SAN SABA, SAN SABA COUNTY, TEXAS APRIL 11 1918

VOL. 17—No. 15

BULLETIN OF SELECTION BOARD

1. There has been another emergency draft made by the Government, pending the announcement of the second large national draft. Texas will be called upon to furnish 7817 men under this emergency draft, 4330 whites and 3487 negroes. As in the case of the latest emergency draft (the one of the latter part of last month) all of the men called for in this county must be furnished, no credits due the county will be allowed, but the number of men drafted will be credited against the next gross quota for the county. The movement of the white men will extend over three days, beginning April 26th, and the movement of the negroes will consume two days, beginning April 29th. The number of negroes called for will exhaust the remainder due on the first national draft and will include an additional number which will be credited on the next gross quotas of the several States.

This county had no negroes due to be drafted in its first quota, and thus far has only one subject to draft under the next quota. Whether or not orders will be received to draft this negro. The same being Corn Murray Galloway, in the movement this month remains to be seen.

2. The number of white men this county will be called on to supply at this time has not been learned. Orders are expected any day that will give this information and the particular day of the three in question such draftees are to be entrained. This Board will place on the bulletin board this information as soon as possible, and also give the names of the registrants who will be called to the colors in this draft.

3. In filling any given installment of a quota a Local Board is authorized to entrain as many as two additional men. This regulation applies as well to single movements like the one on the 30th ultimo and the one on the 26th instant or thereabouts. Hence, any registrant not summoned by this Board for the latter movement who would like to be drafted at this time should call at this office without delay.

4. A late circular letter received from the Adjutant General's Department at Austin contains the following paragraph: "In the matter of individual induction of registrants for the Signal Corps, you are advised that the Chief Signal Officer, Washington, D. C., has authorized the Department Signal Officer, Southern Department, Fort Sam Houston, San Antonio, Texas, to issue the competent orders for men specially qualified for the Signal Corps."

5. There are some certificates of discharge and certificates of exemption issued by this Board under the former Regulations still outstanding. Registrants holding such certificates are hereby directed to send them in to this office at once.

6. This Board is glad to comply with the request of the local chapter of the Red Cross Association to call attention at this place to the motion picture show given for the benefit of the chapters of the county every Thursday night at the Majestic Theatre at San Saba. As the grand work of the Red Cross is known to every one, it should be necessary only to inform the people of this town and vicinity of the Red Cross Night at the picture show in

order to fill the house to capacity each week.

SAN SABA COUNTY SELECTION BOARD. San Saba, Tex. April 9, 1918.

EXTRA BULLETIN OF SELECTION BOARD.

1. This Board has just received notification to entrain one man on Sunday, the 14th instant, for A. & M. College, College Station, Texas, under Call No. 131, dated April 5th. Texas is required to furnish 350 men in this special movement.

2. The following is quoted from the orders is hand: "The men selected for this service will receive a two months' course in training at Government expense fitting them to serve in Army positions, requiring knowledge of automobile driving and repairing, blacksmithing, carpentry, gunsmithing, sheet metal work, and other mechanical duties incident to many kinds of military service both at the front and behind the lines. This is an exceptional opportunity for energetic, ambitious men. It is requested that you fill this call with volunteers. The voluntary period may continue until April 12th. After that date no more volunteers will be accepted and you will proceed to select in sequence of order number a sufficient number of qualified men from within Class I to fill your allotment after deducting the voluntary inductions. Only white men who have completed at least the eight grade of a grammar school are to be inducted."

3. This Board will receive up to and including Friday, the 12th, applications for induction under the above call. If no applications are received by the date just indicated, a registrant will be drafted to fill this county's quota under such call.

SAN SABA COUNTY SELECTION BOARD. San Saba, Texas, April 10, 1918.

Collection Of War Risk Insurance.

All beneficiaries who have occasion to collect claims under the war risk insurance act are advised that they need not employ counsel in order to collect such claims from the Government, but by consulting the legal advisory board of San Saba or applying to the undersigned chairman of that board, they will get all necessary advice and assistance free of all cost to them. This board is now organized with the assistant members of said board embracing all the attorneys of this bar will at the suggestion of the secretary of the Treasury of the United States cheerfully give all assistance necessary.

