Ft. Worth and Abilene on Interestate Highway 20, and the college occupies a ninety- two- acre campus. Its curriculum include full academic program leading to degrees in all provessional

fields, a comprehensive technical- vocational program, and a great variety of community courses. CJC's ability to offer five different degrees and fifty different majors, teamed with its accreditation with the Southern Association o of Colleges and Universities justifies the claim that Cisco Junior College is one of the fastest growing junior colleges in

the state of Texas. We will be competing in the tough Northern Texas Junior College Athletic Conference composed of Ranger Junior, Southwest Christian College (Terrell), McLennan Community College (Waco), Grayson County College (Dennison), Weatherford Junior College and Cooke County College

(Gainesville).

City officials made the decision to install a new gas distribution system within the City limits in 1977. Money was obtained materails were purchased and the installation of the system was begun in July.

The decision to do this was brought about when the officials were convinced that we faced a very serious crises in our gas system operations.

Evidently many of our citizens are not satisified that the crises exists. I will attempt to explain it again. We bought 105,000,000

million cubic feet of gas in 1977 and paid \$210,000 for it. We sold 50,000,000 cubic feet of gas and received \$200,000

No Corporation no city nor any individual can stay in business for very long if they depend on these kind of figures to make a living. If any citizen wants additional facts and figures concerning gas purchases, sales and operation expense, we invite you to come to City Hall and check it out. The records are public.

I think the people currently installing the gas pipeline in the east part of town east of highway 183 are doing a good job. They are reset their own meter. certainly working hard at it in weather that keeps most of us in the shade.

pipeline to every meter The Mayor.

whenever possible or practical. This decision was made in order to insure that all leaking pipe would be replaced. But if any persn wants their meter set at any particular place it is left up to the gas commissioner, W.G. "Bill" Reed, to make the final decision.

I am making a personal appeal to everyone to cooperate with missioner Reed and the pipeline crew in the work they are doing. It is very important that the work be completed before cold weather arrives.

I am sure that Bill welcomes a any constructive criticism that any of us can offer. But to stop his work and haggle over a ditch being cut in the yard or who is responsible for this and that is a different matter. Enough is enough.

Nobody gets any pleasure out of digging ditches or laying pipe in anybody's yard i in 103 degree heat. Nobody is deliberately persecuting anybody in this

If any citizen doesn't want Bill Reed to dig a ditch in their yard then it is perfectly all right with me if Bill lets them dig their own ditch and

We have a choice. If we want gas this winter, we had better let Bill dig the ditch They are certainly entitled and lay the new gas line. The to our cooperation and don't chances are real good that need open harasment of their all the ditches and all the efforts to please evry citizen. pipe will be installed by City officials made the October 1 and all the gas in decision to install new our old gas lines will be gone.

Gospel Effort Continues

Special evangelistic services are slated to continue through Friday evening at the local Church of Christ, according to Owen Aikin.

The evening meetings are at 7:30. Short, inspirational services are also being held in the mornings at 7 a.m. Mike Peters, a dynamic preacher f from Shreveport,

Louisiana, is doing the speaking at both daily gatherings. Aikin adds: "We urge all

our friends and neighbors in Rising Star to take advantage of these few remaining meetings."

Anyone needs transportation is invited to call 643- 6162, as early as possible.

************************ Scripture Thought

OF THE WEEK for, uttering great swelling words of vanity, they entice in the lusts of the flesh, by lasciviousness, those who are just escaping from them that live in error; promising them liberty, while they themselves are bondservants of corruption; for of whom a man is overcome, of the same is he also brought into bondage. (2 Peter 2:18,19)

Jesus was the best of

everything that is called

WHAT TO DO WITH YOUR **ENEMIES**

do just the opposite. They

see your worst points and

tend to magnify the very

worst in you. This is distress-

Christian you will soon be

tempted to retaliate and do

the same thing to them as

they are doing to you, and if

you really work at it you can

soon find yourself hating

your enemy just as much as

your enemy hates you. This

is when real trouble starts -

trouble that can lead to loss

of friends, financial disaster,

open warfare, and even mur-

der. It happends every day.

