

Four Powers Find Accord On Trieste

NEW YORK, Nov. 19. (AP)—Spurred by Russian concessions, the great power foreign ministers scored major progress today in breaking their long-treaty deadlock of control of Trieste.

But they evidently were headed for trouble over proposals to restrict voluntarily the use of the veto in the United Nations Security Council.

A series of swift moving developments yesterday and last night brought the brightest prospects yet for early and final agreement on the Italian and other former German satellite peace treaties, but simultaneously dimmed the outlook for any substantial agreements by Russia on the veto issue.

Jimmy Walker, NY's Colorful Mayor, Dead

NEW YORK, Nov. 19. (AP)—James J. (Jimmy) Walker, mayor of New York City during the glittering days of the prohibition era, the Wall Street boom and night club palor, is dead at 65.

Death came painlessly last night to the debonair, slender, little man with the rapier wit, who had come to epitomize New York sophistication of the get-rich-quick years before the depression.

Walker, mayor from 1926 to 1932 and last link between the plush and gilt New York of Tammany turkey baskets and torchlight parades, and the modern metropolis, had been in ill health for the last two weeks, complaining of severe headaches.

On Saturday, his physician ordered him to bed and the following day he was removed to the hospital where he remained under an oxygen mask much of the time.

At his bedside when he died were his sister, Mrs. Nan Burke; her two sons, Luke and Paul, and another nephew, William Walker, Jr. Walker's two adopted children, James, Jr., 10, and Mary Ann, 11, were at the Burke apartment.

Funeral services will be at St. Patrick's Cathedral Thursday morning. Friends said private burial services would be held at the Gate of Heaven Cemetery in Pleasantville, N. Y.

Humble Posts Crude Boost

HOUSTON, Nov. 19. (AP)—Humble Oil and Refining company announced today an increase in field prices paid for crude oil of ten cents or more per barrel.

All grades purchased by the company were increased 10 cents except low cold tests, Texas Gulf Coast crude and low gravity Mirando crude, which were increased 20 cents on the gravities posted.

The price bulletin issued today is retroactively effective at 7 a.m. Nov. 15.

The low cold test crude was posted at \$1.69 per barrel for 24 gravity or below to \$1.83 for 30 gravity and above. The Mirando crude is posted from \$1.66 for 24 gravity or below up to \$1.78 for 29 gravity and above.

Whether this hike is applicable to West Texas crudes is not yet known here. Coden normally follows the postings of Shell in this area.

Britain Draws Part Of Loan From US

LONDON, Nov. 19. (AP)—Britain has drawn \$600,000,000 of her \$3,750,000,000 credit from the American loan, Glenside Hall, financial secretary to the treasury, told the House of Commons today.

UN Membership Now 54; Three New Ones Sign

Sweden, Ireland And Afghanistan Are Welcomed

NEW YORK, Nov. 19. (AP)—Afghanistan, Iceland and Sweden signed articles of adherence on signed articles of adherence to the United Nations charter today to increase the membership in the world's peace agency to 54 countries.

The simple ceremony admitting the three newcomers was held in a small, ornate conference room off the massive assembly chamber where the three delegates took seats for the first time.

Abdul Hosayn Aziz, Afghan minister to the United States; Thor Thors, Iceland's minister to Washington; and Oesten Unden, Swedish foreign minister, signed the pact in alphabetical order.

All three used personal pens and pocketed them for presentation to home governments.

The three were the first countries taken into the world circle of nations since the signing of the charter by 51 nations.

For the formal signing the representatives stepped up singly to a circular table where Paul Henri Spaak of Belgium, president of the assembly, was flanked by Secretary-General Trygve Lie and his eight assistants.

Each one then shook hands with Spaak, Lie and Ivan Kerno, assistant secretary-general in charge of legal affairs. After the ceremony the three retired to Spaak's office for private greetings before entering the chamber to take their seats in the assembly.

Outside the assembly building, three special flagpoles were erected in the center of the circle where the flags of the original 51 members fly. A special detachment of the United States marines was assigned the task of hoisting the three new banners.

Bilbo Must Face Second Inquiry

WASHINGTON, Nov. 19. (AP)—Senator Bilbo (D-Miss.), already under scrutiny by one Senate Committee for his utterances and tactics in last summer's Mississippi primary, faces a new investigation tomorrow by another.

The inquiry, authorized last yesterday by the Senate War Investigating committee, will be concerned solely with Bilbo's relations with a group of war contractors who built a number of Southern air fields for the Army.

The War Investigating Committee has had investigators in Mississippi since last June looking into reports which—Committee Counsel Francis D. Flanagan said—alleged that Bilbo received \$25,000 from contractors, and that the money was spent trying to elect Wall Doxey to the Senate in 1942. Doxey now is Senate sergeant-at-arms.

Child Dies Of Polio

HILLSBORO, Nov. 19. (AP)—Linda Godbey, 5, daughter of Mr. and Mrs. H. E. Godbey, Hillsboro, is this city's first victim of poliomyelitis and the fifth in Hill county for the year. She was a patient in the Providence hospital at Waco.

Meat About The Same Under 'Free Market'

CHICAGO, Nov. 19. (AP)—Prices which farmers received for livestock today, at the start of the sixth week of decontrolled markets, were only slightly under peaks established immediately after ceilings were removed.

Five weeks ago today maximums went off livestock and meat, and excluding Sundays, the nation has had 30 days of free trading with these results:

1. A high of \$37.00 paid for live cattle yesterday at Chicago equalled the best price on record for steers, top on live hogs was \$24.75 against a peak of \$27.75 shortly after decontrol.

These prices were well above former OPA ceilings of \$20.25 on cattle and \$16.25 on hogs. In addition here was a subsidy of 50 cents to \$2.40 on cattle and \$1.75 on hogs.

2. Livestock receipts and meat supplies are much larger than in the period before decontrol. Cattle slaughter under federal inspection in October was up 207 per cent over September and hog slaughter 611 per cent. November receipts also are higher than in the control period, although arrivals of cattle are smaller than a year ago. Hog arrivals are above a year ago.

3. Record numbers of stocker and feeder cattle have moved into mid-western feed lots, where they are being fed for later marketing as choice beef. The Agriculture Department said shipments of such cattle into the corn belt in October exceeded any month on record.

4. Meat prices are lower than immediately after decontrol, but far above former ceilings. Choice dressed beef carcass weighing 500 to 600 pounds at New York yesterday brought \$45.00 to \$48.00. Immediately after decontrol the price was \$59.67. Ceiling was \$26.18.

Choice pork loins weighing 8 to 10 pounds yesterday sold for \$52.00 to \$55.00 compared with \$36.58 after decontrol and a ceiling of \$31.88. With both beef and pork, the meat industry contended substantial quantities formerly sold above ceiling prices in the black market.

Lewis Remains Silent; Truman Ready To Fight

Thousands Leave Soft Coal Mines

WASHINGTON, Nov. 19. (AP)—With less than 48 hours to go, John L. Lewis played a silent hand today on the question of obeying a federal court order against another strike heralded to begin at midnight Wednesday.

Disobedience could land the United Mine Workers' chief in jail—indeinitely—for contempt of court.

Already, more than 68,000 soft-coal diggers have laid down their tools in seven states, and predictions of widespread industrial paralysis were heard on all sides.

Vacationing in Key West, Fla., President Truman kept in touch with the crisis and emphasized that he is determined to "fight this one to a finish," as an aide expressed it.

Asked if troops might be sent to the mines, Presidential Secretary Charles G. Ross replied: "I don't know."

Ross said, however, that "the President is aware of everything that is being done, and everything that is being done is in accordance with his instructions."

Ross disclosed that Mr. Truman specifically instructed Secretary of Interior J. A. Krug to obtain yesterday's federal court order restraining Lewis until Nov. 27 from "coercing, instigating, inducing or encouraging" the miners to strike — either directly or indirectly — or otherwise to breach his contract with the government.

The court order, signed by Judge Alan Goldsborough, in effect calls upon Lewis and his 400,000 miners to keep the pits operating for at least eight more days. Then, a week from tomorrow, a hearing will be held to determine whether an injunction shall be issued outlawing any strike as long as the government operates the mines.

