SUBSCRIPTION \$1.00 A YEAR.

**He Didn't Take The Paper**

A farmer in this Community once had a horse he wanted to sell. It was a valuable horse and should have brought a good price. Months he tried to sell the animal, but could not find a buyer at his figure. He finally sold it for about \$25 less than its value rather than carry it through the winter. Now it happened that just across the line in another county there was another farmer who was looking for just such a horse but was unable to find it. Then he inserted a little ad in the paper which brought him a number of offers. One he reluctantly accepted. The first farmer did not take the home paper and of course did not see the little ad of the man who wanted a horse and who would have purchased his animal at a good price. By not taking the paper he saved the subscription price of \$1 and likewise lost \$24 by not seeing the other fellow's ad. Such occurrences are happening ever week right here in this community, in which people actually lose good money because they do not take their home paper, and hence do not know of many of opportunities that are placed before them. The man who takes the paper and reads it carefully each week not only knows what is going on, but he is in fact money ahead at the end of the year by knowing what, when and where to buy. "Penny wise and bound foolish" is exemplified in many ways.

**Living On Other People's Money**

How many people in this community are living on their own money? If the question was put to each person individually he unquestionably would answer that he is living on his own funds. And he doubtless would be entirely sincere in his statement. But are we really living on our own money? Let's dig down under the surface and see what we find. For the sake of argument we will assume that you are running an account with the grocer and the butcher, and possibly other merchants. You pay of course, but perhaps you make settlement only every sixty or ninety days. Some even pay

their bills only twice a year.

Now was it your money that paid the wholesaler for the goods you are using and for which you have not paid, or was it the merchant's?

And if it was the merchant's, and you have not paid him, is it your money you are living on until settlement day, or is it his?

We contend that fully one-half of the people are living from day to day on other people's money, and by doing so they are themselves directly contributing to the present high cost of living. Now control your rising anger for a moment, and we will humbly endeavor to show you why you are keeping prices up.

The average mercantile stock costs several thousands of dollars, and it must be paid for in cash or the merchant must obtain a line of credit from the wholesaler. And when he buys his goods on credit he pays a higher price for them. In turn you buy your goods from the merchant on credit, and he in self defense must add still an additional "safety" profit. In other words, he must charge more than a cash price in order to protect himself from the certainty of loss consequent upon slow collections, bad debts and other annoyances. Thus two "safety" profits are added to the original selling prices of the article.

Do you see how it works—how the price is boosted? If every customer paid spot cash for his goods the merchant in turn could do the same with the wholesaler thereby securing from the latter a discount for cash of possibly 7 1/2 to 10 per cent.

And then the merchant himself would not be required to add the "safety profit" to his goods which would mean another substantial reduction in the price of the article, and all because of the simple experience of handing the cash over the counter. Now doesn't it look as though this practice of living on other people's money is costing us considerably more than we are justified in paying for such a doubtful privilege?

It might require some slight inconvenience and a little temporary retrenchment in order to change over to a cash system, but if a merchant made you a flat offer of a fifteen or twenty per cent discount for cash you would jump at the opportunity.

Doesn't it appear to you to be to the advantage of everybody in this community to wipe out the baneful credit system and buy and sell for cash? It certainly looks that way to us. How does it appear to you?—Ex.

**AIR AFFECTED BY SOUND**

Ventilation and Acoustics of Public Places Seem General Matter of Controversy.

The effect of ventilation on the acoustics of public halls has been a subject of investigation. Architects have found that currents or layers of air of different density interfere seriously with the passage of sound, but that a mass of moving air—if homogeneous—may have little influence. Heaters in front of the stage give especial trouble.

A book by C. Garnier mentions a new Paris theater in which air is admitted near the footlights, forming a kind of curtain between actors and spectators, and much interference results, the sound from the stage being weak, while that from the orchestra is intense.

In another theater with ventilation by heated air passed across the stage into the auditorium there was improvement in the acoustic qualities when the ventilating apparatus was working.

Another inquirer concludes that ventilation can have only slight influence in improving acoustics, that parallel layers of air may be particularly harmful, and that a single column of uniformly heated ascending air will affect sound very slightly.

### Claimed He Was Taking Care Of Friend's Clothes

Trouble Among the Colored Race, Ends With Arrest of a Negro Here Monday

While John Eley, a negro cotton picker who has been gathering the fleecy staple for W. A. White, a farmer east of town, claimed to have been taking care of another negro's clothes until he seen him; Sonny Dixon the owner of the wearing apparel, alleges that Eley had stolen them from him at Decatur and swore out a complaint against him here the first of the week.

Dixon is one of the dark colored employees, who is at work for R. A. Tally in the Plainview settlement. And on making a visit to the W. A. White farm Sunday, he caught Eley dressed in his Sunday "rigging."

Dixon stated that he and a crowd of the ebony hue tribe, left Decatur last fall on a freight train, enroute to this country to pick cotton. And on leaving that place he left his suit case in charge of a white man. Somehow he claims Eley got possession of the grip, and had been getting the best use of the clothes since that time.

Eley contends he was only taking care of the clothes for his friend and intended delivering them to him the first time they met in this country. But such talk did not prove satisfactory to Dixon so he ordered him arrested Monday.

Deputy Sheriff J. M. Reynolds carried Eley to Vernon the same day for an investigation his charge before the grand jury. Just what action the grand jury took in regard to the trouble, the Reporter has not learned.

### Daniel Drug Store Changed Proprietor This Week

R. J. Belcher, Salesman In Local Drug Concern Becomes The Owner of Stock

A deal that has been pending for some time between Dr. A. C. Daniel and R. J. Belcher closed the first of the week when the latter bought out the former's drug interest at this place.

Mr. Belcher has been employed at the drug store for something over a year and during which time he has been a close student of medicine and prescription work. The time and attention he has given the drug business since he has been a salesman for Dr. Daniel fits him for the duty of sole proprietor of the business. He has a host of friends in the country who predict for him success with his store.

The business will be carried on, at the same stand with no change except in the name of the firm which will be known hereafter as R. J. Belcher's Drug Store.

As stated elsewhere in this issue of the Reporter, Dr. Young will make the Belcher Drug Store his headquarters and assist with the prescription work.

Dr. Daniel in retiring from business in Odell, we understand is making preparations to move his family to his farm in Erath County. The Dr. and his family were among the first to locate in Odell and it is with regret that we learn of their intention to leave.
