Playing Germany's Game

What is the purpose of Germany in carrying on a species of submarine warfare along the Atlantic coast that can be of no material military or exploit as that of capturing a steam trawler and using it to sink fishing schooners, for example? Even though such warfare could be kept up without interference it could not hope to car discovered the fire and turned accomplish anything of value to the German cause in a military sense.

We think the answer is to be found in the comments of the German press at the time these raids were inaugurated. The one point upon which most of the newspapers agreed was city for a few days. The fire boys press would shortly be asking what saved the rent house close to the was the matter with the American Navy and why it was not protecting our coast. And it would seem that extent at least, that a large number of anti-administration newspapers in the East, newspapers that have been convinced from the first that only a Republican administration could concalled session defines the closed sea- duct a war successfully, have found son for shooting doves as extending their voices again and are asking the from Feb. 1st to Dec. 1st, except in question as to the whereabouts of the American Navy in almost the exact words predicted by the Germans.

My books will close for the year, and my accounts will be due. Please do not disappoint me by not meeting your account promptly at that time.

It has been with very strenuous efforts that I have carried your accounts this year. The wholesalers are now requiring cash for the goods we sell you. So to keep in business we must have cash or keep the goods. The Food Administration also urges that we sell for cash and curtail every expense, thereby reducing the cost of living and save for the war that we must win above everything else, eliminated as far as possible more than one delivery to each house daily, that will save time and expense. You will need credit more later on than you do now so pay cash while there is cash.

You expect cash for what you sell.

Court Asked To Keep County Agent thing like that.

At their last session the County Commissioners' Court in an effort to 41 Co. 11 Bn 165 D. B. Camp Travis. cut expenses decided to discontinue the appropriation of \$700.00 the county was paying annually to help pay the salary of the County Agricultural Agent. Those who voted to discontinue the appropriation argued that in as much as drouth had made farming unprofitable that there was no need of an advisor.

As soon as it was known that the county agent was to be withdrawn from the county by the Government, it developed that the advice on cultivation of crops was a very small part of the county agents duties. It was found that the U.S. Government depended upon the agent for information and acted through him largely in its dealings with the people. It was found that many benefits received by the people came through the county agents efforts and that without the agent some of he relief proposed to be extended to the drouth stricken section could not be had.

Realizing that in this time of war everything must be done to co-operate with the Government, the County Council of Defense called a meeing of representatives from all over the to the people for reinstatement of the appropriation so the county agent would be retained. These petitions are now coming in numerously signed and it is noted that many of those who opposed the appropriation before they were informed of the many duties of the agent have signed the petitions.

A Soldier Boy's Letter

August 20, 1918 Mr. Billie Smith, San Saba, Texas

I am going to drop you a line or two this morning to see if all you people are dead at home. We are doing fine down here as we get three squares a day and \$30.00 per month and all good exercise we can stand up to. I had a right nice trip down here. We are still here today. All well satisfied and feeling and looking fine. All the San Saba boys are called to leave Camp Travis except one. Bob Browles, has taken the mumps, of course they don't expect to ship him yet.

Well I am going to tell you something along the first experience in drilling. Some of the boys it comes natural and some it comes very exerting to the first time or two.