Attorney General Clark signalled his strategy when applying for the order for Krug. He cited the famous case of Eugene V. Debs, who led the Chicago Pullman strike in 1894 and was sent to jail for six months for contempt of court in violating an anti-strike injunction.

It is a question, however, whether Lewis could be held in contempt if the miners quit without any word or counsel from him.

Keved by the swift-moving controversy were these developments:

1. George T. Christopher, president of Packard Motor Co., said in Atlanta that a coal strike would force almost immediate shutdown of the automobile industry — inevitably affecting tens of thousands of workers.

"The industry will start shutting down just as soon as they start striking," he said.

2. The government, to conserve dwindling coal supplies, ordered a 25 percent cut in passenger service provided by coal-burning locomotives, effective Sunday night. Freight restrictions are also under consideration.

3. The office of defense transportation disclosed that the nation's railroads now have only a 30-day supply of coal on hand. Some have as little as a 10-day supply.

4. In Richmond, Gov. William M. Tuck of Virginia pledged full police protection to any coal miners wishing to continue work under the U. S. government.

Rose Bowl Deal Under Debate

BERKELEY, Calif., Nov. 19. (AP) The future status of the Rose Bowl was debated behind closed doors in Berkeley today, with a five-year plan to divvy up the annual Pasadena classic between the Pacific and western conferences in the balance.

Both Southern California and UCLA, the coast's major contenders for the right to play in the Rose Bowl New Year's Day, were represented as being partial to the Army's position as the east's outstanding contender.

Palestine Railroads Stopped By Strike

JERUSALEM, Nov. 19. (AP)—Rail traffic in Palestine was paralyzed today in a sudden strike of rail workers, 80 per cent of them Arabs, protesting what they called "lack of adequate protection against Jewish terrorism."

More than 50 trains have been attacked in the past three months, and police said most of the attacks were in the form of mines placed by Jews. Seven railway men have been killed.

Outgoing air mail poundage for the first 15 days of November experienced a slight decrease from the last half of October but local postal offices expect the Christmas boom to be in full swing by Thanksgiving day.

Total departing here for the first half of November amounted to 1,627 pounds as compared to 1,782 pounds for the period from Oct. 16 through Oct. 31.

Romanians Choose New Parliament

BUCHAREST, Nov. 19. (AP)—In balloting which both Britain and the United States criticized in advance as neither free nor unfettered, nearly 8,000,000 Romanians chose a new parliament today, giving the Communist-dominated government of Premier Petru Groza its first popular test.

While Groza's six-party government bloc, in power since March 6, 1945, and the opposition parties differ sharply on their attitude toward neighboring Russia, the government pinned its hopes of victory on the historical fact that no Romanian government ever lost an election.

Internal issues dominated months of campaigning, with the opposition groups concentrating on the struggle to establish a middle class capitalist regime and the government plumping for more cordial relations with Russia, and thus for a Communist society.

British and American charges that supporters of the present regime were responsible for breaking up opposition meetings and hindering the major opposition parties' campaigns drew government retorts questioning the right of the western powers to tell Romania how to run her elections.

(British and American notes delivered last Saturday—the fourth in a series since last May—declared that British and US interest in the balloting derived from a Big Three pledge at Yalta to sponsor free, untrammelled elections in the liberated countries.)

(Also at stake, at least by implication, is the future recognition of Romania by Britain and the United States.)

Porter Opposes Rent Increase

WASHINGTON, Nov. 19. (AP)—A high OPA official said today that Paul Porter has taken a strong stand against any general rent ceiling increase at this time or any "basic change" in present standards for permitting rent adjustments.

This official said the price administrator is "strongly opposed" to any such changes and has informed representatives of the real estate business that OPA intends to hold the present rent line.

At the same time, however, it was disclosed that OPA is considering a plan to take rent ceilings off transient hotel rooms and may act "very soon" if a workable definition of transient rooms can be established. Any such definition, this informant said, must provide for retention of rent ceilings on rooms held by permanent hotel guests.

Three New Nations Are Elected To Security Council

NEW YORK, Nov. 19. (AP)—The United Nations assembly today elected Colombia, Belgium and Syria to the powerful Security Council to fill three vacancies which will occur at the end of this year.

The three were elected by secret ballot to replace Mexico, Egypt and the Netherlands. Colombia received 51 votes, Syria 45 and Belgium 43 on the first ballot and were declared elected. A two-thirds majority was required.

U. S. BUREAUS MUST GET ALONG WITH 144,833 FEWER EMPLOYEES

WASHINGTON, Nov. 19. (AP)—A new ceiling of no more than 2,146,742 employees after New Year's Day — which is 144,833 fewer than they're allowed now — was clamped today on federal executive departments and agencies.

Budget Director James E. Webb set it for the three months beginning Jan. 1, which will see the opening of a Congress controlled by Republicans who are clamoring for sharper cuts.

Webb's announcement of the 144,833 cutback in personnel allowances was tempered by assur-

Vet Housing To Be Investigated

WASHINGTON, Nov. 19. (AP)—A congressional investigation of the veterans' housing program, to determine whether government controls impede rather than spur new building, today was made the first business for the House Banking Committee in January.

Rep. Wolcott, Michigan Republican who succeeds Rep. Spence (D-Ky) as committee chairman, told newsmen the quick inquiry will be aimed at uncovering the "basic faults" of the program with the view to speedy passage of remedial legislation.

Describing the present program as "outrageously bad," Wolcott said "there is little time to lose. The investigation must be the first order of business for the committee."

The veterans' housing program, passed by Congress last spring under urging of President Truman, was designed to provide all 3,000,000 houses for veterans in two years. It includes priorities on materials for veterans and \$400,000,000 in subsidies to increase the production of scarce building materials.

Make This Home Recipe To Take Off Ugly Fat

It's simple. It's amazing, how quickly one may lose pounds of bulky, unattractively fat right in your own home. Make this recipe yourself. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your drug store and ask for four ounces of liquid Barcinate (formerly called Barcol Concentrate). Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonful twice a day. That's all there is to it.

If the very first bottle doesn't show the simple, easy way to lose bulky fat and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloat disappears—how much better you feel. More alive, youthful appearing and active.

Progress on getting telephones to those waiting

Every day we're making progress on the big telephone job to bring service to the people who want it. New applicants keep the waiting list long, but as new equipment is placed in operation, we're able to put in telephones for those who have waited longest.

It's not a short or easy job, but we're hard at it. We are working at getting telephones for not a few persons or a few towns, but . . . for more than 230,000 persons . . . living in some 700 towns . . . in five states. . .

"Getting telephones" means making and shipping and installing switchboards and other telephone equipment, stringing wire and splicing cable, setting poles and placing conduit, and all the rest that adds up to a telephone system.

All over the United States people are waiting for telephones. Thus we get only our fair share of the new telephone equipment being made for all of the 48

states. Raw materials the factories work with—copper, lead, rubber, cotton—are just as scarce as many of the hard-to-get things you yourself need these days. That's why getting telephones in takes longer today than we like.

That isn't normal, and it won't last. One of these days we'll be putting in telephones again the day people want them installed. Everyone who wants a telephone will have one, and service will be better than ever.

Meanwhile, the best way we know to hurry that day along is to work harder—harder than we once believed we could work—and make that badly needed telephone equipment faster than it has ever been made before. As you read this, 100,000 workers in telephone factories—an all-time high—are doing that. They are making telephone equipment in far greater volume than ever before. That's the best answer to a shortage that we know.

Cattle Shipments Keep Local Carloadings At Normal Figure

Cattle shipments have kept railroad car loadings in Big Spring at a creditable figure, despite a decline in volume of other farm and ranch products, G. L. Brooks, general agent for Texas and Pacific's Big Spring division, reports. The T&P moved its 450th car of 1946 cattle in October, and prospects point to a year's total of approximately 600 cars. Cattle shipments registered a distinct gain immediately after price controls were lifted, but during the past two weeks they have steadied at a normal rate. Currently the T&P is moving from 12 to 15 cars a week.

