SPEAKER FULLER CALLS LEGISLATURE

To Consider Impeachment of Governor Ferguson.

HOUSTON, Texas, July 23.—F. O. Fuller, speaker of the house of representatives, today issued a call to the members of the house of representatives to assemble in extraordinary session at Austin on Aug. 1 to consider whether articles of impeachment shall be presented against Gov. Jas. E. Ferguson. Speaker Fuller specifies four charges and states that others will be filed after the house gets in session. At the same time Speaker Fuller and Lieutenant Governor Hobby made public affidavits in which they charged that Governor Ferguson deliberately misrepresented matters to them and secured their signatures to a statement that the award of the west Texas Agricultural and Mechanical college was fair and final. In these affidavits both officials are very plain in their statements that to each of them Governor Ferguson misrepresented the other's attitude; and each of them now repudiates their signatures as having been procured in a manner in which they did not sanction. In his call for the extra session of the house Speaker Fuller uses this language:

Text of Call to Representatives.

"The University of Texas cannot be maintained and supported on the salary of one man and no deficiency can be based on such an item. The attorney general has held that the veto was not effective, but before a test of that question can be had in the courts the fall term of the university will be passed and the governor has declared that the University of Texas will not open its doors until every member of the faculty to whom he objects is expelled. He has charged the faculty generally of being graft-eaters and traitors and in my judgment without reason. He has sought to substitute his own will for the judgment of the board of regents, demanding of them that members of the faculty be dismissed, even without a hearing, thus seeking to override the law. He has removed members of the board of regents without good and sufficient cause in order to appoint some one who will carry out his own wishes and has sought to substitute only his unbridled will in place of their lawful judgment. By section 28 of the bill of rights no power of suspending laws is lodged in the governor, but he has sought to suspend them and have them set aside to suit his own desire. "The last legislature provided for a committee to locate a west Texas A. & M. College. When the committee met three votes were announced for Abilene when only two were cast for Abilene, according to affidavits filed. When three members of the five of the board called for a reconvening and a recount the governor stood alone against it. Finally a statement was given out by the members of the board. That statement was based upon absolute misrepresentations by the governor to at least two members of the committee, who would not otherwise have signed. During the investigation by the legislature of the governor's acts he testified that he would refund the money to the state which he had taken without lawful authority, in case the court so decided. He has failed to do so and the courts have long ago decided against his contentions."

The call was issued today. There is no specific authority in the constitution or the statutes Speaker Fuller acting under advice of attorneys that precedent in Sulzer case will hold.

COMPTROLLER TERRELL TO SPEAK

Hon. H. B. Terrell, state comptroller, has been invited to formally open the fair and encampment next Tuesday morning. Mr. Terrell is one of the best known public men in the state. He is also one of the most widely known newspaper men, owning a string of four or five local and state papers. He is now serving his second term as comptroller and is a candidate for governor in the next democratic primary. He will likely have something to say on some of the state questions of public interest in his fair speech.

Bob Andrew wants to sell you your saddle. You will find him at the Fair Grounds during fair week.

FAIR AND RE-UNION NEXT WEEK

The fifteenth annual fair and encampment will be formally opened next Tuesday morning. Preparations are nearing the state of perfection. The entertainment this year will excel by far that of any previous year.

The biggest added attraction will be the entertainment of the Mountain Remnant Brigade of Confederate Veterans. This reunion will begin Wednesday and continue for three days, closing Friday with the last day of the fair. The welcome address to the veterans will be delivered by Hon. J. K. Rector, Jr., and this will be responded to by Col. A. R. McNinn, commanding officer of the Brigade.

The camp grounds are already a veritable city of tents. The people will camp on the grounds as never before. The shade and water are plentiful and are free. Before this is read by many News readers exhibits will be being placed in their places.

The races promise to be the best ever. There are more horses here than for a long time. They have come the last week from San Angelo, Mart, Fredericksburg, Gainsville and other places. There are racers and harness horses galore. The stalls are most all of them taken and there are others yet to come. The old Confederate veterans will be given a cart blanch pass to all the races, the ball games, the moving picture show and in short the Secretary of the fair tells the News reporter that the Johnnies will be the ace, the queen, the king, the jack; in fact the whole darn pack.

LEASES RANCH

A deal was closed the first of the week by which P. H. Walker bought the cattle of J. G. Atkinson and T. Y. Parham and also leased the Parham ranch on Wallace creek for the balance of this and next year. The exchange was made Monday. Mr. Atkinson and family will move to Brownwood in the near future. They go to put their daughter, Miss Mary Gregg, in college. She graduated from the high school last year.

E. T. Stobaugh has been in Dallas this week buying goods for his store.

G. A. Arhelger has installed a pretty new show case for displaying automobile accessories in the office at his garage.

S. Z. Park reports the sale of four Grant Six cars the past week. One each to A. R. Hill, W. H. Hinyard, A. R. Mosley and T. A. Murray.

Bobby Noble is visiting in San Antonio. He accompanied his grandfather, R. E. Noble, home last week.

ANOTHER COUNTRY IN THE WAR

LONDON, July 22.—Siam has declared that a state of war exists with Germany and Austria, according to a Reuter's dispatch from Bangkok. Nine steamers aggregating 19,000 tons have been seized. The object of Siam's declaration is "to uphold the sanctity of international rights against nations showing contempt for the principles of humanity and respect for small states." All Germans and Austrians the dispatch adds, have been placed under arrest and their businesses closed. Siam, "the land of the free," a kingdom of south-eastern Asia, has a population variously estimated at between 5,000,000 and 10,000,000; it is probably more than 8,000,000. The peace strength of the army is about 12,000 men, while the navy consists nominally of twenty-one vessels, all of small size.

THE KAISER'S TITLES.

Friendly and Hostile Epithets Applied to War Lord by Newspapers.

Being a "constant reader" not only of the Public Ledger but of all sorts and conditions of periodicals. I have especially devoted myself to nothing the titles which have been assigned to the emperor of Germany by writers of all ranks and races, and I send you those which I have preserved to date, gathered since the Austrian ultimatum to Servia:

Krazy Kaiser, Royal Busybody, German Poohbah, Mad Dog of Europe, Mad Mullah of Europe, Modern Nero, Mad Boar of Prussia, Imperial Lunatic, William the Wonderful, The Universal Lawgiver, The Wild Man of Europe, The German Moses, The Modern Solomon, the German Moloche, The Last Kaiser, The Maniac Emperor, The Monumental Murderer, That Sublime Egotist, That Menace to Mankind, The Image of Cheek, War Lord of Europe, Overlord of Europe, Curse of His Country, Arch-Criminal of His Race, The Colossal Blunderer, The Blight of Europe, The Mimic Napoleon, The Great Hypnotist, The Iron Autocrat, The Trigger of Europe, The Know-it-All, The Meddler of Potsdam, The General Nuisance, Nosey Willie, Big Head Bill, The Common Enemy, The Rattlesnake of Europe.—Letter in Philadelphia Ledger.