The occasion for this notice is disclosed in a letter from the secretary of the Treasury, Mr. McAdoo, to the undersigned which letter follows: E. L. RECTOR, Chairman of Legal advisory Board for San Saba County.

Ladies get your heads together and study the political situation. Surprise these men by showing them what a 20th century woman, who has been in bondage for centuries is able to do. Running the affairs of a county or state is a whole lot like running a household where there are eight or ten children. Everything must be in its place, and a place for everything. Get busy and sweep out the corners and look behind the door. If you find anything offensive, do not be afraid to express your opinion, for we are citizens now, and have escaped the exconvict, lunatic and minor class. We need more women in public office. Every county's officials should be represented equally divided. And then we will soon see results.

Teaches 69 Years—Quits.

Attleboro, Mass.—After having taught school for sixty-nine consecutive years, Miss Elizabeth Carpenter Blanding, one of the oldest, if not the oldest, school teachers in the United States, will retire soon at the age of 85 years.

Morton Baker came in Saturday from camp Travis to visit his parents Mr. and Mrs. Pete Baker of Algerita.

Jesse Lee Hunt Died at the family home April 5th, at the age of 25 years 8 months and 18 days.

He was the son of Henry M. and Mary L. Hunt, and was born July 17th 1892.

The remains were laid to rest Saturday afternoon in the Odd Fellows Cemetery. We extend our sympathy to the bereft family.

TEXAS WHEAT NOW STORED COULD BE MADE TO OFFSET GRAIN GAINED BY GERMANY

Germany has now access to Ukraine, the granary of Europe. She has not acquired complete control of Ukraine, nor can she count on a 1918 crop, because of famine and disorder in that land; but in 1919, with her faculty of making subservient nations do her bidding, she can secure wheat enough to continue a gigantic offensive; and the only thing that can offset that offensive to any great degree is the releasing by farmers in North Texas of 500,000 bushels of wheat and placing it at the disposition of the Nation at once.

Thos. L. Bradford, District Administrator for the First District, recently unearthed 100,000 bushels of wheat in three counties of the Dallas district which farmers were holding. When it was explained to these farmers that holding of wheat when the very need of it on the western front in Europe would be as determining a factor in withstanding the Hindenburg Drive, and all the subsequent drives of the most powerful army that the world has ever seen—THEY TOOK THE GRAIN FROM ITS STOREHOUSES AND MADE IT AVAILABLE for the people of Texas, who in turn had sent their own wheat for home consumption to the steamers with empty holds waiting in American ports to carry relief to the Allies.

Ukraine comprises one-sixth of European Russia in area, but contains 32 per cent of all farm lands. Of this total area 53 per cent is farmed. This is a higher percentage than any other European country with the exception of France, where 56 per cent of the total area is cultivated. The production of wheat, rye and barley in Ukraine was between 600,000,000 and 700,000,000 bushels per year, or one-third of the entire production of Russia. Will we let GERMANY gain the enormous wheat supply to boost her own strength and let Texas wheat remain hoarded on farms when the holding back is seeping the strength and vigor of army, navy and nation; and the army, navy and peoples of the nations associated with us in war?

AMERICA MUST TAKE THE SOB FROM BELGIAN THROATS WITH BREAD.

"I was in India during their awful famine some years ago," said the Honorable Everett Colby of New Jersey, one of the most prominent attorneys of the State and former candidate for governor, who was a member of the United States Food Administration Commission to Europe, while on a tour of Texas recently. "There for the first time I saw the look in the eyes and heard the cry in the throats of starving children. There is nothing like it in all creation. There is no other look in the eyes of God's created beings that so tears the heart. There is no other sound uttered by any of God's creatures that so wrings the soul of men as that look and cry of starving people."

"Unless we keep a larger and larger volume of wheat flowing to France and Belgium than we have sent there thus far, that look and that cry from the eyes and throats of children 'over there' will reach us in smug contented, well-fed America."

Miss Willie Harris has a position at the Chocolate Shop.

Boys Pig Club.

The San Saba high school entertained the Boys Pig Club Saturday with a play and dinner. There were 65 members present, 325 are enrolled. They enjoyed a sumptuous dinner, and then repaired to the Court house where Mayor Smith made them an address of welcome, which was responded by the President of the club.