For a short time, railroads were unable to furnish enough cars for the cattle shipments, but the car shortage has eased with the return to normal operations at most major markets and packing houses, Brooks said. Practically all of the cattle cars being used by railroads have been in operation for several years, the general agent pointed out, and new rolling stock has been virtually unobtainable since the war.

The 1946 record to date indicates that Big Spring will lead the division in cattle shipments this year, Brooks added.

Rail movements of grain and cotton have been slow in developing this fall, and no appreciable volume is foreseen for the entire season. Practically no cotton is moving currently, and up to this week the T&P had handled only eight cars of grain.

Petroleum products also have declined in volume, but a normal rate is expected to be regained when strikes have been settled and full scale operations are resumed at Gulf Coast ports.

Molly O'Daniel's Ex Will Wed Actress

HOLLYWOOD, Nov. 19. (AP)—Bonita Granville, blonde film actress, and Producer Jack Wrather, whose divorced wife, the former Molly O'Daniel, daughter of US Senator and Mrs. W. Lee O'Daniel of Texas, was married in Dallas on Sunday, will be married about the first of the year, the couple indicated here yesterday.

Wrather, a Dallas oil man now making his first venture into motion picture production, said wedding plans have been delayed because both are busy on a mystery film in which Miss Granville portrays twin sisters.

Wrather and Molly O'Daniel were divorced last month in Dallas. She and Henry F. White of Dallas are now honeymooning in New York following their Sunday marriage at the home of a Dallas friend.

 TALK
 ABOUT THIS

You believe in life insurance. That's why you are a policyowner. And you believe in your family, too. You want that little girl to grow up in the neighborhood where you've built your home. You want your wife to have that home as long as she wishes to keep it. And if anything should happen to you, you want her to be able to bring your little girl up under the teaching and guidance that only a mother could give her. You don't want your wife to have to leave your child in some day nursery all day long while she works—or looks for work.

That's why you bought your life insurance, isn't it—to take care of them. Well, let's look at your life insurance. Will it do the things you want it to do? If you have \$2,500 of life insurance, it will provide your beneficiary with \$50 a month for about four and a half years. Is that enough? Will that assure them of that home—give them food and clothing, and the necessities of life you'd want them to have if you were not here

to provide them? Is that enough to give that little girl the start in life you want your daughter to have? Let's have a heart-to-heart talk about your life insurance today. Helping you to outline a plan of protection to do the real job you want life insurance to do for you is a part of our service, and a request for detailed information will not obligate you.

EL PASO, Nov. 19. (AP)—The host team for the New Year's Day Sun Bowl football game will not be determined until after the Nov. 30 game between Hardin-Simmons and Texas Tech, bowl officials have announced.

The invitation probably will be extended to the winner of the Tech-HSU game, to be played at Abilene, I. W. Gillett, chairman of the Sun Bowl committee, said yesterday.

Gillett said Coach Warren Woodson of Hardin-Simmons has indicated a bid would be accepted but that it is known that Tech, which has opposed a tieup between the Sun Bowl and the Border Conference, does not look with favor on playing here.

Bush will depend on such shot artists as Jack Griffin, John Rudeeal and Tommie Elliott to swing the tide. The Legionnaires can counter with Frank Hardesty, a polished floor man.

Bush's girls' sextet visit Stanton earlier in the evening for their second go of the campaign. They opened last week against Ackerly and won a nine-point decision.

**Layne Sets Pace
 Despite Bad Day**

By The Associated Press
 When you've been as busy as Bobby Layne you usually have rolled up enough yardage that a bad day or two won't dislodge you from the top.

Layne, the Texas fullback, continues as the Southwest Conference's total offense leader although he was able to do little passing or running against hard-charging Texas Christian last week.

Bobby has gained 1,278 yards on 196 plays and probably still leads the nation in total offense.

Layne also has sewed up leadership in passing for the year barring a sensational spurt by Virgil Eikenberg of Rice, who is 982 yards behind him with two games to Layne's one remaining. Statistics released today by James H. Stewart, conference executive secretary, show Carl Russ to have practically clinched ball-carrying honors with 454 yards on 99 runs compared to 404 on 108 tries by Ken Holland of Arkansas. Russ has two games to play, Holland one.

Layne has pitched 132 passes and completed 72 for 1,07 yards. Eikenberg has connected on 35 out of 99 for 625.

Bill Richards of Southern Methodist tops the punters with an average of 41.1 on 48 yards. Jim Canady of Texas leads the pass-receivers with 17 catches for 420 yards and Frank Guess of Texas is the pace-setter in punt returns with 216 yards on 12.

Texas leads team offense with 3,012 yards and Rice leads in defense, allowing 1,246 yards. In eight games—an average of 155.7 per game.

AUSTIN, Nov. 19. (AP)—Texas American Legion leaders have joined in a telegram to President Truman asking him to call Congress into session if the coal strike is not abandoned.

Bertram E. Giesecke, state department commander, sent the message after taking a telegraphic poll of the nation's 21 district and five division commanders.

The telegram said: "As commander of the American Legion in Texas and with approval of members of the executive committee, I urgently suggest that the Congress be immediately called into session unless proposed coal strike is immediately cancelled regardless of issues involved."

"We do not believe that a work stoppage can be justified in view of suffering which would be caused in small homes where fuel for heating is generally bought in small quantities. If strike should be for extended period entire economy of nation may be disrupted with resulting unemployment in which young veterans, who have not yet accumulated savings, would be hardest hit."

"Session of Congress also needed to restudy recently enacted on-the-job training limitations and present veterans' housing middle."

Truck Control System Offered By White Co.

Driver White Truck company is providing a detailed system which will enable users of motor trucks to increase distribution efficiency. Curtis Driver, owner, announced today.

The system is the result of a nation-wide study by the White Motor company of Cleveland over the past six years.

Objective of the system simply is to enable operators of motor trucks, whether one or a fleet, to get lower cost per mile, greater dependability, longer truck life, lower maintenance cost, reduced accident rate and lower driver turnover.

Termed a "continuing control system of truck management," the plan is based on control of three factors which the study of thousands of truck fleets throughout the country showed are basic to efficient use of trucks: 1) Correct application of the truck to the work it is to do, 2) improved maintenance designed for each vehicle, and 3) better selection and training of drivers.

On the basis of the intensive survey, White has prepared complete instructions for controlling the three key factors.

"We believe that truck owners will never have a more timely opportunity than right now to re-appraise their transportation needs, in the light of new opportunities for increased efficiency, lower costs and better operating safety standards," said Driver. "Within the next three or four years, three-fourths of the estimated five million trucks now registered must be replaced for economical, safe operation."

"The system we are making available to truck owners on request is simple and factual. The material for putting it into effect apply to all makes of trucks and all types of service. It provides positive control of the key factors and, we believe, a means by which operators can have lower truck costs while better serving the public."

Co-Op Man Cites Need For More Electric Power

Need for more electric energy to supply Texas farmers and other rural consumers served under the federal rural electrification program is cited by O. B. Bryan, manager of Cap Rock Electric Cooperative with headquarters in Station.

Bryan said that a survey of managers of 74 REA cooperatives in the state showed that an increase in power is reflected by increase of users from 11,400 to 168,000 in 11 years of REA activity, and the growing demand of use of electricity in agricultural production. In the past five years power distributed by REA-financed co-ops to Texas consumers

has increased four and a half times although the number of consumers has little more than doubled.

One possibility, he said, is co-ordination of power generated at hydro electric plants at the Norfolk and Denison dams by means of heavy transmission lines. Other multi-purpose reservoirs are under study.

Texas co-ops have loan funds on hand sufficient to serve 42,000 additional customers, and applications are in for funds to reach another 38,000. Ultimate goal, he said, was to serve most of the 222,000 farm homes in the state.

State Seeks More Jobs For Blind

AUSTIN, Nov. 19. (U.P.)—Texas hopes soon to be able to find more jobs suitable for blind persons, and to place more blind persons on those jobs.

Harry D. Selman of Houston, placement counselor for the State Commission for the Blind, is attending a federal-state training course for vocational rehabilitation for the blind now in progress at Baltimore.