Joe A. Williams, one of the directors of the fair association remembered an old friend back in Arkansas and sent him a fair catalogue. By return mail he received an acknowledgment of its receipt and also a statement that "I will be there. Look for me about Saturday or Sunday." There is nothing like these little courtesies to bring people to the San Saba wonderland.

JUDGE CHAS. H. JENKINS COMING

To Deliver Annual Veterans' Address First Day of Reunion.

Hon. C. H. Jenkins, formerly of Brownwood now an Associate Justice of the Third Court of Civil Appeals of Austin, has accepted an invitation to deliver the annual address to the reunion of the Mountain Remnant Brigade of Confederate Veterans the first day of the reunion, the second day of the fair. The address, it is presumed, will be delivered at the reunion grounds in the Fair Park Wednesday, August 1st.

Judge Jenkins is an orator of state reputation. He is a just and able judge, a companionable friend and is at home with the veterans who followed Lee and Jackson during the historic days of the Confederacy.

The first day of the reunion will be one of the big days of the big double event—the fair and reunion.

G. A. Arhelger reports the sale of a Buick six roadster to G. W. Gray the first of the week.

CATCHING THE BOLL WEEVIL

The editor of the News had the pleasure of witnessing a demonstration of the Hitt Boll Weevil Catcher Tuesday morning. This was in the field of Frank Johnson two miles west of town. Mr. Johnson has watered his cotton twice and has a beautiful field of the fleecy staple. The Hitt catches the weevil alright, alright. However there is very few weevil in the Johnson cotton. Some two dozen people were present to watch the demonstration. Some came to get a line on the damage the weevil are calculated to do to the present crop. Others came to see the Hitt in operation. Several farmers had inspected the cotton and could find no weevil. But when the catcher was put in operation and went a couple had him nabbed. The weevil and weevil catcher get the weevil if he is in the patch, and there is no getting away from that proposition.

Raymond Estep reports the sale of a Dort touring car to Misses Eula and Lora Hanna at Cherkee.

Mrs. T. M. Harwood is visiting Mr. and Mrs. Frank Paxton at Cherkee and Mrs. J. W. Longley in San Saba.

R. W. Burselson, cashier of the City National Bank, is taking his vacation. He and family are spending the time with the former's sister, Mrs. Worth Price, near Waco. They were accompanied there by Postmaster, J. W. Longley, and mother, who returned Tuesday.

STREET WORK NOW COMPLETE

The street work and clean-up campaign is now completed and the old town presents a different appearance. Some 60 loads of rubbish were hauled off the first of the week. D. Chadwick, street superintendent, had had a force of hands cutting all the weeds and brush out of the streets and allies and this, too, is in the dump grounds. Mr. Chadwick will have charge of the street sprinkling from town to the Fair Grounds during the fair and reunion. He already has a force organized for this work. There will be no dust to bother the people going to and coming from the reunion grounds.

Commissioner Williams and Mr. Chadwick are also pushing the work of grading the public road south of town towards Cherokee. This will be in fine condition for the fair and reunion visitors.

U. S. DECLINES TO JOIN ALLIES IN CONFERENCE

Washington, July 19.—The United States has been officially invited by the allied governments to participate in the interallied conference to be held in Paris some time this month but has decided that for the present it will not be necessary to take part in such meetings not directly affecting this country's part in the war.

It was officially explained at the state department that while this course was followed at present it was not to be taken as an indication of a permanent policy.

The Paris conference was stated in the invitation to be largely military and upon the Balkan situation. The United States at present has no direct interest in that question, it was stated, except as it reacts upon the whole war situation. It is not deemed necessary for this country to interfere in military and diplomatic question with which it has no immediate concern. Nevertheless, it is realized that as a final settlement of the world States will have to become increasingly important in its attempt to secure a just peace which shall free the world from causes of future wars.

On that basis the government is examining the various plans of reconstruction suggested and will, when it deems the moment suggest adjustment.

U. M. Sanderson and family and R. A. Brite motored over to the big revival meeting at Iron Spur near Llano Sunday. Dr. Truett of Dallas is holding the meeting and great crowds are reported to be attending. Mr. Sanderson and Dr. Truett were school mates at Vanderbilt when young men and had not met for many years.

RUSSIAN LINES APPARENTLY CRUMBLING

Germans and Austrians Making Good Gains Over Demoralized Muscovites in Galicia.

The French and Russian fronts continue to be the scenes of the greatest activity.

In France in the region between Soissons and Rheims the French have again given an exhibition of their tenacious ability at defense, like that which held the Germans back from Verdun in the early part of the war.

The Russian line in Galicia is apparently crumbling by reason of the disaffection of some of the troops and the vigorous assault of the Germans and the Austro-Hungarians, especially the Germans are throwing against it.

Germans Attempt Advance

Notwithstanding the heavy losses the Germans sustained in their early attacks along the Chemin Des Dames in France, they again Sunday made fruitless efforts to defeat General Pe-tain's forces, delivering at various points attacks with large effectives among whom were fresh reinforcements. From Epin-De-Chevreny to the south of Corbeny, approximately twelve miles, the artillery of the crown prince pounded the French positions mercilessly in the morning, after which the leash was slipped from the enemy which attacked on several sectors only to meet with a galling fire from the French rifles and machine guns. Often the opposing troops came close enough for hand to hand encounters. Several times the Germans reached the Casemates plateau, but each time were driven back suffering enormous casualties. Only at one point, on the Calonne plateau, were they able to gain a footing and here the position still is in dispute in a stubborn battle for success.

Russians Fall Back

With the continued forward press of the Germans in the region of Zlochoff, Galicia, the Russian line on the front south of Brzezany is beginning to give way, according to the latest German official communication. The Sereth bridgehead, near Tarnopol, has been reached by the Germans and at several points the railway running from Tarnopol to Kozowa has been taken. The Russians in their retreat have set on fire the town of Tarnopol and villages on the east. Should the Russian line immediately south of Brzezany give way it is probable that the Russians will be forced to retreat from the section of Helicz.

Kerensky and the Kaiser

M. Kerensky, the Russian premier, who personally led the Russian forces when they started in their offensive in Galicia early in July, again has gone to the fighting front, probably in an effort to put down the disaffection among the troops and have them face the enemy again. A proclamation issued by the Russian provisional government recognizes the seriousness of the situation and announces that it is its duty to throw its entire strength against the foe and defend the administration against counter revolutionary attempts. Emperor William is also reported to have started for the eastern front.

