Honored Odd Fellow

R. Halden now has the distinguished honor of wearing the VETERAN MEDAL of the three-link order.

This is the rare medal by which the Grand Lodge of Odd Fellows honors those veteran members who remain in good standing in the same local lodge for a period of 40 years. Mr. Halden has been a member of Alpha Lodge No. 204 now past 40 years and last week received his medal. It is a beautiful medal and quiet beauty. in this case is worthily worn. He has been a member of the lodge of the I. O. O. F. lodge for about 50 years, joining first in Boston, Mass. "This medal has to be worked for", says, Mr. Halden. "It don't come by takes 40 years of faithful service to tion was given by Mrs. Hart, mother cepted the call of the San Saba earn it."

folks after they pass the allotted "three score years and ten," to look back over the days that are gone and thoughtfully live them over.

I find myself, at seventy-one, frequently drifting back a quarter of a century, when I see myself in the little drug store I owned at Bolivar, Mo., making and selling a vegetable compound to my friends and customers—what was then known only as Dr. Lewis' Medicine for Stomach, Liver and Bowel Complaints

For many years while I was perfecting my formula I studied and investigated the laxatives and cathartics on the market and became convinced that their main fault was not that they did not act on the bowels, but that their action was too violent and drastic, and upset the system of the user; which was due to the fact that they were not thorough enough in their action, some simply acting on the upper or small intestines, while others would act only on the lower or large intestines, and that they almost invariably produced a habit requiring augmented doses.

I believed that a preparation to produce

I believed that a preparation to produce the best effect must first tone the liver,

then act on the stomach and entire alimen-tary system. If this was accomplished, the medicine would produce a mild, but thorough elimination of the waste without the usual sickening sensations, and make the user feel better at once.

at San Saba National Bank.

(By Will) We have had some hard winter the past week. Some complaint of colds but no new cases of the flue.

We received news of one of the Fairview teachers being sick at Burnet. We have had no school since Christmas.

Ike Watkins has returned to his farm from north Texas.

Not much farm work has been! done. The weather has continued bad since winter began. The feed bill will certainly be heavy for making this year's crop. Farmers ought to have 40 cents for cotton next fall if they save themselves.

- A New Spirit of Good Will

Thanks to the opportunity given it by the War Department at home and abroad, a new spirit of good will has grown up around Dodge Brothers Motor Car.

Wherever soldiers meet, this car is spoken of in terms of admiration and even affection.

Soldiers grow to love the tools and weapons and implements that serve them.

They admire especially the inanimate thing that shows grit and endurance in a tight place.

That is American—and that is the American soldier in particular-and that is the sort of glory being woven around Dodge Brothers Motor Car.

There will always be associated with it the remembrance of the work it did in the world war in army service on both sides of the ocean.

Thousands of American soldiers are coming back now from the camps in America and the battle-front in France, telling how well that work was done.

They are telling it to their fathers and mothers, their worshipping small brothers, their sisters, their sweethearts and their friends.

It is the central figure in many a stirring story told about the family fire-place.

To many a white-haired American mother it means something more, as it goes by, than just a motor car.

She links it, somehow, with what her own boy did, with what America did, and with what America stands for.

Dodge Brothers are proud that theirs was the one car of its type and class chosen by the War Department.

They are prouder still that it has been taken into the hearts and homes of the American people.

The old folks, and the little folks who don't forget, are spreading a leaven of good will which will endure for years to come.

Dodge Brothers cherish this new spirit of good will which has come out of the world war as their most valued possession.

The gasoline consumption is unusually low The tire mileage is unusually high

Tommie Owen Writes Of Trip.

November 23: Dear Father and Mother I will now write you all a letter about my trip over here. The ship we came on brought about 2,700 of us soldiers. We came by Liberty. Set sail July 31 and were on the boat 24 hours before we sailed. We had a big submarine battle on the morning of August 10 about six o'clock. We were all lined up going to breakfast when the battle began. I never even got excited over it. They gave the alarm for all to come on top. The boys went down stairs and stole all of the breakfast while the battle was on with the sub. So you see the danger we were all in and didn't get afraid-breakfast was what we wanted. We battled with those submarines for 19 hours. How do you like that. I didn't get excited, but believe me I sure did get sea sick the second day out. Was sick three days. There was one day I would not have cared if the ship had sunk. We had three battles on the way over. They shot all around us. They shot at us and missed the end of the boat about 30 feet. That was close, but a miss was good as a mile. / I didn't hardly realize we were in a battle. After 19 hours we won it and our District Clerk of said San Saba Coun- notice by publication, in the English time. WANT GOOD PLANTING SEED

San Saba, Texas August 6th, 1918.

To Whom it May Concern:-

This is to certify that I have this day made a careful inspection of the 40 acre field of Mebane Cotton being grown for seed by J. L. F. Fentress near San Saba, Texas. This cotton is from seed carefully selected by h

from year to year for the preceeding seven years. The plants in this field are of a pure strain of Mebane, very uniform and of a stocky well branched type. The bolls are well distributed and closely set to the limbs and are of good size and shape.

The field at this time is very free from Boll Weevil and other insect pests and seems to be free from plant

This cotton has been grown under irrigation using the least possible amount of water necessary for complete development and the seed will be as well adapted for planting under limited rainfall conditions as under heavier rainfall or irrigation. Respectfully,

> J. D. Tinsley, Vice-President Texas Field Crops Association.