County Agricultural agent R. P. Elrod gave them an instructive talk.

The following officers were elected: Douglas Smith Pres. North Millican of Bend Vice President, Miss Francis Jones Secretary.

The members are all enthusiastic about their work. All will receive a pass to the county fair.

RAINED IN SAN SABA

The long drouth was broken Friday, when at 3:30 the heavens opened and poured out one more 'Gully Washer'. It rained for about an hour just as hard as it could possible pour down. Old mother earth was dry that when it stopped it had all soaked in, or run away, and did not even leave a little mud on top. Everybody was smiling the rest of the day and some of the smiles have not come off yet.

THIRD LIBERTY LOAN LOOMS UP LOVELY.

SAN SABA COUNTY, SUSTAINS HER WELL EARNED REPUTATION IN THE THIRD LIBERTY LOAN CAMPAIGN.

Considering conditions caused by the drouth which has prevailed in this county the past two years, the initial success of the third Liberty Loan campaign of this county, has been phenomenal. That San Saba will go over the top there is not the least doubt, in fact she can peep over the summit at this early day, and by the closing date the quota of \$100,000 allotted to this county will be secured. There are several more to be seen which will swell the amount to a good safe margin over the above amount.

Ladies Liberty Loan Meeting.

A meeting of the ladies of San Saba county is hereby called to meet at the Sewing Room in the Ladies Rest Room of the Court House next Tuesday evening at 4:00 o'clock for the purpose of organizing and assisting in the Liberty Loan Campaign now on. Representatives from all parts of the county are earnestly desired and expected.

Mrs. W. D. Cowan, County Chairman Womens Liberty Loan Committee.

Mdms. W. P. Stobaugh of Coleman and A. B. Stobaugh of Brady, were guests in the home of Mr. and Mrs. E. T. Stobaugh this week.

Mr. A. V. Rilety was in Dallas this attending the Lumbermens Convention.

Mrs. Frank Hall and children left Tuesday for Brownwood they are guests of relatives.

Mrs. Raymond Jones is visiting her mother, Mrs. D. L. Jones of Lometa.

RED CROSS ANNOUNCEMENT

Let all knitted articles be returned at once. Also all who have sweater needles should return them to Mrs. G. A. Arheiger. This announcement was made some weeks ago but not a needle has so far been returned.

The Red Cross work and hence the work of winning the war is hindered more by lack of workers than any other one thing. This war will be won when we all get at it and the sooner we see this the sooner will we win. Suppose the case this way. A San Saba county soldier is lying in a Red Cross hospital in France wounded. The nurses cannot dress his wounds every time they need it because of the scarcity of surgical dressings. He wonders why. He then learns that the San Saba county woman spent their time car riding, attending social functions, or it may be they just stayed at home and did their own work. Whatever the cause what can there be to make that soldier go back to the trenches and fight again? The French women are so loyal that their soldiers go back even the fourth and fifth time.

Next week we are going to publish the names of all who attend the work rooms this week. Will your name be written there?

WAR DEBT WARNING

NATIONS \$11,700,000,000. Washington, April 7.—Three and a half years of war have caused an increase of \$11,700,000,000 in the public debt of the twelve leading warring nations, according to tabulations made by the Federal Reserve Board.

Of this sum \$72,400,000,000 represents the debt increase of the allied nations and \$39,300,000,000 more of the central nations. The United States debt incurred since the country entered the war is given as \$6,550,000,000, the standing Jan. 31.

THE DROUTH RELIEF BILL

Be it enacted by the Legislature of the State of Texas: Section 1. The counties of this State shall have authority to expend their general funds for the purpose of purchasing seed to be planted by residents of such counties during the year 1918 and of supplying feed for the work stock of the residents of such counties who are poor and unable to procure such seed; provided, however, that not more than sufficient seed for sixty acres of land shall be furnished to any one person or one household, and not more feed shall be furnished to any one person or household than is sufficient for work stock to work sixty acres of land.

