The Hesperian Club met last Friday evening with the Misses Diney and was royally entertained. Associa club meets this evening Greenwood and will study the following program:

Roll call—Passage of Patriotism.

Parliamentary Drill. Debate: Resolved that Bolingbroke Foresees the crown.

General Questions.

Leader, Mrs. Adams.

English History.

A retrospect, Miss Mozella Dry.

A prospect, Miss Jo Dry.

MRS. BURNS ENTERTAINS.

On Saturday evening last the doors of the beautiful home of Mrs. F. M. Burns were thrown open to invited guests and her richly furnished and spacious parlors was their home for the

evening in a very pleasant social given in honor of Mrs. Irene Fowlkes and Mrs. J. A. Walker of Brownwood. Mrs. Walker was a former resident here and has a host of friends who were again glad to meet her. The evening passed all too quickly in mirthful conversation and enjoyment of the delicate refreshments served, Mrs. Burns proving a most excellent hostess.

MRS. GILLILAND AT THE SCHOOL.

The Senior and Junior history classes enjoyed a rare treat Monday afternoon in the form of an "at home" talk given them by Mrs. Gilliland. This was made all the more interesting because of the charming manner in which it was delivered, the many views taken by Mrs. Gilliland while on the trip which appealed to you all the more because of the personal element entering into them and also from the fact that the class had just been studying Roman history.

Mrs. Gilliland spoke of the International Sunday School Convention which meets in Rome next May and expressed a strong desire that some of our pupils and teachers accompany her on that delightful trip; if any one should desire to go she can be notified and all may go in the Texas party which she is organizing. Her visit was deeply appreciated by both teachers and pupils. Any one interested can write Mrs. Gilliland at Colorado, and she will explain details of the trip.

ALUMNI ASSOCIATION.

The Alumni and Alumnae of

the Colorado High School are hereby requested to meet at the high school building next Friday evening, May 11th, for the purpose of organizing an association, the object of which is to perpetuate the pleasant friendships formed during school life and to keep alive the sentiments of affection for their Alma Mater.

Let all respond either in person or by sending in their names as we wish to include the list in the next issue of the catalog. The meeting is called for 4:30 p. m. T. J. YOE.

The following invitations have been received by a select few in Colorado:

MRS. LOONEY. MISS LOONEY.

Will receive in honor of Mr. and Mrs. E. H. Fowlkes at the Colorado Club Rooms Friday, May eleventh.

DANCING. 8:30 to 12 p. m.

A Dinner.

Misses Bess and Mary Arnett entertained at a five course dinner Wednesday evening. Those invited were Misses Maggie Smith and Bird Blandford; Messers Stonewal Kennedy, Earl Vaughan and Neil Gross.

Election of Officers.

The Kindergarten Association will have its annual election of officers at the court house Saturday afternoon at four o'clock. All members are urged to attend.

Notice.

The ladies cook books are on sale at Burns & Bell's dry goods store and at The Record office. Price 50c.

Hesperian's Fifteenth Anniversary.

Fifteen years ago last Friday, May 4th, the Hesperian Club of this city was organized, the anniversary meeting this year being held with the Misses Dry, who are charter members, and royal hostesses. The parlors were made bright and fragrant with cut flowers, a magnificent bouquet of roses adorning the center table. The following program was rendered:

Roll call, the dying words of Shakespeare's Monarchs.

Lesson, Richard 2nd, remainder of act 5th.

Leader, Mrs. R. B. Homan. The aftermath, five minutes each.

Topics. Bolingbroke, Mrs. A. J. Payne. Northumberland, Mrs. Moorar.

America, Mrs. Merritt. Reading and questions. English History.

Short biographies of Jno. Knox and Leicester, Mrs. M. K. Jackson. Duke of Alva, and the Gueses, Mrs. Greenwood.

This was followed by a social hour, during which much merriment was experienced in a pleasant contest. From a crystal bowl in one corner of the room the contestants were to carry on the narrow blade of a fruit knife as many nuts as possible, to be deposited in a basket at the entrance corner of the room in two and one-half minutes. Mrs. M. Carter proved the lucky person, hence was rewarded with a handsome Passe Patoned Gibson Girl, while Mrs. C. M. Adams was consoled with a bag of peanuts tied with the club colors.