Sometimes it happens right

in the home. You can become

a hater; you can hate your

fellow church member - even

the local elder or church

pastor. You can hate your

husband, you can hate your

wife, you can hate your

brother, you can even hate

retaliation is a road of

distress and vexation. It is a

hard road. Haters do feel

moments of exhilaration

when they are able to "put

down" their enemies, but

haters are not happy people. They are doomed. They will

all be lost - every last one of

them - if they do not turn to

What can you do with your

enemies? How can you get

the road of hate and

ing - and if you are not a

good. You would think all If you do anything people would have loved worthwhile in this world, you Him. He loved everybody. will have many friends - but He "went about doing you will also have enemies in good". He never once did life. There will be many who anything but good. Could will appreciate your noble anybody hate Jesus? There efforts to make this old were many who hated Him. world of sin a little better He had more than the usual supply of dedicated enemies. place in which to live. But the moment you do something "He is despised and rejected really outstanding you are of men, a man of sorrows, sure to develop some strong and acquainted with grief.' enemies. You may not have There were those who tried many - but you will have who tried to trap Him. He some, I will guarantee that! was falsely accused. He was We would all rather have framed. There were those friends. Friends are "on our who said He was an illigitimate child. Some called Him side". Friends tend to overan imposter. To this day, look our faults and mistakes. more people believe the false They tend to focus in on our excellencies - our best accusations made against points. You appreciate their Him than those who don't. good judgment! But enemies People plotted to destroy

number 1. What should you do with your enemies? Do what Jesus did - love them. It was He who said, "Love your enemies, bless them that curse you, and do good to them that hate you, and pray for them which despitefully use you, and persecute you.' Matthew 5:44.

Him. He was hunted and

chased from place to place

like an animal and finally

hanged on the cross with

criminals as public enemy

This is the divine formula. This is the only way to deal with your enemies. It takes a real Christian to do that. Isn't that what you want to

INSPIRED...

"Many souls would be convicted of their sinfulness and converted through the impressions made upon them by our refusal to resent the evil actions of those controlled by satanic agencies." Medical

Ministry, p. 254. Your friends the Adventists

Commentary

by Myrtle Owen

The great and Dreadful Day rid of them? The best way to get rid of your enemies is to of the Lord, Come near, ye nations, to hear; and turn them into friends. Howhearken, ye people: let the possible. Brother John earth hear, and all that is therein; the world, and all things that come forth of it. who is one of our faithful members and is 104 years For the indignation of the Lord is upon all nations, and armies: he hath utterly

Their slain also shall be cast out, and their stink shall come up out of their carcases, and the mountains shall be melted with their blood. And all the host of heaven shall be dissolved, and the heaven shall be rolled together as a scroll: and all their host shall fall down, as the leaf falleth off from the vine, and as a

falling fig from the fig tree. For my sword shall be bathed in heaven: behold it shall come down upon Idumea, and upon the people of my curse, to judgment. Isa. 34:1-5. God is speaking through the prophet Isaiah concerning the last world Nuclear war which ends in Armageddon. It will be the most terrible slaughter of all the

wars combined in the past history of the world. The war that the world is preparing for today, is described in Ezekiel 39:8-16. So great will be the slaughter it will take seven years to get rid of all the weapons of warfare used by the different nations, and seven months to bury the dead. So great will be the slaughter there will be a river of human blood that will flow into the valley of Jehoshaphat, deep enouth that it will reach the horses bridle. It will flow on in to the valley of Megiddo, the whole country will be bathed in human

blood, see Revelation 14:20. And the winepress was trodden without the city, and the blood came out of the winepress, even unto the horse bridles, by the space of a thousand and six hundred furlongs. It is the, Great and Dreadful day of the Lord, about which all the prophets of all the ages have prophesied. And their land shall be soaked with blood, and their dust made fat with fatness. For it is the day of the Lord's vengeance, and the year of recompences for gathered in the valley of Megiddo to the Battle of Armageddon and in the valley of Jehoshaphat. While this nuclear war will be world wide, the final stage of the world war will be fought in Jerusalem by armies and representatives from all nations of the world. This is where the Armies of the west which includes the United States, England, armies of the revived Roman Empire under the reign of the Antichrist, come to battle against the Northern Confederacy or Armies of Russia, and the Kinds of the East, which include Red China with her allies. The Euphrates river, which rises in the mountains of Turkey, and flows more than seventeen hundred miles to the Persian Gulf, has always been a natural barrier between the East and the West. But we see in Revelation chapter sixteen, verse twelve, that it will be dry, that the way for the Kings of

vast army to march in Palestine. This is why the Lord said, Rev. 3:10, Because thou hast kept the word of my patience, I also will keep thee from the hour of temptation, which shall come upon all the world, to try them that dwell upon the earth. Behold, I come quickly: hold that fast which thou hast, that no man take thy crown. Verse 19, As many as I love, I rebuke and chasten: be zealous therefore, and repent. Behold, I stand at the door, and knock: if any man hear my voice, and open the door, I will

become a highway for this

recent "Liquor The Election" in Abilene and the subsequent connected with it have brought to our attention once more a serious threat to our well-being. John Davis, in an article which we reproduce today, asks pointedly: Was Prohibition All That Bad?

