Rev. Burns Goes to Conference 31

Winding up his second year's work at this charge, Rev. R. E. Burns, pastor of the local Methodist church and that at Pleasant Valley, delivered his last sermon for the conference year at the church here Sunday night.

His text as taken from the 6th Chapter and 5th verse of Mark, which reads: "And he could there do no mightier works, save lay his hands on a few sick and heal them." In the discourse, the main point, Rev. Burns sought to impress upon his audience was that Christ's power while on earth, was limited to a certain degree, by the people being against him in his works.

During the sermon, Rev. Burns paid a high tribute to some of his members. Saying, in a way they had proven themselves to be a mother and father and sister and brother to him during his work as their pastor. He thanked the people for every kind word spoken and good deed rendered to him and his family during their residence in Odell. And ask pardon for any unkind word he might have uttered in the pulpit which some might consider out of place. At another point in his sermon he clearly emphasized the fact, that he at no time had any compromise to make with the devil, but took the stand of being against everything the Devil was for. Thus accounting for some things he said in his fight against sin.

It is the wish of a great many people in this community, that he who will preside over the N. West Texas Conference, which convenes at Memphis the 31st of this month, will see fit to return Rev. Burns and his family to Odell for another year. Still if they should be sent to another field the best wishes of their friends will go with them.

P. H. Bingham and wife were shopping in the city Monday.

Road to River May Be State Highway

County Commissioner C. G. Thompson of this precinct is interested in good roads. He returned Friday from Oklahoma where he spent some two or three days in that country inspecting the highways, culverts, bridges and gathering new ideas that might be of benefit to him in road building in his home country.

He visited at Hobart, Roosevelt, and Altus, and says the citizens of those towns are road enthusiasts. He learned on his trip that the road crossing Red River at the Webb crossing a short distance from Odell had been declared a State Highway on the Oklahoma side. He says the Oklahoma citizens of the towns mentioned are very desirous of having the people of this country get busy and have the State Highway Commissioner of Texas declare the road in question a Highway on this side, connecting the two at the River.

Mr. Thompson has an idea, which is this: He wants the citizens of Odell and Vernon to work together and have the road declared a State Highway to intersect the Colorado to Gulf Highway somewhere in this county.

"In doing this," says Mr. Thompson, "it will not only increase the tourist travel through Odell, but probably be the means of getting us some state aid."

The proposition was presented to a session of the citizens of Odell and community last Friday night. And a committee was appointed by J. R. Huie, president of the Business Men's League, to confer with the Young Men's Business League at Vernon, with reference to getting the support of that body.

Say, you people of Odell and community, if you can't find what you want at the price you want to pay at home, Youngblood of Vernon is anxious to sell you.

These Bought Liberty Bonds

Yesterday an extra drive was made by the Bankers of our little city in placing Liberty Bonds in the hands of different people in this part of Wilbarger County.

In the successful selling of the Liberty Bonds, much credit is due Messrs. Starr and Coffey of the two banks, as these men have devoted a great deal of their time in the last few days pushing the sale of Liberty Bonds.

Counting the \$5000. subscribed by J. G. Ayers last week, also \$100 by R. W. Rainey, \$50 by A. M. Lanham and \$50 by the Odell Lumber Company, which was sent in last week, last night at seven o'clock Odell had subscribed \$12,100 to the Second Liberty Loan.

Below is given the names of those who have bought Liberty Bond through each of the two banks.

Robinson, P. C. Spears, Irene Hazard Huie, \$50 each. Total \$2800.

Total for both Banks \$12100.

Later. Before the Reporter went to press today, W. P. Odell Lassies Loses a Chum

A number of Odell lassies' hearts were heavy Wednesday because the news went out to them that their friend Aunt Sarah Beach was to leave that night for Brazos, Texas, to spend the winter with her niece. Although three score years or more comes in between the ages of the little girls and that of Aunt Sarah as she is known to them, yet that did not hinder them from seeking her company, as she was their chum.

During Aunt Sarah Beach's stay in Odell, which has been some four years or more, it has been a very common thing to see in the late afternoons, from three to four of these little girls in company with Aunt Sarah, strolling down some street in Odell. Always with arms encircled about her waist, listening to some story she had to tell.

Fate has dealt unkindly with Aunt Sarah in one way, as it has deprived her of her hearing. Yet that misfortune does not hinder her from being a good conversationalist for the little ones and older people too.

In honor of her birthday which will be the 18th of next month, a number of her friends met her at the Methodist church yesterday afternoon in both a birthday and farewell reception. A big cake lighted by eighty candles was presented to her, the candles being a significance of which will soon be her eightieth year in life. Besides the big cake, a number of little remembrances were presented by her friends in the town.

She left Wednesday night for Brazos, accompanied by her nephew, W. B. Beach, with whom she has been making her home in Odell.