Mrs. John W. Person and Miss Bernice Terrell were the visitors of the afternoon.

Delicious cake and strawberry ice cream was served. The meeting this week is with Mrs. Jno. W. Greenwood, and the final meeting for this club year will be held the following Friday (May 25th) with Mrs. C. A. Arbutnot.

Accident at the Light Plant.

On Monday night about 9:30 the town was pretty well frightened by what at first seemed to be an explosion at the light plant and some thought a second San Francisco earthquake had shaken the town. The lights all went out and the continuous roar of escaping steam denoted that something was wrong at the light plant. Messers Robert M. Webb, Maxfield and Keathley seemed to spring from the earth, for they were all there inside of two minutes of the accident, which proved to be nothing more serious than the bursting of a four-inch steam pipe. Of course this released the pressure, the engine stopped and that put out the lights, and escaping steam under 100 pounds pressure, caused the roar, but no one was hurt and the damage was less than \$10. Mr. King, the efficient and courteous engineer, though a little frightened at the sudden explosion and deafening noise, remained at his post and assured the surging crowd that nothing serious had happened.

Mr. Webb expresses his thanks to Drs. Coleman and Smith for coming so promptly to the plant to be of service in case of accident to his men, but fortunately no one was hurt.

Land For Sale.

Half section of splendid farming land, 82 1-2 acres in cultivation, new house, cistern, tank, etc. A bargain. See West Texas Immigration Bureau, Colorado, Texas.

Public Meeting.

The Methodist College Committee, the Business Men's Club and the public are urged to attend a public meeting at the fire station next Tuesday night, May 15th, at 8 o'clock, to close up up the College business and locate it. W. B. CROCKETT, Chairman.

To Whom It May Concern.

There has been some screens cut and property damaged at the Favorite Auditorium. Officers have been notified and are on the watch. If the parties are caught they will be prosecuted regardless of who they are. MANAGER.

Methodist Church.

Preaching morning and evening by the pastor. Subject 11a. m., "Relation of pastor and members." 8 p. m., "God's call, its rejection and the consequences." S. J. VAUGHAN.

Colorado Oil Mill.

Mr. Guitar, who represents the Abilene Cotton Oil Co., visited Colorado this week and made our business men a proposition to erect a sixty or seventy-five ton oil mill in Colorado. The business men have the matter under consideration and will report next week.

Quick Arrest.

C. J. Griffith, charged with disposing of mortgaged property in Nolan county, is in the Mitchell county jail. Our efficient sheriff Frank Johnson, was notified to look out for him and on Wednesday Griffith was arrested in Midland and brought here, had an examining trial and his bond fixed at \$1000, but so far he has failed to make bond.

Card of Thanks.

From the depths of my heart I wish to thank my friends and neighbors and the noble people of Colorado for their many acts of kindness to my husband during his affliction, and then when death entered our home and took him from us you were so kind and generous to me. My prayer shall ever be God bless you all and give you strength to bear the burdens and trials of this life. Sincerely,

MRS. D. W. STANDIFER.

Auditing Committee at Junction.

At the January meeting of the district court Judge Shepherd appointed a finance committee to audit the books of the county officials, and this committee is now at work and is expected to report next week.

Notice to Farmers.

The Colorado Gin Co. will run their corn mill and crusher the first Saturday in each month. Bring your corn and get good meal made at home. C. E. FRANKLIN, Manager.

Everybody says so. What? That Bob's restaurant puts up the best 25 cent meal in town.

Base Ball.

The Snyder boys came down last Saturday and crossed bats with our school boys team and in hard fought battle of ten innings were defeated one score, the final score being 12 to 13 in favor of Colorado. It was a nice game and the boys on both sides played good ball.

B. Y. P. U. Program

For 3 p. m. Sunday, May 13. e. Opening exercises. 2. Reading, Matt. 9:27-34; 25:31-40, by Mary Pond. 3. Expository notes, by Nettie Waddell and Inez Freeman. 4. Topical notss, by Jerald Riordan, Mary Hatch and Ethel Greenwood. 5. Talks by Jas. Sherwin, Jesse Bullock and others. 6. Closing exercises. Please come on time.

The Colorado Cook Book.