INDIAN WAR PENSIONS

ATLANTA, Ga., July 8.—On March 4, 1917, the president signed what is known as the "Indian war pension bill" granting a pension of \$20 per month to all soldiers, regular and volunteers, who served in the campaigns against the Indians from 1859 to 1891, and who have reached the age of 62 year and \$12 per month to widows of such soldiers, regardless of age.

The new law refers especially to Texas volunteers, who served in defense of that state from Jan. 1, 1859, to Jan. 1, 1861, both years inclusive, and from 1866 to 1876; such soldiers are not required to be 62 years of age.

This new law also applies to Confederate soldiers and widows who had United States service. Being a member of the national Indian war veterans I am anxious that all entitled get their just dues and any interested who will write me, including stamps for reply, will receive full printed copy of the new law and any help I am able to offer. MOST BUILT SPEEDIER SHIPS ELSE LOSE WAR, DECLARED

New York, July 19.—Danger from submarines is virtually non-existent if the vessels can obtain a speed of 20 knots an hour, according to charts displayed at a ship building conference here today. The figures were shown to lend emphasis to a demand that the ship construction controversy be settled immediately and that the vessels built, either of steel or wood, be so constructed that they can make at least 16 knots an hour. The chart showed that 100 per cent of vessels with a speed of 5 knots or less which have been attacked by submarines have been sunk. The percentage of losses decreases steadily as the speed of the ship increases. At 16 knots an hour the percentage sunk has been about 25.

"If the present rate of sinking is maintained without the full force of our industrial efforts there can be only one conclusion and that is that we shall lose the war," declared E. H. Outerbridge, president of the chamber, in outlining the seriousness of the submarine campaign. The conference was not concerned, he said, as to whether ships were built of wood or steel, but its chief concern was to care for the needs of the nation's allies and the American troops abroad.

SPECIAL ELECTION NOTICE
PURSUANT TO AN ORDER issued by James E. Ferguson, Governor of the State of Texas, notice is hereby given that a Special Election will be held on Tuesday, the 21st day of August, A. D. 1917, at the polling places of the several election precincts in San Saba County, Texas, for the purpose of voting upon the following proposed Amendments to the Constitution, to wit:

"For the Amendment of Article 16, of the Constitution of the State of Texas, Providing for Conservation Districts, the Creation of such Districts and their Government and Regulation."

"Against the Amendment of Article 16, of the Constitution of the State of Texas, Providing for Conservation Districts, the Creation of such Districts and their Government and Regulation."

WIFE OF CHICKENS, LADY SHOULD WORRY ABOUT WAR

Mrs. Minnie Peters, wife of E. J. D. Peters, who live about eight miles from Brady on the Eden road, has a system that makes the celebrated High Cost of living like the proverbial "thirty cents" in comparison. She has this spring hatched off and raised 2000 spring chickens, which are just now getting ripe and will be ready for the market in a few days. The Peters farm is admirably adapted for the raising of chickens, and Mrs. Peters says that she has raised this large crop of fryers with very little trouble and no great expense. In talking to a party of Brady folks who went out to the farm to see the chickens, Mrs. Peters said that she was just experimenting this year and that next year she is really going to raise some chickens.

On the present market this bunch of chickens would easily be worth \$700, which is a right nice little bunch of pocket change to be realized on a crop of spring chickens. We commend Mrs. Peters for her enterprise and congratulate her on her success, and here's hoping that more of our readers will try the plan.—Brady Sentinel.

A Fighting Buach.
Washington, July 19.—The fighting equipment of Uncle Sam has been augmented by the enlistment of two "Winchesters" who joined the U. S. marines today. This name will be added to the roster along with Remington, Marlin, Smith and Wesson, and other potential sharpshooters who recently joined the "soldiers of the sea."

Almost every firearm and rifle manufacturer is represented by a namesake in the marine corps. Oddly enough, "Springfield" the rifle with which the U. S. military forces are equipped, has, as yet no namesake in the ranks of the fighting sea-soldiers.

CARD OF THANKS
In these sad hours of sorrow and grief the words and kindly deeds of so many friends have been most precious. We desire to express our sincere and heartfelt appreciation to the many hearts who helped us after our dear beloved son and brother was shot. May God bless you all.
Mr. and Mrs. L. H. Deyton and Sisters.

UNCLE SAM SUGGESTS

(From National Food Magazine)
Don't be finicky. Be willing to try new foods. Certain plentiful and nourishing foods widely used and enjoyed in one section are practically unknown in another section of the country. Learn to know all the good things, not a few only.

People too easily get into food ruts; insist on eating only the food they are used to, and refuse to give a fair trial to others. This causes undue demand for certain staples, with resulting scarcity or high prices when the crops are short. At the same time other valuable foods may be relatively cheap and available. A striking instance of this failure fully to appreciate rice—a valuable source of starch—when potatoes are scarce and high. Another example is refusal in certain sections to use anything but wheat as a breadstuff, when corn—a valuable cereal widely used elsewhere as a breadstuff—is plentiful and relatively cheap.

Learn how to cook all kinds of staple foods and to serve them in a variety of ways. Simple dishes well prepared are better than expensive foods badly cooked.

Many persons are prejudiced against certain good foods because, when first tried, the foods were improperly cooked or prepared.

Remove from your vocabulary "don't like" or "can't eat."

Most individuals' prejudices against widely popular foods are either imaginary or baseless.

Try to like every simple food; give it a fair trial.

BURNET TO GET STATE HIGHWAY

(From Burnet Bulletin)

Judge Smith and Commissioners Everett, Maxwell and Riggs attended the meeting of the State Highway Commission held in Austin Tuesday. With others they succeeded in inducing the Commission to agree to build a State Highway from Austin through Cedar Park, Leander, Liberty Hill, Bertram, Burnet, Bluffton, Llano and connecting with the Puget Sound Highway at Mason. This is good work on the part of these gentlemen and the Bulletin congratulates them. We are not informed as to the plans and other particulars in regard to the road.

ALLISON-HENRY NUPTIALS.

A lovely scene was presented on Saturday evening at the First Methodist church when Miss Mary Allison became the bride of Mr. William B. Henry, thus culminating a romance began in their childhood. The altar was made beautiful by banked ferns and baskets of flowers. The aisles were marked by baskets of daisies ornamented with bows of blue and gold, the chosen colors for the occasion.

As a prenuptial song, Mrs. Roach sang very sweetly "God Make Thee Mine," by Haden Wood; then Mrs. Granbery at the organ touched the strains of Mendelssohn's wedding march and the bridal party entered.