He adds, "David Lusk recently published some very interesting information seldom revealed relative to those infamous prohibition days. Most of us have been led to believe that the 18th Amendment to the Constitution in 1919 was all bad and that we would never again try such a disastrous bit of legislation. About all anyone can remember is Al

Capone and bath tub gin, etc. What did the 18th Amendement really do? It closed 177,790 saloons and the controversy of Zion. Isa. 1,755 breweries. During the 34:7,8. All the armies of the next ten years look what world deceived by Satan, and happened. Crime decreased his evil spirits, will be 54 percent, 2. The death rate due to liquor decreased 42 percent. 3. Ninety- seven of the ninety- eight Keely Alcoholic Clinics closed. 4. Insanity decreased 66 percent. All sixty Neel Cure Clinics closed down from lack of out patients afflicited with alcoholism.

> was repealed. Here is what happened. 1. Drunkeness increased 35 percent. 2. The major St. Louis hospitals alone recorded a 400 percent in

> > Reg.

Thursday, July 20, 1978

And, isn't it strange how, here 44 years later, alcohol is the "drink of the man of distinction," and prohibition is remembered as the "scourge of American liberty"? You've got to hand it to him- the devil has done a good selling job in 44 years.

By the way, how do you feel about marijuana? Lots of folks argue that such should be legalized. Politicians are buying votes in I large quantities by such propaganda.

Look back at the twenties and see if the arguments are not parallel.

Was prohibition all that bad? Was the repal all that good? (end of quote).

Christians need to stand firmly agianst all the "wilies of the devil" (Ephesians 6:10-18), and this includes his pack of lies about the fermented product of the vine (Proverbs 20:1; 23:31; Galatians 5:10- 21).

Know the will of God and the great fruits of accepting His direction by regular Bible study. Join us, for Bible classes: on Sunday at 9:30 a.m. and on Wednesday at 7:30 p.m., and for the Assemblies on Sunday at 10:30 a.m. and 6 p.m.

Our special Gospel effort continues through Friday evening and we urge you to attend. The morning meetings (30) minutes maximum- come as you are) are at 7 a.m. and the evening services are at 7:30. continue

Jail Plans

DUE COMPLETE OCT. '79

The Eastland County Commissioners Court has given tentative approval to a conceptual plan for a new 25-bed jail to serve the

The architectural firm of Boone and Pope has submitted a proposal for jail facilities which would utilize land (20,000 square feet) owned by the county on the south half of a block between Mulberry, White and Lamar Sts. As presently drawn the new facilities would be immediately adjacent to the old jail, which is invisioned to become a historical site since its about the second-oldest structure in the county.

The new facilities would provide some 8,416 square feet of space, and as it is presently drawn, would comply with the jail requirements, although this plan has not at this time been formally approved on the state level.

Goal is set by the architects to "organize the facility's elements and activities into a physical plan maximizes staffing and cost efficiencies -- meet a very tight budget."
Another goal is to meet a
move-in deadline of Oct. 29,
1979. All utilities are readily
available at this site.

The design firm's tentative project time schedule calls for study and feasibility evaluation through July; approvals in August; fine design work to be completed by November; construction documentation by end of May, 1979; bidding in April; and construction to begin May 1 and completed by Oct.

The present jail was constructed in 1897 and remodeled in 1934. Originally designed for a capacity of 24, and facility currently has a bunk capacity of 34. In a 1977 inspection by the Texas Commission on Jail Standards, the old facility meets or exceeds 124 mandatory items, and does not meet 53 recommended items.

The county has been granted tentative variances based on constructing a new jail by October, 1979, by Federal Judge Leo Brewster.

Arlas M. Sikes of Brownwood will drill No. 5 Bryan Bush in Brown County Regular Field.

The planned 1,200 foot venture is located on a 77 acre lease 15 miles northwest of Brownwood.

t spots 3,555 feet from the north and 1,345 feet from the west lines of James Kinney Survey 624.