The Colorado Cook Book, published by The Record is out and in the hands of the ladies, who are selling them at 50c each. The ladies are well pleased with the work, and The Record does not hesitate to say it is a valuable book and well worth the price.

Committee Report.

To the Worshipful Master, Wardens and Brethren of Colorado Lodge No. 563 A. F. and A. M.:

The mallet of death has called from labor our esteemed brother W. R. Warren, and his immortal spirit has entered the Grand Lodge above, where the Supreme Architect of the Universe forever rules and forever presides. Brother Warren was one of the most zealous members of this lodge, and for many years filled with credit to himself and satisfaction to his brethren the important position of secretary of the lodge. In his life he richly exemplified the principles and tenets of our order, and his memory and influence will serve to inspire those of us who remain to greater devotion to the pure principles of Masonry. We recommend the adoption of the following resolutions:

- Resolved, that Colorado Lodge No. 563, Ancient Free and Accepted Masons deploras the loss from its membership of W. R. Warren, an honored and faithful member of this lodge, whose death occurred in Colorado, Texas, March 27, 1906, and tenders to his family the sincere condolence and sympathy of the lodge he faithfully served.
- Resolved, that a copy of this report duly certified be furnished to the family of our deceased brother, and a copy published in the local papers.

W. K. HOMAN,
J. E. HOOPER,
S. H. KELSEY,
Committee.

Lumber Yard Sold.

The Rockwell Bros. & Co. lumber yard have sold their yard to Mr. C. C. Graves, who has recently moved here from Royce, Texas. Mr. Graves is the man who purchased the W. A. Crowder residence. He is an old and experienced lumber man, and will continue the business at the same place.

How It Will Sound.

Denton, Texas, April 30.—The contract was let Saturday to Harris and Craft of this city for the erection of a girl's dormitory to be established in connection with the College of Industrial Arts by the Woman's Home Mission Society of the M. E. Church, South. The contract price was \$18,800, not including the plumbing and like work. The work of erecting the dormitory will begin in about ten days from the present date.

In about a year after the locating of the Methodist College in Colorado a dispatch similar to the above will be sent out from here.

GRAPHOLASTIC.

Death of D. W. Standifer.

Monday evening last Mr. D. W. Standifer died at his home in this city after a lingering illness of consumption. Mr. Standifer moved here last year from Mart, Texas, in the hope of benefitting his health, but relief was only temporary. He was tenderly laid to rest in the I. O. O. F. cemetery Tuesday evening by kind and sympathetic friends, there to await the resurrection morning. He leaves a wife and five children to mourn his loss, and they have the sincere sympathy of our people in their dark hour of trouble.

Cultivators for \$30.

C. A. Goodwin has a few cultivators that he will sell for \$30. Bargains, see them.

Union News Items.

Mrs. Bob Franklin is seriously sick this week with bilious fever.

Mr. John Posy went to Mineral Wells for his health last week.

Marvin Dorn sank a well on his place and has an abundance of good water at sixty feet.

Some wholesale grocery drummers were around here last week and some farmers say they will give them a send-off next time.

We want the scalp law enforced again, and the Johnson grass law extended over Mitchell county with a penal penalty for renters to let it grow on new broke land.

No substitute of boys for men's work while road work is done and acadimized road through the county.

Notice to Stock Breeders.

I will stand my fine Jack at my place in South Colorado. This is a black mammoth Jack and as good as the best. Price \$10 to insure. J. M. TERRY.

Colorado is Growing.

The best indication of the growing condition of a town is its telephone exchange. If the exchange is growing it indicates influx of population and progress all along the line. Manager Robert M. Webb tells us they can hardly keep up with their work. A new copper cable line is now to be put in from Sweetwater to Big Springs at an outlay of several thousand dollars.

Land For Sale.

I have a half section of air land for sale at \$3.00 per acre, well situated and a bargain at the price. Terms to suit. Call on or address H. W. Stoneham at the court house.

Alva McClain, for many years a resident of Moody but now living at Merkel, was in Waco yesterday. He had been visiting his relatives in this county and stopped to see Finnis, Bob and Eugene McClain. His friends here were indeed glad to see Alva again and to know he is pleased with his new home and prospering. —Waco Tribune.

The Record man knows Alva McClain well and is pleased to know that he exercised good judgment and moved to Western Texas.