Leading down the right aisle came Miss Annie Craig, wearing a gown of golden messaline with lace trimmings. Mr. Rush Allison led down the left aisle. Miss Delza Harvick came next in a gown of golden crepe de chine with gold lace trimmings. Opposite her came Mr. Marshall Richardson. The maid of honor, Miss Irene Lewis, of Fredericksburg, entered gowned in a blue crepe de chine dress. The matron of honor, Mrs. Walter A. Collins, sister of the bride, wore a gown of white crepe de chine with lace and pearl trimmings.

Immediately preceding the bride was the flower girl, her niece, little Miss Margaret Black, who looked very sweet dressed in a white net over silk with taffeta bodice ornamented with gold satin rosebuds. Opposite her was Master Jack Burcham in white who carried the ring on a satin pillow. Last came the lovely bride leaning on the arm of her father, Judge W. M. Allison, who met the groom and his best man, Mr. C. K. Bell, of Austin, at the altar and there resigned his daughter to the groom. The bride was lovely in a gown of white charmeuse and gorgette with court train and trimmings of silver lace. Her veil was fastened with orange blossoms. The bride carried a bouquet of shasta daisies and ferns showered with ribbons and ferns. Her attendant also carried bouquets of the same flower.

The impressive ring service was read by the Rev. Mr. Black. During the ceremony Mrs. Granbery played softly.

Immediately after the ceremony the happy couple left in an automobile for Austin, where they took the train for Galveston where they will visit a while, returning by way of Houston to Austin, their future home.

The bride wore a traveling suit of

blue faille silk with grey boots and hat to harmonize.

The bride, Miss Allison is the youngest daughter of Judge and Mrs. W. M. Allison, is a graduate of Southwestern University and has lived in Georgetown for a number of years where she has made many warm friends by her lovely womanly character. The groom is a worthy and reliable salesman for McKean Eilers & Co., of Austin.

The out of town guests who attended the wedding were: Rev. and Mrs. J. W. Black, of Alice; Mr. and Mrs. W. A. Collins, of San Antonio; Mrs. C. F. Henry, San Saba; Mrs. R. R. Lowe, and daughters, Misses Mamie and Pauline Lowe, of San Saba; Miss Aline Lewis, of Fredericksburg, and Mr. Kellar Bell, of Austin.—A Friend in Georgetown Commercial.

N. C. Walker and Winston Edwards, Jr., are attending the Tennis Meet for the Southwest this week. Mr. Walker will play in some of the fastest matched games. Winston may play in some of the junior games.

Bevo
A BEVERAGE

Look for this Fox on each crown top

Watch!!!

For some years, various and sundry concerns have been making beverages which are grouped under the general description of "near-beer." Then came Bevo—a cereal beverage, not a "near-beer," but offered purely for what it is—a delightful, wholesome and nutritious drink. Bevo met with instant and complete success. A whirlwind success.

Owing to Bevo's popularity, some beverages are now being offered in a way to make the appearance of the package look as much like the Bevo bottle as possible. The intention is obvious. But you don't taste the shape of a bottle—it's the flavor of the contents of the bottle that you must depend upon for enjoyment.

Then beware of impersonators—don't be satisfied to try to identify Bevo by the shape of the bottle alone—

Look !!

There are these certain identification marks that are your protection against imitations. Not just imitations of the product, remember—but those more insinuating imitations which try to deceive you by putting an old failure into a bottle similar to a new success. So look for these unmistakable marks of the genuine Bevo—demand that the bottle be opened in front of you, then—

Look for the Seal

See that it is unbroken covering the Crown Top. Look at the Crown Top and see that it bears the Fox. Be sure the Bottle bears this label

Listen!

Bevo is a pure drink. This means more than that it contains pure ingredients—it means that though you might often well be afraid of possible germs in milk or water, Bevo, being a pasteurized product in sterilized bottles, is absolutely free from bacteria.

Bevo is a nutritive beverage—the fine cereals from which it is made give it this quality.

Bevo is a delightful and refreshing soft drink—unlike any you have ever tasted—indeed a Triumph in Soft Drinks.

You can't get these good qualities in anything but Bevo—demand the genuine.

You will find Bevo at inns, cafeterias, restaurants, groceries, department and drug stores, soda fountains, dining cars, steamships, canteens, soldiers' homes, navy, and other places where refreshing beverages are sold. Your grocer will supply you by the case. Bevo is sold in bottles only—and is bottled exclusively by

ABOUT CHEWING GUM

Chewing Gum, of the present day and generation, is made of Chicle as a base, Chicle being a Gum from a tree growing in Mexico and Central America. All Good Gum is now made from Chicle.

Chewing Gum used to be made from Coal Oil, Blue Gum Sap, Rosin and "Stretch Berry."

The secret of making Good Gum is in the Cooking of the Chicle during which process the Flavor is added.

High Grade Gum contains More Chicle—Low Grade Gum contains Less Chicle.

We manufacture PURE CHICLE Gum, Expertly Treated and Deliciously Flavored, and under Highly Sanitary Conditions—No Human Hand Ever Touches Our Gum.

Measure the Quantity of CHICLE your Gum contains after the "Sweetness has been chewed out"—Not how long the Flavor lasts.

Didn't Worry Him Any.

The detectives were giving the prisoner the third degree in a room at Police Headquarters. They had kept him awake for 24 hours, and every time he would start to doze off they would shake him and pester him with questions. They kept this up for six hours and then gave up in disgust.

"We can't do anything with that fellow," reported one of the tormentors to the Chief of Detectives. "He must be an old married man."

"Why, what's the matter?" asked the Chief.

"Every time he dozes off and we shake him and ask him questions he merely," replies: "Yes, Mary, you're right," replied the tormentor. "He is used to being nagged."

This Case Has a Hint for Many News Readers

This San Saba woman has used Doan's Kidney Pills. She has found them as represented. She wishes her neighbors to know. She publicly recommends them. No need to look further for a tested kidney remedy.

The proof of merit is here and can be investigated.

Profit by the statement of Miss Della Masey. She says: "My back hurt me most of the time. I felt dull and drowsy, and was extremely nervous. I used Doan's Kidney Pills, procured from the Corner Drug Store and I could soon see that the discomfort in my back was letting up and I was feeling better in every way. I used one box of Doan's and I was benefited greatly."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Miss Masey had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

Mrs. F. S. C. Peisker is in receipt of a letter from her son, Fred, who has joined the U. S. Marines and is now at the training camp on Mare Island near San Francisco. He says he is enjoying the best of health. He enlisted for the period of the war and will be kept in training for nine weeks and will then be assigned to some ship in the navy. Fred says the marines are treated fine; have plenty to eat and that is good, have a good place to sleep and of course are put through a strict course of drill.