Sec. 2. All persons entitled to seed and feed for stock and wishing to avail themselves of the benefit of this act shall file with the county clerk of the county where such applicant resides, on or before the first day of September, 1918, as application duly sworn to before some officer authorized to administer oaths. Said application shall contain a true statement of the number of acres the applicant intends to plant; how many bushels or pounds and the kind and character of seed he will require to seed said ground, and the number and kind of work stock he intends to work on such lands; said application shall show that the applicant has not procured and is not able to procure the necessary seed and feed for the current year; that he desires such seed and feed for no other purpose than that specified in this act, and that he will not sell or store the same or any part thereof, but will use the same and the whole thereof in planting and working the crops on the lands specified in his application. Said application shall also set forth the location and ownership of lands which the applicant expects to work. The application shall also contain a true and full description of all the real and personal property owned by the applicant and all incumbrances and liens thereon. He shall also state what, if anything, he owes, and to whom, and the amount thereof, and said applicant shall further state the length of time he has resided in said county and the postoffice address of his former residence. All applications filed under the provisions of this act shall be consecutively numbered, and shall be open to public inspection; and no applications shall be considered by the board of county commissioners except such as have been made and filed in the manner prescribed in this section. All applications shall be on forms prescribed and furnished the counties operating hereunder by the Governor of Texas.

Sec. 3. Any person making a false statement in such sworn application shall be guilty of false swearing, and shall be punished as prescribed for that offense in the Penal Code of this State. Any person obtaining aid by any false statement in such application, or in aid thereof, shall be deemed guilty of swindling.

Sec. 4. The county commissioners court of each county operating under the provisions of this act shall examine and pass upon all such applications, and may require such additional proof of any of the facts stated therein as may be necessary to make them cognizant of the real facts. If they approve an application, they shall direct the issuance of such grain and feed to the applicant as they may deem sufficient and consistent with the necessities of other applicants and the ability of the county to respond to the valid demands made upon it under this act; they may direct the issuance of additional seed and additional feed stuff to any applicant, from time to time when they deem it necessary and consistent with the conditions that confront them.

Sec. 5. The county clerk of each county shall, as soon as the county commissioners shall have approved an application, issue to such applicant an order for the number of bushels or pounds of each kind of seed, and the amount and kind of character of feed which has been allowed such applicant unless otherwise directed by the commissioners; or by the county judge, acting for them; provided, however, that such order shall not be delivered to the applicant until he shall have signed a contract in duplicate, tested by the county clerk, to the effect that said applicant for and in consideration of the seed and feed furnished him, which shall be described in such contract, the applicant promises to pay to said county the amount of the costs of same, which shall be there specified, together with ten per cent attorney's fees if suit should be brought on the same. The amount of such indebtedness shall become due and payable on the 1st day of December, A. D. 1918, together with five per cent interest per annum from the date of such contract. The contract shall be on forms prescribed by the Attorney General.

Sec. 6. On the delivery of such contract to the county clerk, he shall file the duplicate thereof as chattel mortgages are filed, and the county shall thereby acquire a just and valid lien upon the crops grown by such applicant which are planted from the seeds thus purchased or worked with work stock, for which such feed was advanced; said contract shall be a valid lien as against all creditors, purchasers or mortgages thereafter and against all liens of any kind or character, whether in good faith or otherwise, and the filing of said contract shall be held and considered to be full and sufficient notice to all parties of the existence and extent of said lien, which shall continue in force until the amount covered by said contract is fully paid.

Sec. 7. The original of said contract shall be delivered to the tax collector, whose duty it shall be to collect the same when due, and pay

same to the county; but he shall not be entitled to any additional compensation therefor. If the amount due is not paid the collector, then he shall deliver the contract to the county attorney, who shall bring suit thereon, and for foreclosure of all liens and shall receive for his services the liction is made; provided that the county may make use of the garnishment, attachment or sequestration proceedings; provided however, that the commissioners court shall have authority to extend the time of payment on any amount due under the contract, upon such terms as may be agreed upon, provided approved security is furnished; any renewal of the contract shall be a lien against the contractor's crops wherever planted, in the same manner as in the first instance, but a copy of the renewed contract must be filed as in the first instance.