Land Notice.

Parties having land to sell in small or large tracts are requested to send full description, price and terms to the West Texas Immigration Bureau, Colorado Texas.

The Texas Press Association.

The 27th annual meeting of the Texas Press Association will be held at Corpus Christi on June 6th, 7th and 8th. The Record man will go and represent Colorado and the West. We are on the program for a speech, subject assigned, "The Boundless and Booming West." The Corpus Christi Crony says:

"At least 300 Texas editors will be guests of Corpus Christi on June 6, 7 and 8. County Attorney W. B. McCampbell is the chairman of the local committee in charge of preparations to receive and entertain them and has set out to raise \$1000 in cash for that purpose. The object of the Association in meeting each year at a different place is to familiarize its members, and the hundreds of thousands of people who read their papers, with the beauties and advantages and conditions existing throughout the Empire of Texas. The membership secures its own transportation to each meeting place and pays for its own board and lodging. Its programs of business meetings are so elastically constructed that they are always subject to change or obliteration at the behest of the local entertainers, in order that the prime object of the meeting—"Learning about Texas"—may never suffer because of the pleasures of fraternal greetings and professional communions. The object of the local committee is to show the editors as much of Corpus Christi as possible and impress them as fully as may be with the good points and brilliant prospects of Corpus Christi and the surrounding country. The money raised will be spent with these ends in view. There will be a fish fry and oyster roast at the Alta Vista after a drive along the bluff to that house. There will be other drives among the farms and on the beach. There will be bathing parties and sails in plenty. There will be a trip to Aransas Pass on a seagoing vessel with deck room enough for the holding of business sessions of the association while sailing. There will be a sight of tarpon fishing and a dip in the gulf surf and a close view of the government jetties with the work of building them in progress. There will be an excursion to Brownsville with a bull fight at Matamoros and glimpses of the artesian belt. In short, there will be three or four days crowded full of education for the editors."

The Record man will plunge into the briny deep, sit on the beach and listen to the sad sea waves.

"When we all get to Corpus Christur We'll plunge in the deep and risker, And swim with the other feller's sister Until our backs are all in a blister."

Davidson After Oil Trust.

Austin, May 2.—The attorney general's department has under consideration the matter of instituting suits against the Standard oil and the Waters-Pierce Oil companies and probably other allied concerns now operating in this state, for alleged violation of the anti-trust laws.

Attorney General R. V. Davidson left today for Washington, D. C., for the purpose of conferring with the U. S. attorney general in reference to the proposed prosecutions. The fact that he is to take up the subject with the federal authorities is taken to indicate that he expects to receive their operation in the prosecution of the state's cases.

Attorney General Davidson watched with much interest the progress of the oyster proceedings of the Missouri state authorities against these companies. It is understood that a transcript of the testimony taken in the Missouri case has been furnished Attorney General Davidson and it furnishes the basis for the proposed proceedings that are to be instituted in the courts of this state.

Puzzle:—Can you tell us who will be nominated for Governor?—Merkel Mail.

That's easy—Tom Campell.

ADVERTISE COLORADO.

The Progressive Club of Colorado should by all means get out some strong advertising matter. Use our own and the names of West and other states in the East. We suggest a circular letter or a small folder to fit an envelope, or both, and then let every business man in the town slip one in each letter he writes and send it along to herald the good points about Colorado. Abilene had 100,000 circular letters printed about their town and country and they pay a man to meet every passenger train and go through these trains and hand one to every passenger. Dallas uses a 4-page folder that exactly fits an envelope and every letter that goes out of Dallas carries one of the folders. The cost is light and if we would adopt this plan we could soon have Colorado advertised all over the World.

CUNNINGHAM AND IRRIGATION.