THE GORDIAN KNOT

As the old legend goes, the father of the Greek King Midas, once king of Phrygia, was originally a poor peasant. The people of Phrygia being much disturbed, an oracle had informed them that a wagon would bring them a king who would put an end to all their troubles. Not long after this saying Gordius (Midas' father) suddenly arrived in the midst of an assembly of the people, riding in his wagon. At once, to the great surprise of Gordius, they made him king. In his gratitude Gordius dedicates the wagon to the god Zeus, and it was placed in the acropolis at Gor-

dium. The pole of the wagon was tied to the yoke by a knot of bark, and a second oracle declared that whoever untied that knot should reign over all Asia. It was Alexander who untied the knot by cutting it with his sword, thus assuming himself to be the man referred to by the oracle.—Farm and Ranch.

SUN-OF-A-GUN

The way to end the war is to wade thru it.

The passage of that aviation bill by congress would indicate that the shortest road to Berlin is thru the air.

Sun-of-a-Gun will be at the fair and reunion next week and this column may be missing. Please don't order the News stopped on that account.

"Did you read the governor's Valley Mills speech," asks a friend. "Shore did." "What do think of it?" says he, My friend this paper has to go thru the mails.

W. F. Owen writes for the News to come to him at Blanchard, Okla. He says that he wants to be posted on the fair for he expects to attend. We are looking for him this week.

Sun-of-a-Gun holds no brief for the administration of the democracy of the nation, state, county or precinct. But as an individual citizen and democrat for annexations, restorations and indemnities at the close of this hideous war.

Another peace proposal from Kaiser William is silhouetted against the skies. A real, genuine peace proposal now, before our "Sammies" get to show their metal, would be the greatest tragedy of the ages. The new German chancellor in his maiden speech to the Reichstag ignores the presence of Pershing's army of veterans in France.

This column belongs exclusively to us. In it we expect to discuss and comment on any subject which comes to our mind or is suggested, and that in our own way. We don't expect everybody to agree with us, tho we do desire to give for the faith that is in us and want to present this in a frank, free and tolerant manner. Outside of this particular column we want this paper to be strictly a news

paper in the highest sense of that term. We want to give the news as it happens without comment or coloring. If you don't agree with what is here writ then tell somebody about it. We want people to know that you disagree with us some-times.

Now comes Sam P. Harben, secretary of the Texas Press Association, and assures Andrew McBeath, the gifted writer who fills the "Texas Press" in the Temple Telegram daily, that his poem read at the Galveston meeting was a rare gem "of purest ray serene" or words to that effect. We are glad of this. Possibly not so much because it is a deserved compliment to our friend and brother newspaper man, but it is a belated approval of our own bold stand immediately after the Galveston meet when we declared "positively" that McBeath read a poem. As the months and years go by more people are going to appreciate the gems of thought in that poem.

THE MAN OF THE HOUR.

It is no idle compliment to say that those who saw General Pershing land at Liverpool were deeply impressed with the bearing of the man whom America had sent over the water to help the Allies. A tall, broad-shouldered man, he bore himself with that curious erectness which results from the training given in the American Army. He has the sort of jaw which indicates iron determination, but there is nothing hard about his face. On the contrary it betrays great kindness. The general conveys a sense of great power, and his record shows that he combines the qualities of statesman with those of soldier. Especially he conveys an atmosphere of the utmost lucidity of thought. Among soldiers he clearly belongs to the class of thinkers. His combination of frankness and goodfellowship with the dignity of manner which characterizes so many American soldiers, should make him an extremely suitable representative of his country in the ranks of her allies. Above all he is deeply imbued with a conviction of the greatness of the issues which have brought America into the war. The representative of this paper, who had the pleasure of a short chat with the general as the special train sped on its way to London, carried that away from the conversation as his strongest impression. There can be little doubt that General Pershing will worthily uphold the honor of American arms, and that he may do so is certainly the heartfelt wish of every Entente citizen.—London Correspondent Christian Science Monitor.

UNCLE SAM SUGGESTS

(From National Food Magazine)

"on the hoof". The Department of Agriculture had proved that a 40-bushel crop of Spanish peanuts would produce more than 400 pounds of pork to the acre, and supplied a good ration that needed only a little topping off with corn to harden the meat. Furthermore, if the peanut hay is harvested before the hogs are turned in, the hay alone almost pays for the growing of the crop, because it furnishes a palatable food to which all kinds of stock will turn eagerly from any other kind of hay. And if that were not enough, the peanuts, in common with other legumes, bear nodules on their roots which gather nitrogen from the air and put it in the soil.

The South has a great deal of sandy soil, and in many sections corn succumbs to the dry weather just at the time when it most needs moisture. Such soils in such sections furnish just the right conditions for peanuts, which requires less rain than corn. If the peanut could choose its own bed, it would pick sandy lands as just the right place.

Peanut Oil Market
Peanut oil promises to be in greater demand than ever before because, according to the Department of Agriculture authorities, it is one of the most important of the world's food oils, and doubly important under present conditions. With European imports cut off and a scarcity of cottonseed oil there is every assurance of a considerable demand at good prices. American mills, however, are not getting the best prices for their product because they do not shell and clean the nuts and remove the germs. Where this is done, and the first pressing is made without heating the material, the extracted oil is clear and clean and equal in quality to the finest imported olive oil, though of a different and more nut-like flavor. To many persons it is more palatable than olive oil.

The Spanish type of peanut should be grown for oil, and the only additional equipment needed is that used in peanut cleaning and shelling factories. Peanut meal, left as a by-product of oil extraction, is a very nutritious stock feed.

A Balanced Agriculture.
The department's advice is not to substitute peanuts for cotton and thus maintain the uneconomic system of one-crop agriculture. On the contrary, the advice is to utilize the

mut in certain sections by making a part of a well-balanced agriculture and especially by using it in cases of serious boll-weevil depredation as part insurance against cotton losses. The farmer need not hesitate to plant a somewhat larger acreage than his present needs for hogs and cattle feed. If the price happens to be low, he can buy more hogs to market the peanuts in that way; the price happens to be high, he can sell the surplus to advantage. He can raise peanuts year in and year out the sole money crop would be as wise as to depend upon cotton one.

WHERE CORN HAS BEEN DESTROYED BY DROUGHT

The following suggestions to the Texas farmers have been prepared by the Extension Service of the A. & M. College of Texas. The curing and storing of the corn crop as feed and utilizing of every energy in the production of a feed crop where the corn has been destroyed is exceedingly important under prospective conditions.

In certain sections of the state the recent severe droughts have destroyed a large per cent of the corn crop and in view of the unusual demands for feed for livestock farmers should immediately arrange to cut such corn as may be practically destroyed curing if for roughage or storing in silo. Arrangements should be made to plant these fields to June corn, sorghum, cow peas or peanuts as soon as the present crop has been removed.