Richard Gray Inc. of San Angelo completed No. 1 Brookesmith Gridiron in the regular field on Brookesmith

Location is 852 feet from the southwest and 325 feet from the northwest lines of E.R. Meyers Survey 202. Absolute, open flow was

320,000 cubic feet of dry gas

daily from perforations at

1,149-54 feet. Operator set the 41/2 inch casing at 1,218 feet, and the hole is bottomed at 1,237

Mangum, West (3,100) Field four miles southeast of Cisco in Eastland County has gained a new well. The oiler is Sentinel Petroleum Co. No. 1-B Autry, spotting 467 feet from the south and 1,787 feet from the west lines of Section 27.

Block 3, H&TC Survey,

Daily potential was 152

barrels of 42 gravity oil.

flowing through a 16-64-inch

choke with 1,260 pounds

perforations at 3.101-13 feet.

Operator set the 41/2 inch

casing at 3,740 feet, and the

hole is bottomed at 3,763

Louisiana Crude Oil & Gas

Co. Inc. of New Orleans will

casing and 335 pounds

tubing pressures.

Production is from

Penn (Ranger) Field.

A-272.

It spots 467 feet from the south and east lines of Section 21, James Jett Survey, A-333.

Rising Star.

The planned 3,200 foot

venture is located on a 181

acre lease four miles north of

Walsh & Trant Petroleum Corp. of Tyler will drill No. 1 M.J. Byrd in the Grosvenor (Ellenburger) Field in Brown

County. The planned 3.000 foot venture is located on a 101 acre lease one-half mile north of Grosvenor.

It spots 2.314 feet from the south and 1.263 feet from the east lines of Section 36. HT&B Survey.

Sioux Natural Gas Corp. drill No. 1 Union Life in the staked two regular field locations in the county. Each is

Thursday,

July 20, 1978

slated for 1,200 feet. No. 2 P.I. Matson will be drilled on a 240-acre lease 10 miles southeast of Cross Plains.

Drillsite is 750 feet from the north and 150 feet from the east lines of Section 157. ETRR Survey.

The firm's No. 2 R.A. Horton spots 11 miles southeast of Cross Plains on a 10-acre lease.

Site is 150 feet from the north and 400 feet from the west lines of E. Brooks Survey. A-1597. Texfel Petroleum Corp. of

Abilene will drill No. 1-4-11 Fee as an Eastland County wildcat three miles north of Eastland.

The planned 4,100 foot try is located on a 40 acre lease. It spots 2,173 feet from the north and 467 feet from the west lines of Section 11. Block 4. H&TC Survey.

Jerry E. Wylie Oil Drilling Co. of Abilene spotted No. 2 Arnold Butler in the Duster, Northeast (2,750 Marble Falls) Field in Comanche County

Location is three miles south of Gorman, spotting 1.310 feet from the north and 2,310 feet from the west lines of Section 44, H&TC Survey. The lease is composed of

160 acres. L. M. Young of Abilene will drill No. 1 D. Tarver as a wildcat 14 miles south of

Cisco. They planned 3,680 foot venture is located on an 80 acre lease.

It spots 2,310 feet from the north and 990 feet from the west lines of Section 57, Block 3, H&TC Survey. Wyde Oil Co. of Odessa will

drill No. 1 Gray as a proposed 3,100 foot wildcat in Eastland County. Location is three miles northwest of Rising Star on a

100 acre lease. It spots 1,200 feet from the south and 467 feet from the east lines of the southwest

quarter o of Section 24, Block

2, ETRR Survey.

after 32 years of representing the 17th District in Congress, noted that Stenholm would be going to Congress at about the same age as he known, and I have known why we wont he runoff, and him about all of his life. Charles Stenholm recieved did. "But I think he is better political race. There are a a public endorsement from qualified. He is one of the little over 1,000 people finest young men I have involved in our behalf. That's

retiring, veteran Cong. Omar Burleson recently in Mineral Wells. The endorsement came after the two had appeared together several times during Stenholm's recent campaigning. Stenholm is the Democratic

nominee to "fill the shoes" of Burleson as the 17th District's new Congressman.

"I am so glad you have selected as my successor Charles Stenholm," Burleson opened his remarks. He closed his introduction of Stenholm by stating, "I take great pride in presenting for you and with you Charles Stenholm, our next Congressman.'

Burleson was on hand for his public endorsement at a Stenholm Appreciation Get-Together/Fish Fry. The more than 300 persons braving the 106 degree temperature to attend the gathering gave both Burleson and Stenholm standing ovations as they each approached the platform. Stenholm was

interrupted seven times with applause from supporters. Burleson, who is retiring

Proposal To Reduce Property Taxes To Be Studied

Governor Dolph Briscoe this week said he is very interested in a proposal which could effectively reduce property taxes levied by Texas school district.