Lon Alsop, executive secretary of the commission, said Selman would work in the commission's Houston office when he finishes the institute. There he will aid Texas employers in finding jobs that the blind can perform, and in placing the proper blind persons on those jobs.

Deer Hunters Have Only Fair Luck

KERRVILLE, Nov. 19. (U.P.) — Only moderate luck was being reported here today by deer hunters in the Hill County area. A Kerrville storage plant had only 300 deer and 150 wild turkeys last night, considerably less than the bag at the same time last year.

How every truck-using business can increase its *distribution efficiency*

A NATION-WIDE STUDY of Distribution Efficiency in all major truck-using industries has just been completed by The White Motor Company. The study has extended over the past six most critical years in truck history. It has produced a definite System by which any business can create for itself increased distribution efficiency, lowered costs and better service to the public.

THE CONTINUING CONTROL SYSTEM OF TRUCK

MANAGEMENT is White's name for it, because it is based on the three *continuing* factors which *control* truck efficiency from the day service starts. It applies to all makes of trucks and all types of business.

FOR MORE THAN 45 YEARS, ever since the start of truck

transportation, the name White has been associated with pioneering leadership. And in White's opinion, no step it has ever taken in the past, to extend the usefulness of trucks to new fields of industry, has been more important than the one it is taking now—to help every field of industry avail itself of all that modern truck transportation has to offer when it is properly applied, maintained and used. White believes that perhaps never again will so many truck owners be in more logical position with respect to worn-out equipment on hand to make a thorough reappraisal of their transportation requirements in the light of their exact needs and take full advantage of the bettered service and lowered cost which properly applied trucks, correctly maintained and driven, can provide.

THE SYSTEM IS EASY to put into effect. All the necessary

material is ready and your local White Representative will be glad to furnish you complete information. We suggest that you phone him today.

Important Answers In The Making

The nation may well watch with a great deal of concern the developments in the soft coal dispute, fast moving to a showdown. Press reports Monday related the granting of a temporary order designed to restrain a walkout by John L. Lewis' 400,000 soft coal miners. This was based on the contention that Lewis was about to breach his contract with the government.

What happens now will be most interesting. What if Lewis refuses to be bound by the restraining order? Possibly he will be held in contempt of court. What would happen then?

And meanwhile, will this really have any effect on the walkout of miners? Already there are reports that thousands (estimated above 20,000) who have quit their jobs well in advance of the Wednesday midnight deadline set by Lewis.

What if Lewis asked the men to go back to work pending hearing on the court order? Would they respond, or would they understand that it was only a formality?

And can miners be compelled by court order to work, whether a breach of contract is actually involved?

A lot of these questions may be answered within the next fortnight, and those answers may be vital.

The government, having taken over the mines to solve a costly work stoppage, may find that it has a tiger by the tail. For instance, it can acquiesce in Lewis' demands and lose face; or it can stand firm and bring in a strike, in which all concerned lose. It can even hold Lewis in contempt of court, if circumstances so develop, and jail him at the price of making a martyr out of the stormy labor leader.

Perhaps the only bright spot in the entire matter is that a test might conceivably be made on whether a union is legally bound, and to what extent, to fulfill the provisions of its contract.

All of this, however, plus a lot of laws which may be passed by the next congress, won't really solve the labor management problem. Certainly laws should be fair and just in the spirit of an impartial umpire. Ultimately, a solid solution must come from labor and management through understanding and responsibility.

Visit And Learn About Schools

We have just passed through another American education week without most people even knowing about it. Certainly there was no move to visit schools, as is one of the purposes of the week.

But that doesn't have to come in one week. It might happen anytime during the year.

and we hope that it will. The more patrons who make it a point to visit the schools, the better we will become acquainted with teaching methods, problems, conditions. And when we know about those things, we may be in a better position to work out some of our many educational problems.

Texas Mental Hospitals—By Paul Bolton

Good Treatment Means More Money

Editor's Note: This is the third in a series concerning Texas' mental hospitals.

AUSTIN.—The big problem in the job of reconvicting, or completing the reconviction, of state institutions from quasi-hospitals to real mental hospitals is that word

which always pops up in state affairs: Money. No one doubts that more money is needed: Money to attract trained psychiatrists; registered nurses; recreational specialists; attendants who will do more than act as jailers; extension of education outside of the confining fences of the institutions. How much money?

Probably too much. A startling amount. An amount calculated to make the taxpayer scream.

The American Psychiatric Association says: "Actually, too small appropriations and inadequate provision of psychiatric care are an unwise use of public funds and short-sighted action on the part of the people, resulting in many recoverable cases developing chronicity, and constituting a continuing expense to the state without hope of relieving the people of the responsibility for the care of these patients."

In much simpler language you could state it: Spending money to heal instead of confine would be cheaper in the long run.

But it would cost an awful lot of money.

Somebody must furnish a yardstick. The Psychiatric Association says: "Adequate treatment for psychiatric patients demands \$5 a day for acute, sub-acute and convalescent patients, and a minimum of \$2.50 for each of the various types of chronic cases, if decent scientific care is to be had."

Without attempting to determine how many \$5-a-day and how many \$2.50-a-day cases there are, let's take the minimum figure of \$2.50. It's a matter of simple division to see what the state institutions are spending today: The yearly legislative appropriation, divided by the number of patients, divided by the days in the year, equals per patient cost per day. In fact, you don't have to carry out that division by the 365 days in the year to see how far below standard Texas is. There's only one state hospital—Big Spring—which even approaches that \$2.50 which was taken as an arbitrary goal. Here are the figures:

Ahilene, \$316 per patient per year; Austin, \$292; Rusk, \$354; San Antonio, \$319; Terrell, \$299; Wichita Falls, \$319.

Quite obviously, Texas is now spending less than \$1 a day on an operation which, the experts say, requires an expenditure ranging from \$2.50 to \$5. At Big Spring, the newest state hospital, the cost is \$682 per patient per year, or \$1.86 per patient per day.

After reviewing these figures, let's see what it would cost to bring Texas to the \$2.50 bottom rung in the ladder, compared with the current appropriation bill:

	Current Amt. at \$2.50	Hosp. Approp. per Patient
Austin	\$757,000	\$2,680,012
Ahilene	421,000	1,318,187
Big Spring	304,000	404,237
Rusk	705,000	2,071,375
San Antonio	807,000	2,490,212
Terrell	797,000	2,430,900
W. Falls	785,000	2,161,712

Totals . . . 4,546,000 13,456,635

So, roughly, that would mean an increase of \$9 millions in state appropriations each year to bring the hospitals up to minimum standards and no effort was made to compute the costs at other state institutions devoted to the care of state wards such as the Farm Colony at Austin for mental defectives and the Confederate Home where seniles are now transferred. Presumably, asylum is all that can be offered these people.

Dr. Samuel W. Hamilton, who supervised both of the US Public Health Service surveys in Texas and is an outstanding national authority, says:

"The people of the country are the ones—and the only ones—who hold the means of the solution of this problem. . . . We must encourage representatives of the public to come and see for themselves the shortcomings and the needs of our hospitals. . . . The people for the most part are not even aware of the problem. We must point out to them how inadequate care allows many a patient to drag along in chronic illness."

The 'Country Store'

NEW YORK. (AP)—The three greatest popular mysteries of modern America are: What happened to vaudeville, Justice Crater, and the old-fashioned crossroads country general store?

Well, really the fate of vaudeville isn't a very well-kept secret. Miller wheezes with an atom age twist and traded the four-a-day-pork-and-beans routine for night club contracts at \$10,000 a week or a lousy worse.

And as for Justice Crater? I just know he stepped into a New York taxi after a comfortable meal some years ago and rode right into limbo with the meter still ticking. A lot of people with their own shiny crystal balls have their theories, but nobody yet, including New York's finest, have produced the corpus delicti—if there is one.

But I can claim to have solved what happened to the country general store, the forum of the common people, the conversation fountain where they settled the world's woes, underwrote the local statesman's errors, bet on the neighborhood's fastest blow-puller, and charred the fair, fair future.

They took the old country general store and moved it to the city. They called it a "bar" and made it co-educational.