Jim Cunningham, the would-be statesman from Abilene, may be a good democrat, but in opposing the irrigation project he is proving himself a very poor exponent of the cardinal principles of democracy, i. e., the greatest good to the greatest number. If he can show us conclusively wherein it is more beneficial to the many to have millions of acres unwatered, uncultivated and practically uninhabited by human beings than it is to have this same land dotted with thousands of homes and made to yield tons of farm produce, hay and fruit, then we are willing to lend our help, feeble though it may be, towards vesting Mr. Cunningham with the mantle of a congressman. But, we are doubly satisfied that the opponent of irrigation and reclamation will not attempt to do anything of the kind. His only argument is pooh, pooh, and howl "republican graft." In this connection we would like very much for this orator to tell the voters just where the graft

part of the project is to come in. Very true, the building of the dam, canals, etc., will cost a large sum of money, but any one with two ideas above the proverbial duck knows that all contracts for building reservoirs, canals, etc., for the government are let to the lowest and best bidder. Mr. Cunningham himself, would have the same privilege of bidding on a contract as any citizen of the glorious republic.

It would look very much to an observing person that tearing down and not building up is Mr. Cunningham's forte. Poor policy, Jim. The war was ended forty-one years ago, and for a public man, who would be a servant of the people to oppose a project simply because it is to be pulled off under an administration that is of the opposite political faith, shows that he is too narrow to represent the people of this big state in any legislative body. With all its meanness the republican party has done one or two good pieces of legislative work, and the carrying out of reclamation projects will place another white mark to its credit. So, when a party whose record is as shady as the republican party has been, endeavors to do a good action for heaven's sake let's give them our heartfelt support.

By supporting the irrigation project W. R. Smith has proven himself not only a staunch democrat, but a broad minded, liberal statesman, and when the votes are counted the people will show in no uncertain terms their endorsement of his policy.

The oyster is taking his summer vacation, but lobsters are still with us. The home of their king is in Abilene.

The sanitary condition of Colorado is not good as it should be. The parties whose business it is to see aite this matter should get busy right away, and have the streets and alleys cleaned up. Summer time will soon be here, and with it the usual fevers that naturally come in that season of the year, and if the town is clean of old rubbish and putrid things the health of the town would be better and it would present a great deal better appearance.

CONGRESSMAN SMITH AND THE RECLAMATION ACT.

The Truth About Irrigation Plans - Will Make Texas Bloom Like A Rose.

There are many who do not understand Mr. Smith's bill, and for this reason we here reproduce a strong editorial from Friday's Dallas News:

"The Senate Committee on Irrigation has decided to report favorably the Smith bill, making the reclamation act applicable to Texas. Senator Bailey will call the bill up in the Senate, which will probably be within a few days. There can scarcely be any doubt as to its passage, and, since the President recommended this legislation, it may not be premature for the people of West and North Texas to felicitate themselves.

"It is well enough, however, to understand just what the bill means for Texas. It means less than some seem to believe, but much more than many others imagine. It does not mean that large areas of land will be immediately put under irrigation, but it does mean that those owning lands in sections that may be irrigated at a reasonable expenditure will have a lawful claim to share in the use of the immense and constantly increasing reclamation fund. At the present time there is something more than \$32,000,000 in this fund. This amount is not now available, it being in use in the projects already improved. But additions are being made to it all the time from the sale of public lands and by the returns from those irrigation projects that have been completed. The users of the water made available by this irrigation work have ten years within which to reimburse the fund, but the money already spent is coming back in annual installments every year from now on.

"The Reclamation Bureau undertakes only those projects that are pronounced feasible by its engineers, the question of soil fertility and of the supply of water being the chief considerations in determining the feasibility of a project. That the feasible projects are numerous in Texas is well known. A fair share of this large fund will make certain valleys in what is now known as the arid region of the State blossom as the rose. In time the most reliable and the most productive farming lands in Texas may be tracts that nobody deems cultivable at this time.

"The increase of wealth that would accrue to the people of this State as a result of an adequate and perfect system of irrigation, where irrigation is needed and where it is possible, would be almost incalculable. There is rarely too much rain in the region in which irrigation is most needed, and a lack of moisture is the one trouble to overcome. That difficulty met, there is no cause of failure, and yields of the fields, patches, gardens and orchards become certainties upon which the people can always depend.

"The Smith bill is going to be a great law for Texans. There is no other State in which it can be applied with better results and returns than in Texas. Where irrigation enables the people to make one crop in States north of us, it will enable the man in some sections of Texas to raise at least three full crops in a year. It is quite sure to prove a great reputation-maker for its author, who may be pointed out in the future as the man who made long train loads of hay grow where not a blade of grass grew before."