Sec. 8. Any person or persons who shall, contrary to the provisions of this act, sell, transfer, take or carry away, or in any manner dispose of the seed or feed, or any part thereof, furnished under this act, or shall use or dispose of same or any part thereof for any other purpose than those stated in his application except under the direction of the commissioners court, shall be deemed guilty of a misdemeanor, and upon conviction shall pay a fine not less than fifty dollars, no more than two hundred dollars, or by imprisonment in the county jail for any time not more than 90 days, or by both such fine and imprisonment.

Sec. 9. The county commissioners of every county operating under this act shall advertise their purpose to distribute feed and seed hereunder for ten days in some newspaper published in the county prior to the date when they shall begin such distribution, or if no newspaper is published, then by notice posted at the usual place in the courthouse. Said advertisement or notice shall contain a provision that no distribution will be made after the first day of September, A. D. 1918.

Sec. 10. If more seed and feed is applied for than can be supplied by the commissioners under the provisions of this act, then, as near as may be, considering all the facts and circumstances, a pro rata distribution shall be made by them among those who shall have been found entitled to the benefits of this act, taking into consideration the acreage and necessities of each applicant. The commissioners shall have the right to refuse any application which they may deem improper to grant, and may revise their adjustment on applications at any time before distribution.

Sec. 11. With the funds provided under this act, it shall be the duty of the commissioners to purchase such seed and feed at the lowest price at which the same can be obtained, to store and care for the same until called for, and to furnish the same to applicants at the actual cost thereof, which shall include transportation, storage, insurance, handling, and any other necessary charges, if any; provided, that is the purchase of planting seed and feed herein provided for, the commissioners court may first make application to the Bureau of Markets of the Texas Department of Agriculture for assistance in the purchase of these commodities, and that all the facilities of said Department shall be at the service of different counties which are making use of the funds provided for by the provisions of this act, to the end that said commodities may be purchased at the smallest possible cost.

Sec. 12. In case a county does not have the actual funds in hand it may issue warrants against its general funds due from taxes for the current year, which warrants shall be paid when such taxes are collected and which may bear such rate of interest as may be fixed by the commissioners court.

Sec. 13. It is further provided, that on application of any county by its commissioners court, showing that it has no further funds, or will have no funds which may be used for the purposes herein contemplated, or that it has insufficient funds for such purposes, the State of Texas shall advance to such county such sum of money as may be necessary for the purposes contemplated by this act, not to exceed thirty thousand dollars (\$30,000) for any one county. The county receiving such advancement shall repay the same in not to exceed two years, making an annual payment of not less than one-half (1/2) thereof each year. The fund so advanced to the county shall be repaid, together with four per cent (4) interest on the sum advanced. The application of any county for State aid in this manner shall be made to the Governor of the State of Texas, whose duty it shall be to investigate the conditions in such county, and if he determines that the amount of aid applied for is necessary, he shall approve such application for aid and immediately present the same to the Comptroller of the State of Texas who shall issue his warrant on the Treasury of this State in favor of the county for the amount approved. All counties receiving State aid shall execute an obligation of the county payable to the State of Texas, which obligation shall be prescribed by the Attorney General of the State of Texas, and the proceedings of such commissioners court shall be subject to review by the Attorney General.

Sec. 14. Operation under this act, including the distribution of seed and feed in preparation for the crop year of 1918, may begin as soon as this act becomes effective, but no distribution shall be made after September 1, 1918, but the other provisions of the act shall remain effective for its further administration.

Sec. 15. Whenever the State has furnished aid to any county, the State Treasurer shall open an account on his books with such county, and keep a record thereof, showing all sums advanced and all payments received and such other facts as may be relevant.

Sec. 16. There is hereby appropriated out of any funds in the

State Treasury not otherwise appropriated the sum of two million dollars for carrying out the purposes of this act; provided, however, that no part of the funds herein appropriated shall be used directly or indirectly for any purpose other than the purchase of seed and feed, and shall not be used for the payment of any salaries of assistants, agents, or employees, or their expenses.