J. R. Ross and wife visited their son Alex Ross and wife and friends in Vernon this week.

\$8.00 Goes to Soldier Tobacco Fund

American soldiers in France, who occasionally enjoy a cigar, a cigarette or a chew of tobacco, will not be forgotten as times goes along by Odell citizens while they are making preparations to enter the trenches in defense of America.

Below is given a list of those who contributed to the tobacco fund:

Roy Russell, Sam Williams, W. P. Starr, Charles P. Ross, E. B. Vasse, W. B. Beach, J. R. Huie, Mark Burch, J. P. Hamilton, I. M. Fulcher, J. B. Ross, J. P. Hardin, R. L. Olive, R. N. More Houses on Smaller Farms

J. P. Hamilton a few years ago arrived at a conclusion, that land in Wilbarger county was too fertile to graze cattle on. And he at once began erecting rent houses on his ranch and turning the turf for cultivation.

Several rent houses already dots his farm and he is still building. This week a contract was let to G. C. Hurvay, a local contractor to build him two houses. One of the houses will be built at the old Hamilton home

site, the dwelling on which burned down last winter. The other house will be erected on a spot on the farm, which has been reserved as a building site for several years.

Red River Young Couple Wedded

Sunday at eleven o'clock at the Red River Baptist church of which Rev. W. W. Adams is pastor, Rev. Adams bound together by the sacred ties of wedlock, Mr. Walter C. Martin and Miss Ora Perry.

The couple were prominent young people in the social circle of their community. The groom being a son of Mr. and Mrs. S. C. Martin of that locality and the bride a pretty young daughter of Mr. and Mrs. W. G. Perry of the same community.

The Reporter desires to join the numerous friends of Mr. and Mrs. Martin in extending to them its best wishes for a long and happy wedded life.

J. P. Tate a Dry Weather Gardener

J. P. Tate is a successful planter of the Red River community. He owns a good sandy land farm in that neighborhood and is a man who has great confidence in the productiveness of Wilbarger county dirt, "with rain, or little rain."

He and his wife and the latter's sister, Miss Mary Ledbetter were shopping in Odell Monday. And Mr. Tate called around at the Reporter office to present the paper force with some nice garden truck that was grown out at his home. The gift consisted of some turnips and beets, which quoting Mr. Tate "was raised without any rain". Both the beets and turnips were fine specimens, in fact, were the largest we have seen this year.

But on the subject of garden truck, the beets and turnips are not all Mr. Tate has produced this season. As he informed us while in the office, that he had lately gathered over a bushel of tomatoes off an irrigated vine out at his farm. He said the vine was an extremely large one, when spread out measuring 14 feet one way and 14 and 1 inch another.

Shortage of Sugar Here, Not Coming

Chicago, Oct. 20.—"The food administration wants to impress upon the public that the sugar shortage is not coming—it is here," said Henry H. Rolapp, president of the Beet Sugar Manufacturers' Association of the United States and secretary and treasurer of the sugar distributing committee of the food administration.

"The shortage is here and we must impress the public—the man who keeps the restaurant and the man who eats in it, that it is here and that if we are to give sugar to the men in the trenches we must cut down in our home consumption. Our supply would have lasted, but the call came from France for 200,000 tons to feed the men who are fighting and that had to be sent immediately. Now we must cut down that much so that we can tide over until the Louisiana and Cuban harvests are in."

The shortage, according to the spokesman of the food administration, is only temporarily—a matter of five or six weeks, when the Louisiana and Cuba crops will be on the market for Eastern consumption.

For many weary months now the world has been asking itself the question: "What is Edison doing?" and as yet there has been no definite answer. We are assured in vague terms that he is perfecting some device or devices that will have influence in terminating the conflict, but the months drag on and we are as much in the dark as ever. We are mysteriously informed that he has discovered or isolated or located or invented some kind of "ray" that will burn up a battleship or town at a distance of many miles, but that "ray" has not yet illuminated our darkness. It may be that one or more of his discoveries are already in use. If so, why not let the public know? Surely the bare knowledge that our faith in him is not misplaced, could work no harm. Seriously, the American people need all the encouragement they can get in the days that are before them, and if Mr. Edison's genius is still working full time it would help us to know it."

What is an Editor?

There is a genius in the Northwest who is editor and publisher of a country newspaper. He was asked for his definition of an editor. He was equal to the task. An editor he said, is a millionaire without money, a congressman without a job, a king without a throne. He constructs without a hammer or saw, builds a railroad without spikes or rails, and farms without a plow. He runs a butcher shop in the journalistic world and deals in brains, cash or credit.

He loves those who advertise as he does a brother.

The editor is a teacher, lawyer and a preacher, and he sends the truth out to souls and is condemned himself. He heals the wounded, cares for the dying and rescues the perishing, and starves himself when a ham sandwich would jerk him from the jaws of death.

Now why should he starve himself? This is the land of milk and honey. There is work for all and ham sandwiches for all—the possessors of money. The good brother in the faraway Northwest should come to Texas. This is the land of Opportunity and ham sandwiches, the latter made of whole wheat bread and roast jack-rabbit.—Exchange.