The proposal, as put fourth Representatives Jim Nugent of Kerrville and Lynn Nabers of Brownwood would dedicate one-fourth of the revenue from the State's general sales and use tax to reduce school ad valoreum taxes throughout the state.

"The Legislature currently is meeting in a special to consider session legislation and proposed constitutional amendments which would return a portion of the current and projected state surplus to the people of Texas," Governor Briscoe said: "I am extremely interested in any proposal which could result in a lowering of property taxes and particularly those levied by our Texas school districts.

Nugent and Nabers have expressed hope for a hearing early this week on their proposal.

Form 64p (State) (6-77)

Nugent and Nabers explained that to be eligible to receive additional state funds, under their proposal, a school district must reduce the ad valorem taxes it levies for maintenance and operation purposes by \$200 for each \$220 it will receive. The maximum amount by which a school district would have to reduce its taxes would be 5 50 percent. The "new" state money the two House members said, would be distributed to school districts on a per Avergae Daily Attendance (ADA) basis with the 1978 share being \$220 per ADA.

"The existence of the surplus in the State Treasury land the projected surplus has to mean that the State is taking to much money from the pockets of Texas taxpayers. In our opinion it is time to return part of that money to the taxpayers and we think our approach is most equitable," Nugent and Nabers said.

Preliminary statistics show the proposal would have the following effect in Eastland

Reduction in Property Tax	"New" State Funds		
20 percent	\$ 2,148		
50 percent	33,291		
50 percent	40,916		
50 percent	17,671		
48 percent	10,950		
31 percent	4,944		
	Property Tax 20 percent 50 percent 50 percent 48 percent		

"New" State Funds means the amount of additional State Money to be received by a school district in excess of the amount the district currently is raising through ad valorem taxes for maintenance and operation purposes.

Letter Postage Is Less **For Additional Ounces**

Many customers mailing heavy envelopes are not aware that postage is only 13 cents for each additional over one ounce, Postmaster Don Boyett said today.

Spots checks of large evelopes deposited in the Rising Star Post Office indicate that families are often using two or more 15-cent stamps in mailing items weighing over one ounce, Postmaster Boyett finds.

Postal rates effective May 29 call for 15 cents for one ounce or less and 13 cents for each additional ounce through 12 ounces.

Because many families have a surplus of 13 cent stamps on hand, Postmaster Boyett suggests that in addition to matching them with two-cent stamps, they may be used for

mailing large evelopes or small packages weighing more than one ounce.

Beyond 12 ounces, first class mail is called priority mail. Packages weighing up to 70 pounds can be mailed. Within a radious of 300 miles of Rising Star, Texas, priority packages should be delivered the next business day. With the exceptin of a few distant areas, there is second day service within the

U.S. for priority packages. Priority mail rates for a five lb. package range from \$2.72 for distances of up to 300 miles to \$4.83 to the most distant cities.

For detailed rate information, customers can call the post office at 643-2191.

County Agent Brings Program

County Extension Agenty, Mary Alice Reagan, presented the program to the May Home Demonstration Club Wednesday, July 12 at 2:00 in the club house. Her program was entitled, "Covering Walls With

Fabric". She demonstrated several ways to use fabric to cover your walls, different ways of applying the fabrics and the different fabrics to

The meeting opened with the group singing America the Beautiful led by Rosalie Glenn accompanied by Clyde Allen. The Club Prayer was repeated in unison.

Alta Alexander, chairperson, presided over

the meeting. Items discussed were the Three County Camp to be held in the Adam's Street Community Center July 19th at 9:30 a.m. Registration fee

will be 50 cents. Each person is to bring a sack lunch and crafts to be displayed. Each club is to bring 50 cookies. Also, the May Club will hold its annual breakfast August 12 at 8:00 a.m. in the club house. All members are

urged to attend. There will be a Housing Leader Training Program July 31st at 1:30 p.m. in the library meeting room. The topic will be, Framing Your Wall Decor.

Refreshments of chips, dips, cake and punch were served by Alta Alexander and Polly Odom to Mmes. Margaret Livingston, Annie Mae Smith, Carol Nelson, Ann Lewis, Mae Underwood, Rosalie Glenn, Ella Holt, Clyde Allen, Tennsy Cook, Dorothy Harris, Entha Campbell, Mary Alice

when you dial a number.