It is suggested that the best method of preparing the soil for this planting will be to immediately plow out the old corn stubble with a lister, following this with a planter. Plant in a deep list, but cover shallow. The seed planted will not germinate until after a rain but if planted at this time there is not sufficient moisture in the soil to injure the germinating quantities of the seed therefore they will lie dormant until such time as sufficient moisture falls to germinate them. After a rain they will immediately germinate and much valuable time be gained.

In this connection great care should be exercised not to cover the seed too deep as heavy rains would have a tendency to wash soil over the seed and if they should be covered in this way to too great a depth, a very poor stand will be secured even after a good rain.

All energies possible should be exercised to grow a feed crop of some kind where the corn crop has been destroyed and there is sufficient time to grow a reasonably good crop of the kinds suggested provided immediate action is taken. The harvest corn will make a fairly good grade of roughage. If silos are available this young corn will make a fairly good grade of ensilage and should be saved in this way as it will have considerably more feeding value as silage than if cured.

If land is planted in June corn rows should be six or seven feet width and a row of cowpeas or peanuts may be planted between the corn. This will practically assure at least a half crop of feed for if the June corn should fail to make a reasonably good crop the cowpeas or peanuts may be depended upon for a partial crop. After rains the cultivation should be rapid and thorough with an implement that will keep a good dust mulch at all times. Cultivation should be repeated immediately after each rain until late planted crop is practically matured.—Bulletin.

SOCIETY

MRS. GREER ENTERTAINS.

PARTY ANNOUNCEMENT

On Saturday evening from four to six Mrs. D. J. Mood was hostess at Mrs. A. R. Kuykendall's lovely home in honor of her niece, Miss Alva Kuykendall, whose approaching marriage was announced to Rev. E. J. Harris, of Dallas.

The house was beautifully decorated with masses of cut flowers and banks of luxuriant ferns and mosses. As each guest arrived she was asked to register her name in the bride's book—leaving a recipe.

The announcement was a lovely and dainty affair, a contest was most mysterious and suggested a bride-to-be—"The Wedding of the Flowers." The prize was won by Miss Florence Lehmborg. In the prize was concealed the names—E. J. H. and A. M. K., Aug. 21, 1917, and also an invitation to the approaching nuptials.

Miss Florence Lehmborg then sang "I Love You Truly" after which Miss Annie May Kuykendall played a piano solo followed by a reading by Miss Melba Milcox.

Refreshments consisted of delicious cherry ice cream and white cake. The large dining room made a refreshing picture—filled to overflowing with fragrant flowers, banks of ferns and a bevy of happy, langhinb girls. In the center of all moved the sweet young bride-to-be, calm, quiet and dignified among her girlhood friends, she moved happy and joyous. Her dress was of simple white chiffon made on colonial lines.

As the clock struck six each girl whispered joyous messages to the bride-to-be and tripped away, whispering as she went, "May your life be as joyous as you look today." Those present who enjoyed this happy occasion were:

Misses Frankie Borvyn, Lonia, Mattie and Myrtle Perry, Esther and Florence Lehmborg, Kathrine and Stella Gay, Lucille Barber, Melba Milcox, Jessie May Ottinger, Eunice, Lora and Julia Hart, Sue Betty Gray, Ada Sims, Annie May, Kate, Bonnie and Florence Kuykendall, Voncille Macdonald, Marie Barker, Mmes Joe F. AFTER SOMEBODY.

AUSTIN, Tex., July 22.—Governor Ferguson returned to his Bosque county ranch today, but is expected to be in Austin Wednesday to attend the meeting of the state automatic tax board for the purpose of fixing the tax rate. There has been no developments as to the governor's purpose in appearing voluntarily before the Travis county grand jury yesterday. The grand jury, having been granted another week to continue its investigations of matters, which are said to be of state-wide interest, is expected to resume its deliberations tomorrow morning. Rumors are in circulation that the grand jury has had under investigation a state official whose appointment by Governor Ferguson has been rejected by the senate of the Thirty-fifth legislature, and who continues to serve in an official capacity.

LIFE OF TWO MONTHS OLD BABY SAVED

Dr. Tinkle's Baby Bowel Remedy Did the Work.

"My baby, only two months old, took with a severe case of Summer Complaint" so stated C. J. Fourqurean of Winters, Texas. "I tried different remedies, but the child got worse. I sent for a doctor. The medicine he gave seemed to have no effect. It looked as though my child would die. I became alarmed. The physician told me to try Dr. Tinkle's Baby Bowel Remedy, as it was highly recommended for bowel disorders among children. I got a bottle and gave it to my baby according to directions. My baby began to improve at once and got sound and well. Do you blame me for praising Dr. Tinkle's Baby Bowel Remedy? I now keep it among my household remedies and give it at the slightest sign of bowel disorder among my children, and it has never failed to give results."

Watch your babies in hot weather and keep their bowels regulated and digestion good by giving them Dr. Tinkle's Baby Bowel Remedy. Prevents fermentation and promotes digestion. An excellent teething and colic remedy. It is equally as good for diarrhoea in adults.

Ask for Dr. Tinkle's Baby Bowel Remedy, Liver-eze, Healing Oil, Stomach Remedy, Dusting Powder, and Screw Worm Killer, if you want the best.

They are sold in San Saba by The Corner Drug Store, in Algeria by the Algerita Mercantile Co., in Bend by Ed Doss & Son, in Hall by Templeton Bros.

Best bread, cakes, pies, candies can be found at Copper Bakiny Company's west side square.

Reasons!

Why you should use Cardui, the woman's tonic, for your troubles, have been shown in thousands of letters from actual users of this medicine, who speak from personal experience. If the results obtained by other women for so many years have been so uniformly good, why not give Cardui a trial?

ENCAMPMENT Christian Churches

OF THE SAN ANGELO DISTRICT
TO BE HELD AT
SAN SABA, TEXAS
Friday, Aug. 10 to Monday, Aug. 27, 1917

A. D. ROGERS, EVANGELIST

THE ENCAMPMENT

A combination Revival, Chautauqua and Religious Institute to be held at the Fair Grounds Park at San Saba, Texas.

THE PURPOSE

Briefly the Encampment is to have a get-together meeting of all the workers in the Christian Church in West Central Texas and their friends for a few days of religious and social association; to give them an opportunity to attend a revival of "old time religion" and meet and hear many of our leading preachers and workers; to hold conferences together touching matters pertaining to the work of the church; to discuss and hear discussed many of the great problems of Church, Bible School, Mission, Social and Social Service; to hold a genuine revival meeting with the San Saba church—a county seat town, where the local church is weak; to consider the feasibility and practicability of holding an annual encampment in this section of Texas; to come together and learn to know each other better as brethren and co-workers for the Master.

THE PLAN—The plan is to hold services each day on the Grounds—evangelistic services at night, inspirational services at the morning hour and instructive, institutional services in the afternoon. Specialists will have charge of every department of the work.