They took it off the crossroads and put it on a side street and marked it with a mortgaged neon sign.

They put in a mirror where they used to stock the calico. In the center of the mirror they stuck a sign: "In God We Trust—All Others Cash." And if they were real up-to-date somebody from the management would scrawl on the inner consolation room: "Kilroy Was Here."

They moved out the snuff and the chew tobacco plug and installed in their place a box full of two-bit cigars and cork-tipped cigarettes on the bosom of a girl who was killing time before Helen Hayes

forsook the theater. They trundled out the cider jugs, too, and stuck in a lot of fancy colored bottles—guaranteed 90 proof if you don't count the water.

The proprietor quit being an official justice of the peace and became a smooth diplomat and learned a couple of French phrases.

And the big pot-bellied stove that everyone gathered around? They turned it into a long mahogany bar with a foot rail that gave a man something to brace against but didn't keep him warm.

Yep, the general store moved to town. You may miss the crackers, fellows, but the cheese—it's still there!

Washington Merry-Go-Round—Drew Pearson

GOP's Regain Place In Society

WASHINGTON. — Most amusing sight on the Merry-Go-Round scene today is the frantic scramble of the socialites, the lobbyists, and the local power politicians to get religion in a hurry. In this case, religion is better known as the GOP. After fourteen years of Democratic rule, the Republicans were so far down the social list they almost developed an inferiority complex. But now they are staging a grand comeback. The invitations to once-scorned Republican senators and congressmen have doubled and tripled, as hostesses bid for the newly-won prestige of GOP salons.

Scores of Washingtonians are now racking their brains to figure out whom they know who knows someone high in Republican ranks.

Always in step with the times is popular Presidential Court Jester George Allen, who never hesitates to tell a joke on himself. If you walk into Allens' private office, first thing you will see is an autographed picture of his good friend, Harry Truman. Second thing is a newly hung autographed photo of Senator Arthur Vandenberg. A glance at the wall shows, however, that although the picture was recently hung, it was not recently autographed. It says, "For my dear friend, George E. Allen. With best wishes, A. H. Vandenberg." The date is June 9, 1938.

Asked whether he hung the photo on the day after elections, the ever-lovable court-jester replied: "Oh, no. I didn't wait that long. I hung it up at quarter past eight on election night. Sure was dusty, but I had it all polished up."

REPUBLICAN CLOSED-DOOR CAUCUS

There was only one major dispute when the House Republican Steering Committee held its closed-door caucus on legislative policies the other day. This was over whether the Republicans should accept all of the reorganization act, adopted at the last Congress and providing for consolidation of congressional committees.

Elder Statesman Jim Wadsworth of New York finally settled the dispute in his leveled head way, with few feelings fractured. Rep. Sterling Cole of New York, high-ranking member of the Naval Affairs Committee, started the debate by warmly opposing the merger of the Naval Affairs and Military Affairs Committees into one 33-man committee on armed forces, as provided by act.

Cole argued that the consolidation would be untimely unless the Army and Navy themselves were merged. He pointed out that most members of the Military Committee favored Army-Navy unification, while most Naval Committee members opposed it; therefore throwing these two battling factions into a single committee would merely cause disharmony.

"Until the merger question is settled, these two committees should remain independent," Cole contended.

REP. Leslie Arends of Illinois, a member of the Military Committee, plus several others, echoed the same view. But Wadsworth quickly harpooned their objections.

Martin Dies, and three times deferred from the draft, was re-employed. Stripling was given the promise that he would become chief investigator under the Republican Congress beginning in January.

Since his return, Stripling has been slipping into the old house office building by the southeast entrance, wearing dark glasses to conceal his identity. In addition, a sun-tan picked up in the Army has helped disguise him. For three weeks he has been busy going over the files of the old Dies Committee, warming up a master list of those in the federal service whom the Rankin Committee will smear at the first opportunity.

Prediction: Congress is in for more witch-hunting than since the days when ex-congressman Ham Fish of New York followed a hot lead to an old trunk in a Baltimore warehouse, supposed to be full of Soviet documents. When he lifted the lid, he found only cabbages.

REPUBLICANS SCAN LABOR HORIZON

One veteran senator and one newcomer are destined to play leading roles in GOP labor relations in the next Congress. The veteran is aggressive, square-shooting Sen. Owen Brewster of Maine. The newcomer is Sen. Irving M. Ives, scholarly, 50-year-old New York Republican, who had an impressive labor record in the N.Y. State Assembly and at Cornell University.

It was Ives who fathered the Bipartisan Committee on labor legislation in the New York legislature, and steps are now being taken privately to set up a similar committee in Congress.

Chief behind-the-scenes plunger for this plan is Brewster. Already he has had some confidential chats with labor spokesmen, has warned that unless they play ball, drastic legislation scuttling the Wagner Act is sure to be enacted.

Brewster's idea is to negotiate a covenant for labor peace between Congress and labor, which could, if successful, obviate the need of rough, legislative crack-downs. Such a peace pact might take the form of a strike moratorium or an agreement to arbitrate major disputes.

Come what may, some labor curbs, including revision of the Wagner act, seem certain to be voted, but Brewster believes these curbs can be tempered in direct proportion to labor's ability to control its own mavericks.

In private talks with labor leaders, Brewster has put it this way: "American business exceeded itself in the 20's and suffered the consequences. Labor has been guilty of the same thing in the last ten years and will also find itself behind the eight ball unless you fellows do something to end these strikes."

The Nation Today—James Marlow

Overseas Housing Is Scarce, Too

WASHINGTON. (AP)—The Army has called a halt to shipping overseas the families of enlisted Army men in the four lowest grades: Sergeant, Corporal, First Class Private, and Private.

Here is an explanation of this move and what it means—the announcement was made Nov. 9—as given by officers at the War Department:

Under a long-standing law all commissioned officers and sergeants of the three top grades, Master, Staff and Technical—are entitled to housing or money to pay for it, even when overseas.

The Army has been sending over to them—when they requested it—their wives and children. It will continue to do so when there's shipping to carry them and houses can be found for them.

But the men in the four lowest grades—Sergeant, Corporal, First Class Private and Private—don't

come under the law. Which means: they're not entitled under law to housing or money to pay for it.

But the Army had been sending their families over, too, when they asked for them to be sent. And this is why:

When the war ended and the Army needed men to enlist as regulars—to replace some of the millions of draftees being discharged—it made a recruiting drive.

Many men signing up for two or three years were told—as an inducement to joining—that if they went overseas and wanted their families to join them they would be sent.

But this was a verbal promise to these men in the four lower grades. They are not promised housing under the law as are the commissioned officers and sergeants in the top three grades.

So if the Army finds a reason for not being able to send families

overseas—as it says it has now—then it can stop sending families of the men in the four lowest grades.

And this is the reason the Army says it has to stop it:

1. Housing is scarce overseas. And in this country building material—which could be sent overseas to make housing—is scarce.

2. Because of limited funds, the Army doesn't have enough money to equip enough ships for moving the families—even if there were housing overseas. So there's a backlog of waiting families.

In Hollywood—Bob Thomas
Eddy Likes It, Too
HOLLYWOOD. (AP)—Mammy's Little Baby Loves Shorty'n Bread, and so does Nelson Eddy now after years of singing the darn song. In recent years Eddy and Shorty'n Bread have become as close as associated as Red Skelton and "I Dood It," or salt and peanuts. Only recently did Nelson try the pastry. A cook in Northern California heard he was to be her guest, so she whipped up some. "You know it tastes pretty good," Nelson said. The blonde baritone has a wood-head to thank for associating him with the song. "I guess Charlie McCarthy started it all," he said. After that it spread like wildfire.

Nelson is not at all perturbed about such tootfoolery, as some artists might be. In fact, he takes it with a grain of salt (plus three cups of flour, sugar, shortening, etc., and baked in a slow oven). He was jovial as he discussed it on the set of his Republic picture which is now called "Untitled," but may receive a more descriptive name.

The proof of the pudding occurs at Eddy's concerts where, he said, someone always yells a request for "Shorty'n Bread."