"As It Looks From Here" **OMAR BURLESON** Congressman 17th District

PEOPLE ARE ASKING IF WASHINGTON HAS received the "message" from California's adoption of Proposition 13. The answer is definitely yes.

AS A MATTER OF FACT FOR THE LAST SEVERAL MONTHS momentum has been gathering for the reduction of taxes at all levels of Government. The California action is spurring efforts in many States, including our own State of Texas, to reduce taxes. On the Federal level there is reasonable certainty that when a tax bill is enacted by the Congress, there will be a reduction of approximately \$15 billion- \$10 billion for individual taxpayers and \$5

billion for business THERE IS ALSO GREAT MOMENTUM TO REDUCE TAX ON CAPITAL GAINS from its present rate of about 49 percent to at least 35 percent or possibly to 25 percent, which was the rate

before the tax act of 1969 WHEN A TAX BILL IS BROUGHT UP

BEFORE THE year is out, there will be a proposal to cut income taxes by as much as one third. This is known as the Kemp- Roth Amendment which we will, in the looking already

raise money is through the sale of bonds voted by the Federal the people; Government can either turn the crank at the Federal reserve and issue more paper money or go out into

local governments, their treasuries at this time, budget, and one State is in

deficit. But, the Federal Government with its huge National debt and a deficit hovering between \$50 and \$60 billion will be called upon to make up the difference to finance programs at levels before tax cuts were made.

THE POINT HERE IS THAT IT IS MORE POPULAR reducing taxes, than reducing expenditures. EVERYONE HAS THEIR

CUTS IN SPENDING should be made. Some want to cut on defense preparedness by eliminating some of the most modern weapons. We know that Social Security is not going to be trimmed and no one really believes that our expensive unemployment

compensationsystem, costing \$20 billion, is going to be appreciatively cut back.

THOSE FROM THE CITIES THINK THAT A CRACKDOWN SHOULD supports, others believe that our interestate highway system, the finest in the world, should be practically eliminated, while some feel that more money instead of less should go into enprotection, vironmental industrial safety, and public

NO ONE BELIVES THAT VETERANS BENEFITS ARE GOING TO BE tampered with and so on and on it g goes with not very much said about how all these obligations, authorized for four or five years in advance, a are really going to be shrunk to the point of real

JUSTICE OLIVER WENDELL HOLMES ONCE SAID THAT HE WAS glad to pay taxes. They were, he said, his "investment in civilization." Most people probably feel this way too, but as we have said in this space time and again, the real complaint should be how our hard earned tax money is spent. So, firing one barrel at tax reductions is half the answer; the other has to shoot down high spending.

CONSIDERATION IDEAS ABOUT WHERE

meantime, be hearing a great deal about. There is no question that people are fed up with big Government, big spending, and big taxes. The weakness in these proposals for tax reductions is the usual failure to relate it to spending. In the case of California, the State is Washington for money to make up revenues lost by the property tax decrease recently voted. New York City has led the Nation in asking the Federal Government to bail them out of their bankrupt situation. Aisde from taxes, the only way a State or municipality can

borrow it. THROUGH REVENUE SHARING AND GRANTS OF VARIOUS KINDS Federal Government is already contributing substantial part in support of State and local governments. As taxes are reduced by

the money market and

Washington will be looked to more and more to make up the difference in the cost of various program. Fortyfour States have a surplus in five States have a balanced

Dorothy Diddle To Be Presented

Dorothy Diddle of Rising Star High School will be presented a service award by the Vocational Homemaking Teachers Association of Texas at the organization's awards banquet at the Dallas Hilton Hotel July 26. The award is in recognition of her service to the teaching profession as well as to the VHTAT.

Ms. Diddle, a teacher in the Rising Star High School, will also participate in a four day State Inservice Conference for the professional development of vocational homemaking teachers. The conference, planned by the Homemaking Education Division, Texas Education Agency, will feature twentyone special interest sessions providing opportunities for the home economists to learn ways to integrate new knowledge and techniques into their teaching. Nationally known authorities in

Service Award

business and education will conduct sessions on energy, student motivation, nutrition, sex stereotyping, managing metrics, consumer buying skills and consumer affairs careers, student success in the food service busness, and education for parenthood.

According to Ms. Caroline Bode, of San Antonio, President of VHTAT, more than 2800 teachers are expected to attend the conference.

Mrs. Diddle will also assist with registration for the State Inservice Education Conference for Homemaking Teachers from 11:30 a.m. to 2:30 p.m. Monday, July 24, 1978. Registration will be in the North Hall on Level 2 of the Dallas Convention Center.