Sec. 17. The fact that the United States is engaged in the greatest war in the history of the world, which is well calculated to tax its economic strength, and the fact that the Federal government is expending large sums of money to promote the cultivation of large areas of land and the raising of farm products to feed our armies in Europe and the fact that the growth of farm products has become a necessity of our national existence, and the fact that throughout the State of Texas there has prevailed a drought of unprecedented severity, causing total crop failures over a vast area, by reason of which many thousands of those engaged in agriculture are unable to obtain seed to plant their crops and feed their work stock, and the fact that more than fifty thousand of the patriotic young men of the State have been called to the colors in defense of their country, and that many more must shortly be called and thus lessen the ability of the farmers generally throughout the State to provide seed and feed for the coming year, creates as emergency and imperative public necessity, which requires that the constitutional rule which provides that bills shall be read on three several days be suspended, and said rule is hereby suspended, and that this act take effect and be in force from and after its passage, and it is so enacted.

If I Were a Farmer.

If I were a farmer I would keep at hand a few reliable medicines for minor ailments that are not so serious as to require the attention of a physician, such as Chamberlain's Colic and Diarrhoea Remedy for bowel complaints.

Chamberlain's Cough Remedy for coughs, colds and croup.

Chamberlain's Liniment for sprains, bruises and rheumatic pains.

Chamberlain's Tablets for stomach troubles, biliousness and constipation.

By having these articles at hand it would often save the trouble of a trip to town in the busiest season or in the night, and would enable me to treat slight ailments as soon as they appear, and thereby avoid the more serious diseases that so often follow.—For sale by The Corner Drug Store.

Have you bought that Liberty Bond yet? If not, why not? Can't you spare Uncle Sam at least \$50.00 to save your own freedom and wellbeing? Remember you do not give any money to Uncle Sam when you buy a Liberty Bond you only lend it to him for a time, and he pays you for the use of it. If you persist in refusing to lend your spare money to Uncle Sam he may have to force to come across in the way of war taxes. See the point? For thirty days from Saturday April 6th you have an opportunity to buy Liberty Bonds. Rip Van Winkle

FAMOUS BARGAIN STORE

* * * * *

More than thirty years ago the writer penniless, but with all the natural aspirations of youth came to this, "land of the free."

She received him as she has millions of others; gave him protection, opportunity and the spirit of her free institutions. To-day as the struggle to maintain this liberty for the whole world goes on, shall not those who have inherited or accepted these great blessings, by "all that in them is" perpetuate them to all mankind?

To most of us the Liberty Loan offers the most effective opportunity.

Quality Without Extravagance

EFFICIENCY is the keynote to success. Efficiency is as essential in the art of buying as in the art of earning and saving. Upon your expenditures, not your income, depend, your savings. This store offers a most productive field to the efficient buyer. Its policy of "selling exclusively for cash" has eliminated a great deal of old-time inefficiency. The fruits of this policy are "lower prices" and "greater values." These are incentives that are certain to appeal to all who buy for cash. "Quality without extravagance" is the slogan of efficiency at this store.

ORDINANCE NO. 37.

Be It Ordered By The City Council Of The City Of San Saba.

Sec. 1. That any one keeping a dog in the corporate limits of the City of San Saba shall procure a license on or before the first day of May of each year, from the Secretary of the City and pay therefor a license fee of \$2.50 for each dog owned or kept by him and shall procure from the Secretary a tag with the number of license for such dog and any one failing to procure such license and to tag such dog shall be deemed guilty of an offense and upon conviction shall be fined not less than five dollars and not more than ten.

Any dog found upon the streets without a tag shall be caught by the City Marshall and impounded, and if called for within three days thereafter shall after paying the fine and costs be permitted to take the dog away and should any one fail within three days to call for such dog, then said dog may be killed by the Marshall provided, before killing such dog notice that same will be killed within three days after publication of notice, with a short description of such dog, shall be printed in a newspaper for one week, published within the City, after bearing evidence and judgment in the Mayor's Court.

The Marshall shall be entitled to a fee of two dollars and fifty cents for every dog caught upon the streets or trespassing on others, without a tag on as aforesaid to be taxed as costs in any case against the owner for permitting such dog to run loose without a tag as aforesaid.

Sec. 2 That it shall be unlawful for any owner or keeper to permit any bitch to run loose upon the streets of San Saba, or in any open lot when such bit is in heat, and any one violating this ordinance shall be deemed guilty of an offense and upon conviction shall be fined not less than five dollars or more than twenty-five dollars.