When the Hollywood press photographers toss a party, most of the stars come a-running. These are the lads whose candid night club photos can make a star appear 24 or 42. Their annual ball at Ciro's last night called for guests to come as their childhood ambitions. It would have been a field day for freudians.

Ciro's looked like a reception room of Western Costume Co. Among the most popular costumes were those of doctors and brides,

Cadets, Notre Dame Run 1-2 Again In Nation's Grid Poll

Herd, Quakers Missing From Top Ten Clubs

NEW YORK, Nov. 19. (AP)—It was still Army in a photo finish over Notre Dame today for the No. 1 spot among the nation's football outfits—and the honeymoon is definitely over for Pennsylvania and Texas.

Balloting in the Associated Press weekly poll, the sports writers of the country left the greening Cadets from West Point at the head of the parade by the slim margin of 59 points over the Irish, with the unbeaten-until pair of Georgia and University of California at Los Angeles holding third and fourth, respectively.

But the 34-7 pounding Penn absorbed from Army last Saturday, and Texas' second upset setback of the season—this one by Texas Christian—dropped the Quakers and the Longhorns completely out of the select top-ten set, with Louisiana State and Southern California moving up to replace them.

Altogether, 110 sports writers from coast to coast and one from Honolulu voted for their leading ten selections after last Saturday's scrambling. Of these, 58 put Army on top all alone, compared to 34 a week ago, and 16 voted the Irish in front. Twenty-three others called it a tie, voting for a two-seater throne as a result of the scoreless deadlock the two outfits unfolded the previous week and the 27-0 decision the

Irish were taking over Northwestern while the Cadets were clouting the Quakers last Saturday. The other 13 first-place ballots were split between Georgia and UCLA, the Bulldogs collecting eight, compared to their 12 of last week, and the UCLAs getting five—two less than in the previous poll.

On a basis of ten points for a first place vote, nine for a second, eight for a third, and so forth, Army rolled up 1,053 points, just 50 more than the 1,003 for Notre

Dame, with Georgia collecting 835 and UCLA 760.

Longest jump of the week was made by Illinois, which leaped from ninth to fifth place, with 527 points, as a result of the 16-7 victory over Ohio State which put the Illini out in front in the big nine conference chase.

Once-beaten Georgia Tech which whipped Tulane 35-7 Saturday and still has Georgia to tangle with on November 30, stepped up from seventh to sixth, with 425 points, and Tennessee moved up

one notch to seventh with 328 as a result of the Vols' victory over Boston college. Michigan advanced two places to eighth after whipping Wisconsin 28-6 Saturday.

Louisiana State, beaten only once this season, and 20-7 conqueror of Miami in its latest trip to the post, climbed from 11th to ninth, with 139 points. Southern California's Trojans, who downed California and collide with UCLA November 23 for the Rose Bowl spot, round out the top ten with 107 points.

LOOKING 'EM OVER

With TOMMY HART

It's a mite early to be thinking in terms of the All-District 3AA football team, since most of the elevens have two games remaining on their schedules. However, Howard Green, the Abilene scribe, produced a check list of prospects the other day and managed to include at least one player from every team in the family on it, opening the way for discussion.

Local players Green mentioned were Ike Robb, a guard, and Bobo Hardy, the Bovines' fullback. Green was allright as far as he went but didn't go far enough. How about Horace Rankin, Bobby Hollis and Larry Hall? Or again Gee Harris?

Rankin is a triple threat. He's fast, elusive and steady under fire. Though he's scored but seven points to date, he's been a constant threat and set up several touchdowns.

Hollis has been outstanding all year. He's especially impressive on defense and holds his own with any lineman, despite the fact that he weighs but 168 pounds.

Smaller still is Larry Hall, the center, whose playing weight has often been less than 140 pounds. Larry shines at backing the line and seems to get a whale of a kick out of playing when the going is roughest.

Harris' forte is running with the ball. He's lugged the leather on scrimmage plays more than any one else and has a 5.2 yard average to show for it. That's a remarkable record in any league.

The two Steer ends, Ensor Puckett and Marv Wright, have been consistently good all year. The trouble is, they're competing in a league of outstanding ends. Such operatives as Billy Moorman, Odessa; Duane Hendley, Abilene; and Troy Stone, Sweetwater, will be major candidates for the wing soits.

The locals' other guard, Pete Fuglaar, has shown more improvement than in other linemen in the league in the last two games. Had he been playing that way all year, he would be a "shoo-in" for the mythical honor.

Local Texas A&M exes, most of whom favor giving the Aggie coach, Homer Norton, his walking papers at season's end, frown on the suggestion that Siki Sikes be named the grid chieftain at College Station. Generally, the favor luring a "name" coach to handle future Farmer teams.

Norton came near getting his walking papers at A&M around 1937 but won a reprieve when the Aggies went to the top of the heap in 1939.

The sweet young thing who thinks a football official uses this gesture as a relaxation method may of times be right. However, generally it means that a team has illegal delay or been caught de-Extra Time Outlaying the game. A five-yard penalty can result.

There's a major managerial and front office change coming up in the WT-NM baseball league next year. The principals want to keep the news quiet until after football season, however.

Hayden "Stubby" Greer, the successful and popular skipper of

CUNNINGHAM & PHILIPS
have filled your physicians prescriptions since 1919

the Abilene Blue Sox and formerly star shortstop of the Big Spring WT-NM league entry, is ticketed to go to spring training with the Fort Worth Cats but may return to Abilene.

Greer came near going to work with his good friend, Blacky Hines, at Forsan after the last season but finally took a job at Cisco.

He didn't have time to look up all his old friends when he visited here Sunday but relays his blue-ribbon best through this pillar.

LeRoy Gressett, the former major league outfielder, drove all the way from Westbrook to sit in on the baseball session. LeRoy, who does all his baseballing in the hot stove league now, would be one of Big Spring's avowed fans if Our Town fields a club in the Westex league.

Another interested spectator at the Sunday conab was Pat Stacey, the former American Association fly-chaser, who'd like to wear a Big Spring uniform again, at least part time.

Assault 'Horse Of Year,' Says Eddie Arcaro

DALLAS, Nov. 19. —(AP)Take it from Eddie Arcaro, famed jockey who rode Assault, the Texas whirlwind, in his two latest triumphs, this son of Bold Venture sired on huge King Ranch, should get the 1946 horse of the year award.

Moreover, says Arcaro, here visiting B. F. Whitaker, local hotel owner who maintains a racing stable, Assault is just coming into his own and is destined to be a "whale of a hoss" for another year, or two barring serious mishap.

The Texas-bred racer now is third on the list of all-time money-winners with \$441,445.

Arcaro, who rode Lawrin, Whirlaway and Hoop Jr. to victories in the Kentucky Derby, who three times led the nation's jockeys in purse winnings and who has accounted for almost \$1,000,000 in earnings by his mounts this year, has severed connections with the Greentree Stable and is on his way to California where he plans to ride at Santa Anita this winter. Even after Assault had won the Wood Memorial, Kentucky Derby, Preakness, Belmont Stakes and Dwyer Stakes last spring Arcaro said he wasn't too high on the horse.

"I thought this year's three-year-old crop was far inferior," he declared, "and I could only give Assault credit for beating a lot of bad horses."

But in the recent winner-take-all Pimlico Special, a weight for age event, over a distance, Trainer Max Hirsch asked Arcaro to ride the Texas horse. "I had noticed while Assault was in an apparent slump that young Warren Mehrtens, who had been his regular jockey, had been taking him up close to force the pace," said Arcaro. "I guessed that Hirsch wanted me in the hope I could pace him a little better, holding him back and saving him for the drive."

"Assault proved himself to me."

GRIDDER HURT
MASON, Nov. 19. (AP)—Kenneth Larrimore, Mason high school football player, lost a right toe yesterday in a hunting accident on the Ryland Kothmann ranch. Larrimore was receiving a gun from a companion when it fired accidentally. He is in a Fredericksburg hospital.

Cowboys Defeat Green Hornets For 2nd Place

West Ward's Cowboys came from behind to defeat the East Ward Green Hornets, 7-6, Monday afternoon at Steer stadium and sew up second place in the Grade school football league standings.