The Baird Star says this concerning this most important bill:

"The provisions of the reclamation act will extend to Texas, which means that those who own lands that may be irrigated at a reasonable expense may have a lawful claim to share in the reclamation fund which now amounts to \$32,000,000 and is increasing. The extending of this act to Texas was the work of our congressman W. R. Smith, whom the people will again honor next November for his faithful and efficient service."

Representative Smith has been working for irrigation ever since he entered congress. Representative Stephens, one of the most useful men in the house, has also been active during his long service, and the preceding representatives from West Texas districts have for twenty years been working along the same line. The idea of adding thousands of acres to the productive area of Texas by irrigation in the extreme West has naturally appealed to all members of congress from Texas, and the delegation has always been a unit in supporting legislation having such a purpose in view. All the Texas members indorsed and supported the Smith bill referring to the Rio Grande project. The Rio Grande act will eventually have the effect of transforming thousands of acres of semi-arid land into fertile fields. It has been most conclusively demonstrated that only water is necessary to make a very large portion of West and Southwest Texas as productive as the eastern part of the State, and should Mr. Smith, Mr. Stephens and the others who are working along the same general lines, succeed in extending the whole of the original act to Texas, they will be deserving of the thanks of every citizen of Texas. By his tireless and persistent work in having this bill passed our Bob Smith has immortalized and endeared himself to all true Texans and it is the merest folly to even think of electing some one else to fill his place. It takes a man several terms in Congress before he is recognized, and to send a new man there now would be to undo what Judge Smith has worked all these years to do.

ESTABUINO P. 531.

ESTABUINO P. 531--This grand representative of the Hal Family, the greatest family of combined saddle and race horses, the world ever saw, will make the season of 1906 at my farm, 2 miles south of Colorado.
Estabuino, being a strong inbred Hal, will produce combination or all purpose horses with plenty of size, style, speed and stamina, from any kind of mare. He is chestnut sorrel, star in forehead, right hind foot white, 17 hands high, weight 1300 pounds. Following is an extract from a letter to Mr. Root from Mr. Thos. C. Parsons, Register of National Pacing Horse Breeders Association, which says: "In Estabuino you have one of the richest bred, pacing bred stallions in the world, and the people of Texas will make a big mistake if they fail to avail of his services early in his career in the Stud. (Signed) Thos. C. Parsons."

DR. HOMAN, No. 38019, American Trotting Register, is beyond question the handsomest stallion in Texas today, being a dark cherry bay, 15 hands and 13 inches high in front and 16 hands and 1-2 inch high behind, 5 years old and weighs 1175 pounds. He is strictly a high class trotting stallion and his blood lines are the best. He is one-half brother to Williams on his sire's side, and Williams is his uncle on his dam's side. Williams is the sire of Miss Marigold, 2.194, Tom Miller, 2.20, (sire of Tom Miller, Jr., 2.10), Inter Ocean, 2.074 and Miss Williams, 2.064, and Dr. Homan himself shows remarkable bursts of speed, and any one desiring a horse to plow all week and get out on Sunday and brush past anything on the road will do well to breed to Dr. Homan.

ELECTRIQUE, Registered French Coach Stallion, chestnut sorrel, blaze face, 15 hands high, 2 years old and weighs 935 pounds. He is as pure bred and as grand an individual as there is in the United States. I will let this fellow serve 10 head of mares this season. First come first served.

Will be a Fine Gin.

The Colorado Gin Co. have signed a contract with the Murray Gin Co., of Dallas, to put in a complete new ginning outfit. They will have the latest improvements, including cleaner, feeder, air blast, pneumatic elevator and trip valve. The trip valve keeps every man's cotton separate and there will be no "roll" of bad cotton to ruin a good bale. When completed this gin will be the latest improved gin West of Dallas.

Trustee Election.

On Saturday last was school trustee election in Colorado. There was but little excitement and but few votes bought. We noticed no free hacks nor ward heelers, in fact only a light vote was cast. The reason assigned is that the old board was running for re-election, and as they are the best men in Colorado they had no opposition hence were re-elected and our school is again placed in good hands.

Our Affiliated School.
Prof. Yoe, our worthy superintendent, received a letter from Baylor University at Waco, informing him of the accepted affiliation of that University with the Colorado school, in English, Mathematics, History, Science and Latin. In the University of Texas, at Austin, the Southwestern University at Georgetown and the Texas Christian University at Waco, we are affiliated in all the above branches except the latter, and all this is the work of this term and all accomplished in the past year.