All ordinances and parts of ordinances in conflict herewith are hereby repealed.

The fact that there is no provision by ordinance prohibiting dogs from running loose upon the streets and alleys of the City of San Saba creates an emergency and imperative public necessity that the constitutional rule requiring an ordinance to be read on three several monthly meetings of the City Council be suspended, and that this ordinance take effect and be in force from and after its passage and it is so enacted. ATTEST:

W. A. SMITH, Mayor.
MITCH JOHNSON, Secretary.

AN EXALTATION

"By the commander of the American forces in France, they are praised in "simple words of great authority."

By the general of the Eighty French army, Gerard, they are lauded and thanked in a way that makes red blood tingle.

By the war correspondents near to the battle of the giants in the land of Lafayette and Rochambeau, they are given the laurels of glory.

"They" are our tin soldiers. They are the Forty-Second Division of the United States Army of Liberation in France. General Pershing writes of them as holding "the 42nd front." So our tin soldiers are fighting, and winning, and dying in trenches all their own.

We know. It is no longer smart, or easy, or decent to call them our "tin soldiers." We have labeled them beautifully now: They are the "Rainbow Division," and the Rainbow Division is the National Guardsman from the American Northwest and Southwest, and from regions at the four cardinal points of our country. There are Texans in it, the boys from Maine, the boys from Oregon, we suppose. There are Yankees in it, Hoosiers, "far-heels," "crackers" probably. There are collegians in it; lawyers, doctors, clerks, farmers, divinity students and pugilists. But no slackers, of course, and none who used to be a loafer. Loafers know nothing about the State troops, except to call

them "tin soldiers."

Let's not be too hard on the loafers, however. All of us have called them "tin soldiers," more or less. If we live in the older and richer States, we used to let them build their own armories and buy their own equipment, largely. It was their pride and patriotic happiness to do so. If we live in the younger States that are not quite so rich, we grumbled at them anything, at all. Our backwoods and big-city legislators, alike, begrudged them a paltry appropriation each year for uniforms and antique rifles; for one trip to a State encampment, and for the upkeep of an adjutant general's office. If they wanted to spend their own money on the public, in such fashion, the more fools they. We continually talked about disbanding them altogether and then a flood came, or a riot, or a lynching and we yelled to them for help. So it was in Arkansas. So it was even in wealthy Ohio, with its big cities, its show and ceremony.

They were "tin soldiers" in their State militia days. They were "tin soldiers" in their National Guard days, under the Dick act. They were "tin soldiers" even after the Mexican frontier troubles, that took them, baked them, kept them long away from home—and trained them.

But now they are the Rainbow Division. It is their name because they span the country, from ocean to ocean and border to border. But a rainbow is something more than a span. It is also an arch. In the Book Genesis, it is God's promise of future brightness and earth's salvation.

We like to shape these exalted facts into symbolism. We like to believe we shall do something more grateful and substantial for the erstwhile "tin soldiers" and present heroes than to exhaust the language of eulogy and our stock of adjectival admiration. We want to believe that they will never again be "tin soldiers" on our lips, nor neglected soldiers at our hands.

We say they are exalted, high, great—as far above any ignorance and prejudice as a rainbow is high above the bowels of a tin mine—San Antonio Express.

BE A CHIN UPPER We know that men are worth only about three dollars a day from the chin down, selling muscle, but as high as a hundred thousand a year from the chin up, selling brains.

There is no room for chin downers in the high salaried class; be a chin upper. The business world wants thinkers and doers. There is a famine of high priced men today; many men are a thousand dollars a year, but only a few are worth ten thousand or a hundred thousand. The late Prof. James of Harvard, declared that the average man uses only ten per cent of his brain power. Suppose you are twice as capable as the average man; you are using only twenty per cent of your maximum power, only one of your greatest possibilities. Eighty five per cent of the men in this country are earning, only fifteen dollars or less per week. Ninety two per cent of those in business fail between the ages of forty and fifty. Ninety five per cent have no money at the age of sixty. The measure of your success or failure is the extent to which you obey or violate the laws of business. Our business is to take you out of the eighty five, the ninety two and the ninety five per cent class. We have been very successful in raising salaries, as shown by our former students letters in our catalogue.