The battle was the feature of three contests, which closed out the junior football program for 1946. In other bouts, Central's powerful Red Devils wound up their second season without defeat by turning back the South Ward Midlands, 28-0, while College Heights was cruising to a 19-0 triumph over hapless North Ward.

Spec Franklin bucked the line and Gene Gross added the extra point in a plunge to pace the Waddies to the all-important victory over East Ward, which had taken a lead in the first two minutes when Raymond Gilstrap crashed over for a six-pointer.

Doyle Maynard paced College Heights to its one-sided victory. He passed to Jimmy Porter for the initial touchdown, then added the extra point with a run. The White Shirt star scored the second sixpointer on an end sweep, then afforded a sensational finish to his efforts for the year by dashing 75 yards across the double stripes.

Jimmy Stewart and Randall Garner paced Central's to their victory. Stewart tallied two of the touches while Garner passed for the other two. Gerald Scott gathered in one of the scoring aeriels, Gary Gray the other.

Dibrell Tries Pete Fuglaar At Fullback

Coach Johnny Dibrell had his Big Spring high school football team fall to Monday afternoon in a rock and sock scrimmage in an attempt to iron out a few rough spots before the all-important battle with Abilene's improved Eagles here Friday night.

Dibrell has steered clear of the body contact work because a player injury would throw his plans all out of kilter. However, he said the club needed to brush up on its fundamentals after its bad scare at the hands of the Midland Bulldogs last week. The Canines all but swept the Longhorns from the field with a desperate last minute surge.

The Steer mentor had Pete Fuglaar running at fullback. Big Pete seemed to enjoy the switch from guard and at times looked like Doc Blanchard bulging his way through the line. If Dibrell had it all to do over again, he might give Fuglaar a full time job in the secondary. However, here it is mid-November and the Bovines have but two games left on their schedule. Next year? Well, that's another story.

Abilene will come to town boasting a potent offense built around Jeff Dobbyn, a Minnesota boy who recently became eligible. The Eagles ran over Lamesa two weeks ago, 39-0, and are said to be at their peak. Time will tell.

TO DEFEND TITLE

EAST LANSING, Mich., Nov. 19. (AP)—Frec Feiler, winner of last week's Central Collegiate Conference meet at Des Moines, will defend his national collegiate cross country run championship at Michigan State college next Monday.

Barnhill Reminds Razorbacks They Still Have Game With Tulsa

By The Associated Press

Most everyone in Fayetteville, Ark., except John Barnhill, head coach for the University of Arkansas Razorbacks, is talking about the New Year's Day Cotton Bowl game.

Barnhill, however, is eyeing another holiday attraction, a Turkey Day battle between his Porkers and the University of Tulsa Hurricane, at Tulsa.

It will be an important game for Arkansas, who gained a Southwest Conference title last week by whipping Southern Methodist, 13-0. The Razorbacks would lose much prestige should they bow to the new Missouri Valley champions.

Barnhill gave his squad a rest yesterday but announced in no uncertain terms that the Tulsa game is the only thing up for consideration at present.

The Razorbacks came through their Mustang win without serious injury.

Elsewhere, Texas, amid criticism among Austin followers because of last week's Texas Christian setback, took a day off before starting preparations for the invasion of the Texas Aggies on Thanksgiving.

At College Station, Coach Homer Norton locked the gates and announced no one would be permitted to witness Aggie workouts for the remainder of the season.

No serious injuries were collected by the Aggies Saturday against Rice, but Norton announced the promotion of Jim Boswell, half-back who sparked the school's "B" team to a 20-0 win over the Rice Owlets last week, to the "A" squad.

Southern Methodist and Baylor were singing injury blues today

as they prepared for their "cellular position" clash at Dallas.

The Mustangs will be without three first stringers, Fullback Dick McKissack, Blocking Back Bob Ramsey and End Sid Halliday. Baylor's cripple list includes Sammy Pierce, fullback; Bobby Henderson and James Carpenter, guards and Barney Ham, end.

Rice and Texas Christian, who meet in Houston with the Owl's title tie at stake, with only minor injury problems are concentrating on pass offense and defense.

Pony B String Tops Standings

By The Associated Press

Southern Methodist continues to pace the Southwest Conference B football league but has two more games to play and could be beaten out of the top spot.

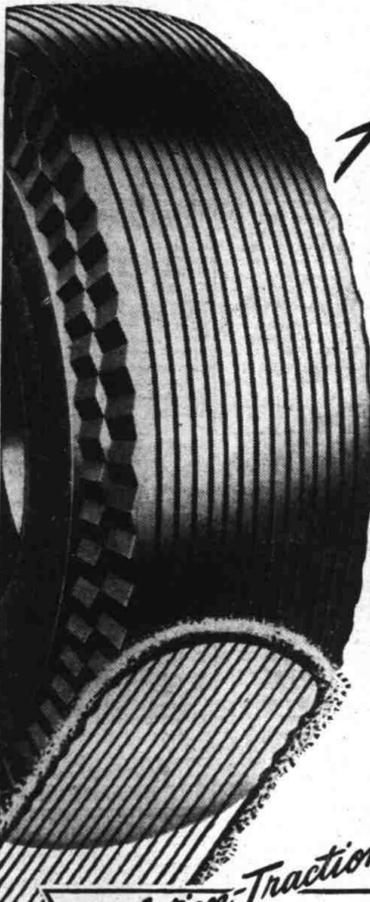

The Methodist Bees did not play last week but Texas A. and M. was staying in the championship fight by clipping Rice 20-0. Arkansas beat Hendrix college of Conway 47-0.

This week Southern Methodist plays Baylor at Dallas, Texas engages Texas A. and M. at San Antonio and Arkansas takes on Tulsa at Fayetteville.

The B league standings:

Team	W	L	T	Pts.	Op.	Pct.
S. Meth.	5	0	1	92	38	.833
Ark.	6	2	0	162	59	.750
Tex. A.-M.	3	1	2	73	26	.687
Rice	1	1	1	20	33	.500
Texas	1	1	1	33	27	.500
Tex. Chris.	2	3	1	78	54	.417
Baylor	1	3	1	57	41	.300

- ★ Quick-stopping safety of "action-traction"
- ★ Safer extra mileage of more natural rubber
- ★ Blowout protection of extra carcass strength

COSTS MORE... WORTH MORE

Action-Traction!
RUNS LIKE THIS
Straight, free-rolling ribs of more natural rubber run smoothly, quietly. No tread "knobs" to cause road pounding. No sway on sharp curves. Easy steering. Non-cupping. Slow, even wear... Longer mileage.

Action-Traction.
STOPS LIKE THIS
Apply the brakes and—instantly—ACTION-TRAC-TION goes to work, gripping any road surface with a multi-squeegie effect. On wet roads, the Squeegie tread sweeps the water ahead... cleans a dry track for a quick, straight stop.

Bureau Leader Asks A Return To 'Free Soil'

SAN ANTONIO, Nov. 19. (AP)—J. Walter Hammond of Tye, Taylor county, president of the Texas Farm Bureau Federation, flayed government regulations and private monopolies and called for restoration of "free soil" in opening the 13th annual convention of the organization here today.

More than 700 delegates from all parts of Texas were expected to be in attendance at the convention before it is concluded tomorrow night. The directors held a preliminary meeting yesterday and formulated resolutions.

Gov. Elect Beauford Jester of Texas and Gibb Gilchrist, president of Texas A. & M. college, were slated to address the convention later in the day.

In opening the conference Hammond declared:

"There was a time when supply and demand determined prices. In that era the true value of soil was reflected in the price of exchange value of products. Those who tilled the soil represented the wealth of this nation. But since then, by legislation and regulation, the soil has been devalued. Trade barriers and monopolies have grown up.

"These forces, unhampered, have forced the farmers to sell their products on a free market, while at the same time buying farm machinery, drugs, automobiles, dairy equipment and many other articles on a market protected by tariff and honey-combed with monopoly. Thus the once proud agriculture, has been reduced to the lowest per capita income group in America."