Prof. Yoe is an educator of rare ability and a tireless worker to advance the cause of education. No man stands higher in the esteem of the citizenship of Colorado, and among his co-laborers in the chosen profession he is a leader; his objects and aims is the training of the children. They are to become the future men and women of America and to carry on the affairs of the Nation. The better educated they are the better prepared they will be to perform these responsible duties.

Colorado is proud of her school that has attained such a high standard of excellence under the able management of Prof. Yoe.

A New Enterprise.
A syndicate is being formed of men with capital who will buy land adjoining Colorado, lay out the plat in streets, alleys and blocks and place it on the market under some high sounding name. These men will show their faith by their works, as they expect to erect some three or four fine residences in this addition for their own use and will also build an elegant hotel building for lease. The streets will be graded and public water put in and if the occasion demands a street railway will be put down. We are not in a position to say where this addition will be, as all the land has not yet been purchased.

A Cotton Ware House.

The Mitchell County Farmers Union meets to-morrow (Saturday) at 2 p. m. at the county court house, and among other things to be considered and discussed is the erection of a cotton warehouse. Now, The Record fully believes that the ware house plan, if properly conducted, is a good and profitable move for the farmers. The object, as we understand it, is to erect in Colorado a large ware house, and it should be a brick one in order to reduce the insurance, and when the cotton season opens let the farmers employ a man, honest and competent, to run it. This man should be a cotton grader and classer, a man well posted on cotton conditions, crops, supply and demand and one not given to speculations in futures. The farmers are then to haul their cotton, as fast as gathered, to the ware house where it is weighed, graded and classed, and then stored. The farmer is then issued a certificate, showing the weight, grade, class, insurance, etc., and he can, at any time, sell this cotton by this certificate. In fact, these certificates will pass any where, at the stores or banks as money. In speaking on this subject the Itasca Item says:

"There is no doubt but what a warehouse in Itasca would prove a great advantage, not only to the farmers but the business men as well. The loss from country damage is considerable each year, and this enterprise would at once prevent loss. Two years ago, it is estimated that these losses in Itasca alone amounted to \$70,000.

"Mr. Martin's company proposes to take the contract to erect, on a favorable location and convenient to the railroad track, a warehouse with a capacity of 3500 bales at a total cost of \$5000 which amount is insignificant compared to the losses yearly incurred by reason of exposure."

GOOD ADVICE

BRIEF AND BREEZY.

Maxim Gorky's real name is Alexel Maximovitch Pieschoff, and after a second look at it, very few people will blame him for trying to forget it.

Two sessions of the Illinois State Senate have been attended by only one Senator. He must have been a new member slated for a speech.

With Roosevelt in the Senate, New York would need but one representative in that august body.

Though the Michigan peach crop has been killed by the frost the Fairbanks presidential boom has been seriously blighted by the warm weather.

Admitting that the use of the weapon is reprehensible, there are times when it is hard to feel sorry that Tillman keeps a pitchfork.

In disasters like that at San Francisco, we learn what stuff the fire insurance companies are made of.

Mediterranean resorts are crowded with Russian grand dukes. No one can tell them there is no place like home.

That Russian official who "caught" a bomb that was tossed at him, should have no trouble in signing with an American base ball team.

In the future any one who gets a contribution from Mr. Perkins will have to hand over a guaranty of immunity from prosecution, along with the receipt.

In an emergency like that at San Francisco, this administration's skill in cutting through numerous thicknesses of red tape at a blow, is distinctly valuable.

After what San Francisco has passed through, Zion City need have no fear of Dowie.

Candidates for Governor in Iowa should not forget that they are gentlemen—that is, if they are.

Evidently the First Apostle does not regard the injunction "to love your enemies" as an essential part of the faith.

In proof that the opera season was an artistic triumph, the management can point to the fact that it took about \$79,000 out of Chicago.

A bill has been introduced in Congress to prevent Congressmen from sending furniture by mail under their frank. That bill should not pass, for a generous government should permit any Congressman to lend his frank to a constituent who wanted to move instead of forcing the poor man to pay rent.