TEAM WORK—Our team workers will consist of many of our best and ablest men and women of the State. Rev. A. D. Rogers, until recently State Superintendent of Missions, will lead the evangelistic services. Bro. Rogers needs no recommendation to the people of Texas. J. Wes. Boynton of Anson will be our song and choir leader. He is one of our most effective lay workers and song leaders. His part will be done well. We expect to have with us Dr. Waites, president of the Texas Christian University, Clifford S. Weaver, Colby D. Hall, F. G. Jones, president of Midland College, J. T. McKissick, W. M. Williams, editor of the Christian Courier, Arthur A. Evarts, of Dallas; Judge J. M. Rieger, district superintendent and all of the pastors of the churches inside of the district, and many others of our preachers and laymen whose names will be announced later.

J. WESS BOYNTON, SONG AND CHOIR LEADER

THE PLACE—San Saba is the county seat of San Saba county. It is located on the Santa Fe railroad on the Lometa to Eden branch. It is a city of 2,500 population and is peopled with a live, progressive, church and educational-loving people. Its people are hospitable, courteous and generous. The Fair Grounds Park where the encampment will be held is a beautiful shady grove of giant Pecan and Elms in a bend of the river. One of nature's beauty spots. A pumping plant and pipes furnish pure, fresh water to all parts of the grounds. There are beautiful, shady camp grounds adjacent to the meeting park, ample for all comers.

The Christian church here is weak. As this is written it has no pastor, because it is too weak to support one. It needs your help to get on its feet and meet its responsibilities in the christian life of this town and county.

ENTERTAINMENT—Tents and cots may be had on the grounds at reasonable rates, provided you notify Dr. G. A. Wilson, San Saba, in advance, of what you will need. Restaurant facilities for those who do not wish to serve their own meals may be had on the grounds.

IN CONCLUSION

The church needs you. It needs the inspiration of your presence and prayers. Besides the preaching, teaching and singing attendance at this meeting will afford you a splendid outing. The camp grounds are ideal for fishing, bathing and out-door living. A week to two weeks spent here will prove healthful, invigorating and inspiring. Here you may live a few days close to nature and nature's God and dwell in sweet communion with both. Here we hope to form many sweet, companionable friendships and enjoy real christian fellowship with friends and brethren. A rest, an outing and the real genuine pleasure of listening to the preaching of the ablest and best men engaged in christian work and the joy of seeing your loved ones and those of your friends come to Christ and you have spent a three weeks of pleasure and profit to yourself and honor to your God.

A UNIVERSITY FOR THE PEOPLE

(From Farm and Ranch)

Our public free schools are the "bulwarks of liberty". They are where the boys and girls of the country receive their training, a large per cent never going higher than the public school course. Rural public schools are the hope of ambitious boys and girls for in these schools they must receive inspiration and instruction sufficient to enable them to enter higher institutions of learning, or meet their duties as citizens as best they can without higher training.

The University of Texas was established for the boys and girls of limited means as a part of the public school system. It was intended for ambitious young people of limited means who wish to qualify as leaders in the various occupations where greater services could be rendered. The wealthy are not interested in the University of Texas because they are able to send to institutions elsewhere and pay for educational advantages for their sons and daughters.

Educational and religious institutions are the foundation of our civilization and the balance wheel of good government. Every citizen should be proud of them and anxious to render them assistance.

Farm and Ranch regrets the unfortunate interference of the governor for control of the University of Texas. Neither politics nor personalities should enter into the management of the people's educational institutions. The board of regents should be permitted to manage the university without political or partisan interference.

Much of the progress we have made in science, agriculture and business during recent years doubtless could be traced to our schools, colleges and universities. It would be unfortunate indeed if politicians are permitted to injure our educational institutions.

The people of Texas believe in education and they want their sons and daughters to have advantages equal to those of any state. Will they permit their university to be closed or hampered by political interference? Are they willing for the university to be used to build up a political machine or to punish political and personal enemies of the governor?

R. J. Andrew has not put the advance that the materials justify, but is holding down his prices to make the San Saba Fair before raising again.

TEACH ADVERTISING IN SCHOOLS

(From American Press)

An apt suggestion has been made that high schools throughout the country should teach advertising to their pupils. We cannot think of anything more calculated to develop the mind of our boys and girls. Most of them enter the world of business from the high school and not from the college, and certainly a practical course in advertising would be of more advantage to them than the smattering of the hundred and one immaterial subjects we find taught in some of the city high schools—subjects that clutter the curriculum and make for a poorly balanced citizenship.

The art of advertising if pursued means manhood and virility. It teaches the attraction in plain statement of truth. It teaches effectiveness of open dealing and the bringing out of that which is best in man and his product and makes for the elimination of that which is objectionable. The teaching of advertising

would be character building of the first order and would cause intellectual development in any boy or girl who seriously studied the subject. Editors might well urge the teaching of advertising in the high schools of their communities. The principles of advertising enter into the everyday life of almost every citizen and would be a valuable asset to any young man or woman in any walk of life. The school of today not only should teach your youth the principles of right living but should equip its pupils practically to face life in its best sense. The injection of a course in advertising would not in any way suggest the passing of the high school into the class of the trade school. Far from it. Rather would it more nearly suggest the merging of the high school with the college for those who are not fortunate enough to take advantage of the highest education. By all means teach advertising in the high schools.

We are still buying empty syrup cans, they are worth something—bring them to us.

HARRY L. KNIGHT OF MARSHALL, TEX., GAINS 26 POUNDS

Popular Young Railroad Man Says He Has Found Out from Experience What Tanlac Will Do.

"When I finished taking my third bottle of Tanlac nearly three years ago, I had entire relief from my rheumatism and found that I had actually gained twenty-six pounds in weight besides. I threw my crutches away and went to work and I have held my weight and have been well ever since."

The above remarkable statement was made to the Tanlac representative in Marvin's Pharmacy a few days ago by Harry L. Knight, of Marshall, Texas. Mr. Knight has for a number of years been connected with the bridge building department of the Texas Pacific railroad and was always at his post of duty until he became so disabled by the rheumatism that he was forced to stop work and seek relief. Mr. Knight is a nephew of former Adjutant General A. J. Scott, who was formerly of Atlanta, Ga., but now of Tioga, Texas, and he has many friends, especially among railroad people, in this section of the "Lone Star State".

Continuing his statement, Mr. Knight said: "Yes sir, I have found out the value of Tanlac by taking it myself. I certainly appreciate what it did for me and I'm glad to make this statement and give others the benefit of my experience with what I consider the best and most useful medicine yet discovered."