Coke Wildcat Gets Showing

Discovery of pay from the Pennsylvania was indicated Monday in the Sun Oil Co. No. 1 Jameson, northwest Coke county wildcat in section 253-1A, H&TC.

Testing from 6,206-6,230 feet on a 45-minute drillstem run, No. 1 Jameson recovered 500 feet of sweet green oil of 44 gravity. Observers believed that it had a good chance of becoming a discovery. Estimates were that it would produce 2,000,000 cubic feet of gas daily.

Location is 16 miles airline northwest of Robert Lee or about 45 miles airline southeast of Big Spring. It is near the big bend in the Colorado river near Silver and is less than two miles from the Midland county line and two miles southwest of the joint corners of Mitchell, Nolan and Coke counties.

Two tests in northwest Mitchell county were preparing to test. Tope Foster No. 1 Womack cleaned out to bottom at a total depth of 2,780 feet in section 5, Cuthbert strip, and prepared to test. Norman & Roche No. 1 S. R. Coleman, the discovery, shot after previously, acidizing, swabbed 75 barrels to 2,865 feet before testing. Foster rigged up south of his No. 1 test with rotary for No. 2 Womack. Norman & Roche drilled below 900 feet in anhydrite on their No. 2 S. R. Coleman, north of the discovery in section 70-97, H&TC. C. E. Beavers No. 1 S. R. Coleman, section 70-97, H&TC, dug cellar and pits, moved in materials. Doswell & Morgan No. 1 S. R. Coleman, section 8, Cuthbert strip, drilled below 2,490 in lime.

In extreme northwest Mitchell, J. B. Tubbs No. 1. Jones was below 1,165 feet in anhydrite and shale. It is in section 60-20, Lavaca.

Toastmasters Club To Get Charter On December 9

Charter will be presented to the Toastmasters club on the evening of Dec. 9. E. B. McCormick, president, announced at the meeting Monday evening.

Norman McCloud, Jr., Wichita Falls, will be here for the presentation, said McCormick. The event will be the occasion for a "ladies night affair," and plans call for a regular program in advance of the charter presentation. He also announced a discussion program for next week and an educational program for Dec. 23, most members being called upon for participation on both programs.

Lawrence Wells told of the work of the health unit in seeking to safeguard the health of patrons through control of multi-use utensils and dishes at public eating places. Topic for discussion was proposed by John Coffee and Joe Pickle and Dean Bennett served as critics. Bob McEwen was introduced as a new member and Dean Bennett as a reinstated one. Sandy Greenleaf was a guest.

Bob Sox Club Has Weekly Meet

Wanda Clanton was hostess to the regular meeting of the Bob Sox club Monday evening.

During the business session it was decided that officers will be required to pay double absence fines. It was announced that the next meeting will be in the home of Mary Bailey.

Present were Helen Eubanks, Mary Bailey, Wanda Clanton, Betty Monsey, Bobbie Fields, Mary Rusk, Allen Cahoon and Pat Monset.

Stocker Receipts Heavy At Auction

Stocker receipts continued heavy at the West Texas Live-stock Auction company today, but early sales indicated that the market would decline, following trends in other sales in the area, officials reported at noon.

Approximately 25 head of hogs sold early, bringing up to \$26.25 cwt. representing a gain of half a cent a pound over last week's top price.

Fat butcher cattle also began steady, but a large portion of the day's receipts were stockers. Receipts of all classes up to noon totaled more than 1,000 head.

FINED \$100

Clarence Sewell, a negro man taken into custody Monday evening by members of the city police force, appeared in county court this morning to enter a plea of guilty to the charge of unlawfully carrying a pistol. He was fined \$100 and costs.

J. T. and Jimmy Byers departed this morning on a hunting trip to the Davis mountains.

In Kenilworth, Illinois, a rooster must step back 300 feet from any residence if it wishes to crow.

AAA Voting To Be Done By Mail

Howard county farmers will have opportunity to vote for farmer-committeemen in the coming election by mail, AAA administrator M. Weaver said this morning. The balloting will be conducted sometime between now and Dec. 14.

Official ballots will be sent each eligible voter, according to Weaver. On the ballot, there will appear the name of one candidate for each position. That individual was to be selected by the nominating committee, which went into session today. In addition, space will be included on the voting form for write-in candidates the land-owners may desire to support.

Each farmer will vote for three regular members of the community committee plus two alternate members. At the same time, voters will elect a delegate and an alternate delegate to represent their community at the county conventions.

The ballots are to be secret, Weaver said.

Any person participating in the 1946 Agricultural Conservation program or who has a contract with the Federal Crop Insurance corporation is eligible to exercise voting privileges. This includes owners, operators and tenants on farms where the conservation program is being carried out. Wives of all eligible voters are also eligible to participate in the election.

Committees will be called upon to cast decisions on soil conservation, crop adjustments, Government price supports and other federal farm programs.

Local Hunters Put 40 Bucks On Ice

Several dozen Big Spring deer hunters are prepared to offer proof of their "luck" on recent excursions, according to reports from local storage concerns.

Up to this morning, the Big Spring Locker company had butchered and stored 40 bucks, and rate has increased during the past few days. Practically all deer already stored resulted from trips to New Mexico, but locker plant officials are expecting Texas bucks to start trickling in by mid-week.

About 35 deer and a bear have been handled at the Southern Ice company. Most of the early arrivals there came from New Mexico also.

PLEADS GUILTY

O. B. Goodson of Lamesa, stopped Monday evening by members of the city police force, entered a plea of guilty to the charge of driving while under the influence of intoxicants and was fined \$75 and costs. In addition his driver's license was taken from him for six months.

CONVALESCING

Mrs. B. F. Robbins, who recently underwent surgery at Dallas, is convalescing slowly but satisfactorily. She is now able to sit up for a few minutes each day.

Markets

COTTON
NEW YORK, Nov. 19. (AP)—Noon cotton prices were 80 cents to \$1.30 a bale lower than the previous close. Dec. 31.80, March 30.96, and May 30.20.

WALL STREET
NEW YORK, Nov. 19. (AP)—Scattered stocks made a feeble attempt at recovery in today's market although many leading rails and industrials were unable to overcome light selling.

As in Monday's session, the coal labor dispute, threatening transportation and numerous lines of production, again received the principal plane for speculative and investment pessimism. A little bidding was credited to the idea the market may have been oversold and was due for a good technical comeback.

Grid Men Laud Six-Man Unit

Whole hearted approval of the Six-Man Officials association, believed to be the first of its kind formed in West Texas, was voiced by the coaches and superintendents attending last night's banquet at the Settles hotel.

Some 20 persons attended the function, which served as a climax to District Ten's football program for the year.

Leon Bush, athletic coach at Howard County Junior college, made a short "get-acquainted" speech to the group.

Those attending included Walker Bailey, president; H. C. Hitt, Elvis Mathis and J. V. Carroll, both of Water Valley; Joe Holliday, Frank Honeycutt and G. D. Kennedy, all of Forsan; Gordon Griggs and Jim Scudday, Garden City; H. C. Hitt and M. R. Turner, Coahoma; Ches McDonald and George Tolletson, Sterling City; and Jack Johnson, Bill Horne, Ted Phillips, Tommy Hart and Bush, all of Big Spring.

Aged Dallas Man Seriously Burned

DALLAS, Nov. 19. (AP)—W. H. Barnes, 77, was seriously burned early today and his one-room home completely destroyed by fire which started from a kerosene stove.

Taken to a hospital Barnes was reported suffering from first and second degree burns about the face and hands.

Lloyd Speaker At Father-Son Event

Rev. R. Gage Lloyd, pastor of the First Presbyterian Church was principal speaker at a Father and Son banquet held by the Men's Bible Class of the First Methodist Church Monday night.

The banquet also served as a regular meeting for the Bible Class.

Special guests for the occasion were members of Boy Scout Troop Two, which is sponsored by the class.

A musical program was furnished by the Howard County Junior college music department, and turkey dinner was served to class members and guests.

Iva Huneycutt, class chairman presided, and Clyde Waits was in charge of the program.

A "first Thanksgiving was celebrated in Maine, not Massachusetts, 15 years before the Pilgrims.