Dowie can come as near to "cussing" without using cuss words as any prophet we remember ever to have run across.

San Francisco is collecting her thoughts again and finds the whole country ready to help in a fresh start.

From force of habit, the public naturally expects an early announcement of the history of the San Francisco horror by Murat Halstead.

Perhaps Prof. Moore of the Weather Bureau department really meant that he would predict weather a month backward and was just having a little fun with us.

Who would suspect an Indian of being so far sighted? Here is old man Geronimo who for years has been building up a reputation as a "bad Indian" just that he might eventually "star" in Wild West Shows.

It may have been merely a coincidence, but no sooner had the business men of San Francisco begun to talk confidently of rebuilding the skyscrapers and making them taller than ever, than there came another slight earthquake shock.

We have customers wanting improved farms from 160 to 640 acres. If you want to sell call and see us at once.

LASSETER & MORRISON.

The Record force tips their hats now to Mr. L. F. Ware, manager of the Colorado Bottling and Manufacturing Co. for a nice case of Phos Ferrates and Dr. Pepper. We never drink anything stronger than water only when with some one or by ourselves, but in this instance we drank this case and relished it. Thanks, Mr. Ware. By-the-way this concern is now ready to supply the trade with all kinds of soft drinks. See their ad in this paper.

Going Fishing.

Yes and I buy my tackle, from W. L. Doss. An extra fine assortment of every thing and the kind that catches the fish.

Dr. Homan Complimented.

W. C. Green, the copper king of the West, who lives at El Paso, passed through Colorado Wednesday morning in his private car. Col. Green is sick and on his way to Hot Springs, Ark. Before he reached Colorado he wired here for Dr. R. B. Homan to go with him, and as it was only thirty minutes until train time he had to hustle. The Doctor will be absent several days.

If you want to buy farm or ranch lands don't fail to see Lassetter & Morrison. They have the best bargains offered in the West.

GRAPHOLASTIC.

Colorado merchants are well stocked up on the latest and best goods to be had in the best markets in the United States and they can and will handle all the trade in a most satisfactory manner that comes to the town. Don't think for a minute that you can't be pleased here. You can find anything here you may want. Our merchants can handle all kinds of trade, cash or credit.

The Street Fair and Carnival.

The Brownie-Morgan Carnival Company are with us this week with their numerous shows, playing under the auspices of the Colorado Fire Company. The Record man has taken in the Electric Theatre, the Crazy House, Palace of Illusions, the Old Plantation, Serpentilla, Lily, the big Stadium, the merry-go-round, the Ferris Wheel, threw confetti, and had a good time. The Carnival is a perfect city of tents and resembles the "pike" at the St. Louis Fair.

Messers Brownie and Morgan are perfect gentlemen and do not misrepresent a single thing, and a noticeable feature of the entire show is that it is clean and nice and the crowds who have attended are well pleased. The attendance has been very good, and the best crowds are expected today and tomorrow. Visit the Carnival and throw confetti.

List your land with Lassetter & Morrison, they can sell it for you.

University Scholarships.

Prof. Yoe reports the receipt of the affiliated scholarships from the State University, also one from Baylor College. These go to the pupil, free of cost, who makes the highest grade in the graduating class, and is indeed a prize worth winning.

The Fort Worth Sunday Record has instituted a new and valuable feature for people who think. It is a department of economics edited by E. G. Senter, well known throughout Texas. It contains non-partisan discussions of current political, social and industrial questions and is a digest of the world's best thought. The Sunday Record was already a first-class newspaper, and this supplies a feature that will especially commend it to the best class of readers.

Independent School Districts.

Several districts in the county want to incorporate for school purposes and have written to Judge W. B. Crockett about the matter, and he in turn has written to Superintendent R. B. Cousins and received the following letter which explains the matter:

Austin, Texas, May 5, 1906.
Hon. W. B. Crockett,
Colorado, Texas.

Dear Sir: Replying to your letter of May 3, I am sending you by this mail one copy of circular 47b, concerning the organization of independent school districts. You will note on page 3 that SATISFACTORY evidence must be furnished you that the towns proper has at least two hundred inhabitants. It is not sufficient that the entire territory contain that number of inhabitants. Yours sincerely,
R. B. COUSINS,
Superintendent.