"Three years ago, I was taken with what is called articular rheumatism in a very severe form. I was laid up with it and remained in a hospital at Marshall for three weeks. I got no relief and had about given up. I just suffered as much as a mortal could, it seemed to me, and no treatment or medicine gave me any relief. I had intense pain in the joints of my lower limbs and my feet were so swollen I couldn't wear my shoes. I had to use crutches and even then it was agony for me to navigate. I lost twenty pounds in weight and was badly run down. I was extremely nervous and this made my suffering worse as my pain was principally in my swollen joints and it was torture for me to move about at all."

"Well, I read about Tanlac in the Dallas News and decided to give it a trial. I just began to improve on my first bottle, and as I have already said, when I finished my third bottle I was entirely relieved, threw away my crutches and went back to my old job with the railroad. I picked up twenty-six pounds, which was six pounds more than I had lost. I have enjoyed good health and the free use of my limbs, without any pain, ever since and Tanlac did it all. My work keeps me exposed to the weather a great deal and I decided to come here and get me another bottle of Tanlac to keep my system in good shape and fortify myself against the dangers of the winter season and I know Tanlac will do it. I am very grateful for what it did for me nearly three years ago and for the good health I have enjoyed ever since then and I don't hesitate to tell anybody about it."

Tanlac is sold in San Saba by The Corner Drug Store, in Locker by J. F. Coffey, in Richland Springs by J. D. Chapman and in Cherokee by the Cherokee Drug Co.—Advt.

Bob Andrew would like to meet all of his San Saba friends during the Fair. Don't forget to look him up at fair grounds. You will find him with the best line of saddles he has ever brought to the fair.

W. R. HARRIS

WHAT IS THE EXPLANATION.

(From The Houston Post.)

Mr. C. W. Woodman continues to carry the title of Commissioner of Labor and exercise the functions of the office.

Mr. Frank Swor, duly nominated for the position by Governor Ferguson, and confirmed by the Senate, continues to discharge the duties of Inspector, a subordinate in Woodman's office.

How does it happen?

The supposition is that Woodman WOULD NOT continue in the Commission unless he received the salary that goes with the job.

He could not receive such salary unless THE COMPTROLLER OF PUBLIC ACCOUNTS regularly issued the warrant.

When Woodman failed of confirmation by the Senate, the office became vacant, if the Constitution means anything at all. And when Swor was nominated and confirmed, that vacancy became filled.

And yet, Woodman exercises the duties of the office and draws the salary therefor, upon a warrant issued by the Comptroller.

The Comptroller was prompt to dispute the right of the Senate to spend money from its contingent fund—not only disputed it, but utterly refused to authorize the warrants—a power that no Comptroller, State or National, had ever assumed before.

And yet, he draws warrants to pay a salary of a man who is not Com-

missioner of Labor, for the reason that, after a vacancy had been created the Governor appointed another, with the advice and consent of the Senate.

It seems to The Post that the Comptroller is getting himself in a bad box, by issuing salary warrants to a man not legally on the State's payroll.

Secretary San Saba School Board.

NEW GARAGE

I have leased the Urquhart Livery barn on Wallace street and fitted it up for a general garage.

I will do a general garage business and carry in stock a full line of accessories, also gasoline, oils and free air.

I will also have in connection a rest room for ladies, fitted with modern conveniences.

Will continue to sell Maxwell and Grant Automobiles and there is absolutely no better values in the world today.

My terms will be spot cash to every one, and my price will be the lowest possible, consistent with good business principles. By selling for spot cash I shall have no bad accounts therefore I shall be in position to make attractive prices.

Your patronage will be appreciated and we promise you value received for your money together with very courteous treatment.

NOW is The Foresighted Time To Buy Your GRANT SIX

MAKE sure of your GRANT SIX before it is too late. You can get a car NOW--but you cannot be certain of it if you wait.

The Grant Six at \$875 is a real investment. Every day sees advances in motor car prices. Do you realize that the man who buys just before the rise is ahead nearly twice the amount of the increase? He not only saves the advance but his own car immediately advances in value.

Price increases all along the line are adding to the used car value of GRANT SIXES. As other cars in-

crease in price the demand for the astonishingly economical GRANT SIX becomes greater.

Now is the time to dispose of your old car and get a new GRANT SIX at \$875. It will be good business judgment to do it now rather than later.

You can depend upon it that cars will not be cheaper next year. They will be higher priced and much harder to get.

GRANT SIX offers you a good looking, roomy, comfortable easy riding, light six that gets 20 miles from a gallon of gasoline--a real six with overhead valve engine, the sturdiest, finest light six you can find, the best buy in the field today.

SHERIFF'S NOTICE OF ELECTION THE STATE OF TEXAS COUNTY OF SAN SABA

Notice is hereby given that an election will be held on the 11th day of August, 1917, at Simpson Creek School House, in Common School District No. 18, of this County, as established by order of the Commissioner's Court of this County, of date the 9th day of July, 1884, which is recorded in Book A, page 321, of the Minutes of said Court; as changed on the 14th day of May, 1888, which is recorded in Book B, page 351 of the Minutes of said Court; as changed on the 23rd day of February, 1889, which is recorded in Book E, page 62 of the Minutes of said Court; as changed on the 19th day of February, 1915, which is recorded in Book H, page 175 of the Minutes of said court, to determine whether a majority of the legally qualified property tax paying voters of that District desire to reduce the present authorized Special School Tax levy of fifteen cents on the \$100.00 valuation of taxable property to that of six cents on the \$100.00 valuation of taxable property in said District, and determine whether the Commissioner's Court of this County shall thereafter be authorized to levy, assess and collect annually, a tax of, and at the rate of six cents on the \$100.00 valuation of taxable property in said District for the purposes of supplementing the State School Fund apportioned to said School District.

All persons who are legally qualified voters of this State and County, and who are resident property taxpayers in said district, shall be entitled to vote at said election.

Said election was ordered by the County Judge of this County, by order made on the 11th day of July, 1917, and this notice is given in pursuance of said orders.

Dated the 12th day of July, 1917.
EDGAR T. NEAL,
Sheriff San Saba County, Texas.

LEMONS WHITEN AND BEAUTIFY THE SKIN

Make this beauty lotion cheaply for your face, neck, arms and hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quart pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands.

S. E. W. Hudson and Mmes. T. A. Murray, C. T. Jones and Arch Woods went to Galveston Saturday to enjoy a few days n the coast.

ECZEMA!

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hunt's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hunt's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: E. CALOMEL WHEN BILIOUS? NO! STOP! MAKES YOU SICK AND SALIVATES

"Dodson's Liver Tone" is Harmless To Clean Your Sluggish Liver and Bowels.

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with sour bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight on my guarantee.

Here's my guarantee—Go to any drug store and get a 50 cent bottle of Dodson's Liver Tone. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripa and they like its pleasant taste.
